CharterCARE Health Partners has joined in a joint venture with Prospect Medical Holdings (PMH) to develop an innovative regional coordinated health care network, anchored by Roger Williams Medical Center and Our Lady of Fatima Hospital. The two hospitals are not fully integrated; PMH is assisting in this transition. PMH acquired CharterCARE in June of 2014. Each hospital has a President who reports to the CEO of CharterCARE. The Quality Department reports directly to the President of each hospital. Risk management reports directly to both Presidents as well as to general counsel in California. Education and Infection Control report directly to the CNO of each hospital. Corporate Compliance officer reports to the CEO of corporate compliance in California.

**Assessment:**

- PMH has brought in safe transitions of care which has significantly reduced their readmission rates. Pharmacists and LPN brought on board for follow up calls.
- The integration of the hospitals will assist in eliminating the duplication of services as the two hospitals have a similar market place.
- PMH has invested in the renovation of the two hospitals with the patient in mind. Improving handicap access, improved lighting, single rooms, open concept nursing units (best practice), future renovation of cafeteria and nutritional services. A new diagnostic wing is in the process of being added at RWMC as well as new and larger (double the size) state of the art Emergency Departments which will include Behavioral Health (BH) areas at both hospitals.
- Hospitals have integrated similar departments including Quality, Risk, and Environmental Services and are continuing to evaluate for further integration.
- CharterCARE has a robust Quality Department. PMH has supported new positions to ensure that quality standards and metrics are met and maintained. PMH recognized RWMC's focus on Quality and Safety and supported the process that was already in place. PMH has increased staffing in the patient satisfaction area.
- A Quality Improvement diagram of reporting structure was provided.
- In speaking with the CNO's of each hospital PMH has allowed autonomy in managing departments that are meeting their performance measures. Those

departments that are not meeting expectations are assisted by PMH Corporate oversight.

- PMH has assisted in the pursuit of certifications including stroke, diabetes, and total joint replacement.
- PMH has good outreach for primary care doctors, started an Independent Practice Association (IPA).
- PMH is in the process of developing various VP positions for oversight of the PMH systems.
- PMH has been supportive in the development of safety programs at both hospitals including High Reliability Organization (HRO) training.
- PMH has allowed CharterCARE hospitals autonomy to continue to define and pursue their process improvement initiatives that work well, while also bringing forward and assisting CharterCARE in instituting additional best practices.
- CharterCARE was provided tools to assist with staffing and productivity.
- PMH looks at processes through evidence based standards and then analyzes cost and outcomes to choose the best pathway.
- PMH supports a multidisciplinary, timely review of serious events by medical peer review and nursing peer review processes.
- PMH provides strong legal support which has experience with healthcare unions.
- Recycling and reprocessing has improved with support from PMH.
- CharterCARE uses Meditech at both hospitals.
- Infection Control (IC) is robust, has not yet been integrated between both hospitals. Strong support of IC at both hospitals.
- PMH provides metrics displayed in an organized dashboard with clinical and financial outcomes.

**Recommendation:**

It is apparent by observation and interview that PMH has provided many new and positive opportunities to CharterCARE and has been supportive of Quality, Safety and Infection Control. Recommend continued contact with CharterCARE hospitals for assimilation of best practices seen in recent visit.

# CERTIFICATE OF AUTHORITY

I, Michele B. Conlon, MD, Secretary, Board of Trustees of Eastern Connecticut Health Network, Inc., a corporation organized under the laws of the State of Connecticut, do hereby certify that the following is a full and true copy of a resolution adopted at a meeting of the Board of Trustees of Eastern Connecticut Health Network, Inc., duly held on the **23rd day of March, 2016:**

**WHEREAS, the Board of Trustees (the "Board') of Eastern Connecticut Health Network, Inc. (the "Corporation"), following an extensive study of the health care market and future prospects and alternatives facing the Corporation, has determined that an affiliation with, or sale of substantially all of the Corporation's assets to, another healthcare organization is in the best interest of the Corporation and its affiliates; and**

**WHEREAS, after extensive evaluation of competing bids, the Board determined that a sale of substantially all of the Corporation's assets to subsidiaries of Prospect Medical Holdings, Inc. (collectively, "PMH") (the "Transaction") will best enable the continued availability of high-quality health care for residents of the Corporation's service area; and**

**WHEREAS, with the approval of the Board, the Corporation entered into that certain Letter of Intent with PMH dated June 25, 2015 (the "Letter of Intent") and negotiated a draft asset purchase agreement with PMH (the "APA"); and**

**WHEREAS, on October 13, 2015 the Corporation and PMH (i) executed an amendment extending the Letter of Intent and (ii) jointly submitted a Certificate of Need application to the Connecticut Attorney General and the Connecticut Department of Public Health Office of Health Care Access seeking approval for the Transaction; and**

**WHEREAS, in February 2016 the Corporation was made aware by PMH of certain quality issues that had occurred at certain health care facilities located in California owned by PMH that took place during the Fall of 2015 and Winter of 2016 and included "Immediate Jeopardy" findings by the California Department of Public Health as well as 90-day termination letters issued by the Centers for Medicare and Medicaid Services (collectively, the "Quality Issues"); and**

**WHEREAS, the management of the Corporation and the Transaction Committee of the Board of Trustees (the "Transaction Committee") have reviewed extensively the nature and extent of the Quality Issues with both internal and external advisors; and**

**WHEREAS, certain members of the management of the Corporation traveled to California to obtain first hand information concerning the Quality Issues and to meet with PMH executives to discuss the Transaction in February 2016; and**

**WHEREAS, certain of the Corporation's quality experts visited two PMH-owned health care facilities located in Rhode Island (the "Rhode Island Facilities") to learn about PMH's quality programs and summarized the findings of the visit for the Transaction Committee; and**

**WHEREAS, to ensure that PMH maintains the Corporation's current quality standards following the closing of the Transaction, the Corporation has drafted a side letter to the APA that binds PMH to (i) continue the Corporation's existing quality programs for two years following the closing of the Transaction; (ii) seek the approval of the local board established by the APA before making changes to such quality programs during the two years following the closing of the Transaction; and (iii) ensure that the Corporation receives the benefit of the quality improvement programs that have been implemented at the Rhode Island Facilities (the "Side Letter"); and**

**WHEREAS, the Transaction Committee, following its extensive review of the Quality Issues, has recommended that the Board (i) seek PMH approval of the Side Letter, and (ii) reaffirm the Transaction as being in the best interest of the Corporation; and**

**WHEREAS, the Board has determined that (i) in view of the likelihood of continuing changes in the health care market and ongoing financial pressures, and (ii) in light of its review of the Quality Issues and PMH's responses thereto, the Transaction remains in the best interest of the Corporation.**

**NOW, THEREFORE, be it resolved as follows:**

**Approve Side Letter**

**RESOLVED: That the Board directs management to seek PMH's approval of the Side Letter in such form and with such changes as the President and CEO of the Corporation may determine to be necessary or appropriate.**

**Reaffirm Transaction**

**RESOLVED: That the Board reaffirms the Transaction as being in the best interest of the Corporation.**

AND I DO FURTHER CERTIFY that the above resolution has not been in any way altered, amended or repealed, and is now in full force and effect.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal of said corporation this 23rd day of March, 2016.

Eastern Connecticut Health Network, Inc.

**6. Delegation of Authority of Quality/Compliance to Local Boards in Rhode Island**

Please see attached.

**6. Delegation of Authority of Quality/Compliance to Local Boards in Rhode Island.**

The Local Boards in Rhode Island are advisory boards without delegated authority over quality or compliance. The ultimate authority rests with the Prospect CCHP Board of Directors (the "Board"). The local advisory boards in RI have the following responsibilities: (a) making recommendations regarding medical staff credentialing, quality assurance and accreditation; (b) reviewing, and making recommendations with respect to, strategic and capital plans; (c) providing guidance and support on local market and community concerns, considerations, strategies, issues and politics; and (d) performing such other duties and providing review an recommendations with respect to other matters, as requested by the Board.

The Board works with hospital executives to provide a critical link between the hospital and the community, facilitating access to quality healthcare. Currently the following roles and responsibilities have been identified for the local advisory boards in RI:

- Monitor and oversee the quality of care being provided by the hospital
- Identify and present for discussion and solution, problems affecting patient care
- Serve as a liaison between the governing board and the community
- Make recommendations and provide key information and materials to the CCHP BOD to support the CCHP BOD's decision making on strategies, community issues, financial improvement, and capital plans
- Consult and advise in matters affecting the hospital's policies and programs as they relate to the citizens of the community
- Obtain information and give feedback to the CCHP BOD regarding the hospital's needs, service areas and programs and how they are perceived by the community
- Ensure that the community is kept informed of the hospital's goals and objectives
- Promote and foster hospital connections and visibility in the community
- Represent the hospital in the community
- Educate the public about the strengths and services provided by the hospital

**7. Classification of E. Stevens Henry Fund and Updated Values of Charitable Funds as of March 31, 2016**

Please see attached.

## Classification of E. Stevens Henry Fund

ECHN has evaluated the classification of the E. Stevens Henry Fund (Fund 11.1-55) and determined that the Fund is properly classified as endowment as was originally reported in Exhibit Q11-1 (Page 951).

As to the Fund's original gift value, ECHN has checked probate court records and determined that the original principal value of the gift to RGH was $1,720,205 and not $1,742,007 as originally reported. The Affidavit of Closing (Revised) of the Trustee, a copy of which is provided, reports a principal distribution to RGH of $1,720, 205; the Affidavit also reports a distribution of income accumulated after the death of the life beneficiary, which is not part of the principal.

This corrected gift number is included in the following Excel chart showing the March 31, 2016, updated values of the charitable funds.

## EXHIBIT Q 11-1
## ECHN ENDOWMENT AND OTHER CHARITABLE FUNDS - FUNDS 11-1.1 - 11-1.84

Explanatory Notes:

1. ECHN has provided a copy of each available gift instrument. In some cases, although it conducted a thorough review of its records as well as the records of local probate courts, it was unable to locate the original gift instrument. In those cases, it has provided other available documentation of the gifts, including copies of minutes of Board meetings and/or copies of old audited financials.
2. References to the 1990 Report of the Attorney General are to the June, 1990 Report of the Office of the Attorney General on Hospital Bed Fund Trusts.
3. Proposed requests for cy pres relief will apply to the balances of the funds remaining at the time and not appropriated or used by ECNH for proper purposes.

| Fund Number | Fund Name | Value of Original Gift | Total Market Value 3/31/16 | Manner of Contribution (e.g., Will, Inter Vivos Trust, Gift, etc.) | Terms of Gift | Supporting Documents | Notes | Proposed Handling of Fund |
|---|---|---|---|---|---|---|---|---|
| | | | | | | | | |
| **MANCHESTER MEMORIAL HOSPITAL** | | | | | | | | |
| | | | | | | | | |
| | **Endowment: Unrestricted Income Funds** | | | | | | | |
| 11-1.1 | Dwight W. Blish Fund | $19,920 | $189,989 | Devise under Article Fourth of the Last Will and Testament of Dwight W. Blish dated September 6, 1923, with Codicil dated July 3, 1933 | Upon the deaths of Mr. Blish's wife and son, the testamentary trust he had established for their benefit terminated, and the property then remaining was given outright "to The Manchester Memorial Hospital to be held by the trustees of said hospital as a trust fund to be known as the Dwight W. Blish fund, the income therefrom to be used for such purposes in connection with said hospital as the trustees shall decide."<br><br>Income unrestricted | The Last Will and Testament of Dwight W. Blish dated September 6, 1923, and Codicil dated July 3, 1933 | | Request cy pres relief and transfer to the new Foundation |
| 11-1.2 | John & Eliza Carpenter | $2,555 | $110,546 | Unknown | There is no specific documentation for the terms of this gift, but it has been consistently booked on MMH's books for a number of years as endowment with unrestricted income.<br><br>Income unrestricted | Excerpt from the Hospital's audited financial statements as of 9/30/1996 and 1995; and supporting reconciliation of funds as of 9/30/1995 | | Request cy pres relief and transfer to the new Foundation |

| Fund Number | Fund Name | Value of Original Gift | Total Market Value 3/31/16 | Manner of Contribution (e.g., Will, Inter Vivos Trust, Gift, etc.) | Terms of Gift | Supporting Documents | Notes | Proposed Handling of Fund |
|---|---|---|---|---|---|---|---|---|
| 11-1.3 | Helen G. Chapman | $5,000 | $81,614 | Bequest under Article FOURTH of the Last Will and Testament of Helen G. Chapman dated July 1, 1938 | Bequest of $5,000 "to the Manchester Memorial Hospital, of Manchester, Connecticut, to be held by it in perpetuity, with power of investment, sale and reinvestment, and to apply the income only for the support of the Hospital maintained by it in the town of Manchester."<br><br>Income unrestricted | The Last Will and Testament of Helen G. Chapman dated July 1, 1938 | | Request cy pres relief and transfer to the new Foundation |
| 11-1.4 | William H. Coates (Costes) | $500 | $5,550 | Bequest under the Last Will and Testament of William H. Coates (date unknown) | This bequest is documented in the minutes of the August 12, 1925 meeting of the Board of Trustees of the Hospital, which state that "A report was given by the Manchester Trust Company, Executor of the will of William H. Coates, of a gift of $500.00, the interest only to be used for hospital purposes." This bequest is also referenced in a document titled "Exhibit A - Report of the Finance Committee" apparently excerpted from Board minutes. That Exhibit also classifies this fund as an endowment fund and states [the income is to be used] "...as the trustees of said hospital may deem best..."<br><br>Income unrestricted | Minutes of the August 12, 1925 meeting of the Board of Trustees; and "Exhibit A - Report of the Finance Committee" from other Board minutes. | Note: This fund has sometimes (incorrectly) been identifed as a gift from William H. Costes rather than William H. Coates. | Request cy pres relief and transfer to the new Foundation |
| 11-1.5 | Grace K. Dart | $4,007 | $123,290 | Devise under ARTICLE VI. of the Last Will and Testament of Grace Kingsbury Dart dated December 7, 1931. | Devise of half the residuary estate. Article VI. provides as follows:<br><br>All the rest, residue and remainder of my property, both real and personal, wherever it may be situated and of whatsoever it may consist I direct be divided into two (2) equal parts. The first of said equal parts, I give, devise and bequeath to The Manchester Memorial Hospital, a Connecticut Corporation, located in said Manchester, to take, hold, manage, invest and reinvest and to use the income therefrom for the general running expenses of said Hospital.<br><br>Income unrestricted | The Last Will and Testament of Grace Kingsbury Dart dated December 7, 1931 | | Request cy pres relief and transfer to the new Foundation |
| 11-1-6 | The Grace L. House Fund | $2,500 | $30,080 | Bequest under Article VI. of the Last Will and Testament of Charles E. House dated May 4, 1933 | Bequest to the Hospital of $2500 "to be held by said Hospital as a permanent fund, and to be know[n] as "The Grace L. House Fund". The income therefrom is to be used for the running expenses of said Hospital."<br><br>Income unrestricted | The Last Will and Testament of Charles E. House dated May 4, 1933 | | Request cy pres relief and transfer to the new Foundation |

| 11-1.11 | Minnie R. Strickland | $2,511 | $108,629 | Devise under ARTICLE IX of the Last Will and Testament of Minnie R. Strickland dated June 29, 1942 | Devise of one-third of the residuary estate pursuant to Article IX, which provides as follows: "I direct that all the rest and residue of my property of whatever kind and wherever situated shall be divided into three (3) equal parts: I give one of said equal parts to the Manchester Memorial Hospital; of Manchester, Conn., to be added to the Endowment Fund of said Hospital;..."<br><br>Income unrestricted | The Last Will and Testament of Minnie R. Strickland dated June 29, 1942 | | Request cy pres relief and transfer to the new Foundation |
| 11-1.12 | Arthur B. and Carrie E. Ellis Trust Fund | $5,000 | $55,579 | Bequest under ARTICLE IV. of the Last Will and Testament of Carrie E. Ellis dated February 9, 1940, with Codicil dated October 8, 1942 | Bequest to The Manchester Memorial Hospital of "the sum of Five Thousand ($5,000.00) Dollars, to be added to the Endowment Fund of said hospital and to be known as "The Arthur B. and Carrie E. Ellis Trust Fund", the income therefrom to be used for such hospital purposes as its Trustees may desire."<br><br>Income unrestricted | The Last Will and Testament of Carrie E. Ellis dated February 9, 1940; Codicil dated October 8, 1942 | | Request cy pres relief and transfer to the new Foundation |
| 11-1.13 | Ralph and Lula Pinney Fund | $31,031 | $312,382 | Devise under Article 7th of the Last Will and Testament of Lula M. Pinney dated May 13, 1924 | Upon the deaths of the respective life beneficiaries,two testamentary trusts Mrs. Pinney had established terminated, and she gave " ... One-half (1/2) [of the principal] to the Manchester Memorial Hospital as a permanent fund to be known as the Ralph and Lula Pinney Fund, the income of which Fund to be used and applied for the general purposes of said hospital, but as I am now maintaining a room in said hospital in memory of Sanford Keeney, I direct that so much of said income as may be required shall be used and applied towards the maintenance of said room..."<br><br>Income unrestricted as to this part of the gift; see also Fund 11-1.27. | The Last Will and Testament of Lula M. Pinney dated May 13, 1924 | Note: There is no record that Mrs. Pinney endowed a room in memory of Sanford Keeney; rather, it appears that she supported a room for free care through annual gifts. The Hospital historically treated her entire gift as endowment for the general purposes of the Hospital, but it has now allocated one-fourth of the fund to the Sanford Keeney Free Bed Fund, which is included here as Fund 11-1.27. | Request cy pres relief and transfer to the new Foundation |
| 11-1.14 | Emil L. G. Hohenthal | $750 | $7,735 | Unknown | This fund is documented in the June 16, 1953 minutes of a meeting of the Board of Trustees of the Hospital. The minutes do not quote or refer to gift language, but state that the "original amount" of the gift was $750, and the context suggests that this is an endowment. This fund has been consistently booked on MMH's books for a number of years as endowment with unrestricted income.<br><br>Income unrestricted | The minutes of the June 16, 1953 meeting of the Board of Trustees of the Hospital; the financial records of the Hospital. | Note: The Hospital located the Last Will and Testament of Mr. Hohenthal's wife Hazel, but it did not include this gift. | Request cy pres relief and transfer to the new Foundation |

| Free Bed Funds (Endowment Restricted for Free Care) | | | | | | | | |
| 1[illegible]56 | Trumbull Chapter DAR | $157,268 | $219,720 | Gift of a free bed fund from the Sabra Trumbull Chapter of the Daughters of the American Revolution | Gift from the Sabra Trumbull Chapter of the D.A.R. Although the early history of the fund is cloudy, it appears that the fund was started at a bank in 1919, and by 1921 it had reached $5,000.<br><br>In December 1954, the Advisory Board of the Chapter adopted resolutions governing the use of the bed fund summarized as follows: Income from the fund was to be used for free care with preference given to Chapter members, and, if on January 1 of a year, any income from the prior year remained on hand, it could be used for "deserving and needy people," with any unused income added to principal. The Advisory Board of the Chapter had to right to designate use of the fund.<br><br>The Chapter subsequently dissolved, and by letter to the Hospital's Board of Trustees dated May 29,1962, Mrs. Donald Fisk of the Chapter advised the Hospital of the dissolution of the Chapter. The letter stated that the bank would continue to maintain the fund "with the discretion in you, as trustees, to choose beneficiaries. The former members of the Sabra Trumbull Chapter will appreciate any preference which you may choose to give to them or to other D.A.R. members as beneficiaries of this fund."<br><br>Income restricted to free care, with a request to consider use for former members of the Chapter or other members of the D.A.R. | Resolution of the Board of Advisors of the Sabra Trumbull Chapter of the Daughters of the American Revolution dated December 4, 1954; letter dated May 29, 1962 from Mrs. Donald C. | 1001.84 | Katherine Sykes Bissell | - | — | Bequest under Article SEVENTH (a) of the Last Will and Testament of Katherine Sykes Bissell dated March 10, 1969 with two codicils | Seventh: (a) I give and bequeath the sum of Fifty Thousand Dollars ($50,000) to The Rockville General Hospital, Incorporated, of Rockville, Connecticut, in memory of my parents, Mr. and Mrs. Thomas W. Sykes, the income therefrom to be used for the general purposes of said Hospital. | Last Will and Testament of Katherine Sykes Bissell dated March 10, 1969; Codicil dated April 13, 1970; and Codicil dated April 28, 1972 | Note: During its search of probate court records for original documentation, the Hospital found this Last Will and Testament, which includes a $50,000 bequest. This bequest is not separately booked or recorded on the Hospital's records, and the Hospital has not located any other records about this bequest. | |

## EXHIBIT Q11-1
## ECHN: SPECIAL PURPOSE FUNDS - FUNDS 11-1.85 - 11-1.96

Notes:

**1. The funds are held by ECHN Community HealthCare Foundation ("ECHN Foundation) for the benefit of Manchester Memorial Hospital ("MMH"), Rockville General Hospital ("RGH"), and Woodlake at Tolland ("Woodlake").**
**2. The names of the donors to various funds have been redacted.**
**3.The current fund balance of a given fund will generally be less than the total gifts to the fund because funds are being used on an ongoing basis for the specific purpose.**

| Fund Number | Fund Name | Fund Balance 3/31/16 | Terms of Gift | Supporting Documentation | Proposed Handling of Fund |
|---|---|---|---|---|---|
| 11-1.85 | MMH: DeQuattro Cancer Center - Avis Lloyd Tree of Life | $0 | Donors make a contribution for a leaf, dove or boulder to be added to the Tree of Life sculpture. Contributions are used for Survivorship Navigation and other services at the Cancer Center and are disbursed quarterly. | Fund profile with list of donations; copies of 2009 and 2012 brochures | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation |
| 11-1.86 | ECHN Foundation: Team Towanda Foundation | $0 | For uninsured women over the age of 40 for mammography, breast ultrasounds, surgical consultations, and related services. The fund also provides pharmacy gift cards to purchase medical and personal care items for use after surgery or to purchase medication (Outpatient). | Fund profile with list of donations; copies of representative letters and communications with Team Towanda Foundation re gifts and uses | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation |
| 11-1.87 | ECHN Foundation: Employee Care Fund | $3,797 | To provide confidential emergency assistance to employees in need; employee requests are made through a chaplain to the Fund. The Fund no longer solicits (the most recent appeal was in 2009), the existence of the Fund is well-known to employees, who make unsolicited contributions to it. | Fund profile with summary information | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation |
| 11-1.88 | ECHN Foundation: Breast and Cervical Cancer Program | $59 | For outreach, education, enrollment, screening and diagnostic follow-up for underinsured women for cancer and heart disease, whether inpatient or outpatient. | Fund profile with list of donations; copy of representative fundraiser flyer from major donor (fire department) and documentation of gifts from another major donor (hospital volunteers) | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation |

| Fund Number | Fund Name | Fund Balance 3/31/16 | Terms of Gift | Supporting Documentation | Proposed Handling of Fund | |
|---|---|---|---|---|---|---|
| 11-1.89 | MMH: Adult Ambulatory Administrative Education & Development | $0 | To offset costs in excess of ECHN tuition reimbursement for the pursuit and completion of a Master's Degree related to the roles of Adult Ambulatory Behavioral Health Coordinator, Adult Ambulatory Behavioral Health Associate Director, or Adult Ambulatory Behavioral Health Director at Manchester Memorial Hospital. Costs may include tuition, books, supplies, travel, or any other miscellaneous expenses, including computer hardware and software. | Fund profile and list of recent gifts | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation | |
| 11-1.90 | MMH: Drs' Campbell and Oh Trophies | $3,676 | The fund maintains the trays for the Daniel Paul Purcell MD Memorial Golf Classic tournament (now called the ECHN Mason & Purcell Golf Classic), an annual fundraising event. It pays for, among other things, the engraving of the names of the low gross winners. | Fund profile | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation | |
| 11-1.91 | Woodlake: Woodlake at Tolland Wishes Program | $1,573 | These funds are used to grant "wishes" for long term care residents at Woodlake (long term care facility). Wishes have included a trip to NY, limo rides, luncheon trips, and special outings. Some gifts were made for listing names (honor/memorial) in the Woodlake at Tolland 10th Anniversary Program Book. | Fund profile with list of donations. | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation | |
| 11-1.92 | ECHN Foundation: Van Fund | $0 | Donations from members of the Business Alliance for Community Health to purchase a new van for ECHN. | Fund profile with list of donations; email re van | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation | |
| 11-1.93 | RGH: Risley Fund | $35 | Supports educational opportunities for nursing staff | Fund profile; this is the income from the Marjorie Risley Scholarship endowment held by the ECHN Foundation. | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation | |
| 11-1.94 | Doris Fields | $582 | Funds are used to support the RGH Hospice unit as a memorial to Doris Fields. | Fund profile with list of memorial donations. | To the extent there are funds remaining, request cy pres relief and transfer to the new Foundation | |

|---|---|---|---|---|---|---|
| 11-1.103 | Trust u/w Gertrude H. Rogers | $3,466,457.84 | Original Trustees: Phoenix State Bank and Trust Company, and Robert S. Morris, of West Hartford, Connecticut | Article FIFTH creates a trust with $100 each month paid to a life beneficiary. The balance of the net income and, after the death of the life beneficiary, the entire net income "shall be held, used and applied for the benefit of the Manchester Memorial Hospital, a charitable corporation located in said Manchester, for which this fund shall be held as a charitable use in perpetuity, subject to the following limitations: I direct that the net income from this fund shall be used and applied for the support and development of that department of said Hospital which shall be devoted to the medical or pathological service of that Hospital, and more specifically to its research and laboratory work, that is, any investigation towards the alleviation of illness, including payment of salaries of an adequate staff, and the installation and maintenance of proper equipment, to enable that hospital to furnish complete laboratory service of this kind to the staff of that Hospital and to the physicians of the Town of Manchester for their patients of that town, whether they are then patients of that Hospital or not. Accordingly, I direct that the net income each year shall only be disbursed to the said Hospital upon a budget for this department submitted by the Hospital to the trustees under this will and approved in writing by two competent physicians..." [The Will thereafter contains very long and detailed provisions about the physicians, the budget, and the use of funds.] My purpose in creating these limitations and conditions is to keep this fund a living force in building up the quality of medical service in that Hospital and in that community, through the establishment of highly competent technical service in research and laboratory work. If at any time the trustees of my estate shall be satisfied, after conferring with the disinterested physicians whose duty it shall then be to approve the budget as above provided, that The Manchester Memorial Hospital is not devoting said funds to the purposes for which the gift is made, or is not maintaining as adequate and competent a research and laboratory staff and department as the available income will permit, said trustees shall notify the Manchester Memorial Hospital to that effect and if the failure is not corrected within a reasonable time said trustees may terminate the right of The Manchester Memorial Hospital to receive further funds under this will and thereafter said trustees may apply the income of said fund for similar purposes at the Hartford Hospital in Hartford, Connecticut. [The section continues with the requirement that there shall be two trustees, and describes how trustees shall be appointed].<br><br>Article FIRST of the Second Codicil amends Article FIFTH but does not modify the requirement that if MMH does not use the funds as specified the trustees may terminate the right of MMH to receive further funds. | Last Will and Testament of Gertrude H. Rogers dated July 13, 1937. Codicil dated October 11, 1939. Codicil dated October 21, 1940 | Note. There is no specific gift over if MMH no longer exists as a charitable organization. The Will states that if MMH fails to use the gift as intended, the trustee may apply the income for similar purposes at Hartford Hospital. |

| TRUSTS F/B/O ROCKVILLE GENERAL HOSPITAL | | | | | | |
| 11-1.104 | Emma Dillon Rockville City Hospital Fund (Trust u/w Laurence M. Dillon) | $420,914.72 | Bank of America | "9. I hereby give, devise and bequeath all the rest, residue and remainder of my estate, both real and personal, of whatsoever kind or character, including lapsed legacies and devises, and wheresoever situated, to THE CONNECTICUT BANK AND TRUST COMPANY, Hartford, Connecticut, as Trustee. Said Trustee shall hold, manage and control all of the aforesaid property as a trust estate, with all the rights and powers, and subject to the limitations, hereinafter enumerated, for the following uses and purposes: . . . [Part A creates a life estate for Mr. Dillon's cousin, and Part B provides that upon the death of the cousin, or if she does not survive him), the Trustee shall divide the corpus of the trust estate into two (2) equal parts, IN TRUST, NEVERTHELESS , for the following uses and purposes: 1) One of said parts, so divided, shall be set apart for the benefit of the ROCKVILLE CITY HOSPITAL, Rockville, Connecticut, its successors or assigns, in perpetuity, and the Trustee shall pay to it, or its successors or assigns, all of the net annual income derived from its said particular fund, in annual or other convenient installments. It is my wish that said fund be named the EMMA DILLON ROCKVILLE CITY HOSPITAL FUND in memorial of my beloved mother. Said net income shall be used for such general purposes as its governing board shall deem proper, and at its discretion. 2) The remaining second part, so divided, shall be set apart for the benefit of ST. BERNARD'S SOCIETY, INC. of Rockville, Connecticut . . . . In the event any or all the net income of this trust directed to be distributed to said ST. BERNARD'S SOCIETY, INC. is not distributable to said Society for a period of fifty (50) years from the date of my death for any reason, including a disclaimer by said income beneficiary, the net income of this second part shall be distributed to the ROCKVILLE CITY HOSPITAL, Rockville, Connecticut, its successors or assigns, until fifty (50) years from the date of my death, when the remaining net corpus and accretions of said remaining second part shall be paid over absolutely to said ST. BERNARD'S SOCIETY, INC., its successors or assigns. | Last Will and Testament of Laurence M. Dillon dated February 5, 1964 | Note: The Will includes the language "its successors or assigns" after naming Rockville City Hospital |
| 11-1.105 | The Marguerite E. Moxon and Dorothy Moxon Yost Memorial Trust | $261,108.50 | Bank of America | 4. Use of Trust Fund. The Trustee shall distribute not less than annually all of the net income from the Trust as follows. One-half of said income to the Trustees of the Rockville General Hospital, Rockville, Connecticut, to be used by the Board of Trustees or other governing body for the benefit of such Rockville General Hospital solely for such capital improvements as the Board of Trustees or other governing body may see fit. The remaining one-half of said income to the Union Congregational Church, now located on Union Street, Rockville, Connecticut, to be used by the Board of Trustees or other governing body for the benefit of the Union Congregational Church in any manner it deems fit. | Trust Agreement dated April 2nd, 1982 between Marguerite E. Moxon and Dorothy Moxon Yost and the Connecticut Bank and Trust Company | Note: The Trust Agreement does not provide for another disposition if MMH no longer exists. |
| 11-1.106 | Trust u/w William E. Barton | $1,356,611.63 | Bank of America | THIRD: All the rest, residue and remainder of my estate, real, personal and mixed, and wherever the same may be situated, I give, devise and bequeath in manner and form as follows, to wit: . . . [Section a) describes a gift in trust to ST. CATHERINE CEMETERY]. b) I give, devise and bequeath all the rest, residue and remainder of my estate unto the CONNECTICUT NATIONAL BANK, of Hartford, Connecticut, or its successors, as Trustee. I order and direct my trustee to invest and reinvest all the assets in the trust account as it in its absolute discretion deems fit and to pay therefrom all the net income thereof unto my two sisters, ANNA H. BARTON and MARY K. BARTON, both of the Town of South Windsor, for so long as they shall live. Upon their death, I order and direct that all of the net income thereof be paid over and distributed unto the ROCKVILLE GENERAL HOSPITAL, of Rockville, Connecticut, to be used by it as it deems fit. | Last Will and Testament of William E. Barton dated December 9, 1986 | Note: The Will does not provide for another disposition if MMH no longer exists. |

NET PROCEEDS

UPDATED as of March 31, 2016

Changes from Previous Table

- Original filing for 9/30/15 was estimated based on incomplete information specifically around the pension, captive and workers compensation liabilities for year end. The revised table 9/30/15 figures are per the audited financial statements and also include other adjustments we did not have estimated impact assessed, i.e. extended reporting period premium cost, debt payoff costs, etc.
- Pension unfunded gap is projected to grow by $5,000,000 due to the performance or decline of interest rates since 9/30/15.
- NWC (net working capital) fluctuates month to month, but at two points of the year it diminishes due to the slowdown of accounts payable, March 31 and September 30. This has an offsetting impact to cash as it increases. These two dates are measurement points for our bond covenants and we hedge the potential slowdown of payments from third party payers, governmental or otherwise.
- Capital lease obligations are now reported separately and not including a deduction to the purchase price for asbestos abatement (FIN47 accounting) as it now is reported on a separate line item. Capital lease obligations and long-term debt were "cleaned up" from previous 9/30/15 due to re-classes from one category to the other for specific financings. The figure for March 31 reflects payments outpacing any new financing.
- Per the Asset Purchase Agreement, ECHN will credit against the purchase price $424,000 of its transaction-related expenses for which is has been previously reimbursed by PMH. This figure is a price deduct but it also increased cash since 9/30/15 so it's a "wash".
- As noted above, asbestos abatement capped at $1,000,000 is a price deduction at closing. Previously reported at book value at 9/30/15 in original filing at $412,000. It will be assessed by an independent expert post-closing.
- The next line notes the "cap" or threshold on the assumed liabilities at $77,000,000. If the sum of the assumed liabilities is over this, then the difference is computed and set aside for settling up further along in the transaction – see line J. The difference between the purchase price line A and the threshold liabilities line C is the guaranteed lowest net purchase price paid to ECHN.
- Cash has been reduced by several factors. First is a re-class of an endowment fund that has been recently reviewed legally as permanently restricted. The permanently restricted amount of the endowment is $1,720,000. Other deductions to cash reflect purchasing extended reporting period insurance policies as well as the legal fees, etc. to pay off the long-term debt. State nonpayment of supplemental payments since June 30, 2015 has also impacted the cash on hand.
- Long-term debt continues to be paid down without any new debt added – see separate reconciliation attached.
- After the pay down of the debt, the remaining funds are to be allocated as follows:

- The first $1,000,000 is set aside for post-closing wind down expenses. If there were insufficient funds to do this, the funding would be made by PMH and deducted from the capital commitment.
- Whatever remains satisfies line J, the excess liabilities assumed. If line H, the surplus after debt is paid off is insufficient to fund the post-closing costs of $1,000,000 and reimburse PMH fully for the excess liabilities assumed, the shortfall will be deducted from the capital commitment of $75,000,000. In this case, PMH would fund this and reduce further the capital commitment by the $1,000,000.
- If line H is sufficient to fund the $1,000,000 and reimburse PMH fully, whatever funds remain up to $4,500,000 will go into an indemnity reserve fund.

Clarifications will be made to the Asset Purchase Agreement related to the above.

- Legacy ECHN would assume the value of any collections post-closing on the net of due from and due to third party payers, specifically Medicare and Medicaid. The current book value is $2,139,000 at March 31. The timing of payments coming in or going out is unknown at this time. Any collection of these funds would become available to reimburse PMH for the funds referenced in the previous bullet and sub-bullets to help restore partially or fully the capital commitment.
- Although it appears unlikely based on figures presented today, if ECHN were to have sufficient cash available at the end of the transaction to fully fund the $1,000,000 wind down expenses, and fund the indemnity reserve to $4,500,000 and not require the $5,000,000 of cash currently securing the RGH Eating Disorder Loan (and convey this to PMH at closing), ECHN would not have a $5,000,000 deduction to the capital commitment due to the loan PMH is assuming without a price deduction.

**9. Example of Health Needs Assessment Conducted by PMH or Letter describing community involvement in health needs assessments.**

Prospect Medical Holdings has not completed a Community Health Needs Assessment in the Rhode Island market. However, attached as Exhibit 9(a) is a 2013 Statewide Community Health Needs Assessment prepared by Hospital Association of Rhode Island ("HARI") which is not specific to the Prospect CharterCARE facilities. The 2013 report was prepared by HARI prior to the Prospect - CharterCARE Health Partners transaction. Because the report was prepared prior to the Prospect transaction, Prospect did not produce or assist in producing the 2013 HARI CHNA. CharterCARE was involved with the Needs Assessment report created by HARI before its transaction with Prospect.

In the fall of 2015, HARI commenced the process of updating the 2013 Community Health Needs Assessment. Prospect CharterCARE is represented on the HARI committee tasked with leading the effort to update the Community Health Needs Assessment and related implementation plans. A report for 2015 has not been issued.

Attached as Exhibit 9(b) are excerpts from the 2013 HARI Community Needs Assessment utilized in application for OB services in Rhode Island.

In Rhode Island, CharterCARE continued its tax exempt status as a joint venture partner with Prospect in operating the CharterCARE hospitals. As such, one of the Rhode Island Department of Health's conditions to the CharterCARE transaction required that PMH collaborate with the Department of Health on one (1) community health needs assessment. In general, CHNAs are a requirement of federal tax exempt charitable hospitals developed to support their continued exemption. Pertinent CHNA information is required to be provided on the Form 990 Schedule H, which is only required to be filed by tax exempt hospitals. Hospitals that do not seek or continue tax exempt status whether independently or part of a joint venture are not required by law to adopt or continue a CHNA, including any previous CHNA developed. In Connecticut, for example, Connecticut General Statutes Section 19a-127k discusses community benefit programs which hospitals may have and suggests that the programs be based on an assessment of the community, but does not require that all hospitals conduct formal community assessments. Similarly, Connecticut General Statutes Section 19a-649 requires only that tax exempt hospitals submit a CHNA required under federal law to OHCA.

PMH is not seeking to continue the tax exempt status of any of the entities in the ECHN transaction nor does the ECHN transaction involve a tax exempt joint venture partner. Although PMH is not tax exempt and therefore not required to engage in a CHNA, PMH is committed to meaningfully investing in and providing needed care to the communities it serves. PMH works with its Local Boards to assess and determine the community health needs of the population served and how to best implement these needs.

EXHIBIT 9(a)

# HARI

# Community Health Needs Assessment

## Final Report

## 2013

HOLLERAN

# Executive Summary

## Background

The Hospital Association of Rhode Island, in collaboration with its member hospitals, led a statewide comprehensive Community Health Needs Assessment (CHNA) to assess the health indicators and health needs of residents in the state of Rhode Island. The CHNA was conducted from September 2012 to May 2013. The assessment was conducted in a timeline to comply with requirements set forth in the Affordable Care Act, as well as to foster collaboration among Rhode Island hospitals in their commitment to community health and population health management. The findings from the assessment will be utilized by HARI and its members to guide community health improvement efforts and to engage partners to address the identified health needs.

## Research Components

HARI and its hospital members undertook an in-depth, comprehensive approach to identifying the needs in the communities it serves. A variety of quantitative and qualitative research components were implemented as part of the CHNA. These components included the following:

- Analysis of Rhode Island Department of Health BRFSS Data
- Secondary Data
- Key Informant Surveys
- Focus Groups
- Prioritization of Community Health Needs

The following areas were common health issues identified throughout the various research components.

## Identified Community Health Issues

- Mental Health and Substance Abuse
- Diabetes
- Overweight/obesity
- Access to Care
- Heart Disease
- Cancer (specifically breast, lung)
- Asthma (adult and child)

# Methodology

**Rhode Island State BRFSS Data Analysis**

The state of Rhode Island annually participates in the Centers for Disease Control and Prevention (CDC) Behavioral Risk Factor Surveillance System (BRFSS) survey. The BRFSS study is conducted nationally each year and is led at the state level through the respective state health departments. HARI's intent was not to duplicate existing survey processes, but rather to partner with the Rhode Island Department of Health to utilize the existing state BRFSS data sets. With support from the Department of Health, raw BRFSS data sets were released to Holleran, a third party research and consulting firm, for in-depth analysis. Each hospital's service area was defined and the associated data points were extracted for each hospital. The survey assessed indicators such as general health status, prevention activities (screenings, exercise, etc.), and risky behaviors (alcohol use, etc.). The results were also examined by a variety of demographic indicators such as age, race, ethnicity, and gender.

**Secondary Data Profile**

HARI and its CHNA partners, contracted with Healthy Communities Institute to gather and present existing secondary data. The secondary data included statistics such as mortality rates, cancer statistics, communicable disease data, and social determinants of health (poverty, crime, education, etc.), among others. This information was used to supplement the primary data and to flesh out research gaps not addressed in the BRFSS results. Where available, the local-level data was compared to state and national benchmarks. This data was also built in a web portal for full access to the public.

**Key Informant Surveys**

Key informant surveys were conducted with 49 professionals and key contacts from throughout Rhode Island. Working with leadership from each of the hospitals, prospective individuals were identified and invited to participate in the study. The survey included a range of individuals, including elected officials, healthcare providers, health and human services experts, long-term care providers, representatives from the business community, and educators. A detailed list of participants can be found in Appendix A. The content of the questionnaire focused on perceptions of community needs and strengths across three key domains: Perceived key health issues prominent in the community, health care access and challenges, and solutions.

**Focus Groups**

Two focus groups were facilitated by Holleran in March 2013. The focus groups were intended to gather feedback regarding mental health issues and resources within Rhode Island. The participants included mental health experts, providers, and referral sources. A moderator guide, developed in consultation with the CHNA partners, was used to prompt discussion and guide the facilitation. In total, 21 people participated in the two focus groups. Participants were recruited by the CHNA partners. Each session lasted approximately two hours and was facilitated by Holleran. It is important to note that the focus group results reflect the perceptions of a small sample of community members and may not necessarily represent all mental health professionals in the hospital service areas.

**Prioritization of Community Health Needs**

HARI and its CHNA partners jointly conducted a prioritization to identify key statewide community health needs. The prioritization session included representatives from HARI, the hospital partners, and public health experts.

### Limitations of Study

It should be noted that limitations of the research may have prevented the participation of some community members. The time lag of secondary data, the hospital service area sample, language and cultural barriers, the project timeline, and other factors may present some research limitations. To mitigate limitations of the research, HARI and its CHNA partners sought to include representatives of diverse and underserved populations, public and community health experts, and other community representatives to present the most comprehensive assessment of community health needs given the research constraints.

### Research Partner

HARI and its CHNA partners contracted with Holleran, an independent research and consulting firm located in Lancaster, Pennsylvania, to conduct research in support of the CHNA. Holleran has more than 20 years of experience in conducting public health research and community health assessments. The firm provided the following assistance:

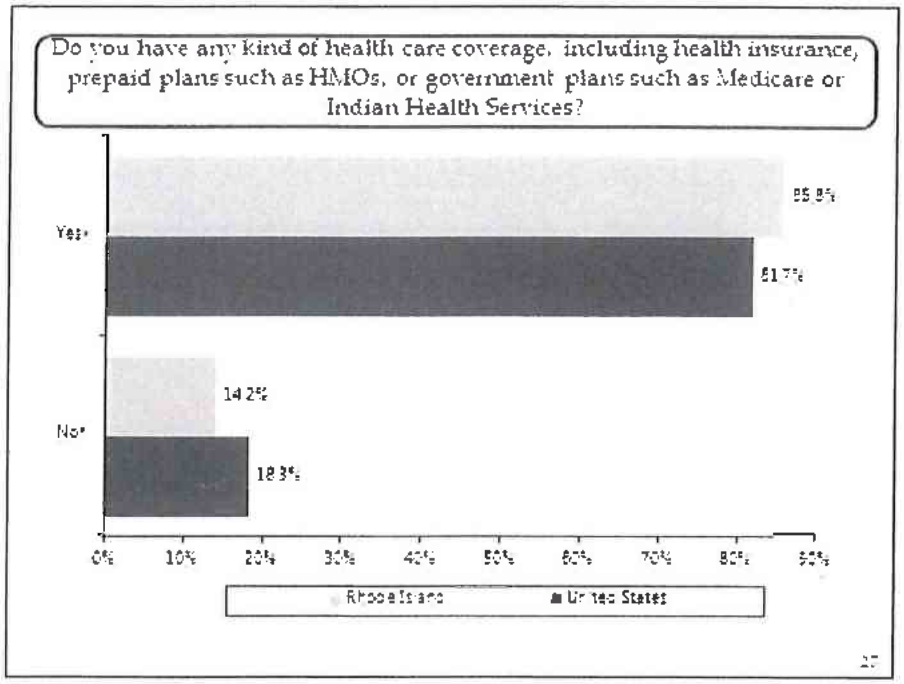
- Collected and interpreted secondary data
- Conducted, analyzed, and interpreted data from Household Telephone Survey
- Conducted, analyzed, and interpreted data from Key Informant Interviews
- Conducted Focus Groups with healthcare consumers
- Facilitated a Prioritization and Implementation Planning Session
- Prepared the Final Report and Implementation Strategy

Community engagement and feedback were an integral part of the CHNA process. HARI and its CHNA partners sought community input through interviews with key community stakeholders, focus groups with healthcare providers, and inclusion of partner hospital representatives as well as public health officials in the prioritization and implementation planning process.

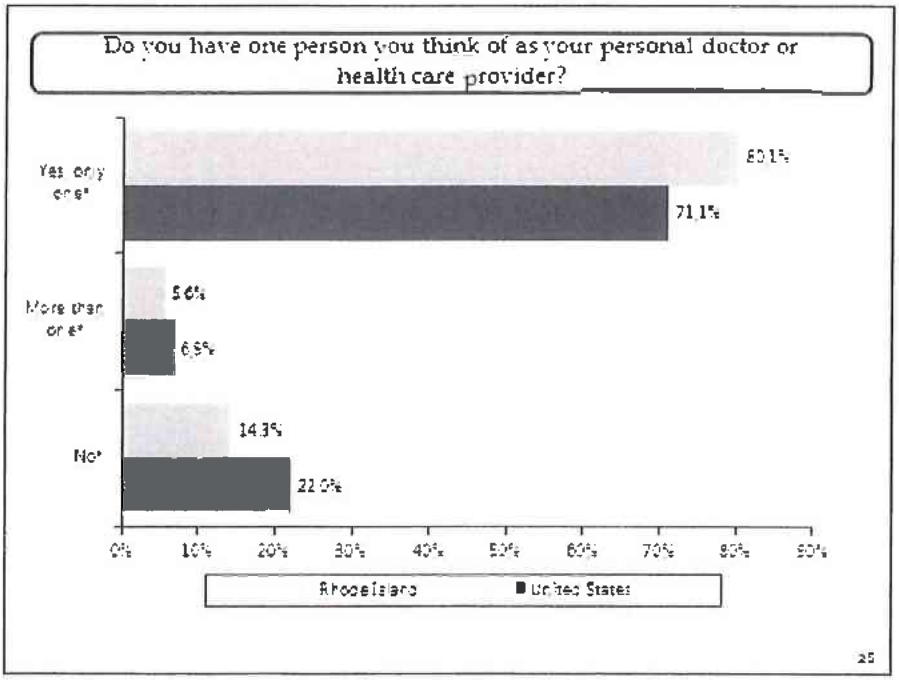
Following the completion of the CHNA research, HARI and its CHNA partners will develop a plan to address prioritized community needs.

# KEY CHNA FINDINGS

## ANALYSIS OF BRFSS DATA



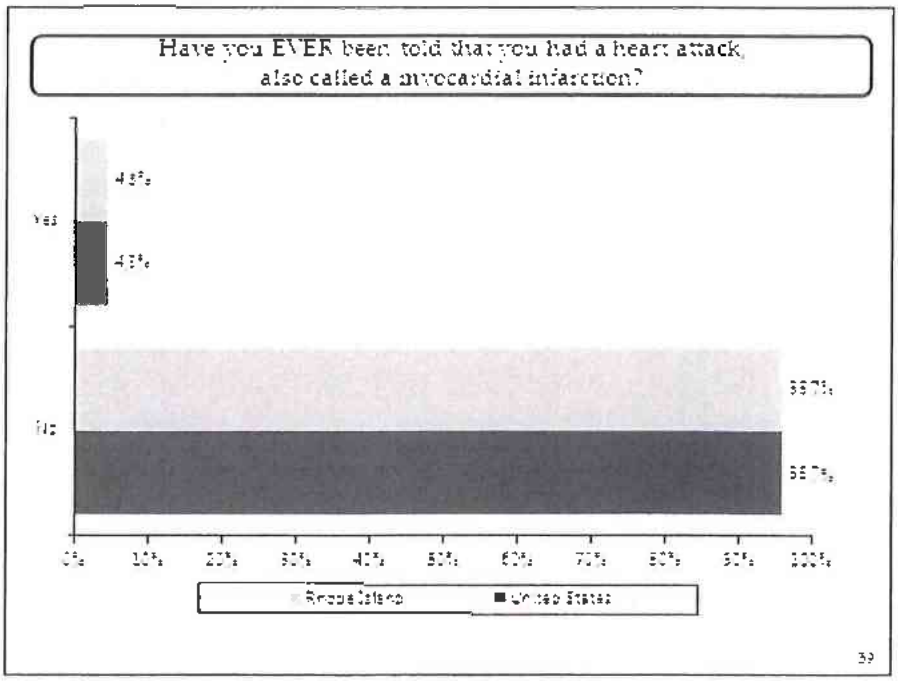
Behavioral Risk Factor Surveillance System data was analyzed between the dates of November 1, 2012 and January 10, 2013. BRFSS data was released to Holleran by the Rhode Island Department of Health on behalf of the Hospital Association of Rhode Island and its members.



The final sample (6,533) yields an overall error rate of +/-1.2% at a 95% confidence level. This means that if one were to survey all residents within Rhode Island, the final results of that analysis would be within +/-1.2% of what is displayed in the current data set. All comparisons represent 2011 BRFSS data.

### Household Survey Findings

A number of the items on the survey assessed **general health status**. When asked to rate their general health, 83% of residents in Rhode Island responded "good," "very good" or "excellent." This is above the 81.8% nationally. However, area residents were more likely to report one or more days of poor physical or mental health in the previous month when compared to residents across the nation. Approximately 40% of adults surveyed in the hospital's service area reported at least one day in the past month when their physical health was not good and 37.9% reported at least one day where their mental health was not good. Just over 45% percent indicated that these poor mental or physical health days keep them from doing their usual activities. This is higher than the nation (42.3%).



The survey also asked questions regarding **access to care** issues such as health care coverage, having a regular source of care, and cost. As detailed in the graph below, 85.8% of area adults reported having some kind of health care coverage, which is higher than the 81.7% across the U.S. Females in the area are significantly more likely than males to have health insurance coverage (88.7% vs. 82.8%). Roughly 80% of those surveyed reported having one person they think of as their personal doctor or healthcare provider. This is above the nation (71.1%). Cost was less of a barrier to seeking health care in the previous year for local adults. In Rhode Island, 15.8% of those surveyed indicated that there was a time in the past year when they needed to see a doctor, but could not because of cost. This compares to 17% throughout the country. Approximately 75% of respondents visited a doctor for a routine checkup in the previous year. This compares to 66.9% across the U.S.

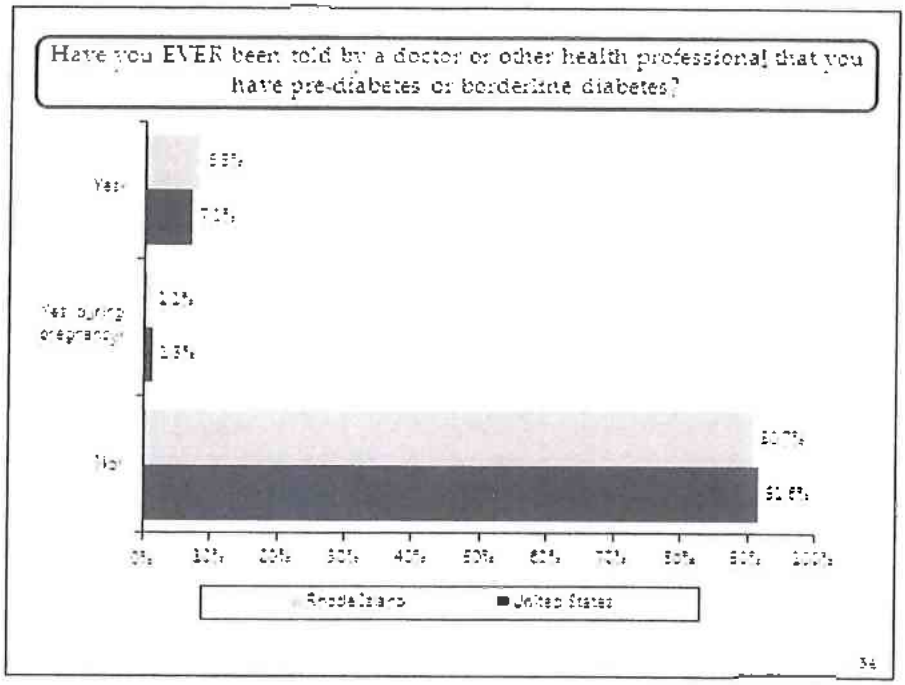
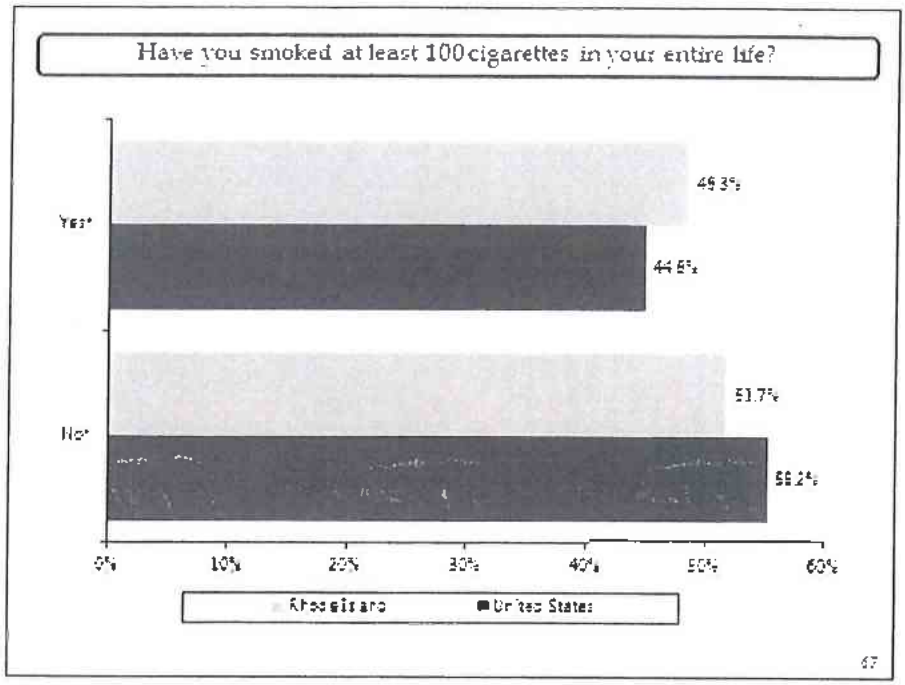
Awareness of individual "numbers" for **blood pressure and cholesterol** has been a national focus in recent years. Locally, 32.9% reported that they have been told by a doctor or health professional that they have high blood pressure. This is similar to the U.S. figure (31.6%). Nearly eight out of 10 residents who have high blood pressure reported that they are currently taking medicine for their high blood pressure. This is similar to the nation (77.3%). Among those with high blood pressure, 78.4% are changing their eating habits, 79.4% are cutting down on salt, 41.8% are drinking less alcohol, and 65.8% are exercising more to help lower or control their condition. These figures are similar to or better than nationally. In addition, a greater percentage of residents with high blood pressure reported being advised by their doctor to change their lifestyle habits to help lower or control their blood pressure than individuals nationally. With respect to blood cholesterol levels, 85.1% of area adults reported having their blood cholesterol checked which is above the national figure (79.4%). The percentage of residents reporting elevated cholesterol levels (38.5%) is in line with the nation (38.5%).

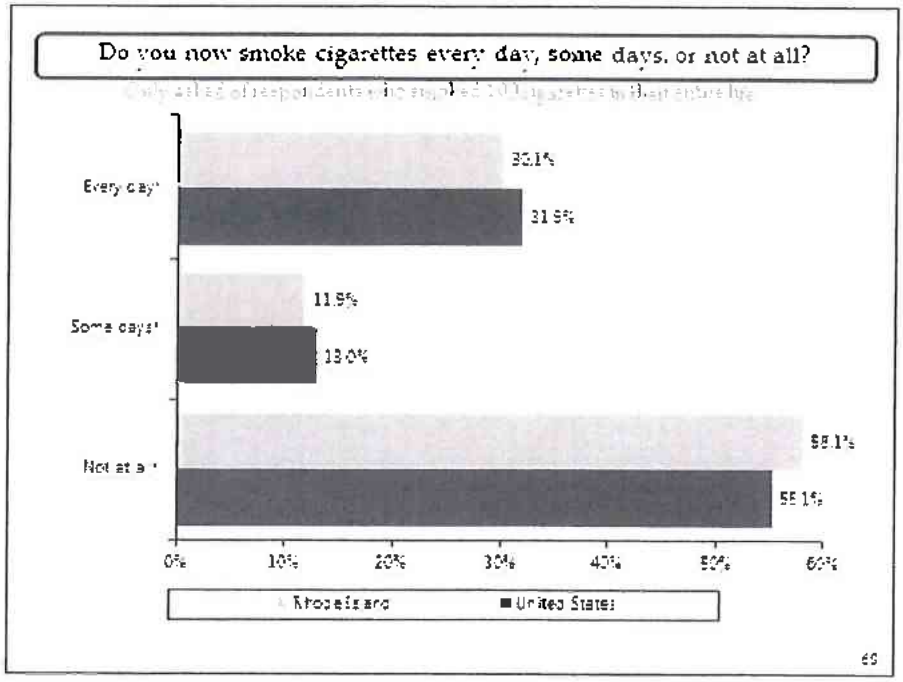
**Cardiovascular health** was also assessed by asking individuals if they have ever had a heart attack, stroke, or coronary heart disease. Residents living in Rhode Island look fairly similar to or better than those throughout the rest of the country with respect to these conditions. The graph below details the percentage of adults reporting a cardiovascular disease diagnosis.



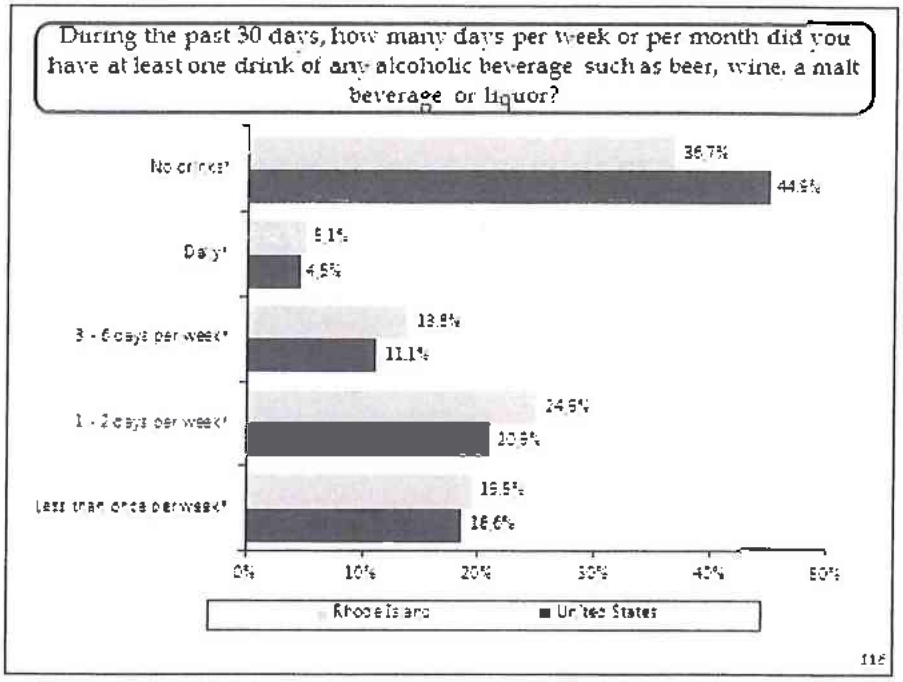
An **asthma** diagnosis was reported by approximately 16% of adults in the state and among this group, 74.1% reported that they still have asthma. The proportion that still has asthma is higher than the national proportion. The percentage of children who have been diagnosed with asthma (18.2%) is above the nation (13.4%). Survey respondents were also asked if they have COPD (chronic obstructive pulmonary disease), emphysema, or chronic bronchitis. The percentage among residents (6.2%) was similar to the U.S. (6.3%).



As a follow-up to the initial question regarding poor mental health days, the survey inquired about the incidence of **depressive disorders**. Twenty-two percent of those surveyed reported being told that they had/have a depressive disorder. This is higher than the nation (16.8%). Similar to national trends, females reported a higher incidence of depression than males (25.9% vs. 17.7%). When asked how many days in the previous two weeks they had little interest or pleasure in doing things, 36.5% of adults in Rhode Island mentioned at least one day. This is higher than national percentages. The following graph details a sampling of these findings.



**Diabetic conditions** such as pre-diabetes, gestational diabetes, and adult diabetes were included in the survey as well. The percentage of residents with diabetes is lower than what is seen throughout Rhode Island and the rest of the country. Approximately 8% of area adults reported having diabetes compared to 9.8% across the nation. An additional 8.3% of residents reported having pre-diabetes or borderline diabetes. Among those with diabetes, 45.1% have taken a class to manage their diabetes compared to 52.2% throughout the U.S. When asked about having a test for high blood sugar or diabetes in the past three years, 59.5% of local adults indicated that they have had such a test. This is above the figure nationally (54.4%).



Risky behaviors related to **tobacco and alcohol use** were measured as part of the survey. Roughly 48% of area adults reported smoking at least 100 cigarettes in their lifetime, which is above the U.S. figure (44.8%). However, fewer residents reported that they still smoke. Among those residents who are still smoking, 63.2% have attempted to quit smoking in the past year. This is higher than throughout the U.S. and suggests that there are fewer current smokers in the area, and those who do smoke, are more likely to quit.

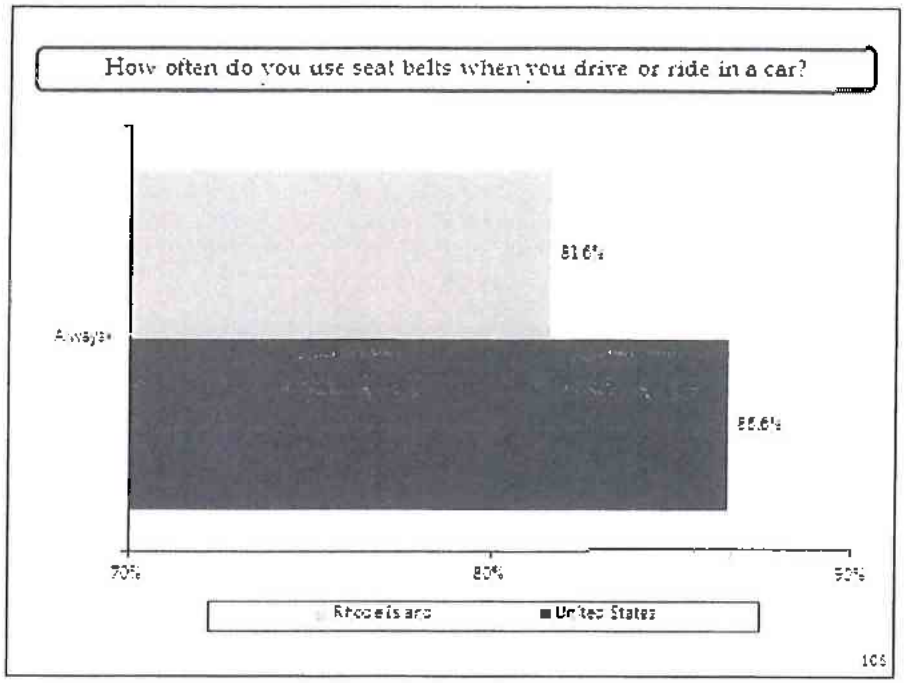
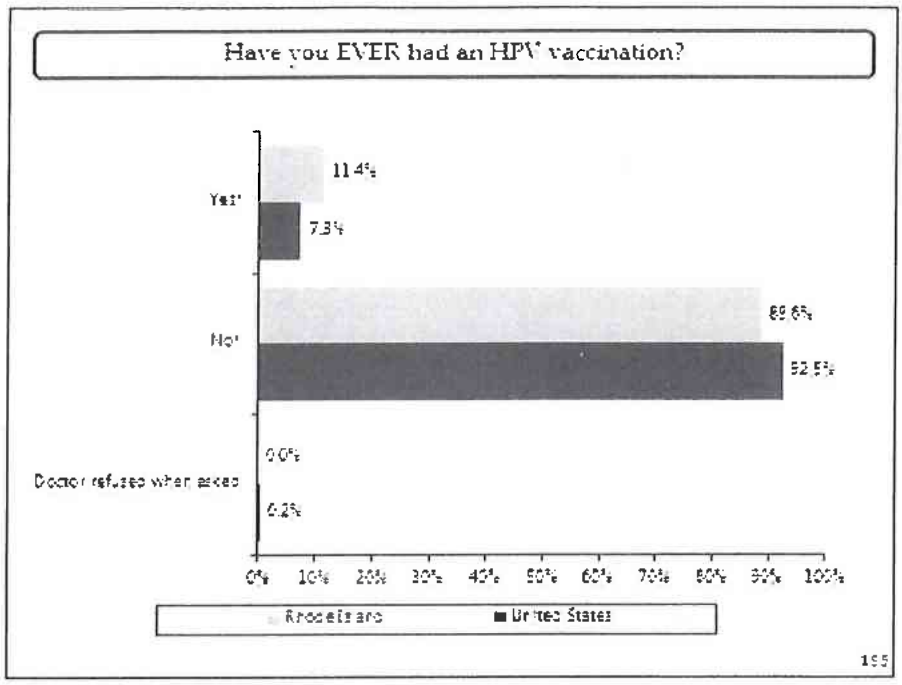
Around 63% of local adults report at least one day in the previous month when they consumed alcohol. This is above the nation (55.1%). Of those who consumed alcohol, the majority (69.1%) reported having 1-2 drinks per occasion. Roughly 32% reported having four or more drinks (females)/five or more drinks (males) on one or more occasions in the past month. This compares to 33.4% nationally.



**Nutrition and exercise** habits were assessed by asking about fruit and vegetable consumption as well as the frequency and duration of physical activity. Approximately 30% of residents reported drinking 100% pure fruit juices once or more per day and 52.5% reported consuming fruit once or more per day. Nearly 26% of adults consumed dark green vegetables, while 9.0% ate orange-colored vegetables daily and 39% ate other vegetables daily. The consumption of fruits and vegetables looks similar to national figures.

Roughly 74% of survey respondents indicated that they participated in physical activities such as running, walking or calisthenics in the previous month. This is similar to the U.S. (74.3%). Walking was the most common form of exercise and was reported by 52.2% of those who exercised. Approximately 58% of residents reported exercising 1 to 5 times a week and 13.4% of residents reported exercising 6 to 10 times per week. The majority, 55.9%, engaged in exercise for less than one hour. **BMI (Body Mass Index)** was calculated from self-reported measures of height and weight. As displayed below, 62.3% of surveyed residents were either obese or overweight, which is similar to the U.S. (63.2%).



More than half of the surveyed residents (50.4%) indicated that they have limitations because of **arthritis or joint symptoms** and 32.2% reported that these symptoms affect the amount and type of work that they can do. Both of these figures are lower than what is seen among residents throughout the U.S.

**Seatbelt use** was identified as an area of concern on the survey. As shown below, fewer residents always wear their seatbelt when riding in or driving a car.

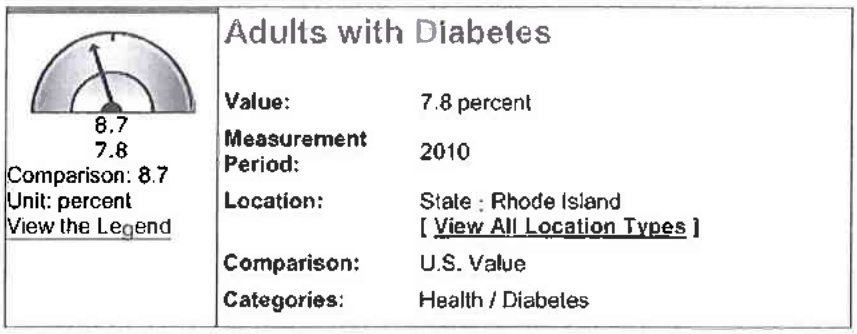
**Immunization rates** were assessed by asking residents about various vaccinations that they or their children may have received. Nearly forty-one percent (40.6%) of adults in Rhode Island had the seasonal flu vaccine in the previous year. This is above the nation (36.7%). When asked about children who live in the household, 73.2% indicated that their child had a seasonal flu vaccination. This compares to 48.2% nationally. Roughly 34% of those surveyed reported that they have had a pneumonia shot at some point in their lifetime. This compares to 30.6% across the U.S. When asked if they received a tetanus shot in the past 10 years, 72.6% indicated that they had. HPV (Adult Human Papillomavirus) vaccinations are slightly more prevalent among residents than what is seen throughout the nation. Roughly 12% have had the HPV vaccination and 72.2% have had all three shots.

In summary, the household survey results reveal a number of areas of opportunity and needs in the community, such as mental health status (depressive disorder and symptoms), alcohol use, and asthma. The household survey results should be examined along with the secondary data, key informant interviews, and focus groups to examine areas of overlap.

## SECONDARY DATA PROFILE

Secondary data, such as mortality rates, cancer incidence rates, and social determinants of health (poverty, education, and housing to name a few) were gathered and reported by Healthy Communities Institute (HCI). The Hospital Association of Rhode Island established a relationship with HCI to measure and depict health status and risky behaviors throughout Rhode Island communities. The following information summarizes select health statistics and findings for Rhode Island, compared to U.S. A full, detailed listing of all the indicators collected for all Rhode Island counties, ZIP codes, and census tracts can be found at www.rihealthcarematters.org. All figures and statistics presented below were obtained from the Rhode Island Health Care Matters website.

### Access to Health Services



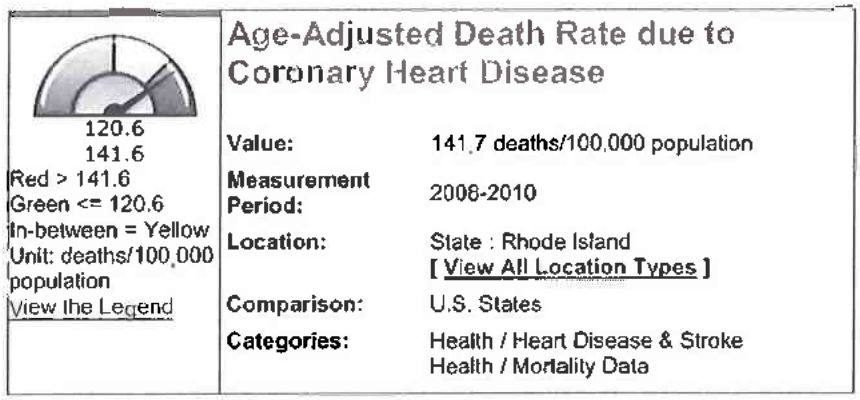
When compared against other U.S. Counties, both adults and children living in Rhode Island are more likely to have health insurance coverage. The primary care provider rate, which is the rate per 100,000 population, is also better locally than what is seen nationwide. Primary care providers include physicians practicing in general practice medicine, family medicine, internal medicine, and pediatrics. For Rhode Island, it is estimated that there are 90 providers per 100,000 population.

**Cancer**

Cancer statistics were evaluated through an examination of incidence rates and age-adjusted death rates. Specifically, rates for breast, colorectal, lung, cervical, prostate, and oral cavity/pharynx cancers were gathered. The age-adjusted death rates for breast, colorectal, lung, and prostate cancer are all well below the associated rates throughout the country. The area of greatest concern is breast cancer incidence rate. Based on 2005-2009 data, the incidence rate for breast cancer in Rhode Island is 133.2 cases per 100,000 females. This ranks Rhode Island in the bottom quartile of incidence rates nationally. It is important to note that the likelihood of females aged 50 and over having had a mammogram in the past two years in Rhode Island rates favorably against national figures. Nearly 85% of females in this age group have had a mammogram in the past two years. Other cancer incidence rates that were slightly elevated included colorectal cancer and lung or bronchus cancer incidence.

**Diabetes**

Diabetes statistics related to incidence, mortality, and screenings were reported. According to 2010 figures, 7.8% of Rhode Island adults have diabetes. Nationally, the figure is 8.7%. The picture below details this comparison.



The age-adjusted death rate due to diabetes within Rhode Island is 15.9 deaths per 100,000 population. This is in the top quartile nationally. Among Medicare patients who have diabetes, 84.4% report having had their blood sugar tested in the past year. This is comparable to, or slightly above, what is seen nationally among other Medicare recipients with a diabetes diagnosis.

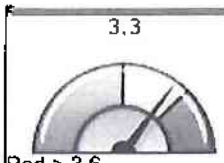
### Exercise, Nutrition, and Weight

It is well documented that individuals who are overweight or obese have a higher incidence of chronic disease and other illnesses. The percentage of Rhode Island residents who are obese is estimated at 25.4% and the percentage of residents who are overweight or obese is 62.5%. It is estimated that there are 1,050,292 adults living in Rhode Island, which translates to roughly 656,433 adults who are overweight or obese. One in four, 26.2%, Rhode Island adults are sedentary, compared to 26.2% nationally.

### Heart Disease and Stroke

The age-adjusted death rate for stroke in Rhode Island (32.3 deaths per 100,000 population) is favorable to what is seen nationwide. However, the age-adjusted death rate due to coronary heart disease is elevated. As depicted below, the statewide rate is 141.7 deaths per 100,000 population, which puts it in the bottom quartile nationally.

### Immunizations



The age-adjusted death rate due to influenza and pneumonia (16.0 per 100,000) is below the national rate. The percentage of adults 65 and over who had an influenza vaccination in the previous year (56.6%) is similar to the nationwide percentage of 61.3%. Pneumonia vaccination rates among county residents 65 and over are also similar to nationwide rates. In Rhode Island, 73.1% of seniors have had a pneumonia vaccination at some point in their lifetime. The national figure is 70.0%.

### Maternal, Fetal, and Infant Health

The Healthy People 2020 national health goal is to reduce the proportion of infants born with low birth weight to 7.8%. Low birth weight infants have a birth weight of 2,500 grams (5 pounds, 8 ounces) or less. Rhode Island has not met the Healthy People goal, with a figure of 8.0%. Pre-term births are also an indicator for maternal and child health. Approximately 12% of all births in Rhode Island are pre-term. This is slightly below the national value of 12.5%.

### Mental Health & Mental Disorders

According to 2008-2010 statistics, the suicide death rate in Rhode Island is 11.0 deaths per 100,000 population. This is in the bottom quartile nationally for suicide deaths. However, self-reported measures of poor mental health are elevated. On average, Rhode Island adults report 3.5 days a month of poor mental health. This is higher than the 50th percentile figure of 3.3 days.

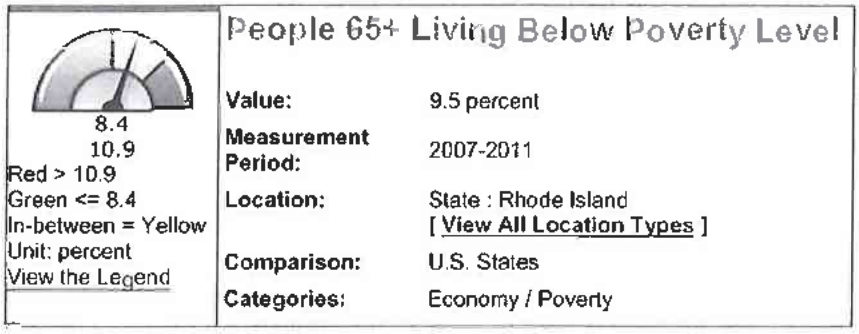
**Poor Mental Health Days**

| | |
|---|---|
| **Value:** | 3.5 days |
| **Measurement Period:** | 2005-2011 |
| **Location:** | State : Rhode Island [ View All Location Types ] |
| **Comparison:** | U.S. States |
| **Categories:** | Health / Mental Health & Mental Disorders |

### Additional Mortality Data

In general, Rhode Island has favorable mortality rates compared to the nation. Premature death is less likely and conditions in which the age-adjusted death rates are lower than what is seen nationally include Alzheimer's disease, unintentional injuries, and motor vehicle collisions. The one area that is slightly elevated compared to the nation is death due to falls. Mortality rate due to falls is 9.8 per 100,000 population. The 50th percentile nationally is 8.1 deaths.

### Asthma



It is estimated that 10.9% of Rhode Island adults have asthma. Nationally, the figure is 9.1%. These statistics reflect adults who have been diagnosed as having asthma by a doctor of health professional.

### Tobacco and Alcohol

The percentage of adults who binge drink in Rhode Island is 19.7%. The percentage of adults who smoke in Rhode Island is 20.0%. Both of these statistics are similar to the United States (18.3% and 21.2% respectively).

### Economic Indicators

A variety of economic indicators were gathered including education levels, homeownership, income, and poverty. The findings suggest that there may be significant disparities in Rhode Island between demographic populations. Overall per capita income and median household income for the state compare favorably to national comparisons. A number of the poverty indictors also compare favorably. The number of adults 65 and older who live below the poverty level is the one exception. Nearly 10% of adults 65 and older live below the poverty line. This is in comparison to 8.4% as the 50th percentile nationally.

Additional statistics that are in the upper 50th percentile in terms of comparisons to national benchmarks include the unemployment rate, households with cash public assistance income, the home foreclosure rate. The percentage of people 25+ with a high school degree or higher is also less than what is seen nationally.

### The Environment

The built environment can play a significant role in a community's health. For Rhode Island, areas of concern are the density of liquor stores, and houses built prior to 1950 compared to the U.S.

### Social Environment

The percentage of single-family households in Rhode Island is higher than what is typically seen throughout the country. The percentage of children living in single-parent family households (with a male or female householder and no spouse present) is 34.8%. This ranks in the bottom quartile nationally. It is also estimated that 31.1% of seniors who are 65 years and older in Rhode Island live alone, which is higher than the national average.

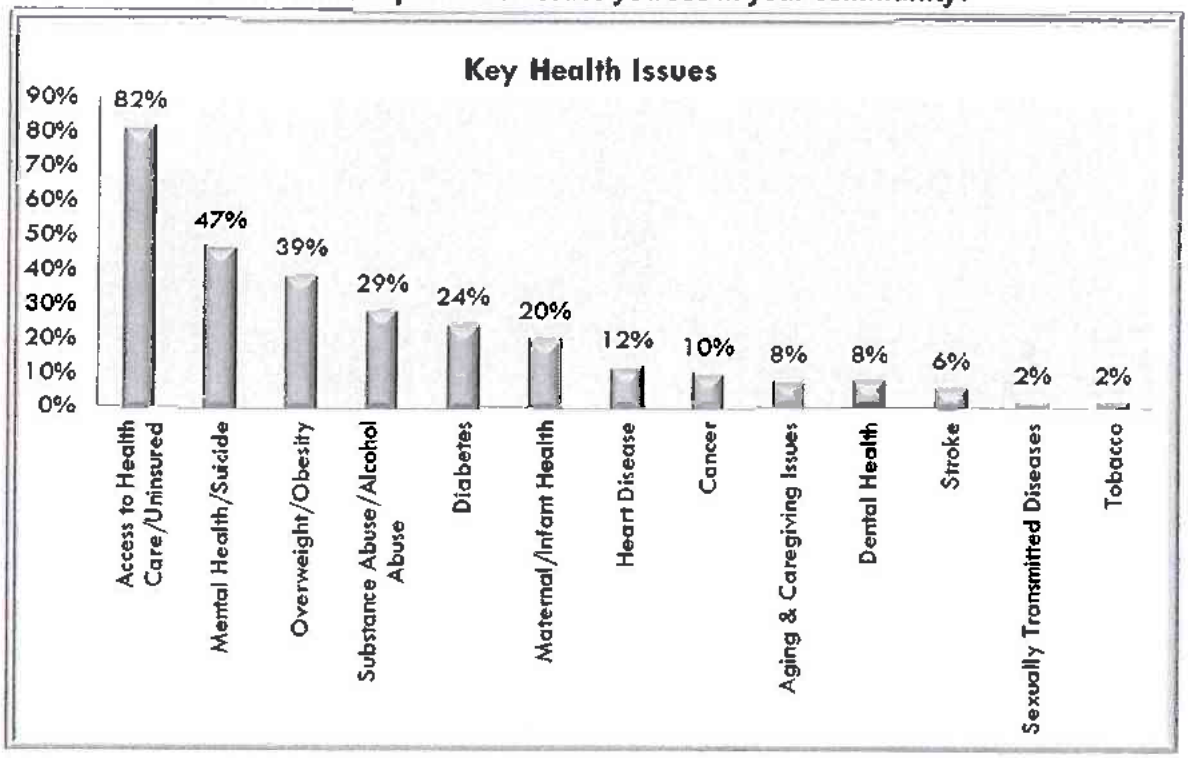
### Transportation

A variety of transportation measures were gathered. For the most part, Rhode Island compares favorably to national statistics with regard to workers commuting by public transportation and average travel time to work. However, unfavorable comparisons are the percentage of households without a vehicle, and workers who drive alone to work. Approximately nine percent (9.4%) of state households do not have a vehicle. It is important to note, however, that this may be a function of geography (e.g. urban living) and the presence of public transportation options, and may or may not represent a negative statistics.

In closing, the secondary data that was compiled should be examined collectively with the BRFSS analysis and the other research components. As with primary data, these statistics represent point-in-time information and patterns and comparisons can vary over time.

## KEY INFORMANT INTERVIEWS

Key informants were interviewed to gather a combination of quantitative ratings and qualitative feedback through open-ended questions. A general summary of the findings is below.



### Key Health Issues

The initial section of the survey focused on the key health issues facing the community. Individuals were asked to select the top three health issues that they perceived as being the most significant. The three issues that were most frequently selected were:

- Access to Health Care/Uninsured/Underinsured
- Mental Health/Suicide
- Overweight/Obesity

The bar graph below shows the key informant rankings of all of the key health issues. The bar depicts the total percentage of respondents who ranked the issue among the top three concerns. Additional health concerns that were mentioned included childhood asthma, teenage pregnancy, and health disparities among those living in poverty.

**"What are the top 3 health issues you see in your community?"**

**Access to health care** was the most frequently selected health issue with 82% of informants ranking it among the top three key health issues. Forty-one percent of informants ranked it as the most significant issue facing the community. Concerns were voiced about hospitals serving as the safety-net provider for individuals who are uninsured and the number of uninsured patients that providers of free or reduced health care are seeing. While these clinics and options are in place, they do not provide high-level specialty care that is often needed.

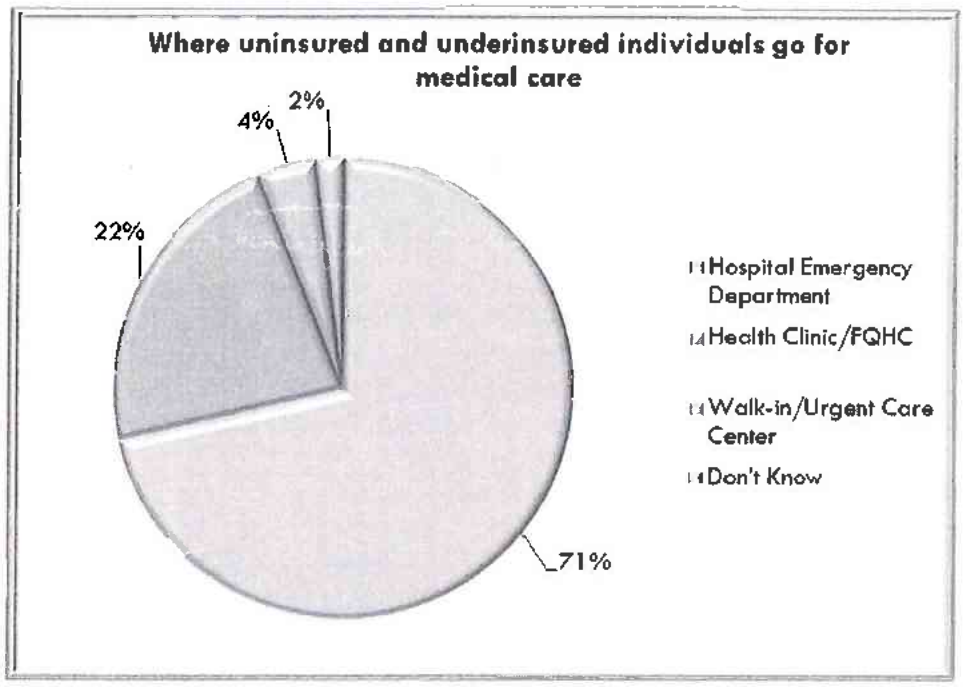
The second most frequently selected health issue was **mental health/suicide** with 47% of informants selecting it among the top three key health issues. Sixteen percent of respondents ranked mental health as the most significant issue facing the community. Respondents indicated that the resources available for the treatment of mental health issues are insufficient. The greatest concerns were for the lack of psychiatrists, children's specialists, and professionals trained in co-occurring disorders (mental health and addiction). Key informants reported that emergency rooms are often addressing these mental health issues among residents.

The third most frequently selected health issue was **overweight/obesity** with 39% of informants ranking it among the top three key health issues. Ten percent of informants ranked overweight/obesity as the most significant issue facing the community. Respondents feel that reducing obesity can lead to improvements in many of the other chronic health issues identified as areas of concern. Those interviewed acknowledged that Rhode Island is not alone in its struggle with obesity.

### Health Care Access

The survey respondents were asked to elaborate further on access to care issues in the area. They were asked questions regarding access to primary care, specialty care, and bilingual healthcare, and potential transportation barriers. As detailed in the table below, area professionals were least likely to agree that there are a sufficient number of bilingual providers. In addition to limited bilingual providers, the availability of mental/behavioral health providers, providers accepting Medicaid, dentists, specialists, and transportation were also rated as areas of concern. The highest rated statement was with regard to having access to a primary care provider when needed. While this was rated the highest among those interviewed, it only averaged a 3.02 rating on a 5-point scale.

| Factor | Mean Response (1=strongly disagree; 5=strong agree) |
|---|---|
| Residents in the area are able to access a primary care provider when needed (Family Doctor, Pediatrician, General Practitioner) | 3.02 |
| Residents in the area are able to access a medical specialist when needed (Cardiologist, Dermatologist, Neurologist, etc.) | 2.57 |
| Residents in the area are able to access a dentist when needed. | 2.49 |
| There is a sufficient number of providers accepting Medicaid and medical assistance in the area. | 2.37 |
| There is a sufficient number of bilingual providers in the area. | 1.88 |
| There is a sufficient number of mental/behavioral health providers in the area. | 2.20 |
| Transportation for medical appointments is available to residents in the area when needed. | 2.41 |



After rating availability of health care services, informants were asked about the most significant barriers that keep people in the community from accessing health care when they need it. The barriers that were most frequently selected were:

- Lack of Health Insurance Coverage
- Lack of Transportation
- Inability to Pay Out of Pocket Expenses

Respondents also identified concerns related to having too few providers, limited appointment times (particularly for the uninsured), language and cultural barriers, and difficulties navigating the health care system. While the greatest concerns were for the uninsured, many commented on increasing barriers for those with health insurance. One barrier that was mentioned was the escalating out-of-pocket expenses for co-pays and prescriptions medications. Another barrier that was mentioned was transportation. Transportation services were identified as "practically non-existent" in some areas. Those areas with bus or other public transportation options also have limitations that present additional barriers such as restricted eligibility requirements or expensive fares.

Informants were then asked whether they thought there were specific populations that were not being adequately served by local health services. The majority of respondents (88%) indicated that there are underserved populations in the community. The immigrant/refugee population was identified as the most underserved followed by the low-income/poor. These groups were followed by the uninsured/underinsured, the Hispanic/Latino population, and individuals with mental health issues as the groups most underserved.

When asked where they think most uninsured and underinsured individuals go when they are in need of medical care, 71% stated the hospital emergency department. The bar chart below details the responses. Health clinics and FQHCs (Federally Qualified Health Centers) were mentioned by 22% of those interviewed.

Respondents were asked to identify key resources or services they felt would be needed to improve access to health care for residents in the community. Many informants indicated that mental health services were needed. Informants also felt there was a need for more health education, information, and outreach. In addition, respondents suggested that additional free and low cost medical and dental services would help improve access. Additional frequent mentions included transportation options, assistance with basic needs (housing, food), and more primary care providers.

## Challenges and Solutions

The final section of the survey focused on challenges to maintaining healthy lifestyles, perceptions of current health initiatives, and recommendations for improving the health of the community. When asked what challenges people in the community face in trying to maintain healthy lifestyles, participants suggested the following common challenges:

- Cost/Access
- Motivation/Effort

- Time/Convenience
- Education/Knowledge

Several participants indicated that cost is a barrier. They explained that healthy foods like fresh fruits and vegetables can be expensive, and unhealthy foods are often cheaper. Participants also mentioned that gym memberships and fitness programs can be expensive. In addition, informants expressed concerns about lack of awareness and education. Suggestions were made to integrate more planning activities into community health improvement initiatives. An example that was mentioned was ensuring that communities are walkable and safe. A number of programs and organizations were praised for their efforts, but it was generally agreed that more are needed.

## Concluding Thoughts

The key informants expressed appreciation for the opportunity to share their thoughts and experiences and indicated interest and support for efforts to improve community health. Based on the feedback from the key informants, access to health care is a significant issue in the community. A number of barriers contribute to access including health insurance coverage, transportation, and inability to pay out of pocket expenses. The need for mental and behavioral health services was also repeatedly mentioned by informants. In addition, informants expressed concern about the growing problem of obesity and indicated that there are number of challenges that contribute to obesity including cost, accessibility, convenience, education, and motivation. Many respondents indicated the need for increased awareness, education, prevention, and outreach and encouraged more collaboration and coordination among health and human service providers.

The feedback from the key informant surveys will be utilized in conjunction with secondary data, BRFSS analysis, and focus group discussions to understand community health needs and prioritize public health endeavors.

## FOCUS GROUPS

On March 26, 2013, Holleran conducted two focus groups with 21 mental and behavioral health care professionals. Both groups were held at Butler Hospital in Providence, Rhode Island. Focus group participants were recruited by HARI and its member hospitals. A full report of the focus groups was provided. A list of participants is included as Appendix B.

The aim of the focus groups was to identify mental and behavioral health needs throughout Rhode Island. Focus group participants discussed Rhode Island's challenges and successes in providing care to residents with mental health needs. Special populations, access to care, community perception, emerging trends, and recommendations were discussed.

Adolescents, the elderly, homeless individuals, and those who do not speak English were seen as some of the most underserved populations when it came to mental health needs. Of particular concern is increased substance abuse, especially among adolescents, and the co-occurring diagnosis of mental illness and substance abuse. The participants also expressed concerns about the complexity of patients' conditions and the relationship between mental and physical health.

Challenges with accessing care included lack of insurance and ability to afford care, as well as provider reimbursement rates and acceptance of insurance. Coordination of services within the system needs to be improved to create a transparent system where providers can easily provide referrals to the appropriate level of care in an efficient and expedient manner.

Stigma, as well as the recognition of signs and symptoms of mental health conditions, continues to be a barrier to treatment. Recommendations were made to continue to explore the integration of primary care and mental health, as well as regular mental health screening of patients with chronic conditions.

Continued collaborations between schools and community-based services were seen as successful and in need of additional support. Advocacy to ensure continued funding successful programs is needed.

A shift from payer-led treatment plans to provider-led treatment plans would enable the appropriate level of care and likely cut costs in the end. Providers feel as though "their hands are tied" when it comes to providing the best treatment for patients.

Participants, encouraged by the dialogue with a cross-section of providers, referral sources, and community agencies, suggested a statewide mental health summit to further explore issues and opportunities.

## Identified Areas of Need

Each individual research component provides a unique perspective on the health status of the service area for Rhode Island. While each component provides a different perspective, a number of overlapping health issues are evident. The following list outlines the key themes that stood out across the four research components.

- **Access to Care:** Concerns for healthcare access were seen as greatest for the uninsured and under-insured and those attempting to access specialty care. Specialty care includes medical specialists, dentists, and child and senior providers. The growing immigrant population was also noted as an increasing challenge on the local health care system. Specifically, it was stated that there are too few bilingual providers locally and that cultural competencies are not fully integrated into the health system. The household survey did reveal that residents in the hospital's service area are more likely to have health insurance coverage and one person they think of as their personal doctor or health care provider.

- **Alcohol Use:** The secondary data revealed that there is a high density of liquor stores in Rhode Island. Adults who participated in the household survey were also more likely to report alcohol use in the past month when compared to national statistics. Professionals who participated in the focus groups and key informant interviews voiced concerns about co-occurring disorders with mental health issues and addiction.

- **Asthma:** The household survey revealed a higher proportion of adults who have had a diagnosis of asthma and also a higher proportion that still have asthma when compared against national figures. Elevated asthma statistics were also uncovered for children living in the service area. The secondary data confirmed elevated asthma rates.

- **Breast Cancer Incidence:** The incidence data for cancers shows that Rhode Island has elevated rates for breast cancer. However, death rates are lower in the state, indicating that those with a diagnosis of breast cancer are more likely to have a positive prognosis.

- **Mental Health Status:** The key informants that were interviewed identified mental health issues as one of the primary health concerns for the area. Specifically, concerns were voiced about the limited number of treatment options, particularly for those who are uninsured or underinsured. As a result, individuals with mental health issues often utilize the hospital emergency room. The household survey also reported a higher number of individuals with a depressive disorder and more days when poor physical or mental health interfered with functioning. On a positive note, the suicide rate in the area is not elevated above national figures.

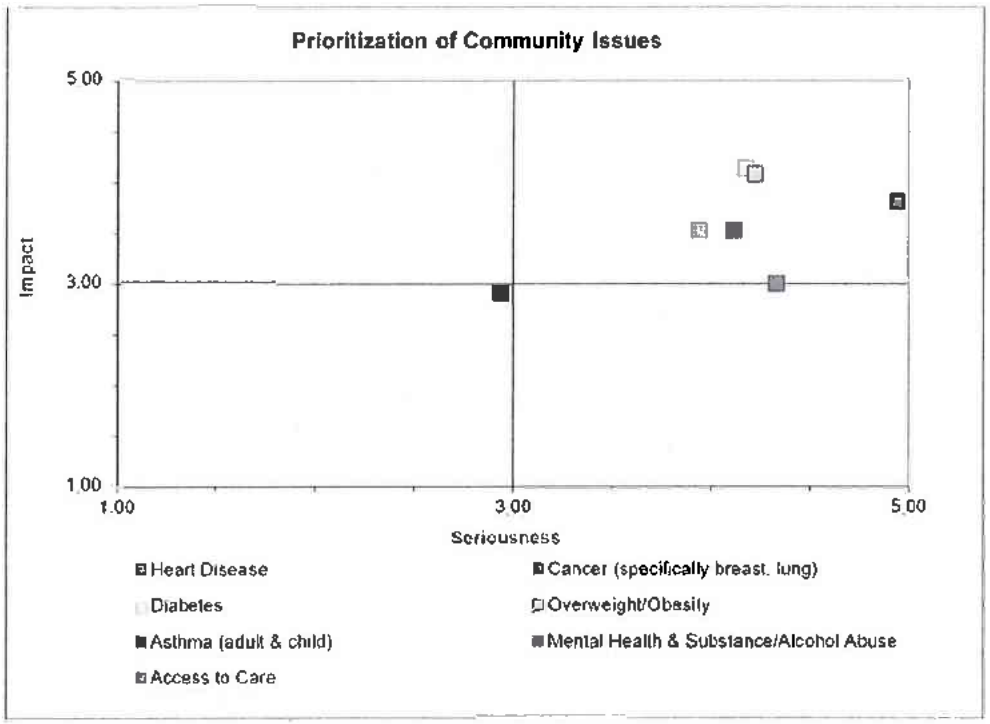
- **Overweight & Obesity:** The BMI statistics for adults in the area show that the majority are either overweight or obese (62.3%). Adults in the area are just as likely to exercise compared to their peers nationally. Key informants also noted their concern with the issue of overweight/obesity and its relationship to chronic diseases such as diabetes.

## Prioritization of Community Health Needs

On April 30, 2013, approximately 20 individuals representing the Hospital Association of Rhode Island (HARI), its member hospitals, and the Rhode Island Department of Health gathered to review the results of the 2013 Community Health Needs Assessment (CHNA). A list of attendees can be found in Appendix C. The goal of the meeting was to discuss and prioritize key findings from the CHNA and to set the stage for statewide community health improvement initiatives and the development of the hospitals' Implementation Strategies.

The meeting began with an abbreviated research overview presented by Holleran Consulting. The presentation covered the purpose of the study, research methodologies, and the key findings. Following the research overview, participants were provided with information regarding the prioritization process, criteria to consider when evaluating key areas of focus, and other aspects of health improvement planning, such as goal setting and developing strategies and measures. Holleran then facilitated an open group discussion for attendees to share what they perceived to be the needs and areas of opportunity in the region.

A broad list of needs was identified through the research and discussion. Holleran facilitated group discussion to identify overlapping strategies, cross-cutting issues, and the ability for regional health and human services providers to effectively address the various needs. After dialogue and consolidation, the following "Master List of Needs" was developed by the attendees to be evaluated as potential priority areas for community health improvement activities.



**Master list of community priorities (in alphabetical order):**

- Access to Care
- Asthma
- Cancer
- Diabetes
- Heart Disease
- Mental Health and Substance Abuse
- Overweight and Obesity

Once the master list was compiled, participants were asked to rate each need based on two criteria. The two criteria included seriousness of the issue and the ability to impact the issue. Respondents were asked to rate each issue on a 1 (not at all serious; no ability to impact) through 5 (very serious; great ability to impact) scale. The ratings were gathered instantly and anonymously through a wireless audience response system. Each attendee received a keypad to register their vote. The following table reveals the results of the voting exercise from highest rated need to lowest based on the average score of the two criterions.

| Master List | Seriousness Rating (average) | Impact Rating (average) | Average Total Score |
|---|---|---|---|
| Mental Health and Substance Abuse | 4.94 | 3.78 | 4.36 |
| Diabetes | 4.17 | 4.11 | 4.14 |
| Overweight/obesity | 4.22 | 4.06 | 4.14 |
| Access to Care | 4.11 | 3.50 | 3.81 |
| Heart Disease | 3.94 | 3.50 | 3.72 |
| Cancer (specifically breast, lung) | 4.33 | 3.00 | 3.67 |
| Asthma (adult and child) | 2.94 | 2.89 | 2.92 |

The priority area that was perceived as the most serious was Mental Health (4.94 average rating), followed by Cancer (4.33 average rating), and Overweight and Obesity (4.41 average rating). The ability to impact Diabetes was rated the highest at 4.11, followed by Overweight and Obesity with an impact rating of 4.06, and Mental Health, with a score of 3.78. The matrix below outlines the intersection of the seriousness and impact ratings. Those items in the upper right quadrant are rated the most serious and with the greatest ability to impact.

# Appendix A: Key Informants

| Name | Title | Organization |
|---|---|---|
| Ana Novais | Executive Director | Community, Family Health & Equity/HEALTH |
| Ann Barrone | Chief WIC | Rhode Island Dept. of Health |
| Ann Nolan | President | Cross Roads |
| Benedict Lessing Jr. | Executive Director | Family Resources Community Action |
| Beth Lamarre | Director | Community Health Care Workers Association |
| Carol Holmqust | President & CEO | Dorcas Place |
| Catherine Taylor | Director of Elderly Affairs | DHS |
| Christopher Koller | Health Insurance Commissioner | RI Dept. of Health |
| Chuck Jones | President and CEO | Thundermist |
| Cindy Gardiner | Social Services Manager | Wood River Health Services |
| Clark Rumfelt | Chaplain & Community Volunteer | The Westerly Hospital |
| Dale Klatzker | President & CEO | Providence Center |
| Dennis Keefe | President & CEO | Care New England |
| Dennis Langley | President | Urban League of RI |
| Rich Leclerc | President | Gateway |
| Donna Nabb | Family Literacy Coordinator | Westerly Public Schools |
| Elena Nicolella | RI Medicaid Director | EOHHS/DHS |
| Elizabeth Burke Bryant | Executive Director | RI Kids Count |
| Elizabeth Lange | Pediatrics, MD | Coastal Medical of RI |
| Graciela Fontana | ESL Teacher Assistant & Translator | Westerly Public Schools |
| Jane Hayward | CEO | RI Health Center Association |
| Jerry Cutler | VP of Clinical Services | South Shore Mental Health Center |
| Jim Nyberg | Director | RIAFSA |
| Jim Berson | President & CEO | YMCA of Greater Providence |

| Name | Title | Organization |

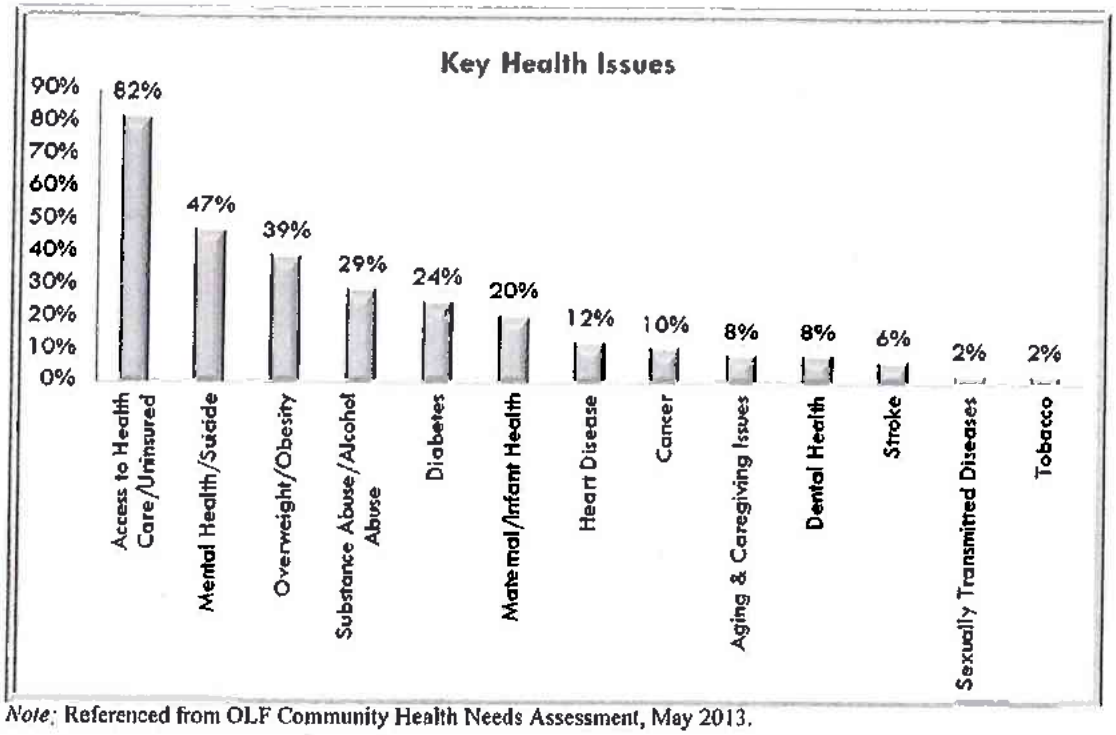
| Francis Paranzino | Vice President & COO | Newport County Community Mental Health Center |
| David Robinson | Office of Primary Care and Rural Health | Rhode Island Department of Health |
| Lisa Shea | MD, Deputy Medical Director | Butler Hospital |
| Curt Wilkins | Director of Social Services | Landmark Medical Center |

## Appendix C: Prioritization Session Participants



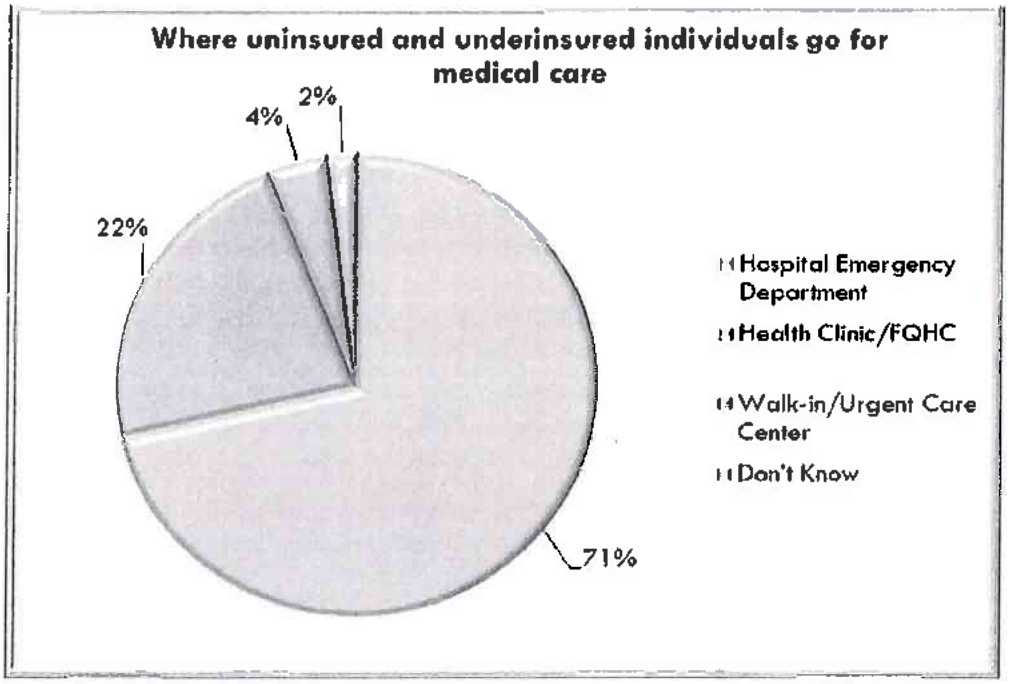
| Name | Title | Organization |
|---|---|---|
| Mike Souza | Senior Vice President | HARI |
| Liz Almanzor | Project Coordinator | HARI |
| Stephanie Anderson | Senior Planning Analyst | Care New England |
| Gina Rocha | VP, Clinical Affairs | HARI |
| Ed Quinlan | President | HARI |
| May Kernan | Senior VP, Marketing Communications | Care New England |
| Gary Epstein-Lubow | Assistant Unit Chief, inpatient geriatric psychiatry unit | Butler Hospital |
| Lisa Shea | Associate Medical Director, Quality & Regulation | Butler Hospital |
| Patti Melaragno | Director, Marketing & Public Affairs | Butler Hospital |
| Jeff Borkan | Physician-in-Chief of Family Medicine | Memorial Hospital of Rhode Island |
| Kellie Sullivan | Planning Implementation Manager | Care New England |
| Gail Costa | Senior VP Planning | Care New England |
| Cindy Wyman | VP, Planning & Market Development | South County Hospital |
| Rene Fischer | Senior VP Patient Care Services, CNO | Kent Hospital/Care New England |
| James Alves | Associate VP | Butler Hospital |
| Ana Novais | Executive Director, Division of Community, Family Health & Equity | Rhode Island Department of Health |
| Magaly Angeloni | Performance Improvement and Accreditation Manager | Rhode Island Department of Health |
| Otis Brown | VP, External Affairs | CharterCARE Health Partners |
| Darlene Kershaw | Clinical Nurse Manager | Roger Williams Medical Center |
| Linda Zaman | Director of Perioperative Services | Roger Williams Medical Center |
| Patricia Nadle | CNO | St Joseph Health Services of RI/CharterCARE |
| Margaret Duff | Clinical Operations Manager for Behavioral Health | St Joseph Health Services of RI/CharterCARE |
| Paula DiLeonardo | Interim Director, Nursing Operations | St Joseph Health Services of RI |
| Michele Danish | Director, Performance Improvement | St Joseph Health Services of RI |

Exhibit 9(b)

D. Please identify the health needs of the population in (C) relative to this proposal.

**OLF participated in a comprehensive Community Health Needs Assessment (CHNA) from September 2012 to May 2013. The assessment was conducted to identify the health needs of the service population as well as to comply with requirements in the Affordable Care Act. This assessment was an effort to ensure that hospital community health improvement initiatives and community benefit activities are aligned and prioritized with community need. Information was collected through surveys, interviews and consumer focus groups, as well as utilizing available health data statistics.**

**From the interviews on individual health issues, the following bar graph lists the key health issues perceived as being the most significant. Access to health care/uninsured/underinsured and mental health/suicide were two of the top issues.**



*Note:* Referenced from OLF Community Health Needs Assessment, May 2013.

**Access to health care was the most frequently selected health issue with 82% of participants ranking it among the top three key health issues. Forty-one percent (41%) of participants ranked it as the most significant issue facing the community. Concerns were delineated about hospitals serving as the safety-net provider for individuals who are uninsured and the number of uninsured patients that providers of free or reduced cost health care centers are seeing.**

Participants were asked whether they thought there were specific populations that were not being adequately served by local health services. The majority (88%) indicated that there are underserved populations in the community. The immigrant/refugee population was identified as the most underserved population followed by the low-income/poor. These groups were followed by the uninsured/underinsured, the Hispanic/Latino population, and individuals with mental health issues as the groups most underserved. The growing immigration population was also noted as an increasing challenge to the local health care system.

When asked where they think most uninsured and underinsured individuals go when they are in need of medical care, 71% stated the hospital emergency department. The bar chart below details the responses. Health clinics and FQHCs (Federally Qualified Health Centers) were mentioned by 22% of those interviewed.

Note: Referenced from OLF Community Health Needs Assessment, May 2013

While population health management care delivery systems are being established, the hospital emergency department remains one of the most important portals to access care. Women seeking emergent or urgent obstetrical care often seek out care from their local community hospital and/or the hospital that is located closest to their home, often without regard to whether or not the hospital may specialize in, or provide such services. OLF is proposing to open an inpatient OB unit to ensure that such services are immediately available in order for patients to receive the best care and services possible. The proposed OB unit will ensure best practices through access to care for OLF's community and OB patient populations.

**10. Description of PMH's Corporate Quality Program (to include organizational chart showing staffing).**

Attached hereto as Exhibit 10, is a draft PMH Corporate Performance Improvement, Quality and Patient Safety Program Proposal. Please note that PMH's Corporate Chief Quality Officer was hired on April 4, 2014 and has recently drafted the attached draft proposal. As such, the attached draft PMH Corporate Performance Improvement, Quality and Patient Safety Program is under corporate review and is subject to change.

# PMH Corporate Performance Improvement, Quality and Patient Safety Program Proposal (Draft)

## Introduction

**Philosophy:** To ensure that our patients receive the right care, at the right time, in the right setting, with efficiency and compassion.

**Mission:** Above all, we are committed to quality in all aspects of healthcare delivery, including:

- Striving for the best possible patient outcomes
- Maintaining the highest standards of patient safety
- Acting with integrity at all times
- Promoting open communication
- Collaborating to better serve the healthcare needs of our communities

**Purpose:** The PMH Quality and Patient Safety Program will focus on continuous enhancement of quality and safety for all we serve. Every employee plays a crucial role in ensuring patient, visitor and employee safety. We will work to reconnect quality and patient safety to clinical care thereby promoting high quality, safe, effective and efficient care. Additionally, the program will strive to build a just culture of safety by implementing strategies to reduce medical errors. Reducing risk and ensuring safety requires increased attention to systems that prevent and mitigate errors. The corporate quality and patient safety team will work with hospital to provide appropriate solutions to ensure best practices, resulting in quality patient care and service.

**Goal:** Build corporate and regional structures and processes necessary to become a high reliability organization promoting patient-focused, high quality, safe, compassionate, efficient, and effective care.

**Model:** We will achieve our mission and purpose through building and sustaining a robust quality and patient safety program at all levels of the organization. The key elements of this program will include: innovation, service, education, transparency, patient and physician partnerships. We will be using the Donabedian Quality of Care Model as our framework for building the program. Our initial focus will be on creating the corporate structure to enhance our ability to build processes and achieve outcomes.

**Roles and Responsibilities**

**Chief Quality Officer** - Provides Oversight to the Corporate Quality and Patient Safety Agenda. Activities may include but are not limited to:

- Collaborates with hospital executives, and engages with hospital leaders and clinicians in identifying and implementing unique and varied initiatives aimed at improving patient care quality and safety
- Leads continuous improvement programs throughout the organization and helps develop a culture of continuous improvement and excellence
- Collaborates with hospital executives and engages with leaders and clinicians throughout the organization to build quality, efficiency, effectiveness and a sense of shared accountability
- Collaborates with hospital executives and engages with leaders to ensure continuous survey readiness.
- Takes a clinical leadership role in evaluating care delivery and develops the infrastructure for improvement
- Strengthens the data and information capabilities of the organization and champions a data-driven environment

**Regional VP of Quality and Patient Safety** – Reports to the CQO.

- Provides regional support and expertise to hospital leadership
- Leads continuous improvement programs in the assigned region and helps develop a culture of continuous improvement and excellence in those regions
- Reviews all regional hospital serious events and assists the hospital leadership in mitigation as appropriate.
- Collaborates with regional hospital executives and engages with leaders and clinicians throughout the organization to build quality, efficiency, effectiveness and a sense of shared accountability
- Collaborates with hospital executives and engages with leaders to ensure continuous survey readiness and sustainment of performance improvement activities
- Strengthens the data and information capabilities at the regional level and champions a data-driven environment

Submitted April 20, 2016

**Corporate AVP Regulation and Accreditation** – Reports to the CQO

- Provides oversight to all aspects of the Survey Readiness program
- Serves as subject matter expert and hospital resource for regulation and accreditation programs
- Creates, implements, and maintains survey readiness tools that meet federal, state, and local statutes and regulations.
- Ensures survey readiness tools meet the applicable accreditation standards i.e. TJC, DNV, etc.
- Deploys and provides oversight to the survey readiness team during hospital site visits.
- Reviews all survey action plans and provides constructive input prior to submission to the appropriate regulatory or accreditation agency.

**Director Survey Readiness Team** – Reports to AVP of Regulatory and Accreditation Programs

- Serves as a subject matter expert and support person to all hospitals.
- Completes full survey readiness assessments at hospitals and provides recommendations for improvement
- Tracks hospital performance improvement activities based on site visit findings

**Director of Performance Improvement** – Reports to CQO

- Leads and facilitates system and hospital wide strategic quality and safety improvement projects.
- Develops and coaches performance improvement implementation strategies in support of the strategic goals.
- Collaborates with hospital executives, and engages with hospital leaders and clinicians in designing and implementing quality, patient safety and clinical excellence performance improvement activities.
- Leverages complex decision support/data systems to establish operation and quality related metrics to measure progress and sustainability of improvement efforts/initiatives.
- Ensures seamless hand-off of completed improvement initiatives to hospital operations leadership
- Engages with hospital leadership in Implementing special initiatives to support the high reliability performance improvement initiatives of PMH as required.

Submitted April 20, 2016

**Data Analyst** - Reports to CQO

- Interprets data, analyzes results using statistical techniques and provides ongoing quality, patient safety, and clinical effectiveness reports
- Develops and implements data collection systems and other strategies that optimize statistical efficiency and data quality
- Works closely with management to prioritize business and information needs
- Locates and defines new process improvement opportunities
- Prepares tables, charts and graphs to summarize the results of these analyses

**Quality Coordinator/Assistant** – Reports to CQO

- Serves as Administrative Assistant to the Corporate Quality and Patient Safety program
- Assists with gathering quality and patient safety data for analysis

**Corporate Quality and Patient Safety Steering Council Roles and Responsibilities**

- Receive reports from and analyze the activities of the regional councils
- Assists with the development of the corporate quality and patient safety strategy
- Prioritizes Quality and Patient Safety activities
- Assist with identification of metrics to be monitored on corporate dashboards.
- Receives and approves reports and activities from chartered committees and work teams
- Engages in identifying ongoing quality and patient safety performance improvement opportunities.
- Ensures follow-up on regional initiative and programs.
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety.
- Assist with barrier removal to achieve quality and patient safety strategies.

**Regional Quality and Patient Safety Steering Council Roles and Responsibilities**

- Receive reports from and analyze the activities of the hospital councils
- Assists with the development of the corporate and regional quality and patient safety strategy
- Prioritizes regional quality and patient safety activities
- Assist with identification of metrics to be monitored on corporate dashboards.
- Receives and approves reports and activities from regional chartered committees and work teams
- Engages in identifying ongoing quality and patient safety performance improvement opportunities for the region.
- Ensures follow-up on hospital initiative and programs.
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety at the regional level.
- Assist with barrier removal to achieve quality and patient safety strategies.

**Corporate Steering Council Chair:** PMH Chief Quality Officer

Suggested Members: Appropriate Corporate Senior Leadership, Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, Medical Staff Director, IT&S Director, Supply Chain, others

**Regional Steering Council Chair:** TBA

Suggested Members: Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, IT&S Director, Supply Chain,

Ad Hoc Members: Radiology, Lab, Medical Staff, others as appropriate to subject matter

**Committees:** Responsible for building the infrastructure and provide input for key quality and patient safety activities. Potential Committees may include Medication Safety, Clinical Safety Improvement, Infectious Disease Preparedness, Regulation and Accreditation, Clinical Excellence, others as needed.

**Rapid Action Work Groups:** Completes rapid work for quick process and outcome improvement as needed. Examples include Core Measure improvement, HAC prevention, HAI prevention, Clinical Excellence etc. The team is responsible for creating and initiating performance improvement programs to include project plan, key elements, tool kits etc. Teams have a limited life depending upon the work product and outcomes.

## Process

**High Reliability Organization:** A high reliability organization is an organization able to continually manages their environment thoughtfully and assume a constant state of vigilance resulting in the fewest possible number of errors, despite operating in a high stress, high-risk environment. Adapting and applying the lessons of this science to health care offer the promise of enabling hospitals to reach levels of quality and safety that are comparable to those of the best high-reliability organizations.
These changes will be achieved through:

- Leadership's commitment to achieving zero patient harm
- A fully functional just culture of safety throughout the organization
- Widespread deployment of highly effective process improvement tools

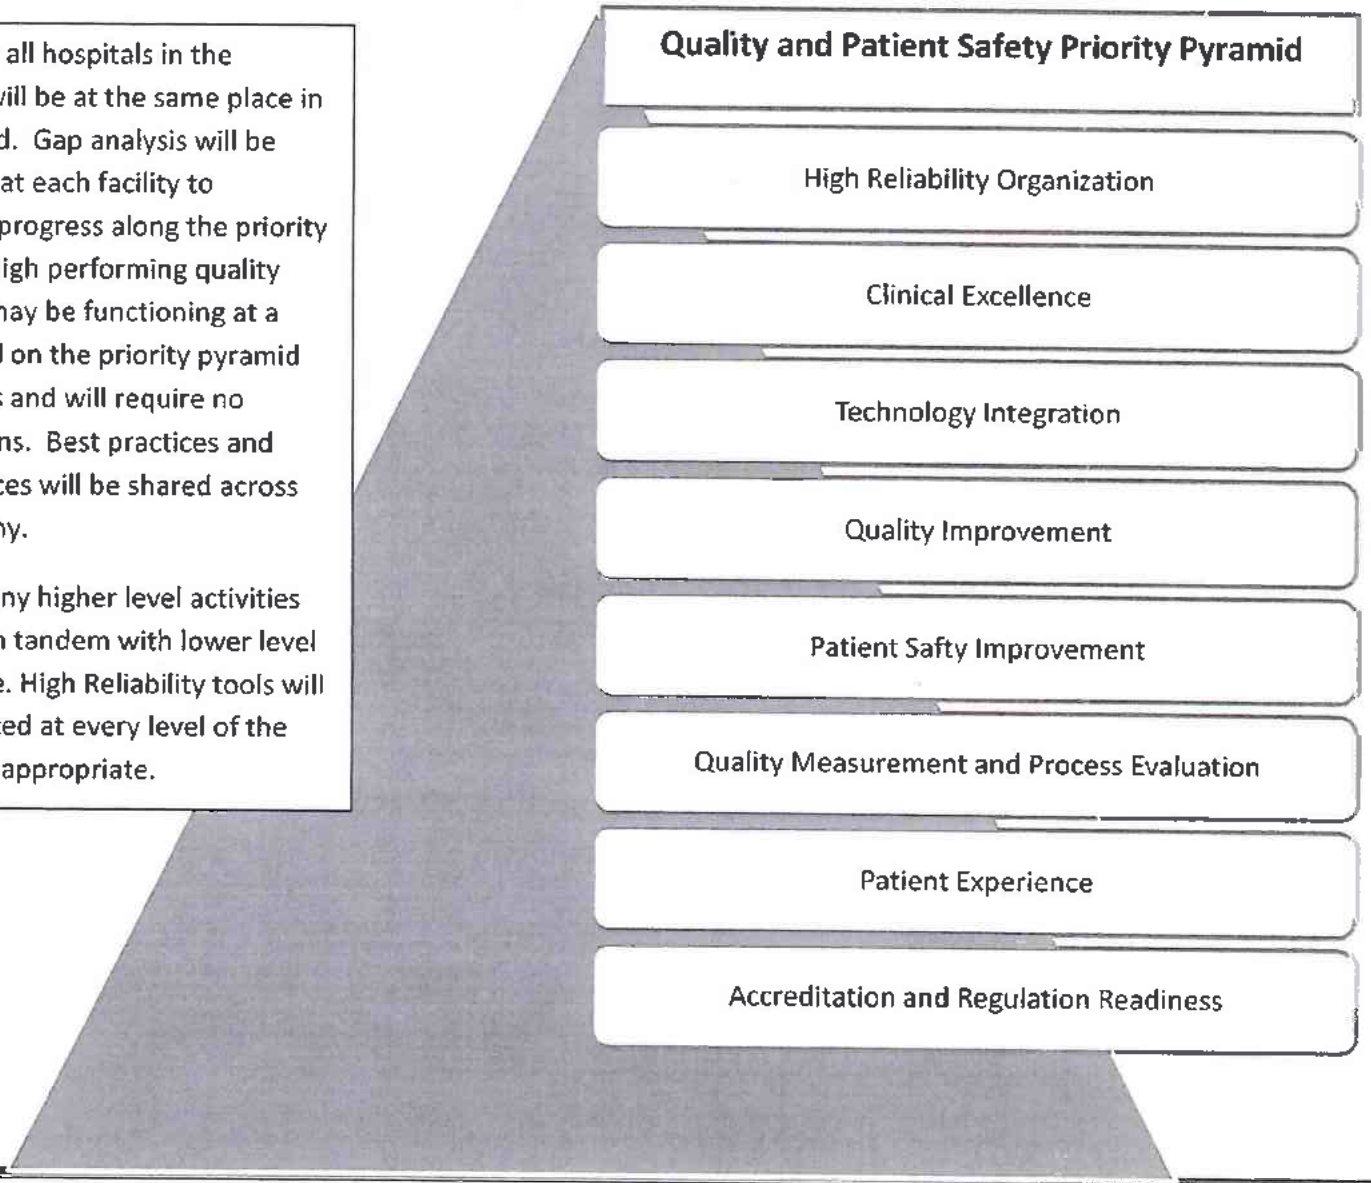
PMH is in the process of adopting high reliability behaviors and strategies to ensure a reduction in overall medical errors for our patients. High reliability organizations are built on a foundation of a just culture of safety. A key component of building this foundation is a robust incident reporting and analysis system to better understand trends, opportunities and strengths. We encourage that every unsafe condition, near miss/great save or harm event be reported and analyzed to identify opportunity for improvement to prevent future harm. We commit to maintaining transparency through sharing best practices and lessons learned across all of our hospitals. We further commit to build and share evidence-based, best practice, and performance improvement processes and tools kits to assist with supporting our quality and patient safety high reliability organization initiatives.

**Strategies:**

- **Accreditation and Regulation Readiness** – Implement an accreditation and regulation survey readiness team to ensure all hospitals are continually in compliance with the highest level of quality care and patient safety standards as defined by CMS, TJC, DNV, NCQA, and applicable State and local statutes and regulations. Provide subject matter expertise and tools to support the facilities in ongoing survey readiness.
- **Patient Experience** – Create and implement a patient experience program to ensure that each patient is treated with respect, compassion, consideration and is an integral partner in his or her plan of care.

Submitted April 20, 2016
Page 4316

ECHN Proposed Asset Purchase by PMH
Late Files



- **Quality Measurement and Process Evaluation** – Build a standardized corporate quality and patient safety dashboard with national benchmarks. Institute monthly Quality and Patient Safety calls to review metrics, analysis and action plans to ensure ongoing improvement.
- **Patient Safety Improvement** – Create and implement a plan to move all hospitals towards a just culture of safety and accountability. Ensure quality and safe delivery of healthcare by defining and promoting consistent processes for identifying situations that may put patients or others at risk and acting to prevent or control those risks i.e. thorough and credible analysis of incidents of harm, near misses/great catches; FMEAs; ongoing learning through transparency, and implementation of patient safety tools.
- **Quality Improvement** - Maximize pay-for-performance for quality performance and outcomes metrics including VBP, readmission reduction program, HAC/HAI reduction program, Medicare spending per beneficiary (MSPB), Meaningful Use etc.
- **Technology Integration** – Maximize available patient safety technologies including CPOE, health information technology, clinical decision support, bar coding and other technologies to enhance the quality and patient safety strategy.
- **Clinical Excellence** – Improve mortality, complications, and length of stay through implementation of clinical excellence initiatives such as sepsis, stroke and STEMI management; effective blood utilization; ventilator management; and antibiotic stewardship.
- **High Reliability Organization** – Implement proven high reliability techniques and nationally recognized best practices to prevent harm and promote quality of care such as Red Rules (limited), SBAR (Situation, Background, Assessment and Recommendation), and STAR (Stop, Think, Act and Review) etc.

Submitted April 20, 2016
Page 4317

**Note I:** Not all hospitals in the Company will be at the same place in the pyramid. Gap analysis will be completed at each facility to determine progress along the priority pyramid. High performing quality programs may be functioning at a higher level on the priority pyramid than others and will require no interventions. Best practices and performances will be shared across the company.

**Note II:** Many higher level activities will occur in tandem with lower level activities i.e. High Reliability tools will be introduced at every level of the pyramid as appropriate.

## Outcomes

**Corporate Quality and Patient Safety Dashboard**

Quality, clinical and patient safety performance and outcomes will be measured via the newly created corporate Quality and Patient Safety Dashboard. Dashboards will be share across the company for the purpose of benchmarking and learning from other.

**Hospital Quality and Patient Safety Call**

Outliers will be addressed during the regularly scheduled hospital quality and patient safety calls. Best practices will be identified and shared with other hospitals in the company during these calls. The hospital will implement performance improvement activities to address the root cause and followed-up will occur during the next call. Once well established, the hospital call will occur at the regional level with a summary report forwarded to the corporate CQO.

## 11. Description of Process for Development of Strategic Plan

Please see attached.

# Prospect ECHN Strategic Planning Process

## Overview

The purpose of this document is to describe the development of a Strategic Business Plan to guide the future growth and development of Prospect ECHN, Inc. and its affiliates (ECHN), as well as a related Strategic Capital Plan. In order to offer high value healthcare and participate in the emerging value-based payment models, an essential focus of healthcare reform, providers across the ECHN continuum must establish new relationships, infrastructure and capabilities to provide cost efficient care. The development and management of an advanced, comprehensive care continuum delivery network to manage the health of a defined population of patients requires strategies and significant investments necessary for health systems to develop new competencies, process skills and knowledge.

## Goal, Objectives and Timing

The overall goal for the Strategic Business Plan is to develop and implement growth initiatives for the benefit of the surrounding communities served by ECHN, so long as that care can be delivered in a high quality and financially responsible manner. Assuming State approvals are obtained to proceed with the proposed acquisition of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc. (PMH) and affiliates, a strategic planning process led by the local management team and the Local Boards and supported by the resources and expertise of PMH will be organized and implemented soon after closing the transaction. It is expected that the Strategic Business will be produced over a 5-6 month period and that the Strategic Capital Plan will follow from the goals and initiatives identified in the Strategic Business Plan.

## Structure

A Steering Committee will be formed with membership from the Local Boards, ECHN Medical Staff and representation from PMH to create a Strategic Business Plan including the clinical strategies to best serve the populations in the ECHN service area. The involvement of the Local Boards will provide input and feedback for health issues of concern to the community. The involvement of the medical community will allow for the local healthcare leaders and decision makers to assist in identifying the needs, or gaps, in care and consider the best approaches available to address those needs to the benefit of their patients. PMH will contribute the process skills and knowledge that promote clinical integration and the coordination of care through the alignment of the interests of the physician community, hospitals, post-acute providers and other providers needed to ensure that patients receive appropriate care, at the appropriate time, in the appropriate setting and with the best outcomes.

## Strategic Capital Plan

The strategic business planning effort will allow for the development of a Strategic Capital Plan to support the initiatives designed to address the community and health system needs and priorities identified and included in the Strategic Business Plan. The Strategic Capital Plan will include investments at the ECHN hospitals, affiliates and joint ventures. Those investments will be in the form of new and replacement technology, equipment and facilities in support of health programs and services.

* Includes MMH, RGH and WAT

13. **Description of Local Board (to include composition, process for appointment and authority)**

Please see attached description of the Local Board, together with draft bylaws for such board.

## Description of PMH/ECHN Post-Closing Local Board

**Relevant APA Provisions**

The proposed Asset Purchase Agreement (APA) between Eastern Connecticut Health Network, Inc. (ECHN) and Prospect Medical Holdings, Inc. (PMH) outlines the role of the Local Board. Section 1.01(71) defines the "Local Board" as follows:

> **Local Board** means the advisory board of each Hospital composed of community representatives, physicians on the respective Hospital's medical staff, and the Chief Executive Officer of each respective Hospital (for avoidance of doubt, each Hospital shall have its own Local Board). The initial members of the Local Board shall include at least five members of ECHN's Board of Trustees immediately prior to Closing and five other individuals identified by ECHN prior to Closing.

Sections 5.18, 5.21, 5.26 and 5.27 of the APA outline the Local Board's functions. Pursuant to these provisions, the Local Board shall, among other things:

- consult with PMH in the development of the post-closing Strategic Capital Plan (Section 5.18);
- serve as a resource for PMH with respect to PMH's investment of the Capital Commitment (Section 5.27);
- serve as a resource for PMH with respect to maintenance and implementation of the Strategic Business Plan and in connection with any proposed changes to the Strategic Business Plan (Sections 5.26 and 5.27);
- be responsible for medical staff credentialing at the Hospitals (Section 5.27);
- maintain and oversee the quality assurance program at the Hospitals (Section 5.27);
- collaborate with PMH and management on clinical quality matters of the Hospital Businesses to share best practices, establish clinical quality goals and measure progress (Section 5.21); and
- oversee and manage the accreditation process for the Hospitals (Section 5.27).

The Local Board's role in overseeing quality is further established in the Quality Commitment Letter executed by PMH and ECHN on March 28, 2016. The Quality Commitment Letter clarifies that the Local Board will have oversight over quality assurance programs at the Hospitals and that changes in any programs will require review and approval of the Local Board.

**Local Board Structure**

Based on ECHN's past experience with the effective and efficient operation of concurrently serving Hospital boards, the post-closing entity PMH/ECHN will structure the two Local Boards to have identical membership, and to meet concurrently. The initial Local Board of PMH/ECHN will be composed of five (5) physicians, the Hospital CEO, and five (5) additional members of the community. At least five (5) of the initial appointees to the Local Board will be individuals who are serving on the ECHN Board of Trustees at the time of the closing of the transaction. The Governance Committee of the ECHN Board of Trustees will nominate, and the ECHN Board of Trustees will elect, the remaining members of the initial Local Board from the community prior to Closing. Thereafter, local PMH/ECHN management, working with PMH regional management, will appoint the Local Board Members.

In appointing the initial Members of the Local Board, ECHN will give strong consideration to the following factors, and post-closing ECHN/PMH will apply the same criteria:

- Assuring diverse Board Member composition as to age, gender, race, and town of residence with the goal of reflecting the composition of the communities served by PMH/ECHN
- Inclusion of individuals involved in the development of ECHN's strategic plan prior to closing, in order to maintain forward momentum for the strategic plan
- Tapping expertise and backgrounds that align with Local Board roles and responsibilities
- For community member slots, consideration will be given to those who have demonstrated a commitment to ECHN's mission by serving as ECHN corporators prior to the closing of the transaction

**Terms of Office/Frequency of Meetings/Termination**

The Initial Local Board Members will be appointed prior to closing to serve staggered three year terms per the Local Board Bylaws. See additional details in the attached Bylaws.

# LOCAL BOARD BYLAWS

## ARTICLE I - DEFINITIONS

The following terms, when capitalized, shall have the meanings set forth in these Bylaws; when not capitalized they shall have the meanings generally accorded to them by a dictionary:

1. **"Allied Health Professional Staff"** or **"AHP Staff"** means the allied health professional staff of the Hospital, all of whom have been appointed pursuant to the Medical Staff Bylaws.

2. **"Board of Directors"** means the board of directors of the Hospital.

3. **"Bylaws"** means these Local Board Bylaws.

4. **"Chief Executive Officer"** or **"CEO"** means the administrator of the Hospital who is responsible for the day-to-day management of the Hospital.

5. **"Clinical Privileges"** or **"Privileges"** means the permission granted to a Practitioner by the Health System Parent, on recommendation of the Medical Executive Committee and the Local Board, to render specific diagnostic, therapeutic, medical, dental, podiatric, surgical, or other professional services.

6. **"Health System"** means the system of health care providers under the common control of the Health System Parent, and including the Hospital and Rockville General Hospital.

7. **"Health System Parent"** means Prospect ECHN, Inc., the sole shareholder of the Hospital.

8. **"Health System Parent Board"** means the board of directors of the Health System Parent, designated by the Board of Directors to serve as the governing body of the Hospital with respect to Medical Staff matters.

9. **"Hospital"** means Manchester Memorial Hospital.

10. **"Local Board"** means the Manchester Memorial Hospital Local Board of Advisors.

11. **"Medical Executive Committee"** means the medical executive committee of the Medical Staff.

12. **"Medical Staff"** or **"Staff"** means the medical staff of the Hospital, all of whom have been appointed pursuant to the Medical Staff Bylaws.

13. **"Medical Staff Bylaws"** means the bylaws adopted by the Health System Parent Board governing appointment to, organization of, duties of, and operation of the Medical and AHP Staffs.

14. **"Practitioner"** means a licensed health care professional other than nurses, nursing assistants, technicians, and similar support personnel who are employees of the Hospital, and includes individuals eligible for appointment to either the Medical or AHP Staff.

15. **"Purchase Agreement"** means that certain Asset Purchase Agreement dated as of _____, 2016 by and among Eastern Connecticut Health Network, Inc., Prospect Medical Holdings, Inc. and various of its affiliates, including the Health System Parent.

## ARTICLE II - GENERAL PROVISIONS

### 2.1 PURPOSES

The Hospital is an acute-care hospital providing health care services to the community. These Bylaws have been adopted to facilitate collaboration between the Board of Directors and the Local Board, which includes representatives of the Medical Staff and the community.

### 2.2 ADVISORY ROLE OF LOCAL BOARD

The Board of Directors retains all general authority and control over the business, policies, operations, and assets of the Hospital.

The Board of Directors has delegated to the Health System Parent the authority to act as the governing body of the Hospital with respect to Medical Staff matters, including adoption of and amendments to the Medical Staff Bylaws and the credentialing and re-credentialing of Medical Staff members.

The Board of Directors has also granted to the Local Board certain responsibilities as further described in these Bylaws. The Local Board shall serve generally in an advisory role and shall not have authority over or responsibility for the business of the Hospital.

The Board of Directors expressly reserves the right to amend, modify or rescind at any time, on reasonable advance notice, any rights or responsibilities given to the Local Board and is not obligated to approve or comply with any recommendations made by the Local Board. Notwithstanding anything herein to the contrary, nothing herein shall permit the Board of Directors to limit any rights of the Local Board in contravention of the terms of the Purchase Agreement.

## ARTICLE III – MEMBERS OF LOCAL BOARD

### 3.1 QUALIFICATIONS OF LOCAL BOARD

The Board of Directors, in consultation with the CEO, shall establish the criteria for selection of members of the Local Board, which shall include, but not be limited to:

**(a)** Willingness to give as much time as is reasonably requested;

**(b)** Availability to participate actively in Local Board and committee activities, especially those activities where the member has a special interest and expertise;

**(c)** Experience in organizational and community activities;

**(d)** Proficiency in the art of managing people and property; and

**(e)** Integrity, objectivity, and loyalty.

### 3.2 COMPOSITION

The Local Board shall consist of at least eleven (11) but no more than fifteen (15) voting members. To the extent practicable, the Local Board should include both appointees to the Medical Staff and a broad representation of lay persons from the community served by the Hospital. The CEO shall serve as a voting member of the Local Board.

### 3.3 SELECTION

Members of the Local Board, whether they will commence new terms or fill vacancies for the balance of a term, shall be appointed by the Board of Directors. The Board of Directors shall give strong consideration to the nominations made by a nominating committee composed of the existing chairperson of the Local Board, the existing vice chairperson of the Local Board, and the CEO, which committee shall be chaired by the CEO (the "**Governing & Nominating Committee**"). The Governance & Nominating Committee will make Board diversity (in terms of age, gender, race and town of residence) a priority for recruitment of new members to the Local Board.

The Governance & Nominating Committee shall work with the CEO to recruit new Board nominees in order to present each candidate at the Annual Board Meeting in December for election. New Board members' terms will be effective January 1st of each year (introduced at the normally scheduled January Board meeting), unless otherwise determined by the Board of Directors.

Notwithstanding anything to the contrary herein, the initial Local Board shall be composed of the CEO, five (5) physicians and five (5) additional members of the community, all of whom are selected by the Board of Trustees of Eastern Connecticut Health Network, Inc. at the time of the closing of the transactions described in the Purchase Agreement. In the selection of the initial

members of the Local Board, the Board of Trustees of Eastern Connecticut Health Network, Inc. will endeavor to include individuals who have served on such Board prior to closing and who have been involved in strategic planning and/or have otherwise demonstrated a commitment to the mission of Eastern Connecticut Health Network, Inc.

## 3.4 TERM

The initial members of the Local Board will serve for one (1), two (2) or three (3) year terms. As terms expire, members will be elected or reelected to serve terms of three (3) years; provided, however, that no member of the Local Board will be permitted serve for more than three (3) consecutive three (3) year terms (or any portion thereof of more than one and one-half years). Members rotating off of the Local Board may return after a one year hiatus in membership, and may participate, during this hiatus period, in Hospital committees that do not require a committee member to be a member of the Local Board.

Notwithstanding the foregoing, to promote the objective of having the terms of approximately one-third of the elected members of the Local Board expire each year, a member may be appointed to serve a one (1), two (2) or three (3) year term, as determined by the Board of Directors. A member of the Local Board appointed to fill a vacancy shall serve the remainder of his or her predecessor's term.

## 3.5 REMOVAL

A member of the Local Board may be removed at any time by the Board of Directors, with or without cause. A member of the Local Board, other than the CEO, who has failed to attend two-thirds of the regular meetings of the Local Board during the calendar year or two-thirds of the meetings of Local Board committees of which he or she is a member may also be removed by a two-thirds affirmative vote of the remaining members of the Local Board. A member of the Local Board may resign at any time by tendering his or her resignation in writing to the Local Board. Resignation or removal as a member of the Local Board shall also constitute resignation or removal as an officer of the Local Board and as a member of any committee of the Local Board.

## 3.6 CONFLICT OF INTEREST

Members of the Local Board shall comply with all conflict of interest policies and procedures of the Hospital.

## 3.7 COMPENSATION

Members of the Local Board shall receive no compensation for any services rendered in their capacities as members of the Local Board or as officers or members of committees of the Local Board.

## 3.8 DUTIES

The duties of the Local Board are:

**(a)** Make recommendations for appointment to the Medical Staff of only those Practitioners meeting the qualifications prescribed in the Medical Staff Bylaws and other written or unwritten Hospital standards;

**(b)** Recommend standards for the quality of services to be made available at the Hospital and recommend Hospital policies implementing such standards;

**(c)** Recommend standards for programs to (i) improve patient safety and (ii) identify and reduce medical errors at the Hospital, and recommend Hospital policies implementing such standards;

**(d)** Serve as a resource to the CEO and the Board of Directors regarding the Hospital's short-range and long-range plans and goals, including providing input on the development of any strategic capital plan (which shall include plans for investment of the Capital Commitment referenced in the Purchase Agreement) and any strategic business plan or any modification to any of the foregoing;

**(e)** Review the Hospital's quality assurance programs, plans for improving the organization's quality performance and the quality of patient care rendered at the Hospital on an ongoing basis and, as appropriate, and identify to the CEO, the Board of Directors and the Health System Parent Board opportunities to improve the foregoing;

**(f)** Cooperate with the CEO on matters relating to obtaining and maintaining accreditation by the applicable accrediting bodies;

**(g)** Subject to approval of the Board of Directors, adopt such Local Board rules as may be necessary to further the purposes of these Bylaws, which rules shall become a part of these Bylaws; and

**(h)** Periodically review and propose amendments to these Bylaws.

The Board of Directors may make revisions to the scope of duties and responsibilities of the Local Board from time to time; provided, however, that nothing herein shall permit the Board of Directors to limit any rights of the Local Board in contravention of the terms of the Purchase Agreement.

## 3.9 INDEMNIFICATION

The Hospital shall indemnify any Indemnified Party (as hereinafter defined) against actual and necessary expenses, costs, and liabilities (including settlements approved by the Hospital) incurred by him in connection with the defense of any pending or threatened action, suit, or proceeding to which he or she is made a party by reason of acting or having acted in an official capacity on behalf

of the Hospital and shall, consistent with any policies of the Hospital, advance funds to pay for any such reasonable expenses or costs expected to be incurred pending the final disposition of any such action, suit or proceeding (including, without limitation, attorneys' fees). As used in these Bylaws, the term "Indemnified Party" shall mean a present or former member of the Local Board acting in good faith on behalf of the Hospital through the Local Board, a committee or other service. This indemnification shall not be exclusive of any other rights of indemnity to which the Indemnified Party may be entitled. Notwithstanding any other provision of these Bylaws to the contrary, no person shall be entitled to indemnity if the acts giving rise to the liability constituted misconduct, breach of fiduciary duty, self-dealing, and/or bad faith. Any indemnification under this Section (unless ordered by a court) shall be made by the Hospital only as authorized in the specific case upon a determination that indemnification is proper in the circumstances because he or she has met the applicable standard of conduct set forth above. Such determination shall be made by the Board of Directors. To the extent, however, that any Indemnified Party has been successful on the merits or otherwise in defense of any action, suit or proceeding described above, or in defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorney's fees) actually and reasonably incurred by him in connection therewith, without the necessity of authorization in the specific case. Notwithstanding the foregoing, nothing in this Section 3.9 shall obligate the Hospital to indemnify an Indemnified Party in excess of the fullest extent permitted by the Connecticut law.

## ARTICLE IV - OFFICERS

### 4.1 IDENTITY; SELECTION; TERM

The officers of the Local Board shall be the chairperson, the vice chairperson, the secretary, and such other officers as the Local Board shall deem advisable. The remaining officers shall be elected annually by the Local Board from its members at its annual meeting. Except for the chairperson and the vice chairperson who shall each serve for a term of two (2) years, all other officers shall hold office for a term of one year and until a successor is appointed.

### 4.2 REMOVAL

The Local Board may remove an officer at any time with or without cause upon the affirmative vote of a majority of the members of the Local Board excluding the officer. An officer may resign from office at any time by tendering his or her resignation in writing to the chairperson or vice chairperson of the Local Board.

### 4.3 DUTIES

(a) **Chairperson** - The chairperson of the Local Board shall preside at all meetings of the Local Board. He or she shall appoint all committees and their chairpersons and shall be a member of all committees. He or she hall have such other duties and responsibilities as may be delegated by these Bylaws and by the Board of Directors from time to time.

**(b) Vice Chairperson** - In the absence of the chairperson of the Local Board or in the event of that individual's inability or refusal to act, the vice chairperson shall perform the duties of the chairperson and in so doing shall have all the powers of the chairperson. The vice chairperson shall perform such other duties as may be assigned by the chairperson from time to time.

**(c) Secretary** - The secretary shall keep or cause to be kept the minutes of the meetings of the Local Board, send out all notices of meetings, and perform such other duties as may be assigned by the chairperson of the Local Board from time to time. The secretary shall forward copies of all minutes to the appropriate corporate officer.

## ARTICLE V - COMMITTEES

### 5.1 ESTABLISHMENT

The chairperson of the Local Board may appoint standing or special committees as he or she deems necessary and consistent with these Bylaws, and determine their membership, which may include members who are not members of the Local Board. The chairperson shall include members of the Local board who are also Medical Staff appointees on any committee that deliberates upon issues affecting the discharge of Medical Staff responsibilities.

### 5.2 TERM

Each member of a committee shall serve on such committee until the next annual meeting of the Local Board or until otherwise specified by the chairperson of the Local Board.

### 5.3 MEETINGS

The provisions of Article VI of these Bylaws (governing meetings of the Local Board) shall apply to all meetings of committees of the Local Board, unless the context clearly indicates otherwise, and references to "Local Board" shall be deemed to include "committees of the Local Board".

## ARTICLE VI - MEETINGS

### 6.1 ANNUAL MEETINGS

The annual meeting of the Local Board shall be held on such day in each year as may be determined by the Local Board. The purpose of the annual meeting shall be to elect officers and to transact such other business as may properly come before the meeting and shall not be limited to the matters set forth in the notice of the meeting.

## 6.2 REGULAR MEETINGS

Regular meetings of the Local Board shall be held at least quarterly. Business to be transacted at any regular meeting of the Local Board shall not be limited to the matters set forth in the notice of the meeting.

## 6.3 SPECIAL MEETINGS

Special meetings of the Local Board may be called at any time by the chairperson of the Local Board, the CEO, or any three (3) or more members of the Local Board. The business to be transacted at any special meeting of the Local Board shall be limited to those items of business set forth in the notice of the meeting.

## 6.4 NOTICE AND PLACE

The Secretary of the Local Board shall give each member of the Local Board notice of each meeting of the Local Board personally, by telephone, by mail to his or her residence or place of business as listed in the CEO's office, or by electronic mail to an address provided by the member for purposes of receiving such notice. This notice shall be received not less than two (2) days prior to the meeting. It shall set forth the time and place of the meeting and notice of the matters of business to be transacted. The meeting shall be held at the Hospital unless the CEO approves another location. Notice of any meeting of the Local Board may be waived by the execution by all members of a written waiver of such notice at any time, which writing shall be filed with or entered upon the records of the meeting. Attendance at any meeting without protesting the lack of notice prior to or at the commencement of the meeting shall be deemed to be a waiver by such member of notice of the meeting. A majority of the members of the Local Board present, whether or not a quorum exists, may adjourn any meeting of the Local Board to another time and place. Notice of any such adjourned meeting shall be given to the members of the Local Board who are not present at the time of adjournment and, unless the time and place of the adjourned meeting are announced at the time of adjournment, to all members of the Local Board.

## 6.5 ATTENDANCE

Members of the Local Board shall attend as many meetings of the Local Board as possible. The chairperson shall review annually the attendance records of all members and shall counsel each member whose unexcused absences exceed one-third of the regular meetings of the Local Board.

## 6.6 QUORUM

A majority of the members of the Local Board then in office shall constitute a quorum for the transaction of business. A member of the Local Board shall be deemed to be present at a meeting if such member participates in the meeting using a conference telephone, speaker telephone, or similar communications device by means of which all persons participating in the meeting can hear each other at the same time.

## 6.7 VOTING

The act of a majority of the members of the Local Board present and voting at a meeting at which a quorum is present shall be the act of the Local Board.

## 6.8 ACTION WITHOUT A MEETING

Any action that may be taken at a meeting of the Local Board may be taken without a meeting if consent in writing setting forth such action is signed by all of the members of the Local Board and is filed in the minutes of the proceedings of the Local Board.

## 6.9 MINUTES

A written record of all proceedings of the Local Board, attendance, and actions shall be maintained by the CEO.

# ARTICLE VII - AMENDMENTS TO BYLAWS

At least once every two (2) years the Local Board shall review these Bylaws to determine whether they require amending. These Bylaws may be amended only by either of the following methods:

**(a)** By an affirmative vote of two-thirds of the members of the Local Board, provided a full presentation of such proposed amendments shall have been published in the notice calling the meeting, and provided the amendments are approved in writing by the Board of Directors;

Or

**(b)** In the event that the Local Board fails to exercise its responsibility and authority, and after notice from the Board of Directors to such effect, including a reasonable period of time for response, by the Board of Directors.

# ARTICLE VIII - ADOPTION AND EXECUTION

These Bylaws shall not be effective until they have been approved by the Board of Directors and by the Local Board. The signatures set forth below signify that these Bylaws are the duly adopted Local Board Bylaws of the Hospital.

**APPROVED BY THE BOARD OF DIRECTORS ON _____, 2016.**

_____
Secretary of the Hospital
(Acting at the direction of the Board of Directors)

**APPROVED BY THE LOCAL BOARD OF ADVISORS ON _____, 2016.**

_____
Secretary of the Local Board
(Acting at the direction of the Local Board)

**14. Description of Proposed Allocation of Responsibility for Quality Matters (corporate v. local)**

Please see attached.

**Prospect Medical Holdings, Inc. and Prospect ECHN, Inc.**

**Quality Program Management -- Corporate and Local Roles**

The following outlines a proposed allocation of roles between the Prospect Medical Holdings Inc.'s local and corporate organizations in the development and management of the quality program in PMH's ECHN facilities. The proposal covers three areas of activity: (i) the development and management of ECHN's annual quality goals and metrics; (ii) the process for addressing ECHN regulatory and accreditation surveys and implementing corrective actions; and (iii) the process by which the corporate and local roles may be modified.

**I. Process for Developing Annual Quality Goals and Metrics**

A. **Initiation of Annual Goal Development Process.** The local Quality management of Prospect ECHN, Inc. ("ECHN Local Quality Management") will have the role of initiating Prospect ECHN's Annual Quality Plans and Goals. No later than October 1 of each year, ECHN Local Quality Management will complete the following steps:

1. Review each of the following plans (together, the "Quality Improvement Program Plans") and make appropriate additions, updates and deletions:

    a. **The Annual Quality Assurance Performance Improvement Plan**

    b. **The Annual Patient Safety Plan.**

    c. **The Annual Patient Experience Plan.**

    d. **The Annual Infection Control Plan.**

    e. **The Annual Risk Management Plan.**

    Potential revisions may include but are not limited to any of the following:

- New or revised Goals, Objectives and/or measurement standards
- New or revised planned activities
- Clarifications of authority and accountability
- Changes to communication plans
- Identification of or changes to committee or action team objectives, goals and/or composition
- Revisions to emphasize future initiatives and areas of focus (e.g., patient experience)
- Revisions to reflect regulatory agency reporting requirements
- Revisions to leadership and/or reporting structure
- Revisions to include new information
- Addition of new criteria (e.g., Serious Safety Events)
- Inclusion of new forms of intervention and initiatives to improve patient safety

- Language clarifications
- Other updates as appropriate

2. Create a grid to track current fiscal year and review year-end Quality Improvement Goals and accomplishments and develop upcoming fiscal year Quality Improvement Goals

    a. Review current year goals– Identify and document how goals were met – place information on grid specific to how goals were met

    b. Develop new goals for incoming year related to each objective subject material related to Quality Assurance Performance Improvement Plan Objectives. Ensure that there are goals for each Objective category. Document in SMART goal format. Include all areas identified as highest need for improvement. Place all goals on grid.

B. **Submission for Local Governance Review and Approval.** Beginning no later than October 1 of each year, ECHN Local Quality Management will begin the process to obtain local governance review and approval of the annual Quality Improvement Program Plans and the upcoming fiscal year Quality Improvement Goals (together the "Annual Quality Plans and Goals"), as follows:

1. Quality Improvement Council
2. Medical Executive Council
3. Local Board

C. **Submission for PMH Corporate Chief Quality Officer Review.** On or about the later of (i) November 15 of each year or (ii) the date on which approval has been received from each level of Local Governance Review, ECHN Local Quality Management will submit the Annual Quality Plans and Goals to the PMH Corporate Chief Quality Officer for approval. The PMH Corporate Chief Quality Officer will be authorized to make those changes to the Annual Quality Plans and Goals that are required to comply with law or regulation. The PMH Corporate Chief Quality Officer may additionally recommend changes to the Annual Quality Plans and Goals in order to align them with regulatory and accreditation requirements, quality improvement best practices or with PMH corporate initiatives, which recommendations ECHN management will submit to the ECHN Quality Improvement Council, the ECHN Medical Executive Council and the Local Board for consideration and acceptance in their discretion. A conference call will occur between the PMH Chief Quality Officer, Regional VP of Quality and ECHN Local Quality Management to review rational for rejection of any recommendations and build consensus concerning next steps. The PMH Corporate Chief Quality Officer will notify ECHN Local Quality Management of the required or recommended changes and the reasons for them in writing within thirty (30) days of receipt. If the PMH Corporate Chief Quality Officer does not provide a notification within

the thirty (30) days the Annual Quality Plans and Goals submitted by local ECHN management will be deemed accepted and complete.

D. **Informal Collaboration.** It is anticipated that there will be continuing informal collaboration throughout the year between local ECHN management, the Regional VP of Quality, and the PMH Corporate Chief Quality Officer regarding quality improvement goals, initiatives and best practices, and that the PMH Corporate Chief Quality Officer and Regional VP of Quality, will serve as a continuing resource for the robust exchange of information in order to enhance quality, safety and patient satisfaction in ECHN facilities. In furtherance of such collaboration, the local ECHN Quality management may (but is not required to) share draft Annual Quality Plans and Goals with the Regional VP of Quality and PMH Corporate Chief Quality Officer in order to obtain feedback and suggestions throughout the process outlined above.

E. **Other Matters.** In addition to the foregoing roles, the PMH Corporate Chief Quality Officer and/or Regional VP of Quality will develop policies and procedures in conjunction with local ECHN quality management as appropriate to support Annual Quality Plans and Goals, and will create a framework and mechanism to permit ECHN to share quality best practices with PMH's other health systems while maintaining the flexibility to allow each organization to respond to its specific needs and circumstances.

**II. Process for Responding to Quality Surveys and Instituting Corrective Action (corporate and local roles)**

A. **Procedure to Follow During Survey:** During any accreditation or regulatory survey, the ECHN Local Quality Management will maintain direct accountability for responding to surveyors and instituting corrective actions

B. **Post-Survey Procedure:**

1. The ECHN Local Quality Management or designee will immediately inform the Regional VP of Quality of the arrival of any accreditation or regulatory survey team via e-mail or phone call. The Regional VP of Quality will serve as the liaison for informing the PMH Corporate Chief Quality Officer.

2. As soon as feasible but no later than close of business after the surveyors' completion of their onsite review, the ECHN Local Quality Management will provide an oral report to the Regional VP of Quality of the information communicated during the surveyors' exit conference, including but not limited to any deficiencies identified. Except in the event of an Immediate Jeopardy finding, which will be reported immediately, a surveyors' onsite review that is completed after business hours may be reported the following morning. If the survey extends beyond one day, the ECHN Local Quality Management will provide a daily oral report to the Regional VP of Quality for the duration of the survey visit. The Regional VP of Quality will be the liaison to update the PMH Corporate Chief Quality Officer.

3. The following time frames will apply to the exchange of information between the ECHN Local Quality Management and the PMH corporate representatives regarding written reports:

    a. **Joint Commission Accreditation Surveys**: The ECHN Local Quality Management will send the written report received from the Joint Commission to the Regional VP of Quality within one business day of receipt, and will submit the proposed corrective action plan to respond to the survey findings to the Regional VP of Quality no later than fifteen (15) days before the due date. Where Conditions of Participation are cited in the written report received from the Joint Commission the ECHN Local Quality Management will outline the findings, the person responsible, the date the corrective actions were completed and the verification seven (7) days before the due date.

    b. **Connecticut Department of Public Health Surveys**: The ECHN Local Quality Management will send the written report received from DPH to the Regional VP of Quality within one business day of receipt, and will submit the proposed corrective action plan to respond to the survey findings to the Regional VP of Quality no later than four (4) days before the due date.

    In each instance, the Regional VP of Quality will forward to the PMH Corporate Chief Quality Officer within one (1) business day of receipt the surveyor's written report or the proposed corrective action plan.

    Upon the completion of the proposed corrective action plan, the ECHN Local Quality Management will confer with the Regional VP of Quality to confirm either that (i) the corrective action taken to date have addressed the identified deficiencies, or (Ii) the corrective actions require supplementation, in which case an additional plan of correction will be developed.

    If the ECHN Local Quality Management considers it infeasible to complete the corrective actions within the time frame expected by the regulatory agency by means of the available local resources, it will identify this issue to the Regional VP of Quality and will outline those additional resources that will be required in order to complete the corrective actions within such expected time frame. The Regional VP of Quality will serve as the liaison to the PMH Corporate Chief Quality Officer in order to review the request and secure the necessary resources to complete the corrective actions as deemed necessary.

    The Regional VP of Quality will review, edit and forward any changes to the proposed corrective action plan to the Chief Quality Officer for final review. Once approved and returned, the local ECHN Quality Management will submit the final form to the surveying agency prior to the due date. The final copy will be sent to the Regional VP of Quality within one (1) business day of submission to the surveying agency. The Regional VP of Quality will then forward to appropriate Corporate Leaders.

4. **Incorporation of Survey Results into Annual Quality Goals.** It shall be an ongoing objective of ECHN Local Quality Management to incorporate the quality and patient safety related results of accrediting and regulatory agencies into the annual Quality Improvement Program Plans. Any revisions to the Quality Improvement Program Plans will be submitted to the Prospect Chief Quality Officer within five (5) days of approval for comment and recommendations as outline in section I subsection C above.

**III. Revisions to Procedures**

The quality management roles and responsibilities outlined above are intended to be exercised within a collaborative and dynamic process which will be subject to modification in order to better serve the goals patient safety, patient satisfaction, clinical quality and efficiency in PMH's ECHN facilities. When either the local ECHN Quality Management or the PMH Corporate Chief Quality Officer consider a modification to be advisable for any of those reasons, the local and corporate representatives will share and discuss the proposed modification with each other, after which the local, regional and corporate representatives will work in a cooperative and timely fashion to implement the modification.

**15. Copies of all CMS Statement of Deficiencies for PMH's Rhode Island Hospitals since the date of Acquisition**

Please See Exhibit 15 as attached. Please note that the statement of deficiencies includes corrective action plans which have been implemented.

**16. Updated Information on Pension Obligation and Impact on Cash Flow**

Please see attached.

**ECHN**
**Pension Funding & Expense**
**Historical & Projected**

**Historical**

| | Funding | Expense |
|---|---|---|
| FY 2006 | $ - | $ 5,893,968 |
| FY 2007 | $ 2,511,000 | $ 4,704,480 |
| FY 2008 | $ 3,100,000 | $ 3,087,800 |
| FY 2009 | $ 500,000 | $ 1,527,909 |
| FY 2010 | $ 2,896,690 | $ 907,347 |
| FY 2011 | $ 6,570,000 | $ 1,972,795 |
| FY 2012 | $ 10,910,000 | $ 4,795,189 |
| FY 2013 | $ 3,000,000 | $ 3,232,959 |
| FY 2014 | $ 4,800,000 | $ 131,191 |
| FY 2015 | $ 970,000 | $ 2,844,430 |
| FY 2016 | $ 1,840,000 | $ 4,600,000 |
| | $ 37,097,690 | $ 33,698,068 |

**Projected**

| | Funding | Expense |
|---|---|---|
| FY 2017 | $ 3,790,000 | $ 5,300,000 |
| FY 2018 | $ 5,060,000 | $ 5,200,000 |
| FY 2019 | $ 7,060,000 | $ 5,000,000 |
| FY 2020 | $ 14,250,000 | $ 4,800,000 |
| FY 2021 | $ 13,340,000 | $ 4,100,000 |
| | $ 43,500,000 | $ 24,400,000 |

Funding & Relief Legislation:

Pension Protection Act -- enacted in 2006, effective 1/1/2008
Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010
Moving Ahead for Progress in the 21st Century (MAP-21) passed in 2012
Highway and Transportation Funding Act of 2014
Bipartisan Budget Act of 2015

MAP-21 provided the most significant funding relief and HATFA continued this as you can see the funding requirements since FY 2012 have been held down; without this relief ECHN would have breached days cash on hand bond covenants by now. Without new relief legislation in the near future the funding requirements start to spike up beginning next fiscal year.

## 17. Reconciliation of Revised Financials

Please see attached.

OHCA Financial Statistics Report

Most schedules originally provided had roll-up issues and so anything previously provided needed to re-done. We will provide an overview of some of the high level changes for our end September 30, 2015 (as compared to year end September 30, 2014) and for mid-year March 31, 2016 (as compared to March 31, 2015).We have provided the DSCR (debt service coverage ratio) for only the year end and mid-year schedules as they are measurement points per our bond covenants. Furthermore, we have computed for the system only and not for each hospital as we do not report these individually as part of routine bond covenant reporting.

We have computed DCOH (days cash on hand) per the measurement criteria of our bond covenants.

September 2015 YTD vs. September 2014 YTD

- The margins for FY 2015 were negative and lower than the prior year due to the continued pressure of governmental reimbursement reductions at both the federal and state level. The Medicare wage index changes along with the continued reduction in the State supplemental payments were most significant, but we also saw State inpatient reimbursement reduced as it transitioned to a new payment model.
- DCOH closed out 6 days lower than the prior year per the same reasons noted in the first bullet.
- Long-term Debt to Equity and Long-term Debt to Capitalization increased primarily due to a) the increase in the unfunded pension due to the new mortality tables and impact on pension liabilities and b) operating performance.
- DSCR closed out just above the bond covenant minimum of 1.25 again due to the pressures of declining reimbursement.
- All other significant ratios or performance indicators in section D. are essentially impacted by the factors already cited in the prior bullets.
- The Unrestricted Assets decline of over $17,000,000 is mostly due to the pension and the new mortality tables which contributed $14,000,000 of this decline.

March 2016 YTD vs. March 2015 YTD

- The same issues that carried throughout the prior year's performance are prevalent in FY 2016 as we see additional erosion in federal and state reimbursement, again both the Medicare wage index reduction which took place in two phases, and the continued reductions to the State supplemental payments.
- Note the margin performance, DCOH, and DSCR. All trending in the wrong direction.
- It is worth noting that the performance from the prior year is somewhat mitigated by reserves that were still carried on the balance sheet at 9/30/14 that were viewed as conservative and thus were able to reduce these as offsets in the prior year.
- Some of the financial ratios where equity or unrestricted net assets are included will reflect a large delta for this March YTD vs the prior March YTD, as the equity hit for the pension happens at year end only.

Revised Exhibit W

| Entity | EBITDA | | | Working Capital | | | Stockholder's Equity | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Year Prior to Acquisition | FY 2014 | FY 2015 | Year Prior to Acquisition | FY 2014 | FY 2015 | Year Prior to Acquisition | FY 2014 | FY 2015 | |
| Nix | $ 14,904,666 | $ 18,410,889 | $ 8,043,349 | $ 5,937,386 | $ 36,785,183 | $ 35,449,130 | $ 13,122,391 | $ 20,468,235 | $ 63,789,134 | (a) |
| Roger Williams Medical Center | $ 3,942,531 | $ 1,582,573 | $ 9,080,029 | $ (1,859,668) | $ 1,114,068 | $ 6,229,906 | $ 37,183,669 | $ 34,098,847 | $ 38,256,443 | (b) |
| Our Lady of Fatima Hospital | $ (893,187) | $ 508,563 | $ 6,485,338 | $ 1,904,480 | $ 2,039,870 | $ 3,432,993 | $ (57,150,507) | $ 27,512,830 | $ 28,106,736 | (c) |
| East Orange General Hospital | $ (4,525,452) | N/A | N/A | $ (21,303,417) | N/A | N/A | $ (5,618,128) | N/A | N/A | (d) |

(a) - EBITDA of Nix prior to acquisition is based on reported trailing twelve months ended on 1/31/2011
- Working Capital of Nix prior to acquisition is as of 1/31/2011 and includes cash which was not part of assets acquired by Prospect
- The Working Capital for FY2015 for Nix in 2015 previously reported under Exhibit 37a to first round of completeness questions excluded certain intercompany adjustments. Working Capital reported in this Exhibit is inclusive of intercompany adjustments
- The net benefit of Government supplemental payments in FY2014 was higher than average, while the net benefit of Government Supplemental Payments in FY2015 was below average From an operational perspective, the performance of Nix was slightly better in FY 2015 than FY 2014

(b) - EBITDA for Roger Williams Medical Center for Year Prior to Acquisition is only for 8 months ending on May 31, 2014
- EBITDA for Roger Williams Medical Center for FY2014 is only for three months post acquisition for FYE 9/30/2014
- Working Capital of Roger Williams Medical Center prior to acquisition is as of 5/31/2014 and includes cash which was not part of assets acquired by Prospect
- As Roger Williams Medical Center prior to the acquisition was a non-profit organization, Net Assets are used as a substitute for Stockholder's Equity
- All data reported in Exhibit 37a to first round of completeness questions with respect to Roger Williams were reported on a consolidated basis for the CharterCARE system which includes additional entities other than Roger Williams Medical Center and Our Lady of Fatima Hospital.

(c ) - EBITDA for Our Lady of Fatima Hospital for Year Prior to Acquisition is only for 8 months ending on May 31, 2014
- EBITDA for Our Lady of Fatima Hospital for FY2014 is only for three months post acquisition for FYE 9/30/2014
- Working Capital of Our Lady of Fatima Hospital prior to acquisition is as of 5/31/2014 and includes cash which was not part of assets acquired by Prospect
- As Our Lady of Fatima Hospital prior to the acquisition was a non-profit organization, therefore Net Assets are used as a substitute for Stockholder's Equity
- All data reported in Exhibit 37a to first round of completeness questions with respect to Our Lady of Fatima were reported on a consolidated basis for the CharterCARE system which includes additional entities other than Roger Williams Medical Center and Our Lady of Fatima Hospital.

(d) East Orange General Hospital was acquired on March 1, 2016. As such there are no subsequent periods that EBITDA may be reported as of this date
It should be noted that as of March 1, 2016, the date of acquistion, the Working Capital of East Orange General Hospital was $3,660,164 and Stockholder Equity was $32,718,610
EBITDA of East Orange General Hospital is for fiscal year ended on 12/31/2015. Net Assets are used as a substitute for Stockholders' Equity.
Working Capital and Stockholders Equity is as 2/29/2016

## Greer, Leslie

**From:** Cotto, Carmen
**Sent:** Thursday, May 05, 2016 2:52 PM
**To:** Michele Volpe (michelemvolpe@aol.com); 'Matthews, Rebecca'
**Cc:** Martone, Kim; Hansted, Kevin; Lazarus, Steven; Greer, Leslie
**Subject:** ECHN's Late Files Follow up Questions

**Importance:** High

Hi Michele,

We have some follow up questions related to the financial information submitted through late files 17, 18 and 19. In reference to these late files please address the following and provide responses by 3:00 pm tomorrow, Friday, May 6, 2016:

A. Late file# 17, Quarterly Data Report, p. 4363:

From the table below, explain the variance between what was submitted for Cash from Operations, Section D of the Report vs ECHN's AFS for FY 2015 and FY 2014 on file at OHCA.

| Cash From Operations | Late File | OHCA's Records | Variance |
|---|---|---|---|
| FY 2014 | $305,647,840 | $7,904,018 | $297,743,822 |
| FY 2015 | $300,257,422 | $3,002,684 | $297,254,738 |

B. Late File#18, Free Cash Flow, p.4371:

The amount listed as "Change in WC (Increase)", which OHCA assumes relates to Working Capital does not reconcile with the difference between Total Current Assets and Total Current Liabilities at $25,711,000. However, it reconciles with the amount listed on page 7 of PMH's Audited Financial Statements for Depreciation and Amortization. In reference to this and the numbers provided for TTM 12/31/15, please address the following:

1. Reconcile the amount in total of $34,374,000 with PMH's AFS.
2. Confirm that the acronym for "WC" stands for Working Capital.
3. Provide the source for the 12/31/15 data and indicate what the acronym "TTM" stands for.

C. Late file# 19, Revised Exhibit W, p.4372:

1. For the entity NIX, provide an explanation for the $10.4 million decrease in EBITDA.

2. If the reason for the decrease relates to the net benefit of Government Supplemental Payments (GSP) referred to in the footnotes, indicate what caused these payments to be higher than average in FY 2014 and below average in FY 2015.

3. Provide the GSP's totals for FYs 2014 and 2015 and the total average amount used as the basis to contrast the amounts.

Thank you,

**To:** Michele Volpe (michelemvolpe@aol.com); 'Matthews, Rebecca'
**Cc:** Martone, Kim; Hansted, Kevin; Lazarus, Steven; Greer, Leslie
**Subject:** RE: ECHN's Late Files Follow up Questions

Hi Michele,

Please also address the following in reference to Section B below, Late file#18:

4. Testimony of Mr. Steven Aleman on 3/29/16, pp.151-153, indicated that PMH is generating anywhere between $10 to $15 Million of free cash flow on a monthly basis. The free cash flow data submitted does not support the statement and provides data as of December 2015 not March 2016, please explain.

Hi Michele,

Please also address the following in reference to Section B below, Late file#18:

4. Testimony of Mr. Steven Aleman on 3/29/16, pp.151-153, indicated that PMH is generating anywhere between $10 to $15 Million of free cash flow on a monthly basis. The free cash flow data submitted does not support the statement and provides data as of December 2015 not March 2016, please explain.

Thank you,

**To:** Michele Volpe (michelemvolpe@aol.com); 'Matthews, Rebecca'
**Cc:** Martone, Kim; Hansted, Kevin; Lazarus, Steven; Greer, Leslie
**Subject:** ECHN's Late Files Follow up Questions
**Importance:** High

Hi Michele,

We have some follow up questions related to the financial information submitted through late files 17, 18 and 19. In reference to these late files please address the following and provide responses by 3:00 pm tomorrow, Friday, May 6, 2016:

A. Late file# 17, Quarterly Data Report, p. 4363:

From the table below, explain the variance between what was submitted for Cash from Operations, Section D of the Report vs ECHN's AFS for FY 2015 and FY 2014 on file at OHCA.

| Cash From Operations | Late File | OHCA's Records | Variance |
|---|---|---|---|
| FY 2014 | $305,647,840 | $7,904,018 | $297,743,822 |
| FY 2015 | $300,257,422 | $3,002,684 | $297,254,738 |

B. Late File#18, Free Cash Flow, p.4371:

The amount listed as "Change in WC (Increase)", which OHCA assumes relates to Working Capital does not reconcile with the difference between Total Current Assets and Total Current Liabilities at $25,711,000.

However, it reconciles with the amount listed on page 7 of PMH's Audited Financial Statements for Depreciation and Amortization. In reference to this and the numbers provided for TTM 12/31/15, please address the following:

1. Reconcile the amount in total of $34,374,000 with PMH's AFS.
2. Confirm that the acronym for "WC" stands for Working Capital.
3. Provide the source for the 12/31/15 data and indicate what the acronym "TTM" stands for.

C. Late file# 19, Revised Exhibit W, p.4372:

1. For the entity NIX, provide an explanation for the $10.4 million decrease in EBITDA.

2. If the reason for the decrease relates to the net benefit of Government Supplemental Payments (GSP) referred to in the footnotes, indicate what caused these payments to be higher than average in FY 2014 and below average in FY 2015.

3. Provide the GSP's totals for FYs 2014 and 2015 and the total average amount used as the basis to contrast the amounts.

Thank you,

**From:** Matthews, Rebecca <RMatthews@wiggin.com>
**Sent:** Monday, May 09, 2016 3:18 PM
**To:** Kathleen Gedney; Cotto, Carmen
**Cc:** Martone, Kim; Hansted, Kevin; Lazarus, Steven; Greer, Leslie; Michele Volpe; Jennifer O'Donnell; Agsten, Melinda A.; Dennis P. McConville (dmcconville@echn.org)
**Subject:** RE: ECHN's Late Files Follow up Questions

Dear Carmen:

Please find below the response to your question A. in your email of Thursday, May 5, 2016. As referenced in the emails from Kate Gedney below, PMH is still working on its responses (and is 3 hours behind on the West Coast). PMH will forward it responses to you as soon as available. We thank you for your patience and understanding.

A. Late file # 17, Quarterly Data Report, p. 4363:

From the table below, explain the variance between what was submitted for Cash from Operations, Section D of the Report vs ECHN's AFS for FY 2015 and FY 2014 on file at OHCA.

| Cash From Operations | Late File | OHCA's Records | Variance |
|---|---|---|---|
| FY 2014 | $305,647,840 | $7,904,018 | $297,743,822 |
| FY 2015 | $300,257,422 | $3,002,684 | $297,254,738 |

**Response:**

**The figures provided in Late File # 17 represent total cash collected by the entire ECHN system in the relevant years. The figures from OHCA's records (and from ECHN's AFS for FY 2015 and FY 2014) represent the net of cash incoming and outgoing activity via the Consolidated Statements of Cash Flows.**

**The drop of $5,000,000 in the AFS cash flows figure is directly related to declining operational performance in FY 2015 vs. FY 2014. Some of the financial loss from operations in FY 2015 was mitigated by the release of general reserves on the balance sheet that were set aside in the prior year.**

Please do not hesitate to contact me if you have questions or need additional information.

-Rebecca

**Subject:** RE: ECHN's Late Files Follow up Questions

Dear Rebecca,

Thank you for the update.

A. Late File#18, Free Cash Flow, p.4371:

The amount listed as "Change in WC (Increase)", which OHCA assumes relates to Working Capital does not reconcile with the difference between Total Current Assets and Total Current Liabilities at $25,711,000. However, it reconciles with the amount listed on page 7 of PMH's Audited Financial Statements for Depreciation and Amortization. In reference to this and the numbers provided for TTM 12/31/15, please address the following:

1. Reconcile the amount in total of $34,374,000 with PMH's AFS.

| | | FYE 9/30/2015 | |
|---|---|---|---|
| Op Inc | | 108,060,000 | Pg 7 AFS 9/2015 |
| Change In WC | | | |
| 2015 CA <CL> | 25,711 | | Pg 5 & 6 AFS 9/2015 |
| 2014 CA <CL> | 76,922 | | Pg 5 & 6 AFS 9/2014 |
| | 51,211,000 | 51,211,000 | |
| Taxes Paid | | (35,778,000) | Pg 7 AFS 9/2015 |
| Net Changes in PPE | | (10,863,000) | Pg 5 AFS 9/2015 |
| | | $ 112,630,000 | |
| Average Free Monthly Cash Flow | | $ 9,385,833 | |

2. Confirm that the acronym for "WC" stands for Working Capital.
   Yes: Working capital

3. Provide the source for the 12/31/15 data and indicate what the acronym "TTM" stands for.
   Trailing Twelve Months

B. Late file# 19, Revised Exhibit W, p.4372:

1. For the entity NIX, provide an explanation for the $10.4 million decrease in EBITDA.

***The decrease was primarily driven by the fluction in net reimbursement in the 1115 Waiver program from 2014 to 2015. The 1115 waiver program is comprised of two forms of reimbursement, DSRIP and Uncompensated Care payments, which for anlaytical purposes are netted down by payments made to the Service Oranzation of San Antiono "SOSA" ( to fund community benefit programs.) Funding to SOSA is voluntary but it is projected to average approximately $12M a year based on budgeted spending initiatives of the service organization. In 2014 the funding requirements were $5.7M (lower by approximately $6.3M) and in 2015 funding requirements returned to $12M. The remaining difference was comprised of lower volume at the facility as services were reconfigured at the facility and medical staff turnover occurred due to a strategic initiative implemented to better align services with community needs and move the facility from priamrily a referral based facility.***

2. If the reason for the decrease relates to the net benefit of Government Supplemental Payments (GSP) referred to in the footnotes, indicate what caused these payments to be higher than average in FY 2014 and below average in FY 2015.

***See response to B.1 Late file #19 (previous inquiry)***

3. Provide the GSP's totals for FYs 2014 and 2015 and the total average amount used as the basis to contrast the amounts.

***2014 Net Benefit: Approximately $27.1M of 1115 waiver revenue offset by ~ $5.7M of SOSA funding***
***2015 Net Benefit: Approximately $26.7M of 1115 waiver revenue offset by ~ $12M of SOSA funding***

***Net benefit of the program through December 2017 projected to remain at 2015 levels***

**Subject:** RE: ECHN's Late Files Follow up Questions

Ms. O'Donnell,

The document failed to respond to a question listed as number four in a matter related to Late file #18. It was sent as a separate email also on May 5, 2016. For your reference, please see email below highlighted in yellow .

Our request was to please also address the following in reference to Late file#18:

4. Testimony of Mr. Steven Aleman on 3/29/16, pp.151-153, indicated that PMH is generating anywhere between $10 to $15 Million of free cash flow on a monthly basis. The free cash flow data submitted does not support the statement and provides data as of December 2015 not March 2016, please explain.

Thank you,
Carmen

**Subject:** RE: ECHN's Late Files Follow up Questions

Thank you Michele. I do have one more question that perhaps ECHN members could answer today.

In reference to late file# 8, Net Proceeds table, p.4261, the document did not provide an amount for the "Legacy ECHN" under FY 9/30/15, please provide the missing information. In addition, for the new entry and the $2,139,000, provide the calculation in a simple formula , as it is presented in column 3.

Thank you,
Carmen

Dear Carmen:

In response to your questions below:

1. In reference to late file# 8, Net Proceeds table, p.4261, the amount that should have been reported under the 9/30/15 column for "Legacy ECHN" is $2,229,000.
2. With respect entry of $2,139,000 referenced below, there is not a specific formula for this figure. The amount is pulled from the net of various balance sheet accounts that will not be part of the acquisition – all third party receivables and third party payables that will settle up over the next 3 years.

Please let us know if you have any additional questions or need additional information.

Good morning, Carmen. I will follow up with counsel to PMH on the response to the pending question of related to Late file #18 ("Testimony of Mr. Steven Aleman on 3/29/16, pp.151-153, indicated that PMH is generating anywhere between $10 to $15 Million of free cash flow on a monthly basis. The free cash flow data submitted does not support the statement and provides data as of December 2015 not March 2016, please explain."). I understand that PMH is in the process of preparing the response.

Thank you.

**Subject:** RE: ECHN's Late Files Follow up Questions

Dear Carmen:

Please find below the response to your question A. in your email of Thursday, May 5, 2016. As referenced in the emails from Kate Gedney below, PMH is still working on its responses (and is 3 hours behind on the West Coast). PMH will forward it responses to you as soon as available. We thank you for your patience and understanding.

A. Late file # 17, Quarterly Data Report, p. 4363:

From the table below, explain the variance between what was submitted for Cash from Operations, Section D of the Report vs ECHN's AFS for FY 2015 and FY 2014 on file at OHCA.

| Cash From Operations | Late File | OHCA's Records | Variance |
|---|---|---|---|
| FY 2014 | $305,647,840 | $7,904,018 | $297,743,822 |
| FY 2015 | $300,257,422 | $3,002,684 | $297,254,738 |

**Response:**

**The figures provided in Late File # 17 represent total cash collected by the entire ECHN system in the relevant years. The figures from OHCA's records (and from ECHN's AFS for FY 2015 and FY 2014) represent the net of cash incoming and outgoing activity via the Consolidated Statements of Cash Flows.**

**The drop of $5,000,000 in the AFS cash flows figure is directly related to declining operational performance in FY 2015 vs. FY 2014. Some of the financial loss from operations in FY 2015 was mitigated by the release of general reserves on the balance sheet that were set aside in the prior year.**

Please do not hesitate to contact me if you have questions or need additional information.

**Cc:** Martone, Kim; Hansted, Kevin; Lazarus, Steven; Greer, Leslie
**Subject:** ECHN's Late Files Follow up Questions
**Importance:** High

Hi Michele,

We have some follow up questions related to the financial information submitted through late files 17, 18 and 19. In reference to these late files please address the following and provide responses by 3:00 pm tomorrow, Friday, May 6, 2016:

A. Late file# 17, Quarterly Data Report, p. 4363:

From the table below, explain the variance between what was submitted for Cash from Operations, Section D of the Report vs ECHN's AFS for FY 2015 and FY 2014 on file at OHCA.

| Cash From Operations | Late File | OHCA's Records | Variance |
|---|---|---|---|
| FY 2014 | $305,647,840 | $7,904,018 | $297,743,822 |
| FY 2015 | $300,257,422 | $3,002,684 | $297,254,738 |

B. Late File#18, Free Cash Flow, p.4371:

The amount listed as "Change in WC (Increase)", which OHCA assumes relates to Working Capital does not reconcile with the difference between Total Current Assets and Total Current Liabilities at $25,711,000. However, it reconciles with the amount listed on page 7 of PMH's Audited Financial Statements for Depreciation and Amortization. In reference to this and the numbers provided for TTM 12/31/15, please address the following:

1. Reconcile the amount in total of $34,374,000 with PMH's AFS.
2. Confirm that the acronym for "WC" stands for Working Capital.
3. Provide the source for the 12/31/15 data and indicate what the acronym "TTM" stands for.

C. Late file# 19, Revised Exhibit W, p.4372:

1. For the entity NIX, provide an explanation for the $10.4 million decrease in EBITDA.

2. If the reason for the decrease relates to the net benefit of Government Supplemental Payments (GSP) referred to in the footnotes, indicate what caused these payments to be higher than average in FY 2014 and below average in FY 2015.

3. Provide the GSP's totals for FYs 2014 and 2015 and the total average amount used as the basis to contrast the amounts.

Thank you,

Dear Mr. Hawes and Mr. Lazarus:

On behalf of Eastern Connecticut Health Network, Inc. ("***ECHN***"), we are enclosing with this letter Late File 20 for the above proceedings. As with previous filings, one (1) hard copy and one (1) electronic copy of this submission have been provided to each Office.

Please note that Late File 20 corrects typographical errors in Paragraphs 2 and 14 of Exhibit Q10-1, the draft of the Certificate of Incorporation of the new community foundation that will be established.

If you have any questions or need anything further, please feel free to contact Rebecca Matthews at (203) 498-4502 or Melinda Agsten at (203) 498-4326. Thank you for your assistance in this matter.

Sincerely,

# CERTIFICATE OF INCORPORATION

## [NAME TO BE DETERMINED]

1. The name of the Corporation is _____, Inc. (the "Corporation")].

2. The Corporation shall be organized and operated exclusively for charitable and educational purposes within the meaning of section 501(c)(3) of the Internal Revenue Code of 1986, as the same may be amended from time to time, or of any corresponding provision of any future United States Internal Revenue Law ("the Code") that benefit, further, support, and carry out the purposes, missions, and objectives of [name the supported municipalities and public charities] (the "Supported Organizations") to the extent such purposes, missions, and objectives exclusively support or promote the following purposes:

(a) To maintain and improve the health of the residents of the area historically served by Eastern Connecticut Health Network, Inc., Manchester Memorial Hospital, Inc., and Rockville General Hospital, Inc., specifically, the nineteen communities of Manchester, Vernon (including Rockville), Andover, Ashford, Bolton, Columbia, Coventry, East Hartford, East Windsor, Ellington, Glastonbury, Hebron, Mansfield, Somers, South Windsor, Stafford, Tolland, Union, and Willington (the "Communities");

(b) To support or conduct community health needs assessments and encourage and support efforts to improve the health of the Communities, including the poor, the elderly, the disabled, children, and other underserved and at-risk populations;

(c) To support and engage in community projects, activities, and programs that will improve access to care and enhance the health of residents, including, but not limited to, preventative health programs and health education;

(d) To solicit and accept additional funds to support the Corporation's purposes, and to make grants and provide financial and other support to other non-profit organizations engaged in activities that further the Corporation's purposes;

(e) To support and promote the education and training of medical professionals and providers in the area;

(f) To work cooperatively with Prospect Medical Holdings, Inc. ("PMH") to ensure and augment a network of affordable and accessible health and medical care in the region; provided, however, that the Corporation will not support programs operated by or for the direct benefit of PMH while it operates as a for profit entity; and

(g) To engage in any lawful act or activity for which a corporation may be organized under the Revised Nonstock Corporation Act of the State of Connecticut in furtherance of the foregoing.

The Corporation shall not replace or support any activities or programs that are now or in the future are properly the obligation or responsibility of the government, whether municipal, state, or federal.

3. The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

4. The Corporation shall have no members.

5. The Corporation shall operate under the management of its Board of Directors, all of whom shall reside or work in the Communities. Each of the Supported Organizations shall have the right to appoint one Director to the Board of Directors as further provided in the Bylaws, and at least a majority of the Board of Directors shall be comprised of individuals appointed by the Supported Organizations..

The following individuals are not eligible to serve on the Board of Directors of the Corporation:

(a) A member of the governing board of Eastern Connecticut Health Network, Inc. ("ECHN"), Manchester Memorial Hospital, Inc., Rockville General Hospital, Inc. or any corporate affiliate of ECHN ("ECHN and its Affiliates") for two (2) years after the later of (1) the date of sale of the assets of ECHN and its Affiliates to PMH and (2) the date on which their service on the governing board in question ends;

(b) An employee of ECHN or an ECHN Affiliate for two (2) years after such employment has ended;

(c) A member of the local (or advisory) board established pursuant to the Asset Purchase Agreement for the hospitals owned and operated by PMH for two(2) years after the member's service on the local (or advisory) board ends; and

(d) A member of the governing board or an employee of PMH or one of its affiliates for two years after their service on the board in question or employment ends, as the case may be.

6. No part of the net earnings of the Corporation shall inure to the benefit of or be distributable to the Corporation's Directors, officers or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Paragraph 2 hereof. No substantial part of the activities of the Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of (or in opposition to) any candidate for public office. Notwithstanding any other provision of this Certificate of Incorporation, the

Corporation shall not carry on any other activities not permitted to be carried on by a corporation exempt from federal income taxation under section 501(c)(3) of the Code or by a corporation contributions to which are deductible under section 170(c)(2) of the Code.

7. If in any taxable year the Corporation is a private foundation as defined by section 509 of the Code, the Corporation will distribute its income for each such tax year at a time and in a manner as not to become subject to the tax on undistributed income imposed by section 4942 of the Code. Further, in any such year the Corporation will not (1) engage in any act of self-dealing as defined in section 4941(d) of the Code, (2) retain any excess business holdings as defined in section 4943(c) of the Code, (3) make any investments in a manner as to subject it to tax under section 4944 of the Code, or (4) make any taxable expenditures as defined in section 4945(d) of the Code.

8. Upon any dissolution or termination of the existence of the Corporation, [and following notice to the Attorney General of the State of Connecticut,] all its property and assets shall, subject to any donor restrictions and after payment of the lawful debts of the Corporation and the expenses of its dissolution or termination, be delivered, conveyed and paid over (subject to any restrictions imposed by any applicable will, deed, grant, conveyance, agreement, memorandum, writing or other governing document) to one or more organizations selected by the Board of Directors, each of which at the time of such grant qualifies as an exempt organization under section 501(c)(3) of the Code and each of which maintains purposes and engages in activities deemed by the Board of Directors to be consistent with the purposes of the Corporation, in such proportions and for such exclusively charitable or educational purposes as the Board of Directors may determine.

9. In addition to and not in derogation of any other rights conferred by law, a Director of the Corporation shall not be personally liable for monetary damages for breach of duty as a Director in an amount greater than the compensation received by the Director for serving the Corporation during the year of the violation if the breach did not (1) involve any knowing and culpable violation of law by the Director, (2) enable the Director or an associate, as defined by section 33-840 of the Connecticut General Statutes, to receive an improper personal economic gain, (3) show a lack of good faith and a conscious disregard for the duty of the Director to the Corporation under circumstances in which the Director was aware that his conduct or omission created an unjustifiable risk of serious injury to the Corporation, or (4) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of the Director's duty to the Corporation.

10. The Corporation shall indemnify a Director for liability, as defined in subdivision (5) of section 33-1116 of the Connecticut General Statutes, to any person for any action taken, or any failure to take any action, as a Director, except liability that (1) involved a knowing and culpable violation of law by the Director; (2) enabled the Director or an associate, as defined in section 33-840 of the Connecticut General Statues, to receive an improper personal gain; (3) showed a lack of good faith and a conscious disregard for the duty of the Director to the Corporation under circumstances in which the Director was aware that his conduct or omission created an unjustifiable risk of serious injury to the Corporation; or (4) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Director's duty to the Corporation.

11. The Corporation's initial registered office is _____ Connecticut _____. The Corporation's initial registered agent at that office is _____, with a business address of _____, Connecticut _____, and a residence address of _____, Connecticut _____.

Acceptance of Appointment

_____

12. The incorporator of the Corporation is _____, with an address of _____, Connecticut.

13. A Supported Organization that ceases to be exempt under section 501(c)(3) of the Code or that becomes a private foundation under section 509(a) of the Code shall immediately cease to be a "Supported Organization" of the Corporation and shall have no rights or powers with respect to the Corporation; a Director appointed by any such Supported Organization shall immediately be disqualified and removed from the Board of Directors.

14. This Certificate of Incorporation may be amended at any meeting of the Board of Directors by a two-thirds vote of the Directors present and voting, a quorum being present, provided that notice of the proposed amendment shall have been given to each Director at least ten (10) days in advance of the meeting **[, and further provided, that any amendment of Paragraphs 2, 5, 8, and 14 requires the consent of the Attorney General of the State of Connecticut]**.

Dated at _____, Connecticut, this_____ day of _____, 201_.

I hereby declare, under the penalties of false statement, that the statements made in the foregoing certificate are true.

**Re: OHCA Docket No. 15-32016-486 and OAG Docket No. 15-486-01 – Schedule for Proposed Final Decisions and Comments**

Dear Mr. Spees and Mr. McConville:

This letter sets forth the schedule for the issuance of the Proposed Final Decisions and the comment period for those decisions in the hospital conversion dockets OHCA Docket No. 15-32016-486 and OAG Docket No. 15-486-01 currently pending in the Department of Public Health, Office of Health Care Access ("OHCA") and the Office of the Attorney General (the "OAG"). The Applicants for both of these dockets are Eastern Connecticut Health Network, Inc. ("ECHN") and Prospect Medical Holdings, Inc. ("PMH").

The OAG and OHCA will issue their Proposed Final Decisions on or before **May 25, 2016**. Comments from the Applicants and the public will be due on or before **June 3, 2016**. And, as previously agreed upon by all parties in the revised scheduling letter dated February 18, 2016, the OAG and OHCA will issue their Final Decisions in these dockets on or before **June 10, 2016**.

Should you have any questions regarding these dates, please do not hesitate to contact either Steven W. Lazarus at the Department of Public Health (860-418-7012; Steven.Lazarus@ct.gov) or Assistant Attorney General Gary W. Hawes at the Office of the Attorney General (860-808-5020; gary.hawes@ct.gov).

## Proposed Final Decision

| | |
|---|---|
| Applicants: | Eastern Connecticut Health Network, Inc.<br>71 Haynes Street<br>Manchester, CT 06040<br><br>Prospect Medical Holdings, Inc.<br>10780 Santa Monica Boulevard<br>Suite 400<br>Los Angeles, CA 90025 |
| Docket Number: | 15-32016-486 |
| Project Title: | Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc. |

**Procedural History**: On July 16, 2015, the Applicants filed with the Office of Health Care Access ("OHCA") and the Office of the Attorney General ("OAG") the Certificate of Need ("CON") Determination Letter proposing the transfer of assets of Eastern Connecticut Health Network, Inc. and affiliates ("ECHN") to Prospect Medical Holdings, Inc. ("PMH"). The Applicants filed the application for the proposal on October 13, 2015. On January 13, 2016, OHCA and the OAG deemed the application complete, and on January 21, 2016 OHCA and the OAG jointly published a Summary of the proposal in the *Journal Inquirer.*

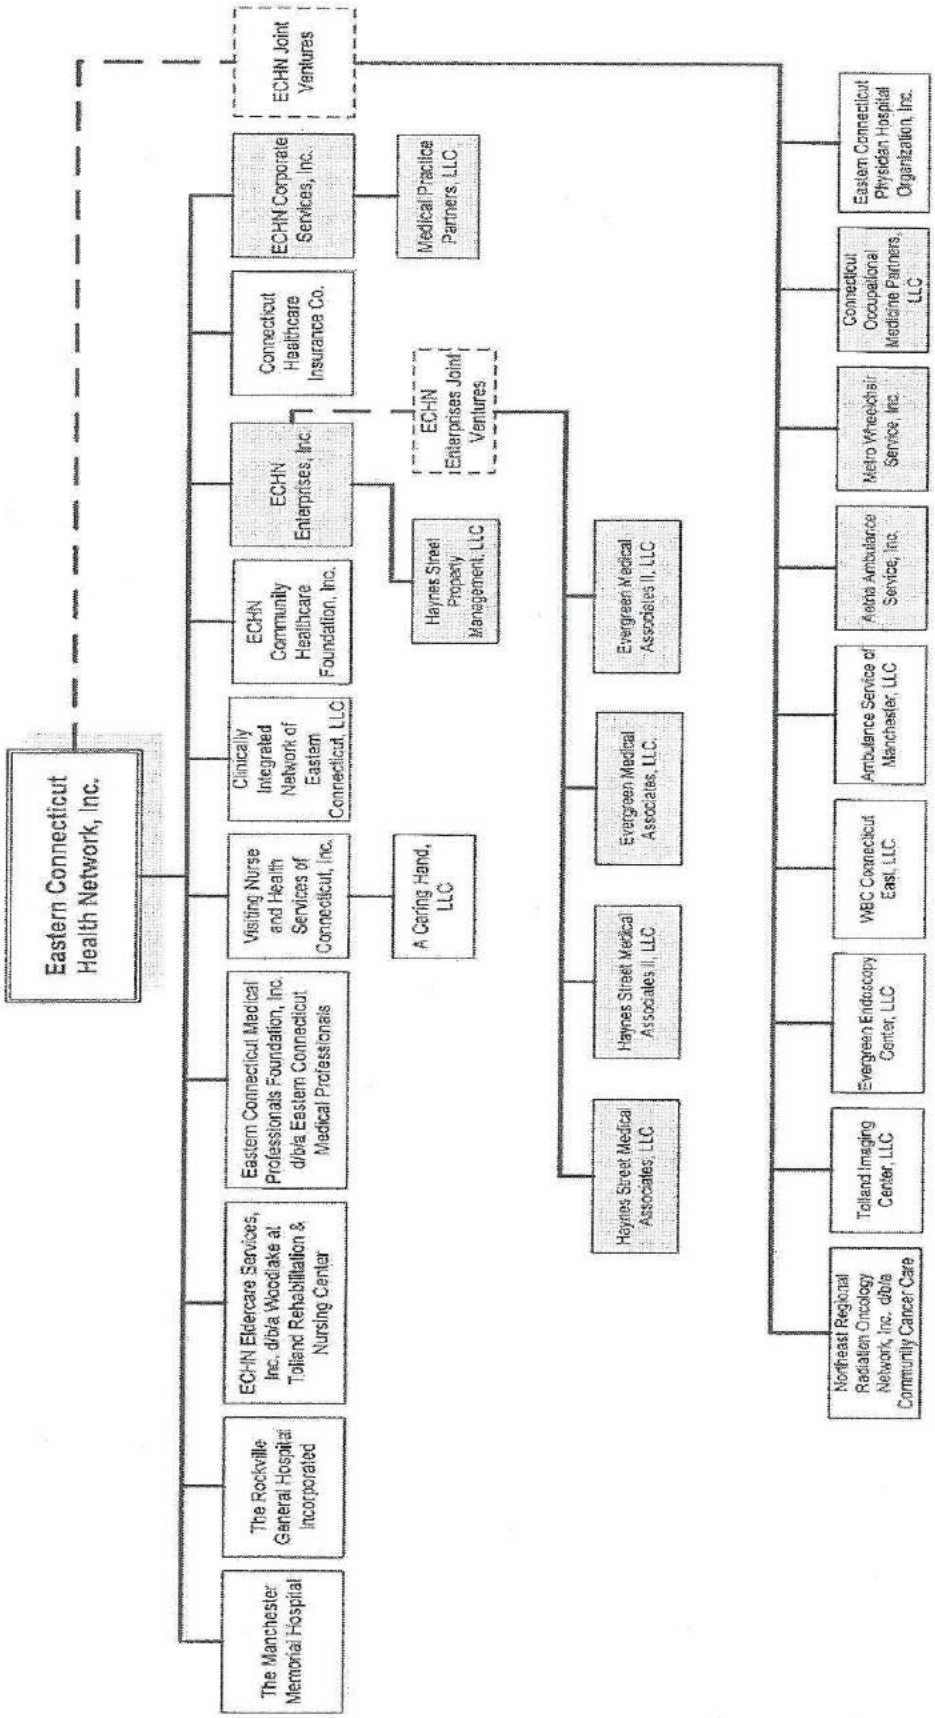
On February 19, 2016, OHCA and the OAG notified the Applicants of the date, time and place of the public hearing. On March 10, 2016, OHCA and the OAG notified the Applicants of the revised date, time and place of the public hearing. On March 11, 2016, a notice to the public announcing the hearing was published in the *Journal Inquirer*. Thereafter, pursuant to Conn. Gen. Stat. §19a-639a and §19a-486, a public hearing regarding this application was held on March 29 and 30, 2016, jointly by OHCA and the OAG.

Attorney Kevin T. Hansted was designated as the hearing officer in this matter. The hearing was conducted in accordance with the provisions of the Uniform Administrative Procedures Act (Chapter 54 of the Conn. Gen. Stat.) and Conn. Gen. Stat. §19a-639a(f).

The Hearing Officer heard testimony from witnesses for the Applicants and, in rendering this decision, considered the entire record of the proceeding.

To the extent the findings of fact actually represent conclusions of law, they should be so considered, and vice versa. *SAS Inst., Inc. v. S & H Computer Systems, Inc.*, 605 F. Supp. 816 (Md. Tenn. 1985).

# Findings of Fact



1. ECHN is a not-for-profit health care system that is the parent company of two acute care hospitals in Connecticut, Manchester Memorial Hospital ("MMH") located in Manchester and Rockville General Hospital ("RGH") located in Vernon (at times collectively referred to as the "Hospitals"). Ex. G, p. 24

2. ECHN's care network consists of the following wholly owned entities:
   - MMH
   - RGH
   - ECHN ElderCare Services, Inc. ("Woodlake at Tolland")
   - Visiting Nurse and Health Services of Connecticut, Inc.
   - A Caring Hand, LLC
   - Clinically Integrated Network of Eastern Connecticut, LLC
   - Connecticut Healthcare Insurance Company
   - ECHN Corporate Services, Inc.
   - Medical Practice Partners, LLC
   - ECHN Enterprises, Inc.
   - Haynes Street Property Management, LLC
   - Eastern Connecticut Medical Professionals Foundation, Inc.
   - ECHN Community HealthCare Foundation, Inc.

   Ex. G, pp. 24-25

3. Additionally, ECHN or an ECHN affiliate has ownership interests in the following joint ventures: Evergreen Endoscopy Center, LLC, WBC Connecticut East, LLC, Aetna Ambulance Service, Inc., Metro Wheelchair Service, Inc., Ambulance Service of Manchester, LLC, Connecticut Occupational Medicine Partners, LLC, Eastern Connecticut Physician Hospital Organization, Inc., Northeast Regional Radiation Oncology Network, Inc., Tolland Imaging Center, LLC, Haynes Street Medical Associates, LLC, Haynes Street Medical Associates II, LLC, Evergreen Medical Associates, LLC, and Evergreen Medical Associates II, LLC (collectively, the "Joint Ventures"). Ex. G, p. 25

4. The chart on the following page depicts ECHN's current organizational structure. Ex. G, p. 1836

Eastern Connecticut Health Network, Inc.
The Manchester Memorial Hospital
The Rockville General Hospital Incorporated
ECHN Eldercare Services, Inc. d/b/a Woodlake at Tolland Rehabilitation & Nursing Center

5. ECHN serves the following nineteen towns in eastern Connecticut: Andover, Bolton, Coventry, Ellington, Manchester, South Windsor, Tolland, Vernon, Willington, Ashford, Columbia, East Hartford, East Windsor, Glastonbury, Hebron, Mansfield, Somers, Stafford, and Union (the "Service Area"). Ex. G, p. 24

6. ECHN's financial condition has been strained since 2001, limiting its access to the capital required to improve infrastructure and recruit physicians. ECHN lost more than $9 million from operations over the last 15 years and its pension liability has grown from $9 million to $63 million over the same span. Ex. Z, Prefiled Testimony of Peter J. Karl, President and CEO, ECHN, p. 3341; Ex. BB, pp. 3955, 3957; Ex. G. pp. 25, 1921-23

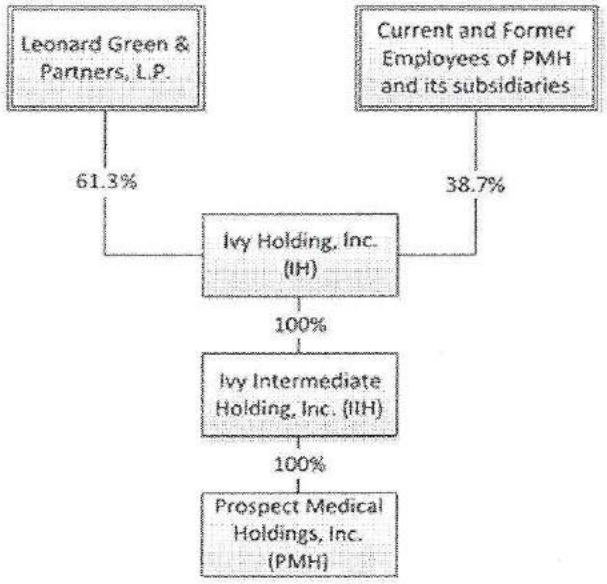
7. ECHN has attempted to improve its financial situation through various initiatives, including hiring freezes, wage freezes, reductions in workforce, and a reduced workweek. This has included a reduction of 200 positions in recent years. Despite these measures, a large portion of ECHN's cash flow has been required to fund debt service and pension obligations, making capital investments difficult. Ex. G, p. 35; Tr., Testimony of Peter J. Karl on 3/30/16, p. 21; Ex. BB, p. 3955

8. In 2011, ECHN began exploring whether potential affiliations with another health care system would enable ECHN to better serve the community. At the time, ECHN believed it had five years until its financial circumstances would become dire. Ex. G, p. 36; Tr., Testimony of Dennis O'Neill, M.D., Chairman of ECHN Board of Trustees, on 3/30/16, p. 15

9. In November of 2012, ECHN conducted a request for proposal ("RFP") process and a Transaction Committee was established by the ECHN Board of Trustees to evaluate the proposals. As a result of this RFP process, a regulatory approval process was initiated in June of 2014 for the acquisition of ECHN's assets by a joint venture to be formed by Yale New Haven Health System and Tenet Healthcare. However, Tenet informed ECHN in December of 2014 that it was withdrawing from the process. Ex. G, pp. 38-39

10. In 2015, the Transaction Committee conducted a second RFP process. The Transaction Committee evaluated the three proposals received against selection criteria and requested further information from each respondent. The Transaction Committee then reviewed financial, quality and corporate compliance data for each respondent. Each proposal was evaluated for its ability to satisfy ECHN's financial needs and liabilities, any antitrust considerations, and state regulatory requirements for a hospital conversion. The Transaction Committee also made site visits to hospitals recently merged with or acquired by the respondents. Ex. G, pp. 39-42

11. In June of 2015, the Transaction Committee decided to negotiate solely with PMH. After reviewing the Letter of Intent and the draft Asset Purchase Agreement ("APA") negotiated with PMH, the Transaction Committee recommended that the ECHN Board of Trustees accept the proposal. On June 25, 2015, a unanimous vote of the ECHN Board of Trustees approved the Letter of Intent and APA, and on July 29, 2015 ECHN's Corporators approved the APA. Ex. G, pp. 42-43, 107-120, 122-214, 396



12. The Applicants are requesting approval of the proposed asset purchase (the "Asset Purchase") as a solution to ECHN's long-standing challenges that offers the Service Area continued access to its services and facilities. Ex. G, p. 26

13. PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of these regions. Ex. G, pp. 25, 27; Ex. Z, Prefiled Testimony of Von Crockett, Senior Vice President of Corporate Development, PMH, p. 3355

14. Through PMH's medical group segment, PMH also manages the provision of physician services in each of its markets through a network of approximately 8,900 physicians. The physician networks operate as independent practice associations ("IPAs") that contract with PMH-owned management service organizations ("MSOs"). The IPAs are comprised of both PMH-employed and independent community physicians and other allied health professionals. Ex. G, p. 25; Ex. K, p. 2159; Ex. N, p. 3231

15. PMH aligns its hospitals and physician networks under a model called Coordinated Regional Care ("CRC"). CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. PMH believes that the CRC model improves quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. Ex. G, p. 26

16. The chart below shows PMH's ownership structure.

Ex. K, p. 2205

17. ECHN selected PMH as the proposed purchaser because its financial resources and access to capital are anticipated to maintain ECHN's assets as economically viable and vibrant parts of the healthcare system in Eastern Connecticut by permitting capital investments, better preparing MMH and RGH to participate in new value-based delivery models, offering enhanced practice options for physicians, strengthening its network of providers and allowing for other improvements in operations. Ex. Z, Prefiled Testimony of Dennis O'Neill, p. 3333

18. In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million and close to $75 million in cash from operations. The company also received credit upgrades by both Moody's and S&P in 2015, with Moody's rating PMH's bonds as B1 and S&P rating PMH's bonds as B. These ratings still stand as of May 3, 2016. Ex N, pp. 3245, 3249-59; Tr., Testimony of Steven Aleman, Chief Financial Officer, PMH, on 5/3/2016, p. 113

19. Under the APA, PMH will pay $105 million for substantially all the assets of ECHN, including both Hospitals (a) plus any excess of net working capital over $24 million or minus any net working capital under $24 million; (b) minus the value of certain ECHN liabilities assumed by PMH (including ECHN's unfunded pension obligations, captive insurer liability, capital leases and workers' compensation liability); (c) minus asbestos abatement liability of up to $1 million; and (d) in the event that ECHN is unable to assign and transfer its interest in any ECHN Joint Venture to PMH, minus a dollar amount to be fixed in advance for each ECHN Joint Venture. Ex. G, pp. 29, 145

20. Certain assets of ECHN will be excluded from the sale, including certain cash and cash equivalents of ECHN, all short-term and long-term investments other than ECHN's investments in the Joint Ventures, board-designated, restricted and trustee-held or escrowed funds, beneficial interests in charitable assets and accrued earnings on all of the foregoing. These assets will be transferred to a new, independent charitable entity (the New Foundation") established by ECHN. The New Foundation will use the charitable assets for appropriate charitable health care purposes in the communities traditionally served by ECHN. Ex. G, pp. 29, 49, 312-13; Ex. BB, p. 3338.

21. There is no financing contingency with respect to the transaction. PMH anticipates funding the transaction using its existing cash and also has access to a $40 million revolving line of credit with Morgan Stanley that has been pre-approved. In order to draw on this line, PMH provides a 24 hour advance verbal notice to the lenders. Ex. G., p. 78; Ex. K, p. 2191

22. The transaction is estimated to require $28 million in cash from PMH at closing. PMH currently has in excess of $65 million in cash and is anticipated to have close to $100 million in cash on hand by the time the Asset Purchase closes, as a result of its growth in revenues that is generating between $10-15 million of free cash flow on a monthly basis. PMH currently has less cash than previously reported due to the recent acquisition of East Orange General Hospital in New Jersey. The revolving line of credit, which PMH recently drew down to $10

million to finance its purchase of East Orange General Hospital, is also expected to be restored to $30 million by the time of closing. Ex. K, p. 2192; Ex. UU.; Tr., Testimony of Steven Aleman, CFO, PMH, on 3/29/2016, p. 152-53

23. The proceeds from the Asset Purchase will be used first to settle all of ECHN's indebtedness not otherwise assumed by PMH, then to fund the indemnity reserve for payment of ECHN liabilities to PMH that may arise post-closing. Any funds remaining in the reserve after a specified period will be transferred as directed by the OAG. Ex. G, p. 30

24. Table 1 summarizes the net proceeds and flow of funds associated with the Asset Purchase as of March 31, 2016 compared to September 30, 2015, including ECHN's anticipated plan for payment of debt and pension obligations as well as payment of other liabilities. The amounts are subject to adjustment at the closing date ("Closing Date").

**TABLE 1**

**APA PROJECTED NET PROCEEDS AND FLOW OF FUNDS**

| | | | Actual 9/30/2015 | Actual 3/31/2016 |
|---|---|---|---|---|
| ACQUISITION PRICE (EV) | A | | 105,000,000 | 105,000,000 |
| ASSUMED ASSETS & LIABILITIES: Pension & Retiree Medical | | | (62,598,000) | (67,598,000) |
| Captive & Workers Comp. | | | (1,705,000) | (1,705,000) |
| Net Working Capital True-up | | | (9,107,000) | (8,275,000) |
| RGH Eating Disorder Loan | | | 0 | 0 |
| Seller's Reimbursable Costs | | | (424,000) | (424,000) |
| Capital Leases | | | (6,764,000) | (5,922,000) |
| Asbestos Abatement | | | (1,000,000) | (1,000,000) |
| TOTAL ACQ LIABILITIES | B | | (81,598,000) | (84,924,000) |
| THRESHOLD on LIABILITIES | C | | (77,000,000) | (77,000,000) |
| GUARANTEED NET PROCEEDS | D | A-C | 28,000,000 | 28,000,000 |
| CASH & INVESTMENTS (ECHN) * | E | | 58,454,000 | 54,968,000 |
| TOTAL CASH for DEBT PAYOFF | F | D+E | 86,454,000 | 82,968,000 |
| LONG TERM DEBT | G | | (78,420,000) | (75,896,000) |
| SURPLUS after DEBT DEFEASANCE | H | F-G | 8,034,000 | 7,072,000 |
| Post-Closing Pool "Wind Down" Funds | | | 1,000,000 | 1,000,000 |
| Excess Liabilities Assumed | | B-C | (4,598,000) | (7,924,000) |

| | | | | |
|---|---|---|---|---|
| Funds Remaining after PMH Reimbursed | K | H-I+J | 2,436,000 | (1852,000) |
| Deduction to Capital Commitment** | L | | 0 | 1852,000 |
| Available for Indemnity Reserve | M | K+L | 2,436,000 | 0 |
| Legacy ECHN *** | | | 2,229,000 | 2,139,000 |

* PMH is assuming a $5 million loan for the RGH Eating Disorder Unit without a price deduction. To the extent that cash is available beyond the $1 million for post-closing costs and $4 million for the indemnity reserve, ECHN can mitigate a deduction to the capital commitment up to $5 million.
** If line K is less than zero, then there was not sufficient ECHN cash left to make PMH whole on additional liabilities assumed, thus a dollar for dollar reduction to the $75 million capital commitment applies.
*** Estimated value of future settlements on funds due from Medicare and Medicaid less funds due to Medicare and Medicaid for prior years that are still pending final review. The amounts are net of various balance sheet accounts that will not be part of the acquisition.
Late File 8, dated Apr. 20, 2016; Ex. TT

25. After the closing of the proposed Asset Purchase, the assets of ECHN will be transferred to Prospect ECHN, Inc. ("New ECHN") or one or more of its affiliates. New ECHN will serve as the health system parent company and sole shareholder of the PMH affiliates that will hold the hospital licenses for MMH and RGH after the closing of the proposed Asset Purchase (the post-closing for-profit hospitals will be referred to individually as "New MMH" and "New RGH" and collectively as "New Hospitals.") Ex. G, p.1838; Late File 13, dated Apr. 20, 2016

26. For at least three years after the Closing Date, PMH will continue operating New MMH and New RGH in their current locations as acute care hospitals with emergency departments, will maintain an ownership interest in ECHN's current post-acute care continuum of care network and will require any wholly owned entity involved with such post-acute care continuum of care network to maintain appropriate service lines. Ex. G, pp. 32, 110

27. PMH has no plans to eliminate any currently offered services at MMH or RGH after the Closing Date. No service line or service location changes are currently planned in connection with the proposed Asset Purchase, although it is expected that the ECHN ambulatory network will be expanded and services configured to promote the most efficient delivery of coordinated care following the closing. Ex. K, p. 2189

28. Following the closing, New MMH and New RGH will each maintain an advisory board subordinate to PMH's Board of Directors and made up of community representatives, physicians on the medical staffs of New MMH and New RGH, and the New Hospitals' CEO (the "Local Board"). PMH plans to appoint the same individuals to the Local Board of New MMH and the Local Board of New RGH and to have the boards meet concurrently to encourage interaction within the system. PMH will schedule regular standing meetings to update the Local Board. Ex. G, p. 30; Ex. K, p. 2165

29. The initial members of the Local Board will include at least five members of ECHN's Board of Trustees. The Local Board will serve as a resource for PMH with respect to investment of the $75 million commitment amount (the "Commitment Amount") set forth in the APA, assist with maintenance and implementation of a strategic business plan for the New Hospitals, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospitals. Ex. G, p. 30

30. During such periods that PMH operates the New Hospitals, it has agreed to maintain ECHN's commitment to quality, safety, and patient satisfaction, including maintaining appropriate enrollment, certifications, and accreditations necessary to receive reimbursement under government payment programs. Ex. G, p. 181

31. PMH has had to significantly modify its own Quality Assurance and Performance Improvement ("QAPI") as a result of recent surveys of two of PMH's California hospitals, Los Angeles Community Hospital and Southern California Hospital, resulting in the California Department of Health imposing Immediate Jeopardy citations. Ex. Z, Prefiled Testimony of Von Crockett, pp. 3355-57; Ex. K, pp. 2684-2808, 2835-3020; Ex. Z, pp. 3402-77, 3479-3645

32. ECHN's representatives learned of the Immediate Jeopardy situations on February 1, 2016. In response, the ECHN Board of Trustees appointed a Quality Evaluation Team to investigate whether there were systemic problems suggesting PMH might be an unreliable buyer from a quality and patient safety perspective. The team members visited PMH's CharterCare hospitals in Rhode Island to review their quality program and met with quality personnel at various PMH hospitals, including California and Rhode Island. ECHN concluded that the compliance issues were isolated and that PMH demonstrated a strong commitment to remediate the problems. Based on this information, on March 23, 2016, the ECHN Board of Trustees confirmed its commitment to proceed with the transaction. Tr., Testimony of Peter Karl on 3/29/16, p. 101; Late File 1, dated Apr. 20, 2016; Ex. Z, Prefiled Testimony of Joy Dorin, Vice Chair, ECHN Board of Trustees, p. 3352

33. On March 28, 2016, the parties entered into a Quality Commitment Letter pursuant to which PMH agreed to maintain certain ECHN quality programs for the first two years after the Closing Date and not modify them without approval of the Local Board. The Quality Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospitals. Tr, Testimony of Jonathon Spees, Senior Vice President of Mergers and Acquisitions, PMH, on 3/30/16, p. 80; Ex. EE

34. With respect to quality activities, ECHN currently functions as a high reliability organization ("HRO") committed to empowering all levels of employees to notify administrators of any patient care issues and fixing processes, leading to consistent delivery care and improved outcomes. PMH is supportive of ECHN's HRO status. Tr., Testimony of Von Crockett on 3/29/2016, p. 49; Tr., Testimony of Mitchell Lew, President, PMH, on 3/29/2016, p. 68-69

35. Additionally, as a result of the Immediate Jeopardy citations, PMH has hired a corporate level Chief Quality Officer, Chief Clinical Officer, Chief Nursing Officer and an Associate Vice President of Regulatory and Patient Safety to assist in providing necessary resources to implement all quality programs at its local hospitals and share best practices among the hospitals. Ex. Z, Prefiled Testimony of Von Crockett, pp. 3355-57

36. PMH is also establishing an Eastern region quality team and will hire a regional Director of Quality by the time of closing of the Asset Purchase. This regional team will serve as a resource for the New Hospitals, as well as PMH hospitals located in New Jersey, Rhode Island and Pennsylvania. When one of the New Hospitals has a question about a corporate practice or policy, the Eastern region quality team will have the ability to be on-site in order to assist the local team. Tr., Testimony of Peter Karl on 3/30/2016, pp. 144-47

37. Other PMH initiatives include retaining a national consulting firm and legal counsel to assist in preparedness and responses to Centers for Medicare & Medicaid Services surveys. Under PMH's draft QAPI program, a Hospital Quality & Patient Safety Committee will be developed at each of the New Hospitals, with oversight over subcommittees and workgroups that address the hospital's unique needs. These committees will report to a Regional Quality and Patient Safety Steering Council, which will report to the Corporate Quality and Patient Safety Steering Council. Tr., Testimony of Von Crockett on 3/29/15, pp. 93-94; Ex. Z, Prefiled Testimony of Von Crockett, pp. 3356-57; Ex. Z, pp. 3402-03; Late File 1, dated Apr. 20, 2016; Late File 10, dated Apr. 20, 2016

38. The APA commits PMH to expend the Commitment Amount in capital projects to upgrade the New Hospitals' facilities and services over the next five years. However, the APA also provides that the Commitment Amount is subject to a dollar-for-dollar reduction if ECHN has more than $77 million of liabilities on the Closing Date other than long-term debt and there is not enough available cash or money in the indemnity reserve established under Section 9.8 of the APA to cover the excess liabilities being assumed by PMH. Ex. G, pp. 146-47, 181, 199

39. PMH intends to fund its capital commitments through the operations of ECHN, PMH's existing cash at the time of expenditure or, if necessary, PMH's corporate level credit facility. Ex. G, p. 78

40. The APA provides that the Commitment Amount will be spent on (a) capital projects, including routine and non-routine capital expenditures for the improvement of facilities and/or the acquisition, development, expansion and improvement of hospital, ambulatory or other health care services; (b) de novo development, expansion or acquisition of a department, program, service or facility; (c) upgrades or renovations generally; (d) deferred maintenance items; and (e) recruitment of medical staff. Ex. G, pp. 181-82

41. The Commitment Amount has not been specifically apportioned to each hospital or its affiliates. Allocations of the Commitment Amount will be made by PMH after it receives input from the Local Board and medical staff. Ex. E, p. 78

42. After closing, PMH and the Local Board will develop a strategic capital plan. The capital projects in Table 2 below have been identified by ECHN management as priority capital projects. The projects will require PMH approval with input of the Local Board. Ex. G, pp. 31, 82

**TABLE 2**
**CAPITAL PRIORITY PROJECTS IDENTIFIED BY ECHN (IN MILLIONS)**

| Description | Estimated Cost (In Millions) |
|---|---|
| 1. Upgrades to emergency department for behavioral health patients (MMH) | $1.1 |
| 2. Electronic medical record system replacement (MMH & RGH) | $20 |
| 3. Upgrades to nursing units (RGH) | $6.6 |
| 4. Upgrades to nursing units (MMH) | $11 |
| 5. Vessel sealing systems (MMH & RGH) | $0.6 |
| 6. MRI replacement (MMH) | $1.6 |
| 7. SPECT scanner replacement (MMH) | $0.4 |
| **Total Estimated Cost** | **$41.3** |

Ex. E, p. 82; Ex. H, p. 2193

43. PMH has also provided a list of immediate estimated capital expenditures at the New Hospitals, as well as the Woodlake at Tolland nursing and rehabilitation facility, that it plans to address within 3 years of closing at a total estimated cost of approximately $11.8 million. Table 3 below shows the timeline for these expenditures, which are mainly comprised of deferred maintenance to the physical plants of these facilities.

**TABLE 3**
**PRIORITY FACILITY CAPITAL NEEDS OF ECHN**

| Facility | Year 1 | Year 2 | Year 3 | Total |
|---|---|---|---|---|
| Manchester Memorial Hospital | $3,455,000 | $2,225,000 | $2,020,000 | $7,700,000 |
| Rockville General Hospital | $727,000 | $916,000 | $1,370,000 | $3,013,000 |
| Woodlake at Tolland | $439,700 | $137,000 | $487,500 | $1,064,200 |
| **Total estimated expenditures** | | | | **$11,770,200** |

Late File 12, dated Apr. 20, 2016

44. In recent years, ECHN reported that it has spent very little on capital improvements other than required expenditures to repair or replace plant and equipment. Additionally, creditors have become reluctant to work with ECHN on large projects that would require financing until it is acquired. Ex. G, p. 83; Tr., Testimony of Michael Veillette, CFO, ECHN, on 3/29/2016, p. 161

45. After the Asset Purchase, capital will be available to ECHN for replacements and upgrades to systems and the infrastructures of ECHN's facilities; investments to improve the sharing of electronic medical records in order to improve the collection and documentation of information and to enhance the availability of information for critical treatment decisions for patients; upgrades to medical equipment and technology to provide patients access to state-of-the-art technology for diagnosis, care and treatment; and program development to attract and retain physicians. Ex. G, p. 57

46. As of the closing, PMH or its affiliates will offer employment to substantially all ECHN employees who are in good standing, in positions and at salaries at least equal to those then being provided by ECHN and with benefits packages comparable to those offered to similarly-situated employees at other hospitals operated by PMH. Ex. G, pp. 31, 171

47. PMH will maintain and support financially ECHN's University of New England medical student and other health profession teaching programs, as well as ECHN's graduate medical education programs, while operating at a level not to exceed the Indirect Medical Education and Direct Graduate Medical Education caps that may be established by the Centers for Medicare and Medicaid Services. Ex. G, pp. 32, 181

48. In addition to continued support of its teaching programs, ECHN believes that PMH's CRC model will help overcome challenges in retaining and recruiting physicians that it has faced in recent years. PMH has developed significant experience in other markets regarding ways hospitals can attract more primary care providers and improve access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals in mid-2014. Ex. G, p. 75; Ex. K, p. 2177-78

49. In order to implement the CRC strategy, PMH has established an IPA entity in Connecticut (Prospect Provider Group CT-ECHN, LLC, or "PPGCTE") and a preferred provider network/health system risk taking entity, Prospect Health Services, CT, Inc., that will contract with payers on behalf of PPGCTE physicians. These two organizations, through management services agreements with PMH, will manage physician participation, risk contracting and care management activities for participating members. Ex. K, p. 2158

50. The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and early readmissions, reducing inpatient utilization and reducing emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. Ex. K, p. 2192; Ex. G, pp. 76, 107

51. PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores,

increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas, where PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. Ex. G, pp. 73, 75-76

52. Subject to changes in legal requirements or governmental guidelines or policies, PMH will ensure that New MMH and New RGH maintain and adhere to ECHN's current policies regarding charity care, bad debt, indigent care, community volunteer services and community benefits or adopt other policies that are at least as favorable to the indigent and uninsured in the aggregate as ECHN's current policies. ECHN's policies are generally comparable to such policies at PMH's other hospitals. Ex. G, pp. 32, 75, 93, 181, 1912-19; Ex. K, p. 3233; Ex. Z, Prefiled Testimony of Jonathon Spees, p. 3379

53. PMH will continue to provide financial support for community benefit and community building activities in the Manchester/Rockville Area to the same degree as ECHN did in FY 2014. The spending by PMH for community building activities post-closing is projected to increase 1% each year through FY 2019, and the spending for both community benefit and community building activities post-closing assumes no change in the Medicaid population served or the complement of community benefit programs offered by New MMH and New RGH. Ex. G, pp. 96, 99.

54. Table 4 below describes the socioeconomic condition of the ECHN Service Area towns in comparison to the state of Connecticut as a whole and shows the areas most in need of such programs.

**TABLE 4**
**SOCIOECONOMIC STATUS OF THE SERVICE AREA**

**Socioeconomic Data**

| | Town | Poverty Rate[1] | Median Household Income[1] | Unemployment Rate[2] | Median Age[1] |
|---|---|---|---|---|---|
| **PSA** | Andover | 4.9% | $97,762 | 6.4% | 43 |
| | Bolton | 2.1% | $87,885 | 6.0% | 47 |
| | Coventry | 3.5% | $92,308 | 7.1% | 43 |
| | Ellington | 2.7% | $84,934 | 6.0% | 40 |
| | Manchester | 8.9% | $63,656 | 7.4% | 37 |
| | South Windsor | 4.3% | $91,519 | 5.9% | 42 |
| | Tolland | 3.7% | $103,358 | 5.5% | 41 |
| | Vernon | 9.2% | $61,848 | 7.5% | 41 |
| | Willington | 18.1% | $70,013 | 5.5% | 35 |

| | | | | | |
|---|---|---|---|---|---|
| SSA | Ashford | 4.2% | $75,242 | 7.2% | 38 |
| | Columbia | 3.8% | $92,973 | 6.4% | 47 |
| | East Hartford | 15.3% | $48,438 | 9.8% | 39 |

Ex. G, p. 63

55. The Rockville section of Vernon, where RGH is located, has been designated as a Medically Underserved Population by the Health Resources and Services Administration, and the northwestern part of Mansfield has been designated as a Health Professional Shortage Area for Primary Medical Care. RGH, MMH and ECHN affiliates currently provide safety net services to this region. This proposal will support the availability of health care services to the vulnerable populations in the Service Area. Ex. G, p. 63

56. In 2013, MMH and RGH collaborated to conduct a Community Health Needs Assessment ("CHNA"), which identified the current and future health care needs of the community. The four priority health needs identified were heart disease incidence, cancer incidence, diabetes incidence and arthritis incidence. An implementation plan was developed to respond to the identified health needs. Ex. G, pp. 70, 1781-87, 1789-95

57. PMH and its affiliates will support the priority needs identified by the CHNA with physician alignment and population health management strategies, enhanced through implementation of CRC, which focuses on the health of vulnerable populations. PMH has committed to implement and support the current CHNA through 2016 and conduct another CHNA for the Service Area over the next two years and to implement the recommendations of such study as deemed necessary and appropriate. Ex. G, pp. 70-71; Ex. Z, Prefiled Testimony, Von Crockett, p. 3362

58. PMH has stated that New MMH and New RGH will be in compliance with the following general community benefit standards for at least the first three years: (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusions of other qualified

doctors; (c) the New Hospitals shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24/7 emergency departments and provide emergency services to patients regardless of their ability to pay. *Tr. Testimony of Tom Reardon, President, PMH East, on 5/3/16, pp. 103-04*

59. PMH and ECHN representatives have already met with leadership for Connecticut's Medicaid Program at the Department of Social Services ("DSS") and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. Ex. G, pp. 74-75

60. The patient populations currently served by the Hospitals is not expected to change as a result of the Asset Purchase. PMH will accept all existing contracts with payers and will complete a change of ownership process with commercial payers, as well as Medicare and the Connecticut Medical Assistance Program (Medicaid). Table 5 below describes the current patient population/payer mix for MMH and RGH, as well as the projected mix for the New Hospitals. Ex. G, p. 85

**TABLE 5**
**PATIENT POPULATION/PAYER MIX**

| Manchester Memorial | Current FY 2015 | Projected FY 2016 | Year 1 FY 2017 | Year 2 FY 2018 | Year 3 FY 2019 |

*(1) Includes managed care activity*
*(2) Includes managed care activity and other medical assistance*
Ex. G, p. 84-85

61. PMH's acquisitions of other health systems and hospitals have resulted in improved financial performance at many of the systems. Table 6 below illustrates the financial performance of some of PMH's hospitals after they were acquired by PMH.

**TABLE 6**
**PMH'S RECENT ACQUISITIONS FINANCIAL PERFORMANCE (in Thousands)**

| Entity | EBITDA | | | Working Capital | | | Stockholder's Equity | | |
|---|---|---|---|---|---|---|---|---|---|
| | Year prior to acquisition | FY 2014 | FY 2015 | Year prior to acquisition | FY 2014 | FY 2015 | Year prior to acquisition | FY 2014 | FY 2015 |
| Nix Health System (a) | $14,905 | $18,411 | $8,043 | $5,937 | $36,785 | $35,449 | $13,122 | $20,468 | $63,789 |
| Roger Williams Medical Center (b) | $3,942 | $1,582 | $9,080 | ($1,860) | $1,114 | $6,230 | $37,184 | $34,099 | $38,256 |

| | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| Our Lady of Fatima Hospital(c) | ($893) | $509 | $6,485 | $1,904 | $2,040 | $3,432 | ($57,150) | $27,513 | $28,107 |

(a) Nix is a Health System based in Texas. Nix's Earnings Before Interest, Taxes, Depreciation and amortization (EBITDA) is based on reported trailing twelve months ended on 1/31/2011. Declines in EBITDA between 2014 and 2015 were due to the fluctuation in net reimbursement related to payments made to the Service Organization of San Antonio "SOSA". Funding to SOSA is voluntary but it is projected to average approximately $12M a year based on budgeted spending initiatives of the service organization. In 2014 the funding requirements were $5.7M (lower by approximately $6.3M) and in 2015 funding requirements returned to $12M. The remaining difference was comprised of lower volume at the facility as services were reconfigured and medical staff turnover. Working Capital of Nix prior to acquisition is as of 1/31/2011 and includes cash which was not part of assets acquired by Prospect.

(b) EBITDA for Roger Williams Medical Center, located at Providence, Rhode Island, for Year Prior to Acquisition is only for 8 months ending on May 31, 2014 and EBITDA for FY2014 is only for three months post acquisition for FYE 9/30/2014. Working Capital is for prior to acquisition is as of 5/31/2014 and includes cash which was not part of assets acquired by Prospect and as prior to the acquisition it was a non-profit organization, therefore, Net Assets were used as a substitute for Stockholder's Equity.

(c) EBITDA for Our Lady of Fatima Hospital in Rhode Island for Year Prior to Acquisition is only for 8 months ending on May 31, 2014 and for FY2014 is only for three months post acquisition for FYE 9/30/2014. Working Capital prior to acquisition is as of 5/31/2014 and includes cash which was not part of assets acquired by Prospect and prior to the acquisition was a non-profit organization, therefore, Net Assets were used as a substitute for Stockholder's Equity.

Late File 19, dated Apr. 20, 2016; Ex. QQ, dated May 9, 2016

62. Financial benefits associated with this proposal include: operational efficiencies and economies of scale, participation in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. Ex. G, p. 57; Ex. Z, Prefiled Testimony of Jonathon Spees, p. 3379; Ex. Z, Prefiled Testimony of Von Crockett, pp. 3358-59; Ex. N, p. 3236

63. Tables 7 and 8 below represent MMH's projected revenues and expenses from operations with and without this proposal, projecting gains from operations for MMH with the CON at $11.6 million (before income taxes) by FY 2019, as opposed to $6.7 million without the CON.

**TABLE 7**
**MMH PROJECTED REVENUES AND EXPENSES WITH CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $191,485,686 | $196,943,847 | $202,818,436 |
| Total Operating Expenses | $181,570,103 | $186,486,220 | $191,183,170 |
| **Gain/Loss from Operations** | **$9,915,583** | **$10,457,627** | **$11,635,266** |
| **Provision for Income Taxes** | **$4,254,950** | **$4,482,606** | **$5,030,134** |
| **Gain/Loss from Operations** | **$5,660,633** | **$5,975,021** | **$6,605,133** |

Ex. K, p. 2314

**TABLE 8**
**MMH PROJECTED REVENUES AND EXPENSES WITHOUT CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $189,022,494 | $192,255,217 | $195,904,378 |
| Total Operating Expenses | $183,683,229 | $186,432,862 | $189,232,208 |
| **Gain/Loss from Operations*** | **$5,339,265** | **$5,823,000** | **$6,672,170** |

*Provision for income taxes doesn't apply to not-for-profit entities.
Ex. K, p. 2314

64. Tables 9 and 10 represents RGH's projected revenues and expenses from operations with and without this proposal, projecting gains from operations for RGH with the CON at $1.6 million (before income taxes) by FY 2019, as opposed to $114,525 without the CON.

**TABLE 9**
**RGH PROJECTED REVENUES AND EXPENSES WITH CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $70,634,865 | $72,732,353 | $74,987,275 |
| Total Operating Expenses | $69,632,163 | $71,490,737 | $73,368,375 |
| **Gain/Loss from Operations** | **$1,002,702** | **$1,241,616** | **$1,618,900** |
| **Provision for Income Taxes** | **$419,357** | **$607,900** | **$766,359** |
| **Gain/Loss from Operations** | **$583,345** | **$633,715** | **$852,541** |

Ex. K, p. 2316

**TABLE 10**
**RGH PROJECTED REVENUES AND EXPENSES WITHOUT CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $69,583,227 | $70,771,104 | $72,116,415 |
| Total Operating Expenses | $69,891,198 | $70,937,011 | $72,001,890 |
| **Gain/Loss from Operations*** | **($307,971)** | **($165,907)** | **$114,525** |

*Provision for income taxes doesn't apply to not-for-profit entities.
Ex. K, p. 2316

65. OHCA is currently in the process of establishing its policies and standards as regulations. Therefore, OHCA has not made any findings as to this proposal's relationship to any regulations not yet adopted by OHCA. Conn. Gen. Stat. § 19a-639(a)(1)

66. The application is consistent with the overall goals of the Statewide Health Care Facilities and Services Plan. Conn. Gen. Stat. § 19a-639(a)(2)

67. The Applicants have established that there is a clear public need for the proposal. Conn. Gen. Stat. §19a-639(a)(3)

68. The Applicants have demonstrated that the proposal will improve the overall financial strength of the health care system and that it is financially feasible. Conn. Gen. Stat. §19a-639(a)(4)

69. Subject to the conditions below, the Applicants have satisfactorily demonstrated that the proposal will maintain quality, accessibility and cost effectiveness of health care delivery in the region. Conn. Gen. Stat. §19a-639(a)(5)

70. Subject to the conditions below, the Applicants have shown that there would be no adverse change in the provision of health care services to the relevant populations and payer mix, including access to services by Medicaid recipients and indigent persons. Conn. Gen. Stat. §19a-639(a)(6)

71. The Applicants have satisfactorily identified the population to be affected by this proposal. Conn. Gen. Stat. §19a-639(a)(7)

72. The historical utilization of ECHN's services in the service area support this proposal. Conn. Gen. Stat. §19a-639(a)(8)

73. The Applicants have satisfactorily demonstrated that this proposal would not result in an unnecessary duplication of existing services in the area. Conn. Gen. Stat. §19a-639(a)(9)

74. Subject to the conditions below, the Applicants have demonstrated that there will be no reduction in access to services by Medicaid recipients or indigent persons. Conn. Gen. Stat. §19a-639(a)(10)

75. The Applicants have satisfactorily demonstrated that the proposal will not have a negative impact on the diversity of health care providers in the area. Conn. Gen. Stat. §19a-639(a)(11)

76. The Applicants have satisfactorily demonstrated that the proposal will not result in any consolidation that would affect health care costs or accessibility to care. Conn. Gen. Stat. §19a-639(a)(12)

# Discussion

CON applications are decided on a case-by-case basis and do not lend themselves to general applicability due to the uniqueness of the facts in each case. In rendering its decision, OHCA considered the factors set forth in Connecticut General Statutes § 19a-639(a) and 19a-486d. The Applicants bear the burden of proof in this matter by a preponderance of the evidence. *Jones v. Connecticut Medical Examining Board,* 309 Conn. 727 (2013).

ECHN is a not-for-profit health care system that is the parent company of two acute care hospitals in Connecticut, MMH located in Manchester and RGH located in Vernon. *FF1* ECHN's Service Area is comprised of the following nineteen towns in eastern Connecticut: Andover, Bolton, Coventry, Ellington, Manchester, South Windsor, Tolland, Vernon, Willington, Ashford, Columbia, East Hartford, East Windsor, Glastonbury, Hebron, Mansfield, Somers, Stafford, and Union. *FF5* PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of its regions. *FF13* ECHN's financial condition has been strained since 2001 and its mission impeded by various factors, including limited access to capital required to improve infrastructure and recruit physicians, and mounting pension liabilities. *FF6* ECHN has attempted to improve its financial situation through various initiatives, including hiring freezes, wage freezes, reductions in workforce, and a reduced workweek. Despite these measures, a large portion of ECHN's cash flow has been required to fund debt service and pension obligations, making capital investments difficult. *FF7* As a result, the Applicants are requesting approval of the proposed Asset Purchase as a solution to ECHN's long-standing challenges while ensuring the Service Area continued access to ECHN's services and facilities. *FF12*

Under the APA, PMH has committed to spend a Commitment Amount of $75,000,000 towards capital projects over the next five years. However, the APA also provides that the Commitment Amount is subject to a dollar-for-dollar reduction if ECHN has more than $77 million of liabilities on the Closing Date other than long-term debt and there is not enough available cash or money in the indemnity reserve to cover the excess liabilities (for amounts over $77 million) being assumed by PMH. *FF38* The APA provides that the $75 million Commitment Amount will be spent on (a) capital projects, including routine and non-routine capital expenditures for the improvement of facilities and/or the acquisition, development, expansion and improvement of hospital, ambulatory or other health care services; (b) de novo development, expansion or acquisition of a department, program, service or facility; (c) upgrades or renovations generally; (d) deferred maintenance items; and (e) recruitment of medical staff. *FF40*

For at least three years after the Closing Date, PMH will continue operating MMH and RGH in their current locations as acute care hospitals with emergency departments, will maintain an ownership interest in ECHN's current post-acute care continuum of care network and will require any wholly owned entity involved with such post-acute care continuum of care network to maintain appropriate service lines. *FF26* PMH has no plans to eliminate any services at MMH or RGH. No service line or service location changes are currently planned in connection with the proposed transaction, although it is expected that the ECHN ambulatory network will be expanded and services configured to promote the most efficient delivery of coordinated care following the closing. *FF27*

Following closing, MMH and RGH will each maintain a Local Board, an advisory board made up of community representatives, physicians on the respective hospital's medical staff, and the CEO of the respective hospital that will be subordinate to PMH. The initial members of the Local Board will include at least five members of ECHN's Board of Trustees. The Local Board will serve as a resource for PMH with respect to investment of the Commitment Amount, assist with maintenance and implementation of a strategic business plan for the Hospitals, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospitals. *FF29*

After closing, PMH and the Local Board will develop a strategic capital plan. The following capital projects have been identified by ECHN management as priority capital projects:

| **Description** | **Estimated Cost (In Millions)** |
|---|---|
| 1. Upgrades to emergency department for behavioral health patients (MMH) | $1.1 |
| 2. Electronic medical record system replacement (MMH & RGH) | $20 |
| 3. Upgrades to nursing units (RGH) | $6.6 |
| 4. Upgrades to nursing units (MMH) | $11 |
| 5. Vessel sealing systems (MMH & RGH) | $0.6 |
| 6. MRI replacement (MMH) | $1.6 |
| 7. SPECT scanner replacement (MMH) | $0.4 |
| **Total Estimated Cost** | **$41.3** |

The projects will require PMH approval with input of the Local Board. *FF42* After the asset purchase, capital will be available to ECHN for replacements and upgrades to systems and the infrastructures of ECHN's facilities; investments to improve the sharing of electronic medical records in order to improve the collection and documentation of information and to enhance the availability of information for critical treatment decisions for patients; upgrades to medical equipment and technology to provide patients access to state-of-the-art technology for diagnosis, care and treatment; and program development to attract and retain physicians. *FF45*

PMH intends to fund its capital commitments through the operations of ECHN, PMH's existing cash at the time of expenditure or, if necessary, PMH's corporate level credit facility. *FF39* The Commitment Amount has not been specifically apportioned to each hospital or its affiliates. Allocations of the commitment will be made by PMH after it receives input from the Local Board and medical staff. *FF41*

With respect to the quality of services offered by PMH, during the course of negotiations between ECHN and PMH, it became known that PMH had to significantly modify its QAPI as a result of surveys of PMH's Southern California Hospitals as well as the survey of Los Angeles Community Hospital that resulted in the California Department of Health imposing Immediate Jeopardy citations. *FF31* As a result of these citations, PMH has hired a corporate level Chief Quality Officer, Chief Clinical Officer, Chief Nursing Officer and an Associate Vice President of Regulatory and Patient Safety to assist in providing necessary resources to implement all quality programs at its local hospitals and share best practices among hospitals. *FF35* ECHN concluded that the compliance issues were isolated and that PMH demonstrated a strong commitment to remediate the problems. Based on this information, the ECHN Board confirmed its commitment to proceed with the transaction and the parties entered into a Quality Commitment Letter pursuant to which PMH agreed to maintain certain quality programs of ECHN for the first two years after the Closing Date and not modify them without approval of the Local Board. The Quality Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the Hospitals. *FF32-33*

PMH aligns its hospitals and physician networks under a model called CRC. CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. The CRC model is intended to improve quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. *FF15* ECHN believes that PMH's CRC model will help overcome the challenges in retaining and recruiting physicians that it has faced in recent years. PMH has developed significant experience in other markets regarding ways hospitals can attract more primary care providers and improve access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals in mid-2014. *FF48* In order to implement the CRC strategy, PMH has established an IPA entity in Connecticut (Prospect Provider Group CT-ECHN, LLC, or "PPGCTE") and a preferred provider network/health system risk taking entity, Prospect Health Services, CT, Inc., that will contract with payers on behalf of PPGCTE physicians. These two organizations, through management services agreements with PMH, will manage physician participation, risk contracting and care management activities for participating members. *FF49* The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and early readmissions, reducing inpatient utilization and reducing emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient

services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. *FF50* PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas where PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand patients from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. *FF51* The CRC approach not only benefits the patient population through better care and outcomes, but also from a cost perspective. PMH expects its approach to population management services to harness the efficiencies of facilities to enhance care at lower costs. It is anticipated that these cost savings will be passed on to consumers. Consequently, the Applicants have demonstrated that PMH will continue to offer access to high quality services in the same manner that ECHN has been providing them.

In 2013, MMH and RGH collaborated to conduct a CHNA, which identified the current and future health care needs of the community. The four priority health needs identified were heart disease incidence, cancer incidence, diabetes incidence, and arthritis incidence. An implementation plan was developed to respond to the identified health needs. *FF56* PMH and its affiliates will support the priority needs identified by the CHNA with physician alignment and population health management strategies, enhanced through implementation of the CRC, which focuses on the health of vulnerable populations. PMH has committed to implement and support the current CHNA through 2016 and conduct another CHNA for the Service Area over the next two years and to implement the recommendations of such study as deemed necessary and appropriate. *FF57* PMH and ECHN representatives met with leadership for Connecticut's Medicaid Program at DSS and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. *FF59* The patient populations currently served by the Hospitals is not expected to change as a result of the Asset Purchase. PMH will accept all existing contracts with payers and will complete a Change of Ownership process with commercial payers, as well as Medicare and the Connecticut Medical Assistance Program (Medicaid). *FF60* Based upon the aforementioned, the Applicants have satisfactorily identified a clear public need for the proposed asset purchase and demonstrated how the proposed asset purchase could satisfy the need.

PMH's acquisitions of other health systems and hospitals have resulted in improved financial performance at many of the systems. PMH will bring to ECHN its operational efficiencies and economies of scale that will help to reduce ECHN's expenses. ECHN will be able to participate in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. *FF62* This proposal will lead to a stronger and more financially secure ECHN. As the financial strength of Connecticut's hospitals significantly contributes to the financial strength of the state's entire health care system, this proposal will improve the financial strength of the state of Connecticut's health care system.

In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million. The company also received credit upgrades by both Moody's and S&P in 2015 with Moody's rating PMH's bonds as B1, while S&P rates PMH's bonds as B. *FF18* PMH's financial resources and access to capital are anticipated to maintain ECHN's assets as economically viable and vibrant parts of the healthcare system in Eastern Connecticut by permitting capital investments, better preparing MMH and RGH to participate in new value-based delivery models, offering enhanced practice options for physicians, strengthening its network of providers and allowing for other improvements in operations.

Based upon the aforementioned discussion of the evidence provided by the Applicants in this matter, the Applicants have satisfactorily demonstrated that PMH has made a commitment to provide health care to the uninsured and the underinsured; safeguard procedures are in place to avoid a conflict of interest in patient referral; and certificate of need authorization is justified in accordance with the principles and guidelines set forth in Connecticut General Statutes § 19a-639; those being, access to healthcare services, quality of the healthcare services, public need for the proposed project, and the financial feasibility of the proposed project.

# Order

Based upon the foregoing Findings of Fact and Discussion, I respectfully recommend that the Applicants' request for the sale of substantially all of the assets of ECHN and its controlled affiliates to PMH or one or more affiliates of PMH be **Approved** under Conn. Gen. Stat. §§ 19a-486 and 19a-639 subject to the enumerated conditions (the "Conditions") set forth below.

Unless expressly provided otherwise, all Conditions of this Order shall, to the extent applicable, be binding on the Applicants, their affiliates, successors and assigns, regardless of whether New ECHN, remains the parent company and sole shareholder of the New MMH and New RGH. OHCA and any successor agency shall have the right to enforce the Conditions by all means and remedies available to it under law and equity, including, but not limited to, Conn. Gen. Stat. § 19a-486g and the right to impose and collect a civil penalty under Conn. Gen. Stat. § 19a-653 against any person or health care facility or institution that fails to file required data or information within the prescribed time periods set forth in this Order. All references to days in these Conditions shall mean calendar days.

1. Within twenty (20) days following the date of OHCA's Final Decision in this matter (the "Decision Date"), Applicants shall submit schedules to OHCA setting forth each of MMH's and RGH's inpatient bed allocation and the location and hours of operation for all outpatient services, by department, as of the Decision Date and publish this same information on the applicable websites of each Hospital. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 18, 26- 27*

2. Within twenty (20) days following the Decision Date, Applicants shall identify and provide the Certificates of Incorporation for the PMH affiliated entities that shall directly own, operate and hold the hospital licenses of the New MMH and New RGH, respectively, post-closing. These entities shall be duly organized and validly existing under the laws of Connecticut and New ECHN shall be their parent company and sole shareholder as proposed in the CON application. OHCA is imposing this condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 18, 26- 27*

3. Applicants shall notify OHCA in writing of the Closing Date of the Asset Purchase authorized by this Order within twenty (20) days of such closing and shall supply final execution copies of all agreements related to same, including but not limited to:

    a. the APA, including any and all attachments thereto, except that redaction of certain information that may be Trade Secret as defined in Conn. Gen. Stat. § 1-210(b)(5) is allowed for purposes of this filing and placement in the public record; and

    b. Bylaws or similar governance documents for New ECHN, as well as for New MMH and New RGH.

If the Applicants redact material as Trade Secret from the document required by 3.a. above, the Applicants shall provide a list to OHCA, which identifies in general terms the nature of the redacted material and why it is claimed to be Trade Secret for public record purposes.

OHCA is imposing this condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a) & 19a-613(b); FF 12*

4. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement ECHN's current Community Health Needs Assessment ("CHNA") and for conducting the New Hospitals' next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:

   (i) the data that will be collected and analyzed to systematically assess health status Indicators of the Service Area;
   (ii) the identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;
   (iii) the qualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;
   (iv) the frequency with which the Study will be repeated;
   (v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the community; and
   (vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospitals.

   OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3) & (7); FF 56-57*

5. PMH shall participate with New ECHN and the New Hospitals, and the key community stakeholders and health organizations identified pursuant to Stipulation #4, in conducting the initial Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. The PMH and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study (available at http://www.ct.gov/dph/lib/dph/state_health_planning/sha-ship/hct2020/hct2020_state_hlth_impv_032514.pdf) as well as any applicable community

health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at http://www.cdc.gov/sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the Implementation Strategy on the website pages of New MMH and New RGH. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement ECHN's current CHNA for MMH and RGH. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 56-57*

6. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospitals for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27*

7. Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New MMH or New RGH specific to those services that existed at each of the Hospitals as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of the New Hospitals. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27*

8. Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the $75 million Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:

    a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and

    b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of an understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and the use of evidence-based interventions.

c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill the Capital Commitment.

The reports shall be signed by PMH's Chief Financial Officer. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 38-45*

9. For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for New ECHN, New MMH and New RGH, respectively:

a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

1. the major cost savings achieved for each expense category for the semi-annual period; and

2. the effect of these cost savings on the clinical quality of care.

b. A consolidated Balance Sheet, Statement of Operations, and Statement of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.

For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63*

10. For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New ECHN, New MMH and New RGH, respectively. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report:

**Financial Measurement/Indicators**

| |
|---|
| **A. Operating Performance** |
| 1. Operating Margin |
| 2. Non-Operating Margin |
| 3. Total Margin |
| **B. Liquidity** |
| 1. Current Ratio |
| 2. Days Cash on Hand |
| 3. Days in Net Accounts Receivables |
| 4. Average Payment Period |
| **C. Leverage and Capital Structure** |
| 1. Long-term Debt to Equity |
| 2. Long-term Debt to Capitalization |
| 3. Unrestricted Cash to Debt |
| 4. Times Interest Earned Ratio |
| 5. Debt Service Coverage Ratio |
| 6. Equity Financing Ratio |
| **D. Additional Statistics** |
| 1. Income from Operations |
| 2. Revenue Over/(Under) Expense |
| 3. Cash from Operations |
| 4. Cash and Cash Equivalents |
| 5. Net Working Capital |
| 6. Free Cash Flow (and the elements used in the calculation) |
| 7. Unrestricted Assets/Retained Earnings |
| 8. Bad Debt as % of Gross Revenue |
| 9. Credit Ratings (S&P, FITCH or Moody's) |

OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63*

11. PMH shall maintain and adhere to ECHN's current policies regarding charity care, indigent care and community volunteer services at New MMH and New RGH after the Closing Date or adopt other policies that are at least as generous and benevolent to the community as ECHN's current policies. These policies shall be posted on the website pages of the New MMH and New RGH, respectively, and as additionally required by applicable law. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

12. For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of New MMH and New RGH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website pages of the New Hospitals simultaneously with their submission to OHCA. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

13. PMH shall maintain current community benefit programs and community building activities for New MMH and New RGH for three (3) years after the Closing Date as identified in the MMH and RGH most recent Schedule H of IRS Form 990 and PMH shall apply a 1% increase per year toward community building activities in terms of dollars spent.
In determining the New MMH and New RGH participation in and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.
    a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

14. New MMH and New RGH agree to comply with the following general community benefit standards for at least the first three years. (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusions of other qualified doctors; (c) the New Hospitals shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24/7 emergency departments and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); Tr., Testimony of Tom Reardon, President. PMH East on 5/3/16, pp. 103-04*

15. New MMH and New RGH shall work toward making culturally and linguistically appropriate services available and integrated throughout their hospital operations. Specifically, New MMH and New RGH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, New MMH and New RGH shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, New MMH and New RGH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this condition so as to ensure continued access to health care services to the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

16. Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who has experience in hospital administration and regulation, including maintaining quality control in a High Reliability Organization ("HRO"). The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing Date, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to New Hospitals and their applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59*

17. The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of New Hospitals on no less than a semi-annual basis to assess PMH's modified Quality Assurance Performance Improvement ("QAPI") program, each facility's efforts to remain an HRO, and compliance with the Quality Commitment Letter and such other matters as OHCA and/or FLIS shall deem pertinent. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this

condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59*

18. If the New Hospitals' Local Board agrees with PMH to change any of the Seller Quality Programs described in the Quality Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated by a governmental agency, PMH shall notify OHCA and the Health Systems Branch in writing at least thirty (30) days prior to any such change going into effect. If the Independent Monitor disagrees with the change, OHCA may require that a request for modification be submitted and approved as required by C.G.S. §4-181a to make the change. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 30-37*

19. For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals' activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

20. For three (3) years following the Closing Date, PMH shall allow for two (2) community ombudsman to serve as ex-officio, non-voting members of the New MMH and New RGH Local Board. The community ombudsman shall be selected in a way that OHCA and PMH shall mutually agree in writing will result in the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

21. PMH, New ECHN, New MMH and New RGH shall abide by all requirements of licensure that may be imposed by DPH's Health Systems Branch (HSB) in any Pre-Licensing Consent Order or similar agreement that HSB may enter with these parties. OHCA is imposing this condition to ensure that quality health care services are provided to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 30-37*

Based upon the foregoing, I respectfully recommend that the CON application for the transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc. be approved.

## I. INTRODUCTION

The proposed asset purchase agreement between Eastern Connecticut Health Network, Inc., and its affiliates ("ECHN"), and Prospect Medical Holdings, Inc. ("PMH")(collectively, the "Applicants"), is the second Application by ECHN filed with the Office of the Attorney General (the "OAG") for its review pursuant to the Nonprofit Hospital Conversion Act, Conn. Gen. Stat. § 19a-486 et seq. (the "Conversion Act").

On June 4, 2014, ECHN submitted a proposed transaction with Tenet Healthcare Corp. ("Tenet") that was withdrawn by Tenet prior to the completion of the OAG's review under the Conversion Act. This Application comes 2 years afterwards.

The difficulties faced by hospitals in delivering quality healthcare services in a changing and increasingly challenging fiscal landscape have become, appropriately, a subject of national concern and debate. A number of forces in recent years have contributed to the financial challenges to local hospitals, including those in Connecticut. Against the backdrop of a changing regulatory and fiscal landscape at the federal and state level, the delivery of healthcare services remains a local issue of extreme importance to the communities in which nonprofit hospitals operate. These issues are no less true for ECHN than for any other community hospital or hospital system in Connecticut. It is in this context that ECHN has decided to sell substantially all of its assets to PMH. Its stated goal in making this decision is to ensure the continued existence of ECHN's facilities and services, to provide sufficient capital to enhance the facilities and services, and to integrate its operations with an established health care system that is prepared navigate the evolving health care system of the future. (Application of ECHN and PMH re a Proposed Asset Purchase Agreement, AG Docket 15-486-01, pp. 25-26; hereinafter, "App., p. __.)

Pursuant to the Conversion Act, the legislature has authorized the Attorney General to review and investigate proposed nonprofit to for-profit hospital transactions, to disapprove them if he finds that any of the criteria set forth in Conn. Gen. Stat. § 19a-486c(a) are not met, or to approve the transaction subject to any modifications or conditions that the Attorney General deems appropriate. Conn. Gen. Stat. § 19a-486b. Under the law, the Attorney General is required to assess both the procedural and financial fairness of the transaction and to protect and preserve the charitable assets of ECHN.

Contemporaneously with the OAG's review of the proposed Asset Purchase Agreement (the "APA"), the Office of Health Care Access, Department of Public Health ("OHCA"), has been reviewing the transaction to determine whether a certificate of need should be issued in this case and also whether OHCA's criteria in the Conversion Act have been fulfilled by the Applicants. In contrast to the Attorney General's focus, OHCA's review encompasses issues involving the impact of the proposed transaction on access to, and the quality of, health care in the ECHN service area.

As explained in detail below, we grant the Application with conditions necessary to conform the proposed transaction to the requirements of the Conversion Act. I would like to thank ECHN and PMH for their cooperation throughout this process. I would also like to thank the many witnesses, public officials, and members of the public who testified or commented on the proposed transaction in our proceedings. Last, I would like to thank my staff, Assistant Attorney General Henry Salton, head of the Health and Education Department, Assistant Attorney General Gary W. Hawes, and Paralegal Specialist Cheryl A. Turner for their diligent efforts on this matter.

## II. EXECUTIVE SUMMARY

### A. Standard of Review

Pursuant to the requirements of the Conversion Act, the OAG is required to review a proposed transaction for compliance with specifically articulated standards that were established by the legislature. § 19a-486c(a). In sum, these criteria require the OAG to make certain determinations: whether the nonprofit hospital's decision to sell its assets was reasonable, whether it chose the ultimate purchaser in an open and fair process, whether it received fair market value for its assets, whether the funds generated by the sale will be held by a charitable foundation that will use them for the promotion of healthcare in the nonprofit hospital's community, and whether use restrictions on any charitable asset held by ECHN will be preserved.[1]

---

[1] Conn. Gen. Stat. § 19a-486c(a) provides in full:

The Attorney General shall deny an application as not in the public interest if the Attorney General determines that one or more of the following conditions exist:

(1) the transaction is prohibited by Connecticut statutory or common law governing nonprofit entities, trusts or charities;
(2) the nonprofit hospital failed to exercise due diligence in (A) deciding to transfer, (B) selecting the purchaser, (C) obtaining a fairness evaluation from an independent person expert in such agreements, or (D) negotiating the terms and conditions of the transfer;
(3) the nonprofit hospital failed to disclose any conflict of interest, including, but not limited to, conflicts of interest pertaining to board members, officers, key employees and experts of Waterbury Hospital, the purchaser or any other party to the transaction;
(4) the nonprofit hospital will not receive fair market value for its assets, which, for purposes of this subsection, means the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and in their own best interest, and with a reasonable time being allowed for exposure in the open market;
(5) the fair market value of the assets has been manipulated by any person in a manner that causes the value of the assets to decrease;
(6) the financing of the transaction by the nonprofit hospital will place the nonprofit hospital's assets at an unreasonable risk;
(7) any management contract contemplated under the transaction is not for reasonable fair value;

**B. The Proposed Transaction**

ECHN and PMH propose an asset purchase whereby ECHN will sell substantially all of its assets to PMH or one or more affiliates of PMH. Substantially all of the assets of ECHN will be transferred to PMH in exchange for $105,000,000, subject to certain adjustments.[2] The adjustments include a Net Working Capital reconciliation, reductions for the value of ECHN liabilities assumed by PMH, and adjustments for the value of any ECHN joint venture interest not assigned or transferred to PMH. Pursuant to the APA, PMH will also commit to spend not less than $75,000,000 on capital items over five years. (App., p. 23.)

PMH will continue to operate both Manchester Memorial Hospital ("MMH") and Rockville General Hospital ("RGH") as acute care hospitals for at least three years after the

---

(8) a sum equal to the fair market value of the nonprofit hospital's assets (A) is not being transferred to one or more persons to be selected by the superior court for the judicial district where the nonprofit hospital is located who are not affiliated through corporate structure, governance or membership with either the nonprofit hospital or the purchaser, unless the nonprofit hospital continues to operate on a nonprofit basis after the transaction and such sum is transferred to the nonprofit hospital to provide health care services, and (B) is not being used for one of the following purposes: (i) For appropriate charitable health care purposes consistent with the nonprofit hospital's original purpose, (ii) for the support and promotion of health care generally in the affected community, or (iii) with respect to any assets held by the nonprofit hospital that are subject to a use restriction imposed by a donor, for a purpose consistent with the intent of said donor; or

(9) the nonprofit hospital or the purchaser has failed to provide the Attorney General with information and data sufficient to evaluate the proposed agreement adequately, provided the Attorney General has notified the nonprofit hospital or the purchaser of the inadequacy of the information or data and has provided a reasonable opportunity to remedy such inadequacy.

[2] The Application indicated that the purchase price would be either $105 million or $115 million, depending on whether ECHN obtained an assumable loan to finance certain of its outstanding bond liabilities. At the public hearing on this transaction, it was confirmed that ECHN had not acquired the loan, and the purchase price was going to be $105 million.

transaction closes.[3] Each hospital will maintain a local advisory board, and substantially all of the employees of ECHN and its affiliates will be offered employment by PMH or its affiliates. (App., p. 24.)

In addition, PMH will ensure that MMH and RGH maintain ECHN's current policies on charity care and indigent care or will adopt other policies that are at least as favorable to the ECHN community. (App., p. 32.)

After the closing, ECHN will establish a new charitable entity ("New Foundation") that will receive the net proceeds of the transaction and the appropriate charitable gift assets held by ECHN.

### C. The Proposed Transaction Meets the Requirements of the Conversion Act Provided the Applicants Comply with the Attorney General's Modifications.

Based on our review of the record, all testimony provided at the public hearings, all exhibits provided pursuant to this review, and the standards set forth in § 19a-486c(a), we conclude that the proposed transaction meets the requirements of the Conversion Act, provided that ECHN and PMH comply with the modifications and conditions that are imposed herein.

*1. Findings and Conclusions*

First, we conclude that the process employed by ECHN in deciding to sell its assets to a for-profit healthcare services company reflects proper due diligence by ECHN's Board of Directors. The ECHN Board undertook an extensive process to explore potential strategic options and identify capital alternatives to address its weakening financial

[3] At all times, a hospital must receive approval in the form of a Certificate of Need from OHCA before terminating inpatient or outpatient services offered by the hospital. See Conn. Gen. Stat. § 19a-638(a)(5).

position. The Board's efforts have been diligent and without conflicts of interests, and in our opinion, the Board has met their fiduciary obligations to ECHN.

Second, we conclude that ECHN will receive fair market value for its assets as a result of this transaction. Based primarily on the opinions of two independent financial valuation experts, the price negotiated for the sale of ECHN's assets equals or exceeds the price they would command in an open and competitive market.[4] This conclusion is buttressed by the fact that the process followed by the ECHN Board to select a purchaser was itself open and competitive.

Third, assuming compliance with the modifications and conditions set forth below, we conclude that the charitable assets of ECHN will be adequately protected and preserved after the proposed transaction closes. The charitable assets of ECHN, which have been held in trust for the public, will be held by the New Foundation and safeguarded for their specific charitable uses or to promote healthcare in the ECHN service area. We also conclude that a sum equal to the fair market value of ECHN's assets will be transferred to the New Foundation and will be restricted to charitable uses consistent with ECHN's

[4] The nonprofit hospital conversion review process provides the OAG with the opportunity to have two separate, independent financial experts review the proposed transaction for compliance with the provisions of § 19a-486c(a). The first expert opinion is required by § 19a-486c(a)(2)(C), which provides that the nonprofit hospital obtain a fairness evaluation from an independent person expert in such agreement. ECHN hired Duff & Phelps, LLC, for these purposes, and its opinion is in the record. In addition, § 19a-486c(c) allows the Attorney General to contract with a financial expert to assist in the review of the nonprofit hospital's compliance with the provisions in § 19a-486c(a). Through an RFP process, the OAG retained the services of Navigant Consulting, Inc., to provide an additional independent analysis of the APA.

original purpose and for the support and promotion of healthcare generally in the ECHN community.[5]

*2. Modifications and Conditions*

The General Assembly has assigned the OAG significant responsibility and flexibility to modify the terms of the proposed transaction, if necessary, to fulfill the statutory mandates of the Conversion Act and—in particular—to fulfill the Attorney General's statutory charge to serve the public interest in the protection of gifts, legacies or devises for public or charitable purposes. Conn. Gen. Stat. § 3-125.

Consequently, although we approve the APA, that approval is contingent on certain modifications and conditions that must be made to the proposed transaction to ensure that the interests of the public and the requirements of the Conversion Act are met. These modifications and conditions, which are more fully described in Section V of this decision, include the following:

1. The Applicants must delete section 5.18(a) from the APA.

2. The Applicants shall notify the OAG in writing of the closing date of the Asset Purchase as soon as reasonably possible after the date has been set. If the closing date changes, the Applicants shall notify the OAG in writing of the change as soon as reasonably possible.

3. The Applicants must submit to the OAG, within 30 days of closing, fully executed copies of the Asset Purchase Agreement, without schedules.

---

[5] As discussed in Section IV(H)(1) of this decision, the current estimate on the net proceeds to be transferred to the New Foundation is zero. In other words, after ECHN meets the obligations of its creditors and the provisions in the APA that require capital, there will be very little or nothing left over to transfer to the New Foundation.

4. As soon as reasonably possible after the Applicants have agreed to a Final Closing Statement of the transaction, the Applicants must provide the OAG a final accounting of the transaction that sets forth the balance sheets of ECHN immediately prior to and after the closing and that provides a net proceeds analysis.

5. After the closing, ECHN ("Legacy ECHN") shall hold and protect all charitable gift funds and any net proceeds from the Asset Purchase in its possession until they are transferred to the New Foundation or other charitable organization by order of a court of competent jurisdiction.

6. Legacy ECHN shall report quarterly to the OAG regarding (1) any and all income received by Legacy ECHN post-closing, including, but not limited to, Medicare and Medicaid reimbursements, income from charitable assets held by Legacy ECHN prior to transfer to the New Foundation, and any additional charitable funds received, and (2) all expenditures for Legacy ECHN.

7. When the requirements of the indemnity reserve have been fulfilled, and if there remain any funds in the indemnity reserve, they shall be considered ECHN's net proceeds and be treated accordingly.

8. Any income or unrestricted gifts received by Legacy ECHN post-closing shall be considered net proceeds.

9. The New Foundation shall include paragraph 14 as set forth in the draft Certificate of Incorporation in the final Certificate of Incorporation of the New Foundation, requiring Attorney General approval for changes to paragraphs 2, 5, 8, and 14 of the Certificate of Incorporation.

10. Legacy ECHN must present to the Superior Court, in coordination with the OAG, a petition for equitable deviation and approximation to transfer the unrestricted

endowments to the New Foundation and to change the charitable purpose of the unrestricted endowments to the charitable purpose of the New Foundation.

11. Legacy ECHN must, in coordination with the OAG, include the restricted endowments in the Superior Court petition for an equitable deviation order. With respect to the Trotter, Baker, and Schortman funds, Legacy ECHN must seek an order of approximation, in addition to one for equitable deviation, to adjust the funds' charitable purposes to ones that come as close as possible to the donor's original charitable intent.

12. Legacy ECHN must, in coordination with the OAG, include any special funds that still have money in them in the Superior Court petition for an equitable deviation and approximation order.

13. Legacy ECHN must, in coordination with the OAG and the third-party trustees, bring any third-party trusts in need of approximation before a court of competent jurisdiction for appropriate orders.

14. Legacy ECHN must, in coordination with the OAG, include the Life Insurance Policy in the Superior Court petition for an equitable deviation order.

15. Any net proceeds from this transaction, including the earnings therefrom, shall be transferred to and then held by the New Foundation and used only for the support and promotion of healthcare in the ECHN community. The net proceeds shall never inure to the benefit of the for-profit hospital. The net proceeds shall forever be held by the New Foundation for the purposes articulated in the New Foundation's Draft Certificate of Incorporation, unless and until a court of competent jurisdiction orders otherwise.

16. The net proceeds held by the New Foundation shall be considered an endowment fund, as that term is defined in the Connecticut Uniform Prudent Management of Institutional Funds Act, Conn. Gen. Stat. § 45a-535 et seq. ("CUPMIFA" ).

## III. PROCEDURAL HISTORY

On July 17, 2015, OHCA and the OAG received ECHN's certificate of need determination letter that set forth in summary fashion the terms of the APA between the Applicants.[6] Because the OAG determined that the APA required approval pursuant to § 19a-486 et seq., the OAG and OHCA on August 6, 2015, jointly sent the Applicants an Application Form regarding the APA.

The Applicants requested an extension of time to submit their Application, which both agencies granted, On October 13, 2015, the Applicants filed their Application for an Asset Purchase, which included 45 exhibits. Upon review of the Application, the OAG and OHCA determined that the Applicants' Application was not complete, and on October 30, 2015, it requested additional information from the Applicants. Before the Applicants had an opportunity to respond to the October 30 requests, the OAG and OHCA requested further information on November 12, 2015, related to the reports that PMH was up for sale. On November 23, 2015, the Applicants filed responses to the two sets of additional requests set forth by the OAG and OHCA. On December 11, 2015, OHCA issued one last set of completeness questions, to which the Applicant responded on December 24, 2015. On January 13, 2016, the OAG and OHCA determined that the Application was complete. In order to ensure the completeness of the record, the OAG and OHCA took administrative notice of the record in the Proposed Asset Purchase of Greater Waterbury Health Network, Inc., by Prospect Medical Holdings, Inc., OHCA Docket No. 15-31217-486, OAG Docket No. 15-486-02 (the "GWHN/PMH APA").

---

[6] All docket documents referenced in this opinion can be found on the Attorney General's website: www.ct.gov/ag.

Pursuant to Conn. Gen. Stat. § 19a-486e, the OAG and OHCA conducted two public hearings regarding the proposed Asset Purchase, one in Manchester and one in Rockville. The Manchester public hearing was held on March 29, 2016, at 2:00 p.m. at the Manchester Country Club in Manchester, Connecticut. The Rockville public hearing was held on March 30, 2016, at 2:00 p.m. at the Elks Club in Rockville, Connecticut. No person sought intervenor status for the hearings. Conn. Gen. Stat. § 19a-486a(g). All parties submitted pre-filed testimony for the hearings.

The hearings were presided over by representatives from both the OAG and OHCA. Deputy Attorney General Perry Zinn Rowthorn served as the hearing office for the OAG. Also on the panel for the OAG were Assistant Attorney General Henry A. Salton and Assistant Attorney General Gary W. Hawes. Kevin Hansted served as the hearing officer for OHCA. Also on the panel for OHCA were Kimberly Martone, Director for OHCA, Steven W. Lazarus, Associate Health Care Analyst, and Carmen Cotto, Health Care Analyst.

At the hearings, all parties adopted their pre-filed testimony, and all exhibits on the table of record were entered into the record. At both hearings, the Applicants presented full testimony and were subject to cross-examination by OHCA and the OAG. In addition, the hearing panel heard approximately 20 public comments and accepted written public comments. Subsequent to the hearings, the OAG receive one additional public comment.

The Applicants filed late-filed exhibits with OHCA and the OAG on April 20, 2016.

## IV. FINDINGS OF FACT

Based upon the entire record of this Application, including all statements, testimony, and exhibits submitted by the Applicants, all public comments made at the hearing or submitted to the OAG in writing, the summary reports and exhibits submitted

by the independent financial experts, and the record in the GWHN/PMH APA, we find the following.

**A. Parties and other relevant corporate entities**

ECHN is a not-for-profit health care system that serves 19 towns in eastern Connecticut including Andover, Bolton, Coventry, Ellington, Manchester, South Windsor, Tolland, Vernon, Willington, Ashford, Columbia, East Hartford, East Windsor, Glastonbury, Hebron, Mansfield, Somers, Stafford, and Union (the "Service Area"). ECHN was formed in 1995 when Manchester Memorial Hospital and Rockville General Hospital joined as partners.

ECHN's care network consists of a number of wholly owned entities: MMH; RGH; ECHN ElderCare Services, Inc.; Visiting Nurse and Health Services of Connecticut, Inc. ("VNHSC"); A Caring Hand, LLC; Clinically Integrated Network of Eastern Connecticut, LLC; Connecticut Healthcare Insurance Company; ECHN Corporate Services, Inc.; Medical Practice Partners, LLC; ECHN Enterprises, Inc.; Haynes Street Property Management, LLC; Eastern Connecticut Medical Professionals Foundation, Inc.; and ECHN Community HealthCare Foundation, Inc.

ECHN has ownership interests in a number of community based services including the following joint ventures: Evergreen Endoscopy Center, LLC; WBC Connecticut East, LLC; Aetna Ambulance Service, Inc.; Metro Wheelchair Service, Inc.; Ambulance Service of Manchester, LLC; Connecticut Occupational Medicine Partners, LLC; Eastern Connecticut Physician Hospital Organization, Inc.; Northeast Regional Radiation Oncology Network, Inc.; Tolland Imaging Center, LLC; Haynes Street Medical Associates, LLC; Haynes Street Medical Associates II, LLC; Evergreen Medical Associates, LLC; and Evergreen Medical Associates II, LLC

PMH is a Delaware corporation with its principal place of business located in Los Angeles, California. PMH is a healthcare services company that owns and operates thirteen acute care and behavioral hospitals located in Rhode Island, Texas, and California. PMH also owns a network of specialty and primary care clinics in each of its regions. Through PMH's medical group segment, PMH manages the provision of physician services to approximately 260,000 patients in Southern California, South Central Texas, and Rhode Island through a network of approximately 8,900 physicians.

PMH currently owns the following hospitals: Los Angeles Community Hospital; Los Angeles Community Hospital at Bellflower; Los Angeles Community Hospital at Norwalk; Southern California Hospital at Hollywood; Southern California Hospital at Van Nuys; Southern California Hospital at Culver City; Foothill Regional Medical Center; Nix Health (four campuses); Roger Williams Medical Center (RI); and Our Lady of Fatima Hospital (RI).

PMH aligns its hospitals and physicians under a model referred to as Coordinated Regional Care ("CRC"). CRC provides for clinical integration among hospitals, physicians and other medical, social and community providers working closely with strategic partner health plans and other payers under a value-based, global risk reimbursement payment system to achieve the triple aim of improved patient care and experience, better patient health, and lower costs.

**B. ECHN's Fiscal Condition**

ECHN's mission has been impeded since 2001 by various factors, including reduced reimbursement from government payors, limited access to the capital required to improve infrastructure and to recruit and maintain needed physicians, and mounting pension liabilities.

Starting in 2001, when ECHN lost more than $10 million, capital investments had to be deferred and long-term debt and pension liabilities continued to grow. The pension funding reforms of 2006 and the market crash of 2008 created additional financial problems for ECHN. Although ECHN took numerous steps to mitigate the losses from these events, it was still unable to make significant capital investments. ECHN's plans to expand and introduce new programs to help recruit physicians were also put off.

In addition to the financial challenges that ECHN faced at that time, federal and state regulation changed the landscape for health care provider reimbursements and tax burdens. These increased financial burdens over the period of ten years led the Board to consider affiliation options.

**C. The Search for Solutions and Partners**

In 2011 the ECHN Board authorized the establishment of a workgroup to evaluate whether benefits would be realized by affiliating with another health care system, or whether ECHN would better serve the community by remaining an independent system (the "Partnering Workgroup"). To assist the Partnering Workgroup in its evaluation, ECHN engaged The Chartis Group, LLC ("Chartis"), a national healthcare consulting firm. In September of 2012, the Partnering Workgroup presented its initial findings to the ECHN Board. The Partnering Workgroup concluded that affiliation with a larger health system would better position ECHN to achieve its goals, and the Board agreed.

From November 2012 through April 2013, the Partnering Workgroup worked with Chartis to develop and conduct a request for proposal (RFP) process for potential partners. RFPs were mailed to three nonprofit health systems and three for-profit health systems. Based upon an initial review of four indications of interest and the conclusion that

affiliation appeared to be the best alternative, the ECHN Board created the Transaction Committee to thoroughly evaluate the proposals for affiliation.

After proper due diligence by the Transaction Committee and consideration of the Transaction Committee's recommendation by the ECHN Board, the Board selected a proposed joint venture between Yale New Haven Health System ("YNHHS") and Vanguard Health Systems, Inc. ("Vanguard") as the purchaser of ECHN. Before being able to negotiate a definitive Asset Purchase Agreement, however, ECHN learned that Tenet Healthcare Corporation ("Tenet") was going to acquire Vanguard. The Transaction Committee then performed its due diligence with respect to Tenet and recommended to the Board that ECHN continue with the contemplated transaction. The Board voted to approve the Transaction Committee's recommendation.

ECHN and Vanguard began the regulatory approval process in the summer of 2014 and submitted their application to the OAG and OHCA on October 24, 2014, and filed responses to completeness questions on November 25, 2014. On December 11, 2014, Tenet informed ECHN that it was withdrawing its application for the acquisition of ECHN citing the proposed regulatory conditions that had been placed on its Application to form a joint venture with the Greater Waterbury Health Network, Inc. ("GWHN").[7]

While waiting to see if Tenet might return to Connecticut to pursue its acquisition of ECHN, the Board reaffirmed the need for ECHN to partner. To that end, and with the guidance of The Chartis Group, the Transaction Committee conducted a second RFP process. On February 6, 2015, RFPs were sent to the four systems that had expressed

[7] On December 11, 2014, Tenet withdrew its applications with respect to the Greater Waterbury Health Network, Inc., Saint Mary's Health System, Inc., Eastern Connecticut Health Network, Inc., and Bristol Hospital and Health Care Group, Inc.

interest in partnering with ECHN and to two additional out-of-state systems that had approached ECHN with interest in an affiliation. ECHN received three responses.

While considering these proposals, two teams of Transaction Committee members and ECHN executives made visits to Los Angeles to tour PMH's management services organization that supports its independent physician practice associations (IPAs) and hospitals for risk-based contracting and population health management. The groups also toured Prospect's Southern California Hospital in Culver City and met with and interviewed representatives in the areas of governance, medical staff leadership, and administration from Prospect's Los Angeles Coordinated Regional Care Market.

Members of the Transaction Committee and ECHN executives also visited CharterCARE Health Partners' Roger Williams Medical Center in Providence, Rhode Island. CharterCARE Health Partners is PMH's coordinated regional care network comprised of Roger Williams Medical Center, Our Lady of Fatima Hospital, a skilled nursing facility, a regional cancer center, a rehabilitation center, a community primary care center, a home health services company, an IPA, and a physician group practice based in Providence.

Based upon their due diligence with respect to all the proposals, the Transaction Committee chose to negotiate only with PMH in finalizing a proposed asset purchase agreement. After some of the open items in PMH's proposed APA were addressed through negotiations, the Transaction Committee unanimously recommended to the ECHN Board that it accept PMH's proposal to acquire substantially all of the assets of ECHN. After review, the Board unanimously approved the APA in substantially the form presented to them. The draft APA was then submitted to ECHN's Corporators for consideration. The

ECHN Corporators approved the draft APA on July 29, 2015, with 165 voting in favor of the transaction and 4 against.

**D. The Proposed Transaction**

PMH or a PMH designated subsidiary (hereinafter, "PMH") will purchase substantially all of the assets of ECHN, including the properties, assets and businesses of, or ownership interests of ECHN affiliates. PMH will also purchase ECHN's interests in its or its affiliates' joint ventures.[8]

PMH will acquire real property, leased property, equipment, accounts receivable, and net working capital (*i.e.*, non-cash current assets less the value of all current liabilities) of ECHN and the ECHN affiliates. PMH will assume several key liabilities, including ECHN's unfunded pension liabilities, ECHN's health benefit plan for retirees, ECHN's captive insurer liabilities (*i.e.*, Connecticut Healthcare Insurance Company), and ECHN's workers' compensation obligations.

PMH will exclude some current ECHN liabilities that will then remain the responsibility of ECHN's residual corporation following the transaction ("Legacy ECHN"). For example, PMH will not assume liabilities that could arise from lawsuits or tax settlements based on pre-closing activities. ECHN will exclude certain of its assets from the purchase, including certain cash and cash equivalents of ECHN; all short-term and long-term investments, but excluding ECHN's investment interests in the joint ventures; board-designated, restricted, and trustee-held or escrowed funds (such as funded depreciation, debt service reserves, self-insurance trusts, working capital trust assets, and

[8] The assets of ECHN Community HealthCare Foundation, Inc., will not be included in the assets purchased by PMH.

assets and investments restricted to use), beneficial interests in charitable trusts, and accrued earnings on all of the foregoing.

PMH will pay $105,000,000 subject to the Net Working Capital reconciliation, minus the amount of certain ECHN liabilities assumed by PMH (*e.g.* ECHN's unfunded pension obligations, captive insurer liability, capital leases, and the workers' compensation liability), minus asbestos abatement liability of up to $1,000,000, and minus, in the event that ECHN is unable to assign and transfer to PMH ECHN's interest in an ECHN joint venture, a dollar amount to be fixed in advance for each ECHN Joint Venture.

ECHN's proceeds from the APA will first be used to settle all of ECHN's bond liabilities and all of ECHN's other indebtedness not otherwise assumed by PMH. The remaining proceeds will next be used to fund an indemnity reserve for a period of at least three years (the "Reserve Period") following the closing of the transaction for payment of ECHN liabilities to PMH that may arise post-closing. Any proceeds that remain after settling bond liabilities, settling other indebtedness, and funding the indemnity reserve will be held by the residual ECHN corporation to be used for post-closing liabilities and wind down of operations. After expiration of the Reserve Period, any funds remaining in the Reserve and not used to pay claims will be transferred as directed by the Office of the Attorney General of the State of Connecticut with the expectation that such funds will be transferred to a nonprofit foundation and used to support charitable health related efforts in the ECHN Service Area.

After closing, PMH/ECHN, will develop a strategic capital plan with respect to the Hospital Businesses. PMH has committed to spend within five years of the closing not less than $75,000,000 (the "Commitment Amount") for the benefit of the Hospital Businesses and for the benefit of the Service Area of MMH and RGH. These expenditures may include:

(i) capital projects, including routine and non-routine capital expenditures for the improvement of ECHN's facilities; (ii) development, expansion, or acquisition of a department, program, service or facility; (iii) upgrades or renovations generally; (iv) deferred maintenance items; and (v) capital expended in support of the recruitment of the hospitals' medical staff located in the hospitals' Service Area.

PMH will offer employment as of the closing to substantially all employees of ECHN and its affiliates who work at the hospital businesses, including employees on approved leaves of absence as of the closing. PMH will offer the hired employees salaries that are equal to their salaries as of the closing date and benefits packages that are comparable to those offered to similarly-situated employees at other hospitals operated by PMH. PMH will assume and honor ECHN's (and its affiliates') collective bargaining agreements.

For at least three years after the closing of the transaction, PMH will continue operating MMH and RGH in their current locations as acute care hospitals with emergency departments. Also, for at least three years after the closing of the transaction, PMH will maintain an ownership interest in ECHN's current post-acute care continuum of care network and require any wholly owned entity involved with such post-acute care continuum of care network to maintain appropriate service lines during such three-year period. PMH will also ensure that each Hospital maintains and adheres to ECHN's current policies regarding charity care, indigent care, community volunteer services and community benefits (or adopts other policies that are at least as favorable to the community as ECHN's current policies).

PMH will maintain and support financially ECHN's University of New England medical student and other health professions teaching programs, as well as ECHN's graduate medical education programs, while operating at a level not to exceed the Indirect

Medical Education and Direct Graduate Medical Education caps that may be established by the Centers for Medicare and Medicaid Services.

Following the closing, MMH and RGH will each maintain an advisory board made up of community representatives, physicians on the respective hospital's medical staff, and the Chief Executive Officer of the respective hospital (the "Local Board"). Among other things, the Local Board will serve as a resource for PMH with respect to PMH's investment of the capital commitment, assist with maintenance and implementation of a strategic business plan for the Hospitals, make recommendations for medical staff credentialing at the Hospitals, review and make recommendations regarding the quality assurance program at the Hospitals, and assist in issues relating to accreditation for the Hospitals.

ECHN agrees to maintain an indemnity reserve in the amount of $4,500,000 for a period of three years after the closing date so that PMH will have meaningful recourse against ECHN for any potential indemnification claims. If certain claims arise during this three year period, the indemnification reserve may be extended, but not beyond the fifth anniversary of the closing date. The indemnification obligations of PMH's subsidiary buyer to ECHN are guaranteed by PMH.

**E. The Charitable Assets of ECHN**

Throughout its history, ECHN has received numerous charitable gifts, legacies and devises from generous individual donors and community fundraising efforts.[9] These gifts were given to one of four entities: Manchester Memorial Hospital, Rockville General

[9] Manchester Memorial Hospital, Rockville General Hospital, the ECHN Community HealthCare Foundation, Inc., and ECHN Eldercare Services, Inc., hold all of ECHN's charitable funds. For the sake of our discussion, we will refer generally to funds as being held by ECHN.

Hospital, the ECHN Community HealthCare Foundation, Inc. (the "ECHN Foundation"), and ECHN Eldercare Services, Inc. As part of its Application, ECHN provided information and documentation of the charitable trusts and gifts of which its hospitals are the beneficiary or in which its hospitals claim an interest. Specifically, it provided copies of the gift documents themselves (Exhibit Q11-2 of the Application) and a spreadsheet (the "Gift Document Analysis"; Exhibit Q11-1 of the Application) that included a narrative description of each charitable gift, succession language where applicable, the name of the trustee of each gift, and a designation of whether each gift was an endowment and restricted as to purpose. The value of all the charitable gifts as of March 30, 2016, was $23,116,006.

The OAG reviewed the Gift Analysis provided by ECHN for accuracy and completeness. In addition, the OAG questioned ECHN on the due diligence undertaken to identify all of the underlying gift documents for the charitable funds. The OAG is satisfied that ECHN has identified all the charitable funds in its possession and has met its burden to produce the underlying gift documents for each fund.

*1. Manchester Memorial Hospital*

We first catalog the charitable funds held by MMH.

*a. MMH Unrestricted Endowments*

Unrestricted endowments are charitable funds, the original gift instrument of which specifies that the sum donated is to be held and preserved as "principal," as a "fund," as an "endowment," or directs that the sum be held and invested, or added to an existing endowment fund, and further specifies that the annual income earned on said principal be

applied to the general purposes of the hospital.

The following gifts are unrestricted endowments held by MMH:[10] Blish (11-1.1), Carpenter (11-1.2), Chapman (11-1.3), Coates (11-1.4), Dart (11-1.5), House (11-1.6), Porter (11-1.7), Rice (11-1.8), Stanley (11-1.9), Strant (11-1.10), Strickland (11-1.11), Ellis (11-1.12), Pinney (11-1.13), Hohenthal (11-1.14), Cheney (11-1.15), Campbell Cheney (11-1.16), Dewey (Albert) (11-1.17), Dewey (Jane) (11-1.18), Gardner (11-1.19), Piper 1 (11-1.20), and Piper 2 (11-1.21). As of March 31, 2016, the total value of these restricted endowments was $8,558,001.

*b. MMH Endowments Restricted to Purpose*

Endowments Restricted to Purpose are charitable funds, the original gift instrument of which specifies that the sum donated is to be held and preserved as "principal," as a "fund," as an "endowment," or directs that the sum be held and invested, but the purposes to which the income may be put are restricted and cannot be applied to the general purposes of the hospital. One of the most common restrictions on hospital gifts directs the funds to be used for free bed care, i.e., to use the funds on behalf of persons unable to pay for the hospital services provided (a "Bed Fund"). MMH holds six Bed Funds: Drake (11-1.22), Hills Preston (11-1.23), Boynton (11-1.24), Loomis (11-1.25), Cheney Disher (11-1.26), and Keeney (11-1.27). MMH's Bed Funds are valued at $541,728 as of March 31, 2016. MMH holds two additional endowments restricted to purpose: Trotter (11-1.28) (for the benefit of children patients) and Wright (11-1.29) (for the benefit of the fight against cancer). The Trotter and Wright funds have a total value of $6,629 as of March 31, 2016.

[10]The numbers following the gifts represent the fund number as identified in the Application, Exhibit Q11-1.

*c. MMH Miscellaneous Funds*

MMH has interests in two additional funds: Damato (11-1.30) and a life insurance policy (11-1.31). The Damato estate is an unrestricted gift, with an undetermined value at this time. The date of final distribution is unclear at this time due to the complexity of liquidating the assets in the estate, particularly the real estate assets.

The current value of the life insurance policy is $58,147.

The total value of gifts held by MMH as of March 31, 2016, is $9,164,514.

*2. Rockville General Hospital*

*a. RGH Unrestricted Endowments*

The following gifts are unrestricted endowments held by RGH: Bissell (11-1.32), Maxwell (11-1.33), Goodale and Risley (11-1.34), United German Society (11-1.35), Prescott (11-1.36), Maxwell (11-1.37), Smith (11-1.38), Doss (11-1.39), Wood (11-1.40), Henry (Maud) (11-1.41), Henry (Lenore) (11-1.42), Charter (11-1.43), Bilson (11-1.44), Belding (11-1.45), Bradley (11-1.46), Britton (11-1.47), Sprague (11-1.48), Doane (11-1.49), Keney (11-1.50), American Red Cross (11-1.51), Talcott (11-1.52), Maxwell (11-1.53), Metcalf (11-1.54), and Henry (11-1.55), As of March 31, 2016, the total value of these unrestricted endowments was $8,989,027.

*b. RGH Endowments Restricted to Purpose*

RGH holds eight Bed Funds: DAR (11-1.56), Prescott (11-1.57), Phelps (11-1.58), Winchell-Foster (11-1.59), Tucker (11-1.60), Whitlock (11-1.61), Sykes Phelps (11-1.62), and Kress (11-1.63). RGH's Bed Funds are valued at $288,358 as of March 31, 2016. MMH holds two additional endowments restricted to purpose: Baker Family (11-1.64) (for the upkeep and physical maintenance of the Hospital) and Schortmann (11-1.65) (for the operation or improvement of the maternity and nursery facilities of the Hospital). The

Baker Family and Schortmann funds have a total value of $278,769 as of March 31, 2016.

*c. RGH Miscellaneous Funds*

RGH has interests in two charitable gift annuities, but one of the two joint annuitants has now lived beyond the projected life expectancy. The annuities are now contractual liabilities of the Hospital, and ECHN is looking to terminate these arrangements at fair value. Names of the original grantors have been withheld. (11-1.77 and 11-1.78).

The total value of gifts held by RGH as of March 31, 2016, is $12,374,200.

*3. ECHN Community Healthcare Foundations, Inc.*

*a. Endowments*

The ECHN Foundation holds several funds for the benefit of MMH and RGH. With respect to MMH, the ECHN Foundation holds the following unrestricted endowments: Burgess (11-1.79), St. Laurent (11-1.80), and Piper (11-1.81). The total value of these three gifts as of March 31, 2016 is $1,285,023. With respect to RGH, the ECHN Foundation holds the follow endowments with restricted purposes: Maxwell (11-1.82) (for the benefit of the normal maintenance and repair of the Maxwell Home and its grounds) and Risley Scholarship (11-1.83) (for the benefit of nurses' continuing education). The total value of these two funds as of March 31, 2016, is $282,289. The total value of funds held by the ECHN Foundation is $1,567,312.

*b. Special Purpose Funds*

The ECHN Foundation holds a dozen funds that are fully expendable but have restricted purposes. If ECHN does not deplete these funds for their intended purpose prior to the closing, they will remain with Legacy ECHN to be transferred to the New Foundation or another charitable organization to fulfill the fund's intended charitable purpose. The

special funds are as follows: Avis Lloyd Tree of Life (11-2.1), Team Towanda (11-2.2), Employee Care (11-2.3), Breast and Cervical Cancer (11-2.4), Adult Ambulatory Administrative Education and Development (11-2.5), Purcell Golf Classic Trophies (11-2.6), Woodlake at Tolland Wishes Program (11-2.7), Van (11-2.8), Risley (11-2.9), Fields (11-2.10), and Woodlake: Resident Council (11-2.11). The total value of the special funds held by the ECHN Foundation is $9,979.

*4. Trusts Held by Outside Trustees*

All the charitable funds identified above are held and administered by ECHN. There is a series of charitable gift funds, however, that are not held by ECHN but by outside trustees and for which ECHN holds the beneficial interest.

*a. For the Benefit of MMH*

There are seven funds held by outside trustees for the benefit of MMH: Barton (11-3.1), Clark (11-3.2), Morton (11-3.3), Robertson (11-3.4), Crowell (11-3.5), Ferguson (11-3.6), and Rogers (11-3.7).

*b. For the Benefit of RGH*

There are three funds held by outside trustees for the benefit of GWH: Dillon (11-3.8), Moxon (11-3.9), and Barton (11-3.10).

The market value of the corpus of the trusts held by outside trustees for the benefit of ECHN was $10,903,971 on March 31, 2016.

## V. LEGAL ANALYSIS AND REQUIRED MODIFICATIONS

Conn. Gen. Stat. § 19a-486a *et seq*. directs that any nonprofit hospital that enters into an agreement to transfer a material amount of its assets or operations with an entity operated for profit must first obtain the approval of OHCA and the OAG. Any agreement made without these approvals is deemed void.

Conn. Gen. Stat. § 19a-486c mandates that the Attorney General shall disapprove a proposed sale of a nonprofit hospital to a for-profit entity as not in the public interest if he determines that one or more of nine conditions exist.[11] The Conversion Act, however, allows the Attorney General to approve an application while setting forth modifications and/or conditions that would bring the proposed transaction into compliance with the conditions in § 19a-486c. What follows, therefore, is the OAG's analysis and discussion of the statutory criteria in § 19a-486c and the modifications and conditions to the Asset Purchase Agreement that are necessary to satisfy those criteria.

**A. The transaction is not prohibited by Connecticut statutory or common law governing nonprofit entities, trusts or charities.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(1), the Attorney General shall disapprove a proposed agreement if he determines that the transaction is prohibited by Connecticut statutory or common law governing nonprofit entities, trusts, or charities. Subject to the modifications and conditions set forth in Section II(D) of this decision, we conclude that the Asset Purchase is not prohibited by statutory or common law governing nonprofit entities, trusts, or charities.

**B. ECHN exercised due diligence.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2), the Attorney General is required to determine whether the nonprofit hospital exercised due diligence in four distinct areas. The phrase "due diligence" is not defined by the Conversion Act, but Black's Law Dictionary (6th ed. 1990) defines it as: "Such a measure of prudence, activity, or assiduity, as is properly to be expected from, and ordinarily exercised by, a reasonable and prudent man

[11] See footnote 1.

under the particular circumstances; not measured by any absolute standard, but depending on the relative facts of the special case." In short, therefore, we review the level of care and prudence that the ECHN Board exercised in deciding to enter into the APA with PMH.

Based upon our and our expert's review of the materials presented as a part of the ECHN and PMH Application and the testimony given at the public hearings, it is clear that ECHN undertook an extensive and diligent process to explore strategic options and to identify a capital alternative that would enable it to address its difficult financial position. ECHN has faithfully pursued its mission to ensure quality healthcare for the Manchester and Rockville communities. As noted in the findings of fact, ECHN's efforts began in 2011 with the establishment of the Partnering Workgroup and the hiring of Chartis. Every step that followed in ECHN's pursuit of a capital partner was reviewed by a Transaction Committee, the Board of ECHN, and for significant issues, the ECHN Corporators. ECHN pursued discussions with multiple strategic partners, evaluated a range of transaction structures, and explored multiple strategies to access capital. Our specific due diligence findings follow.

*1. ECHN exercised due diligence in deciding to participate in the APA.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(A), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in deciding to transfer its assets. The record reveals a compelling case for ECHN to transfer substantially all of its assets as a means to assure the long-term viability of MMH and RGH.

ECHN engaged in a decision-making process that was reasonable, thoughtful, and thorough. In short, its ultimate decision to transfer substantially all of its assets to PMH demonstrated due diligence under the circumstances. As noted in the findings of fact,

ECHN pursued a range of strategic initiatives to address the hospital's financial constraints, aging facilities, and limited access to capital. Without a feasible alternative available, the ECHN Board reasonably concluded that the sale of its assets to another hospital system was an appropriate solution for long-term viability of the hospitals. We, therefore, conclude that ECHN exercised due diligence in deciding to transfer substantially all of its assets as a part of the APA.

*2. ECHN exercised due diligence in selecting PMH for the Asset Purchase.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(B), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in selecting the purchaser. Based on the record in this case, ECHN has established that it exercised due diligence in selecting PMH to purchase substantially all of its assets.

The full history of ECHN's search for a capital partner is described in detail in the findings of fact. With respect to the initiative that resulted in the APA with PMH, however, we conclude that ECHN took appropriate and considered steps to identify the best situation for MMH and RGH. ECHN conducted a second RFP process with the guidance of Chartis, delivering the RFP to six potential partners, including PMH. By mid-March in 2015, ECHN had received three proposals. The Transaction Committee reviewed the proposals and evaluated each in light of the selection criteria approved by the Board, including quality of care. The Transaction Committee then performed its due diligence with respect to the potential partners, reviewing financial, quality, and corporate compliance data for each of the potential partners. With respect to PMH, members of the Transaction Committee visited PMH's California and Rhode Island operations.

On June 22, 2015, the Transaction Committee voted unanimously to recommend acceptance of the PMH proposal. On June 25, 2015, the Board held a retreat during which it considered the proposals received from the potential partners, ultimately voting in favor of the PMH proposal. The draft APA was then sent to ECHN's Corporators for their review, who approved entering the transaction in overwhelming numbers.

On or about the beginning of February 2016, after the hospital conversion application process had begun with the OAG and OHCA, ECHN learned that recent Medicare and Medicaid surveys at two of PMH's California hospitals (Los Angeles Community Hospital and Southern California Hospital at Culver City) had resulted in findings of Immediate Jeopardy by regulatory authorities at both hospitals. After learning about these determinations, ECHN appointed a Quality Evaluation Team that looked into the Immediate Jeopardy findings to determine whether the findings were sufficiently substantial to call into question PMH's fitness as a transaction partner. After a thorough investigation, the Quality Evaluation Team determined that "the recent compliance issues present isolated challenges that [PMH] has demonstrated a strong commitment to remediate through corrective actions that are already in progress." (Testimony of Joy Durin, Vice Chair, Board of Trustees, Chair, Transaction Committee, p. 3350.) This conclusion was shared with the Transaction Committee, approved by them, sent to the Board, and the board approved the recommendation. In addition to the investigation performed by the Quality Evaluation Team, ECHN negotiated a Quality Assurance Commitment with PMH that requires PMH to maintain ECHN's quality programs for at least two years following the closing of the transaction. In addition, it requires PMH to maintain quality assurance and performance improvement programs that are consistent with industry best practices and quality improvement programs as currently implemented

in PMH's Rhode Island facilities. Based on the evidence presented to the OAG, we conclude that ECHN exercised due diligence in selecting PMH as its partner for the APA and in confirming that selection after PMH's Immediate Jeopardy findings came to light.

*3. ECHN exercised due diligence in obtaining a fairness evaluation.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(C), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in obtaining a fairness evaluation from an independent person expert in such agreements.

ECHN's fairness evaluation was conducted by Duff & Phelps, LLC ("Duff & Phelps"), who had no previous material relationship with any party to the transaction, except for having previously provided an independent fairness opinion regarding the proposed ECHN/Tenet transaction. In addition, no portion of Duff & Phelps fee was contingent on the conclusion expressed in the fairness opinion or on the successful consummation of the transaction.

Therefore, we conclude that the ECHN Board exercised due diligence in obtaining a fairness evaluation regarding the terms of the proposed APA from an independent entity expert in such agreements.

*4. ECHN exercised due diligence in negotiating the terms and conditions of the APA.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(D), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in negotiating the terms and conditions of the transfer.

Our review of the transaction leads us to conclude that ECHN exercised due diligence in negotiating most of the terms and conditions of the APA. As discussed below, we believe ECHN will receive at least the fair market value for its assets. In addition,

ECHN negotiated a capital commitment of $75 million for the for-profit ECHN hospital system ("PMH/ECHN") over the next five years. Other highlights include PMH's retention of ECHN employees, the assumption by PMH of the unfunded pension liabilities, the formation of local advisory boards for each hospital, and PMH's commitment to maintain ECHN's current policies regarding charity care, indigent care, and community benefits.

One provision in the APA, however, stands out as unreasonable in light of the details of the transaction as a whole. Section 5.18 of the APA concerns PMH's $75 million capital commitment, and subsection (b) of this section provides as follows:

> *Notwithstanding the above capital commitment, in the event that any Legal Requirement is enacted or imposed by the State of Connecticut after Closing that discriminates against, or adversely affects a disproportionate number of for-profit hospitals and causes the Hospital Businesses to suffer a decline in EBITDA of more than ten (10) percent in any year, on a consolidated basis, then, Buyer may defer in its discretion the above capital commitment beyond the five-year period provided in Section 5.18(a) but only to the extent of the decline in EBITDA resulting from the discriminatory Legal Requirement. To the extent Buyer desires to defer the capital commitment as a result of a discriminatory Legal Requirement, (i) Buyer shall make available to the public reasonably detailed information to support Buyer's position (provided that in no event shall Buyer be required to disclose any information that is subject to a confidentiality or other similar arrangement) and (ii) Buyer shall consult with the Local Board to determine an alternate mutually agreeable timeframe to complete the capital commitment that is reasonable and appropriate in light of the changed circumstances caused by the new Legal Requirement.*

(Exhibit Q3-2, Asset Purchase Agreement, p. 182.)

Although PMH may wish to hedge against future changes in the legal landscape, it cannot hold the ECHN capital investment hostage by such a provision. To do so would render the $75 million capital commitment – a key term of the deal – subject to delay upon the future actions of legislators. Put differently, we believe that PMH must bear the risk of future legislation and not PMH/ECHN. The $75 million capital commitment is indeed a

commitment, and the deadline by which it must be spent must be honored. Accordingly, as a condition to approval of the proposed transaction, the OAG requires that the Applicants modify the APA by deleting section 5.18(b) from the APA.

### C. ECHN Disclosed Any and All Board Member, Officer, Key Employee, and Expert Conflicts of Interest With Respect to the APA.

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(3), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the nonprofit hospital failed to disclose any conflict of interest, including but not limited to, conflicts of interest pertaining to board members, officers, key employees, or experts of ECHN, the purchaser, or any other party to the transaction.

The Applicants provided the OAG with individual conflict of interest statements for each relevant individual (board member, officer, etc.) employed by ECHN, its experts, and PMH. Each individual was required to respond to individual questions regarding possible financial, beneficial, and/or employment related conflicts of interest. If any of the questions were answered with anything other than an unqualified "No," the individual was required to attach an explanation to the statement. These statements were reviewed by the OAG and Navigant.

Section 5.03 of the APA requires PMH "to employ as of the Closing Date substantially all employees of Seller and its Affiliates who work at the Hospital Businesses." (Exhibit Q3-2, Asset Purchase Agreement, p. 171.) Therefore, employees of ECHN, including ECHN's officers and key employees, have been offered employment with PMH as a part of the transaction. This general provision, however, does not create a conflict of interest for the purposes of this statutory element.

After a careful review of all the conflict of interest responses, there do not appear to be any conflicts of interest with this proposed transaction that exist outside of the APA itself. In addition, no intervenor or other participant in the proceeding has offered any credible evidence that any conflict existed at any time during the negotiation of the APA. Accordingly, we conclude that no conflicts of interest exist that would require disapproval of the APA.[12]

**D. ECHN will receive fair market value for its assets.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(4), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the nonprofit hospital will not receive fair market value for its assets. For purposes of the Conversion Act, "fair market value" is defined as

> the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and in their own best interest, and with a reasonable time being allowed for exposure in the open market.

Conn. Gen. Stat. § 19a-486c(a)(4).

PMH has agreed to pay $105 million as compensation for substantially all of ECHN's assets. Two independent financial experts have reviewed the transaction to determine whether ECHN will receive fair market value for its assets, and both have concluded that the purchase price of $105 million equals or exceeds the fair market value of ECHN's assets.

---

[12] ECHN's process to ensure that no individual with a conflict of interest voted on this transaction was very thorough. Indeed, ECHN created a Conflict of Interest Task Force specifically for this purpose. The Board voted on all transaction-related resolutions pursuant to a two-step process to help ensure that any personal interest in any of the transaction decisions made would be eliminated.

As discussed above, ECHN retained Duff & Phelps to provide it with an independent valuation and fairness opinion regarding the transaction.[13] Duff and Phelps considered three principal methods of valuation: discounted cash flow, guideline company, and M&A transaction. These approaches indicated that the fair market value of ECHN was well below the price PMH had agreed to pay for substantially all of the assets of ECHN. Duff & Phelps's mid-point estimate for ECHN, without the joint ventures, was $57.1 million. Duff & Phelps used a market and a capitalized cash flow approach to estimate the value of ECHN's joint ventures as $13.1 million. The total estimated fair market value for ECHN as determined by Duff & Phelps, therefore, is $70.2 million. As such, Duff and Phelps was able conclude in its fairness opinion that "the consideration to be received by [ECHN] in the Proposed Transaction is fair from a financial point of view to the Company." (Exhibit Q7-4, Duff & Phelps' Fairness Opinion Letter, p. 836.)

Navigant was hired though an RFP process to be the OAG's financial expert for the purposes of reviewing this transaction. Navigant has also concluded that ECHN will receive fair market value for the transfer of its assets.[14] In performing its fair market value analysis, Navigant considered the three generally accepted approaches to value: income, market, and cost. Navigant valued ECHN's assets as value-in-continued use, as part of a going concern. Based upon these valuation methods, Navigant estimated the total fair market value of ECHN, including the joint ventures, to be $63,750,000. Navigant's

[13] The OAG has previously concluded that ECHN exercised due diligence in selecting Duff & Phelps to perform the independent fairness evaluation on its behalf.

[14] Navigant's report is attached hereto as Exhibit A.

analysis supports the conclusion that ECHN will receive fair market value for the transfer of its assets.

Based on the independent financial assessments of two respected hospital valuation firms, and the lack of evidence to the contrary in the record, we conclude that ECHN will receive fair market value for its assets.

**E. The fair market value of the assets has not been manipulated by any person in a manner that causes the value of the assets to decrease.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(5), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the fair market value of the nonprofit hospital's assets has been manipulated by any person in a manner that causes the value of the assets to decrease.

Navigant performed reviews of ECHN's financials and assets and found no indication that the fair market value of ECHN's assets had been manipulated. No intervenor or other participant in the proceeding has offered any evidence that the fair market value of ECHN's assets has been manipulated to artificially lower the payment price. Based on these factors, we conclude that the fair market value of ECHN's assets has not been manipulated.

**F. The financing of the transaction will not place ECHN's assets at an unreasonable risk.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(6), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the financing of the transaction by the nonprofit hospital will place the nonprofit hospital's assets at an unreasonable risk. Consistent with the OAG's interpretation of this provision in *Sharon*, we interpret this statutory provision to require our examination of the proposed financing of the transaction to ensure that the APA does not "burden the for-profit entity

with so much debt that the transferred assets of the former nonprofit hospital, albeit now operated for profit, will be placed at an unreasonable financial risk of closure or bankruptcy—an event that would result in a loss of healthcare for the affected community." *In re Sharon Hospital*, Docket No. 01-486-01, p. 64 (2001).

Based upon the record, we conclude that the financing of this transaction will not place ECHN's assets at risk. PMH confirmed on the record that the $105 million purchase price for ECHN's assets will be financed with operating cash from PMH. More specifically, PMH represented that it has the financial capacity to provide the necessary capital to purchases ECHN's assets without transaction-specific financing arrangements. After its review of the transaction, Navigant concluded that PMH will not incur any debt financing to consummate the transaction, and so, ECHN's assets would not be put at an unreasonable risk.

As such, we conclude that the assets of ECHN will not be placed at an unreasonable risk due to the financing of the transaction.

**G. The management contract contemplated under the transaction is for reasonable fair value.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(7), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that any management contract contemplated under the transaction is not for reasonable fair value. No management contract is contemplated under the APA. Accordingly, we conclude that this element of the analysis has been met.

**H. Assuming compliance with the modifications imposed below, a sum equal to the fair market value of ECHN's assets is being transferred to the New Foundation to provide only for charitable health care services in the affected community.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(8), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that:

> a sum equal to the fair market value of the nonprofit hospital's assets (A) is not being transferred to one or more persons to be selected by the Superior Court who are not affiliated through corporate structure, governance or membership with either the nonprofit hospital or the purchaser, unless the nonprofit hospital continues to operate on a nonprofit basis after the transaction and such sum is transferred to the nonprofit hospital to provide health care services, and (B) is not being used for one of the following purposes: (i) For appropriate charitable health care purposes consistent with the nonprofit hospital's original purpose, (ii) for the support and promotion of health care generally in the affected community, or (iii) with respect to any assets held by the nonprofit hospital that are subject to a use restriction imposed by a donor, for a purpose consistent with the intent of said donor.

This provision in the Conversion Act advances the important policy that the value of the nonprofit hospital be preserved for charitable healthcare purposes in the service area that the nonprofit hospital previously served. In addition, it restates the OAG's statutory responsibility to protect the public interest in the protection of gifts made for charitable or public purposes codified at Conn. Gen. Stat. § 3-125.

The language of Conn. Gen. Stat. § 19a-486c(a)(8) requires the OAG to assess several different issues in connection with the APA. We must first analyze, determine, and approve a value that is the "sum equal to the fair market value of the nonprofit hospital's assets." Second, we must analyze the nature and purpose of the entity to which that sum is being transferred. Third, we must determine and require that the transferred sum is used only for the statutorily identified charitable purposes. Last, we are required to inventory all gift documents and restricted charitable assets currently held by ECHN and identify any approximation and/or equitable deviation needs in connection with these assets.

*1. A Sum Equal to the Fair Market Value of ECHN is Being Transferred to the New Foundation.*

The term "fair market value" is used in several places in subsection (a) of § 19a-486c. As discussed in the OAG's *Sharon* decision, and more fully below, fair market value has two distinct meanings depending on which section of the Conversion Act the term is used.

Subsection (4) of § 19a-486c requires us to ensure that the nonprofit hospital receives fair market value for its assets. As discussed earlier, subsection (4) defines "fair market value" as the likely price that the assets would bring in a sale in a competitive and open market. Subsection (4) is looking for the gross asset value.

If fair market value were computed for purposes of subsection (8) as it is for subsection (4), though, the nonprofit hospital might be left transferring to a conversion foundation the proceeds of its sale, but leaving the nonprofit hospital no ability to pay off its liabilities post-closing with some portion of those proceeds. Such a result is nonsensical, because a primary goal of a nonprofit hospital's sale of assets is the extinguishment of corporate liabilities. For example, in the case of ECHN, its long-term bond debt will be paid off with proceeds from the sale of its assets.

The definition we use for fair market value for purposes of subsection (8), therefore, is more appropriately the price paid for the nonprofit hospital's asset minus the amount of its debt obligations and other liabilities that it will resolve using the proceeds of the proposed transaction. In other words, fair market value equals the net proceeds of the nonprofit hospital. *In re Sharon Hospital*, OAG Docket No. 01-486-01, p. 69 (2001). With respect to ECHN, the net asset value calculation must take into account all retained assets and liabilities, including, for example, cash, accounts receivable, any adjustment to the net working capital figure, its long-term debt, workers' compensation and medical malpractice

liability relating to events occurring prior to closing, and any payor liabilities and obligations from reporting periods prior to closing.

Late Filed Exhibit 8 (App., p. 4261) sets forth the most current numbers on what proceeds will remain after netted with ECHN's liabilities. In short, this exhibit projects that nothing will remain after ECHN pays off its liabilities. In fact, it appears that ECHN will not even have sufficient assets to fund the indemnity reserve or to fully pay for its liabilities in excess of $77 million (the excess liability is currently tallied at $7,924,000), both obligations of ECHN. Given these numbers, we conclude that the sum that is equal to the fair market value of ECHN is currently zero.

However, the post-transaction nonprofit ECHN, Legacy ECHN, may receive funds after the close. For example, Legacy ECHN may receive reimbursements due from Medicare and Medicaid for the years prior to the closing. Also, Legacy ECHN will receive income from the unrestricted endowments during the time period between the close of the transaction and the Superior Court order that will transfer all charitable assets from Legacy ECHN to the New Foundation. Moreover, Legacy ECHN may receive charitable distributions from pending estates, i.e., the Damato estate. This income will initially be used to pay off ECHN's liabilities and to fund the indemnity reserve, both obligations of ECHN.[15] After these obligations are paid or funded, however, any funds remaining would constitute net proceeds.

Because the final net proceeds value of the nonprofit hospital cannot be precisely identified prior to the actual closing of the transaction, the determination of a sum equal to

---

[15] Legacy ECHN could also use these funds to finance wind-down costs, but Exhibit 8 already includes a line item for "Post-closing Pool 'Wind Down' Funds." Regardless, Wind Down costs are an appropriate expense for Legacy ECHN.

the fair market value for the purposes of subsection (8) must await a post-closing accounting. Accordingly, as soon as reasonably possible after the Applicants have agreed to a Final Closing Statement of the asset purchase, the Applicants must provide the OAG a final accounting of the transaction that sets forth the balance sheets of ECHN immediately prior to, and Legacy ECHN immediately after, the closing and that provides a net proceeds analysis, substantially similar to Late Filed Exhibit 8 with explanations of any changes to the figures. This requirement is a condition of approval for the proposed transaction.

Additionally, because Legacy ECHN will receive income post-closing that may constitute net proceeds, Legacy ECHN shall, as a condition to the OAG's approval of the transaction, report quarterly to the OAG regarding (1) any and all income received by Legacy ECHN post close, including, but not limited to, Medicare and Medicaid reimbursements, income from charitable assets held by Legacy ECHN prior to transfer to the New Foundation, and any additional charitable funds received, and (2) all expenditures for Legacy ECHN.

Last, if the transaction ultimately produces net proceeds, that amount will be transferred to the New Foundation for use consistent with the charitable purpose of the New Foundation.

*2. The Nature of the Conversion Foundation Complies with the Conversion Act.*

The Conversion Act requires that the net asset value of the nonprofit hospital be transferred to "one or more persons to be selected by the Superior Court who are not affiliated through corporate structure, governance or membership with either the nonprofit hospital or the purchaser, unless the nonprofit hospital continues to operate on a nonprofit basis after the transaction and such sum is transferred to the nonprofit hospital to provide

health care services." Conn. Gen. Stat. § 19a-486c(8)(A). This provision prohibits improper affiliation with the new for-profit hospital.

ECHN has submitted a draft certificate of incorporation ("COI") and draft bylaws for the New Foundation. By these submissions, ECHN is proposing to create an "independent conversion foundation." This particular type of foundation is completely independent from both the nonprofit hospital and the for-profit purchaser and must be approved by the Superior Court. There can be no affiliation by corporate structure, governance, or membership.

The draft documents comply with the requirements of the statute. The New Foundation will have no corporate relationship with PMH/ECHN, and the governing members of the New Foundation will not contemporaneously serve in any governing position at PMH/ECHN or at any of its affiliates. In addition, any individual who serves as member of a governing board at PMH/ECHN must wait two years before serving on the governing board of the New Foundation. (Exhibit Q10-2, New Foundation Bylaws (Draft), pp. 917-18.) The New Foundation meets the affiliation requirements of § 19a-486c(8)(A).

The New Foundation will also be operated for the proper purposes, as set forth in the Conversion Act. Section 19a-486c(a)(8)(B) provides that the New Foundation must be operated:

> (i) For appropriate charitable health care purposes consistent with the nonprofit hospital's original purpose, (ii) for the support and promotion of health care generally in the affected community, or (iii) with respect to any assets held by the nonprofit hospital that are subject to a use restriction imposed by a donor, for a purpose consistent with the intent of said donor . . . ."

§ 19a-486c(a)(8)(B).

In its draft COI, the New Foundation lists it purposes as follows:

> (a) To maintain and improve the health of the residents of the area historically served by Eastern Connecticut Health Network, Inc., Manchester Memorial Hospital, Inc., and Rockville General Hospital, Inc., specifically, the nineteen communities of Manchester, Vernon (including Rockville), Andover, Ashford, Bolton, Columbia, Coventry, East Hartford, East Windsor, Ellington, Glastonbury, Hebron, Mansfield, Somers, South Windsor, Stafford, Tolland, Union, and Willington (the "Communities");
>
> (b) To support or conduct community health needs assessments and encourage and support efforts to improve the health of the Communities, including the poor, the elderly, the disabled, children, and other underserved and at-risk populations;
>
> (c) To support and engage in community projects, activities, and programs that will improve access to care and enhance the health of residents, including, but not limited to, preventative health programs and health education;
>
> (d) To solicit and accept additional funds to support the Corporation's purposes, and to make grants and provide financial and other support to other non-profit organizations engaged in activities that further the Corporation's purposes;
>
> (e) To support and promote the education and training of medical professionals and providers in the area;
>
> (f) To work cooperatively with Prospect Medical Holdings, Inc. ("PMH") to ensure and augment a network of affordable and accessible health and medical care in the region; provided, however, that the Corporation will not support programs operated by or for the direct benefit of PMH while it operates as a for profit entity; and
>
> (g) To engage in any lawful act or activity for which a corporation may be organized under the Revised Nonstock Corporation Act of the State of Connecticut in furtherance of the foregoing.

(Exhibit Q10-1, Certificate of Incorporation (Draft), pp. 911-12.) These purposes are consistent with the requirements in the Conversion Act.

*3. The Transferred Sum Will Be Used Only for the Statutorily Identified Charitable Purposes.*

ECHN currently predicts that it will have no net proceeds to transfer to the New Foundation after the closing. Should a subsequent accounting of the transaction reveal net

proceeds, however, we must ensure that they will forever be used for their proper charitable purpose. The draft COI established the proper charitable purposes, but the primary mechanism to ensure that they will be used as such forever is the requirement that the New Foundation Board receive the consent of the Attorney General for the amendment of specific sections of the COI, specifically, paragraphs 2, 5, 8, and 14. In this way, the purposes of the New Foundation (paragraph 2 of the COI) cannot change unless the Attorney General agrees. Accordingly, as a condition to the Attorney General's approval of the Application, the New Foundation must include paragraph 14 in the draft COI in the final COI of the New Foundation, requiring Attorney General approval for changes to paragraphs 2, 5, 8, and 14 of the Certificate of Incorporation.

*4. Description and Quantification of the Nonprofit Hospital's Charitable Assets to be Held by the New Foundation*

Our final area of concern is to ensure that the charitable assets of ECHN, which have been held in trust for the public, are safeguarded and used for the promotion of healthcare in the area served by ECHN after the sale of its assets to PMH. We must also ensure that any restrictions contained in these charitable gifts and trusts are protected.

*a. Purpose of Attorney General's Review of Charitable Gifts*

A full analysis and review of ECHN's charitable gifts and trusts at this time is essential for several reasons. First, it permits us to fulfill our statutory obligation to ensure that all of ECHN's charitable gifts and trusts are used for a purpose consistent with the intent of the donor. In other words, this review ensures that ECHN's analysis and treatment of charitable funds in the Application correctly interprets the donors' charitable use restrictions. Second, it ensures that, with respect to the charitable gifts, no aspect of the transaction is "prohibited by Connecticut statutory or common law governing nonprofit

entities, trusts or charities." Conn. Gen. Stat. § 19a-486c(a)(1). Finally, it provides subsequent holders of the funds, i.e., the New Foundation, with accurate information about whether and how the gifts are restricted under Connecticut law so that it can administer them in accordance with donor restrictions, charities law, the terms of the contractual agreements, and modifications required in this decision.

*b. Documents Reviewed and Legal Standards*

As part of the Application, ECHN provided a review and analysis of its charitable gifts and endowments. (Exhibit Q11-1, Detail on Specific Funds, p. 927-976.) ECHN was required to provide copies of the gift instruments (including wills, inter vivos trust agreements, and documentation of inter vivos gifts), to document the current values of the funds, and to describe the donor's restrictions or directives reflecting how the gift was to be used by ECHN. The purpose of the OAG's request was to obtain the information necessary to: (1) review the gift instrument for each of ECHN's gifts to determine whether its language would permit the gift to be transferred to another nonprofit, or whether a reverter clause or gift-over provision would be triggered by the sale of assets that would require the donation to revert to a different person, and (2) determine whether the donor restricted the use of a fully expendable gift, or the income earned on an endowment fund, to a particular charitable purpose set out in the gift instrument, for example, free beds, charity care, maintenance, a building fund, or research.

The OAG reviewed each charitable gift and its supporting documentation to confirm the accuracy of ECHN's conclusions regarding the proper charitable purpose of the fund and any spending restrictions on the fund.

*c. Amount Stated by Hospital in Application*

ECHN has stated that as of September 30, 2015, it held $23,356,291 in charitable

assets, plus an additional $19,349 in special funds. Thus, according to its figures as of that date, a total of $23,375,640 in charitable gifts would be transferred to the New Foundation. In addition, the value of trusts held by third parties for the benefit of ECHN was $10,809,693 as of September 30, 2015.

We asked ECHN to update the value of the funds as of March 31, 2016, in a late filed exhibit. As of that date, it held $23,106,027 in charitable assets, plus an additional $9,979 in special funds. Thus, according to its figures as of that date, a total of $23,116,006 in charitable gifts would be transferred to the New Foundation.

*d. ECHN's Charitable Gifts and Trusts.*

The law on approximation, or cy pres, is well-developed in Connecticut. Indeed, the OAG brought an approximation action in the *Sharon* matter to address those charitable purposes that could no longer be fulfilled due to the sale of Sharon Hospital's assets. In that case, the court set forth the standards for approximation.

> In determining the construction of a charitable trust upon the failure of its stated purpose, the court applies the common law doctrine of cy pres, or approximation to as near as possible reflect the donor's intent. When it becomes illegal or otherwise impossible to carry out the terms of a charitable trust, rather than allow it to fail, the court will apply the doctrine of cy pres or approximation in order to carry out the charitable intentions of the donor as near as possible. "The rule of cy pres is a rule for the construction of instruments in equity, by which the intention of the party is carried out *as near as may be,* when it would be impossible or illegal to give it literal effect . . . The doctrine of cy pres may be applied without the consent of the donor." (Citations omitted; emphasis in original; internal quotation marks omitted.) *Carl J. Herzog Foundation, Inc. v. University of Bridgeport, 243 Conn. 1, 10 n.8, 699 A.2d 995 (1997).*

*Blumenthal v. Sharon Hosp., Inc.*, 2003 Conn. Super. LEXIS 1657, 11-12 (Sup. Ct. 2003).

Also relevant to the conversion of a nonprofit hospital is the law on equitable deviation, which is similar to that of approximation but concerns the administration of a gift fund and not its charitable purpose. The equitable doctrine of deviation has been

applied to preserve the "dominant [charitable] purpose by modifying what is described as [a] secondary purpose, often the method or means for carrying out the dominant purpose." 8 G. Bogart, Trusts and Trustees (2d Ed. Rev.Repl.1991) § 396, p. 330. Courts use this legal doctrine to order a change in the administration of a charitable fund from one charitable entity to another. Equitable deviation will be necessary in this case to move the charitable funds from ECHN to the New Foundation or another appropriate entity.

The Attorney General's office inventoried the gift documents in Section IV(E) in the Findings of Facts. Based upon this inventory and ECHN's and our analysis of these charitable gifts, we have determined that as a condition of approval, the following actions must be taken with respect to these funds.

i. Unrestricted Endowments.

An endowment fund is defined as "an institutional fund or any part thereof not wholly expendable by the institution on a current basis under the terms of a gift instrument." Conn. Gen. Stat. § 45a-535a(2). The institution that holds an endowment fund cannot fully expend such fund, but may only appropriate so much of an endowment's funds for expenditure or accumulation as the institution determines to be prudent for the uses, benefits, purposes for which the endowment fund is established. Unless stated otherwise in a gift document, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution. Conn. Gen. Stat. § 45a-535c(a).

As a condition to the OAG's approval of the Application, Legacy ECHN must present to the Superior Court, in coordination with the OAG, a petition for equitable deviation and approximation to transfer these funds to the New Foundation or another appropriate entity and to change the charitable purpose of the unrestricted endowments to the charitable purpose of the New Foundation. This condition applies to all unrestricted endowments,

whether held by MMH, RGH, or the ECHN Community Healthcare Foundation, Inc.

ii. Restricted Endowments

The Conversion Act requires the recipient of the hospital's gift funds to use assets that are subject to a use restriction imposed by a donor for purposes that are consistent with the intent of the donor. Conn. Gen. Stat. § 19a-486c(a)(8)(B)(iii).

With respect to ECHN's restricted endowments, most of the charitable purposes can be fulfilled even though the funds will not be held by a hospital. For example, a free bed fund, which is used to provide charity care at a hospital, can still be used to pay for hospital bills for indigent individuals. These funds will simply need to be transferred to the New Foundation; no change in charitable purpose is needed. There are, however, several restricted endowments that will need their charitable purposes adjusted by the Superior Court as a result of the sale of ECHN's assets to a for-profit entity.

The Thomas D. Trotter Fund was given for the benefit of pediatric patients. The Julia and Percy Baker Family Memorial Fund was given for the benefit of the upkeep and physical maintenance of RGH. The Faith S. Schortman Fund was given for the benefit of the operation or improvement of the maternity or nursery facilities at RGH. These three funds must be modified so that no charitable income benefits PMH/ECHN.

Accordingly, as a condition to the OAG's approval of the Application, Legacy ECHN must, in coordination with the OAG, include the restricted endowments in the petition for equitable deviation and approximation that will be presented to the Superior Court. With respect to Trotter, Baker, and Schortman, Legacy ECHN must seek an order of approximation for each fund, in addition to one for equitable deviation, to adjust the fund's charitable purpose to one as close as possible to the donor's original charitable intent.

iii. Special Funds

ECHN has categorized eleven (11) funds as special purpose funds. Similar to restricted endowments, these funds have a specific purpose for which they are used. Unlike the restricted endowments, however, these funds can be completely used up; they are fully expendable. Therefore, to the extent that there is any money remaining in a special fund at the time the transaction closes, that fund will need to be a part of the equitable deviation and approximation action in order to transfer it and adjust its charitable purpose, if necessary.

Accordingly, as a condition to the OAG's approval of the Application, Legacy ECHN must, in coordination with the OAG, include any special fund for which any funds remain in the petition for deviation and approximation that will be presented to the Superior Court.

iv. Trust Held by Outside Trustees.

The last category of funds that the OAG must address as part of its hospital conversion review responsibilities are those charitable assets held by third parties for which ECHN holds the beneficial interest. ECHN has identified ten third party trusts for which it holds the beneficial interest.

In each of the ten cases identified by ECHN, the sale of ECHN's assets will not affect the structure of the trust, i.e., will not require the transfer of the trust to another entity. What may be necessary, however, is a switch of the charitable beneficiary and an adjustment to the trust's charitable purpose. Also important in the third-party trust analysis is whether the donors have directed that the charitable funds go elsewhere or have given the third-party trustees the power to redirect the charitable funds themselves if

ECHN were to sell substantially all of its assets. If not, then the trusts must be presented to a court for legal disposition. Consultation with the third-party trustees is necessary in these cases.

Under Connecticut charities law, a gift to one charity, with language providing for a substitution or gift over to another charity upon certain conditions, has long been valid. *See Colonial Trust Co. v. Waldron*, 112 Conn. 216, 233 (1930); *Christ Church v. Trustees*, 67 Conn. 554, 565-66 (1896). When a gift contains an alternate disposition of a fund in case of the failure of the bequest, the equitable doctrine of approximation does not apply. See *Hartford National Bank & Trust Co. v. Oak Bluffs First Baptist Church*, 116 Conn. 347, 351 (1933); *First Congregational Society of Bridgeport v. City of Bridgeport*, 99 Conn. 22, 31-32 (1903); 4 Scott, Trusts (4th Ed.) § 399.2, p. 495-96; Restatement (Second), 2 Trusts § 399, comment c. "The provision for a gift over upon failure of the charity negatives the existence of a general charitable intent, just as the absence of such a provision is evidence of such a purpose." *Connecticut Bank & Trust v. Cyril and Julia C. Johnson Mem. Hosp.*, 30 Conn. Supp. 1, 8 (1972), citing Bogert, Trusts and Trustees (2d Ed.) § 437, p. 426.

Accordingly, as a condition to the OAG's approval of the Application, Legacy ECHN must, in coordination with the OAG and the third-party trustees, bring any third-party trust in need of construction or approximation before a court of competent jurisdiction for appropriate orders.

v. Miscellaneous

The Life Insurance Policy (11-1.31) for which MMH is the beneficiary shall be included in the Superior Court petition for an order of equitable deviation if the insured is still living at that time. Otherwise, the distribution of the insurance proceeds shall be included in the net proceeds of the transaction and treated as such.

ECHN's portion of the distribution in the Damato estate (and any other unrestricted gift to ECHN), if distributed prior to the Superior Court order transferring ECHN's charitable assets to the New Foundation or other charitable organization, shall be included in the net proceeds of the transaction and treated as such.

vi. Future Interests

To the extent there are future charitable interests for the benefit of ECHN, the disposition of those interests will be addressed on a case-by-case basis by a court under the doctrine of approximation. Only when a future interest becomes a present interest can a probate or superior court determine to whom the remainder will pass or whether the gift will fail and revert to the donors' heirs-at-law. Therefore, any future interests that have not yet vested cannot be included in the Superior Court action to address the identified charitable funds.

**5. ECHN Must Present the New Foundation and its Restricted Charitable Funds to the Superior Court for Approval and Approximation and Deviation Orders**.

Although the Attorney General has approved the purposes of the New Foundation and the other provisions in the draft COI and bylaws, ECHN will be required to present the New Foundation to the Superior Court for its approval and will need to have the court enter orders of approximation and equitable deviation to transfer the charitable assets to the New Foundation, or other eligible entity. The Office of the Attorney General shall participate in this action.

## I. ECHN and PMH Have Provided The Attorney General With Information And Data Sufficient To Evaluate The Proposed Joint Venture.

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(9), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the

nonprofit hospital or the purchaser has failed to provide the Attorney General with information and data sufficient to evaluate the proposed agreement adequately, provided the Attorney General has notified the nonprofit hospital or the purchaser of the inadequacy of the information or data and has provided a reasonable opportunity to remedy such inadequacy. The Applicants have provided all relevant information and sufficient data to evaluate adequately the proposed APA.

## VII. CONCLUSION

The OAG therefore concludes that the Application for an asset purchase by PMH of substantially all of the assets of ECHN is hereby approved subject to the modifications and conditions listed herein.

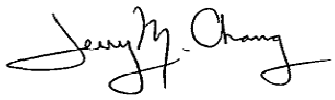
Mr. George Jepsen
Attorney General
State of Connecticut Office of the Attorney General
55 Elm Street, P.O. Box 120
Hartford, CT 06141-0120
Attention: Gary W. Hawes, Assistant Attorney General

Dear Mr. Jepsen:

Navigant Consulting, Inc. ("Navigant") has completed its analysis with respect to the scope of services requested by your office pursuant to §§ 19a-486a to 19a-486h of the Connecticut General Statutes ("Nonprofit Hospital Conversion Act") and in accordance with the contract with your office effective on June 13, 2013 and including subsequent amendments effective on June 15, 2014 and August 5, 2014 (the "Contract").

Navigant's analysis and conclusions contained in this report pertain to the proposed transfer of certain assets (the "Proposed Transaction") from Eastern Connecticut Health Network, Inc. and its affiliates ("ECHN" or the "Health System") to Prospect Medical Holdings, Inc. ("PMH"). Our analysis was performed as of March 31, 2016 (the "Analysis Date" or the "Valuation Date").



Our compensation for this assignment was not dependent in any way on the substance of our findings or conclusions. Our analysis was based, in part and where indicated, upon information provided by ECHN management and ECHN's designated legal and financial advisors. We have assumed that the information provided to us is complete and free of material misrepresentations. In addition, we have performed our own independent research and analysis related to the issues outlined by the State of Connecticut Office of the Attorney General ("OAG" or the "Attorney General") in the Contract.

We understand that this report will be part of the public record of the Attorney General's review pursuant to the Nonprofit Hospital Conversion Act and we reserve the right to respond to and explain our analysis, reasoning, and conclusions. The following report and accompanying appendices provide a detailed explanation of the basis of our analysis and conclusions. Please contact Jerry Chang at 404.602.3462 or jchang@navigant.com with any questions.

Very truly yours,
Navigant Consulting, Inc.

## INTRODUCTION

***Summary of Engagement***

Navigant was engaged by the OAG to provide financial consultation and expertise related to the OAG's review of the proposed transfer of certain assets from ECHN to PMH pursuant to Section §§ 19a-486a to 19a-486h of the Nonprofit Hospital Conversion Act, as of a current date.

This report specifically addresses the following conditions under Section §§ 19a-486c of the Nonprofit Hospital Conversion Act:

i. *Whether the nonprofit hospital exercised due diligence in (a) deciding to sell its assets, (b) selecting the purchaser, (c) obtaining a fairness evaluation from an independent person expert in such agreements, and (d) negotiating the terms and conditions of the transaction;*

ii. *Whether the nonprofit hospital disclosed any conflict of interest, including, but not limited to, conflicts of interest pertaining to board members, officers, key employees and experts of the nonprofit hospital, the purchaser, or any other party to the transaction;*

iii. *Whether the nonprofit hospital will receive fair market value for its assets, i.e., the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and in their own best interest, and with a reasonable time being allowed for exposure in the open market;*

iv. *Whether the fair market value of the nonprofit hospital's assets have been manipulated by any person in a manner that causes the value of the assets to decrease;*

v. *Whether the financing of the transaction will place the nonprofit hospital's assets at an unreasonable risk; and*

vi. *Whether any management contract contemplated under the transaction is for reasonable fair value.*

***Summary of Proposed Transaction***

ECHN has agreed to sell all or substantially all of its assets to PMH for $105 million, subject to certain adjustments. Such adjustments include a reconciliation for the value of net working capital, reductions in the value of certain liabilities assumed by PMH, and any joint venture interest not assumed provided the joint venture adjustment does not exceed $22 million. Assets not acquired include cash and equivalents, all short and long-term investments (excluding joint venture interests), board designated, trustee held or escrowed funds, beneficial interests in charitable trusts and the accrued earnings of the foregoing.

The proceeds from the transaction will be used to settle all of ECHN's bond liabilities and other indebtedness and then to fund an indemnity reserve to PMH against ECHN liabilities that may arise after closing. Such excluded liabilities are detailed in Section 2.04 of the draft Asset Purchase Agreement ("APA"). Thereafter, any remaining proceeds will be used to settle post-closing liabilities and wind down the operations of ECHN. Any remainder thereafter will be transferred to an independent charitable organization with the expectation such funds will be used to support charitable health efforts in the ECHN community.

In addition, PMH has committed to invest not less than $75 million in ECHN and its hospital service areas within five years of the closing of the Proposed Transaction. PMH has agreed to increase the purchase price for the assets by up to $10 million in the event that ECHN does not have sufficient cash to close the transaction, which increase would be offset by a corresponding reduction in the $75 million capital commitment amount.

*Eastern Connecticut Health Network, Inc.*

ECHN is a non-profit health care system serving 19 towns in eastern Connecticut. ECHN was formed in 1995 after the merger of Manchester Memorial Hospital ("MMH") and Rockville General Hospital ("RGH"), though both hospitals can trace their roots to the early 1900's. In addition to the hospitals, ECHN consists of a number of wholly owned outpatient facilities and clinics and ownership interests in multiple joint ventures. A comprehensive overview of ECHN can be found in *Section II. Overview and Background of ECHN.*

*Post-Acquisition Commitments*

Based on our review of the Certificate of Need ("CON") application (the "Application") submitted by ECHN and PMH, post-acquisition PMH has a number of commitments it must adhere to. The following provides a summary of some of those requirements:

1. Local Governance – MMH and RGH will each maintain an advisory board made up of community representatives, medical staff and the CEO of each respective hospital to consult with PMH with respect to the investment of capital and matters related to clinical quality goals.

2. Capital Commitment – PMH in consultation with ECHN will develop a capital plan in which PMH will commit to spending not less than $75 million in capital expenditures over a five-year period on the Health System Businesses (defined as ECHN and its joint ventures). PMH management indicated that the specific projects would be identified as part of an overall

strategic plan developed within six months of the transaction close date. PMH management indicated at the public hearing that projects would likely include expanding the Health System's physician network, increasing community access points, and increasing outpatient, ambulatory care sites.

3. Employment – PMH will offer employment as of closing to substantially all of the ECHN employees at compensation and benefits comparable to other hospitals operated by PMH. Additionally PMH will assume and honor ECHN's collective bargaining agreements.

4. Commitment to Clinical Operations and Community Support

    a. Operation of Hospitals: For at least three years after closing, PMH will continue operating the Health Systems' hospitals in their current location as acute care hospitals with emergency departments.

    b. Post-Acute Care: For at least three years after closing PMH will maintain its interest in VNHSC and EES, the current post-acute care providers in ECHN's network, and agrees to maintain appropriate service lines during this period.

    c. Medical Education: PMH will maintain and financially support ECHN's teaching programs and graduate medical education programs, while operating at a level not to exceed the Indirect Medical Education and Direct Education caps established by Centers for Medicare and Medicaid Services.

    d. Community Benefits: PMH will ensure each hospital maintains it policies with respect to charity care, indigent care, community volunteer services and community benefits.

The summary above does not purport to describe all of the details and terms of the Proposed Transaction and is included in this report for the purpose of providing general background of the Proposed Transaction. This summary may omit material terms of the final agreement, which may be further revised after the issuance of our final report.

***Description of Prospect Medical Holdings, Inc.***

Prospect Medical Holdings, Inc. ("PMH") started in 1996 out of Orange County, California, when the medical group, "Prospect Medical Group, Inc." began growing through a series of acquisitions and affiliations with various medical groups in the Southern California area. In 2007, PMH established its hospital operations with the acquisition of Alta Hospital System, LLC, a system of four community-based hospitals in Southern California and further expanded its Southern California presence with acquisition of Southern California Hospital at Culver City. In 2012, PMH's hospital operations expanded into Texas with the acquisition of Nix Health, and again in 2013 with an 18-bed acute care hospital in Dilley, Texas.

Today, PMH spans 13 hospitals with 2,258 licensed beds and 32 primary and specialty care clinics in Southern California, South Central Texas and Rhode Island. In Southern California, PMH has 10 affiliated Independent Physician Associations ("IPAs") which are managed by two of its subsidiaries, Prospect Medical Systems and ProMed Health Care Administrators which also manage several

unaffiliated IPAs. Through PMH's Coordinated-Regional-Care model, its network of physicians, affiliated medical groups, and hospitals contract with and coordinate care with various health plans in the markets it serves. PMH's network currently includes over 9,133 doctors and specialists who arrange care for over 300,317 network members. PMH is accredited by either Det Norske Veritas (DNV GL) Healthcare, Inc. or The Joint Commission. Additionally, PMH's medical groups have been awarded "Elite" status by the California Association of Physician groups and have earned 4 to 5 star ratings with Medicare Advantage Plans.[1]

The company's CEO and Chairman is Sam Lee, who previously served as CEO of Alta Healthcare System, which he co-founded after acquiring seven Los Angeles area hospitals from Paracelsus Healthcare Corporation. Prior to this, Mr. Lee was a General Partner with Kline Hawkes & Co., a private equity firm located in Brentwood, California which focuses on acquisitions in healthcare, technology and business services. Other key PMH leadership are listed below[2]:

- David Topper, President of Alta Hospital System, LLC
- Mitchell Lew, MD, President
- Stephen O'Dell, Senior Vice President, Coordinated Regional Care
- Steve Aleman, Chief Financial Officer
- Ellen J. Shin, General Counsel and Secretary
- Cindra Syverson, Chief Human Resources Officer
- Von Crocket, Senior Vice President, Corporate Development
- Thomas Reardon, President, Prospect East Hospital Advisory Services, Inc.
- Hoyt Sze, Chief Compliance & Privacy Officer
- Jonathan J. Spees, Senior Vice President, Mergers and Acquisitions

Leonard Green & Partners, L.P. ("Leonard Green") is a major investor in PMH. Leonard Green is one of the nation's preeminent private equity firms with over $15 billion of private equity capital raised since its inception. Founded in 1989, the firm has invested in 76 companies in the form of traditional buyouts, going-private transactions, recapitalizations, growth capital investments, corporate carve-outs and selective public equity and debt positions. Based in Los Angeles, CA, Leonard Green invests in established companies that are leaders in their markets.

The affiliated investment funds of Leonard Green own approximately 61.3% of the common stock of Ivy Holding, Inc. ("IH"), a Delaware corporation which owns 100% of the stock in Ivy Intermediate Holding, Inc. ("IIH"). IIH is a Delaware corporation which owns 100% of the stock of PMH. IIH is a holding company for such stock ownership. It has no other assets, liabilities or operations. Current and former employees of PMH and its subsidiaries own the remaining shares of IH stock.

[2] Certificate of Need Application by ECHN and PMH dated October 13, 2015.

## OVERVIEW AND BACKGROUND OF ECHN

*Overview*

ECHN is a non-profit health care system serving 19 towns in eastern Connecticut. ECHN was formed in 1995 after the merger of Manchester Memorial Hospital ("MMH") and Rockville General Hospital ("RGH"), though both hospitals can trace their roots to the early 1900's. The ECHN care network consists of several wholly owned entities and multiple joint venture interests. The following provides a description of the wholly owned entities of ECHN.[3] **With the exception of ECHN Community Healthcare Foundation, Inc. ("ECHF")**, all entities described below will be acquired as part of the Potential Transaction.

- **Manchester Memorial Hospital ("MMH")** – MMH is a not-for-profit hospital with 249 licensed beds, located in Manchester, Connecticut. MMH is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services to the residents of Manchester and 19 nearby towns.

- **Rockville General Hospital ("RGH")** - RGH is a not-for-profit hospital with 102 licensed beds, located in the Rockville section of Vernon, Connecticut. RGH is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services for residents of Tolland County and nearby towns, for a total service area of 19 towns.

- **ECHN ElderCare Services, Inc. ("EES")** - EES is a not-for-profit, skilled nursing facility with 130 licensed beds and physical, occupational and speech rehabilitation services located in Tolland, Connecticut.

- **ECHN Community Healthcare Foundation, Inc. ("ECHF")** - ECHF is a not-for-profit organization whose purpose is to raise funds on behalf of ECHN and its not-for-profit subsidiaries. It was established in 2000, when the fund raising efforts of ECHN were consolidated into a single not-for-profit foundation. ECHF focuses primarily on the capital and program needs of ECHN and its not-for-profit subsidiaries.

- **Eastern Connecticut Medical Professionals Foundation, Inc. ("ECMPF") -** ECMPF is a not-for-profit organization that currently operates physician office practices in the Network's service area and a hospitalist program that serves MMH and RGH. Its mission allows it to operate other not-for-profit, separately incorporated allied health ventures.

- **ECHN Enterprises, Inc. ("Enterprises") -** Enterprises is a for-profit organization formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. Enterprises owns, leases and has an interest in real estate to support the mission and vision for ECHN. It is also the parent corporation of Haynes Street Property Management, LLC (HSPM). HSPM is a for-profit, limited liability company formed under the laws of the State of Connecticut, which manages the Glastonbury Wellness Center and sublets space to various MMH departments and physician offices, as well as to ECMPF.

[3] Based on information from ECHN's 2014 audited financial statements and the Certificate of Need Application by ECHN and PMH dated October 13, 2015.

- **Visiting Nurse and Health Services of Connecticut, Inc. ("VNHSC") -** VNHSC is a not-for-profit, nonstock Connecticut corporation that provides and administers a comprehensive, multi-disciplinary home health program, hospice program and wellness programs to promote the health of individuals, families and groups in the Greater Northern Central Connecticut area. In addition, VNHSC is the sole member of A Caring Hand, LLC, which is a for-profit Connecticut limited liability company providing and administering homemaker, companion, live-in and personal care assistance services to individuals and families in the Greater Northern Central Connecticut area.

- **Connecticut Healthcare Insurance Company ("CHIC") -** CHIC, a captive insurance company, provides hospital and physician professional and general liability coverage to MMH, RGH, EES, and all other subsidiaries.

- **ECHN Corporate Services ("ECHNCS") -** ECHNCS is a for-profit stock corporation formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. ECHNCS provides billing and other practice management services to the Network and other customers. It is also the parent corporation of Medical Practice Partners, LLC (MPP). MPP is a for-profit, limited liability company formed under the laws of the State of Connecticut, which provides practice management services to medical group practices throughout Connecticut.

- **Clinically Integrated Network of Eastern Connecticut, LLC ("CINECT")** - CINECT is a for-profit organization formed to develop a clinically integrated network of community providers to provide better quality healthcare in the communities it serves.

The following is a list and associated ownership interests of ECHN's joint venture interests in community based services to be acquired as part of the Potential Transaction between PMH and ECHN.

- Evergreen Endoscopy Center, LLC (50%)
- Aetna Ambulance Service, Inc. (50%)
- Metro Wheelchair Service, Inc. (50%)
- Ambulance Service of Manchester, LLC (50%)
- Northeast Regional Radiation Oncology Network, Inc. (50%)
- Tolland Imaging Center, LLC (70%)
- Haynes Street Medical Associates, LLC (23%)
- Haynes Street Medical Associates II, LLC (15%)
- Evergreen Medical Associates, LLC (20%)
- Evergreen Medical Associates II, LLC (20%)
- Walden Behavioral Health (16%)

*Finance and Operations*

Exhibits C-1 through C-10 provide detailed historical financial, operating, and payor mix statistics relating to ECHN and its hospitals (MMH and RGH). Overall, ECHN revenues have decreased to $315 million from $329 million in 2014 and $328 million in 2013. The operating margin was -0.1 percent in 2015 and ECHN's profitability has been marginal over the 2011 to 2016 time frame, with operating margins ranging from -0.1 to 1.7 percent.

As of September 30, 2015, ECHN had a consolidated asset balance of $261 million, which consisted of $75 million in current assets, $88 million of net fixed assets, $18 million in joint venture interests, $71 million held in long-term investments (most of which is restricted), and $9 million in other assets. However, ECHN has significant liabilities consisting of $52 million in current liabilities, $11 million of which was in the form of short-term debt. Long-term liabilities total $150 million which include $80 million of long-term debt and capital leases and $62 million in long-term pension obligations. Debt service on long-term debt and capital leases are projected to be $7 million in 2016 and ECHN anticipates contributing $1.8 million to the pension plan in 2016.

In addition to debt service and pension contributions, ECHN has an aging infrastructure. Depreciation in 2015 was $12 million and is projected to range between $11.7 and $11.8 million over the next several years. ECHN management communicated that its plant and equipment purchases for 2014 and 2015 totaled $10.1 million and $7.4 million, respectively, which were below ECHN's depreciation expense for both of those years and below the national median for <Baa rated hospitals[4]

Given ECHN's significant liabilities and capital needs, combined with its deteriorating financial performance, the Health System is nearing potential financial distress (including not meeting certain debt service coverage ratios) absent an affiliation with a larger and more capitalized partner.

[4] Public hearing presentation entitled, "The Proposed Transfer of Assets of Eastern Connecticut Health Network, Inc. and Affiliates to Prospect Medical Holdings, Inc.", March 29 & 30, 2016.

## ECONOMIC OVERVIEW

When valuing a health system or its assets, it is important to consider the condition of, and outlook for, the economy or economies in which the health system operates. This economic analysis is necessary because the financial performance, and consequentially the value, of a health system or its assets are affected to varying degrees by the economic environment in which the health system operates. The following section provides a brief discussion of the economic condition and outlook for the national and local economy and any impact it could have on a health system's business and related assets.

### *General Economic Conditions*[5]

The gross domestic product (GDP), the broadest measure of the U.S. economy slowed for a second consecutive quarter, growing at an annual rate of 0.7 percent in the fourth-quarter of 2015, less than half of the 1.5 percent rate of growth observed in the third-quarter of 2015. In 2015, the economy grew 2.4 percent from the year before, matching 2014 growth. Final sales of domestic product rose in fourth-quarter by 1.2 percent, following an increase of 2.7% in the third-quarter. The Economic Policy Institute has stated that final sales are arguably a better indicator of underlying economic strength than GDP.

The slowing of GDP growth in the fourth-quarter was largely driven by slowed consumer spending, a deterioration in the national trade balance, a sharp drop in private investment, and a smaller build up in business inventories. However, despite the consumer spending losing ground in the fourth-quarter, positive assessments of the job market drove up consumer confidence. Job growth in the fourth-quarter was the strongest of the year, and 2015 capped off the best two year period of hiring since the period ending in 1999.

*Consumer Spending*

Consumer spending grew at a rate of 2.2 percent during the fourth-quarter of 2015, a deceleration from the third quarter's 3.2 percent increase. Consumer spending—also referred to as personal consumption—accounts for approximately 70 percent of the U.S. GDP.

*Government Spending*

Total government spending rose at a rate of 0.7 percent in the fourth-quarter of 2015, slower than the rate of 1.8 percent in the prior quarter. Federal government spending rose at a rate of 2.7 percent in the third quarter, the fourth rise in the past 13 quarters and the largest increase since the third quarter of 2014. The fourth-quarter increase in federal government spending added 0.18 percentage point to the fourth-quarter GDP rate.

---

[5] All of the contents of the general and U.S. economic outlook section of this valuation report are quoted from the Economic Outlook Update™ 4Q 2015 published by Business Valuation Resources, LLC, © 2016, reprinted with permission. The editors and Business Valuation Resources, LLC, while considering the contents to be accurate as of the date of publication of the Update, take no responsibility for the information contained therein. Relation of this information to this valuation engagement is the sole responsibility of the author of this valuation report.

*Business Investment*

Business investment, also known as private nonresidential fixed investment, fell at a rate of 1.8 percent in the fourth-quarter of 2015. This was the first decline in business investment since the third quarter of 2012. The drop in business investment subtracted .24 percentage point to fourth-quarter GDP.

Residential fixed investment, often considered a proxy for the housing market, increased at an annual rate of 8.1 percent during the fourth-quarter. This was almost identical to the prior quarter's rate of 8.2 percent. This quarter's growth in residential fixed investment added 0.27 percentage point to the third-quarter GDP. Residential fixed investment increased 1.8 percent in 2014 and 9.5 percent in 2013.

*Exports and Imports*

Exports fell at a rate of 2.5 percent in the fourth-quarter of 2015, after growing at a rate of 0.7 percent in the previous quarter. Exported goods dropped at a rate of 5.4 percent in the fourth-quarter, while exported services increased at a rate of 3.6 percent. Exports increased 3.4 percent in 2014 and 2.8 percent in 2013.

*Unemployment and Personal Income*

Hiring ended the year on a strong note, adding 292,000 new jobs in December. This was the second strongest month of the year for employment, only bested by October hiring which topped 307,000. December also marked the greatest two-year period of job growth since the period ending in 1999, while the unemployment rate held at its lowest level since April 2008. Businesses have now added 14.1 million jobs over 70 straight months, extending the longest streak on record. Overall, U.S. businesses have added 5.6 million jobs over the past 24 months.

The Bureau of Economic Analysis reported that current-dollar personal income increased $137.1 billion in the fourth-quarter of 2015, after increasing by $190.8 billion in the third. The BEA found that the acceleration in personal income primarily reflected a downturn in personal interest income and decelerations in wages and salaries and in farm proprietors' income.

Personal outlays increased $72.6 billion in the fourth-quarter, a deceleration from an increase of $131.7 billion the third. Personal saving – disposable personal income less personal outlays- was $739.3 billion in the fourth-quarter, up from $700.6 billion in the third.

***United States Economic Outlook***

Consensus Economics, Inc., publisher of *Consensus Forecasts - USA*, forecasts real GDP to increase at a seasonally adjusted annual rate of 2.5 percent in the first-quarter of 2016 and 2.7 percent in the second-quarter. Every month, Consensus Economics surveys a panel of 30 prominent U.S. economic and financial forecasters ("the forecasters") for their predictions on a range of variables including future growth, inflation, current account and budget balances, and interest rates. The forecasters expect GDP to grow 2.5 percent in each year in the period from 2016 through 2018.

The forecasters polled by Consensus Economics believe unemployment will average 4.9 percent in the first-quarter of 2016 before ticking down to 4.8% in the second-quarter.

According to the forecasters, consumer prices will rise at a rate of 1.5 percent in the first-quarter of 2016 and 2.1 percent in the second-quarter. They forecast consumer prices to increase 1.7 percent in 2016 before rising to 2.2 percent in 2017. The forecasters project producer prices to increase 1.3 percent in the first-quarter of 2016 and 2.4 percent in the second-quarter. They expect real disposable personal income to grow 2.9 percent in 2016 and 2.8 percent in 2017.

***Impact on Valuation of ECHN and Related Assets***

The economy of certain areas across the U.S. continues to struggle following the economic downtown. But there is room for cautious optimism amongst economists. However, the economic headwinds will continue to challenge robust growth and increasing economic prospects for hospitals in areas that were hardest hit by the economic downturn, including the Eastern Connecticut markets of Manchester and Vernon.

## INDUSTRY OVERVIEW

### *Introduction*

An analysis of the healthcare industry is essential to developing an understanding of the industry's impact on the future outlook of ECHN and its related affiliates. The following sections provide: (i) an overview and general discussion of the healthcare industry, (ii) future trends in the healthcare industry, and (iii) the impact on our valuation.

### *General Overview*[6]

As a primary provider of healthcare in the United States, hospitals are expected to generate $1.0 trillion in revenue in 2015. Revenue is expected to increase 3.7% per year on average since 2009, including growth of 4.4% in 2015. This traditionally fragmented industry has begun consolidating, largely due to the pressures of healthcare reform. Demand for industry services has steadily grown during the past five years, as healthcare reform legislation broadened insurance coverage and the sinking unemployment rate increased disposable income.

To maintain an advantaged position in this competitive industry, hospitals seek the most skilled and specialized healthcare professionals. Consequently, labor costs in this industry are high. However, hospitals have also faced nurse and physician shortages and have struggled to recruit qualified personnel. As a result, wages' share of industry revenue has fallen during the five years to 2015. However, wages are expected to rise as a proportion of revenue during the next five years, as hospitals increase salaries and provide other employment incentives.

Industry profitability has generally risen over the past five years due to increases in service prices. As the 2010 Patient Protection and Affordable Care Act results in more people with insurance, demand for service will likely continue to increase, and the number of uninsured patients that hospitals treat will drop. As a result, IBISWorld expects industry revenue to rise at an average annual rate of 3.9% to $1.2 trillion during the next five years. Average industry profit is estimated to rise over the same period from 6.6% to 8.0% of revenue, buoyed by cost-cutting efforts and the Medicare and Medicaid Electronic Health Record (EHR) Incentive Programs. Still, reimbursement from Medicaid and Medicare will be strained while the federal government seeks to finance healthcare reform and individual states deal with budget deficits.

Healthcare reform may also have the long-term effect of driving some patients away from hospitals altogether. Hospitals are particularly expensive healthcare settings, and as Medicare and Medicaid begin imposing penalties for readmission, home healthcare will likely become more popular, eventually reducing demand for industry services. Technology will support this trend, as EHR and telemedicine apps enable patients to share information with healthcare providers from the comfort of their own homes.

[6] Hospitals in the US, IBIS World Industry Report 62211, August 2015

## Revenue and Profit

Advances in healthcare have helped people live longer lives. According to the Centers for Disease Control and Prevention, the average US citizen is currently expected to live more than 78 years. However, a longer life is generally accompanied by increased healthcare expenditure. As the median age of the US population has increased, so has total domestic spending on healthcare. Hospital care is the largest single category of healthcare expenditure in the United States, so the aging population has generally contributed to industry revenue growth.

The recession slightly reduced patient volumes, as individuals lost access to health insurance and decreased disposable income limited patients' ability to pay for services out of pocket. However, industry services are largely nondiscretionary, so many patients simply accepted care they could not afford, and profit margins for the average industry hospital fell as low as 6.0% in 2011. As industry operators moved to regain profit, many hospitals increased their prices for medical care. As the economy recovered and demand for industry services increased, high prices helped boost industry profitability. Profit margins have been further bolstered by the Medicare and Medicaid Electronic Health Record (EHR) Incentive Programs, which compensate eligible hospitals that demonstrate meaningful use of certified EHR technology. As a result, IBISWorld estimates the profit margin for the average industry hospital will reach 7.2% in 2015.

## Consolidation and Reform

Medicaid expansion and the individual mandate to purchase insurance began to take effect in 2014. Coverage purchased in the health insurance exchanges must meet minimum benefit standards, and this requirement is expected to improve the industry's financial situation. However, many states have chosen not to expand Medicaid coverage, and widespread technical and bureaucratic issues plaguing the introduction of state exchanges has limited the expansion of private coverage. Cuts to Disproportionate Share Hospital payments, which provide additional compensation to care providers to offset the burden of treating an outsize number of uninsured patients, have further limited growth for hospitals in some states.

In the midst of a tightened reimbursement environment, hospitals are consolidating to reduce costs by gaining better negotiating power with suppliers and payers. Operators are also closing underperforming hospitals. In the last five years, the total number industry enterprises is expected to decline at an average rate of 0.9% per year to 2,921 at the end of 2015. Reimbursement from government programs has grown at a slow pace, so hospitals have increasingly sought favorable contracts with nongovernment payers, including health maintenance organizations, preferred provider organizations and other managed-care plans. Revenue derived from these entities and other insurers is estimated to account for about 60.0% of patient revenue. Small hospitals are less able to compete for these lucrative contracts, while consolidated hospital companies can rely on economies of scale to offer a wider portfolio of providers and specialties.

Hospitals are also consolidating to combat competition from other providers. Historically, the Hospitals industry has faced low competition because most communities are home to only a few hospitals. However, during the five years to 2015, the number of new facilities that deliver healthcare services, such as physician-run outpatient surgery centers, specialty hospitals and diagnostic centers,

has grown rapidly. Independent competitors often have lower costs because of their smaller size and simpler infrastructure. Because hospitals use the income from high-margin operations to finance certain unprofitable services and procedures, increased competition has forced hospitals to use other strategies to decrease costs.

**Physician and Nurse Shortage**

To increase or maintain the breadth of specialized services they offer, hospitals must hire qualified physicians and nurses, which has become an industry-wide challenge because the nation faces a shortage in both professions. Hospitals have increased salaries to attract new hires, but while wages have grown an annualized 3.2% to $346.8 billion in the five years to 2015, industry employment has grown just 1.2% per year on average to 5.5 million people.

The nurse and physician shortage has occurred for a variety of reasons, including a scarcity of relevant education programs. According to a report from the American Association of Colleges of Nursing, US nursing schools turned away 78,089 qualified applicants from baccalaureate and graduate nursing programs in 2013, due to budget constraints and insufficient faculty, clinical sites, classroom space and clinical preceptors. In addition, many physicians are getting older and have retired, or will in coming years.

**Acquisitions and Employment**

Cash-poor nonprofit hospitals, which are unable to borrow money for needed improvements in facilities and equipment, will likely seek for-profit benefactors in the five years to 2020. Concurrently, for-profit hospital operators and investment firms will look to the nonprofit sector for growth opportunities. Nonprofit operators will also face new challenges due to healthcare reform. Section 9007 of the PPACA adds new requirements for charitable hospitals to become, or remain, exempt from federal taxation, including performance of periodic community needs assessments and development of a policy on financial assistance to patients. These changes will trigger further consolidation between nonprofit and for-profit operators in the industry. For-profit acquisitions of nonprofits are expected to increase during the next five years, reducing the number of industry operators an average of 0.3% per year to 2,876 in 2020. The total number of industry hospitals will decrease concurrently, albeit at the slower annualized rate of 0.3% to 5,358 in 2020.

Unfilled faculty positions at nursing colleges, attrition and a shortage of students preparing to be faculty will pose a threat to the nursing education workforce during the next five years. In light of healthcare reform and the subsequent demand for nursing services, the shortage of nurses will adversely affect the industry. Hospitals will likely enhance wages and benefits to recruit and retain nurses and other medical support personnel. Moreover, they may hire more expensive temporary or contract employees. As a result, IBISWorld expects industry spending on wages to increase an annualized 4.3% in the next five years to $427.2 billion.

***Impact on Valuation of ECHN and Related Assets***

As an unaffiliated hospital, the Health System is suffering from the enormous demands that the new healthcare environment entails. The consolidation trend within the industry is being driven by a number of factors, including:

- Increased capital needs to meet new healthcare information technology requirements;
- Increased capital needs to maintain and upgrade hospital facilities and medical equipment;
- Increased capital needs to facilitate the trend away from inpatient care to outpatient care;
- Significantly lower reimbursements from government payers;
- Highly competitive environment to recruit physicians and nurses into a hospital's network; and
- Importance of better negotiating power with suppliers and payers to increase profit margins.

As an unaffiliated health system, it has and will continue to be a very challenging environment in which to operate profitably and to compete effectively in its market. Given the Health System's current financial condition and limited access to capital, the Health System's projected performance will likely lag the industry and the Health System will face a difficult environment to operate long-term without affiliating with a strategic capital partner.

## LOCAL MARKET OVERVIEW

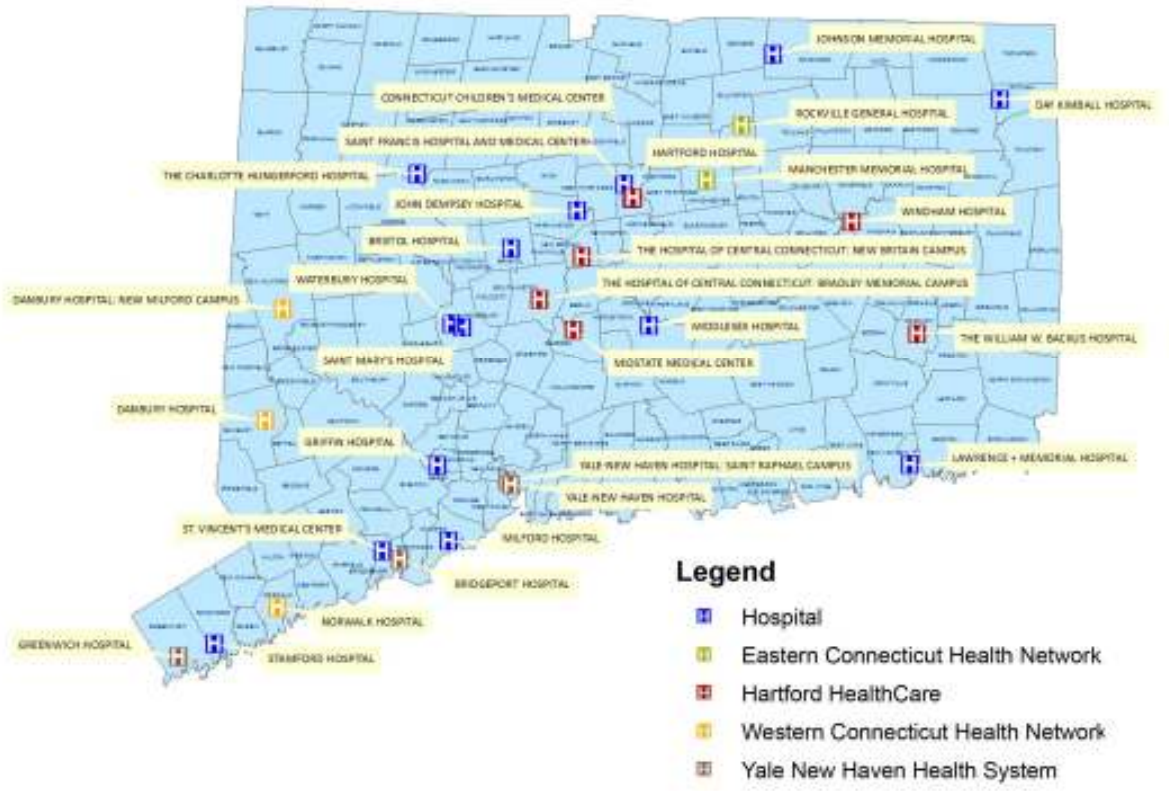
### *Introduction*

An analysis of the local market is essential to developing an understanding of the historical, current, and future operations of the Health System. The following sections provide: (i) an overview and general demographics of Tolland, Hartford, and Windham counties and the State of Connecticut (ii) overview of other area hospitals, (iii) industry outlook, and (iv) the impact on our valuation.

### *Demographic Overview*

ECHN's facilities provides healthcare services to 19 towns in Eastern Connecticut. The following tables summarizes various demographic and economic statistics applicable to the counties and cities ECHN serves.[7]

| County | Cities Included | Population | % of Population > age 65 | Median Household Income | Unemployment Rate % | Poverty Rate % |
|---|---|---|---|---|---|---|
| Tolland | Andover, Bolton, Columbia, Coventry, Ellington, Hebron, Mansfield, Somers, Stafford, Tolland, Union, Vernon, Willington | 151,367 | 14.0% | $80,529 | 4.6% | 6.5% |
| Hartford | East Hartford, East Windsor, Glastonbury, Manchester, South Windsor | 897,985 | 15.6% | $64,967 | 5.8% | 11.6% |
| Windham | Ashford | 116,198 | 14.7% | $59,333 | 5.8% | 11.4% |
| Connecticut | N/A | 3,596,677 | 15.5% | $69,461 | 5.3% | 10.2% |
| United States | N/A | 318,857,056 | 14.5% | $53,046 | 5.1% | 15.4% |



ECHN's combined service area reflects a population of approximately 1.2 million people. On measures of income, Tolland County ranks higher than the overall State of Connecticut, while Hartford and Windham counties rank below. Tolland County also has lower levels of poverty and unemployment than the overall State of Connecticut, though Hartford and Windham rank above the State in these statistics. In terms of its elderly population, the counties were similar to the overall State of Connecticut and national levels, but were significantly above in terms of income and had significantly lower poverty rates. Unemployment was above the national level of Windham and Hartford counties while Tolland County was below national unemployment.

### *Area Hospitals*

ECHN's primary service area is the Eastern Connecticut region. These areas are serviced by a number of acute care providers similar to ECHN, as well as local physicians' offices and outpatient medical centers. The following table identifies competing hospitals which lie in ECHN's service area.[8] Nearby hospitals include Johnson Memorial Hospital, Windham Hospital, the Hospital of Central

[7] Statistics compiled from the US Census Bureau and the US Department of Labor Unemployment Statistics.

Connecticut: New Britain Campus, St. Francis Hospital and Medical Center, Connecticut Children's Medical Center, and John Dempsey Hospital.

**Connecticut Hospital Industry Outlook**

In September 2015, Connecticut Governor Daniel P. Malloy ordered budget cuts which will have large implication for state hospitals. The cuts included a decision to cut Medicaid payments to hospitals by $63.4 million, these state cuts would lead to further reductions in federal funding which could total $130 million. This additional loss in federal funding is due to the payment structure of Medicaid, in which the state establishes payment program rates within federal requirements and a portion of those payment are funded by the federal government.

On June 3, 2014, Governor Malloy signed Senate Bill 35 from the 2014 session, which removed the prohibition of for-profit hospital systems from owning medical foundations and essentially cleared the way for five not-for-profit hospitals to be acquired by for-profit hospital companies like Tenet Healthcare. The bill adds state oversight to sales and acquisitions that involve physician practices under provisions of Public Act No. 14-168. In addition, medical practices with at least 30 physicians and medical groups owned by or affiliated with for-profit hospitals are required to report annually to the OAG and Department of Public Health. Tenet later pulled out of its planned Connecticut deals citing that "the approach to regulatory oversight in Connecticut would not enable Tenet to operate the hospitals successfully for the benefit of all stakeholders".

Smaller hospitals and physician groups in the region continue to seek the financial, administrative and group purchasing stability which comes from joining larger health systems. Since Tenet backed out of is acquisitions last year, both Eastern Connecticut Health Network and Greater Waterbury Health Network have continued to struggle and have engaged to be acquired by California-based Prospect Medical Holdings. In July 2015, it was also announced that Lawrence & Memorial Healthcare would join Yale new Haven Health System, and that Day Kimball Hospital in Putnam is evaluating a potential affiliation with Hartford HealthCare. Additionally, Johnson Memorial Hospital in Stafford has entered bankruptcy protection and is seeking to have its assets taken over by St. Francis Care.

The Connecticut market includes 28 acute care hospitals which care for approximately 375,000 people on an inpatient basis and approximately 1.65 million people on an emergency care basis in 2013. Over the same period of time these facilities delivered over 35,000 babies, provided over $200 million in charity care, and incurred $573 million and $588 million in Medicare and Medicaid losses respectively. On average Medicare reimburses 85 percent of treatment costs for patients in the state, while Medicaid reimburses 69%.

***Impact on Valuation of ECHN and Related Assets***

The recent legislation passed by the General Assembly allowing for-profit hospitals to acquire non-profits presents an opportunity for health systems such as ECHN which are currently non-profit. As healthcare systems move towards increased mergers and integration, smaller health systems such as ECHN will likely need to align with larger systems or hospital companies with access to capital in order to continue to serve the community.

The state budget cuts adversely affect hospitals in the State of Connecticut as a decrease in state spending also reduces federal funding. This becomes an even larger issue when dealing with hospitals and health systems facing capital challenges such as ECHN. While the hospital may be able to alleviate some income challenges through cuts in variable expenses, funding necessary capital expenditures into the future becomes a challenge as operations weaken.

## NAVIGANT VALUATION AND TRANSACTION ANALYSIS

The following sections specifically address the conditions analyzed by Navigant under Section §§ 19a-486c of the Nonprofit Hospital Conversion Act:

I. Due Diligence Analysis

II. Conflict of Interest Analysis

III. Fair Market Value of Assets Analysis

IV. Fair Market Value Manipulation Analysis;

V. Financing Analysis; and

VI. Management Contract Valuation Analysis

For each section below, Navigant performed an independent research and analysis that resulted in our findings and conclusions as of the Analysis Date or Valuation Date.

### *I. DUE DILIGENCE ANALYSIS*

In this section, Navigant will address:

*Whether the nonprofit hospital exercised due diligence in (a) deciding to sell its assets, (b) selecting the purchaser, (c) obtaining a fairness evaluation from an independent person expert in such agreements, and (d) negotiating the terms and conditions of the transaction.*

#### *Review Process*

In conducting our analysis, Navigant interviewed the following parties regarding the transaction due diligence process:

- Mr. Dennis McConville, ECHN SVP & Chief Strategy Officer
- Mr. Peter Karl, ECHN President & CEO
- Ms. Joy Dorin, ECHN Vice Chair Board of Trustees
- Dr. Dennis O'Neill, ECHN Chairman of the Board of Trustees
- Ms. Joyce Tichy, ECHN SVP & Chief Legal Counsel
- Mr. Mike Veillette, ECHN SVP & CFO
- Rebecca A. Matthews, Wiggin & Dana LLP
- Chris Regan, The Chartis Group
- Keith Dickey, The Chartis Group
- Todd Kaltman, Duff & Phelps
- Nick Tarditti, Duff & Phelps

In addition, Navigant reviewed the various materials, including but not necessarily limited to:

1) The ECHN and Prospect Medical Holdings Certificate of Need Application for a Proposed Asset Purchase dated October 13, 2015 (the "Application") and in particular Response 5 (pp 35-43) that described the process undertaken by ECHN in pursuing a strategic partner and eventually the Proposed Transaction;
2) The supplemental responses to the Application completeness letters dated November 23, 2015 and December 24, 2015;
3) Draft Asset Purchase Agreement between Eastern Connecticut Health Network, Inc. and Prospect Medical Holdings, Inc.;
4) Engagement Letter between Chartis Group and ECHN dated January 16, 2012;
5) Engagement Letter between Duff & Phelps, LLC an ECHN dated August 14, 2015;
6) Supplemental presentation by Prospect Medical Holdings dated March 28, 2016 and presented at the ECHN public hearings on March 29 & 30, 2016;
7) Duff & Phelps' Fairness Opinion Letter and related "Eastern Connecticut Health Network Fairness Analysis" presentation dated September 9, 2015
8) List of ECHN Board of Director meeting dates (Although requested by Navigant, ECHN representatives did not provide Board meeting minutes)

***Findings and Conclusions***

Based on the conditions, limitations, and qualifications contained herein and the interviews and document reviews described above, it appears that the ECHN Board undertook an extensive and diligent process to explore potential strategic options and identify strategic and capital alternatives that would enable it to address its relatively weak financial position and continue its mission of providing quality healthcare to the Manchester and Rockville/Vernon communities.

The process extended over a four (4) year period from 2011 to 2015 and includes the retention of the Chartis Group, a national advisory healthcare advisory firm. In connection with this process, the ECHN Board pursued discussions with multiple potential strategic partners, evaluated a range of transaction structures, and explored multiple strategies to access capital.

*a. Exercise of due diligence in deciding to sell its assets*

ECHN has had financial difficulties since 2001, generating annual net income losses while contending with significant debt service and pension related liabilities. While generating positive operating cash flows since 2011, ECHN's ability to meet both its debt service and pension related liabilities have been challenging, with ECHN reporting negative net income in 2011, 2013 and 2015.

ECHN management stated that it has implemented a number of cost cutting initiatives over the years to mitigate these trends, but at the expense of deferring needed infrastructure improvements. These included hiring freezes, wage freezes, eliminating defined contribution match, reductions in force, a reduced workweek of 37.5 hours, LEAN program initiatives and group purchasing initiatives. With the passage of the Patient Protection and Affordability Act of 2010 ("PPACA"), ECHN's finances were

further strained through reductions in federal and state government reimbursements for services, added requirements to participate in new payment models requiring higher levels of care coordination, and state supplemental payment challenges.

As a result of these developments, in September 2011, the ECHN board authorized the creation of a workgroup to study the impact of the PPACA on ECHN and to evaluate whether benefits would be realized by affiliating with another healthcare system or whether ECHN should remain independent.

- In November 2011, ECHN assembled its workgroup consisting of Trustees, Corporators, medical staff members and key executives. The workgroup hired the consulting firm The Chartis Group, LLC, a national healthcare consulting firm, to assist the workgroup in its evaluation.
- The workgroup began its study in December 2011, and met several times over the ensuing months with various constituents and prospective partner organizations to gain their perspectives on ECHN, its current state, and future.
- In September 2012, the workgroup presented its initial findings to the ECHN board, concluding that affiliating with a larger health system would help ECHN in i) attracting patients and providers based on quality, service, accessibility and affordability; ii) enhancing physician retention and recruitment; iii) improving ECHN's financial position; and iv) coordinating care to manage risk and participate in new payment vehicles.
- Following the presentation, the ECHN board voted to pursue an affiliation and tasked the workgroup with evaluating potential partners and developing key affiliation terms.
- By year end 2011, ECHN had a net income loss of $1.3 million, the first year the new State of Connecticut hospital tax had been implemented. Further, as a result of reduced patient volumes in 2012 and shifts in payer mix to exchange and Medicaid payers as a result of the PPACA, ECHN was projecting net income losses of $6 million per year in 2014 and 2015. Given these significant financial challenges, ECHN management concluded that partnering with another healthcare organization would be essential to maintaining its long term financial viability.

**In conclusion, based on the conditions, limitations, and qualifications contained herein and the interviews and document reviews described above, it appears that the steps undertaken by the ECHN Board, as described above, indicate that the ECHN Board exercised due diligence in i) evaluating ECHN's financial and operating and strategic position and ii) deciding to approve a potential sale of its assets as a viable option to preserve the long-term viability of the Health System.**

*b. Exercise of due diligence in selecting the purchaser*

Beginning in 2012, the ECHN Board took a series of deliberate steps to identify, evaluate and select a capital partner which ultimately resulted in its decision to approve the Proposed Transaction. These steps[9] included:

[9] See Section 5 (pp 35-43) from ECHN and Prospect Medical Holdings Certificate of Need Application for a Proposed Asset Purchase dated October 13, 2015 describing such steps.

- Between November 2012 and April 2013, the workgroup worked with The Chartis Group to develop Requests for Proposals ("RFP"'s) to three non-profit health systems and three for-profit health systems.
- The workgroup received and considered four indications of interest, and members of the workgroup met with each respondent for further detail on the proposal submitted, followed up with formal requests for clarification/additional information, conducted site visits to facilities operated by those healthcare systems and performed due diligence for each of the respondents.
- In April 2013, the workgroup made a formal presentation to the ECHN board of the proposals received and the board was asked to consider whether i) the proposals made would meet ECHN's needs and ii) whether other options should be considered. The board determined that other alternatives were unlikely and that further evaluation should be undertaken regarding the proposals received to date.
- On April 27, 2013, the ECHN board authorized the creation of a formal Board Transaction Committee to consider all proposals and evaluate their benefits and risks. The Transaction Committee carefully considered all proposals and also reviewed reverse due diligence information prepared by The Chartis Group.
- In June 2013, the Transaction Committee reviewed final information from the respondents and made its recommendation and report to the ECHN board. Their recommendation was to proceed with a proposal by a joint venture arrangement between Yale New Haven Health System ("YNHHS") and Vanguard Health Systems, Inc. ("Vanguard") (the "JV") in which the JV would acquire all or substantially all of the assets of ECHN. The Board considered and approved the recommendation of the Transaction Committee.
- On June 24, 2013, ECHN was informed by Vanguard that it was to be acquired by Tenet, but that Tenet intended to proceed with negotiating a letter of intent for the acquisition with ECHN.
- In July of 2013, the ECHN board considered the diligence review of Tenet conducted by the Transaction Committee and a proposed Letter of Intent. As a result of that review, the Board approved the Letter of Intent and it authorized management, in consultation with the Transaction Committee, to proceed to negotiation of a definitive APA.
- The letter of intent was executed among ECHN, YNHHS and Vanguard on August 8, 2013. Following its execution, the parties conducted confirmatory due diligence and negotiated an APA which was executed by the ECHN board on April 9, 2014. On October 24, 2014, a certificate of need application for the acquisition of ECHN by the JV was filed with the Office of Attorney General and with the Office of Health Care Access.
- On December 11, 2014, Tenet informed ECHN that it was withdrawing its certificate of need application for the acquisition of ECHN, citing the proposed regulatory conditions that had been placed on its application to partner with Waterbury Hospital.
- While waiting to see if Tenet would return to Connecticut, the ECHN board reaffirmed its need for an affiliation partner and on January 6, 2015, sent letters requesting expressions of interest to five health systems. ECHN in turn received letters back from four Connecticut based systems expressing interest.
- On February 6, 2015, RFPs were sent to the health systems that had expressed interest and to two out-of-state systems that had approached ECHN with interest in an affiliation. On March 16, 2015, three proposals were received.

- The proposals were evaluated by the Transaction Committee against selection criteria approved by the ECHN board. Criteria included their ability with respect to ECHN's financial needs, its obligations to creditors, antitrust considerations and state regulatory acceptance for a hospital conversion.
- The Transaction Committee then met with each respondent for further detail on the proposals and followed up with formal requests for clarification/additional information on April 10, 2015. Following this, the Transaction Committee conducted reverse due diligence on each respondent, reviewing financial, quality, and corporate compliance data. The Transaction Committee also conducted site visits of affiliated hospitals recently acquired or merged with the respondents, meeting with leadership, members of medical staffs and employees of each organization.
- On May 7 and May 14, 2015, two teams of Transaction Committee members and ECHN executives toured Prospect Medical Systems, Inc. ("PMH") Culver City Hospital in Los Angeles, California, meeting with representatives in the areas of governance, medical staff leadership and administration. On June 8, 2015, members of the Transaction Committee and ECHN executives visited CharterCARE Health Partners ("CharterCARE") in Providence, Rhode Island, a PMH affiliated facility. There was a discussion regarding CharterCARE's transaction experience, the PMH organizational culture and PMH's implementation of PMH's CRC Model at CharterCARE.
- On June 1, 2015, requests were made to each of the respondents for best and final offers. At its June 16, 2015 meeting, the Transaction Committee reviewed the information from the respondents and it was agreed that ECHN would negotiate solely with PMH to address open items in their proposed APA.
- On June 22, 2015, the Transaction Committee reviewed and discussed the Letter of Intent and APA negotiated with PMH, and recommended unanimously that the board accept PMH's proposal. On June 25, 2015, the ECHN board met to discuss the Transaction Committee's recommendations and surrounding due diligence. Following the discussion, the ECHN board unanimously approved the Letter of Intent and APA in substantially the same form presented. On July 29, 2015, the Letter of Intent and APA was approved by ECHN's Corporators.
- Subsequent to the signing of the LOI, the ECHN Board and Management continued due diligence efforts. In January of 2016, two Prospect hospitals in California were cited by Medicare with an Immediate Jeopardy ("IJ") findings. Upon learning of the IJ findings, the ECHN Board met to discuss the implications. Due diligence was performed including reviewing PMH's current efforts to remedy the deficiencies, detailed phone conversations with PMH, and a quality team site visit to CharterCARE in Rhode Island. Upon completion of due diligence, the Board conducted a special meeting to address the concerns and concluded that their concerns were satisfactorily answered.

**Based on the series of actions described in this subsection (b), our discussions with ECHN representatives, and the conditions, limitations, and qualifications described herein, it appears that the ECHN Board exercised due diligence in selecting PMH as the entity that would purchase ECHN's assets.**

*c. Obtaining a fairness opinion from an independent person expert in such agreements*[10]

The Transaction Committee engaged Duff & Phelps to provide a fairness opinion related to the Proposed Transaction. In selecting Duff & Phelps to perform the fairness opinion, the Transaction Committee considered the advice of Ropes & Gray LLP, its transaction counsel and received additional recommendations by the Chartis Group. In total, five firms were solicited for bids to provide a fairness opinion including Goldman Sachs, DGA Partners, Cain Brothers, Duff & Phelps, and Principle Valuation.

Duff & Phelps was selected based on their favorable reputation in the healthcare fairness opinion marketplace and the strong recommendation from Ropes & Gray LLP. Duff & Phelps is a national and global provider of fairness opinions, with a dedicated healthcare practice. In connection with rendering its fairness opinion, Duff & Phelps evaluated traditional valuation methods, including a discounted cash flow and market multiples, and assigned a 50/50 weighting to each approach. On September 8, 2015, the Transaction Committee met to review the fairness opinion prepared by Duff & Phelps.

Navigant reviewed Duff & Phelps' fairness opinion analysis and held telephone discussions with the Todd Kaltman and Nick Tarditti who performed the analysis in order to gain an understanding of the methodology and key assumptions.

Duff & Phelps compensation for the services was based on a fixed fee and was not contingent on the closing of the Transaction, indicating a level of independence and objectivity in rendering its opinion.

**Based solely on our review of the Duff & Phelps fairness opinions and supporting analyses presented by Duff & Phelps, Navigant confirms that the ECHN Board did receive a fairness opinion with respect to the fairness, from a financial point of view, of the consideration proposed to be received in the Proposed Transaction from an independent expert (based solely on the representations contained in Duff & Phelps conflict of interest/financial disclosure forms, its fairness opinion letter and report).**

**Based on Navigant's review of the Duff & Phelp's fairness opinion, we make note of the following:**

- **Duff & Phelps considered three valuation methods in its fairness opinion (discounted cash flow, guideline company, and M&A transaction). Based on their analysis, Duff & Phelps developed a mid-point estimate of $57.1 million for the Health System.**
- **In addition, Duff & Phelps utilized a market approach and a capitalized cash flow approach to estimate the value of ECHN's joint venture interests at $13.1 million. The total fair value of ECHN's business enterprise (including the joint venture interests) estimated by Duff & Phelps was $70.2 million.**

[10] The description of the process undertaken by ECHN to obtain a fairness opinion as well as the actual fairness opinion and supporting analyses are provided in Section 7 (pp 47-48) and Exhibits Q7-2, Q7-3, and Q7-4 (pp 798-841) from the ECHN and Prospect Medical Holdings Certificate of Need Application for an Asset Purchase dated October 13, 2015.

- **Duff & Phelps did not develop an asset-based valuation approach.**

*d) Exercised due diligence in negotiating the terms and conditions of the transaction*

As highlighted in subsection (b) above, the ECHN Board took a series of deliberate steps to identify, evaluate, negotiate with and finally select a capital partner. In particular, with respect to negotiation of the Proposed Transaction, the ECHN Board undertook the following steps:[11]

- Retained The Chartis Group, an experienced healthcare consulting firm, to orchestrate a competitive solicitation process.
- Appointed a Transaction Committee to work with The Chartis Group in evaluating proposals and developing various levels of reverse due diligence on certain respondents which included on site visits and interviews with management.
- In its second round of RFPs, the Transaction Committee, with the assistance of the Chartis Group solicited a total of six health systems of which three sent responses back.
- With respect to each proposal, ECHN provided a template affiliation agreement and asset purchase agreement reflecting ECHN's contract requirements. ECHN asked all respondents to include any requested or required changes to the templates with their proposals. In addition, ECHN asked respondents to answer the following questions within their proposal:
  1. How the affiliation would help ECHN to achieve its vision and goals, with a focus on access to care, medical staff integration, clinical quality, safety, service and patient satisfaction.
  2. Proposed form or structure of affiliation (e.g., merger, acquisition of assets, member substitution or joint venture).
  3. Financial terms of affiliation, including proposed treatment of ECHN's existing debt, consideration, and future capital commitments.
  4. Proposed governance and management structure.
  5. Plans for retention of employees.
  6. Commitments to continuing and expanding services.
  7. Proposed timing, required regulatory approvals, and material contingencies.
  8. If the organization was subject to any religious or ethical restrictions that would apply to ECHN post-closing and, if so, how ECHN would continue to meet the needs of its community in the event the restrictions applied.
- The Transaction Committee evaluated each proposal against the strategic, financial, and operational goals of ECHN, any antitrust considerations and state regulatory requirements for a hospital conversion. Based on these considerations, the Transaction Committee unanimously approved PMH as being the best health system to partner with.
- On June 25, 2015, after consideration of the risks and uncertainty of each potential partner, and the due diligence performed on each, the ECHN board unanimously approved PMH's letter of intent and APA.
- Pursuant to the signing of the APA, ECHN management negotiated for terms to maximize the value to the Health System.

[11] See Section 5 (pp 18-22) from ECHN and Prospect Medical Holdings Certificate of Need Application for an Asset Purchase dated October 13, 2015.

- The transaction with PMH provided for deal terms consistent with the failed Tenet acquisition. After Tenet withdrew, ECHN conducted their search in an expedited manner, and considered that they had a more limited set of potential suitors. Therefore, ECHN management and Board believed that attaining a similar set of deal terms would be favorable to the Health System.
- PMH also agreed to increase the purchase consideration by up to $10 million in the event that ECHN does not have sufficient cash to close the transaction. The increase would be offset by a corresponding reduction in the $75 million capital commitment amount. Management strongly felt that this increased the probability of being able to close the transaction, even if unforeseen events occurred that would further weaken its financial position.
- Upon signing the LOI, ECHN was in negotiations to secure additional financing. If the assumable loan had been attained, then the purchase price would have been increased by $10 million. Ultimately, this financing was not secured as lenders were unwilling to extend ECHN additional credit.

**Based on the series of actions described in subsection (d) above, our discussions with ECHN representatives, and conditions, limitations, and qualifications contained herein, it appears that the ECHN Board exercised due diligence in negotiating the terms of the Proposed Transaction. Navigant would also note that ECHN had limited leverage for negotiations given its relatively weak financial condition, but was able to negotiate a transaction that recapitalized ECHN to stabilize current operations and provide a source of capital for long term growth.**[12]

## *II. CONFLICT OF INTEREST ANALYSIS*

In this section, Navigant will address:

*Whether the nonprofit hospital disclosed any conflict of interest, including, but not limited to, conflicts of interest pertaining to board members, officers, key employees and experts of the nonprofit hospital, the purchaser, or any other party to the transaction.*

### *Review Process*

In conducting its analysis, Navigant reviewed the following materials:

1) The Application from ECHN and PMH dated October 13, 2015 and in particular Response 6 (pp 43-47) that described the process undertaken by the ECHN and PMH for identifying conflicts of interest;
2) Exhibit Q6-1 to the Application that contains i) the August 2015 Conflict of Interest disclosures from ECHN Board of Directors, senior executives and experts advising on the Proposed Transaction, and ii) the August 2015 Conflict of Interest disclosures from PMH's Board of

[12] See Section 5 (pp 18-22) from ECHN and Prospect Medical Holdings Certificate of Need Application for an Asset Purchase dated October 13, 2015.

Directors, senior management and advisors who have a direct involvement in the Proposed Transaction;

During August 2015, conflict of interest and financial disclosure forms were prepared and disseminated to: i) the Board of Trustees of ECHN, MMH, RGH, ECHN Eldercare Services Inc., and Visiting Nurse and Health Services Connecticut, Inc.; ii) experts consulted with respect to the Proposed Transaction; and iii) senior executives of ECHN and PMH who had direct involvement in the Proposed Transaction.

The Conflict of Interest Disclosure forms required the person executing the form to disclose if that individual or any related person (person related by blood, law, or marriage, and individuals in committed relationship) has any financial interest, beneficial interest and/or employment interests in the transaction, ECHN, PMH or in any entity associated with the principals involved in the transaction.

***Findings and Conclusions***

**The following summarizes the conflicts of interest and related financial disclosures information for all persons identified in i), ii) and iii). Based on our review of the conflict of interest and disclosures forms, no individual had expressed having any financial or other beneficial interest in the transaction that would appear to compromise their objectivity and independence based on the Conflict of Interest Forms reviewed by Navigant.**

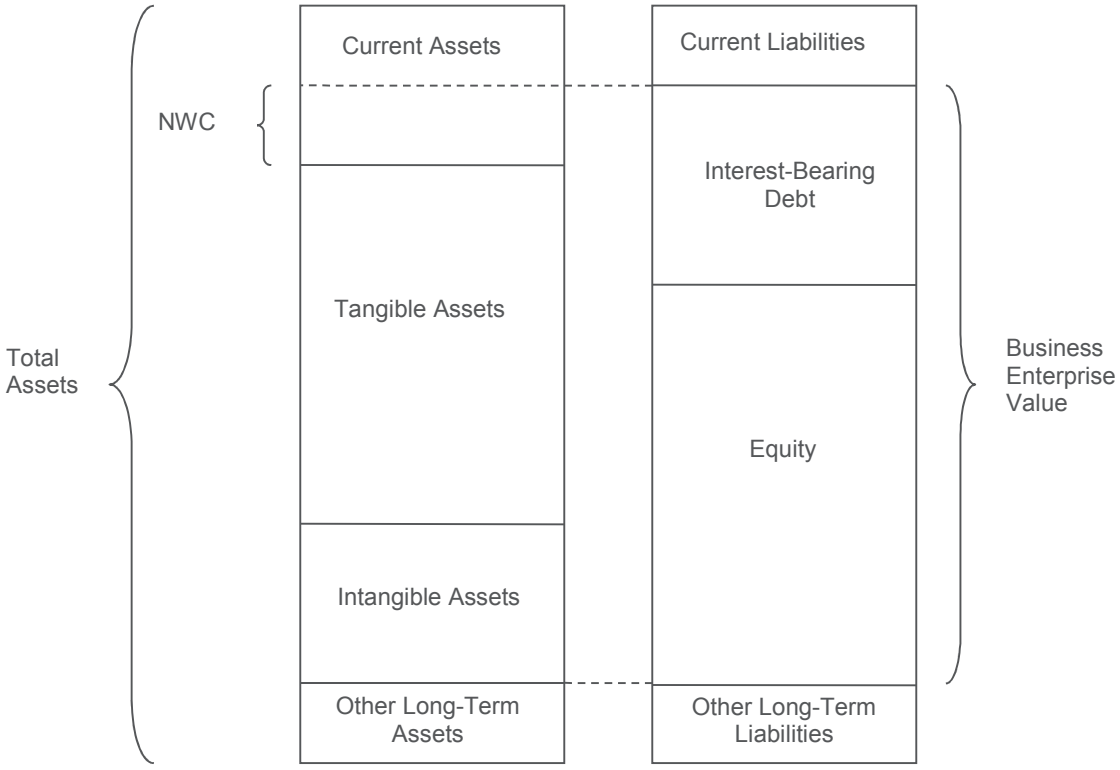
## *III. FAIR MARKET VALUATION OF ASSETS ANALYSIS*

In this section, Navigant will address:

*Whether the nonprofit hospital will receive fair market value for its assets, i.e., the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and in their own best interest, and with a reasonable time being allowed for exposure in the open market.*

For the purposes of our valuation analysis, we considered the following definitions of fair market value ("FMV") and are assuming no difference in the two definitions.



Nonprofit Hospital Conversion Act §§ 19a-486c:

> *…the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and in their own best interest, and with a reasonable time being allowed for exposure in the open market.*

IRS Revenue Ruling 59-60:

> *…the price at which an entity (asset) would change hands between a willing buyer and willing seller, neither being under compulsion to buy or sell and both having reasonable knowledge of all relevant facts.*

The components of a hospital's total asset value can be depicted as follows:

However, it is our understanding that in the proposed transfer of assets between ECHN and PMH, certain assets will not be contributed, including but not limited to the following:

- All cash, cash equivalents and securities;
- All short and long-term investments (excluding joint venture interests);
- All board-designated, restricted, and trustee-held or escrowed funds;
- The assets of ECHN Community HealthCare Foundation ("ECHF")
- Other Assets identified in Section 2.02 of the APA

PMH will also assume all current liabilities accrued as of the transaction date, in addition to unfunded pension liabilities, ECHN's health benefit plan for retirees, ECHN's captive insurer liabilities of Connecticut Healthcare Insurance Company ("CHIC") and worker's compensation obligations. It is also been determined that all of ECHN's joint venture interests will be included in the Potential Transaction.

In estimating the FMV of the Health System's assets to be included in the Potential Transaction, Navigant conducted various procedures, including but not limited to the following:

- Review and analysis of relevant documents and data provided by ECHN management regarding ECHN, including historical and projected financial and operational results;
- Consideration of factors that would impact future financial and operational performance;
- Review of budgets and long-term financial and operational projections for ECHN;
- On-site interviews with the management of ECHN concerning:
    - the nature and operations of the business, including the historical financial and operational performance of ECHN;
    - existing business plans, future financial and operating performance estimates, and budgets for ECHN;
    - current and future capital expenditure needs; and
    - the assumptions underlying the business plans, estimates, or budgets, as well as the risk factors that could affect planned financial and operating performance, including expected patient volume, payer mix, service line mix, reimbursement expectations, market competition, and physician relationships;
- On-site inspection of ECHN by Navigant professionals to view the Health System's hospital facilities and operations, as well as conducting a field site analysis related to certain real and personal property;
- Review of initial and supplemental completeness question responses submitted to the OAG by ECHN's legal counsel;
- Review of the initial CON application (and responses) related to the Transaction;
- Review of transaction-related documents including the letter of intent and asset purchase agreement;
- Analysis of the industry, as well as the economic and competitive environments in which the ECHN operates;
- Analysis of the performance and market position of ECHN relative to its competitors;
- Analysis of the earning capacity of ECHN;
- Consideration of goodwill or other intangible value;
- Analysis of financial data of similar publicly-traded companies or transactions;
- Valuation analysis of ECHN utilizing accepted valuation methodologies including (as appropriate and applicable):
    - Discounted Cash Flow Method
    - Similar Transactions Method
    - Guideline Company Method
    - Adjusted Net Assets Method; and
- Analysis of other facts and data considered pertinent to this valuation to arrive at our conclusions; and

***Valuation Approaches***

In performing our FMV analysis, we considered the three generally accepted approaches to value: income, market, and cost. The theory of these approaches is summarized as follows:

***Income Approach***

There are several variants of the income approach. One of these variants is the discounted cash flow ("DCF") method. In the DCF method, the cash flows anticipated over several periods, plus a terminal value at the end of that time horizon, are discounted to their present value using an appropriate rate of return. The DCF and other prospective models are considered to be the most theoretically correct methods to valuing an income producing business because they explicitly consider the future benefits associated with owning the business.

Another income approach method is based on capitalizing some measure of financial performance such as earnings or dividends, using a capitalization rate that reflects both the risk and long-term growth prospects of the subject firm. In capitalizing a historical measure of financial performance, it is important to remember that historical results serve as a proxy for future performance. Both the required rate of return used in the DCF model and the capitalization rate reflect capital market conditions and the specific circumstances of the subject health system.

***Market Approach***

In the market approach, the value of a business is estimated by comparing the subject business to similar businesses or "guideline" companies whose securities are actively traded in public markets or have recently been sold in a private transaction. This method is applied as the price per unit of a measure of financial performance or position, and equates to a multiple approach, using price-to-earnings before interest and taxes or similar market/transaction derived multiples applied against the appropriate financial measure generated by the subject to indicate value.

In using merger and acquisition data to develop indications of value, it is important to have adequate knowledge of the terms of the transaction to be able to make appropriate valuation judgments regarding the subject. For example, seller financing or the use of restricted stock to pay for an acquisition may require an adjustment relative to an all cash deal.

***Cost Approach***

The cost approach estimates a business's value based on an analysis of the value of its individual assets. The adjusted net book value method involves estimating the FMV of all assets on the balance sheet, and then subtracting the estimated FMV of the liabilities. A common application of the adjusted book value method is valuing an entity whose sole function is investing in other businesses.

The Adjusted Net Assets Method represents one methodology employed in the Cost Approach. In this method, a valuation analysis is performed of a business's identified fixed, financial, and other assets. The derived aggregate value of these assets is then "netted" against the estimated value of all existing and potential liabilities, resulting in an indication of the value. An ongoing business enterprise is typically worth more than the FMV of its underlying assets due to several factors: (i) the assets valued independently may not reflect economic value related to the prospective cash flows they could

generate; (ii) this approach may not fully reflect the synergy of the assets but rather their independent values; and (iii) intangible assets inherent in the business such as reputation, superior management, proprietary procedures or systems, or superior growth opportunities are very difficult to measure independent of the cash flow they generate. The value of the assets using the Cost Approach may be perceived as providing a pricing "floor" in the absence of earnings.

***Standard of Value***

We have concluded that the appropriate standard of value for our valuation analysis is FMV. Our conclusion was based on our review of the Nonprofit Hospital Conversion Act, the nonprofit status of the ECHN, and our experience with similar transactions.

As stated previously, for the purposes of our valuation analysis, we considered the following definitions of FMV and are assuming no difference in the two definitions.

Nonprofit Hospital Conversion Act §§ 19a-486c:

> *…the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and in their own best interest, and with a reasonable time being allowed for exposure in the open market.*

IRS Revenue Ruling 59-60:

> *…the price at which an entity (asset) would change hands between a willing buyer and willing seller, neither being under compulsion to buy or sell and both having reasonable knowledge of all relevant facts.*

FMV should be distinguished from strategic (or investment) value for the purposes of this valuation. The strategic value is the value to a specific owner or prospective owner. Therefore, strategic value considers the owner's or prospective owner's knowledge, capabilities, expectations of risks and future earnings, and other factors. An example of strategic value is when a transaction provides unique motivators or synergies to a particular buyer that is not available to the typical buyer.

***Premises of Value***

Various premises of value may be considered under the FMV standard of value. In general, four premises of value are typically considered[13]:

1. ***Value in Continued Use, as Part of a Going Concern***

   Value in continued use, as a mass assemblage of income producing assets, and as a going concern business enterprise.

2. ***Value-in-Place, as Part of a Mass Assemblage of Assets***

   Value-in-place, as part of a mass assemblage of assets, but not in current use in the production of income, and not as a going-concern business enterprise

3. ***Value in Exchange, in an Orderly Disposition***

   Value in exchange, on a piecemeal basis (not part of a mass assemblage of assets), as part of an orderly disposition. This premise contemplates that all of the assets of the business enterprise will be sold individually and that they will enjoy normal exposure to their appropriate secondary market.

4. ***Value in Exchange, in a Forced Liquidation***

   Value in exchange, on a piecemeal basis (not part of a mass assemblage of assets), as part of a forced liquidation. This premise contemplates that all of the assets of the business enterprise will be sold individually and that they will experience less than normal exposure to their appropriate secondary market.

For our valuation analysis, we considered each of the premises of value and selected the premise that was most appropriate based on our analysis of the Health System's current and projected financial and operational outlook, as well as the most likely transaction scenario.

***Selected Methodology***

Each of the valuation approaches described above may be used to develop an indication of the FMV of the Health System's assets; however, the appropriateness of certain approaches and the premise of value can vary depending on the specific facts and circumstances of the entity being valued, the assumed transaction, and the information available.

For service-oriented, income-producing entities, the income and market approaches are typically performed in order to estimate the FMV of a business on a going concern basis. However, for businesses that are not currently generating positive cash flow from current operations and are not projected to generate positive cash flow in the future, a going concern premise of value may not be possible. In such cases, the valuation exercise may focus on a FMV analysis under a Value-In-Place

[13] Shannon P. Pratt, Robert F. Reilly, and Robert P. Schweihs, Valuing Small Businesses & Professional Practices, Third Edition, 1998, pp 46-47

or Value in Exchange premise as described above utilizing a market and/or asset-based approach.

While ECHN has experienced marginal profitability to significant net income losses historically, it has generated positive cash flow. However, in the absence of an affiliation, ECHN management projects future net income losses and continued cash flow challenges due to the need for capital expenditures to maintain and grow its asset base to remain competitive and to meet community needs.

Based on our analysis and discussions, we concluded that ECHN and its assets should be valued under the premise of **Value-In-Continued Use, as Part of a Going Concern**. In addition, we performed a supplemental asset-based valuation approach to add additional support that the hospital will receive at least FMV for its assets under the Proposed Transaction. Accordingly, all valuation methods and approaches, including the income and market approaches, were considered in our FMV analysis of ECHN.

***Valuation Analysis***

In completing our valuation analysis, we performed the three generally accepted approaches to value: income, market, and cost. The detail regarding each of these approaches is outlined in the section below:

***Income Approach***

*Discounted Cash Flow Method*

The DCF method estimates the FMV of an entity based on expected future economic benefits discounted to present value at a rate of return commensurate with the risk of the investment. ECHN management provided information and assumptions upon which projections for the ECHN are based. Projected debt-free net cash flows ("DFNCF") for ECHN were discounted to present value using an estimated weighted average cost of capital ("WACC"), reflecting returns to both equity and debt investors. Debt-free net cash flow is defined as:

+ Debt-Free Net Income
+ Depreciation and Amortization
- Capital Expenditures
+/- Changes in Net Working Capital Requirements
= Debt-free Net Cash Flow

The annual DFNCFs during the discrete projection period are discounted to present value. Under the premise of a going concern, the cash flow stream of the business is expected to continue for the foreseeable future. The stabilized cash flow (or terminal value) attributable to the business enterprise is estimated, capitalized and discounted back to present value. The sum of the discounted annual net cash flows plus the terminal year value represents the FMV of the subject business enterprise.

The terminal value represents the prospective value at the end of the discrete time period and is calculated by dividing the net cash flow available for distribution in the terminal year by an appropriate capitalization rate, which assumes a constant growth rate into perpetuity. This calculation is known as the Gordon Growth Model and is shown arithmetically below:

$$TV = \frac{CF_t}{K - g}$$

where:

TV = Terminal Value
CFt = Normalized DFNCF
K = Discount Rate (WACC)
g = Sustainable Long-Term Growth Rate

*DCF Assumptions*

In developing projections, we relied upon financial projections provided by ECHN management. The following details the assumptions used in determining after-tax debt free net income:

*Revenues*

Our revenues projections are detailed in Exhibit B-3 and summarized as follows:

- Revenue projections for the years 2016 through 2019 were provided by management. In our analysis, we separately valued ECHN's joint venture interests using the market approach. Accordingly, we excluded Management's forecast of income from joint venture interests from the projected revenue stream.

- Net patient revenue is projected to be $290 million in 2016, $299 million in 2017, $306 million in 2018 and $312 million in 2019.

- Other operating revenue is projected to remain flat over the forecast horizon at $12.9 million, while net assets released from restrictions is projected to be $648 thousand in 2016, and $275 thousand each year thereafter through 2019.

*Expenses*

- Projected operating expenses were provided by Management. Overall, operating expenses are projected to be approximately 96 percent of revenues over the forecast horizon, as compared to 96 to 98 percent of revenues in the years 2013 through 2015.

*Capital Expenditures and Depreciation*

Capital expenditure estimates were based on comparison to guideline company levels and discussions with Management regarding current and future capital expenditure needs. Based on peer comparisons, capital expenditure levels generally run between 5 and 6 percent of net revenues. However, given the limitations of ECHN's available cash flow to finance debt repayment and other cash operating needs, we have projected a 1.5% annual capital expenditure level. Projections of depreciation were based on age and life estimates of existing fixed assets and future capital expenditures. Our capital expenditure and depreciation forecast is detailed in Exhibit B-5.

*Income Taxes*

Though ECHN is a non-profit corporation, its earnings stream was tax affected given that likely market participants would be for-profit corporations subject to taxes. Accordingly, the value to a willing buyer would need to consider income taxes in the cash flow projections. Income taxes were estimated to be 40.9% based on a blending of federal and Connecticut state corporate income tax rates.

*Working Capital Requirements*

Based on an analysis of guideline companies and the ECHN's historical trends in cash-free, debt-free working capital, we estimated working capital requirements to be approximately 9.0% of the change in total net revenue.

*Perpetuity Growth Rate*

Based on an analysis of the industry and discussions with ECHN management, a sustainable long-term revenue growth rate of 2.0 percent was assumed for the perpetuity cash flow calculation.

*Discount Rate - Weighted Average Cost of Capital ("WACC")*

The magnitude of a discount rate is related to the perceived risk of the investment as well as current capital costs. The concept of risk involves an investment situation, which lies between complete certainty of monetary return (no risk), and complete uncertainty of monetary return (infinite risk). When an investor contemplates two investments, each having the same expected monetary return, an investor would prefer the investment bearing the least risk. Therefore, the higher the risk, the higher the expected return.

The WACC measures the costs of debt and equity weighted by the percentage of debt and percentage of equity in a company's estimated target capital structure. The formula for calculating an after-tax WACC is:

$$WACC = \left(K_D \times (1 - t) \times \frac{D}{V}\right) + \left(K_E \times \frac{E}{V}\right)$$

| SYMBOL | DESCRIPTION |
|---|---|
| **Kd** | Cost of debt financing |
| **Ke** | Cost of equity financing |
| **D** | Estimated market value of debt |
| **E** | Estimated market value of equity |
| **V** | Value of total invested capital (debt plus equity) |
| **T** | Assumed tax rate |

*Cost of Equity*

The Capital Asset Pricing Model ("CAPM")[14] was utilized to estimate the return required by investors given a company's risk profile. The model is deployed arithmetically by the following equation:

$$K_E = r_f + (\beta \times rp_m) + R_c + R_s$$

| SYMBOL | DESCRIPTION |
|---|---|
| **Ke** | **Cost of equity financing** |
| **Rf** | **Risk-free rate of return**: A risk-free rate of return is generally measured by the rate of return on U.S. Treasury securities. The yield on the 20-year U.S. Treasury security as of the Valuation Date was 2.20 percent.[15] |
| **β** | **Beta**: Beta is a measure of systematic risk, which represents the covariance of the rate of return on the subject company with the rate of return on the market. A beta coefficient of 1.00 implies that a company's return varies directly with the overall market. The unlevered beta chosen for ECHN was 0.66, based on an analysis of publically traded companies. After re-levering this beta based on ECHN's capital structure, the indicated beta coefficient was 1.05. |
| **Rpm** | **Market equity risk premium**: This premium is the excess of the market rate of return over the risk-free rate that investors have historically demanded for an investment in equities. Quantification of the market premium has been the subject of much research by security analysts. Findings stemming from the SBBI Cost of Capital Yearbook, 2015, indicate the total rate of return on large capitalization common stocks using supply side estimates exceeded the risk-free rate by an average of 6.19 percent for a long-term horizon.[16] |
| **$R_C$** | **Small company stock premium**: This premium is the average premium in excess of the cost of equity derived from the CAPM that the overall market investor requires to invest in a business with low market capitalization. Based on our analysis, the Company was categorized in the 10th decile for companies with market capitalization below $302 million using the SBBI Cost of Capital Yearbook, 2015. Therefore, we applied the 5.78 percent small stock premium.[17] |
| **$R_S$** | **Company specific risk premium**: This premium represents the additional risk specific to an investment in a company. We added a company specific risk premium of 5.0 percent to the cost of equity of ECHN to account for relatively low margins, ability to meet capital expenditure needs, state government payment uncertainty, and concentration of services in two markets. We believe that the selected company specific risk premium is appropriate due to the risk inherent in management's forecast of cash flows. |

[16] Source: Ibbotson Associates, Stocks, Bonds, Bills, and Inflation 2015 Yearbook.

[17] Source: Ibid

Based on the variables presented above, the rate of return on equity capital was calculated as follows:

Ke = 2.20%+ (1.05 * 6.19%) + 5.78% + 5.00%

= 19.5%

*Cost of Debt*

The pretax cost of debt for ECHN was determined based on the Baa corporate bond equal to 4.90%, as of the Valuation Date. As interest expense is deductible for income tax purposes, the pretax cost of debt was tax-affected to derive an after-tax cost of debt.

The rate of return on debt capital is calculated as follows:

Kd = 4.90% * (1 – 40.9%)

= 2.9%

*Capital Structure*

The estimated proportion of debt and equity financing is an important component of the WACC calculation. The capital structure was assumed to be 50.0 percent debt and 50.0 percent equity based on an analysis of the capital structures of publically traded companies in the same industry as ECHN.

The implied WACC of 11.0 percent was utilized to discount the future cash flow projections of the Center to the present value.

***Joint Venture Analysis***

As discussed in Section II, ECHN has several joint venture interests which are accounted for under the equity method of accounting. As of September 30, 2015, these interests were carried on the books at $18.2 million. To value the joint ventures, we relied on the market approach. We removed the income stream related to the joint ventures from our DCF forecast and applied relevant BEV/EBITDA multiples to each of ECHN's investment's share in EBITDA.

The multiples selected were based on a review of transaction data within the industry associated with each investment, and valuator experience. The details of this analysis can be found in Exhibit F-4. Additionally, several of ECHN's joint venture interests were real estate assets. The valuation of these assets is detailed in Exhibit F-3. Based on our analysis, the concluded value of ECHN's non-real estate joint venture interests was determined to be $13.2 million, while real estate related joint venture interests were determined to be $1.8 million.

*Estimated Value Discounted Cash Flow Method*

Based on the DCF method, as shown in Exhibit B-1, the indicated BEV value of ECHN including the value of joint ventures, on a marketable, controlling interest basis is $63,750,000 (rounded).

***Market Approach – Guideline Company Method Overview***

In our application of the guideline company method, we considered valuation multiples derived from public guideline companies that were identified as belonging to a group of industry peers and then calculated and applied selected multiples to ECHN's historical and projected financial metrics.

*Guideline Company Research*

In applying the guideline company method, we focused on identifying companies that operate in the same or a similar line of business as ECHN. We analyzed comparable companies with significant operations involving general acute-care hospitals.

Based on the above search criteria, we identified five companies as being comparable to ECHN to employ in our analysis. It should be recognized that it is impossible to identify publicly traded companies with operations that are identical to that of the ECHN, as no two companies are exactly alike. For purposes of our analysis, the guideline companies selected represented similar, but alternative investment opportunities to an investment in ECHN. The companies selected were not pure play comparable to ECHN primarily due to size and geographic diversification differences.

*Application of the Guideline Company Method*

After identifying the guideline company, we developed market-based valuation multiples related to BEV-to-TTM revenue and BEV-to-TTM EBITDA.

The application of the guideline company method includes: (i) the identification of reasonably similar publicly-traded companies operating in the same or a similar industry as ECHN as discussed above; (ii) analysis of the guideline companies' financial and operating performance relative to ECHN; (iii) calculation of market multiples for the selected guideline companies; (iv) adjustment of the market multiples for differences between the guideline companies and ECHN; and (v) application of the market multiples to ECHN's fundamentals to arrive at an indication of FMV.

The BEV-to-TTM revenue of our guideline companies ranged between 0.9 x and 1.7x with a median BEV-to-TTM revenue multiple of 1.0. The BEV-to-TTM EBITDA of our guideline companies ranged between 7.9x and 9.3x with a median BEV-to-TTM EBITDA multiple of 8.5x. BEV-to-NTM revenue multiples ranged from 0.8x to 1.5x with a median of 1.0x while BEV-to-NTM EBITDA multiples ranged from 6.7x to 8.9x with a median of 7.5x.

In our selection of the multiples, we also considered the comparability of the guideline company relative to ECHN and made adjustments for ECHN's size, geographical concentration in the state of Connecticut, and profitability. Based on our analysis, we applied a BEV-to-TTM EBITDA multiple of

4.6x and a BEV-to-NTM EBITDA multiple of 4.3x. We applied a BEV-to-TTM Revenue multiple of 0.2x and a BEV-to-NTM Revenue multiple of 0.2x.

*Estimated Value by Guideline Company Method*

Application of the multiples discussed above resulted in an estimate of value for the business enterprise of ECHN. The values represent the value of ECHN on a marketable, non-controlling interest basis.

In order to determine the value of ECHN on a marketable, controlling basis we applied a control premium of 10.0%, based on an analysis of control premiums paid in recent transactions in the industry, to arrive at an indicated business enterprise value for ECHN on a marketable, controlling basis. We then added the value of joint venture interests. Based on our analysis, as illustrated in Exhibit C-2, the indicated BEV of ECHN on a marketable, controlling basis, as of the Valuation Date, is approximately $70,344,000 (rounded).

***Market Approach – Similar Transaction Method Overview***

In our market approach analysis of ECHN, we also considered the Similar Transaction Method. The Similar Transaction Method is a market approach in which the FMV of a business is estimated by analyzing the prices at which companies similar to the subject have sold in controlling interest transactions (mergers and acquisitions). Target companies are compared to the subject company, and multiples paid in transactions are analyzed and applied to subject company data resulting in value indications. Similarity can be affected by, among other things, the product or service produced or sold, geographic markets served, competitive position, profitability, growth expectations, size, risk perception, and capital structure.

*Similar Transaction Research*

In applying the similar transaction method, we screened companies using published data the Irving Levin Transaction Database based on the following criteria: (i) transactions in the similar service line model; (ii) transactions occurring during the four years that preceded the Valuation Date; (iii) acquired interests representing a majority of common equity to reflect a controlling interest level of value; and (iv) with publicly available transaction information.

In our search, we identified one hundred and thirty-eight relevant transactions with published transaction data. However, all of the transactions were at least four years distant from the Valuation Date. We calculated a range of BEV-to-TTM Revenue and BEV-to-TTM EBITDA multiples produced under the transaction method. For the identified comparable transactions, the BEV-to-TTM Revenue multiples ranged from 0.0x to 9.0x with a median of 0.6x and the BEV-to-TTM EBITDA multiples ranged from 0.2x to 52.7x with a median of 9.1x. We additionally segmented the transaction data by date, revenues and profitability. Based on our analysis, we selected a BEV-to-TTM EBITDA multiple of 4.9x and a BEV-to-TTM Revenue of 0.2x. Our multiple selection was based on ECHN's lower profitability levels and growth prospects.

*Estimated Value – Similar Transaction Method*

We applied the selected multiple to ECHN's fundamentals to determine an indication of the value of ECHN's BEV on a marketable, controlling basis. We then added the estimated value of ECHN's joint venture interests. Based on our analysis, as illustrated in Exhibit C-1, the indicated BEV of ECHN on a marketable, controlling basis, as of the Valuation Date, is approximately $73,091,000.

***Supplemental Asset-Based Valuation Approach***

Navigant performed a supplemental asset-based valuation analysis to further support our overall assessment that PMH was not paying less than fair market value for ECHN's assets. As summarized previously, the premise of Value-in-Place assumes that all assets will continue to be used in the manner for which it/they was/were originally intended which is consistent with the prospective buyer's stated intent to operate the Health System's hospitals as general acute care hospitals with similar levels and types of services.

In order to estimate the FMV of the Health System's assets under the premise of Value-in-Place, we performed an independent fair market valuation of the Health System's real and personal property and added this to the Health System's current net working capital balance as of August 31, 2014. Please refer to Appendix C and D for details of Navigant's real and personal property FMV analyses. Summary of each analysis is provided in Exhibits F-2 and F-3. We then added the value of ECHN's joint ventures and the projected value of net working capital as of the valuation date of $21,130,000.

*Intangible Assets*

As part of Navigant's overall valuation analysis, we considered the potential for intangible assets that could be identified and valued, including under a Value-in-Place premise of value. One intangible asset could possibly include the Health System's CON licenses. However, we understand that the Health System's CON licenses are not separable or transferrable apart from the Health System's real property. Accordingly, we determined the value of ECHN on a Value-In-Place premise did not support an intangible asset value of the CON licenses apart from the Health System's real property.

*Asset-Based Conclusion*

Based on a valuation of the Health System's assets under the premise of Value-In-Place, the indicated value of ECHN's business enterprise is approximately $101,847,000. A summary of the analysis is provided in Exhibit F-1.

*Fair Market Valuation Conclusion*

We primarily relied on the Discounted Cash Flow Method in order to estimate the FMV of ECHN and related affiliates with corroborative value indications from two market-based valuation methods. Based on our review of information provided to us, independent research and analysis, and our informed judgment, we estimate the FMV of the Health System's assets as follows:

| Summary of Fair Market Value<br>Going Concern Premise of Value | Weighting | FMV |
|---|---|---|
| Discounted Cash Flow | 100% | $63,750,000 |
| Guideline Company Method | 0% | 70,344,000 |
| Similar Transaction Method | 0% | 73,091,000 |
| Unadjusted ECHN Business Enterprise Value | | $63,750,000 |
| Less: Net Working Capital Adjustment | | (2,870,000) |
| **FMV of ECHN Business Enterprise (Going Concern)** | | **$60,880,000** |

The consideration provided by Prospect to ECHN is summarized below:

| Summary of Consideration | | As of 2/29/2016 |
|---|---|---|
| Purchase Price | (1) | $105,000,000 |
| Working Capital Adjustment | (1) | (2,870,000) |
| **Total Consideration** | | **$102,130,000** |

(1) Per Asset Purchase Agreement. Working capital adjustment calculated as working capital contributed less targeted working capital of $24.0M.

**As the purchase price of $105 million adjusted for the $2.9 million working capital deficit adjustment exceeds our estimated FMV indications, we conclude that ECHN will receive FMV for the Health System assets, as of the Valuation Date.**

## *IV. FAIR MARKET VALUATION MANIPULATION ANALYSIS*

In this section, Navigant will address:

*Whether the fair market value of the nonprofit hospital's assets have been manipulated by any person in a manner that causes the value of the assets to decrease.*

### *Findings and Conclusions*

**Based on our analysis of ECHN's financial position and operations, as well as observations during our valuation and transaction analysis process, we found no indication that ECHN's assets have been manipulated by any person in a manner that causes the value of the assets to decrease.**

## *V. FINANCING ANALYSIS*

In this section, Navigant will address:

*Whether the financing of the transaction will place the nonprofit hospital's assets at an unreasonable risk.*

### *Findings and Conclusions*

**PMH will not incur any debt financing to consummate the transaction. As such, there is no financing that would place the Health System's assets at unreasonable risk.**

**The proceeds from the Proposed Transaction will result in the settlement of ECHN's bond liabilities and other outstanding indebtedness. In addition, PMH will assume ECHN's unfunded pension liabilities, health benefit plan for retirees, captive insurer liabilities, and workers' compensation obligations. Any remaining proceeds will be used to settle post-closing liabilities and wind down the operations of ECHN.**

**PMH agreed to increase the purchase price for the assets by $10 million in the event that ECHN does not have sufficient cash to close the transaction, which increase would be offset by a corresponding reduction in the $75 million capital commitment amount.[18].**

[18] As described in ECHN and PMH's Certificate of Need Application dated October 13, 2015 and supplemental responses to completeness letters dated November 23, 2015 and December 24, 2015.

## *VI. MANAGEMENT CONTRACT VALUATION ANALYSIS*

In this section, Navigant will address:

*Whether any management contract contemplated under the transaction is for reasonable fair value.*

### *Findings and Conclusions*

**It is not currently anticipated that there will be a management contract between PMH and ECHN as of the closing. Therefore, it was not necessary to perform a management fee valuation analysis[19].**

[19] Ibid.

## APPENDIX A: SOURCES OF INFORMATION

We have relied upon sources including, but not limited to the following:

- Selected audited and unaudited operational and financial data of ECHN;
- The ECHN and Prospect Medical Holdings Certificate of Need Application for a Proposed Asset Purchase dated October 13, 2015 (the "Application") and in particular Response 5 (pp 35-43) that described the process undertaken by ECHN in pursuing a strategic partner and eventually the Proposed Transaction;
- The supplemental responses to the Application completeness letters dated November 23, 2015 and December 24, 2015;
- Draft Asset Purchase Agreement between Eastern Connecticut Health Network, Inc. and Prospect Medical Holdings, Inc.;
- Supplemental presentation by Prospect Medical Holdings dated March 28, 2016 and presented at the ECHN public hearings on March 29 & 30, 2016;
- Engagement Letter between Chartis Group and ECHN dated January 16, 2012;
- Engagement Letter between Duff & Phelps, LLC an ECHN dated August 14, 2015;

## APPENDIX B: ASSUMPTIONS AND LIMITING CONDITIONS

1. **Report Distribution** – This report has been prepared solely for the purpose stated in our engagement letter and should not be used for any other purpose. Except as specifically stated in the report, neither our report nor its contents is to be referred to or quoted, in whole or in part, in any registration statement, prospectus, public filing, loan agreement, or other agreement or document without our prior written approval. In addition, except as set forth in the report, our analysis and report presentation are not intended for general circulation or publication, nor are they to be reproduced nor distributed to other third parties without our prior written consent.
2. **Scope of Analysis** – The appraisal of any financial instrument or business is a matter of informed judgment. The accompanying appraisal has been prepared on the basis of information and assumptions set forth in the attached report, associated appendices, our underlying work papers, and these limiting conditions and assumptions.
3. **Nature of Opinion** – Neither our opinion nor our report are to be construed as a fairness opinion as to the fairness of an actual or proposed transaction, a solvency opinion, or an investment recommendation, but, instead, are the expression of our determination of the fair market value of the underlying assets and liabilities between a hypothetical willing buyer and a hypothetical willing seller in an assumed transaction on an assumed valuation date. For various reasons, the price at which the assets and liabilities might be sold in a specific transaction between specific parties on a specific date might be significantly different from the fair market value as expressed in our report.
4. **Going Concern Assumption, No Undisclosed Contingencies** – Our analysis: (i) assumes that as of the valuation date the Company and its assets will continue to operate as configured as a going concern; (ii) is based on the past and present financial condition of the Company and its assets as of the valuation date; and (iii) assumes that the Company had no undisclosed real or contingent assets or liabilities, no unusual obligations or substantial commitments, other than in the ordinary course of business, nor had any litigation pending or threatened that would have a material effect on our analysis.
5. **Lack of Verification of Information Provided** – With the exception of audited financial statements, we have relied on information supplied by the Company without audit or verification. We have assumed that all information furnished is complete, accurate and reflects Management's good faith efforts to describe the status and prospects of the Company at the valuation date from an operating and a financial point of view. As part of this engagement we have relied upon publicly available data from recognized sources of financial information, which have not been verified in all cases.
6. **Reliance on Forecasted Data** – Any use of Management's projections or forecasts in our analysis does not constitute an examination or compilation of prospective financial statements in accordance with standards established by the American Institute of Certified Public Accountants ("AICPA"). We do not express an opinion or any other form of assurance on the reasonableness of the underlying assumptions or whether any of the prospective financial statements, if used, are presented in conformity with AICPA presentation guidelines. Further, there will usually be differences between prospective and actual results because events and circumstances frequently do not occur as expected and these differences may be material.

7. **Subsequent Events** – The terms of our engagement are such that we have no obligation to update this report or to revise the valuation because of events and transactions occurring subsequent to the Valuation Date.
8. **Legal Matters** – We assume no responsibility for legal matters including interpretations of either the law or contracts. We have made no investigation of legal title and have assumed that owner(s) claim(s) to property are valid. We have given no consideration to liens or encumbrances except as specifically stated. We assumed that all required licenses, permits, etc. are in full force and effect. We assume no responsibility for the acceptability of the valuation approaches used in our report as legal evidence in any particular court or jurisdiction. The suitability of our report and opinion for any legal forum is a matter for the client and the client's legal advisor to determine.
9. **Testimony** – Neither Navigant Consulting, Inc. nor any individual signing or associated with this report shall be required to give testimony or appear in court or other legal proceedings unless specific arrangements have been made in advance.
10. **USPAP** – Unless otherwise stated in our opinion, our engagement is not required to be conducted pursuant to the Uniform Standards of Professional Appraisal Practice.
11. **Verification of Legal Description or Title** – As part of this engagement, we will not assume any responsibility for matters of a legal nature. No investigation of legal description or title to the property will be made and we will assume that your claim to the property is valid. No consideration will be given to liens or encumbrances which may be against the property, except as specifically stated as part of the financial statements you provide to us as part of this engagement. Full compliance with all applicable federal, state, local zoning, environmental and similar laws and regulations is assumed, unless otherwise stated and responsible ownership and competent property management are assumed.

## APPENDIX C: PERSONAL PROPERTY VALUATION

***Definition of Value***

The standard of value used in the valuation of the personal property is Fair Market Value. Fair Market Value is defined as "the estimated amount that may be reasonably be expected for a property, in an exchange between a willing buyer and a willing seller, with equity to both, neither under any compulsion to buy or sell and both fully aware of all relevant facts, as of a specific date.

***Fair Market Value In-Place***

Fair Market Value In-Place assumes the use of the assets in the ongoing business and therefore includes all normal direct and indirect costs (such as installation and other assemblage costs) to make the property fully operational. Under the premise of Fair Market Value In-Place, we included certain capitalized costs in our valuation such as installation, freight, engineering costs, electrical set-up costs, and other assemblage costs that would be required to make the personal property fully operational.

**Approaches to Value**

Three approaches are considered in the valuation of personal property: the Cost, Income, and Market (or Sales Comparison) Approaches. The application of each of these approaches is dependent upon the nature of the assets, the availability of appropriate information, and the scope of the analysis. Based on the value indications derived from the application of appropriate methodologies, an opinion of value is estimated using expert judgment within the confines of the appraisal process. Summary descriptions of the three approaches typically used in the valuation of tangible assets are provided in the following paragraphs:

***Cost Approach***

The Cost Approach recognizes that a prudent investor would not ordinarily pay more for an asset than the cost to replace it new. The first step is to estimate the reproduction/replacement cost new of an asset using current materials, prices, and labor. Reproduction cost and replacement cost are defined as follows:

> Reproduction Cost is the estimated cost to construct, at current prices, an exact duplicate (or replica) of the asset being appraised, using the same materials, construction standards, design, layout and quality of workmanship, and embodying all the subject's deficiencies, super-adequacies, and obsolescence.
>
> Replacement Cost is considered to be the cost of substituting an asset with another asset having equivalent functional utility as the asset being appraised.

The cost new is then reduced by the amount of depreciation resulting from physical deterioration, functional obsolescence, and economic/external obsolescence which are inherent in the asset. The resulting depreciated replacement cost is an indication of the Fair Market Value of an asset providing all elements of depreciation are addressed. The factors of depreciation are defined in the following paragraphs:

> Physical Depreciation as a result of age and wear can be divided into curable and incurable. Curable physical deterioration is a loss in value which can be recovered or offset by repairing or replacing defective items causing the loss, provided that the resulting value increase equals or exceeds the cost of work. Incurable physical deterioration is a loss in value which

cannot be offset or which would involve a cost to correct greater than the resulting increase in value.

Functional Obsolescence is any loss in value resulting from inappropriate design, inefficient process flow, poor construction or layout for the intended use, and changes in the technical state-of-the-art. Functional obsolescence may be either curable or incurable.

Economic/External Obsolescence relates to the loss in value that occurs from factors external to the assets.

***Market Approach***

The Market (Sales Comparison) Approach estimates value based on what other purchasers and sellers in the market have agreed to as prices for comparable assets. This approach is based on the principle of substitution which states that the limits of prices, rents, and rates tend to be set by the prevailing prices, rents, and rates of equally desirable substitutes. In conducting the Market Approach for the valuation of the personal property, we gather data on reasonably substitutable assets and make adjustments for such factors as market conditions, location, conditions of sale, income characteristics, etc. The resulting adjusted prices lead to an estimate of the price one might expect to realize upon sale of the asset.

The sales comparison approach was used to value the Subject Assets, in cases where asset/data information was readily available. Adjustments were considered based on the following elements of the comparable transaction data:

- Vintage
- Effective Age
- Condition
- Capacity
- Features
- Manufacturer
- Price
- Quality
- Quantity
- Date of sale
- Type of sale
- Assemblage Costs

We contacted used equipment sellers, researched various websites, and publications to gather information regarding recent transactions and offerings of comparable assets. Similar transactions and offering prices were adjusted, as appropriate, to arrive at an estimation of the fair market value of the Subject Assets.

***Income Approach***

The Income Approach is a valuation technique by which Fair Market Value is estimated based upon the cash flows that the subject asset can be expected to generate over its remaining useful life.

***Approaches Utilized***

The Cost and Market Approaches were utilized to value the Subject Assets depending on the quality and the quantity of information available related to the specific asset employed. The Income

Approach was considered but not utilized in valuing the Subject Assets due to the difficulty in allocating the revenue or income streams of a business enterprise to a specific asset employed.

***Sources of Information***

The sources of information used in our valuation of the Personal Property included the following:

- Fixed asset record ("FAR") provided by Management with historical cost and acquisition date information;
- Third party inventory of the Subject Assets with information such as Location, Department, Room, Barcode Asset Number, Floor, Asset Description, Manufacturer, Model No.
- Historical invoices of personal property assets for major assets;
- Capital leases;
- Equipment maintenance contracts;
- Electronic medical record and third party software specifications;
- Data center equipment hardware specifications;
- Health System floor plans;
- Photographs of personal property
- Physical inspection of a sampling of the assets in order to verify fixed asset records and to determine the quality, condition, and utility of the personal property.
- Discussions with Management to obtain an explanation and clarification of the data provided and to obtain additional data and descriptions of the history and future operations of the Personal Property.

We relied on this data as fairly representing the Subject Assets. We have not audited the inventory in the course of our valuation assignment. We relied on this information in:

- Identifying the assets to be valued, acquisition dates and historical costs of the assets to be valued;
- Estimating reproduction cost new and age/life based depreciation;
- Supporting information regarding the condition and operational status of the equipment;
- Identifying certain capitalized costs that would not have resale value to third-parties; and
- Overall support of the value calculations relating to the Subject Assets.

We did not consider supplies, materials on hand, or working capital as part of our analysis. Inventory was estimated at cost based on the value on the balance sheet. Our analysis is limited only to the assets described above.

***Assets Valued***

The personal property assets valued ('Subject Assets") are located at the following entities of Eastern Connecticut Health Network:

- Manchester Memorial Hospital
- Rockville General Hospital
- ECHN ElderCare Services, Inc.

The assets can be categorized within the following general asset classifications:

- Computer Equipment – includes, but not limited to, servers, desktops, laptops,

monitors, printers, network equipment, etc.

- Furniture & Fixtures – includes, but not limited to, patient beds, chairs, tables, book shelves, book cases, cabinets, carts, couches, desks, file cabinets, etc.
- Kitchen Equipment – includes, but not limited to, ovens, refrigerators, coolers, fryers, broilers, freezers, stoves, toasters, salad bars, skillets, water coolers, etc.
- Machine Tools – includes, but not limited to, hand drills, grinders, planers, routers, sanders, hoists, jack hammers, jig saws, knife sharpeners, nail guns, saws, tool boxes, welders, etc.
- Medical Equipment - includes all medical equipment and devices such as nuclear imaging equipment, surgical equipment & instrumentation, radiology equipment, nuclear imaging equipment, X-ray machines, ultrasound equipment, fetal monitors, defibrillators, laboratory equipment, anesthesia equipment, EKG equipment, etc.
- Office Equipment – includes, but not limited to, copiers, faxes, telephones, etc.
- Other Equipment– includes, but not limited to, televisions, security cameras, exercise equipment, floor scrubbers, snow blowers, humidifiers, time clocks, etc.

***Scope of Services***

In our valuation analysis, the following steps were performed:

- Conducted hospital site visit to collect equipment information for the Subject Assets such as capacity, type, manufacturer, model, vintage, etc. The verification of major assets was performed through the site visit, gathering equipment listings at the department level, and discussions with department personnel in order to verify the fixed asset inventory listing and to estimate the quality, condition, and utility of the personal property;
- Reviewed the fixed asset inventory listing, and other documentation for the equipment and contents;
- Estimated the current cost of and the cost to install the personal property;
- Conducted industry research of personal property to estimate the replacement cost, obsolescence, and remaining useful life based on asset type, utility, quality and age;
- Held discussions with equipment vendors and distributors of similar pre-owned, refurbished and/or new personal property to determine the market value of assets and compare research results with data from published sources to determine reasonableness;
- Analyzed all the facts and data compiled resulting in a conclusion of value.

Tim Lubbe inspected the Subject Assets at:

- Manchester Memorial Hospital; 71 Haynes Street, Manchester, CT;
- Rockville General Hospital, 31 Union Street, Vernon, CT
- Evergreen Imaging Center, 2800 Tamarack Ave., Suite 002South Windsor, CT
- John DeQuattro Cancer Center, 100 Haynes Street Manchester, CT
- Sterilization Center_460 Hartford Vernon CT- Dialysis
- Tolland Imaging Center, 6 Fieldstone Commons, Tolland, CT
- Women's Wellness Center - 2600 Tamarack- South Windsor, CT
- Woodlake at Tolland Nursing Facility-26 Shenipsit, Tolland CT

***Valuation Procedures***

Our valuation analysis involved a depreciated cost study of the assets. In order to utilize the cost approach, we used the fixed asset schedule and available historical invoices as accurately representing the assets to be appraised. No adjustments were made to historical costs or in-service dates.

The cost approach establishes reproduction/replacement cost estimates for the assets and was applied using direct and indirect methods. Direct costing relies on standard pricing media or quotations from equipment suppliers, original manufacturers and other industry sources. We applied the direct cost approach to Subject Assets depending on the quality and quantity of asset data/information. Based on the compiled data, we estimated a Replacement Cost New for the property on an uninstalled basis. Installation costs and other indirect costs were added, as appropriate.

We primarily used the indirect approach to value the assets. Indirect costing is the application of inflation indices to historical costs to estimate Reproduction Cost New. The indirect approach will index the historical cost data to provide an estimate of replacement cost new, using cost indices which reflect changes in equipment costs, and installation costs over time. These indices reflect the increase in cost on an asset-specific basis. After replacement cost new for the assets has been developed, depreciation estimates were made based on the relationship of age, as indicated from fixed asset records, condition, functional and economic obsolescence.

We reconciled the various approaches to conclude on one estimate of value for each of the assets and made adjustments to arrive at an indication of value under the presumption of installed and in-place. In valuing the Subject Assets, for items in which there was an active secondary market and recent sales comparables exist, the sales comparison approach was utilized. In instances where market data was available, but deemed too incomplete to apply the sales comparison approach, we used the market relationship data available to support the cost approach analysis. In instances where a Subject Asset is found to have no used market resale exposure, we utilized the cost approach.

Our analysis is limited only to the Subject Assets described above. We investigated the market from both a replacement cost and sales comparable standpoint. Our final conclusions take into account that the Personal Property was (with the exception of items identified by the client as idle or disposed) fully functional and operable and was utilized in its highest and best use in an efficient manner to be expected for the type of equipment (unless noted otherwise by the Client).

We express no opinion or other form of assurance regarding the inventory data accuracy, completeness, or fairness of representation. Our valuation of the personal property considers a value-in-place concept. Based on the analysis described in this report, we estimated the Fair Market Value In-Place of the Personal Property to be approximately $38.9 million as of the Valuation Date (before the capital lease liability of $6.84 million) and $32.0 million after the capital lease liability. (See the next section for a summary of the value by category).

## APPENDIX D: REAL PROPERTY VALUATION

- Nature of the Assignment
- Property Identification
- Scope of work, definitions and history
- Description of locations
- Highest and Best Use
- Methodologies
- Analysis
    - Major real estate
        - Manchester Memorial Hospital
        - Rockville General Hospital
        - 460 Hartford Turnpike
        - Woodlake at Tolland – Skilled Nursing
    - Minor nonessential real estate
    - Joint Venture real estate

***Nature of the Assignment***

The real estate is analyzed to opine on fair market value of these fixed assets as a part of a larger valuation of the business entity being acquired. This appendix only address the real estate assets. Given the breadth of the real estate owned, the focus of the analysis is on the larger properties given the greatest materiality. The valuation of the smaller real estate properties is done with the use of recent historic appraisals, recent acquisitions and available public records.

***Property Identification***

The subject of this real estate analysis is that real estate owned by ECHN. This includes major real estate assets such as the Manchester Memorial Hospital (MMH), the Rockville General Hospital (RGH), the Woodlake at Tolland (WAT) owned by ECHN ElderCare Services and 460 Hartford Turnpike in Vernon, CT. In addition there are a number of small medical office buildings, small general office buildings, single-family residential properties surrounding MMH and RGH, as well as vacant land parcels. Furthermore, ECHN has ownership in four real estate focused joint ventures.

The following is a list of the properties owned by ECHN

| REAL ESTATE PROPERTY SUMMARY | | | | |
|---|---|---|---|---|
| **Address** | **City** | **Property Type** | **Size (SF)** | **Land (acres)** |
| 71-80 Haynes Street (MMH) | Manchester | Hospital and parking | 527,224 | 15.40 |
| 31 Union St (RGH) | Vernon | Hospital | 177,348 | 7.95 |
| 460 Hartford Turnpike | Vernon | Medical/Dialysis/Sterilizing | 36,000 | 3.29 |
| 26 Shenipsit Lake Road (WAT) | Tolland | Elder Care | 65,721 | 6.39 |
| Properties near MMH | | | | |
| 18 Haynes Street | Manchester | Office Building/Commercial | 6,061 | 0.4 |
| 26 Haynes Street | Manchester | Office Building/Commercial | 4,256 | 0.43 |
| 36 Haynes Street | Manchester | Office Building/Commercial | 7,068 | 0.46 |
| 44 Haynes Street | Manchester | Office Building/Commercial | 1,523 | 0.17 |
| 310-312 Main Street | Manchester | Office Building/Commercial | 3,954 | 0.34 |
| 320 Main Street | Manchester | Office Building/Commercial | 10,640 | 0.29 |
| 353 Main Street | Manchester | Office Building/Commercial | 5,348 | 0.47 |
| 150 North Main Street | Manchester | Medical Office Building | 20,656 | 1.28 |
| 945 Main St (2 condos) | Manchester | Office Building/Condos | 2,330 | Condo |
| 319 Broad Street | Manchester | Thrift/retail store | 6,236 | 0.46 |
| W Middle Tpke; Russell; S Alton | Manchester | 12 SFR residential properties | 15,233 | 2.61 |
| Hemlock; S Hawthorne; S Alton | Manchester | 5 Vacant Residential parcels | | 11.57 |
| 56 Haynes Street | Manchester | Vacant commercial parcel | | 0.31 |
| Properties near RGH | | | | |
| Ward, Village and W Main Streets | Vernon | Vacant parcels | | 1.37 |
| JV - Partially Owned | | | | |
| 100 Haynes Street | Manchester | Cancer Center MOB | 30,443 | 2.59 |
| 29 Haynes Street | Manchester | Medical office building | 11,241 | 0.96 |
| 2800 Tamarack Avenue | South Windsor | Medical office building | 40,000 | 4.12 |
| 2400 + 2600 Tamarack Avenue | South Windsor | Medical office building | 52,615 | Ground leased |

### *Scope of the Appraisal*

Relevant information about the subject property was collected from the Client, discussion with the listing broker, proprietary data bases, appraisal files, and public records. The subject was legally identified through postal addresses, Assessors' records, legal description, and other documents/sources.

Specific steps in the scope of work included:

- Review and compilation of data about the subject property, the terms of the investment, the local market area, national and regional healthcare trends;
- Analysis of the factors considered to impact value including economic life of the improvements, barriers to entry, real estate development trends, operating expenses, competitive landscape, and construction costs of new hospitals and medical office buildings.
- Analysis of the subject in the Cost Approach by valuing the land as if vacant and the depreciated replacement cost new for the building improvements and the site improvements.
- Analysis of the Sales Comparison Approach to provide a framework and support for the Cost Approach.
- Reconciliation to a value conclusion.

Our valuations of the major properties are based on the steps described above. The smaller less material properties are valued with the help of recent historic appraisals, recent acquisitions, and Assessors' valuations supported by a review of small commercial property sales within the market. In addition, the high level analysis of the joint ventures concentrated in real estate involve recently constructed buildings which allowed us to look at the actual costs to construct to help opine on the net partial interest.

The business enterprise and personal property were valued separately by Navigant and are not included in this real estate appraisal appendix.

***Effective Dates of Appraisal***

The valuation date is March 31, 2016. The appraisal is based upon market conditions observed at that time.

***Property History***

Manchester Memorial Hospital and Rockville General Hospital are both currently operated as acute care hospitals. Woodlake at Tolland is operated as a skilled nursing facility. The hospitals and nursing facility have not changed ownership within the past three years. Of the additional other 38 properties owned by ECHN, only 353 Main Street, Manchester, CT had been purchased within the past three years. This 5,348 square foot commercial building was purchase May 9, 2014 for $695,000 or nearly $130 per square foot. This was a market transactions between unrelated parties. In discussion with ECHN real estate specialist, it is evident that the hospital has been acquiring properties around the campus for some time and are prudent in their acquisition decisions.

The Proposed Transaction involves the sale of specific asset from ECHN to PMP. See prior sections of this report for more specific details.

***Property Rights Appraised and Value Definitions***

The property rights appraised are the fee simple estate ownership of the land, site improvements, and buildings (without personal property and the business). The fee simple estate is defined as, *"Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."* [20]

***Exposure Period***

The concept of FMV assumes the hypothetical sale of a property given reasonable exposure on the market. Further, the exposure time is presumed to precede the effective date of the appraisal. Exposure time is defined in USPAP Statement on Appraisal Standards No. 6, "Reasonable Exposure Time in Market Value Estimates" as:

> *The estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal; a retrospective estimate based upon an analysis of past events assuming a competitive and open market.*

Exposure time is different for various types of real estate and under various market conditions. It is noted that the overall concept of reasonable exposure encompasses not only adequate, sufficient, and reasonable time but also adequate, sufficient, and reasonable effort. The best estimate of exposure time is a function of price, time, use, and current market conditions for the cost and availability of funds.

In estimating the length of time the property would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of this appraisal, we considered information gathered on comparable sales and historical and current market conditions.

After analyzing the aforementioned factors, we believe the reasonable exposure time to sell the properties would have been 18 to 24 months.

[20] The Dictionary of Real Estate Appraisal, Sixth Edition, Page 113.

***Manchester, Vernon and Tolland – Real Estate Description***

ECHN properties are located in the Hartford-West Hartford-East Hartford CBSA. Manchester Memorial Hospital is located in the city of Manchester, Connecticut in Hartford County. The hospital campus is located in central Manchester, equal distance between Interstate 84 and Interstate 384. The area is improved with a mix of residential along the side streets with neighborhood services along the arterials. This is an older well-established area of Manchester. New retail development has occurred in recent years just to the north of Manchester in South Windsor. South Windsor is the location of some of the real estate owned in Joint Ventures. The demographics for Manchester indicate a population within the city limits of 58,241 people. The area has an area median household income of $61,936, just short of the State median of $67,098. And the unemployment rate was 6.4% in 2014.

Rockville General Hospital is located in the Rockville area of the city of Vernon, Connecticut in Tolland County. Rockville area is an area with historic buildings. It is not surprising that the RGH has as a part of its campus a historic mansion. The location is approximately one mile northwest of Interstate 84. The demographics for Vernon indicate a population of 29,179 within the city limits. The area has a median household income of $59,081, below the state median of $67,098. And the unemployment rate was 6.4% in 2014. The median housing or condo value is slightly higher than the median in Manchester.

Woodlake at Tolland is located in the unincorporated area of Tolland County, Connecticut, to the east of Vernon. This area is a low-density suburban/ rural residential area of Tolland County. There are views of the surrounding habitat and access to Interstate 84 about two miles to the southwest.

Of the larger owned properties, the dialysis clinic and sterilization facility at 460 Hartford Turnpike in Vernon is in an attractive commercial area along the I-84, with surrounding commercial office and retail services.

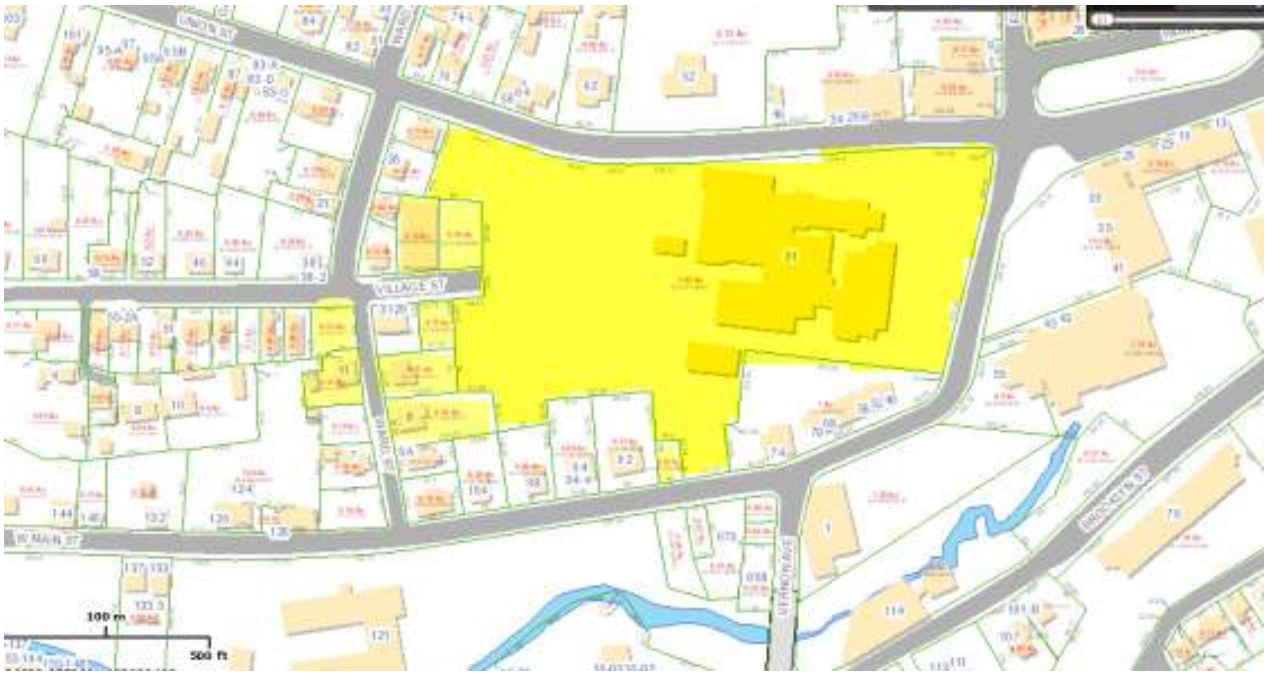
The 37 small owned parcels that surround either the MMH campus or the RGH campus. There are two JV properties adjacent to the MMH. There are two JV investments in three properties in South Windsor. South Windsor is to the north of Manchester and has seen development in the past ten years. The population of South Windsor is just over 25,000 people. And the area median household income is $92,718, significantly above the state median household income and higher than Manchester and Vernon.

[21] A healthcare industry overview, economic overview, and a local market overview are provided in the main section of the overall report.

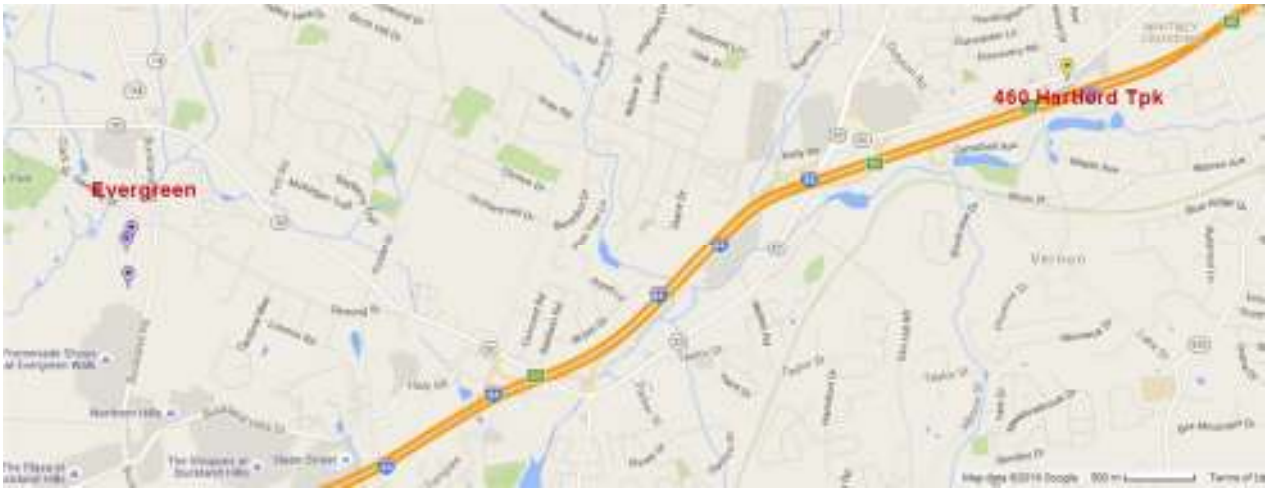
The following map shows the location of the real estate.

Both Vernon and Manchester are suburban communities to the larger community of Hartford, Connecticut. Both have higher demographics to Hartford.

A closer look at the MMH campus shows the wide variety of properties around the hospital. The following map shows the location of MMH and its surrounding owned properties. These show the hospital in the yellow, the MOB, general office and retail in blue, the single family residential properties in red, the vacant land is green and the joint venture medical office properties in purple.



MMH campus area



In addition, a parcel map below is used to show the owned parcels (highlighted in yellow) and the two joint venture properties (highlighted in green).

The Rockville General Hospital is in the Rockville section of Vernon, Connecticut. The map below show the Rockville General Hospital campus. The main property is highlighted in yellow and the additional small land and commercial properties are highlighted in light yellow.

This map below shows the location of the joint venture properties in South Windsor on the western side and also shows one of the main owned properties, 460 Hartford Turnpike in Vernon, near I-84.

***Property Descriptions - MMH***

| | |
|---|---|
| Property Name | Manchester Memorial Hospital |
| Property Address | 71 Haynes Street, Manchester, CT |
| Property Type | Acute Care Hospital |
| Site area | 12.54 at 71 Haynes Street (hospital site) and 2.86 acres at 80 Haynes across the street (parking lot) |
| Years Built | 1920, 1942, 1966, 1971, 1976, 1982, 1984 with renovations through the years. Most recently the ICU in 2009 and the Pharmacy in 2014. |
| No. of Buildings | One, made up of adjoining buildings, constructed over the years. |
| No. of Stories | Four plus basement level below front street grade but at ground level due to hillside elevation. |
| Ceiling Height | 13 feet |
| Property Description | Manchester Memorial Hospital is licensed for 249 acute-care beds. Construction is masonry exterior walls. The roof is built-up cover on a flat deck. The hospital contains 527,224 square feet of improved space plus basement area and a four-story parking garage structure with skyway to hospital.<br><br>Included in the hospital campus are other related MOBs and parking lots. These are on separate parcels and are valued separately. |
| Construction Class & Quality | Class B –Average |
| Parking | 196,004 square foot parking garage |
| ADA Compliant: | Yes |
| HVAC/Utilities | Chilled water, gas-fired. Newly installed Generator outside and new boilers installed. Upgrades to the hospitals electrical distribution system will be necessary, particularly for emergency power. |
| Interior Finishes | The level of finish is typical for the age of the improvements. The flooring is vinyl, and tile. Walls are painted drywall and ceilings are acoustic drop ceilings. |
| Sprinklers/Detectors | Building is fully-sprinklered and has smoke detectors |

Site improvements include paved parking, curbs, and landscaped buffers around the site perimeter.

***Property Descriptions - RGH***

| | |
|---|---|
| Property Name | Rockville General Hospital |
| Property Address | 31 Union Street, Vernon, CT |
| Property Type | Acute Care Hospital |
| Site Area | 7.95 acres |
| Years Built | 1906, 1964, 1969, 1974, 1980, with renovations through the years. Most recently the Emergency Room 2004. |
| No. of Buildings | Two adjoining. Original mansion fronting Union Street (now primarily office use) and main hospital building to the rear and side of the historic mansion building. |
| No. of Stories | Four |
| Ceiling Height | 13 feet |
| Property Description | Rockville General Hospital is licensed for 102 acute-care beds. Construction is painted stucco over masonry exterior walls. The roof is built-up cover on a flat deck. The hospital contains 149,419 square feet of improved space in the main hospital and 27,929 square feet of improved space in the original mansion building. |
| Construction Class & Quality | Class B –Average (hospital) and Class D – Fair (mansion). Due to the age and condition of the original mansion, costs to maintain and repair a depreciated structure can outweigh the usefulness. |
| Parking | Open paved parking lots |
| ADA Compliant: | Yes |
| HVAC | Chilled water, gas-fired |
| Interior Finishes | The level of finish is typical for the age of the improvements; however some of the interior finishes are showing their age and have reached the end of their useful lives. The flooring is vinyl, and tile. Walls are painted drywall and ceilings are acoustic ceilings. |
| Sprinklers/Detectors | Building is fully-sprinklered and has smoke detectors |

Site improvements include paved parking, curbs, and landscaped buffers around the site perimeter.

***Property Descriptions – WAT***

| | |
|---|---|
| Property Name | Woodlake at Tolland – Skilled Nursing Facility |
| Property Address | 26 Shenipsit Lake Road, Tolland, CT |
| Property Type | Skilled Nursing Facility |
| Site area | 6.39 acres |
| Years Built | 1992 (100 beds) with an addition built in 2009 (30 beds). |
| No. of Buildings | One building |
| No. of Stories | Two |
| Ceiling Height | 10 - 20 feet |
| Property Description | Woodlake at Tolland is a skilled nursing facility, licensed for 130 beds. It includes common areas – dining room, kitchen, library, physical therapy. Construction is steel frame with masonry and painted stucco over masonry exterior walls. The roof is pitched metal and areas of flat rolled roofing. The building contains 65,721 square feet. |
| Construction Class & Quality | Class C –Average |
| Parking | Open paved parking lots |
| ADA Compliant: | Yes |
| HVAC | Chilled water, gas-fired |
| Interior Finishes | The level of finish is typical for the age of the improvements; however some of the interior finishes are showing their age and have reached the end of their useful lives. The lower level addition reflects contemporary finishes. The flooring is vinyl, and tile. Walls are painted drywall and ceilings are acoustic ceilings. |
| Sprinklers/Detectors | Building is fully-sprinklered, smoke detectors on site |

Site improvements include paved parking, curbs, and landscaped buffers around the site perimeter.

***Property Descriptions – 460 Hartford Turnpike***

| | |
|---|---|
| Property Name | 460 Hartford Turnpike |
| Property Address | 460 Hartford Turnpike, Vernon, CT |
| Property Type | MOB with dialysis center, sterilization operation on lower basement level |
| Site area | 3.29 acres |
| Years Built | 1999 |
| No. of Buildings | One building |
| No. of Stories | Two |
| Ceiling Height | 10 feet |
| Property Description | Construction is Class C brick masonry over wood frame with basement level of concrete block exterior walls. The roof is pitched metal. The building contains 18,000 square feet on each level for a total of 36,000 square feet. |
| Construction Class & Quality | Class C –Average |
| Parking | Open paved parking lots |
| ADA Compliant: | Yes |
| HVAC | Gas-fired |
| Interior Finishes | The level of finish is typical for the age of the improvements. The flooring is vinyl, and tile. Walls are painted drywall and ceilings are acoustic ceilings. |
| Sprinklers | Building is fully-sprinklered |

Site improvements include paved parking, curbs, and landscaped buffers around the site perimeter.

The other real estate owned by ECHN is summarized in the following table. Surrounding the MMH hospital, there are a mix of residential and small commercial uses. The hospital has been acquiring properties as they become available at reasonable prices. These acquisitions include 12 single-family residential properties, five vacant residential parcels, a vacant commercial site and eight general/medical office properties, one commercial condo property and a retail property housing a thrift shop.

The RGH campus has a main hospital property, but in addition there are several small residential and commercial lots, adjacent to the hospital property, previously acquired for future expansion or buffer zone.

As additional consideration of the assets owned, the valuation of the real estate assets of the joint ventures is also considered in the overall valuation. Therefore, a high level analysis of these five properties is presented to be used in the consideration of ECHN's interest in the JV investments.

The follow chart shows the non-essential real estate and the joint venture real estate. Some of these are grouped together, such as the 12 single family homes near MMH.

**REAL ESTATE CONSTRUCTION SUMMARY**

| Address | City | Property Use | Type | Size (SF) | Land (acres) |
|---|---|---|---|---|---|
| Properties near MMH | | | | | |
| 18 Haynes Street | Manchester | Office Building/Commercial | 1-story masonry | 6,061 | 0.4 |

| 2400 + 2600 Tamarack Avenue | South Windsor | Medical office building | 2-story masonry | 52,615 | Ground leased |

### *Highest and Best Use Analysis*

According to The Dictionary of Real Estate Appraisal, sixth edition, published by the Appraisal Institute, highest and best use is defined as the reasonably probable and legal use of vacant land or an improved property, which is physically possible, appropriately supported, financially feasible, and that results in the highest value. The four criteria highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity.

The highest and best use was presumed to be as currently improved as the market did not suggest that the current use was not the highest and best use. This is supported by the initial review of generally legally permissible uses according to the zoning, consideration of surrounding uses, and general market trends. It is also supported by the third party appraisal reports that were relied upon in this analysis. No additional detailed highest and best use study was conducted. We conclude that highest and best use of MMH and RGH, as improved, is for continued hospital use. The highest and best use of WAT is continued skilled nursing facility. The highest and best use for the midsize medical office and smaller medical office properties surrounding the hospitals, as improved, is for continued healthcare use.

### *Approaches to Value*

#### *Sales Comparison (Market) Approach*

The sales comparison approach estimates the value of a property by comparing it to similar properties sold on the open market. To obtain a supportable estimate of value, the sales price of a comparable property must be adjusted to reflect any dissimilarities between it and the property being appraised.

#### *Income Approach*

The income approach analyzes a property's ability to generate financial returns as an investment. The appraisal estimates a property's operating cash flow, projecting revenue and expenses. Inherent to the income approach is the capitalization of the resulting net operating income. Through an income capitalization procedure, the value of the subject property is calculated. The income approach is often selected as the preferred valuation method for operating properties because it most closely reflects the investment rationale of knowledgeable buyers. This approach, however, is utilized for income producing properties, such as lease office buildings and shopping centers, and is not typically relied upon for special use facilities, that are not under lease contract and that are not currently or expected to generate income in the near future.

#### *Cost Approach*

The cost approach estimates market value by computing the current cost of replacing the property and subtracting any depreciation resulting from physical deterioration, functional obsolescence, and external (or economic) obsolescence. The value of the land, as if vacant and available, is then added to the depreciated value of the improvements to produce a total value estimate. The cost approach is most reliable for estimating the value of new and/or special-purpose properties; however, as the

improvements deteriorate and market conditions change, the resultant loss in value becomes increasingly difficult to quantify accurately.

The most relevant approaches to value are selected and their concluded values are reconciled in to a final value or value range.

***Valuation Approaches Selected***

Major Properties –

For MMH and RGH, due to the special purpose nature of the hospital improvements, we have developed the cost approach including a depreciated replacement cost analysis for the buildings and site improvements. We have relied on the sales comparison approach to value the land as though vacant to be used in the cost approach. The analysis of hospital sales, in particular established facilities excluding recently constructed facilities, are used as a check of reasonableness to the cost approach.

Minor Properties –

There are 37 properties considered nonessential and placed in the minor properties category, each by itself considered immaterial. Due to the number of small properties, the timing and resources, these smaller properties were concluded to have fair market values approximate to the Assessors' reported market values, the recent purchase price or the recent third party appraised value. In some cases, properties were recently purchase, as in the case with 353 Main Street, Manchester. In other cases, there were recent third party appraisals, as in the case of 945 Main Street, Manchester. In addition to the Assessor's opinion of market value, recent purchase prices and recent third party appraisals were utilized to opine on fair market value of the minor properties.

Joint Venture Properties –

All four of the joint venture properties have been recently constructed. It is reasonable to consider the actual construction costs as an indicator of the fair market value. In this case, Management has provided cost information of each of the properties at 100 Haynes Street, Manchester; 29 Haynes Street, Manchester; 2800 Tamarack and 2400-2600 Tamarack, South Windsor. In addition, sales of recently constructed MOB buildings of comparable size were considered and presented to provide market support for the recent construction costs as an indicator of fair market value. Furthermore, sales of good quality, recently constructed cancer centers and imaging centers were considered and presented to support the valuation of 100 Haynes Street, Manchester.

***Presentation of Analysis***

The analysis of the major properties are presented first in exhibits at the end of this Appendix with reference to each exhibit in the following description of analysis.

All of the conclusions included in our summary table presented in Exhibit F-3

***Cost Approach***

The cost approach is being applied to the major properties, MMH, RGH, WAT and 460 Hartford Turnpike. We have used the market approach to value the land as though vacant, used within the cost approach along with the depreciated replacement costs or the structure, and the site improvements. The Fair Market Value conclusions via the cost approach, summarized in Exhibit G-5, were reconciled with our review and analysis of improved sales of comparable hospitals, skilled nursing facilities and mid-size MOB space presented in Exhibits G-6, G-7, and G-8.

*Land Valuation*

Land is valued as if vacant and available for development to its highest and best use. Similar land that has recently sold or is offered for sale is investigated, and a comparative analysis is made of factors influencing value. Factors considered included, but were not limited to, interest conveyed; cash equivalency; conditions of sale; date of sale; location and surrounding improvements; and physical characteristics including size, zoning, and density. Notes about the adjustments for comparison with the subjects are found on the exhibits referenced below.

The land value of the sites has been estimated, relying on the market approach, which has been supported with comparable sales data and current listings researched via CoStar, LoopNet, real estate brokerage firms, and other sources. The most appropriate unit of comparison is price per acre. The data selected for direct comparison is summarized in the Exhibit G-1 and G-2

*Building Improvements*

Building improvements analyzed in the major properties are hospital facilities, a skilled nursing facility and a medical office building. Based on information provided by Management and the County Assessors offices, the buildings were categorized by construction type as either Average Class B general hospitals; Average Class C Nursing Homes/Convalescent hospital or Class C MOB.

The cost new of the building improvements was estimated based on *Marshall and Swift Valuation Service* ("*MVS*"), specifically Section 15, of the February 2016 edition. The hard costs per square foot were estimated based on the construction type and quality as detailed in the exhibit footnotes. Soft costs of 12%, and local multipliers were applied, to arrive at an adjusted cost new. No entrepreneurial profit is considered implied in this market since, these hospitals are typically owner/builders for the purpose of housing their operation, not as a means for generating a profit incentive.

Economic life was estimated based on *MVS* and the estimated effective age reflects the chronological age as well as condition and any recent capital improvements. In addition to this, the recent Facility

Assessment Report by CharterCare Health Partners dated September 23, 2015 was helpful in providing information on capital improvement needs, which are considered against the replacement cost new.

In addition, due to the changing regulations and requirements of the healthcare marketplace, facilities built many years ago do not best meet the needs of the hospital operations. This reduction is usefulness is from a combination of functional and external obsolescence for a hospital facility. For example, dual room occupancy is becoming less desirable as the trend is toward single bed occupancy. This in part is to help control the spread of infectious diseases. A recent study by MMH as to the potential cost of changing to single bed occupancy indicated a cost of $51 million. By applying all $51 million as a curable functional obsolescence, if cured, it would have an offsetting impact on the amount of physical depreciation and may also offset the current external obsolescence discussed below. Therefore, there offsetting consequences of an improved physical plant is recognized, reducing the functional obsolescence to half the cost to cure or 30% of physically depreciated cost.

External obsolescence is applied in the cost approach to recognize the deficient in the utilization of the assets based upon outside external and economic forces that are impacting the value of these real estate assets. This can be measured by considering the use of the real estate at it optimal designed capacity and comparing that with the current demand for the property. In typical commercial properties this can be viewed by comparing the market rent required to support a reasonable return on the cost new versus the current market rent. In the case of hospitals they are not typically leased. An indication of the existence of this negative external force is a look at the licensed bed capacity used to justify the creation of the buildings and then comparing this with the staffed beds in actual use. We can quantify this diminution by comparing the anticipated occupancy levels of the licensed beds with the recent actual occupancy levels of the licensed beds. Typically in a health market, the occupancy level of licensed beds would be 60% on average. As shown in the Historic Operational Analysis –ECHN, Exhibit C-3, the occupancy of licensed beds has continued to decline over the past several years to its 2015 level of 34.5%. The difference in actual occupancy versus standard occupancy indicates an external obsolescence of 43%. There is an oversupply of licensed hospital beds resulting in much fewer staffed beds to meet the demand of the marketplace.

This external obsolescence of 43% is applied to both MMH and RGH since the 43% diminution comes from aggregate ECHN numbers.

RGH is treated similarly with regard to age/life, capital needs and functional and external obsolescence. WAT also has some capital improvement needs used in the cost approach analysis.

Details of the building improvements analysis are presented in Exhibit G-3.

*Site Improvements*

Site improvements include parking areas and drive/loading areas, landscaping, and miscellaneous items listed in the exhibit footnotes.
The cost new of the site improvements was estimated based on Section 66 of *MVS*. Areas and measurements were scaled from the ALTA survey or aerial photographs as well as from information provided by Management. Soft costs of 12%, and the *MVS* current and local multipliers were applied to arrive at an adjusted cost new. No entrepreneurial profit is considered implied in this market since,

these hospitals are typically owner/builders for the purpose of housing their operation, not as a means for generating a profit incentive.

Depreciation was based on the age/life method; both economic life and effective age were estimated based on discussions with Management, observations during the site inspection, information on the ages of various segments of the facilities and other data provided or researched by Navigant.

Details of the site improvements analysis are presented in Exhibit G-4

*Cost Approach Conclusion*

The conclusion of the Cost Approach for the four major properties is concluded in Exhibit G-5

**MAJOR PROPERTIES - SUMMARY OF COST VALUATION CONCLUSIONS**

| Address | City | Size | Land Value (1) | Site Imps (2) | Bldg Imps (3) | Fair Market Value |
|---|---|---|---|---|---|---|
| 71-80 Haynes Street (MMH) | Manchester | 527,224 | $ 1,800,000 | $ 740,000 | $ 18,023,900 | $ 20,563,900 |
| | | | | | Rounded | $ 20,600,000 |
| 31 Union St (RGH) | Vernon | 177,348 | $ 1,200,000 | $ 320,000 | $ 2,275,800 | $ 3,795,800 |
| | | | | | Rounded | $ 3,800,000 |
| 460 Hartford Turnpike | Vernon | 36,000 | $ 500,000 | $ 180,000 | $ 3,060,000 | $ 3,740,000 |
| | | | | | Rounded | $ 3,700,000 |
| 26 Shenipsit Lake Road (WAT) | Tolland | 65,721 | $ 800,000 | $ 270,000 | $ 7,029,000 | $ 8,099,000 |
| | | | | | Rounded | $ 8,100,000 |

### *Improved Sales*

Navigant analyzed improved property sales to test the reasonableness of the conclusion via the cost approach. We identified multiple comparable transactions that closed in 2014 to 2016 supplemented with earlier sales, listings and pending. Comparative factors included location, age and condition of the property, land-to-building ratios, and type of construction. The data set represents properties that are considered generally similar to the subjects. The Navigant analysis also included review of the current book values. Assessor's opinions of market value, when available, were also taken into consideration.

Details of the Sales bracketing the concluded Fair Value are presented in Exhibits G-6, G-7 and G-8.

### *Overall Fair Value – Major Properties*

Based on our analysis as summarized in the Exhibit G-5, we conclude that the overall fair value conclusions for the major real properties are reasonable and supported by the comparable data.

***Valuation of minor properties***

There are 37 nonessential real properties surrounding the campuses of MMH and RGH. Due to the timing and resources, Assessor's opinion of market value, recent purchase prices and recent third party appraisals were utilized to opine on initial value of the minor properties. In some cases, properties were recently purchase, as in the case with 353 Main Street, Manchester. In another case, there was a recent third party appraisal, as in the case of 945 Main Street, Manchester.

But given the nonessential nature of these other smaller properties and the quantity of properties, it is likely that a potential buyer focused on the real estate to house the hospital operation would divest themselves to this nonessential real estate. This is similar to personal property valuations of nonessential personal property for a business operation.

Therefore, the aggregate of initial property prices were used in a short three year cash flow model to reflect the present value of the selloff of these assets. The cash flow included a deduction for sales and marketing costs. The profit incentive was included within the discount rate, based on PwC Investor Survey.

This analysis is presented in Exhibit G-9.

***Valuation of Joint Venture properties***

There are four joint ventures, Evergreen Medical I and II, Haynes Street Medical I and II, which own a total of five fairly recently constructed buildings. Due to the limited information on financial statements for each property, and the recent construction, the actual construction costs provided by the ECHN management were utilized to opine on fair market value of the JV properties. The actual historic costs between 2007 and 2011 were escalated to current date by using Marshall Valuation Services (MVS) District Comparative Cost Multipliers in Section 98. After begin the actual costs to current date, the appropriate physical depreciation was applied to opine on an "as is" value by the cost approach. This approach is support by review of comparable sales of recently building medical office building of comparable size in the northeast. The sales support the concluded values from the analyzed actual costs.

This analysis is presented in Exhibit G-11 with comparable sales in Exhibits G-12 and G-13.

***Valuation Conclusion***

Based on the investigation and analyses contained herein, it is our opinion that as of March 31, 2016, the FMV of the fee simple interest in the wholly owned real property appraised, as if available on the open market, is $42,170,000.

The joint venture real estate, net of liabilities is $1,760,000.

This Appendix is not intended to be relied upon apart from the larger valuation report encompassing all assets of ECHN.

## PROPERTY BY PROPERTY SUMMARY OF VALUE CONCLUSIONS

Wholly Owned

| Address | City | Property Type | Size | | Fair Market Value |
|---|---|---|---|---|---|
| 71-80 Haynes Street (MMH) | Manchester | Hospital and park | 527,224 | | $ 20,600,000 |
| 31 Union St (RGH) | Vernon | Hospital | 177,348 | | 3,800,000 |

## Certification: Real Property

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported real property analyses, opinions, and conclusions are limited only by the accompanying assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest or bias with respect to the property or parties involved.
- My engagement in this assignment and compensation are not contingent upon developing or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.
- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal Practice.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- I have not performed services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have made a personal inspection of selected designated owned assets.
- No one provided significant real property appraisal assistance to the person signing this certification with preparing the report.
- As of the date of this report, Kathryn Sturgis-Bright, MAI, has completed the requirements of the continuing education program for designated members of the Appraisal Institute.

| **FMV of ECHN Business Enterprise Value, Going Concern** | | | **$60,880,000** |

| Consideration Paid for ECHN Assets | Notes | As of 2/29/2016 |
|---|---|---|
| Purchase Price for 100% of ECHN | (5) | $105,000,000 |
| Net Working Capital Adjustment | (5) | (2,870,000) |
| **Adjusted Purchase Price (including net working capital adjustment)** | | **$102,130,000** |

| | |
|---|---|
| **Amount By Which Purchase Price Exceeds FMV of Business Enterprise, Going Concern** | **$41,250,000** |

*Notes:*

(1) Navigant has assumed that ECHN would continue to be operated as a going concern health system. Our going concern premise of value relied primarily upon the DCF method, with corroborating support from the market approach. Navigant also performed a supplemental asset-based approach as additional support. See Exhibit F-1, Summary of Supplemental Asset-Based Approach.

(2) See Exhibit B-1, Discounted Cash Flow Method.

(3) See Exhibit D-1, Guideline Company - Summary.

(4) See Exhibit E-1, Similar Transaction Method Summary.

(5) Purchase price is based on a review of Asset Purchase Agreement. Based on the agreement, the aggregate purchase price is to be adjusted for the amount by which the net book value of net working capital of ECHN is greater or less than $24.0M. Based on Management's projected net working capital of $21.13M, the adjustment from purchase price is ($2.87M).

*Notes:*

(1) See Exhibit B-2, Projected Income Statement.

(2) Based on analysis of guideline companies and subject company metrics, after adjustments for differences in profitability, future growth, and risk.

(3) Based on Management's Net Proceeds Analysis as of September 30, 2015.

(4) Control premium based on transaction data from Irving Levin Associates, Inc. and CapitalIQ.

(5) Most weight was given to the EBITDA indication as this metric is most commonly used by buyers and sellers in the hospital M&A market.
BEV = Business Enterprise Value
EBITDA = Earnings Before Interest, Tax, Depreciation, and Amortization

(6) See Exhibit F-4, Joint Venture Analysis.

(7) See Exhibit F-3, Real Property - Summary of Fair Market Values.

**Guideline Company - Descriptions**

| Name | Stock Symbol | Description |
|---|---|---|
| Community Health Systems, Inc. | CYH | Community Health Systems, Inc., together with its subsidiaries, owns, leases, and operates general acute care hospitals in the United States. It offers general acute care, emergency room, general and specialty surgery, critical care, internal medicine, obstetrics, diagnostic, psychiatric, and rehabilitation services, as well as skilled nursing and home care services. The company also provides outpatient services at urgent care centers, occupational medicine clinics, imaging centers, cancer centers, ambulatory surgery centers, and home health and hospice agencies. In addition, it offers management and consulting services to non-affiliated general acute care hospitals. As of February 15, 2016, the company owned, leased, or operated 195 affiliated hospitals in 29 states with approximately 30,000 licensed beds. Community Health Systems, Inc. was founded in 1985 and is headquartered in Franklin, Tennessee. |
| Universal Health Services Inc. | UHS | Universal Health Services, Inc., through its subsidiaries, owns and operates acute care hospitals, behavioral health centers, surgical hospitals, ambulatory surgery centers, and radiation oncology centers. The company's hospitals provide various services, including general and specialty surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, pediatric services, pharmacy services, and/or behavioral health services. As of February 25, 2016, it owned and/or operated 24 inpatient acute care hospitals, 3 free-standing emergency departments, and 213 inpatient and 16 outpatient behavioral health care facilities located in 37 states, Washington, D.C.; the United Kingdom; Puerto Rico; and the U.S. Virgin Islands. Universal Health Services, Inc. was founded in 1978 and is headquartered in King of Prussia, Pennsylvania. |
| LifePoint Health, Inc. | LPNT | LifePoint Health, Inc., through its subsidiaries, owns and operates community hospitals, regional health systems, physician practices, outpatient centers, and post-acute facilities in the United States. Its hospitals offer a range of medical and surgical services, such as general surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, rehabilitation, and pediatric services, as well as specialized services, including open-heart surgery, skilled nursing, psychiatric care, and neuro-surgery. The company's hospitals also provide various outpatient services comprising same-day surgery, laboratory, X-ray, respiratory therapy, imaging, sports medicine, and lithotripsy. In addition, it owns and operates schools of nursing and other allied health professions. As of December 31, 2015, the company operated 67 hospitals campuses in 21 states. The company was formerly known as LifePoint Hospitals, Inc. and changed its name to LifePoint Health, Inc. in May 2015. LifePoint Health, Inc. was founded in 1997 and is based in Brentwood, Tennessee. |
| HCA Holdings, Inc. | HCA | HCA Holdings, Inc., through its subsidiaries, provides health care services in the United States. It operates general, acute care hospitals that offer medical and surgical services, including inpatient care, intensive care, cardiac care, diagnostic, and emergency services; and outpatient services, such as outpatient surgery, laboratory, radiology, respiratory therapy, cardiology, and physical therapy services. The company also operates psychiatric hospitals, which provide therapeutic programs comprising child, adolescent and adult psychiatric care, adult and adolescent alcohol and drug abuse treatment, and counseling. In addition, it operates outpatient health care facilities consisting of freestanding ambulatory surgery centers, freestanding emergency care facilities, urgent care facilities, walk-in clinics, diagnostic and imaging centers, rehabilitation and physical therapy centers, radiation and oncology therapy centers, physician practices, and various other facilities. As of December 31, 2015, the company operated 164 general, acute care hospitals with 43,275 licensed beds; 3 psychiatric hospitals with 396 licensed beds; and 1 rehabilitation hospital, as well as 116 freestanding surgery centers. HCA Holdings, Inc. was founded in 1968 and is headquartered in Nashville, Tennessee. |
| Tenet Healthcare Corp. | THC | Tenet Healthcare Corporation, together with its subsidiaries, primarily operates acute care hospitals and related healthcare facilities. The company operates through three segments: Hospital Operations and Other, Ambulatory Care, and Conifer. Its general hospitals offer acute care services, operating and recovery rooms, radiology services, respiratory therapy services, clinical laboratories, and pharmacies. The company also provides intensive, critical, and coronary care units; physical therapy, orthopedic, oncology, and outpatient services; tertiary care services, including open-heart surgery, neonatal intensive care, and neurosciences; quaternary care services for heart, liver, kidney, and bone marrow transplants; quaternary pediatric and burn services; gamma-knife brain surgery; and cyberknife radiation therapy for tumors and lesions in the brain, lung, neck, and spine. In addition, it offers clinical research programs related to cardiovascular and pulmonary diseases, musculoskeletal disorders, neurological disorders, genitourinary diseases, and various cancers, as well as drug and medical device studies. Further, the company operates freestanding ambulatory surgery and imaging centers, short-stay surgical facilities, and Aspen's hospitals and clinics. Additionally, it offers operational management for patient access, accounts receivable management, health information management, revenue integrity, and patient financial services; communications and engagement solutions; and clinical integration, financial risk management, and population health management services. As of December 31, 2015, the company operated 86 hospitals, 20 short-stay surgical hospitals, and approximately 475 outpatient centers; and 9 private hospitals and clinics, as well as 249 ambulatory surgery, 20 imaging, and 35 urgent care centers in the United Kingdom. Tenet Healthcare Corporation was founded in 1967 and is headquartered in Dallas, Texas. |

NAVIGANT

**FINAL**

## Asset-Based Approach - Summary

| Supplemental Asset-Based Approach (1) | Notes | FMV |
|---|---|---|
| Net Asset Components: | | |
| Personal Property | (2) | $23,600,000 |
| Real Property | (3) | 42,170,000 |
| Real Property Joint Ventures Interests | (3) | 1,760,000 |
| Joint Ventures Interests | (4) | 13,187,000 |
| Net Working Capital | (5) | 21,130,000 |
| **FMV of ECHN Business Enterprise, Value-in-Place** | (6) | **$101,847,000** |

*Notes:*

(1) Navigant performed a supplemental asset-based valuation analysis to further support our overall assessment that PMH was not paying less than fair market value for ECHN's assets.

(2) Based on Navigant analysis. See Exhibit F-2, Personal Property - Summary of Fair Market Values.

(3) Based on Navigant analysis. See Exhibit F-3, Real Property - Summary of Fair Market Values.

(4) See Exhibit F-4, Joint Venture Analysis.

(5) Net working capital adjustment is based on the projected balance of net working capital as of the latest Net Proceeds Analysis provided by Management.

(6) Based on Navigant's analysis, it was determined that any intangible asset value would be negligible given the financial condition of the Health System.

Notes:

Conditions of Sale: The listings are adjusted downward to probably contract closing price. Typically we see a 20% discount off of the listing price.

Location: L-1 is considered a superior commercial location and adjusted downward. No other location adjustments were considered necessary.

Size: L-1, L-2, L-4 and L-6 are smaller sites. We see a diminution is price per acre for larger size parcels, due to diminishing marginal return. Smaller site typically see an increasing price per acre as each acre is more critical. These smaller site sales are adjusted downward.

Shape and Topograph: L-5 is a flag lot, reflecting inferior frontage and visibility; while L-4 is a elongated parcel. Both require upwards adjustments for inferior configurations.

Zoning: Most of the zoning and proposed uses are considered comparable with no quantitative distinction in this market. However, L-5 is an industrial use, requiring an upward adjustment.

Conclusion: The adjusted sales, excluding the extremes, indicate a range from commercial land in the immediate area to be generally $110,000 per acre to $180,000 per acre. The MMH and RGH sites would be expected to fall to the mid range; however, MMH is a very large site, requiring a lower price per acre to account for the larger size. The Woodlake at Tolland site is more rural and would fall to the lower end of the range.

**Building Improvements - MMH and RGH Hospitals, WAT**

**MAJOR PROPERTIES - SUMMARY OF BUILDING IMPROVEMENT COSTS - Continued**

Footnotes:

Building size, excludes porches and canopies.

MMH - Hospital - Hard Cost per Unit is from *Marshall Valuation Service* February 2016 edition, Section 15, pg 24. MMH -Class B Average; Section 14, pg 34 - Parking Structure - Class C Average. The base cost of $275.10 per square foot is adjusted by perimeter multiplier of .887. Extras account for porches, canopies and non-finished area accounting for the difference between the gross building area and the living area and basement, 17,677 square feet. The Cost per square foot is based on 1/4 of the base costs for living area.

RGH - Hospital - Hard Cost per Unit is from *Marshall Valuation Service* February 2016 edition, Section 15, pg 24. -Class B Average ($275.10 per square foot); and the wood frame original mansion is used for offices, Section 15, pg 17 - Class D Average ($103,31 per square foot). This is adjusted by a perimeter multiplier of 0.936. The Extras account for porches, canopies and non-finished area accounting for the difference between the gross building area and the living area, 11,297 square feet. The Cost per square foot is based on 1/4 of the base costs for living

460 Hartford - Hard Cost per Unit is from *Marshall Valuation Service* February 2016 edition, Section 15, pg 22. -Class C Average for ground floor, and Finished Basement costs for lower level housing sterilizing operation.

WAT - Hard Cost per Unit is from *Marshall Valuation Service* February 2016 edition, Section 15, pg 26. -Class C Average

Soft costs at 12% and profit is not considered realizable in this market.

Multipliers from *MVS*, Section 99, p.745 for Current and p.749 Hartford, CT - the closest metro area.

Economic life from *MVS*, Section 97, pgs 10 & 13, and effective age is based on inspection, discussions with client, and overall age of the improvements in light of past maintenance and upgrades.

Current conditions indicate the hospital improvements are over 50% depreciated from brand new construction. However, other elements influence the various forms of depreciation. Functional obsolescence is considered in light of the current facility configuration and how it meets the demands of the marketplace. There are curable and incurable functional obsolescence. Curable functional obsolescence can be estimated based upon a schedule of immediate repairs to upgrade to desired function. he required upgrade to address identified function obsolescence is based on Facility Assessment by CharterCARE. The functional obsolescence is also based upon the change in the marketplace to command single occupancy/private rooms. The cost to cure the functional obsolescence and convert to adequate single rooms at MMH is $51 million. It must re recognized that in applying the cost to cure for functional obsolescence, this would mitigate the physical depreciation influence, as the repairing of the facility would extend the useful life to some extent. Therefore, the offsetting consequences of an improved physical plant is recognized, reducing the functional obsolescence to half the cost to cure or 30% of physically depreciated cost. External obsolescence is applied in the cost approach to recognize the deficient in the utilization of the assets based upon outside external and economic forces that are impacting the value of these real estate assets. We can quantify this diminution by comparing the anticipated occupancy levels of the licensed beds with the recent actual occupancy levels of the licensed beds. The difference in actual occupancy of 34.5% versus standard occupancy of 60% indicates an external obsolescence of 43%

**Improved Hospital Sales - Occupied - Hospital**

**SUMMARY OF OCCUPIED HOSPITAL**

| No. | Sale Date | Address | City | State | Year Built | Size (SF) | Licensed Bed | Land Acres | Sale Price | $/SF | Per lic Bed | Uses |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 1 | 1/27/2016 | 2701 Dekalb Pike | Norristown | PA | 1993 | 372,820 | 131 | 4.15 | $ 11,000,000 | $ 30 | $ 83,969 | Requires a $30 million upgrade |
| 2 | 8/28/2014 | 116 Eddie Dowling Hwy | North Smithfield | RI | 1970 | 92,944 | 82 | 4.30 | 10,056,200 | $ 108 | $122,637 | Rehabilitation Hospital of Rhode Island to Carter Validus Mission |
| 3 | 8/14/2013 | 156 West Ave | Brockport | NY | 1970 | 279,140 | 191 | 18.90 | 2,500,000 | $ 9 | $ 13,089 | Lakeside Hospital has gone out of business for financial reasons |
| 4 | 1/1/2016 | 1135 Carthage St | Sanford | NC | 1981 | 176,528 | 137 | 17.53 | 14,500,000 | $ 82 | $105,839 | Central Carolina Hospital |
| 5 | 12/24/2013 | 115 Cass Ave | Woonsocket | RI | 1925 | 220,182 | 214 | 13.95 | 14,099,430 | $ 64 | $ 65,885 | Court appointed sale of hospital |
| 6 | 1/3/2013 | 800 Washington St | Norwood | MA | 1920 | 147,121 | 292 | 9.33 | 2,169,595 | $ 15 | $ 7,430 | Norwood Hospital |
| | MMH | | | | | 527,224 | 283 | 15.40 | | | | |
| | RGH | | | | | 177,348 | 118 | 7.95 | | | | |
| | | Range of Operational Hospitals | | | | | | | Low | $ 9 | $ 7,430 | |
| | | | | | | | | | Median | $ 51 | $ 66,475 | |
| | | | | | | | | | High | $ 108 | $122,637 | |

The sales noted above are from a search of sales of occupied or recently occupied hospital property with purchase prices reported on real estate only. These sales reflect a similar highest and best use. The MMH facilities is one of the largest hospital facilities, larger than the comparables sales. Due to economies of scale and diminishing marginal returns, the per square foot price would be expected to be reduced by that impact and reside on the lower end of the range. The largest properties above show a cost per square foot of $9, $30 and $64. RGH represents a more typical size for a hospital facility; however the mansion area of the building area is not considered to have significant value due to it age and deteriorating condition. Overall, the configuration and location of this facility reduce the marketability. The blended rate per square foot for the modern hospital and mansion building would be at the lowest end of the range.

The concluded cost approach for MMH, at $20 million indicates $39 per square foot, $73,000 per licensed be and $120,000 per staffed bed. For RGH the cost approach conclusion of $3.8 million indicates just over $21 per square foot, $32,000 per licensed bed and $81,000 per staffed bed. Due to the larger size of MMH, while the price per square foot is at the lower end the price per bed is over the median for the sales above. RGH is at the lower end for both price per square foot and price per licensed bed, but is supported by the lower sales.

| Indicated Values | | Indicated Range | | Low/ High |
|---|---|---|---|---|
| MMH | 527,224 | Low: | $30 | $15,800,000 |
| | | High: | $52 | $27,400,000 |
| RGH | 177,348 | Low: | $9 | $1,600,000 |
| | | High: | $30 | $5,300,000 |

**Improved Nursing Facilities Sales - WAT**

**SUMMARY OF SKILLED NURSING SALES**

Similar MOB dialysis centers with DaVita

| | |
|---|---|
| Low | $ 71.77 |
| Average | $166.25 |
| High | $237.86 |

The subject property at 460 Hartford Turnpike, Vernon includes a DaVita Dialysis center on the top ground floor; and in addition, the lower portion of the building is operating a sterilization plant. The lower floor is more service commercial oriented, below street grade with no street frontage. In determining a FMV for the whole, a blended rate of medical and service uses is considered appropriate. Therefore the lower half of the range would be appropriate as an indication of fair market value

There are 37 ancillary residential buildings, vacant residential land and small commercial building. These would likely be considered removed from the function of housing operation of the hospitals. This is a time when hospitals are needing less space, as many functions more away from hospital settings and into ambulatory out-patient facilities. a likely buyer would focus on the larger parcels and sell of the smaller non-related properties. For the purpose of valuing the assets of the ECHN business, there smaller properties should be valued in light of their potential sell off.

Medical office buildings

| | |
|---|---|
| Low | $ 47 |
| Average | $ 92 |
| High | $ 130 |

The sales of small medical office building within the immediate area , show a range from $47 to $130 per square foot, with a average of $92 per square foot.

The MOB properties along Haynes Street, 18, 26, 38, 44 Haynes Street, and 353 Main Street would be expected to fall to the upper end of the range $100 to $129 per square foot. 150 main Street is considered a similar quality MOB; however, due to its much larger size, it would be anticipated to command a price in the $90 to $110 price range. The lower quality commercial buildings would fall to the lower end of the range of $70 to $90 per square foot.

These sales provide support for the Assessor's market value estimate for the initial retail price of the small nonessential

| 3 | 6/9/2014 | 5 Pequot Park Rd | Westbrook | CT | 2007 | 24,600 | 4.48 | 5,900,000 | 240 | Medical |
| 4 | 11/14/2013 | 1660 Route 112 | Port Jefferson Station | NY | 2010 | 16,302 | 3.26 | 3,150,000 | 193 | Medical and general |
| 5 | 5/28/2013 | 31 Roche Brothers Way | Easton | MA | 2009 | 42,000 | 3.00 | 12,600,000 | 300 | Medical |
| 6 | 11/9/2015 | 101 Industrial Park Rd, 102 | Taunton | MA | 2012 | 9,720 | 6.87 | 2,565,000 | 264 | Medical and general |
| 7 | 1/7/2015 | 3199 W Ridge Rd | Rochester | NY | 2007 | 10,720 | 1.42 | 1,350,000 | 126 | Medical and general |
| 8 | 1/9/2015 | 333 Aviation Rd | Queensbury | NY | 2005 | 7,428 | 1.69 | 1,224,000 | 165 | Medical |

| | | |
|---|---|---|
| Range of New Medical Office | Low | $ 126 |
| | Median | $ 202 |
| | High | $ 300 |

The sales of more recently built medical office buildings in the Northeast, show a range from $162 to $300 per square foot, with a average of $221 per square foot. The three recent sales in Connecticut are at the lower end of the range. The sales of similar medical office buildings support the cost valuation of the JV medical office buildings at 2400, 2600 and 2800 Tamarack Avenue, as well as 29 Haynes Street.

Indicated Values

Indicated Ranges

| | | | | SF | Low | High | Low | High |
|---|---|---|---|---|---|---|---|---|
| | 29 Haynes Street | Manchester | 2007 | 11,241 | $180 | $205 | $ 2,020,000 | $ 2,300,000 |
| | 2800 Tamarack Avenue | South Windsor | 2006 | 40,000 | $150 | $200 | $ 6,000,000 | $ 8,000,000 |
| 2 properties | 2400 + 2600 Tamarack Avenu | South Windsor | 2008-12 | 52,615 | $220 | $260 | $11,580,000 | $13,680,000 |

| 4 | 2/26/2015 | 1924-1934 Alcoa Hwy | Knoxville | TN | 2012 | 100,104 | | 33,660,000 | 336 | Cancer Institute building, MOB adj Hospital |
| 5 | 4/10/2014 | 2473 McFarland Rd | Rockford | IL | 2002 | 10,000 | 1.39 | 2,576,650 | 258 | MOB, former cancer and chemotherapy center |
| 6 | 12/31/2012 | 10700 Charter Dr | Columbia | MD | 2002 | 56,212 | 4.25 | 20,600,000 | 366 | Multi-tenants, an MRI suite |
| 7 | 6/26/2015 | 9020-9024 5th Ave | Brooklyn | NY | 1994 | 24,829 | 0.18 | 7,500,000 | 302 | Multi- tenant, includes MRI suite |
| 8 | 10/7/2013 | 1300 W Jefferson St | Franklin | IN | 2005 | 28,317 | 3.85 | 5,146,000 | 182 | Multi-tenant, 1/3 CT / MRI suite, low density area |

| | | | Excluding extremes |
|---|---|---|---|
| Range of Cancer Centers and imaging | Low | $ 182 | $ 258 |
| | Average | 322 | 325 |
| | High | 440 | 381 |

The sales above range from $182 per square foot to $439 per square foot, but the two extremes are outliers. Excluding the extremes the market is reflecting a range of $258 to $381 per square foot with a average of $325 per square foot. Less weight is given to those with higher ambulatory surgery uses. The sales of similar cancer center or imaging facilities support the cost valuation of 100 Haynes Street.

| Indicated Values | | | | Indicated Ranges | | | |
|---|---|---|---|---|---|---|---|
| | | | SF | Low | High | Low | High |
| 100 Haynes Street | Manchester | 2009 | 30,443 | $290 | $320 | $8,800,000 | $9,700,000 |

Office of Health Care Access

Dear Ms. Martone,

We are writing as leaders of Greater Waterbury faith communities to ask that you condition your approval of the sale of Waterbury Hospital to Prospect Medical Group: East on the inclusion of a Community Benefits Agreement (CBA) between Prospect and the Waterbury Community.

As faith leaders, we hear stories daily from the people whose health and well-being depends upon access to these benefits. We believe that e uity, fairness and justice demand these benefits be preserved in any future ownership arrangement.

The community benefits that are currently provided to low-income and other individuals in accordance with Waterbury Hospital s status as a non-profit hospital provide vital care and services to members of our congregations and the community at large. They also represent an important bond in the relationship between the hospital and the broader community that has supported and relied on it for many years.

We urge you to ensure that the hospital continues its critical role in the community by offering good jobs, providing affordable care to those in need, contributing to its civic and financial welfare, and maintaining a substantive dialogue with the community about any concerns that may arise. We urge you to issue a ruling that reflects that concern.

Sincerely,

Bishop Lionel French

Dear Mr. Hawes and Mr. Lazarus:

In response to requests and comments at recent hearings, Eastern Connecticut Health Network, Inc. ("ECHN") and Prospect Medical Holdings, Inc. ("PMH"), hereby submit the following:

1. Amendment to Quality Commitment Letter. As you may recall, ECHN and PMH entered into a written agreement dated March 28, 2016 relating to continuation and support of ECHN's quality

programs. PMH subsequently signed a similar agreement with the Greater Waterbury Health Network ("GWHN"). Because the agreement with the GWHN provided some additional protections, ECHN requested, and PMH agreed, to amend their agreement to include the same additional protections. The amendment to effectuate this is attached.

2. Updates on CMS Survey Activity at PMH's Southern California Hospital. On June 6, 2016, PMH submitted to CMS its response and credible allegation of compliance to the issues cited following a survey completed April 8, 2016. The response is attached in two (2) separate PDF files. The attached have been reviewed and considered by ECHN's quality team.

Please feel free to contact us with any questions.

-Rebecca

Re: Amendment to Quality Assurance Commitment Side Letter

Dear Dr. Lew:

Reference is made to that certain side letter executed on Mach 28, 2016 by and among Eastern Connecticut Health Network, Inc. (the "Seller") and Prospect Medical Holdings, Inc. on behalf of itself and the Buyer Entities (collectively, the "Buyer"), a copy of which is attached hereto as Exhibit A (the "Side Letter"). Capitalized terms used but not otherwise defined in this amendment to the Side Letter (this "Amendment") shall have the meanings given to such terms in that certain draft Asset Purchase Agreement referenced in the Side Letter.

For good and valuable consideration, including the agreement by each Party to undertake the expenses and effort of obtaining regulatory approvals needed to carry out the Transaction, the Parties hereto hereby agree to amend the Side Letter as follows:

1. A new paragraph 4 is added to the Side Letter immediately following the existing paragraph 3 and before the existing paragraph 4 stating as follows:

> 4. Buyer agrees to provide adequate financial resources to assure that facility issues related to quality and patient safety are addressed timely (such financial resources not to be limited following the Closing to the operating funds of the Buyer Entities).

2. The existing paragraph 4 of the Side Letter shall be renumbered as paragraph 5.

3. Except as modified by the previous paragraphs, the Side Letter shall remain unchanged and in full force and effect.

If this Amendment is acceptable to Buyer, we ask that Buyer please sign and date this Amendment where indicated below. Please return an originally signed and completed copy of this Side Letter to me.

Very truly yours,

Re: Southern California Hospital at Hollywood (CCN: 050135)
Medicare Re-Survey 4/8/16 (Health and Life Safety Code)
Credible Allegation of Compliance

Dear Mr. Arther:

Pursuant to the CMS letter, dated May 20, 2016, enclosed please find Southern California Hospital at Hollywood's (the "Hospital") timely submission of its credible allegation of compliance for the above-referenced health and Life Safety Code survey.[1] The Hospital takes great pride in delivering quality health care services to the community and is committed to compliance with the Medicare Conditions of Participation and Life Safety Code requirements. A copy of this letter and the credible allegation of compliance (and evidence binders for the health and life safety survey) has also been sent to the Ventura District Office of the California Department of Public Health.

Thank you for your attention to this matter. Please contact me at 310-836-7000 extension 1010 if you have any questions or concerns.

Sincerely,

Catherine Shitara
Chief Executive Officer

This STANDARD is not met as evidenced by:
Based on observation and interview, the facility failed to maintain their exit signs. This was evidenced by exit signs with battery-operated emergency illumination that were not equipped with a method to test the battery functionality. This was also evidenced by two exit signs that were dimly illuminated due to worn exit sign covers. This affected two of seven floors of the Tower and the offsite Spine Clinic. This could result in a delay in evacuation, in the event of an emergency.

NFPA 101, Life Safety Code, 2000 Edition.
19.2.10.1 Means of egress shall have signs in accordance with Section 7.10.
Exception: Where the path of egress travel is obvious, signs shall not be required in one-story buildings with an occupant load of fewer than 30 persons.

7.10.1.1 Where Required. Means of egress shall be marked in accordance with Section 7.10 where required in Chapters 11 through 42.

7.10.4 Power Source. Where emergency lighting facilities are required by the applicable provisions of Chapters 11 through 42 for individual occupancies, the signs, other than approved self-luminous signs, shall be illuminated by the emergency lighting facilities. The level of illumination of the signs shall be in accordance with 7.10.6.3 or 7.10.7 for the required emergency lighting duration as specified in 7.9.2.1. However, the level of illumination shall be

Overnight security staff worked from 11:00 p.m. to 7:30 a.m., overnight EVS staff worked from 10:00 p.m. to 6:30 a.m., and overnight nursing staff worked from 7:00 p.m. to 7:00 a.m.<br><br>These records showed that the facility failed to conduct independent night shift fire drills to include all overnight staff and that all the evening shift drills were conducted between 8 p.m. and 9 p.m.<br><br>Pavilion:<br><br>The facility's Fire Response Plan, effective 2/2011 and last reviewed on 3/2016, indicated that staff will implement the steps of R.A.C.E. (Rescue any persons in immediate danger, Activate the fire | {K 050} | Findings 2 – 5<br><br>Actions Taken:<br>1. The Director of Facilities and Hospital Leadership discussed the process for fire drills. Fire Drills are conducted once per quarter to include all three shifts (day, evening and night). The identified practice of two shifts (evening overlapping with the night shift) ceased immediately at the time of survey.<br>2. Hospital Leadership reviewed the "Life Safety Management Plan," which addresses that fire drills are conducted once per quarter per shift. The policy did not require revisions. The schedule for conducting fire drills was revised to reflect fire drills held on three shifts.<br>3. The Hospital conducted fire drills on each shift on the three hospital campuses. Documentation of the fire drills is maintained in the Facilities Department.<br>4. Hospital Leadership and the Director of Facilities discussed the survey findings regarding staff's understanding of the process in the event of a fire. An extensive education program was initiated on all three campuses, including daily rounds by managers on all shifts to query and inservice staff members on the fire response plan and R.A.C.E procedures. Department Managers reeducated staff members on use of the educational card that accompanies their name badge (for ease of access), which visually instructs them of the fire response R.A.C.E. process. In addition, staff are queried about fire management processes with just-in-time training provided during Leadership Rounds and morning huddles. | 4/8/16<br><br>5/26/16<br><br>5/26/16<br><br>6/3/16 |

| K 051 | Continued From page 22<br><br>During a telephone interview at 4:47 p.m., another representative from the monitoring company stated that the last Zone 1 fire alarm signal received from the facility was on 12/30/15. He stated that only fire trouble signals were received on 1/23/16. The annual testing of the fire alarm system was conducted on 1/23/16 and documents showed that all initiation devices were tested on that day.<br><br>During an interview at 5:00 p.m., the Director of Facilities Services (DFS2) stated that a fire watch would be implemented immediately until the fire alarm panel was fixed.<br><br>Records showed that a fire alarm vendor fixed the panel on 4/7/16. The vendor reported that there was a loose wire for Zone 1 in the panel that caused all the signals to be reported as Zone 2.<br><br>Pavilion:<br><br>2. At 10:28 a.m., on 4/4/16, the fire alarms sounded and a Code Red was paged overhead. PBX paged "Code Red Sixth Floor" three times. At 10:33 a.m., the Head of Security (HS1) reset the fire alarm system at the notification panel in the lobby.<br><br>During an interview at 10:33 a.m., HS1 stated that security staff have investigated and saw no signs of fire. He stated that the panel indicated that the smoke detector was activated in the hallway outside the EVS (environmental services) closet on the sixth floor.<br><br>At 10:35 a.m., there were two security staff | K 051 | Finding 2<br><br>Actions Taken:<br>1. The Hospital replaced the smoke detector and the vendor remapped the smoke detector to the alarm panel. The smoke detector was tested to validate that it was correctly mapped on the fire panel.<br>2. The Hospital engaged the vendor to revalidate the mapping and annunciator display for all hospital locations and devices. Validation was then confirmed through testing of fire alarms.<br>3. Compliance with smoke detectors and mapping to the alarm panel is monitored by the annual fire alarm testing performed by an independent contractor. | 4/5/16<br><br>6/3/16 |

| K 051 | Continued From page 24<br>Culver City Campus:<br><br>3. Per record review and interviews, it was observed that the fire alarm system was frequently placed on test during the past month. When the system is on test, fire alarm signals received by the remote monitoring station would not result in dispatch of the fire department. During the Code Red on 4/4/16 (Finding 2 above), the fire department was not dispatched.<br><br>During an interview at 10:33 a.m., on 4/4/16, HS1 stated that the system was on test and PBX would call the fire department upon investigation by the facility and security staff.<br><br>At 4:05 p.m., on 4/6/16, this surveyor was unable to conduct an interview with the PBX operator. There was only one PBX operator at the time and he was busy with phone calls. The fire alarm annunciator in PBX was across the room from the operator. PBX did not meet the NFPA 72 requirements of a listed central station or proprietary supervising station.<br><br>During an interview at 1:57 p.m., on 4/5/16, the Los Angeles Fire Prevention Specialist (LAFPS) from Culver City Fire stated that the Fire Department should have been dispatched during the Code Red incident yesterday (Finding 2 above) and the Code Red incident in December (See K48 from the December 2015 Life Safety Code Survey). He stated the last time the fire department was notified of a fire alarm at the facility was on 3/11/16. He stated that the fire department was not notified of the alarms in the building yesterday. He requested to review a month of the monitoring reports from the offsite monitoring stations. | K 051 | Finding 3<br><br>Actions Taken:<br>1. Hospital Leadership discussed the survey findings and immediately implemented an action plan. Effective 4/8/16, only the Chief Operating Officer and the Director of Facilities can initiate the test mode of the fire alarm system through a password protected account set up with the alarm monitoring company. Test mode is only utilized when a) working on the system; b) during preventive maintenance; c) during fire drills; and d) if the system is impaired. The Hospital notifies the local Fire Department, PBX and Security when the fire alarm system is put on test mode. This process was reviewed with the local and state Fire Marshall on 4/26/16. In addition, the process for utilizing test mode of the fire alarm system was discussed at the EOC meeting on 4/14/16. Education was provided to PBX, security and engineering staff. | 4/26/16 |

At 8:34 a.m., on 4/8/16, there was a "ground fault" trouble exhibited on the fire alarm panel. | {K 052} | 3. The trouble signal in the Culver Medical Plaza was repaired.<br>4. The fire alarm strobe outside the spine clinic exit door was repaired by a contracted vendor on 5/24/16. Fire alarm strobes will be checked during quarterly fire drills.<br>5. The ground fault on the fire alarm panel at the Pavilion Penthouse and the leak was repaired. The plastic wrapped around one side of the detector was removed.<br>6. Hospital Leadership discussed the issue of keys for the pull station for the Locked Unit since staff had been previously provided with keys. An assessment was performed and additional keys were obtained to ensure that staff in the Locked Unit has the ability to open the pull station. Education was provided to staff, with special emphasis on strict adherence to maintaining a key at all times. Compliance is monitored during scheduled EOC rounds.<br>7. The 5-gallon water bottles and other supplies were removed from obstructing access to the fire alarm component boxes in the supply room. Hospital Leadership and Facilities staff made rounds on the three campuses to ensure that there were no obstructions to fire alarm component boxes. Compliance is monitored during scheduled EOC rounds.<br><br>Compliance and Monitoring:<br>Data on compliance is tracked, trended, analyzed and reported quarterly at the EOC Committee. Corrective action is taken as necessary. Compliance is reported quarterly to the Quality Council and Governing Board. | 5/24/16<br><br>5/24/16<br><br>4/28/16<br><br>4/11/16<br><br>4/8/16 |

| {K 062} | Continued From page 35<br>interview, the facility failed to maintain their automatic sprinkler systems and standpipe hose systems. This was evidenced by incomplete maintenance records for weekly, quarterly, annual, and five-year testing of the automatic sprinkler systems and standpipe hose systems. This was also evidenced by no records of repairing deficiencies listed during inspections, by a sprinkler pipe that was subject to an external load, by storage in close proximity to sprinkler heads, and by one leaking test valve. This could result in a delay in extinguishing a fire and could result in the increased risk of injury to patients, staff, and visitors. This affected the entire Culver City Campus, two of two offsite clinics, and one of six floors in the Hollywood Building.<br><br>NFPA 101, Life Safety Code, 2000 Edition<br>19.3.5.1 Where required by 19.1.6, health care facilities shall be protected throughout by an approved, supervised automatic sprinkler system in accordance with Section 9.7.<br>Exception: In Type I and Type II construction, where approved by the authority having jurisdiction, alternative protection measures shall be permitted to be substituted for sprinkler protection in specified areas where the authority having jurisdiction has prohibited sprinklers, without causing a building to be classified as nonsprinklered.<br><br>9.7.5 Maintenance and Testing. | {K 069} | Continued From page 53<br><br>1-3.1.3 All interior surfaces of the exhaust system shall be reasonably accessible for cleaning and inspection purposes.<br><br>7-2.1 Fire-Extinguishing equipment shall include both automatic fire-extinguishing systems as primary protection and portable fire extinguishers as secondary backup.<br><br>8.3.1 Hoods, Grease removal devices, fans, ducts, and other appurtenances shall be cleaned to bare metal at frequent intervals prior to surfaces becoming heavily contaminated with grease or oily sludge. After the exhaust system is cleaned to bare metal, it shall not be coated with power or there substance. The entire exhaust system shall be inspected by a properly trained, qualified, and certified company or person(s) acceptable to the authority having jurisdiction in accordance with Table 8-3.1<br><br>Findings:<br><br>During a tour of the facility with staff from 4/6/14 to 4/8/16, the commercial cooking equipment was observed.<br><br>Hollywood<br>First Floor:<br><br>1. At 11:11 a.m., on 4/5/16, records of the most recent kitchen hood cleaning and inspection was reviewed. The vendor noted, on 3/31/16, that the exhaust fan belt needed to be replaced, there were areas in the hood that were inaccessible for cleaning, and that there was leaking ductwork in the hood. There were no records of repairing the deficiencies. | {K 069} | 1. The exhaust fan belt was replaced, the leaking ductwork in the hood repaired, an access panel/cleanout port was installed, and the hood was cleaned. Evidence of completion of the repairs is maintained in the Facilities Department. The Hospital contracted with a vendor to perform quarterly inspections and cleaning of the kitchen hood.<br>2. The Hospital obtained a hydrostatic test for the kitchen fire suppression system. The next inspection is due in 2028.<br>3. The K Class fire extinguisher in the kitchen at Van Nuys was replaced on 5/26/16. The Facilities Staff checked K Class fire extinguishers to make sure that they were all charged. Facilities management includes assessment of fire extinguisher charging in the monthly fire extinguisher checks. Compliance with commercial cooking equipment (including cleaning of hoods/filters) is monitored through the PM program and scheduled EOC rounds. | 5/13/16<br><br>5/26/16<br><br>5/26/16 |

| {K 078} | Continued From page 63<br>Based on observation, record review, and interview, the facility failed to maintain the relative humidity levels in the anesthetizing locations. This was evidenced by the adoption of policies to lower the humidity in Operating Rooms (ORs) below 35% without providing documentation confirming election to utilize a categorical waiver in accordance with Centers for Medicare & Medicaid Services Survey & Certification Letter S&C: 13-25-LSC. This was also evidenced by a major repair of humidifiers after they were abandoned for more than 20 years without the inspection of the authority having jurisdiction (AHJ). This affected all the ORs in the Pavilion and in the Hollywood Building. This could result in the increased risk of a fire and the increased risk of injury to surgical patients.<br><br>NFPA 101, Life Safety Code, 2000 Edition.<br>19.3.2.3 Anesthetizing locations shall be protected in accordance with NFPA 99, Standard for Health Care Facilities.<br><br>4.6.1.1 The authority having jurisdiction shall determine whether the provisions of this Code are met.<br><br>4.6.1.2 Any requirements that are essential for the safety of building occupants and that are not specifically provided for by this Code shall be determined by the authority having jurisdiction.<br><br>NFPA 99, Standard for Health Care Facilities, 1999 Edition<br>Chapter 5 Environmental Systems<br>5-4.1.1 The mechanical ventilation system supplying anesthetizing locations shall have the capability of controlling the relative humidity at a level of 35 percent or greater. | {K 078} | | |

| A 119 | Continued From page 4<br>The grievance of Patient M604 was reviewed on 4/7/16, and showed that the patient reported being discharged prematurely, being provided with conflicting information about the discharge, and had complaints about behavior of one nurse, who he described but did not name. He did not present a complaint about his assigned nurse, but that another nurse, who he described as a hispanic woman, was unpleasant and insisted that he leave the hospital.<br>During a review of the medical record, the discharge order written at approximately 1800 hours on 3/16/16 was contingent upon a consultants approval. The consultant arrived to see the patient at 2100 hours, but indicated in his note that he approved the discharge earlier in the day. The patient was discharged from the hospital an hour prior to midnight on 3/16/16, but returned the following day to complain.<br>In an interview with AS2, she was able to confirm the descriptions of his nurse and the nurse about whom he complained matched the description of his assigned nurse and the charge nurse on duty the night he was discharged.<br>The grievance investigation by the manager restated the complaint incorrectly, confusing the description of the nurse about whom he was complaining. The manager then noted that the patient did not have such a nurse caring for him. The manager also noted that the patient had a signed discharge order, but failed to investigate why a discharge ordered at six in the evening resulted in a discharge at 11pm, and did not show that staff were interviewed about providing conflicting information regarding the discharge or mistreatment of the patient. There was no evidence that any witnesses to the events were interviewed.<br>A response letter that was sent to the | A 119 | 3. Executive leadership requested notification of initial grievance receipt and status of current grievances at the Daily Leadership Huddle (a meeting of the executive team to discuss daily unit and hospital priorities, and significant events), as an additional method of tracking grievances and ensuring optimal oversight.<br>4. The Director of Quality/Risk Management reviewed the "Complaints and Grievances" policy, which did not require any revision. As detailed in the policy, the patient and/or their representative is provided with information at the time of admission that the hospital has an established process for responding to all patient complaints/ grievances. Upon receiving a complaint/ grievance, staff members will investigate the facts and resolve the concern as soon as possible. When a patient (or his/her representative) grievance is received, a Patient Grievance & Complaint intake form is completed and forwarded to the responsible Director/Manager and Administration for investigation. A copy is also forwarded to Quality/Risk Management. The complainant receives a written response within seven (7) days with resolution or that the hospital is still working to resolve the issue and that a written response will be sent to them within thirty (30) days. The Quality/Risk Management Director or designee reviews all grievances and ensures that the grievance has been and will be investigated thoroughly and in a timely manner. Department Managers were re-educated on the policy, with special emphasis on accurately documenting a | 4/11/16<br>4/8/16 |

| A 405 | Continued From page 26<br>be given..<br>B. Patient 402 had orders for two different medications for high blood pressure (HTN) without any instructions which should be given first. The nurse caring for Patient 402 noted the orders without clarification of which medication should be given.<br>These failures placed patients at risk for over medication that could lead to 1. over sedation or stupor and 2. low blood pressure which ultimately could lead to death.<br><br>Findings:<br><br>1. During a medication pass observation on 4/9/16 at 2:05 P.M., RN 70 prepared for infusion to Patient 600, a Pharmacy-assembled generic injectable antibiotic for Zosyn (antibiotic) 3.375 gram (gm) connected to the 50-ml bag containing 5% Dextrose in Water by a device called addEASE Binary Connector, BC2000, made by B. Braun.<br><br>The Binary Connector allows for the fluid for infusion to remain separated, until activated, from the additives such as the injectable vial containing Zosyn powder. This assembly adds convenience and longer usable dating compared to the Pharmacy-compounded drug when prepared under sterile conditions.<br><br>After RN 70 activated the injectable Zosyn and reconstituted the powder inside the Zosyn vial by transferring the fluid from the IVPB (IV piggyback) bag to the vial and back to the bag, she proceeded to programmed the IV pump and administered the medication. | A 405 | Findings 1 and 2<br><br>Immediate Actions Taken:<br>1. The Director of Pharmacy discussed the survey findings with RN 70, with special emphasis on accurately reconstituted medication.<br>2. The Director of Pharmacy discussed disinfecting the medication vial with alcohol before needle penetration with RN 72.<br>3. Informal huddles with Pharmacy staff were held on how to assist and demonstrate proper technique for nursing staff.<br><br>Subsequent Actions Taken:<br>1. Signage was placed in medication rooms on the proper cleaning of vials prior to administration.<br>2. Proper medication administration provided in daily information huddles to nursing staff beginning on 4/19/16, with just-in-time education of observations during the week of 4/25/16 by the Clinical Educators. A pharmaceutical manufacturer representative also performed inservices to pharmacy and nursing staff.<br>3. The Hospital continues to use a national healthcare regulatory compliance consulting firm and Nurse Educators to assist with sustaining compliance with medication administration issues.<br>4. Executive Leadership, the Consulting Team and Pharmacy Leadership discussed the need to continue with medication pass audits and focused education to nursing staff on a myriad medication administration issues essential to safe medication administration, including reconstitution of medications and alcohol cleansing of the vial before needle insertion. | 4/5/16<br>4/5/16<br>4/11/16<br>4/21/16<br>5/14/16<br>4/8/16<br>5/13/16 |

| {A 494} | 482.25(a)(3) PHARMACY DRUG RECORDS<br><br>Current and accurate records must be kept of the receipt and distribution of all scheduled drugs.<br><br>This STANDARD is not met as evidenced by:<br>Based on observation, interview, and record review, the facility failed to ensure accounting procedures for controlled substances in the Culver City Pharmacy were performed in accordance with the facility policy to document consistently that accounted for the overfill in the injectable vials used to compound PCA (Patient Controlled Analgesia) infusion bags containing hydromorphone (a potent Scheduled II narcotic pain medication) resulting in the creation of discrepancies. This failed practice resulted in narcotic medications to be potentially diverted.<br><br>Findings:<br><br>During an inspection of the Pharmacy Drug Storage Room at Culver City on 4/5/16 at 10:30 A.M., it was noted there were two Narcotic Towers for storage of controlled substances. It was also noted that during the inventory count for hydromorphone (a federally Scheduled II narcotic pain medication) 40 mg/ 20 ml vials, the logged quantity in the computer inventory log did not match the actual quantity on hand.<br><br>In a concurrent interview, the DOP stated the hydromorphone vials were used to compound PCA bags according to the master formula that called for 27.5 ml and explained the count was off because of the overfill from the vials that accumulated over time. | {A 494} | A 494 482.25(a)(3) Pharmacy Drug Records<br><br>Immediate Actions Taken:<br>1. All medication in narcotic cabinets was changed to blind counts to account for overfill.<br><br>Subsequent Actions Taken:<br>1. A function was added in the narcotic cabinet to account for overfill of narcotic vials, which replaced the blind count practice established on 4/7/16, allowing double witness by pharmacists of overfill discrepancies. This revision provided a more accurate method of controlled substance oversight and discrepancy identification.<br>2. The Director of Pharmacy reviewed the "Controlled Substance System" policy, which did not require any revisions.<br>3. Compliance with narcotic counts is monitored through the QAPI program.<br><br>Compliance and Monitoring:<br>The Director of Pharmacy or qualified licensed designee now performs review and reconciliation of controlled substance counts on a monthly basis. If variances with policy are identified, corrective action is taken, including 1:1 training with staff. Data is analyzed and reported monthly to the Medication Safety Committee, Quality Council, MEC and Governing Board until sustained compliance is achieved and process control is demonstrated. Ongoing monitoring will occur until the Quality Council determines sustained compliance | 4/7/16<br><br>5/16/16<br><br>4/11/16 |

asked how long the product must remain wet on the floor to be effective (to kill pathogens), EVS 1 replied five to ten minutes. This was validated by ICP 1.

On April 6, 2016 at 10:50 am during an observation in the housekeeping closet, EVS 2 demonstrated how the floor disinfectant (Clorox® Pro Quaternary All-Purpose Disinfectant Cleaner) was prepared for use. When asked how long the product must remain wet on the floor to be effective, EVS 2 replied she did not know. This was validated by ICP 2.

According the manufacturer ' s (The Clorox® Company) directions for use of Clorox® Pro Quaternary
All-Purpose Disinfectant Cleaner: To disinfect hard, nonporous surfaces, add 1 ounce per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low-pressure coarse sprayer in order to wet all surfaces thoroughly. Allow to remain wet for 10 minutes.

According to the Centers for Disease Prevention and Control (CDC) / Healthcare Infection Control Practices Advisory Committee (HICPAC), Guideline for Disinfection and Sterilization in Healthcare Facilities (2008):

Antimicrobials are regulated by the EPA and FDA, under the authority of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Food, Drug and Cosmetic Act. Any substance or mixture of substances intended to prevent, destroy, repel, or mitigate any pest (including microorganisms) must be registered and users must explicitly follow the labeling directions on

Nancy Wyman
Lt. Governor

**Office of Health Care Access**

## Final Decision

| | |
|---|---|
| Applicants: | Eastern Connecticut Health Network, Inc.<br>71 Haynes Street<br>Manchester, CT 06040<br><br>Prospect Medical Holdings, Inc.<br>10780 Santa Monica Boulevard<br>Suite 400<br>Los Angeles, CA 90025 |
| Docket Number: | 15-32016-486 |
| Project Title: | Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc. |

**Procedural History**: On July 16, 2015, the Applicants filed with the Office of Health Care Access ("OHCA") and the Office of the Attorney General ("OAG") the Certificate of Need ("CON") Determination Letter proposing the transfer of assets of Eastern Connecticut Health Network, Inc. and affiliates ("ECHN") to Prospect Medical Holdings, Inc. ("PMH"). The Applicants filed the application for the proposal on October 13, 2015. On January 13, 2016, OHCA and the OAG deemed the application complete, and on January 21, 2016 OHCA and the OAG jointly published a Summary of the proposal in the *Journal Inquirer*.

On February 19, 2016, OHCA and the OAG notified the Applicants of the date, time and place of the public hearing. On March 10, 2016, OHCA and the OAG notified the Applicants of the revised date, time and place of the public hearing. On March 11, 2016, a notice to the public announcing the hearing was published in the *Journal Inquirer*. Thereafter, pursuant to Conn. Gen. Stat. §19a-639a and §19a-486, a public hearing regarding this application was held on March 29 and 30, 2016, jointly by OHCA and the OAG.

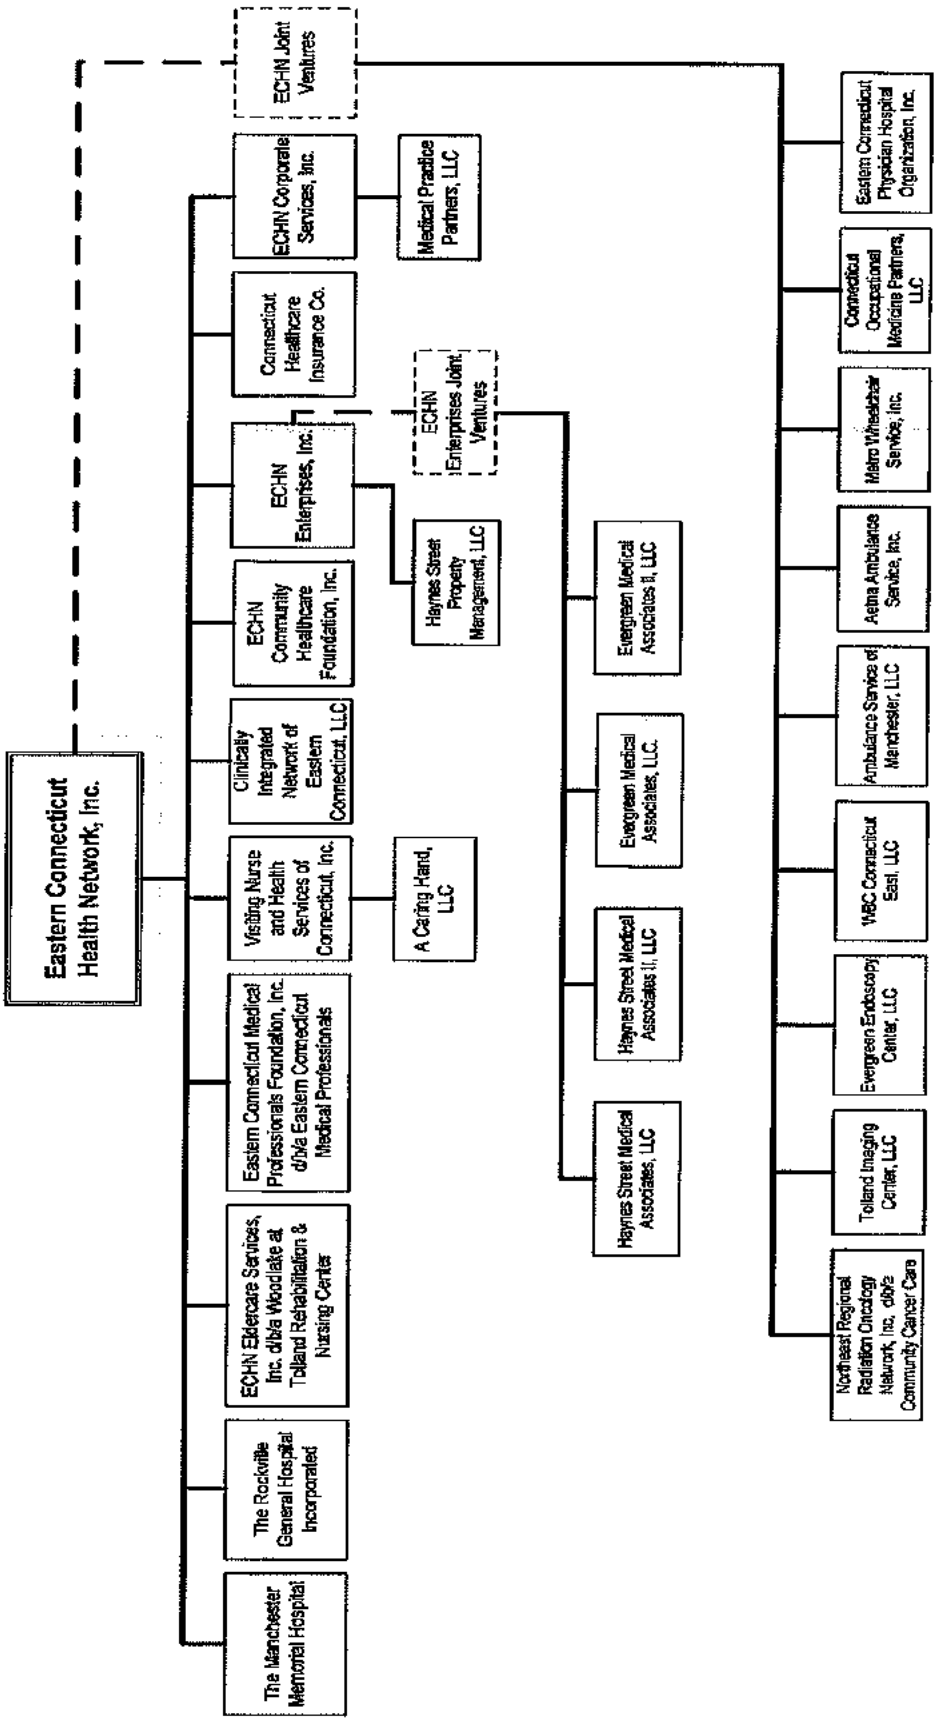
Attorney Kevin T. Hansted was designated as the hearing officer in this matter. The hearing was conducted in accordance with the provisions of the Uniform Administrative Procedures Act (Chapter

54 of the Conn. Gen. Stat.) and Conn. Gen. Stat. §19a-639a(f). The public hearing record was closed on June 9, 2016.

In making her decision, Deputy Commissioner Brancifort reviewed the entire record in this matter.

To the extent the findings of fact actually represent conclusions of law, they should be so considered, and vice versa. *SAS Inst., Inc. v. S & H Computer Systems, Inc.*, 605 F. Supp. 816 (Md. Tenn. 1985).

# Findings of Fact



1. ECHN is a not-for-profit health care system that is the parent company of two acute care hospitals in Connecticut, Manchester Memorial Hospital ("MMH") located in Manchester and Rockville General Hospital ("RGH") located in Vernon (at times collectively referred to as the "Hospitals"). Ex. G, p. 24

2. ECHN's care network consists of the following wholly owned entities:
   - MMH
   - RGH
   - ECHN ElderCare Services, Inc. ("Woodlake at Tolland")
   - Visiting Nurse and Health Services of Connecticut, Inc.
   - A Caring Hand, LLC
   - Clinically Integrated Network of Eastern Connecticut, LLC
   - Connecticut Healthcare Insurance Company
   - ECHN Corporate Services, Inc.
   - Medical Practice Partners, LLC
   - ECHN Enterprises, Inc.
   - Haynes Street Property Management, LLC
   - Eastern Connecticut Medical Professionals Foundation, Inc.
   - ECHN Community HealthCare Foundation, Inc.

   Ex. G, pp. 24-25

3. Additionally, ECHN or an ECHN affiliate has ownership interests in the following joint ventures: Evergreen Endoscopy Center, LLC, WBC Connecticut East, LLC, Aetna Ambulance Service, Inc., Metro Wheelchair Service, Inc., Ambulance Service of Manchester, LLC, Connecticut Occupational Medicine Partners, LLC, Eastern Connecticut Physician Hospital Organization, Inc., Northeast Regional Radiation Oncology Network, Inc., Tolland Imaging Center, LLC, Haynes Street Medical Associates, LLC, Haynes Street Medical Associates II, LLC, Evergreen Medical Associates, LLC, and Evergreen Medical Associates II, LLC (collectively, the "Joint Ventures"). Ex. G, p. 25

4. The chart on the following page depicts ECHN's current organizational structure. Ex. G, p. 1836

For Profit Entity

5. ECHN serves the following nineteen towns in eastern Connecticut: Andover, Bolton, Coventry, Ellington, Manchester, South Windsor, Tolland, Vernon, Willington, Ashford, Columbia, East Hartford, East Windsor, Glastonbury, Hebron, Mansfield, Somers, Stafford, and Union (the "Service Area"). Ex. G, p. 24

6. ECHN's financial condition has been strained since 2001, limiting its access to the capital required to improve infrastructure and recruit physicians. ECHN lost more than $9 million from operations over the last 15 years and its pension liability has grown from $9 million to $63 million over the same span. Ex. Z, Prefiled Testimony of Peter J. Karl, President and CEO, ECHN, p. 3341; Ex. BB, pp. 3955, 3957; Ex. G. pp. 25, 1921-23

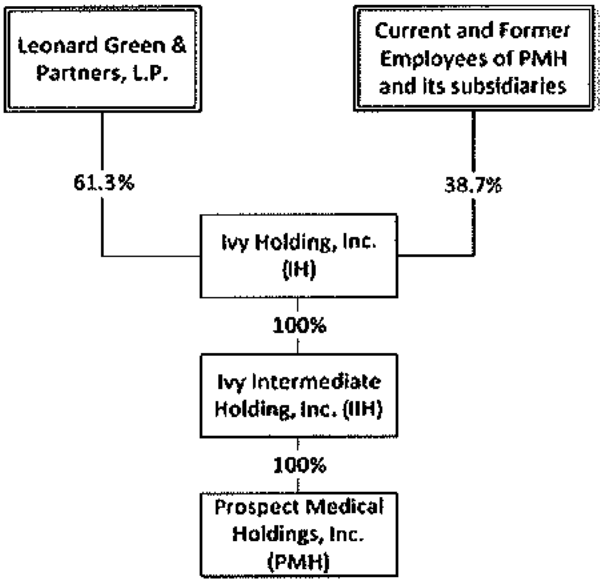
7. ECHN has attempted to improve its financial situation through various initiatives, including hiring freezes, wage freezes, reductions in workforce, and a reduced workweek. This has included a reduction of 200 positions in recent years. Despite these measures, a large portion of ECHN's cash flow has been required to fund debt service and pension obligations, making capital investments difficult. Ex. G, p. 35; Tr., Testimony of Peter J. Karl on 3/30/16, p. 21; Ex. BB, p. 3955

8. In 2011, ECHN began exploring whether potential affiliations with another health care system would enable ECHN to better serve the community. At the time, ECHN believed it had five years until its financial circumstances would become dire. Ex. G, p. 36; Tr., Testimony of Dennis O'Neill, M.D., Chairman of ECHN Board of Trustees, on 3/30/16, p. 15

9. In November of 2012, ECHN conducted a request for proposal ("RFP") process and a transaction committee was established by the ECHN Board of Trustees to evaluate the proposals ("Transaction Committee"). As a result of this RFP process, a regulatory approval process was initiated in June of 2014 for the acquisition of ECHN's assets by a joint venture to be formed by Yale New Haven Health System and Tenet Healthcare. However, Tenet Healthcare informed ECHN in December of 2014 that it was withdrawing from the process. Ex. G, pp. 38-39

10. In 2015, the Transaction Committee conducted a second RFP process. The Transaction Committee evaluated the three proposals received against selection criteria and requested further information from each respondent. The Transaction Committee then reviewed financial, quality and corporate compliance data for each respondent. Each proposal was evaluated for its ability to satisfy ECHN's financial needs and liabilities, any antitrust considerations, and state regulatory requirements for a hospital conversion. The Transaction Committee also made site visits to hospitals recently merged with or acquired by the respondents. Ex. G, pp. 39-42

11. In June of 2015, the Transaction Committee decided to negotiate solely with PMH. After reviewing the Letter of Intent and the draft Asset Purchase Agreement ("APA") negotiated with PMH, the Transaction Committee recommended that the ECHN Board of Trustees accept the proposal. On June 25, 2015, a unanimous vote of the ECHN Board of Trustees approved the Letter of Intent and APA, and on July 29, 2015 ECHN's Corporators approved the APA. Ex. G, pp. 42-43, 107-120, 122-214, 396



12. The Applicants are requesting approval of the proposed asset purchase (the "Asset Purchase") as a solution to ECHN's long-standing challenges that offers the Service Area continued access to its services and facilities. Ex. G, p. 26

13. PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of these regions. Ex. G, pp. 25, 27; Ex. Z, Prefiled Testimony of Von Crockett, Senior Vice President of Corporate Development, PMH, p. 3355

14. Through PMH's medical group segment, PMH also manages the provision of physician services in each of its markets through a network of approximately 8,900 physicians. The physician networks operate as independent practice associations ("IPAs") that contract with PMH-owned management service organizations ("MSOs"). The IPAs are comprised of both PMH-employed and independent community physicians and other allied health professionals. Ex. G, p. 25; Ex. K, p. 2159; Ex. N, p. 3231

15. PMH aligns its hospitals and physician networks under a model called Coordinated Regional Care ("CRC"). CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. PMH believes that the CRC model improves quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. Ex. G, p. 26

16. The chart below shows PMH's ownership structure.

Ex. K, p. 2205

17. ECHN selected PMH as the proposed purchaser because its financial resources and access to capital are anticipated to maintain ECHN's assets as economically viable and vibrant parts of the healthcare system in Eastern Connecticut by permitting capital investments, better preparing MMH and RGH to participate in new value-based delivery models, offering enhanced practice options for physicians, strengthening its network of providers and allowing for other improvements in operations. Ex. Z, Prefiled Testimony of Dennis O'Neill, p. 3333

18. In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million and close to $75 million in cash from operations. The company also received credit upgrades by both Moody's and S&P in 2015, with Moody's rating PMH's bonds as B1 and S&P rating PMH's bonds as B. These ratings still stand as of May 3, 2016. Ex N, pp. 3245, 3249-59; Tr., Testimony of Steven Aleman, Chief Financial Officer, PMH, on 5/3/2016, p. 113

19. Under the APA, PMH will pay $105 million for substantially all the assets of ECHN, including both Hospitals (a) plus any excess of net working capital over $24 million or minus any net working capital under $24 million; (b) minus the value of certain ECHN liabilities assumed by PMH (including ECHN's unfunded pension obligations, captive insurer liability, capital leases and workers' compensation liability); (c) minus asbestos abatement liability of up to $1 million; and (d) in the event that ECHN is unable to assign and transfer its interest in any ECHN Joint Venture to PMH, minus a dollar amount to be fixed in advance for each ECHN Joint Venture. Ex. G, pp. 29, 145

20. Certain assets of ECHN will be excluded from the sale, including certain cash and cash equivalents of ECHN, all short-term and long-term investments other than ECHN's investments in the Joint Ventures, board-designated, restricted and trustee-held or escrowed funds, beneficial interests in charitable assets and accrued earnings on all of the foregoing. These assets will be transferred to a new, independent charitable entity (the "New Foundation") established by ECHN. The New Foundation will use the charitable assets for appropriate charitable health care purposes in the communities traditionally served by ECHN. Ex. G, pp. 29, 49, 312-13; Ex. BB, p. 3338

21. There is no financing contingency with respect to the transaction. PMH anticipates funding the transaction using its existing cash and also has access to a pre-approved $40 million revolving line of credit with Morgan Stanley. In order to draw on this line, PMH provides a 24 hour advance verbal notice to the lenders. Ex. G., p. 78; Ex. K, p. 2191

22. The transaction is estimated to require $28 million in cash from PMH at closing. PMH currently has in excess of $65 million in cash and is anticipated to have close to $100 million in cash on hand by the time the Asset Purchase closes, as a result of its growth in revenues that is generating between $10-15 million of free cash flow on a monthly basis. PMH currently has less cash than previously reported due to the recent acquisition of East Orange General Hospital in New Jersey. The revolving line of credit, which PMH recently drew down to $10 million to finance its purchase of East Orange General Hospital, is also expected to be restored

to $30 million by the time of closing. Ex. K, p. 2192; Ex. UU; Tr., Testimony of Steven Aleman, on 3/29/2016, p. 152-53

23. The proceeds from the Asset Purchase will be used first to settle all of ECHN's indebtedness not otherwise assumed by PMH, then to fund the indemnity reserve for payment of ECHN liabilities to PMH that may arise post-closing. Any funds remaining in the reserve after a specified period will be transferred as directed by the OAG. Ex. G, p. 30

24. Table 1 summarizes the net proceeds and flow of funds associated with the Asset Purchase as of March 31, 2016 compared to September 30, 2015, including ECHN's anticipated plan for payment of debt and pension obligations as well as payment of other liabilities. The amounts are subject to adjustment at the closing date ("Closing Date").

**TABLE 1**
**APA PROJECTED NET PROCEEDS AND FLOW OF FUNDS**

| | | | Actual 9/30/2015 | Actual 3/31/2016 |
|---|---|---|---|---|
| ACQUISITION PRICE (EV) | A | | 105,000,000 | 105,000,000 |
| ASSUMED ASSETS & LIABILITIES: | | | (62,598,000) | (67,598,000) |
| Pension & Retiree Medical | | | | |
| Captive & Workers Comp. | | | (1,705,000) | (1,705,000) |
| Net Working Capital True-up | | | (9,107,000) | (8,275,000) |
| RGH Eating Disorder Loan | | | 0 | 0 |
| Seller's Reimbursable Costs | | | (424,000) | (424,000) |
| Capital Leases | | | (6,764,000) | (5,922,000) |
| Asbestos Abatement | | | (1,000,000) | (1,000,000) |
| TOTAL ACQ LIABILITIES | B | | (81,598,000) | (84,924,000) |
| THRESHOLD on LIABILITIES | C | | (77,000,000) | (77,000,000) |
| GUARANTEED NET PROCEEDS | D | A-C | 28,000,000 | 28,000,000 |
| CASH & INVESTMENTS (ECHN) * | E | | 58,454,000 | 54,968,000 |
| TOTAL CASH for DEBT PAYOFF | F | D+E | 86,454,000 | 82,968,000 |
| LONG TERM DEBT | G | | (78,420,000) | (75,896,000) |
| SURPLUS after DEBT DEFEASANCE | H | F-G | 8,034,000 | 7,072,000 |
| Post-Closing Pool "Wind Down" Funds | | | 1,000,000 | 1,000,000 |
| Excess Liabilities Assumed | | B-C | (4,598,000) | (7,924,000) |
| Funds Remaining after PMH Reimbursed | K | H-I+J | 2,436,000 | (1,852,000) |

| | | | | |
|---|---|---|---|---|
| Deduction to Capital Commitment** | L | | 0 | 1,852,000 |
| Available for Indemnity Reserve | M | K+L | 2,436,000 | 0 |
| Legacy ECHN *** | | | 2,229,000 | 2,139,000 |

* PMH is assuming a $5 million loan for the RGH Eating Disorder Unit without a price deduction. To the extent that cash is available beyond the $1 million for post-closing costs and $4.5 million for the indemnity reserve, ECHN can mitigate a deduction to the capital commitment up to $5 million.

** If line K is less than zero, then there was not sufficient ECHN cash left to make PMH whole on additional liabilities assumed, thus a dollar for dollar reduction to the $75 million capital commitment applies.

*** Estimated value of future settlements on funds due from Medicare and Medicaid less funds due to Medicare and Medicaid for prior years that are still pending final review. The amounts are net of various balance sheet accounts that will not be part of the acquisition.
Late File 8, dated Apr. 20, 2016; Ex. TT

25. After the closing of the proposed Asset Purchase, the assets of ECHN will be transferred to Prospect ECHN, Inc. or one or more of its affiliates ("New ECHN"). New ECHN will serve as the health system parent company and sole shareholder of the PMH affiliates that will hold the hospital licenses for MMH and RGH after the closing of the proposed Asset Purchase (the post-closing for-profit hospitals will be referred to individually as "New MMH" and "New RGH" and collectively as "New Hospitals"). Ex. G, p.1838; Late File 13, dated Apr. 20, 2016

26. For at least three years after the Closing Date, PMH will continue operating New MMH and New RGH in their current locations as acute care hospitals with emergency departments, will maintain an ownership interest in ECHN's current post-acute care continuum of care network and will require any wholly owned entity involved with such post-acute care continuum of care network to maintain appropriate service lines. Ex. G, pp. 32, 110

27. PMH has no plans to eliminate any currently offered services at MMH or RGH after the Closing Date. No service line or service location changes are currently planned in connection with the proposed Asset Purchase, although it is expected that the ECHN ambulatory network will be expanded and services configured to promote the most efficient delivery of coordinated care following the closing. Ex. K, p. 2189

28. Following the closing, New MMH and New RGH will each maintain an advisory board subordinate to PMH's Board of Directors and comprised of community representatives, physicians on the medical staffs of New MMH and New RGH, and the New Hospitals' CEO (the "Local Board"). The initial members of the Local Board will include at least five members of ECHN's Board of Trustees. PMH plans to appoint the same individuals to the Local Board of New MMH and the Local Board of New RGH and to have the boards meet concurrently to encourage interaction within the system. PMH will schedule regular standing meetings to update the Local Board. Ex. G, p. 30; Ex. K, p. 2165

29. The Local Board will serve as a resource for PMH with respect to investment of the $75 million commitment amount set forth in the APA (the "Commitment Amount"), assist with

maintenance and implementation of a strategic business plan for the New Hospitals, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospitals. Ex. G, p. 30

30. During such periods that PMH operates the New Hospitals, it has agreed to maintain ECHN's commitment to quality, safety and patient satisfaction, including maintaining appropriate enrollment, certifications, and accreditations necessary to receive reimbursement under government payment programs. Ex. G, p. 181

31. PMH has had to significantly modify its own Quality Assurance and Performance Improvement ("QAPI") as a result of recent surveys of two of PMH's California hospitals, Los Angeles Community Hospital and Southern California Hospital, resulting in the California Department of Health imposing Immediate Jeopardy citations. Ex. Z, Prefiled Testimony of Von Crockett, pp. 3355-57; Ex. K, pp. 2684-2808, 2835-3020; Ex. Z, pp. 3402-77, 3479-3645

32. ECHN's representatives learned of the Immediate Jeopardy citations on February 1, 2016. In response, the ECHN Board of Trustees appointed a Quality Evaluation Team to investigate whether there were systemic problems suggesting PMH might be an unreliable buyer from a quality and patient safety perspective. The team members visited PMH's CharterCare hospitals in Rhode Island to review their quality program and met with quality personnel at various PMH hospitals, including California and Rhode Island. ECHN concluded that the compliance issues were isolated and that PMH demonstrated a strong commitment to remediate the problems. Based on this information, on March 23, 2016, the ECHN Board of Trustees confirmed its commitment to proceed with the transaction. Tr., Testimony of Peter Karl on 3/29/16, p. 101; Late File 1, dated Apr. 20, 2016; Ex. Z, Prefiled Testimony of Joy Dorin, Vice Chair, ECHN Board of Trustees, p. 3352

33. On March 28, 2016, the parties entered into a letter pursuant to which PMH agreed to maintain certain ECHN quality programs for the first two years after the Closing Date and not modify them without approval of the Local Board ("Quality Assurance Commitment Letter"). The Quality Assurance Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospitals. Tr, Testimony of Jonathon Spees, Senior Vice President of Mergers and Acquisitions, PMH, on 3/30/16, p. 80; Ex. EE

34. With respect to quality activities, ECHN currently functions as a high reliability organization ("HRO") committed to empowering all levels of employees to notify administrators of any patient care issues and fixing processes, leading to consistent delivery care and improved outcomes. PMH is supportive of ECHN's HRO status. Tr., Testimony of Von Crockett on 3/29/2016, p. 49; Tr., Testimony of Mitchell Lew, President, PMH, on 3/29/2016, pp. 68-69

35. Additionally, as a result of the Immediate Jeopardy citations, PMH has hired a corporate level Chief Quality Officer, Chief Clinical Officer, Chief Nursing Officer and an Associate Vice President of Regulatory and Patient Safety to assist in providing necessary resources to

implement all quality programs at its local hospitals and share best practices among the hospitals. Ex. Z, Prefiled Testimony of Von Crockett, pp. 3355-57

36. PMH is also establishing an Eastern region quality team and will hire a regional Director of Quality by the time of closing of the Asset Purchase. This regional team will serve as a resource for the New Hospitals, as well as PMH hospitals located in New Jersey, Rhode Island and Pennsylvania. When one of the New Hospitals has a question about a corporate practice or policy, the Eastern region quality team will have the ability to be on-site in order to assist the local team. Tr., Testimony of Peter Karl on 3/30/2016, pp. 144-47

37. Other PMH initiatives include retaining a national consulting firm and legal counsel to assist in preparedness and responses to Centers for Medicare & Medicaid Services ("CMS") surveys. Under PMH's draft QAPI program, a Hospital Quality & Patient Safety Committee will be developed at each of the New Hospitals, with oversight over subcommittees and workgroups that address the hospital's unique needs. These committees will report to a Regional Quality and Patient Safety Steering Council, which will report to the Corporate Quality and Patient Safety Steering Council. Tr., Testimony of Von Crockett on 3/29/15, pp. 93-94; Ex. Z, Prefiled Testimony of Von Crockett, pp. 3356-57; Ex. Z, pp. 3402-03; Late File 1, dated Apr. 20, 2016; Late File 10, dated Apr. 20, 2016

38. The APA commits PMH to expend the Commitment Amount on capital projects to upgrade the New Hospitals' facilities and services over the next five years. However, the APA also provides that the Commitment Amount is subject to a dollar-for-dollar reduction if ECHN has more than $77 million of liabilities on the Closing Date other than long-term debt and there is not enough available cash or money in the indemnity reserve established under Section 9.8 of the APA to cover the excess liabilities being assumed by PMH. Ex. G, pp. 146-47, 181, 199

39. PMH intends to fund its capital commitments through the operations of ECHN, PMH's existing cash at the time of expenditure or, if necessary, PMH's corporate level credit facility. Ex. G, p. 78

40. The APA provides that the Commitment Amount will be spent on (a) capital projects, including routine and non-routine capital expenditures for the improvement of facilities and/or the acquisition, development, expansion and improvement of hospital, ambulatory or other health care services; (b) de novo development, expansion or acquisition of a department, program, service or facility; (c) upgrades or renovations generally; (d) deferred maintenance items; and (e) recruitment of medical staff. Ex. G, pp. 181-82

41. The Commitment Amount has not been specifically apportioned to each hospital or its affiliates. Allocations of the Commitment Amount will be made by PMH after it receives input from the Local Board and medical staff. Ex. E, p. 78

42. After closing, PMH and the Local Board will develop a strategic capital plan. The capital projects in Table 2 below have been identified by ECHN management as priority capital projects. The projects will require PMH approval with input of the Local Board. Ex. G, pp. 31, 82

**TABLE 2**
**CAPITAL PRIORITY PROJECTS IDENTIFIED BY ECHN (IN MILLIONS)**

| Description | Estimated Cost (In Millions) |
|---|---|
| 1. Upgrades to emergency department for behavioral health patients (MMH) | $1.1 |
| 2. Electronic medical record system replacement (MMH & RGH) | $20 |
| 3. Upgrades to nursing units (RGH) | $6.6 |
| 4. Upgrades to nursing units (MMH) | $11 |
| 5. Vessel sealing systems (MMH & RGH) | $0.6 |
| 6. MRI replacement (MMH) | $1.6 |
| 7. SPECT scanner replacement (MMH) | $0.4 |
| **Total Estimated Cost** | **$41.3** |

Ex. E, p. 82; Ex. H, p. 2193

43. PMH has also provided a list of immediate estimated capital expenditures at the New Hospitals, as well as the Woodlake at Tolland nursing and rehabilitation facility, that it plans to address within 3 years of closing at a total estimated cost of approximately $11.8 million. Table 3 below shows the timeline for these expenditures, which are mainly comprised of deferred maintenance to the physical plants of these facilities.

**TABLE 3**
**PRIORITY FACILITY CAPITAL NEEDS OF ECHN**

| Facility | Year 1 | Year 2 | Year 3 | Total |
|---|---|---|---|---|
| Manchester Memorial Hospital | $3,455,000 | $2,225,000 | $2,020,000 | $7,700,000 |
| Rockville General Hospital | $727,000 | $916,000 | $1,370,000 | $3,013,000 |
| Woodlake at Tolland | $439,700 | $137,000 | $487,500 | $1,064,200 |
| **Total estimated expenditures** | | | | **$11,770,200** |

Late File 12, dated Apr. 20, 2016

44. In recent years, ECHN reported that it has spent very little on capital improvements other than required expenditures to repair or replace plant and equipment. Additionally, creditors have become reluctant to work with ECHN on large projects that would require financing until it is acquired. Ex. G, p. 83; Tr., Testimony of Michael Veillette, CFO, ECHN, on 3/29/2016, p. 161

45. After the Asset Purchase, capital will be available to ECHN for replacements and upgrades to systems and the infrastructures of ECHN's facilities; investments to improve the sharing of electronic medical records in order to improve the collection and documentation of information and to enhance the availability of information for critical treatment decisions for patients;

upgrades to medical equipment and technology to provide patients access to state-of-the-art technology for diagnosis, care and treatment; and program development to attract and retain physicians. Ex. G, p. 57

46. As of the closing, PMH or its affiliates will offer employment to substantially all ECHN employees who are in good standing, in positions and at salaries at least equal to those then being provided by ECHN and with benefits packages comparable to those offered to similarly-situated employees at other hospitals operated by PMH. Ex. G, pp. 31, 171

47. PMH will maintain and support financially ECHN's University of New England medical student and other health profession teaching programs, as well as ECHN's graduate medical education programs, while operating at a level not to exceed the Indirect Medical Education and Direct Graduate Medical Education caps that may be established by CMS. Ex. G, pp. 32, 181

48. In addition to continued support of its teaching programs, ECHN believes that PMH's CRC model will help overcome challenges in retaining and recruiting physicians that it has faced in recent years. PMH has developed significant experience in other markets regarding ways hospitals can attract more primary care providers and improve access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals in mid-2014. Ex. G, p. 75; Ex. K, p. 2177-78

49. In order to implement the CRC strategy, PMH has established an IPA entity in Connecticut (Prospect Provider Group CT-ECHN, LLC, or "PPGCTE") and a preferred provider network/health system risk taking entity, Prospect Health Services, CT, Inc., that will contract with payers on behalf of PPGCTE physicians. These two organizations, through management services agreements with PMH, will manage physician participation, risk contracting and care management activities for participating members. Ex. K, p. 2158

50. The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and early readmissions, reducing inpatient utilization and reducing emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. Ex. K, p. 2192; Ex. G, pp. 76, 107

51. PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas, where PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The

CRC model has also enabled PMH to attract more primary care providers and has improved access to care. Ex. G, pp. 73, 75-76

52. Subject to changes in legal requirements or governmental guidelines or policies, PMH will ensure that New MMH and New RGH maintain and adhere to ECHN's current policies regarding charity care, bad debt, indigent care, community volunteer services and community benefits or adopt other policies that are at least as favorable to the indigent and uninsured in the aggregate as ECHN's current policies. ECHN's policies are generally comparable to such policies at PMH's other hospitals. Ex. G, pp. 32, 75, 93, 181, 1912-19; Ex. K, p. 3233; Ex. Z, Prefiled Testimony of Jonathon Spees, p. 3379

53. PMH will continue to provide financial support for community benefit and community building activities in the Manchester/Rockville area to the same degree as ECHN did in FY 2014. The spending by PMH for community building activities post-closing is projected to increase 1% each year through FY 2019, and the spending for both community benefit and community building activities post-closing assumes no change in the Medicaid population served or the complement of community benefit programs offered by New MMH and New RGH. Ex. G, pp. 96, 99.

54. Table 4 below describes the socioeconomic condition of the ECHN Service Area towns in comparison to the state of Connecticut as a whole and shows the areas most in need of such programs.

**TABLE 4**
**SOCIOECONOMIC STATUS OF THE SERVICE AREA**

| | Town | Poverty Rate[1] | Median Household Income[1] | Unemployment Rate[2] | Median Age[1] |
|---|---|---|---|---|---|
| **PSA** | Andover | 4.9% | $97,762 | 6.4% | 43 |
| | Bolton | 2.1% | $87,885 | 6.0% | 47 |
| | Coventry | 3.5% | $92,308 | 7.1% | 43 |
| | Ellington | 2.7% | $84,934 | 6.0% | 40 |
| | Manchester | 8.9% | $63,656 | 7.4% | 37 |
| | South Windsor | 4.3% | $91,519 | 5.9% | 42 |
| | Tolland | 3.7% | $103,358 | 5.5% | 41 |
| | Vernon | 9.2% | $61,848 | 7.5% | 41 |
| | Willington | 18.1% | $70,013 | 5.5% | 35 |
| **SSA** | Ashford | 4.2% | $75,242 | 7.2% | 38 |
| | Columbia | 3.8% | $92,973 | 6.4% | 47 |
| | East Hartford | 15.3% | $48,438 | 9.8% | 39 |
| | East Windsor | 5.0% | $71,310 | 7.4% | 42 |
| | Glastonbury | 2.6% | $106,872 | 5.3% | 43 |

| | | | | |
|---|---|---|---|---|
| Hebron | 0.9% | $114,286 | 5.4% | 42 |
| Mansfield | 17.9% | $67,615 | 7.2% | 21 |
| Somers | 4.8% | $100,100 | 7.2% | 42 |
| Stafford | 6.7% | $63,672 | 8.1% | 40 |
| Union | 1.1% | $83,500 | 5.5% | 42 |
| **State** | 10.0% | $69,519 | 7.8% | 40 |

[1]2012

[2]2013

Ex. G, p. 63 (Source: Connecticut Economics Resource Center Town Profile Oct. 2014)

55. The Rockville section of Vernon, where RGH is located, has been designated as a Medically Underserved Population by the Health Resources and Services Administration, and the northwestern part of Mansfield has been designated as a Health Professional Shortage Area for Primary Medical Care. RGH, MMH and ECHN affiliates currently provide safety net services to this region. This proposal will support the availability of health care services to the vulnerable populations in the Service Area. Ex. G, p. 63

56. In 2013, MMH and RGH collaborated to conduct a Community Health Needs Assessment ("CHNA") which identified the current and future health care needs of the community. The four priority health needs identified were heart disease incidence, cancer incidence, diabetes incidence and arthritis incidence. An implementation plan was developed to respond to the identified health needs. Ex. G, pp. 70, 1781-87, 1789-95

57. PMH and its affiliates will support the priority needs identified by the CHNA with physician alignment and population health management strategies, enhanced through implementation of CRC, which focuses on the health of vulnerable populations. PMH has committed to implement and support the current CHNA through 2016 and to conduct another CHNA for the Service Area over the next two years and implement the recommendations of such study as deemed necessary and appropriate. Ex. G, pp. 70-71; Ex. Z, Prefiled Testimony, Von Crockett, p. 3362

58. PMH has stated that New MMH and New RGH will be in compliance with the following general community benefit standards for at least the first three years: (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors; (c) the New Hospitals shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24/7 emergency departments and provide emergency services to patients regardless of their ability to pay. Tr. Testimony of Tom Reardon, President, PMH East, on 5/3/16, pp. 103-04

59. PMH and ECHN representatives have already met with leadership for Connecticut's Medicaid Program at the Department of Social Services ("DSS") and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. Ex. G, pp. 74-75

60. The patient populations currently served by the Hospitals is not expected to change as a result of the Asset Purchase. PMH will accept all existing contracts with payers and will complete a change of ownership process with commercial payers, as well as Medicare and the Connecticut Medical Assistance Program (Medicaid). Table 5 below describes the current patient population/payer mix for MMH and RGH, as well as the projected mix for the New Hospitals. Ex. G, p. 85

**TABLE 5**

**PATIENT POPULATION/PAYER MIX**

| Manchester Memorial | Current FY 2015 | Projected FY 2016 | Year 1 FY 2017 | Year 2 FY 2018 | Year 3 FY 2019 |
|---|---|---|---|---|---|
| Medicare (1) | 41.39% | 41.39% | 41.39% | 41.39% | 41.39% |
| Medicaid (2) | 17.24% | 17.24% | 17.24% | 17.24% | 17.24% |
| CHAMPUS or TriCare | 0.43% | 0.43% | 0.43% | 0.43% | 0.43% |
| **Total Government Payers** | **59.06%** | **59.06%** | **59.06%** | **59.06%** | **59.06%** |
| Commercial Insurers (1) | 38.05% | 38.05% | 38.05% | 38.05% | 38.05% |
| Uninsured | 2.37% | 2.37% | 2.37% | 2.37% | 2.37% |
| Workers Compensation | 0.52% | 0.52% | 0.52% | 0.52% | 0.52% |
| **Total Non-Government Payers** | **40.94%** | **40.94%** | **40.94%** | **40.94%** | **40.94%** |

(1) Includes managed care activity
(2) Includes managed care activity and other medical assistance
Ex. G, p. 84-85

61. PMH's acquisitions of other health systems and hospitals have resulted in improved financial performance at many of the systems. Table 6 below illustrates the financial performance of some of PMH's hospitals after they were acquired by PMH.

**TABLE 6**
**PMH'S RECENT ACQUISITIONS FINANCIAL PERFORMANCE (in Thousands)**

| Entity | EBITDA | | | Working Capital | | | Stockholder's Equity | | |
|---|---|---|---|---|---|---|---|---|---|
| | Year prior to acquisition | FY 2014 | FY 2015 | Year prior to acquisition | FY 2014 | FY 2015 | Year prior to acquisition | FY 2014 | FY 2015 |
| Nix Health System (a) | $14,905 | $18,411 | $8,043 | $5,937 | $36,785 | $35,449 | $13,122 | $20,468 | $63,789 |
| Roger Williams Medical Center (b) | $3,942 | $1,582 | $9,080 | ($1,860) | $1,114 | $6,230 | $37,184 | $34,099 | $38,256 |
| Our Lady of Fatima Hospital(c) | ($893) | $509 | $6,485 | $1,904 | $2,040 | $3,432 | ($57,150) | $27,513 | $28,107 |

(a) Nix is a Health System based in Texas. Nix's Earnings Before Interest, Taxes, Depreciation and amortization (EBITDA) is based on reported trailing twelve months ended on 1/31/2011. Declines in EBITDA between 2014 and 2015 were due to the fluctuation in net reimbursement related to payments made to the Service Organization of San Antonio "SOSA". Funding to SOSA is voluntary but it is projected to average approximately $12M a year based on budgeted spending initiatives of the service organization. In 2014 the funding requirements were $5.7M (lower by approximately $6.3M) and in 2015 funding requirements returned to $12M. The remaining difference was comprised of lower volume at the facility as services were reconfigured and medical staff turnover. Working Capital of Nix prior to acquisition is as of 1/31/2011 and includes cash which was not part of assets acquired by Prospect.

(b) EBITDA for Roger Williams Medical Center ("RWMC"), located in Providence , Rhode Island, for year prior to acquisition is only for 8 months ending on May 31, 2014 and EBITDA for FY2014 is only for three months post acquisition for FYE 9/30/2014. Working capital is for prior to acquisition as of 5/31/2014 and includes cash which was not part of the assets acquired by PMH as prior to the acquisition RWMC was a non-profit organization. Therefore, net assets were used as a substitute for stockholder's equity.

(c) EBITDA for Our Lady of Fatima Hospital ("OLFH") in Rhode Island is for year prior to acquisition and is only for 8 months ending on May 31, 2014 and for FY2014 is only for three months post acquisition. Working capital prior to acquisition is as of 5/31/2014 and includes cash which was not part of the assets acquired by PMH as prior to the acquisition OLFH was a non-profit organization. Therefore, net assets were used as a substitute for stockholder's equity.
Late File 19, dated Apr. 20, 2016; Ex. QQ, dated May 9, 2016

62. Financial benefits associated with this proposal include: operational efficiencies and economies of scale, participation in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. Ex. G, p. 57; Ex. Z, Prefiled Testimony of Jonathon Spees, p. 3379; Ex. Z, Prefiled Testimony of Von Crockett, pp. 3358-59; Ex. N, p. 3236

63. Tables 7 and 8 below represent MMH's projected revenues and expenses from operations with and without this proposal, projecting gains from operations for MMH with the CON at $11.6 million (before income taxes) by FY 2019, as opposed to $6.7 million without the CON.

**TABLE 7**
**MMH PROJECTED REVENUES AND EXPENSES WITH CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $191,485,686 | $196,943,847 | $202,818,436 |
| Total Operating Expenses | $181,570,103 | $186,486,220 | $191,183,170 |
| **Gain/Loss from Operations** | **$9,915,583** | **$10,457,627** | **$11,635,266** |
| **Provision for Income Taxes** | **$4,254,950** | **$4,482,606** | **$5,030,134** |
| **Gain/Loss from Operations** | **$5,660,633** | **$5,975,021** | **$6,605,133** |

Ex. K, p. 2314

**TABLE 8**
**MMH PROJECTED REVENUES AND EXPENSES WITHOUT CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $189,022,494 | $192,255,217 | $195,904,378 |
| Total Operating Expenses | $183,683,229 | $186,432,862 | $189,232,208 |
| **Gain/Loss from Operations*** | **$5,339,265** | **$5,823,000** | **$6,672,170** |

*Provision for income taxes doesn't apply to not-for-profit entities.

Ex. K, p. 2314

64. Tables 9 and 10 represents RGH's projected revenues and expenses from operations with and without this proposal, projecting gains from operations for RGH with the CON at $1.6 million (before income taxes) by FY 2019, as opposed to $114,525 without the CON.

**TABLE 9**
**RGH PROJECTED REVENUES AND EXPENSES WITH CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $70,634,865 | $72,732,353 | $74,987,275 |
| Total Operating Expenses | $69,632,163 | $71,490,737 | $73,368,375 |
| **Gain/Loss from Operations** | **$1,002,702** | **$1,241,616** | **$1,618,900** |
| **Provision for Income Taxes** | **$419,357** | **$607,900** | **$766,359** |
| **Gain/Loss from Operations** | **$583,345** | **$633,715** | **$852,541** |

Ex. K, p. 2316

**TABLE 10**
**RGH PROJECTED REVENUES AND EXPENSES WITHOUT CON**

| | FY 2017 | FY 2018 | FY 2019 |
|---|---|---|---|
| Total Operating Revenue | $69,583,227 | $70,771,104 | $72,116,415 |
| Total Operating Expenses | $69,891,198 | $70,937,011 | $72,001,890 |
| **Gain/Loss from Operations*** | **($307,971)** | **($165,907)** | **$114,525** |

*Provision for income taxes doesn't apply to not-for-profit entities.
Ex. K, p. 2316

65. OHCA is currently in the process of establishing its policies and standards as regulations. Therefore, OHCA has not made any findings as to this proposal's relationship to any regulations not yet adopted by OHCA. Conn. Gen. Stat. §19a-639(a)(1)

66. The application is consistent with the overall goals of the Statewide Health Care Facilities and Services Plan. Conn. Gen. Stat. § 19a-639(a)(2)

67. The Applicants have established that there is a clear public need for the proposal. Conn. Gen. Stat. §19a-639(a)(3)

68. The Applicants have demonstrated that the proposal will improve the overall financial strength of the health care system and that it is financially feasible. Conn. Gen. Stat. §19a-639(a)(4)

69. Subject to the conditions below, the Applicants have satisfactorily demonstrated that the proposal will maintain quality, accessibility and cost effectiveness of health care delivery in the region. Conn. Gen. Stat. §19a-639(a)(5)

70. Subject to the conditions below, the Applicants have shown that there would be no adverse change in the provision of health care services to the relevant populations and payer mix, including access to services by Medicaid recipients and indigent persons. Conn. Gen. Stat. §19a-639(a)(6)

71. The Applicants have satisfactorily identified the population to be affected by this proposal. Conn. Gen. Stat. §19a-639(a)(7)

72. The historical utilization of ECHN's services in the Service Area support this proposal. Conn. Gen. Stat. §19a-639(a)(8)

73. The Applicants have satisfactorily demonstrated that this proposal would not result in an unnecessary duplication of existing services in the area. Conn. Gen. Stat. §19a-639(a)(9)

74. Subject to the conditions below, the Applicants have demonstrated that there will be no reduction in access to services by Medicaid recipients or indigent persons. Conn. Gen. Stat. §19a-639(a)(10)

75. The Applicants have satisfactorily demonstrated that the proposal will not have a negative impact on the diversity of health care providers in the area. Conn. Gen. Stat. §19a-639(a)(11)

76. The Applicants have satisfactorily demonstrated that the proposal will not result in any consolidation that would affect health care costs or accessibility to care. Conn. Gen. Stat. §19a-639(a)(12)

# Discussion

CON applications are decided on a case-by-case basis and do not lend themselves to general applicability due to the uniqueness of the facts in each case. In rendering its decision, OHCA considered the factors set forth in Connecticut General Statutes § 19a-639(a) and 19a-486d. The Applicants bear the burden of proof in this matter by a preponderance of the evidence. *Jones v. Connecticut Medical Examining Board,* 309 Conn. 727 (2013).

ECHN is a not-for-profit health care system that is the parent company of two acute care hospitals in Connecticut, MMH located in Manchester and RGH located in Vernon. *FF1* ECHN's Service Area is comprised of the following nineteen towns in eastern Connecticut: Andover, Bolton, Coventry, Ellington, Manchester, South Windsor, Tolland, Vernon, Willington, Ashford, Columbia, East Hartford, East Windsor, Glastonbury, Hebron, Mansfield, Somers, Stafford, and Union. *FF5* PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of its regions. *FF13* ECHN's financial condition has been strained since 2001 and its mission impeded by various factors, including limited access to capital required to improve infrastructure and recruit physicians and mounting pension liabilities. *FF6* ECHN has attempted to improve its financial situation through various initiatives, including hiring freezes, wage freezes, reductions in workforce, and a reduced workweek. Despite these measures, a large portion of ECHN's cash flow has been required to fund debt service and pension obligations, making capital investments difficult. *FF7* As a result, the Applicants are requesting approval of the proposed Asset Purchase as a solution to ECHN's long-standing challenges while ensuring the Service Area continued access to ECHN's services and facilities. *FF12*

Under the APA, PMH has committed to spend a Commitment Amount of $75,000,000 towards capital projects over the next five years. However, the APA also provides that the Commitment Amount is subject to a dollar-for-dollar reduction if ECHN has more than $77 million of liabilities on the Closing Date other than long-term debt and there is not enough available cash or money in the indemnity reserve to cover the excess liabilities (for amounts over $77 million) being assumed by PMH. *FF38* The APA provides that the $75 million Commitment Amount will be spent on (a) capital projects, including routine and non-routine capital expenditures for the improvement of facilities and/or the acquisition, development, expansion and improvement of hospital, ambulatory or other health care services; (b) de novo development, expansion or acquisition of a department, program, service or facility; (c) upgrades or renovations generally; (d) deferred maintenance items; and (e) recruitment of medical staff. *FF40*

For at least three years after the Closing Date, PMH will continue operating New MMH and New RGH in their current locations as acute care hospitals with emergency departments, will maintain an ownership interest in ECHN's current post-acute care continuum of care network and will require any wholly owned entity involved with such post-acute care continuum of care network to maintain appropriate service lines. *FF26* PMH has no plans to eliminate any services at MMH or RGH. No service line or service location changes are currently planned in connection with the proposed transaction, although it is expected that the ECHN ambulatory network will be expanded and services configured to promote the most efficient delivery of coordinated care following the closing. *FF27*

Following closing, New MMH and New RGH will each maintain a Local Board, an advisory board made up of community representatives, physicians on the respective hospital's medical staff, and the CEO of the respective hospital, that will be subordinate to PMH. The initial members of the Local Board will include at least five members of ECHN's Board of Trustees. The Local Board will serve as a resource for PMH with respect to investment of the Commitment Amount, assist with maintenance and implementation of a strategic business plan for the New Hospitals, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospitals. *FF29*

After closing, PMH and the Local Board will develop a strategic capital plan. The following capital projects have been identified by ECHN management as priority capital projects:

| **Description** | **Estimated Cost (In Millions)** |
|---|---|
| 1. Upgrades to emergency department for behavioral health patients (MMH) | $1.1 |
| 2. Electronic medical record system replacement (MMH & RGH) | $20 |
| 3. Upgrades to nursing units (RGH) | $6.6 |
| 4. Upgrades to nursing units (MMH) | $11 |
| 5. Vessel sealing systems (MMH & RGH) | $0.6 |
| 6. MRI replacement (MMH) | $1.6 |
| 7. SPECT scanner replacement (MMH) | $0.4 |
| **Total Estimated Cost** | **$41.3** |

The projects will require PMH approval with input of the Local Board. *FF42* After the Asset Purchase, capital will be available to ECHN for replacements and upgrades to systems and the infrastructures of ECHN's facilities; investments to improve the sharing of electronic medical records in order to improve the collection and documentation of information and to enhance the availability of information for critical treatment decisions for patients; upgrades to medical equipment and technology to provide patients access to state-of-the-art technology for diagnosis, care and treatment; and program development to attract and retain physicians. *FF45*

PMH intends to fund its capital commitments through the operations of ECHN, PMH's existing cash at the time of expenditure or, if necessary, PMH's corporate level credit facility. *FF39* The Commitment Amount has not been specifically apportioned to each hospital or its affiliates. Allocations of the commitment will be made by PMH after it receives input from the Local Board and medical staff. *FF41*

With respect to the quality of services offered by PMH, during the course of negotiations between ECHN and PMH, it became known that PMH had to significantly modify its QAPI as a result of surveys of PMH's Southern California Hospitals as well as the survey of Los Angeles Community Hospital that resulted in the California Department of Health imposing Immediate Jeopardy citations. *FF31* As a result of these citations, PMH has hired a corporate level Chief Quality Officer, Chief Clinical Officer, Chief Nursing Officer and an Associate Vice President of Regulatory and Patient Safety to assist in providing necessary resources to implement all quality programs at its local hospitals and share best practices among hospitals. *FF35* ECHN concluded that the compliance issues were isolated and that PMH demonstrated a strong commitment to remediate the problems. Based on this information, the ECHN Board of Trustees confirmed its commitment to proceed with the transaction and the parties entered into a Quality Assurance Commitment Letter pursuant to which PMH agreed to maintain certain quality programs of ECHN for the first two years after the Closing Date and not modify them without approval of the Local Board. The Quality Assurance Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospitals. *FF32-33*

PMH aligns its hospitals and physician networks under a model called CRC. CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. The CRC model is intended to improve quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. *FF15* ECHN believes that PMH's CRC model will help overcome the challenges in retaining and recruiting physicians that it has faced in recent years. PMH has developed significant experience in other markets regarding ways hospitals can attract more primary care providers and improve access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals in mid-2014. *FF48* In order to implement the CRC strategy, PMH has established an IPA entity in Connecticut, PPGCTE, and a preferred provider network/health system risk taking entity, Prospect Health Services, CT, Inc., that will contract with payers on behalf of PPGCTE physicians. These two organizations, through management services agreements with PMH, will manage physician participation, risk contracting and care management activities for participating members. *FF49* The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and early readmissions, reducing inpatient utilization and reducing emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent

physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. *FF50* PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas where PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand patients from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. *FF51* The CRC approach not only benefits the patient population through better care and outcomes, but also from a cost perspective. PMH expects its approach to population management services to harness the efficiencies of facilities to enhance care at lower costs. It is anticipated that these cost savings will be passed on to consumers. Consequently, the Applicants have demonstrated that PMH will continue to offer access to high quality services in the same manner that ECHN has been providing them.

In 2013, MMH and RGH collaborated to conduct a CHNA, which identified the current and future health care needs of the community. The four priority health needs identified were heart disease incidence, cancer incidence, diabetes incidence, and arthritis incidence. An implementation plan was developed to respond to the identified health needs. *FF56* PMH and its affiliates will support the priority needs identified by the CHNA with physician alignment and population health management strategies, enhanced through implementation of the CRC, which focuses on the health of vulnerable populations. PMH has committed to implement and support the current CHNA through 2016 and to conduct another CHNA for the Service Area over the next two years and implement the recommendations of such study as deemed necessary and appropriate. *FF57* PMH and ECHN representatives met with leadership for Connecticut's Medicaid Program at DSS and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. *FF59* The patient populations currently served by the Hospitals is not expected to change as a result of the Asset Purchase. PMH will accept all existing contracts with payers and will complete a Change of Ownership process with commercial payers, as well as Medicare and the Connecticut Medical Assistance Program (Medicaid). *FF60* Based upon the aforementioned, the Applicants have satisfactorily identified a clear public need for the proposed Asset Purchase and demonstrated how the proposed Asset Purchase could satisfy the need.

PMH's acquisitions of other health systems and hospitals have resulted in improved financial performance at many of the systems. PMH will bring to ECHN its operational efficiencies and economies of scale that will help to reduce ECHN's expenses. ECHN will be able to participate in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. *FF62* This proposal will lead to a stronger and more financially secure ECHN. As the financial strength of Connecticut's hospitals significantly contributes to the financial strength of the state's entire health care system, this proposal will improve the financial strength of the state of Connecticut's health care system.

In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million. The company also received credit upgrades by both Moody's and S&P in 2015 with Moody's rating PMH's bonds as B1, while S&P rates PMH's bonds as B. *FF18* PMH's financial resources and access to capital are anticipated to maintain ECHN's assets as economically viable and vibrant parts of the healthcare system in Eastern Connecticut by permitting capital investments, better preparing MMH and RGH to participate in new value-based delivery models, offering enhanced practice options for physicians, strengthening its network of providers and allowing for other improvements in operations.

Based upon the aforementioned discussion of the evidence provided by the Applicants in this matter, the Applicants have satisfactorily demonstrated that PMH has made a commitment to provide health care to the uninsured and the underinsured; safeguard procedures are in place to avoid a conflict of interest in patient referral; and certificate of need authorization is justified in accordance with the principles and guidelines set forth in Connecticut General Statutes § 19a-639; those being, access to healthcare services, quality of the healthcare services, public need for the proposed project, and the financial feasibility of the proposed project.

# Order

Based upon the foregoing Findings of Fact and Discussion, the Applicants' request for the sale of substantially all of the assets of ECHN and its controlled affiliates to PMH or one or more affiliates of PMH is hereby **Approved** under Conn. Gen. Stat. §§ 19a-486 and 19a-639 subject to the enumerated conditions (the "Conditions") set forth below

Unless expressly provided otherwise, all Conditions of this Order shall, to the extent applicable, be binding on the Applicants, their affiliates, successors and assigns, regardless of whether New ECHN remains the parent company and sole shareholder of the New MMH and New RGH. OHCA and any successor agency shall have the right to enforce the Conditions by all means and remedies available to it under law and equity, including, but not limited to, Conn. Gen. Stat. § 19a-486g and the right to impose and collect a civil penalty under Conn. Gen. Stat. § 19a-653 against any person or health care facility or institution that fails to file required data or information within the prescribed time periods set forth in this Order. All references to days in these Conditions shall mean calendar days.

1. Within twenty (20) days following the Closing Date of the Asset Purchase authorized by this Order, Applicants shall submit schedules to OHCA setting forth each of MMH's and RGH's inpatient bed allocation and the location and hours of operation for all outpatient services, by department, as of the Decision Date and publish this same information on the applicable websites of each Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 18, 26- 27*

2. Within twenty (20) days following the Closing Date of the Asset Purchase authorized by this Order, Applicants shall identify and provide the Certificates of Incorporation for the PMH affiliated entities that shall directly own, operate and hold the hospital licenses of the New MMH and New RGH, respectively, post-closing. These entities shall be duly organized and validly existing under the laws of Connecticut and New ECHN shall be their parent company and sole shareholder as proposed in the CON application. OHCA is imposing this Condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 18, 26- 27*

3. Applicants shall notify OHCA in writing of the Closing Date of the Asset Purchase authorized by this Order within twenty (20) days of such closing and shall supply final execution copies of all agreements related to same, including but not limited to:

    a. the APA, including any and all schedules and exhibits; and

    b. Bylaws or similar governance documents for New ECHN, as well as for New MMH and New RGH.

    The Applicants may redact from the APA any information that is exempt from disclosure under Conn. Gen. Stat. § 1-210. If the Applicants redact materials in accordance with the

previous sentence, the Applicants shall provide a list to OHCA, which identifies in general terms the nature of the redacted material and why it is claimed to be exempt for public record purposes.

OHCA is imposing this Condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a) & 19a-613(b); FF 12*

4. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement ECHN's 2016 CHNA and for conducting the New Hospitals' next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:

   (i) the data that will be collected and analyzed to systematically assess health status indicators of the Service Area;
   (ii) the identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;
   (iii) the qualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;
   (iv) the frequency with which the Study will be repeated;
   (v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the community; and
   (vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospitals.

   OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3) & (7); FF 56-57*

5. Within three (3) years following the Closing Date, PMH shall participate with New ECHN and the New Hospitals, and the key community stakeholders and health organizations identified pursuant to Condition 4, in conducting a Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. PMH and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study (available at http://www.ct.gov/dph/lib/dph/state_health_planning/ship/hct2020/hct2020_state_hlth_impv_032514.pdf), as well as any applicable community

health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at http://www.cdc.gov/sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the Implementation Strategy on the website pages of New MMH and New RGH. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement ECHN's current CHNA for MMH and RGH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 56-57*

6. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospitals for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27*

7. Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New MMH or New RGH specific to those services that existed at each of the Hospitals as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of the New Hospitals. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27*

8. Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the $75 million Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:

    a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of an understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and the use of evidence-based interventions.

b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and

c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill the Capital Commitment.

The reports shall be signed by PMH ECHN's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 38-45*

9. For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for New ECHN, New MMH and New RGH, respectively:

a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

1. the major cost savings achieved for each expense category for the semi-annual period; and

2. the effect of these cost savings on the clinical quality of care.

b. A consolidated Balance Sheet, Statement of Operations, and Statement of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.

For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63*

10. For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New ECHN, New MMH and New RGH, respectively. The required information is due no later than two (2)

months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report:

**Financial Measurement/Indicators**

| |
|---|
| **A. Operating Performance** |
| 1. Operating Margin |
| 2. Non-Operating Margin |
| 3. Total Margin |
| **B. Liquidity** |
| 1. Current Ratio |
| 2. Days Cash on Hand |
| 3. Days in Net Accounts Receivables |
| 4. Average Payment Period |
| **C. Leverage and Capital Structure** |
| 1. Long-term Debt to Equity |
| 2. Long-term Debt to Capitalization |
| 3. Unrestricted Cash to Debt |
| 4. Times Interest Earned Ratio |
| 5. Debt Service Coverage Ratio |
| 6. Equity Financing Ratio |
| **D. Additional Statistics** |
| 1. Income from Operations |
| 2. Revenue Over/(Under) Expense |
| 3. Cash from Operations |
| 4. Cash and Cash Equivalents |
| 5. Net Working Capital |

| 7. Unrestricted Assets/Retained Earnings |
| 8. Bad Debt as % of Gross Revenue |
| 9. Credit Ratings (S&P, FITCH or Moody's) |

OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63*

11. PMH shall ensure that New MMH and New RGH maintain and adhere to ECHN's current policies regarding charity care, indigent care and community volunteer services after the Closing Date, or adopt other policies that are at least as generous and benevolent to the community as ECHN's current policies, consistent with state and federal law. These policies shall be posted on the website pages of the New MMH and New RGH, respectively, and as additionally required by applicable law. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

12. For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of New MMH and New RGH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website pages of the New Hospitals simultaneously with their submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

13. PMH shall maintain community benefit programs and community building activities for New MMH and New RGH for three (3) years after the Closing Date consistent with the MMH and RGH most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as ECHN's current programs, and PMH shall apply a 1% increase per year for the next three (3) years toward community building activities in terms of dollars spent.

    In determining the New MMH and New RGH participation and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.

    a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

14. New MMH and New RGH agree to comply with the following general community benefit standards for at least the first three years: (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New

Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors; (c) the New Hospitals shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24/7 emergency departments and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); Tr., Testimony of Tom Reardon, President. PMH East on 5/3/16, pp. 103-04*

15. New MMH and New RGH shall work toward making culturally and linguistically appropriate services available and integrated throughout their hospital operations. Specifically, New MMH and New RGH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, New MMH and New RGH shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, New MMH and New RGH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59*

16. Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who has experience in hospital administration and regulation, including maintaining quality control in an HRO. The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing Date, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to New Hospitals and their applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59*

17. The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of New Hospitals on no less than a semi-annual basis to assess PMH's modified QAPI program, each facility's efforts to remain an HRO, and compliance with the Quality Assurance Commitment Letter. The Independent Monitor shall furnish a written

report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59*

18. If, at any time within three (3) years following the Closing Date, the New Hospitals' Local Board agrees with PMH to change any of the Seller Quality Programs described in the Quality Assurance Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated or recommended in guidance by a governmental agency, PMH shall notify OHCA and the Health Systems Branch in writing within thirty (30) days of any such change going into effect. If the Independent Monitor disagrees with the change, OHCA may require that a request for modification be submitted and approved as required by C.G.S. §4-181a to make the change. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 30-37*

19. For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals' activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

20. For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

21. PMH, New ECHN, New MMH and New RGH shall abide by all requirements of licensure that may be imposed by DPH's Health Systems Branch ("HSB") in any Pre-Licensing Consent Order or similar agreement that HSB may enter into with these parties. OHCA is imposing this Condition to ensure that quality health care services are provided to the patient

population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 30-37*

All of the foregoing constitutes the final order of the Office of Health Care Access in this matter.

Please see the attached corrected Final Decision of the AG in connection with the proposed sale of substantially all of the assets of Eastern Connecticut Health Network, Inc., to Prospect Medical Holdings, Inc. We have changed the reference in Condition 1 to section 5.18(b) of the APA, so it now corresponds to the discussion within the Decision. We have also noted that correction on the last page of the decision. No other changes were made. Please let me know if you have any questions. Thanks.

## I. INTRODUCTION

The proposed asset purchase agreement between Eastern Connecticut Health Network, Inc., and its affiliates ("ECHN"), and Prospect Medical Holdings, Inc. ("PMH")(collectively, the "Applicants"), is the second Application by ECHN filed with the Office of the Attorney General (the "OAG") for its review pursuant to the Nonprofit Hospital Conversion Act, Conn. Gen. Stat. § 19a-486 et seq. (the "Conversion Act").

On June 4, 2014, ECHN submitted a proposed transaction with Tenet Healthcare Corp. ("Tenet") that was withdrawn by Tenet prior to the completion of the OAG's review under the Conversion Act. This Application comes 2 years afterwards.

The difficulties faced by hospitals in delivering quality healthcare services in a changing and increasingly challenging fiscal landscape have become, appropriately, a subject of national concern and debate. A number of forces in recent years have contributed to the financial challenges to local hospitals, including those in Connecticut. Against the backdrop of a changing regulatory and fiscal landscape at the federal and state level, the delivery of healthcare services remains a local issue of extreme importance to the communities in which nonprofit hospitals operate. These issues are no less true for ECHN than for any other community hospital or hospital system in Connecticut. It is in this context that ECHN has decided to sell substantially all of its assets to PMH. Its stated goal in making this decision is to ensure the continued existence of ECHN's facilities and services, to provide sufficient capital to enhance the facilities and services, and to integrate its operations with an established health care system that is prepared to navigate the evolving health care system of the future. (Application of ECHN and PMH re a Proposed Asset Purchase Agreement, AG Docket 15-486-01, pp. 25-26; hereinafter, "App., p. __.)

Pursuant to the Conversion Act, the legislature has authorized the Attorney General to review and investigate proposed nonprofit to for-profit hospital transactions, to disapprove them if he finds that any of the criteria set forth in Conn. Gen. Stat. § 19a-486c(a) are not met, or to approve the transaction subject to any modifications or conditions that the Attorney General deems appropriate. Conn. Gen. Stat. § 19a-486b. Under the law, the Attorney General is required to assess both the procedural and financial fairness of the transaction and to protect and preserve the charitable assets of ECHN.

Contemporaneously with the OAG's review of the proposed Asset Purchase Agreement (the "APA"), the Office of Health Care Access, Department of Public Health ("OHCA"), has been reviewing the transaction to determine whether a certificate of need should be issued in this case and also whether OHCA's criteria in the Conversion Act have been fulfilled by the Applicants. In contrast to the Attorney General's focus, OHCA's review encompasses issues involving the impact of the proposed transaction on access to, and the quality of, health care in the ECHN service area.

As explained in detail below, we grant the Application with conditions necessary to conform the proposed transaction to the requirements of the Conversion Act. I would like to thank ECHN and PMH for their cooperation throughout this process. I would also like to thank the many witnesses, public officials, and members of the public who testified or commented on the proposed transaction in our proceedings. Last, I would like to thank my staff, Assistant Attorney General Henry Salton, head of the Health and Education Department, Assistant Attorney General Gary W. Hawes, and Paralegal Specialist Cheryl A. Turner for their diligent efforts on this matter.

## II. EXECUTIVE SUMMARY

### A. Standard of Review

Pursuant to the requirements of the Conversion Act, the OAG is required to review a proposed transaction for compliance with specifically articulated standards that were established by the legislature. § 19a-486c(a). In sum, these criteria require the OAG to make certain determinations: whether the nonprofit hospital's decision to sell its assets was reasonable, whether it chose the ultimate purchaser in an open and fair process, whether it received fair market value for its assets, whether the funds generated by the sale will be held by a charitable foundation that will use them for the promotion of healthcare in the nonprofit hospital's community, and whether use restrictions on any charitable asset held by ECHN will be preserved.[1]

---

[1] Conn. Gen. Stat. § 19a-486c(a) provides in full:

The Attorney General shall deny an application as not in the public interest if the Attorney General determines that one or more of the following conditions exist:

(1) the transaction is prohibited by Connecticut statutory or common law governing nonprofit entities, trusts or charities;
(2) the nonprofit hospital failed to exercise due diligence in (A) deciding to transfer, (B) selecting the purchaser, (C) obtaining a fairness evaluation from an independent person expert in such agreements, or (D) negotiating the terms and conditions of the transfer;
(3) the nonprofit hospital failed to disclose any conflict of interest, including, but not limited to, conflicts of interest pertaining to board members, officers, key employees and experts of Waterbury Hospital, the purchaser or any other party to the transaction;
(4) the nonprofit hospital will not receive fair market value for its assets, which, for purposes of this subsection, means the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and in their own best interest, and with a reasonable time being allowed for exposure in the open market;
(5) the fair market value of the assets has been manipulated by any person in a manner that causes the value of the assets to decrease;
(6) the financing of the transaction by the nonprofit hospital will place the nonprofit hospital's assets at an unreasonable risk;
(7) any management contract contemplated under the transaction is not for reasonable fair value;

**B. The Proposed Transaction**

ECHN and PMH propose an asset purchase whereby ECHN will sell substantially all of its assets to PMH or one or more affiliates of PMH. Substantially all of the assets of ECHN will be transferred to PMH in exchange for $105,000,000, subject to certain adjustments.[2] The adjustments include a Net Working Capital reconciliation, reductions for the value of ECHN liabilities assumed by PMH, and adjustments for the value of any ECHN joint venture interest not assigned or transferred to PMH. Pursuant to the APA, PMH will also commit to spend not less than $75,000,000 on capital items over five years. (App., p. 23.)

PMH will continue to operate both Manchester Memorial Hospital ("MMH") and Rockville General Hospital ("RGH") as acute care hospitals for at least three years after the

---

(8) a sum equal to the fair market value of the nonprofit hospital's assets (A) is not being transferred to one or more persons to be selected by the superior court for the judicial district where the nonprofit hospital is located who are not affiliated through corporate structure, governance or membership with either the nonprofit hospital or the purchaser, unless the nonprofit hospital continues to operate on a nonprofit basis after the transaction and such sum is transferred to the nonprofit hospital to provide health care services, and (B) is not being used for one of the following purposes: (i) For appropriate charitable health care purposes consistent with the nonprofit hospital's original purpose, (ii) for the support and promotion of health care generally in the affected community, or (iii) with respect to any assets held by the nonprofit hospital that are subject to a use restriction imposed by a donor, for a purpose consistent with the intent of said donor; or

(9) the nonprofit hospital or the purchaser has failed to provide the Attorney General with information and data sufficient to evaluate the proposed agreement adequately, provided the Attorney General has notified the nonprofit hospital or the purchaser of the inadequacy of the information or data and has provided a reasonable opportunity to remedy such inadequacy.

[2] The Application indicated that the purchase price would be either $105 million or $115 million, depending on whether ECHN obtained an assumable loan to finance certain of its outstanding bond liabilities. At the public hearing on this transaction, it was confirmed that ECHN had not acquired the loan, and the purchase price was going to be $105 million.

transaction closes.[3] Each hospital will maintain a local advisory board, and substantially all of the employees of ECHN and its affiliates will be offered employment by PMH or its affiliates. (App., p. 24.)

In addition, PMH will ensure that MMH and RGH maintain ECHN's current policies on charity care and indigent care or will adopt other policies that are at least as favorable to the ECHN community. (App., p. 32.)

After the closing, ECHN will establish a new charitable entity ("New Foundation") that will receive the net proceeds of the transaction and the appropriate charitable gift assets held by ECHN.

### C. The Proposed Transaction Meets the Requirements of the Conversion Act Provided the Applicants Comply with the Attorney General's Modifications.

Based on our review of the record, all testimony provided at the public hearings, all exhibits provided pursuant to this review, and the standards set forth in § 19a-486c(a), we conclude that the proposed transaction meets the requirements of the Conversion Act, provided that ECHN and PMH comply with the modifications and conditions that are imposed herein.

*1. Findings and Conclusions*

First, we conclude that the process employed by ECHN in deciding to sell its assets to a for-profit healthcare services company reflects proper due diligence by ECHN's Board of Directors. The ECHN Board undertook an extensive process to explore potential strategic options and identify capital alternatives to address its weakening financial

[3] At all times, a hospital must receive approval in the form of a Certificate of Need from OHCA before terminating inpatient or outpatient services offered by the hospital. See Conn. Gen. Stat. § 19a-638(a)(5).

position. The Board's efforts have been diligent and without conflicts of interests, and in our opinion, the Board has met their fiduciary obligations to ECHN.

Second, we conclude that ECHN will receive fair market value for its assets as a result of this transaction. Based primarily on the opinions of two independent financial valuation experts, the price negotiated for the sale of ECHN's assets equals or exceeds the price they would command in an open and competitive market.[4] This conclusion is buttressed by the fact that the process followed by the ECHN Board to select a purchaser was itself open and competitive.

Third, assuming compliance with the modifications and conditions set forth below, we conclude that the charitable assets of ECHN will be adequately protected and preserved after the proposed transaction closes. The charitable assets of ECHN, which have been held in trust for the public, will be held by the New Foundation and safeguarded for their specific charitable uses or to promote healthcare in the ECHN service area. We also conclude that a sum equal to the fair market value of ECHN's assets will be transferred to the New Foundation and will be restricted to charitable uses consistent with ECHN's

[4] The nonprofit hospital conversion review process provides the OAG with the opportunity to have two separate, independent financial experts review the proposed transaction for compliance with the provisions of § 19a-486c(a). The first expert opinion is required by § 19a-486c(a)(2)(C), which provides that the nonprofit hospital obtain a fairness evaluation from an independent person expert in such agreement. ECHN hired Duff & Phelps, LLC, for these purposes, and its opinion is in the record. In addition, § 19a-486c(c) allows the Attorney General to contract with a financial expert to assist in the review of the nonprofit hospital's compliance with the provisions in § 19a-486c(a). Through an RFP process, the OAG retained the services of Navigant Consulting, Inc., to provide an additional independent analysis of the APA.

original purpose and for the support and promotion of healthcare generally in the ECHN community.[5]

*2. Modifications and Conditions*

The General Assembly has assigned the OAG significant responsibility and flexibility to modify the terms of the proposed transaction, if necessary, to fulfill the statutory mandates of the Conversion Act and—in particular—to fulfill the Attorney General's statutory charge to serve the public interest in the protection of gifts, legacies or devises for public or charitable purposes. Conn. Gen. Stat. § 3-125.

Consequently, although we approve the APA, that approval is contingent on certain modifications and conditions that must be made to the proposed transaction to ensure that the interests of the public and the requirements of the Conversion Act are met. These modifications and conditions, which are more fully described in Section V of this decision, include the following:

1. The Applicants must delete section 5.18(b) from the APA.

2. The Applicants shall notify the OAG in writing of the closing date of the Asset Purchase as soon as reasonably possible after the date has been set. If the closing date changes, the Applicants shall notify the OAG in writing of the change as soon as reasonably possible.

3. The Applicants must submit to the OAG, within 30 days of closing, fully executed copies of the Asset Purchase Agreement, without schedules.

---

[5] As discussed in Section IV(H)(1) of this decision, the current estimate on the net proceeds to be transferred to the New Foundation is zero. In other words, after ECHN meets the obligations of its creditors and the provisions in the APA that require capital, there will be very little or nothing left over to transfer to the New Foundation.

4. As soon as reasonably possible after the Applicants have agreed to a Final Closing Statement of the transaction, the Applicants must provide the OAG a final accounting of the transaction that sets forth the balance sheets of ECHN immediately prior to and after the closing and that provides a net proceeds analysis.

5. After the closing, ECHN ("Legacy ECHN") shall hold and protect all charitable gift funds and any net proceeds from the Asset Purchase in its possession until they are transferred to the New Foundation or other charitable organization by order of a court of competent jurisdiction. However, Legacy ECHN may apply any charitable funds and/or net proceeds against pre-closing hospital liabilities and obligations, for costs of the winding down of Legacy ECHN, and for costs of establishing the New Foundation.

6. Legacy ECHN shall report quarterly to the OAG regarding (1) any and all income received by Legacy ECHN post-closing, including, but not limited to, Medicare and Medicaid reimbursements, income from charitable assets held by Legacy ECHN prior to transfer to the New Foundation, and any additional charitable funds received, and (2) all expenditures for Legacy ECHN.

7. When the requirements of the indemnity reserve have been fulfilled, and if there remain any funds in the indemnity reserve, they shall be considered ECHN's net proceeds and be treated accordingly.

8. Any income or unrestricted gifts received by Legacy ECHN post-closing shall be considered net proceeds.

9. The New Foundation shall include paragraph 14 as set forth in the draft Certificate of Incorporation in the final Certificate of Incorporation of the New Foundation, requiring Attorney General approval for changes to paragraphs 2, 5, 8, and 14 of the Certificate of Incorporation.

10. Legacy ECHN must present to the Superior Court, in coordination with the OAG, a petition for equitable deviation and approximation to transfer the unrestricted endowments to the New Foundation and to change the charitable purpose of the unrestricted endowments to the charitable purpose of the New Foundation.

11. Legacy ECHN must, in coordination with the OAG, include the restricted endowments in the Superior Court petition for an equitable deviation order. With respect to the Trotter, Baker, and Schortman funds, Legacy ECHN must seek an order of approximation, in addition to one for equitable deviation, to adjust the funds' charitable purposes to ones that come as close as possible to the donor's original charitable intent.

12. Legacy ECHN must, in coordination with the OAG, include any special funds that still have money in them in the Superior Court petition for an equitable deviation and approximation order.

13. Legacy ECHN must, in coordination with the OAG and the third-party trustees, bring any third-party trusts in need of approximation before a court of competent jurisdiction for appropriate orders.

14. Legacy ECHN must, in coordination with the OAG, include the Life Insurance Policy in the Superior Court petition for an equitable deviation order.

15. Any net proceeds from this transaction, including the earnings therefrom, shall be transferred to and then held by the New Foundation and used only for the support and promotion of healthcare in the ECHN community. The net proceeds shall never inure to the benefit of the for-profit hospital. The net proceeds shall forever be held by the New Foundation for the purposes articulated in the New Foundation's Draft Certificate of Incorporation, unless and until a court of competent jurisdiction orders otherwise.

16. Subject to subsequent Court order, the net proceeds held by the New

Foundation shall be considered an endowment fund, as that term is defined in the Connecticut Uniform Prudent Management of Institutional Funds Act, Conn. Gen. Stat. § 45a-535 et seq. ("CUPMIFA" ).

## III. PROCEDURAL HISTORY

On July 17, 2015, OHCA and the OAG received ECHN's certificate of need determination letter that set forth in summary fashion the terms of the APA between the Applicants.[6] Because the OAG determined that the APA required approval pursuant to § 19a-486 et seq., the OAG and OHCA on August 6, 2015, jointly sent the Applicants an Application Form regarding the APA.

The Applicants requested an extension of time to submit their Application, which both agencies granted, On October 13, 2015, the Applicants filed their Application for an Asset Purchase, which included 45 exhibits. Upon review of the Application, the OAG and OHCA determined that the Applicants' Application was not complete, and on October 30, 2015, it requested additional information from the Applicants. Before the Applicants had an opportunity to respond to the October 30 requests, the OAG and OHCA requested further information on November 12, 2015, related to the reports that PMH was up for sale. On November 23, 2015, the Applicants filed responses to the two sets of additional requests set forth by the OAG and OHCA. On December 11, 2015, OHCA issued one last set of completeness questions, to which the Applicant responded on December 24, 2015. On January 13, 2016, the OAG and OHCA determined that the Application was complete. In order to ensure the completeness of the record, the OAG and OHCA took administrative

[6] All docket documents referenced in this opinion can be found on the Attorney General's website: www.ct.gov/ag.

notice of the record in the Proposed Asset Purchase of Greater Waterbury Health Network, Inc., by Prospect Medical Holdings, Inc., OHCA Docket No. 15-31217-486, OAG Docket No. 15-486-02 (the "GWHN/PMH APA").

Pursuant to Conn. Gen. Stat. § 19a-486e, the OAG and OHCA conducted two public hearings regarding the proposed Asset Purchase, one in Manchester and one in Rockville. The Manchester public hearing was held on March 29, 2016, at 2:00 p.m. at the Manchester Country Club in Manchester, Connecticut. The Rockville public hearing was held on March 30, 2016, at 2:00 p.m. at the Elks Club in Rockville, Connecticut. No person sought intervenor status for the hearings. Conn. Gen. Stat. § 19a-486a(g). All parties submitted pre-filed testimony for the hearings.

The hearings were presided over by representatives from both the OAG and OHCA. Deputy Attorney General Perry Zinn Rowthorn served as the hearing office for the OAG. Also on the panel for the OAG were Assistant Attorney General Henry A. Salton and Assistant Attorney General Gary W. Hawes. Kevin Hansted served as the hearing officer for OHCA. Also on the panel for OHCA were Kimberly Martone, Director for OHCA, Steven W. Lazarus, Associate Health Care Analyst, and Carmen Cotto, Health Care Analyst.

At the hearings, all parties adopted their pre-filed testimony, and all exhibits on the table of record were entered into the record. At both hearings, the Applicants presented full testimony and were subject to cross-examination by OHCA and the OAG. In addition, the hearing panel heard approximately 20 public comments and accepted written public comments. Subsequent to the hearings, the OAG receive one additional public comment.

The Applicants filed late-filed exhibits with OHCA and the OAG on April 20, 2016. The record was closed on June 9, 2016.

## IV. FINDINGS OF FACT

Based upon the entire record of this Application, including all statements, testimony, and exhibits submitted by the Applicants, all public comments made at the hearing or submitted to the OAG in writing, the summary reports and exhibits submitted by the independent financial experts, and the record in the GWHN/PMH APA, we find the following.

### A. Parties and other relevant corporate entities

ECHN is a not-for-profit health care system that serves 19 towns in eastern Connecticut including Andover, Bolton, Coventry, Ellington, Manchester, South Windsor, Tolland, Vernon, Willington, Ashford, Columbia, East Hartford, East Windsor, Glastonbury, Hebron, Mansfield, Somers, Stafford, and Union (the "Service Area"). ECHN was formed in 1995 when Manchester Memorial Hospital and Rockville General Hospital joined as partners.

ECHN's care network consists of a number of wholly owned entities: MMH; RGH; ECHN ElderCare Services, Inc.; Visiting Nurse and Health Services of Connecticut, Inc. ("VNHSC"); A Caring Hand, LLC; Clinically Integrated Network of Eastern Connecticut, LLC; Connecticut Healthcare Insurance Company; ECHN Corporate Services, Inc.; Medical Practice Partners, LLC; ECHN Enterprises, Inc.; Haynes Street Property Management, LLC; Eastern Connecticut Medical Professionals Foundation, Inc.; and ECHN Community HealthCare Foundation, Inc.

ECHN has ownership interests in a number of community based services including the following joint ventures: Evergreen Endoscopy Center, LLC; WBC Connecticut East, LLC; Aetna Ambulance Service, Inc.; Metro Wheelchair Service, Inc.; Ambulance Service of Manchester, LLC; Connecticut Occupational Medicine Partners, LLC; Eastern Connecticut

Physician Hospital Organization, Inc.; Northeast Regional Radiation Oncology Network, Inc.; Tolland Imaging Center, LLC; Haynes Street Medical Associates, LLC; Haynes Street Medical Associates II, LLC; Evergreen Medical Associates, LLC; and Evergreen Medical Associates II, LLC

PMH is a Delaware corporation with its principal place of business located in Los Angeles, California. PMH is a healthcare services company that owns and operates thirteen acute care and behavioral hospitals located in Rhode Island, Texas, and California. PMH also owns a network of specialty and primary care clinics in each of its regions. Through PMH's medical group segment, PMH manages the provision of physician services to approximately 260,000 patients in Southern California, South Central Texas, and Rhode Island through a network of approximately 8,900 physicians.

PMH currently owns the following hospitals: Los Angeles Community Hospital; Los Angeles Community Hospital at Bellflower; Los Angeles Community Hospital at Norwalk; Southern California Hospital at Hollywood; Southern California Hospital at Van Nuys; Southern California Hospital at Culver City; Foothill Regional Medical Center; Nix Health (four campuses); Roger Williams Medical Center (RI); and Our Lady of Fatima Hospital (RI).

PMH aligns its hospitals and physicians under a model referred to as Coordinated Regional Care ("CRC"). CRC provides for clinical integration among hospitals, physicians and other medical, social and community providers working closely with strategic partner health plans and other payers under a value-based, global risk reimbursement payment system to achieve the triple aim of improved patient care and experience, better patient health, and lower costs.

**B. ECHN's Fiscal Condition**

ECHN's mission has been impeded since 2001 by various factors, including reduced reimbursement from government payors, limited access to the capital required to improve infrastructure and to recruit and maintain needed physicians, and mounting pension liabilities.

Starting in 2001, when ECHN lost more than $10 million, capital investments had to be deferred and long-term debt and pension liabilities continued to grow. The pension funding reforms of 2006 and the market crash of 2008 created additional financial problems for ECHN. Although ECHN took numerous steps to mitigate the losses from these events, it was still unable to make significant capital investments. ECHN's plans to expand and introduce new programs to help recruit physicians were also put off.

In addition to the financial challenges that ECHN faced at that time, federal and state regulation changed the landscape for health care provider reimbursements and tax burdens. These increased financial burdens over the period of ten years led the Board to consider affiliation options.

**C. The Search for Solutions and Partners**

In 2011 the ECHN Board authorized the establishment of a workgroup to evaluate whether benefits would be realized by affiliating with another health care system, or whether ECHN would better serve the community by remaining an independent system (the "Partnering Workgroup"). To assist the Partnering Workgroup in its evaluation, ECHN engaged The Chartis Group, LLC ("Chartis"), a national healthcare consulting firm. In September of 2012, the Partnering Workgroup presented its initial findings to the ECHN Board. The Partnering Workgroup concluded that affiliation with a larger health system would better position ECHN to achieve its goals, and the Board agreed.

From November 2012 through April 2013, the Partnering Workgroup worked with Chartis to develop and conduct a request for proposal (RFP) process for potential partners. RFPs were mailed to three nonprofit health systems and three for-profit health systems. Based upon an initial review of four indications of interest and the conclusion that affiliation appeared to be the best alternative, the ECHN Board created the Transaction Committee to thoroughly evaluate the proposals for affiliation.

After proper due diligence by the Transaction Committee and consideration of the Transaction Committee's recommendation by the ECHN Board, the Board selected a proposed joint venture between Yale New Haven Health System ("YNHHS") and Vanguard Health Systems, Inc. ("Vanguard") as the purchaser of ECHN. Before being able to negotiate a definitive Asset Purchase Agreement, however, ECHN learned that Tenet Healthcare Corporation ("Tenet") was going to acquire Vanguard. The Transaction Committee then performed its due diligence with respect to Tenet and recommended to the Board that ECHN continue with the contemplated transaction. The Board voted to approve the Transaction Committee's recommendation.

ECHN and Vanguard began the regulatory approval process in the summer of 2014 and submitted their application to the OAG and OHCA on October 24, 2014, and filed responses to completeness questions on November 25, 2014. On December 11, 2014, Tenet informed ECHN that it was withdrawing its application for the acquisition of ECHN citing

the proposed regulatory conditions that had been placed on its Application to form a joint venture with the Greater Waterbury Health Network, Inc. ("GWHN").[7]

While waiting to see if Tenet might return to Connecticut to pursue its acquisition of ECHN, the Board reaffirmed the need for ECHN to partner. To that end, and with the guidance of The Chartis Group, the Transaction Committee conducted a second RFP process. On February 6, 2015, RFPs were sent to the four systems that had expressed interest in partnering with ECHN and to two additional out-of-state systems that had approached ECHN with interest in an affiliation. ECHN received three responses.

While considering these proposals, two teams of Transaction Committee members and ECHN executives made visits to Los Angeles to tour PMH's management services organization that supports its independent physician practice associations (IPAs) and hospitals for risk-based contracting and population health management. The groups also toured Prospect's Southern California Hospital in Culver City and met with and interviewed representatives in the areas of governance, medical staff leadership, and administration from Prospect's Los Angeles Coordinated Regional Care Market.

Members of the Transaction Committee and ECHN executives also visited CharterCARE Health Partners' Roger Williams Medical Center in Providence, Rhode Island. CharterCARE Health Partners is PMH's coordinated regional care network comprised of Roger Williams Medical Center, Our Lady of Fatima Hospital, a skilled nursing facility, a regional cancer center, a rehabilitation center, a community primary care

[7] On December 11, 2014, Tenet withdrew its applications with respect to the Greater Waterbury Health Network, Inc., Saint Mary's Health System, Inc., Eastern Connecticut Health Network, Inc., and Bristol Hospital and Health Care Group, Inc.

center, a home health services company, an IPA, and a physician group practice based in Providence.

Based upon their due diligence with respect to all the proposals, the Transaction Committee chose to negotiate only with PMH in finalizing a proposed asset purchase agreement. After some of the open items in PMH's proposed APA were addressed through negotiations, the Transaction Committee unanimously recommended to the ECHN Board that it accept PMH's proposal to acquire substantially all of the assets of ECHN. After review, the Board unanimously approved the APA in substantially the form presented to them. The draft APA was then submitted to ECHN's Corporators for consideration. The ECHN Corporators approved the draft APA on July 29, 2015, with 165 voting in favor of the transaction and 4 against.

**D. The Proposed Transaction**

PMH or a PMH designated subsidiary (hereinafter, "PMH") will purchase substantially all of the assets of ECHN, including the properties, assets and businesses of, or ownership interests of ECHN affiliates. PMH will also purchase ECHN's interests in its or its affiliates' joint ventures.[8]

PMH will acquire real property, leased property, equipment, accounts receivable, and net working capital (*i.e.*, non-cash current assets less the value of all current liabilities) of ECHN and the ECHN affiliates. PMH will assume several key liabilities, including ECHN's unfunded pension liabilities, ECHN's health benefit plan for retirees, ECHN's

[8] The assets of ECHN Community HealthCare Foundation, Inc., will not be included in the assets purchased by PMH.

captive insurer liabilities (*i.e.*, Connecticut Healthcare Insurance Company), and ECHN's workers' compensation obligations.

PMH will exclude some current ECHN liabilities that will then remain the responsibility of ECHN's residual corporation following the transaction ("Legacy ECHN"). For example, PMH will not assume liabilities that could arise from lawsuits or tax settlements based on pre-closing activities. ECHN will exclude certain of its assets from the purchase, including certain cash and cash equivalents of ECHN; all short-term and long-term investments, but excluding ECHN's investment interests in the joint ventures; board-designated, restricted, and trustee-held or escrowed funds (such as funded depreciation, debt service reserves, self-insurance trusts, working capital trust assets, and assets and investments restricted to use), beneficial interests in charitable trusts, and accrued earnings on all of the foregoing.

PMH will pay $105,000,000 subject to the Net Working Capital reconciliation, minus the amount of certain ECHN liabilities assumed by PMH (*e.g.* ECHN's unfunded pension obligations, captive insurer liability, capital leases, and the workers' compensation liability), minus asbestos abatement liability of up to $1,000,000, and minus, in the event that ECHN is unable to assign and transfer to PMH ECHN's interest in an ECHN joint venture, a dollar amount to be fixed in advance for each ECHN Joint Venture.

ECHN's proceeds from the APA will first be used to settle all of ECHN's bond liabilities and all of ECHN's other indebtedness not otherwise assumed by PMH. The remaining proceeds will next be used to fund an indemnity reserve for a period of at least three years (the "Reserve Period") following the closing of the transaction for payment of ECHN liabilities to PMH that may arise post-closing. Any proceeds that remain after settling bond liabilities, settling other indebtedness, and funding the indemnity reserve will

be held by the residual ECHN corporation to be used for post-closing liabilities and wind down of operations. After expiration of the Reserve Period, any funds remaining in the Reserve and not used to pay claims will be transferred as directed by the Office of the Attorney General of the State of Connecticut with the expectation that such funds will be transferred to a nonprofit foundation and used to support charitable health related efforts in the ECHN Service Area.

After closing, PMH/ECHN, will develop a strategic capital plan with respect to the Hospital Businesses. PMH has committed to spend within five years of the closing not less than $75,000,000 (the "Commitment Amount") for the benefit of the Hospital Businesses and for the benefit of the Service Area of MMH and RGH. These expenditures may include: (i) capital projects, including routine and non-routine capital expenditures for the improvement of ECHN's facilities; (ii) development, expansion, or acquisition of a department, program, service or facility; (iii) upgrades or renovations generally; (iv) deferred maintenance items; and (v) capital expended in support of the recruitment of the hospitals' medical staff located in the hospitals' Service Area.

PMH will offer employment as of the closing to substantially all employees of ECHN and its affiliates who work at the hospital businesses, including employees on approved leaves of absence as of the closing. PMH will offer the hired employees salaries that are equal to their salaries as of the closing date and benefits packages that are comparable to those offered to similarly-situated employees at other hospitals operated by PMH. PMH will assume and honor ECHN's (and its affiliates') collective bargaining agreements.

For at least three years after the closing of the transaction, PMH will continue operating MMH and RGH in their current locations as acute care hospitals with emergency departments. Also, for at least three years after the closing of the transaction, PMH will

maintain an ownership interest in ECHN's current post-acute care continuum of care network and require any wholly owned entity involved with such post-acute care continuum of care network to maintain appropriate service lines during such three-year period. PMH will also ensure that each Hospital maintains and adheres to ECHN's current policies regarding charity care, indigent care, community volunteer services and community benefits (or adopts other policies that are at least as favorable to the community as ECHN's current policies).

PMH will maintain and support financially ECHN's University of New England medical student and other health professions teaching programs, as well as ECHN's graduate medical education programs, while operating at a level not to exceed the Indirect Medical Education and Direct Graduate Medical Education caps that may be established by the Centers for Medicare and Medicaid Services.

Following the closing, MMH and RGH will each maintain an advisory board made up of community representatives, physicians on the respective hospital's medical staff, and the Chief Executive Officer of the respective hospital (the "Local Board"). Among other things, the Local Board will serve as a resource for PMH with respect to PMH's investment of the capital commitment, assist with maintenance and implementation of a strategic business plan for the Hospitals, make recommendations for medical staff credentialing at the Hospitals, review and make recommendations regarding the quality assurance program at the Hospitals, and assist in issues relating to accreditation for the Hospitals.

ECHN agrees to maintain an indemnity reserve in the amount of $4,500,000 for a period of three years after the closing date so that PMH will have meaningful recourse against ECHN for any potential indemnification claims. If certain claims arise during this three year period, the indemnification reserve may be extended, but not beyond the fifth

anniversary of the closing date. The indemnification obligations of PMH's subsidiary buyer to ECHN are guaranteed by PMH.

**E. The Charitable Assets of ECHN**

Throughout its history, ECHN has received numerous charitable gifts, legacies and devises from generous individual donors and community fundraising efforts.[9] These gifts were given to one of four entities: Manchester Memorial Hospital, Rockville General Hospital, the ECHN Community HealthCare Foundation, Inc. (the "ECHN Foundation"), and ECHN Eldercare Services, Inc. As part of its Application, ECHN provided information and documentation of the charitable trusts and gifts of which its hospitals are the beneficiary or in which its hospitals claim an interest. Specifically, it provided copies of the gift documents themselves (Exhibit Q11-2 of the Application) and a spreadsheet (the "Gift Document Analysis"; Exhibit Q11-1 of the Application) that included a narrative description of each charitable gift, succession language where applicable, the name of the trustee of each gift, and a designation of whether each gift was an endowment and restricted as to purpose. The value of all the charitable gifts as of March 30, 2016, was $23,116,006.

The OAG reviewed the Gift Analysis provided by ECHN for accuracy and completeness. In addition, the OAG questioned ECHN on the due diligence undertaken to identify all of the underlying gift documents for the charitable funds. The OAG is satisfied

[9] Manchester Memorial Hospital, Rockville General Hospital, the ECHN Community HealthCare Foundation, Inc., and ECHN Eldercare Services, Inc., hold all of ECHN's charitable funds. For the sake of our discussion, we will refer generally to funds as being held by ECHN.

that ECHN has identified all the charitable funds in its possession and has met its burden to produce the underlying gift documents for each fund.

*1. Manchester Memorial Hospital*

We first catalog the charitable funds held by MMH.

*a. MMH Unrestricted Endowments*

Unrestricted endowments are charitable funds, the original gift instrument of which specifies that the sum donated is to be held and preserved as "principal," as a "fund," as an "endowment," or directs that the sum be held and invested, or added to an existing endowment fund, and further specifies that the annual income earned on said principal be applied to the general purposes of the hospital.

The following gifts are unrestricted endowments held by MMH:[10] Blish (11-1.1), Carpenter (11-1.2), Chapman (11-1.3), Coates (11-1.4), Dart (11-1.5), House (11-1.6), Porter (11-1.7), Rice (11-1.8), Stanley (11-1.9), Strant (11-1.10), Strickland (11-1.11), Ellis (11-1.12), Pinney (11-1.13), Hohenthal (11-1.14), Cheney (11-1.15), Campbell Cheney (11-1.16), Dewey (Albert) (11-1.17), Dewey (Jane) (11-1.18), Gardner (11-1.19), Piper 1 (11-1.20), and Piper 2 (11-1.21). As of March 31, 2016, the total value of these restricted endowments was $8,558,001.

*b. MMH Endowments Restricted to Purpose*

Endowments Restricted to Purpose are charitable funds, the original gift instrument of which specifies that the sum donated is to be held and preserved as "principal," as a "fund," as an "endowment," or directs that the sum be held and invested, but the purposes

[10]The numbers following the gifts represent the fund number as identified in the Application, Exhibit Q11-1.

to which the income may be put are restricted and cannot be applied to the general purposes of the hospital. One of the most common restrictions on hospital gifts directs the funds to be used for free bed care, i.e., to use the funds on behalf of persons unable to pay for the hospital services provided (a "Bed Fund"). MMH holds six Bed Funds: Drake (11-1.22), Hills Preston (11-1.23), Boynton (11-1.24), Loomis (11-1.25), Cheney Disher (11-1.26), and Keeney (11-1.27). MMH's Bed Funds are valued at $541,728 as of March 31, 2016. MMH holds two additional endowments restricted to purpose: Trotter (11-1.28) (for the benefit of children patients) and Wright (11-1.29) (for the benefit of the fight against cancer). The Trotter and Wright funds have a total value of $6,629 as of March 31, 2016.

*c. MMH Miscellaneous Funds*

MMH has interests in two additional funds: Damato (11-1.30) and a life insurance policy (11-1.31). The Damato estate is an unrestricted gift, with an undetermined value at this time. The date of final distribution is unclear at this time due to the complexity of liquidating the assets in the estate, particularly the real estate assets.

The current value of the life insurance policy is $58,147.

The total value of gifts held by MMH as of March 31, 2016, is $9,164,514.

*2. Rockville General Hospital*

*a. RGH Unrestricted Endowments*

The following gifts are unrestricted endowments held by RGH: Bissell (11-1.32), Maxwell (11-1.33), Goodale and Risley (11-1.34), United German Society (11-1.35), Prescott (11-1.36), Maxwell (11-1.37), Smith (11-1.38), Doss (11-1.39), Wood (11-1.40), Henry (Maud) (11-1.41), Henry (Lenore) (11-1.42), Charter (11-1.43), Bilson (11-1.44), Belding (11-1.45), Bradley (11-1.46), Britton (11-1.47), Sprague (11-1.48), Doane (11-1.49), Keney (11-1.50), American Red Cross (11-1.51), Talcott (11-1.52), Maxwell (11-1.53), Metcalf (11-1.54), and

Henry (11-1.55), As of March 31, 2016, the total value of these unrestricted endowments was $8,989,027.

*b. RGH Endowments Restricted to Purpose*

RGH holds eight Bed Funds: DAR (11-1.56), Prescott (11-1.57), Phelps (11-1.58), Winchell-Foster (11-1.59), Tucker (11-1.60), Whitlock (11-1.61), Sykes Phelps (11-1.62), and Kress (11-1.63). RGH's Bed Funds are valued at $288,358 as of March 31, 2016. MMH holds two additional endowments restricted to purpose: Baker Family (11-1.64) (for the upkeep and physical maintenance of the Hospital) and Schortmann (11-1.65) (for the operation or improvement of the maternity and nursery facilities of the Hospital). The Baker Family and Schortmann funds have a total value of $278,769 as of March 31, 2016.

*c. RGH Miscellaneous Funds*

RGH has interests in two charitable gift annuities, but one of the two joint annuitants has now lived beyond the projected life expectancy. The annuities are now contractual liabilities of the Hospital, and ECHN is looking to terminate these arrangements at fair value. Names of the original grantors have been withheld. (11-1.77 and 11-1.78).

The total value of gifts held by RGH as of March 31, 2016, is $12,374,200.

*3. ECHN Community Healthcare Foundations, Inc.*

*a. Endowments*

The ECHN Foundation holds several funds for the benefit of MMH and RGH. With respect to MMH, the ECHN Foundation holds the following unrestricted endowments: Burgess (11-1.79), St. Laurent (11-1.80), and Piper (11-1.81). The total value of these three gifts as of March 31, 2016 is $1,285,023. With respect to RGH, the ECHN Foundation holds the follow endowments with restricted purposes: Maxwell (11-1.82) (for the benefit of the

normal maintenance and repair of the Maxwell Home and its grounds) and Risley Scholarship (11-1.83) (for the benefit of nurses' continuing education). The total value of these two funds as of March 31, 2016, is $282,289. The total value of funds held by the ECHN Foundation is $1,567,312.

*b. Special Purpose Funds*

The ECHN Foundation holds a dozen funds that are fully expendable but have restricted purposes. If ECHN does not deplete these funds for their intended purpose prior to the closing, they will remain with Legacy ECHN to be transferred to the New Foundation or another charitable organization to fulfill the fund's intended charitable purpose. The special funds are as follows: Avis Lloyd Tree of Life (11-2.1), Team Towanda (11-2.2), Employee Care (11-2.3), Breast and Cervical Cancer (11-2.4), Adult Ambulatory Administrative Education and Development (11-2.5), Purcell Golf Classic Trophies (11-2.6), Woodlake at Tolland Wishes Program (11-2.7), Van (11-2.8), Risley (11-2.9), Fields (11-2.10), and Woodlake: Resident Council (11-2.11). The total value of the special funds held by the ECHN Foundation is $9,979.

*4. Trusts Held by Outside Trustees*

All the charitable funds identified above are held and administered by ECHN. There is a series of charitable gift funds, however, that are not held by ECHN but by outside trustees and for which ECHN holds the beneficial interest.

*a. For the Benefit of MMH*

There are seven funds held by outside trustees for the benefit of MMH: Barton (11-3.1), Clark (11-3.2), Morton (11-3.3), Robertson (11-3.4), Crowell (11-3.5), Ferguson (11-3.6), and Rogers (11-3.7).

*b. For the Benefit of RGH*

There are three funds held by outside trustees for the benefit of GWH: Dillon (11-3.8), Moxon (11-3.9), and Barton (11-3.10).

The market value of the corpus of the trusts held by outside trustees for the benefit of ECHN was $10,903,971 on March 31, 2016.

## V. LEGAL ANALYSIS AND REQUIRED MODIFICATIONS

Conn. Gen. Stat. § 19a-486a *et seq*. directs that any nonprofit hospital that enters into an agreement to transfer a material amount of its assets or operations with an entity operated for profit must first obtain the approval of OHCA and the OAG. Any agreement made without these approvals is deemed void.

Conn. Gen. Stat. § 19a-486c mandates that the Attorney General shall disapprove a proposed sale of a nonprofit hospital to a for-profit entity as not in the public interest if he determines that one or more of nine conditions exist.[11] The Conversion Act, however, allows the Attorney General to approve an application while setting forth modifications and/or conditions that would bring the proposed transaction into compliance with the conditions in § 19a-486c. What follows, therefore, is the OAG's analysis and discussion of the statutory criteria in § 19a-486c and the modifications and conditions to the Asset Purchase Agreement that are necessary to satisfy those criteria.

### A. The transaction is not prohibited by Connecticut statutory or common law governing nonprofit entities, trusts or charities.

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(1), the Attorney General shall disapprove a proposed agreement if he determines that the transaction is prohibited by

[11] See footnote 1.

Connecticut statutory or common law governing nonprofit entities, trusts, or charities. Subject to the modifications and conditions set forth in Section II(D) of this decision, we conclude that the Asset Purchase is not prohibited by statutory or common law governing nonprofit entities, trusts, or charities.

**B. ECHN exercised due diligence.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2), the Attorney General is required to determine whether the nonprofit hospital exercised due diligence in four distinct areas. The phrase "due diligence" is not defined by the Conversion Act, but Black's Law Dictionary (6th ed. 1990) defines it as: "Such a measure of prudence, activity, or assiduity, as is properly to be expected from, and ordinarily exercised by, a reasonable and prudent man under the particular circumstances; not measured by any absolute standard, but depending on the relative facts of the special case." In short, therefore, we review the level of care and prudence that the ECHN Board exercised in deciding to enter into the APA with PMH.

Based upon our and our expert's review of the materials presented as a part of the ECHN and PMH Application and the testimony given at the public hearings, it is clear that ECHN undertook an extensive and diligent process to explore strategic options and to identify a capital alternative that would enable it to address its difficult financial position. ECHN has faithfully pursued its mission to ensure quality healthcare for the Manchester and Rockville communities. As noted in the findings of fact, ECHN's efforts began in 2011 with the establishment of the Partnering Workgroup and the hiring of Chartis. Every step that followed in ECHN's pursuit of a capital partner was reviewed by a Transaction Committee, the Board of ECHN, and for significant issues, the ECHN Corporators. ECHN pursued discussions with multiple strategic partners, evaluated a range of transaction

structures, and explored multiple strategies to access capital. Our specific due diligence findings follow.

*1. ECHN exercised due diligence in deciding to participate in the APA.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(A), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in deciding to transfer its assets. The record reveals a compelling case for ECHN to transfer substantially all of its assets as a means to assure the long-term viability of MMH and RGH.

ECHN engaged in a decision-making process that was reasonable, thoughtful, and thorough. In short, its ultimate decision to transfer substantially all of its assets to PMH demonstrated due diligence under the circumstances. As noted in the findings of fact, ECHN pursued a range of strategic initiatives to address the hospital's financial constraints, aging facilities, and limited access to capital. Without a feasible alternative available, the ECHN Board reasonably concluded that the sale of its assets to another hospital system was an appropriate solution for long-term viability of the hospitals. We, therefore, conclude that ECHN exercised due diligence in deciding to transfer substantially all of its assets as a part of the APA.

*2. ECHN exercised due diligence in selecting PMH for the Asset Purchase.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(B), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in selecting the purchaser. Based on the record in this case, ECHN has established that it exercised due diligence in selecting PMH to purchase substantially all of its assets.

The full history of ECHN's search for a capital partner is described in detail in the findings of fact. With respect to the initiative that resulted in the APA with PMH, however, we conclude that ECHN took appropriate and considered steps to identify the best situation for MMH and RGH. ECHN conducted a second RFP process with the guidance of Chartis, delivering the RFP to six potential partners, including PMH. By mid-March in 2015, ECHN had received three proposals. The Transaction Committee reviewed the proposals and evaluated each in light of the selection criteria approved by the Board, including quality of care. The Transaction Committee then performed its due diligence with respect to the potential partners, reviewing financial, quality, and corporate compliance data for each of the potential partners. With respect to PMH, members of the Transaction Committee visited PMH's California and Rhode Island operations.

On June 22, 2015, the Transaction Committee voted unanimously to recommend acceptance of the PMH proposal. On June 25, 2015, the Board held a retreat during which it considered the proposals received from the potential partners, ultimately voting in favor of the PMH proposal. The draft APA was then sent to ECHN's Corporators for their review, who approved entering the transaction in overwhelming numbers.

On or about the beginning of February 2016, after the hospital conversion application process had begun with the OAG and OHCA, ECHN learned that recent Medicare and Medicaid surveys at two of PMH's California hospitals (Los Angeles Community Hospital and Southern California Hospital at Culver City) had resulted in findings of Immediate Jeopardy by regulatory authorities at both hospitals. After learning about these determinations, ECHN appointed a Quality Evaluation Team that looked into the Immediate Jeopardy findings to determine whether the findings were sufficiently substantial to call into question PMH's fitness as a transaction partner. After a thorough

investigation, the Quality Evaluation Team determined that "the recent compliance issues present isolated challenges that [PMH] has demonstrated a strong commitment to remediate through corrective actions that are already in progress." (Testimony of Joy Durin, Vice Chair, Board of Trustees, Chair, Transaction Committee, p. 3350.) This conclusion was shared with the Transaction Committee, approved by them, sent to the Board, and the board approved the recommendation. In addition to the investigation performed by the Quality Evaluation Team, ECHN negotiated a Quality Assurance Commitment with PMH that requires PMH to maintain ECHN's quality programs for at least two years following the closing of the transaction. In addition, it requires PMH to maintain quality assurance and performance improvement programs that are consistent with industry best practices and quality improvement programs as currently implemented in PMH's Rhode Island facilities. Based on the evidence presented to the OAG, we conclude that ECHN exercised due diligence in selecting PMH as its partner for the APA and in confirming that selection after PMH's Immediate Jeopardy findings came to light.

*3. ECHN exercised due diligence in obtaining a fairness evaluation.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(C), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in obtaining a fairness evaluation from an independent person expert in such agreements.

ECHN's fairness evaluation was conducted by Duff & Phelps, LLC ("Duff & Phelps"), who had no previous material relationship with any party to the transaction, except for having previously provided an independent fairness opinion regarding the proposed ECHN/Tenet transaction. In addition, no portion of Duff & Phelps fee was contingent on

the conclusion expressed in the fairness opinion or on the successful consummation of the transaction.

Therefore, we conclude that the ECHN Board exercised due diligence in obtaining a fairness evaluation regarding the terms of the proposed APA from an independent entity expert in such agreements.

*4. ECHN exercised due diligence in negotiating the terms and conditions of the APA.*

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(2)(D), the Attorney General shall disapprove a proposed agreement if he determines that the nonprofit hospital failed to exercise due diligence in negotiating the terms and conditions of the transfer.

Our review of the transaction leads us to conclude that ECHN exercised due diligence in negotiating most of the terms and conditions of the APA. As discussed below, we believe ECHN will receive at least the fair market value for its assets. In addition, ECHN negotiated a capital commitment of $75 million for the for-profit ECHN hospital system ("PMH/ECHN") over the next five years. Other highlights include PMH's retention of ECHN employees, the assumption by PMH of the unfunded pension liabilities, the formation of local advisory boards for each hospital, and PMH's commitment to maintain ECHN's current policies regarding charity care, indigent care, and community benefits.

One provision in the APA, however, stands out as unreasonable in light of the details of the transaction as a whole. Section 5.18 of the APA concerns PMH's $75 million capital commitment, and subsection (b) of this section provides as follows:

> *Notwithstanding the above capital commitment, in the event that any Legal Requirement is enacted or imposed by the State of Connecticut after Closing that discriminates against, or adversely affects a disproportionate number of for-profit hospitals and causes the Hospital Businesses to suffer a decline in EBITDA of more than ten (10) percent in any year, on a consolidated basis, then, Buyer may defer in its discretion the above capital commitment beyond the five-year period*

> *provided in Section 5.18(a) but only to the extent of the decline in EBITDA resulting from the discriminatory Legal Requirement. To the extent Buyer desires to defer the capital commitment as a result of a discriminatory Legal Requirement, (i) Buyer shall make available to the public reasonably detailed information to support Buyer's position (provided that in no event shall Buyer be required to disclose any information that is subject to a confidentiality or other similar arrangement) and (ii) Buyer shall consult with the Local Board to determine an alternate mutually agreeable timeframe to complete the capital commitment that is reasonable and appropriate in light of the changed circumstances caused by the new Legal Requirement.*

(Exhibit Q3-2, Asset Purchase Agreement, p. 182.)

Although PMH may wish to hedge against future changes in the legal landscape, it cannot hold the ECHN capital investment hostage by such a provision. To do so would render the $75 million capital commitment – a key term of the deal – subject to delay upon the future actions of legislators. Put differently, we believe that PMH must bear the risk of future legislation and not PMH/ECHN. The $75 million capital commitment is indeed a commitment, and the deadline by which it must be spent must be honored. Accordingly, as a condition to approval of the proposed transaction, the OAG requires that the Applicants modify the APA by deleting section 5.18(b) from the APA.

### C. ECHN Disclosed Any and All Board Member, Officer, Key Employee, and Expert Conflicts of Interest With Respect to the APA.

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(3), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the nonprofit hospital failed to disclose any conflict of interest, including but not limited to, conflicts of interest pertaining to board members, officers, key employees, or experts of ECHN, the purchaser, or any other party to the transaction.

The Applicants provided the OAG with individual conflict of interest statements for each relevant individual (board member, officer, etc.) employed by ECHN, its experts, and

PMH. Each individual was required to respond to individual questions regarding possible financial, beneficial, and/or employment related conflicts of interest. If any of the questions were answered with anything other than an unqualified "No," the individual was required to attach an explanation to the statement. These statements were reviewed by the OAG and Navigant.

Section 5.03 of the APA requires PMH "to employ as of the Closing Date substantially all employees of Seller and its Affiliates who work at the Hospital Businesses." (Exhibit Q3-2, Asset Purchase Agreement, p. 171.) Therefore, employees of ECHN, including ECHN's officers and key employees, have been offered employment with PMH as a part of the transaction. This general provision, however, does not create a conflict of interest for the purposes of this statutory element.

After a careful review of all the conflict of interest responses, there do not appear to be any conflicts of interest with this proposed transaction that exist outside of the APA itself. In addition, no intervenor or other participant in the proceeding has offered any credible evidence that any conflict existed at any time during the negotiation of the APA. Accordingly, we conclude that no conflicts of interest exist that would require disapproval of the APA.[12]

**D. ECHN will receive fair market value for its assets.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(4), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the

[12] ECHN's process to ensure that no individual with a conflict of interest voted on this transaction was very thorough. Indeed, ECHN created a Conflict of Interest Task Force specifically for this purpose. The Board voted on all transaction-related resolutions pursuant to a two-step process to help ensure that any personal interest in any of the transaction decisions made would be eliminated.

nonprofit hospital will not receive fair market value for its assets. For purposes of the Conversion Act, "fair market value" is defined as

> the most likely price that the assets would bring in a sale in a competitive and open market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and in their own best interest, and with a reasonable time being allowed for exposure in the open market.

Conn. Gen. Stat. § 19a-486c(a)(4).

PMH has agreed to pay $105 million as compensation for substantially all of ECHN's assets. Two independent financial experts have reviewed the transaction to determine whether ECHN will receive fair market value for its assets, and both have concluded that the purchase price of $105 million equals or exceeds the fair market value of ECHN's assets.

As discussed above, ECHN retained Duff & Phelps to provide it with an independent valuation and fairness opinion regarding the transaction.[13] Duff and Phelps considered three principal methods of valuation: discounted cash flow, guideline company, and M&A transaction. These approaches indicated that the fair market value of ECHN was well below the price PMH had agreed to pay for substantially all of the assets of ECHN. Duff & Phelps's mid-point estimate for ECHN, without the joint ventures, was $57.1 million. Duff & Phelps used a market and a capitalized cash flow approach to estimate the value of ECHN's joint ventures as $13.1 million. The total estimated fair market value for ECHN as determined by Duff & Phelps, therefore, is $70.2 million. As such, Duff and Phelps was able conclude in its fairness opinion that "the consideration to be received by [ECHN] in the

[13] The OAG has previously concluded that ECHN exercised due diligence in selecting Duff & Phelps to perform the independent fairness evaluation on its behalf.

Proposed Transaction is fair from a financial point of view to the Company." (Exhibit Q7-4, Duff & Phelps' Fairness Opinion Letter, p. 836.)

Navigant was hired though an RFP process to be the OAG's financial expert for the purposes of reviewing this transaction. Navigant has also concluded that ECHN will receive fair market value for the transfer of its assets.[14] In performing its fair market value analysis, Navigant considered the three generally accepted approaches to value: income, market, and cost. Navigant valued ECHN's assets as value-in-continued use, as part of a going concern. Based upon these valuation methods, Navigant estimated the total fair market value of ECHN, including the joint ventures, to be $63,750,000. Navigant's analysis supports the conclusion that ECHN will receive fair market value for the transfer of its assets.

Based on the independent financial assessments of two respected hospital valuation firms, and the lack of evidence to the contrary in the record, we conclude that ECHN will receive fair market value for its assets.

**E. The fair market value of the assets has not been manipulated by any person in a manner that causes the value of the assets to decrease.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(5), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the fair market value of the nonprofit hospital's assets has been manipulated by any person in a manner that causes the value of the assets to decrease.

Navigant performed reviews of ECHN's financials and assets and found no indication that the fair market value of ECHN's assets had been manipulated. No

[14] Navigant's report is attached hereto as Exhibit A.

intervenor or other participant in the proceeding has offered any evidence that the fair market value of ECHN's assets has been manipulated to artificially lower the payment price. Based on these factors, we conclude that the fair market value of ECHN's assets has not been manipulated.

**F. The financing of the transaction will not place ECHN's assets at an unreasonable risk.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(6), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the financing of the transaction by the nonprofit hospital will place the nonprofit hospital's assets at an unreasonable risk. Consistent with the OAG's interpretation of this provision in *Sharon*, we interpret this statutory provision to require our examination of the proposed financing of the transaction to ensure that the APA does not "burden the for-profit entity with so much debt that the transferred assets of the former nonprofit hospital, albeit now operated for profit, will be placed at an unreasonable financial risk of closure or bankruptcy—an event that would result in a loss of healthcare for the affected community." *In re Sharon Hospital*, Docket No. 01-486-01, p. 64 (2001).

Based upon the record, we conclude that the financing of this transaction will not place ECHN's assets at risk. PMH confirmed on the record that the $105 million purchase price for ECHN's assets will be financed with operating cash from PMH. More specifically, PMH represented that it has the financial capacity to provide the necessary capital to purchases ECHN's assets without transaction-specific financing arrangements. After its review of the transaction, Navigant concluded that PMH will not incur any debt financing to consummate the transaction, and so, ECHN's assets would not be put at an unreasonable risk.

As such, we conclude that the assets of ECHN will not be placed at an unreasonable risk due to the financing of the transaction.

**G. The management contract contemplated under the transaction is for reasonable fair value.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(7), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that any management contract contemplated under the transaction is not for reasonable fair value. No management contract is contemplated under the APA. Accordingly, we conclude that this element of the analysis has been met.

**H. Assuming compliance with the modifications imposed below, a sum equal to the fair market value of ECHN's assets is being transferred to the New Foundation to provide only for charitable health care services in the affected community.**

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(8), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that:

> a sum equal to the fair market value of the nonprofit hospital's assets (A) is not being transferred to one or more persons to be selected by the Superior Court who are not affiliated through corporate structure, governance or membership with either the nonprofit hospital or the purchaser, unless the nonprofit hospital continues to operate on a nonprofit basis after the transaction and such sum is transferred to the nonprofit hospital to provide health care services, and (B) is not being used for one of the following purposes: (i) For appropriate charitable health care purposes consistent with the nonprofit hospital's original purpose, (ii) for the support and promotion of health care generally in the affected community, or (iii) with respect to any assets held by the nonprofit hospital that are subject to a use restriction imposed by a donor, for a purpose consistent with the intent of said donor.

This provision in the Conversion Act advances the important policy that the value of the nonprofit hospital be preserved for charitable healthcare purposes in the service area that the nonprofit hospital previously served. In addition, it restates the OAG's statutory

responsibility to protect the public interest in the protection of gifts made for charitable or public purposes codified at Conn. Gen. Stat. § 3-125.

The language of Conn. Gen. Stat. § 19a-486c(a)(8) requires the OAG to assess several different issues in connection with the APA. We must first analyze, determine, and approve a value that is the "sum equal to the fair market value of the nonprofit hospital's assets." Second, we must analyze the nature and purpose of the entity to which that sum is being transferred. Third, we must determine and require that the transferred sum is used only for the statutorily identified charitable purposes. Last, we are required to inventory all gift documents and restricted charitable assets currently held by ECHN and identify any approximation and/or equitable deviation needs in connection with these assets.

1. *A Sum Equal to the Fair Market Value of ECHN is Being Transferred to the New Foundation.*

The term "fair market value" is used in several places in subsection (a) of § 19a-486c. As discussed in the OAG's *Sharon* decision, and more fully below, fair market value has two distinct meanings depending on which section of the Conversion Act the term is used.

Subsection (4) of § 19a-486c requires us to ensure that the nonprofit hospital receives fair market value for its assets. As discussed earlier, subsection (4) defines "fair market value" as the likely price that the assets would bring in a sale in a competitive and open market. Subsection (4) is looking for the gross asset value.

If fair market value were computed for purposes of subsection (8) as it is for subsection (4), though, the nonprofit hospital might be left transferring to a conversion foundation the proceeds of its sale, but leaving the nonprofit hospital no ability to pay off its liabilities post-closing with some portion of those proceeds. Such a result is nonsensical, because a primary goal of a nonprofit hospital's sale of assets is the extinguishment of

corporate liabilities. For example, in the case of ECHN, its long-term bond debt will be paid off with proceeds from the sale of its assets.

The definition we use for fair market value for purposes of subsection (8), therefore, is more appropriately the price paid for the nonprofit hospital's asset minus the amount of its debt obligations and other liabilities that it will resolve using the proceeds of the proposed transaction. In other words, fair market value equals the net proceeds of the nonprofit hospital. *In re Sharon Hospital*, OAG Docket No. 01-486-01, p. 69 (2001). With respect to ECHN, the net asset value calculation must take into account all retained assets and liabilities, including, for example, cash, accounts receivable, any adjustment to the net working capital figure, its long-term debt, workers' compensation and medical malpractice liability relating to events occurring prior to closing, and any payor liabilities and obligations from reporting periods prior to closing.

Late Filed Exhibit 8 (App., p. 4261) sets forth the most current numbers on what proceeds will remain after netted with ECHN's liabilities. In short, this exhibit projects that nothing will remain after ECHN pays off its liabilities. In fact, it appears that ECHN will not even have sufficient assets to fund the indemnity reserve or to fully pay for its liabilities in excess of $77 million (the excess liability is currently tallied at $7,924,000), both obligations of ECHN. Given these numbers, we conclude that the sum that is equal to the fair market value of ECHN is currently zero.

However, the post-transaction nonprofit ECHN, Legacy ECHN, may receive funds after the close. For example, Legacy ECHN may receive reimbursements due from Medicare and Medicaid for the years prior to the closing. Also, Legacy ECHN will receive income from the unrestricted endowments during the time period between the close of the transaction and the Superior Court order that will transfer all charitable assets from

Legacy ECHN to the New Foundation. Moreover, Legacy ECHN, including Legacy MMH and Legacy RGH, may receive charitable distributions from pending estates, i.e., the Damato estate. This income will initially be used to pay off ECHN's liabilities and to fund the indemnity reserve, both obligations of ECHN.[15] After these obligations are paid or funded, however, any funds remaining would constitute net proceeds.

Because the final net proceeds value of the nonprofit hospital cannot be precisely identified prior to the actual closing of the transaction, the determination of a sum equal to the fair market value for the purposes of subsection (8) must await a post-closing accounting. Accordingly, as soon as reasonably possible after the Applicants have agreed to a Final Closing Statement of the asset purchase, the Applicants must provide the OAG a final accounting of the transaction that sets forth the balance sheets of ECHN immediately prior to, and Legacy ECHN immediately after, the closing and that provides a net proceeds analysis, substantially similar to Late Filed Exhibit 8 with explanations of any changes to the figures. This requirement is a condition of approval for the proposed transaction.

Additionally, because Legacy ECHN will receive income post-closing that may constitute net proceeds, Legacy ECHN shall, as a condition to the OAG's approval of the transaction, report quarterly to the OAG regarding (1) any and all income received by Legacy ECHN post close, including, but not limited to, Medicare and Medicaid reimbursements, income from charitable assets held by Legacy ECHN prior to transfer to the New Foundation, and any additional charitable funds received, and (2) all expenditures for Legacy ECHN.

---

[15] Legacy ECHN could also use these funds to finance wind-down costs, but Exhibit 8 already includes a line item for "Post-closing Pool 'Wind Down' Funds." Regardless, wind down costs are an appropriate expense for Legacy ECHN.

Last, if the transaction ultimately produces net proceeds, that amount will be transferred to the New Foundation for use consistent with the charitable purpose of the New Foundation.

*2. The Nature of the Conversion Foundation Complies with the Conversion Act.*

The Conversion Act requires that the net asset value of the nonprofit hospital be transferred to "one or more persons to be selected by the Superior Court who are not affiliated through corporate structure, governance or membership with either the nonprofit hospital or the purchaser, unless the nonprofit hospital continues to operate on a nonprofit basis after the transaction and such sum is transferred to the nonprofit hospital to provide health care services." Conn. Gen. Stat. § 19a-486c(8)(A). This provision prohibits improper affiliation with the new for-profit hospital.

ECHN has submitted a draft certificate of incorporation ("COI") and draft bylaws for the New Foundation. By these submissions, ECHN is proposing to create an "independent conversion foundation." This particular type of foundation is completely independent from both the nonprofit hospital and the for-profit purchaser and must be approved by the Superior Court. There can be no affiliation by corporate structure, governance, or membership.

The draft documents comply with the requirements of the statute. The New Foundation will have no corporate relationship with PMH/ECHN, and the governing members of the New Foundation will not contemporaneously serve in any governing position at PMH/ECHN or at any of its affiliates. In addition, any individual who serves as member of a governing board at PMH/ECHN must wait two years before serving on the governing board of the New Foundation. (Exhibit Q10-2, New Foundation Bylaws (Draft), pp. 917-18.) The New Foundation meets the affiliation requirements of § 19a-486c(8)(A).

The New Foundation will also be operated for the proper purposes, as set forth in the Conversion Act. Section 19a-486c(a)(8)(B) provides that the New Foundation must be operated:

> (i) For appropriate charitable health care purposes consistent with the nonprofit hospital's original purpose, (ii) for the support and promotion of health care generally in the affected community, or (iii) with respect to any assets held by the nonprofit hospital that are subject to a use restriction imposed by a donor, for a purpose consistent with the intent of said donor . . . ."

§ 19a-486c(a)(8)(B).

In its draft COI, the New Foundation lists it purposes as follows:

> (a) To maintain and improve the health of the residents of the area historically served by Eastern Connecticut Health Network, Inc., Manchester Memorial Hospital, Inc., and Rockville General Hospital, Inc., specifically, the nineteen communities of Manchester, Vernon (including Rockville), Andover, Ashford, Bolton, Columbia, Coventry, East Hartford, East Windsor, Ellington, Glastonbury, Hebron, Mansfield, Somers, South Windsor, Stafford, Tolland, Union, and Willington (the "Communities");
>
> (b) To support or conduct community health needs assessments and encourage and support efforts to improve the health of the Communities, including the poor, the elderly, the disabled, children, and other underserved and at-risk populations;
>
> (c) To support and engage in community projects, activities, and programs that will improve access to care and enhance the health of residents, including, but not limited to, preventative health programs and health education;
>
> (d) To solicit and accept additional funds to support the Corporation's purposes, and to make grants and provide financial and other support to other non-profit organizations engaged in activities that further the Corporation's purposes;
>
> (e) To support and promote the education and training of medical professionals and providers in the area;
>
> (f) To work cooperatively with Prospect Medical Holdings, Inc. ("PMH") to ensure and augment a network of affordable and accessible health and medical care in the region; provided, however, that the

> Corporation will not support programs operated by or for the direct benefit of PMH while it operates as a for profit entity; and
>
> (g) To engage in any lawful act or activity for which a corporation may be organized under the Revised Nonstock Corporation Act of the State of Connecticut in furtherance of the foregoing.

(Exhibit Q10-1, Certificate of Incorporation (Draft), pp. 911-12.) These purposes are consistent with the requirements in the Conversion Act.

*3. The Transferred Sum Will Be Used Only for the Statutorily Identified Charitable Purposes.*

ECHN currently predicts that it will have no net proceeds to transfer to the New Foundation after the closing. Should a subsequent accounting of the transaction reveal net proceeds, however, we must ensure that they will forever be used for their proper charitable purpose. The draft COI established the proper charitable purposes, but the primary mechanism to ensure that they will be used as such forever is the requirement that the New Foundation Board receive the consent of the Attorney General for the amendment of specific sections of the COI, specifically, paragraphs 2, 5, 8, and 14. In this way, the purposes of the New Foundation (paragraph 2 of the COI) cannot change unless the Attorney General agrees. Accordingly, as a condition to the Attorney General's approval of the Application, the New Foundation must include paragraph 14 in the draft COI in the final COI of the New Foundation, requiring Attorney General approval for changes to paragraphs 2, 5, 8, and 14 of the Certificate of Incorporation.

*4. Description and Quantification of the Nonprofit Hospital's Charitable Assets to be Held by the New Foundation*

Our final area of concern is to ensure that the charitable assets of ECHN, which have been held in trust for the public, are safeguarded and used for the promotion of

healthcare in the area served by ECHN after the sale of its assets to PMH. We must also ensure that any restrictions contained in these charitable gifts and trusts are protected.

*a. Purpose of Attorney General's Review of Charitable Gifts*

A full analysis and review of ECHN's charitable gifts and trusts at this time is essential for several reasons. First, it permits us to fulfill our statutory obligation to ensure that all of ECHN's charitable gifts and trusts are used for a purpose consistent with the intent of the donor. In other words, this review ensures that ECHN's analysis and treatment of charitable funds in the Application correctly interprets the donors' charitable use restrictions. Second, it ensures that, with respect to the charitable gifts, no aspect of the transaction is "prohibited by Connecticut statutory or common law governing nonprofit entities, trusts or charities." Conn. Gen. Stat. § 19a-486c(a)(1). Finally, it provides subsequent holders of the funds, i.e., the New Foundation, with accurate information about whether and how the gifts are restricted under Connecticut law so that it can administer them in accordance with donor restrictions, charities law, the terms of the contractual agreements, and modifications required in this decision.

*b. Documents Reviewed and Legal Standards*

As part of the Application, ECHN provided a review and analysis of its charitable gifts and endowments. (Exhibit Q11-1, Detail on Specific Funds, p. 927-976.) ECHN was required to provide copies of the gift instruments (including wills, inter vivos trust agreements, and documentation of inter vivos gifts), to document the current values of the funds, and to describe the donor's restrictions or directives reflecting how the gift was to be used by ECHN. The purpose of the OAG's request was to obtain the information necessary to: (1) review the gift instrument for each of ECHN's gifts to determine whether its language would permit the gift to be transferred to another nonprofit, or whether a reverter

clause or gift-over provision would be triggered by the sale of assets that would require the donation to revert to a different person, and (2) determine whether the donor restricted the use of a fully expendable gift, or the income earned on an endowment fund, to a particular charitable purpose set out in the gift instrument, for example, free beds, charity care, maintenance, a building fund, or research.

The OAG reviewed each charitable gift and its supporting documentation to confirm the accuracy of ECHN's conclusions regarding the proper charitable purpose of the fund and any spending restrictions on the fund.

*c. Amount Stated by Hospital in Application*

ECHN has stated that as of September 30, 2015, it held $23,356,291 in charitable assets, plus an additional $19,349 in special funds. Thus, according to its figures as of that date, it held a total of $23,375,640 in charitable gifts. In addition, the value of trusts held by third parties for the benefit of ECHN was $10,809,693 as of September 30, 2015.

We asked ECHN to update the value of the funds as of March 31, 2016, in a late filed exhibit. As of that date, it held $23,106,027 in charitable assets, plus an additional $9,979 in special funds. Thus, according to its figures as of that date, it held a total of $23,116,006 in charitable gifts.

To finance the transaction with PMH and to pay off its most significant liabilities, however, ECHN will need to use the net appreciation of the unrestricted endowments. (App., p. 55.) As such, the value of the charitable funds that will be transferred to the New Foundation will be approximately $5,900,000.

*d. ECHN's Charitable Gifts and Trusts.*

The law on approximation, or cy pres, is well-developed in Connecticut. Indeed, the OAG brought an approximation action in the *Sharon* matter to address those charitable

purposes that could no longer be fulfilled due to the sale of Sharon Hospital's assets. In that case, the court set forth the standards for approximation.

> In determining the construction of a charitable trust upon the failure of its stated purpose, the court applies the common law doctrine of cy pres, or approximation to as near as possible reflect the donor's intent. When it becomes illegal or otherwise impossible to carry out the terms of a charitable trust, rather than allow it to fail, the court will apply the doctrine of cy pres or approximation in order to carry out the charitable intentions of the donor as near as possible. "The rule of cy pres is a rule for the construction of instruments in equity, by which the intention of the party is carried out *as near as may be,* when it would be impossible or illegal to give it literal effect . . . The doctrine of cy pres may be applied without the consent of the donor." (Citations omitted; emphasis in original; internal quotation marks omitted.) *Carl J. Herzog Foundation, Inc. v. University of Bridgeport, 243 Conn. 1, 10 n.8, 699 A.2d 995 (1997).*

*Blumenthal v. Sharon Hosp., Inc.*, 2003 Conn. Super. LEXIS 1657, 11-12 (Sup. Ct. 2003).

Also relevant to the conversion of a nonprofit hospital is the law on equitable deviation, which is similar to that of approximation but concerns the administration of a gift fund and not its charitable purpose. The equitable doctrine of deviation has been applied to preserve the "dominant [charitable] purpose by modifying what is described as [a] secondary purpose, often the method or means for carrying out the dominant purpose." 8 G. Bogart, Trusts and Trustees (2d Ed. Rev.Repl.1991) § 396, p. 330. Courts use this legal doctrine to order a change in the administration of a charitable fund from one charitable entity to another. Equitable deviation will be necessary in this case to move the charitable funds from ECHN to the New Foundation or another appropriate entity.

The Attorney General's office inventoried the gift documents in Section IV(E) in the Findings of Facts. Based upon this inventory and ECHN's and our analysis of these charitable gifts, we have determined that as a condition of approval, the following actions must be taken with respect to these funds.

i. Unrestricted Endowments.

An endowment fund is defined as "an institutional fund or any part thereof not wholly expendable by the institution on a current basis under the terms of a gift instrument." Conn. Gen. Stat. § 45a-535a(2). The institution that holds an endowment fund cannot fully expend such fund, but may only appropriate so much of an endowment's funds for expenditure or accumulation as the institution determines to be prudent for the uses, benefits, purposes for which the endowment fund is established. Unless stated otherwise in a gift document, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution. Conn. Gen. Stat. § 45a-535c(a).

As a condition to the OAG's approval of the Application, Legacy ECHN must present to the Superior Court, in coordination with the OAG, a petition for equitable deviation and approximation to transfer these funds to the New Foundation or another appropriate entity and to change the charitable purpose of the unrestricted endowments to the charitable purpose of the New Foundation. This condition applies to all unrestricted endowments, whether held by MMH, RGH, or the ECHN Community Healthcare Foundation, Inc.

ii. Restricted Endowments

The Conversion Act requires the recipient of the hospital's gift funds to use assets that are subject to a use restriction imposed by a donor for purposes that are consistent with the intent of the donor. Conn. Gen. Stat. § 19a-486c(a)(8)(B)(iii).

With respect to ECHN's restricted endowments, most of the charitable purposes can be fulfilled even though the funds will not be held by a hospital. For example, a free bed fund, which is used to provide charity care at a hospital, can still be used to pay for hospital bills for indigent individuals. These funds will simply need to be transferred to the New Foundation; no change in charitable purpose is needed. There are, however, several

restricted endowments that will need their charitable purposes adjusted by the Superior Court as a result of the sale of ECHN's assets to a for-profit entity.

The Thomas D. Trotter Fund was given for the benefit of pediatric patients. The Julia and Percy Baker Family Memorial Fund was given for the benefit of the upkeep and physical maintenance of RGH. The Faith S. Schortman Fund was given for the benefit of the operation or improvement of the maternity or nursery facilities at RGH. These three funds must be modified so that no charitable income benefits PMH/ECHN.

Accordingly, as a condition to the OAG's approval of the Application, Legacy ECHN must, in coordination with the OAG, include the restricted endowments in the petition for equitable deviation and approximation that will be presented to the Superior Court. With respect to Trotter, Baker, and Schortman, Legacy ECHN must seek an order of approximation for each fund, in addition to one for equitable deviation, to adjust the fund's charitable purpose to one as close as possible to the donor's original charitable intent.

iii. Special Funds

ECHN has categorized eleven (11) funds as special purpose funds. Similar to restricted endowments, these funds have a specific purpose for which they are used. Unlike the restricted endowments, however, these funds can be completely used up; they are fully expendable. Therefore, to the extent that there is any money remaining in a special fund at the time the transaction closes, that fund will need to be a part of the equitable deviation and approximation action in order to transfer it and adjust its charitable purpose, if necessary.

Accordingly, as a condition to the OAG's approval of the Application, Legacy ECHN must, in coordination with the OAG, include any special fund for which any funds remain

in the petition for deviation and approximation that will be presented to the Superior Court.

iv. Trust Held by Outside Trustees.

The last category of funds that the OAG must address as part of its hospital conversion review responsibilities are those charitable assets held by third parties for which ECHN holds the beneficial interest. ECHN has identified ten third party trusts for which it holds the beneficial interest.

In each of the ten cases identified by ECHN, the sale of ECHN's assets will not affect the structure of the trust, i.e., will not require the transfer of the trust to another entity. What may be necessary, however, is a switch of the charitable beneficiary and an adjustment to the trust's charitable purpose. Also important in the third-party trust analysis is whether the donors have directed that the charitable funds go elsewhere or have given the third-party trustees the power to redirect the charitable funds themselves if ECHN were to sell substantially all of its assets. If not, then the trusts must be presented to a court for legal disposition. Consultation with the third-party trustees is necessary in these cases.

Under Connecticut charities law, a gift to one charity, with language providing for a substitution or gift over to another charity upon certain conditions, has long been valid. *See Colonial Trust Co. v. Waldron*, 112 Conn. 216, 233 (1930); *Christ Church v. Trustees*, 67 Conn. 554, 565-66 (1896). When a gift contains an alternate disposition of a fund in case of the failure of the bequest, the equitable doctrine of approximation does not apply. See *Hartford National Bank & Trust Co. v. Oak Bluffs First Baptist Church*, 116 Conn. 347, 351 (1933); *First Congregational Society of Bridgeport v. City of Bridgeport*, 99 Conn. 22, 31-32

(1903); 4 Scott, Trusts (4th Ed.) § 399.2, p. 495-96; Restatement (Second), 2 Trusts § 399, comment c. "The provision for a gift over upon failure of the charity negatives the existence of a general charitable intent, just as the absence of such a provision is evidence of such a purpose." *Connecticut Bank & Trust v. Cyril and Julia C. Johnson Mem. Hosp.*, 30 Conn. Supp. 1, 8 (1972), citing Bogert, Trusts and Trustees (2d Ed.) § 437, p. 426.

Accordingly, as a condition to the OAG's approval of the Application, Legacy ECHN must, in coordination with the OAG and the third-party trustees, bring any third-party trust in need of construction or approximation before a court of competent jurisdiction for appropriate orders.

v. Miscellaneous

The Life Insurance Policy (11-1.31) for which MMH is the beneficiary shall be included in the Superior Court petition for an order of equitable deviation if the insured is still living at that time. Otherwise, the distribution of the insurance proceeds shall be included in the net proceeds of the transaction and treated as such.

ECHN's portion of the distribution in the Damato estate (and any other unrestricted gift to ECHN), if distributed prior to the Superior Court order transferring ECHN's charitable assets to the New Foundation or other charitable organization, shall be included in the net proceeds of the transaction and treated as such.

vi. Future Interests

To the extent there are future charitable interests for the benefit of ECHN, the disposition of those interests will be addressed on a case-by-case basis by a court under the doctrine of approximation. Only when a future interest becomes a present interest can a probate or superior court determine to whom the remainder will pass or whether the gift will fail and revert to the donors' heirs-at-law. Therefore, any future interests that have

not yet vested cannot be included in the Superior Court action to address the identified charitable funds.

**5. ECHN Must Present the New Foundation and its Restricted Charitable Funds to the Superior Court for Approval and Approximation and Deviation Orders**.

Although the Attorney General has approved the purposes of the New Foundation and the other provisions in the draft COI and bylaws, ECHN will be required to present the New Foundation to the Superior Court for its approval and will need to have the court enter orders of approximation and equitable deviation to transfer the charitable assets to the New Foundation, or other eligible entity. The Office of the Attorney General shall participate in this action.

## I. ECHN and PMH Have Provided The Attorney General With Information And Data Sufficient To Evaluate The Proposed Joint Venture.

Pursuant to Conn. Gen. Stat. § 19a-486c(a)(9), the Attorney General shall disapprove the proposed transaction as not in the public interest if he determines that the nonprofit hospital or the purchaser has failed to provide the Attorney General with information and data sufficient to evaluate the proposed agreement adequately, provided the Attorney General has notified the nonprofit hospital or the purchaser of the inadequacy of the information or data and has provided a reasonable opportunity to remedy such inadequacy. The Applicants have provided all relevant information and sufficient data to evaluate adequately the proposed APA.

## VII. CONCLUSION

The OAG therefore concludes that the Application for an asset purchase by PMH of substantially all of the assets of ECHN is hereby approved subject to the modifications and conditions listed herein.

**Correction**: On the below date, the Office of the Attorney General issued this corrected version of its Final Opinion wherein it has changed the reference in Condition 1 on page 7 from 5.18(a) to 5.18(b) to correspond to the legal discussion of the capital commitment on pages 31 – 32 of the decision.

**Subject:** RE: Docket No. 15-32016-486 and 15-32017-486 - Confirmation of approval of Supplemental Imaging Applications

Good Afternoon,

I double checked with OHCA's legal advisor and we can confirm that the two decisions rendered under Docket Numbers: 15-32016-486 and 15-32017-486, include all the assets requested in the two applications, including the MRI, CT and PET/CT scanners requested to be acquired by PMH in the supplemental applications filed in the two dockets. I will place a copy of this email in the original files for the two dockets for future reference. If you have any additional questions, please do not hesitate to contact us.

Sincerely,

Steven

**Subject:** Docket No. 15-32016-486 and 15-32017-486 - Confirmation of approval of Supplemental Imaging Applications

Hi Steven:

Thank you for speaking with me yesterday about the supplemental advanced imaging applications included in both the Eastern Connecticut Health Network, Inc. ("ECHN") and Greater Waterbury Health Network, Inc. ("GWHN") Conversion Applications.

In our call yesterday, you stated that it was OHCA's position that the three supplemental applications filed with the ECHN Conversion Application re Docket No. 15-32016-486 ((1) Acquisition of Manchester Memorial Hospital's MRI, PET/CT and CT scanners as part of the Proposed Asset Purchase of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc.; (2) Acquisition of Rockville General Hospital's MRI and CT scanner as part of the Proposed Asset Purchase of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc.; and (3) Acquisition of Rockville General Hospital's off-site MRI and CT scanner as part of the Proposed Asset Purchase of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc.) are approved as part of the Final Decision re Docket No. 15-32016-486. In lieu of any formal correspondence from OHCA regarding the approval of these supplemental applications, would you kindly confirm by responding to this email that the above statement is accurate?

Additionally, please confirm that the GWHN Final Decision Docket No. 15-32017-486 issued today similarly approves the supplemental application (Acquisition of Waterbury Hospital's CT scanners as part of the Proposed Asset Purchase of Greater Waterbury Health Network, Inc. by Prospect Medical Holdings, Inc.) filed with Conversion Application Docket No. 15-32017-486?

Thank you very much,

Dear Mr. Jepsen and Ms. Brancifort:

On behalf of Prospect Medical Holdings, Inc. in connection with the above referenced matters, this letter shall serve as written notice to your respective offices regarding the closing date of the transaction. On July 21, 2016, we sent written notification that the closing date was scheduled for September 1, 2016. Please note that the closing has since been rescheduled for **October 1, 2016** subject to satisfaction of all required closing conditions. With respect to Condition 2 of the Attorney General Final Decision, this letter shall serve as the requested written notice of any change in closing date. Should this date change again, we will notify your respective offices of such new closing date.

If you have any questions or require anything further, please contact me at 203-777-6995. Thank you for your assistance in this matter.

Very truly yours,

Michele M. Volpe,

**Re: Prospect Medical Holdings, Inc./Eastern Connecticut Health Network, Inc. re California Department of Public Health Survey Letter re Southern California Hospital – OHCA Docket No. 15-32016-486 and Attorney General Docket No. 15-486-01**

Dear Mr. Jepsen and Ms. Brancifort:

For your records and as a follow up to Prospect Medical Holdings proposed acquisition of Eastern Connecticut Health System entities, attached please find a letter from the California Department of Public Health dated September 8, 2016 clearing Southern California Hospital, a Prospect Medical Holdings entity, from the CSMS licensure termination track.

If you have any questions or require anything further, please contact me at 203-777-6995. Thank you for your assistance in this matter.

Very truly yours,

Michele M. Volpe,
Bershtein, Volpe & McKeon, P.C.

San Francisco, CA 94103-6707

CENTERS FOR MEDICARE & MEDICAID SERVICES

Refer to: WDSC- mc

09/08/2016

Administrator
Southern California Hospital at Hollywood
6245 De Longpre Ave
Hollywood, CA 90028

CMS Certification Number (CCN): 050135

Dear Administrator:

The California Department of Public Health (CDPH) has determined that Southern California Hospital at Hollywood now meets the Medicare Conditions of Participation for a provider of hospital services and therefore, this office will not proceed with a termination action. The authority for this decision is found at 42 C.F.R. § 498.20 - 498.25.

The 07/28/2016 revisit survey conducted by the CDPH determined that the hospital demonstrated compliance with Medicare Conditions of Participation (CoP) and provides the basis for the determination of CMS.

Therefore, effective the date of this letter, we are removing your facility from the CDPH survey jurisdiction and restoring your facility's deemed status, based on your continued accreditation by the DNV GL–Healthcare (DNV GL). While the survey found compliance with the CoP there are standard level deficiencies cited. The enclosed Statement of Deficiencies (CMS-2567) documents the findings of the 07/28/2016 survey.

Since your hospital has been determined to be in compliance with the CoP you do not have to submit a plan of correction for any of the Medicare survey deficiencies. However, under Federal disclosure rules a copy of the findings of this Medicare survey must be publicly disclosed within 90 days of the completion. You may therefore wish to submit for public disclosure, your comments on the survey findings, and any plans you may have for correcting the cited deficiencies.

Should you choose to submit a plan for correction, the evidence of correction is to be entered on the right side of Form CMS-2567 for both documents, opposite the deficiency, and must be signed and dated by the administrator or other authorized official. Please submit your evidence of correction to the CDPH, Los Angeles District office by close of business, within ten (10) days of receipt of this letter.

The evidence of correction of each item must contain the following:

1. How the correction was accomplished, both temporarily and permanently for each individual affected by the deficient practice, including any system changes that must be made.

2. The title or position of the person responsible for correction, i.e., Administrator, Director of Nursing or other responsible supervisory personnel.

3. A description of the monitoring process to prevent recurrences of the deficiency, the frequency of the monitoring and the individual(s) responsible for the monitoring.

4. The date when the immediate correction of the deficiency will be accomplished, normally this will be no more than thirty (30) calendar days from the date of the exit conferences.

We have forwarded a copy of this letter and the findings from this survey to the DNV GL for its review. Copies of this letter are being sent to the CDPH and the State Medicaid agency.

If you have any questions about this matter, please contact Alex Garza at 415-744-2830, or Maureen Calacal of my staff at 415-744-3727.

Sincerely,

Rufus Arther, Manager
Non-Long Term Care Branch
Division of Survey and Certification

# CERTIFICATE OF INCORPORATION
# OF
# PROSPECT ROCKVILLE HOSPITAL, INC.

(a Connecticut business corporation)

FIRST: The name of the corporation shall be PROSPECT ROCKVILLE HOSPITAL, INC. (the "Corporation").

SECOND: The authorized capital stock of the Corporation shall consist of one thousand (1,000) shares of common stock, at par value $0.01 per share.

THIRD: The common stock shall have the following rights and privileges:

(a) Voting Rights. Each holder of record of common stock shall be entitled to one vote for each share of stock held.

(b) Voting Requirements. Stockholder action on any matter whatsoever shall require the affirmative vote of at least a majority of the shares of the common stock issued and outstanding at the time of such vote, and for those matters for which the vote of a greater proportion of such shares may be specified by law, the affirmative vote of the proportion of such shares so specified shall be required.

(c) Preemptive Rights. No holder of the common stock shall be entitled as of right to purchase or subscribe for any unissued shares of the Corporation whether now or hereafter authorized or whether of a class hereafter created, or to purchase or subscribe for any bonds, certificates of indebtedness, debentures, or other obligations convertible into shares of the Corporation.

(d) Dividends. The holders of the common stock shall be entitled to receive dividends as and when declared by the Board of Directors of the Corporation.

FOURTH: The name and address of the Corporation's registered agent and office in the State of Connecticut is C T Corporation System, One Corporate Center, Hartford, Connecticut, 06103-3220.

FIFTH: The name and complete address of the incorporator is as follows:

| NAME | MAILING ADDRESS |
|---|---|
| Shilpa Prem, Esq. | Epstein Becker & Green, P.C.<br>250 Park Ave<br>New York, NY 10177 |

SIXTH: The management of the business and the conduct of the affairs of the Corporation shall be vested in a board of directors (the "Board of Directors"). The number of directors which shall constitute the whole Board of Directors shall be fixed by, or

Email None

in the manner provided in the bylaws of the Corporation. No election of directors needs to be by written ballot.

SEVENTH: The nature of the business or purposes to be conducted and promoted by the Corporation shall be to operate a licensed hospital and to engage in any lawful act or activity for which corporations may be organized under Connecticut law. The foregoing provisions of this SEVENTH Article shall be construed both as purposes and powers and each as an independent purpose and power, and shall not be held to limit or restrict in any manner the purposes and powers of the Corporation; provided that the Corporation shall not conduct any business, promote any purposes, or exercise any power or privilege within or without the State of Connecticut which, under the laws thereof, the Corporation may not lawfully conduct, promote, or exercise.

EIGHTH: The Corporation is to have perpetual existence.

NINTH: The Board of Directors of the Corporation has the power to adopt, amend, or repeal the bylaws of the Corporation.

TENTH: The personal liability of a director of the Corporation for monetary damages for breach of duty as a director shall be limited to an amount that is equal to the compensation received by the director for serving as a director of the Corporation during the year of the violation if such breach did not (A) involve a knowing and culpable violation of law by the director, (B) enable the director or an associate, as defined in Section 33-840 of the Connecticut Business Corporation Act, to receive an improper personal economic gain, (C) show a lack of good faith and a conscious disregard of the duty of the director to the Corporation under circumstances in which the director was aware that this conduct or omission created an unjustifiable risk of injury to the Corporation, (D) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of the director's duty to the Corporation, or (E) create liability under Section 33-757 of the Connecticut Business Corporation Act.

ELEVENTH: (a) The Corporation shall indemnify any individual made a party to a proceeding because such individual is or was a director of the Corporation against liability incurred and expenses advanced in connection with the proceeding in all circumstances except those for which the Connecticut Business Corporation Act prohibits the limitation of such individual's liability.

(b) The Corporation shall indemnify any individual made a party to a proceeding because such individual is or was an officer of the Corporation against liability incurred and expenses advanced in connection with the proceeding to the greatest extent allowed under Connecticut General Statues Section 33-776.

IN WITNESS WHEREOF, the undersigned being the incorporator hereinbefore named, for the purpose of forming a corporation pursuant to the Connecticut Business Corporation Act, does make this Certificate, hereby declaring and certifying that this is my act and deed, that the facts herein stated are true and accordingly have hereunto set my hand this 6th day of April, 2016.

**Manchester Memorial Hospital and Rockville General Hospital**
**Inpatient Bed Allocation - Staffed Beds**
As of June, 2016

| Service | Manchester Memorial Hospital | Rockville General Hospital |
|---|---|---|
| Critical Care | 15 | 4 |
| Medical/Surgical Care | 54 | 22 |
| Behavioral Health* | 31 | 18[1] |
| Maternity | 20 | 0 |
| Newborn | 26 | 0 |
| Total | 146 | 44 |

Notes:
The above represents planned census for inpatient nursing beds by service based on demand for inpatient beds. Demand is measured by the historical average daily census of inpatients. The number of staffed beds is adjusted up or down in response to the daily census per the hospital staffing plans and bed availability. (See attached Staffing Plans for each hospital.)

[1] The opening of the inpatient Behavioral Health Eating Disorders Unit in August 2016 will result in staffing for 18 beds bringing the budgeted staffed beds to 44 at Rockville General Hospital.

# Nurse Staffing Plan
## *Manchester Memorial Hospital*

The nurse staffing plan at *Manchester Memorial Hospital* is developed through a comprehensive process that draws on multiple sources of data and input from registered nurses and other hospital staff members. The staffing plan is continuously evaluated throughout the year and formally reviewed and updated annually. The annual staffing plan reflects budgeted, core staffing levels for patient care units including inpatient services, critical care, and the emergency department. Actual staffing is adjusted on a daily or more frequent basis to meet patient care needs.

**Considerations in Staffing Plan Development and Decisions**
A broad range of factors are considered in the development of the core staffing plan and ongoing staffing adjustments, many of which are embodied in the American Nurses Association's (ANA) Principles for Nurse Staffing. Staffing plan development and decisions are carried out with consideration given to patient characteristics and acuity, the number of patients for whom care is provided, levels of individual patient as well as unit intensity, the geography/physical layout of the patient care unit, available technology, and level of preparation and experience of those providing care, among others.

In addition to the factors described above, when developing the annual staffing plan, *Manchester Memorial Hospital* considers historical staffing and patient data, staff input, patient care support services, and any plans for new programs.

1. **Professional Skill Mix For Patient Care Units**
   The professional skill mix for each patient care unit is articulated in this hospital nurse staffing plan.

   Patient Care Services utilizes a staffing matrix based on worked hours per patient day (WHPPD) for all nursing units except the emergency department. The Emergency Department staffing is based on a worked hour per patient visit metric. The worked hour metric only includes those hours worked in direct patient care responsibilities. These responsibilities include patient centered nursing activities by unit based staff such as medication administration, nursing treatments, nursing rounds, admission, transfer, discharge activities, patient teaching, patient communication, coordination of patient care, documentation time, and treatment planning. Unit based staff include RNs, LPNs, and nursing assistants.

   The core staffing plan is adjusted as necessary to meet patient care needs using per diem staff, on call staff, staff picking up extra shifts, and floating staff between units.

2. **Use of Temporary and Traveling Staff Nurses**

   *Manchester Memorial Hospital* does not use temporary or traveling staff nurses.

3. **Administrative Staffing**
   The annual staffing plan is developed to provide adequate direct care staff for forecasted patient care needs exclusive of nursing management and inclusive of appropriate support.

4. **Review of the Nurse Staffing Plan**
   The staffing plan that reflects core staffing levels is formally established and reviewed annually; it is evaluated as necessary throughout the year. Review of the factors articulated in the section *Considerations in Staffing Plan Development and Decisions* above is conducted through a combination of unit staff meetings, Clinical Ladder Committee, and quarterly review with nurse managers. Leadership rounds also serve as a mechanism for staffing review. Formal annual review occurs during the Clinical Ladder Committee September meeting.

5. **Direct Care Staff Input**
   Direct care staff input regarding the staffing plan is solicited via the Clinical Ladder Committee at Manchester Memorial Hospital. In addition, unit huddles, staff meetings and leadership rounds serve as mechanisms in obtaining staff's input regarding staffing plans. Nurse Quality indicators are monitored to ensure nursing quality standards are supported by the staffing model. Indicators include but are not limited to fall with injury rate, central line associated blood stream infection, pressure ulcer rate, and catheter associated urinary tract infection.

6. **Staffing Ratios**

**Critical Care Unit:**

Registered Nurses: 1:2-3
Licensed Practical Nurses: does not employee LPN's for critical care
Assistive Personnel: 1:11-16

**Medical Unit**

Registered Nurses 1:5-7 patients
Licensed Practical Nurses 1:5-7 patients
Assistive Personnel 1:7-10 patients

**Surgical Unit**

Registered Nurses 1:5-8 patients
Licensed Practical Nurses 1:5-8 patients
Assistive Personnel 1:7-8 patients

**Behavioral Health Unit**

Registered Nurses: 1:6-10 patients
Licensed Practical Nurses: does not employee LPN's for behavioral health
Assistive Personnel: 1:6-15 patients
Social Workers: 1:8 (day shift only)

**Neonatal Intensive Care**

Registered Nurses: 1:2-3 patients
Licensed Practical Nurses: does not employee LPN's for Neonatal Intensive Care

**Obstetrics**

Registered Nurses: 1:1-2 for laboring patients
Registered Nurses: 1: 3-4 mother baby pairs

Licensed Practical Nurses: 1: 3-4 mother baby pairs

**Emergency Department**

Registered Nurses 1:4 patients

Licensed Practical Nurses does not employee LPN's for the emergency department

Assistive Personnel (Emergency department tech) 1:20

Staffing levels are adjusted as needed based on fluctuations in unit census, pending admissions, discharges, and acuity of the patients. Managers and off shift supervisors will evaluate the activity/acuity of the nursing unit and make staffing adjustments. In addition, staff has the autonomy to adjust staffing levels utilizing staffing guidelines (matrixes) for their respective nursing units.

Supporting personnel include health unit secretaries on day and evening shift. Admission nurse (flexible hours) and transport personnel-day shift; sitters all shifts. Sitters are used for patients requiring constant observation and high fall risk patients (case by case basis). Other support services on the nursing units include; unit based pharmacist, physical therapists, physical therapists techs, respiratory therapists, unit based care managers and EKG techs.

**Certification**

This hospital nurse staffing plan has been developed through consideration of anticipated patient population care needs, unit geography, technology and support, and competency/expertise required of staff providing care. It has been reviewed and discussed by Nursing Leadership, Clinical Ladder Nursing Committee, and the Workforce Efficiency Workgroup. The hospital nurse staffing plan is appropriate for the provision of patient care as forecasted.

Mary Powers MSN, RN, NEA-BC
Chief Nursing Officer

## Nurse Staffing Plan
### *Rockville General Hospital*

The nurse staffing plan at *Rockville General Hospital* is developed through a comprehensive process that draws on multiple sources of data and input from registered nurses and other hospital staff members. The staffing plan is continuously evaluated throughout the year and formally reviewed and updated annually. The annual staffing plan reflects budgeted, core staffing levels for patient care units including inpatient services, critical care, and the emergency department. Actual staffing is adjusted on a daily or more frequent basis to meet patient care needs.

**Considerations in Staffing Plan Development and Decisions**
A broad range of factors are considered in the development of the core staffing plan and ongoing staffing adjustments, many of which are embodied in the American Nurses Association's (ANA) Principles for Nurse Staffing. Staffing plan development and decisions are carried out with consideration given to patient characteristics and acuity, the number of patients for whom care is provided, levels of individual patient as well as unit intensity, the geography/physical layout of the patient care unit, available technology, and level of preparation and experience of those providing care, among others.

In addition to the factors described above, when developing the annual staffing plan, *Rockville General Hospital* considers historical staffing and patient data, staff input, patient care support services, and any plans for new programs.

1. **Professional Skill Mix For Patient Care Units**
   The professional skill mix for each patient care unit is articulated in this hospital nurse staffing plan.

   Patient Care Services utilizes a staffing matrix based on worked hours per patient day (WHPPD) for all nursing units except the emergency department. The Emergency Department staffing is based on a worked hour per patient visit metric. The worked hour metric only includes those hours worked in direct patient care responsibilities. These responsibilities include patient centered nursing activities by unit based staff such as medication administration, nursing treatments, nursing rounds, admission, transfer, discharge activities, patient teaching, patient communication, coordination of patient care, documentation time, and treatment planning. Unit based staff include RNs, LPNs, and nursing assistants.

   The core staffing plan is adjusted as necessary to meet patient care needs using per diem staff, on call staff, staff picking up extra shifts, and floating staff between units.

2. **Use of Temporary and Traveling Staff Nurses**

   *Rockville General Hospital* does not use temporary or traveling staff nurses.

3. **Administrative Staffing**
   The annual staffing plan is developed to provide adequate direct care staff for forecasted patient care needs exclusive of nursing management and inclusive of appropriate support.

4. **Review of the Nurse Staffing Plan**
   The staffing plan that reflects core staffing levels is formally established and reviewed annually; it is evaluated as necessary throughout the year. Review of the factors articulated in the section *Considerations in Staffing Plan Development and Decisions* above is conducted through a combination of unit staff meetings, Clinical Ladder Committee, and quarterly review with nurse managers. Leadership rounds also serve as a mechanism for staffing review. Formal annual review occurs during the Clinical Ladder Committee September meeting.

5. **Direct Care Staff Input**
   Direct care staff input regarding the staffing plan is solicited via the Clinical Ladder Committee at Rockville General Hospital. In addition unit huddles, staff meetings and leadership rounds serve as mechanisms in obtaining staff's input regarding staffing plans. Nurse Quality indicators are monitored to ensure nursing quality standards are supported by the staffing model. Indicators include but are not limited to fall with injury rate, central line associated blood stream infection, pressure ulcer rate, and catheter associated urinary tract infection.

6. **Staffing Ratios**
   **Critical Care Unit**:
   Registered Nurses-1:2 (can be 1:3 if non-ICU patients are boarding in ICU)
   Licensed Practical Nurses does not employee LPN's for critical care
   Assistive Personnel-1-9 (the unit is a 9 bed unit with an average daily census of approximately 4-5 one assistive personnel is scheduled)
   **Medical-Surgical Unit**
   Registered Nurses 1:4-7 patients
   Licensed Practical Nurses 1:4-7 patients
   Assistive Personnel 1:7-8 patients
   **Emergency Department**
   Registered Nurses 1:4 patients
   Licensed Practical Nurses does not employee LPN's for the emergency department
   Assistive Personnel (Emergency department tech) 1:20

Staffing levels are adjusted as needed based on fluctuations in unit census, pending admissions, discharges, and acuity of the patients. Managers and off shift supervisors will evaluate the activity/acuity of the nursing unit and make staffing adjustments. In addition, staff has the autonomy to adjust staffing levels utilizing staffing guidelines (matrixes) for their respective nursing units.

Supporting personnel include health unit secretaries on day and evening shift. Transport personnel-day shift; sitters all shift. Sitters are used for patients requiring constant observation, high fall risk patients (case by case basis).

**Certification**

This hospital nurse staffing plan has been developed through consideration of anticipated patient population care needs, unit geography, technology and support, and competency/expertise required of staff providing care. It has been reviewed and discussed by Nursing Leadership, Clinical Ladder Nursing Committee, and the Workforce Efficiency Workgroup. The hospital nurse staffing plan is appropriate for the provision of patient care as forecasted.

Mary Powers MSN, RN, NEA-BC
Chief Nursing Officer

# ASSET PURCHASE AGREEMENT

This Asset Purchase Agreement (this "**Agreement**"), dated August 24, 2016, is by and between Eastern Connecticut Health Network, Inc., a Connecticut non-stock corporation ("**Seller**"), on its behalf and on behalf of its Subsidiaries, on the one hand, and Prospect CT Medical Foundation, Inc., a Connecticut nonstock corporation, Prospect CT Management Services, Inc., a Connecticut corporation, Prospect ECHN, Inc., a Connecticut corporation, Prospect Manchester Hospital, Inc., a Connecticut corporation, Prospect Rockville Hospital, Inc., a Connecticut corporation, Prospect ECHN Eldercare Services, Inc., a Connecticut corporation, Prospect ECHN Home Health, Inc., a Connecticut corporation, Prospect Caring Hand, Inc., a Connecticut corporation, and Prospect Haynes Street Property Management, Inc., a Connecticut corporation (each, a "**Buyer Entity**" and, collectively, "**Buyer Entities**"), with Prospect Medical Holdings, Inc. ("**PMH**"), a Delaware corporation and the indirect owner of the Buyer Entities, joining for the limited purposes described herein, on the other hand. For the purposes of this Agreement, the term "**Buyer**" shall refer to the Buyer Entities, collectively, and to one or more of the individual Buyer Entities, as applicable.

## RECITALS:

**WHEREAS,** Seller desires to sell substantially all of its assets, real, personal and mixed, tangible and intangible, and operations to Buyer, including the properties, assets, and businesses of The Manchester Memorial Hospital and The Rockville General Hospital, Incorporated (collectively, the "**Hospitals**"), ECHN Eldercare Services, Inc., Visiting Nurse and Health Services of Connecticut, Inc. including its wholly owned subsidiary A Caring Hand, LLC, Clinically Integrated Network of Eastern Connecticut, LLC, Connecticut Healthcare Insurance Company, ECHN Corporate Services, Inc. including its wholly owned subsidiary Medical Practice Partners, LLC, and ECHN Enterprises, Inc., including its wholly owned subsidiary Haynes Street Property Management, LLC, and Eastern Connecticut Medical Professionals Foundation, Inc. (the entities and businesses operated by the foregoing entities, including the Hospitals, are collectively referred to as the "**Hospital Businesses**"), together with Seller's joint venture interests in Evergreen Endoscopy Center, LLC, WBC Connecticut East, LLC, Aetna Ambulance Service, Inc., Metro Wheelchair Service, Inc., Ambulance Service of Manchester, LLC, Connecticut Occupational Medicine Partners, LLC, and Seller's Affiliates' joint venture interests in Northeast Regional Radiation Oncology Network, LLC (as successor to the business operations of Northeast Regional Radiation Oncology Network, Inc.), TIC, LLC (as successor to the business operations of Tolland Imaging Center, LLC), Haynes Street Medical Associates, LLC, Haynes Street Medical Associates II, LLC, Evergreen Medical Associates, LLC and Evergreen Medical Associates II LLC (the foregoing entities are collectively referred to herein as the "**Joint Ventures**");

**WHEREAS,** Buyer desires to purchase substantially all of the assets, real, personal and mixed, tangible and intangible, of Seller, including the Hospital Businesses and the equity interests in the Joint Ventures; and

**WHEREAS,** Seller has concluded that the transactions contemplated by this Agreement are in its best interests and consistent with its charitable mission of the promotion of health care in the communities served by the Hospital Businesses.

**NOW, THEREFORE**, for and in consideration of the premises, and the agreements, covenants, representations and warranties hereinafter set forth, and other good and valuable consideration, the receipt and adequacy of which are forever acknowledged, the parties, intending to be legally bound, agree as follows:

**AGREEMENT:**

(1) **45-Day Period** is defined in Section 2.05(i);

(2) **Accountants' Determination** is defined in Section 2.05(i);

(3) **Accounts Receivable** means all accounts receivable of the Hospital Businesses, accrued and unaccrued, including Government Payment Program receivables and accounts that have been written off, but excluding all Cost Report settlement amounts;

(4) **Accumulated Benefit Obligation** means the accumulated benefit obligation of Seller's defined benefit pension plan, determined by an actuarial firm chosen by Seller using GAAP (i) reflecting the assumptions used for purposes of Note 10 of Seller's Audited Financial Statements as of September 30, 2015 (as updated for the MRP-2007 mortality tables as developed by Mercer, which are derived from the Society of Actuaries mortality study) and (ii) assuming continuation of the Seller's defined benefit pension plan and no change in its provisions after September 30, 2015 (other than the freeze of such plan to new participation);

(5) **Additional Liabilities** is defined in Section 2.05(d);

(6) **Affiliate** means any Person that, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with another Person where "control" means the power to direct or cause the direction of the management and policies of a Person, whether through the ownership of securities, election or appointment of directors, by contract or otherwise. For purposes of this Agreement, any reference to Affiliates of Seller shall only mean those persons listed on Schedule 1.01(6) attached hereto;

(7) **Affiliated Group** means any affiliated group within the meaning of section 1504 of the Code or any similar group defined under a similar provision of state, local or foreign law;

(8) **Agreement** is defined in the preamble;

(9) **AOCs** is defined in Section 7.09

(10) **Arbitrating Accountants** is defined in Section 2.05(i);

(11) **Assets** means all assets, real property, personal and mixed property of every kind, character or description, known or unknown, tangible or intangible, owned or leased by Seller wherever located and whether or not reflected in the Financial Statements or referenced or scheduled herein, (i) including those assets owned by a Subsidiary of Seller and held or used in connection with the operation of the Hospital Businesses, but (ii) excluding the Excluded Assets;

(12) **Assumed Contracts** is defined in Section 2.01(f);

(13) **Assumed Liabilities** means (i) the current liabilities included in Net Working Capital, but only to the extent accrued on the Closing Balance Sheets, (ii) all obligations of Seller and its Affiliates arising under the Assumed Contracts with respect to periods (or portions thereof) following the Closing Date, (iii) all participating provider agreements and provider numbers with third party payors, including contracts and provider numbers of Government Payment Programs, to the extent the same are assignable to Buyer, (iv) the Extended Illness Bank Obligations, (v) Permitted Encumbrances, (vi) the Unfunded Pension Liabilities, (vii) the Post-Retiree Health Plan Liability and other retirement obligations described on Schedule 2.03, (viii) the Captive Insurer Liability, (ix) the ED Loan, and (x) the other liabilities and obligations agreed to be assumed by Buyer, if any, described on Schedule 2.03;

(14) **Attorney General** means the Office of the Attorney General of the State of Connecticut;

(15) **Audited Financial Statements** means the audited consolidated balance sheets of Seller and its Subsidiaries for the three most recently ended fiscal years, and the related consolidated statements of operations, of changes in net assets, and of cash flows for the fiscal years then ended, and the notes thereto and the report thereon of Saslow Lufkin & Buggy, LLP, independent certified public accountants;

(16) **Available Cash** means all cash available to Seller as of the Closing, including cash resulting from the payment of the Purchase Price by Buyer at the Closing or pursuant to any adjustments to the Purchase Price pursuant to Section 2.05, other than cash which is determined by the Attorney General to be restricted as to use and not available to satisfy Seller's liabilities;

(17) **Bond Liabilities** means those certain long-term bond liabilities and tax-exempt leases of Seller to be defeased at Closing;

(18) **Buyer** is defined in the preamble;

(19) **Buyer Deductible** is defined in Section 9.04;

(20) **Buyer Entity(ies)** is defined in the preamble;

(21) **Buyer's Indemnified Persons** means Buyer and its respective stockholders, members, partners, Affiliates, directors, trustees, officers, employees, agents, representatives, successors and assigns;

(22) **Buyer's Plan** means a retirement plan qualified under section 401(a) of the Code that is sponsored by Buyer or one of its controlled group or affiliated service group members, as defined in section 414 of the Code;

(23) **Captive Insurer Liability** means all liabilities relating to Seller's captive insurer, the Connecticut Healthcare Insurance Company ("**CHIC**"), regardless of when incurred and including all tail liability and measured by an actuarial firm chosen by Seller reflecting the assumptions used in determining the book value of the Captive Insurer Liability used for purposes of Seller's Audited Financial Statements as of September 30, 2015, subject to the provisions of Section 2.05(h)(iii);

(24) **CHIC** is defined in Section 1.01(23);

(25) **Claim Notice** means written notification of a Third Party Claim by an Indemnitee to an Indemnifying Party under Article 9, including a Third Party Claim set forth in a "Revenue Agent's Report," "Statutory Notice of Deficiency," "Notice of Proposed Assessment," or any other official written notice from a taxing authority that Taxes are due or that a Tax audit will be conducted;

(26) **Closing** is defined in Section 8.01(a);

(27) **Closing Balance Sheets** means the unaudited individual and/or combined balance sheets of Seller and its Subsidiaries as of the close of business on the Closing Date, as finally determined in accordance with Section 2.05 following the resolution of all disputes with respect thereto;

(28) **Closing Date** means the date upon which the Closing occurs;

(29) **Closing Document** means each instrument, agreement, certificate or other document executed or delivered, or required to be executed or delivered, by a party at Closing;

(30) **Closing Estimates** is defined in Section 2.05(f)(i);

(31) **CMS** is defined in Section 2.04(k);

(32) **COBRA** means the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended;

(33) **Code** means the Internal Revenue Code of 1986, as amended;

(34) **Commitment Amount** is defined in Section 5.18(a);

(35) **CON** is defined in Section 8.04(b);

(36) **CON Preparation Period** is defined in Section 8.04(b);

(37) **Contracts** means all commitments, contracts, leases, licenses, agreements and understandings, written or oral, relating to the Assets or the operation of the Hospital Businesses to which Seller or any Subsidiary of Seller is a party or by which it or any of the Assets are bound, including agreements with payers, physicians and other providers, agreements with health maintenance organizations, independent practice associations, preferred provider organizations and other managed care plans and alternative delivery systems, joint venture and partnership agreements, management, employment, retirement, retention and severance agreements, vendor agreements, real and personal property leases and schedules, maintenance agreements and schedules, agreements with municipalities and labor organizations, and bonds, mortgages and other loan agreements;

(38) **Controlled Group** means with respect to a party, a group consisting of each trade or business (whether or not incorporated) that, together with such party, would be deemed a "*single employer*" within the meaning of section 4001(a) of ERISA;

(39) **Cost Reports** means all cost and other reports filed pursuant to the requirements of the Government Payment Programs for payment or reimbursement of amounts due from them;

(40) **CTDEEP** is defined in Section 5.08;

(41) **Current Seller Plan** is defined in Section 3.22(a);

(42) **Disability Obligations** mean liabilities for long-term or short-term disability benefits to employees of the Hospital Businesses (the Disability Obligations include liabilities of the Hospital Businesses for long-term or short-term disability benefits that may have commenced being paid prior to Closing and that remain ongoing after the Closing);

(43) **EBITDA** means earnings before interest, income Taxes, depreciation and amortization, the components of which shall be determined in accordance with GAAP consistently applied;

(44) **ED Cash Collateral** is defined in Section 2.01(r);

(45) **ED Loan** means that certain loan from Berkshire Bank to Seller in the original principal amount of $5,000,000, pursuant to the terms of that certain Loan Agreement, dated as of February 19, 2016, and evidenced by that certain Promissory Note, dated of even date therewith;

(46) **Employee Benefit Plan** means, with respect to any Person, (i) each plan, fund, program, agreement, arrangement or scheme, in each case, that is at any time sponsored or maintained, or required to be sponsored or maintained, by such Person or to which such Person makes or has made, or has or has had an obligation to make, contributions providing for employee benefits or for the remuneration, direct or indirect, of the employees, former employees, directors, officers, managers, consultants, independent contractors, contingent workers or leased employees of such Person or the dependents of any of them (whether written or oral), including each deferred

compensation, bonus, incentive compensation, pension, retirement, stock purchase, stock option and other equity compensation plan, or "*welfare*" plan (within the meaning of section 3(1) of ERISA, determined without regard to whether such plan is subject to ERISA), (ii) each "*pension*" plan (within the meaning of section 3(2) of ERISA, determined without regard to whether such plan is subject to ERISA), including each Multiemployer Plan, (iii) each severance, retention or change in control plan or agreement, each plan or agreement providing health, vacation or paid time off, summer hours, supplemental unemployment benefit, hospitalization insurance, medical, dental, or legal benefit and (iv) each other employee benefit plan, fund, program, agreement or arrangement, including any of the foregoing that provides cash or non-cash benefits or perquisites to current or former employees of such Person;

(47) **Employee Pension Benefit Plan** is defined in section 3(2) of ERISA;

(48) **Employee Welfare Benefit Plan** is defined in section 3(1) of ERISA;

(49) **Encumbrances** means liabilities, levies, claims, charges, assessments, mortgages, security interests, liens, pledges, conditional sales agreements, title retention contracts, easements, restrictions, rights of first refusal, options to purchase and other encumbrances (including limitations on pledging or mortgaging any of the Assets) and Contracts to create in the future any such Encumbrance or suffer any of the foregoing;

(50) **Environmental Claim** means any written notice (or oral notice reduced to writing by Seller) by a Person alleging potential liability (including potential liability for investigatory costs, cleanup costs, Governmental Authority response costs, natural resource damages, property damages, personal injuries, or penalties) of Seller or any Subsidiary of Seller arising out of, based on or resulting from (i) the presence, or release into the environment, of any Materials of Environmental Concern at any location, whether or not owned by Seller, or (ii) circumstances forming the basis of any violation, or alleged violation, of any Environmental Laws;

(51) **Environmental Laws** means any and all Legal Requirements relating to pollution or protection of human health or the environment (including ground water, land surface or subsurface strata), including Legal Requirements relating to emissions, discharges, releases or threatened releases of Materials of Environmental Concern, or otherwise relating to the manufacture, processing, distribution, use, treatment, storage, disposal, transport, recycling, reporting or handling of Materials of Environmental Concern, including the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. §9601, *et seq.*, the Resource Conservation and Recovery Act, as amended, 42 U.S.C. §6901, *et seq.*, the Clean Air Act, 42 U.S.C. §7401, *et seq.*, the Federal Water Pollution Control Act, 33 U.S.C. §1251 *et seq.*, the Occupational Safety and Health Act, 29 U.S.C. §600, *et seq.*, and any similar state or local Legal Requirements;

(52) **ERISA** means the Employee Retirement Income Security Act of 1974, as amended;

(53) **ERISA Fiduciary** is defined in section 3(21) of ERISA;

(54) **Establishment Real Properties** is defined in Section 5.08;

(55) **Excluded Assets** is defined in Section 2.02;

(56) **Excluded Liabilities** means any and all liabilities of Seller other than the Assumed Liabilities, whether known or unknown, fixed or contingent, recorded or unrecorded, and whether arising before or after Closing, including any line of credit to which Seller is a party, the Bond Liabilities, tax-exempt leases, and any other indebtedness of Seller, any interest accrued on indebtedness of Seller, any settlements due as of Closing to third party payors;

(57) **Extended Illness Bank Obligations** means the Hired Employees' accrued or allocated paid time off that is in the form of an "*extended illness bank*" (i.e., paid time off that may be used by a Hired Employee during the term of employment, but the value of the unused portion of which is not paid in cash to the Hired Employee upon termination of employment);

(58) **Final Closing Statement** is defined in Section 2.05(h);

(59) **Final Determination Date** means the earliest to occur of (i) the forty-sixth (46th) day following the receipt by Seller of the Final Closing Statement and Closing Balance Sheets if Seller shall have failed to deliver the Objection Notice to Buyer within the 45-Day Period, (ii) the date on which Seller gives Buyer written notice to the effect that Seller has no objection to Buyer's determination of the amount of the Subject Items as set forth on the Final Closing Statement, (iii) the date on which Buyer and Seller execute and deliver a Settlement Agreement, (iv) the date as of which Buyer and Seller shall have received the Accountants' Determination, and (v) Buyer's failure to deliver the information set forth in Section 2.05(h) within the ninety (90) day period described therein;

(60) **Financial Statements** means the Audited Financial Statements and the Unaudited Financial Statements;

(61) **GAAP** means United States generally accepted accounting principles;

(62) **Governmental Authority** means any executive, legislative or judicial agency, authority, board, body, commission, court, department, instrumentality or office of any federal, state, city, county, district, municipality, foreign or other government or quasi-government unit or political subdivision;

(63) **Government Payment Programs** means federal and state Medicare, Medicaid and TRICARE programs, and similar or successor programs with or for the benefit of Governmental Authorities;

(64) **Hill-Burton Act** means the Public Health Service Act, 42 U.S.C. §291, *et seq.*;

(65) **Hired Employees** means those employees of Seller or its Affiliates who accept Buyer's offer of employment as of the Closing Date, including those employees who are employed pursuant to an Assumed Contract;

(66) **Hospital Businesses** is defined in the recitals;

(67) **Hospitals** is defined in the recitals;

(68) **HQI Program** is defined in Section 3.17;

(69) **HSR Act** means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended;

(70) **Immaterial Contract** means any Contract to which Seller or any of its Subsidiaries is a party that requires either the payment by Seller or its Subsidiaries of $50,000 or less or the provision of goods or the performance of services by Seller or any of its Subsidiaries having an annual value of $50,000 or less, in either case during the period from the date of this Agreement until (i) if the Contract is terminable at any time by Seller or the respective Subsidiary without cause upon notice of 90 days or less, the date on which the Contract would terminate if Seller or the respective Subsidiary was to give notice of termination on the date of this Agreement, or (ii) if the Contract is not terminable at any time by Seller or the respective Subsidiary without cause upon notice of 90 days or less, the expiration of the term of the Contract, *provided* that an Immaterial Contract does not include any Contract described in Sections 3.18(a) through 3.18(m);

(71) **Immediate Family Member** means any individual described in the definition of "*Immediate Family Member*" found at 42 C.F.R. §411.351;

(72) **Indemnifying Party** means any Person obligated to indemnify another Person under Article 9;

(73) **Indemnitee** means any Person entitled to indemnification under Article 9;

(74) **Indemnity Notice** means written notification of a claim for indemnity under Article 9, other than a Third Party Claim, made by an Indemnitee to an Indemnifying Party pursuant to Section 9.05(b);

(75) **Indenture** is defined in Section 6.04;

(76) **Information Systems** means the software (including object and source codes as applicable), hardware, application programs and similar systems owned, licensed or leased by Seller and used in the ownership or operation of the Hospital Businesses, whether or not on a system-wide basis;

(77) **Intellectual Properties** means (i) all inventions (whether or not patentable or reduced to practice), all improvements thereto, and all patents, patent applications, and patent disclosures, together with all reissuances, continuations, continuations-in-part, revisions, extensions, and reexaminations thereof, (ii) all trademarks, service marks, trade

dress, logos, trade names, corporate names, and domain names, including all goodwill associated therewith, and all applications, registrations, and renewals in connection therewith, (iii) all copyrightable works, all copyrights, and all applications, registrations, and renewals in connection therewith, and (iv) all trade secrets and confidential business information (including ideas, research and development, know-how, formulas, compositions, manufacturing and production processes and techniques, technical data, designs, drawings, specifications, customer and supplier lists, pricing and cost information, and business and marketing plans and proposals) that are owned, licensed or leased by Seller and used in the ownership or operation of the Hospital Businesses, together with all rights to sue or make any claims for any past, present, or future infringement, misappropriation or unauthorized use of any of the foregoing rights, and the right to all income, royalties, damages and other payments that are now or may hereafter become due or payable with respect to any of the foregoing rights, including damages for past, present or future infringement, misappropriation or unauthorized use thereof;

(78) **Interim Closing Balance Sheets** means the unaudited individual and/or combined balance sheets of Seller and its Subsidiaries as of the most recent month end available before the Closing;

(79) **Investments** means shares of capital stock of any corporation, equity interests in partnerships or limited liability companies, or other equity or debt instruments in any other Person, and proceeds from the sale thereof;

(80) **Joint Venture Promissory Note** is defined in Section 2.07;

(81) **Joint Ventures** is defined in the recitals;

(82) **Leased Real Property** means the real property described on Schedule 2.01(b), together with all buildings, improvements and fixtures thereon, leased by Seller or any Subsidiary of Seller;

(83) **Legal Requirements** means, with respect to any Person, all statutes, laws, ordinances, codes, rules, regulations, restrictions, orders, judgments, rulings, writs, injunctions, decrees, determinations or awards of any Governmental Authority having jurisdiction over such Person or any of such Person's assets or businesses;

(84) **Local Board** means the advisory board of each Hospital composed of community representatives, physicians on the respective Hospital's medical staff, and the Chief Executive Officer of each respective Hospital (for avoidance of doubt, each Hospital shall have its own Local Board). The initial members of the Local Board shall include at least five members of the Seller's Board of Trustees immediately prior to Closing and five other individuals identified by the Seller prior to Closing, two of whom shall be members of the community appointed in consultation with the mayor of the town in which the respective Hospital is located;

(85) **Losses** means any and all damages, costs, losses (including any diminution in value), liabilities, expenses or obligations (including Taxes, interest,

penalties, court costs, costs of preparation and investigation, and attorneys', accountants' and other professional advisors' fees and expenses);

(86) **Material Adverse Change** means a material adverse change, individually or in the aggregate, of the business, assets, liabilities, financial condition or results of operations of Seller and the Hospital Businesses, which taken as a whole (i) has or could reasonably be expected to have a material adverse effect upon the validity or enforceability of this Agreement or (ii) is or could reasonably be expected to be material and adverse to the Hospital Businesses or the Assets, but excluding the effect of (x) matters described in the Schedules, (y) changes in the economy of the United States in general, and (z) changes in Legal Requirements generally applicable to owners and operators of general acute care hospitals in the United States or in Connecticut if such change does not disproportionately affect Seller or the Hospital Businesses; provided, however, that a change resulting from the downward adjustment to the Medicare wage index or the failure of the Seller to meet its debt service coverage ratio, if waived by applicable lender(s), shall not constitute a Material Adverse Change;

(87) **Materials of Environmental Concern** means chemicals, pollutants, contaminants, wastes (including Medical Waste), toxic substances, petroleum and petroleum products listed or regulated under Environmental Laws, including hazardous wastes under the Resource Conservation and Recovery Act, as amended, 42 U.S.C. §6901, *et seq.*, hazardous substances under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. §9601, *et seq.*, asbestos, polychlorinated biphenyls and urea formaldehyde, and low-level nuclear materials, special nuclear materials or nuclear-byproduct materials, all within the meaning of the Atomic Energy Act of 1954, as amended, and any rules, regulations or policies promulgated thereunder;

(88) **Medical Waste** means any substance, pollutant, material or contaminant listed or regulated under any Medical Waste Law that is generated in the diagnosis, treatment or immunization of human beings, in research pertaining thereto, or in the production or testing of biologicals, including (i) pathological waste, (ii) blood, (iii) sharps, (iv) wastes from surgery or autopsy, (v) dialysis waste, including contaminated disposable equipment and supplies, (vi) cultures and stocks of infectious agents and associated biological agents, (vii) isolation wastes, (viii) contaminated equipment, (ix) laboratory waste, and (x) various other biological waste and discarded materials contaminated with or exposed to blood, excretion, or secretions from human beings;

(89) **Medical Waste Law** means the Medical Waste Tracking Act of 1988, 42 U.S.C. §6992, *et seq.*, the U.S. Public Vessel Medical Waste Anti-Dumping Act of 1988, 33 U.S.C. §2501, *et seq.*, the Marine Protection, Research, and Sanctuaries Act of 1972, 33 U.S.C. §1401, *et seq.*, The Occupational Safety and Health Act, 29 U.S.C. §651, *et seq.*, the United States Department of Health and Human Services, National Institute for Occupational Self-Safety and Health Infectious Waste Disposal Guidelines, Publication No. 88-119, and any other federal, state, regional, county, municipal or other Legal Requirements insofar as they purport to regulate Medical Waste, or impose requirements relating to Medical Waste;

(90) **Multiemployer Plan** is defined in section 3(37) of ERISA or section 4001(a)(3) of ERISA;

(91) **Multiple Employer Plan** means an Employee Pension Benefit Plan that is not a Multiemployer Plan and for which a Person who is not a member of a Controlled Group that includes Seller or any Subsidiary is or has been a contributing sponsor;

(92) **Net Working Capital** means the amount by which (i) the value of all non-cash current assets of the Hospital Businesses acquired by Buyer, including inventory and supplies, Accounts Receivable, other receivables, prepaid expenses, and deposits (including security deposits made by Seller pursuant to Assumed Contracts), that Seller and Buyer agree will be usable after Closing, exceeds (ii) the value of all current liabilities assumed by Buyer, including trade accounts payable, accrued expenses (including payroll), advance payments on patient accounts and employee benefit accruals (as such terms are used in the Financial Statements) (for the purpose of clarity, employee benefit accruals include paid time off accruals for vacation and sick time but exclude Extended Illness Bank Obligations), and Net Working Capital shall be calculated in accordance with the methodology set forth on Annex A;

(93) **Notice Period** is defined in Section 9.05(a)(i);

(94) **Objection Notice** is defined in Section 2.05(i);

(95) **ORYX** is defined in Section 3.17;

(96) **Owned Real Property** means real property owned (legally or beneficially) by Seller or any Subsidiary of Seller, including the real property described on Schedule 2.01(a), together with all buildings, improvements and fixtures thereon owned by Seller or any Subsidiary of Seller and all appurtenances and rights thereto;

(97) **PBGC** means the Pension Benefit Guaranty Corporation;

(98) **Permit** means each license, permit, right, franchise, concession, certificate, authorization, consent, certificate of need or other approval of a Governmental Authority owned or held by Seller or relating to the ownership or operations of the Hospital Businesses and the Assets, including applications for, and pending, Permits;

(99) **Permitted Encumbrances** means the Permitted Personal Property Encumbrances and the Permitted Real Property Encumbrances;

(100) **Permitted Personal Property Encumbrances** means those Encumbrances described on Schedule 3.11 as being Permitted Personal Property Encumbrances;

(101) **Permitted Real Property Encumbrances** means those Encumbrances identified on Schedule 3.12(a) as being Permitted Real Property Encumbrances;

(102) **Person** means any individual, corporation (whether for-profit or not-for-profit), limited liability company, association, partnership, firm, joint venture, trust, trustee or other entity or organization, including a Governmental Authority;

(103) **Phase I Assessment(s)** is defined in Section 7.09;

(104) **Phase II Assessment(s)** is defined in Section 7.09;

(105) **PMH** is defined in the preamble;

(106) **PMH Medical Foundation** is defined in Section 7.11;

(107) **Post-Retiree Health Plan Liability** means the book value of the liability relating to Seller's post-retiree health benefit plan, determined by an actuarial firm chosen by Seller using GAAP (i) reflecting the assumptions used for purposes of Note 10 of Seller's Audited Financial Statements as of September 30, 2015 (as updated for the MRP-2007 mortality tables prepared by the Society of Actuaries) and (ii) assuming continuation of the Seller's post-retiree health benefit plan and no change in its provisions after September 30, 2015 (other than the freeze of such plan to new participation);

(108) **Prior Seller Plan** is defined in Section 3.22(b);

(109) **Proceeding** means any action, arbitration, audit, hearing, investigation, litigation, suit or other proceeding (whether civil, criminal, administrative, judicial or investigative, whether formal or informal, whether public or private) commenced, brought, conducted, heard or held by, before, under the authority or at the direction of any Governmental Authority;

(110) **Prohibited Transaction** is defined in Section 5.09;

(111) **Purchase Price** is defined in Section 2.05;

(112) **Purchase Price Adjustment** is defined in Section 2.05(j);

(113) **QNet** is defined in Section 3.17;

(114) **Reportable Event** is defined in section 4043 of ERISA;

(115) **Restricted Area** is defined in Section 5.10;

(116) **Schedules** means the schedules referred to in this Agreement and attached hereto at the time that this Agreement is executed by each original party hereto;

(117) **Second 45-Day Period** is defined in Section 2.05(i);

(118) **Seller** is defined in the preamble;

(119) **Seller Deductible** is defined in Section 9.02;

(120) **Seller's Indemnified Persons** means Seller and Seller's members, stockholders, Affiliates, and, for all of them, their respective members, directors, trustees, officers, employees, agents, representatives, successors and assigns;

(121) **Settlement Agreement** is defined in Section 2.05(i);

(122) **Space Leases** is defined in Section 3.12(g)(i);

(123) **Strategic Business Plan** means the strategic plan developed prior to Closing by Buyer, in consultation with Seller, and, with respect to clinical service lines, in consultation with Seller-affiliated physicians, as the same may be amended from time to time, *provided, however*, that the Strategic Business Plan does not include the strategic capital plan referenced in Section 5.18 herein;

(124) **Subject Items** means each of the Net Working Capital, Captive Insurer Liability, Unfunded Pension Liabilities, Workers' Compensation Liability, and Post-Retiree Health Plan Liability.

(125) **Subsidiary** means, with respect to any Person, (i) any corporation more than 50% of whose stock of any class or classes having by the terms thereof ordinary voting power to elect a majority of the directors of such corporation (irrespective of whether or not at the time stock of any class or classes of such corporation shall have or might have voting power by reason of the happening of any contingency) is at the time owned by such Person and/or one or more Subsidiaries of such Person, (ii) any partnership, limited liability company, association, joint venture or other entity in which such Person and/or one or more Subsidiaries of such Person has more than a 50% equity interest at the time and the management of which is controlled, directly or indirectly, by such Person or through one or more Subsidiaries of such Person and (iii) any entity that is organized as a not-for-profit business organization and (A) whose accounts are required in accordance with GAAP to be consolidated with the accounts of such Person or (B) whose sole member is such Person;

(126) **Target Net Working Capital** means $24,000,000;

(127) **Tax** means any income, unrelated business income, gross receipts, license, payroll, employment, excise, severance, occupation, privilege, premium, net worth, windfall profits, environmental (including taxes under section 59A of the Code), customs duties, capital stock, franchise, profits, withholding, social security, unemployment, disability, real property, personal property, recording, stamp, sales, use, services, service use, transfer, registration, escheat, unclaimed property, value added, alternative or add-on minimum, estimated or other tax, assessment, charge, levy or fee of any kind whatsoever, including payments or services in lieu of Taxes, interest or penalties on and additions to all of the foregoing, that are due or alleged to be due to any Governmental Authority, whether disputed or not;

(128) **Tax Claims** is defined in Section 5.30;

(129) **Tax Return** means any return, declaration, report, claim for refund, information return, filing obligation of any Code section 501(c)(3) organization, or statement, including schedules and attachments thereto and amendments, relating to Taxes;

(130) **Tenant Leases** is defined in Section 3.12(i);

(131) **Third Party Claim** is defined in Section 9.05(a)(i);

(132) **Threshold Liability** is defined in Section 2.05(c);

(133) **Third Party Debt** means indebtedness of Seller for borrowed money other than the ED Loan and any assumed capital leases. For the avoidance of doubt Third Party Debt shall not include any Assumed Liabilities;

(134) **Transfer Act** means the Connecticut Transfer Act, 22 Conn. Gen. Stat. § 134 *et seq.*;

(135) **Transfer Act Activities** is defined in Section 5.08;

(136) **Transitional Services Agreement** means the agreement between Buyer and Seller whereby Buyer will lease Hired Employees to Seller at cost for the orderly wind down of the benefits and administration of Seller's other post-Closing obligations (*e.g.*, finalizing Cost Reports), in substantially the form of Exhibit A attached hereto;

(137) **Unaudited Financial Statements** means the unaudited consolidated balance sheets of Seller and its Subsidiaries as of May 31, 2016, and the unaudited consolidated statements of operations and changes in net assets and the unaudited consolidated statements of cash flows for the eight (8)-month period then ended, and the financial statements described in clauses (i) and (ii) of Section 5.04(b);

(138) **Unfunded ED Loan Amount** means (i) the unpaid principal amount outstanding on the ED Loan, plus all accrued and unpaid interest, fees and other charges thereon, less (ii) the amount of Available Cash delivered by Seller to Buyer pursuant to Section 2.05(g)(v) or Section 2.05(k)(i)(y).

(139) **Unfunded Pension Liabilities** means the unfunded pension liabilities of Seller's defined benefit pension plan, calculated as the Accumulated Benefit Obligation reduced by the fair market value of the assets of Seller's defined benefit pension plan, all as measured by an actuary chosen by Seller;

(140) **WARN Act** means the Worker Adjustment and Retraining Notification Act, 29 U.S.C. §2101, *et seq*;

(141) **Wind-Down Reserve** is defined in Section 2.05(g)(ii); and

(142) **Workers' Compensation Liability** means all workers' compensation liabilities of Seller and its Affiliates, regardless of when incurred. The book value of the

Workers' Compensation Liability shall be measured by an actuarial firm chosen by Seller reflecting assumptions used in preparing Seller's Audited Financial Statements as of September 30, 2015. For the avoidance of doubt, the Workers' Compensation Liability includes both claims known as of the Closing Date and claims that arise post-closing but that pertain to events occurring pre-closing.

1.02. Certain References. As used in this Agreement:

(a) references to "*this Agreement*" mean this Agreement, as amended from time to time, and all Exhibits and Schedules attached to or referenced in this Agreement;

(b) references to "*Articles*" or "*Sections*" are references to Articles and Sections of this Agreement, unless the context states or implies otherwise;

(c) references to "*include*" or "*including*" mean including without limitation and are intended to be illustrative and not restrictive of the word or phrase to which they refer;

(d) references to "*partners*" include general and limited partners of partnerships and members of limited liability companies;

(e) references to "*partnerships*" include general and limited partnerships;

(f) references to any document are references to that document as amended, consolidated, supplemented, novated or replaced by the parties thereto;

(g) references to any law are references to that law as amended, consolidated, supplemented or replaced, and all rules and regulations promulgated thereunder;

(h) references to time are references to Eastern Time;

(i) references to "*Seller's knowledge*" mean the actual knowledge of each of the Persons whose names or titles are set forth on Schedule 1.02(i), after due inquiry by Seller of such Persons;

(j) the gender of all words includes the masculine, feminine and neuter, and the number of all words includes the singular and plural; and

(k) the Table of Contents, the division of this Agreement into Articles and Sections, and the use of captions and headings in connection therewith are solely for convenience and have no legal effect in construing this Agreement.

## 2. SALE OF ASSETS AND RELATED MATTERS

2.01. Sale of Assets. Subject to the terms and conditions of this Agreement, at Closing, Seller shall sell, and Buyer shall purchase, all right, title and interest of Seller in and to the Assets, free and clear of all Encumbrances other than the Permitted Encumbrances, including the following Assets:

(a) the Owned Real Property described on Schedule 2.01(a);

(b) the Leased Real Property described on Schedule 2.01(b);

(c) all equipment (including medical and computer equipment located at the Hospital Businesses), vehicles, furniture and furnishings and other tangible personal properties owned or leased by Seller or used in the conduct of the Hospital Businesses; *provided* that any such leased personal property shall be described on Schedule 2.01(c);

(d) all current assets included in Net Working Capital;

(e) all financial, patient, medical staff, personnel and other records of the Hospital Businesses (including equipment records, medical/administrative libraries, medical records, documents, catalogs, books, records, files and operating manuals);

(f) all rights with respect to the Contracts listed or described on Schedule 2.01(f), the leases relating to the Leased Real Property listed or described on Schedule 2.01(b), the leases relating to the leased personal property listed or described on Schedule 2.01(c), and all Immaterial Contracts not listed or described on Schedule 2.02(j) (all such Contracts, collectively, the "**Assumed Contracts**");

(g) all Permits of Seller, to the extent legally assignable, relating to the ownership of the Assets and the conduct of the Hospital Businesses, including those described on Schedule 2.01(g);

(h) the Intellectual Properties, including those Intellectual Properties described on Schedule 2.01(h), and the Information Systems;

(i) all property of Seller, real, personal or mixed, tangible or intangible, arising or acquired between the date of this Agreement and the Closing Date;

(j) the Investment interests in the Joint Ventures, including all transferable rights relating thereto, but only to the extent that the governing instruments of the Joint Ventures permit such transfer;

(k) subject to Section 5.13, all insurance proceeds with respect to the Assets or the Assumed Liabilities (including insurance proceeds received by Seller or payable to Seller and all deductibles, copayments and self-insurance requirements payable by Seller) arising in connection with damage to the Assets occurring on or prior to the Closing Date, to the extent not expended for the repair or restoration of the Assets;

(l) claims of Seller against third parties relating to the Assets or the Assumed Liabilities, choate or inchoate, known or unknown, contingent or otherwise, except for those claims described on Schedule 2.02(p) and any claims relating to Excluded Assets or the Excluded Liabilities;

(m) general intangibles of the Hospital Businesses, including goodwill;

(n) the Investment interests in CHIC, including all transferable rights relating thereto, or in the alternative at Buyer's election, all cash and investments held in CHIC, and all cash and investments held in the workers' compensation trust;

(o) Seller's provider agreements with Government Payment Programs;

(p) all proceeds of the foregoing and, except for the Excluded Assets, all other property of every kind, character or description, tangible and intangible, known or unknown, owned or leased by Seller, wherever located and whether or not reflected in the Financial Statements or similar to the properties described above;

(q) all bank accounts that receive deposits from Government Payment Programs and other third-party payors; provided, however, that all funds in such accounts as of the Closing Date shall be retained by Seller; and

(r) all cash of Seller specifically designated as cash collateral for the ED Loan (the "**ED Cash Collateral**"), provided, that in no event shall the amount of ED Cash Collateral delivered at Closing hereunder exceed $5,000,000.

2.02. Excluded Assets. Notwithstanding the generality of the definition of Assets and of the examples of Assets listed in Section 2.01, the following assets (the "**Excluded Assets**") are not a part of the sale and purchase contemplated by this Agreement and are excluded from the Assets, and Seller shall retain all of its right, title and interest therein and thereto from and after the Closing:

(a) any financial, patient, medical staff, personnel and other records of the Hospital Businesses that Seller cannot transfer to Buyer due to applicable Legal Requirements by which Seller is bound;

(b) all cash (other than ED Cash Collateral, any cash held by CHIC, any cash held by ECHN in an account designated for the payment of workers' compensation claims), bank accounts (except for those that receive deposits from Government Payment Programs and other third party payors), certificates of deposit, treasury bills, treasury notes, marketable securities and other cash equivalents (including the Purchase Price payable to Seller) of Seller or the Hospital Businesses, except for those listed in Section 2.01(n);

(c) all short-term and long-term Investments, but excluding the Investment interests in the Joint Ventures, and, if applicable, pursuant to Section 2.01(n), the Investment interests in CHIC;

(d) board-designated, restricted, and trustee-held or escrowed funds (such as funded depreciation, debt service reserves, self-insurance trusts, working capital trust assets, and assets and Investments restricted as to use), beneficial interests in charitable trusts, and accrued earnings on all of the foregoing;

(e) inventory and supplies disposed of or exhausted after the date of this Agreement and on or before the Closing Date in the ordinary course of the Hospital Businesses, and Assets transferred or disposed of in accordance with Section 5.02(e);

(f) Cost Report settlement receivables for periods ended on or prior to the Closing Date and all appeals and appeal rights relating thereto;

(g) all funds held by trustees pursuant to bond indentures of Seller (including the Indenture) related to the Bond Liabilities;

(h) all deductions, benefits, claims, refunds, receivables and other rights of Seller or any Affiliate of Seller relating to Taxes in respect of periods ending on or before the Closing Date (or portions thereof) or resulting from the consummation of the transactions contemplated by this Agreement;

(i) all other current financial assets not included in Net Working Capital and all deferred expenses;

(j) all Contracts that are listed or described on Schedule 2.02(j) and all other Contracts that are not Assumed Contracts (including this Agreement and the Closing Documents);

(k) all Permits to the extent not legally assignable to Buyer or not relating to the ownership of the Assets and the conduct of the Hospital Businesses;

(l) the corporate or trade names set forth on Schedule 2.02(l) and all Intellectual Property rights relating thereto;

(m) all physician loans and receivables other than repayment obligations under Assumed Contracts;

(n) all right, title and interest of ECHN Community Healthcare Foundation in and to its assets and properties (whether owned, leased or otherwise) described on Schedule 2.02(n);

(o) all insurance proceeds received by Seller or payable to Seller (i) with respect to other Excluded Assets or the Excluded Liabilities or (ii) arising in connection with the operation of the Assets for periods prior to Closing to the extent that all material damage to any such Asset has been repaired and to the extent consistent with Section 5.13 herein;

(p) the claims of Seller against third parties described on Schedule 2.02(p), appeals and other risk settlements of the Hospital Businesses which arose during or relate to a pre-Closing period, and all rights, remedies, claims and defenses against third parties thereunder or otherwise relating solely to the Excluded Assets or to the Excluded Liabilities, whether choate or inchoate, known or unknown, contingent or otherwise;

(q) any other assets identified on Schedule 2.02(q) or excluded after the execution of this Agreement by mutual written agreement of the parties;

(r) any Investment interest in a Joint Venture that did not transfer at Closing because the governing instruments of such Joint Venture did not permit such transfer at Closing and all required consents to such transfer were not obtained from the owners or other participants in the Joint Venture; and

(s) all proceeds of the foregoing.

2.03. Assumed Liabilities. As of the Closing Date, Buyer shall assume from Seller and its Affiliates the Assumed Liabilities, including the Assumed Liabilities described on Schedule 2.03, and agrees to pay and satisfy all such Assumed Liabilities.

2.04. Excluded Liabilities. Notwithstanding anything to the contrary set forth in this Agreement, under no circumstance will Buyer assume or be obligated to pay, and from and after the Closing, none of the Assets will be or become liable for or subject to, any of the Excluded Liabilities, which Excluded Liabilities are and will remain liabilities of Seller, including the following:

(a) all liabilities accrued on the Closing Balance Sheets, other than those included in Net Working Capital constituting Assumed Contracts;

(b) liabilities or obligations for Taxes of the Hospital Businesses in respect of periods ending on or before the Closing Date or resulting from the consummation of the transactions contemplated by this Agreement;

(c) liabilities or obligations for federal or state income Taxes of Seller or any Affiliate of Seller, including any amounts accrued or incurred by the Hospital Businesses as a result of being a member of a consolidated, affiliated, combined, unitary or similar group that includes such other Persons;

(d) liabilities or obligations relating to the Excluded Assets;

(e) liabilities or obligations associated with indebtedness for borrowed money (other than capital lease obligations under any Assumed Contract and the ED Loan);

(f) (i) obligations required to be performed by Seller on or before the Closing Date under the Assumed Contracts, (ii) liabilities or obligations resulting from a breach or default on or before the Closing Date of any Assumed Contracts and (iii) liabilities arising under any Contracts that are not Assumed Contracts;

(g) Proceedings and claims (whether instituted before or after Closing) relating to acts or omissions that occurred on or before the Closing Date, including those relating to peer review activities, except for those Proceedings and Claims listed on Schedule 3.23 that are identified as being included in Assumed Liabilities;

(h) liabilities or obligations under the Hill-Burton Act or other restricted grant or loan programs;

(i) liabilities and obligations to Seller's employees, Seller's Employee Benefit Plans, the Internal Revenue Service, PBGC or any other Governmental Authority arising from or relating to periods on or before the Closing Date (whether or not triggered by the transactions contemplated by this Agreement), including liabilities or obligations arising on or before the Closing Date under any Seller Employee Benefit Plan, United States Equal Employment Opportunity Commission claim, unfair labor practice, and wage and hour practice, and liabilities or obligations arising under the WARN Act, provided that this subsection (i) shall not apply to (i) liabilities or obligations under the Employee Benefit Plans assumed by Buyer under Sections 5.03(d) and 5.03(e), including but not limited to the Unfunded Pension Liabilities and the Post-Retiree Health Plan Liability, (ii) Extended Illness Bank Obligations, (iii) obligations under Assumed Contracts or (iv) the Workers' Compensation Liability;

(j) Cost Report settlement payables relating to all Cost Report periods ending on or before the Closing Date;

(k) liabilities or obligations of Seller, including arising out of the operation of the Hospital Businesses or ownership of the Assets, with respect to periods ending on or before the Closing Date, or resulting from the consummation of the transactions contemplated by this Agreement, including pursuant to third-party payor programs and Government Payment Programs, including recoupment rights of the Centers for Medicare & Medicaid Services ("**CMS**") or the Connecticut Department of Social Services and recapture of previously reimbursed charges or expenses;

(l) penalties, fines, settlements, interest, costs and expenses arising out of or incurred as a result of any actual or alleged violation by Seller of any Legal Requirement prior to the Closing Date; and

(m) liabilities or obligations arising out of or in connection with the Eastern Connecticut Health Network, Inc. Long Term Retention Plan, as amended through August 1, 2016.

2.05. Purchase Price; Purchase Price Adjustment.

(a) Subject to the terms and conditions of this Agreement, in reliance upon the representations and covenants of Seller in this Agreement, and as consideration for the sale of the Assets, Buyer shall assume the Assumed Liabilities from Seller and tender the "**Purchase Price**", determined as follows, subject to the limitations and adjustments, including post-Closing adjustments, described in Sections 2.05(b)-(m):

(i) $105,000,000 (One Hundred Five Million Dollars), *plus*

(ii) the amount, if any, by which Net Working Capital on the Closing Balance Sheets exceeds the Target Net Working Capital, or *minus*

(iii) the amount, if any, by which Net Working Capital on the Closing Balance Sheets is less than the Target Net Working Capital, and *minus*

(iv) the book value (including the current portion) as of the Closing of any indebtedness (including capitalized leases but not including the ED Loan) assumed by Buyer, and *minus*

(v) the Unfunded Pension Liabilities as of the Closing Date, and *minus*

(vi) the Post-Retiree Health Plan Liability as of the Closing Date, and *plus* (in the case of Section 2.05(a)(vii)(w)) or *minus* (in the case of Section 2.05(a)(vii)(x)), as applicable,

(vii) (w) the amount, if any, by which the Workers' Compensation Liability as of the Closing Date is less than the cash and investments held by the workers' compensation trust with respect to such liabilities as of the Closing Date, or (x) the amount, if any, by which the Workers' Compensation Liability as of the Closing Date exceeds the cash and investments held by the workers' compensation trust with respect to such liabilities as of the Closing Date, and *plus* (in the case of Section 2.05(a)(viii)(y) below) or *minus* (in the case of Section 2.05(a)(viii)(z) below), as applicable,

(viii) (y) the amount, if any, by which the Captive Insurer Liability as of the Closing Date is less than the cash and investments held by the CHIC with respect to such liabilities as of the Closing Date, or (z) the amount, if any, by which the Captive Insurer Liability as of the Closing Date exceeds the cash and investments held by CHIC with respect to such liabilities as of the Closing Date, and *minus*

(ix) asbestos abatement liability as determined within five business days of Closing by an independent third party mutually agreed upon by Seller and Buyer; provided, however, that the total asbestos abatement liability shall not exceed $1,000,000 (One Million Dollars), and *minus*

(x) in the event Seller is unable to assign and transfer to Buyer or Buyer's designee all of Seller's Investment in one or more Joint Ventures due to the inability to satisfy the requirements of the governing instruments of such Joint Ventures with respect to such transfer at Closing, an amount equal to the value listed next to the name of such Joint Venture on Schedule 2.05(a), provided, however, that the provisions of this Agreement shall not be construed as an offer to separately purchase Seller's Investment in one or more Joint Ventures, and *minus*

(xi) Any amounts paid to Seller by Buyer to reimburse Seller's out-of-pocket legal, valuation, or consulting expenses pursuant to Section 8.04(b).

(b) Seller and Buyer shall equally share the cost of obtaining updated actuarial valuations, which shall be conducted by an actuarial firm chosen by Seller and calculated

in accordance with Section 2.05(h)(ii)-(v), as applicable, of the Unfunded Pension Liabilities, the Captive Insurer Liabilities, the Workers' Compensation Liability, and the Post-Retiree Health Plan Liability as of the Closing.

(c) The sum of the amounts subtracted from the Purchase Price pursuant to Sections 2.05(a)(iii)-(a)(xi) above shall not exceed $77,000,000 (Seventy Seven Million Dollars) (the "**Threshold Liability**").

(d) If Seller, as of the Closing Date, has liabilities, excluding Third Party Debt and excluding the ED Loan, that exceed the Threshold Liability ("**Additional Liabilities**"), Buyer shall assume such excess Additional Liabilities up to Ten Million Dollars ($10,000,000) at Closing based on the amount estimated pursuant to Section 2.05(f)(i)(f) (and as such amount is finally determined pursuant to the provisions of Sections 2.05(h)-(j), as applicable), subject to Seller's obligation to reimburse Buyer for such assumption of Additional Liabilities pursuant to Section 2.05(g)(iii). Buyer may, at Closing, and based on the Closing Estimates, in its sole discretion, waive the provisions of Section 7.12 and assume liabilities in excess of Ten Million Dollars ($10,000,000) of Additional Liabilities. As an illustration only, examples of how the provisions of this Section 2.05 will be implemented are included in Schedule 2.05.

(e) Notwithstanding the foregoing Section 2.05, no liabilities of Seller or its Affiliates shall be subtracted from the Purchase Price to the extent any such liabilities are already included in Net Working Capital.

(f) The Purchase Price, including estimates at Closing of the Net Working Capital, Captive Insurer Liability, Unfunded Pension Liabilities, Workers' Compensation Liability and the Post-Retiree Health Plan Liability calculated as of Closing, will be calculated as follows:

(i) For purposes of determining the Purchase Price, not more than five (5) but in no event less than two (2) business days prior to the Closing, Seller shall deliver to Buyer a statement setting forth its good faith estimate and calculation as of the Closing, and where actuarially determined, based on the Audited Financial Statements as of September 30, 2015, of the following (collectively, the "**Closing Estimates**"):

(a) Net Working Capital,

(b) Unfunded Pension Liabilities,

(c) Captive Insurer Liability,

(d) Workers' Compensation Liability,

(e) Post-Retiree Health Plan Liability, and

(f) Additional Liabilities.

including, as to each Subject Item, supporting documentation of reasonable specificity and other information reasonably requested by the Buyer to verify such amounts. For the avoidance of doubt, each of the Subject Items shall be subject to a final determination after the Closing pursuant to the provisions of Sections 2.05(h)-(i), and the Purchase Price shall be adjusted accordingly pursuant to the provisions of Section 2.05(j).

(ii) The estimate of Net Working Capital at Closing will be calculated by Buyer and Seller from the physical count of inventory and supplies conducted pursuant to this Section 2.05(f)(ii), if available, the relevant entries in the Interim Closing Balance Sheets (other than inventory and supplies if the physical inventory is available) and the parties' mutual good faith estimate as of the Closing Date of the amount of the prorations to be made pursuant to Section 2.06. The portion of Net Working Capital constituting the value of inventory and supplies will be determined based on a physical count conducted by Seller on a date not more than five (5) business days before the Closing Date. Seller shall give Buyer at least five (5) business days prior notice of the date of the count and permit Buyer to monitor the count. Seller shall count the usable items of inventory and supplies that are not damaged or obsolete, and that are of a type, quality and quantity that may be used in the ordinary course of the Hospital Businesses (having due regard for the services offered by the Hospital Businesses). Seller will conduct the count in the same manner that Seller conducted the count of, and will count the same classes and categories of items that Seller counted to determine the value of, inventory and supplies in the most recent Audited Financial Statements. Upon completion of the count, Seller shall determine the value of the inventory and supplies (determined by the lower of cost or market on a first in, first out basis). If the results of the count and the resulting value of inventory and supplies are available by Closing, then the portion of Net Working Capital attributable to inventory and supplies will be the value determined pursuant to the count (updated for actual usage and purchases between the date of the count and the Closing Date). If the results of the count or the resulting value of inventory and supplies are not available by Closing, then for purposes of the Closing, the value of the inventory and supplies will be the amount set forth in the Interim Closing Balance Sheets and the value of the inventory and supplies determined pursuant to the count (updated for actual usage and purchases between the date of the count and the Closing Date) will be set forth in the Closing Balance Sheets. The portion of Net Working Capital constituting the value of prepaid expenses and deposits will be determined based on mutual agreement of Seller and Buyer.

(g) At Closing, Buyer shall pay such Purchase Price (based on the Closing Estimates provided in a statement delivered by Seller pursuant to Section 2.05(f)) by wire transfer of immediately available funds to an account designated by the Seller to Buyer prior to the Closing Date, and Seller shall immediately use all of its Available Cash in the following manner and priority (recognizing that there may not be sufficient Available Cash to satisfy all of the following obligations):

(i) First, to pay off all Third Party Debt, including to defease the Indenture and all Encumbrances created by or in connection with the Indenture, including the Bond Liabilities and other tax-exempt debt;

(ii) Second, to fund Seller's wind-down operations up to One Million Dollars ($1,000,000) (the "**Wind-Down Reserve**"); *provided, however*, that in the event that Seller fails to fund the Wind-Down Reserve in full, (x) Buyer shall pay such shortfall in the administrative wind-down costs incurred by Seller in accordance with Section 2.05(*l*)(i);

(iii) Third, to reimburse Buyer for Additional Liabilities;

(iv) Fourth, to fund the indemnity reserve in accordance with Section 9.08;

(v) Fifth, to reimburse Buyer up to the total amount of the ED Loan; and

(vi) Sixth, any excess Available Cash shall be retained by Seller.

As an illustration only, an example of how the provisions of this Section 2.05(g) will be implemented is included in Schedule 2.05.

(h) Not more than ninety (90) days after the Closing, Buyer shall prepare and deliver, or cause to be prepared and delivered, to Seller, the Closing Balance Sheet and the final closing statement (the "**Final Closing Statement**") setting forth the following:

(i) its good faith determination of the actual Net Working Capital as of the Closing Date, and a calculation showing the difference between the Net Working Capital estimated by Seller at Closing and the actual Net Working Capital as of the Closing Date,

(ii) the actual Unfunded Pension Liabilities as of the Closing Date, as determined using the updated actuarial report obtained pursuant to Section 2.05(d), provided that such updated report shall be prepared using the same assumptions, principles and methodologies used in the calculation of the Unfunded Pension Liabilities pursuant to Section 2.05(f)(i), and a calculation showing the difference between the Unfunded Pension Liabilities estimated by Seller at Closing and the actual Unfunded Pension Liabilities as of the Closing Date, and

(iii) the actual Captive Insurer Liability as of the Closing Date, as determined using the updated actuarial report obtained pursuant to Section 2.05(d), provided that such updated report shall be prepared using the same assumptions, principles and methodologies used in the calculation of the Captive Insurer Liability pursuant to Section 2.05(f)(i), except that the selected ratio for the calculation of the $1,000,000 basic limit loss cost used in such updated actuarial report shall be 0.90 (versus 0.64 as of September 30, 2015), and a

calculation showing the difference between the Captive Insurer Liability estimated by Seller at Closing and the actual Captive Insurer Liability as of the Closing Date,

(iv) the actual Workers' Compensation Liability as of the Closing Date, as determined using the updated actuarial report obtained pursuant to Section 2.05(d), provided that such updated report shall be prepared using the same assumptions, principles and methodologies used in the calculation of the Workers' Compensation Liability pursuant to Section 2.05(f)(i), and a calculation showing the difference between the Workers' Compensation Liability estimated by Seller at Closing and the actual Workers' Compensation Liability as of the Closing Date,

(v) the actual Post-Retiree Health Plan Liability as of the Closing Date, as determined using the updated actuarial report obtained pursuant to Section 2.05(d), provided that such updated report shall be prepared using the same assumptions, principles and methodologies used in the calculation of the Post-Retiree Health Plan Liability pursuant to Section 2.05(f)(i), and a calculation showing the difference between the Post-Retiree Health Plan Liability estimated by Seller at Closing and the actual Post-Retiree Health Plan Liability as determined by Buyer as of the Closing Date, and

(vi) the actual Additional Liabilities as of the Closing Date, and a calculation showing the difference between the Additional Liabilities estimated by Seller at Closing and the actual Additional Liabilities as determined by Buyer as of the Closing Date,

Simultaneously, with its delivery to Seller of the Closing Balance Sheet and the Final Closing Statement, Buyer shall deliver to Seller supporting documentation of reasonable specificity supporting the calculation of the value of each Subject Item listed in Section 2.05(h)(i)-(v). Except as otherwise expressly provided herein, the Final Closing Statement and the Closing Balance Sheets shall be prepared using the same principles and methodologies, including the determination of Accounts Receivable, doubtful account and the Subject Items, as used in preparing the Interim Closing Balance Sheets. At all reasonable times following delivery by Buyer to Seller of the Final Closing Statement and the Closing Balance Sheets, Buyer shall make available to Seller and its agents all books and records of Buyer included in, or related to, the determination of the value of each Subject Item listed in Section 2.05(h)(i)-(v), including all of Buyer's and its agent's accounting work papers and journal entries underlying such determination or the preparation thereof and shall permit Seller to discuss all such matters with Buyer's agents.

(i) Following receipt of the information set forth in Section 2.05(h), Seller will be afforded a period of forty-five (45) days (the "**45-Day Period**") to review the Final Closing Statement and the Closing Balance Sheets. At or before the end of the 45-Day Period, Seller will either (i) accept the amount of the actual Subject Items calculated

by Buyer and set forth on the Final Closing Statement in their entirety or (ii) deliver to Buyer a written notice (the "**Objection Notice**") containing a reasonably detailed written explanation of those items on the Final Closing Statement or the Closing Balance Sheets that Seller disputes, in which case the items specifically identified by Seller shall be deemed to be in dispute. The failure by Seller to deliver the Objection Notice within the 45-Day Period shall constitute Seller's acceptance of the amount of the actual Subject Items calculated by Buyer. If Seller delivers the Objection Notice in a timely manner, then, within a further period of forty-five (45) days from the end of the 45-Day Period (the "**Second 45-Day Period**"), the parties will attempt to resolve in good faith any disputed items and reach a written agreement (the "**Settlement Agreement**") with respect thereto. Failing such resolution, as promptly as practicable (and no event later than ten (10) days from the end of the Second 45-Day Period), the unresolved disputed items will be referred for final binding resolution to PricewaterhouseCoopers LLP (the "**Arbitrating Accountants**"). In resolving any disputed item, the Arbitrating Accountants may not assign a value to any item greater than the greatest value for such item claimed by either party or less than the smallest value for such item claimed by either party. The fees and expenses of the Arbitrating Accountants shall be allocated between Buyer and Seller in proportion to the amounts by which their proposals of the actual Subject Items differed from the Arbitrating Accountants' final determination. Such determination (the "**Accountants' Determination**") shall be (i) in writing, (ii) furnished to the Buyer and Seller as soon as practicable (and in no event later than thirty (30) days) after the items in dispute have been referred to the Arbitrating Accountants, (iii) made in accordance with GAAP, consistently applied, and (iv) non-appealable and incontestable by Buyer or Seller and each of their respective Affiliates and successors and assigns and not subject to collateral attack for any reason other than manifest error or fraud.

(j) The Purchase Price will be recalculated (based on clauses (i)-(viii) below) (the "**Purchase Price Adjustment**") to reflect:

(i) any such revisions in the amount of the prorations to be made pursuant to Section 2.06,

(ii) the difference between the Net Working Capital (excluding differences in prepaid expenses and deposits calculated in accordance with Section 2.05(f)(ii) and, if a physical inventory was used to calculate the Purchase Price, in inventory and supplies) estimated at Closing and the actual Net Working Capital as of the Closing Date (as finally determined pursuant to the provisions of Sections 2.05(h) and, if applicable, Section 2.05(i)),

(iii) the difference between the Unfunded Pension Liabilities estimated at Closing and the actual Unfunded Pension Liabilities (as finally determined pursuant to the provisions of Sections 2.05(h) and, if applicable, Section 2.05(i)),

(iv) the difference between the Captive Insurer Liability estimated at Closing and the actual Captive Insurer Liability (as finally determined pursuant to the provisions of Sections 2.05(h) and, if applicable, Section 2.05(i))

(v) the difference between the Workers' Compensation Liability estimated at Closing and the actual Workers' Compensation Liability (as finally determined pursuant to the provisions of Sections 2.05(h) and, if applicable, Section 2.05(i)),

(vi) the difference between the Post-Retiree Health Plan Liability estimated at Closing and the actual Post-Retiree Health Plan Liability (as finally determined pursuant to the provisions of Sections 2.05(h) and, if applicable, Section 2.05(i)), and

(vii) the difference between the Additional Liabilities estimated at Closing and the actual Additional Liabilities (as finally determined for and as of the Closing Date and pursuant to the provisions of Sections 2.05(h) and, if applicable, Section 2.05(i)).

As an illustration only, an example of how the provisions of this Section 2.05(j) will be implemented is included in Schedule 2.05.

(k)

(i) Within five (5) business days following the Final Determination Date, if the Purchase Price is adjusted upward by the Purchase Price Adjustment, the Purchase Price Adjustment shall be applied or paid, as applicable, in the following manner and priority (recognizing that the amount of the Purchase Price Adjustment may not be sufficient to satisfy each of the following obligations):

(u) First, if and to the extent Buyer has paid any of Seller's administrative wind-down costs pursuant to Section 2.05(*l*)(i), Buyer shall be entitled to retain any amounts remaining from the Purchase Price Adjustment as reimbursement of such administrative wind-down costs;

(v) Second, if and to the extent Seller is unable to fund fully the Wind-Down Reserve, any amounts remaining from the Purchase Price Adjustment shall be used to fund Seller's Wind-Down Reserve, less the amount retained by Buyer pursuant to Section 2.05(k)(i)(u);

(w) Third, in the event that Seller is unable to fund fully the indemnity reserve establish under Section 9.08 to the maximum amount of $4,500,000 at the Closing, any amounts remaining from the Purchase Price Adjustment shall be used by Seller to fund the indemnity reserve (in an amount not to exceed $4,500,000);

(x) Fourth, Buyer shall be entitled to retain any amounts remaining from the Purchase Price Adjustment up to the aggregate amount of the Additional Liabilities; and

(y) Fifth, to reimburse Buyer up to the total amount of the ED Loan;

(z) Sixth, Buyer shall pay to Seller, by wire transfer of immediately available funds to one or more accounts designated by Seller, any amounts remaining from the Purchase Price Adjustment (after application of clauses (u) through (y) above).

(ii) If the Purchase Price is adjusted downward by the Purchase Price Adjustment, within five (5) business days following the Final Determination Date, Seller shall pay to Buyer the amount by which the Purchase Price is decreased, by wire transfer of immediately available funds to one or more accounts designated by Buyer as a cash payment from Seller to Buyer in an amount up to the remaining Available Cash in excess of the remaining Wind-Down Reserve.

As an illustration only, an example of how the provisions of this Section 2.05(k) will be implemented is included in Schedule 2.05.

(l)

(i) If following completion of the process outlined in Sections 2.05(a)-2.05(k), Available Cash is less than $1,000,000 (One Million Dollars), Buyer shall pay Seller's administrative wind-down costs (*e.g.*, preparation of tax returns, annual audit, legal fees relating to dissolution proceedings) incurred through the third anniversary of the Closing Date to the extent such wind-down costs exceed Available Cash; *provided, however*, that the total amount paid by Buyer for Seller's wind-down costs under this Section 2.05(*l*)(i) shall not exceed an amount equal to One Million Dollars ($1,000,000) less Available Cash determined after the process outlined above.

(ii) To the extent that any funds remain in the Wind-Down Reserve following the wind-down of Seller's operations, and there has been a reduction in the Commitment Amount pursuant to Section 5.18, the remaining Wind-Down Reserve funds shall be paid to Buyer and the Commitment Amount shall be increased, on a dollar-for-dollar basis, up to a maximum of Seventy-Five Million Dollars ($75,000,000), in accordance with Section 5.18(c)(v).

As an illustration only, an example of how the provisions of this Section 2.05(*l*) will be implemented is included in Schedule 2.05.

(m)

(i) If Seller receives any cash payments pursuant to cost report settlements following the Closing, Seller shall use such cash in the following manner and priority, to the extent available and applicable (recognizing that the amount of the cash payments pursuant to cost report settlements may not be sufficient to satisfy each of the following obligations):

(u) First, to reimburse Buyer for any amounts Buyer has expended to pay Seller's wind-down costs pursuant to Section 2.05(*l*)(i);

(v) Second, if and to the extent Seller is unable to fund fully the Wind-Down Reserve, to fund the shortfall in the Wind-Down Reserve less any amount paid to Buyer pursuant to Section 2.05(m)(i)(u);

(w) Third, to fund the indemnity reserve in accordance with Section 9.08;

(x) Fourth, to reimburse Buyer for the Additional Liabilities; and

(y) Fifth, to reimburse Buyer up to the total amount of the ED Loan;

(z) Sixth, to be retained by Seller.

(ii) If Seller is required to make any cash payments pursuant to cost report settlements following the Closing, Seller shall make such payments, first, from Seller's Available Cash (including the indemnity reserve established pursuant to Section 9.08); *provided, however*, that Seller shall indemnify Buyer, in accordance with Section 9.01(d), for any unpaid cash payments required to be paid by Seller pursuant to cost report settlements that are not satisfied in full pursuant to the immediately preceding clause.

As an illustration only, an example of how the provisions of this Section 2.05(m) will be implemented is included in Schedule 2.05.

2.06. Prorations. At Closing, and to the extent not included in Net Working Capital, Buyer and Seller shall prorate real estate and personal property lease payments, real estate and personal property Taxes (except that no such proration of property Taxes will be necessary in respect of the transfer of property by any Person that is a non-profit corporation that does not pay any property Taxes with respect to such property) and other assessments, and all other items of income and expense that are normally prorated upon a sale of assets of a going concern, if any. If any payment of Taxes made by Seller before Closing is credited against real estate Taxes for which Buyer will be liable, the amount of such credit will be applied as a credit against any prorations owing by Seller, to the extent available for offset, and any amounts not so applied will be paid to Seller by Buyer upon Buyer's receipt of such credit.

2.07. Promissory Note. To the extent Seller is unable to transfer to Buyer on the Closing Date Seller's Investment in one or more Joint Ventures as a result of the failure to obtain a consent or to otherwise comply with the governing instruments of such Joint Venture, Buyer shall lend to Seller an amount equal to the value of such Joint Venture(s) as such value is listed on Schedule 2.05(a). The loan described in the previous sentence shall be made pursuant to a promissory note bearing interest at 3% per annum payable solely from, and secured by, future distributions from the Joint Ventures, and further secured by the Joint Venture investments themselves, to the extent the granting of such a security interest is permissible under the laws of the State of Connecticut and the Joint Venture agreements (the "**Joint Venture Promissory Note**"). If, after the Closing Date, one or more of Seller's Joint Venture investments whose value is included in the Joint Venture Promissory Note is transferred to Buyer, the principal

amount of the Joint Venture Promissory Note shall be reduced by an amount equal to the value set forth next to the name of such Joint Venture on Schedule 2.05(a).

## 3. REPRESENTATIONS OF SELLER

Subject to the exceptions described in the Schedules, Seller makes the following representations to Buyer on and as of the date of this Agreement and will be deemed to make them again at and as of the Closing Date:

3.01. Organization and Qualification. Seller is a non-stock corporation duly organized and validly existing in good standing under the laws of the State of Connecticut. Seller is not licensed, qualified or admitted to do business in any jurisdiction other than in the State of Connecticut and there is no other jurisdiction in which the ownership, use or leasing of Seller's assets or properties, or the conduct or nature of its business, makes such licensing, qualification or admission necessary.

3.02. Corporate Powers; Absence of Conflicts, Etc. Seller has the requisite power and authority to conduct the Hospital Businesses as now being conducted, to enter into this Agreement and to perform its obligations hereunder. The execution, delivery and performance by Seller of this Agreement and the Closing Documents to which Seller is or becomes a party and the consummation by Seller of the transactions contemplated by this Agreement:

(a) are within Seller's powers, are not in contravention of its articles of incorporation, bylaws and other governing documents, and have been duly authorized by all appropriate corporate action;

(b) do not conflict with, result in any breach or contravention of, or permit the acceleration of the maturity of any liabilities of Seller (other than Excluded Liabilities to be satisfied as of the Closing Date), and do not create or permit the creation of any Encumbrance on or affecting any of the Assets;

(c) do not violate any Legal Requirement to which Seller, the Assets, or the Hospital Businesses may be subject other than with respect to the Excluded Liabilities to be satisfied as of the Closing Date; and

(d) assuming the receipt of all consents set forth in Schedule 3.02, do not conflict with or result in a breach or violation of any material Contract to which Seller is a party or by which it is bound and will not be terminated as of the Closing Date.

3.03. Binding Agreement. This Agreement and each of the Closing Documents to which Seller is or becomes a party are (or upon execution will be) valid and legally binding obligations of Seller, enforceable against it in accordance with the respective terms hereof or thereof.

3.04. Subsidiaries and Third Party Rights. Seller holds no Investment interest in any Person involved in the ownership or operation of the Hospital Businesses or the Assets, other than those Persons identified on Schedule 3.04. Schedule 3.04 indicates for each Person identified thereon whether it is currently active or inactive and whether it, together with its

consolidated Subsidiaries, has total assets of $10,000 or more. Schedule 3.04 also indicates, for each Joint Venture, the percentage of equity interests owned by Seller or its Affiliate in such Joint Venture and the name of, and percentage of equity interests owned by, third parties in such Joint Venture. Other than Seller and those Persons set forth on Schedule 3.04, there are no other Persons that own any interest in any of the Hospital Businesses. There are no Contracts with, or rights of, any Person to acquire, directly or indirectly, any material assets, or any interest therein, of Seller, including any of the Assets, other than Contracts entered into in the ordinary course of the Hospital Businesses or Contracts entered into with Buyer with respect to the transactions contemplated by this Agreement.

3.05. Legal and Regulatory Compliance. Except as otherwise provided in this Agreement and other than as set forth on Schedule 3.05, Seller and all of its officers, directors, agents, or employees comply in all material respects with, and have complied in all material respects with, all Legal Requirements, and Seller has timely filed all material reports, data and other information required to be filed with Governmental Authorities. Seller has not received notice of any currently pending or threatened Proceeding against it alleging or based upon an alleged violation of any Legal Requirements. Neither Seller nor any Affiliate of Seller is party to or otherwise bound by (i) a corporate integrity agreement with the Office of Inspector General of the United States Department of Health and Human Services or written agreement with such Governmental Authority to establish or maintain a corporate integrity program applicable to any of the Hospital Businesses or (ii) a settlement or other agreement with any other Governmental Authority, other than participation agreements with Medicare and Medicaid, that imposes continuing obligations on any of the Hospital Businesses or contains obligations that have not been fully discharged.

3.06. Financial Statements. Attached as Schedule 3.06 are copies of the Audited Financial Statements and the Unaudited Financial Statements. The Financial Statements fairly present the financial condition and results of operations of Seller and the Hospital Businesses as of the respective dates thereof and for the periods therein referred to, all in accordance with GAAP, subject, in the case of the Unaudited Financial Statements, to normal recurring year-end adjustments (the effect of which will not, individually or in the aggregate, have a Material Adverse Change) and the absence of notes (which, if presented, would not differ materially from those included in the Audited Financial Statements), and the Financial Statements reflect the consistent application of such accounting principles throughout the periods involved.

3.07. Undisclosed Liabilities. Except and to the extent accrued or disclosed in the Financial Statements, Seller does not have any liabilities or obligations of any nature whatsoever with respect to the Hospital Businesses or the Assets, due or to become due, accrued, absolute, contingent or otherwise, that are required by GAAP to be accrued or disclosed in audited financial statements, except for liabilities and obligations incurred in the ordinary course of business and consistent with past practice since the date of the Unaudited Financial Statements, which are not, individually or in the aggregate, expected to result in a Material Adverse Change.

3.08. Recent Activities. Since September 30, 2014 and except as set forth on Schedule 3.08:

(a) no material damage, destruction or loss (whether or not covered by insurance) has occurred affecting the Assets;

(b) except in the ordinary course of the Hospital Businesses or as set forth on Schedule 3.08(b), consistent with past practice and existing personnel policies of Seller, Seller has not (i) increased or agreed to increase the compensation payable to any employees who work in the Hospital Businesses, (ii) agreed to make any bonus or severance payment to any of the employees who work in the Hospital Businesses or (iii) employed any additional management personnel in respect of the Hospital Businesses;

(c) no labor dispute, enactment or promulgation of a state or local Legal Requirement, or other event or condition, has occurred that has materially adversely affected any of the Hospital Businesses or reasonably could be expected to have such an effect on the Hospital Businesses;

(d) other than as set forth on Schedule 3.08(d), Seller has not sold or factored, or agreed to sell or factor, any Accounts Receivable, and Seller has not sold, distributed or otherwise disposed of any other Assets except in the ordinary course of the Hospital Businesses and, for equipment having an original cost in excess of $25,000, with a comparable replacement thereof;

(e) to Seller's knowledge, no Encumbrance has been imposed on any of the Assets;

(f) Seller has not canceled or waived any material rights in respect of the Assets, except in the ordinary course of the Hospital Businesses;

(g) other than in connection with the freeze of Seller's defined benefit pension plan and post-retiree health plan, there has been no change in any accounting method, policy or practice of Seller with respect to the Hospital Businesses;

(h) other than compensation paid in the ordinary course of employment or ordinary course professional services agreements disclosed to Buyer, Seller has not paid any amount to, sold any Assets to, or entered into any Contract with any officer, director, or trustee of Seller or its Affiliates, or with any Affiliate of any such Person;

(i) Seller has not paid or agreed to pay to any Person any damages, fines, penalties or other amounts in respect of an actual or alleged violation of any Legal Requirement excluding routine workers' compensation claims in amounts no greater than $100,000;

(j) Other than ordinary course plan benefit design changes, Seller has not instituted any new, or terminated or amended any existing, Employee Benefit Plan, except for amendments required to comply with applicable Legal Requirements and the freeze of Seller's defined benefit pension plan and post-retiree health plan;

(k) Seller has not entered into or agreed to enter into any transaction outside the ordinary course of the Hospital Businesses (other than the transactions contemplated by this Agreement); and

(l) no Material Adverse Change has occurred and no event or circumstance has occurred that could reasonably be expected to result, individually or in the aggregate, in a Material Adverse Change.

3.09. Accounts Receivable; Inventory.

(a) The Accounts Receivable, to the extent uncollected, are valid and existing and represent monies due for goods sold and delivered and services performed in bona fide commercial transactions, have been billed or are billable, and are not subject to any Encumbrances. Except as reflected or reserved for in the Financial Statements, no refunds, discounts or setoffs are payable or assessable with respect to the Accounts Receivable.

(b) All Assets consisting of inventory and supplies are carried at the lower of cost or market on a first-in, first-out basis and are properly stated in the Audited Financial Statements as of the dates thereof. All items of inventory and supplies are of a quality usable or saleable in the ordinary course of business, except for those items that are obsolete, below standard quality or in the process of repair and for which adequate reserves have been provided in the Financial Statements. The quantities of inventory and supplies, taken as a whole, are reasonable and justified under the normal operations of the Hospital Businesses.

3.10. Equipment. Schedule 3.10 includes a depreciation schedule as of a recent date that lists all items of equipment associated with, or constituting any part of, the Assets. To Seller's knowledge, and excluding information technology equipment and systems, all major items of Seller's equipment (e.g., heating systems, magnetic resonance imaging units, ultrasound units, robotic surgery and similar equipment) are usable for their intended purposes in the ordinary course of the Hospital Business and are in working condition, subject to reasonable wear and tear.

3.11. Title. Except as provided in Schedule 3.11 and subject to Section 10.03(a), Seller owns and holds good and valid title to all of the Assets, free and clear of any Encumbrances other than the Encumbrances described on Schedule 3.11. At Closing, Seller will convey to Buyer good and valid title to all Assets, free and clear of any Encumbrances other than the Permitted Encumbrances.

3.12. Real Property.

(a) Seller owns fee simple title to the Owned Real Property, free and clear of any Encumbrances other than the Encumbrances described on Schedule 3.12(a). The Owned Real Property described on Schedule 2.01(a) comprises all of the real property owned by Seller or any Subsidiary of Seller that is associated with or utilized in the operation of the Hospital Businesses. At Closing, Seller will convey to Buyer good and

marketable fee simple title to all Owned Real Property, free and clear of any Encumbrances other than the Permitted Real Property Encumbrances.

(b) Seller has not received notice of condemnation or similar Proceedings relating to the Owned Real Property or any part thereof.

(c) Except as set forth on Schedule 3.12(c), to Seller's knowledge, the buildings standing on the Owned Real Property are structurally sound and in need of no material maintenance or repairs, except for ordinary, routine maintenance. All essential utilities (including water, sewer, gas, electricity and telephone service) are available to the Owned Real Property, and, to Seller's knowledge, no conditions exist that are reasonably likely to result in the termination or reduction of the current access from the Owned Real Property to existing roadways. To Seller's knowledge, no part of the Owned Real Property contains, is located within or abuts any flood plain, navigable water or other body of water, tideland, wetland, marshland or other area that is subject to special state, federal or municipal regulation, control or protection (other than Legal Requirements pertaining to zoning or other land use restrictions customarily applicable to all real estate within the applicable jurisdiction).

(d) Except for tenants in possession of the Owned Real Property under Contracts described on Schedule 3.18, no Person other than Seller possesses, or claims possession of, adverse or not, any Owned Real Property, whether as lessee, tenant at sufferance, trespasser or otherwise.

(e) No tenant is entitled to any rebate, concession, or free rent, other than as reflected in the Contract with such tenant; no commitments have been made to any tenant for repairs or improvements other than for normal repairs and maintenance in the future or improvements required by the tenant Contract; and no rents due under any of the Contracts with tenants have been assigned or hypothecated to, or encumbered by, any Person other than in connection with financing. All material obligations of Seller as landlord required to be performed under each of the tenant Contracts have been performed.

(f) All Owned Real Property and, to Seller's knowledge, Leased Real Property currently in use for the operation of the Hospital Businesses is in compliance in all material respects with all applicable Legal Requirements, and all material Permits and requisite certificates of the local board of fire underwriters (or other material body exercising a similar function) have been issued for the Owned Real Property and Leased Real Property.

(g) (i) Seller has provided to Buyer accurate and complete copies of those leases of which Seller or one of its Subsidiaries is landlord (collectively, the "**Space Leases**"), and (ii) attached as Schedule 3.12(g) is a "rent roll" that sets forth the following information, if any, for each of the Space Leases: (A) the names of the current tenants; (B) the rental payments for the then current month under each of the Space Leases; (C) a list of all then delinquent rental payments; (D) a list of all outstanding concessions granted to tenants; (E) a list of all tenant deposits and a description of any

application thereof; (F) the dates that each of the Space Leases commenced and will expire; (G) the square footage of any such space leased pursuant to the Space Leases; (H) any renewal options available to tenants under the Space Leases; and (I) a list of all uncured material defaults under the Space Leases known to Seller.

(h) There are no tenants or other Persons occupying any space in the Owned Real Property, other than pursuant to the Space Leases.

(i) Seller has (A) a valid leasehold estate in all of the Leased Real Property, free and clear of any Encumbrances other than the Encumbrances described on Schedule 3.12(i) pursuant to the leases described on Schedule 2.01(b) (the "**Tenant Leases**"), and (B) provided accurate and complete copies of each of the Tenant Leases to Buyer. The Leased Real Property comprises all of the real property leased by Seller or any Subsidiary of Seller that is associated with or utilized in the operation of the Hospital Businesses.

3.13. Environmental Matters and Medical Waste.

(a) Seller has all material Permits required under applicable Environmental Laws for the operation of the Hospital Businesses, and all such Permits are listed on Schedule 2.01(g). Other than as listed on Schedule 3.13(a), no Environmental Claim is pending, or to Seller's knowledge, threatened by any Person against Seller or, to Seller's knowledge, any other Person the liability for which Seller has retained or assumed, either contractually or by operation of law. To Seller's knowledge, no activities, circumstances, conditions, events or incidents, including the release, emission, discharge or disposal of any Materials of Environmental Concern, have occurred that could reasonably be expected to form the basis of any Environmental Claim by any Person against Seller or any other Person the liability for which Seller has retained or assumed, either contractually or by operation of law.

(b) Without in any way limiting the generality of the foregoing, (i) all on-site and off-site locations where Seller stores, disposes or arranges for the disposal of material quantities or volumes of Materials of Environmental Concern for the Hospital Businesses are identified on Schedule 3.13(b), (ii) all Contracts dealing with the removal, storage, disposal and handling of Materials of Environmental Concern of the Hospital Businesses are with vendors who are, to Seller's knowledge, properly licensed, (iii) all underground storage tanks, and the capacity and contents of such tanks, located on Owned Real Property are identified on Schedule 3.13(b) and (iv) to Seller's knowledge, no polychlorinated biphenyls are used or stored at any Owned Real Property.

(c) Seller and the Hospital Businesses have complied in all material respects with all Medical Waste Laws.

3.14. Intellectual Properties and Information Systems. Seller owns or is licensed to use, free and clear of royalty and other payment obligations, claims of infringement or other Encumbrances, each of the Intellectual Properties and the Information Systems. Seller is not, in any material respect, in conflict with or in violation or infringement of, and has not received any notice alleging any conflict with or violation or infringement of, any rights of any other Person

with respect to any such Intellectual Properties or Information Systems. To Seller's knowledge, no other Person is in conflict with or in violation or infringement of Seller's rights in such Intellectual Properties or Information Systems. Schedule 3.14 identifies those Intellectual Properties and Information Systems used in the conduct of the Hospital Businesses that are owned by or licensed directly to Seller (other than the Intellectual Properties and Information Systems owned by Seller, for which no copyright registration or application has been made and none of which is, individually or in the aggregate, material to the Hospital Businesses) and those Intellectual Properties and Information Systems that are owned by or licensed to third parties who provide information technology services to Seller pursuant to Contracts described in Section 3.18(c).

3.15. Insurance. Schedule 3.15 describes all insurance arrangements, including self-insurance, in place for the benefit of the Assets and the conduct of the Hospital Businesses (other than Current Seller Plans described in Schedule 3.22). Seller has provided to Buyer a true and complete copy of all such policies and endorsements thereto. With respect to third party insurance, Schedule 3.15 sets forth the name of each insurer, whether such insurer is an Affiliate of Seller, and the number, coverage, limits, term and premium for each policy of insurance purchased or held by Seller covering the ownership and operation of the Assets and the Hospital Businesses. Except as set forth on Schedule 3.15, all of such policies are now, and until Closing will remain, valid, outstanding, in full force and effect, and enforceable with no premium arrearages. Since September 30, 2011, Seller has not been denied, or reduced, or requested a reduction in the scope or amount of, any insurance or indemnity bond coverage. No insurance carrier has canceled or reduced, or given written notice of its intention to cancel or reduce, any insurance coverage and, to Seller's knowledge, there exist no reasonable grounds to cancel or void any such policies or the coverage provided thereby. Except as set forth on Schedule 3.15, since September 30, 2011, Seller has not made any claims against any excess insurance coverage set forth on Schedule 3.15 or any predecessor excess insurance policies applicable during such time period.

3.16. Permits. Schedule 2.01(g) describes all material Permits relating to the ownership of the Assets and the conduct of the Hospital Businesses, all of which are in good standing and not subject to meritorious challenge. Seller has not received any written notice from any Governmental Authority relating to the threatened, pending or possible revocation, termination, suspension or limitation of any of such material Permits. Each Hospital is duly licensed as an acute care hospital by the appropriate Governmental Authorities, and all departments or other business units, including the other Hospital Businesses, that are required to be separately licensed are duly licensed by the appropriate Governmental Authorities. The Hospitals and all departments or business units, including the Hospital Businesses, comply in all material respects with the applicable licensing requirements. Each Hospital has complied in all material respects with the requirements and conditions of all certificates of need (including applications therefor, non-review letters and implemented and unimplemented certificates of need if not lapsed and unexpired).

3.17. Government Payment Programs; Accreditation. Each Hospital has a current and valid provider Contract with the Government Payment Programs and/or their fiscal intermediaries, administrative contractors or paying agents and complies in all material respects with the conditions of participation therein. Each Hospital is entitled to receive and is receiving

payment under the Government Payment Programs for services rendered to qualified beneficiaries and, to Seller's knowledge, except as reflected in the Audited Financial Statements, is not subject to any withholds or offsets in respect thereof. Seller has timely filed all Cost Reports due for Cost Report periods through September 30, 2014, and Cost Reports have been audited and notices of program reimbursement have been issued for all Cost Report periods through September 30, 2010. All amounts shown as due from Seller in the Cost Reports were remitted with such reports and all amounts shown in the notices of program reimbursement as due have been paid. Except to the extent liabilities and contractual adjustments of each Hospital under the Government Payment Programs have been properly reflected and adequately reserved in the Financial Statements in the ordinary course of business, neither Hospital has to its knowledge received nor submitted any claim for payment in excess of the amount provided by Legal Requirements or applicable Contract, and Seller has not received notice of any dispute or claim by any Governmental Authority, fiscal intermediary or other Person regarding the Government Payment Programs or each Hospital's participation therein that remains outstanding or unresolved. All Medicare and Medicaid incentive payments for meaningful use of certified electronic health record technology received by Seller under The American Recovery and Reinvestment Act of 2009 were awarded based on truthful attestations made by Seller or its Affiliates, and no such incentive payments were remitted due to any knowingly fraudulent, negligent or unlawful act or omission of Seller or its Affiliates. Seller has registered with the QNet Exchange ("**QNet**") as required by CMS under its Hospital Quality Initiative Program (the "**HQI Program**"). Seller has submitted all quality data required under the HQI Program to CMS or its agent, and all quality data required under the ORYX Core Measure Performance Measurement System ("**ORYX**") to The Joint Commission, for all calendar quarters concluded prior to the date of this Agreement, except for any quarter for which the respective reporting deadlines have not yet expired. All such submissions of quality data have been made materially in the form and manner required by CMS and The Joint Commission, respectively. Seller has not received notice of any reduction in reimbursement under the Medicare program resulting from its failure to report quality data to CMS or its agent as required under the HQI Program. Seller has provided Buyer with the HQI Program "validation results" for all calendar quarters concluded prior to the date of this Agreement, except for any quarter for which the respective reporting deadlines have not yet expired. Each Hospital is duly accredited, with no contingencies except as disclosed on Schedule 3.17, by the Joint Commission and Seller's certification for participation in the Medicare program is based on such Joint Commission accreditation. A copy of the most recent accreditation letter from the Joint Commission pertaining to each Hospital has been made available to Buyer. Seller has delivered to Buyer copies of all accreditation survey reports, deficiency lists, statements of deficiency, and plans of correction since September 30, 2011. Seller has taken or is taking all reasonable steps to correct all material deficiencies noted therein. Schedule 3.17 includes a list and description of all unexpected occurrences involving death or serious physical or psychological injury since September 30, 2011.

3.18. Agreements and Commitments. Schedule 3.18 identifies the Contracts related to the Hospital Businesses in the categories below:

(a) Contracts that relate to the ownership or use of, title to or interest in Owned Real Property or Leased Real Property;

(b) Contracts with (i) a physician or physician group, (ii) an Immediate Family Member of a physician on the medical staff of the Hospitals or (iii) any Person that provides marketing services for Seller or its Subsidiaries;

(c) Contracts relating to Intellectual Properties and Information Systems;

(d) collective bargaining agreements or other Contracts with labor unions or other employee representatives or groups;

(e) Contracts with directors, trustees, officers, employees, or other agents of Seller or its Subsidiaries;

(f) requirements or exclusive Contracts and Contracts that prohibit or limit competition or the conduct by Seller or any Subsidiary of any lawful business;

(g) Contracts with any health plan, health provider, independent practice association or similar Person providing for capitation or risk-sharing arrangements;

(h) Contracts relating to the administration, operation or funding of any Employee Benefit Plan;

(i) Contracts between Seller and any of the Joint Ventures;

(j) Contracts with Governmental Authorities;

(k) Contracts providing for payments based in any manner on the revenue or profits of Seller or any Subsidiary thereof, the Hospital Businesses or the Assets;

(l) loan agreements, indentures, bonds, mortgages, liens, or other security agreements (excluding those that will be terminated at Closing);

(m) equipment leases and other leases that are capital leases; and

(n) all other Contracts which require payment by Seller of amounts in excess of $50,000 annually after the date of this Agreement, unless Seller may terminate the Contract, without cause, within ninety (90) days and all payments due by Seller under the Contract through such termination equal, in the aggregate, less than $50,000 (including any penalty or termination fee).

3.19. The Assumed Contracts. With respect to the Assumed Contracts listed on Schedule 2.01(f):

(a) the Assumed Contracts constitute lawful, valid and legally binding obligations of Seller and, to Seller's knowledge, each other party thereto and are enforceable against Seller and, to Seller's knowledge, against each other party thereto, in accordance with their terms;

(b) each Assumed Contract (together with all amendments and supplements thereto listed on Schedule 2.01(f)) is in full force and effect and constitutes the entire agreement between the parties thereto;

(c) all material obligations required to be performed under the Assumed Contracts by Seller, and, to Seller's knowledge, each other party thereto, have been performed, and no event has occurred or failed to occur that constitutes, or with the giving of notice, the lapse of time or both would constitute, a material default by Seller under the Assumed Contracts that has or would reasonably be expected to have a material impact on the Hospital Businesses;

(d) except as set forth on Schedule 3.19(d), no Assumed Contract contains a prohibition on competition by Seller or any Affiliate or otherwise restricts the ability of Seller or any Affiliate to engage in any lawful business after Closing; and

(e) except as set forth on Schedule 3.19(e), the assignment of any Assumed Contract to, and assumption of such Assumed Contract by, Buyer will not give a third party the right to terminate such Assumed Contract, or result in the payment of any penalty or premium to, or change in the rights, remedies, benefits or obligations of, any party thereunder.

3.20. Transactions with Affiliates. Except as disclosed in the Financial Statements of the Seller, since September 30, 2013, Seller has not purchased, acquired or leased any property or services from, or sold, transferred or leased any property or services to, or lent or advanced any money to, or borrowed any money from, or acquired any capital stock, obligations or securities of, or made any management consulting or similar fee agreement with, any officer, director or trustee of Seller or of any Affiliate of Seller except upon terms that would have been paid or received by Seller in similar transactions with independent parties negotiated at arm's length.

3.21. Employees and Employee Relations.

(a) Seller has delivered to Buyer (i) a list (as of the most recent practicable date) of names, positions, current annual salaries or wage rates, target or actual bonuses, other compensation arrangements, and paid time off or extended illness bank credits of all full-time and part-time non-physician employees of Seller and its Affiliates (indicating in the list whether each employee is classified as exempt or nonexempt by Seller), and (ii) a separate list (as of the most recent practicable date) of names, positions, current annual salaries or wage rates, target or actual bonuses, other compensation arrangements, and paid time off or extended illness bank credits of all full-time and part-time physician employees of Seller and its Affiliates (indicating in both lists whether each employee is part-time or full-time, whether such employee is employed under written Contract, the immigration status of any such employee who is eligible for employment based solely on a temporary work permit and, if such employee is not actively at work, the reason therefor).

(b) To Seller's knowledge, all employees, former employees and independent contractors of Seller and its Subsidiaries are properly classified as such for all purposes under the Code and ERISA and have been properly classified as exempt or nonexempt under the Fair Labor Standards Act and any applicable state Legal Requirement.

(c) Except as set forth in Schedule 3.21(c), Seller is in compliance in all material respects with all Legal Requirements relating to employment, employment practices, terms and conditions of employment, equal employment opportunity, nondiscrimination, immigration, wages, hours, benefits, payment of employment, social security, and similar taxes, occupational safety and health, and plant closing; Seller is not liable for the payment of any material compensation, damages, taxes, fines, penalties, interest, or other amounts, however designated, for failure to comply with any of the foregoing Legal Requirements; there are no pending or, to the knowledge of Seller, threatened claims before the Equal Employment Opportunity Commission (or any comparable state civil or human rights commission or other Governmental Authority), complaints before the Occupational Safety and Health Administration (or any comparable state safety or health administration or other Governmental Authority), wage and hour claims, unemployment compensation claims, workers' compensation claims, or the like.

(d) Schedule 3.21(d) states the number of employees terminated by Seller and its Affiliates within 90 days prior to the Closing Date, laid off by Seller within the six months prior to the Closing Date, or whose hours of work have been reduced by more than 50% by Seller in the six months prior to the Closing Date, and contains a complete and accurate list of the following information for such employees: (i) the date of termination, layoff, or reduction in work hours and (ii) the location to which the employee was assigned. In relation to the foregoing, except as set forth in Schedule 3.21(d), Seller has not violated the WARN Act or any similar state or local Legal Requirements.

(e) To the knowledge of Seller, no officer, director, agent, employee, consultant, or independent contractor of Seller is bound by any contract that purports to limit the ability of such officer, director, agent, employee, consultant, or independent contractor (i) to engage in or continue or perform any conduct, activity, duties, or practice relating to the business of Seller in respect of the Hospital Businesses or the Assets; or (ii) to assign to Seller any rights to any invention, improvement, or discovery. Except as set forth on Schedule 3.21(e), to the knowledge of Seller, no former or current employee of Seller is a party to, or is otherwise bound by, any contract that in any way adversely affected, affects, or will affect the ability of Buyer following Closing to conduct the Hospital Businesses as Seller did prior to Closing.

(f) Except as set forth on Schedule 3.21(f), (i) no employee strike, work stoppage or slowdown, labor dispute, grievance or unfair labor practice at the Hospital Businesses is pending or, to Seller's knowledge, threatened, (ii) no employees of Seller are represented by, or have made demand for recognition of, a labor union or employee organization, and, to Seller's knowledge, no other union organizing or collective bargaining activities by or with respect to any employees of Seller are taking place and (iii) no complaint, charge or claim is pending, or, to Seller's knowledge, threatened to be

brought or filed, with any Governmental Authority or arbitrator relating to the employment or termination of employment of any individual by Seller or the Hospital Businesses.

(g) All necessary visa or work authorization petitions have been timely and properly filed on behalf of any employees of Seller requiring a visa stamp, I-94 status document, employment authorization document or other immigration document to legally work in the United States, and all paperwork retention requirements with respect to such applications and petitions have been met. To the knowledge of Seller, no employee of Seller who is a foreign national has ever worked for Seller without employment authorization from the Department of Homeland Security or any other Government Authority that must authorize such employment, and Seller has complied in all material respects with all applicable immigration laws and other Legal Requirements with respect to the employment of foreign nationals. To the knowledge of Seller, Seller has timely and properly completed I-9 forms for all employees hired since the effective date of the Immigration Reform and Control Act of 1986 and has lawfully retained and re-verified all such I-9 forms. There are no Proceedings pending or, to Seller's knowledge, threatened against Seller relating to Seller's compliance with Legal Requirements relating to immigration, except as set forth on Schedule 3.21(g). Seller has not received any letters or other correspondence from the Social Security Administration regarding the failure of an employee's social security number to match his or her name in the Social Security Administration database, and Seller has not received any letters or other correspondence from the Department of Homeland Security or other Governmental Authorities regarding the employment authorization of any employees of Seller. Seller does not participate in the Department of Homeland Security's e-Verify electronic employment verification system.

3.22. Employee Benefit Plans.

(a) Schedule 3.22 lists each Employee Benefit Plan that Seller or any member of the Controlled Group that includes Seller maintains or to which it contributes (including employee elective deferrals) (each, a "**Current Seller Plan**").

(b) Each Current Seller Plan (and related trust, insurance contract or fund) complies in form and in operation in all material respects with applicable Legal Requirements, and has been administered and operated in all material respects in accordance with the terms of the Current Seller Plan and applicable Legal Requirements. All required reports and descriptions (including form 5500 annual reports, summary annual reports and summary plan descriptions) have been filed or distributed appropriately with respect to each Current Seller Plan. Seller has delivered to Buyer copies of the plan documents and summary plan descriptions, most recent determination letters received from the Internal Revenue Service, most recent form 5500 annual report, and all related trust, insurance and funding Contracts that implement each Current Seller Plan. No Governmental Authority has audited any Current Seller Plan or any other Employee Benefit Plan that Seller or any member of the Controlled Group that includes Seller has maintained, or to which it has contributed or been required to contribute (each,

a "**Prior Seller Plan**"), during the five (5) years preceding the date of this Agreement, and Seller has not received any notice that such an audit will or may be conducted.

(c) Each Current Seller Plan that is an Employee Pension Benefit Plan intended to be qualified under section 401(a) of the Code has a current favorable determination letter or opinion or approval letter from the Internal Revenue Service that the plan is so qualified and its trust is exempt from federal income taxation under section 501(a) of the Code, or the remedial amendment period for such Employee Pension Benefit Plan to be submitted to the Internal Revenue Service for such a determination letter or opinion or approval letter has not yet expired. All contributions (including employer contributions and employee salary reduction contributions) to each such Employee Pension Benefit Plan that are due to be paid have been paid, and all Seller contributions to any Employee Pension Benefit Plan that is a defined contribution plan in respect of periods ending on the Closing Date will be accrued on the Closing Balance Sheets. To Seller's knowledge, nothing has occurred that could reasonably be expected to cause the revocation of such determination letter from the Internal Revenue Service or the unavailability of reliance on such opinion or approval letter from the Internal Revenue Service, as applicable. To Seller's knowledge, nothing has occurred with respect to any Current Seller Plan that has subjected or could reasonably be expected to subject Seller, or, with respect to any period on or after the Closing Date, Buyer or any of its Affiliates, to a penalty under Section 502 of ERISA or to an excise tax under the Code. To Seller's knowledge, with respect to any Current Seller Plan, no event has occurred or is reasonably expected to occur that has resulted in or would subject the Seller or, with respect to any period on or after the Closing Date, Buyer or any of its Affiliates, to a tax under Section 4971 of the Code or the assets of any of the foregoing persons to a lien under Section 430(k) of the Code.

(d) The requirements of part 6 of subtitle B of Title I of ERISA and of section 4980B of the Code have been met in all material respects with respect to each Current Seller Plan that is an Employee Welfare Benefit Plan, and all premiums or other payments that are due have been paid with respect to each such Employee Welfare Benefit Plan.

(e) There have been no "*prohibited transactions*," as defined in section 406 of ERISA and section 4975 of the Code, with respect to any Current Seller Plan that would subject Seller or any member of the Controlled Group that includes Seller to any material liability. No ERISA Fiduciary has any material liability for breach of fiduciary duty or any other failure to act or comply in connection with the administration or investment of the assets of any Current Seller Plan. No Proceeding with respect to the administration or the investment of the assets of any Current Seller Plan (other than routine claims for benefits) is pending or, to Seller's knowledge, threatened and, to Seller's knowledge, there exists no basis for any such Proceeding. To Seller's knowledge, no "*party in interest*" (as defined in section 3(14) of ERISA) and no "*disqualified person*" (as defined in the Code) has any interest in any assets of any Current Seller Plan that is an Employee Pension Benefit Plan other than as a beneficiary by virtue of such Person's participation in the plan.

(f) Except as provided on Schedule 3.22(f), no Current Seller Plan that is an Employee Pension Benefit Plan has been completely or partially terminated or the subject of a Reportable Event, and no Proceeding by the PBGC to terminate any such Employee Pension Benefit Plan has been instituted or, to Seller's knowledge, threatened. Seller has not incurred, and, to Seller's knowledge, Seller will not incur, any material liability to the PBGC (other than PBGC premium payments) or otherwise under Title IV of ERISA (including any withdrawal liability) or under the Code with respect to any Current Seller Plan or Prior Seller Plan that is or was an Employee Pension Benefit Plan.

(g) Neither Seller nor any member of a Controlled Group that includes Seller contributes to, has contributed to, or has been required to contribute to any Multiple Employer Plan or any Multiemployer Plan or has any liability (including withdrawal liability) under any Multiple Employer Plan or any Multiemployer Plan. Except as provided on Schedule 3.22(g), neither Seller nor any member of a Controlled Group that includes Seller maintains or contributes, has maintained or contributed, or has been required to maintain or contribute to any Employee Welfare Benefit Plan providing medical, health or life insurance or other welfare-type benefits for current or future retired or terminated employees, their spouses or their dependents (other than in accordance with section 4980B of the Code).

3.23. Proceedings and Legal Claims. Schedule 3.23 contains a list and summary description of each Proceeding and legal claim (including *qui tam* Proceedings and legal claims) pending or, to Seller's knowledge, threatened against or otherwise affecting the Assets, the Hospital Businesses, Seller or any Affiliate of Seller (together with the reserve amount, if any, included in the Financial Statements for each uninsured Proceeding or legal claim). All such Proceedings and legal claims are or will be fully insured (except for applicable deductibles or self-insurance retentions) and no carrier has issued a "*reservation of rights*" letter or otherwise denied its obligation to insure and defend Seller against covered Losses arising therefrom. None of the Proceedings or legal claims described on Schedule 3.23, if determined adverse to Seller, could reasonably be expected to result, individually or in the aggregate, in a Material Adverse Change.

3.24. Taxes.

(a) Seller has filed all Tax Returns required to be filed by or on behalf of Seller on or prior to the date of this Agreement (taking into account applicable extensions), all such Tax Returns are accurate in all material respects and Seller has duly paid or made provision in the Financial Statements for the payment of all Taxes shown as due and payable on such Tax Returns.

(b) Seller has withheld proper amounts from its employees' compensation in compliance with all applicable withholding and similar provisions of the Code and any and all other applicable Legal Requirements, and has withheld and paid, or caused to be withheld and paid, all Taxes on monies paid by it to independent contractors, creditors and other Persons for which withholding or payment is required by Legal Requirements.

(c) No deficiencies for any Taxes relating to the Assets or the Hospital Businesses have been asserted or, to the knowledge of Seller, threatened, and no audit on any Tax Returns is currently under way or, to the knowledge of Seller, threatened. There are no outstanding agreements by Seller for the extension of time for the assessment of any Taxes (other than ordinary course extensions of time within which to file Tax Returns).

(d) To Seller's knowledge, no Governmental Authority intends to assess any additional Taxes on Seller for any period for which Tax Returns have been filed. No Governmental Authority has disputed in writing any Tax liability of Seller. No claim has ever been made in writing by a Governmental Authority in a jurisdiction where Seller does not file Tax Returns that Seller is or may be subject to Tax in that jurisdiction, and no Encumbrances exist against Seller or the Assets in connection with any failure (or alleged failure) of Seller to pay any Tax that is due and payable.

(e) No waiver of a statute of limitations in respect of Taxes or agreement to extend the time with respect to a Tax assessment or deficiency is currently in effect, in each case with respect to Seller (other than ordinary course extensions of time within which to file Tax Returns).

(f) Seller is not a party to any Tax allocation or sharing Contract. Seller is not and has not been a member of an Affiliated Group filing a consolidated federal income Tax Return.

(g) Each of Seller and its Subsidiaries that is a corporation exempt from federal and state income Tax has received a favorable letter of determination from the Internal Revenue Service and the State of Connecticut regarding such Tax status and, to Seller's knowledge, nothing has occurred, whether by action or failure to act, that could reasonably be expected to cause the loss of such exemption (except with respect to the transactions contemplated by this Agreement).

(h) To Seller's knowledge, Seller has no liability for the Taxes of any other Person (other than a Subsidiary under Internal Revenue Service regulation 1.1502-6), as a transferee or successor, by Contract or otherwise.

3.25. Medical Staff; Physician Relations.

(a) Seller has delivered to Buyer a copy of the bylaws, policies, rules and regulations of the medical staff and medical executive committees of each Hospital. As set forth on Schedule 3.25(a), Seller has also delivered to Buyer a list, current as of the date of this Agreement, that sets forth (i) the name and age of each member of the medical staff of each Hospital (active, associate, consulting, courtesy or other), (ii) the degree (M.D., D.O., etc.), title, specialty and board certification, if any, of each such medical staff member, (iii) the names of the medical staff members (current and former) of each Hospital in respect of whom Seller has made a report to the National Practitioners Data Bank during the last three years, and (iv) the number of current medical staff members of each Hospital in respect of whom any committee of the medical staff of such

Hospital has recommended adverse action with respect to any member of the medical staff of such Hospital that is not yet final.

(b) Except as set forth on Schedule 3.25(b), no material disputes between Seller and any medical staff member of either Hospital are pending or, to Seller's knowledge, threatened and all appeal periods in respect of any medical staff member against whom an adverse action has been taken by Seller have expired. To the knowledge of Seller, no current member of the medical staff of either Hospital has been excluded from participation in any Government Payment Program.

3.26. Restricted Assets. Except as set forth on Schedule 3.26, none of the Assets is subject to any restriction or limitation concerning the purchase, improvement or use of such Assets or the conduct of the Hospital Businesses, including restricted or conditioned grants or donations and monies received under the Hill-Burton Act.

3.27. Brokers and Finders. Neither Seller nor any Affiliate, officer, trustee, director, employee or agent acting on behalf thereof has engaged any finder or broker in connection with the transactions contemplated hereunder.

3.28. Payments. None of the Hospital Businesses has, to Seller's knowledge, made any request for payment from a Government Payment Program in respect of health care services furnished by or directed or prescribed by any physician or other Person who at such time was excluded from participation in such Government Payment Program. Seller has not, directly or indirectly, paid or delivered, or agreed to pay or deliver, any money or item of property, however characterized, to any Person in violation of any Legal Requirement. Neither Seller nor, to Seller's knowledge, any officer, director or trustee of Seller has received, or will receive as a result of the consummation of the transaction contemplated by this Agreement, any rebate, kickback or other improper or illegal payment from any Person with whom Seller conducts or has conducted any of the Hospital Businesses.

3.29. Solvency. As of immediately after Closing, Seller will not, as a result of the transactions contemplated by this Agreement, be rendered insolvent or otherwise unable to pay its debts as they become due. Seller has no intention of filing a petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver or trustee of all or any portion of Seller's property and, to Seller's knowledge, no other Person has filed or threatened to file such a petition against Seller.

3.30. Hospital Businesses and Joint Ventures.

(a) Each of Seller's Subsidiaries is a corporation duly organized under the laws of the State of Connecticut with full corporate power to carry on its business as it is now being conducted with the exception of CHIC, which is organized with full corporate power to carry on its business as it is now being conducted under the laws of the Cayman Islands. Each of Seller's Subsidiaries is duly licensed, qualified or admitted to do business and is in good standing in the State of Connecticut, which is the only jurisdiction in which the ownership, use or leasing of their respective assets or properties, or the conduct or nature of their respective businesses, makes such licensing, qualification or

admission necessary. All of the issued and outstanding shares of capital stock of Seller's Subsidiaries that are stock corporations are owned as specified on Schedule 3.30(a). All of the issued and outstanding shares of capital stock of Seller's Subsidiaries that are stock corporations have been duly and validly authorized, were validly issued and are fully paid and non-assessable. There are no outstanding rights (including preemptive rights), options, warrants or agreements for the transfer by Seller of any shares of capital stock of Seller's Subsidiaries that are stock corporations and no authorization for any such rights, options, warrants or agreements has been given. Seller has delivered to Buyer a copy of the articles of incorporation and bylaws and other agreements, instruments and documents relating to the creation, ownership and governance of Seller's Subsidiaries and has provided to Buyer a copy of, or access to, the minute books of Seller's Subsidiaries.

(b) To Seller's knowledge, for each Joint Venture that is a for-profit or nonprofit corporation, it (i) is a corporation duly organized under the laws of the state of its incorporation, (ii) has full corporate power to carry on its business as it is now being conducted, and (iii) is duly licensed, qualified or admitted to do business and is in good standing in the state of its incorporation, which is the only jurisdiction in which the ownership, use or leasing of their respective assets or properties, or the conduct or nature of their respective businesses, makes such licensing, qualification or admission necessary. To Seller's knowledge, all of the issued and outstanding shares of capital stock of the corporate Joint Ventures that are stock corporations are owned as specified on Schedule 3.30(b). To Seller's knowledge, all of the issued and outstanding shares of capital stock of the corporate Joint Ventures that are stock corporations have been duly and validly authorized, were validly issued and are fully paid and non-assessable. To Seller's knowledge, there are no outstanding rights (including preemptive rights), options, warrants or agreements for the transfer by Seller of any shares of capital stock of the corporate Joint Ventures and no authorization for any such rights, options, warrants or agreements has been given. Seller has delivered to Buyer a copy of the articles of incorporation and bylaws and other agreements, instruments and documents relating to the creation, ownership and governance of the corporate Joint Ventures in Seller's possession.

(c) To Seller's knowledge, for each Joint Venture that is a limited liability company, it (i) is organized under the laws of the state of its incorporation, (ii) has full limited liability company power to carry on its respective business as it is now being conducted, and (iii) is duly licensed, qualified or admitted to do business and is in good standing in the state of its incorporation, which is the only jurisdiction in which the ownership, use or leasing of its respective assets or properties, or the conduct or nature of its respective businesses, makes such licensing, qualification or admission necessary. To Seller's knowledge, all of the issued and outstanding membership interests of the limited liability company Joint Ventures are owned as specified on Schedule 3.30(c), have been duly and validly authorized, were validly issued and are fully paid and non-assessable. To Seller's knowledge, except as set forth in the operating agreements of the limited liability company Joint Ventures, the transfers to Buyer of the membership interests in the limited liability company Joint Ventures are not subject to any preemptive rights or third party approvals. Seller has delivered to Buyer a copy of the articles of organization

and operating agreements and other agreements, instruments and documents relating to the creation, ownership and governance of the limited liability company Joint Ventures in Seller's possession.

3.31. Operation of the Hospital Businesses. The Assets, together with the Excluded Assets, constitute all assets, properties, goodwill and businesses necessary to operate the Hospital Businesses in the manner in which they have been operated since September 30, 2014, except for property, plant and equipment sold or disposed of since such date in the ordinary course of business. Schedule 3.31 sets forth a list of the ten largest non-governmental payors of the Hospital Businesses, determined on the basis of net patient revenues from services provided during the year ended September 30, 2014. Since September 30, 2013, no payor listed on Schedule 3.31 has terminated its contract with or materially reduced reimbursement rates to, or has notified Seller in writing of its determination to terminate its contract with or to materially reduce reimbursement rates to, the Hospital Businesses.

## 4. REPRESENTATIONS OF BUYER

Buyer makes the following representations to Seller on and as of the date of this Agreement and will be deemed to make them again at and as of the Closing Date:

4.01. Organization. Buyer is a corporation duly organized and validly existing and in good standing under the laws of Connecticut. Buyer is, or by Closing will be, qualified to do business in the State of Connecticut. Buyer has full power and authority to own, lease and operate its properties and to conduct its business as presently conducted and as proposed to be conducted immediately following the Closing. Buyer has neither conducted any business prior to the date of this Agreement nor will conduct any business, other than in contemplation of the consummation of the transactions contemplated by this Agreement, prior to the Closing. Buyer has made available to Seller a true and complete copy of its organizational documents.

4.02. Power and Authority; Due Authorization. Buyer has full power and authority to (a) execute and deliver this Agreement and the Closing Documents to which it is or becomes a party, (b) perform its obligations under this Agreement and such Closing Documents and (c) consummate the transactions contemplated by this Agreement. The execution and delivery by Buyer of this Agreement and the Closing Documents to which it is or becomes a party, the performance by Buyer of its obligations under this Agreement and such Closing Documents, and the consummation by Buyer of the transactions contemplated by this Agreement have been duly authorized on behalf of Buyer by all necessary corporate action.

4.03. Consents; Absence of Conflicts, Etc. The execution, delivery and performance by Buyer of this Agreement and the Closing Documents to which it is or becomes a party at the Closing, and the consummation of the transactions contemplated by this Agreement:

(a) are within its corporate powers, are not in contravention of its certificate of formation and operating agreement and have been approved by all required limited liability company and member action;

(b) do not violate any Legal Requirement to which it is subject; and

(c) do not conflict with, result in a breach or violation of or require any consent to be obtained or notice to be given under any material agreement to which it is a party or by which it is bound.

4.04. Due Execution; Binding Agreement. This Agreement has been duly and validly executed and delivered by Buyer. Each Closing Document to which Buyer will be a party will be duly and validly executed and delivered by Buyer at the Closing. This Agreement constitutes, and each of the Closing Documents to which Buyer will be a party will constitute (upon execution and delivery thereof by Buyer at the Closing), the valid and legally binding obligations of Buyer, enforceable against it in accordance with the terms hereof and thereof.

4.05. Proceedings. There are no claims, actions, suits, proceedings, or investigations pending or, to Buyer's knowledge, threatened that: (a) adversely affect or seek to prohibit, restrain, or enjoin the execution and delivery of this Agreement, (b) adversely affect or question the validity or enforceability of this Agreement, (c) question the power or authority of Buyer to carry out the transactions contemplated by, or to perform its obligations under, this Agreement, or (d) would result in any change that would adversely affect in any material respect the ability of Buyer to perform any of its obligations hereunder.

4.06. Availability of Funds. Buyer has the ability to obtain funds in cash in amounts equal to the Purchase Price and necessary to perform its obligations hereunder that are to be performed as of Closing by means of credit facilities or otherwise and will at Closing have immediately available funds in cash which will be sufficient to pay the Purchase Price and to perform its obligations hereunder that are required to be performed as of Closing under this Agreement.

4.07. Solvency. Buyer has no intention of filing a petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver or trustee of all or any portion of Buyer's property and, to the knowledge of Buyer, no other Person has filed or threatened to file such a petition against Buyer.

4.08. Brokers and Finders. Neither Buyer nor any Affiliate of Buyer, nor any officer, director, employee or agent thereof, has engaged or is liable for the payment of any fee to any finder or broker in connection with the transactions contemplated hereunder.

4.09. Full Disclosure. The representations of Buyer in this Agreement do not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements made therein, in the light of the circumstances under which they were made, not misleading.

## 5. COVENANTS OF THE PARTIES

5.01. Operations. Until the Closing Date and except as otherwise expressly provided in this Agreement or agreed to in writing by Buyer, Seller will, and will require its Affiliates to:

(a) conduct the Hospital Businesses in substantially the same manner as it has heretofore and not make any material change in personnel, operations, finances,

accounting policies, or real or personal property of the Hospital Businesses except as set forth on Schedule 5.01;

(b) except as set forth on Schedule 5.01(b), maintain the Assets in working condition in the ordinary course of business, ordinary wear and tear excepted, and make all normal, planned and budgeted capital expenditures related to the Assets and/or the Hospital Businesses, *provided* that Seller may (i) make, in its discretion, necessary expenditures in the ordinary course from its designated capital needs fund and provide advance notice to Buyer of any individual expenditure greater than $250,000 and (ii) consult with and solicit Buyer's input on individual capital expenditures (or a series of related capital expenditures) not paid from its designated capital needs fund that exceed $250,000;

(c) comply in all material respects with all Legal Requirements and perform, when due, in all material respects all obligations under Contracts;

(d) deliver to Buyer title to the Assets free and clear of all Encumbrances (except for the Permitted Encumbrances) and to obtain appropriate releases, consents, estoppels, certificates, opinions and other instruments as Buyer may reasonably request;

(e) keep in full force and effect present insurance policies or other comparable insurance benefiting the Assets and the conduct of the Hospital Businesses and maintain sufficient liquid reserves reasonably estimated to be sufficient to meet all deductible, self-insurance and copayment requirements of such policies; and

(f) maintain and preserve its business organizations and operations intact, retain the present employees at the Hospital Businesses (subject to the right of Seller to discharge any employee in the ordinary course of the Hospital Businesses), and maintain in the ordinary course its relationships with physicians, suppliers, patients and other Persons doing business with Seller at the Hospital Businesses.

5.02. Negative Covenants. Until the Closing Date and except as otherwise expressly provided in this Agreement or agreed to by Buyer in writing, Seller will not, and will not permit any Affiliate to:

(a) excluding capital expenditures, amend or terminate any Assumed Contract, or enter into any Contract, except in the ordinary course of the Hospital Businesses consistent with past practices, *provided* that Seller shall obtain Buyer's consent on any new Contract (or a series of related Contracts) that has required payments by Seller that exceed $1,000,000 annually, unless such Contract may be terminated without cause upon no more than 90 days written notice and such termination will not result in any penalty or fee (and excluding any waivers or amendments relating to Bond Liabilities that will be defeased or repaid at Closing);

(b) enter into any tertiary or quaternary affiliation with a third-party healthcare provider other than an agreement for hospitalist services;

(c) other than as set forth on Schedule 5.02(c), increase compensation payable or to become payable to, make a bonus, incentive or severance payment to, or otherwise enter into one or more bonus, severance, profit-sharing, deferred compensation, stock option, purchase, retainer, consulting, retirement, welfare or incentive plan Contracts (including any plan or agreement under which "fringe benefits" are afforded) with any employee, contractor or agent of any of the Hospital Businesses except in the ordinary course of the Hospital Businesses consistent with past practices in accordance with existing personnel policies or pursuant to Contract requirements in force on the date of this Agreement; provided, however, that nothing in this Section 5.02(c) shall prohibit Seller from making payments pursuant to the Eastern Connecticut Health Network, Inc. Long Term Retention Plan, as amended through August 1, 2016, without first receiving Buyer's written agreement;

(d) create, assume or voluntarily consent to any new Encumbrance upon any of the Assets;

(e) sell or otherwise transfer or dispose of any item of property, plant, equipment or other Asset including any interest in a Joint Venture, except in the ordinary course of the Hospital Businesses consistent with past practices with comparable replacement thereof, and with respect to a an interest in a Joint Venture, except as may be required under the governing instruments of the Joint Venture and necessary to satisfy a closing condition in Section 7 that has not been waived by Buyer;

(f) take any action other than execution of this Agreement, which would trigger any right of first refusal, or any similar right to purchase, with respect to any Investment interest in a Joint Venture except as necessary to satisfy a closing condition in Section 7 that has not been waived by Buyer;

(g) distribute any assets, other than Excluded Assets, to any Affiliate of Seller other than its Subsidiaries that are transferring Assets pursuant to this Agreement;

(h) make necessary expenditures in the ordinary course from its designated capital needs fund of more than $100,000 per expenditure without providing advanced notice to Buyer of such expenditure and will not make individual capital expenditures (or a series of related capital expenditures) that are outside the ordinary course in excess of $100,000 individually or $500,000 in the aggregate if such capital expenditures are not included in Seller's annual operating or capital budgets that have been provided to Buyer;

(i) add, modify, or discontinue the provision of any material clinical service by the Hospital Businesses other than entering into an agreement with a third party for the provision of hospitalist services, open a new location for the provision of any material clinical service, or close the location at which any such material clinical service is currently provided without consent of Buyer, which will not be unreasonably withheld or delayed;

(j) create, incur, assume, guarantee or otherwise become liable for any liability or obligation except in the ordinary course of the Hospital Businesses consistent

with past practices in excess of $250,000, other than Seller's customary annual line of credit renewal with TD Bank in the currently issued amount, or agree to do any of the foregoing;

(k) make any loans to physicians without the prior written consent of Buyer;

(l) cancel, forgive, release, discharge or waive any Person's obligation to pay or to perform obligations in respect of Accounts Receivable or other Assets, or agree to do any of the foregoing, except in the ordinary course of the Hospital Businesses consistent with past practices;

(m) amend, change or modify the title or duties of the chief executive officer of Seller;

(n) sell or factor any Accounts Receivable;

(o) change any accounting method, policy or practice or reduce any reserves in the Financial Statements except (i) reductions in reserves pertaining to Government Payment Programs or third party payors made in the ordinary course of business consistent with past practices, and (ii) changes required by GAAP or applicable Legal Requirements;

(p) except with respect to the previously planned freeze of Seller's defined benefit pension plan and post-retiree health plan, terminate, amend or otherwise modify in any material respect any Employee Benefit Plan, except for normal course annual changes and amendments required to comply with this Agreement or applicable Legal Requirements; or

(q) amend or agree to amend the articles of incorporation or the bylaws or articles of formation or operating agreement (or comparable organizational documents) of Seller or any Subsidiary thereof or otherwise take any action relating to any liquidation or dissolution of Seller or any Subsidiary thereof, except as expressly contemplated by this Agreement, provided that Seller may merge any one or more of the Subsidiaries into each other or into the Seller in connection with the proposed transaction;

(r) amend or agree to amend the governing documents of any Joint Venture, except immaterial amendments or amendments required to comply with applicable Legal Requirements or reasonably necessary to assign and transfer to Buyer or Buyer's designee Seller's Investment in, or for Buyer to become a partner, member or shareholder of, such Joint Venture or to restructure such joint Venture to permit Buyer to participate in such Joint Venture; or

(s) take any action outside the ordinary course of the Hospital Businesses other than modifying its bond documents as needed.

5.03. Employee Matters.

(a) Subject to the exclusions set forth in this Section and in reliance upon the representations of Seller in Sections 3.21 and 3.22, Buyer will offer, or cause its Affiliates to offer, to employ as of the Closing Date substantially all employees of Seller and its Affiliates who work at the Hospital Businesses, including but not limited to employees on approved leaves of absence as of the Closing Date for any reason including without limitation by reason of a military leave, family or medical leave, illness, injury, disability or similar situation (provided employment shall not commence until such employees return from such approved leave), on the same terms and conditions with respect to job duties, titles and responsibilities that are applicable to such employees on the date of such offer. Buyer will offer the Hired Employees salaries equal to their salaries as of the Closing Date and Employee Benefit Plans that are consistent with Employee Benefit Plans offered to similarly-situated employees at other hospitals operated by Buyer in similar markets. Notwithstanding the foregoing, Buyer will, and will cause its Affiliates to, in all events provide each Hired Employee terms and conditions of employment, including compensation and employee benefits, sufficient to avoid Seller or its Affiliates from incurring any liability under the WARN Act or any comparable Legal Requirement due to actions or omissions of Buyer and its Affiliates related to the Hired Employees at any time on or after the Closing Date.

(b) Seller acknowledges that all employment offers are for "at will" employment only and are subject to the satisfactory completion of Buyer's usual and customary hiring practices, including employee background checks and pre-employment screenings. Nothing in this Section or elsewhere in this Agreement may be deemed to limit or otherwise affect in any manner the right of Buyer or any Affiliate of Buyer to terminate at will the employment of any Hired Employee or, subject to Buyer's covenants in Section 5.03(a) and (c), to change individual features or plans in the employment compensation and benefits package of the Hired Employees, provided that Buyer will assume and honor all written severance agreements between Seller and Seller's employees existing as of Closing that are provided to Buyer prior to the date hereof, as set forth on Schedule 5.03(b).

(c) Following the Closing Date, each Employee Benefit Plan sponsored by Buyer or any Affiliate of Buyer in which the Hired Employees are eligible to participate shall credit the Hired Employees with their periods of employment with Seller or any Affiliate of Seller for all purposes (other than benefit accrual under any defined benefit pension plan), including, but not limited to, application of any preexisting condition limitation or eligibility period otherwise applicable to the Hired Employees and their eligible dependents. In addition, if prior to the Closing Date a Hired Employee or his or her covered dependents paid any amounts towards a deductible or out-of-pocket maximum in Seller's medical and health plan's current fiscal year, such amounts shall be applied toward satisfaction of the deductible or out-of-pocket maximum in the current fiscal year of Buyer's medical and health plan that covers Hired Employees on and after the Closing Date. Buyer will give all Hired Employees credit for their vacation, holiday, personal time and sick pay (whether in such form or in the forms of so-called "paid time off" or an "extended illness bank"). With respect to the Hired Employees, Buyer will

assume the Workers' Compensation Liability that exists as of Closing and any such claims filed on or after Closing with respect to periods prior to Closing. Except as provided in subsection (b) above, this subsection (c), subsections (d) and (e) below, or Schedule 2.03, or as otherwise required by Legal Requirements, Buyer will not assume or otherwise become liable for, and Seller will remain solely responsible for, (i) Seller's Employee Welfare Benefit Plans and (ii) any other obligations to former or currently retired employees or their dependents. Buyer will make available group health plan continuation coverage required under COBRA to employees and former employees of Seller who are eligible for COBRA, provided that, with respect to COBRA beneficiaries whose qualifying events occurred on or prior to the Closing Date, Seller will reimburse Buyer for all claims of such COBRA beneficiaries paid by Buyer and its Affiliates in excess of the sum of (A) COBRA premiums collected from the COBRA beneficiaries; and (B) amounts reimbursed from stop loss insurance, determined in the aggregate with respect to all such individuals on the first anniversary of the Closing Date and again at the end of the COBRA period for all such COBRA beneficiaries. Buyer agrees to accept rollovers of eligible rollover distributions (within the meaning of Code section 402(c)(4)), including to the extent applicable rollovers of any outstanding loans made as part of a direct rollover, made by Hired Employees from Seller's Employee Pension Benefit Plans to Buyer's Plans.

(d) Seller has frozen its defined benefit pension plan known as the "Eastern Connecticut Health Network, Inc. Pension Plan" to new participation and future accruals and has frozen the post-retiree health plan to new participation. With respect to the post-retiree health plan, Buyer agrees to maintain post-retiree health coverage for the group of employees and former employees eligible for such coverage as of the Closing and shall not amend or terminate the post-retiree health plan unless the members of such group are provided another retiree medical benefit or cash payment of equivalent value (as calculated using reasonable assumptions determined in consultation with an actuary at the time of the determination).

(e) As of the Closing, Buyer agrees to assume, administer, and become the sponsor of Seller's defined benefit pension plan known as the "Eastern Connecticut Health Network, Inc. Pension Plan" (most recently amended as of December 23, 2015 and as it may be amended to reflect Buyer's assumption of sponsorship) and Seller's post-retiree health plan and assume all collective bargaining agreements of Seller that pertain to the Hospital Businesses.

(f) Between the date of this Agreement and Closing, Buyer may run newspaper advertisements, in the name of any of the Hospital Businesses or in the name of Buyer, to recruit employees for the Hospital Businesses to commence on or after the Closing Date.

(g) At Closing, Seller shall deliver to Buyer a list setting forth the names of all employees of the Hospital Businesses whose employment was terminated between the date of this Agreement and the Closing Date.

(h) This Section 5.03 shall not apply to employees employed by Seller under Assumed Contracts, including but not limited to the collective bargaining agreements described in subsection (e) above. Buyer shall offer employment to all such employees, subject to the satisfactory completion of Buyer's usual and customary hiring practices, including employee background checks and pre-employment screenings, and employment of such employees will be governed by the terms and conditions of the Assumed Contracts, if any, relating to the employment of such employees.

(i) On or prior to the Closing Date, Seller will be responsible for compliance with the WARN Act and all similar state and local Legal Requirements with respect to the employees of the Hospital Businesses, and for all obligations or liabilities arising thereunder as a result of any action (or failure to act) of Seller on or prior to the Closing Date, and after the Closing Date, Buyer will be responsible for compliance with the WARN Act and all similar state and local Legal Requirements with respect to the Hired Employees, and for all obligations or liabilities arising thereunder as a result of any action (or failure to act) of Buyer after the Closing Date.

5.04. Access to and Provision of Additional Information.

(a) Except to the extent prohibited by applicable Legal Requirements (including antitrust laws), until the Closing Date, Seller shall (i) give Buyer reasonable access to and the right to inspect, during normal business hours and upon reasonable prior notice, Seller's Assets and books and records relating to the Hospital Businesses, (ii) give Buyer reasonable access to Seller's employees and medical staff members providing services at or for the Hospital Businesses and (iii) give Buyer such additional financial, operating and other data and information (including auditors' workpapers) regarding the Hospital Businesses as Buyer may reasonably request and that is reasonably available to Seller. Buyer shall exercise its rights under this Section 5.04(a) in such a manner as to cause the least possible interference with the normal operations of the Hospital Businesses.

(b) Seller will deliver to Buyer:

(i) within 25 days after the end of each calendar month before the Closing Date, copies of the unaudited balance sheet and the related unaudited statements of income and cash flows of the Hospital Businesses for each such month then ended and for the fiscal year-to-date then ended, in consolidating and consolidated format;

(ii) within 35 days after the end of each fiscal quarter ending on or before the Closing Date, copies of the unaudited balance sheet and the related unaudited statements of income and cash flows of the Hospital Businesses for the fiscal quarter then ended and for the fiscal year-to-date then ended; and

(iii) promptly after prepared, copies of any other financial or operating statements, reports or analyses prepared by or for management relating to the Hospital Businesses.

(c) Until the Closing Date, Seller shall confer regularly with Buyer, as reasonably requested by Buyer, and answer Buyer's reasonable questions regarding matters relating to the conduct of the Hospital Businesses and the status of transactions contemplated by this Agreement. Seller shall notify Buyer of any material changes in the operations, financial condition or prospects of the Hospital Businesses and of any material complaints, investigations, hearings or adjudicatory proceedings (or communications indicating that the same may be contemplated) concerning the Hospital Businesses and shall keep Buyer reasonably informed of the status of such matters.

(d) With respect to any individually identifiable health information disclosed by Seller to Buyer pursuant to this Section, Buyer and Seller shall comply with the Health Insurance Portability and Accountability Act of 1996, as codified at 42 U.S.C. Section 1320d, *et seq.*, as amended by the Health Information Technology for Economic and Clinical Health Act, and any current and future Legal Requirements promulgated thereunder, and with any other federal or state Legal Requirements that govern or pertain to the confidentiality, privacy, security of, and electronic transactions involving, health care information.

(e) For the avoidance of doubt, Buyer shall not, and nothing contained in this Section shall give Buyer, directly or indirectly, the right to, control or direct the Hospital Businesses (or any portion thereof) prior to the Closing.

5.05. Post-Closing Maintenance of and Access to Information.

(a) After Closing, each party may need access to books, records, documents or other information in the control or possession of the other party for purposes of concluding the transactions contemplated by this Agreement, preparing Tax Returns or conducting Tax audits, obtaining insurance, complying with Government Payment Programs and other Legal Requirements, and prosecuting or defending third party claims. Accordingly, each party shall keep and maintain in the ordinary course of business all books, records (including patient medical records), documents and other information in the possession or control of such party for a period of at least five years after the Closing and otherwise in accordance with all applicable Legal Requirements and record retention policies maintained by such party. In addition, to facilitate the foregoing purposes, each party shall also make such books, records, documents and other information available for inspection and copying upon the reasonable request and at the expense (for out-of-pocket costs) of the other party.

(b) Upon Buyer's receipt of appropriate consents and authorizations, Seller may remove and copy from the Hospital Businesses, at Seller's sole risk and expense, any patient or other records that relate to events or periods before Closing for purposes of pending Proceedings involving matters to which such records refer, as certified in writing before removal by counsel retained by Seller in connection with such Proceedings. Seller shall promptly return any records so removed to Buyer following their use.

(c) Each party shall cooperate with, and shall permit and use commercially reasonable efforts to cause its former and present directors, officers and employees to

cooperate with, the other party after Closing in furnishing information, evidence, testimony and other assistance in connection with any Proceeding or claim with respect to (i) the ownership of the Assets or the conduct of the Hospital Businesses or (ii) the Excluded Liabilities.

(d) The exercise by any party of the rights granted in this Section shall not unreasonably interfere with the conduct of business of the other party and nothing in this Section requires any party to maintain or release to any other Persons any medical or other records except in accordance with applicable Legal Requirements and record retention policies.

(e) To the extent Seller remains in existence and maintains sufficient operational control over relevant functions and pursuant to the Transitional Services Agreement, for seven years after the Closing Date, Seller will give Buyer, within 30 days after request, an updated claims history, including losses paid and open reserves, for all claims relating to the conduct of the Hospital Businesses on or before the Closing Date.

5.06. Governmental Authority Approvals; Consents to Assignment.

(a) Until the Closing Date, Seller and Buyer shall (i) promptly apply for, and use commercially reasonable efforts to obtain before Closing, all consents, approvals, authorizations and clearances of Governmental Authorities required to consummate the transactions contemplated by this Agreement, including approvals of the applications to the Attorney General and the Office of Health Care Access of the Connecticut Department of Public Health, (ii) provide such information and communications to Governmental Authorities as the other party or such Governmental Authorities may reasonably request, and (iii) assist and cooperate with the other party to obtain all Permits, including approvals of the applications to the Attorney General and the Office of Health Care Access of the Connecticut Department of Public Health, that the other party deems necessary or appropriate, and to prepare any document or other information reasonably required of it by any such Governmental Authority to consummate the transactions contemplated by this Agreement, *provided* that no party may be required without the party's consent (x) to pay any sum to Governmental Authorities other than filing fees or past due amounts, or (y) to agree to divest assets or limit the conduct of the business.

(b) Until the Closing Date, each party shall file, if and to the extent required by applicable Legal Requirements, all reports and other documents required or requested by Governmental Authorities under the HSR Act concerning the transactions contemplated by this Agreement, and shall promptly comply with any requests by the Governmental Authorities for additional information concerning such transactions, so that the waiting period specified in the HSR Act will expire as soon as reasonably possible. Each party shall furnish to the other party such information as the other party reasonably requires to comply with its obligations under the HSR Act and shall exchange drafts of the relevant portions of each other's report forms before filing. The parties shall also share equally the costs of any fees due in respect of filings required by the HSR Act.

(c) Seller shall promptly apply for and use commercially reasonable efforts to obtain before Closing all consents required to assign the Assumed Contracts to Buyer at Closing, provided that Seller shall not be required to make any payments or economic concessions to landlords to obtain such consents.

(d) To obtain one or more of the consents and approvals described in this Section, Buyer may be required by applicable Legal Requirement or practical necessity to enter into a contract that supersedes or replaces an existing Contract between Seller and a third party. Such new contract may require Buyer to assume, for the benefit of such third party, certain obligations and liabilities of Seller that are Excluded Liabilities. Alternatively, Buyer may be required by Legal Requirements to assume, or may be deemed as a matter of law to have assumed, obligations and liabilities of Seller that are Excluded Liabilities. If Buyer enters into a replacement contract or assumes such Excluded Liabilities, then – as between Seller and Buyer – such contract or assumption of Excluded Liabilities will not affect the contractual rights and remedies provided in this Agreement in respect of such contract or Excluded Liabilities, including Buyer's rights to indemnification from Seller (subject to the limitations set forth in Article 9), or otherwise diminish Seller's obligations to Buyer or enlarge Seller's liabilities to Buyer (or diminish Seller's defenses or limitations on liability) under this Agreement and will under no circumstances be claimed by Seller as a defense (whether of waiver, estoppel, consent, operation of law, or otherwise) against Buyer's assertion of any claim under this Agreement against Seller, and the rights and obligations of the parties to each other under this Agreement will be determined as if such replacement contract did not exist or such assumption of Excluded Liabilities was not required.

5.07. Use of Controlled Substance Permits. To the extent permitted by applicable Legal Requirements, Buyer shall have the right, for a period not to exceed 120 days following the Closing Date, to operate the Hospital Businesses under the licenses and registrations of Seller relating to controlled substances and the operations of pharmacies and laboratories, until Buyer is able to obtain such licenses and registrations for the Hospital Businesses. In furtherance thereof, Seller shall execute and deliver to Buyer at or prior to the Closing limited powers of attorney substantially in the form of Exhibit B hereto. Buyer or its Affiliates shall apply for all such licenses and registrations as soon as reasonably practicable before and after the Closing Date and shall diligently pursue such applications. Buyer shall indemnify and hold harmless Seller and its Affiliates, and their officers, trustees and employees for all claims, liabilities and costs arising from or relating to use of such licenses and registration after the Closing Date.

5.08. Connecticut Transfer Act. Certain components of the Real Property (including the Hospitals) may constitute, in whole or in part, "Establishments" as the term is defined in the Transfer Act (collectively, the "**Establishment Real Properties**"). Accordingly, Seller and Buyer shall prepare an appropriate Transfer Act Form and accompanying ECAF for each Establishment Real Property to satisfy the requirements of the Transfer Act in connection with the transaction contemplated herein. Seller shall execute as transferor and Buyer shall execute as transferee and Certifying Party (as all such terms are defined in the Transfer Act). Within ten (10) days after the Closing Date, Buyer shall (i) file the fully executed Form and ECAF with the Connecticut Department of Energy and Environmental Protection ("**CTDEEP**"); (ii) pay the initial filing fee and any and all subsequent Transfer Act fees (which shall be reimbursed by

Seller); and (iii) provide written confirmation to Seller that the Transfer Act filing has been completed (with a copy of such filing). In order to evaluate the potential scope and cost of Transfer Act obligations that may be required, prior to the Closing, Buyer shall have the right to perform limited Phase II Assessments subject to and in accordance with the provisions of Section 7.09 hereof. Buyer or its designee shall conduct and complete, at Buyer's sole expense, any actions required (as determined by Buyer in its reasonable discretion) as a result of the filing of the Form and the ECAF, to comply with the Transfer Act, and, if appropriate, to obtain written approval from CTDEEP or a "verification" from a "Licensed Environmental Professional" that the Facilities have been remediated in full compliance with the Connecticut Remediation Standard Regulations (collectively "**Transfer Act Activities**"). Buyer shall complete all Transfer Act Activities as soon as practicable, but in any event within any deadline defined by or pursuant to the Transfer Act (as the same may be extended). Notwithstanding the foregoing, Seller shall pay Buyer for all costs and expenses that Buyer incurs in connection with Transfer Act Activities. Seller and Buyer agree to execute and deliver all documents reasonably requested by the other to comply with the Transfer Act. All undefined terms in this Section 5.08 shall have the meanings set forth in the Transfer Act. Notwithstanding anything to the contrary in this Agreement, the parties agree that any and all fees, expenses and other costs to be paid by Seller under this Section 5.08 shall be paid first from funds held as part of the indemnity reserve established pursuant to Section 9.08.

5.09. No-Shop Clause. Until termination of this Agreement, Seller shall not, and shall not permit any Affiliate of Seller or any other Person acting for or on behalf of Seller or any Affiliate of Seller to, without the prior written consent of Buyer: (a) offer for sale, lease or other disposition all or substantially all of the Assets or any material portion thereof, or any ownership interest in any entity owning any of the Assets, whether by virtue of an asset sale transaction, a lease transaction, affiliation transaction, or a change of control, change of membership, merger, consolidation or other combination transaction with respect to Seller or any entity owning any of the Assets (collectively, a "**Prohibited Transaction**"), or negotiate in respect of an unsolicited offer therefor; (b) solicit offers to acquire all or substantially all of the Assets, or any material portion thereof, or offers to acquire any ownership interest in an entity owning any of the Assets, in a Prohibited Transaction; (c) enter into any Contract with any Person with respect to the disposition of all or substantially all of the Assets, or any material portion thereof, or the sale of any ownership interest in an entity owning any of the Assets, in a Prohibited Transaction; or (d) furnish or permit or cause to be furnished any information to any Person that Seller knows or has reason to believe is in the process of considering a Prohibited Transaction. If Seller, any Affiliate of Seller, or any Person acting for or on behalf of any of the foregoing receives from any Person (other than Buyer or its representatives) any offer, inquiry or informational request referred to above, Seller will promptly advise such Person, by written notice, of this Section.

5.10. Noncompetition. For a period of five years after the Closing Date, Seller shall not, directly or indirectly, and Seller shall cause its Affiliates not to, in any capacity: (i) own, lease, manage, operate, control, be employed by, maintain or continue any interest whatsoever or participate in any manner with the ownership, leasing, management, operation, or control of any business or enterprise that offers services in competition with the Hospital Businesses, including any acute care hospital, specialty hospital, rehabilitation facility, diagnostic imaging center, inpatient or outpatient psychiatric or substance abuse facility, ambulatory or other type of surgery center, wellness center, urgent care center, ambulatory service, nursing home, skilled

nursing facility, home health or hospice agency, or physician clinic or physician medical practice, within a 30 mile radius of either Hospital (the "**Restricted Area**"); (ii) employ or solicit the employment of any Hired Employee, other than no more than five (5) individuals employed solely for winding down operations, unless (x) such employee resigns voluntarily (without any solicitation from Seller or any of its Affiliates), (y) Buyer consents in writing to such employment or solicitation, or (z) such employee is terminated by Buyer or its Affiliate after the Closing Date; (iii) induce, cause or attempt to induce or cause any Person (including any physician employee or medical staff member) to replace or terminate any contract for the provision or arrangement of health care services from the Hospital Businesses with products or services of any other Person after the Closing Date; or (iv) request, induce or cause any physician employee or medical staff member to terminate any contract with or change practice patterns at the Hospital Businesses. Notwithstanding the foregoing, however, (i) Seller and its Affiliates will not be precluded from participating in the following activities that promote health care services for residents of the communities historically served by Seller and its Affiliates through the Hospitals: development, ownership, and operation of indigent or charity care clinics and services; preventative care programs and services and educational programs; health screening services; child care services; and other similar services or programs intended to better serve the health care needs of the community's indigent population in the Restricted Area that are not directly competitive with services to be provided by Buyer or its Affiliates. In the event of a breach of this Section, Seller recognizes that monetary damages shall be inadequate to compensate Buyer, and Buyer shall be entitled, without the posting of a bond or similar security, to an injunction restraining such breach, with the costs (including attorneys' fees) of securing such injunction to be borne by Seller. Nothing contained herein shall be construed as prohibiting Buyer from pursuing any other remedy available to it for such breach or threatened breach. All parties hereto hereby acknowledge the necessity of protection against the competition of Buyer and its Affiliates and that the nature and scope of such protection has been carefully considered by the parties. Seller further acknowledges and agrees that the covenants and provisions of this Section form part of the consideration under this Agreement and are among the inducements for Buyer entering into and consummating the transactions contemplated herein. The period provided and the area covered are expressly represented,and agreed to be fair, reasonable, and necessary. The consideration provided for herein is deemed to be sufficient and adequate to compensate for agreeing to the restrictions contained in this Section. If, however, any court determines that the foregoing restrictions are not reasonable, such restrictions shall be modified, rewritten, or interpreted to include as much of their nature and scope as will render them enforceable.

5.11. Allocation of Purchase Price. Within a reasonable time after Closing, Buyer shall provide Seller a proposed allocation of the Purchase Price among the Hospital Businesses and the Assets. Such allocation will be in accordance with section 1060 of the Code. Buyer's proposed allocation will become final and binding on the parties 45 days after Buyer provides the proposed allocation to Seller unless Seller objects to the proposed allocation, in which case Seller shall propose an alternative allocation. The parties shall use good faith efforts to resolve their differences within 60 days after Seller gave its objection to Buyer. If a final resolution is not reached within 60 days after Seller has submitted its objection in writing, each of Buyer and Seller shall make their own independent allocation of the total consideration among the Hospital Businesses and the Assets. If Seller and Buyer reach agreement upon the allocation (or Seller does not object to Buyer's proposed allocation), Seller and Buyer will be bound by the agreed

allocation and (for federal and state Tax purposes) account for and report the transactions contemplated by this Agreement in accordance with such allocation, and will not voluntarily take any position (whether in Tax Returns, Tax audits or other Proceedings) inconsistent with such allocation. Seller and Buyer shall exchange Internal Revenue Service Forms 8594 (including supplemental forms, if required) to report the transactions contemplated by this Agreement to the Internal Revenue Service in accordance with such allocation.

5.12. Further Assurances. After the Closing, upon request of Buyer, Seller shall do, execute, acknowledge and deliver, or cause to be done, executed, acknowledged and delivered, such further acts, deeds, assignments, transfers, conveyances, powers of attorney, confirmations and assurances as Buyer may reasonably request to more effectively convey, assign and transfer to and vest in Buyer full legal right, title and interest in and actual possession of the Assets and the Hospital Businesses, to confirm Seller's capacities and abilities to perform its post-Closing covenants under this Agreement and the Closing Documents, and to generally carry out the purposes and intent of this Agreement. If any interest in a Joint Venture has not been transferred at Closing as a result of the failure to obtain a consent or to otherwise comply with the governing instruments of such Joint Venture, then Seller shall use commercially reasonable efforts following the Closing to obtain such consent or otherwise comply with the governing instruments of the Joint Venture to permit the transfer of such interest to Buyer as soon as practical following the Closing. Seller shall also furnish Buyer with such information and documents in its possession or under its control, or which Seller can execute or cause to be executed, as will enable Buyer to prosecute any and all petitions, applications, claims and demands relating to or constituting a part of the Assets and Hospital Businesses. After the Closing, upon request of Seller, Buyer shall do, execute, acknowledge and deliver, or cause to be done, executed, acknowledged and delivered, such further acts, deeds, assignments, transfers, conveyances, powers of attorney, confirmations and assurances as Seller may reasonably request to more effectively convey, assign and transfer to Buyer each of the Assumed Liabilities, to confirm Buyer's capacities and abilities to perform its post-Closing covenants under this Agreement and the Closing Documents, and to generally carry out the purposes and intent of this Agreement.

5.13. Casualty. If, on or before the Closing Date, any of the Hospital Businesses are destroyed or materially damaged by fire, theft, vandalism or other cause or casualty and as a result thereof any material part of such Hospital Business is rendered unsuitable for its primary intended use and the cost of repair would exceed $1,000,000, Buyer may elect, by giving written notice to Seller within 15 business days after having actual notice of the occurrence of such destruction or damage and the extent of the loss, to: (i) terminate this Agreement in accordance with Section 8.04(a), (ii) consummate the transaction in spite of such destruction or damage but reduce the Purchase Price by the fair market value of the Assets destroyed or damaged (determined as of the date immediately before the destruction or damage) or, if greater, the estimated cost to restore, repair or replace such Assets, in which event Seller will retain all right, title and interest in and to insurance proceeds payable on account of such destruction or damage, or (iii) consummate the transaction in spite of such destruction or damage without any reduction in the Purchase Price, in which event Seller shall pay, transfer and assign to Buyer at Closing the insurance proceeds less any reasonable out-of-pocket costs incurred in collecting the proceeds or in securing or repairing the property (or the right to receive the insurance proceeds) payable on account of such destruction or damage, and Buyer shall receive a credit for any deductibles or

copayments required under the applicable insurance policy in respect of such claim. Notwithstanding the foregoing, Buyer and Seller acknowledge and agree that the Purchase Price shall not be reduced by an amount that would preclude Seller from paying, or providing for payment of, all of its liabilities in full.

5.14. Seller's Cost Reports. Pursuant to the Transitional Services Agreement, Seller will prepare and timely file all Cost Reports required to be filed after Closing for periods ending on or before the Closing Date, including terminating Cost Reports required as a result of the consummation of the transactions described in this Agreement. Buyer will provide information to Seller and reasonably assist Seller in the preparation and filing of the terminating Cost Reports and the Purchase Price will be allocated in the terminating Cost Reports in a manner consistent with the allocation for Tax purposes described in Section 5.11. Buyer will forward to Seller any and all correspondence, remittances and demands relating to Seller's Cost Reports within ten business days after receipt by Buyer. Seller retains all rights to its Cost Reports, including any payables resulting from or reserves relating to the Cost Reports and the right to appeal any Medicare determinations relating to the Cost Reports.

5.15. Continuation of Hospitals and Post-Care Continuum. For at least 3 (three) years after Closing, Buyer will (i) continue operating the Hospitals in their current locations as acute care hospitals with emergency departments, and (ii) maintain an ownership interest in Seller's current post-acute care continuum of care network (e.g., VNA/home care, sub-acute and long-term lines of service) and require any joint venture involving such post-acute care continuum of care network to maintain the applicable service line for such three-year period. During such periods that Buyer operates the Hospitals, Buyer agrees to maintain Seller's commitment to quality, safety, and patient satisfaction, including maintaining appropriate enrollment, certifications, and accreditations necessary to receive reimbursement under Government Payment Programs.

5.16. Charity Care and Community Obligations.

(a) Seller has historically provided significant levels of care for indigent and low-income patients and has also provided support for community volunteer services and care through a variety of community-based health programs. Subject to changes in Legal Requirements or governmental guidelines or policies, Buyer will ensure that each Hospital maintains and adheres to Seller's current policies on charity care, indigent care, community volunteer services and community benefits attached as Schedule 5.16 or adopt other policies and procedures that are at least as favorable to the indigent and uninsured in the aggregate as Seller's existing policies.

(b) During all times that Buyer owns and operates the Hospitals, Buyer will strive to provide care through community-based health programs, including by cooperating with local organizations that sponsor health care initiatives to address community needs and improve the health status of the elderly, poor, and at-risk populations in the community.

5.17. Educational Support. Buyer agrees to maintain and support financially the University of New England medical student and other health professions teaching programs

established by Seller, in addition to Seller's graduate medical education programs, while operating at a level to not exceed the Indirect Medical Education and Direct Graduate Medical Education caps that may be established by CMS.

5.18. Capital Commitment.

(a) Commitment Amount. Post-Closing, Buyer, in consultation with Seller, the Local Board and potentially an outside consultant, will develop a strategic capital plan with respect to the Hospital Businesses (which for purposes of this Section 5.18 includes the Joint Ventures). In accordance with such strategic capital plan, Buyer agrees to spend within five years of Closing or commit in a binding contract to spend (or cause or permit its Affiliates or third parties to spend or commit in a binding contract to spend) within five years of Closing not less than $75,000,000 (the "**Commitment Amount**") at Seller facilities on (i) capital projects, including routine and non-routine capital expenditures for the improvement of Seller's facilities and/or the acquisition, development, expansion and improvement of hospital, ambulatory or other health care services (such as implementation of a comprehensive and system-wide electronic medical record such as the Epic system), (ii) de novo development, expansion, or acquisition of a department, program, service or facility (whether for inpatient or outpatient services), (iii) upgrades or renovations generally, (iv) deferred maintenance items, and (v) capital expended in support of the recruitment of the Hospitals' medical staff located in the Hospitals' service area, limited to physician practice acquisitions, loan security agreements and real estate acquisition or development (including any associated medical equipment) in support of physician practice acquisitions. Buyer shall provide a written report to Seller on an annual basis that verifies its compliance with the capital commitment, which Seller may share publically. For the purposes of determining whether the Commitment Amount has been expended or committed to be expended, (x) only operating leases for (i) buildings or the fit-out or build-out of space used in the provision or support of medical services or (ii) medical equipment with a useful life of more than one year, shall count towards the Commitment Amount, (y) capital leases, and those operating leases that are permitted to be counted toward the Commitment Amount under Sections 5.18(a)(x)(i)-(ii), shall be valued at the net present value of any lease commitments, and (z) solely with respect to expenditures for equipment not currently owned or leased by the Hospital Businesses or space that is renovated, acquired or newly leased (with respect to incremental Buyer improvements) or obtained after Closing consistent with Section 5.18, it shall not be a prerequisite that the applicable expenditure be classified as a capital expenditure for accounting purposes.

(b) Reduction of Commitment Amount. Notwithstanding the foregoing,

(i) the Commitment Amount shall be reduced by the Unfunded ED Loan Amount, if any;

(ii) the Commitment Amount shall be reduced by the amount, if any, of Seller's administrative wind-down costs paid by Buyer in accordance with Section 2.05(*l*)(i);

(iii) if Buyer assumes any unreimbursed Additional Liabilities in accordance with Section 2.05(d), the Commitment Amount shall be further reduced by the amount of such unreimbursed Additional Liabilities;

(iv) the Commitment Amount shall be reduced by the amount by which the Purchase Price Adjustment to be paid by Seller to Buyer pursuant to Section 2.05(k)(ii) exceeds Available Cash; and

(v) the Commitment Amount may be reduced, on a dollar-for-dollar basis, by the aggregate amount of Losses incurred by Buyer's Indemnified Persons under the provisions of Section 9.01 after application of the Seller Deductible (if applicable), to the extent such Losses are not satisfied in full (i.e., regardless of whether such Losses are satisfied from the amounts maintained as an indemnify reserve under Section 9.08 or otherwise) in accordance with Section 9.08; *provided*, that Buyer shall be entitled to make such reduction to the Commitment Amount if and to the extent Seller fails to satisfy such Losses pursuant to Section 9.05(d) after a reasonable period of time following written demand for payment by Buyer, *provided, further*, that any such reduction shall not relieve Seller from its indemnification payment obligations thereunder.

(c) Restoration of Commitment Amount. Notwithstanding the foregoing,

(i) the Commitment Amount shall be increased (up to a maximum of Seventy-Five Million Dollars ($75,000,000)) by any amounts retained by Buyer as reimbursement for the ED Loan assumed by Buyer;

(ii) the Commitment Amount shall be increased (up to a maximum of Seventy-Five Million Dollars ($75,000,000)) by any amounts retained by Buyer to reimburse Buyer for the Additional Liabilities;

(iii) to the extent that the Commitment Amount was decreased in accordance with Section 5.18(b), and Buyer is reimbursed in full for the ED Loan assumed by Buyer and the liabilities assumed by Buyer in excess of the Threshold Liability, the Commitment Amount shall be further increased (up to a maximum of Seventy-Five Million Dollars ($75,000,000)) by any remaining amounts received by Seller from cost report settlements and paid to Buyer in accordance with Section 2.05(m)(i)(z);

(iv) if applicable, the Commitment Amount shall be increased (up to a maximum of Seventy-Five Million Dollars ($75,000,000)) in accordance with Section 9.08; and

(v) if applicable, the Commitment Amount shall be increased (up to a maximum of Seventy-Five Million Dollars ($75,000,000)) in accordance with Section 2.05(*l*)(ii).

(d) Upon any change to the Commitment Amount made in accordance with Section 5.18(b)-(c), Buyer shall provide Seller with an updated calculation of the Commitment Amount.

5.19. Connecticut Transactions. If at any time prior to Closing, Buyer or any of its Affiliates enter into an agreement with another Connecticut hospital that seeks to consummate transactions similar to the transactions described herein, then Buyer shall promptly inform Seller of such fact, subject to such hospital's approval of waiving any nondisclosure obligation in a confidentiality agreement between such hospital and Buyer, or an Affiliate of Buyer.

5.20. Fees and Expenses.

(a) Except as otherwise expressly set forth in this Agreement, whether or not the transactions contemplated by this Agreement are consummated, (i) Buyer or its Affiliates shall bear and pay all expenses incurred by or on behalf of Buyer in connection with Buyer's due diligence investigation of the Assets and the Hospital Businesses, the preparation and negotiation of this Agreement and Buyer's performance of its obligations pursuant to this Agreement, including counsel, accounting, brokerage and investment advisor fees and disbursements, and (ii) Seller or its Affiliates shall bear and pay all expenses incurred by or on behalf of Seller in connection with the preparation and negotiation of this Agreement and Seller's performance of its obligations pursuant to this Agreement, including counsel, accounting, brokerage and investment advisor fees and disbursements.

(b) Seller shall pay all costs reasonably necessary for Seller to remove all Encumbrances on the Assets that are not Permitted Encumbrances and all expenses incurred by Seller in obtaining any third party consents or approvals necessary to assign to Buyer any Assumed Contracts (it being understood that Seller shall have no obligation to make any monetary payment to a third party beyond any nominal review fee of not more than $1,000 or accept any material concession in the terms of any Contract in order to obtain any such consents or approvals).

(c) Buyer shall pay the following: (i) all third party fees and expenses reasonably incurred by Buyer for Buyer's land title surveys and environmental, engineering and other inspections, studies, tests, reviews and analyses undertaken by or on behalf of Buyer for the benefit of Buyer, (ii) all transfer Taxes, sales and use and similar Taxes arising out of the transfer of the Assets (whether or not originally arising with or assessed to Seller or its applicable Subsidiary) and (iii) the premium for Buyer's title insurance policies described in Section 7.06.

(d) If any party incurs legal fees or expenses in connection with any Proceeding to enforce any provision of this Agreement and is the prevailing party in the Proceeding, such party will be entitled to recover from the non-prevailing party in the Proceeding the legal fees and expenses reasonably incurred by such party in connection with the Proceeding, including attorneys' fees, costs and necessary disbursements, in addition to any other relief to which such party is entitled.

5.21. Clinical Quality and Integration. For at least three (3) years after Closing, Buyer shall (i) collaborate with the Local Board and remaining former hospital staff of Seller on clinical quality matters of the Hospital Businesses to share best practices, establish clinical quality goals and measure progress, and (ii) to the extent consistent with antitrust Legal Requirements, consult with physicians on the medical staff of each Hospital, including at least some independent (*i.e.*, non-employed) physicians, in managed care contracting and clinical integration with respect to the Hospital Businesses.

5.22. Insurance Ratings. Seller will take all commercially reasonable actions requested by Buyer to enable Buyer, at Buyer's expense, to succeed to the workers' compensation and unemployment insurance ratings of Seller and the Hospital Businesses for insurance purposes. Buyer shall not be obligated to succeed to any such rating, except as it may elect to do so or as is otherwise required to do so by Legal Requirements.

5.23. Fulfillment of Conditions. If all of the conditions to a party's obligation to consummate the transactions contemplated by this Agreement at the Closing are satisfied (or waived by that party in its sole discretion), such party will execute and deliver at Closing each Closing Document that such party is required by this Agreement to execute and deliver at Closing. Each party will use all commercially reasonable efforts to satisfy each condition to the obligations of the other party to consummate the transactions contemplated by this Agreement, to the extent that satisfaction of any such condition is within the control of such party.

5.24. Release of Encumbrances. Seller shall use all commercially reasonable efforts to cause all Encumbrances on the Assets, other than the Permitted Encumbrances, to be released and discharged at or before Closing.

5.25. Insurance Transition Provisions.

(a) With respect to the Disability Obligations, Buyer and Seller acknowledge and agree that no tail insurance shall be required in connection with the Disability Obligations because Seller is fully insured with respect to the Disability Obligations.

(b) Other than with respect to the Accumulated Benefit Obligation, the Post-Retiree Health Plan Liability, the Captive Insurer Liability and the Workers' Compensation Liability, on or immediately following the Closing Date, Seller will purchase and obtain an extended claims reporting provision for all primary and excess insurance policies listed in Schedule 5.25(b), including but not limited to coverage for directors, trustees and officers of Seller and its Affiliates, in force as of the date of the Closing Date that cover Seller, its Affiliates and each physician employee of Seller or its Affiliates (or for which Seller otherwise has an obligation to provide such insurance), and that are written on a claims-made insuring agreement. Such extended claim endorsements must name Buyer (and other Affiliates of Buyer designated by Buyer prior to the Closing) as named insureds thereunder. Within thirty (30) days following the Closing Date, Seller will provide Buyer with an original or certified copy of the tail insurance policies required by this Section 5.25(b) and receipts evidencing payment of the premiums therefor.

(c) Notwithstanding anything in this Agreement to the contrary and to the extent in the best interests of Seller, Seller may choose in its sole discretion to retain the Captive Insurer Liability, the Workers' Compensation Liability or both and, at or prior to Closing, purchase its own tail insurance policy or policies with respect to the Captive Insurer Liability, the Workers' Compensation Liability or both. To the extent Seller elects to retain the Captive Insurer Liability, the Workers' Compensation Liability or both, Seller shall provide written notice to Buyer of such election, and Buyer will be relieved of its obligations set forth in this Agreement with respect to any liability or liabilities that Seller elects to retain as set forth in such written notice, and there shall be no adjustment in the Purchase Price pursuant to Sections 2.05(a)(vi)-(vii) for any liabilities so retained.

5.26. Strategic Business Plan. After Closing, Buyer will use commercially reasonable efforts to execute and implement the Strategic Business Plan in accordance with its terms, as the Strategic Business Plan may be modified by Buyer, in consultation with the Local Board, from time to time.

5.27. Local Board. The Local Board shall, among other things, serve as a resource for Buyer with respect to Buyer's investment of the Commitment Amount (see Section 5.18 herein) and maintenance and implementation of the Strategic Business Plan, be responsible for medical staff credentialing at the Hospitals, maintain and oversee the quality assurance program at the Hospitals and oversee and manage the accreditation process for the Hospitals.

5.28. Compliance Program. The Buyer and its Affiliates have established and implemented corporate compliance and ethics programs to ensure that high ethical and conduct standards are met in the conduct of their business. Buyer shall extend after Closing its corporate compliance and ethics programs to the Hospital Businesses.

5.29. New and Existing Collective Bargaining Agreement. Seller shall keep Buyer apprised of, and consult with Buyer, regarding the status of the negotiations regarding any collective bargaining agreement. Seller shall not enter into any new collective bargaining agreement or extension of any existing collective bargaining agreement without prior written consent from Buyer, which consent shall not be unreasonably withheld, *provided, further*, that such consent does not interfere with Seller's bargaining obligations under the National Labor Relations Act. Buyer shall comply with its successorship obligations to assume the existing collective bargaining agreements through their stated expiration dates.

5.30. Tax Claims. In the event that any cash recovery is received by either Seller or Buyer relating to the claims described on Schedule 5.30 (collectively, the "**Tax Claims**"), then the Parties agree that proceeds of such claims shall be allocated and paid in the following order to the extent of such proceeds: first, to Buyer to the extent of its external counsel fees and other direct costs of pursuing the Tax Claims (including claim-related assessments from the Connecticut Hospital Association); second, to Seller in the amount of One Hundred Ten Thousand Dollars ($110,000), being the amount of Seller's external counsel fees and direct costs incurred prior to the Closing Date relating to the Tax Claims; and third, to Buyer, to be used by Buyer to pay for capital or operating expenses relating to the delivery of health care in the Seller's primary service area, which may include, but is not limited to, renovation of facilities or

free care. The Parties agree that the decision whether to pursue or settle the Tax Claims and all matters relating to the conduct and pursuit of the Tax Claims after the Closing Date shall be within the sole and absolute discretion of the Buyer, and Seller hereby irrevocably waives any right to challenge or otherwise make any claim against the Buyer with respect to Buyer's pursuit, settlement or conduct of the Tax Claims. The Seller agrees to cooperate reasonably with the Buyer in pursuing the Tax Claims after the Closing Date, at the sole expense of the Buyer, and the Buyer will assume all costs of pursuing or settling the Tax Claims. Seller agrees to execute any documents, agreements or powers of attorney reasonably necessary or desirable to Buyer in connection with effectuating the foregoing provisions.

## 6. CONDITIONS PRECEDENT TO OBLIGATIONS OF SELLER

The obligations of Seller to consummate the transactions contemplated by this Agreement, including by taking the actions specified in Section 8.02, are subject to the satisfaction on or before Closing of the following conditions, unless waived by Seller:

6.01. Representations; Covenants.

(a) Each of the representations and warranties of Buyer in this Agreement that is qualified as to materiality was true and correct on and as of the date of this Agreement, each of the other representations and warranties of Buyer was true and correct in all material respects on and as of the date of this Agreement, each of the representations and warranties of Buyer in this Agreement that is qualified as to materiality is true and correct on and as of the Closing Date, and each of the other representations and warranties of Buyer in this Agreement is true and correct in all material respects on and as of the Closing Date.

(b) Each of the covenants to be complied with or performed by Buyer on or before Closing (other than actions to be taken at the Closing, including the delivery of the Closing Documents described in Section 8.03) has been complied with and performed in all material respects.

6.02. Adverse Proceeding. No Proceeding by any Governmental Authority (including the Attorney General) has been instituted or threatened to restrain or prohibit the transactions contemplated by this Agreement, no Governmental Authority (including the Attorney General) has taken any other action or made any request of Seller or Buyer as a result of which Seller reasonably and in good faith deems it inadvisable to proceed with the transactions contemplated by this Agreement, and no order is in effect restraining, enjoining or otherwise preventing consummation of the transactions contemplated by this Agreement.

6.03. Pre-Closing Confirmations. Seller has received all consents, approvals, licenses and other authorizations of Governmental Authorities, on terms reasonably satisfactory to Seller, including (i) the certificate of need approval by the Office of Health Care Access of the Connecticut Department of Public Health, (ii) confirmation that the Bond Liabilities have been satisfied, and (iii) approval for the conversion of the Hospitals to a for-profit entity by the Attorney General (including receipt of a fairness evaluation or fairness opinion satisfactory to the Seller and the Attorney General) and approval of the transfer or disposition of all donor restricted

funds of the Hospitals and all Subsidiaries in a manner acceptable to the Attorney General, required for Seller to consummate the transactions contemplated by this Agreement and that all applicable waiting periods under the HSR Act shall have expired or been terminated.

6.04. Redemption of the Bonds/Satisfaction of the Indenture. All actions required to be taken and all conditions required to be satisfied in connection with the defeasance or redemption of all outstanding tax-exempt debt issued by or on behalf of Seller, including the Bond Liabilities, and the satisfaction, discharge, release, and termination of all trust indentures, tax-exempt equipment loans and related documents (collectively, the "**Indenture**") associated with such tax-exempt debt, and all Encumbrances created by or in connection with the Indenture, have been, or at Closing will be, taken and satisfied. The Indenture and all Encumbrances created by or in connection with the Indenture shall have been satisfied, discharged and terminated, and Seller shall have received an opinion from counsel to the Connecticut Health and Education Facilities Authority to the effect that all Bond Liabilities have been defeased or prepaid, together with evidence satisfactory to Buyer of the discharge of all Encumbrances on the Assets under the Indenture.

6.05. Extraordinary Events. Buyer (a) is not in receivership or dissolution, (b) has not made any assignment for the benefit of creditors, (c) has not admitted in writing its inability to pay its debts as they mature, (d) has not been adjudicated a bankrupt, (e) has not filed a petition in voluntary bankruptcy, a petition or answer seeking reorganization, or an arrangement with creditors under the federal bankruptcy law or any other similar Legal Requirement of the United States or any state (and no such petition has been filed against Buyer), or (f) has not entered into any contract to do any of the foregoing on or after the Closing Date.

## 7. CONDITIONS PRECEDENT TO OBLIGATIONS OF BUYER

The obligations of Buyer to consummate the transactions contemplated by this Agreement, including by taking the actions specified in Section 8.03, are subject to the satisfaction on or before Closing of the following conditions, unless waived by Buyer:

7.01. Representations; Covenants; Schedules.

(a) Each of the representations and warranties of Seller in this Agreement that is qualified as to materiality was true and correct on and as of the date of this Agreement, each of the other representations and warranties of Seller in this Agreement was true and correct in all material respects on and as of the date of this Agreement, each of the representations and warranties of Seller in this Agreement that is qualified as to materiality is true and correct on and as of the Closing Date, and each of the other representations and warranties of Seller in this Agreement is true and correct in all material respects on and as of the Closing Date (other than the representation in Section 3.08(l) which shall be true and correct in all respects).

(b) Each of the covenants to be complied with or performed by Seller on or before Closing (other than actions to be taken at the Closing, including the delivery of the Closing Documents described in Section 8.02) has been complied with and performed in all material respects.

(c) Each of Seller's Schedules, Exhibits and other instruments required under this Agreement has been updated or delivered by Seller, and approved by Buyer, all in accordance with Section 10.01.

7.02. Adverse Action or Proceeding. No Proceeding by any Governmental Authority (including the Attorney General) has been instituted or threatened to restrain or prohibit the transactions contemplated by this Agreement, no Governmental Authority (including the Attorney General) has taken any other action or made any request of Seller or Buyer as a result of which Buyer reasonably and in good faith deems it inadvisable to proceed with the transactions contemplated by this Agreement, and no order is in effect restraining, enjoining or otherwise preventing consummation of the transactions contemplated by this Agreement.

7.03. Material Adverse Change. Since the date hereof, no Material Adverse Change has occurred and no event or condition has occurred or exists that could reasonably be expected to cause a Material Adverse Change.

7.04. Pre-Closing Confirmations and Contractual Consents. Buyer has obtained documentation or other evidence reasonably satisfactory to Buyer that:

(a) All Permits required to operate the Hospital Businesses will be transferred to or issued in the name of Buyer as of the Closing Date, without the imposition of any condition that is materially burdensome to the operation of the Hospital Businesses after Closing;

(b) The applicable Hospital Businesses that participate in the Government Payment Programs as of the date of this Agreement will be qualified effective as of Closing to participate in the Government Payment Programs in which they participate as of the date of this Agreement and will be entitled to receive payment under such Government Payment Programs for services rendered to qualified beneficiaries of such Government Payment Programs immediately after the Closing Date with respect to the Hospitals, and within a reasonable period of time after the Closing Date with respect to the other applicable Hospital Businesses;

(c) All other consents, approvals, licenses and other authorizations of Governmental Authorities, including the certificate of need approval by the Office of Health Care Access of the Connecticut Department of Public Health and approval for the conversion of the Hospitals to a for-profit entity by the Attorney General, required for Buyer to consummate the transactions contemplated by this Agreement and all other material consents, approvals, licenses and other authorizations of Governmental Authorities required for Buyer to operate the Hospital Businesses after Closing shall have been received on terms reasonably satisfactory to Buyer;

(d) Seller has delivered to Buyer copies of consents to assignment of the Assumed Contracts, and certain other consents, waivers and estoppels, that are listed on Schedule 7.04(d);

(e) Seller has obtained approvals from its Board of Trustees, corporators and, to the extent required, the governing boards of its Subsidiaries; and

(f) All applicable waiting periods under the HSR Act have expired or been terminated.

7.05. Extraordinary Events. Seller (a) is not in receivership or dissolution, (b) has not made any assignment for the benefit of creditors, (c) has not admitted in writing its inability to pay its debts as they mature, (d) has not been adjudicated a bankrupt, (e) has not filed a petition in voluntary bankruptcy, a petition or answer seeking reorganization, or an arrangement with creditors under the federal bankruptcy law or any other similar Legal Requirement of the United States or any state (and no such petition has been filed against it), and (f) has not entered into any Contract to do any of the foregoing on or after the Closing Date.

7.06. Title Insurance Policies and Surveys. Buyer has received:

(a) One or more commitments from a recognized national title insurance company chosen by Buyer to issue as of the Closing Date ALTA extended coverage owner's title insurance policies for the Owned Real Property, in amounts reasonably acceptable to Buyer, in form reasonably acceptable to Buyer and with such endorsements as Buyer may reasonably require, at Buyer's sole cost and expense; and

(b) ALTA land title surveys of the Owned Real Property, in form reasonably satisfactory to Buyer and the title insurance company, from a firm designated by Buyer and certified to Buyer and the title insurance company, at Buyer's sole cost and expense.

7.07. [RESERVED].

7.08. The Indenture. The Indenture and all Encumbrances created by or in connection with the Indenture, including the Bond Liabilities and other tax-exempt debt, shall have been satisfied, discharged and terminated, and Buyer shall be entitled to rely on the opinion of Seller's bond counsel described in Section 6.04.

7.09. Environmental Assessments. Buyer shall, at its election, have received a Phase I environmental site assessment in a form reasonably satisfactory to Buyer, on each parcel of Owned Real Property and, at Buyer's option, any portion of the premises forming a part of the Leased Real Property (each, a "**Phase I Assessment**," and, collectively, the "**Phase I Assessments**"). Buyer shall not be permitted to conduct any Phase II environmental site assessments, or other intrusive or destructive testing on or relating to the Owned Real Property or Leased Real Property (each, a "**Phase II Assessment**," and, collectively, the "**Phase II Assessments**") unless pursuant to information contained in the applicable Phase I Assessment and subject to the prior approval of Seller (including any conditions which Seller may impose on such investigations, and, if Seller so requires, memorialized in an environmental access agreement between Buyer and Seller), in Seller's sole discretion. Notwithstanding the foregoing, if, after review of any Phase I Assessment, the parties reasonably determine that the subject real property is an Establishment Real Property (as defined in Section 5.08 hereof) and reasonably identifies any "areas of concern" ("**AOCs**") warranting additional investigation pursuant to the Transfer Act, then, in order to obtain a preliminary (but not definitive) understanding of the nature and extent of any contamination potentially associated with such AOC, Buyer shall have the right to perform a limited Phase II Assessment of each such AOC pursuant to a scope of

work approved by Seller in advance, which approval (including any conditions which Seller may reasonably impose on such investigation) shall not be unreasonably withheld, conditioned or delayed. Buyer shall pay the full costs of any Phase I Assessment(s) and any Phase II Assessment(s) that may occur pursuant to this Section 7.09. Notwithstanding any other provision hereof to the contrary, Buyer shall not provide Seller with copies of any Phase II Assessment(s) (or any of the data contained therein) unless requested by Seller. To the extent any Phase II Assessments are performed in accordance with this provision, Buyer shall be reasonably satisfied with same.

7.10. Hill-Burton Facilities. No Encumbrance affects any of the Assets or Hospital Businesses relating to or arising under the Hill-Burton Act.

7.11. Physician Organization. On or before the Closing, Buyer shall form a medical foundation under Chapter 594b of the Connecticut General Statutes (the "**PMH Medical Foundation**"). The PMH Medical Foundation shall adopt governing documents in substantially the form set forth in Exhibit C. Simultaneous with the Closing, Eastern Connecticut Medical Professionals Foundation, Inc. shall transfer its assets, including its agreements with physicians, to the PMH Medical Foundation. The PMH Medical Foundation shall continue to employ on and after the Closing Date and consistent with the agreements transferred to it hereunder those physicians and other licensed "Providers," as defined in Section 33-182aa of the Connecticut General Statutes, that Eastern Connecticut Medical Professional Foundations, Inc. employed immediately prior to the Closing Date.

7.12. Additional Liabilities. Seller shall not, based on the Closing Estimates, have Additional Liabilities in excess of Ten Million Dollars ($10,000,000), unless Buyer in its sole discretion agrees to assume such Additional Liabilities in accordance with Section 2.05(d).

## 8. CLOSING; TERMINATION OF AGREEMENT

8.01. Closing.

(a) Consummation of the sale and purchase of the Assets and the other transactions contemplated by this Agreement (the "**Closing**") will take place electronically at 10:00 a.m., or at such other place and time as the parties may mutually agree, on October 1, 2016, or if at such time any conditions to Closing set forth in Articles 6 and 7 have not been satisfied (or waived by the parties entitled to the benefit thereof), on the third business day following satisfaction or waiver of such conditions, or at such time or place as the parties may mutually agree. The Closing shall be effective for all purposes as of 12:01 a.m. on the day of the Closing Date.

(b) At the Closing, Seller shall deliver, or cause to be delivered, to Buyer, each of the Closing Documents and other items set forth in Section 8.02, all in forms reasonably acceptable to Buyer and its counsel, and such Closing Documents, as appropriate, shall be duly executed by, and acknowledged on behalf of, Seller. At the Closing, Buyer shall deliver, or cause to be delivered, to Seller, each of the Closing Documents and the consideration set forth in Section 8.03, all in forms reasonably

acceptable to Seller and its counsel, and such Closing Documents, as appropriate, shall be duly executed by, and acknowledged on behalf of, Buyer and, where applicable, PMH.

(c) All proceedings to be taken and all documents to be executed and delivered by all parties at the Closing will be deemed to have been taken, executed and delivered simultaneously, and no proceedings will be deemed taken nor any documents executed or delivered until all have been taken, executed and delivered. At the conclusion of the Closing, all Closing Documents shall be released to the recipients thereof and Seller shall deliver (or cause to be delivered) to Buyer control and possession of the Assets.

8.02. Action of Seller at Closing. At the Closing, Seller shall deliver to Buyer:

(a) special warranty deeds, duly executed by Seller in recordable form, conveying to Buyer fee simple title to the Owned Real Property, free and clear of Encumbrances other than the Permitted Real Property Encumbrances;

(b) assignment and assumption agreements duly executed by Seller conveying to Buyer all of Seller's right, title and leasehold interest in and to the Leased Real Property;

(c) bills of sale and assignment duly executed by Seller conveying to Buyer good and valid title to all personal property Assets, free and clear of Encumbrances other than the Permitted Personal Property Encumbrances;

(d) assignments duly executed by Seller conveying to Buyer Seller's interests in the Assumed Contracts;

(e) limited powers of attorney to permit Buyer to utilize Seller's DEA registration numbers, in substantially the form of Exhibit B attached hereto, fully executed by Seller;

(f) a copy of resolutions duly adopted by the board of directors of Seller authorizing and approving the execution and delivery of this Agreement and the Closing Documents and the consummation of the transactions contemplated herein and therein, certified as in full force and effect as of the Closing Date by an appropriate officer of Seller;

(g) a certificate of a duly authorized officer of Seller certifying that (i) each of the representations and warranties of Seller in this Agreement that is qualified as to materiality was true and correct on and as of the date of this Agreement, (ii) each of the other representations and warranties of Seller in this Agreement was true and correct in all material respects on and as of the date of this Agreement, (iii) each of the representations and warranties of Seller in this Agreement that is qualified as to materiality is true and correct on and as the Closing Date, (iv) each of the other representations and warranties of Seller in this Agreement was true and correct in all material respects on and as of the Closing Date and (v) each of the covenants to be complied with or performed by Seller on or before Closing (other than actions to be taken

at the Closing, including the delivery of the Closing Documents described in this Section 8.02) has been complied with and performed in all material respects;

(h) a certificate of incumbency for the officers of Seller executing this Agreement and the Closing Documents;

(i) a certificate of legal existence for Seller and each of its Subsidiaries that is organized under the laws of the State of Connecticut from the State of Connecticut, dated no earlier than 15 days prior to the Closing Date;

(j) stock certificates and certificates or other appropriate instruments of transfer of the ownership interests in the Joint Ventures, duly endorsed for transfer to Buyer, and, to the extent obtained prior to Closing, any amendment to the operating agreement, bylaws or other governing documents of each Joint Venture that Buyer determines, in its reasonable discretion, is necessary to fully effectuate the transfer of the ownership interest in the Joint Ventures to Buyer;

(k) a statement pursuant to section 1.1445-2(b)(2)(iv) of the Treasury Regulations under the Code, executed on behalf of Seller or any Affiliate conveying an interest in Owned Real Property to Buyer or its Affiliates, certifying that such entity is not a foreign corporation and is not otherwise a foreign Person;

(l) all certificates of title and other documents evidencing an ownership interest conveyed as part of the Assets, including for all motor vehicles;

(m) all necessary state and local real estate conveyance tax forms duly executed by Seller;

(n) final execution copy of the Transfer Act Form III and ECAF with a $3,000 filing fee, as more fully described in Section 5.08;

(o) UCC termination statements or other releases for all Encumbrances on the Assets not constituting Permitted Encumbrances, which termination statements and releases will be effective as of Closing;

(p) owner's affidavits, certificates, rent rolls and other documentation that may be reasonably necessary to consummate the transactions contemplated by this Agreement and obtain the title policies required to be issued hereunder;

(q) the Transitional Services Agreement, fully executed by Seller; and

(r) such other Closing Documents as Buyer deems reasonably necessary to consummate the transactions contemplated by this Agreement.

8.03. Action of Buyer at Closing. At the Closing, Buyer shall deliver to Seller:

(a) The Purchase Price due to Seller, as adjusted in accordance with Section 2.05;

(b) an assumption agreement duly executed by Buyer pursuant to which Buyer assumes the Assumed Liabilities, as well as any documents Seller may reasonably require to effectuate Buyer's assumption of certain of Seller's Employee Benefit Plans pursuant to Section 5.03(e);

(c) a copy of resolutions duly adopted by the boards of directors, members or managers of PMH and Buyer, as appropriate, authorizing and approving the execution and delivery of this Agreement and the Closing Documents and the consummation of the transactions contemplated herein and therein, certified as in full force and effect as of the Closing Date by an appropriate officer of PMH and Buyer;

(d) a certificate of a duly authorized officer of Buyer certifying that each of the representations and warranties of Buyer in this Agreement that is qualified as to materiality was true and correct on and as of the date of this Agreement, that each of the other representations and warranties of Buyer in this Agreement was true and correct in all material respects on and as of the date of this Agreement, that each of the representations and warranties of Buyer in this Agreement that is qualified as to materiality is true and correct on and as of the Closing Date, that each of the other representations and warranties of Buyer in this Agreement is true and correct in all material respects on and as of the Closing Date, and that each of the covenants to be complied with or performed by Buyer on or before Closing (other than actions to be taken at the Closing, including the delivery of the Closing Documents described in this Section) has been complied with and performed in all material respects;

(e) a certificate of incumbency for the officers of PMH and Buyer executing this Agreement and the Closing Documents;

(f) a certificate of legal existence for Buyer from the State of Connecticut, dated no earlier than 15 days prior to the Closing Date;

(g) the Transitional Services Agreement, fully executed by Buyer; and

(h) such other Closing Documents as Seller deems reasonably necessary to consummate the transactions contemplated by this Agreement.

8.04. Termination Prior to Closing; Termination Fee.

(a) Notwithstanding anything herein to the contrary, this Agreement may be terminated at any time: (i) by mutual consent of Seller and Buyer; (ii) by Buyer, by written notice to Seller if any event occurs or condition exists that causes Seller to be unable to satisfy one or more conditions to the obligations of Buyer to consummate the trasnactions contemplated by this Agreement as set forth in Article 7; (iii) by Seller, by written notice to Buyer if any event occurs or condition exists that causes Buyer to be unable to satisfy one or more conditions to the obligations of Seller to consummate the trasnactions contemplated by this Agreement as set forth in Article 6; (iv) by Seller or Buyer, if the Closing Date shall not have taken place on or before December 31, 2016 (as such date may be extended by mutual agreement of Seller and Buyer); *provided*, however, that no party may terminate this Agreement if the failure of Closing to occur by

such date resulted from a material breach of this Agreement by such party; (v) by Buyer, pursuant to Section 5.13 hereof, or (vi) by Seller pursuant to Section 10.11(b).

(b) For the avoidance of doubt, this Section 8.04(b) shall not be effective unless and until the Certificate of Need ("**CON**") application has been filed with the State of Connecticut. Upon the filing of the CON application with the State of Connecticut, Seller shall present its invoices for reasonable out-of-pocket legal, valuation and consulting expenses incurred by Seller after the execution of that Letter of Intent between Buyer and Seller dated June 25, 2015 up to the time of the filing of the CON application (the "**CON Preparation Period**"). Within 10 days of receipt of such invoices, Buyer shall reimburse Seller for such reasonable out-of-pocket legal, valuation and consulting expenses up to $1,000,000 (One Million Dollars). If, however, the out-of-pocket legal, valuation and consulting expenses incurred by Seller during the CON Preparation Period total less than $1,000,000 (One Million Dollars), then Seller may present Buyer with additional invoices for out-of-pocket legal, valuation and consulting expenses incurred by Seller after the filing of the CON but prior to the closing of the transaction, and Buyer shall reimburse Seller for such additional out-of-pocket legal, valuation, and consulting expenses within 10 days of receipt of such invoices; provided, however, that the total amount of the invoices reimbursed by Buyer for out-of-pocket legal, valuation and consulting expenses paid by Seller during the CON Preparation Period and thereafter shall not in the aggregate exceed $1,000,000 (One Million Dollars). In the event that the transaction closes, the total amount paid by Buyer to Seller pursuant to this Section 8.04(b) shall be credited against the Purchase Price as shown in Section 2.05(a)(xi). In the event that the transaction does not close because Buyer breaches its obligations under this Agreement or refuses to accept regulatory conditions placed on the transaction by the Attorney General and the Office of Health Care Access of the Connecticut Department of Public Health, Seller shall be entitled to retain all amounts it receives pursuant to this Section 8.04(b). In the event that the transaction does not close as a result of (i) a breach by Seller of the provisions of Section 5.23 where such breach is willful and intentional by Seller or (ii) the failure of any material regulatory approval to issue despite the good faith efforts of the parties to cooperate with each other and regulators as part of the regulatory process, then Seller shall refund to Buyer all amounts paid to Seller under this Section 8.04(b).

(c) If this Agreement is validly terminated pursuant to Section 8.04(a), this Agreement will be null and void, and there will be no liability on the part of any party pursuant to this Agreement, except that (i) upon termination of this Agreement pursuant to Section 8.04(a), subject to Section 8.04(b), Seller will remain liable to Buyer and Buyer will remain liable to Seller for any breach of their respective obligations existing at the time of such termination, and each party may seek such remedies or damages against the other with respect to any such breach as are provided in this Agreement or as are otherwise available at law or in equity and (ii) the expense allocation provisions of Section 5.20 and the confidentiality provisions of Section 10.22 shall remain in full force and effect and survive any termination of this Agreement.

(d) Upon termination of this Agreement, each party's existing rights of access to the books and records of the other party shall terminate, and each party shall promptly

return every document furnished it by the other party (or any Affiliate of such other party) in connection with the transactions contemplated hereby, whether obtained before or after execution of this Agreement, and all copies thereof, and will destroy all copies of any analyses, studies, compilations or other documents prepared by it or its representatives to the extent they contain any information with respect to the business of the other parties hereto or their Affiliates, and will cause its representatives to whom such documents were furnished to comply with the foregoing. This Section 8.04 shall survive any termination of this Agreement.

## 9. INDEMNIFICATION

9.01. Indemnification by Seller. Subject to the conditions and limitations, and solely to the extent provided in this Article 9, Seller shall indemnify, defend and hold harmless Buyer's Indemnified Persons, and each of them, from and against any Losses incurred or suffered by Buyer's Indemnified Persons, directly or indirectly, as a result of or arising from:

(a) any inaccuracy in or breach of any representation or warranty of Seller set forth in this Agreement or in any Closing Document to which Seller is a party, whether or not Buyer's Indemnified Persons relied thereon or had knowledge thereof, *provided* that, in determining whether there has been any such inaccuracy or breach, any qualification as to materiality included in any representation or warranty shall not be taken into account;

(b) any claim asserted against Buyer or Buyer's Affiliates that, if meritorious, would constitute or give rise to a breach of any of Seller's representations and warranties as the direct cause of such claim;

(c) the nonfulfillment or breach of any covenant of Seller set forth in this Agreement or in any Closing Document to which Seller is a party;

(d) the Excluded Liabilities;

(e) any actual damages (including reasonable attorneys' fees) resulting from claims by any creditor of Seller relating to a claim in existence as of the Closing Date that the transfer of any of the Assets constitutes a fraudulent conveyance or transfer, or is avoidable under applicable state or federal insolvency, bankruptcy, bulk sales, fraudulent conveyance or creditors' rights Legal Requirements; and

(f) any liabilities, costs or expenses incurred by Buyer or its Affiliates in connection with the Transfer Act Activities contemplated by Section 5.08.

9.02. Seller's Limitations. Seller will have no liability under Section 9.01(a) and no claim will accrue against Seller under Section 9.01(a) unless and until the total amount of Losses that would otherwise be indemnifiable by Seller in respect of claims arising under Section 9.01(a) exceeds $675,000 (the "**Seller Deductible**") in the aggregate, at which time Buyer's Indemnified Persons shall be entitled to indemnification for all Losses under Section 9.01(a) in excess of the Seller Deductible, *provided* that there shall be no minimum Loss requirement, and liability of Seller shall arise for all Losses, in respect of Losses resulting from Seller's intentional misrepresentation or fraud.

9.03. Indemnification by Buyer. Subject to the conditions and limitations, and solely to the extent, provided in this Article 9, Buyer shall indemnify, defend and hold harmless Seller's Indemnified Persons, and each of them, from and against any Losses incurred or suffered by Seller's Indemnified Persons, directly or indirectly, as a result of or arising from:

(a) the inaccuracy in or breach of any representation or warranty of Buyer set forth in this Agreement or in any Closing Document to which Buyer is a party, whether or not Seller's Indemnified Persons relied thereon or had knowledge thereof, *provided* that, in determining whether there has been any such inaccuracy or breach, any qualification as to materiality included in any representation or warranty shall not be taken into account;

(b) the nonfulfillment or breach of any covenant of Buyer in this Agreement or in any Closing Document to which Buyer is a party;

(c) the Assumed Liabilities; and

(d) the ownership by Buyer of the Assets or the operation by Buyer of the Hospital Businesses after the Closing Date.

9.04. Buyer's Limitations. Buyer will have no liability under Section 9.03(a) and no claim will accrue against Buyer under Section 9.03(a) unless and until the total amount of Losses that would otherwise be indemnifiable by Buyer in respect of claims arising under Section 9.03(a) exceeds $675,000 (the "**Buyer Deductible**") in the aggregate, at which time Seller's Indemnified Persons shall be entitled to indemnification for all Losses under Section 9.03(a) in excess of the Buyer Deductible, *provided* that there shall be no minimum Loss requirement, and liability of Buyer shall arise for all Losses, in respect of Losses resulting from any intentional misrepresentation or fraud by Buyer.

9.05. Notice and Procedure. All claims for indemnification by any Indemnitee against an Indemnifying Party under this Article shall be asserted and resolved as follows:

(a) Third Party Claims.

(i) If the basis for any claim for indemnification against an Indemnifying Party pursuant to this Article 9 is a claim or demand made against an Indemnitee by a Person other than Buyer's Indemnified Person or Seller's Indemnified Person (a "**Third Party Claim**"), the Indemnitee shall deliver a Claim Notice with reasonable promptness to the Indemnifying Party (with copies

of all relevant written documentation, including papers served, if any, and a reasonable summary of any relevant oral discussions with such third party) specifying the nature of and alleged basis for the Third Party Claim and, to the extent then feasible and known, the alleged amount or the estimated amount of the Third Party Claim. If the Indemnitee fails to deliver the Claim Notice (and related materials) to the Indemnifying Party within 60 days after the Indemnitee receives notice of such Third Party Claim, the Indemnifying Party will not be obligated to indemnify the Indemnitee with respect to such Third Party Claim if and only to the extent that the Indemnifying Party's ability to defend the Third Party Claim or otherwise minimize the Losses for which the Indemnifying Party must indemnify the Indemnitee has been prejudiced by such failure. The Indemnifying Party will notify the Indemnitee within 15 days after receipt of the Claim Notice by the Indemnifying Party (the "**Notice Period**") whether the Indemnifying Party elects, at the sole cost and expense of the Indemnifying Party, to assume the defense of the Indemnitee against the Third Party Claim.

(ii) If the Indemnifying Party notifies the Indemnitee within the Notice Period that the Indemnifying Party elects to assume the defense of the Indemnitee against the Third Party Claim, then the Indemnifying Party will defend, at its sole cost and expense, the Third Party Claim by all appropriate proceedings, which proceedings will be diligently prosecuted by the Indemnifying Party to a final conclusion or settled, at the discretion of the Indemnifying Party (with the consent of the Indemnitee, which consent shall not be unreasonably withheld with respect to any settlement that does not include any non-monetary relief). The Indemnifying Party will have full control of such defense and proceedings, including any compromise or settlement thereof; *provided* that, prior to the Indemnitee's receipt of the Indemnifying Party's notice that it elects to assume such defense, the Indemnitee may file, at the sole cost and expense of the Indemnitee, any motion, answer or other pleading that the Indemnitee reasonably deems necessary to protect its interests and that is not prejudicial to the Indemnifying Party (it being understood that, except as provided in this Section 9.05(a)(ii), if an Indemnitee takes any such action that is prejudicial to the Indemnifying Party, the Indemnifying Party will be relieved of its obligations hereunder with respect to that portion of the Third Party Claim (or the Losses attributable thereto) prejudiced by the Indemnitee's action); and *provided further* that, if requested by the Indemnifying Party, the Indemnitee shall reasonably cooperate, at the sole cost and expense of the Indemnifying Party, with the Indemnifying Party and its counsel in contesting any Third Party Claim that the Indemnifying Party elects to contest or, if related to the Third Party Claim, in making any counterclaim or cross-claim against any Person (other than the Indemnitee or its Affiliates). The Indemnitee may participate in, but not control, any defense or settlement of any Third Party Claim assumed by the Indemnifying Party pursuant to this Section 9.05(a)(ii) and, except in respect of cooperation requested by the Indemnifying Party as provided in the preceding sentence, the Indemnitee will bear its own costs and expenses with respect to such participation. Notwithstanding the foregoing, the Indemnifying Party may not assume the defense of the Third Party Claim on behalf of the Indemnitee if (1) the

Persons against whom the Third Party Claim is made, or any impleaded Persons, include both one or more of Buyer's Indemnified Persons and one or more of Seller's Indemnified Persons, and (2) representation of all of such Persons by the same counsel creates an actual or potential conflict of interest that, after giving effect to any waivers made by such Persons, would breach or violate the ethical rules applicable to such counsel, in which case the Indemnitee shall have the right to defend the Third Party Claim on its own behalf and to employ counsel at the expense of the Indemnifying Party.

(iii) If the Indemnifying Party fails to notify the Indemnitee within the Notice Period that the Indemnifying Party intends to defend the Indemnitee against the Third Party Claim, or if the Indemnifying Party gives such notice but fails to diligently prosecute or settle the Third Party Claim, or if the Indemnifying Party is precluded by the last sentence of Section 9.05(a)(ii) from assuming the defense of such Third Party Claim, then (A) the Indemnitee will defend the Third Party Claim by all appropriate proceedings, which proceedings will be diligently prosecuted by the Indemnitee to a final conclusion or settled at the discretion of the Indemnitee (*provided*, however, that no Indemnifying Party shall be liable to any Indemnitee for any Losses arising from any settlement that is made or entered into without an Indemnifying Party's prior, written consent, such consent not to be unreasonably withheld or delayed) and (B) the out-of-pocket costs and expenses reasonably incurred in good faith by the Indemnitee in the defense of such Third Party Claim will be paid by the Indemnifying Party. The Indemnitee will have full control of such defense and proceedings, including any compromise or settlement thereof (subject to the proviso in the first sentence of this clause (iii)), *provided* that, if requested by the Indemnitee, the Indemnifying Party shall reasonably cooperate, at the sole cost and expense of the Indemnifying Party, with the Indemnitee and its counsel in contesting the Third Party Claim which the Indemnitee is contesting or, if related to the Third Party Claim in question, in making any counterclaim or cross-claim against any Person (other than the Indemnifying Party or its Affiliates).

(b) First Party Claims.

(i) If any Indemnitee has a claim against any Indemnifying Party that is not a Third Party Claim, the Indemnitee shall deliver an Indemnity Notice with reasonable promptness to the Indemnifying Party specifying the nature of and specific basis for the claim and, to the extent then feasible, the amount or the estimated amount of the claim. If the Indemnifying Party does not notify the Indemnitee within 60 days following its receipt of the Indemnity Notice that the Indemnifying Party disputes its obligation to indemnify the Indemnitee hereunder, the claim will be presumed to be a liability of the Indemnifying Party hereunder.

(ii) Upon receipt of any Indemnity Notice, the Indemnifying Party will be entitled to request in writing and receive from the Indemnitee a reasonable extension of the 60-day period in which to respond pursuant to Section 9.05(b)(i) for the purpose of investigating the claims made therein or the proper amount

thereof. The Indemnitee, to the extent requested by the Indemnifying Party, shall reasonably cooperate, at the sole cost and expense of the Indemnifying Party, with the Indemnifying Party's investigation of such claims or the proper amount thereof.

(c) Resolution of Disputes. If the Indemnifying Party timely disputes, or is deemed to have disputed, its liability with respect to a claim described in a Claim Notice or an Indemnity Notice, the Indemnifying Party and the Indemnitee shall proceed promptly and in good faith to negotiate a resolution of such dispute within 60 days following receipt by the Indemnifying Party of the Claim Notice or Indemnity Notice and, if such dispute is not resolved through negotiations during such 60-day period, it shall be resolved pursuant to Section 10.04 and, if not resolved thereby, by other appropriate legal process.

(d) Payment of Indemnifiable Losses. Subject to the terms of any final order entered by a court of competent jurisdiction, the Indemnifying Party shall pay the amount of any indemnifiable Losses to the Indemnitee within ten days following the later to occur of (i) the date on which such indemnifiable Losses are incurred or sustained by the Indemnitee or (ii) the date on which the Indemnifying Party has acknowledged its liability for such indemnifiable Losses. Indemnifiable Losses not paid when so due shall accrue interest from (and including) the date on which such indemnifiable Losses were incurred or sustained by the Indemnitee until (but excluding) the date on which such amount is paid, at the interest rate provided in Section 10.20.

(e) Certain Disclaimers. Any estimated amount of a claim submitted in a Claim Notice or an Indemnity Notice shall not be conclusive of the final amount of such claim, and the giving of a Claim Notice when an Indemnity Notice is properly due, or the giving of an Indemnity Notice when a Claim Notice is properly due, shall not impair such Indemnitee's rights hereunder. Notice of any claim comprised in part of Third Party Claims and claims that are not Third Party Claims shall be appropriately bifurcated and given pursuant to each of Section 9.05(a)(i) and Section 9.05(b)(i), as applicable.
