9.06. Survival of Representations and Warranties; Indemnity Periods. Notwithstanding any right of Buyer to investigate Seller and the Hospital Businesses or any right of any party to investigate the accuracy of the representations and warranties of the other party in this Agreement, or any actual investigation by or knowledge of a party, Seller has, on the one hand, and Buyer has, on the other hand, the right to rely fully upon the representations and warranties of the other in this Agreement. The representations, warranties and covenants of Seller and Buyer in this Agreement respectively will survive the Closing (a) indefinitely with respect to matters covered by Sections 2.04, 3.01, 3.02, 3.03, 3.11, 4.01, 4.02, 4.04, 8.04(b), 8.04(c), 8.04(d), 9.01(b)-(e), 9.03(b)-(d), 10.15, 10.20, 10.22 and 10.23, (b) until the expiration of all applicable statutes of limitations (including all periods of extension) with respect to matters covered by Sections 3.05, 3.07, 3.11, 3.12(a), 3.13, 3.17, 3.22, 3.24 and 3.28, and (c) until the second anniversary of the Closing Date in the case of all other representations and warranties, except that:

(i) the right to indemnification with respect to any claim relating to a breach or default of any representation and warranty whose survival expires in accordance with clause (b) or (c) above will continue to survive if a Claim Notice or an Indemnity Notice with respect to such claim has been given on or before the expiration of such representation or warranty until the claim for indemnification has been satisfied or otherwise resolved as provided in this Article;

(ii) in the event of intentional misrepresentation or fraud in the making of any representation and warranty, all representations and warranties that are the subject of the intentional misrepresentation, fraud or intentional nonfulfillment or breach shall survive until the expiration of all applicable statutes of limitations (including all periods of extension) with respect to claims made for such intentional misrepresentation, fraud or intentional nonfulfillment or breach; and

(iii) covenants to be performed or complied with after the Closing Date will survive the Closing until 60 days after the end of the term specified in each covenant, or, if no term is specified, indefinitely.

9.07. Mitigation. Each Indemnitee shall take all commercially reasonable steps to mitigate its Losses upon and after becoming aware of any event or condition that has given rise to any Losses for which it may be indemnified pursuant to this Agreement. The amount of Losses for which an Indemnitee may make an indemnification claim pursuant to this Agreement shall be reduced by any amounts actually recovered by the Indemnitee under insurance policies or other collateral sources (such as contractual indemnities of any Person that are contained outside of this Agreement or the Closing Documents) with respect to such Losses. Each Indemnitee must use commercially reasonable efforts to obtain recovery under such insurance policies or other collateral sources. To the extent that any payment received by an Indemnitee under any insurance policy or other collateral source was not previously taken into account to reduce the amount of indemnifiable Losses paid to such Indemnitee, such Indemnitee shall promptly pay over to the Indemnifying Party the amount so recovered or realized (after deducting therefrom the full amount of the expenses incurred by the Indemnitee in procuring such recovery or realization), but such amount paid over to the Indemnifying Party shall not exceed the sum of (a) the amount previously paid by the Indemnifying Party to the Indemnitee in respect of such matter plus (b) the amount expended by the Indemnifying Party in pursuing or defending any third party claim arising out of such matter. Notwithstanding the foregoing, no Indemnitee shall be required to seek recovery under any insurance policy issued by, or other collateral source that is, an Affiliate of the Indemnitee.

9.08. Indemnity Reserve. In accordance with the provisions of Sections 2.05(g), 2.05(k) and 2.05(m), Seller agrees to fund an indemnity reserve up to a maximum of $4,500,000 (Four Million Five Hundred Thousand Dollars) for a period of three years after the Closing so that Buyer will have meaningful financial recourse against Seller for indemnification claims; *provided*, however, that (a) if, as of the third anniversary of the Closing Date, Buyer has pending indemnification claims, then Seller shall maintain an indemnity reserve in the amount of Buyer's Indemnified Person's bona fide claims until final resolution of such matters, and (b) if Buyer has not yet received written approval from CTDEEP or a "verification" from a "Licensed Environmental Professional" as contemplated by Section 5.08 that the Establishment Real

Properties have been remediated in full compliance with the Connecticut Remediation Standard Regulations, then the indemnification reserve shall be extended for an additional period until such written approval has been received by Buyer. Notwithstanding the foregoing, in no circumstance shall the indemnification reserve established by this Section 9.08 be extended beyond the fifth anniversary of the Closing Date. For clarity, in no event shall the indemnity reserve be deemed to be in any respect a cap on the amount of Losses for which the Buyer's Indemnified Persons shall be entitled to recover under Section 9.01. To the extent that any funds remain in the indemnity reserve following the expiration of applicable periods set forth in this Section 9.08, and there has been a reduction in the Commitment Amount pursuant to Section 5.18, the remaining indemnity reserve funds shall be paid to Buyer and the Commitment Amount shall be increased, on a dollar-for-dollar basis, up to Seventy-Five Million Dollars ($75,000,000).

10. GENERAL

10.01. Exhibits; Schedules.

(a) Each Schedule and Exhibit to this Agreement shall be considered a part hereof as if set forth herein in full. From the date hereof until Closing, Seller shall update its Schedules such that all of its representations and warranties are true and accurate as of the Closing Date. Any other provision herein to the contrary notwithstanding, all Schedules, Exhibits, or other instruments provided for herein and not delivered at the time of execution of this Agreement or that are incomplete at the time of execution of this Agreement shall be delivered or completed within ten (10) days after the date hereof or ten (10) days prior to the Closing, whichever is sooner. It shall be deemed a condition precedent to the obligations of Buyer that each of the Schedules, Exhibits and related documents, instruments, books and records shall meet with the approval of Buyer. If Buyer, in its reasonable discretion, determines that it should not consummate the transactions contemplated by this Agreement because of any information contained in a Schedule, Exhibit, or other instrument that is delivered to Buyer after the execution of this Agreement, then Buyer may terminate this Agreement on or before the Closing by giving written notice thereof to Seller.

(b) Nothing in the Schedules shall be deemed adequate to disclose an exception to a representation or warranty made in this Agreement unless the Schedule identifies the exception with reasonable particularity and, without limiting the generality of the foregoing, the mere listing of a document as an exception to any representation and warranty shall not be deemed to disclose the contents of such document as an exception to any representation or warranty (but shall be adequate to disclose the existence of the document itself).

10.02. Equitable Remedies. Subject to Section 8.04(b), each party acknowledges and agrees that its breach of this Agreement, or its failure to perform its obligations pursuant to this Agreement in accordance with its specific terms, would cause the other party to suffer irreparable damage or injury that would not be fully compensable by money damages, or the exact amount of which may be impossible to determine, and, therefore, such other party would not have an adequate remedy available at law. Accordingly, each party agrees that the other

party shall be entitled to seek specific performance, injunctive and/or other equitable relief from any court of competent jurisdiction (without the necessity of posting bond) as may be necessary or appropriate to enforce specifically this Agreement and the terms and provisions hereof and to prevent or curtail any breach (or threatened breach) of the provisions of this Agreement. Such equitable remedies shall not be the exclusive remedy of any party for any such breach or failure to perform by another party, but shall be in addition to all other remedies available to such party at law or in equity (the availability of which remedies shall be, after the Closing, subject to the applicable limitations set forth in Article 9).

10.03. Other Owners of Assets.

(a) Buyer, Seller and its undersigned Subsidiaries acknowledge that certain Assets may be owned by Subsidiaries of Seller and not Seller. Notwithstanding the foregoing, and for purposes of all representations, warranties, covenants, and agreements contained herein, Seller agrees, and, as evidenced by their acknowledgement to this Agreement, its undersigned Subsidiaries agree and acknowledge, that (i) its obligations with respect to any Assets shall be joint and several with any Subsidiary of Seller that owns or controls such Assets, (ii) the representations and warranties herein, to the extent applicable, shall be deemed to have been made by, on behalf of and with respect to such Subsidiaries of Seller in their ownership capacity, and (iii) it has the legal capacity to cause, and it shall cause, any of its Subsidiaries that owns or controls any Assets to meet all of Seller's obligations under this Agreement with respect to such Assets. Seller hereby waives any defense to a claim made by Buyer or its Affiliates under this Agreement based on the failure of any Person who owns or controls the Assets to be a party to this Agreement. Notwithstanding the foregoing, the parties acknowledge and agree that Seller shall not make pursuant to this Agreement, and this Section 10.03(a) shall not otherwise suggest, any representation, warranty or other commitment as to the Subsidiaries of Seller listed on Schedule 10.03(a).

(b) Seller and each of the Buyer Entities acknowledge that certain Assets may be purchased at Closing by one or more of the Buyer Entities (as determined by the Buyer in its discretion). Notwithstanding the foregoing, and for purposes of all representations, warranties, covenants, and agreements contained herein, Buyer agrees and acknowledges, that (i) the representations and warranties herein, to the extent applicable, shall be deemed to have been made by, on behalf of and with respect to each Buyer Entity, as applicable, in its post-Closing ownership capacity, and (ii) each of the Buyer Entities has the legal capacity to meet all of Buyer's obligations under this Agreement with respect to such Assets. Buyer hereby waives any defense to a claim made by Seller or any of its Subsidiaries, or its Affiliates, under this Agreement based on the failure of any Person who will purchase the Assets to be a party to this Agreement.

10.04. Dispute Resolution. The parties hereby agree that, prior to pursuing any other legal remedy, any controversy or claim arising out of this Agreement shall be resolved through the following procedures:

(a) In the event of a controversy or claim arising under this Agreement, either party may give the other party notice of such dispute pursuant to Section 10.14 hereof,

and promptly thereafter the parties will each select two or more senior executives to negotiate in good faith in an effort to resolve the controversy or claim. The senior executives shall meet at such location as from time to time may be mutually agreed by the parties and such meetings shall be in person to the extent practicable.

(b) If the parties are unable to resolve the controversy or claim as provided in Section 10.04(a) within 30 days of the notice of the controversy or claim, then either party may notify the other party that it wants to pursue non-binding mediation in an attempt to resolve the controversy or claim. The parties shall jointly appoint a mutually acceptable mediator to mediate the dispute or, if the parties are unable to agree on a mutually acceptable mediator within 15 days after receipt of notice requesting mediation, then the parties shall request assistance from the American Arbitration Association in finding a mutually acceptable mediator. Each party shall bear its own costs incurred in the mediation and shall bear one-half the costs and expenses of the mediator and any similar parties that may assist in the mediation. The parties agree to participate in good faith in the mediation and negotiations related thereto for a period of 30 days, unless a longer period is otherwise agreed.

10.05. Tax and Government Payment Program Effect. None of the parties (nor such parties' counsel or accountants) has made or is making in this Agreement any representation to any other party (or such party's counsel or accountants) concerning any of the Tax or Government Payment Program effects or consequences on the other party of the transactions provided for in this Agreement. Each party represents that it has obtained, or may obtain, independent Tax and Government Payment Program advice with respect thereto and upon which it, if so obtained, has solely relied.

10.06. Reproduction of Documents. This Agreement and all documents relating hereto, including consents, waivers and modifications that may hereafter be executed, the Closing Documents, financial statements, certificates and other information previously or hereafter furnished to any party, may be reproduced by any party by any photographic, microfilm, electronic or similar process. The parties stipulate that any such reproduction, when rendered in physical form and constituting an identical representation of the original, shall be admissible in evidence as the original itself in any judicial, arbitral or administrative proceeding (whether or not the original is in existence and whether or not such reproduction was made in the ordinary course of business).

10.07. Consented Assignment. Notwithstanding anything in this Agreement to the contrary, this Agreement shall not constitute an agreement to assign any Assumed Contract, claim or other right if the assignment or attempted assignment thereof without the consent of another Person would (i) constitute a breach thereof, (ii) be ineffective or render the Contract, claim or right void or voidable, or (iii) in any material way affect the rights of Seller thereunder (or the rights of Buyer thereunder following any such assignment or attempted assignment). In any such event, until the requisite consent is obtained, Seller shall cooperate in any reasonable arrangement designed to provide for Buyer the benefits under any such Contract, claim or right, including enforcement of any and all rights of Seller against the other Person arising out of the breach or cancellation by such other Person or otherwise. After Closing, the parties shall continue to use commercially reasonable efforts to obtain the consent to the assignment of such

Contract, claim or right; provided, however, that such obligation shall be of no further force and effect if Seller and Buyer determine that such consent or approval will not be forthcoming.

10.08. Time of Essence. Time is of the essence in the performance of this Agreement, *provided* that, if the day on or by which a notice must or may be given, or the performance of any party's obligation is due, is a Saturday, Sunday or other day on which banks in Manchester, Connecticut are permitted or required to be closed, then the day on or by which such notice must or may be given, or that such performance is due, shall be extended to the first day thereafter that is not a Saturday, Sunday or other day on which banks in Manchester, Connecticut are permitted or required to be closed. The parties will use commercially reasonable efforts to file as soon as practicable and pursue all necessary regulatory approvals required in connection with this Agreement.

10.09. Consents, Approvals and Discretion. Except as expressly provided to the contrary in this Agreement, whenever this Agreement requires any consent or approval to be given by any party or any party must or may exercise discretion, such consent or approval shall not be unreasonably withheld or delayed and such discretion shall be reasonably exercised.

10.10. Choice of Law. This Agreement and all matters arising out of or relating to this Agreement shall be governed by and construed in accordance with the laws of the State of Connecticut without regard to any conflicts of laws rules (whether of the State of Connecticut or any other jurisdiction). Any litigation or proceedings among the parties arising out of or relating to this Agreement shall be commenced in a court of the State of Connecticut or the federal district court of Connecticut.

10.11. Benefit and Assignment; Change in Control of PMH.

(a) Subject to the provisions herein to the contrary, this Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective legal representatives, successors and assigns; *provided* however that no party may assign this Agreement without the prior written consent of the other party. Notwithstanding the foregoing, (i) Buyer may designate one or more Affiliates to purchase any or all of the Assets including the Hospital Businesses, provided that PMH hall unconditionally guarantee any and all obligations of such Affiliates pursuant to Section 10.23, and (ii) Buyer and PMH shall be permitted to grant a security interest in and collaterally assign and transfer all their rights, interests and benefits, but not their obligations under this Agreement to any entity providing financing to Buyer and/or Buyer's Affiliates at any time and from time to time without obtaining the written consent of Seller.

(b) If PMH undergoes a "Change in Control" prior to the Closing PMH shall (i) provide 30 days' advance notice to Seller of such Change in Control, and (ii) Seller shall have the right to terminate this Agreement without penalty, including that Seller shall not be required to pay any consulting fees to PMH or Buyer pursuant to any consulting agreement entered into by Seller and PMH or Buyer. For purposes of this Section 10.11(b), the term "Change in Control" means where (i) more than fifty percent (50%) of PMH's outstanding equity interest, or substantially all of PMH's assets, are transferred to a third party, or (ii) any merger, consolidation or acquisition of PMH by or

into another corporation, entity or person. Notwithstanding the forgoing, a "Change in Control" shall not include a transfer of 50% or more of the shares of PMH in connection with one or more public offerings of its shares.

10.12. Third Party Beneficiary. This Agreement (including provisions regarding employee and employee benefit matters) and the Closing Documents are intended solely for the benefit of the parties to this Agreement (and their respective successors and permitted assigns) and (solely in their capacities as Indemnified Persons) Buyer's Indemnified Persons and Seller's Indemnified Persons, and are not intended to confer third-party beneficiary rights upon any other Person (or, in the case of Buyer's Indemnified Persons and Seller's Indemnified Persons, to such Persons in any other capacity). Any reference in this Agreement to one or more Employee Benefit Plans of Buyer includes provisions, if any, in such plans permitting their termination or amendment and any covenant in this Agreement to provide any Employee Benefit Plan shall not be deemed or construed to limit Buyer's right to terminate or amend such plan of Buyer in accordance with its terms (except as otherwise provided in Section 5.03(d)).

10.13. Waiver of Breach, Right or Remedy. The waiver by any party of (a) any breach or violation by the other party of any provision of this Agreement, (b) any condition to the obligations of such party to consummate the transactions contemplated by this Agreement, or (c) any other right or remedy permitted the waiving party in this Agreement, (i) shall not waive or be construed to waive any prior or subsequent breach or violation of the same provision or any subsequent exercise of the same right or remedy, (ii) shall not waive or be construed to waive a breach or violation of any other provision, any other closing condition or any other right or remedy, and (iii) to be effective, must be in writing and signed by the party entitled to the benefit of the provision, condition, right or remedy to be waived, and may not be presumed or inferred from any party's conduct. The election of any one or more available remedies by a party shall not constitute a waiver of the right to pursue other available remedies.

10.14. Notices. Any notice, demand or communication required, permitted or desired to be given hereunder must be in writing and shall be deemed effectively given (i) on the date tendered by personal delivery, (ii) on the date received by fax or other electronic means, (iii) on the date tendered for delivery by nationally recognized overnight courier, or (iv) three days after the date tendered for delivery by United States mail, with postage prepaid thereon, certified or registered mail, return receipt requested, in any event addressed as follows:

If to Buyer: Prospect ECHN, Inc.

or to such other address or fax number, and to the attention of such other Person, as any party may designate in writing in conformity with this Section.

10.15. Misdirected Payments; Physician Loans. After Closing, (a) Seller shall remit to Buyer with reasonable promptness any monies received by Seller (or its Affiliates) constituting or in respect of the Assets and Assumed Liabilities, and (b) Buyer shall remit to Seller with reasonable promptness any monies received by Buyer (or its Affiliates) constituting or in respect of the Excluded Assets and Excluded Liabilities. If any funds previously paid or credited to Seller or the Hospital Businesses in respect of services rendered on or before the Closing Date have resulted in an overpayment or must be repaid, Seller shall be responsible for the repayment of said monies (and the defense of such actions), except to the extent that such credit or repayment obligation was included in the calculation of Net Working Capital as shown on the Closing Balance Sheets in which case Seller shall not be liable for any such repayment. If Buyer suffers any deduction to or offset or withhold against amounts due Buyer of funds previously paid or credited to Seller or the Hospital Businesses in respect of services rendered on or before the Closing Date (other than in respect of overpayments addressed by the preceding sentence), Seller shall pay to Buyer the amounts so deducted, offset or withheld within five business days after demand therefor, except to the extent that the amount of such deduction, offset or withholding was included in the calculation of Net Working Capital as shown on the Closing

Balance Sheets. Any amounts payable pursuant to this Agreement that are due Buyer by Seller or one of its Affiliates, or due Seller by Buyer or one of its Affiliates, may be offset against monies or other funds owed by the party entitled to receive payment to the party required to make payment (other than such owed amounts that are being disputed in good faith). Seller shall use, and cause its Affiliates to use, good faith efforts to collect any and all loans and other amounts due from physicians and their Affiliates that constitute Excluded Assets.

10.16. Severability. If any provision of this Agreement is held or determined to be illegal, invalid or unenforceable under any present or future law in the final judgment of a court of competent jurisdiction, then, if the rights or obligations of any party under this Agreement would not be materially and adversely affected thereby: (a) such provision will be fully severable; (b) this Agreement will be construed and enforced as if such illegal, invalid or unenforceable provision had never comprised a part of this Agreement; (c) the remainder of this Agreement will remain in full force and effect and will not be affected by the illegal, invalid or unenforceable provision or by its severance from this Agreement; and (d) instead of such illegal, invalid or unenforceable provision, there will be deemed to be added to this Agreement a legal, valid and enforceable provision as similar in terms to such illegal, invalid or unenforceable provision as may be possible.

10.17. CON Disclaimer. This Agreement shall not be deemed to be an acquisition or obligation of a capital expenditure or of funds within the meaning of the certificate of need statute of any state, until the appropriate governmental agencies shall have granted a certificate of need or the appropriate approval or ruled that no certificate of need or other approval is required.

10.18. Entire Agreement; Amendment. This Agreement supersedes all previous contracts, agreements and understandings and constitutes the entire agreement of whatsoever kind or nature existing between or among the parties respecting the within subject matter and no party shall be entitled to benefits with respect to the Assets or the Hospital Businesses other than those specified in this Agreement. As between or among the parties, any oral or written representation, warranty, covenant, agreement or statement not expressly incorporated in this Agreement, whether given before or on the date of this Agreement, shall be of no force and effect unless and until made in writing and signed by the parties on or after the date of this Agreement. The representations, warranties and covenants set forth in this Agreement shall survive the Closing and remain in full force and effect as provided in Section 9.06, and shall survive the execution and delivery of, and shall not be merged with or into, the Closing Documents and all other agreements, instruments or other documents described, referenced in or contemplated by this Agreement. Each representation, warranty and covenant in this Agreement has independent legal significance and if any party has breached any representation, warranty or covenant in any respect, whether there exists another representation, warranty or covenant relating to the same subject matter (regardless of the relative level of specificity) that such party has not breached shall not detract from or mitigate the party's breach of the first representation, warranty or covenant. This Agreement may not be amended or supplemented except in a written instrument executed by each of the parties.

10.19. Counterparts; Transmission by Electronic Means. This Agreement may be executed in two or more counterparts, each and all of which shall be deemed an original and all

of which together shall constitute but one and the same instrument. This Agreement, and any executed counterpart of a signature page to this Agreement, may be transmitted by fax or e-mail (attaching a .pdf (portable document format) copy thereof), and such delivery of an executed counterpart of a signature page to this Agreement by fax or e-mail shall be effective as delivery of a manually executed counterpart of this Agreement. At the Closing, the Closing Documents may be executed, and the signature pages thereto delivered, in like manner.

10.20. Interest. Any monies required to be paid by any party to another party pursuant to this Agreement shall be due on the date or at the time for payment specified in this Agreement, and monies not paid when due shall accrue interest from and after the due date to, but not including, the date full payment is made at an annual rate equal to the average prime rate of Bank of America, N.A. during such period.

10.21. Drafting. No provision of this Agreement shall be interpreted for or against any Person on the basis that such Person was the draftsman of such provision, and no presumption or burden of proof shall arise favoring or disfavoring any Person by virtue of the authorship of any provision of this Agreement.

10.22. Confidentiality; Public Announcements.

(a) Except as required by Legal Requirements or in order to coordinate the defeasance of tax-exempt debt, Seller and Buyer (and their respective Affiliates) shall keep this Agreement and the Closing Documents and their contents confidential and not disclose the same to any Person (except the parties' attorneys, accountants or other professional advisors who need to know such contents for the purpose of advising such party in connection with the transactions contemplated hereby, and except to the applicable Governmental Authorities in connection with any required notification or application for approval or a license or exemption therefrom) without the prior written consent of the other party.

(b) At all times before and after the Closing, Seller, on the one hand, and PMH and Buyer, on the other hand, will consult with the other before issuing or making any reports, statements or releases to the public with respect to this Agreement or the transactions contemplated by this Agreement and will use good faith efforts to obtain the other party's prior approval of the text of any public report, statement or release to be made by or on behalf of such party. If either party is unable to obtain the prior approval of its public report, statement or release from the other party and such report, statement or release is, in the opinion of legal counsel to such party, necessary to discharge such party's disclosure obligations under applicable Legal Requirements, then such party may make or issue the legally required report, statement or release and promptly furnish the other party a copy thereof.

10.23. Guarantee of Buyer's Obligations. PMH, as principal obligor and not merely as a surety, hereby unconditionally guarantees full, punctual and complete performance by Buyer of all of Buyer's obligations under this Agreement and each of the Closing Documents subject to the terms hereof and thereof and so undertakes to Seller that, if and whenever Buyer is in default, PMH will on demand duly and promptly perform or procure the performance of Buyer's

obligations. The foregoing guarantee is a continuing guarantee and will remain in full force and effect indefinitely (in light of the fact that, as provided in Section 9.06, certain representations, warranties, covenants and indemnification obligations of Buyer survive the Closing indefinitely) and will be reinstated with respect to any sum paid to Seller that must be restored by Seller upon the bankruptcy, liquidation or reorganization of Buyer. PMH's obligations under this Section 10.23 shall not be affected or discharged in any way by any Proceeding with respect to Buyer under any federal or state bankruptcy, insolvency or debtor relief laws (or any order, judgment, ruling, writ, injunction or decree entered or made in connection therewith) or any other fact, development, occurrence or circumstance affecting the legal capacity of Buyer or the enforceability of this Agreement or any of the Closing Documents against Buyer in accordance with their respective terms.

Exhibit A

Form of Transitional Services Agreement

*See attached.*

# TRANSITION SERVICES AGREEMENT

This Transition Services Agreement (this "Agreement") is made and entered into as of the ___ day of ____, 2016, by and between Eastern Connecticut Health Network, Inc. (together with affiliates and successors, collectively, "OLDCO") and Prospect ECHN, Inc. (together with affiliates and successors, collectively, "Prospect").

## W I T N E S S E T H

WHEREAS, at a closing held on the date hereof pursuant to that certain Asset Purchase Agreement, dated ___ 2016,by and among, Inter Alia, Prospect and OLDCO (the "Purchase Agreement"), Prospect has acquired substantially all of the assets of OLDCO; and

WHEREAS, Prospect has employed substantially all of the former employees of OLDCO;

WHEREAS, following the closing under the Purchase Agreement. Eastern Connecticut Health Network, Inc. and certain of its affiliates will change their respective names to new names that are not substantially similar to the names being used by Prospect;

WHEREAS, OLDCO, having few or no employees, requires certain post-closing services to wind down its business, administer the assets not sold to Prospect and discharge the liabilities of OLDCO not assumed by Prospect; and

WHEREAS, Prospect is willing to provide those certain services to OLDCO for such purposes during the term of this Agreement.

NOW THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Term. The term of this Agreement shall commence on the date hereof and shall continue for a period of twelve (12) months (the "Initial Term"). The Initial Term shall be automatically extended for two additional twelve month renewal periods.

2. Transition Services. During the Term, Prospect shall arrange for services to be provided to OLDCO in the manner detailed in Exhibit A (the "Transition Services").

a. Prospect will provide the Transition Services in good faith and with due care consistent with the care Prospect exercises in performing like services for itself. OLDCO acknowledges and agrees that Prospect does not regularly provide the Transition Services to third parties as part of its business, and, except as specifically stated elsewhere herein, Prospect

does not otherwise warrant or assume any responsibility for its performance of the Transition Services.

b. Prospect shall have no obligation to provide any Transition Services in any instance where such Transition Services would create a conflict of interest between Prospect and OLDCO. Prospect at its sole discretion, shall be permitted to identify instances of conflicts of interest between Prospect and OLDCO.

c. OLDCO shall have no obligation to accept any Transition Services in any instance where such Transition Services would create a conflict of interest between Prospect and OLDCO. OLDCO at is sole discretion, shall be permitted to decline any Transition Services from Prospect in instances where a conflict of interest is identified by OLDCO.

d. OLDCO shall appoint Robert A. Schwartz, MD and Michael R. Blezard as representatives of OLDCO following the Closing (the "Representatives"). The Representatives shall be the principal contact persons and shall each, whether acting singly or jointly, have the authority and be responsible for making decisions on behalf of OLDCO under this Agreement. The Representatives shall each, whether acting singly or jointly, be authorized to sign documents (including checks) on behalf of OLDCO and take all other appropriate and necessary actions on behalf of OLDCO.

e. Each party shall make available to the other party any information required or reasonably requested by that other party regarding performance of Transition Services, and shall be responsible for timely providing that information and for the accuracy and completeness of that information. The parties shall cooperate with each other in good faith in all matters relating to the provision and receipt of Transition Services. The parties shall cooperate with each other in making such information available as needed in the event of any and all internal and external audits. If this Agreement is terminated in whole or in part, the parties shall cooperate with each other in all reasonable respects in order to effect an efficient transition and to minimize disruption to the business of both parties.

3. Charges; Payment Terms.

a. OLDCO shall, for each Transition Service performed, reimburse Prospect for any reasonable documented out-of-pocket expenses that are incurred by Prospect in connection with Prospect's provision of the Transition Services ("Expenses"). Prospect shall provide OLDCO with an invoice for all Transition Services provided at the rates described on Exhibit B, and Expenses incurred by Prospect in connection therewith, during the Term, that are payable by OLDCO pursuant to this Agreement, together with all appropriate supporting documentation (each, an "Invoice").

b. Prospect shall provide Invoices to OLDCO on a monthly basis. OLDCO shall, subject to Section 2.05(*l*)(i) of the Purchase Agreement, pay in full to Prospect all fees and Expenses as set forth in the Invoice within thirty (30) days after receipt of the Invoice, unless

OLDCO has provided notice to Prospect that it disputes a given Invoice within fifteen (15) days of receipt of such Invoice, in which case the parties will work in good faith to resolve the dispute.

c. If Prospect terminates any of the Transition Services prior to the expiration of the Term, OLDCO shall be responsible for payment only for the Transition Services provided through the date on which such Transition Services are terminated.

d. If OLDCO exhausts its funds such that it can no longer pay for the Transition Services, Prospect shall continue to provide those Transition Services that are necessary for the timely filing of all governmental forms and filings in order to permit the orderly wind-down of OLDCO and shall not seek payment from OLDCO for such Transition Services.

4. Indemnification.

a. Each party assumes liability for and shall indemnify and hold harmless the other party, its officers, directors, trustees, employees, and agents, from and against any and all losses, damages, penalties, liabilities, claims, actions, suits, costs, and expenses, including reasonable attorneys' fees, whether in law or in equity, of any kind or nature whatsoever, imposed upon, incurred by, or asserted against the other party relating to or arising out of any negligent or other wrongful act or omission of such party, its employees or agents, or any breach of this Agreement by such party.

b. Neither party shall have liability for consequential, exemplary, indirect, special, incidental or punitive damages, including loss of profits, revenues, data or use, incurred by the other party, whether based on contract, tort or any other legal theory, arising out of or related to this Agreement or the Transition Services provided hereunder.

c. Notwithstanding anything contained herein to the contrary, any liability of a party under this Agreement shall in no event exceed the aggregate amount of fees paid to Prospect by OLDCO hereunder, except in the case of such party's gross negligence or reckless or intentional act or omission.

d. The provisions of this Section 4 shall survive the termination of this Agreement.

5. Confidentiality.

a. "Confidential Information" is defined as all information, data and materials furnished or made available by a party to another party in connection with this Agreement, including, without limitation, the identity of patients, the content of any medical records, financial and tax information, and information regarding Medicare and Medicaid claims submission and reimbursements.

b. The party receiving the Confidential Information (the "Receiving Party") from the party who owns or holds in confidence such Confidential Information (the "Owning Party") may use the Confidential Information solely for the purpose of performing its obligations or enforcing its rights under this Agreement.

c. The Receiving Party shall not disclose any of the Confidential Information except to those persons having a need to know for the purpose of performing the Receiving Party's obligations or enforcing its rights under this Agreement. Each party shall take appropriate action, by instruction to or agreement with its affiliates, employees, agents, trustees, subcontractors, consultants, and professional advisors, to maintain the confidentiality of the Confidential Information. The Receiving Party shall promptly notify the Owning Party in the event that the Receiving Party learns of an unauthorized release of Confidential Information.

d. The Receiving Party shall have no obligation with respect to (i) Confidential Information made available to the general public without restriction by the Owning Party or by an authorized third party; (ii) Confidential Information known to the Receiving Party independently of disclosures by the Owning Party under this Agreement; (iii) Confidential Information independently developed by the Receiving Party; or (iv) Confidential Information that the Receiving Party may be required to disclose pursuant to subpoena or other lawful process; provided, however, that the Receiving Party notifies the Owning Party in a timely manner to allow the Owning Party to protect its interests at Owning Party's sole expense.

e. Upon the termination or expiration of this Agreement, unless otherwise provided in this Agreement, each party shall immediately cease to use the other party's Confidential Information and, (a) return to the other party such Confidential Information and all copies thereof within ten (10) days of the termination, or (b) provide the other party with written confirmation that all such Confidential Information and all copies thereof has been destroyed.

f. The parties acknowledge that monetary remedies may be inadequate to protect rights in Confidential Information and that, in addition to legal remedies otherwise available, injunctive relief is an appropriate judicial remedy to protect such rights. The provisions of this Section 5 shall survive the termination of this Agreement.

6. Protected Health Information.

a. Each of Prospect and OLDCO shall comply with all federal and state laws and regulations, regarding the confidentiality of Protected Health Information, as such term is defined in HIPAA (as hereinafter defined). Simultaneously herewith, the parties shall enter into a Business Associate Agreement in the form of Exhibit C in accordance with the applicable provisions of the Administrative Simplification section of the Health Insurance Portability and Accountability Act of 1996, as codified at 42 U.S.C. § 1320, and the requirements of the

regulations promulgated thereunder (45 C.F.R. Parts 160, 162, and 164) as amended by the Health Information Technology for Economic and Clinical Health Act found in the American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, Title XIII (2009, aka HITECH), including regulations promulgated thereunder, as amended, and guidance issued pursuant thereto (collectively "HIPAA"). In addition, each of Prospect and OLDCO acknowledges that in receiving or otherwise dealing with any records or information from the other about patients receiving treatment for alcohol or drug abuse, Prospect and OLDCO respectively and their respective staffs are bound by the provisions of the federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records, 42 C.F.R. Part 2, as amended from time to time.

b. To the extent that any records maintained or stored by either Prospect or OLDCO pursuant to this Agreement contain Personal Information (as herein defined) about their respective personnel or patients, they shall comply with Connecticut General Statutes § 36a-701b(a) ("Data Security Breaches Act"). "Personal Information" shall mean: (a) first name or first initial and last name in combination with any one or more of the following data elements: (i) Social Security number; (ii) driver's license or state identification card number; or (iii) account number, credit or debit card number in combination with any required security code, access code or password that would permit access to an individual's financial account. In the event of a Breach of the Security of the System involving such records, Prospect or OLDCO, as the case may be, shall immediately notify the other via telephone and in writing and shall comply fully with the Data Security Breaches Act. For purposes of this paragraph, the term Breach of the Security of the System shall mean unauthorized access to or acquisition of electronic files, media, databases or computerized data containing Personal Information when access to the Personal Information has not been secured by encryption or by any other method or technology that renders the personal information unreadable or unusable. The provisions of this paragraph shall survive the termination of this Agreement.

7. Record Retention. Until the expiration of four years after the termination of this Agreement, the Parties upon request shall make available to the Secretary, United States Department of Health and Human Services, the U.S. Comptroller General or any of their duly authorized representatives, this Agreement and all other books, documents, and records necessary to certify the nature and extent of the costs incurred by the Parties under this Agreement. If a party purchases such services through a subcontract worth Ten Thousand Dollars ($10,000) or more over twelve (12) month period with a related organization, the subcontract shall also contain a clause permitting access by said Secretary, Comptroller General, and their respective representatives to the books and records of the related organization. Each party shall promptly notify the other via telephone and in writing if such access is requested.

8. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Connecticut without regard to its conflict of law provisions. Each party hereby consents to jurisdiction in the state or federal courts located in the State of Connecticut should suit to enforce this contract become necessary. If either party hereto shall bring suit to enforce the terms and provisions hereof or to recover damages for breach, the

prevailing party shall be entitled to recover from the other party all costs, expenses and attorneys' fees incurred in connection with the exercise by the prevailing party of its rights and remedies hereunder.

9. Termination. OLDCO may terminate this Agreement prior to the expiration of the Term by giving Prospect at least ninety (90) days' prior written notice of termination. Prospect may terminate this Agreement prior to the expiration of the Term (i) for cause, if OLDCO fails to pay an undisputed invoice presented by Prospect pursuant to Section 3.b above within 90 days of receipt of such invoice provided that OLDCO has sufficient funds in the Wind-Down Reserve established under the Purchase Agreement to pay such invoice, or (ii) by giving OLDCO ninety (90) days' prior written notice of termination, provided that prior to termination, Prospect arranges for an alternate entity to provide the Transition Services to OLDCO on terms reasonably acceptable to OLDCO..

10. Miscellaneous.

a. Any notice or other communication under this Agreement shall be in writing and shall be deemed to have been given: (a) upon actual delivery, if delivered by hand; (b) the first business day following deposit with any nationally recognized overnight carrier; or (c) three (3) days after deposit in the United States mail, postage prepaid, certified or registered mail, return receipt requested. Each such notice shall be sent to the parties, marked to the attention of the signatories to this Agreement, at the following addresses:

If to Prospect: Prospect ECHN, Inc
71 Haynes Street
Manchester, CT 06040
**Attention: CEO**

With a copy to: Prospect Medical Holdings, Inc.
3415 South Sepulveda Boulevard, 9th Floor
Los Angeles, California 90034
**Attention: Legal Department**

If to OLDCO: Eastern Connecticut Health Network, Inc.
71 Haynes Street
Manchester, CT 06040
**Attention: President of Legacy ECHN, Inc.**

b. The parties agree that the relationship between them shall be that of independent contractors. Neither party shall hold itself out as the employee, agent, joint venturer or partner of the other. Neither party has the authority to bind the other in any way. Prospect is responsible for paying or withholding, as required, federal, state, and local employment taxes including, without limitation, FICA and FUTA, for its employees.

c. This Agreement contains the entire agreement of the parties with respect to the matters set forth herein and may not be amended except in writing signed by all of the parties hereto.

d. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. A party shall not assign its rights and obligations under this Agreement without the other party's prior written consent.

e. No delay or failure by either party to exercise any right under this Agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right at any time, or from time to time thereafter. The waiver, or any breach, of any term or condition of this Agreement shall not be deemed to constitute the continuing waiver of the same or any other term or condition.

f. If any part of this Agreement should be held to be void or unenforceable, such part shall be treated as severable, leaving valid the remainder of this Agreement, notwithstanding the part or parts found to be void or unenforceable.

g. Headings in this Agreement are for convenience only and shall not be used to interpret or construe its provisions.

h. This Agreement may be executed by facsimile signature and in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

**[REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]**

IN WITNESS WHEREOF, the parties have executed this Transition Services Agreement as of the date first written above.

## EXHIBIT A

### Services

For a twelve (12) month period after the date of closing, the services to be provided by Prospect to OLDCO may include but not be limited to:

**Accounting:**

- Monthly financial close
- Management of cash and investment activities as necessary
- Preparation of tax returns
- Monthly reconciliation of balance sheet accounts
- Financial audits including 401(a) and 403(b) plans
- Assistance with the final preparation and submission of the *Cy Pres* litigation and related matters
- Assistance with final cost reports

**Accounts Payable:**

- Entry and payment of invoices as necessary
- Creation of 1099s through February of 2017
- Assistance with reconciliation of outstanding checks

**Payroll:**

- Filing of payroll tax reports as necessary
- Creation of W-2's for pre-transition employees
- Management of outstanding checks
- Employee support - providing information to employees for historical payroll data, historical W-2 requests and payroll slips

**Human Resources:**

- Response to prior plan inquiries
- Transition management of OLDCO's 401(a), 401(k) and 403(b) plans (whether or not subject to ERISA), including:
    1. 403(b), 401(k) and 401(a) audits and Form 5500s for the 2015 and 2016 plan years (and any subsecquent years required until final liquidation of the plans)
    2. Calculation and administration of trailing payroll deductions and 2016 company contributions (payment to be made for 2016 by [date]) (it being understood that provision of funding remains the responsibility of OLDCO)
    3. Liquidation and termination of defined contribution plans
    4. Any additional tasks necessary or appropriate for the proper pre-liquidation operation and liquidation of the plans
- Transition management of welfare benefits, including:

1. Oversight of claims administration for trailing claims under self-insured health plan and flexible spending accounts (it being understood that provision of funding remains the responsibility of OLDCO)
2. Form 5500 filings as required
3. Coordination with insurers for payment of pre-closing claims covered by insurance companies
4. Any other tasks necessary or appropriate for the orderly termination of these benefits

- Final payout (and administration pending final payout) of 457 plans (it being understood that funding remains the responsibility of OLDCO)

**Miscellaneous:**

- Assist in Preparation of 990 tax returns
- Assist in Preparation of the Community Needs Assessment (990 reporting requirement)
- Insurance management
- Support for OLDCO Board/Finance/Investment Committee meetings, including meetings of the entities identified in the Purchase Agreement as the Hospitals and the Hospital Businesses, as well as Eastern Connecticut Physician Hospital Organization, Inc., Northeast Regional Radiation Oncology Network, Inc. and Tolland Imaging Center, LLC.
- Support and attendance of staff at OLDCO Board meetings, including meetings of the entities identified in the Purchase Agreement as the Hospitals and the Hospital Businesses, as well as Eastern Connecticut Physician Hospital Organization, Inc., Northeast Regional Radiation Oncology Network, Inc. and Tolland Imaging Center, LLC.
- Assist in the planning of and transition to post-closing operations
- Assist in developing a plan for post-closing office space
- Assist with record retention planning
- Assist with necessary reporting to regulatory authorities
- Support for organization and operation of the New Community Foundation

**Information Services:**

- Assist with support of OLDCO systems, including backup, for all necessary applications, and custom reports as needed
- Maintain and protect all data to meet OLDCO's data retention requirements
- Support all audits/reviews of data

**Legal/Risk Management:**

- Assist with operational issues
- Assist with resolution of outstanding claims and suits including legacy labor and employment issues (grievances, arbitrations, governmental inquries, etc.)
- Assist with outstanding workers compensation and other insurance claims and matters

## EXHIBIT B

Rates

1. Prospect personnel at the level of Vice President and above shall be provided at the rate of One Hundred Fifty Dollars ($150) per hour.

2. All other Prospect personnel shall be provided at the rate of Ninety Dollars ($90) per hour.

**EXHIBIT C**

Dual Use Business Associate Agreement Attached

## *BUSINESS ASSOCIATE AGREEMENT*

This Business Associate Agreement ("Agreement") is entered into and made effective as of _____, 2016 (the "Effective Date") by and between Prospect ECHN, Inc. and its subsidiaries (collectively "Prospect"), on the one hand, and Eastern Connecticut Health Network, Inc., and its subsidiaries and successors (collectively, "OLDCO"), on the other.

## *RECITALS*

A. Prospect and OLDCO have entered into various agreements, including a Transition Services Agreement, (collectively the "Underlying Contracts") pursuant to which the parties may disclose certain information to one another pursuant to the terms of the Underlying Contracts, some of which may constitute Protected Health Information ("PHI" or "Protected Information") (defined below).

B. Prospect and OLDCO intend to protect the privacy and provide for the security of PHI disclosed to one another and are committed to complying with the patient privacy requirements set forth in California law, the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), the Health Information Technology for Economic and Clinical Health Act, Public Law 111-005 ("HITECH Act"), and all regulations promulgated by the U.S. Department of Health and Human Services under HIPAA and the HITECH Act, including the requirements set forth in the HIPAA Final Omnibus Rule issued on January 25, 2013, ("HIPAA Regulations").

C. As part of the HIPAA Regulations, the Privacy, Security, Breach Notification, and Enforcement Rules (defined below as "HIPAA Rules") require the parties to enter into an agreement containing specific requirements concerning the disclosure of PHI, as required by Code of Federal Regulations ("C.F.R.), Title 45, Parts 160 and 164.

In consideration of the mutual promises contained herein and the exchange of information pursuant to this Agreement, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

### 1. *DEFINITIONS*

All capitalized terms used herein but not otherwise defined in this Agreement shall have the same meaning as in the HIPAA Rules.

a. **Breach** shall have the meaning given to such term under the HIPAA Rules.

b. **Business Associate** ("BA") shall have the meaning given to such term under the HIPAA Rules, as set forth in 42 U.S.C. § 17938 and 45 C.F.R. § 160.103, and, in reference to this Agreement, shall mean either Prospect or OLDCO, depending on which party is receiving the protected information, and the subcontractors, agents, and person(s) or entities under the party's control.

c. **Covered Entity** ("CE") shall have the meaning given to such term under the HIPAA Rules, as set forth in C.F.R. § 160.103. Both Prospect and OLDCO are Covered Entities and may provide protected information to the other party, which will sit in the role as the Business Associate.

d. **Data Aggregation** shall have the meaning given to such term under the HIPAA Rules, as set forth 45 C.F.R. § 164.501.

e. **Designated Record Set** shall have the meaning given to such term under HIPAA Rules, as set forth in 45 C.F.R. § 164.501.

f. **Electronic Protected Health Information or EPHI** means Protected Health Information that is maintained in or transmitted by electronic media, as defined in the HIPAA Rules.

g. **Electronic Health Record** shall have the meaning given to such term in the HIPAA Rules and as set forth in 42 U.S.C. § 17921.

h. **Health Care Operations** shall have the meaning given to such term under the HIPAA Rules, including, but not limited to, the meaning set forth in 45 C.F.R. § 164.501.

i. **HIPAA Rules** shall mean the Privacy, Security, Breach Notification, and Enforcement Rules at 45 CFR Part 160 and 164.

j. **Protected Health Information or PHI** shall have the meaning given to such term under the HIPAA Rules, including 45 C.F.R. § 160.103, which includes any information, whether oral or recorded in any form or medium: (i) that relates to the past, present or future physical or mental condition of an individual; the provision of health care to an individual; or the past, present or future payment for the provision of health care to an individual; and (ii) that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual. Protected Health Information includes Electronic Protected Health Information.

k. **Protected Information** shall mean PHI provided by CE to BA or created or received by BA on CE's behalf.

l. **Subcontractor** means a person to whom a business associate delegates a function, activity, or service, other than in the capacity of a member of the workforce of such business associate, pursuant to 45 C.F.R. § 160.103.

m. **Unsecured PHI** shall have the meaning given to such term under 42 U.S.C. § 17932(h), 45 C.F.R. § 164.402 and guidance issued pursuant to the HITECH Act including, but not limited to that issued on April 17, 2009 and published in 74 Federal Register 19006 (April 27, 2009), by the Secretary of the U.S. Department of Health and Human Services ("Secretary").

## 2. *OBLIGATIONS OF BUSINESS ASSOCIATE*

a. **Permitted Access, Use or Disclosure.** The parties shall neither permit the unauthorized or unlawful access to, nor use or disclose, PHI other than as permitted or required by the Underlying Contracts, this Agreement or as permitted or required by law. The parties shall not access, use or disclose Protected Information in any manner that would constitute a violation of HIPAA, the HITECH Act, the HIPAA Regulations, or applicable state law if so accessed, used or disclosed by CE. However, the parties may access, use or disclose Protected Information (i) for the proper management and administration of BA; (ii) to carry out the legal responsibilities of BA; (iii) as required by law; (iv) for Data Aggregation purposes for the Health Care Operations of CE; (v) for the public health activities and purposes set forth at 45 C.F.R. § 164.512(b); or (vi) to the extent such Protected Information is de-identified in accordance with the standards set forth under 45 C.F.R. § 164.514, provided the parties have each other's written consent in advance of any such use or disclosure, which consent may be withheld in CE's sole discretion. If either party permits a third party to use or access Protected Information or otherwise discloses Protected Information to a third party, the party must obtain, prior to making any such disclosure, (i) reasonable written assurances from such third party that such Protected Information will be held confidential as provided pursuant to this Agreement and only disclosed as required by law or for the purposes for which it was disclosed to such third party, and (ii) a written agreement from such third party to immediately notify the other party of any Breaches of confidentiality of the Protected Information, to the extent it has obtained knowledge of such Breach.

b. **Prohibited Uses and Disclosures under HITECH.** Notwithstanding any other provision in this Agreement, the parties to this Agreement shall comply with the following requirements: (i) a party shall not use or disclose Protected Information for fundraising or marketing purposes, except as provided under the Agreement and consistent with the requirements of 42 U.S.C. 17936, 45 C.F.R. § 164.522(a)(vi); (ii) a party shall not disclose Protected Information to a health plan for payment or health care operations purposes if the patient has requested this special restriction, and has paid out of pocket in full for the health care item or service to which the PHI solely relates, 42 U.S.C. § 17935(a); (iii) a party shall not directly or indirectly receive remuneration in exchange for Protected Information, except with the prior written consent of CE and as permitted by the HIPAA Rules and HITECH Act, 42 U.S.C. § 17935(d)(2), 45 C.F.R. 164.502(a)(5)(ii); however, this prohibition shall not affect payment for services provided pursuant to the Agreement.

c. **Appropriate Safeguards.** The parties shall implement appropriate safeguards as are necessary to prevent the access, use or disclosure of Protected Information other than as permitted by the Underlying Contracts or this Agreement. The parties shall comply, where applicable, with the Security Rule with respect to EPHI, including but not limited to 45 C.F.R. §§ 164.308, 164.310, and 164.312 and the policies and procedures and documentation requirements of the HIPAA Security Rule set forth in 45 C.F.R. § 164.316, and shall use administrative, physical and technical safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of EPHI.

d. **Mitigation.** The parties agree to mitigate, to the extent practicable, any harmful effect that is known as a result of use or disclosure of PHI not authorized by the Underlying Contracts, this Agreement or applicable federal or state rules or regulations governing the use, access, maintenance or disclosure of protected health information.

e. **Reporting of Improper Access, Use or Disclosure.** The parties shall promptly report to the other party in writing of any access, use or disclosure of Protected Information exchanged between one another, not permitted by the Underlying Contracts, this Agreement, the HIPAA Rules or any corresponding state privacy or security requirements as well as any security incident of which it becomes aware. The parties shall, following the discovery of any Breach of Unsecured PHI, notify the other in writing of such breach without unreasonable delay and in no case later than ten (10) calendar days after discovery. The party responsible for the improper use or disclosure agrees to pay the actual, reasonable costs of the required notifications.

f. **Business Associate's Subcontractors.** The receiving party of any protected information shall ensure that any Subcontractors that create, maintain or transmit Protected Information, agree in writing to the same restrictions and conditions that apply to the party with respect to such PHI. To the extent a party creates, maintains, receives or transmits Electronic PHI on behalf of the other party, the receiving party shall implement the safeguards required by paragraph 2.c. above with respect to EPHI and shall ensure that any Subcontractor to whom it provides Protected Information agrees in writing to implement the same safeguards.

g. **Access to Protected Information.** To the extent the receiving party maintains a Designated Record Set on behalf of the other party, it shall make Protected Information maintained by it or its Subcontractors in Designated Record Sets available to the other party for inspection and copying within fifteen (15) days of a request by the other party to enable the other party to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. § 164.524. If the receiving party maintains an Electronic Health Record, the receiving party shall provide such information in electronic format to enable the CE to fulfill its obligations under the HIPAA Rules (and the HITECH Act as set forth in 42 U.S.C. § 17935(e)).

h. **Amendment of PHI.** To the extent a party maintains a Designated Record Set on behalf of the other party, within fifteen (15) days of receipt of a request from the other party or an individual for an amendment of Protected Information or a record about an individual contained in a Designated Record Set, the party and/or its Subcontractors shall make any amendments that the other party directs or agrees to in accordance with the HIPAA Rules.

i. **Accounting Rights.** Within fifteen (15) days of notice by a party of a request for an accounting of disclosures of Protected Information, each party and its Subcontractors shall make available to the requesting party the information required to provide an accounting of disclosures to enable the party to fulfill its obligations under the HIPAA Rules, including, but not limited to, 45 C.F.R. § 164.528 and 42 U.S.C. § 17935(c), as determined by the requesting party. The provisions of this subparagraph 2.i. shall survive the termination of this Agreement.

j. **Governmental Access to Records.** The parties shall make their internal practices, books and records relating to the use and disclosure of Protected Information available

to the other party and to the Secretary of the U.S. Department of Health and Human Services (the "Secretary") for purposes of determining the party's compliance with the HIPAA Rules. Each party shall immediately notify the other party of any requests made by the Secretary and provide the other party with copies of any documentation it provides in response to such requests.

k. **Compliance with Privacy Rule.** To the extent that a party carries out the other party's obligations under the Privacy Rule, the party shall comply with the requirements of the Privacy Rule that apply to the other party in the performance of such obligations.

l. **Minimum Necessary**. Each party and their respective Subcontractors shall request, use and disclose only the minimum amount of Protected Information necessary to accomplish the purpose of the request, use or disclosure. The parties understand and agree that the definition of "minimum necessary" shall be the meaning set forth in the HIPAA Rules. The parties agree to make their respective uses, disclosures and requests for Protected Information consistent with the other party's minimum necessary policies and procedures, to the extent such policies and procedures are provided to one another.

m. **Business Associate's Insurance**. The parties shall each obtain insurance for themselves and their respective employees, agents and independent contractors in an amount not less than One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) annual aggregate of Commercial General Liability insurance and Two Million Dollars ($2,000,000) per occurrence and Four Million Dollars ($4,000,000) annual aggregate of Errors and Omissions insurance. The Errors and Omissions insurance shall cover, among other things, Breaches. Upon request, the parties shall exchange certificates of insurance or other written evidence of the insurance policy or policies required herein prior to execution of this Agreement (or as shortly thereafter as is practicable) and as of each annual renewal of such insurance policies during the period of such coverage. Further, in the event of any material modification, termination, expiration, non-renewal or cancellation of any of such insurance policies, the party shall give written notice to the other party not more than ten (10) days following the party's receipt of such notification. If a party fails to procure, maintain or pay for the insurance required under this section, the other party shall have the right, but not the obligation, to obtain such insurance. In such event, the party shall promptly reimburse the other party for the cost thereof upon written request, and failure to repay the same upon demand by the party shall constitute a material breach of this Agreement.

## 3. *TERMINATION*

a. **Term.** The term of this Agreement shall be effective as of the Effective Date and shall terminate upon the later of (1) the termination or expiration of the Underlying Contracts; or (2) when all of the PHI provided by CE to BA, or created or received by BA on behalf of CE, is destroyed or returned to CE.

b. **Termination**.

i. **Material Breach**. A breach by either party of any provision of this Agreement, as determined by the other party, shall constitute a material breach of the Agreement

and shall provide grounds for termination of the Agreement, any provision in the Agreement to the contrary notwithstanding, with or without an opportunity to cure the breach. If termination of the Agreement is not feasible, the party may report the problem to the Secretary.

ii. **Material Breach by either CE.** If either party knows of a pattern of activity or practice of the other party that constitutes a material breach or violation of the other party's obligations under the Underlying Contracts, the Agreement or other arrangement, the party shall notify the other party of the pattern or activity or practice and take reasonable steps to assist the other party in curing or ending the breach or violation. If the steps are unsuccessful, the party may be required terminate the Agreement or other arrangement.

c. **Effect of Termination.** Upon termination of the Agreement for any reason, the parties shall, at the option of the other party, return or destroy all Protected Information or its Subcontractors still maintain in any form, and shall retain no copies of such Protected Information. If return or destruction is not feasible, as determined by a party, the other party shall continue to extend the protections of this Agreement to such information, and limit further use of such PHI to those purposes that make the return or destruction of such PHI infeasible. If a party elects destruction of the PHI, the party shall certify in writing to the other party that such PHI has been destroyed.

4. ***INDEMNIFICATION; LIMITATION OF LIABILITY.*** To the extent permitted by law, a party shall indemnify, defend and hold harmless the other party and its directors, officers, employees, parent, subsidiaries, agents and affiliates from any and all liability, claim, lawsuit, injury, loss, expense or damage resulting from or relating to the acts or omissions of the indemnifying party in connection with the representations, duties and obligations of the indemnifying party under this Agreement. Any limitation of liability contained in the Agreement shall not apply to the indemnification requirement of this provision. This provision shall survive the termination of the Agreement.

5. ***ASSISTANCE IN LITIGATION.*** Each party shall make itself and any Subcontractors assisting a party in the performance of its obligations pursuant to the Underlying Contracts available, at no cost to the other party, to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against a party, its directors, officers, agents, employees or affiliates based upon a claim of violation of the HIPAA Rules or HITECH Act, or other California or federal laws related to security and privacy, except where the party or its Subcontractor is named as an adverse party.

6. ***COMPLIANCE WITH STATE LAW.*** Nothing in this Agreement shall be construed to require or permit either party to use or disclose Protected Information without a written authorization from an individual who is a subject of the Protected Information, or without written authorization from any other person, where such authorization would be required under state law for such use or disclosure.

7. ***AMENDMENT TO COMPLY WITH LAW.*** The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of this Agreement may be required to provide for procedures to ensure compliance with such develop-

ments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, and other applicable laws relating to the security or confidentiality of PHI. The parties understand and agree that they must receive satisfactory written assurance from the other party that it will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this Agreement embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act or any other applicable law. A party may terminate the Agreement upon thirty (30) days written notice if (i) the other party does not promptly enter into negotiations to amend the Agreement or Agreement when requested by a party pursuant to this section or (ii) the other party does not enter into an amendment to the Underlying Contracts or Agreement providing assurances regarding the safeguarding of PHI that the other party, in its sole discretion, deems sufficient to satisfy the standards and requirements of applicable laws.

**8.** ***NO THIRD-PARTY BENEFICIARIES.*** Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer upon any person other than the parties to this Agreement and their respective successors or assigns, any rights, remedies, obligations or liabilities whatsoever.

**9.** ***INTERPRETATION.*** The provisions of this Agreement shall prevail over any provisions in the Underlying Contracts that may conflict or appear inconsistent with any provision in this Agreement. This Agreement and the Underlying Contracts shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, and any other state or federal rules concerning PHI. The parties agree that any ambiguity in this Agreement shall be resolved in favor of a meaning that complies and is consistent with the HIPAA Rules. Except as specifically required to implement the purposes of this Agreement, or to the extent inconsistent with this Agreement, all other terms of the Agreement shall remain in force and effect.

**10.** ***NOTICES.*** All notices hereunder shall be in writing and delivered by a confirmed facsimile, personally, by certified or registered mail, return receipt requested, or by overnight courier, and shall be deemed to have been duly given when delivered by fax, personally or when deposited in the United States mail, postage prepaid, or deposited with the overnight courier addressed as follows:

_____
Attn: _____
Fax: _____

or to such other persons or places as either party may from time to time designate by written notice to the other.

**11.** ***ENTIRE AGREEMENT OF THE PARTIES.*** This Agreement supersedes any and all prior and contemporaneous business associate agreements or addenda between the parties and constitutes the final and entire agreement between the parties hereto with respect to the subject matter hereof. Each party to this Agreement acknowledges that no representations, inducements, promises, or agreements, oral or otherwise, with respect to the subject matter hereof, have been made by either party, or by anyone acting on behalf of either party, which is not embodied herein. No other agreement, statement or promise, with respect to the subject matter hereof, not contained in this Agreement shall be valid or binding.

**12.** ***REGULATORY REFERENCES.*** A reference in this Agreement to a section of regulations means the section as in effect or as amended, and for which compliance is required.

**13.** ***COUNTERPARTS.*** This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original, and all of which together shall constitute one and the same instrument.

**IN WITNESS WHEREOF**, the parties hereto have duly executed this Agreement as of the Effective Date referenced above.

Exhibit B

Form of Limited Power of Attorney

*See attached.*

## LIMITED POWER OF ATTORNEY

_____, a Connecticut non-stock corporation ("Registrant"), operates under the certain licenses and registrations relating to controlled substances and the operation of pharmacies and laboratories set forth on Exhibit A hereto (collectively, the "Licenses and Registrations"). This Limited Power of Attorney is being delivered pursuant to that certain Asset Purchase Agreement, dated as of _____, 2016, by and among Registrant, _____, a Connecticut corporation ("Corporation"), and certain other parties (the "Purchase Agreement").

1. To the extent permitted by applicable law:

(a) I, _____, am authorized to sign the current applications for DEA registration on behalf of the Registrant under the Controlled Substances Act or Controlled Substances Import and Export Act, and have made, constituted, and appointed, and by these present, do hereby make, constitute, and appoint Corporation as my true and lawful attorney-in-fact to act for me in my name, place, and stead, to execute applications for Forms 222 and to sign orders for Schedule II controlled substances, whether these orders be on Form 222 or electronic, in accordance with 21 U.S.C. § 828 and Part 1305 of Title 21 of the Code of Federal Regulations, for the Limited Period described in Section 3 below. I hereby ratify and confirm all that Corporation must lawfully do or cause to be done by virtue hereof.

(b) Corporation further grants this Limited Power of Attorney to _____ ("Pharmacist-In-Charge") to act as the true and lawful agent and attorney in-fact of Corporation, and to act in the name, place, and stead of Corporation, to execute applications for Forms 222 and to sign orders for Schedule II controlled substances, whether these orders be on Form 222 or electronic, in accordance with 21 U.S.C. § 828 and Part 1305 of Title 21 of the Code of Federal Regulations, as is necessary for the treatment of pharmacy patients. Corporation hereby ratifies and confirms all that said Pharmacist-In-Charge must lawfully do or cause to be done by virtue hereof.

(c) Corporation shall have the right, for the Limited Period described in Section 3 below, to operate under all of the Licenses and Registrations, until it is able to obtain all requisite licenses and registrations for itself.

2. Registrant recognizes that it remains legally responsible for Licenses and Registrations issued to it, during the period in which this Limited Power of Attorney is in effect. Therefore, Registrant grants this Limited Power of Attorney to Corporation based upon the following covenants and warranties of Corporation: (a) Corporation shall follow and abide by and comply with all federal and state laws governing the regulation of controlled substances, and the operation of the pharmacies, laboratories, blood banks and blood collection facilities set forth on Exhibit A hereto at all times while utilizing this Limited Power of Attorney and shall indemnify and hold Registrant harmless from and against any claims arising out of Corporation's failure to do so; and (b) Corporation, or its designee, shall make application for and pursue its own licenses and registrations relating to controlled substances, and the operation of pharmacies, laboratories, blood banks and blood collection facilities that are required by law as soon as practicable.

3. This Limited Power of Attorney shall remain in effect for a period not to exceed one hundred twenty (120) days following the closing date of the Purchase Agreement (the "Limited Period").

4. Registrant may revoke this Limited Power of Attorney at any time by executing the Notice of Revocation, attached hereto at Exhibit B.

5. This Limited Power of Attorney may be executed in multiple counterparts, each and all of which shall be deemed an original and all of which together shall constitute one and the same instrument. A signature delivered by facsimile or PDF will be sufficient for all purposes among the parties hereto and shall be deemed to have the same legal effect as delivery of an original.

**[SIGNATURE PAGE FOLLOWS]**

**IN WITNESS WHEREOF**, Registrant and Corporation have executed this Limited Power of Attorney as of the _____ day of _____, 2016 to be effective as of 12:01 a.m. Eastern Time on the __ day of _____, 2016.

**ORGANIZATIONAL ACTION BY**
**SOLE INCORPORATOR**
**OF**
**PROSPECT CT MEDICAL FOUNDATION, INC.**

The undersigned, being the sole incorporator named in the Certificate of Incorporation of Prospect CT Medical Foundation, Inc., a Connecticut corporation (the "**Corporation**"), filed with the Secretary of State of the State of Connecticut on April 15, 2016, acting by written consent without a meeting pursuant to Section 33-1029(b) of the Connecticut Revised Nonstock Corporation Act, hereby consents to the adoption of the following specified resolutions:

**Number and Election of Directors**

**RESOLVED:** That the number of members that shall constitute the Board of Directors shall initially be two (2); and

**RESOLVED, FURTHER:** That each of the following persons is hereby elected to the Board of Directors of the Corporation, to hold such office until his or her successor or successors have been duly elected and qualified, or until his or her earlier death, resignation or removal:

Samuel S. Lee

David Topper

**IN WITNESS WHEREOF**, the undersigned has duly executed this Organizational Action as of this 25th day of July, 2016.

Michele M. Volpe, Esq.
Sole Incorporator

**PROSPECT CT MEDICAL FOUNDATION, INC.**
(a Connecticut corporation)

---

**UNANIMOUS WRITTEN CONSENT IN LIEU OF MEETING OF THE BOARD OF DIRECTORS**

---

The undersigned, being all of the members of the Board of Directors of Prospect CT Medical Foundation, Inc., a Connecticut corporation (the "**Corporation**"), acting by unanimous written consent without a meeting pursuant to Section 33-1064 of the Connecticut Revised Nonstock Corporation Act, do hereby waive notice of a meeting and consent to the adoption of the following resolutions:

**NOW, THEREFORE, BE IT:**

**Organizational Matters**

**RESOLVED:** That all of the actions of Michele M. Volpe, Esq., as the sole incorporator of the Corporation (the "**Incorporator**"), are hereby approved, ratified and adopted in all respects; and be it hereby

**RESOLVED, FURTHER:** That the Certificate of Incorporation of the Corporation executed by the Incorporator and filed with the Secretary of State of the State of Connecticut, attached hereto and incorporated herein as Exhibit A (the "**Certificate**"), be, and the same hereby is, approved, ratified and adopted; and be it hereby

**Bylaws**

**RESOLVED, FURTHER:** That the Bylaws attached hereto and incorporated herein as Exhibit B be, and the same hereby are, adopted as the Bylaws of the Corporation; and be it hereby

**Officers; Delegated Authority**

**RESOLVED, FURTHER:** That the following individuals be, and each of them hereby is, elected to serve in the offices of the Corporation set opposite their respective names, each to hold such offices until his or respective successor is duly elected and qualified or until his or her earlier resignation or removal; and be it hereby:

| | |
|---|---|
| President | Samuel S. Lee |
| Chief Executive Officer | David Topper |
| Secretary | Ellen J. Shin, Esq. |
| Chief Financial Officer | Steve M. Aleman |

**RESOLVED, FURTHER:** That for the purposes of authorizing the Corporation to do business in any state, territory or dependency of the United States or any foreign country in which it is necessary or expedient for this Corporation to transact business, the proper officers of the Corporation be, and each of them hereby is, authorized to appoint and substitute all necessary agents or attorneys for service of process, to designate and change the location of all necessary statutory offices and to make and file all necessary certificates, reports, powers of attorney, and other instruments as may be required by the laws of such state, territory, dependency or country to authorize the Corporation to transact business therein; and be it hereby

**RESOLVED, FURTHER:** That the President and the Chief Financial Officer of the Corporation and/or any officers or agents as they may designate be, and each of them hereby is, authorized to make payments from the funds of the Corporation for expenses incurred or to be incurred incident to the organization of the Corporation or to the implementation of authorized corporate action including, but not limited to, all expenses for office and clerical services and professional accounting, investment consultant, and legal services provided to the Corporation, and all filing fees relating to the creation of the Corporation or the implementation of any authorized corporate practice; and be it hereby

**Books and Records**

**RESOLVED, FURTHER:** That the President of the Corporation and/or any officers or agents as he may designate be, and each of them hereby is, authorized and directed to procure all books of account and other materials and supplies necessary or appropriate in connection with maintaining the records and conducting the business of the Corporation; and be it hereby

**Banking**

**RESOLVED, FURTHER:** That the President and the Chief Financial Officer of the Corporation and/or any officers or agents as they may designate be, and each of them hereby is, authorized to open such bank account(s) on behalf of the Corporation as they deem appropriate or advisable, and that such officers or agents be, and each of them hereby is, authorized to execute and deliver to such banks the resolutions required thereby and such resolutions will be deemed to have been approved by the Board of Directors with the same force and effect as if they had been set forth herein; and be it hereby

**RESOLVED, FURTHER:** That the President and the Chief Financial Officer of the Corporation and/or any officers or agents as they may designate be, and each of them hereby is, authorized to deposit any of the funds of the Corporation in said bank(s) and that the President or the Chief Financial Officer of the Corporation and/or any officers or agents as they may designate be, and each of them hereby is, authorized to withdraw funds of the Corporation by checks drawn in the name of the Corporation from said bank(s) either at its main office or any of its branches; and be it hereby

**General**

**RESOLVED, FURTHER:** That all actions previously taken by any of the officers of the Corporation, or by any of the Corporation's directors, employees, agents or representatives in connection with the organization of the Corporation and the matters contemplated by the

foregoing resolutions be, and each of them hereby is, expressly approved, ratified, and confirmed in all respects as the acts and deeds of the Corporation; and be it hereby

**RESOLVED, FURTHER:** That the President of the Corporation and/or any officers or agents as he may designate be, and each of them hereby is, authorized to take all such further action, as the President of the Corporation or any such officer or agent, as applicable, may deem necessary, proper, convenient or desirable, in order to carry out each of the foregoing resolutions and fully to effectuate the purposes and intents thereof, and that all actions taken by the President of the Corporation or any such officers or agents, as applicable, to date, in connection with the foregoing resolutions, or otherwise, be, and each of them hereby is, in all respects approved, ratified and confirmed; and be it hereby

**RESOLVED, FURTHER:** That the officers of the Corporation be, and each of them hereby is, authorized and directed in the name of the Corporation, to prepare and file all such notices and applications and any and all certificates, documents, letters and other instruments with all appropriate state and federal or other governmental authorities as necessary or desirable with respect to hospital licensure and the transactions contemplated by the foregoing resolutions; and be it hereby

**RESOLVED, FURTHER:** That the Corporation may proceed to carry on the business for which it was incorporated; and be it hereby

**RESOLVED, FURTHER:** That this unanimous written consent may be signed in two or more counterparts, each of which shall be deemed an original, and all of which shall constitute one and the same instrument, and the undersigned members of the Board of Directors of the Corporation hereby direct the Secretary of the Corporation to file the executed copy of this unanimous written consent in the books and records of the Corporation.

CONNECTICUT SECRETARY OF THE STATE

# Certificate of Incorporation

of

Prospect CT Medical Foundation, Inc., a Connecticut Nonstock Corporation

1. The name of the corporation shall be **Prospect CT Medical Foundation, Inc.**, a Connecticut Nonstock Corporation (the "Corporation").

2. The nature of the activities to be conducted and the purposes to be promoted or carried out by the Corporation shall include the following:

   a. To provide professional medical services to the patients of hospitals affiliated with Prospect CT, Inc. (the "Hospitals") and other affiliates of Prospect CT, Inc. and to other individuals in the Hospitals' service areas; provided, however, that all professional medical services rendered by the Corporation shall be rendered only through individuals who are authorized by the laws of the State of Connecticut to render professional medical services.

   b. To promote and support the mission and purposes of the Hospitals by providing professional medical services to their patients and engaging in education activities related to patient care and the promotion of good health.

   c. To carry on additional activities related to rendering care to the sick or injured or the promotion of health in the community.

   d. To invest the funds of the Corporation in stocks, bonds, real estate, mortgages, or any other type of investment and to own real property incident to the rendering of professional medical services.

   e. To otherwise engage in any lawful act or activity from which a medical foundation may be organized under Chapter 594b of the Connecticut General Statutes or for which a corporation may be organized under the Connecticut Revised Nonstock Corporation Act (the "Act").

   f. Medical foundation status will not be effective until Member or a Member affiliate owns a Connecticut licensed hospital.

3. The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

4. The Corporation shall have one member (the "Member") which shall be Prospect CT, Inc., a Delaware corporation. The Member shall have the right to adopt bylaws (the "Bylaws") for the conduct of the affairs of the Corporation and the right to elect the Board of Directors and officers of the Corporation in accordance with the Corporation's Bylaws and shall have all other rights, powers and privileges usually or by law accorded to the members of a non-stock nonprofit corporation and conferred thereby or by the Corporation's Certificate of Incorporation or Bylaws.

5. Subject to the rights and powers of the Member, the Corporation shall operate under the management of its Board of Directors. The Member shall prescribe the number, qualifications (if any) and manner of election of the Directors of the Corporation. The Member may provide that persons occupying certain positions within or without the Corporation shall be ex-officio members of the Board of Directors, who may vote and be counted in determining a quorum.

6. No part of the net earnings of the Corporation shall inure to the benefit of or be distributable to the Corporation's Directors, officers or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Paragraph 2 hereof. No substantial part of the activities of the Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of (or in opposition to) any candidate for public office.

7. Upon any dissolution or termination of the existence of the Corporation, all its property and assets shall be applied and distributed as follows: (i) All liabilities and other obligations of the Corporation shall be paid, satisfied and discharged, or adequate provision shall be made therefor; (ii) assets held by the Corporation upon condition requiring return, transfer or conveyance, which condition occurs by reason of the dissolution, shall be returned, transferred or conveyed in accordance with such requirements; (iii) assets received and held by the Corporation subject to limitations permitting their use, but not held upon a condition requiring return, transfer or conveyance by reason of the dissolution, shall be transferred or conveyed to one or more domestic or foreign corporations, societies or organizations engaged in activities substantially similar to those of the dissolving corporation, pursuant to a plan of distribution adopted as provided in section 33-1175; (iv) other assets, if any, shall be distributed to the Member except to the extent that the certificate of incorporation provides for distribution to others; and (v) any remaining assets may be distributed to such persons, societies, organizations or domestic or foreign corporations, whether for

profit or nonprofit, as may be specified in a plan of distribution adopted as provided in section 33-1175.

8. The personal liability of a Director of the Corporation to the Corporation for breach of duty as a Director of the Corporation shall be limited to the fullest extent permitted by the Act and as set forth in Section 1104 or any other applicable laws presently or hereafter in effect.

9. The Corporation shall indemnify its Directors and officers as follows:

   a. The Corporation shall, to the fullest extent permitted by law, indemnify its Directors or officers from and against any and all of the liabilities, expenses and other matters referenced in or covered by the Act or any other applicable laws presently or hereafter in effect. In furtherance and not in limitation thereof, the Corporation shall indemnify a Director for a liability, as defined in Section 33-1116 of the Act, to any person for any action taken, or any failure to take any action, as a Director, except a liability that (i) involved a knowing and culpable violation of law by the Director; (ii) enabled the Director or an associate, as defined in Section 33-840 of the Connecticut General Statutes, to receive an improper personal gain; (iii) showed a lack of good faith and a conscious disregard for the duty of the Director to the Corporation under circumstances in which the Director was aware that his or her conduct or omission created an unjustifiable risk of serious injury to the Corporation; or (iv) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Director's duty to the Corporation.

   b. In addition to the foregoing, the Corporation shall provide to its Directors and officers the full amount of indemnification that the Corporation is permitted to provide to such Directors and officers pursuant to Sections 33-1116 to 33-1125, inclusive, of the Act or any other applicable laws presently or hereafter in effect. Expenses (including attorneys' fees) incurred by a Director or officer in defending a civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of both (i) a written affirmation by such officer or Director of his or her good faith belief that he or she has met the relevant standard of conduct under the Act or that the proceeding involves conduct for which liability has been limited under Paragraph 8 of this Certificate of Incorporation; and (ii) an undertaking by or on behalf of such Director or officer to repay such amount if it shall ultimately be determined that such Director or officer is not entitled to be indemnified by the Corporation as authorized in this Paragraph 9.

Such expenses (including attorneys' fees) incurred by other employees and agents of the Corporation may be so paid upon such terms and conditions, if any, as the Board of Directors deems appropriate.

c. The indemnification and advancement of expenses provided by, or granted pursuant to this Paragraph 9 shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of disinterested Directors or otherwise, both as to action in his or her official capacity and as to action in another capacity while holding such office.

d. No amendment to or repeal of this Paragraph 9 shall apply to or have any effect on the indemnification of any Director or officer for or with respect to any acts or omissions of such Director or officer occurring prior to such amendment or repeal, nor shall any such amendment or repeal apply to or have any effect on the obligations of the Corporation to pay for or reimburse in advance expenses incurred by a Director or officer in defending any action, suit or proceeding arising out of or with respect to any acts or omissions occurring prior to such amendment or repeal.

10. References in this Certificate of Incorporation to the Act shall be deemed to include amendments adopted from time to time to such Act.

11. The Corporation's registered agent shall be:

Name: C T Corporation System

Business Address: One Corporate Center, Hartford, CT 06103

## ARTICLE 1 – ORGANIZATION

**1.1. Name.** The name of the Corporation shall be Prospect CT Medical Foundation, Inc. (herein referred to as the "Corporation").

**Purposes.** The Corporation is organized and shall be operated exclusively as a medical foundation of the Member pursuant to Chapter 594b of the Connecticut General Statutes (as it may be amended from time to time, the "Foundation Act"), providing medical services and other health care services to patients of the Member and its affiliates and to other individuals ; providing public health services, to include promoting the efficient delivery of quality medical care in and around the service area of the Corporation; meeting the healthcare needs of the public; participating in activities designed to promote the general health of the community; and for the other purposes described in the Corporation's Certificate of Incorporation.

**1.2. Offices.** The principal office of the Corporation shall be located in the State of Connecticut at such location as may be determined by the Corporation. The Corporation may have such other offices within and without the State of Connecticut as the Member may determine.

**1.3. Divisions.** The operations of the Corporation shall be divided into divisions representing the service area of each hospital or health system operated by the Member or an affiliate (each such area hereinafter referred to as a "Division") or by a particular specialty all determined by the Member at its sole discretion.

## ARTICLE 2 - THE MEMBER

**2.1. Membership.** Prospect CT, Inc. shall be the sole member (the "Member") of the Corporation, which shall have the right to elect the Board of Directors (the "Board") of the Corporation, and shall have all of the other rights, powers and privileges usually or by law accorded to the member of a medical foundation under the Foundation Act and the member of a nonstock corporation under the Connecticut Revised Nonstock Corporation Act (the "Nonstock Act") that are not conferred by these Bylaws on the Board of Directors of the Corporation.

2.2. **Member's Action; Powers of the Member**. In the exercise of its powers, the Member may act through its President or Chief Executive Officer, or such other officer duly designated by the Member. The President, Chief Executive Officer or duly designated officer shall have the full power and authority to act on behalf of the Member, to vote in person or by proxy on behalf of the Member, and to take all other actions as the Member may be authorized to take by law, the Certificate of Incorporation or these Bylaws. All action of the Member may be taken by written consent in lieu of a meeting, including in lieu of the annual meeting of the Corporation. Whenever approval by the Member is required by law, the Certificate of Incorporation or these Bylaws, the Member shall attempt to act on a request for approval within the time frame set forth in any schedule that may be developed from time to time, or if no such schedule exists, in a timely manner. In addition to any other powers that are provided to the Member by law and to the fullest extent permitted by law, the Member shall have the following rights, powers and privileges:

2.2.1. The power, consistent with Section 3.2.2 hereof, to appoint all Directors to the Board.

2.2.2. The power to approve or initiate all operating and capital budgets of the Corporation.

2.2.3. The power to approve unbudgeted expenditures in such amount or amounts as may be established by the Member or any increase in an approved annual operating or capital budget.

2.2.4. The power to approve or initiate any advances of assets of, or loans by, the Corporation, or the incurring of any indebtedness, secured or unsecured.

2.2.5. The power to appoint the Corporation's auditors and to appoint legal counsel and other consultants whose responsibilities encompass rights or responsibilities of corporations, subsidiaries or entities affiliated with the Corporation or Member (the "Subsidiaries" and "Affiliates").

2.2.6. The power to engage in managed care and other third party payor contracting on behalf of the Corporation.

2.2.7. The power to obtain Director and Officer liability, comprehensive general and other insurance on behalf of the Corporation.

**2.2.8.** The power, to the extent permitted under applicable law, to exercise supervision and control over the investment of any and all of the Corporation's funds and assets.

**2.2.9.** The power to approve or initiate the commencement, cessation, location, relocation or consolidation of clinical services provided by the Corporation and to approve or initiate the filing of any application for a Certificate of Need by the Corporation.

**2.2.10.** The power to adopt system-wide quality, performance and credentialing standards and procedures to which the Corporation is expected to adhere.

**2.2.11.** The power to approve or initiate any agreement or transaction involving another corporation or entity, including corporations or entities controlled directly by or otherwise affiliated with the Corporation or Member.

**2.2.12.** The power to approve or initiate the affiliation of the Corporation with any other entities for the purpose of the joint conduct of business or other purposes, whether in the form of participation in said organization or entity or through the holding of stock or by membership or in the form of partnership, joint venture, co-tenancy or any other form of ownership or control.

**2.2.13.** The power to change, amend or restate the Corporation's Certificate of Incorporation, Bylaws, purposes, membership and rights and responsibilities accruing thereto, fiscal year, principal office or name.

**2.2.14.** The power to create any corporation of which the Corporation is the sole member or controlling member; to approve any merger or consolidation with another corporation in which the Corporation is a constituent corporation; and to reorganize, liquidate or dissolve the Corporation or any corporation of which the Corporation is the sole member or controlling member.

**2.2.15.** The power to sell, leases, exchange, or otherwise disposes of all or substantially all of the property or assets of the Corporation.

**2.2.16.** The power to elect, re-elect and remove Directors, the Chair, the Vice Chair, the Treasurer, the Secretary, the President and Chief Executive Officer and the power to increase or decrease the size of the Board.

**2.2.17.** The power to establish, appoint and remove members of committees of the Corporation and to delegate certain duties to committees, officers, employees or agents of the Corporation.

**2.2.18.** The power to approve, amend or adopt policies and procedures governing indemnification of Directors and officers of the Corporation; conflicts or dualities of interest; accounting and investment standards and practices; and such other policies and provisions.

**2.2.19.** The power to approve or initiate the conveyance of, or the granting of mortgages, trusts, deeds or the creation of other liens on, any real property assets of the Corporation.

**2.2.20.** The power to adopt a system-wide strategic plan and vision to which the Corporation is expected to adhere.

**2.2.21.** The power to approve any employee pension and other employee benefit plans for or on behalf of the Corporation.

**2.2.22.** The power to approve any contract with an unrelated third party for the management of all or substantially all of the assets or operations of the Corporation.

**2.2.23.** The power to approve any compensation plan of the Corporation and establish any policies and procedures relating to compensation

**2.3. Annual Meetings**. The annual meeting of the Member shall be held at such date, time and place as shall be determined by the Member. At the annual meeting, the Member shall elect and re-elect Directors and transact such other business relating to the affairs of the Corporation as may properly come before the meeting.

**2.4. Special Meetings**. Special meetings of the Member may be called by the Member or by the Chair. Notice of such call shall be given at least ten (10) days in advance of the meeting and shall state the purpose for which the meeting is called. No business shall be transacted at the meeting except such business as was set forth in the notice of such meeting.

**2.5. Action at Meeting**. At any meeting of the Member, the vote of the President and Chief Executive Officer of the Member, or other duly authorized officer of the Member, shall be sufficient to take any action. Any action required or permitted to be taken at a meeting of the Member maybe taken without a meeting of the Member if the Member, acting through the President and Chief Executive Officer of the Member or other duly authorized officer of the Member, consents to the action in writing and such written consent is filed with the

records of the meeting of the Member. Each such consent shall be treated for all purposes as a vote taken at a meeting.

## ARTICLE 3 - BOARD OF DIRECTORS

3.1. **Powers.** Subject only to the powers of or reserved to the Member by law, the Certificate of Incorporation or these Bylaws, the Board shall have and may exercise all of the powers of the Corporation and shall have the general direction and control of the activities of the Corporation.

3.2. **Number; Composition and Qualification.** The composition, classification, manner of election or appointment of individuals to the Board, and their term of office, shall be subject to the following provisions:

3.2.1. The Board shall be appointed or elected by the Member as set forth in this Article 3.

3.2.2. The Board shall consist of a minimum of 7 and a maximum of 15 Directors, such number to be determined from time to time by the Member.

3.2.3. In accordance with the Foundation Act, the number of Directors on the Board who are providers within the meaning of the Foundation Act shall equal or exceed the number of Directors on the Board who are employees of the Member and who are not providers.

3.2.4. No employee, director or representative of a nonprofit hospital, nonprofit health system, nonprofit medical school or any entity that owns or controls a nonprofit hospital, nonprofit health system or nonprofit medical school may serve on the Board.

3.2.5. No person shall serve on the Board of the Corporation if prohibited by law.

3.3. **Election and Term.** The initial members of the Board shall, subject to Section 3.5 of these Bylaws, hold office for a term of two (2) years and until their successors are duly elected and qualified. At the second annual meeting of the Corporation, the Member shall elect Directors (other than Directors who serve by virtue of holding a particular office as set forth in Section 3.2.2) to staggered terms of one (1) year, two (2) years, or three (3) years in length such that approximately one-third of such Directors expire each year. Thereafter, the Member shall elect at each annual meeting approximately one-third of the Directors, each to serve a full three (3) year term, to fill the vacancies created by those Directors whose terms are then expiring. The Member may also at any time elect Directors to terms

of less than three (3) years to promote the objective of having the terms of approximately one-third of the Directors expire each year. Directors shall take office at the close of the meeting at which they were elected and, subject to Section 3.5 of these Bylaws, shall hold office for the term specified and until a successor is duly elected and qualified, provided that a Director appointed to fill a vacancy shall serve for the remainder of the applicable term. Each Director shall be counted in determining a quorum and shall have full voting rights.

3.4. **Vacancies.** Any vacancy in the Board caused by the death, resignation or removal of a Director may be filled by the Member, such Director to serve for the unexpired term of such Director's predecessor in office.

3.5. **Resignation and Removal.** Any Director may resign at any time by delivering a written resignation to the Corporation at its principal office, to the Chair, the Secretary or the President and Chief Executive Officer of the Corporation. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event. A Director may be removed with or without cause by vote of the Member after reasonable notice of the proposed removal to the Director. Notice of a proposed removal shall be given in a notice of a meeting at which such removal shall be considered taken. A Director's failure to comply with the attendance policy and requirements adopted by the Board from time to time shall be considered by the Member as cause for removal of the Director in accordance with this section.

3.6. **Annual Meetings.** The annual meeting of the Board shall be held as soon as practicable following the annual meeting of the Member, at a date, time and place to be determined by the Chair or the Board. At the annual meeting, the Board shall ratify the election of the officers appointed by the Member and may conduct such other business as may properly come before the Board.

3.7. **Regular Meetings.** The Board shall meet at least quarterly, at such times and at such places, as the Chair or the Board may from time to time determine.

3.8. **Special Meetings.** Special meetings of the Board may be held at any time and at any place as designated in a call by the Chair, the President and Chief Executive Officer, the Secretary or any two (2) or more Directors. No business shall be conducted at a special meeting other than as stated in the notice of the meeting.

3.9. **Meetings by Telecommunications.** Directors or members of any committee of the Board may participate in a meeting of the Board or such committee by means of a conference telephone or similar communications equipment by means of which all persons

participating in the meeting can hear each other at the same time, and participation by such means shall constitute presence in person at a meeting.

**3.10. Notice of Meetings**. Notice of any meeting of the Board shall be given to each Director by the Chair, the President and Chief Executive Officer, or in the event of a special meeting called by two (2) or more Directors, by one of the Directors calling the meeting. In the case of the annual or any regular meeting, notice shall be given to each Director in person, by telephone, or by regular mail, overnight delivery or electronic mail sent to such Director's business or home address at least ten (10) days in advance of the meeting. In the case of a special meeting, notice shall be given to each Director in person, by telephone, or by regular mail, overnight delivery or electronic mail sent to such Director's business or home address at least seventy-two (72) hours in advance of the meeting. Notice need not be given to any Director who executes, before or after the meeting, a written waiver of notice, or to any Director who attends the meeting without protesting prior to the meeting or at its commencement the lack of notice to such Director. Unless otherwise stated in these Bylaws, a notice or waiver of notice of a Board meeting need not specify the purposes of the meeting.

**3.11. Quorum and Voting**. At any meeting of the Board, a majority of the Directors then currently serving and entitled to vote and who are present at the meeting shall constitute a quorum. Unless otherwise disqualified from voting, each Director shall have one (1) vote to be exercised in person. Voting by proxy shall not be permitted.

**3.12. Action at Meeting**. At any meeting of the Board at which a quorum is present, the vote of a majority of those Directors present and entitled to vote, unless a different vote is specified by law, by the Certificate of Incorporation, or by these Bylaws, shall be sufficient to take any action.

**3.13. Action by Consent**. Any action required or permitted to be taken at any meeting of the Board may be taken without a meeting if all the Directors then currently serving consent to the action in writing and the written consents are filed with the records of the Board meetings. Each such consent shall be treated for all purposes as a vote taken at a properly called and held meeting. For purposes hereof, a Director may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an electronic mail communication from the Director to the Corporation from an electronic mail address provided by the Director to the Corporation.

**3.14. Rules of Order**. The Board shall adopt formal, parliamentary Rules of Order, that when not inconsistent with the Bylaws, shall govern the meetings of the Board and all committees.

**3.15. Compensation.** The Board shall serve without compensation for their services as Directors but may be reimbursed by the Corporation for their reasonable expenses and disbursements in that capacity on behalf of the Corporation.

## ARTICLE 4-OFFICERS

**4.1. Number and Designation.** The officers of the Corporation shall be elected by the Member and shall consist of a Chair, President, Secretary, Treasurer and such other officers with such other titles as the Member may from time to time designate.

**4.2. Qualification.** The Chair, President, Secretary, Treasurer shall be designated by the Member. Any officer may be required to give bond for the faithful performance of such officer's duties to the Corporation in such amount and with such sureties as the Member may determine. The premiums for such bonds shall be paid by the Corporation.

**4.3. Election and Term.** Each officer shall be elected by the Member at the annual meeting of the Member and shall, subject to Section 4.4 of these Bylaws, hold office until the next annual meeting or until his or her successor shall have been chosen and qualified.

**4.4. Resignation and Removal.** Any officer may resign by delivering a written resignation to the President, or, if the resigning officer is the President, to the Secretary. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event. The Member may remove any officer with or without cause after reasonable notice to the officer. Notice of a proposed removal shall be given in the notice of any meeting at which such removal shall be considered or taken. Any such removal shall be without prejudice to the contract rights, if any, of the person so removed, provided, however, that election or appointment to an office shall not in and of itself create any contract rights.

**4.5. Vacancies.** The Member may fill any vacancy occurring for any reason in any office.

**4.6. Chair.** The Chair or the Chair's delegate shall preside at all meetings of the Board of Directors and shall perform other duties incident to the office or delegated by the Board of Directors or these Bylaws from time to time. The Chair shall be an ex-officio member of all Committees.

**4.7. President.** The President shall serve as the chief executive officer of the Corporation and shall be responsible for the integration, operation, administration and performance of the Corporation and its Subsidiaries and Affiliates within the system of health care

organizations operated under the ownership and control of the Member and shall be given the necessary authority for the accomplishment of such responsibility subject to the policies enacted by the Member, of any committees to which the Member or the Board has delegated such responsibilities, and of any Subsidiary subject only to the policies enacted by the board of such Subsidiary. The President shall perform such other duties and shall have such other powers as the Member from time to time may prescribe. In the event of a vacancy in the office of President, the Secretary shall serve as the Acting President during such vacancy.

4.8. **Secretary**. The Secretary shall be responsible for having minutes kept of the proceedings of the Board and the Member; shall give, or cause to be given, all notices in accordance with the provisions of these Bylaws or as required by law; and shall be the custodian of the records of the Corporation. The Secretary shall perform such other duties and shall have such other powers as the Member may from time to time prescribe.

4.9. **Treasurer**. The Treasurer shall supervise the receipt and custody of the Corporation's funds and investments; render a full account and statement of the condition of the Corporation's finances at each annual meeting. The Treasurer shall perform such other duties and shall have such other powers as the Member may from time to time prescribe.

4.10. **Other Powers and Duties**. Each officer, subject to these Bylaws, shall have in addition to the duties and powers specifically set forth in these Bylaws, such duties and powers as are customarily incident to such officer's office, and such duties and powers as the Member may from time to time designate.

## ARTICLE 5 – COMMITTEES

5.1. **Committees**. The Member or the Board may designate two (2) or more Directors to constitute a committee, which may be standing or ad hoc. The Chair may, in his or her discretion, appoint a committee chair or delegate the selection of a chair to the committee itself, unless otherwise specified in these Bylaws. The Chair, subject to the approval of the Board if the committee was formed by the Board or the Member if the committee was formed by the Member, may designate or provide for the designation of one or more Directors or others as alternate members of any committee, who may replace any absent or disqualified member at any meeting of such committee. Standing committees shall have such powers and responsibilities as shall be set forth in these Bylaws or in any resolutions establishing such committees; provided, however, that committees may not have any authority prohibited by law.

5.2. **Action by Committee.** A quorum shall be a majority of the number of members of the committee. Any committee member restricted from voting on any matter pursuant to the Corporation's Conflict of Interest Policy shall not be counted in determining the quorum for the matter in question, even where permitted by law. The minutes of the committee meeting should reflect the disclosure, the abstention from voting, and the quorum situation. The act of a majority of the members of any committee present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by the Member, by these Bylaws, by resolution of the Board of Directors or by law. Committees shall have only such authority delegated to them by the Board or the Member as shall be provided in resolutions of appointment, and no committee shall have any other power.

5.3. **Standing Committees:**

5.3.1. **Quality and Performance Committee.** The Quality and Performance Committee shall consist of at least three (3) members of the Board, including one member from each Division, and such other members as the Board determines are necessary to properly perform the functions of the Committee. The Quality and Performance Committee shall assist the Board in providing strategic direction and oversight for all quality improvement, patient safety, risk management, and regulatory compliance activities provided in and by the Corporation.

5.4. **Ad Hoc Committees.** The Board may appoint ad hoc committees from time to time for such special tasks as circumstances warrant. An ad hoc committee shall limit its activities to the accomplishment of the task for which it is appointed and shall have no power to act except as specifically conferred by action of the Board. Upon completion of the task for which appointed, such ad hoc committee shall stand discharged.

5.5. **Other Committees.** The Board may by resolution from time to time establish committees to serve in a purely advisory role to the Board, and such committees may consist of Directors and such other individuals as the Board shall determine.

## ARTICLE 6- INDEMNIFICATION

6.1. **Indemnification of Directors and Officers.** The Corporation shall, to the fullest extent permitted by law, indemnify its Directors and Officers from and against any and all of the liabilities, expenses and other matters referenced in or covered by the Act or any other applicable laws presently or hereafter in effect. In furtherance and not in limitation thereof, the Corporation shall indemnify a Director for a liability, as defined in Section 33-1116 of the Act, to any person for any action taken, or any failure to take any action, as

a Director, except a liability that (i) involved a knowing and culpable violation of law by the Director; (ii) enabled the Director or an associate, as defined in Section 33-840 of the Connecticut General Statutes, to receive an improper personal gain; (iii) showed a lack of good faith and a conscious disregard for the duty of the Director to the Corporation under circumstances in which the Director was aware that his or her conduct or omission created an unjustifiable risk of serious injury to the Corporation; or (iv) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Director's duty to the Corporation.

6.2. **Advancement of Expenses to Directors and Officers.** The Corporation shall advance funds to pay for or reimburse the reasonable expenses incurred by a current or former Director or officer who is or was a party to a proceeding because he or she is or was a Director or officer if he or she delivers to the Corporation: (i) a written affirmation of his or her good faith belief that he or she has met the relevant standard of conduct or that the proceeding involves conduct for which liability has been eliminated under a provision of the Corporation's Certificate of Incorporation; and (ii) his or her written undertaking to repay any funds advanced if he or she is not entitled to mandatory indemnification under the Nonstock Act and it is ultimately determined that he or she has not met the relevant standard of conduct required by the Corporation's Certificate of Incorporation or by the Nonstock Act.

6.3. **Indemnification of Other Parties.** The Corporation shall indemnify under Sections 33-1116 to 33-1125, inclusive, of the Connecticut General Statutes, a non-Director officer of the Corporation, who is a party to a proceeding because he or she is an officer, to the same extent as the Corporation is obligated to indemnify a Director. The Corporation may, at the discretion of the Board, indemnify any other current or former officer, employee or agent of the Corporation who is not a Director to the fullest extent permitted by law.

6.4. **Advancement of Expenses to Other Parties.** The Corporation shall advance expenses under Sections 33-1116 to 33-1125, inclusive, of the Connecticut General Statutes to a non-Director officer of the Corporation who is a party to a proceeding because he or she is an officer, to the same extent as the Corporation is obligated to advance expenses to a Director. The Corporation may, at the discretion of the Board, advance expenses to any other current or former officer, employee or agent of the Corporation who is not a Director to the fullest extent permitted by law.

6.5. **Predecessors of the Corporation.** Subsections 6.1 through 6.4 of this Article 6 shall obligate the Corporation to indemnify and advance expenses to a Director or officer of a predecessor of the Corporation pertaining to conduct with respect to the predecessor.

6.6. **Insurance**. The Corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a Director, officer, employee or other agent of the Corporation, or is or was serving at the request of the Corporation as a trustee, director, officer, employee or other agent of another organization in which it has an interest, against any liability incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the Corporation would have the power to indemnify such person against such liability.

## ARTICLE 7 - CONFLICTS OF INTEREST

7.1. **Conflicts of Interest Policy**. The Board shall adopt and implement, or cause to be implemented, a written policy, which shall apply to all Directors, officers, members of committees, and all employees who regularly exercise general authority to make administrative or policy decisions on behalf of the Corporation ("Interested Persons") and which shall address, without limitation, the standard and procedures for determining when a conflict of interest exists and for addressing any conflicts of interest determined to exist, and for disclosure by Interested Persons of all financial or other interests that might result in a conflict of interest (the "Conflicts of Interest Policy").

7.2. **Standard**. The standard for determining whether a conflict of interest exists shall incorporate all applicable legal requirements, including without limitation the requirements the statutory standard set forth in the Foundation Act and the Nonstock Act, as such requirements may be revised from time to time.

7.3. **Disclosure**. All Interested Persons shall be required to disclose all financial and other interests, and all material facts related thereto, that might lead to a conflict of interest in accordance with the Conflicts of Interest Policy and each Interested Person shall sign an annual statement acknowledging his receipt, understanding of, and agreement to comply with the Conflicts of Interest Policy.

## ARTICLE 8 - MISCELLANEOUS PROVISIONS

8.1. **Fiscal Year**. The fiscal year of the Corporation shall be as determined by the Member.

8.2. **Execution of Instruments**. All checks, deeds, leases, transfers, contracts, bonds, notes and other obligations authorized to be executed by an officer of the Corporation on its behalf shall be signed by the Chair or the President and Chief Executive officer, except as the Board may generally or in particular cases otherwise determine.

**8.3. Voting of Interest in Other Corporations.** When authorized by the Board, the President and Chief Executive Officer may waive notice of, and act as, or appoint any person or persons to act as, proxy or attorney-in-fact for the Corporation (with or without power of substitution) at any meeting of stockholders or members of any other corporation or organization in which this Corporation holds an equity or membership interest.

**8.4. Corporate Records.** The original, or attested copies of, the Certificate of Incorporation, these Bylaws and records of all meetings of the Member and the Board, shall be kept in the State of Connecticut at the principal office of the Corporation, or at the office of the Secretary and shall be available at all reasonable times for the inspection by any Director for any purpose relative to the affairs of the Corporation.

**8.5. Evidence of Authority.** A certificate by the Secretary, acting secretary or assistant secretary, as to any action taken by the Board, any committee or any officer or representative of the Corporation shall, as to all persons who rely on the certificate in good faith, be conclusive evidence of such action.

**8.6. Certificate of Incorporation.** All references in these Bylaws to the Certificate of Incorporation shall be deemed to refer to the Certificate of Incorporation of the Corporation, as amended or restated, and in effect from time to time.

**8.7. Days.** As used herein, all references to days shall refer to calendar days unless specifically provided otherwise.

## ARTICLE 9 – AMENDMENTS

**9.1.** These Bylaws may be amended only by vote of the Member at any meeting of the Member.

**PROSPECT CT MEDICAL FOUNDATION, INC.**
(a Connecticut corporation)

---

**UNANIMOUS WRITTEN CONSENT IN LIEU OF MEETING OF THE BOARD OF DIRECTORS**

---

The undersigned, being all of the members of the Board of Directors of Prospect CT Medical Foundation, Inc., a Connecticut corporation (the "**Corporation**"), acting by unanimous written consent without a meeting pursuant to Section 33-1064 of the Connecticut Revised Nonstock Corporation Act, do hereby waive notice of a meeting and consent to the adoption of the following resolutions:

**NOW, THEREFORE, BE IT:**

**RESOLVED:** That the Amended and Restated Certificate of Incorporation (Exhibit A) be adopted by the Corporation.

**RESOLVED, FURTHER:** That Michele Volpe, Esq. be authorized to execute and file the Certificate of Amendment (Exhibit B) with the Connecticut Secretary of State.

**RESOLVED, FURTHER:** That this unanimous written consent may be signed in two or more counterparts, each of which shall be deemed an original, and all of which shall constitute one and the same instrument, and the undersigned members of the Board of Directors of the Corporation hereby direct the Secretary of the Corporation to file the executed copy of this unanimous written consent in the books and records of the Corporation.

**RESOLVED, FURTHER:** That, Michele Volpe hereby resigns as the sole incorporator of the Corporation, and the powers and duties of the undersigned shall be and they hereby are terminated.

**[REMAINDER OF PAGE LEFT INTENTIONALLY BLANK]**

**[SIGNATURE PAGE FOLLOWS]**

**IN WITNESS WHEREOF**, the undersigned members of the Board of Directors of Prospect CT Medical Foundation, Inc. have duly executed this unanimous written consent as of the 25th day of July, 2016.

# EXHIBIT A

## AMENDED AND RESTATED CERTIFICATE OF INCORPORATION

Exhibit B

RESTATED CERTIFICATE OF INCORPORATION
OF
PROSPECT CT MEDICAL FOUNDATION, INC.

1. The name of the corporation shall be **Prospect CT Medical Foundation, Inc.**, a Connecticut Nonstock Corporation (the "Corporation").

2. The nature of the activities to be conducted and the purposes to be promoted or carried out by the Corporation shall include the following:

   a. To provide professional medical services to the patients of hospitals affiliated with Prospect CT, Inc. (the "Hospitals") and other affiliates of Prospect CT, Inc. and to other individuals in the Hospitals' service areas; provided, however, that all professional medical services rendered by the Corporation shall be rendered only through individuals who are authorized by the laws of the State of Connecticut to render professional medical services.

   b. To provide the following public services: public health (including nurses, nurse practitioners, nurses in a clinical setting, and full-time professionals engaged in health care practitioner occupations and health care support occupations and is not a business organized for profit.

   c. To promote and support the mission and purposes of the Hospitals by providing professional medical services to their patients and engaging in education activities related to patient care and the promotion of good health.

   d. To carry on additional activities related to rendering care to the sick or injured or the promotion of health in the community.

   e. To invest the funds of the Corporation in stocks, bonds, real estate, mortgages, or any other type of investment and to own real property incident to the rendering of professional medical services.

   f. To otherwise engage in any lawful act or activity from which a medical foundation may be organized under Chapter 594b of the Connecticut General

Statutes or for which a corporation may be organized under the Connecticut Revised Nonstock Corporation Act (the "Act").

g. Medical foundation status will not be effective until Member or a Member affiliate owns a Connecticut licensed hospital.

3. The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

4. The Corporation shall have one member (the "Member") which shall be Prospect CT, Inc., a Delaware corporation. The Member shall have the right to adopt bylaws (the "Bylaws") for the conduct of the affairs of the Corporation and the right to elect the Board of Directors and officers of the Corporation in accordance with the Corporation's Bylaws and shall have all other rights, powers and privileges usually or by law accorded to the members of a non-stock nonprofit corporation and conferred thereby or by the Corporation's Certificate of Incorporation or Bylaws.

5. Subject to the rights and powers of the Member, the Corporation shall operate under the management of its Board of Directors. The Member shall prescribe the number, qualifications (if any) and manner of election of the Directors of the Corporation. The Member may provide that persons occupying certain positions within or without the Corporation shall be ex-officio members of the Board of Directors, who may vote and be counted in determining a quorum.

6. Intentionally Omitted

7. Upon any dissolution or termination of the existence of the Corporation, all its property and assets shall be applied and distributed as follows: (i) All liabilities and other obligations of the Corporation shall be paid, satisfied and discharged, or adequate provision shall be made therefor; (ii) assets held by the Corporation upon condition requiring return, transfer or conveyance, which condition occurs by reason of the dissolution, shall be returned, transferred or conveyed in accordance with such requirements; (iii) assets received and held by the Corporation subject to limitations permitting their use, but not held upon a condition requiring return, transfer or conveyance by reason of the dissolution, shall be transferred or conveyed to one or more domestic or foreign corporations, societies or organizations engaged in activities substantially similar to those of the dissolving corporation, pursuant to a plan of distribution adopted as provided in section 33-1175; (iv) other assets, if any, shall be distributed to the Member except to the extent that the certificate of incorporation provides for distribution to others; and (v) any remaining assets may be distributed to such persons, societies, organizations or domestic or foreign corporations, whether for

profit or nonprofit, as may be specified in a plan of distribution adopted as provided in section 33-1175.

8. The personal liability of a Director of the Corporation to the Corporation for breach of duty as a Director of the Corporation shall be limited to the fullest extent permitted by the Act and as set forth in Section 1104 or any other applicable laws presently or hereafter in effect.

9. The Corporation shall indemnify its Directors and officers as follows:

   a. The Corporation shall, to the fullest extent permitted by law, indemnify its Directors or officers from and against any and all of the liabilities, expenses and other matters referenced in or covered by the Act or any other applicable laws presently or hereafter in effect. In furtherance and not in limitation thereof, the Corporation shall indemnify a Director for a liability, as defined in Section 33-1116 of the Act, to any person for any action taken, or any failure to take any action, as a Director, except a liability that (i) involved a knowing and culpable violation of law by the Director; (ii) enabled the Director or an associate, as defined in Section 33-840 of the Connecticut General Statutes, to receive an improper personal gain; (iii) showed a lack of good faith and a conscious disregard for the duty of the Director to the Corporation under circumstances in which the Director was aware that his or her conduct or omission created an unjustifiable risk of serious injury to the Corporation; or (iv) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Director's duty to the Corporation.

   b. In addition to the foregoing, the Corporation shall provide to its Directors and officers the full amount of indemnification that the Corporation is permitted to provide to such Directors and officers pursuant to Sections 33-1116 to 33-1125, inclusive, of the Act or any other applicable laws presently or hereafter in effect. Expenses (including attorneys' fees) incurred by a Director or officer in defending a civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of both (i) a written affirmation by such officer or Director of his or her good faith belief that he or she has met the relevant standard of conduct under the Act or that the proceeding involves conduct for which liability has been limited under Paragraph 8 of this Certificate of Incorporation; and (ii) an undertaking by or on behalf of such Director or officer to repay such amount if it shall ultimately be determined that such Director or officer is not entitled to be indemnified by the Corporation as authorized in this Paragraph 9.

Such expenses (including attorneys' fees) incurred by other employees and agents of the Corporation may be so paid upon such terms and conditions, if any, as the Board of Directors deems appropriate.

c. The indemnification and advancement of expenses provided by, or granted pursuant to this Paragraph 9 shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of disinterested Directors or otherwise, both as to action in his or her official capacity and as to action in another capacity while holding such office.

d. No amendment to or repeal of this Paragraph 9 shall apply to or have any effect on the indemnification of any Director or officer for or with respect to any acts or omissions of such Director or officer occurring prior to such amendment or repeal, nor shall any such amendment or repeal apply to or have any effect on the obligations of the Corporation to pay for or reimburse in advance expenses incurred by a Director or officer in defending any action, suit or proceeding arising out of or with respect to any acts or omissions occurring prior to such amendment or repeal.

10. References in this Certificate of Incorporation to the Act shall be deemed to include amendments adopted from time to time to such Act.

11. The Corporation's registered agent shall be:

### 3. TEXT OF EACH AMENDMENT / RESTATEMENT

1. Article Second is amended by adding new section b. which shall read as follows:

   b. To provide the following public services: public health (including nurses, nurse practitioners, nurses in a clinical setting, and full-time professionals engaged in health care practitioner occupations and health care support occupations and is not a business organized for profit.

2. Article Sixth is deleted in its entirety.

**Exhibit B**

RESTATED CERTIFICATE OF INCORPORATION
OF
PROSPECT CT MEDICAL FOUNDATION, INC.

1. The name of the corporation shall be **Prospect CT Medical Foundation, Inc.**, a Connecticut Nonstock Corporation (the "Corporation").

2. The nature of the activities to be conducted and the purposes to be promoted or carried out by the Corporation shall include the following:

   a. To provide professional medical services to the patients of hospitals affiliated with Prospect CT, Inc. (the "Hospitals") and other affiliates of Prospect CT, Inc. and to other individuals in the Hospitals' service areas; provided, however, that all professional medical services rendered by the Corporation shall be rendered only through individuals who are authorized by the laws of the State of Connecticut to render professional medical services.

   b. To provide the following public services: public health (including nurses, nurse practitioners, nurses in a clinical setting, and full-time professionals engaged in health care practitioner occupations and health care support occupations and is not a business organized for profit.

   c. To promote and support the mission and purposes of the Hospitals by providing professional medical services to their patients and engaging in education activities related to patient care and the promotion of good health.

   d. To carry on additional activities related to rendering care to the sick or injured or the promotion of health in the community.

   e. To invest the funds of the Corporation in stocks, bonds, real estate, mortgages, or any other type of investment and to own real property incident to the rendering of professional medical services.

   f. To otherwise engage in any lawful act or activity from which a medical foundation may be organized under Chapter 594b of the Connecticut General

Statutes or for which a corporation may be organized under the Connecticut Revised Nonstock Corporation Act (the "Act").

g. Medical foundation status will not be effective until Member or a Member affiliate owns a Connecticut licensed hospital.

3. The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

4. The Corporation shall have one member (the "Member") which shall be Prospect CT, Inc., a Delaware corporation. The Member shall have the right to adopt bylaws (the "Bylaws") for the conduct of the affairs of the Corporation and the right to elect the Board of Directors and officers of the Corporation in accordance with the Corporation's Bylaws and shall have all other rights, powers and privileges usually or by law accorded to the members of a non-stock nonprofit corporation and conferred thereby or by the Corporation's Certificate of Incorporation or Bylaws.

5. Subject to the rights and powers of the Member, the Corporation shall operate under the management of its Board of Directors. The Member shall prescribe the number, qualifications (if any) and manner of election of the Directors of the Corporation. The Member may provide that persons occupying certain positions within or without the Corporation shall be ex-officio members of the Board of Directors, who may vote and be counted in determining a quorum.

6. Intentionally Omitted

7. Upon any dissolution or termination of the existence of the Corporation, all its property and assets shall be applied and distributed as follows: (i) All liabilities and other obligations of the Corporation shall be paid, satisfied and discharged, or adequate provision shall be made therefor; (ii) assets held by the Corporation upon condition requiring return, transfer or conveyance, which condition occurs by reason of the dissolution, shall be returned, transferred or conveyed in accordance with such requirements; (iii) assets received and held by the Corporation subject to limitations permitting their use, but not held upon a condition requiring return, transfer or conveyance by reason of the dissolution, shall be transferred or conveyed to one or more domestic or foreign corporations, societies or organizations engaged in activities substantially similar to those of the dissolving corporation, pursuant to a plan of distribution adopted as provided in section 33-1175; (iv) other assets, if any, shall be distributed to the Member except to the extent that the certificate of incorporation provides for distribution to others; and (v) any remaining assets may be distributed to such persons, societies, organizations or domestic or foreign corporations, whether for

profit or nonprofit, as may be specified in a plan of distribution adopted as provided in section 33-1175.

8. The personal liability of a Director of the Corporation to the Corporation for breach of duty as a Director of the Corporation shall be limited to the fullest extent permitted by the Act and as set forth in Section 1104 or any other applicable laws presently or hereafter in effect.

9. The Corporation shall indemnify its Directors and officers as follows:

   a. The Corporation shall, to the fullest extent permitted by law, indemnify its Directors or officers from and against any and all of the liabilities, expenses and other matters referenced in or covered by the Act or any other applicable laws presently or hereafter in effect. In furtherance and not in limitation thereof, the Corporation shall indemnify a Director for a liability, as defined in Section 33-1116 of the Act, to any person for any action taken, or any failure to take any action, as a Director, except a liability that (i) involved a knowing and culpable violation of law by the Director; (ii) enabled the Director or an associate, as defined in Section 33-840 of the Connecticut General Statutes, to receive an improper personal gain; (iii) showed a lack of good faith and a conscious disregard for the duty of the Director to the Corporation under circumstances in which the Director was aware that his or her conduct or omission created an unjustifiable risk of serious injury to the Corporation; or (iv) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Director's duty to the Corporation.

   b. In addition to the foregoing, the Corporation shall provide to its Directors and officers the full amount of indemnification that the Corporation is permitted to provide to such Directors and officers pursuant to Sections 33-1116 to 33-1125, inclusive, of the Act or any other applicable laws presently or hereafter in effect. Expenses (including attorneys' fees) incurred by a Director or officer in defending a civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of both (i) a written affirmation by such officer or Director of his or her good faith belief that he or she has met the relevant standard of conduct under the Act or that the proceeding involves conduct for which liability has been limited under Paragraph 8 of this Certificate of Incorporation; and (ii) an undertaking by or on behalf of such Director or officer to repay such amount if it shall ultimately be determined that such Director or officer is not entitled to be indemnified by the Corporation as authorized in this Paragraph 9.

Such expenses (including attorneys' fees) incurred by other employees and agents of the Corporation may be so paid upon such terms and conditions, if any, as the Board of Directors deems appropriate.

c. The indemnification and advancement of expenses provided by, or granted pursuant to this Paragraph 9 shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of disinterested Directors or otherwise, both as to action in his or her official capacity and as to action in another capacity while holding such office.

d. No amendment to or repeal of this Paragraph 9 shall apply to or have any effect on the indemnification of any Director or officer for or with respect to any acts or omissions of such Director or officer occurring prior to such amendment or repeal, nor shall any such amendment or repeal apply to or have any effect on the obligations of the Corporation to pay for or reimburse in advance expenses incurred by a Director or officer in defending any action, suit or proceeding arising out of or with respect to any acts or omissions occurring prior to such amendment or repeal.

10. References in this Certificate of Incorporation to the Act shall be deemed to include amendments adopted from time to time to such Act.

11. The Corporation's registered agent shall be:

Independent Auditors' Report

To the Board of Trustees of
Eastern Connecticut Health Network, Inc. and Subsidiaries:

We have audited the accompanying consolidated financial statements of Eastern Connecticut Health Network, Inc. and Subsidiaries (the Network), a not-for-profit, non-stock corporation, which comprise the consolidated balance sheets as of September 30, 2013 and 2012 and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

**Management's Responsibility for the Consolidated Financial Statements**

The Network's management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

**Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Connecticut Healthcare Insurance Company, a wholly owned subsidiary, whose statements reflect total assets of $5,220,598 and $10,802,509, as of September 30, 2013 and 2012, respectively, and total revenues of $2,440,340 and $2,299,700, respectively, for the years then ended. These statements were audited by other auditors whose report has been furnished to us and our opinion, insofar as it relates to the amounts included for Connecticut Healthcare Insurance Company, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Network's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Network's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant account estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Eastern Connecticut Health Network, Inc. and Subsidiaries as of September 30, 2013 and 2012, and the results of its consolidated operations and its consolidated cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

40 Main Street, Suite 300
Burlington, Vermont 05401
Phone 802.865.9300

**Change in Accounting Principle**

As discussed in Note 2 to the financial statements, the Network has elected to change its method of accounting for its defined benefit pension plan costs in 2013. Such changes are reflected in the accompanying September 30, 2013 and 2012 statements of operations and changes in net assets and cash flows for the years then ended. Our opinion was not modified with respect to this matter.

**Report on Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information listed within the Table of Contents is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and changes in net assets of the individual entities and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual companies. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

| Equipment acquisitions under capital lease arrangements | $ 2,351,850 | $ 1,742,149 |

The accompanying notes are an integral part of these consolidated financial statements.

**Eastern Connecticut Health Network, Inc. and Subsidiaries**
**Notes to the Consolidated Financial Statements**
**As of and for the Years Ended September 30, 2013 and 2012**

## Note 1 - Organization

Eastern Connecticut Health Network, Inc. (ECHN) and Subsidiaries (collectively the Network) is a not-for-profit, locally governed health system created on September 12, 1995, through the merger of the corporate parents of Manchester Memorial Hospital and Rockville General Hospital, Inc. Its purpose is to provide a health care system for the communities it serves, with quality medical care at a reasonable cost; to foster an environment conducive to health and well-being, whether in the home or in the community; and to enable the health care system to expand to meet the future needs of its communities. ECHN, through its subsidiaries (or members), provides health care, health education, and community services to residents of more than 19 towns in eastern Connecticut, regardless of their ability to pay.

ECHN is the sole member or shareholder of the following subsidiaries:

***The Manchester Memorial Hospital (MMH)*** - MMH is a not-for-profit hospital with 249 licensed beds, located in Manchester, Connecticut. MMH, which admitted its first patient in 1920, is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services to the residents of Manchester and 19 nearby towns.

***The Rockville General Hospital, Inc. (RGH)*** - RGH is a not-for-profit hospital with 102 licensed beds, located in the Rockville section of Vernon, Connecticut. RGH, which admitted its first patient in 1921, is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services for residents of Tolland County and nearby towns, for a total service area of 19 towns.

***ECHN ElderCare Services, Inc. (EES)*** - EES is a not-for-profit, skilled nursing facility with 130 licensed beds and physical, occupational and speech rehabilitation services located in Tolland, Connecticut.

***ECHN Community Healthcare Foundation, Inc. (ECHF)*** - ECHF is a not-for-profit organization whose purpose is to raise funds on behalf of ECHN and its not-for-profit subsidiaries. It was established in 2000, when the fund-raising efforts of ECHN were consolidated into a single not-for-profit foundation. ECHF focuses primarily on the capital and program needs of ECHN and its not-for-profit subsidiaries.

***Eastern Connecticut Medical Professionals Foundation, Inc. (ECMPF)*** - ECMPF is a not-for-profit organization that currently operates physician office practices in the Network's service area and a hospitalist program that serves MMH and RGH. Its mission allows it to operate other not-for-profit, separately incorporated allied health ventures.

***ECHN Enterprises, Inc. (Enterprises)*** - Enterprises is a for-profit organization formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. Enterprises owns, leases and has an interest in real estate to support the mission and vision for ECHN. It is also the parent corporation of Haynes Street Property Management, LLC (HSPM). HSPM is a for-profit, limited liability company formed under the laws of the State of Connecticut, which manages the Glastonbury Wellness Center and sublets space to various MMH departments and physician offices, as well as to ECMPF.

***Visiting Nurse and Health Services of Connecticut, Inc. (VNHSC)*** - VNHSC is a not-for-profit, nonstock Connecticut corporation that provides and administers a comprehensive, multi-disciplinary home health program, hospice program and wellness programs to promote the health of individuals, families and groups in the Greater Northern Central Connecticut area. In addition, VNHSC is the sole member of A Caring Hand, LLC, which is a for-profit Connecticut limited liability company providing and administering homemaker, companion, live-in and personal care assistance services to individuals and families in the Greater Northern Central Connecticut area.

**Note 1 - Organization (continued)**

***Connecticut Healthcare Insurance Company (CHIC)*** - CHIC, a captive insurance company, provides hospital and physician professional and general liability coverage to MMH, RGH, EES, and all other subsidiaries.

***ECHN Corporate Services (ECHNCS)*** - ECHNCS is a for-profit stock corporation formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. ECHNCS provides billing and other practice management services to the Network and other customers. It is also the parent corporation of Medical Practice Partners, LLC (MPP). MPP is a for-profit, limited liability company formed under the laws of the State of Connecticut, which provides practice management services to medical group practices throughout Connecticut.

ECHN and each of its subsidiaries, except for Enterprises and CHIC, are separate Connecticut not-for-profit corporations, qualified as exempt organizations under Section 501(c)(3) of the Internal Revenue Code (IRC) and governed by separate Boards of Trustees (the Board) - although the membership of the ECHN, MMH and RGH boards are currently identical. ECHN, acting through its Board of Trustees, is the sole member of each of its members. ECHN has various powers with regard to each of its members, which include approving all operating and capital budgets; controlling the investment of funds, location of services, agreements and transactions, and affiliations; controlling changes, amendments, or restatements of certificates of incorporation and bylaws; electing trustees and officers; appointing committees; adopting a system-wide vision and strategic plans; and approving debt borrowings.

In August, the ECHN Board of Trustees announced that it had signed a non-binding letter of intent to negotiate the sale of ECHN to a newly formed joint partnership between Tenet Healthcare Corporation (Tenet) and Yale New Haven Health System (YNHHS). Since signing the letter of intent, ECHN, Tenet and YNHHS have been reviewing the opportunity in greater detail, conducting additional due diligence and negotiating a definitive agreement. A definitive agreement is expected to be reached by sometime in early calendar year 2014.

As of September 30, 2013, management has not finalized a purchase agreement and the Trustees believe that the Network will continue with its normal operations and as a going concern for the foreseeable future.

**Note 2 - Summary of Significant Accounting Policies**

***Basis of Presentation*** - The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The consolidated financial statements include the accounts of ECHN and its subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation. The assets of any member of the consolidated group may not be available to meet the obligations of other members in the group.

***Change in Accounting Principle*** - In 2013, the Network retrospectively changed its method of accounting for pension benefits. The Network has elected to immediately recognize actuarial gains and losses in its operating results in the year in which the gains and losses occur and no longer calculates expected return on plan assets using an averaging technique permitted under GAAP for market-related value of plan assets but instead uses actual fair value of plan assets. The effect of this change was to restate the 2012 consolidated statement of operations and changes in net assets, whereby the pension expense was increased by $778,615 and the accumulated pension liability recognized within net assets was reduced by $778,615. The 2012 excess of revenues over expenses of $3,727,155, as previously reported, was restated to $2,948,540. This change in accounting method had no effect on the 2012 Network's net assets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Use of Estimates*** - The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Network's significant estimates relate to the valuation of investments and interest rate swap agreements, allowance for doubtful patient accounts receivable, contractual allowances on patient accounts receivable, self-insurance liabilities, estimated settlements due to and from third parties, conditional asset retirement obligations, postretirement and pension benefit costs and the related obligations.

***Cash and Cash Equivalents*** - The Network considers all highly liquid investments with original maturities of three months or less at date of purchase to be cash equivalents, excluding amounts whose use is limited or restricted by Board designation or other arrangements under trust agreements. Cash equivalents include money market funds. Cash balances maintained at banks are insured by the Federal Deposit Insurance Corporation (FDIC). At times, the Network maintains cash balances that are in excess of the $250,000 insured FDIC limits. The Network maintains its cash at various banks and it is the Network's policy to monitor the banks' financial strength on an ongoing basis.

Money market funds are not insured by the FDIC and are not a risk-free investment. Money market funds invest in a variety of instruments including mortgage-backed and asset-backed securities. Although a money market fund seeks to preserve its $1 per share value, it is possible that a money market fund's value can decrease below $1 per share.

***Net Assets*** - Resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. In the accompanying consolidated financial statements, net assets that have similar characteristics have been combined as follows:

> ***Permanently Restricted*** - Net assets subject to explicit donor imposed stipulations that they be maintained by the Network in perpetuity are classified as permanently restricted. Such permanently restricted net assets include endowment funds and MMH's and RGH's share of their beneficial interest in trust assets held by third parties. Generally, the donors of these assets permit the members of ECHN to use all or part of the investment return on these assets for operating purposes.
>
> ***Temporarily Restricted*** - Net assets whose use by the Network is subject to explicit donor imposed stipulations that can be fulfilled upon incurrence of expenditures by the Network pursuant to those stipulations or that expire by the passage of time are classified as temporarily restricted.
>
> ***Unrestricted*** - Net assets that are not subject to explicit donor-imposed stipulations are classified as unrestricted. Unrestricted net assets may be designated for specific purposes by action of the Board or may otherwise be limited by contractual agreements with outside parties; such designated assets are classified as assets whose use is limited in the accompanying consolidated balance sheets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

Revenues are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets, unless their use is restricted by explicit donor stipulations or by law. Expirations of temporary restrictions on net assets, that is, the donor imposed stipulated purpose has been accomplished and/or the stipulated time period has elapsed, are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, are recognized as revenues at the date the promise is received. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at a rate commensurate with the risks involved. Amortization of the discount is included in other revenue. Contributions restricted for the acquisition of land, buildings, and equipment are reported as temporarily restricted support. These contributions are reclassified to unrestricted net assets when the capital asset is acquired or constructed and placed in service.

***Assets Whose Use is Limited*** - Assets whose use is limited primarily include cash and investments held by trustees under indenture agreements, cash and investments held for estimated self-insurance liabilities, Board designated investments, which include endowments, cash and investments set aside by the Board for future capital improvements over which the Board retains control and may at its discretion subsequently use for other purposes; and, beneficial interests in trust assets, which are donor restricted and other restricted investments. Amounts required to meet current liabilities of the Network have been classified as current assets in the consolidated balance sheets as of September 30, 2013 and 2012.

The income earned on restricted funds is generally available for operations of the Network and is recorded as revenue in unrestricted net assets, unless restricted by the donor or to pay future annuity obligations, at which time the income is added to the appropriate restricted net asset balance. However, if a specific gift instrument explicitly requires the permanent reinvestment of appreciation, or a portion thereof, such reinvested amounts are classified within permanently restricted net assets. There were no gifts with reinvestment restrictions for the years ended September 30, 2013 and 2012.

Assets received as donations or bequests are recorded as contributions on the date received at the estimated fair value. The average cost method is used to determine realized gains or losses on sales of marketable equity securities.

***Beneficial Interest in Trust Assets*** - MMH and RGH have been named sole or participating beneficiaries in several perpetual trusts, for which third parties act as the trustee. Under the terms of these trusts, MMH and RGH have the irrevocable right to receive the income earned on the trust assets held in perpetuity. The estimated present value of the future payments to MMH and RGH is recorded at the fair value of the assets held in the trust as beneficial interest in trust assets in the respective balance sheets of MMH and RGH and are permanently restricted as to use.

The income from the trusts is included in the change in interest in net assets of ECHF as unrestricted and temporarily restricted support. Fluctuations in the fair value of the trust assets are recognized as changes in permanently restricted net assets. MMH and RGH record their beneficial interest in trust assets when they are notified of the existence of the trust or when information becomes available to record the fair value of the trust assets.

***Investments*** - The Network's investment portfolio is classified as available for sale, with unrealized gains and losses excluded from excess of revenues over expenses, unless the losses are deemed to be other than temporary. Investments with readily determinable fair values are measured at fair value in the consolidated balance sheets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenues over expenses, unless the income or loss is restricted by donor or law.

***Other-Than-Temporary Impairments on Investments*** - The Network accounts for other than temporary impairments in accordance with FASB ASC 320, "*Investments - Debt and Equity Securities*" and continually reviews its securities for impairment conditions, which could indicate that an other than temporary decline in market value has occurred. In conducting this review, numerous factors are considered, which include specific information pertaining to an individual company or a particular industry, general market conditions that reflect prospects for the economy as a whole, and the ability and intent to hold securities until recovery. The carrying value of investments is reduced to its estimated realizable value if a decline in fair value is considered to be other-than-temporary. There were no impairments recorded for the years ended September 30, 2013 and 2012.

***Property, Plant and Equipment*** - Property, plant and equipment are stated at cost or, in the case of donated property, at fair value at the date of the gift, less accumulated depreciation and amortization. Major improvements and betterments to existing plant and equipment are capitalized. Expenditures for maintenance and repairs that do not extend the lives of the applicable assets are charged to expense as incurred. Upon disposition or retirement of property, plant and equipment, the cost and related accumulated depreciation and amortization are eliminated from the respective accounts and any resulting gain or loss is included in the results of consolidated operations.

Depreciation expense is computed on a straight-line basis over the following estimated useful lives:

| | |
|---|---|
| Buildings | 10-40 years |
| Building improvements | 5-40 years |
| Machinery and equipment | 3-15 years |
| Furniture and fixtures | 5-20 years |

Equipment under capital leases is amortized utilizing the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. Depreciation and amortization expense was $12,137,690 and $12,058,197 for the years ended September 30, 2013 and 2012, respectively.

Interest cost incurred on borrowed funds during the construction period of capital assets is capitalized as a component of the cost of acquiring those assets.

Physician loan amortization totaling $153,132 and $79,493 for the years ended September 30, 2013 and 2012, respectively, is included within depreciation and amortization in the accompanying consolidated statements of operations and changes in net assets.

Gifts of property and equipment are reported as unrestricted support, and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of property and equipment with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire property and equipment are reported as restricted support. Absent explicit donor stipulations about how long the property and equipment must be maintained, expirations of donor restrictions are reported as released from restrictions when the donated or acquired property and equipment assets are placed in service.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Investments in Joint Ventures*** - The Network has invested in several joint ventures with other area hospitals, which are accounted for under the equity method of accounting. These joint ventures as of September 30, 2013 and 2012 include the Network's investments in the following:

| | 2013 | Ownership Percentage | 2012 | Ownership Percentage |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 6,216,646 | 50 % | $ 6,110,316 | 50 % |
| Tolland Imaging Center | 201,010 | 70 % | 144,789 | 70 % |
| Medical Practice Partners, LLC | - | - | 41,269 | 50 % |
| Metro Wheelchair Service Inc. | 54,224 | 50 % | 84,681 | 50 % |
| Ambulance Service of Manchester, LLC | 3,772,317 | 50 % | 3,675,104 | 50 % |
| Aetna Ambulance Service Inc. | 1,772,500 | 50 % | 1,562,298 | 50 % |
| Evergreen Endoscopy Center, LLC | 292,807 | 50 % | 397,153 | 50 % |
| Haynes Street Medical Associates | 150,193 | 23 % | 146,676 | 23 % |
| Haynes Street Medical Associates II | 236,834 | 15 % | 252,365 | 15 % |
| Evergreen Medical Associates, LLC | 258,137 | 20 % | 258,818 | 20 % |
| Evergreen Medical Associates II, LLC | 559,585 | 20 % | 605,854 | 20 % |
| Walden Behavioral Health | 197,590 | 16 % | 200,000 | 16 % |
| Total joint venture assets | 13,711,843 | | 13,479,323 | |
| Other miscellaneous assets | 20,000 | | 21,001 | |
| Total investments in joint ventures | $ 13,731,843 | | $ 13,500,324 | |

Distributions from these joint ventures totaled $1,802,805 and $1,654,409 for the years ended September 30, 2013 and 2012, respectively. ECHN's share of the earnings of the joint ventures is reported within other revenues and are $2,113,663 and $2,931,489 for the years ended September 30, 2013 and 2012, respectively.

**Note 2 - Summary of Significant Accounting Policies (continued)**

Summarized financial information from the financial statements of these organizations as of September 30, 2013 and 2012 and for the years then ended, is as follows:

| 2013 | Total Assets | Net Assets | Change in Net Assets | Excess of Revenues (Under) Over Expenses |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 12,490,586 | $ 12,433,293 | $ 212,661 | $ 295,288 |
| Metro Wheelchair Service Inc. | $ 221,853 | $ 108,449 | $ (60,913) | $ (60,914) |
| Ambulance Service of Manchester, LLC | $ 8,782,743 | $ 7,544,633 | $ 194,425 | $ 2,494,426 |
| Aetna Ambulance Service Inc. | $ 4,269,492 | $ 3,544,999 | $ 420,403 | $ 420,404 |
| Haynes Street Medical Associates | $ 2,542,951 | $ 663,153 | $ 23,205 | $ 79,920 |
| Haynes Street Medical Associates II | $ 8,435,369 | $ 1,569,706 | $ (112,714) | $ 181,272 |
| Evergreen Endoscopy Center, LLC | $ 1,746,503 | $ 585,614 | $ (208,332) | $ 370,077 |
| Evergreen Medical Associates, LLC | $ 6,484,054 | $ 1,339,457 | $ 45,367 | $ 239,569 |
| Evergreen Medical Associates II, LLC | $ 11,906,047 | $ 2,929,989 | $ (99,281) | $ 394,554 |
| Tolland Imaging Center | $ 934,135 | $ 287,155 | $ 72,449 | $ 650,448 |
| Walden Behavioral Health | $ 1,651,417 | $ 1,205,183 | $ 53,023 | $ (16,006) |

| 2012 | Total Assets | Net Assets | Change in Net Assets | Excess of Revenues (Under) Over Expenses |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 12,257,336 | $ 12,220,632 | $ (24,696) | $ 961,990 |
| Metro Wheelchair Service Inc. | $ 289,879 | $ 169,362 | $ (143,075) | $ (83,559) |
| Ambulance Service of Manchester, LLC | $ 8,473,110 | $ 7,350,208 | $ (438,482) | $ 2,434,208 |
| Aetna Ambulance Service Inc. | $ 3,886,956 | $ 3,124,596 | $ 222,786 | $ 354,322 |
| Haynes Street Medical Associates | $ 2,576,327 | $ 639,948 | $ 179,777 | $ 65,951 |
| Haynes Street Medical Associates II | $ 8,380,885 | $ 1,682,420 | $ (355,210) | $ 205,180 |
| Evergreen Endoscopy Center, LLC | $ 2,199,308 | $ 793,946 | $ (396,530) | $ 731,378 |
| Evergreen Medical Associates, LLC | $ 6,698,447 | $ 1,294,090 | $ (47,090) | $ 140,755 |
| Evergreen Medical Associates II, LLC | $ 11,934,962 | $ 3,029,270 | $ 40,300 | $ 440,655 |
| Tolland Imaging Center | $ 1,258,554 | $ 214,706 | $ 28,745 | $ 100,840 |
| Walden Behavioral Health | $ 1,363,512 | $ 1,152,160 | $ 1,512,160 | $ (203,705) |
| Medical Practice Partners, LLC | $ 1,569,742 | $ 185,290 | $ 64,960 | $ (127,183) |

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Unamortized Bond Issue Costs*** - Financing costs associated with the issuance of long-term debt are amortized over the term of the bonds using the effective interest method. Amortization is included in interest and financing costs in the accompanying consolidated statements of operations and changes in net assets, and the unamortized carrying value is recorded within other - net in the accompanying consolidated balance sheets.

***Intangible Assets*** - Intangible assets, principally license enhancements and goodwill, are amortized over the life of the respective intangible property. On average, this amortization period for license enhancements and goodwill is 18 and 5 years, respectively. Amortization is included in depreciation and amortization in the accompanying consolidated statements of operations and changes in net assets and the unamortized carrying value is recorded within goodwill and intangible assets - net in the accompanying consolidated balance sheets. Any residual value remaining after the amortization period is considered insignificant.

***Deferred Revenue*** - Deferred revenue represents payments received for services to be rendered in the next fiscal year and is recorded within other current liabilities in the accompanying consolidated balance sheets.

***Excess of Revenues (Under) Over Expenses*** - The consolidated statements of operations and changes in net assets include excess of revenues (under) over expenses. Changes in unrestricted net assets, which are excluded from the excess of revenues (under) over expenses, consistent with industry practice, include the changes in unrealized appreciation (depreciation) on investments; net change in fair value of interest rate swap agreements that qualifies for hedge accounting; net assets released from restrictions used for capital acquisitions; pension and postretirement-related adjustments; and other changes in net assets.

For purposes of display, transactions deemed by management to be ongoing, major or central to providing of health care services are reported as operating revenues and operating expenses. Operating revenues include net patient service revenue, grant income and investment income. Peripheral or incidental transactions are reported as non-operating gains and losses. Non-operating gains and losses include investment income and expenses related to property management, losses recognized on investments representing declines in value considered to be other-than-temporary in nature, changes in the fair values of interest rate swaps that do not qualify for hedge accounting (net interest expense) and the costs associated with pursuing business combinations.

***Charity Care*** - MMH and RGH provide care to patients who meet certain criteria under their charity care policies without charge or at amounts less than its established and contractual rates. The hospitals do not pursue collection of amounts determined to qualify as charity care; as such, these amounts are not reported as revenue.

***Net Patient Service Revenues*** - Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Contracts, laws, and regulations governing Medicare, Medicaid, Blue Cross, and the uncompensated care pool programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Network records adjustments in amounts accrued for estimated settlements related to prior years.

A portion of the accrual for estimated settlements with third-party payers has been classified as long-term because such amounts, by their nature or by virtue of regulation or legislation, are not expected to be paid within one year.

**Note 2 - Summary of Significant Accounting Policies (continued)**

MMH and RGH have agreements with third-party payers that provide for payments at amounts different from their established rates. A summary of the payment agreements with major third-party payers is as follows:

***Medicare*** - Acute care hospitals are subject to a federal prospective payment system for most Medicare inpatient hospital services and for certain outpatient services. Under this prospective payment methodology, Medicare pays a prospectively determined per-discharge or per-visit rate for non-physician services. These rates vary according to the Diagnosis Related Group or Ambulatory Payment Classification of each patient.

Inpatient rehabilitation and mental health services, outpatient services, capital and medical education costs related to Medicare beneficiaries are paid based on a prospective payment system, subject to certain limitations. The Hospital is reimbursed for cost-reimbursement for certain items at a tentative rate, with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediary. Certain other outpatient services are reimbursed according to fee screens.

***Medicaid*** - Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost-reimbursement methodology. The hospitals are reimbursed at a tentative rate, with final settlement determined after submission of annual cost reports by the hospitals.

***Other Payers*** - The Network has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes rates per discharge, discounts from established charges, per diem rates, and fee schedule payments.

***Health Care Industry*** - The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

Management believes that the Network is in compliance with fraud and abuse regulations, as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to further governmental review and interpretation, as well as regulatory actions unknown or unasserted at this time.

***EHR Incentive Payment Revenue*** - The American Recovery and Reinvestment Act of 2009 authorized the Centers for Medicare and Medicaid Services (CMS) to award incentive payments to eligible health care providers who demonstrate Meaningful Use of certified electronic health records (EHR). These incentive programs are designed to support providers in this period of health information technology transition and instill the use of EHRs in meaningful ways to help our nation to improve the quality, safety, and efficiency of patient health care. Total received for Medicare amounted to $2,630,820 and $3,507,760, respectively, and the total received for Medicaid amounted to $0 and $325,412, respectively, for the years ended September 30, 2013 and 2012.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Future Operations*** - Current trends in the health care industry include mergers and other forms of affiliations among providers, increasing shifts to managed care, overall reduction in inpatient average length of stay, increasingly restrictive reimbursement policies by governmental and private payers, and the prospect of significant changes in legislation at the state and national level. Management cannot assess or project the ultimate effect of these or other items on the future operations of the Network.

***Interest in Net Assets of ECHF*** - ECHF was formed as a not-for-profit organization to supervise the development activities and engage in investment activities for the benefit of all of the ECHN subsidiaries. ECHN is the sole member of ECHF and the ECHF's Board of Directors is appointed by ECHN. ECHN subsidiaries follow the provisions of FASB ASC 958 *"Not-for-Profit Entities"*. Accordingly, the separate ECHN members record their interest in the net assets of ECHF in their separate financial statements. These amounts have been eliminated in consolidation.

***Income Taxes*** - ECHN and its subsidiaries, except for Enterprises and CHIC, are in compliance with the provisions of Internal Revenue Code (the Code) Sec. 501(c)(3) and are exempt from federal tax under IRC Sec. 501(a). At times, the Network is involved with activities that subject minor amounts of unrelated business federal income tax, which are paid as they come due in accordance with the Code and the regulations there under. Such amounts are insignificant to the Network's consolidated financial statements.

The Network accounts for uncertain tax positions in accordance with provisions of FASB ASC 740, *"Income Taxes"*, which provides a framework for how companies should recognize, measure, present and disclose uncertain tax positions in their consolidated financial statements. The Network may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The Network does not have any uncertain tax positions as of September 30, 2013 and 2012. As of September 30, 2013 and 2012, the Network did not record any penalties or interest associated with uncertain tax positions. Generally, the Network's prior three tax years are open and subject to examination by the Internal Revenue Service.

Enterprise and its subsidiaries are for-profit entities subject to federal and state taxes. For these entities, ECHN applies the provisions of FASB ASC 740. The tax provisions, and related tax assets and liabilities, are not material. CHIC has received an undertaking from the Cayman Islands government exempting it from all local income, profits, and capital gains taxes until January 3, 2026. No such taxes are currently levied in the Cayman Islands. Accordingly, no provision for federal income taxes has been recorded in the accompanying consolidated financial statements.

***Asset Retirement Obligations*** - The Network recognizes a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation is factored into the measurement of the liability when sufficient information exists. The types of asset retirement obligations that the Network recognizes are those for which the Network has a legal obligation to perform an asset retirement activity, however, the timing and/or method of settling the obligation are conditional on a future event that may or may not be within its control.

The fair value of a liability for the legal obligation associated with an asset retirement is recorded in the period in which the obligation is incurred. When the liability is initially recorded, the cost of the asset retirement is capitalized. As of September 30, 2013 and 2012, the Network has recognized $412,007 and $400,687, respectively, as an obligation to remove asbestos from various buildings upon retirement. This total is included in the consolidated balance sheets within other liabilities.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Accounting for Defined Benefit Pension and Other Postretirement Plans*** - The Network recognizes the overfunded or underfunded status of their defined benefit pension and other postretirement benefit plans (collectively, postretirement benefit plans) in the consolidated balance sheets as an asset or liability. The Network recognizes changes in the funded status of the plans in the year in which the changes occur as an operating expense and as a change in unrestricted net assets presented below the excess of revenues over expenses in its consolidated statements of operations and changes in net assets.

***Inventory*** - The Network records inventory at cost using the average cost method.

***Impairment of Long-Lived Assets*** - Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value, less cost to sell.

***Estimated Self-Insurance Liabilities*** - The liabilities for outstanding losses and loss related expenses, and the related provision for losses and loss related expenses include estimates for malpractice losses, general liability, and workers' compensation incurred but not reported claims, as well as losses pending settlement. Such liabilities are necessarily based on estimates and, while management believes the amounts provided are adequate, the ultimate liability may be in excess of or less than the amounts provided. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The methods for making such estimates and the resulting liability are actuarially reviewed on an annual basis, and any adjustments required are reflected in operations in the current period. The current portion of estimated self-insurance liabilities is recorded within other current liabilities in the accompanying consolidated balance sheets.

***Concentration of Credit Risk*** - Financial instruments, which potentially subject the Network to concentration of credit risk, consist of accounts receivable, investments, including temporary cash investments, marketable equity and debt securities, mutual funds, government securities and interest rate swap agreements. The Network receives a significant portion of its payments for services rendered from a limited number of government and commercial third-party payers, including Medicare (a federal program), Medicaid (a State of Connecticut program), and various health insurance companies.

***Interest Rate Swap Agreements*** - Interest rate swap agreements are recognized as either assets or liabilities in the consolidated balance sheet at fair value regardless of the purpose or intent for holding them. Changes in the fair value of interest rate swap agreements are recognized in non-operating losses or if designated and effective as hedge transactions, as changes in unrestricted net assets.

***Advertising Costs*** - The Network expenses advertising costs the first time the advertising takes place. The total amount charged to advertising expense was $1,842,135 and $1,596,878 for the years ended September 30, 2013 and 2012, respectively, and is recorded in supplies and other expenses in the accompanying consolidated statements of operations and changes in net assets.

***Accounting Pronouncements Adopted*** - In May 2011, FASB issued Accounting Standards Update (ASU) 2011-04, "*Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US. GAAP and IFRSs,*" which amends ASC 820, *Fair Value Measurements and Disclosures.* ASU 2011-04 amends the fair value disclosure requirements regarding transfers between Level 1 and Level 2 of the fair value hierarchy and the categorization by level of the fair value hierarchy for items that are not measured at fair value in the financial statements, but for which the fair value is required to be disclosed. This guidance became effective for the Network beginning on October 1, 2012. The adoption of this guidance had no impact on the Network's consolidated financial statements.

**Note 2 - Summary of Significant Accounting Policies (continued)**

In July 2011, the FASB issued ASU 2011-07, "*Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision of Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities.*" This guidance establishes accounting and disclosure requirements for health care entities that recognize significant amounts of patient service revenue at the time services are rendered even though the entity does not assess a patient's ability to pay. Specifically, the guidance requires that health care entities present bad debt expense associated with net patient service revenue as an offset to net patient service revenue within the consolidated statements of operations and changes in net assets. Additionally, the guidance requires enhanced disclosure of the policies for recognizing revenue and assessing bad debts, as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. The guidance requires retrospective application to all prior periods presented. This guidance became effective for the Network beginning on October 1, 2012. The adoption of this guidance had no impact on the Hospital"s operating income in the statements of operations and changes in net assets, but resulted in additional disclosures in Note 14. All years included have been presented in accordance with the provisions of ASU 2011-07.

***Accounting Pronouncements Pending Adoption*** - In December 2011, the FASB issued ASU 2011-11, "*Disclosures about Offsetting Assets and Liabilities.*" This guidance contains new disclosure requirements regarding the nature of an entity's rights of setoff and related arrangements associated with its financial instruments and derivative instruments. This guidance is effective for the Network beginning October 1, 2013, and retrospective application is required. The Network does not expect this guidance to have an impact on its consolidated financial statements.

In October 2012, the FASB issued ASU 2012-05, "*Statement of Cash Flows (Topic 230): Not-for-Profit Entities: Classification of the Sale Proceeds of Donated Financial Assets in the Statement of Cash Flows.*" This guidance provides clarification on how entities classify cash receipts arising from the sale of certain donated financial assets in the statement of cash flows. This guidance is effective for the Network beginning October 1, 2013, with early adoption permitted. The Network has not yet evaluated the impact this guidance may have on its consolidated financial statements.

In January 2013, the FASB issued ASU 2013-01, "*Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities.*" This guidance provides clarification on the scope of the offsetting disclosure requirements in ASU 2011-11. This guidance is effective for the Network beginning October 1, 2013, with early adoption permitted. The Network does not expect this guidance to have a material impact on its consolidated balance sheets.

In February 2013, the FASB issued ASU 2013-04, "*Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date.*" This guidance requires entities to measure obligations resulting from the joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date. This guidance is effective for the Network beginning October 1, 2014, with early adoption permitted. The Network has not yet evaluated the impact this guidance may have on its consolidated financial statements.

***Reclassification*** - Certain amounts in the 2012 consolidated financial statements have been reclassified to conform to the 2013 presentation. These reclassifications had no material effect on the 2012 consolidated financial statements.

***Subsequent Events*** - Subsequent events have been evaluated through December 17, 2013, the date through which procedures were performed to prepare the consolidated financial statements for issuance. Management believes that there are no subsequent events having a material impact on the consolidated financial statements.

## Note 3 - Assets Whose Use is Limited and Investments

Assets whose use is limited and investments as of September 30, 2013 and 2012, include the following:

| | 2013 | | 2012 | |
|---|---|---|---|---|
| | Cost | Fair Value | Cost | Fair Value |
| Board designated and donor-restricted: | | | | |
| Money market funds | $ 507,386 | $ 507,386 | $ 265,287 | $ 265,287 |
| U.S. equities | 215,775 | 206,426 | 150,241 | 163,427 |
| Mutual funds: | | | | |
| U.S. small/mid cap | 2,887,193 | 3,203,837 | 196,636 | 252,510 |
| Investment grade taxable | 413,221 | 403,449 | 264,483 | 278,626 |
| Short-term bond fund | 2,027,248 | 2,006,817 | 4,486,385 | 4,523,908 |

| Investment grade taxable | 399,749 | 396,103 | 272,165 | 283,621 |
| Global high yield taxable | 81,205 | 81,489 | 94,450 | 96,902 |
| Emerging markets fund | - | - | 47,200 | 49,593 |
| Short-term bond | 5,715,771 | 5,688,229 | 1,711,777 | 1,743,074 |
| Large value fund | 1,243,896 | 1,509,882 | 7,750,713 | 8,067,571 |
| Moderate allocation funds | 1,694,843 | 2,017,532 | 1,786,976 | 2,030,778 |
| Foreign large fund | 1,169,563 | 1,428,580 | 7,864,153 | 8,320,932 |
| Total | $ 12,048,696 | $ 13,009,540 | $ 20,413,758 | $ 21,510,816 |
| Total assets whose use is limited and investments | $ 64,096,924 | $ 69,823,677 | $ 76,036,403 | $ 81,375,403 |

Fair values and gross unrealized losses for all investment categories whose fair value is below its cost as of September 30, 2013 and 2012, and the length of time that the securities have been in an unrealized loss position as of September 30, 2013 and 2012, are as follows:

| 2013 | Less than 12 months | | Greater than 12 months | | Total | |
|---|---|---|---|---|---|---|
| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses |
| U.S. equities | $ 206,426 | $ (9,349) | $ - | $ - | $ 206,426 | $ (9,349) |
| Foreign growth fund | - | - | 1,375,560 | (102,856) | 1,375,560 | (102,856) |
| Investment grade taxable | 799,552 | (13,418) | - | - | 799,552 | (13,418) |
| Short-term bond fund | 2,367,489 | (52,696) | - | - | 2,367,489 | (52,696) |
| Bond fund | 1,075,321 | (15,633) | - | - | 1,075,321 | (15,633) |
| U.S. government securities | - | - | 798,803 | (900) | 798,803 | (900) |
| | $ 4,448,788 | $ (91,096) | $ 2,174,363 | $ (103,756) | $ 6,623,151 | $ (194,852) |

| 2012 | Less than 12 months | | Greater than 12 months | | Total | |
|---|---|---|---|---|---|---|
| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses |
| Large value fund | $ - | $ - | $ 4,106,546 | $ (216,359) | $ 4,106,546 | $ (216,359) |
| Foreign growth fund | - | - | 400,220 | (23,711) | 400,220 | (23,711) |
| Short-term government fund | 353,901 | (2,031) | - | - | 353,901 | (2,031) |
| U.S. government fund | - | - | 1,291,731 | (970) | 1,291,731 | (970) |
| | $ 353,901 | $ (2,031) | $ 5,798,497 | $ (241,040) | $ 6,152,398 | $ (243,071) |

**Note 3 - Assets Whose Use is Limited and Investments (continued)**

Based on that evaluation and the Network's ability and intent to hold those investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Network does not consider those investments to be other-than-temporarily impaired as of September 30, 2013 and 2012.

Interest and dividend income, which is included in other operating revenue, on the assets whose use is limited and investments totaled $1,529,821 and $1,326,767 for the years ended September 30, 2013 and 2012, respectively. There were realized gains of $5,584,750 and $0 for the years ended September 30, 2013 and 2012, respectively.

**Note 4 - Fair Value Measurements**

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

*Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Network has the ability to access.

*Level 2* - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) terms, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

**Note 4 - Fair Value Measurements (continued)**

The following table presents the financial instruments carried at fair value as of September 30, 2013 and 2012, by the valuation hierarchy.

| 2013 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Assets: | | | | |
| Money market funds | $ 7,284,544 | $ - | $ - | $ 7,284,544 |
| U.S. government securities | 798,007 | - | - | 798,007 |
| Corporate bonds | 15,427 | - | - | 15,427 |
| Certificates of deposit | 100,751 | - | - | 100,751 |
| U.S. equities | 528,320 | - | - | 528,320 |
| Mutual funds: | | | | |
| U.S. small/mid cap | 4,246,049 | - | - | 4,246,049 |
| Investment grade taxable | 799,552 | - | - | 799,552 |
| Global high yield taxable | 81,489 | - | - | 81,489 |
| Bond fund | 1,075,321 | - | - | 1,075,321 |
| Short-term bond fund | 7,695,046 | - | - | 7,695,046 |
| Large value fund | 13,670,986 | - | - | 13,670,986 |
| Moderate allocation fund | 15,649,222 | - | - | 15,649,222 |
| Foreign growth fund | 7,104,073 | - | - | 7,104,073 |
| Emerging markets fund | 90,905 | - | - | 90,905 |
| Midcap stock fund | 27,609 | - | - | 27,609 |
| International stock fund | 30,292 | - | - | 30,292 |
| Foreign large fund | 1,428,580 | - | - | 1,428,580 |
| Other | 1,315,132 | - | - | 1,315,132 |
| Beneficial interest in trusts | - | - | 7,882,372 | 7,882,372 |
| Total assets at fair value | $ 61,941,305 | $ - | $ 7,882,372 | $ 69,823,677 |
| Liabilities: | | | | |
| Obligations under interest rate swap agreements | $ - | $ 181,635 | $ - | $ 181,635 |
| Total liabilities at fair value | $ - | $ 181,635 | $ - | $ 181,635 |

**Note 4 - Fair Value Measurements (continued)**

| 2012 | Level 1 | Level 2 | Level 3 | Total |

| Beneficial interest in trusts | - | - | 7,400,782 | 7,400,782 |
| Total assets at fair value | $ 72,028,352 | $ 1,946,269 | $ 7,400,782 | $ 81,375,403 |
| Liabilities: | | | | |
| Obligations under interest rate swap agreements | $ - | $ 540,389 | $ - | $ 540,389 |
| Total liabilities at fair value | $ - | $ 540,389 | $ - | $ 540,389 |

During the years ended September 30, 2013 and 2012, the value of the beneficial interest in trusts increased for a change in market value of $787,751 and $1,141,645, respectively. In addition, the Network received $306,161 and $429,028 in distributions from these trusts in 2013 and 2012, respectively.

The Network's valuation methodologies used to measure financial assets and liabilities at fair value are outlined below. Where applicable, the Network uses quoted prices in active markets for identical assets and liabilities to determine fair value (Level 1 inputs). This pricing methodology applies to money market funds, U.S. government securities, certificates of deposit, U.S. equities and mutual funds.

**Note 4 - Fair Value Measurements (continued)**

If quoted prices in active markets for identical assets and liabilities are not available, then quoted prices for similar assets and liabilities, quoted prices for identical assets or liabilities in inactive markets or inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, will be used to determine fair value (Level 2 inputs). The Level 2 classifications include the corporate bonds and interest rate swap agreements. The interest rate swap agreements are valued based on a determination of market expectations relating to the future cash flows associated with the swap contract using sophisticated modeling based on observable market-based inputs, such as interest rate curves.

Assets and liabilities that are valued using significant unobservable inputs, such as extrapolated data, proprietary models, or indicative quotes that cannot be corroborated with market data are classified in Level 3 within the fair value hierarchy. The Level 3 classification includes the Network's beneficial interest in trusts. The value of the Network's assets is based on total fund values and the Network's corresponding beneficiary percentage.

The fair value of the Network's Series A and C Bonds are based on current traded value. The fair value of the Series A and C Bonds as of September 30, 2013 and 2012, is approximately $41,854,230 and $44,721,911, respectively. The fair value of the Network's remaining long-term debt approximates its carrying value.

As of September 30, 2013 and 2012, the Network's other financial instruments included accounts receivable, accounts payable and accrued expenses and estimated settlements due to and from third-party payers. The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate their fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Network believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Note 5 - Other Assets**

Other assets as of September 30, 2013 and 2012 consist of the following:

| | 2013 | 2012 |
|---|---|---|
| Pledges receivable, net | $ 210,112 | $ 376,165 |
| Other receivables | 887,661 | 916,543 |
| Notes receivable | 307,040 | 326,935 |
| Unamortized bond issuance costs | 2,580,484 | 2,728,593 |
| Losses recoverable | 2,247,835 | 867,152 |
| Total | $ 6,233,132 | $ 5,215,388 |

As of September 30, 2013 and 2012, $687,146 and $833,061 of pledges receivables have been included within prepaid expenses and other current assets as management anticipates them to be collected within the next year.

**Note 5 - Other Assets (continued)**

Pledges receivable are expected to be realized as follows:

| | 2013 | 2012 |
|---|---|---|
| In one year or less | $ 688,276 | $ 834,922 |
| Between one and five years | 213,662 | 384,003 |
| Greater than five years | - | 4,313 |
| Less: discount for present value | (4,680) | (14,012) |
| Pledges receivable - net | $ 897,258 | $ 1,209,226 |

Pledges receivable are reported at their net present value, discounted at rates from .10% to 4.90%. There was no allowance for uncollectible amounts recorded as of September 30, 2013 and 2012.

As of September 30, 2013 and 2012, unamortized bond issuance costs, which are included within other assets, consist of the following:

| | 2013 | 2012 |
|---|---|---|
| Deferred financing costs | $ 3,735,675 | $ 4,162,046 |
| Less accumulated amortization | (1,155,191) | (1,433,453) |
| Total | $ 2,580,484 | $ 2,728,593 |

**Note 6 - Property, Plant and Equipment**

Property, plant and equipment as of September 30, 2013 and 2012, consist of the following:

| | 2013 | 2012 |
|---|---|---|
| Land and land improvements | $ 5,333,743 | $ 5,311,030 |
| Buildings and building improvements | 160,660,529 | 157,921,015 |
| Fixed equipment | 31,817,532 | 25,744,837 |
| Movable equipment | 104,373,295 | 124,349,089 |
| | 302,185,099 | 313,325,971 |
| Less: accumulated depreciation and amortization | (206,928,185) | (219,601,455) |
| | 95,256,914 | 93,724,516 |
| Construction in progress | 931,583 | 2,570,939 |
| Total | $ 96,188,497 | $ 96,295,455 |

**Note 6 - Property, Plant and Equipment (continued)**

For the years ended September 30, 2013 and 2012, the Network capitalized interest related to construction financed with tax-exempt debt of $126,000 and $68,838, respectively. The cost to complete the construction in progress is approximately $2,981,000 and $4,225,000 as of September 30, 2013 and 2012, respectively.

For the years ended September 30, 2013 and 2012, the Network disposed of property, plant and equipment in the amounts of $24,086,313 and $615,306, respectively, all disposals were of fully depreciated assets.

**Note 7 - Intangible Assets**

The gross carrying amount and accumulated amortization, by class of intangible assets, as of September 30, 2013 and 2012, consisted of the following:

| 2013 | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|---|---|---|---|
| License enhancements | $ 1,898,684 | $ (1,349,202) | $ 549,482 |
| Other intangible assets | 101,000 | - | 101,000 |
| Goodwill | 7,252,932 | (757,545) | 6,495,387 |
| Total | $ 9,252,616 | $ (2,106,747) | $ 7,145,869 |

| 2012 | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|---|---|---|---|
| License enhancements | $ 1,898,684 | $ (1,319,877) | $ 578,807 |
| Goodwill | 6,461,402 | (577,103) | 5,884,299 |
| Total | $ 8,360,086 | $ (1,896,980) | $ 6,463,106 |

Amortization expense related to intangible assets was $149,767 and $224,027 for the years ended September 30, 2013 and 2012, respectively.

The estimated amortization expense in each of the succeeding five fiscal years and thereafter, as of September 30, 2013, is as follows:

| | |
|---|---|
| 2014 | $ 228,222 |
| 2015 | 197,589 |
| 2016 | 189,456 |
| 2017 | 174,913 |
| 2018 | 80,197 |
| Thereafter | 402,852 |
| Total | $ 1,273,229 |

## Note 8 - Estimated Self-Insurance Liabilities

The Network is self-insured for workers' compensation insurance coverage. The Network participates in Workers' Compensation Trust, a revocable trust, for the purpose of setting aside assets based on actuarial funding recommendations.

The Network has a $350,000 limit per occurrence for workers' compensation claims. The Network has employed independent actuaries to estimate the ultimate costs, if any, of workers' compensation claims. Accrued workers' compensation reserves have been discounted at 5% as of September 30, 2013 and 2012, and in management's opinion provide an adequate reserve for loss contingencies.

In fiscal year 2007, ECHN established a single-parent captive, CHIC, which covers all of its subsidiaries. The captive provides malpractice and general insurance coverage for ECHN and its subsidiaries at $3,000,000 per occurrence and $9,000,000 in the aggregate for the years ended September 30, 2013 and 2012.

Effective October 1, 2009, CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general care liability, automobile liability, employers liability, helipad liability and non-owned aircraft liability. The limit provided is $30,000,000 for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage is fully reinsured.

ECHN does not self-insure any malpractice risks other than exposures greater than its excess coverages, however, as of September 30, 2013 and 2012, ECHN has recorded a liability for estimated incurred but not reported claims, as it currently has a claims-made policy with CHIC.

**Note 8 - Estimated Self-Insurance Liabilities (continued)**

The activity in the reserve for outstanding losses and loss related expenses at ECHN for workers' compensation and malpractice claims, as of September 30, 2013 and 2012, is as follows:

| | 2013 | 2012 |
|---|---|---|
| Balance at beginning of year | $ 14,873,830 | $ 9,016,338 |
| Workers' compensation: | | |
| Losses incurred related to: | | |
| Current year | 697,778 | 941,403 |
| Prior year | 3,200,111 | 1,456,175 |
| Total incurred | 3,897,889 | 2,397,578 |
| Paid losses related to: | | |
| Current year | (414,370) | (412,068) |
| Prior year | (1,732,496) | (1,482,261) |
| Total paid | (2,146,866) | (1,894,329) |
| Professional and general: | | |
| Losses incurred related to: | | |
| Current year | 997,781 | 1,062,024 |
| Prior year | 6,950,980 | 4,997,849 |
| Total incurred | 7,948,761 | 6,059,873 |
| Paid losses related to: | | |
| Current year | (45,727) | (11,458) |
| Prior year | (13,231,777) | (694,172) |
| Total paid | (13,277,504) | (705,630) |
| Balance at end of year | $ 11,296,110 | $ 14,873,830 |

***Workers' Compensation*** - The development on prior-year incurred losses increased by approximately $5,185,000 and $1,456,000 as of September 30, 2013 and 2012, respectively.

***Professional and General*** - The development on prior-year incurred losses increased by approximately $6,950,980 and $4,998,000 as of September 30, 2013 and 2012, respectively.

The reserve for losses, which was determined with the assistance of an actuarial consultant, included estimates of claims incurred but not reported. Approximately $2,272,000 and $5,352,000 of the reserve as of September 30, 2013 and 2012, respectively, are included in other current liabilities with the remaining balance of the reserve included in estimated self-insurance liabilities in the accompanying consolidated balance sheets.

## Note 9 - Pension and Other Postretirement Benefits

ECHN has a defined benefit pension plan covering substantially all of the employees of MMH and RGH. The benefits are based upon years of service and compensation for the five highest years during the employee's last 10 years of service. The hospitals make contributions in amounts sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as well as such additional amounts as deemed appropriate.

Effective December 31, 2008, ECHN implemented a soft freeze on the defined benefit pension plan. All employees with age and service credits greater than 65 were given the option to stay in the defined benefit pension plan or freeze their defined benefits and enter into a defined contribution plan. All other employees were required to enter into the defined contribution plan. Under the defined contribution plan, ECHN contributes 3% of eligible employees' salaries. This match is non-guaranteed for all employees except certain union workers. During September 2013 the Trustees passed a resolution to freeze all benefits related to the defined-benefit pension plan. During fiscal year 2013 and 2012, the Network incurred expenses of $2,076,122 and $1,815,351, respectively, related to this plan.

MMH and RGH also sponsor a postretirement benefit plan that provides health care benefits to those employees who retire. The criterion to receive this benefit is to be vested in the pension plan, attain age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. MMH full time registered nurse retirees (retired prior to October 1, 2005 and were eligible per the Union contract) are grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the plan. Grandfathered eligible retirees are required to pay 100% of the total cost of the medical and dental coverage they elect for an eligible spouse. For non-grandfathered retirees, the postretirement health care plan is contributory and the retiree pays 100% of the premium.

The Network, as of September 30, 2013 and 2012, has no unrecognized actuarial losses related to the defined benefit pension plan.

The effects of Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (the Act) were reflected as of September 30, 2013 and 2012, assuming that ECHN will continue to provide a prescription drug benefit to retirees that is at least actuarially equivalent to Medicare Part D and that ECHN will receive the federal subsidy. This reduced plan liabilities by approximately $900,000 and $1,100,000 for the years ended September 30, 2013 and 2012, respectively. Subsidies of $90,769 and $95,241 were received in the years ended September 30, 2013 and 2012, respectively. Future benefits of $385,518 are expected to be paid and future subsidies of $63,055 are expected to be received related to the year ended September 30, 2014.

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The pension and postretirement plans' change in benefit obligation and change in plan assets for the years ended September 30, 2013 and 2012, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| **Change in benefit obligation:** | | | | |
| Benefit obligation, beginning of year | $ 223,101,495 | $ 188,714,944 | $ 4,633,005 | $ 4,680,687 |
| Service cost | 2,709,867 | 2,233,145 | 72,548 | 63,127 |
| Interest cost | 9,475,222 | 10,105,635 | 162,852 | 226,498 |
| Plan curtailments | (7,795,069) | - | - | - |
| Plan participants' contributions | - | - | 296,951 | 507,918 |
| Receipt of Medicare Part D reimbursement | - | - | 90,769 | 95,241 |
| Actuarial loss (gain) | (26,124,678) | 30,013,892 | (499,239) | (140,180) |
| Benefits paid | (9,072,578) | (7,966,121) | (563,314) | (800,286) |
| Benefit obligation, end of year | $ 192,294,259 | $ 223,101,495 | $ 4,193,572 | $ 4,633,005 |
| **Change in plan assets:** | | | | |
| Fair value of plan assets, beginning of year | $ 149,218,728 | $ 125,293,980 | $ - | $ - |
| Actual return on plan assets | 9,144,700 | 20,980,869 | - | - |
| Employer contributions | 3,000,000 | 10,910,000 | 175,594 | 197,127 |
| Plan participants' contributions | - | - | 296,951 | 507,918 |
| Receipt of Medicare Part D reimbursement | - | - | 90,769 | 95,241 |
| Benefits paid | (9,072,578) | (7,966,121) | (563,314) | (800,286) |
| Fair value of plan assets, end of year | $ 152,290,850 | $ 149,218,728 | $ - | $ - |
| Accrued pension and other postretirement benefits | $ (40,003,409) | $ (73,882,767) | $ (4,193,572) | $ (4,633,005) |
| Accumulated benefit obligation | $ (192,294,259) | $ (213,696,232) | $ - | $ - |

The amount recognized in the Network's consolidated balance sheets as of September 30, 2013 and 2012, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| Current liabilities | $ 5,700,000 | $ 3,500,000 | $ 385,518 | $ 397,164 |
| Noncurrent liabilities | 34,303,409 | 70,382,767 | 3,808,054 | 4,235,841 |
| Net amount recognized | $ 40,003,409 | $ 73,882,767 | $ 4,193,572 | $ 4,633,005 |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The allocation of the accrued pension and postretirement benefits for the years ended September 30, 2013 and 2012 is as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| MMH | $ 30,733,610 | $ 56,594,968 | $ 3,206,427 | $ 3,608,963 |
| RGH | 9,269,799 | 17,287,799 | 987,145 | 1,024,042 |
| Total | $ 40,003,409 | $ 73,882,767 | $ 4,193,572 | $ 4,633,005 |

The plans' components of net periodic benefit cost for the years ended September 30, 2013 and 2012, are as follows (pension benefits information presented is for MMH and RGH combined):

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| Service cost | $ 2,709,867 | $ 2,233,145 | $ 72,548 | $ 63,127 |
| Interest cost | 9,475,222 | 10,105,635 | 162,852 | 226,498 |
| Expected return on plan assets | (11,692,676) | (10,242,476) | - | - |
| Amortization of prior service (credits) costs | (234,992) | (234,992) | 77,724 | 77,724 |
| Recognized actuarial (gain) loss | 4,123,868 | 2,933,877 | (55,153) | (43,699) |
| Curtailment actuarial (gain) loss | (1,148,330) | - | - | - |
| Net periodic benefit cost | $ 3,232,959 | $ 4,795,189 | $ 257,971 | $ 323,650 |

The allocation of the net periodic benefit cost for the years ended September 30, 2013 and 2012, is as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| MMH | $ 2,475,143 | $ 3,658,275 | $ 197,246 | $ 252,113 |
| RGH | 757,816 | 1,136,914 | 60,725 | 71,537 |
| Total | $ 3,232,959 | $ 4,795,189 | $ 257,971 | $ 323,650 |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The assumptions used to determine net periodic benefit cost of the pension and postretirement plans for the years ended September 30, 2013 and 2012, were as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| Discount rate | 5.27% | 4.32% | 4.54% | 3.64% |
| Expected long-term rate of return | 8.00% | 8.00% | N/A | N/A |
| Rate of compensation increase | 3.00% | 2.75% | N/A | N/A |
| Initial medical trend rate | N/A | N/A | 7.62% | 7.91% |
| Ultimate medical trend rate | N/A | N/A | 4.50% | 4.50% |
| Number of years to ultimate medical trend rate | N/A | N/A | 17 years | 17 years |

The assumptions used to determine pension and postretirement benefit obligations as of September 30, 2013 and 2012, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2013 | 2012 | 2013 | 2012 |
| Discount rate | 4.32% | 5.47% | 3.64% | 5.03% |
| Expected long-term rate of return | 8.00% | 8.00% | N/A | N/A |
| Rate of compensation increase | 3.00% | 2.75% | N/A | N/A |
| Initial medical trend rate | N/A | N/A | 7.62% | 7.91% |
| Ultimate medical trend rate | N/A | N/A | 4.50% | 4.50% |
| Number of years to ultimate medical trend rate | N/A | N/A | 14 years | 15 years |

The medical trend rate has a significant effect on the amounts reported. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

| | One Percentage Point Increase | One Percentage Point Decrease |
|---|---|---|
| Effect on year-end postretirement benefit obligation | $ 324,552 | $ (289,352) |
| Effect on total of service and interest cost components | $ 20,058 | $ (17,776) |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The pension plan's weighted-average asset allocations as of September 30, 2013 and 2012, by asset category, are as follows:

| | Pension Benefits | |
|---|---|---|
| | 2013 | 2012 |
| Asset category: | | |
| Equity securities | 56% | 51% |
| Debt securities | 43% | 48% |
| Cash and cash equivalents | 1% | 1% |
| | 100% | 100% |

The investment objective of ECHN is to invest the plan assets in a manner that, together with contributions, will provide for sufficient resources to pay current and projected obligations over the life of the plan. The plan shall be diversified across asset classes to achieve an optimal balance between risk and return and between income and growth of assets through capital appreciation.

Consistent with funding requirements, a secondary objective of the plan is to source benefit payments primarily through existing plan assets and anticipated future returns thereby minimizing future cash contributions. The investment objectives shall be implemented in a de-risking framework designed to manage the plan's funded status volatility and minimize future cash contributions. The funded status of the plan shall be measured by the ratio of plan assets to the projected benefit obligation. To reduce the volatility as much as possible, the goal is to attain and/or maintain a funded status of at least a 105% funding level and allocate its assets as outlined below.

The plan has approved an asset allocation strategy that shall change over time in response to future changes in the plan's funded status. Such changes in asset allocation strategy are intended to allocate additional assets to the fixed income asset class should the plan's funded status improve. Accordingly, the fixed income asset class shall be invested in such a manner that its interest rate sensitivity correlates highly with that of the plan's liabilities. Other asset classes are intended to provide additional return with associated higher levels of risk. If the plan's funded status deteriorates beyond stated thresholds, the strategy dictates that additional assets will not be re-allocated to the return-seeking assets.

**Note 9 - Pension and Other Postretirement Benefits (continued)**

Fair value methodologies used to assign plan assets to levels in accordance with ASC 820 are consistent with the inputs described in Note 4. The following table presents the investments of the defined benefit plan carried at fair value as of September 30, 2013 and 2012, by the valuation hierarchy.

| 2013 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Cash and cash equivalents | $ 633,333 | $ - | $ - | $ 633,333 |
| Fixed income mutual funds: | | | | |
| Long duration | 64,833,809 | - | - | 64,833,809 |
| US Core Opportunistic | 13,328,905 | - | - | 13,328,905 |
| US Passive | 2,935,983 | - | - | 2,935,983 |
| Guaranteed investment contract | - | - | 3,230,137 | 3,230,137 |
| Equities: | | | | |
| Small/mid cap | 8,925,030 | - | - | 8,925,030 |
| Large cap | 31,678,381 | - | - | 31,678,381 |
| International | 26,725,272 | - | - | 26,725,272 |
| Total plan assets at fair value | $ 149,060,713 | $ - | $ 3,230,137 | $ 152,290,850 |

| 2012 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Cash and cash equivalents | $ 944,555 | $ - | $ - | $ 944,555 |
| Fixed income mutual funds: | | | | |
| Long duration | 53,025,749 | - | - | 53,025,749 |
| US Core Opportunistic | 12,088,551 | - | - | 12,088,551 |
| US Passive | 2,983,658 | - | - | 2,983,658 |
| Guaranteed investment contract | 183,256 | - | 3,195,313 | 3,378,569 |
| Equities: | | | | |
| Small/mid cap | 8,232,969 | - | - | 8,232,969 |
| Active long corp | 11,917,531 | - | - | 11,917,531 |
| Large cap | 30,277,740 | - | - | 30,277,740 |
| International | 26,369,406 | - | - | 26,369,406 |
| Total plan assets at fair value | $ 146,023,415 | $ - | $ 3,195,313 | $ 149,218,728 |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The changes within the Level 3 investments as of September 30, 2013 and 2012, are as follows:

| 2013 | Guaranteed Investment Contract |
|---|---|
| Balance as of October 1, 2012 | $ 3,195,313 |
| Investment income | 326,682 |
| Expenditures | (291,858) |
| Balance as of September 30, 2013 | $ 3,230,137 |

| 2012 | Guaranteed Investment Contract |
|---|---|
| Balance as of October 1, 2011 | $ 3,374,535 |
| Investment income | 194,239 |
| Expenditures | (373,461) |
| Balance as of September 30, 2012 | $ 3,195,313 |

During fiscal year 2013, ECHN anticipates contributing $5,700,000 to the defined benefit pension plan.

The benefit payments, which reflect estimated future service, expected to be paid from the plans for the year ended September 30, 2013, are as follows:

| | Pension Benefits | Other Postretirement Benefits |
|---|---|---|
| 2014 | $ 7,839,728 | $ 397,164 |
| 2015 | $ 8,177,609 | $ 409,051 |
| 2016 | $ 8,613,029 | $ 401,768 |
| 2017 | $ 9,079,307 | $ 405,187 |
| 2018 | $ 9,773,496 | $ 418,484 |
| 2019-2022 | $ 58,816,410 | $ 2,087,013 |

## Note 9 - Pension and Other Postretirement Benefits (continued)

The Network also has a defined contribution employee savings plan covering substantially all employees. Eligible employees who contribute to the plan will have 20% - 50%, depending upon years of service, of contributions matched by the Network, up to a maximum of 6% of annual compensation. The Network incurred expenses related to the employee savings plan amounting to $2,199,235 and $1,203,448, for the years ended September 30, 2013 and 2012, respectively.

## Note 10 - Long-term Debt and Lines of Credit

Long-term debt and capital lease obligations, as of September 30, 2013 and 2012, consist of the following:

| | 2013 | 2012 |
|---|---|---|
| Connecticut Health and Educational Facilities Authority (CHEFA) Hospital Revenue Bonds, ECHN Series A Bonds, bearing interest at rates ranging from 5.625% to 6.375% - net of unamortized original issue discount of $46,505 and $53,729 for 2013 and 2012, respectively. | $ 9,093,495 | $ 9,886,271 |
| CHEFA Hospital Revenue Bonds, ECHN Series C Bonds, bearing interest ranging from 4.00% to 5.125% - net of unamortized original issue premium of $350,960 and $371,605 for 2013 and 2012, respectively. | 33,760,059 | 34,506,605 |
| CHEFA Hospital Revenue Bonds, ECHN Series D Bonds bearing interest at a variable rate, adjusted weekly. | 14,049,000 | 14,342,000 |
| CHEFA Hospital Demand Revenue Bonds, ECHN Series E Bonds, bearing interest at a variable rate, adjusted weekly. | 17,580,000 | 18,070,000 |
| Loan due to Sovereign Bank, face amount $5,200,000 due and payable in semi-annual principal and interest installments maturing on January 3, 2022 and bearing interest at 3.38% | 4,674,222 | 5,194,222 |
| Promissory note payable to Rockville Bank due and payable in monthly principal and interest installments maturing on January 15, 2015, bearing interest at a fixed rate of 3.75%. | 883,270 | 1,595,192 |
| Promissory note payable to Rockville Bank due and payable in monthly principal and interest installments maturing on July 1, 2025, bearing interest at 5.87%. | 791,933 | 1,092,218 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on May 1, 2018, bearing interest at 4.22% | 615,659 | - |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on December 1, 2017, bearing interest at 4.11% | 568,058 | - |

## Note 10 - Long-term Debt and Lines of Credit (continued)

| | 2013 | 2012 |
|---|---|---|
| Loan due to Chase Equipment Leasing Inc., face amount of $4,000,000 due and payable in monthly principal and interest installments maturing on March 20, 2013, and bearing interest at 3.24%. | - | 429,743 |
| Promissory note payable to 428 Hartford Turnpike Associates, LLP payable in monthly principal and interest installments, maturing September 1, 2021, bearing interest at 6%. | 247,832 | 270,972 |
| Debt of ECHN Corporate Services, various due dates and interest rates | 210,556 | - |
| Mortgage payable to Rockville Bank - 15 years, due April 1, 2022, bearing interest at 6.5% for the first five years, adjustable thereafter every five years. | 160,955 | 176,605 |
| Promissory note payable to Joseph Hanna MD, LLC due and payable in one principal payment due in December 2013. This is a non interest bearing note. | 119,890 | - |
| Mortgage payable to Rockville Bank - 20 years, due January 1, 2007 bearing interest at 6.6% for the first five years, adjustable thereafter, every five years. | 138,019 | 145,836 |
| Capital lease obligations (see Note 12) | 8,355,380 | 8,736,439 |
| Total long-term debt and capital lease obligations | 91,248,328 | 94,446,103 |
| Less: current maturities | (6,832,322) | (6,904,354) |
| Total long-term debt and capital lease obligations - net of current portion | $ 84,416,006 | $ 87,541,749 |

Lines of credit as of September 30, 2013 and 2012 consist of the following:

| | 2013 | 2012 |
|---|---|---|
| Revolving line of credit with TD Bank, bearing interest at a variable rate. | $ 6,500,000 | $ 6,500,000 |

In February 2000, MMH, RGH and EES (collectively, the Series A Obligated Group) entered into an agreement and open-ended mortgage with Connecticut Health and Educational Facilities Authority (CHEFA) in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series 2000A (the Series A Bonds). A portion of the proceeds from the Series 2000A Bonds, net of the original issue discount and amounts used to establish required reserve accounts, was placed in an irrevocable trust from which the remaining debt service payments for defeased CHEFA bonds will be paid. The remainder was used to finance additions and renovations for various facilities. The Series A Obligated Group has been legally released from any future debt service on the defeased bonds. The Series A Bonds are due on various due dates through July 1, 2030.

In July 2004, MMH, RGH, EES, and ECHF (collectively, the Series B Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network Issue, Series B (the Series B Bonds). A portion of the proceeds from the Series B Bonds, net of the original issue discount and amounts used to establish required reserve accounts, was used to finance additions, renovations, and purchases of equipment for RGH and MMH.

**Note 10 - Long-term Debt and Lines of Credit (continued)**

The additions and renovations financed by the Series B Bonds consist of improvements and expansion of the emergency department at RGH; the purchase, renovation, and equipping of the Dialysis Center at RGH; construction of the heliport at RGH, improvements to the Gastrointestinal and Rehabilitation Departments at RGH, and capital equipment purchases for MMH and RGH.

The Series B bonds were refinanced as part of the issuance of Series E bonds as described below.

On October 1, 2005, MMH, RGH, EES, and ECHF (collectively, the Series C Obligated Group) entered into an agreement and open-ended mortgage with CHEFA to borrow $37,065,000 in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network Issue, Series C (the Series C Bonds). The proceeds from the Series C Bonds, net of the original issue premium and amounts used to establish required reserve accounts, were placed in an irrevocable trust to advance refund and defease a portion of the Series 2000A Bonds. MMH, RGH, and EES have been legally released from any future debt service on the portion of defeased Series 2000A Bonds. The Series C Bonds are due on various due dates through July 1, 2034, bearing interest at rates ranging from 4.00% to 5.125%.

In May 2009, MMH, RGH, EES, and ECHF (collectively, the Series D Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series D (the Series D Bonds). A portion of the proceeds from the Series D Bonds, net of amounts used to establish required reserve accounts, were used to finance renovations at MMH, an expansion at EES, and other campus improvements. The Series D Bonds are due on various due dates through May 14, 2039.

In December 2010, MMH, RGH, EES, and ECHF (collectively, the Series E Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series E (the Series E Bonds). The proceeds from the Series E Bonds, net of amounts used to establish required reserve accounts, were used to redeem the Series B Bonds and fund interest rate swap agreement termination payments relating to the Series B Bonds. The Series E Bonds are due on various due dates through July 1, 2034.

Under the terms of the Series A, Series B, Series C, Series D, and Series E Bonds, the Series A Obligated Group, Series B Obligated Group, Series C Obligated Group, Series D Obligated Group, and Series E Obligated Group (the Obligated Groups) are required to maintain certain deposits with a trustee. Such deposits are included in assets whose use is limited. The indenture also places limits on the incurrence of additional borrowings and dispositions of property and requires that the Obligated Groups satisfy certain measures of financial performance as long as the notes are outstanding.

Under the terms of the CHEFA agreements, each member of the Obligated Groups is jointly and severally liable for the full and prompt payment of the amounts owed by the Obligated Groups. Total debt of the Obligated Groups was $78,853,222 and $81,681,222 as of September 30, 2013 and 2012, respectively. The debt is also secured by the gross receipts of the Obligated Groups.

In June 2012, the Obligated Group entered into a loan agreement with Sovereign Bank, through CHEFA's Tax-Exempt Equipment Loan Program, for $5,200,000 in connection with purchase of equipment and renovation costs. The proceeds of the loan, net of disbursements, were included in the current portion of assets whose use is limited as of September 30, 2012. Semi-annual principal and interest payments are due through January 2022.

**Note 10 - Long-term Debt and Lines of Credit (continued)**

The loans due to Chase Equipment Leasing, Inc. were collateralized by the related equipment, accessories, attachments, software, and other property relating thereto.

The Hospital is party to various capital leases, which are described in Note 12.

The annual maturities of the long-term debt and capital lease obligations in each of the succeeding five years and thereafter, as of September 30, 2013, are as follows:

| | |
|---|---|
| 2014 | $ 6,832,322 |
| 2015 | 6,043,234 |
| 2016 | 5,181,475 |
| 2017 | 4,360,978 |
| 2018 | 4,962,866 |
| Thereafter | 63,562,998 |
| | 90,943,873 |
| Plus - premium | 304,455 |
| Total | $ 91,248,328 |

On November 11, 2010, ECHN entered into a $6,500,000 unsecured line of credit with TD Bank, N.A. This line of credit carries an interest rate of LIBOR plus 2.25% and expires one year after issuance date. Subsequent to year end, ECHN renewed this line of credit. As of September 30, 2013 and 2012, MMH had $6,500,000 outstanding.

The Network is subject to various financial covenants related to these debt agreements. The Network received a waiver for violating a debt service coverage ratio for 2013 and the Network was in compliance with these covenants in 2012.

**Note 11 - Derivatives**

The Network uses derivative instruments, specifically interest rate swap agreements, to manage its exposure to changes in the interest rate on its CHEFA bonds. The use of derivative instruments exposes the Network to additional risks related to the derivative instrument, including market risk, credit risk and termination risk as described below, and the Network has defined risk management practices to mitigate these risks, as appropriate.

Market risk represents the potential adverse effect on the fair value and cash flow of a derivative instrument due to changes in interest rates or rate spreads. Market risk is managed through ongoing monitoring of interest rate exposure based on set parameters regarding the type and degree of market risk that the Network will accept. Credit risk is the risk that the counterparty on a derivative instrument may be unable to perform its obligation during the term of the contract. When the fair value of a derivative contract is positive, the counterparty owes the Network, which creates credit risk.

Credit risk is managed by setting stringent requirements for qualified counterparties at the date of execution of a derivative transaction and requiring counterparties to post collateral in the event of a credit rating downgrade or if the fair value of the derivative contract exceeds a negotiated threshold.

**Note 11 - Derivatives (continued)**

Termination risk represents the risk that the Network may be required to make a significant payment to the counterparty, if the derivative contract is terminated early. Termination risk is assessed at onset by performing a statistical analysis of the potential for a significant termination payment under various scenarios designed to encompass expected interest rate changes over the life of the proposed contract. The test measures the ability to make a termination payment without a significant impairment to the Network's ability to meet its debt or liquidity covenants.

In May 2009, ECHN entered into an interest rate swap agreement to manage the interest cost and risk associated with $15,250,000 of its variable rate Series D Bonds. Under the terms of this agreement, ECHN pays a fixed rate of 3.89%. Changes in the fair value of this swap are recorded in the consolidated statements of operations and changes in net assets. The Network's portion of the swap agreement in force related to this strategy as of September 30, 2013 and 2012, and the liability and interest expense recognized by the Network are as follows:

| | 2013 | 2012 |
|---|---|---|
| Notional amount of contract | $ **14,049,000** | $ 14,342,000 |
| Fair value of swap contract recognized in other liabilities | $ **170,000** | $ 417,000 |
| Net interest income recognized in non-operating losses | $ **(248,000)** | $ (170,000) |

In June 2012, ECHN entered into an interest rate swap agreement to manage the interest cost and risk associated with $5,200,000 of its debt with Sovereign Bank. Under the terms, ECHN pays a fixed rate of 3.38%. The swap is accounted for as a cash flow hedge in accordance with ASC 815 "*Accounting for Derivative Instruments and Hedging Activities*". This accounting treatment requires the effective portion of the gain or loss on a derivative instrument designated and qualifying as a cash flow hedging instrument to be reported as a component of other changes in unrestricted net assets and to be reclassified into operations in the same period or periods during which the hedged forecasted transaction affects earnings. The remaining gain or loss on the derivative instrument, if any, shall be recognized currently in non-operating losses.

The Network's portion of the swap agreement in force related to this strategy as of September 30, 2013 and 2012, and the liability and unrealized (gain) loss recognized by the Network are as follows:

| | 2013 | 2012 |
|---|---|---|
| Notional amount of contract | $ **4,674,222** | $ 5,194,222 |
| Fair value of swap contract recognized in other liabilities | $ **12,000** | $ 123,000 |
| Unrealized (gain) loss recognized in unrestricted net assets | $ **(111,000)** | $ 123,000 |

The counterparty to the above swap transactions is a major financial institution that meets ECHN's criteria for financial stability and creditworthiness.

## Note 12 - Lease Commitments

ECHN leases equipment under capital lease agreements, which begin to expire in 2015. The interest rates range from 4% to 8%. The net carrying value of equipment under the capital lease was $8,332,943 and $9,876,879 as of September 30, 2013 and 2012, respectively. ECHN leases various office space and certain equipment under operating leases that expire in various years through fiscal year 2024. Certain leases may be renewed at the end of their term.

Future minimum payments under capital leases and non-cancelable operating leases as of September 30, 2013, consisted of the following:

| | Capital Leases | Operating Leases |
|---|---|---|
| 2014 | $ 3,205,332 | $ 5,252,091 |
| 2015 | 2,706,145 | 4,952,239 |
| 2016 | 2,029,795 | 4,554,735 |
| 2017 | 821,597 | 3,641,042 |
| 2018 | 70,625 | 2,727,478 |
| Thereafter | 67,711 | 15,235,800 |
| | 8,901,205 | $ 36,363,385 |
| Less: interest on capital lease | 545,825 | |
| Principal amount of capital lease | $ 8,355,380 | |

Rent expense under operating and month-to-month leases was $6,264,706 and $6,009,478 for the years ended September 30, 2013 and 2012, respectively.

## Note 13 - Concentrations of Credit Risk

ECHN grants credit without collateral to its patients, most of whom are insured under third-party payer agreements. The mix in patient accounts receivable as of September 30, 2013 and 2012, before allowances for doubtful accounts, consists of the following:

| | 2013 | 2012 |
|---|---|---|
| Medicare | 24% | 29% |
| Self-pay | 40% | 28% |
| Managed care | 17% | 21% |
| Medicaid | 4% | 13% |
| Commercial insurance | 9% | 6% |
| Other | 6% | 3% |
| | 100 % | 100 % |

## Note 14 - Net Patient Service Revenues

Net patient service revenues for the years ended September 30, 2013 and 2012, consists of the following:

| | 2013 | 2012 |
|---|---|---|
| Patient service revenues: | | |
| Inpatient services | $ 328,063,718 | $ 278,843,185 |
| Outpatient services | 572,644,188 | 476,021,456 |
| Gross patient service revenues | 900,707,906 | 754,864,641 |
| Deductions - allowances | (590,585,747) | (477,821,644) |
| Net patient service revenues | $ 310,122,159 | $ 277,042,997 |

In addition, the Network provides for a provision for bad debts. For receivables associated with services provided to patients who have third-party coverage, the Network analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and co-payment balances due for which third-party coverage exists for part of the bill), the Network records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible.

For uninsured patients that do not qualify for financial assistance, the Network offers a discount off its standard rates for services provided. The difference between the discounted rates and the amounts actually collected after all reasonable collection efforts have been exhausted is written off against the allowance for doubtful accounts in the period they are determined uncollectible. The Network's allowance for doubtful accounts covers all accounts greater than 6 months for both self-pay accounts receivable and third party payors as of September 30, 2013. The Network's self-pay and third-party payors write-offs totaled $11,403,046 and $10,998,492 for 2013 and 2012, respectively. The Network did not change its charity care or financial assistance policy during 2013 or 2012.

At September 30, 2013 and 2012, 32.3% and 35.0% of net patient accounts receivable were from governmental payors (Medicare and Medicaid) and 67.7% and 65.0% were from nongovernmental payors, respectively. Nongovernmental payors are primarily insurance companies and self-pay payors. Management has recorded an allowance for doubtful accounts, as noted above, which, in its opinion, is sufficient to provide for risk of nonpayment.

## Note 15 - Community Benefit

ECHN's mission is to improve the health of the people and the communities ECHN serves.

ECHN provides quality health care to all, regardless of their ability to pay. Charity care is provided to those who are eligible based on ECHN's policy. ECHN also incurs unpaid costs for government programs because reimbursement is not sufficient to cover costs associated with Medicare and Medicaid patients. In addition to the charity care responsibilities, ECHN provides numerous other community benefits. These community benefits include medical education and research, community health education, screenings, support groups, counseling services, and in-kind support. To address the need for health care providers, a number of programs are offered for young people who may be interested in a career in health care.

**Note 15 - Community Benefit (continued)**

ECHN utilizes guidelines developed by various organizations to quantify community benefit activities. ECHN defines community benefit activities as those that improve access to care, as well as the health of the broader community. In addition to charity care and the unpaid costs of government sponsored health care (Medicare and/or Medicaid shortfalls), community benefit activities will normally fall into one of the following categories: nonbilled community health services / community health improvement services, health professions education, subsidized health services, research, financial and in-kind contributions, community building activities, and community benefit operations.

MMH and RGH provide care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because MMH and RGH do not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The amount of traditional charity care provided, determined on the basis of cost, was $2,591,214 and $3,398,899 for the years ended September 30, 2013 and 2012, respectively.

**Note 16 - Functional Expenses**

ECHN provides general health care services to residents within its geographical location. For the years ended September 30, 2013 and 2012, expenses relating to providing these services are as follows:

| | 2013 | 2012 |
|---|---|---|
| Health care services | $ 272,099,247 | $ 239,552,240 |
| Fund raising | 544,391 | 396,574 |
| General and administrative | 55,211,560 | 50,499,081 |
| Total | $ 327,855,198 | $ 290,447,895 |

**Note 17 - Temporarily and Permanently Restricted Net Assets**

The temporarily restricted net assets available, as of September 30, 2013 and 2012, are available for the following purposes:

| | 2013 | 2012 |
|---|---|---|
| Departmental and endowment purposes | $ 2,114,039 | $ 2,565,533 |
| Capital campaign and pledges | 473,262 | 677,989 |
| Total | $ 2,587,301 | $ 3,243,522 |

**Note 17 - Temporarily and Permanently Restricted Net Assets (continued)**

As of September 30, 2013 and 2012, permanently restricted net assets consist of the following:

| | 2013 | 2012 |
|---|---|---|
| Beneficial interest in trust assets | $ 7,882,372 | $ 7,400,782 |
| Endowments restricted for: | | |
| Other departmental purposes | 3,709,665 | 3,709,665 |
| Charity care | 546,180 | 540,205 |
| Special needs | 151,579 | 151,579 |
| Cancer research | 6,124 | 6,124 |
| Total | $ 12,295,920 | $ 11,808,355 |

The composition of the Network's endowment by net asset class as of September 30, 2013 and 2012, was as follows:

| 2013 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Donor-restricted endowment funds | $ - | $ 2,121,375 | $ 4,413,548 | $ 6,534,923 |
| Board-designated endowment funds | 33,138,323 | - | - | 33,138,323 |
| Net assets, September 30, 2013 | $ 33,138,323 | $ 2,121,375 | $ 4,413,548 | $ 39,673,246 |

| 2012 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Donor-restricted endowment funds | $ - | $ 2,564,396 | $ 4,407,574 | $ 6,971,970 |
| Board-designated endowment funds | 26,269,872 | - | - | 26,269,872 |
| Net assets, September 30, 2012 | $ 26,269,872 | $ 2,564,396 | $ 4,407,574 | $ 33,241,842 |

The Network's endowments consist of multiple funds established for a variety of purposes. The endowments include both donor-restricted endowment funds, funds designated by the Board of Trustees to function as endowments and assets held in trust by others. As required by GAAP, endowments, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor restrictions.

The Network has interpreted the relevant laws as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Network.

**Note 17 - Temporarily and Permanently Restricted Net Assets (continued)**

The Network considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the Network and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the Network; and (7) the investment policies of the Network.

The Network has adopted investment and spending policies for endowment assets that attempt to provide a reasonably stable and predictable stream of earnings to support the operations of the endowments and to preserve and enhance over time the real value of the endowment assets. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce a real return, net of inflation and investment and management costs, over the long-term. Actual returns in any given year may vary from this amount.

The Investment Committee of the Board is responsible for defining and reviewing the investment policy to determine an appropriate long-term asset allocation policy. The asset allocation policy reflects the objective with allocations structured for capital growth and inflation protection over the long-term.

To satisfy its long-term rate-of-return objectives, the Network relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Network targets a diversified asset allocation that places a greater emphasis on equity based investments to achieve its long-term return objectives within prudent risk constraints.

The Network has not appropriated funds for expenditure from its endowment funds for the years ending September 30, 2013 and 2012.

Changes in endowment net assets for the fiscal year ended September 30, 2013 were as follows:

| 2013 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Net assets, October 1, 2012 | $ 26,269,872 | $ 2,564,396 | $ 4,407,574 | $ 33,241,842 |
| Interest income and dividends | 808,111 | 55,220 | - | 863,331 |
| Realized gains | 2,082,211 | 145,575 | - | 2,227,786 |
| Unrealized appreciation on investments | 2,118,875 | 219,391 | - | 2,338,266 |
| Released from restrictions | 780,616 | (2,339,401) | - | (1,558,785) |
| Contributions | 183,500 | 1,473,843 | - | 1,657,343 |
| Distributions | (1,500,000) | - | - | (1,500,000) |
| Transfers to (from) Endowment | 2,395,138 | 2,351 | 5,974 | 2,403,463 |
| Net assets, September 30, 2013 | $ 33,138,323 | $ 2,121,375 | $ 4,413,548 | $ 39,673,246 |

**Note 17 - Temporarily and Permanently Restricted Net Assets (continued)**

Changes in endowment net assets for the fiscal year ended September 30, 2012 were as follows:

| 2012 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Net assets, October 1, 2011 | $ 19,558,790 | $ 1,677,008 | $ 4,407,574 | $ 25,643,372 |
| Interest income and dividends | 174,204 | 37,521 | - | 211,725 |
| Unrealized appreciation on investments | 4,639,604 | 530,565 | - | 5,170,169 |
| Contributions and releases from restrictions | 2,146,543 | 70,033 | - | 2,216,576 |
| Transfers to (from) Endowment | (249,269) | 249,269 | - | - |
| Net assets, September 30, 2012 | $ 26,269,872 | $ 2,564,396 | $ 4,407,574 | $ 33,241,842 |

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or relevant law requires the Network to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are reported in unrestricted net assets. As of September 30, 2013 and 2012, there were no funds that were below the level required by donor or law.

**Note 18 - Commitments and Contingencies**

The Network is involved in various legal actions arising from its activities. Although the ultimate outcome is not determinable at this time, management, after taking into consideration the advice of legal counsel, believes that the resolution of these pending matters will not have a material adverse effect, individually or in the aggregate, on the consolidated balance sheets or on the related consolidated statements of operations and changes in net assets, or consolidated cash flows of the Network.

The Network and the Network's defined benefit pension plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

**Note 19 - Statutory Capital and Surplus**

CHIC was incorporated in the Cayman Islands on September 15, 2006 and was granted an Unrestricted Class "B" insurance license under the Insurance Law of the Cayman Islands with an effective date of September 26, 2006. CHIC is regulated by the Cayman Islands Monetary Authority (CIMA) and related relations, and is obligated to comply with CIMA regulations regarding minimum levels of solvency and liquidity.

Statutory capital and surplus as of September 30, 2013 was ($856,588) with a minimum amount required to be maintained by CHIC of $120,000. CHIC's equity was below the minimum required capital amount as of September 30, 2013, which was primarily the result of adverse loss development experienced on a limited number of claims relating to prior years. Subsequent to September 30, 2013, ECHN contributed $1,200,000 of additional capital to ensure that the capital balance is in compliance with the CIMA's statutory regulations.

**Note 19 - Statutory Capital and Surplus (continued)**

ECHN reports all of CHIC's investments as investments held in trust for estimated self-insurance liabilities in the accompanying consolidated balance sheets.

CHIC's Board of Directors has recommended that equity of $973,000 be retained to pay claims in the event of adverse development. Distribution of dividends is subject to approval by the Board of Directors. No dividends were declared or paid during the years ended September 30, 2013 and 2012.

Independent Auditors' Report

To the Board of Trustees of
Eastern Connecticut Health Network, Inc. and Subsidiaries:

We have audited the accompanying consolidated financial statements of Eastern Connecticut Health Network, Inc. and Subsidiaries (the Network), a not-for-profit, non-stock corporation, which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

**Management's Responsibility for the Consolidated Financial Statements**

The Network's management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

**Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Connecticut Healthcare Insurance Company, a wholly owned subsidiary, whose statements reflect total assets of $7,384,595 and $5,220,598, as of September 30, 2014 and 2013, respectively, and total revenues of $2,251,542 and $2,440,340, respectively, for the years then ended. These statements were audited by other auditors whose report has been furnished to us and our opinion, insofar as it relates to the amounts included for Connecticut Healthcare Insurance Company, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Network's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Network's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant account estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Eastern Connecticut Health Network, Inc. and Subsidiaries as of September 30, 2014 and 2013, and the results of its consolidated operations and its consolidated cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Supplementary Information**

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information listed within the Table of Contents is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and changes in net assets of the individual entities and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual companies. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

## Note 1 - Organization

Eastern Connecticut Health Network, Inc. (ECHN) and Subsidiaries (collectively the Network) is a not-for-profit, locally governed health system created on September 12, 1995, through the merger of the corporate parents of Manchester Memorial Hospital and Rockville General Hospital, Inc. Its purpose is to provide a health care system for the communities it serves, with quality medical care at a reasonable cost; to foster an environment conducive to health and well-being, whether in the home or in the community; and to enable the health care system to expand to meet the future needs of its communities. ECHN, through its subsidiaries (or members), provides health care, health education, and community services to residents of more than 19 towns in eastern Connecticut, regardless of their ability to pay.

ECHN is the sole member or shareholder of the following subsidiaries:

***The Manchester Memorial Hospital (MMH)*** - MMH is a not-for-profit hospital with 249 licensed beds, located in Manchester, Connecticut. MMH, which admitted its first patient in 1920, is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services to the residents of Manchester and 19 nearby towns.

***The Rockville General Hospital, Inc. (RGH)*** - RGH is a not-for-profit hospital with 102 licensed beds, located in the Rockville section of Vernon, Connecticut. RGH, which admitted its first patient in 1921, is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services for residents of Tolland County and nearby towns, for a total service area of 19 towns.

***ECHN ElderCare Services, Inc. (EES)*** - EES is a not-for-profit, skilled nursing facility with 130 licensed beds and physical, occupational and speech rehabilitation services located in Tolland, Connecticut.

***ECHN Community Healthcare Foundation, Inc. (ECHF)*** - ECHF is a not-for-profit organization whose purpose is to raise funds on behalf of ECHN and its not-for-profit subsidiaries. It was established in 2000, when the fund-raising efforts of ECHN were consolidated into a single not-for-profit foundation. ECHF focuses primarily on the capital and program needs of ECHN and its not-for-profit subsidiaries.

***Eastern Connecticut Medical Professionals Foundation, Inc. (ECMPF)*** - ECMPF is a not-for-profit organization that currently operates physician office practices in the Network's service area and a hospitalist program that serves MMH and RGH. Its mission allows it to operate other not-for-profit, separately incorporated allied health ventures.

***ECHN Enterprises, Inc. (Enterprises)*** - Enterprises is a for-profit organization formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. Enterprises owns, leases and has an interest in real estate to support the mission and vision for ECHN. It is also the parent corporation of Haynes Street Property Management, LLC (HSPM). HSPM is a for-profit, limited liability company formed under the laws of the State of Connecticut, which manages the Glastonbury Wellness Center and sublets space to various MMH departments and physician offices, as well as to ECMPF.

***Visiting Nurse and Health Services of Connecticut, Inc. (VNHSC)*** - VNHSC is a not-for-profit, nonstock Connecticut corporation that provides and administers a comprehensive, multi-disciplinary home health program, hospice program and wellness programs to promote the health of individuals, families and groups in the Greater Northern Central Connecticut area. In addition, VNHSC is the sole member of A Caring Hand, LLC, which is a for-profit Connecticut limited liability company providing and administering homemaker, companion, live-in and personal care assistance services to individuals and families in the Greater Northern Central Connecticut area.

**Note 1 - Organization (continued)**

***Connecticut Healthcare Insurance Company (CHIC)*** - CHIC, a captive insurance company, provides hospital and physician professional and general liability coverage to MMH, RGH, EES, and all other subsidiaries.

***ECHN Corporate Services (ECHNCS)*** - ECHNCS is a for-profit stock corporation formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. ECHNCS provides billing and other practice management services to the Network and other customers. It is also the parent corporation of Medical Practice Partners, LLC (MPP). MPP is a for-profit, limited liability company formed under the laws of the State of Connecticut, which provides practice management services to medical group practices throughout Connecticut.

***CINECT*** - CINECT is a for-profit organization formed to develop a clinically integrated network of community providers that offers high-quality care, value, and an enhanced patient experience. CINECT's mission is to better manage the health of the communities that we serve. While formed during 2014 CINECT has not commenced operations as of September 30, 2014.

ECHN and each of its subsidiaries, except for Enterprises, CHIC, ECHNCS and CINECT, are separate Connecticut not-for-profit corporations, qualified as exempt organizations under Section 501(c)(3) of the Internal Revenue Code (IRC) and governed by separate Boards of Trustees (the Board) - although the membership of the ECHN, MMH and RGH boards are currently identical. ECHN, acting through its Board of Trustees, is the sole member of each of its members. ECHN has various powers with regard to each of its members, which include approving all operating and capital budgets; controlling the investment of funds, location of services, agreements and transactions, and affiliations; controlling changes, amendments, or restatements of certificates of incorporation and bylaws; electing trustees and officers; appointing committees; adopting a system-wide vision and strategic plans; and approving debt borrowings.

In August 2013, the ECHN Board of Trustees announced that it had signed a non-binding letter of intent to negotiate the sale of ECHN to a newly formed joint partnership between Tenet Healthcare Corporation (Tenet) and Yale New Haven Health System (YNHHS). On May 12, 2014, Corporators of ECHN voted favorably on the health system's proposed Asset Purchase Agreement (APA) between ECHN and a historic joint venture between Tenet and YNHHS.

On October 24, 2014, ECHN filed its Certificate of Need (CON) application with the Connecticut State regulatory offices, including the Department of Public Health Office of Health Care Access (OCHA) and the Office of the Attorney General. This formal application process is part of the continued pursuit of the acquisition of ECHN by a joint venture between Tenet and YNHHS.

It is anticipated that the state government's review of the application will continue over the next few months and ECHN is working diligently with state and federal regulators to meet all criteria for final approval of the proposed transaction. A definitive agreement is expected to be reached by sometime in early calendar year 2015.

As of September 30, 2014, management has not finalized a purchase agreement and the Trustees believe that the Network will continue with its normal operations and as a going concern for the foreseeable future.

***Basis of Presentation*** - The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The consolidated financial statements include the accounts of ECHN and its subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation. The assets of any member of the consolidated group may not be available to meet the obligations of other members in the group.

## Note 2 - Summary of Significant Accounting Policies

***Use of Estimates*** - The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Network's significant estimates relate to the valuation of investments and interest rate swap agreements, allowance for doubtful patient accounts receivable, contractual allowances on patient accounts receivable, self-insurance liabilities, estimated settlements due to and from third parties, conditional asset retirement obligations, postretirement and pension benefit costs and the related obligations.

***Cash and Cash Equivalents*** - The Network considers all highly liquid investments with original maturities of three months or less at date of purchase to be cash equivalents, excluding amounts whose use is limited or restricted by Board designation or other arrangements under trust agreements. Cash equivalents include money market funds. Cash balances maintained at banks are insured by the Federal Deposit Insurance Corporation (FDIC). At times, the Network maintains cash balances that are in excess of the $250,000 insured FDIC limits. The Network maintains its cash at various banks and it is the Network's policy to monitor the banks' financial strength on an ongoing basis.

Money market funds are not insured by the FDIC and are not a risk-free investment. Money market funds invest in a variety of instruments including mortgage-backed and asset-backed securities. Although a money market fund seeks to preserve its $1 per share value, it is possible that a money market fund's value can decrease below $1 per share.

***Net Assets*** - Resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. In the accompanying consolidated financial statements, net assets that have similar characteristics have been combined as follows:

> ***Permanently Restricted*** - Net assets subject to explicit donor imposed stipulations that they be maintained by the Network in perpetuity are classified as permanently restricted. Such permanently restricted net assets include endowment funds and MMH's and RGH's share of their beneficial interest in trust assets held by third parties. Generally, the donors of these assets permit the members of ECHN to use all or part of the investment return on these assets for operating purposes.
>
> ***Temporarily Restricted*** - Net assets whose use by the Network is subject to explicit donor imposed stipulations that can be fulfilled upon incurrence of expenditures by the Network pursuant to those stipulations or that expire by the passage of time are classified as temporarily restricted.
>
> ***Unrestricted*** - Net assets that are not subject to explicit donor-imposed stipulations are classified as unrestricted. Unrestricted net assets may be designated for specific purposes by action of the Board or may otherwise be limited by contractual agreements with outside parties; such designated assets are classified as assets whose use is limited in the accompanying consolidated balance sheets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

Revenues are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets, unless their use is restricted by explicit donor stipulations or by law. Expirations of temporary restrictions on net assets, that is, the donor imposed stipulated purpose has been accomplished and/or the stipulated time period has elapsed, are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, are recognized as revenues at the date the promise is received. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at a rate commensurate with the risks involved. Amortization of the discount is included in other revenue. Contributions restricted for the acquisition of land, buildings, and equipment are reported as temporarily restricted support. These contributions are reclassified to unrestricted net assets when the capital asset is acquired or constructed and placed in service.

***Assets Whose Use is Limited*** - Assets whose use is limited primarily include cash and investments held by trustees under indenture agreements, cash and investments held for estimated self-insurance liabilities, Board designated investments, which include endowments, cash and investments set aside by the Board for future capital improvements over which the Board retains control and may at its discretion subsequently use for other purposes; and, beneficial interests in trust assets, which are donor restricted and other restricted investments. Amounts required to meet current liabilities of the Network have been classified as current assets in the consolidated balance sheets as of September 30, 2014 and 2013.

The income earned on restricted funds is generally available for operations of the Network and is recorded as revenue in unrestricted net assets, unless restricted by the donor or to pay future annuity obligations, at which time the income is added to the appropriate restricted net asset balance. However, if a specific gift instrument explicitly requires the permanent reinvestment of appreciation, or a portion thereof, such reinvested amounts are classified within permanently restricted net assets. There were no gifts with reinvestment restrictions for the years ended September 30, 2014 and 2013.

Assets received as donations or bequests are recorded as contributions on the date received at the estimated fair value. The average cost method is used to determine realized gains or losses on sales of marketable equity securities.

***Beneficial Interest in Trust Assets*** - MMH and RGH have been named sole or participating beneficiaries in several perpetual trusts, for which third parties act as the trustee. Under the terms of these trusts, MMH and RGH have the irrevocable right to receive the income earned on the trust assets held in perpetuity. The estimated present value of the future payments to MMH and RGH is recorded at the fair value of the assets held in the trust as beneficial interest in trust assets in the respective balance sheets of MMH and RGH and are permanently restricted as to use.

The income from the trusts is included in the change in interest in net assets of ECHF as unrestricted and temporarily restricted support and other income. Fluctuations in the fair value of the trust assets are recognized as changes in permanently restricted net assets. MMH and RGH record their beneficial interest in trust assets when they are notified of the existence of the trust or when information becomes available to record the fair value of the trust assets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Investments*** - The Network's investment portfolio is classified as available for sale, with unrealized gains and losses excluded from excess of revenues over expenses, unless the losses are deemed to be other than temporary. Investments with readily determinable fair values are measured at fair value in the consolidated balance sheets.

Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenues over expenses, unless the income or loss is restricted by donor or law.

***Other-Than-Temporary Impairments on Investments*** - The Network accounts for other than temporary impairments in accordance with FASB ASC 320, "*Investments - Debt and Equity Securities*" and continually reviews its securities for impairment conditions, which could indicate that an other than temporary decline in market value has occurred. In conducting this review, numerous factors are considered, which include specific information pertaining to an individual company or a particular industry, general market conditions that reflect prospects for the economy as a whole, and the ability and intent to hold securities until recovery. The carrying value of investments is reduced to its estimated realizable value if a decline in fair value is considered to be other-than-temporary. There were no impairments recorded for the years ended September 30, 2014 and 2013.

***Property, Plant and Equipment*** - Property, plant and equipment are stated at cost or, in the case of donated property, at fair value at the date of the gift, less accumulated depreciation and amortization. Major improvements and betterments to existing plant and equipment are capitalized. Expenditures for maintenance and repairs that do not extend the lives of the applicable assets are charged to expense as incurred. Upon disposition or retirement of property, plant and equipment, the cost and related accumulated depreciation and amortization are eliminated from the respective accounts and any resulting gain or loss is included in the results of consolidated operations.

Depreciation expense is computed on a straight-line basis over the following estimated useful lives:

| | |
|---|---|
| Buildings | 10-40 years |
| Building improvements | 5-40 years |
| Machinery and equipment | 3-15 years |
| Furniture and fixtures | 5-20 years |

Equipment under capital leases is amortized utilizing the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. Depreciation and amortization expense was $11,988,770 and $12,137,690 for the years ended September 30, 2014 and 2013, respectively.

Interest cost incurred on borrowed funds during the construction period of capital assets is capitalized as a component of the cost of acquiring those assets.

Physician loan amortization totaling $208,107 and $153,132 for the years ended September 30, 2014 and 2013, respectively, is included within depreciation and amortization in the accompanying consolidated statements of operations and changes in net assets.

Gifts of property and equipment are reported as unrestricted support, and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of property and equipment with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire property and equipment are reported as restricted support. Absent explicit donor stipulations about how long the property and equipment must be maintained, expirations of donor restrictions are reported as released from restrictions when the donated or acquired property and equipment assets are placed in service.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Investments in Joint Ventures*** - The Network has invested in several joint ventures with other area hospitals, which are accounted for under the equity method of accounting. These joint ventures as of September 30, 2014 and 2013 include the Network's investments in the following:

| | 2014 | Ownership Percentage | 2013 | Ownership Percentage |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 6,598,390 | 50 % | $ 6,216,646 | 50 % |
| Tolland Imaging Center | 380,818 | 70 % | 201,010 | 70 % |
| Metro Wheelchair Service Inc. | - | 50 % | 54,224 | 50 % |
| Ambulance Service of Manchester, LLC | 3,798,727 | 50 % | 3,772,317 | 50 % |
| Aetna Ambulance Service Inc. | 1,961,496 | 50 % | 1,772,500 | 50 % |
| Evergreen Endoscopy Center, LLC | 359,698 | 50 % | 292,807 | 50 % |
| Haynes Street Medical Associates | 149,808 | 23 % | 150,193 | 23 % |
| Haynes Street Medical Associates II | 249,744 | 15 % | 236,834 | 15 % |
| Evergreen Medical Associates, LLC | 264,503 | 20 % | 258,137 | 20 % |
| Evergreen Medical Associates II, LLC | 583,419 | 20 % | 559,585 | 20 % |
| Walden Behavioral Health | 196,135 | 16 % | 197,590 | 16 % |
| Total joint venture assets | 14,542,738 | | 13,711,843 | |
| Other miscellaneous assets | 20,000 | | 20,000 | |
| Total investments in joint ventures | $ 14,562,738 | | $ 13,731,843 | |

Distributions from these joint ventures totaled $1,647,629 and $1,802,805 for the years ended September 30, 2014 and 2013, respectively. ECHN's share of the earnings of the joint ventures is reported within other revenues and amounted to $2,478,524 and $2,113,663 for the years ended September 30, 2014 and 2013, respectively.

**Note 2 - Summary of Significant Accounting Policies (continued)**

Summarized financial information from the financial statements of these organizations as of September 30, 2014 and 2013 and for the years then ended, is as follows:

| 2014 | Total Assets | Net Assets | Change in Net Assets | Excess of Revenues (Under) Over Expenses |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 13,250,462 | $ 13,196,779 | $ 763,486 | $ 335,328 |
| Metro Wheelchair Service Inc. | $ 151,744 | $ (23,958) | $ (132,407) | $ (132,412) |
| Ambulance Service of Manchester, LLC | $ 9,224,170 | $ 7,597,455 | $ 52,822 | $ 2,052,822 |
| Aetna Ambulance Service Inc. | $ 4,926,263 | $ 3,922,991 | $ 377,992 | $ 378,000 |
| Haynes Street Medical Associates | $ 2,516,732 | $ 705,640 | $ 42,487 | $ 66,803 |
| Haynes Street Medical Associates II | $ 8,596,515 | $ 1,888,090 | $ 318,384 | $ 275,998 |
| Evergreen Endoscopy Center, LLC | $ 1,595,233 | $ 429,991 | $ (155,623) | $ 944,374 |
| Evergreen Medical Associates, LLC | $ 6,612,745 | $ 1,632,513 | $ 293,056 | $ 215,698 |
| Evergreen Medical Associates II, LLC | $ 11,786,731 | $ 3,059,097 | $ 129,108 | $ 365,789 |
| Tolland Imaging Center | $ 775,884 | $ 544,026 | $ 256,871 | $ 241,197 |
| Walden Behavioral Health | $ 1,955,576 | $ 1,190,586 | $ (14,597) | $ 44,830 |

| 2013 | Total Assets | Net Assets | Change in Net Assets | Excess of Revenues (Under) Over Expenses |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 12,490,586 | $ 12,433,293 | $ 212,661 | $ 295,288 |
| Metro Wheelchair Service Inc. | $ 221,853 | $ 108,449 | $ (60,913) | $ (60,914) |
| Ambulance Service of Manchester, LLC | $ 8,782,743 | $ 7,544,633 | $ 194,425 | $ 2,494,426 |
| Aetna Ambulance Service Inc. | $ 4,269,492 | $ 3,544,999 | $ 420,403 | $ 420,404 |
| Haynes Street Medical Associates | $ 2,542,951 | $ 663,153 | $ 23,205 | $ 79,920 |
| Haynes Street Medical Associates II | $ 8,435,369 | $ 1,569,706 | $ (112,714) | $ 181,272 |
| Evergreen Endoscopy Center, LLC | $ 1,746,503 | $ 585,614 | $ (208,332) | $ 370,077 |
| Evergreen Medical Associates, LLC | $ 6,484,054 | $ 1,339,457 | $ 45,367 | $ 239,569 |
| Evergreen Medical Associates II, LLC | $ 11,906,047 | $ 2,929,989 | $ (99,281) | $ 394,554 |
| Tolland Imaging Center | $ 934,135 | $ 287,155 | $ 72,449 | $ 65,048 |
| Walden Behavioral Health | $ 1,651,417 | $ 1,205,183 | $ 53,023 | $ (16,006) |

***Unamortized Bond Issue Costs*** - Financing costs associated with the issuance of long-term debt are amortized over the term of the bonds using the effective interest method. Amortization is included in interest and financing costs in the accompanying consolidated statements of operations and changes in net assets, and the unamortized carrying value is recorded within other - net in the accompanying consolidated balance sheets.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Intangible Assets*** - Intangible assets, principally license enhancements and goodwill, are amortized over the life of the respective intangible property. On average, this amortization period for license enhancements and goodwill is 18 and 5 years, respectively. Amortization is included in depreciation and amortization in the accompanying consolidated statements of operations and changes in net assets and the unamortized carrying value is recorded within goodwill and intangible assets - net in the accompanying consolidated balance sheets. Any residual value remaining after the amortization period is considered insignificant.

***Deferred Revenue*** - Deferred revenue represents payments received for services to be rendered in the next fiscal year and is recorded within other current liabilities in the accompanying consolidated balance sheets.

***Excess of Revenues (Under) Over Expenses*** - The consolidated statements of operations and changes in net assets include excess of revenues (under) over expenses. Changes in unrestricted net assets, which are excluded from the excess of revenues (under) over expenses, consistent with industry practice, include the changes in unrealized appreciation (depreciation) on investments; net change in fair value of interest rate swap agreements that qualifies for hedge accounting; net assets released from restrictions used for capital acquisitions; pension and postretirement related adjustments; and other changes in net assets.

For purposes of display, transactions deemed by management to be ongoing, major or central to providing of health care services are reported as operating revenues and operating expenses. Operating revenues include net patient service revenue, grant income and investment income. Peripheral or incidental transactions are reported as non-operating gains and losses. Non-operating gains and losses include investment income and expenses related to property management, losses recognized on investments representing declines in value considered to be other-than-temporary in nature, changes in the fair values of interest rate swaps that do not qualify for hedge accounting (net interest expense) and the costs associated with pursuing business combinations.

***Charity Care*** - MMH and RGH provide care to patients who meet certain criteria under their charity care policies without charge or at amounts less than its established and contractual rates. The hospitals do not pursue collection of amounts determined to qualify as charity care; as such, these amounts are not reported as revenue.

***Net Patient Service Revenues*** - Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Contracts, laws, and regulations governing Medicare, Medicaid, Blue Cross, and the uncompensated care pool programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Network records adjustments in amounts accrued for estimated settlements related to prior years.

A portion of the accrual for estimated settlements with third-party payers has been classified as long-term because such amounts, by their nature or by virtue of regulation or legislation, are not expected to be paid within one year.

**Note 2 - Summary of Significant Accounting Policies (continued)**

MMH and RGH have agreements with third-party payers that provide for payments at amounts different from their established rates. A summary of the payment agreements with major third-party payers is as follows:

***Medicare*** - Acute care hospitals are subject to a federal prospective payment system for most Medicare inpatient hospital services and for certain outpatient services. Under this prospective payment methodology, Medicare pays a prospectively determined per-discharge or per-visit rate for non-physician services. These rates vary according to the Diagnosis Related Group or Ambulatory Payment Classification of each patient.

Inpatient rehabilitation and mental health services, outpatient services, capital and medical education costs related to Medicare beneficiaries are paid based on a prospective payment system, subject to certain limitations. The Hospital is reimbursed for cost-reimbursement for certain items at a tentative rate, with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediary. Certain other outpatient services are reimbursed according to fee screens.

***Medicaid*** - Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost-reimbursement methodology. The hospitals are reimbursed at a tentative rate, with final settlement determined after submission of annual cost reports by the hospitals.

***Other Payers*** - The Network has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes rates per discharge, discounts from established charges, per diem rates, and fee schedule payments.

***Health Care Industry*** - The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

Management believes that the Network is in compliance with fraud and abuse regulations, as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to further governmental review and interpretation, as well as regulatory actions unknown or unasserted at this time.

***EHR Incentive Payment Revenue*** - The American Recovery and Reinvestment Act of 2009 authorized the Centers for Medicare and Medicaid Services (CMS) to award incentive payments to eligible health care providers who demonstrate Meaningful Use of certified electronic health records (EHR). These incentive programs are designed to support providers in this period of health information technology transition and instill the use of EHRs in meaningful ways to help our nation to improve the quality, safety, and efficiency of patient health care. Total revenue recorded for Medicare amounted to $1,786,134 and $2,630,820, for the years ended September 30, 2014 and 2013, respectively.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Future Operations*** - Current trends in the health care industry include mergers and other forms of affiliations among providers, increasing shifts to managed care, overall reduction in inpatient average length of stay, increasingly restrictive reimbursement policies by governmental and private payers, and the prospect of significant changes in legislation at the state and national level. Management cannot assess or project the ultimate effect of these or other items on the future operations of the Network.

***Interest in Net Assets of ECHF*** - ECHF was formed as a not-for-profit organization to supervise the development activities and engage in investment activities for the benefit of all of the ECHN subsidiaries. ECHN is the sole member of ECHF and the ECHF's Board of Directors is appointed by ECHN. ECHN subsidiaries follow the provisions of FASB ASC 958 *"Not-for-Profit Entities"*. Accordingly, the separate ECHN members record their interest in the net assets of ECHF in their separate financial statements. These amounts have been eliminated in consolidation.

***Income Taxes*** - ECHN and its subsidiaries, except for Enterprises, CHIC, ECHNCS and CINECT, are in compliance with the provisions of Internal Revenue Code (the Code) Sec. 501(c)(3) and are exempt from federal tax under IRC Sec. 501(a). At times, the Network is involved with activities that subject minor amounts of unrelated business federal income tax, which are paid as they come due in accordance with the Code and the regulations there under. Such amounts are insignificant to the Network's consolidated financial statements.

The Network accounts for uncertain tax positions in accordance with provisions of FASB ASC 740, *"Income Taxes"*, which provides a framework for how companies should recognize, measure, present and disclose uncertain tax positions in their consolidated financial statements. The Network may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The Network does not have any uncertain tax positions as of September 30, 2014 and 2013. As of September 30, 2014 and 2013, the Network did not record any penalties or interest associated with uncertain tax positions. Generally, the Network's prior three tax years are open and subject to examination by the Internal Revenue Service.

Enterprise and its subsidiaries, ECHNCS and CINECT are for-profit entities subject to federal and state taxes. For these entities, ECHN applies the provisions of FASB ASC 740. The tax provisions, and related tax assets and liabilities, are not material. CHIC has received an undertaking from the Cayman Islands government exempting it from all local income, profits, and capital gains taxes until January 3, 2026. No such taxes are currently levied in the Cayman Islands. Accordingly, no provision for federal income taxes has been recorded in the accompanying consolidated financial statements.

***Asset Retirement Obligations*** - The Network recognizes a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation is factored into the measurement of the liability when sufficient information exists. The types of asset retirement obligations that the Network recognizes are those for which the Network has a legal obligation to perform an asset retirement activity, however, the timing and/or method of settling the obligation are conditional on a future event that may or may not be within its control.

The fair value of a liability for the legal obligation associated with an asset retirement is recorded in the period in which the obligation is incurred. When the liability is initially recorded, the cost of the asset retirement is capitalized. As of September 30, 2014 and 2013, the Network has recognized $412,007, as an obligation to remove asbestos from various buildings upon retirement. This total is included in the consolidated balance sheets within other liabilities.

**Note 2 - Summary of Significant Accounting Policies (continued)**

***Accounting for Defined Benefit Pension and Other Postretirement Plans*** - The Network recognizes the overfunded or underfunded status of their defined benefit pension and other postretirement benefit plans (collectively, postretirement benefit plans) in the consolidated balance sheets as an asset or liability. The Network recognizes changes in the funded status of the plans in the year in which the changes occur as an operating expense and as a change in unrestricted net assets presented below the excess of revenues over expenses in its consolidated statements of operations and changes in net assets.

***Inventory*** - The Network records inventory at cost using the average cost method.

***Impairment of Long-Lived Assets*** - Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value, less cost to sell.

***Estimated Self-Insurance Liabilities*** - The liabilities for outstanding losses and loss related expenses, and the related provision for losses and loss related expenses include estimates for malpractice losses, general liability, and workers' compensation incurred but not reported claims, as well as losses pending settlement. Such liabilities are necessarily based on estimates and, while management believes the amounts provided are adequate, the ultimate liability may be in excess of or less than the amounts provided. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The methods for making such estimates and the resulting liability are actuarially reviewed on an annual basis, and any adjustments required are reflected in operations in the current period. The current portion of estimated self-insurance liabilities is recorded within other current liabilities in the accompanying consolidated balance sheets.

***Concentration of Credit Risk*** - Financial instruments, which potentially subject the Network to concentration of credit risk, consist of accounts receivable, investments, including temporary cash investments, marketable equity and debt securities, mutual funds, government securities and interest rate swap agreements. The Network receives a significant portion of its payments for services rendered from a limited number of government and commercial third-party payers, including Medicare (a federal program), Medicaid (a State of Connecticut program), and various health insurance companies.

***Interest Rate Swap Agreements*** - Interest rate swap agreements are recognized as either assets or liabilities in the consolidated balance sheet at fair value regardless of the purpose or intent for holding them. Changes in the fair value of interest rate swap agreements are recognized in non-operating losses or if designated and effective as hedge transactions, as changes in unrestricted net assets.

***Advertising Costs*** - The Network expenses advertising costs the first time the advertising takes place. The total amount charged to advertising expense was $1,576,106 and $1,842,135 for the years ended September 30, 2014 and 2013, respectively, and is recorded in supplies and other expenses in the accompanying consolidated statements of operations and changes in net assets.

***Accounting Pronouncements Adopted*** - In December 2011, the FASB issued Accounting Standards Update (ASU) 2011-11, "*Disclosures about Offsetting Assets and Liabilities*", which was later clarified by ASU 2013-01, "*Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*". This guidance contained new disclosure requirements regarding the nature of an entity's rights of setoff and related arrangements associated with its financial instruments and derivative instruments. This guidance became effective for the Network beginning on October 1, 2013, and did not have an impact on its consolidated financial statements.

**Note 2 - Summary of Significant Accounting Policies (continued)**

In October 2012, the FASB issued ASU 2012-05, *"Statement of Cash Flows (Topic 230): Not-for-Profit Entities: Classification of the Sale Proceeds of Donated Financial Assets in the Statement of Cash Flows"*. This guidance provides clarification on how entities classify cash receipts arising from the sale of certain donated financial assets in the statement of cash flows. This guidance became effective for the Network beginning on October 1, 2013, and did not have a material impact on its consolidated statements of cash flows.

***Accounting Pronouncements Pending Adoption*** - In February 2013, the FASB issued ASU 2013-04, *"Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date"*. This guidance requires entities to measure obligations resulting from the joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date. This guidance is effective for the Network beginning October 1, 2014, with early adoption permitted. The Network has not yet evaluated the impact this guidance may have on its consolidated financial statements.

***Subsequent Events*** - Subsequent events have been evaluated through January 27, 2015, the date through which procedures were performed to prepare the consolidated financial statements for issuance. Management believes that there are no subsequent events having a material impact on the consolidated financial statements.

**Note 3 - Assets Whose Use is Limited and Investments**

Assets whose use is limited and investments as of September 30, 2014 and 2013, include the following:

| | 2014 | | 2013 | |
|---|---|---|---|---|
| | Cost | Fair Value | Cost | Fair Value |
| Board designated and donor-restricted: | | | | |
| Money market funds | $ 44,043,227 | $ 44,043,227 | $ 507,386 | $ 507,386 |
| U.S. equities | - | - | 215,775 | 206,426 |
| Other investments | 34,368 | 34,795 | - | - |
| Mutual funds: | | | | |
| U.S. small/mid cap | - | - | 2,887,193 | 3,203,837 |
| Investment grade taxable | - | - | 413,221 | 403,449 |
| Short-term bond fund | - | - | 2,027,248 | 2,006,817 |
| Large value fund | - | - | 11,535,567 | 12,161,104 |
| Moderate allocation funds | - | - | 11,605,313 | 12,765,022 |
| Foreign growth fund | - | - | 6,058,560 | 7,104,073 |
| Other | - | - | 1,038,597 | 1,315,132 |
| Total | $ 44,077,595 | $ 44,078,022 | $ 36,288,860 | $ 39,673,246 |

**Note 3 - Assets Whose Use is Limited and Investments (continued)**

| | 2014 | | 2013 | |
|---|---|---|---|---|
| | Cost | Fair Value | Cost | Fair Value |
| Investments held in trust for estimated self-insurance liabilities: | | | | |
| Money market funds | $ 96,364 | $ 96,364 | $ 326,811 | $ 326,811 |

| Investments: | | | | |
| Money market funds | $ 7,138,341 | $ 7,138,341 | $ 455,766 | $ 455,766 |
| U.S. equities | - | - | 239,278 | 273,569 |
| Corporate bonds | - | - | 15,389 | 15,427 |
| Certificates of deposit | - | - | 100,000 | 100,751 |
| Mutual funds: | | | | |
| U.S. small/mid cap | - | - | 933,236 | 1,042,212 |
| Investment grade taxable | - | - | 399,749 | 396,103 |
| Global high yield taxable | - | - | 81,205 | 81,489 |
| Short-term bond | - | - | 5,715,771 | 5,688,229 |
| Large value fund | - | - | 1,243,896 | 1,509,882 |
| Moderate allocation funds | - | - | 1,694,843 | 2,017,532 |
| Foreign large fund | - | - | 1,169,563 | 1,428,580 |
| Total | $ 7,138,341 | $ 7,138,341 | $ 12,048,696 | $ 13,009,540 |
| Total assets whose use is limited and investments | $ 72,756,467 | $ 74,366,800 | $ 64,096,924 | $ 69,823,677 |

Interest and dividend income, which is included in other operating revenue, on the assets whose use is limited and investments totaled $1,327,419 and $1,556,974 for the years ended September 30, 2014 and 2013, respectively. There were realized gains of $7,812,247 and $5,584,750 for the years ended September 30, 2014 and 2013, respectively, which are included within other revenues.

## Note 4 - Fair Value Measurements

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

*Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Network has the ability to access.

*Level 2* - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

*Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following table presents the financial instruments carried at fair value as of September 30, 2014 and 2013, by the valuation hierarchy.

| 2014 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Assets: | | | | |
| Money market funds | $ 56,452,256 | $ - | $ - | $ 56,452,256 |
| U.S. government securities | 1,161,137 | - | - | 1,161,137 |
| U.S. equities | 255,038 | - | - | 255,038 |
| Other investments | 34,795 | - | - | 34,795 |
| Mutual funds: | | | | |
| Bond fund | 3,625,132 | - | - | 3,625,132 |
| Equity mututal funds | 798,211 | - | - | 798,211 |
| Emerging markets fund | 101,014 | - | - | 101,014 |
| Midcap stock fund | 77,581 | - | - | 77,581 |
| Moderate allocation fund | 52,415 | - | - | 52,415 |
| Beneficial interest in trusts | - | - | 11,809,221 | 11,809,221 |
| Total assets at fair value | $ 62,557,579 | $ - | $ 11,809,221 | $ 74,366,800 |
| Liabilities: | | | | |
| Obligations under interest rate swap agreements | $ - | $ 3,800 | $ - | $ 3,800 |
| Total liabilities at fair value | $ - | $ 3,800 | $ - | $ 3,800 |

**Note 4 - Fair Value Measurements (continued)**

| 2013 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Assets: | | | | |
| Money market funds | $ 7,284,544 | $ - | $ - | $ 7,284,544 |
| U.S. government securities | 798,007 | - | - | 798,007 |
| Corporate bonds | 15,427 | - | - | 15,427 |
| Certificates of deposit | 100,751 | - | - | 100,751 |
| U.S. equities | 528,320 | - | - | 528,320 |
| Mutual funds: | | | | |
| U.S. small/mid cap | 4,246,049 | - | - | 4,246,049 |
| Investment grade taxable | 799,552 | - | - | 799,552 |
| Global high yield taxable | 81,489 | - | - | 81,489 |
| Bond fund | 1,075,321 | - | - | 1,075,321 |
| Short-term bond fund | 7,695,046 | - | - | 7,695,046 |
| Large value fund | 13,670,986 | - | - | 13,670,986 |
| Moderate allocation fund | 15,649,222 | - | - | 15,649,222 |
| Foreign growth fund | 7,104,073 | - | - | 7,104,073 |
| Emerging markets fund | 90,905 | - | - | 90,905 |
| Midcap stock fund | 27,609 | - | - | 27,609 |
| International stock fund | 30,292 | - | - | 30,292 |
| Foreign large fund | 1,428,580 | - | - | 1,428,580 |
| Other | 1,315,132 | - | - | 1,315,132 |
| Beneficial interest in trusts | - | - | 7,882,372 | 7,882,372 |
| Total assets at fair value | $ 61,941,305 | $ - | $ 7,882,372 | $ 69,823,677 |
| Liabilities: | | | | |
| Obligations under interest rate swap agreements | $ - | $ 181,635 | $ - | $ 181,635 |
| Total liabilities at fair value | $ - | $ 181,635 | $ - | $ 181,635 |

During the years ended September 30, 2014 and 2013, the value of the beneficial interest in trusts increased for a change in market value of $676,292 and $787,751, respectively. In addition, the Network received $500,251 and $306,161 in distributions from these trusts in 2014 and 2013, respectively. During 2014, the Network recorded additional beneficial interest in trust assets in the amount of $3,750,808. There were no additional amounts recorded in 2013.

The Network's valuation methodologies used to measure financial assets and liabilities at fair value are outlined below. Where applicable, the Network uses quoted prices in active markets for identical assets and liabilities to determine fair value (Level 1 inputs). This pricing methodology applies to money market funds, U.S. government securities, certificates of deposit, U.S. equities and mutual funds.

**Note 4 - Fair Value Measurements (continued)**

If quoted prices in active markets for identical assets and liabilities are not available, then quoted prices for similar assets and liabilities, quoted prices for identical assets or liabilities in inactive markets or inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, will be used to determine fair value (Level 2 inputs). The Level 2 classifications include the corporate bonds and interest rate swap agreements. The interest rate swap agreements are valued based on a determination of market expectations relating to the future cash flows associated with the swap contract using sophisticated modeling based on observable market-based inputs, such as interest rate curves.

Assets and liabilities that are valued using significant unobservable inputs, such as extrapolated data, proprietary models, or indicative quotes that cannot be corroborated with market data are classified in Level 3 within the fair value hierarchy. The Level 3 classification includes the Network's beneficial interest in trusts. The value of the Network's assets is based on total fund values and the Network's corresponding beneficiary percentage.

The fair value of the Network's Series A and C Bonds are based on current traded value. The fair value of the Series A and C Bonds as of September 30, 2014 and 2013, is approximately $41,166,328 and $41,854,230, respectively. The fair value of the Network's remaining long-term debt approximates its carrying value.

As of September 30, 2014 and 2013, the Network's other financial instruments included accounts receivable, accounts payable and accrued expenses and estimated settlements due to and from third-party payers. The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate their fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Network believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Note 5 - Other Assets**

Other assets as of September 30, 2014 and 2013 consist of the following:

| | 2014 | 2013 |
|---|---|---|
| Pledges receivable, net | $ - | $ 210,112 |
| Other receivables | 795,005 | 887,661 |
| Notes receivable | 134,014 | 307,040 |
| Unamortized bond issuance costs | 2,282,438 | 2,580,484 |
| Losses recoverable | 2,157,634 | 2,247,835 |
| Total | $ 5,369,091 | $ 6,233,132 |

As of September 30, 2014 and 2013, $228,691 and $687,146 of pledges receivables have been included within prepaid expenses and other current assets as management anticipates them to be collected within the next year.

**Note 5 - Other Assets (continued)**

Pledges receivable are expected to be realized as follows:

| | 2014 | 2013 |
|---|---|---|
| In one year or less | **$ 237,691** | $ 688,276 |
| Between one and five years | **-** | 213,662 |
| Greater than five years | **-** | - |
| Less: discount for present value and allowance for uncollectible amounts | **(9,000)** | (4,680) |
| Pledges receivable - net | **$ 228,691** | $ 897,258 |

Pledges receivable are reported at their net present value, discounted at rates from .10% to 4.90%. There was no allowance for uncollectible amounts recorded as of September 30, 2013.

As of September 30, 2014 and 2013, unamortized bond issuance costs, which are included within other assets, consist of the following:

| | 2014 | 2013 |
|---|---|---|
| Deferred financing costs | **$ 3,735,675** | $ 3,735,675 |
| Less: accumulated amortization | **(1,453,237)** | (1,155,191) |
| Total | **$ 2,282,438** | $ 2,580,484 |

**Note 6 - Property, Plant and Equipment**

Property, plant and equipment as of September 30, 2014 and 2013, consist of the following:

| | 2014 | 2013 |
|---|---|---|
| Land and land improvements | **$ 5,395,243** | $ 5,333,743 |
| Buildings and building improvements | **159,603,375** | 160,660,529 |
| Fixed equipment | **32,403,097** | 31,817,532 |
| Movable equipment | **112,056,204** | 104,373,295 |
| | **309,457,919** | 302,185,099 |
| Less: accumulated depreciation and amortization | **(218,033,560)** | (206,928,185) |
| | **91,424,359** | 95,256,914 |
| Construction in progress | **2,641,200** | 931,583 |
| Total | **$ 94,065,559** | $ 96,188,497 |

**Note 6 - Property, Plant and Equipment (continued)**

For the years ended September 30, 2014 and 2013, the Network capitalized interest related to construction financed with tax-exempt debt of $20,850 and $126,000, respectively. The cost to complete the construction in progress is approximately $4,154,000 and $2,981,000 as of September 30, 2014 and 2013, respectively.

For the years ended September 30, 2014 and 2013, the Network disposed of property, plant and equipment in the amounts of $657,588 and $24,086,313, respectively and all disposals were of fully depreciated assets.

**Note 7 - Intangible Assets**

The gross carrying amount and accumulated amortization, by class of intangible assets, as of September 30, 2014 and 2013, consisted of the following:

| 2014 | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|---|---|---|---|
| License enhancements | $ 1,898,684 | $ (1,378,528) | $ 520,156 |
| Other intangible assets | 101,000 | (95,950) | 5,050 |
| Goodwill | 7,317,518 | (875,371) | 6,442,147 |
| Total | $ 9,317,202 | $ (2,349,849) | $ 6,967,353 |

| 2013 | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|---|---|---|---|
| License enhancements | $ 1,898,684 | $ (1,349,202) | $ 549,482 |
| Other intangible assets | 101,000 | - | 101,000 |
| Goodwill | 7,252,932 | (757,545) | 6,495,387 |
| Total | $ 9,252,616 | $ (2,106,747) | $ 7,145,869 |

Amortization expense related to intangible assets was $243,102 and $149,767 for the years ended September 30, 2014 and 2013, respectively.

The estimated amortization expense in each of the succeeding five fiscal years and thereafter, as of September 30, 2014, is as follows:

| | |
|---|---|
| 2015 | $ 228,440 |
| 2016 | 215,257 |
| 2017 | 200,714 |
| 2018 | 108,831 |
| 2019 | 73,359 |
| Thereafter | 439,526 |
| Total | $ 1,266,127 |

**Note 8 - Estimated Self-Insurance Liabilities**

The Network is self-insured for workers' compensation insurance coverage. The Network participates in Workers' Compensation Trust, a revocable trust, for the purpose of setting aside assets based on actuarial recommendations.

As of September 30, 2014 and 2013, the Hospital has a $450,000 and $400,000, respectively limit per occurrence for workers' compensation claims. Prior to September 30, 2013, the per occurrence limit was $350,000. The Network has employed independent actuaries to estimate the ultimate costs, if any, of workers' compensation claims. Accrued workers' compensation reserves have been discounted at 5% as of September 30, 2014 and 2013, and in management's opinion provide an adequate reserve for loss contingencies.

In fiscal year 2007, ECHN established a single-parent captive, CHIC, which covers all of its subsidiaries. The captive provides malpractice and general insurance coverage for ECHN and its subsidiaries at $3,000,000 per occurrence and $9,000,000 in the aggregate for the years ended September 30, 2014 and 2013.

Effective October 1, 2009, CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general care liability, automobile liability, employers liability, helipad liability and non-owned aircraft liability. The limit provided is $30,000,000 for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage is fully reinsured.

ECHN does not self-insure any malpractice risks other than exposures greater than its excess coverages, however, as of September 30, 2014 and 2013, ECHN has recorded a liability for estimated incurred but not reported claims, as it currently has a claims-made policy with CHIC.

The activity in the reserve for outstanding losses and loss related expenses at ECHN for workers' compensation and malpractice claims, as of September 30, 2014 and 2013, is as follows:

| | 2014 | 2013 |
|---|---|---|
| Balance at beginning of year | $ 11,296,110 | $ 14,873,830 |
| Workers' compensation: | | |
| Losses incurred related to: | | |
| Current year | 820,878 | 697,778 |
| Prior year | 293,054 | 3,200,111 |
| Total incurred | 1,113,932 | 3,897,889 |
| Paid losses related to: | | |
| Current year | (502,541) | (414,370) |
| Prior year | (1,260,229) | (1,732,496) |
| Total paid | (1,762,770) | (2,146,866) |
| Professional and general: | | |
| Losses incurred related to: | | |
| Current year | 2,500,000 | 997,781 |
| Prior year | (476,182) | 6,950,980 |
| Total incurred | 2,023,818 | 7,948,761 |
| Paid losses related to: | | |
| Current year | (35,098) | (45,727) |
| Prior year | (628,237) | (13,231,777) |
| Total paid | (663,335) | (13,277,504) |
| Balance at end of year | $ 12,007,755 | $ 11,296,110 |

**Note 8 - Estimated Self-Insurance Liabilities (continued)**

***Workers' Compensation*** - The development on prior-year incurred losses increased by $293,054 and $3,200,111 for the years ended September 30, 2014 and 2013, respectively.

***Professional and General*** - The development on prior-year incurred losses (decreased) increased by $476,182 and $6,950,980 for the years ended September 30, 2014 and 2013, respectively.

The reserve for losses, which was determined with the assistance of an actuarial consultant, included estimates of claims incurred but not reported. Approximately $2,324,000 and $2,272,000 of the reserve as of September 30, 2014 and 2013, respectively, are included in other current liabilities with the remaining balance of the reserve included in estimated self-insurance liabilities in the accompanying consolidated balance sheets.

**Note 9 - Pension and Other Postretirement Benefits**

ECHN has a defined benefit pension plan that covered substantially all of the employees of MMH and RGH. The benefits are based upon years of service and compensation for the five highest years during the employee's last 10 years of service. The hospitals contribute amounts sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as well as such additional amounts as deemed appropriate.

On December 31, 2008, ECHN implemented a soft freeze on the defined-benefit pension plan. During September 2013 the Trustees passed a resolution to freeze all benefits related to the defined-benefit pension plan. Qualifying employees with age and service credits greater than 65 were given the option to stay in the defined-benefit pension plan or freeze their defined benefits and enter into a defined contribution plan. All other employees were required to enter into the defined contribution plan. Under the defined contribution plan, ECHN contributes 3% of eligible employees' salaries. This contribution is non-guaranteed for all employees except certain union workers. During fiscal year 2014 and 2013, the Hospital incurred expenses of $2,259,145 and $2,076,122, respectively, related to this plan.

MMH and RGH also sponsor a postretirement benefit plan that provides health care benefits to those employees who retire. The criterion to receive this benefit is to be vested in the pension plan, attain age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. MMH full-time registered nurse retirees (retired prior to October 1, 2005 and were eligible per the Union contract) are grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the plan.

Grandfathered eligible retirees are required to pay 100% of the total cost of the medical and dental coverage they elect for an eligible spouse.

For non-grandfathered retirees, the postretirement health care plan is contributory and the retiree pays 100% of the premium.

The Network, as of September 30, 2014 and 2013, has no unrecognized actuarial losses related to the defined benefit pension plan.

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The effects of Medicare Prescription Drug, Improvement and Modernization Act of 2003 were reflected as of September 30, 2014 and 2013, assuming that ECHN will continue to provide a prescription drug benefit to retirees that is at least actuarially equivalent to Medicare Part D and that ECHN will receive the federal subsidy. The subsidy reduced plan liabilities by approximately $60,000 and $900,000 for the years ended September 30, 2014 and 2013, respectively. Subsidies of $82,280 and $90,769 were received in the years ended September 30, 2014 and 2013, respectively. Future benefits of $193,769 are expected to be paid and future subsidies of $57,671 are expected to be received related to the year ended September 30, 2015.

The pension and postretirement plans' change in benefit obligation and change in plan assets for the years ended September 30, 2014 and 2013, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2014 | 2013 | 2014 | 2013 |
| **Change in benefit obligation:** | | | | |
| Benefit obligation, beginning of year | $ 192,294,259 | $ 223,101,495 | $ 4,193,572 | $ 4,633,005 |
| Service cost | 1,511,408 | 2,709,867 | 54,345 | 72,548 |
| Interest cost | 9,912,203 | 9,475,222 | 183,189 | 162,852 |
| Plan participants' contributions | - | - | 252,224 | 296,951 |
| Receipt of Medicare Part D reimbursement | - | - | 82,280 | 90,769 |
| Plan amendments | - | - | (1,500,168) | - |
| Plan curtailments | - | (7,795,069) | - | - |
| Actuarial loss (gain) | 18,293,175 | (26,124,678) | 103,272 | (499,239) |
| Benefits paid | (9,352,892) | (9,072,578) | (520,055) | (563,314) |
| Benefit obligation, end of year | $ 212,658,153 | $ 192,294,259 | $ 2,848,659 | $ 4,193,572 |
| **Change in plan assets:** | | | | |
| Fair value of plan assets, beginning of year | $ 152,290,850 | $ 149,218,728 | $ - | $ - |
| Actual return on plan assets | 21,778,598 | 9,144,700 | - | - |
| Employer contributions | 4,800,000 | 3,000,000 | 185,551 | 175,594 |
| Plan participants' contributions | - | - | 252,224 | 296,951 |
| Receipt of Medicare Part D reimbursement | - | - | 82,280 | 90,769 |
| Benefits paid | (9,352,891) | (9,072,578) | (520,055) | (563,314) |
| Fair value of plan assets, end of year | $ 169,516,557 | $ 152,290,850 | $ - | $ - |
| Accrued pension and other postretirement benefits | $ (43,141,596) | $ (40,003,409) | $ (2,848,659) | $ (4,193,572) |
| Accumulated benefit obligation | $ (212,658,153) | $ (192,294,259) | $ - | $ - |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The amount recognized in the Network's consolidated balance sheets as of September 30, 2014 and 2013, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2014 | 2013 | 2014 | 2013 |
| Current liabilities | $ 1,120,000 | $ 5,700,000 | $ 193,769 | $ 385,518 |
| Noncurrent liabilities | 42,021,596 | 34,303,409 | 2,654,890 | 3,808,054 |
| Net amount recognized | $ 43,141,596 | $ 40,003,409 | $ 2,848,659 | $ 4,193,572 |

The allocation of the accrued pension and postretirement benefits for the years ended September 30, 2014 and 2013, is as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2014 | 2013 | 2014 | 2013 |
| MMH | $ 33,243,046 | $ 30,733,610 | $ 2,377,259 | $ 3,206,427 |
| RGH | 9,898,550 | 9,269,799 | 471,400 | 987,145 |
| Total | $ 43,141,596 | $ 40,003,409 | $ 2,848,659 | $ 4,193,572 |

The plans' components of net periodic benefit cost for the years ended September 30, 2014 and 2013, are as follows (pension benefits information presented is for MMH and RGH combined):

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2014 | 2013 | 2014 | 2013 |
| Service cost | $ 1,511,408 | $ 2,709,867 | $ 54,345 | $ 72,548 |
| Interest cost | 9,912,203 | 9,475,222 | 183,189 | 162,852 |
| Expected return on plan assets | (12,179,861) | (11,692,676) | - | - |
| Amortization of prior service (credits) costs | - | (234,992) | 77,724 | 77,724 |
| Curtailment actuarial gain | - | (1,148,330) | - | - |
| Recognized actuarial (gain) loss | 887,441 | 4,123,868 | (105,864) | (55,153) |
| Net periodic benefit cost | $ 131,191 | $ 3,232,959 | $ 209,394 | $ 257,971 |

The allocation of the net periodic benefit cost for the years ended September 30, 2014 and 2013, is as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2014 | 2013 | 2014 | 2013 |
| MMH | $ 103,762 | $ 2,475,143 | $ 174,744 | $ 197,246 |
| RGH | 27,429 | 757,816 | 34,650 | 60,725 |
| Total | $ 131,191 | $ 3,232,959 | $ 209,394 | $ 257,971 |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The assumptions used to determine pension and postretirement benefit obligations as of September 30, 2014 and 2013, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | **2014** | **2013** | **2014** | **2013** |
| Discount rate | **4.54%** | 5.27% | **4.11%** | 4.54% |
| Expected long-term rate of return | **8.00%** | 8.00% | **N/A** | N/A |
| Rate of compensation increase | **0.00%** | 3.00% | **N/A** | N/A |
| Initial medical trend rate | **N/A** | N/A | **9.44%** | 7.62% |
| Ultimate medical trend rate | **N/A** | N/A | **4.50%** | 4.50% |
| Number of years to ultimate medical trend rate | **N/A** | N/A | **13 years** | 14 years |

The assumptions used to determine net periodic benefit cost of the pension and postretirement plans for the years ended September 30, 2014 and 2013, were as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | **2014** | **2013** | **2014** | **2013** |
| Discount rate | **5.27%** | 4.32% | **4.54%** | 3.64% |
| Expected long-term rate of return | **8.00%** | 8.00% | **N/A** | N/A |
| Rate of compensation increase | **3.00%** | 3.00% | **N/A** | N/A |
| Initial medical trend rate | **N/A** | N/A | **9.44%** | 7.62% |
| Ultimate medical trend rate | **N/A** | N/A | **4.50%** | 4.50% |
| Number of years to ultimate medical trend rate | **N/A** | N/A | **13 years** | 14 years |

The medical trend rate has a significant effect on the amounts reported. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

| | One Percentage Point Increase | One Percentage Point Decrease |
|---|---|---|
| Effect on year-end postretirement benefit obligation | $ 225,033 | $ (233,728) |
| Effect on total of service and interest cost components | $ 20,880 | $ (18,565) |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The pension plan's weighted-average asset allocations as of September 30, 2014 and 2013, by asset category, are as follows:

| | Pension Benefits | |
|---|---|---|
| | **2014** | **2013** |
| Asset category: | | |
| Equity securities | **0%** | 56% |
| Debt securities | **99%** | 43% |
| Cash and cash equivalents | **1%** | 1% |
| | **100%** | 100% |

The investment objective of ECHN is to invest the plan assets in a manner that, together with contributions, will provide for sufficient resources to pay current and projected obligations over the life of the plan. The plan shall be diversified across asset classes to achieve an optimal balance between risk and return and between income and growth of assets through capital appreciation. Consistent with funding requirements, a secondary objective of the plan is to source benefit payments primarily through existing plan assets and anticipated future returns thereby minimizing future cash contributions. The investment objectives shall be implemented in a de-risking framework designed to manage the plan's funded status volatility and minimize future cash contributions. The funded status of the plan shall be measured by the ratio of plan assets to the projected benefit obligation. To reduce the volatility as much as possible, the goal is to attain and/or maintain a funded status of at least a 105% funding level and allocate its assets as outlined below.

The plan has approved an asset allocation strategy that shall change over time in response to future changes in the plan's funded status. Such changes in asset allocation strategy are intended to allocate additional assets to the fixed income asset class should the plan's funded status improve. Accordingly, the fixed income asset class shall be invested in such a manner that its interest rate sensitivity correlates highly with that of the plan's liabilities. Other asset classes are intended to provide additional return with associated higher levels of risk. If the plan's funded status deteriorates beyond stated thresholds, the strategy dictates that additional assets will not be re-allocated to the return-seeking assets.

Fair value methodologies used to assign plan assets to levels in accordance with ASC 820 are consistent with the inputs described in Note 4.

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The following table presents the investments of the defined benefit plan carried at fair value as of September 30, 2014 and 2013, by the valuation hierarchy.

| 2014 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Cash and cash equivalents | $ 708,333 | $ - | $ - | $ 708,333 |
| Fixed income mutual funds: | | | | |
| Long duration | 150,668,190 | - | - | 150,668,190 |
| U.S. Core Opportunistic | 7,500,003 | - | - | 7,500,003 |
| U.S. Passive | 7,558,893 | - | - | 7,558,893 |
| Guaranteed investment contract | - | - | 3,081,138 | 3,081,138 |
| Total plan assets at fair value | $ 166,435,419 | $ - | $ 3,081,138 | $ 169,516,557 |

| 2013 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Cash and cash equivalents | $ 633,333 | $ - | $ - | $ 633,333 |
| Fixed income mutual funds: | | | | |
| Long duration | 64,833,809 | - | - | 64,833,809 |
| U.S. Core Opportunistic | 13,328,905 | - | - | 13,328,905 |
| U.S. Passive | 2,935,983 | - | - | 2,935,983 |
| Guaranteed investment contract | - | - | 3,230,137 | 3,230,137 |
| Equities: | | | | |
| Small/mid cap | 8,925,030 | - | - | 8,925,030 |
| Active long corp | - | - | - | - |
| Large cap | 31,678,381 | - | - | 31,678,381 |
| International | 26,725,272 | - | - | 26,725,272 |
| Total plan assets at fair value | $ 149,060,713 | $ - | $ 3,230,137 | $ 152,290,850 |

**Note 9 - Pension and Other Postretirement Benefits (continued)**

The changes within the Level 3 investments as of September 30, 2014 and 2013, are as follows:

| 2014 | Guaranteed Investment Contract |
|---|---|
| Balance as of October 1, 2013 | $ 3,230,137 |
| Investment income | 133,795 |
| Expenditures | (282,794) |
| Balance as of September 30, 2014 | $ 3,081,138 |

| 2013 | Guaranteed Investment Contract |
|---|---|
| Balance as of October 1, 2012 | $ 3,195,313 |
| Investment income | 326,682 |
| Expenditures | (291,858) |
| Balance as of September 30, 2013 | $ 3,230,137 |

During fiscal year 2015, ECHN anticipates contributing $1,120,000 to the defined benefit pension plan.

The benefit payments, which reflect estimated future service, expected to be paid from the plans for the year ended September 30, 2014, are as follows:

| | Pension Benefits | Other Postretirement Benefits |
|---|---|---|
| 2015 | $ 9,255,587 | $ 193,769 |
| 2016 | $ 9,656,312 | $ 205,006 |
| 2017 | $ 10,171,865 | $ 224,486 |
| 2018 | $ 10,703,439 | $ 235,707 |
| 2019 | $ 11,264,848 | $ 247,455 |
| 2020-2024 | $ 63,572,682 | $ 1,227,224 |

The Network also has a defined contribution employee savings plan covering substantially all employees. Eligible employees who contribute to the plan will have 20% - 50%, depending upon years of service, of contributions matched by the Network, up to a maximum of 6% of annual compensation. The Network incurred expenses related to the employee savings plan amounting to $2,558,753 and $2,199,235, for the years ended September 30, 2014 and 2013, respectively.

## Note 10 - Long-term Debt and Lines of Credit

Long-term debt and capital lease obligations, as of September 30, 2014 and 2013, consist of the following:

| | 2014 | 2013 |
|---|---|---|
| Connecticut Health and Educational Facilities Authority (CHEFA) Hospital Revenue Bonds, ECHN Series A Bonds, bearing interest at rates ranging from 5.625% to 6.375% - net of unamortized original issue discount of $39,281 and $46,505 for 2014 and 2013, respectively. | $ 8,245,719 | $ 9,093,495 |
| CHEFA Hospital Revenue Bonds, ECHN Series C Bonds, bearing interest ranging from 4.00% to 5.125% - net of unamortized original issue premium of $330,315 and $350,960 for 2014 and 2013, respectively. | 32,990,315 | 33,760,059 |
| CHEFA Hospital Revenue Bonds, ECHN Series D Bonds bearing interest at a variable rate, adjusted weekly. | 13,743,000 | 14,049,000 |
| CHEFA Hospital Demand Revenue Bonds, ECHN Series E Bonds, bearing interest at a variable rate, adjusted weekly. | 17,090,000 | 17,580,000 |
| Loan due to Sovereign Bank, face amount $5,200,000 due and payable in semi-annual principal and interest installments maturing on January 3, 2022 and bearing interest at 3.38% | 4,154,222 | 4,674,222 |
| Promissory note payable to Rockville Bank due and payable in monthly principal and interest installments maturing on January 15, 2015, bearing interest at a fixed rate of 3.75%. | 172,331 | 883,270 |
| Promissory note payable to Rockville Bank due and payable in monthly principal and interest installments maturing on July 1, 2025, bearing interest at 5.87%. | 742,092 | 791,933 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on May 1, 2018, bearing interest at 4.22% | 601,219 | 615,659 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on December 1, 2017, bearing interest at 4.11% | 554,013 | 568,058 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on May 1, 2019 bearing interest at 5.14% | 517,406 | - |
| Promissory note payable to 428 Hartford Turnpike Associates, LLP payable in monthly principal and interest installments, maturing September 1, 2021, bearing interest at 6%. | 223,265 | 247,832 |

## Note 10 - Long-term Debt and Lines of Credit (continued)

| | 2014 | 2013 |
|---|---|---|
| Debt of ECHN Corporate Services. Various due dates and interest rates. | **43,215** | 210,556 |
| Mortgage payable to Rockville Bank, maturing April 1, 2022, bearing interest at 6.5% for the first five years, adjustable thereafter every five years. | **144,715** | 160,955 |
| Promissory note payable to Joseph Hanna MD, LLC due and payable in one principal payment due in December 2013. This is a non interest bearing note. | - | 119,890 |
| Promissory notes with Philips Medical Capital, payable in monthly installments, maturing in fiscal year 2021 and bearing interest at rates between 4.3% and 6.8% | **2,542,664** | - |
| Mortgage payable to Rockville Bank, maturing January 1, 2027 bearing interest at 6.6% for the first five years, adjustable thereafter, every five years. | **129,901** | 138,019 |
| Capital lease obligations (see Note 12) | **7,190,993** | 8,355,380 |
| Total long-term debt and capital lease obligations | **89,085,070** | 91,248,328 |
| Less: current maturities | **(6,489,656)** | (6,832,322) |
| Total long-term debt and capital lease obligations - net of current portion | **$ 82,595,414** | $ 84,416,006 |

Lines of credit as of September 30, 2014 and 2013 consist of the following:

| | 2014 | 2013 |
|---|---|---|
| Revolving line of credit with TD Bank, bearing interest at a variable rate. | **$ 5,600,000** | $ 6,500,000 |

In February 2000, MMH, RGH and EES (collectively, the Series A Obligated Group) entered into an agreement and open-ended mortgage with Connecticut Health and Educational Facilities Authority (CHEFA) in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series 2000A (the Series A Bonds). A portion of the proceeds from the Series 2000A Bonds, net of the original issue discount and amounts used to establish required reserve accounts, was placed in an irrevocable trust from which the remaining debt service payments for defeased CHEFA bonds will be paid. The remainder was used to finance additions and renovations for various facilities. The Series A Obligated Group has been legally released from any future debt service on the defeased bonds. The Series A Bonds are due on various due dates through July 1, 2030.

In July 2004, MMH, RGH, EES, and ECHF (collectively, the Series B Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network Issue, Series B (the Series B Bonds). A portion of the proceeds from the Series B Bonds, net of the original issue discount and amounts used to establish required reserve accounts, was used to finance additions, renovations, and purchases of equipment for RGH and MMH.

**Note 10 - Long-term Debt and Lines of Credit (continued)**

The additions and renovations financed by the Series B Bonds consist of improvements and expansion of the emergency department at RGH; the purchase, renovation, and equipping of the Dialysis Center at RGH; construction of the heliport at RGH, improvements to the Gastrointestinal and Rehabilitation Departments at RGH, and capital equipment purchases for MMH and RGH.

The Series B bonds were refinanced as part of the issuance of Series E bonds as described below.

On October 1, 2005, MMH, RGH, EES, and ECHF (collectively, the Series C Obligated Group) entered into an agreement and open-ended mortgage with CHEFA to borrow $37,065,000 in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network Issue, Series C (the Series C Bonds). The proceeds from the Series C Bonds, net of the original issue premium and amounts used to establish required reserve accounts, were placed in an irrevocable trust to advance refund and defease a portion of the Series 2000A Bonds. MMH, RGH, and EES have been legally released from any future debt service on the portion of defeased Series 2000A Bonds. The Series C Bonds are due on various due dates through July 1, 2034, bearing interest at rates ranging from 4.00% to 5.125%.

In May 2009, MMH, RGH, EES, and ECHF (collectively, the Series D Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series D (the Series D Bonds). A portion of the proceeds from the Series D Bonds, net of amounts used to establish required reserve accounts, were used to finance renovations at MMH, an expansion at EES, and other campus improvements. The Series D Bonds are due on various due dates through May 14, 2039.

In December 2010, MMH, RGH, EES, and ECHF (collectively, the Series E Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series E (the Series E Bonds). The proceeds from the Series E Bonds, net of amounts used to establish required reserve accounts, were used to redeem the Series B Bonds and fund interest rate swap agreement termination payments relating to the Series B Bonds. The Series E Bonds are due on various due dates through July 1, 2034.

Under the terms of the Series A, Series B, Series C, Series D, and Series E Bonds, the Series A Obligated Group, Series B Obligated Group, Series C Obligated Group, Series D Obligated Group, and Series E Obligated Group (the Obligated Groups) are required to maintain certain deposits with a trustee. Such deposits are included in assets whose use is limited. The indenture also places limits on the incurrence of additional borrowings and dispositions of property and requires that the Obligated Groups satisfy certain measures of financial performance as long as the notes are outstanding.

Under the terms of the CHEFA agreements, each member of the Obligated Groups is jointly and severally liable for the full and prompt payment of the amounts owed by the Obligated Groups. Total debt of the Obligated Groups was $75,932,222 and $78,853,222 as of September 30, 2014 and 2013, respectively. The debt is also secured by the gross receipts of the Obligated Groups.

In June 2012, the Obligated Group entered into a loan agreement with Sovereign Bank, through CHEFA's Tax-Exempt Equipment Loan Program, for $5,200,000 in connection with purchase of equipment and renovation costs. Semi-annual principal and interest payments are due through January 2022.

**Note 10 - Long-term Debt and Lines of Credit (continued)**

The Hospital is party to various capital leases, which are described in Note 12.

The annual maturities of the long-term debt and capital lease obligations in each of the succeeding five years and thereafter, as of September 30, 2014, are as follows:

| | | |
|---|---|---|
| 2015 | $ | 6,489,656 |
| 2016 | | 5,988,958 |
| 2017 | | 5,168,357 |
| 2018 | | 5,809,969 |
| 2019 | | 5,048,249 |
| Thereafter | | 60,288,847 |
| | | 88,794,036 |
| Plus - premium | | 291,034 |
| Total | $ | 89,085,070 |

On November 11, 2010, ECHN entered into a $6,500,000 unsecured line of credit with TD Bank, N.A. This line of credit carries an interest rate of LIBOR plus 2.25% and expires one year after issuance date. ECHN renewed this line of credit in 2013. In 2014, the line of credit agreement was modified. The amount available was reduced to $5,750,000, the interest rate was increased to LIBOR plus 2.5% and the maturity was extended to September 29, 2015. As of September 30, 2014 and 2013, MMH had $5,600,000 and $6,500,000, respectively, outstanding under this line of credit.

The Network is subject to various financial covenants related to these debt agreements. The Network was in compliance with these covenants in 2014. The Network received a waiver for violating a debt service coverage ratio for 2013.

**Note 11 - Derivatives**

The Network uses derivative instruments, specifically interest rate swap agreements, to manage its exposure to changes in the interest rate on its CHEFA bonds. The use of derivative instruments exposes the Network to additional risks related to the derivative instrument, including market risk, credit risk and termination risk as described below, and the Network has defined risk management practices to mitigate these risks, as appropriate.

Market risk represents the potential adverse effect on the fair value and cash flow of a derivative instrument due to changes in interest rates or rate spreads. Market risk is managed through ongoing monitoring of interest rate exposure based on set parameters regarding the type and degree of market risk that the Network will accept. Credit risk is the risk that the counterparty on a derivative instrument may be unable to perform its obligation during the term of the contract. When the fair value of a derivative contract is positive, the counterparty owes the Network, which creates credit risk.

Credit risk is managed by setting stringent requirements for qualified counterparties at the date of execution of a derivative transaction and requiring counterparties to post collateral in the event of a credit rating downgrade or if the fair value of the derivative contract exceeds a negotiated threshold.

**Note 11 - Derivatives (continued)**

Termination risk represents the risk that the Network may be required to make a significant payment to the counterparty, if the derivative contract is terminated early. Termination risk is assessed at onset by performing a statistical analysis of the potential for a significant termination payment under various scenarios designed to encompass expected interest rate changes over the life of the proposed contract. The test measures the ability to make a termination payment without a significant impairment to the Network's ability to meet its debt or liquidity covenants.

In May 2009, ECHN entered into an interest rate swap agreement to manage the interest cost and risk associated with $15,250,000 of its variable rate Series D Bonds. Under the terms of this agreement, ECHN pays a fixed rate of 3.89%. Changes in the fair value of this swap are recorded in the consolidated statements of operations and changes in net assets. Effective May 14, 2014, the interest rate swap agreement on the Series D variable rate debt expired. The Network's portion of the swap agreement in force related to this strategy as of September 30, 2014 and 2013, and the liability and interest expense recognized by the Network are as follows:

| | 2014 | 2013 |
|---|---|---|
| Notional amount of contract | $ - | $ 14,049,000 |
| Fair value of swap contract recognized in other liabilities | $ - | $ 170,000 |
| Net interest income recognized in non-operating losses | $ (170,000) | $ (248,000) |

In June 2012, ECHN entered into an interest rate swap agreement to manage the interest cost and risk associated with $5,200,000 of its debt with Sovereign Bank. Under the terms, ECHN pays a fixed rate of 3.38%. The swap is accounted for as a cash flow hedge in accordance with ASC 815 "*Accounting for Derivative Instruments and Hedging Activities*". This accounting treatment requires the effective portion of the gain or loss on a derivative instrument designated and qualifying as a cash flow hedging instrument to be reported as a component of other changes in unrestricted net assets and to be reclassified into operations in the same period or periods during which the hedged forecasted transaction affects earnings. The remaining gain or loss on the derivative instrument, if any, shall be recognized currently in non-operating losses.

The Network's portion of the swap agreement in force related to this strategy as of September 30, 2014 and 2013, and the liability and unrealized (gain) loss recognized by the Network are as follows:

| | 2014 | 2013 |
|---|---|---|
| Notional amount of contract | $ 4,154,222 | $ 4,674,222 |
| Fair value of swap contract recognized in other liabilities | $ 3,800 | $ 12,000 |
| Unrealized (gain) loss recognized in unrestricted net assets | $ (8,200) | $ (111,000) |

The counterparty to the above swap transactions is a major financial institution that meets ECHN's criteria for financial stability and creditworthiness.

## Note 12 - Lease Commitments

ECHN leases equipment under capital lease agreements, which begin to expire in 2015. The interest rates range from 4% to 8%. The net carrying value of equipment under the capital lease was $8,111,729 and $8,332,943 as of September 30, 2014 and 2013, respectively. ECHN leases various office space and certain equipment under operating leases that expire in various years through fiscal year 2024. Certain leases may be renewed at the end of their term.

Future minimum payments under capital leases and non-cancelable operating leases as of September 30, 2014, consisted of the following:

| | Capital Leases | Operating Leases |
|---|---|---|
| 2015 | $ 3,174,905 | $ 5,689,694 |
| 2016 | 2,493,549 | 5,204,009 |
| 2017 | 1,255,956 | 4,128,009 |
| 2018 | 500,418 | 2,902,495 |
| 2019 | 173,140 | 2,437,115 |
| Thereafter | 26,426 | 12,606,442 |
| | 7,624,394 | $ 32,967,764 |
| Less: interest on capital lease | 433,401 | |
| Principal amount of capital lease | $ 7,190,993 | |

Rent expense under operating and month-to-month leases was $6,622,257 and $6,264,706 for the years ended September 30, 2014 and 2013, respectively.

## Note 13 - Concentrations of Credit Risk

ECHN grants credit without collateral to its patients, most of whom are insured under third-party payer agreements. The mix in patient accounts receivable as of September 30, 2014 and 2013, before allowances for doubtful accounts, consists of the following:

| | 2014 | 2013 |
|---|---|---|
| Medicare | 23% | 24% |
| Self-pay | 32% | 40% |
| Managed care | 24% | 17% |
| Medicaid | 13% | 4% |
| Commercial insurance | 3% | 9% |
| Other | 5% | 6% |
| | 100 % | 100 % |

## Note 14 - Net Patient Service Revenues

Net patient service revenues for the years ended September 30, 2014 and 2013, consists of the following:

| | 2014 | 2013 |
|---|---|---|
| Patient service revenues: | | |
| Inpatient services | $ 333,197,293 | $ 328,063,718 |
| Outpatient services | 592,717,508 | 572,644,188 |
| Gross patient service revenues | 925,914,801 | 900,707,906 |
| Deductions - allowances | (615,943,491) | (590,585,747) |
| Net patient service revenues | $ 309,971,310 | $ 310,122,159 |

In addition, the Network provides for a provision for bad debts. For receivables associated with services provided to patients who have third-party coverage, the Network analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and co-payment balances due for which third-party coverage exists for part of the bill), the Network records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible.

For uninsured patients that do not qualify for financial assistance, the Network offers a discount off its standard rates for services provided. The difference between the discounted rates and the amounts actually collected after all reasonable collection efforts have been exhausted is written off against the allowance for doubtful accounts in the period they are determined uncollectible. The Network's allowance for doubtful accounts covers all accounts greater than 6 months for both self-pay accounts receivable and third party payors as of September 30, 2014 and 2013. The Network's self-pay and third-party payors write-offs totaled $11,700,441 and $11,403,046 for 2014 and 2013, respectively. The Network did not change its charity care or financial assistance policy during 2014 or 2013.

At September 30, 2014 and 2013, 30.4% and 32.3% of net patient accounts receivable were from governmental payors (Medicare and Medicaid) and 69.6% and 67.7% were from nongovernmental payors, respectively. Nongovernmental payors are primarily insurance companies and self-pay payors. Management has recorded an allowance for doubtful accounts, as noted above, which, in its opinion, is sufficient to provide for risk of nonpayment.

## Note 15 - Community Benefit

ECHN's mission is to improve the health of the people and the communities ECHN serves.

ECHN provides quality health care to all, regardless of their ability to pay. Charity care is provided to those who are eligible based on ECHN's policy. ECHN also incurs unpaid costs for government programs because reimbursement is not sufficient to cover costs associated with Medicare and Medicaid patients. In addition to the charity care responsibilities, ECHN provides numerous other community benefits. These community benefits include medical education and research, community health education, screenings, support groups, counseling services, and in-kind support. To address the need for health care providers, a number of programs are offered for young people who may be interested in a career in health care.

**Note 15 - Community Benefit (continued)**

ECHN utilizes guidelines developed by various organizations to quantify community benefit activities. ECHN defines community benefit activities as those that improve access to care, as well as the health of the broader community. In addition to charity care and the unpaid costs of government sponsored health care (Medicare and/or Medicaid shortfalls), community benefit activities will normally fall into one of the following categories: nonbilled community health services / community health improvement services, health professions education, subsidized health services, research, financial and in-kind contributions, community building activities, and community benefit operations.

MMH and RGH provide care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because MMH and RGH do not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The amount of traditional charity care provided, determined on the basis of cost, was $2,144,342 and $2,591,214 for the years ended September 30, 2014 and 2013, respectively.

**Note 16 - Functional Expenses**

ECHN provides general health care services to residents within its geographical location. For the years ended September 30, 2014 and 2013, expenses relating to providing these services are as follows:

| | 2014 | 2013 |
|---|---|---|
| Health care services | $ 273,670,130 | $ 272,099,247 |
| Fund raising | 1,210,885 | 544,391 |
| General and administrative | 51,701,589 | 55,211,560 |
| Total | $ 326,582,604 | $ 327,855,198 |

**Note 17 - Temporarily and Permanently Restricted Net Assets**

The temporarily restricted net assets available, as of September 30, 2014 and 2013, are available for the following purposes:

| | 2014 | 2013 |
|---|---|---|
| Departmental and endowment purposes | $ 1,910,003 | $ 2,114,039 |
| Capital campaign and pledges | 186,310 | 473,262 |
| Total | $ 2,096,313 | $ 2,587,301 |

**Note 17 - Temporarily and Permanently Restricted Net Assets (continued)**

As of September 30, 2014 and 2013, permanently restricted net assets consist of the following:

| | 2014 | 2013 |
|---|---|---|
| Beneficial interest in trust assets | $ 11,809,221 | $ 7,882,372 |
| Endowments restricted for: | | |
| Other departmental purposes | 3,553,655 | 3,709,665 |
| Charity care | 532,024 | 546,180 |
| Special needs | 151,579 | 151,579 |
| Cancer research | 6,124 | 6,124 |
| Total | $ 16,052,603 | $ 12,295,920 |

The composition of the Network's endowment by net asset class as of September 30, 2014 and 2013, was as follows:

| 2014 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Donor-restricted endowment funds | $ - | $ 1,854,365 | $ 4,243,382 | $ 6,097,747 |
| Board-designated endowment funds | 37,980,275 | - | - | 37,980,275 |
| Net assets, September 30, 2014 | $ 37,980,275 | $ 1,854,365 | $ 4,243,382 | $ 44,078,022 |

| 2013 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Donor-restricted endowment funds | $ - | $ 2,121,375 | $ 4,413,548 | $ 6,534,923 |
| Board-designated endowment funds | 33,138,323 | - | - | 33,138,323 |
| Net assets, September 30, 2013 | $ 33,138,323 | $ 2,121,375 | $ 4,413,548 | $ 39,673,246 |

The Network's endowments consist of multiple funds established for a variety of purposes. The endowments include both donor-restricted endowment funds, funds designated by the Board of Trustees to function as endowments and assets held in trust by others. As required by GAAP, endowments, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor restrictions.

The Network has interpreted the relevant laws as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Network.

**Note 17 - Temporarily and Permanently Restricted Net Assets (continued)**

The Network considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the Network and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the Network; and (7) the investment policies of the Network.

The Network has adopted investment and spending policies for endowment assets that attempt to provide a reasonably stable and predictable stream of earnings to support the operations of the endowments and to preserve and enhance over time the real value of the endowment assets. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce a real return, net of inflation and investment and management costs, over the long-term. Actual returns in any given year may vary from this amount.

The Investment Committee of the Board is responsible for defining and reviewing the investment policy to determine an appropriate long-term asset allocation policy. The asset allocation policy reflects the objective with allocations structured for capital growth and inflation protection over the long-term.

To satisfy its long-term rate-of-return objectives, the Network relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Network targets a diversified asset allocation that places a greater emphasis on equity based investments to achieve its long-term return objectives within prudent risk constraints.

The Network has appropriated $1,271,326 and $2,339,401 for expenditure from its endowment funds for the years ending September 30, 2014 and 2013, respectively.

Changes in endowment net assets for the fiscal year ended September 30, 2014 were as follows:

| 2014 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Net assets, October 1, 2013 | $ 33,138,323 | $ 2,121,375 | $ 4,413,548 | $ 39,673,246 |
| Interest income and dividends | 940,682 | 47,448 | - | 988,130 |
| Realized gains | 6,547,406 | 486,492 | - | 7,033,898 |
| Unrealized depreciation on investments | (4,673,650) | (334,112) | - | (5,007,762) |
| Released from restrictions | 122,263 | (1,271,326) | - | (1,149,063) |
| Contributions | 237,342 | 804,488 | - | 1,041,830 |
| Reclassification of donations | - | - | (170,166) | (170,166) |
| Fees | (32,211) | - | - | (32,211) |
| Transfers to Endowment | 1,700,120 | - | - | 1,700,120 |
| Net assets, September 30, 2014 | $ 37,980,275 | $ 1,854,365 | $ 4,243,382 | $ 44,078,022 |

**Note 17 - Temporarily and Permanently Restricted Net Assets (continued)**

Changes in endowment net assets for the fiscal year ended September 30, 2013 were as follows:

| 2013 | Unrestricted | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|---|
| Net assets, October 1, 2012 | $ 26,269,872 | $ 2,564,396 | $ 4,407,574 | $ 33,241,842 |
| Interest income and dividends | 808,111 | 55,220 | - | 863,331 |
| Realized gains | 2,082,211 | 145,575 | - | 2,227,786 |
| Unrealized appreciation on investments | 2,118,875 | 219,391 | - | 2,338,266 |
| Released from restrictions | 780,616 | (2,339,401) | - | (1,558,785) |
| Contributions | 183,500 | 1,473,843 | - | 1,657,343 |
| Distributions | (1,500,000) | - | - | (1,500,000) |
| Transfers to Endowment | 2,395,138 | 2,351 | 5,974 | 2,403,463 |
| Net assets, September 30, 2013 | $ 33,138,323 | $ 2,121,375 | $ 4,413,548 | $ 39,673,246 |

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or relevant law requires the Network to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are reported in unrestricted net assets. As of September 30, 2014 and 2013, there were no funds that were below the level required by donor or law.

**Note 18 - Commitments and Contingencies**

The Network is involved in various legal actions arising from its activities. Although the ultimate outcome is not determinable at this time, management, after taking into consideration the advice of legal counsel, believes that the resolution of these pending matters will not have a material adverse effect, individually or in the aggregate, on the consolidated balance sheets or on the related consolidated statements of operations and changes in net assets, or consolidated cash flows of the Network.

The Network and the Network's defined benefit pension plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

**Note 19 - Statutory Capital and Surplus**

CHIC was incorporated in the Cayman Islands on September 15, 2006 and was granted an Unrestricted Class "B" insurance license under the Insurance Law of the Cayman Islands with an effective date of September 26, 2006. As of October 14, 2013, in accordance with Section 4(3)(b) of The Insurance Law, 2010, the company is now classified as a Class B (i) insurer. CHIC is regulated by the Cayman Islands Monetary Authority (CIMA) and related relations, and is obligated to comply with CIMA regulations regarding minimum levels of solvency and liquidity.

Statutory capital and surplus as of September 30, 2014 was $501,168 with a minimum amount required to be maintained by CHIC of $100,000. Distribution of dividends is subject to approval by the Board of Directors. No dividends were declared or paid during the years ended September 30, 2014 and 2013.

ECHN reports all of CHIC's investments as investments held in trust for estimated self-insurance liabilities in the accompanying consolidated balance sheets.

# INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of Eastern Connecticut Health Network, Inc.
Manchester, Connecticut

**Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of Eastern Connecticut Health Network, Inc. and Subsidiaries (the Network), a not-for-profit, non-stock corporation, which comprise the consolidated balance sheet as of September 30, 2015, and the related consolidated statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements.

***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We did not audit the financial statements of Connecticut Healthcare Insurance Company, a wholly owned subsidiary, whose statements reflect total assets of $6,093,108, as of September 30, 2015, respectively, and total revenues of $2,747,065 for the year then ended. Those statements were audited by other auditors in accordance with international standards on auditing, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Connecticut Healthcare Insurance Company, is based solely on the report of, and additional audit procedures to meet the relevant requirements of auditing standards generally accepted in the United States of America performed by, the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Network's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Network's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant account estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

(Continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, based on our audit and the report of, and additional audit procedures performed by, the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Eastern Connecticut Health Network as of September 30, 2015, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

The consolidated balance sheet, consolidated statements of operations and changes in net assets and cash flows of Eastern Connecticut Health Network, Inc. and Subsidiaries as of and for the year ended September 30, 2014, were audited by Saslow, Lufkin & Buggy, LLP, who combined with Crowe Horwath, LLP as of July 1, 2015 and whose report dated January 27, 2015, expressed an unmodified opinion on those statements.

Our audit was conducted for the purpose of forming an opinion on the 2015 financial statements as a whole. The consolidating statement of operations and changes in net assets for the year then ended is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the 2015 financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the report of the other auditors, the 2015 information is fairly stated in all material respects in relation to the 2015 financial statements as a whole.

The consolidating balance sheet as of September 30, 2014 and the consolidating statement of operations and changes in net assets for the year then ended is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies, and is not a required part of the consolidated financial statements. The 2014 information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 financial statements. The information has been subjected to the auditing procedures applied by other auditors in the audit of the 2014 financial statements and certain additional procedures, including comparing and reconciling other information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and whose report dated January 27, 2015 expressed an opinion that such information was fairly stated in all material respects in relation to the 2014 financial statements as a whole.

## NOTE 1 - ORGANIZATION

Eastern Connecticut Health Network, Inc. (ECHN) and Subsidiaries (collectively the Network) is a not-for-profit, locally governed health system created on September 12, 1995, through the merger of the corporate parents of Manchester Memorial Hospital and Rockville General Hospital, Inc. Its purpose is to provide a health care system for the communities it serves, with quality medical care at a reasonable cost; to foster an environment conducive to health and well-being, whether in the home or in the community; and to enable the health care system to expand to meet the future needs of its communities. ECHN, through its subsidiaries (or members), provides health care, health education, and community services to residents of more than 19 towns in eastern Connecticut, regardless of their ability to pay.

ECHN is the sole member or shareholder of the following subsidiaries:

***The Manchester Memorial Hospital (MMH)*** - MMH is a not-for-profit hospital with 249 licensed beds, located in Manchester, Connecticut. MMH, which admitted its first patient in 1920, is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services to the residents of Manchester and 19 nearby towns.

***The Rockville General Hospital, Inc. (RGH)*** - RGH is a not-for-profit hospital with 102 licensed beds, located in the Rockville section of Vernon, Connecticut. RGH, which admitted its first patient in 1921, is a short-term, acute-care general hospital, which provides inpatient, outpatient, and emergency care services for residents of Tolland County and nearby towns, for a total service area of 19 towns.

***ECHN ElderCare Services, Inc. (EES)*** - EES is a not-for-profit, skilled nursing facility with 130 licensed beds and physical, occupational and speech rehabilitation services located in Tolland, Connecticut.

***ECHN Community Healthcare Foundation, Inc. (ECHF)*** - ECHF is a not-for-profit organization whose purpose is to raise funds on behalf of ECHN and its not-for-profit subsidiaries. It was established in 2000, when the fund-raising efforts of ECHN were consolidated into a single not-for-profit foundation. ECHF focuses primarily on the capital and program needs of ECHN and its not-for-profit subsidiaries.

***Eastern Connecticut Medical Professionals Foundation, Inc. (ECMPF)*** - ECMPF is a not-for-profit organization that currently operates physician office practices in the Network's service area and a hospitalist program that serves MMH and RGH. Its mission allows it to operate other not-for-profit, separately incorporated allied health ventures.

***ECHN Enterprises, Inc. (Enterprises)*** - Enterprises is a for-profit organization formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. Enterprises owns, leases and has an interest in real estate to support the mission and vision for ECHN. It is also the parent corporation of Haynes Street Property Management, LLC (HSPM). HSPM is a for-profit, limited liability company formed under the laws of the State of Connecticut, which manages the Glastonbury Wellness Center and sublets space to various MMH departments and physician offices, as well as to ECMPF.

***Visiting Nurse and Health Services of Connecticut, Inc. (VNHSC)*** - VNHSC is a not-for-profit, nonstock Connecticut corporation that provides and administers a comprehensive, multi-disciplinary home health program, hospice program and wellness programs to promote the health of individuals, families and groups in the Greater Northern Central Connecticut area. In addition, VNHSC is the sole member of A Caring Hand, LLC, which is a for-profit Connecticut limited liability company providing and administering homemaker, companion, live-in and personal care assistance services to individuals and families in the Greater Northern Central Connecticut area.

(Continued)

**NOTE 1 - ORGANIZATION** (Continued)

***Connecticut Healthcare Insurance Company (CHIC)*** - CHIC, a captive insurance company, provides hospital and physician professional and general liability coverage to MMH, RGH, EES, and all other subsidiaries.

***ECHN Corporate Services (ECHNCS)*** - ECHNCS is a for-profit stock corporation formed under the laws of the State of Connecticut, with ECHN as the sole shareholder. ECHNCS provides billing and other practice management services to the Network and other customers. It is also the parent corporation of Medical Practice Partners, LLC (MPP). MPP is a for-profit, limited liability company formed under the laws of the State of Connecticut, which provides practice management services to medical group practices throughout Connecticut.

***CINECT*** - CINECT is a for-profit organization formed to develop a clinically integrated network of community providers that offers high-quality care, value, and an enhanced patient experience. CINECT's mission is to better manage the health of the communities that we serve. While formed during 2014 CINECT has not commenced operations as of September 30, 2015.

ECHN and each of its subsidiaries, except for Enterprises, CHIC, ECHNCS and CINECT, are separate Connecticut not-for-profit corporations, qualified as exempt organizations under Section 501(c)(3) of the Internal Revenue Code (IRC) and governed by separate Boards of Trustees (the Board) - although the membership of the ECHN, MMH and RGH boards are currently identical. ECHN, acting through its Board of Trustees, is the sole member of each of its members. ECHN has various powers with regard to each of its members, which include approving all operating and capital budgets; controlling the investment of funds, location of services, agreements and transactions, and affiliations; controlling changes, amendments, or restatements of certificates of incorporation and bylaws; electing trustees and officers; appointing committees; adopting a system-wide vision and strategic plans; and approving debt borrowings.

On June 25, 2015, the ECHN Board of Trustees agreed to the terms of a letter of intent for ECHN to be acquired by Prospect Medical Holdings (PMH) of Los Angeles, CA.

In June 2015, ECHN's Board of Trustees agreed to the sale of substantially all assets of ECHN to PMH. On July 29, 2015, the ECHN corporators voted in favor of the acquisition of ECHN by PMH.

On October 13, 2015, ECHN and PMH filed a Certificate of Need (CON) application with the Connecticut State Department of Public Health's Office of Health Care Access and the Office of the Attorney General to approve the acquisition of ECHN by Prospect.

As of September 30, 2015, management has not finalized a purchase agreement and the Trustees believe that the Network will continue with its normal operations and as a going concern for the foreseeable future.

***Basis of Presentation*** - The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The consolidated financial statements include the accounts of ECHN and its subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation. The assets of any member of the consolidated group may not be available to meet the obligations of other members in the group.

(Continued)

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Network's significant estimates relate to the valuation of investments and interest rate swap agreements, allowance for doubtful patient accounts receivable, contractual allowances on patient accounts receivable, self-insurance liabilities, estimated settlements due to and from third parties, conditional asset retirement obligations, postretirement and pension benefit costs and the related obligations.

Cash and Cash Equivalents: - The Network considers all highly liquid investments with original maturities of three months or less at date of purchase to be cash equivalents, excluding amounts whose use is limited or restricted by Board designation or other arrangements under trust agreements. Cash equivalents include money market funds. Cash balances maintained at banks are insured by the Federal Deposit Insurance Corporation (FDIC). At times, the Network maintains cash balances that are in excess of the $250,000 insured FDIC limits. The Network maintains its cash at various banks and it is the Network's policy to monitor the banks' financial strength on an ongoing basis.

Money market funds are not insured by the FDIC and are not a risk-free investment. Money market funds invest in a variety of instruments including mortgage-backed and asset-backed securities. Although a money market fund seeks to preserve its $1 per share value, it is possible that a money market fund's value can decrease below $1 per share.

Net Assets: Resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. In the accompanying consolidated financial statements, net assets that have similar characteristics have been combined as follows:

Unrestricted: Net assets that are not subject to explicit donor-imposed stipulations are classified as unrestricted. Unrestricted net assets may be designated for specific purposes by action of the Board or may otherwise be limited by contractual agreements with outside parties; such designated assets are classified as assets whose use is limited in the accompanying consolidated balance sheets.

Temporarily Restricted: Net assets whose use by the Network is subject to explicit donor imposed stipulations that can be fulfilled upon incurrence of expenditures by the Network pursuant to those stipulations or that expire by the passage of time are classified as temporarily restricted.

Permanently Restricted: Net assets subject to explicit donor imposed stipulations that they be maintained by the Network in perpetuity are classified as permanently restricted. Such permanently restricted net assets include endowment funds and MMH's and RGH's share of their beneficial interest in trust assets held by third parties. Generally, the donors of these assets permit the members of ECHN to use all or part of the investment return on these assets for operating purposes.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Revenue are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets, unless their use is restricted by explicit donor stipulations or by law. Expirations of temporary restrictions on net assets, that is, the donor imposed stipulated purpose has been accomplished and/or the stipulated time period has elapsed, are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, are recognized as revenue at the date the promise is received. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at a rate commensurate with the risks involved. Amortization of the discount is included in other revenue. Contributions restricted for the acquisition of land, buildings, and equipment are reported as temporarily restricted support. These contributions are reclassified to unrestricted net assets when the capital asset is acquired or constructed and placed in service.

Assets Whose Use is Limited: Assets whose use is limited primarily include cash and investments held by trustees under indenture agreements, cash and investments held for estimated self-insurance liabilities, Board designated investments, cash and investments set aside by the Board for future capital improvements over which the Board retains control and may at its discretion subsequently use for other purposes, beneficial interests in trust assets, and donor restricted and other restricted investments. Amounts required to meet current liabilities of the Network have been classified as current assets in the consolidated balance sheets as of September 30, 2015 and 2014.

The income earned on restricted funds, other than the endowment, is generally available for operations of the Network and is recorded as revenue in unrestricted net assets, unless restricted by the donor or to pay future annuity obligations, at which time the income is added to the appropriate restricted net asset balance. However, if a specific gift instrument explicitly requires the permanent reinvestment of appreciation, or a portion thereof, such reinvested amounts are classified within permanently restricted net assets. There were no gifts with reinvestment restrictions for the years ended September 30, 2015 and 2014.

Assets received as donations or bequests are recorded as contributions on the date received at the estimated fair value. The average cost method is used to determine realized gains or losses on sales of marketable equity securities.

Beneficial Interest in Trust Assets: MMH and RGH have been named sole or participating beneficiaries in several perpetual trusts, for which third parties act as the trustee. Under the terms of these trusts, MMH and RGH have the irrevocable right to receive the income earned on the trust assets held in perpetuity. The estimated present value of the future payments to MMH and RGH is recorded at the fair value of the assets held in the trust as beneficial interest in trust assets in the respective balance sheets of MMH and RGH and are permanently restricted as to use.

The income from the trusts is included in the change in interest in net assets of ECHF as unrestricted and temporarily restricted support and other income. Fluctuations in the fair value of the trust assets are recognized as changes in permanently restricted net assets. MMH and RGH record their beneficial interest in trust assets when they are notified of the existence of the trust or when information becomes available to record the fair value of the trust assets.

Investments: The Network's investment portfolio is classified as available for sale, with unrealized gains and losses excluded from excess of revenues over expenses, unless the losses are deemed to be other than temporary. Investments with readily determinable fair values are measured at fair value in the consolidated balance sheets.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenues over expenses within other revenue within the statement of operations, unless the income or loss is restricted by donor or law.

Other-Than-Temporary Impairments on Investments: The Network accounts for other than temporary impairments in accordance with FASB ASC 320, "Investments - Debt and Equity Securities" and continually reviews its securities for impairment conditions, which could indicate that an other than temporary decline in fair value has occurred. In conducting this review, numerous factors are considered, which include specific information pertaining to an individual company or a particular industry, general market conditions that reflect prospects for the economy as a whole, and the ability and intent to hold securities until recovery. The carrying value of investments is reduced to its estimated realizable value if a decline in fair value is considered to be other-than-temporary. There were no impairments recorded for the years ended September 30, 2015 and 2014.

Property and Equipment: Property and equipment are stated at cost or, in the case of donated property, at fair value at the date of the gift, less accumulated depreciation and amortization. Major improvements and betterments to existing plant and equipment are capitalized. Expenditures for maintenance and repairs that do not extend the lives of the applicable assets are charged to expense as incurred. Upon disposition or retirement of property and equipment, the cost and related accumulated depreciation and amortization are eliminated from the respective accounts and any resulting gain or loss is included in the results of consolidated operations.

Depreciation expense is computed on a straight-line basis over the following estimated useful lives:

| | |
|---|---|
| Buildings | 10-40 years |
| Building improvements | 5-40 years |
| Machinery and equipment | 3-15 years |
| Furniture and fixtures | 5-20 years |

Equipment under capital leases is amortized utilizing the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. Depreciation and amortization expense was $11,873,770 and $11,988,770 for the years ended September 30, 2015 and 2014, respectively.

Interest cost incurred on borrowed funds during the construction period of capital assets is capitalized as a component of the cost of acquiring those assets.

Gifts of property and equipment are reported as unrestricted support, and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of property and equipment with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire property and equipment are reported as restricted support. Absent explicit donor stipulations about how long the property and equipment must be maintained, expirations of donor restrictions are reported as released from restrictions when the donated or acquired property and equipment assets are placed in service.

Investments in Joint Ventures: The Network accounts for its investments in joint ventures in accordance with FASB ASC 323 "Investments – Equity Method and Joint Ventures". The Network records the difference between the cost of an investment and the underlying equity in net assets of the investee as goodwill on joint ventures. Equity method investments including the goodwill associated with those investments are reviewed for impairment under the provisions of FASB ASC 323.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Investments in Joint Ventures: The Network has invested in several joint ventures with other area hospitals, which are accounted for under the equity method of accounting. These joint ventures as of September 30, 2015 and 2014 include the Network's investments in the following:

| | 2015 | Ownership Percentage | 2014 | Ownership Percentage |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 6,572,374 | 50 % | $ 6,598,390 | 50 % |
| Tolland Imaging Center | 672,276 | 70 % | 380,818 | 70 % |
| Ambulance Service of Manchester, LLC | 4,344,083 | 50 % | 3,798,727 | 50 % |
| Aetna Ambulance Service Inc. | 1,881,429 | 50 % | 1,961,496 | 50 % |
| Evergreen Endoscopy Center, LLC | 564,632 | 50 % | 359,698 | 50 % |
| Haynes Street Medical Associates | 163,652 | 23 % | 149,808 | 23 % |
| Haynes Street Medical Associates II | 254,299 | 15 % | 249,744 | 15 % |
| Evergreen Medical Associates, LLC | 277,629 | 20 % | 264,503 | 20 % |
| Evergreen Medical Associates II, LLC | 584,937 | 20 % | 583,419 | 20 % |
| Walden Behavioral Health | 217,608 | 16 % | 196,135 | 16 % |
| Total joint venture assets | 15,522,919 | | 14,542,738 | |
| Goodwill on joint ventures | 2,647,890 | | 2,712,087 | |
| Other miscellaneous assets | 20,000 | | 20,000 | |
| Total investments in joint ventures | $ 18,190,809 | | $ 17,274,825 | |

Distributions from these joint ventures totaled $1,024,980 and $1,647,629 for the years ended September 30, 2015 and 2014, respectively. ECHN's share of the earnings of the joint ventures is reported within other revenues and amounted to $2,005,161 and $2,478,524 for the years ended September 30, 2015 and 2014, respectively.

During 2015, ECHN wrote off $64,197 of goodwill related to a joint venture that ceased operations. There were no write offs or impairments of goodwill in 2014.

Summarized financial information from the unaudited financial statements of these organizations as of September 30, 2015 and for the year then ended, is as follows:

| 2015 | Total Assets | Net Assets | Change in Net Assets | Excess (deficiency) of Revenues Over Expenses |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 13,356,858 | $ 13,144,745 | $ (111,240) | $ (111,240) |
| Ambulance Service of Manchester, LLC | $ 10,483,268 | $ 8,888,188 | $ 1,114,668 | $ 2,575,436 |
| Aetna Ambulance Service Inc. | $ 4,915,552 | $ 3,762,858 | $ (160,133) | $ (160,132) |
| Haynes Street Medical Associates | $ 2,427,308 | $ 670,383 | $ 16,772 | $ 71,978 |
| Haynes Street Medical Associates II | $ 8,218,931 | $ 1,695,326 | $ 30,361 | $ 289,623 |
| Evergreen Endoscopy Center, LLC | $ 1,698,935 | $ 826,898 | $ 398,907 | $ 398,907 |
| Evergreen Medical Associates, LLC | $ 6,364,532 | $ 1,601,696 | $ 69,383 | $ 234,137 |
| Evergreen Medical Associates II, LLC | $ 11,115,755 | $ 2,710,936 | $ 3,839 | $ 378,689 |
| Tolland Imaging Center | $ 1,139,778 | $ 960,395 | $ 416,369 | $ 395,249 |
| Walden Behavioral Health | $ 1,835,791 | $ 1,325,261 | $ 134,675 | $ 44,227 |

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Summarized financial information from the unaudited financial statements of these organizations as of September 30, 2014 and for the year then ended, is as follows:

| 2014 | Total Assets | Net Assets | Change in Net Assets | Excess (deficiency) of Revenues Over Expenses |
|---|---|---|---|---|
| Northeast Regional Radiation Oncology Network, Inc. | $ 13,250,462 | $ 13,255,985 | $ 763,486 | $ 335,328 |
| Metro Wheelchair Service Inc. | $ 151,744 | $ (23,958) | $ (132,407) | $ (132,412) |
| Ambulance Service of Manchester, LLC | $ 9,224,170 | $ 7,597,456 | $ 52,822 | $ 2,052,822 |
| Aetna Ambulance Service Inc. | $ 4,926,263 | $ 3,922,991 | $ 377,992 | $ 378,000 |
| Haynes Street Medical Associates | $ 2,464,703 | $ 853,611 | $ (9,542) | $ 66,803 |
| Haynes Street Medical Associates II | $ 8,373,390 | $ 1,664,965 | $ 95,259 | $ 275,998 |
| Evergreen Endoscopy Center, LLC | $ 1,595,233 | $ 429,991 | $ (155,623) | $ 944,374 |
| Evergreen Medical Associates, LLC | $ 6,612,745 | $ 1,532,513 | $ 196,056 | $ 215,698 |
| Evergreen Medical Associates II, LLC | $ 11,434,731 | $ 2,707,097 | $ (222,892) | $ 365,769 |
| Tolland Imaging Center | $ 775,884 | $ 544,026 | $ 256,871 | $ 241,197 |
| Walden Behavioral Health | $ 1,955,576 | $ 1,190,586 | $ (14,597) | $ 44,830 |

Intangible Assets: License enhancements included in intangible assets, are amortized over the life of the respective intangible property. On average, this amortization period for license enhancements is 5 years, respectively. Other intangible assets consists of various intangibles acquired through the purchase of physician practices. Other intangible assets are amortized over the life of the intangible, which on average is a 3 to 5 year period. Amortization is included in depreciation and amortization in the accompanying consolidated statements of operations and changes in net assets and the unamortized carrying value is recorded within goodwill and intangible assets, net in the accompanying consolidated balance sheets.

Unamortized Bond Issue Costs: Financing costs associated with the issuance of long-term debt are amortized over the term of the bonds using the effective interest method. Amortization is included in interest and financing costs in the accompanying consolidated statements of operations and changes in net assets, and the unamortized carrying value is recorded within other assets in the accompanying consolidated balance sheets.

Deferred Revenue: Deferred revenue represents payments received for services to be rendered in the next fiscal year and is recorded within other current liabilities in the accompanying consolidated balance sheets.

Excess (Deficiency) of Revenues Over Expenses: The consolidated statements of operations and changes in net assets include excess (deficiency) of revenues over expenses. Changes in unrestricted net assets, which are excluded from the excess (deficiency) of revenues over expenses, consistent with industry practice, include the changes in unrealized appreciation (depreciation) on investments; net change in fair value of interest rate swap agreements that qualifies for hedge accounting; net assets released from restrictions used for capital acquisitions; pension and postretirement related adjustments; and other changes in net assets.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

For purposes of display, transactions deemed by management to be ongoing, major or central to providing of health care services are reported as operating revenues and operating expenses. Operating revenues include net patient service revenue, grant income and investment income. Peripheral or incidental transactions are reported as non-operating gains and losses. Non-operating gains and losses include investment income and expenses related to property management, losses recognized on investments representing declines in value considered to be other-than-temporary in nature, changes in the fair values of interest rate swaps that do not qualify for hedge accounting (net interest expense) and the costs associated with pursuing business combinations.

Charity Care: MMH and RGH provide care to patients who meet certain criteria under their charity care policies without charge or at amounts less than its established and contractual rates. The hospitals do not pursue collection of amounts determined to qualify as charity care; as such, these amounts are not reported as revenue.

Net Patient Service Revenue: Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Contracts, laws, and regulations governing Medicare, Medicaid, Blue Cross, and the uncompensated care pool programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Network records adjustments in amounts accrued for estimated settlements related to prior years.

A portion of the accrual for estimated settlements with third-party payers has been classified as long-term because such amounts, by their nature or by virtue of regulation or legislation, are not expected to be paid within one year.

MMH and RGH have agreements with third-party payers that provide for payments at amounts different from their established rates. A summary of the payment agreements with major third-party payers is as follows:

Medicare: Acute care hospitals are subject to a federal prospective payment system for most Medicare inpatient hospital services and for certain outpatient services. Under this prospective payment methodology, Medicare pays a prospectively determined per-discharge or per-visit rate for non-physician services. These rates vary according to the Diagnosis Related Group or Ambulatory Payment Classification of each patient.

Inpatient rehabilitation and mental health services, outpatient services, capital and medical education costs related to Medicare beneficiaries are paid based on a prospective payment system, subject to certain limitations. The Hospital is reimbursed for cost-reimbursement for certain items at a tentative rate, with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediary. Certain other outpatient services are reimbursed according to fee screens.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Medicaid: Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost-reimbursement methodology. The hospitals are reimbursed at a tentative rate, with final settlement determined after submission of annual cost reports by the hospitals.

Other Payers: The Network has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes rates per discharge, discounts from established charges, per diem rates, and fee schedule payments.

Health Care Industry: The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

Management believes that the Network is in compliance with fraud and abuse regulations, as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to further governmental review and interpretation, as well as regulatory actions unknown or unasserted at this time.

EHR Incentive Payment Revenue: The American Recovery and Reinvestment Act of 2009 authorized the Centers for Medicare and Medicaid Services (CMS) to award incentive payments to eligible health care providers who demonstrate Meaningful Use of certified electronic health records (EHR). These incentive programs are designed to support providers in this period of health information technology transition and instill the use of EHRs in meaningful ways to help our nation to improve the quality, safety, and efficiency of patient health care. The Network uses a grant model to recognize revenue for the Medicare and Medicaid EHR incentive payments. Under this accounting policy, EHR incentive payment revenue is recognized as revenue after the Network has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period and the 12-month cost report period that will be used to determine the final incentive payment has ended. The Network recognizes revenue from Medicaid incentive payments after it has demonstrated compliance with the meaningful use criteria. Total revenue recorded for Medicare amounted to $830,386 and $1,786,134, for the years ended September 30, 2015 and 2014, respectively. These amounts have also been reflected within amounts due from third party payors as of September 30, 2015 and 2014, respectively.

Future Operations: Current trends in the health care industry include mergers and other forms of affiliations among providers, increasing shifts to managed care, overall reduction in inpatient average length of stay, increasingly restrictive reimbursement policies by governmental and private payers, and the prospect of significant changes in legislation at the state and national level. Management cannot assess or project the ultimate effect of these or other items on the future operations of the Network.

Interest in Net Assets of ECHF: ECHF was formed as a not-for-profit organization to supervise the development activities and engage in investment activities for the benefit of all of the ECHN subsidiaries. ECHN is the sole member of ECHF and the ECHF's Board of Directors is appointed by ECHN. ECHN subsidiaries follow the provisions of FASB ASC 958 "Not-for-Profit Entities". Accordingly, the separate ECHN members record their interest in the net assets of ECHF in their separate financial statements. These amounts have been eliminated in consolidation.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Income Taxes: ECHN and its subsidiaries, except for Enterprises, CHIC, ECHNCS and CINECT, are in compliance with the provisions of Internal Revenue Code (the Code) Sec. 501(c)(3) and are exempt from federal tax under IRC Sec. 501(a). At times, the Network is involved with activities that subject minor amounts of unrelated business federal income tax, which are paid as they come due in accordance with the Code and the regulations there under. Such amounts are insignificant to the Network's consolidated financial statements.

The Network accounts for uncertain tax positions in accordance with provisions of FASB ASC 740, *"Income Taxes"*, which provides a framework for how companies should recognize, measure, present and disclose uncertain tax positions in their consolidated financial statements. The Network may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The Network does not have any uncertain tax positions as of September 30, 2015 and 2014. The Network's policy is to include penalties and interest as a component of income tax expense, when applicable. As of September 30, 2015 and 2014, the Network did not record any penalties or interest associated with uncertain tax positions. Generally, the Network's prior three tax years are open and subject to examination by the Internal Revenue Service.

Enterprise and its subsidiaries, ECHNCS and CINECT are for-profit entities subject to federal and state taxes. For these entities, ECHN applies the provisions of FASB ASC 740. The tax provisions, and related tax assets and liabilities, are not material. CHIC has received an undertaking from the Cayman Islands government exempting it from all local income, profits, and capital gains taxes until January 3, 2026. No such taxes are currently levied in the Cayman Islands. Accordingly, no provision for federal income taxes has been recorded in the accompanying consolidated financial statements.

Asset Retirement Obligations: The Network recognizes a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation is factored into the measurement of the liability when sufficient information exists. The types of asset retirement obligations that the Network recognizes are those for which the Network has a legal obligation to perform an asset retirement activity, however, the timing and/or method of settling the obligation are conditional on a future event that may or may not be within its control.

The fair value of a liability for the legal obligation associated with an asset retirement is recorded in the period in which the obligation is incurred. When the liability is initially recorded, the cost of the asset retirement is capitalized. As of September 30, 2015 and 2014, the Network has recognized $412,007, as an obligation to remove asbestos from various buildings upon retirement. This total is included in the consolidated balance sheets within other liabilities.

Accounting for Defined Benefit Pension and Other Postretirement Plans: The Network recognizes the overfunded or underfunded status of their defined benefit pension and other postretirement benefit plans (collectively, postretirement benefit plans) in the consolidated balance sheets as an asset or liability. The Network recognizes changes in the funded status of the plans in the year in which the changes occur as an operating expense and as a change in unrestricted net assets presented below the excess of revenues over expenses in its consolidated statements of operations and changes in net assets.

Inventory: The Network records inventory at cost using the average cost method.

Impairment of Long-Lived Assets: Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value, less cost to sell.

(Continued)

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Estimated Self-Insurance Liabilities: The liabilities for outstanding losses and loss related expenses, and the related provision for losses and loss related expenses include estimates for malpractice losses, general liability, and workers' compensation incurred but not reported claims, as well as losses pending settlement. Such liabilities are necessarily based on estimates and, while management believes the amounts provided are adequate, the ultimate liability may be in excess of or less than the amounts provided. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The methods for making such estimates and the resulting liability are actuarially reviewed on an annual basis, and any adjustments required are reflected in operations in the current period. The current portion of estimated self-insurance liabilities is recorded within other current liabilities in the accompanying consolidated balance sheets.

Concentration of Credit Risk: Financial instruments, which potentially subject the Network to concentration of credit risk, consist of accounts receivable, investments, including temporary cash investments, marketable equity and debt securities, mutual funds, government securities and interest rate swap agreements. The Network receives a significant portion of its payments for services rendered from a limited number of government and commercial third-party payers, including Medicare (a federal program), Medicaid (a State of Connecticut program), and various health insurance companies.

Interest Rate Swap Agreements: Interest rate swap agreements are recognized as either assets or liabilities in the consolidated balance sheet at fair value regardless of the purpose or intent for holding them. Changes in the fair value of interest rate swap agreements if designated and effective as hedge transactions are recognized as changes in unrestricted net assets and excluded from excess (deficiency) of revenue over expenses. Interest rate swap agreements if designated as an ineffective hedge are recognized in non-operating losses and included in excess (deficiency) of revenue over expenses.

Advertising Costs: The Network expenses advertising costs the first time the advertising takes place. The total amount charged to advertising expense was $706,427 and $1,576,106 for the years ended September 30, 2015 and 2014, respectively, and is recorded in supplies and other expenses in the accompanying consolidated statements of operations and changes in net assets.

Reclassifications: Certain reclassifications to the 2014 consolidated financial statements have been made in order to conform with the 2015 presentation. Such reclassifications did not have a material effect on the consolidated financial statements and had no impact on the total net assets or changes in net assets of the Network.

Subsequent Events: Subsequent events have been evaluated through January 20, 2016, the date the consolidated financial statements were issued. Management believes that there are no subsequent events having a material impact on the consolidated financial statements.

(Continued)

## NOTE 3 - ASSETS WHOSE USE IS LIMITED AND INVESTMENTS

Assets whose use is limited and investments as of September 30, 2015 and 2014, include the following:

| | 2015 | | 2014 | |
|---|---|---|---|---|
| | Cost | Fair Value | Cost | Fair Value |
| Board designated and donor-restricted: | | | | |
| Money market funds | $ 42,414,918 | $ 42,414,918 | $ 44,043,227 | $ 44,043,227 |
| Other investments | - | - | 34,368 | 34,795 |
| Total | $ 42,414,918 | $ 42,414,918 | $ 44,077,595 | $ 44,078,022 |
| Investments held in trust for estimated self-insurance liabilities: | | | | |
| Money market funds | $ 65,000 | $ 65,000 | $ 96,364 | $ 96,364 |
| U.S. equities | 230,954 | 216,816 | 247,911 | 255,038 |
| Convertible corporate debt | 27,582 | 25,034 | 25,655 | 25,803 |
| Other non-exchange traded funds | 262,718 | 239,248 | 258,116 | 293,579 |
| Mutual funds: | | | | |
| Fixed income mutual funds | 3,699,356 | 4,044,212 | 3,541,821 | 3,536,760 |
| Equity mututal funds | 650,170 | 688,116 | 704,180 | 798,211 |
| Total | $ 4,935,780 | $ 5,278,426 | $ 4,874,047 | $ 5,006,755 |
| Investments held under bond indenture: | | | | |
| Money market funds | $ 6,269,660 | $ 6,269,660 | $ 5,174,324 | $ 5,174,324 |
| U.S. government securities | - | - | 1,160,527 | 1,161,137 |
| Total | $ 6,269,660 | $ 6,269,660 | $ 6,334,851 | $ 6,335,461 |
| Beneficial interest in trust assets | $ 9,835,851 | $ 10,809,693 | $ 10,331,633 | $ 11,809,221 |

| | 2015 | | 2014 | |
|---|---|---|---|---|
| | Cost | Fair Value | Cost | Fair Value |
| Investments: | | | | |
| Money market funds | $ 7,118,433 | $ 7,118,433 | $ 7,138,341 | $ 7,138,341 |
| Total | $ 7,118,433 | $ 7,118,433 | $ 7,138,341 | $ 7,138,341 |
| Total assets whose use is limited and investments | $ 70,574,642 | $ 71,891,130 | $ 72,756,467 | $ 74,366,800 |

Interest and dividend income, which is included in other revenue, on the assets whose use is limited and investments totaled $116,935 and $1,327,419 for the years ended September 30, 2015 and 2014, respectively. There were realized gains of $7,708 and $7,812,247 for the years ended September 30, 2015 and 2014, respectively, which are included within other revenue. Interest from cash and insurance payments totaled $101,470 and $60,552 for the years ended September 30, 2015 and 2014.

(Continued)

**NOTE 4 - FAIR VALUE MEASUREMENTS**

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

*Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Network has the ability to access.

*Level 2* - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

*Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following table presents the financial instruments carried at fair value as of September 30, 2015 and 2014, by the valuation hierarchy.

| 2015 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Assets: | | | | |
| Money market funds | $ 55,868,011 | $ - | $ - | $55,868,011 |
| U.S. equities | 216,816 | - | - | 216,816 |
| Convertible corporate debt | 25,034 | - | - | 25,034 |
| Other non-exchange traded funds | 239,248 | - | - | 239,248 |
| Mutual funds: | | | | |
| Bond fund | 4,044,212 | - | - | 4,044,212 |
| Equity mututal funds | 688,116 | - | - | 688,116 |
| Beneficial interest in trusts | - | - | 10,809,693 | 10,809,693 |
| Total assets at fair value | $ 61,081,437 | $ - | $ 10,809,693 | $71,891,130 |
| Liabilities: | | | | |
| Obligations under interest rate swap agreements | $ - | $ 52,854 | $ - | $ 52,854 |
| Total liabilities at fair value | $ - | $ 52,854 | $ - | $ 52,854 |

(Continued)

**NOTE 4 - FAIR VALUE MEASUREMENTS** (Continued)

The following table presents the financial instruments carried at fair value as of September 30, 2015 and 2014, by the valuation hierarchy.

| 2014 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Assets: | | | | |
| Money market funds | $ 56,452,256 | $ - | $ - | $56,452,256 |
| U.S. government securities | 1,161,137 | - | - | 1,161,137 |
| Corporate bonds | - | - | - | - |
| U.S. equities | 255,038 | - | - | 255,038 |
| Other investments | 34,795 | - | - | 34,795 |
| Mutual funds: | | | | |
| Bond fund | 3,625,132 | - | - | 3,625,132 |
| Equity mututal funds | 798,211 | - | - | 798,211 |
| Emerging markets fund | 101,014 | - | - | 101,014 |
| Midcap stock fund | 77,581 | - | - | 77,581 |
| Moderate allocation fund | 52,415 | - | - | 52,415 |
| Beneficial interest in trusts | - | - | 11,809,221 | 11,809,221 |
| Total assets at fair value | $ 62,557,579 | $ - | $ 11,809,221 | $74,366,800 |
| Liabilities: | | | | |
| Obligations under interest rate swap agreements | $ - | $ 3,800 | $ - | $ 3,800 |
| Total liabilities at fair value | $ - | $ 3,800 | $ - | $ 3,800 |

During the years ended September 30, 2015 and 2014, the value of the beneficial interest in trusts (decreased) increased for a change in market value of ($438,712) and $676,292, respectively. In addition, the Network received $560,816 and $500,251 in distributions from these trusts in 2015 and 2014, respectively. During 2014, the Network recorded additional beneficial interest in trust assets in the amount of $3,750,808. There were no additional amounts recorded in 2015.

The Network's valuation methodologies used to measure financial assets and liabilities at fair value are outlined below. Where applicable, the Network uses quoted prices in active markets for identical assets and liabilities to determine fair value (Level 1 inputs). This pricing methodology applies to money market funds, U.S. government securities, U.S. equities and mutual funds.

If quoted prices in active markets for identical assets and liabilities are not available, then quoted prices for similar assets and liabilities, quoted prices for identical assets or liabilities in inactive markets or inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, will be used to determine fair value (Level 2 inputs). The Level 2 classifications include the interest rate swap agreements. The interest rate swap agreements are valued based on a determination of market expectations relating to the future cash flows associated with the swap contract using sophisticated modeling based on observable market-based inputs, such as interest rate curves.

Assets and liabilities that are valued using significant unobservable inputs, such as extrapolated data, proprietary models, or indicative quotes that cannot be corroborated with market data are classified in Level 3 within the fair value hierarchy. The Level 3 classification includes the Network's beneficial interest in trusts. The value of the Network's assets is based on total fund values and the Network's corresponding beneficiary percentage.

(Continued)

**NOTE 4 - FAIR VALUE MEASUREMENTS** (Continued)

The fair value of the Network's Series A and C Bonds are based on current traded value. The fair value of the Series A and C Bonds as of September 30, 2015 and 2014, is approximately $39,334,314 and $41,166,328, respectively. The fair value of the Network's remaining long-term debt approximates its carrying value.

As of September 30, 2015 and 2014, the Network's other financial instruments included accounts receivable, accounts payable and accrued expenses and estimated settlements due to and from third-party payers. The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate their fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Network believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**NOTE 5 - OTHER ASSETS**

Other assets as of September 30, 2015 and 2014 consist of the following:

| | 2015 | 2014 |
|---|---|---|
| Other receivables | $ 709,994 | $ 795,005 |
| Notes receivable | 624,630 | 134,014 |
| Unamortized bond issuance costs | 2,136,639 | 2,282,438 |
| Losses recoverable | 1,069,836 | 2,157,634 |
| Total | $ 4,541,099 | $ 5,369,091 |

Include within other assets are certain loans to physicians which the Network makes to expand its practice. Physician loans are usually forgiven and amortized over the contract period. Physician loan amortization totaling $46,950 and $208,107 for the years ended September 30, 2015 and 2014, respectively, is included within depreciation and amortization in the accompanying consolidated statements of operations and changes in net assets.

As of September 30, 2015 and 2014, $1,571,500 and $228,691 of pledges receivables have been included within prepaid expenses and other current assets as management anticipates them to be collected within the next year.

Pledges receivable are expected to be realized as follows:

| | 2015 | 2014 |
|---|---|---|
| In one year or less | $ 1,580,500 | $ 237,691 |
| Between one and five years | - | - |
| Greater than five years | - | - |
| Less: allowance for uncollectible amounts | (9,000) | (9,000) |
| Pledges receivable - net | $ 1,571,500 | $ 228,691 |

(Continued)

**NOTE 5 - OTHER ASSETS** (Continued)

As of September 30, 2015 and 2014, unamortized bond issuance costs, which are included within other assets, consist of the following:

| | 2015 | 2014 |
|---|---|---|
| Deferred financing costs | $ 3,735,675 | $ 3,735,675 |
| Less: accumulated amortization | (1,599,036) | (1,453,237) |
| Total | $ 2,136,639 | $ 2,282,438 |

**NOTE 6 – PROPERTY AND EQUIPMENT**

Property and equipment as of September 30, 2015 and 2014, consist of the following:

| | 2015 | 2014 |
|---|---|---|
| Land and land improvements | $ 5,395,243 | $ 5,395,243 |
| Buildings and building improvements | 161,551,674 | 159,603,375 |
| Fixed equipment | 33,819,206 | 32,403,097 |
| Movable equipment | 115,646,936 | 112,056,204 |
| | 316,413,059 | 309,457,919 |
| Less: accumulated depreciation and amortization | (229,410,757) | (218,033,560) |
| | 87,002,302 | 91,424,359 |
| Construction-in-progress | 1,273,117 | 2,641,200 |
| Total | $ 88,275,419 | $ 94,065,559 |

For the years ended September 30, 2015 and 2014, the Network capitalized interest related to construction financed with tax-exempt debt of $67,635 and $20,850, respectively. The cost to complete the construction-in-progress is approximately $6,070,930 and $4,154,000 as of September 30, 2015 and 2014, respectively.

For the years ended September 30, 2015 and 2014, the Network disposed of property, plant and equipment in the amounts of $228,440 and $657,588, respectively and all disposals were of fully depreciated assets.

(Continued)

## NOTE 7 - INTANGIBLE ASSETS

The gross carrying amount and accumulated amortization, by class of intangible assets, as of September 30, 2015 and 2014, consisted of the following:

| 2015 | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|---|---|---|---|
| License enhancements | $ 1,898,684 | $ (1,407,854) | $ 490,830 |
| Other intangible assets | 1,717,291 | (1,170,434) | 546,857 |
| Goodwill | 2,989,140 | - | 2,989,140 |
| Total | $ 6,605,115 | $ (2,578,288) | $ 4,026,827 |

| 2014 | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|---|---|---|---|
| License enhancements | $ 1,898,684 | $ (1,378,528) | $ 520,156 |
| Other intangible assets | 1,717,291 | (971,321) | 745,970 |
| Goodwill | 2,989,140 | - | 2,989,140 |
| Total | $ 6,605,115 | $ (2,349,849) | $ 4,255,266 |

Amortization expense related to intangible assets was $228,440 and $243,102 for the years ended September 30, 2015 and 2014, respectively.

The estimated amortization expense in each of the succeeding five fiscal years and thereafter, as of September 30, 2015, is as follows:

| | |
|---|---|
| 2016 | $ 215,257 |
| 2017 | 200,714 |
| 2018 | 108,831 |
| 2019 | 73,359 |
| 2020 | 45,826 |
| Thereafter | 393,700 |
| Total | $ 1,037,687 |

## NOTE 8 - ESTIMATED SELF-INSURANCE LIABILITIES

The Network is self-insured for workers' compensation insurance coverage. The Network participates in Workers' Compensation Trust, a revocable trust, for the purpose of setting aside assets based on actuarial recommendations.

(Continued)

**NOTE 8 - ESTIMATED SELF-INSURANCE LIABILITIES (Continued)**

As of September 30, 2015 and 2014, the Hospital has a $450,000 limit per occurrence for workers' compensation claims. Prior to September 30, 2013, the per occurrence limit was $350,000. The Network has employed independent actuaries to estimate the ultimate costs, if any, of workers' compensation claims. Accrued workers' compensation reserves have been discounted at 5% as of September 30, 2015 and 2014, and in management's opinion provide an adequate reserve for loss contingencies. As of September 30, 2015 the discount on workers' compensation reserve amounted to approximately $275,000.

In fiscal year 2007, ECHN established a single-parent captive, CHIC, which covers all of its subsidiaries. The captive provides malpractice ($3,000,000 per occurrence and $9,000,000 in the aggregate) and general liability ($1,000,000 per occurrence and $3,000,00 in the aggregate) coverage for ECHN and its subsidiaries for the years ended September 30, 2015 and 2014.

Effective October 1, 2009, CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general care liability, automobile liability, employers liability, helipad liability and non-owned aircraft liability. The limit provided is $30,000,000 for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage is fully reinsured.

ECHN does not self-insure any malpractice risks other than exposures greater than its excess coverages, however, as of September 30, 2015 and 2014, ECHN has recorded a liability for estimated incurred but not reported claims, as it currently has a claims-made policy with CHIC.

The activity in the reserve for outstanding losses and loss related expenses at ECHN for workers' compensation, professional and general liability claims, as of September 30, 2015 and 2014, is as follows:

| | 2015 | 2014 |
|---|---|---|
| Balance at beginning of year | $ 12,007,755 | $ 11,296,110 |
| Workers' compensation: | | |
| Losses incurred related to: | | |
| Current year | 1,355,535 | 820,878 |
| Prior years | (307,298) | 293,054 |
| Total incurred | 1,048,237 | 1,113,932 |
| Paid losses related to: | | |
| Current year | (593,187) | (502,541) |
| Prior years | (1,084,338) | (1,260,229) |
| Total paid | (1,677,525) | (1,762,770) |
| Professional and general: | | |
| Losses incurred related to: | | |
| Current year | 1,450,000 | 2,500,000 |
| Prior years | 129,945 | (476,182) |
| Total incurred | 1,579,945 | 2,023,818 |
| Paid losses related to: | | |
| Current year | (11,415) | (35,098) |
| Prior years | (3,421,661) | (628,237) |
| Total paid | (3,433,076) | (663,335) |
| Balance at end of year | $ 9,525,336 | $ 12,007,755 |

(Continued)

**NOTE 8 - ESTIMATED SELF-INSURANCE LIABILITIES** (Continued)

Workers' Compensation: The development on prior-year incurred losses (decreased) increased by ($307,298) and $293,054 for the years ended September 30, 2015 and 2014, respectively.

Professional and General: The development on prior-year incurred losses increased (decreased) by $129,94 and ($476,182) for the years ended September 30, 2015 and 2014, respectively.

The reserve for losses, which was determined with the assistance of an actuarial consultant, included estimates of claims incurred but not reported. Approximately $2,328,000 and $2,324,000 of the reserve as of September 30, 2015 and 2014, respectively, are included in other current liabilities with the remaining balance of the reserve included in estimated self-insurance liabilities in the accompanying consolidated balance sheets.

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS**

ECHN had a defined benefit pension plan that covered substantially all of the employees of MMH and RGH. The benefits were based upon years of service and compensation for the five highest years during the employee's last 10 years of service. The hospitals contribute amounts sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as well as such additional amounts as deemed appropriate.

Effective December 31, 2013, ECHN froze the defined-benefit for all remaining participants. During September 2013, the Trustees passed a resolution to freeze all benefits related to the defined-benefit pension plan. On December 31, 2008, ECHN implemented a soft freeze on the defined-benefit pension plan. All qualified employees are eligible to enter into the Under the defined contribution plan, ECHN contributes 3% of eligible employees' salaries. This contribution is non-guaranteed for all employees except certain union workers. During fiscal year 2015 and 2014, the Hospital incurred expenses of $588,503 and $2,259,145, respectively, related to this plan.

MMH and RGH also sponsor a postretirement benefit plan that provides health care benefits to those employees who retire. The criteria to receive this benefit is to be vested in the pension plan, attain age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. MMH full-time registered nurse retirees (retired prior to October 1, 2005 and were eligible per the Union contract) are grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the plan.

For non-grandfathered retirees, the postretirement health care plan is contributory and the retiree pays 100% of the premium.

The effects of Medicare Prescription Drug, Improvement and Modernization Act of 2003 were reflected as of September 30, 2015 and 2014, assuming that ECHN will continue to provide a prescription drug benefit to retirees that is at least actuarially equivalent to Medicare Part D and that ECHN will receive the federal subsidy. The subsidy reduced plan liabilities by approximately $0 and $60,000 for the years ended September 30, 2015 and 2014, respectively. Subsidies of $72,784 and $82,280 were received in the years ended September 30, 2015 and 2014, respectively. Future benefits of $190,189 are expected to be paid. There are no future subsidies expected to be received related the Medicare Prescription Drug, Improvement and Modernization Act of 2003.

(Continued)

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS (Continued)**

The pension and postretirement plans' change in benefit obligation and change in plan assets for the years ended September 30, 2015 and 2014, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| **Change in benefit obligation:** | | | | |
| Benefit obligation, beginning of year | $ 212,658,153 | $ 192,294,259 | $ 2,848,659 | $ 4,193,572 |
| Service cost | 1,540,000 | 1,511,408 | 48,328 | 54,345 |
| Interest cost | 9,444,578 | 9,912,203 | 114,339 | 183,189 |
| Plan participants' contributions | - | - | 411,972 | 252,224 |
| Receipt of Medicare Part D reimbursement | - | - | 72,784 | 82,280 |
| Plan amendments | - | - | - | (1,500,168) |
| Actuarial loss (gain) | 7,967,757 | 18,293,175 | (241,294) | 103,272 |
| Benefits paid | (14,814,936) | (9,352,892) | (543,945) | (520,055) |
| Benefit obligation, end of year | $ 216,795,552 | $ 212,658,153 | $ 2,710,843 | $ 2,848,659 |
| **Change in plan assets:** | | | | |
| Fair value of plan assets, beginning of year | $ 169,516,557 | $ 152,290,850 | $ - | $ - |
| Actual return on plan assets | 1,237,206 | 21,778,598 | - | - |
| Employer contributions | 970,000 | 4,800,000 | 59,189 | 185,551 |
| Plan participants' contributions | - | - | 411,972 | 252,224 |
| Receipt of Medicare Part D reimbursement | - | - | 72,784 | 82,280 |
| Benefits paid | (14,814,936) | (9,352,891) | (543,945) | (520,055) |
| Fair value of plan assets, end of year | $ 156,908,827 | $ 169,516,557 | $ - | $ - |
| Accrued pension and other postretirement benefits | $ (59,886,725) | $ (43,141,596) | $ (2,710,843) | $ (2,848,659) |
| Accumulated benefit obligation | $ (216,795,552) | $ (212,658,153) | $ - | $ - |

The amount recognized in the Network's consolidated balance sheets as of September 30, 2015 and 2014, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| Current liabilities | $ - | $ - | $ 190,189 | $ 193,769 |
| Noncurrent liabilities | 59,886,725 | 43,141,596 | 2,520,654 | 2,654,890 |
| Net amount recognized | $ 59,886,725 | $ 43,141,596 | $ 2,710,843 | $ 2,848,659 |

(Continued)

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS** (Continued)

The allocation of the accrued pension and postretirement benefits for the years ended September 30, 2015 and 2014, is as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| MMH | $ 46,334,359 | $ 33,243,046 | $ 2,262,167 | $ 2,377,259 |
| RGH | 13,552,366 | 9,898,550 | 448,676 | 471,400 |
| Total | $ 59,886,725 | $ 43,141,596 | $ 2,710,843 | $ 2,848,659 |

The plans' components of net periodic benefit cost for the years ended September 30, 2015 and 2014, are as follows (pension benefits information presented is for MMH and RGH combined):

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| Service cost | $ 1,540,000 | $ 1,511,408 | $ 48,328 | $ 54,345 |
| Interest cost | 9,444,578 | 9,912,203 | 114,339 | 183,189 |
| Expected return on plan assets | (8,676,394) | (12,179,861) | - | - |
| Amortization of prior service (credits) costs | - | - | (179,878) | 77,724 |
| Recognized actuarial loss (gain) | 536,246 | 867,441 | (101,681) | (105,864) |
| Net periodic benefit cost | $ 2,844,430 | $ 131,191 | $ (118,892) | $ 209,394 |

The allocation of the net periodic benefit cost for the years ended September 30, 2015 and 2014, is as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| MMH | $ 2,191,794 | $ 103,762 | $ (99,214) | $ 174,744 |
| RGH | 652,636 | 27,429 | (19,678) | 34,650 |
| Total | $ 2,844,430 | $ 131,191 | $ (118,892) | $ 209,394 |

Included in unrestricted net assets are the following amounts that have not yet been recognized in net period cost:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| Unrecognized prior service costs | $ - | $ - | $ 1,311,468 | $ 1,491,346 |
| Unrecognized actuarial losses | (50,648,410) | (35,777,711) | 1,415,873 | 1,276,260 |
| Total | $ (50,648,410) | $ (35,777,711) | $ 2,727,341 | $ 2,767,606 |

(Continued)

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS** (Continued)

Changes in benefit obligations recognized in unrestricted net assets include:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| Acturial losses (gains) | $ 15,406,945 | $ 8,694,437 | $ (241,294) | $ 103,272 |
| New prior service costs | - | - | - | (1,500,168) |
| Amortization or curtailment of prior service credit (cost) | - | - | 179,978 | (77,724) |
| Amortization or settlement recognition of net gain (loss) | (536,246) | (887,441) | 101,681 | 105,863 |
| Total | $ 14,870,699 | $ 7,806,996 | $ 40,365 | $ (1,368,757) |

The prior service costs and actuarial gains (losses) included in unrestricted net assets and expected to be recognized in net periodic cost during the year ending September 30, 2016 are $188,700 and ($949,904), respectively.

The assumptions used to determine pension and postretirement benefit obligations as of September 30, 2015 and 2014, are as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| Discount rate | 4.65% | 4.54% | 4.19% | 4.11% |
| Expected long-term rate of return | 5.25% | 8.00% | N/A | N/A |
| Rate of compensation increase | 0.00% | 0.00% | N/A | N/A |
| Initial medical trend rate | N/A | N/A | 7.20% | 9.44% |
| Ultimate medical trend rate | N/A | N/A | 4.50% | 4.50% |
| Number of years to ultimate medical trend rate | N/A | N/A | 13 years | 13 years |

The assumptions used to determine net periodic benefit cost of the pension and postretirement plans for the years ended September 30, 2015 and 2014, were as follows:

| | Pension Benefits | | Other Postretirement Benefits | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |
| Discount rate | 4.54% | 5.27% | 4.11% | 5.54% |
| Expected long-term rate of return | 5.25% | 8.00% | N/A | N/A |
| Rate of compensation increase | N/A | 3.00% | N/A | N/A |
| Initial medical trend rate | N/A | N/A | 7.20% | 9.44% |
| Ultimate medical trend rate | N/A | N/A | 4.50 | 4.50% |
| Number of years to ultimate medical trend rate | N/A | N/A | 13 years | 13 years |

(Continued)

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS** (Continued)

The medical trend rate has a significant effect on the amounts reported. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

| | One Percentage Point Increase | One Percentage Point Decrease |
|---|---|---|
| Effect on year-end postretirement benefit obligation | $ 227,273 | $ 225,033 |
| Effect on total of service and interest cost components | $ 1,405 | $ 20,880 |

The pension plan's weighted-average asset allocations as of September 30, 2015 and 2014, by asset category, are as follows:

| | Pension Benefits | |
|---|---|---|
| | 2015 | 2014 |
| Asset category: | | |
| Equity securities | 0% | 0% |
| Debt securities | 99% | 99% |
| Cash and cash equivalents | 1% | 1% |
| | 100% | 100% |

The investment objective of ECHN is to invest the plan assets in a manner that, together with contributions, will provide for sufficient resources to pay current and projected obligations over the life of the plan. The plan shall be diversified across asset classes to achieve an optimal balance between risk and return and between income and growth of assets through capital appreciation. Consistent with funding requirements, a secondary objective of the plan is to source benefit payments primarily through existing plan assets and anticipated future returns thereby minimizing future cash contributions. The investment objectives shall be implemented in a de-risking framework designed to manage the plan's funded status volatility and minimize future cash contributions. The funded status of the plan shall be measured by the ratio of plan assets to the projected benefit obligation. To reduce the volatility as much as possible, the goal is to attain and/or maintain a funded status of at least a 105% funding level and allocate its assets as outlined below.

The plan has approved an asset allocation strategy that shall change over time in response to future changes in the plan's funded status. Such changes in asset allocation strategy are intended to allocate additional assets to the fixed income asset class should the plan's funded status improve. Accordingly, the fixed income asset class shall be invested in such a manner that its interest rate sensitivity correlates highly with that of the plan's liabilities. Other asset classes are intended to provide additional return with associated higher levels of risk. If the plan's funded status deteriorates beyond stated thresholds, the strategy dictates that additional assets will not be re-allocated to the return-seeking assets.

(Continued)

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS** (Continued)

Fair value methodologies used to assign plan assets to levels in accordance with ASC 820 are consistent with the inputs described in Note 4 and the following:.

*Guaranteed insurance contract*: A contract with an insurance entity under which related payments to the insurance entity are accumulated in an unallocated fund to be used to meet benefit payments when employees retire, either directly or through the purchase of annuities. Funds in an unallocated contract may also be withdrawn and otherwise invested. The fund's value is established by multiplying client contributions by an established interest rate. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table presents the investments of the defined benefit plan carried at fair value as of September 30, 2015 and 2014, by the valuation hierarchy.

| 2015 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Cash and cash equivalents | $ 929,519 | $ - | $ - | $ 929,519 |
| Fixed income mutual funds: | | | | |
| Long duration | 139,490,485 | - | - | 139,490,485 |
| U.S. Core Opportunistic | 6,641,878 | - | - | 6,641,878 |
| U.S. Passive | 6,865,329 | - | - | 6,865,329 |
| Guaranteed investment contract | - | - | 2,981,616 | 2,981,616 |
| Total plan assets at fair value | $ 153,927,211 | $ - | $ 2,981,616 | $ 156,908,827 |

| 2014 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Cash and cash equivalents | $ 708,333 | $ - | $ - | $ 708,333 |
| Fixed income mutual funds: | | | | |
| Long duration | 150,668,190 | - | - | 150,668,190 |
| U.S. Core Opportunistic | 7,500,003 | - | - | 7,500,003 |
| U.S. Passive | 7,558,893 | - | - | 7,558,893 |
| Guaranteed investment contract | - | - | 3,081,138 | 3,081,138 |
| Total plan assets at fair value | $ 166,435,419 | $ - | $ 3,081,138 | $ 169,516,557 |

(Continued)

**NOTE 9 - PENSION AND OTHER POSTRETIREMENT BENEFITS** (Continued)

The changes within the Level 3 investments as of September 30, 2015 and 2014, are as follows:

| 2015 | Guaranteed Investment Contract |
|---|---|
| Balance as of October 1, 2014 | $ 3,081,138 |
| Investment income | 123,390 |
| Expenditures | (222,912) |
| Balance as of September 30, 2015 | $ 2,981,616 |

| 2014 | Guaranteed Investment Contract |
|---|---|
| Balance as of October 1, 2013 | $ 3,230,137 |
| Investment income | 133,795 |
| Expenditures | (282,794) |
| Balance as of September 30, 2014 | $ 3,081,138 |

During fiscal year 2016, ECHN anticipates contributing $1,840,000 to the defined benefit pension plan.

The benefit payments, which reflect estimated future service, expected to be paid from the plans for the year ended September 30, 2015, are as follows:

| | Pension Benefits | Other Postretirement Benefits |
|---|---|---|
| 2016 | $ 9,806,322 | $ 190,189 |
| 2017 | $ 10,326,550 | $ 206,505 |
| 2018 | $ 10,915,238 | $ 213,426 |
| 2019 | $ 11,476,209 | $ 225,015 |
| 2020 | $ 12,035,372 | $ 238,865 |
| 2021-2025 | $ 66,839,679 | $ 1,161,098 |

The Network also has a defined contribution employee savings plan covering substantially all employees. Eligible employees who contribute to the plan will have 20% - 50%, depending upon years of service, of contributions matched by the Network, up to a maximum of 6% of annual compensation. The Network incurred expenses related to the employee savings plan amounting to $788,247 and $2,558,753, for the years ended September 30, 2015 and 2014, respectively.

(Continued)

**NOTE 10 - LONG-TERM DEBT AND LINES OF CREDIT**

Long-term debt and capital lease obligations, as of September 30, 2015 and 2014, consist of the following:

| | 2015 | 2014 |
|---|---|---|
| Connecticut Health and Educational Facilities Authority (CHEFA) Hospital Revenue Bonds, ECHN Series A Bonds, bearing interest at rates ranging from 6.000% to 6.375% - net of unamortized original issue discount of $32,057 and $39,281 for 2015 and 2014, respectively. | $ 7,347,943 | $ 8,245,719 |
| CHEFA Hospital Revenue Bonds, ECHN Series C Bonds, bearing interest ranging from 4.125% to 5.125% - net of unamortized original issue premium of $309,670 and $330,315 for 2015 and 2014, respectively. | 32,184,670 | 32,990,315 |
| CHEFA Hospital Revenue Bonds, ECHN Series D Bonds bearing interest at a variable rate, adjusted weekly. | 13,425,000 | 13,743,000 |
| CHEFA Hospital Demand Revenue Bonds, ECHN Series E Bonds, bearing interest at a variable rate, adjusted weekly. | 16,600,000 | 17,090,000 |
| Loan due to Sovereign Bank, face amount $5,200,000 due and payable in semi-annual principal and interest installments maturing on January 3, 2022 and bearing interest at 3.38% | 3,634,222 | 4,154,222 |
| Promissory note payable to Rockville Bank due and payable in monthly principal and interest installments maturing on January 15, 2015, bearing interest at a fixed rate of 3.75%. | - | 172,331 |
| Promissory note payable to Rockville Bank due and payable in monthly principal and interest installments maturing on July 1, 2025, bearing interest at 5.87%. | 688,717 | 742,092 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on May 1, 2018, bearing interest at 4.22% | 586,153 | 601,219 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on December 1, 2017, bearing interest at 4.11% | 539,375 | 554,013 |
| Promissory note payable to Webster Bank due and payable in monthly principal and interest installments with a balloon payment due on May 1, 2019 bearing interest at 5.14% | 506,701 | 517,406 |

(Continued)

**NOTE 10 - LONG-TERM DEBT AND LINES OF CREDIT** (Continued)

| | 2015 | 2014 |
|---|---|---|
| Promissory note payable to 428 Hartford Turnpike Associates, LLP payable in monthly principal and interest installments, maturing September 1, 2021, bearing interest at 6%. | 197,183 | 223,265 |
| Debt of ECHN Corporate Services. Various due dates and interest rates. | 10,575 | 43,215 |
| Mortgage payable to Rockville Bank, maturing April 1, 2022, bearing interest at 6.5% for the first five years, adjustable thereafter every five years. | 127,866 | 144,715 |
| Promissory notes with Philips Medical Capital, payable in monthly installments, maturing in fiscal year 2021 and bearing interest at rates between 4.3% and 6.8% | 2,359,215 | 2,542,664 |
| Mortgage payable to Rockville Bank, maturing January 1, 2027 bearing interest at 6.6% for the first five years, adjustable thereafter, every five years. | 121,471 | 129,901 |
| Promissory notes with GE HealthCare Financial Services, payable in monthly installments, maturing in fiscal years 2019 and 2020 and bearing interest at rates ranging from 4.4% to 5.3% | 549,719 | 661,435 |
| Promissory note with Stryker Flex Financial, payable in monthly installments, maturing in fiscal year 2020 and bearing interest at 4.00% | 994,500 | - |
| Promissory note with Siemens Financial Services, payable in monthly installments, maturing in fiscal year 2019 and bearing interest at 3.85% | 504,096 | 643,154 |
| Capital lease obligations (see Note 12) | 6,763,549 | 5,886,404 |
| Total long-term debt and capital lease obligations | 87,140,955 | 89,085,070 |
| Less: current maturities | (7,018,708) | (6,660,757) |
| Total long-term debt and capital lease obligations - net of current portion | $ 80,122,247 | $ 82,424,313 |

Lines of credit as of September 30, 2015 and 2014 consist of the following:

| | 2015 | 2014 |
|---|---|---|
| Revolving line of credit with TD Bank, bearing interest at a variable rate. | $ 3,800,000 | $ 5,600,000 |

(Continued)

**NOTE 10 - LONG-TERM DEBT AND LINES OF CREDIT** (Continued)

In February 2000, MMH, RGH and EES (collectively, the Series A Obligated Group) entered into an agreement and open-ended mortgage with Connecticut Health and Educational Facilities Authority (CHEFA) in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series 2000A (the Series A Bonds). A portion of the proceeds from the Series 2000A Bonds, net of the original issue discount and amounts used to establish required reserve accounts, was placed in an irrevocable trust from which the remaining debt service payments for defeased CHEFA bonds will be paid. The remainder was used to finance additions and renovations for various facilities. The Series A Obligated Group has been legally released from any future debt service on the defeased bonds. The Series A Bonds are due on various due dates through July 1, 2030.

In July 2004, MMH, RGH, EES, and ECHF (collectively, the Series B Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network Issue, Series B (the Series B Bonds). A portion of the proceeds from the Series B Bonds, net of the original issue discount and amounts used to establish required reserve accounts, was used to finance additions, renovations, and purchases of equipment for RGH and MMH.

The additions and renovations financed by the Series B Bonds consist of improvements and expansion of the emergency department at RGH; the purchase, renovation, and equipping of the Dialysis Center at RGH; construction of the heliport at RGH, improvements to the Gastrointestinal and Rehabilitation Departments at RGH, and capital equipment purchases for MMH and RGH.

The Series B bonds were refinanced as part of the issuance of Series E bonds as described below.

On October 1, 2005, MMH, RGH, EES, and ECHF (collectively, the Series C Obligated Group) entered into an agreement and open-ended mortgage with CHEFA to borrow $37,065,000 in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network Issue, Series C (the Series C Bonds). The proceeds from the Series C Bonds, net of the original issue premium and amounts used to establish required reserve accounts, were placed in an irrevocable trust to advance refund and defease a portion of the Series 2000A Bonds. MMH, RGH, and EES have been legally released from any future debt service on the portion of defeased Series 2000A Bonds. The Series C Bonds are due on various due dates through July 1, 2034, bearing interest at rates ranging from 4.125% to 5.125%.

In May 2009, MMH, RGH, EES, and ECHF (collectively, the Series D Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series D (the Series D Bonds). A portion of the proceeds from the Series D Bonds, net of amounts used to establish required reserve accounts, were used to finance renovations at MMH, an expansion at EES, and other campus improvements. The Series D Bonds are due on various due dates through May 14, 2039.

In December 2010, MMH, RGH, EES, and ECHF (collectively, the Series E Obligated Group) entered into an agreement and open-ended mortgage with CHEFA in connection with the issuance of CHEFA Hospital Revenue Bonds, Eastern Connecticut Health Network, Issue Series E (the Series E Bonds). The proceeds from the Series E Bonds, net of amounts used to establish required reserve accounts, were used to redeem the Series B Bonds and fund interest rate swap agreement termination payments relating to the Series B Bonds. The Series E Bonds are due on various due dates through July 1, 2034.

(Continued)

**NOTE 10 - LONG-TERM DEBT AND LINES OF CREDIT** (Continued)

Under the terms of the Series A, Series B, Series C, Series D, and Series E Bonds, the Series A Obligated Group, Series B Obligated Group, Series C Obligated Group, Series D Obligated Group, and Series E Obligated Group (the Obligated Groups) are required to maintain certain deposits with a trustee. Such deposits are included in assets whose use is limited. The indenture also places limits on the incurrence of additional borrowings and dispositions of property and requires that the Obligated Groups satisfy certain measures of financial performance as long as the notes are outstanding.

Under the terms of the CHEFA agreements, each member of the Obligated Groups is jointly and severally liable for the full and prompt payment of the amounts owed by the Obligated Groups. Total debt under the CHEFA agreements of the Obligated Groups was $72,914,222 and $75,932,222 as of September 30, 2015 and 2014, respectively. The debt is also secured by the gross receipts of the Obligated Groups.

In June 2012, the Obligated Group entered into a loan agreement with Sovereign Bank, through CHEFA's Tax-Exempt Equipment Loan Program, for $5,200,000 in connection with purchase of equipment and renovation costs. Semi-annual principal and interest payments are due through January 2022.

The Hospital is party to various capital leases, which are described in Note 12.

The annual maturities of the long-term debt and capital lease obligations in each of the succeeding five years and thereafter, as of September 30, 2015, are as follows:

| | |
|---|---|
| 2016 | $ 7,018,708 |
| 2017 | 6,297,881 |
| 2018 | 6,682,574 |
| 2019 | 5,969,084 |
| 2020 | 5,197,338 |
| Thereafter | 55,697,757 |
| | 86,863,342 |
| Plus - premium | 277,613 |
| **Total** | $ 87,140,955 |

On December 21, 2010, ECHN entered into a $6,500,000 unsecured line of credit with TD Bank, N.A. In 2014, the line of credit agreement was modified. The amount available was reduced to $5,750,000, the interest rate was increased to LIBOR plus 2.5% and the maturity was extended to September 29, 2015. In 2015, the line of credit agreement was further modified. The amount available was reduced to $3,950,000 and the maturity date was extended to September 29, 2016. As of September 30, 2015 and 2014, MMH had $3,800,000 and $5,600,000, respectively, outstanding under this line of credit.

The Network is subject to various financial covenants related to these debt agreements. The Network was in compliance with these covenants in 2015 and 2014.

**NOTE 11 - DERIVATIVES**

The Network uses derivative instruments, specifically interest rate swap agreements, to manage its exposure to changes in the interest rate on its CHEFA bonds. The use of derivative instruments exposes the Network to additional risks related to the derivative instrument, including market risk, credit risk and termination risk as described below, and the Network has defined risk management practices to mitigate these risks, as appropriate.

(Continued)

**NOTE 11 - DERIVATIVES** (Continued)

Market risk represents the potential adverse effect on the fair value and cash flow of a derivative instrument due to changes in interest rates or rate spreads. Market risk is managed through ongoing monitoring of interest rate exposure based on set parameters regarding the type and degree of market risk that the Network will accept. Credit risk is the risk that the counterparty on a derivative instrument may be unable to perform its obligation during the term of the contract. When the fair value of a derivative contract is positive, the counterparty owes the Network, which creates credit risk.

Credit risk is managed by setting stringent requirements for qualified counterparties at the date of execution of a derivative transaction and requiring counterparties to post collateral in the event of a credit rating downgrade or if the fair value of the derivative contract exceeds a negotiated threshold.

Termination risk represents the risk that the Network may be required to make a significant payment to the counterparty, if the derivative contract is terminated early. Termination risk is assessed at onset by performing a statistical analysis of the potential for a significant termination payment under various scenarios designed to encompass expected interest rate changes over the life of the proposed contract. The test measures the ability to make a termination payment without a significant impairment to the Network's ability to meet its debt or liquidity covenants.

In May 2009, ECHN entered into an interest rate swap agreement to manage the interest cost and risk associated with $15,250,000 of its variable rate Series D Bonds. Under the terms of this agreement, ECHN pays a fixed rate of 3.89%. Changes in the fair value of this swap are recorded in the consolidated statements of operations and changes in net assets. Effective May 14, 2014, the interest rate swap agreement on the Series D variable rate debt expired. The Network's portion of the swap agreement in force related to this strategy as of September 30, 2014, and the liability and interest expense recognized by the Network are as follows:

| | | 2014 |
|---|---|---|
| Notional amount of contract | $ | - |
| Fair value of swap contract recognized in other liabilities | $ | - |
| Net interest income recognized in non-operating losses | $ | (170,000) |

In June 2012, ECHN entered into an interest rate swap agreement to manage the interest cost and risk associated with $5,200,000 of its debt with Sovereign Bank. Under the terms, ECHN pays a fixed rate of 3.38%. The swap is accounted for as a cash flow hedge in accordance with ASC 815 "*Accounting for Derivative Instruments and Hedging Activities*". This accounting treatment requires the effective portion of the gain or loss on a derivative instrument designated and qualifying as a cash flow hedging instrument to be reported as a component of other changes in unrestricted net assets and to be reclassified into operations in the same period or periods during which the hedged forecasted transaction affects earnings. The remaining gain or loss on the derivative instrument, if any, shall be recognized currently in non-operating losses.

(Continued)

**NOTE 11 - DERIVATIVES** (Continued)

The Network's portion of the swap agreement in force related to this strategy as of September 30, 2015 and 2014, and the liability and unrealized (gain) loss recognized by the Network are as follows:

| | 2015 | 2014 |
|---|---|---|
| Notional amount of contract | $ 3,634,222 | $ 4,154,222 |
| Fair value of swap contract recognized in other liabilities | $ 52,900 | $ 3,800 |
| Unrealized (gain) loss recognized in unrestricted net assets | $ 49,100 | $ (8,200) |

The counterparty to the above swap transactions is a major financial institution that meets ECHN's criteria for financial stability and creditworthiness.

**NOTE 12 - LEASE COMMITMENTS**

ECHN leases equipment under capital lease agreements, which begin to expire in 2015. The interest rates range from 4% to 8%. The net carrying value of equipment under the capital lease was $8,594,610 and $8,111,729 as of September 30, 2015 and 2014, respectively. ECHN leases various office space and certain equipment under operating leases that expire in various years through fiscal year 2024. Certain leases may be renewed at the end of their term.

Future minimum payments under capital leases and non-cancelable operating leases as of September 30, 2015, consisted of the following:

| | Capital Leases | Operating Leases |
|---|---|---|
| 2016 | $ 3,273,452 | $ 5,614,395 |
| 2017 | 1,965,770 | 4,151,050 |
| 2018 | 906,877 | 2,814,112 |
| 2019 | 733,989 | 2,363,973 |
| 2020 | 378,844 | 2,261,254 |
| Thereafter | - | 10,319,656 |
| | 7,258,932 | $ 27,524,440 |
| Less: interest on capital lease | 495,383 | |
| Principal amount of capital lease | $ 6,763,549 | |

Rent expense under operating and month-to-month leases was $6,421,813 and $6,735,147 for the years ended September 30, 2015 and 2014, respectively.

(Continued)

## NOTE 13 - CONCENTRATIONS OF CREDIT RISK

ECHN grants credit without collateral to its patients, most of whom are insured under third-party payer agreements. The mix in patient accounts receivable as of September 30, 2015 and 2014, before allowances for doubtful accounts, consists of the following:

| | 2015 | 2014 |
|---|---|---|
| Medicare | 29% | 23% |
| Self-pay | 24% | 32% |
| Managed care | 23% | 24% |
| Medicaid | 15% | 13% |
| Commercial insurance | 4% | 3% |
| Other | 5% | 5% |
| | 100% | 100% |

## NOTE 14 - NET PATIENT SERVICE REVENUE

Net patient service revenue for the years ended September 30, 2015 and 2014, consists of the following:

| | 2015 | 2014 |
|---|---|---|
| Patient service revenues: | | |
| Inpatient services | $ 318,875,465 | $ 333,197,293 |
| Outpatient services | 600,758,074 | 592,717,508 |
| Gross patient service revenues | 919,633,539 | 925,914,801 |
| Deductions - contractual allowances and discounts | (611,589,145) | (615,943,491) |
| Patient service revenue, net of contractual allowances and discounts | $ 308,044,394 | $ 309,971,310 |

Net patient service revenues by primary payor for the years ended September 30, 2015 and 2014, is as follows:

| | 2015 | 2014 |
|---|---|---|
| Managed care | $ 123,129,276 | $ 122,972,772 |
| Medicare | 113,011,679 | 115,689,688 |
| Medicaid | 48,753,827 | 46,594,882 |
| Commercial insurance | 15,409,231 | 14,529,384 |
| Self-pay | 3,126,653 | 4,766,685 |
| Other | 4,613,728 | 5,417,899 |
| Total | $ 308,044,394 | $ 309,971,310 |

(Continued)

**NOTE 14 - NET PATIENT SERVICE REVENUE** (Continued)

In addition, the Network provides for a provision for bad debts. For receivables associated with services provided to patients who have third-party coverage, the Network analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and co-payment balances due for which third-party coverage exists for part of the bill), the Network records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible.

For uninsured patients that do not qualify for financial assistance, the Network offers a discount off its standard rates for services provided. The difference between the discounted rates and the amounts actually collected after all reasonable collection efforts have been exhausted is written off against the allowance for doubtful accounts in the period they are determined uncollectible. The Network's allowance for doubtful accounts covers all accounts greater than 6 months for both self-pay accounts receivable and third party payors as of September 30, 2015 and 2014. The Network's self-pay and third-party payors write-offs totaled $9,273,157 and $11,700,441 for 2015 and 2014, respectively. The Network did not change its charity care or financial assistance policy during 2015 or 2014.

At September 30, 2015 and 2014, 36.3% and 30.4% of net patient accounts receivable were from governmental payors (Medicare and Medicaid) and 63.7% and 69.6% were from nongovernmental payors, respectively. Nongovernmental payors are primarily insurance companies and self-pay payors. Management has recorded an allowance for doubtful accounts, as noted above, which, in its opinion, is sufficient to provide for risk of nonpayment.

**NOTE 15 - COMMUNITY BENEFIT**

ECHN's mission is to improve the health of the people and the communities ECHN serves.

ECHN provides quality health care to all, regardless of their ability to pay. Charity care is provided to those who are eligible based on ECHN's policy. ECHN also incurs unpaid costs for government programs because reimbursement is not sufficient to cover costs associated with Medicare and Medicaid patients. In addition to the charity care responsibilities, ECHN provides numerous other community benefits. These community benefits include medical education and research, community health education, screenings, support groups, counseling services, and in-kind support. To address the need for health care providers, a number of programs are offered for young people who may be interested in a career in health care.

ECHN utilizes guidelines developed by various organizations to quantify community benefit activities. ECHN defines community benefit activities as those that improve access to care, as well as the health of the broader community. In addition to charity care and the unpaid costs of government sponsored health care (Medicare and/or Medicaid shortfalls), community benefit activities will normally fall into one of the following categories: nonbilled community health services / community health improvement services, health professions education, subsidized health services, research, financial and in-kind contributions, community building activities, and community benefit operations.

MMH and RGH provide care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because MMH and RGH do not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The amount of traditional charity care provided, determined on the basis of cost, was $1,650,100 and $2,144,342 for the years ended September 30, 2015 and 2014, respectively.

(Continued)

## NOTE 16 - FUNCTIONAL EXPENSES

ECHN provides general health care services to residents within its geographical location. For the years ended September 30, 2015 and 2014, expenses relating to providing these services are as follows:

| | 2015 | 2014 |
|---|---|---|
| Health care services | $ 255,729,581 | $ 266,901,859 |
| Fund raising | 508,490 | 1,210,885 |
| General and administrative | 59,610,005 | 58,469,860 |
| Total | $ 315,848,076 | $ 326,582,604 |

## NOTE 17 - TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

The temporarily restricted net assets available, as of September 30, 2015 and 2014, are available for the following purposes:

| | 2015 | 2014 |
|---|---|---|
| Departmental and endowment purposes | $ 1,402,125 | $ 1,910,003 |
| Capital campaign and pledges | 84,411 | 186,310 |
| Total | $ 1,486,536 | $ 2,096,313 |

As of September 30, 2015 and 2014, permanently restricted net assets consist of the following:

| | 2015 | 2014 |
|---|---|---|
| Beneficial interest in trust assets | $ 10,809,693 | $ 11,809,221 |
| Endowments restricted for: | | |
| Other departmental purposes | 3,554,028 | 3,553,655 |
| Charity care | 532,024 | 532,024 |
| Special needs | 151,579 | 151,579 |
| Cancer research | 6,124 | 6,124 |
| Total | $ 15,053,448 | $ 16,052,603 |

(Continued)

**NOTE 17 - TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS (Continued)**

The composition of the Network's endowment by net asset class as of September 30, 2015 and 2014, was as follows:

| 2015 | Permanently Restricted | Total |
|---|---|---|
| Donor-restricted endowment funds | $ 4,243,755 | $ 4,243,755 |
| Net assets, September 30, 2015 | $ 4,243,755 | $ 4,243,755 |

| 2014 | Permanently Restricted | Total |
|---|---|---|
| Donor-restricted endowment funds | $ 4,243,382 | $ 4,243,382 |
| Net assets, September 30, 2014 | $ 4,243,382 | $ 4,243,382 |

The Network's endowments consist of multiple funds established for a variety of purposes. The endowments include donor-restricted endowment funds. As required by GAAP, endowments, are classified and reported based on the existence or absence of donor restrictions.

The Network has interpreted the relevant laws as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Network.

The Network considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the Network and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the Network; and (7) the investment policies of the Network.

The Network has adopted investment and spending policies for endowment assets that attempt to provide a reasonably stable and predictable stream of earnings to support the operations of the endowments and to preserve and enhance over time the real value of the endowment assets. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce a real return, net of inflation and investment and management costs, over the long-term. Actual returns in any given year may vary from this amount.

The Investment Committee of the Board is responsible for defining and reviewing the investment policy to determine an appropriate long-term asset allocation policy. The asset allocation policy reflects the objective with allocations structured for capital growth and inflation protection over the long-term.

To satisfy its long-term rate-of-return objectives, the Network relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Network targets a diversified asset allocation that places a greater emphasis on equity based investments to achieve its long-term return objectives within prudent risk constraints.

(Continued)

**NOTE 17 - TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS** (Continued)

The Network has appropriated $14,664 and $107,171 for expenditure from its endowment funds for the years ending September 30, 2015 and 2014, respectively.

Changes in endowment net assets for the fiscal year ended September 30, 2015 were as follows:

| 2015 | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|
| Net assets, October 1, 2014 | $ - | $ 4,243,382 | $ 4,243,382 |
| Interest income | 14,664 | - | 14,664 |
| Released from restrictions | (14,664) | - | (14,664) |
| Contributions | - | 373 | 373 |
| Net assets, September 30, 2015 | $ - | $ 4,243,755 | $ 4,243,755 |

Changes in endowment net assets for the fiscal year ended September 30, 2014 were as follows:

| 2014 | Temporarily Restricted | Permanently Restricted | Total |
|---|---|---|---|
| Net assets, October 1, 2013 | $ - | $ 4,413,548 | $ 4,413,548 |
| Interest income | 107,171 | - | 107,171 |
| Released from restrictions | (107,171) | - | (107,171) |
| Reclassification of donations | - | (170,166) | (170,166) |
| Net assets, September 30, 2014 | $ - | $ 4,243,382 | $ 4,243,382 |

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or relevant law requires the Network to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are reported in unrestricted net assets. As of September 30, 2015 and 2014, there were no funds that were below the level required by donor or law.

**NOTE 18 - COMMITMENTS AND CONTINGENCIES**

The Network is involved in various legal actions arising from its activities. Although the ultimate outcome is not determinable at this time, management, after taking into consideration the advice of legal counsel, believes that the resolution of these pending matters will not have a material adverse effect, individually or in the aggregate, on the consolidated balance sheets or on the related consolidated statements of operations and changes in net assets, or consolidated cash flows of the Network.

The Network and the Network's defined benefit pension plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

(Continued)

## NOTE 19 - STATUTORY CAPITAL AND SURPLUS

CHIC was incorporated in the Cayman Islands on September 15, 2006 and was granted an Unrestricted Class "B" insurance license under the Insurance Law of the Cayman Islands with an effective date of September 26, 2006. As of October 14, 2013, in accordance with Section 4(3)(b) of The Insurance Law, 2010, the company is now classified as a Class B (i) insurer. CHIC is regulated by the Cayman Islands Monetary Authority (CIMA) and related relations, and is obligated to comply with CIMA regulations regarding minimum levels of solvency and liquidity.

Statutory capital and surplus as of September 30, 2015 was $704,717 with a minimum amount required to be maintained by CHIC of $100,000. Distribution of dividends is subject to approval by the Board of Directors. No dividends were declared or paid during the years ended September 30, 2015 and 2014.

ECHN reports all of CHIC's investments as investments held in trust for estimated self-insurance liabilities in the accompanying consolidated balance sheets.

I. TITLE: MMH Lobby Coffee Cart

II. Purpose and Scope:

A. Volunteers make and sell coffee for employees and visitors in the lobby of MMH. The proceeds from the Coffee Cart are proudly given to support cancer programs. Coffee is provided from approximately 7AM-6PM.

I. Procedure

A. Make a variety of coffee flavors as needed.
B. Order milk and cream, sugar and napkins from Food Services using the Food Services order form and leaving it with the kitchen supervisor or in the kitchen office.
C. Retrieve necessary supplies (i.e. coffee packages, cups, sleeves and lids from the storage area).
   1. Make sure supplies are available for the next shift.
D. Once per day, take and record the temperature of the refrigerator and record on form.
   1. If the temperature is above 42 degrees F., please contact the Volunteer Coordinator.
   2. The Volunteer Coordinator will collect the sheets monthly and file for a period of one year.
E. Keep area clean and presentable.
   1. Have the front desk concierge call Environmental Services for any spills.
F. Count and roll money at the end of the shift.
   a) Fill out a deposit slip.
   b) Leave some change and approximately $10.00 in one-dollar bills.
   c) Place money and deposit slip in a canvas bag and deposit in the deposit box or give to the Volunteer Coordinator or designee.
G. Return pots, milk and creamers to the Kitchen by 6:00 pm to get washed for the next day.

ECHN Eastern Connecticut Health Network

# EASTERN CONNECTICUT HEALTH NETWORK
# CREDIT & COLLECTION / BAD DEBT POLICY
# POLICY AND PROCEDURE

**TITLE: Credit & Collection / Bad Debt**

**APPROVING AUTHORITY: Director, Patient Financial Services**

**DATE: 02/02/14**

---

## TOPIC
The Credit & Collection / Bad Debt policy for ECHN - Manchester Memorial and Rockville General Hospitals Patient Financial Services.

## PURPOSE
To ensure that collection efforts are administered for self-pay deductibles co-pays, co-insurances, and other outstanding patient due balances. ECHN will extend collection efforts which are reasonable and compliant with state and federal guidelines on the pursuit of patient due balances and referral to a collection agency.

## POLICY
ECHN is committed to assuring that bad debt write-off will take place only after exhausting all reasonable follow-up efforts for the collection of a unpaid debt. This collections process includes billing third party payers (insurance carriers, etc), direct billing, dunning, and phone calls to the patient/ guarantor, as well as referral to outside collection agencies.

## PROCEDURE

The following guidelines will apply for patients with no insurance or for self pay balances after insurance has paid.

1. Once the charging and coding process concludes, a final bill will be generated and sent to the third party payer for payment. If the patient does not have health insurance (registered as Self-Pay) an itemized statement will be sent directly to the patient for payment.
    a. After the initial bill has generated self-pay encounters are referred to an outsourced vendor (American Adjustment Bureau) which acts as an extension of the business office and handles all Self-Pay balances.
        i. Registered Self Pay is sent to the Outsourced Vendor at day 1.
        ii. Self Pay after insurance is sent to the Outsourced Vendor 1 day after insurance (primary, secondary, or tertiary) has paid the claim.
        iii. The outsourced vendor (American) receives a daily electronic billing file as self pay claims are generated to initiate account resolution actives.
        iv. The outsourced vendor submits a daily acknowledgement file to the hospital to confirm receipt of the assigned inventory. The acknowledgment file is posted on the z-Early Out folder in the business office shared drive.
2. In accordance with hospital policy, self-pay patients receive:
    a. A series of four (4) statements at approximately 30-day intervals and a pre-collect letter/final notice at approximately 15 days after the 4th statement, from the outsourced self-pay vendor (American).
    b. Automated outbound call campaigns are approximately at 30 day intervals to contact patient/guarantor to resolve outstanding accounts.

ECHN Eastern Connecticut Health Network

# EASTERN CONNECTICUT HEALTH NETWORK
# CREDIT & COLLECTION / BAD DEBT POLICY
# POLICY AND PROCEDURE

c. The statements include dunning messages which are progressive in informing the patients of their obligation, and include notices that the account may be referred to a collection agency if the balance remains outstanding.

*Note: At any point along the self-pay collection cycle a patient can inquire and/or request to be considered for a charity care discount. Signage is posted in all Registration and Customer Service areas and all patient statement include information instructing them on the methods of accessing financial counseling assistance. Financial assistance may include charity care, payment arrangements, or other applicable programs.*

d. ECHN currently applies an uninsured discount of 30% on all self-pay accounts (uninsured patients registered as self pay) at the time of billing with the exception of a few outpatient services that have been set up with established discounted rates.(Cardiac Rehab Phase III, Massage Therapy) The hospital's billing and accounts receivable system automatically discounts the account at the time of bill generation.

e. ECHN will approve payment arrangements for patients who agree to a minimum of $50 and the monthly payment will be determined by the total amount due and the number of months contracted, which does not extend more than 24 months. Management has the authority to make exceptions to the policy on a case-by-case basis for special circumstances. ECHN is not required to accept patient-initiated payment arrangements and may refer accounts for collection if the patient is unwilling to make acceptable payment arrangements or has defaulted on ECHN approved payment plans.

3. Account balances which have not been resolved after a series of 4 patient statements and a pre-collect notice during the dunning cycle becomes eligible for bad debt write-off.
   a. Bad debt qualification criteria – an account may be referred to collection if it meets one or more of the following;
      i. Self-pay balance not paid 120 days after bill date when all reasonable follow-up efforts have been exhausted.
      ii. Guarantor has received 4 statements and a pre-collect letter
      iii. No reasonable response from the patient
      iv. No payment has been received and no financing could be arranged to pay the account in full in the previous 120 days despite at least four contacts with the responsible party.
      v. Guarantor has defaulted on an "agree to payment plan".
      vi. Exclusions to this protocol are mail returns, small balances write off (under $5.00), unresolved patient disputes or billing issues and bankruptcy discharges, which may result in early placement to bad debt or early discharge of an account.
4. Any outstanding balances that pertain to a self pay or self pay after insurance that all dunning is complete; the outsourcing vendor (American) sends a monthly electronic file to ECHN for bad debt review and referral to outside bad debt agencies. This report identifies those accounts which have progressed through the complete billing cycle and are ready to be written off to Bad Debt.
5. ECHN reviews the potential bad debt file for any accounts that are not eligible for bad debt write off due to established criteria. The accounts are reviewed for any insurance balances, active pay plans, and accounts with recent payments. Once the pre-collect accounts have been determined, the self-pay collector is changed in Meditech.
6. The collector is changed to reflect the corresponding assignment of the bad debt to one of two contracted collection agents. Claim inventory is split alphabetically with patient last names beginning with letter A – L being associated to American adjustment Bureau (PC-AMER) and letter M – Z being assigned to Transcontinental Credit (PC-TRANS).

ECHN Eastern Connecticut Health Network

# EASTERN CONNECTICUT HEALTH NETWORK
# CREDIT & COLLECTION / BAD DEBT POLICY
# POLICY AND PROCEDURE

7. The account balance is subsequently removed from the active accounts receivable and at month end, the system will automatically write off accounts to the assigned collectors/agencies and becomes part of the bad debt receivable.
8. Accounts are refered to collections agencies on a monthly basis. The electronic inventory files are sent to the contracted collection agencies to pursue recoveries of the referred accounts.

I. Purpose:

A. Escort Messenger Volunteers assist hospital staff, patients and visitors by transport patients, specimens, medications, documents, etc. throughout the hospital.

I. Procedure

A. Take calls from staff requesting service.

B. Log requesting department and destination (ie: 3North to Lab; Pharmacy to Bissell 2, 2East – discharge, etc.).

C. Wash hands between each run using proper hand washing protocol with hand sanitizer or soap and water.

D. Transporting specimens

1. Lab specimens and pharmaceuticals are transported in bags placed in a lab box to prevent dropping.

2. Do not touch specimen tube or container with bare hands.

3. If spillage occurs, contact the nursing unit or Environmental Services for clean-up.

E. Transporting blood

1. Volunteer name and signature must be on file with the blood bank.

2. Please reference Blood Product Delivery training presentation.

F. Transporting patients

1. Never leave a patient unattended. Wait for staff to acknowledge the patient has arrived or for their ride to arrive for them before leaving.

2. Do not lift or move patients. If a patient needs more than "courtesy" assistance (a steadying hand) in getting out of or into a wheelchair, seek staff assistance.

3. Do not wheel patients off the curb/sidewalk right outside an entrance.

4. Volunteers should not be asked to transport morbidly obese patients.

a) If you feel a patient is too heavy for you, do not transport the individual. Very discreetly tell the staff that you are unable to handle this task and staff will handle the transport.

IV. INDIVIDUAL RESPONSIBLE FOR REVISION: Volunteer Coordinator

V. ORIGINATED: 5/29/00 Revised: 1/20/2012

Volunteer Coordinator, Human Resources, date

# Eucharistic Volunteers

Main Objective: Responsible for bringing Communion Host to patients.

Eucharistic Volunteers are vetted and trained by the Catholic Church. They also go through ECHN Volunteer Services to be on boarded and to receive an ID badge.

Eucharistic Volunteers need to have the ability to present themselves as warm, caring persons who compassionately with the ill, disabled, elderly, and dying. They also need to exercise discretion with patients and family members and maintain confidentiality.

Eucharistic Volunteers show his/her badge in order to review the Patient/Religion list to learn who is appropriate to visit.

Eucharistic Volunteers check in with nursing to make sure that the patient may receive Communion (not NPO etc.)

Eucharistic Volunteers leave messages for Pastoral Care Staff if there are any questions or concerns which need to be passed along.

- Sign in at Volunteer Sign-in Book.
- Report to duty with appropriate attire and identification badge
- Introduce self and volunteer role in an appropriate manner
- Escort patients and visitors to appropriate destination
- Offer wheelchair assistance if appropriate
- Offering to escort guests to their destination
- If unable to help a guest, finding someone who can

**Physical Demands:**
- Able to stand and walk for prolonged periods
- Able to push a wheelchair

The Family Development Center only uses volunteers in the capacity of serving on various councils and/or committees.

-Head start, Nurturing Families Network and Maternal Infant Early Childhood Home Visiting programs are required by grant stipulation to have an active Advisory Council consisting of community providers and parents. The Advisory Council consists of no fewer than six members.

The Early Head Start program is also required to have a Policy Council, which is a group consisting of parents (51%) and community providers (49%) to oversee the administration of the program (policies and procedure, funding decisions, etc.). The number of parent volunteers varies each program year.

All the FDC program, with the exception of Triple P, are affiliates of the National Parents as Teachers Program, which is the home visiting curriculum used. A requirement of PAT is to have an Advisory Council consisting of community members and parents.

**Eastern Connecticut Health Network**
**Family Development Center Advisory Council**
**Bylaws**

**ARTICLE I: Name and purpose of organization**

***Section 1***: The ECHN Family Development Center Advisory Council is established with the approval of the ECHN Board of Trustees to oversee key responsibilities related to program governance and improvement of the Family Development Center programs. These include, but are not limited to: Early Head Start, Nurturing Families Network, Family Resource Centers, Positive Parenting Program, and Successful Teens Excelling as Parents and Partners.

Council members advise the Family Development Center on needs of families within the department's service area and how to effectively and efficiently address them via existing department programs, within the parameters of individual program mandates and guidelines. The Council also suggests partnerships and new directions that may enhance the work and success of the Family Development Center, within the context of ECHN's mission: "To improve your health and well-being by providing high-quality, compassionate care."

***Section 2***: Roles and Responsibilities

a. To collaborate with the ECHN Board of Trustees in administering and overseeing Family Development Center programs, including the safeguarding of federal and state funds;

b. To provide feedback on direction, appropriateness and quality of services provided by the Family Development Center;

c. To advise the Family Development Center Manager and Program Coordinators as to the best fit of the Family Development Center activities for the community and the region;

d. To suggest new activities and collaborative relationships for the Family Development Center to best meet community/regional needs;

e. To suggest funding sources to allow expansion and continuation of Family Development Center activities; to offer feedback on efficient use of funding;

f. To recommend membership for the Advisory Council;

g. To assist in recruiting parents and volunteers for the Family Development Center;

h. To represent the needs of their own constituency to the Family Development Center and to bring issues and announcements back to their constituency;

i. To determine the best methods of giving feedback , advice and suggestions for measuring/maintaining quality programming; to participate in program self-assessments and quality checks recommended by funding agencies;

j. Other special responsibilities for the Early Head Start program (see Appendix A).

**ARTICLE II: Membership**

The Family Development Center Advisory Council will consist of, but, is not limited to (1) at least one member of ECHN's senior management, as a non-voting member, to serve as a link with the ECHN upper management and Board of Trustees; (2)representatives of community agencies and groups with which the Family Development Center collaborates; (3) staff of the schools where Family Resource Centers are located; (4)at least, one parent from Early Head Start; (5) parents from the Family Development Center programs; and, (6) additional members which reflect the communities to be served (i.e. parents of children who were formerly enrolled and/or individuals with expertise in education, business administration, or community affairs).

***Section 1***: Composition

At least one member of the governing body shall have a background and expertise in each of the following areas: fiscal management or accounting; early childhood education and development; be a licensed attorney familiar with issues that come before the Council. In the event that a person with the above specified background/expertise is not available to serve on the Advisory Council, members of ECHN's Board of Trustees with the relevant experience and qualifications will be available to consult with the Advisory Council, as necessary.

***Section 2***: Council Size

The Advisory Council shall have no fewer than six members.

***Section 3***: New Members

Members shall be recommended by Advisory Council members, Family Development Staff members and community partners. All new members shall be voted in by a majority of those present at an annual meeting. Notice of the annual meeting must be sent to all members at least 14 days in advance.

***Section 4***: Term

Advisory Council members may serve indefinitely or as deemed appropriate.

***Section 5***: Resignation
Resignation from the Advisory Council must be in writing and received by the Family Development Center Manager and Advisory Council Chair.

***Section 6***: Vacancies
Vacancies shall be filled by the Advisory Council and approved by vote of a simple majority of those attending a meeting.

***Section 7***: Representation
Each member organization/agency will have one vote. Each individual member (not affiliated with an agency/organization) will have one vote.

***Section 8***: Officers
Officers will consist of a Chair and Vice Chair. The Chair will preside at the Advisory Council meetings and perform other duties as associated with the office. The Vice Chair will assume the duties of the Chair in his/her absence.

**ARTICLE III: Conflict of Interest**
Members of the Advisory Council shall: (a). not have financial conflicts of interest with ECHN; (b). not receive compensation for serving on the Advisory Council or for providing service to ECHN; (c). not be employed, nor shall members of their immediate family be employed by ECHN; (d) operate as an entity independent of staff employed by ECHN.

**ARTICLE IV: Meetings**

***Section 1***: Membership meetings. The Family Development Center Advisory Council will meet at least four (4) times yearly.

***Section 2***: Notice. Notice of each meeting shall be given to each member by mail or email, not less than 14 days before the meeting.

***Section 3***: Special meetings. Special meetings may be called, should the need arise.

***Section 4***: Voting. Decisions of the Advisory Council will be made by a simple majority of the members voting. A quorum will consist of 50% of the membership.

***Section 5***: Approvals. Should approval be required for business when no meeting of the Advisory Council is scheduled or when there is no quorum of the membership, pertinent information may be mailed or emailed to Advisory Council members for review and comment, and a vote via email or return mail will be accepted.

**ARTICLE IV: Committees**
Special committees or task forces may form as needed to carry out the work of the Advisory Council. Membership on committees should be determined by the charge to the committee or task force and need not be confined to the membership of the Advisory Council. The Chair of any appointed task force or committee must be a member of the Advisory Council.

**ARTICLE V: Amendments**
Bylaws may be altered, amended or repealed by an affirmative vote of a majority of members present and voting at any of the general meetings, provided that written notification of the proposed amendment(s) is included in the general membership meeting notice.

These Bylaws were approved at a meeting of the Advisory Council on: _____

**(See appendix on next page, specific to the Early Head Start program)**

## Appendix A

## Responsibilities of the Governing Body Regarding the Early Head Start Program

The ECHN Board of Trustees will have legal responsibility for administering and overseeing the Early Head Start program, including the safeguarding of Federal funds. The Board of Trustees is responsible for primary agency policies and procedures regarding human resources, personnel (including employee code of conduct), and financial issues. For specific issues regarding the Early Head Start program, the Board of Trustees (**BOT**) will share responsibilities with the Advisory Council (**AC**), as described below.

The governing body shall:

**(i)** Adopt practices that assure active, independent, and informed governance of the Head Start agency, including practices consistent with subsection (d)(1) of the Head Start Performance Standards, and fully participate in the development, planning, and evaluation of the Head Start programs involved; **(AC)**

(ii) Be responsible for ensuring compliance with Federal laws (including regulations) and applicable State, tribal, and local laws, including regulations; **(BOT)**

(iii) Be responsible for other activities, including:

I. Selecting delegate agencies and the service areas for such agencies; **(BOT) (AC)**

II. Establishing procedures and criteria for recruitment, selection and enrollment of children; **(AC)**

III. Reviewing all applications for funding and amendments to applications for funding for the Early Head Start program; **(AC)**

IV. Establishing procedures and guidelines for accessing and collecting information described in subsection (d)(2); **(AC)**

V. Reviewing and approving all major policies of the agency, including:
(aa) the annual self-assessment **(AC)** and financial audit; **(BOT)**
(bb) such agency's progress in carrying out the programmatic and fiscal provisions in such agency's grant application, including implementation of corrective action; **(AC) (BOT)**
(cc) personnel policies of such agencies regarding the hiring, evaluation, termination, and compensation of agency employees. **(BOT)**

VI. Developing procedures for how members of the Policy Council are selected, consistent with paragraph (2) (B); **(AC)**

VII. Approving financial management, accounting, and reporting policies; and compliance with laws and regulations related to financial statements, including the
(aa) approval of all major financial expenditures of the agency; **(BOT)**
(bb) annual approval of the operating budget of the agency/program; **(BOT)(AC)**
(cc) selection of independent financial auditors who shall report all critical accounting policies and practices to the governing body. **(BOT)**

VIII. Reviewing results from monitoring conducted under section 641A(c), including appropriate follow-up activities; **(BOT) (AC)**

IX. Approving personnel policies and procedures, including policies and procedures regarding hiring, evaluation, compensation, and termination of the Executive Director, Head Start Director, Director of Human Resources, Chief Fiscal Officer, and any other person in an equivalent position with the agency; **(BOT)**

X. Establishing, adopting, and periodically updating written standards of conduct that establish standards and formal procedures for disclosing, addressing, and resolving:
(aa) any conflict of interest and any appearance of conflict of interest by the members of the governing body, officers, employees of the Head Start agency, consultants, and agents who provide services or furnish goods to the Head Start agency; **(BOT)**
(bb) complaints, including investigations, when appropriate. **(BOT)**

XI. To the extent practicable and appropriate, at the discretion of the governing body, establishing advisory committees to oversee key responsibilities related to program governance and improvement of the Head Start program involved. **(BOT)**

ECHN Eastern Connecticut Health Network

# EASTERN CONNECTICUT HEALTH NETWORK
# POLICY AND PROCEDURE

**TITLE: Financial Assistance Policy and Procedure** **Policy: 500**

---

**TOPIC**

Financial Assistance / Charity Care

ECHN is committed to providing financial assistance to persons who have healthcare needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for medically necessary care based on their individual financial situation. Consistent with their mission to deliver compassionate and high quality healthcare services and to advocate those who are poor and disenfranchised, ECHN strives to ensure that the financial capacity of people who need health care services does not prevent them from seeking or receiving care.

In accordance with the Federal Poverty Level (FPL) guidelines, all other uninsured patient will not be charged more than the amount generally billed to insured patients for emergency or medically necessary care.

**PURPOSE**

To identify those patients that qualify for charitable assistance and to complete write-off procedures that is in keeping with state and federal regulations.

A. ECHN is committed to providing financial assistance to persons who have health care needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for emergency or medically necessary care based on their individual financial situation.
B. It is the policy of ECHN to provide Financial Assistance based on indigence or high medical expenses for patients who meet specified financial criteria and request such assistance. The purpose of the following policy is to describe how applications for Federal Assistance should be made, the criteria for eligibility, and the steps for processing each application.
C. Financial assistance may be extended when a review of a patient's individual financial circumstances has been conducted and documented. This should include a review of the patient's existing medical expenses and obligations (including any accounts having gone to bad debt except those accounts that have gone to lawsuit and a judgment has been obtained) and any projected medical expenses. Financial Assistance Applications may be offered to patients whose accounts are with a collection agency and will apply only to those accounts on which a judgment has not been granted.
D. Race, gender, sexual orientation, religious or political affiliation, social or immigration status will not be taken into consideration.
E. To further ECHN's commitment to their mission to provide healthcare to patients seeking emergency care, ECHN will utilize an abbreviated application for financial assistance for their uninsured patients being seen in the Emergency Room. The patients eligible for this financial assistance must not be eligible for any other insurance benefits or have exhausted their insurance benefits, and do not have active medical assistance coverage. Eligibility will be granted in this case for the one visit only.

**POLICY**:

In order to provide the level of aid necessary to the greatest number of patients in need, and protect the resources needed to do so, the following guidelines apply:

A. Patient
    a. Services are provided under charity care only when deemed emergency or medically necessary and after patients are found to have met all financial criteria based on the disclosure of proper information and documentation.

b. Any patient who believes that they are qualified may apply for financial assistance under the hospitals' charity care policy or discount policy.
c. Patients are expected to contribute payment for care based on their individual financial situation; therefore, each case will be reviewed separately.
d. Charity Care is not considered an alternative option to payment and patients may be assisted in finding other means of payment or financial assistance before approval for charity care.
e. Uninsured patients who are believed to have the financial ability to purchase health insurance may be encourage to do so in order to ensure healthcare accessibility and overall well-being.

B. Hospital
   a. ECHN will maintain an understandable, written financial assistance policy, clearly stating the eligibility criteria.
   b. ECHN will ensure that all financial assistance policies will be applied consistently.
   c. In applying the Financial Assistance policy, ECHN will assist the patent in determining if he/she is eligible for government- sponsored programs.

C. COMMUNICATION:
   a. Notices regarding availability of Financial Assistance at ECHN will be posted in public places around the hospital, on patient bills, and on our website.
   b. Financial Assistance Applications are available at all ECHN registration locations as well as on the ECHN Website, ECHN.org.
   c. Copies of this policy as well as the Financial Assistance Application can be obtained via the U.S. mail by calling our Customer Service Representative at 1-888-943-6042 or 860-646-1222 x2768.

D. FEDERAL POVERY LEVEL GUIDELINES (UPDATED ANNUALLY)

Patients eligible for financial assistance will not be charged more than the amount generally billed to patients with insurance for emergency or other medically necessary care. |
| Income Requirement for 100% discount | Income at or below 150% of FPL Guidelines | Income at or below 150% of FPL Guidelines |
| Income Requirements for other discounts | If household gross income is between 150% -400% of the FPL guidelines, the patient may qualify for a discount that is equal to or greater than the average discount received for the same services covered by Medicare, Medicaid and other private insurers.<br><br>*Information on the discount calculation can be requested from our financial counselor.* | If household gross income is between 150% -400% of the FPL guidelines, the patient may qualify for a discount that is equal to or greater than the average discount received for the same services covered by Medicare, Medicaid and other private insurers. This discount will apply to the account balance.<br><br>*Information on the discount calculation can be requested from our financial counselor.* |
| Catastrophic Circumstances | Special circumstances are handled on a case-by-case basis. We will take into consideration those circumstances that affect a patient's ability to pay, such as catastrophic event. | Special circumstances are handled on a case-by-case basis. We will take into consideration those circumstances that affect a patient's ability to pay, such as catastrophic event. |

**DEFINITIONS**

The following terms are meant within this policy to be interpreted as follows:

a. Charity Care means free or discounted health care services rendered by a hospital to persons who cannot afford to pay, including but not limited to, care to the uninsured patient or patients who are expected to pay all or part of a hospital bill based on income guidelines and other financial criteria set forth in statute or in the hospital's charity care policies on file at OCHA.

b. Emergency Care: Immediate care which is necessary to prevent putting the patient's health in serious jeopardy, serious impairment to bodily functions, and serious dysfunction of any organs or parts.

c. Family: Using the Census Bureau definition, a group of two or more people who reside together and who are related by birth, marriage, or adoption. According to Internal revenue Services rules, if the patient claims someone as a dependent on their income tax return, they may be considered a dependent for purposed of the provision of financial assistance.

d. Family Income: family income is determined using the census Bureau definition, which uses the following income when computing federal poverty guidelines.
   i. Includes earnings, unemployment compensation, workers' compensation, Social security, Supplemental security Income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties, income form estates, trusts, educational assistance, alimony, child support, assistance form outside the household, and other miscellaneous sources.
   ii. Noncash benefits (such as food stamps and housing subsidies) do not count.
   iii. Determined on a before-tax basis
   iv. If a person lives with a family, includes the income of all family members (non-relatives, such as housemates do not count)

e. Medically Necessary: hospital services or care rendered (both inpatient and outpatient) to a patient in order to diagnose, alleviate, correct, cure or prevent the onset of worsening conditions that endanger life, cause suffering or pain, cause physical deformity or malfunction, threaten to cause or aggravate a handicap or result in overall illness.

f. Presumptive: other financial assistance, not charity care.

g. Underinsured: Patients who carry insurance of have third party assistance to help pay for medical services, but who accrue or have the likelihood of accruing out-of-pocket expenses which exceed their financial ability.

h. Uninsured: means a patient who is without health insurance for whom the payer responsible for payment of the bill for hospital services rendered is the patient, the patient's parent or guardian or another responsible person, who is not a third party payer and who is not subsequently reimbursed by another payer for the cost of any of the services rendered to the patient. A patient shall not be classified an uninsured patient, is such subsequent reimbursement takes place.

i. Urgent Care: Services necessary in order to avoid the onset of illness or injury, disability, death, or serious impairment or dysfunction if treated within 12 hours.

**PROCEDURE**

a. Services Eligible Under This Policy
   i. The following healthcare services are eligible for charity:
      1. Emergency medical services provided in an emergency room setting;
      2. Services for a condition which, if not promptly treated, would lead to an adverse change in the health status of an individual;
      3. Non-elective services provided in response to life-threatening circumstances in a non-emergency room setting; and
      4. Medically necessary services, evaluated on a case-by-case basis at ECHN's discretion.

b. Eligibility for Charity Care
   1. Eligibility for Charity Care will be based on an individual's assessment of financial need.
   2. Requires an application process.
   3. We expect cooperation from patients and guardians.
   4. May rely upon publicly available information and resources to determine the financial resources of the patient or a potential guardian.
   5. Include a review of the patient's outstanding accounts receivable for prior services rendered and the patient's payment history.
   6. The need for financial assistance shall be re-evaluated every six months or at any time additional information relevant to the eligibility of the patient for charity care becomes known.

c. Presumptive Financial Assistance Eligibility
   i. There are instances when a patient may appear eligible for charity care discounts, but are unable to provide supporting documentation. Often there is adequate information provided by the patient or through other sources, which could provide sufficient evidence to provide the patient with charity care assistance such as
      1. State-funded prescription programs;
      2. Patient is homeless or received care from a homeless clinic;
      3. Patient files bankruptcy
      4. Participation in Women, Infants and Children programs (WIC);
      5. Patient is eligible for assistance under the Crime Victims Act or Sexual Assault Act
      6. Food stamp eligibility;
      7. Subsidized school lunch program eligibility;
      8. Eligibility for other state or local assistance programs that are unfunded (e.g., Medicaid spend-down);
      9. Low income/subsidized housing is provided as a valid address; and
      10. Patient is deceased with no known estate.

F. ASSESSMENT PROCESS
   1. The application must be fully completed and signed by the patient / responsible party

2. Proof of income for applicant (and spouse if applicable) is verified by two forms of documentation which could include:
    a. Last four pay stubs
    b. Previous Year Federal Income Tax Form
    c. Previous Year W-2 Form
    d. Social Security Statement
    e. Unemployment Benefit Statement
3. Other documentation that may be required:
    a. Proof of disability compensation
    b. For Medicare patients a copy of their social security benefits, pension and retirement benefits and/or bank statements showing deposits
    c. Workers compensation deposits

i. The level of Charity Care provided will be determined based on the Federal Poverty Level in effect (please refer to the current year's sliding scale).

ii. Once a patient has been granted financial assistance, that patient shall not receive any future bills based on undiscounted gross charges.

E. COLLECTION PRACTICES FOR CHARITY CARE PATIENTS

a. Internal and external collection policies and procedures will take into account the extent to which a patient is qualified for charity care or discounts. In additional, patients who qualify for partial discounts are required to make a good faith effort to honor payment agreements with ECHN, including payment plans and discounted hospital bills. ECHN is committed to working with patients to resolve their accounts, and at it discretion, may provide extended payment plans to eligible patients. ECHN will not pursue legal action for non-payment of bills against charity care patients who have cooperated with the hospital to resolve their accounts and have demonstrated their income and/or assets are insufficient to pay medical bills.

b. During the eligibility process, other forms of financial assistance will be considered such as Medicare and Medicaid.

c. All billing is put on hold during the financial assistance application process. Patients are given the opportunity to provide any missing or incomplete information.

Hospital Billing and Collections Practices can be found on the ECHN Website (ECHN.org) or obtained by calling our Customer Service Representative at 1-888-943-6042.

| Patient Responsibility | 0% | 10% | 20% | 30% | 40% | 50% | 60% |
|---|---|---|---|---|---|---|---|

If you feel you may be eligible, you may request free or discounted services at the Patient Financial Service Office. Requests may be made prior to admission, during the stay or at time of discharge. A financial evaluation form and application will be provided for the applicant upon request. The Hospital will make a final determination of your eligibility for uncompensated services.

When Third Party coverage is available (Medicare, State, Medicaid LIA, etc) all applicable benefits must be applied first. Patient convenience items such as private room differentials are not covered.

Refusal to take reasonable actions necessary to obtain these available benefits can exclude the granting of uncompensated services.

- Move/boost a patient
- Assist patient getting in/out of a bed or chair.
- Offer medical advice.
- Offer advice on hospital/unit policies/procedures.
- Enter isolation rooms

**Physical Demands:**

- Able to stand/walk for moderate periods of time

*Subject: Pet Therapy Volunteer Program*
*Policy Number:* 010

*Released:*

I. Purpose:

A. To allow for safe visits by certified pet therapy volunteers and their certified pet dogs to lift the spirits of patients and visitors.

II. Policy

A. Pet Therapy Volunteer

1. Volunteer must be a certified handler for their pet

2. Volunteer must handle pet according to the below.

3. Volunteer must shadow a current pet therapy volunteer a minimum of two times or until they are comfortable in their position prior to working on their own.

B. Pet Therapy certification for pet and handler from a recognized pet therapy society.

C. Proof of up-to-date vaccinations and good health from veterinarian.

D. Pets must be well groomed and clean prior to visiting.

E. The Pet Therapy Volunteer must ask if the patient would like to have a visit from a dog prior to entering the patient room.

F. The Pet Therapy Volunteer must request to enter Behavioral Health.

1. Visits to behavioral health are best pre-arranged so patients have time to visit with the animal.

G. Care of the dog is responsibility of owner (not staff or patient) at all times. The pet must be under the control of the handler at all times.

H. Pet visits will not be allowed isolation rooms, the intensive care unit or in the perinatal area.

I. Pets must be on a leash or caged during the visit.

J. Pets should not be visiting/working for more than 1 1/2 hrs per-day up to a maximum or three days per week, or as mandated by the pet therapy society certifying the pet, whichever is less.

K. The handler will immediately remove the pet from visitation for any of the following:

1. patient/staff request,

2. allergic responses,

3. medical emergency,

4. animal fatigue or signs of stress, improper behavior (growling/barking).

L. If a patient or staff injury occurs: i.e., scratch, bite, etc., the pet must be removed.

1. The handler must notify the nursing staff.

2. The patient or staff will need to be assessed and appropriate measures will be undertaken.

3. An incident report must be filed.

M. If the pet is injured, the handler will notify the nursing staff, and the handler will bring the pet to a veterinarian for follow-up. An incident report must be filled out.

N. If the pet defecates, urinates or vomits on the unit, either the dog's handler or staff member will be responsible for its removal and placement in a biohazard bag. Hospital staff will be responsible for spraying disinfectant on the affected area and following hand washing procedures.

III. RESPONSIBLE FOR REVISION: Head of Volunteer Services

**SUBJECT:** **Pre-Collect and Bad Debt Policy** **POLICY NO: 4005**
**SECTION:** **PAGE**

---

I. TITLE: Departmental Pre-Collect and Bad Debt Policy and Procedures

II. POLICY: This policy applies to the Manchester Memorial and Rockville General Hospitals Patient Financial Services

III. PURPOSE: To ensure that bad debt accounts are appropriately identified and consistently processed within the guidelines of the hospital's credit and collection policy.

IV. RESPONSIBILITES:

A. To ensure that accounts with outstanding patient balances beyond 120 days are written off to bad debt. Accounts are considered bad debt once reviewed by the Self Pay Team and the Pre-Collections Unit as uncollectible. It must be determined that the accounts meet the following criteria:
   a. The account has aged 120 days from the date the balance became the responsibility of the patient / guarantor without payment in full.
   b. No reasonable response from the patient in the previous 120 days.
   c. Guarantor has received at least four statements.
   d. Third party carrier has denied in writing the responsibility for any payment (partial or full) towards the account and the collector has documented the patient / guarantor's refusal for payment or financing when applicable.
   e. Guarantor has defaulted on an "agree to payment plan" (for two consecutive months or more)
   f. The account has been flagged as a "bad address" or "mail return".

B. If the above criteria has been met, and at the 4th statement, the account is transferred to the pre-collection list for potential bad debt and is designated to be analyzed for the month end bad debt / write off function. Steps to occur are:
   a. On the 25th of the month
      i. Run is run to capture all accounts set to receive 4 statements from the 25th thru the 24th of the next month.
      ii. Individually review each account to determine if meets criteria for pre-collect letter
         1. Guarantor has received at least 4 statements
         2. Account not paid in full
         3. defaulted on pay plan
            A. PFS will ensure that the guarantor has been notified in writing that they are in default and in danger of going to collection, after first missed month.
         4. Identified as return mail. Researched, collector changed, and 2 months noted on account.
         5. "Dirty buckets" (money in insurance and self pay) need to be resolved prior to pre-collect letter.
         6. The total pre-collect dollars can not exceed the established bad debt turnover number.
         7. Only one pre-collect letter will go out on each account.
         8. Identify accounts that are not eligible for write off-due to established criteria, Medicaid eligibility, bankruptcy, or the patient is deceased.
         9. Document in financial comments the reason that any account is not eligible for bad debt write off.

b. Once the monthly pre-collect accounts have been identified and worked, change the self pay collector for the pre-collect code designated for that month and year .
c. On the fourth day of the month
    i. Finalize pre-collect review
        1. Produce and send out pre-collect letters.
            A. Ensuring that the total dollars do not exceed the bad debt turnover number
            B. No account has been previously send a pre-collect letter
        2. Retain copy of pre-collect report for our records.
d. By the 3rd Friday of the month
    i. Review pre-collect accounts for payments
    ii. Review pre-collect accounts for Medicaid Eligibility
    iii. Request bad debt write off according to the following monetary guidelines:
        1. Balance of between $20 and $999 - no approval necessary
        2. Balances between $1,000 and $3,900 – reviewed by Non Governmental Specialist
        3. Balances between $4,000 and $9,999 – reviewed and approved by Non Gov Manager
        4. Balances greater than $10,000- reviewed and approved by Department Manager
    iv. Report bad debt turnover number to management
e. On the twenty fifth of the month
    i. Review pre-collect accounts for payments
    ii. Review pre-collect accounts for Medicaid Eligibility
    iii. Received appropriate approval from management according to established monetary guidelines, which are retained for our records.
    iv. Review reports to agree with final dollar amount and account age prior to account transfer
    v. Electronically transfer the selected accounts to bad debt status
f. On the last day of the month
    i. Ensure that the self pay payments have been posted for the month
    ii. Review bad debt accounts for payments
    iii. Review bad debt accounts for Medicaid Eligibility
    iv. Report final month end Bad Debt totals to management
g. On the third business day after conclusion of month end process
    i. Final review of bad debt accounts for payments
    ii. Final review of bad debt accounts for Medicaid Eligibility
    iii. Transmit electronic file to collection agency
    iv. Run bad debt report and retain copy of our records

C. It is essential that in conjunction with the bad debt process, that the following areas also need to be kept current and worked daily
    a. Bankruptcies to be worked daily
    b. Mail Return to be worked daily
    c. Charity Care to be worked daily
    d. Pay Plans to be reviewed and worked daily

VII. INDIVIDUAL RESPONSIBLE FOR REVISION: Director, PFS

Read to Grow
Building literacy from birth
53 School Ground Rd., Branford, CT 06405 • 203.488.6800 • readtogrow@readtogrow.org

# Job Description: Books for Babies Volunteer

**Purpose:** To visit hospitals and provide families on maternity unit information about: infant brain development; infant capabilities; and the importance of talking, reading, singing, and playing with their infants from birth. Also to answer questions that families might have about Read to Grow's Literacy Packet they receive for free.

**Objective:** To work cooperatively with the hospitals, following their guidelines, in order to bring parents of newborns the information and tools to build their children's early language skills.

## Qualifications:

- Ability to work independently within hospital framework/requirements *and* to seek help/direction from site supervisors/unit staff if needed.
- Good listening and effective communication skills.
- Strong interpersonal skills; caring, mentoring personality

**Orientation/Evaluation**: A Books for Babies orientation with Read to Grow representatives takes place after completing the necessary on-site orientation at the hospital's Volunteer Service Department, per the institution's policy. As a preliminary stage to the Books for Babies orientation, a new volunteer is invited to the office in Branford. The main orientation, however, will be at the hospital.

After two months at the hospital, a volunteer will be mailed an evaluation form from Read to Grow to fill out and return. Sometime between two and three months after starting, a volunteer will speak (on phone or in-person) with a Books for Babies staffer about the job.

**Times:** to be determined with Read to Grow and the hospitals

## Responsibilities:

- Read orientation material and literacy data from Read to Grow;
- Notify site supervisor *and* Read to Grow if unable to volunteer as scheduled;
- Respect patient privacy. Know and comply with hospital policy on patient confidentiality (HIPAA);
- Know and follow hospital emergency procedures and any safety/health requirements;

- Be consistent, dependable and enthusiastic about work;
- Maintain communications with Read to Grow as set out and agreed upon;
- Share ideas and concerns with Read to Grow staff and hospital staff when appropriate.

## Other responsibilities on the maternity unit:

- Wear identification badge as directed by the hospital;
- Sign in and out, per hospital policy;
- Let unit secretary know you are on the unit;
- Accurately maintain the Books for Babies **log book**. (This log book—usually a three-ring binder—holds **log sheets** that are filled out by individual volunteers during and after their rounds. A log sheet is passed on from one volunteer to the next and is always found in the log book.)

- Visit with families in a timely, appropriate manner, as outlined here:
  - Check with the appointed staff person to see if there are any patients who should not be visited. Jot down names and reasons in the Books for Babies log sheet so that the volunteer following you will be informed. (For example: patient had surgery, baby ill, etc.)
  - The unit staff is responsible for the actual distribution of Literacy Packets to the mothers. Hospitals usually provide the Literacy Packets upon patient admission or shortly thereafter.
  - Proceed to a patient's room with log sheet. Check for signs alerting you **not** to enter. If none is there, knock and enter room quietly.
  - Introduce yourself as a Books for Babies volunteer. Ask if it is a convenient time for a short visit. If not, check to see if the patient has the Literacy Packet, point it out and wish patient well. (Also ask if there is a good time to return.)
  - If the time is convenient, provide literacy information in a friendly, concise and upbeat manner. Do not tire the patient or overstay your welcome. Remember new mothers may have difficulty learning something new when they are overly tired or excited after giving birth.
  - Continue on rounds, noting patients' names and room numbers on the log sheet. This will prevent your co-volunteers from visiting the same patients. Describe the quality of visits on the log sheet with your own comments about patients' reactions and interactions. These can be brief but to the point.

- When finished with rounds, complete any remaining paperwork, put the log sheet in the log book, sign out, and let your site supervisor know you are leaving.
- Notify Books for Babies staff if supplies are low (203-488-6800).
- Maintain strict adherence to the institution's confidentiality policy (HIPAA). Do not discuss patients, situations, or staff in or out of the hospital.

**Limitations:** Volunteers must always be aware of their limitations.

- Never perform a task outside of your job description.
- Never give a patient any food or water.
- Never reposition a baby or mother. Seek staff member.
- Never hold a baby, even at the mother's request. Seek staff member.
- Never read the patient's medical record.
- Never comment or offer advice as it relates to the patient's or baby's condition.
- Before entering room of a patient on isolation, read all posted signs and check with staff.
- Step out of the room if a doctor, nurse or clergy arrives.
- Always check with staff if you are uncertain about a situation.

# STUDENT EDUCATIONAL AFFILIATION AGREEMENT

This Student Educational Affiliation Agreement ("Agreement") is made and entered into as of May 1, 2016 ("Effective Date") by and between _____ and Eastern Connecticut Health Network, Inc. ("ECHN") including but not limited to Manchester Memorial Hospital at 71 Haynes Street, Manchester, CT 06040, Rockville General Hospital at 31 Union Street, Vernon, CT 06066, ECHN ElderCare Services, Inc. d/b/a Woodlake at Tolland Nursing & Rehabilitation Center at 26 Shenipsit Lake Road, Tolland, CT 06084, Visiting Nurse and Health Services of Connecticut at 8 Keynote Drive, Vernon, CT 06066 and any other ECHN affiliates (individually or collectively, as applicable, the "Hospital").

WHEREAS, the School desires to provide supervised clinical, non-clinical or other fieldwork experience and instruction as part of its educational program for its students ("Students"); and

WHEREAS, the Hospital, in the interest of furthering the educational objectives of the School, desires to make its facilities available to the Students for such experience;

NOW THEREFORE, in consideration of the promises and the mutual covenants, agreements and undertakings hereinafter set forth, it is hereby AGREED:

1. Planning of Educational Program. The School shall be responsible for the planning and implementation of all educational aspects of the Students' clinical or other fieldwork experience and instruction, including the requirements for matriculation, promotion and graduation (the "Program"). The purpose of the practicum experiences, which are supplemented with didactic experience, is to develop competence on the part of the Students. The School will designate a faculty member, known as the Academic Coordinator of Clinical Education (ACCE), to work with the designated coordinator at the Hospital on the administrative and academic aspects of the Students' experience at the Hospital.

2. Philosophy and Objectives of Program. The School will convey to Hospital personnel information about the philosophy and objectives of the Program. The School shall also provide the Hospital with current information about its curriculum, clinical or fieldwork educational goals and faculty.

3. Instruction and Supervision. If required by the Program or the Hospital, the School shall provide competent faculty (the "Faculty") for supervision of Students assigned to the Hospital for practicum experience. The Faculty will be available for consultation with Hospital personnel at all times that Students are at the Hospital. Faculty shall be responsible for planning Student assignments and for evaluating and grading Student performance. Faculty may consult with Hospital personnel as appropriate in conducting evaluations of Student performance. The Hospital shall be responsible for assigning Students to clinical areas and patients.

4. Notice of Program. At least thirty (30) days prior to commencement of the Program each term, the School shall submit to the Hospital a description of the types of clinical or other

fieldwork experiences needed, the dates during which such experiences will be needed, the number of Students expected to participate in the Program(s), and the names and professional credentials of the Faculty who will supervise the Students. The School shall inform the Hospital as soon as practicable of any changes in information previously provided to the Hospital regarding the Program. If it becomes necessary to cancel a reserved space or change a Student assignment, the School will promptly notify the Hospital.

5. Compliance with Hospital Rules by the Faculty. The School will instruct its Faculty that they must comply with all rules and regulations of the Hospital. Upon Hospital's request, the School agrees to promptly withdraw any member of the Faculty who fails to comply. The School shall provide evidence of Connecticut licensure, certification and/or registration for Faculty if such is required for the Program, upon the request of Hospital.

6. Compliance with Hospital Rules by the Students. The School will instruct its Students that they must comply with all rules and regulations of the Hospital. The School will notify each Student that he/she is responsible for:

   a. respecting the confidentiality of information regarding patients/clients of the Hospital and maintaining all patient/client records in accordance with Federal and Connecticut law and the Hospital's policies and procedures;

   b. adhering to all policies and procedures of the Hospital;

   c. adhering to the Hospital's dress code, including appropriate uniform and name/identification badge, as required by the Hospital;

   d. arranging for their own transportation;

   e. reporting to the Hospital as scheduled;

   f. obtaining housing and meals when not provided by the Hospital;

   g. providing evidence of required health insurance;

   h. obtaining prior written approval from the Hospital and School before publishing any material relating to their clinical or other fieldwork experience at the Hospital; and

   i. any loss or damage to their own personal property while on Hospital's premises.

7. Confidential Information. The School will instruct Students, Faculty, and other School personnel not to disclose any confidential material or information connected with the Hospital or any of its patients/clients; and, further, the School will ensure that all such information is maintained as confidential in accordance with Federal and Connecticut law. The School shall also enforce compliance by Students and Faculty with the Hospital's policies on confidentiality. In addition, each Student and Faculty (if Faculty will be on-site at the Hospital) shall execute the Confidentiality Statement attached hereto

as Appendix B prior to starting the clinical/fieldwork experience at the Hospital. Each student shall also review the Code of Conduct, sign it and return to the appropriate department.

8. Withdrawal of Students from the Program. The Hospital may immediately withdraw any Student from the clinical or other fieldwork area due to health, academic deficiency, failure to follow Hospital policy, unacceptable performance, inappropriate behavior or other reasons, if such Student's continued participation in the Program is detrimental to the Student and/or any patient/client of the Hospital. The Hospital shall promptly inform the School of such withdrawal.

9. Program Experience. The School shall be responsible for selecting only those Students who have successfully completed all the prerequisite courses and/or previous clinical or other fieldwork experiences as specifically required by the Program or Hospital. In advance of the Students' placement, the parties will develop a planned, supervised educational program at the Hospital that is compatible with the Program goals and objectives of the Student's academic education at the School. The Hospital shall provide the opportunity for qualified Students to perform appropriate clinical procedures or other practical fieldwork under the ultimate supervision of the Faculty, in conjunction with personnel of the Hospital and in accordance with the terms of this Agreement. The Hospital shall at all times retain authority and responsibility for the delivery of patient care.

10. Equipment and Use of Facilities. The Hospital shall provide appropriate space and facilities for use by Students and Faculty. Students and Faculty may use the Hospital's cafeteria at their own expense. There shall be no charges between the parties with respect to the services and responsibilities each undertakes to provide pursuant to this Agreement.

11. Orientation for Faculty and Students. As appropriate, the Hospital shall provide an orientation for the Faculty so that they may familiarize themselves with the Hospital, the physical plant, and relevant policies and procedures prior to bringing Students to the Hospital. The School shall provide appropriate orientation to the Students.

12. Medical Care. The Hospital shall provide emergency medical care to Students and/or Faculty who become ill or who are injured while on duty at the Hospital. The cost of such care shall be the sole responsibility of the individual receiving it. In addition, the School agrees that the School provides adequate medical benefits covering Students for any injuries or illnesses that may occur while on duty at the Hospital, and that the School is fully responsible for any payments or loss related to any such injury or illness, provided that the payment or loss is not the direct result of negligence or wrongdoing by the Hospital. The School acknowledges and agrees that the Hospital is not responsible for providing the Students with medical benefits of any kind.

13. Required Inservices. If the Student(s) will have any direct patient contact, the School shall provide the Hospital with evidence that the mandatory inservices have been provided to Students and Faculty in advance of the first clinical or other fieldwork

experience (unless the Hospital has agreed to provide such inservices to the Students). Mandatory inservices include, as appropriate to the Program, general safety, infection control, OSHA blood borne pathogens and universal precautions, TB, fire safety, hazardous materials, Safe Medical Devices Act, use of electrical equipment and CPR.

14. Immunizations and Physical. The School shall provide the Hospital with evidence that Students, and all on-site Faculty meet the Hospital's requirements for immunizations and physical exam as set forth in Appendix A, which is incorporated herein by reference.

15. Insurance. Upon Hospital's request, the School shall provide professional liability insurance with limits of not less than $1,000,000 per claim and $3,000,000 in the aggregate for Students and Faculty while participating in the Program at the Hospital. The School shall also maintain comprehensive general liability insurance in an amount satisfactory to the Hospital. If required by the Hospital, each Faculty member, while acting within the scope of his/her required duties, shall be covered by Teachers Professional Liability insurance with limits of at least $1,000,000 per occurrence and $3,000,000 in the aggregate.

16. Evaluations. Appropriate Hospital personnel and the School's ACCE shall meet periodically to discuss issues of mutual concern and for the purpose of evaluating the educational rotation at Hospital.

17. Term and Termination of Agreement. This Agreement shall be effective on March 1, 2016 and shall continue in effect for three (3) years until February 28, 2019. Thereafter, this Agreement may be renewed for successive three (3) year terms by the mutual written consent of the parties. Either Party may terminate this Agreement at any time, without cause, by giving sixty (60) days prior written notice to the other Party; provided, however, and subject to Paragraph 8, above, that any Student assigned to the Hospital shall be permitted to complete the current educational term.

17.1 Termination Due to Risk of Safety. Hospital may terminate this Agreement immediately in the event the Student poses a risk of safety to Hospital employees or patients.

17.2 Termination Due to Exclusion. Either Party may terminate this Agreement, upon written notice effective immediately, in the event that the other Party is convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or such other federal health care programs or in the event that the other Party or an officer, director, member, employee or agent of such Party is excluded or suspended from participation in any federal health care program, including Medicare and Medicaid, and such individual is not immediately terminated by such Party.

17.3 Termination for Cause. In the event that either Party shall fail to keep, observe or perform any covenant, term or provision of this Agreement applicable to such Party, the other Party shall give the defaulting Party notice in writing of such default specifying the nature of such default. If the defaulting Party fails to cure

the breach or fails to arrange for a cure of the breach to the satisfaction of the non-breaching Party within five (5) days of receipt of such notice, the non-defaulting Party may terminate this Agreement upon two (2) days written notice.

18. Students and Faculty Not Employees or Agents. Both the School and the Hospital acknowledge that neither Students nor Faculty are to be considered employees or agents of the Hospital. Neither the Faculty nor Students shall receive any compensation from Hospital for the services provided pursuant to this Agreement.

19. Governing Law. This Agreement shall be construed in accordance with, and governed by, the laws of the State of Connecticut applying to contracts made and performed in Connecticut without regard to its conflicts of law principles and the parties hereto submit to the courts of such jurisdiction as the sole forum for resolving any disputes.

20. Entire Agreement and Amendment. This Agreement is the entire agreement between the parties and supersedes and rescinds all prior agreements relating to the subject matter hereof. This Agreement may be amended only in writing signed by both parties.

21. Notices. Any notice required to be given pursuant to the terms of this Agreement shall be in writing and shall be sent, postage prepaid, by certified mail, return receipt requested, to the Hospital or the School at the addresses set forth below. The notice shall be effective on the date of delivery indicated on the return receipt.

If to the Hospital:

Eastern Connecticut Health Network, Inc.
Attn: Legal Department
71 Haynes Street
Manchester, CT 06040

If to the School:

[_____]
[_____]
[_____]
[_____]

22. Assignment. No Party may assign this Agreement without written consent of the other, except that ECHN may assign this Agreement to any entity that directly or indirectly owns or controls ECHN, or is directly or indirectly owned or controlled by ECHN or is an affiliate of ECHN, or to an entity that directly or indirectly acquires all or substantially all of its assets or majority control. Any assignment made without such consent shall be void.

23. Accommodations for Persons with Disabilities. In the event that a Student, Faculty, or other School personnel requires accommodation for a disability beyond those accommodations that are currently available at the Hospital, the School shall be

responsible, at its sole cost, for making arrangements that are necessary to effectuate the additional accommodation.

24. Nondiscrimination. The School and the Hospital, respectively, agree that in the performance of this Agreement, they will not discriminate or permit discrimination against any person or group of persons on the grounds of race, color, religious creed, age, marital status, national origin, ancestry, sex, or mental retardation, physical disability, blindness, or other handicap, in any manner prohibited by the laws of the United States or of the State of Connecticut.

25. Indemnification. To the extent not otherwise inconsistent with the laws of the State of Connecticut, each Party shall indemnify and hold harmless the other from any fines, claims, demands, suits or actions of any kind whatsoever arising from the indemnifying Party's acts or omissions in the course of its performance of its obligations under this Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Student Educational Affiliation Agreement as of the date written below their signatures.

## APPENDIX A

## REQUIRED HEALTH DATA FOR FACULTY AND STUDENTS

1) Physical Exam - Satisfactory completion of physical exam within the past twelve (12) months or signed statement from student and program director that the student is fit to participate in clinical rotation or fieldwork

2) PPD - Documentation of a mantoux skin test for tuberculosis within the previous twelve (12) months, including the date done and size of reaction. For those with a previous positive reaction, documentation attesting to the fact that the individual is not infectious along with any prophylaxis used and the date and size of reaction must be provided by a physician.

3) Rubella (German Measles) - Written evidence of at least one dose of rubella vaccine, given on or after the first birthday, or serological evidence (blood test) of immunity to rubella, regardless of the age or job status of the person.

4) Rubeola (Regular Measles) - Written evidence of two doses of live measles vaccine or serological evidence (blood test) of immunity. One dose should have been given on or after the first birthday, and at least one dose should have been given after 1968. The two doses should be separated by at least 30 days.

5) Varicella Zoster

   (a) Known history of chicken pox is acceptable evidence of immunity

   (b) Two doses of varicella zoster live virus vaccine given 4-8 weeks apart if age 13 or older

   (c) Serologic testing (blood test) if history of disease is unknown or unclear

6) Hepatitis-B - Vaccination series completed or declination statement on file at the School (if exposure to blood/body fluids is likely).

7) Tetanus booster - Within past ten (10) years recommended not required.

8) Seasonal Flu Vaccine - If clinical rotation or fieldwork occurs during flu season (normally between the months of August and April) proof of vaccination has to be provided by November [•].

Evidence of compliance with these requirements must be submitted to ECHN prior to the first clinical or fieldwork day. The Student(s) will not be permitted to start the clinical/fieldwork experience at Hospital until such documentation is provided.

## APPENDIX B

## CONFIDENTIALITY AND SECURITY OF INFORMATION AGREEMENT

**ECHN Employees and Workforce Members**

This Confidentiality and Security of Information Agreement (hereafter referred to as the "Agreement") applies to Eastern Connecticut Health Network (ECHN), its wholly-owned subsidiaries and affiliates, as well as, anyone conducting business with ECHN or its affiliates. I understand that the ECHN affiliated facility or business entity (the "Organization") for which I work, volunteer or provide services manages health information as part of its mission to treat patients. Further, I understand that the Organization has a legal and ethical responsibility to safeguard the privacy of all patients and to protect the confidentiality of their patients' health information. Additionally, the Organization must assure the confidentiality of its human resources, payroll, fiscal, research, internal reporting, strategic planning information, credentialing, intellectual property, or any information that contains Social Security numbers, health insurance claim numbers, passwords, PINs, encryption keys, credit card or other financial account numbers (collectively, with patient identifiable health information, "Confidential Information").

In the course of my employment/assignment at the Organization, I understand that I may come into the possession of this type of Confidential Information. I will access and use this information only when it is necessary to perform my job related duties in accordance with ECHN's Privacy and Security Policies, which are available on the ECHN SharePoint site under Corporate Administrative Policies and Procedures. I further understand that I must sign and comply with this Agreement in order to obtain authorization for access to Confidential Information or Organizational systems.

### General Rules

1. I will act in the best interest of the Organization and in accordance with its Code of Conduct at all times during my relationship with the Organization.

2. I understand that I should have no expectation of privacy when using Organizational information systems. The Organization may log, access, review, and otherwise utilize information stored on or passing through its systems, including e-mail, in order to manage systems and enforce security.

3. I understand that violation of this Agreement may result in disciplinary action, up to and including termination of employment, suspension, and loss of privileges, and/or termination of authorization to work within the Organization, in accordance with ECHN's policies and procedures.

**Protecting Confidential Information**

4. I will not disclose or discuss any Confidential Information with others, including friends or family, who do not have a need to know it. I will not take media or documents containing Confidential Information home with me unless specifically authorized to do so as part of my job.

5. I will not publish or disclose any Confidential Information to others using personal email, or to any Internet sites, or through Internet blogs, including but not limited to sites such as Facebook or Twitter. I will not use Social Media while performing my job responsibilities unless expressly permitted by management. I will not access social media websites using ECHN's equipment unless prior authorization is provided (see Human Resources Policy #619: Social Media).

6. I will not in any way divulge copy, release, sell, loan, alter, or destroy any Confidential Information except as properly authorized. I will only reuse or destroy media in accordance with ,ECHN Information Security Standards and the ECHN record retention policy (CAP Policy #752: Retention and Destruction of Records).

7. In the course of treating patients, I may need to orally communicate health information to or about patients. While I understand that my first priority is treating patients, I will take reasonable safeguards to protect conversations from unauthorized listeners. Such safeguards include, but are not limited to: lowering my voice or using private rooms or areas where available.

8. I will not make any unauthorized transmissions, inquiries, modifications, or purgings of Confidential Information.

9. I will not transmit Confidential Information outside the Organizational network unless I am specifically authorized to do so as part of my job responsibilities. If I do transmit Confidential Information outside of the Organization using email or other electronic communication methods, I will ensure that the Information is encrypted according to ECHN Information Security Standards.

**Following Appropriate Access**

10. I will only access or use systems or devices I am officially authorized to access, and will not demonstrate the operation or function of systems or devices to unauthorized individuals.

11. I will only access software systems to review patient records or Organizational information when I have a business need to know, as well as any necessary consent. By accessing a patient's record or Organizational information, I am affirmatively representing to the Organization at the time of each access that I have the requisite business need to know and appropriate consent, and the Organization may rely on that representation in granting such access to me.

**Using Applications, Mobile Devices, Portable Devices and Removable Media**

12. I will not copy or store Confidential Information on any applications including storage applications, mobile devices, portable devices or removable media such as laptops, personal digital assistants (PDAs), cell phones, COs, thumb drives, external hard drives, etc., unless within the scope of my employment responsibilities. If I do copy or store Confidential Information on applications, removable media or devices, it will be while using ECHN approved applications, removable media or devices with appropriate encryption according to ECHN Information Security Standards.

13. I understand that any mobile device (smart phone, PDA, etc.) that synchronizes Organizational data (e.g., Organizational e-mail) may contain Confidential Information and as a result, must be protected as required by ECHN Information Security Standards.

**Doing My Part- Personal Security**

14. I understand that I will be assigned a user-ID and password to track my access and use of Confidential Information and that the identifier is associated with my personal data provided as part of the initial and/or periodic credentialing and/or employment verification processes.

15. I will:

    a. Use only my officially assigned user-10 and password.

    b. Use only approved licensed software.

    c. Use a device with virus protection software.

16. I will never:

    a. Disclose passwords, PINs, or access codes.

    b. Allow another individual to use my digital identity to access, modify, or delete data and/or use a computer system.

    c. Allow another individual to use my identification badge.

    d. Use tools or techniques to break/exploit security measures.

    e. Connect unauthorized systems or devices to the Organizational network.

17. I will practice good workstation security measures such as locking up electronic storage media when not in use, using screen savers with activated passwords, and positioning screens away from public view in accordance with CAP Policy #730: Safeguarding Confidential Information in the Workplace.

18. I will immediately notify my manager, Chief Information Officer (CIO) or ECHN HelpDesk if:

    a. My password has been seen, disclosed, or otherwise compromised;

    b. Media with Confidential Information stored on it has been lost or stolen;

    c. I suspect a virus infection on any system;

    d. I am aware of any activity that violates this agreement, privacy and security policies; or

    e. I am aware of any other incident that could possibly have any adverse impact on Confidential Information or ECHN systems.

**Upon Termination of Employment**

19. I agree that my obligations under this Agreement will continue after termination of my employment, expiration of my contract, or my relationship ceases with the Organization.

20. Upon termination, I will immediately return any documents or media containing Confidential Information to the Organization.

21. I understand that I have no right to any ownership interest in any Confidential Information accessed or created by me during and in the scope of my relationship with the Organization.

**By signing this document, I acknowledge that I have read this Agreement and I agree to comply with all the terms and conditions stated above.**

## Professional Advisory Committee Charter

### Mission Statement

The Professional Advisory Committee is a group of professionals who participate in the agency's overall Quality Assurance Program. The Committee's role is to advise the agency on professional issues, assist in maintaining relationships with community practitioners and to participate in the evaluation of the agency's programs, and policies. The committee must be composed of professionals in active practice or who have been retired less than five years. Membership must include at least one physician, one community health nurse, one therapist representing one of the skilled therapies offered by the agency, a medical social worker, a pharmacist, a volunteer and members of the other professional disciplines as appropriate.

### Goals

1) To improve processes and outcomes in client care and services.
2) To recommend and review annually the agency's policies on:
    a. Scope of services offered
    b. Admission and Discharge Criteria
    c. Medical and Dental supervision and plans of treatment
    d. Clinical records
    e. Personnel Qualifications
    f. Quality assurance activities
    g. Standards of care
    h. Professional issues especially as they related to the delivery of service and findings of the quality assurance program
    i. Emergency care
3) Assist with maintaining Liaison with other health care providers in the community
4) Assist in identifying how the agency can best serve the needs of the community

Hospice Volunteers-These volunteers visit people who are on hospice care and serve needs by reading to patients, sitting with them to talk or listen--some play music, and provide reiki or pet therapy services. Our Hospice volunteers are required by CMS regulations as a condition of participation.

The following policies were developed by Visiting Nurse & Health Services of Connecticut Hospice, a program of Visiting Nurse & Health Services of Connecticut, Inc. Policies are reviewed yearly and revised as necessary.

I. **Purpose of Visiting Nurse & Health Services of Connecticut Hospice and Palliative:** To improve the quality of life of terminally ill patients and their families in North Central Connecticut.

Volunteer services are a very integral part of the Hospice Program of VNHSC. Patients will have appropriate volunteer support provided to them as determined by the IDT and set forth in the IDT Plan of Care. These volunteer services will be coordinated to meet the individual needs based on place of residence, patient level of care, and specific problems, issues, and goals of Plan of Care.

II. **Mission of Visiting Nurse & Health Services of Connecticut Hospice and Palliative:** The mission of Visiting Nurse & Health Services of Connecticut Hospice and Palliative is to provide assistance and care for terminally ill patients and their families. We provide palliative and bereavement care by professionals and volunteers to meet the physical, psychosocial, spiritual and emotional needs arising in the patient and family at the time of terminal illness. Caregivers provide a loving, effective presence to the terminally ill person and his/her loved ones so that life, as long as it continues, is as free from pain and as meaningful as possible.

III. **Range of Services**

Visiting Nurse & Health Services of Connecticut Hospice and Palliative provides both direct patient/family contact and organizational opportunities for volunteers:

A. Patient/Family Volunteer: The Patient/Family volunteer provides services to patients and families under the direction of the Volunteer Coordinator in accordance with the Interdisciplinary Team plan of care at patient's home, Skilled Nursing Facility or in the inpatient facility.

B. Spiritual Care Volunteer: The Spiritual Care volunteer provides spiritual care support to terminally-ill patients and their family members under the direction of the Spiritual Care Coordinator in accordance with the Interdisciplinary Team plan of care.

C. Bereavement Volunteer: The Bereavement volunteer provides bereavement services to families in accordance with the Interdisciplinary Team plan of care.

D. Clerical Volunteer: This volunteer completes office duties (filing, typing, copying, mailings, telephoning) and/or work on a special organizational project, event or fundraising event. Supervision provided by Director of Volunteer Services, Bereavement Coordinator, Spiritual Care Coordinator, and Supervisor of Clinical Services or Vice President of Development.

E. Reiki Volunteer: The Reiki Hospice volunteer provides Reiki treatment to terminally-ill patients and their family members under the direction of the Volunteer Coordinator and in accordance with the Interdisciplinary Team plan of care.

F. Caring Canines: The goal of the Caring Canines Program is to decrease anxiety and isolation while creating a positive interactive experience with North Central Hospice clients, under the direction of the Volunteer Coordinator in accordance with the IDT Plan of Care.

G. Music by Bedside: The goal of the Music by Bedside volunteers allows the patient and their family to experience what they need through music, under the direction of the Volunteer Coordinator.

H. Living Reflections: The Living Reflections volunteer photography provides a photo session to patient and family. It provides a framed photograph and CD of photos to patient, under the direction of the Volunteer Coordinator and in accordance of IDT Plan of Care. Patient will sign release (see Exhibit 8).

I. Aroma Therapy: The Aroma Therapy volunteer provides Aroma Therapy intervention to the identified terminally ill patient and family, under direction of the Volunteer Coordinator and in accordance with the IDT Plan of Care,

## IV Volunteer Personnel Policy:

A. Equal Employment Opportunity: Discrimination against any person in recruitment, examination, appointment, training, promotion, retention or any other personnel action because of race, color, creed, national origin, age, sex, sexual orientation, handicap, political affiliation, or any other non-merit factor is prohibited except where such a factor is a bona fide occupational requirement.

B. Insurance: Volunteers are covered by insurance purchased by NCH for claims alleging errors, omissions, mistakes, or negligence while working with patients and families.

C. Hours of Work

C.1 Hours worked by volunteers are assigned according to their specific role and their availability. Volunteers with direct patient/family contact are oriented to their responsibilities and work hours mutually agreeable to themselves and the patient/family.

C.2 All volunteer hours are recorded by the volunteer and reported in a timely manner.

D. Evaluation: It is the belief of NCH that evaluation is an ongoing process. Informal evaluation on a continual basis consists of requesting feedback from and giving feedback to volunteers. Volunteers are formally evaluated at least annually.

;

E. Grievance: In the event that problems are not resolved in the course of informal attempts to do so, the volunteer may use the following procedure:

E.1 Present the complaint in writing to the Volunteer Coordinator.

E.2 If the complaint is not resolved, the volunteer can meet with the Hospice Program Director. The problem must be presented in writing, and the specific relief sought must be stated.

E.3 If the problem remains unresolved, the complainant can request that the problem be presented in written form to the President of VNHSC. The President may bring the complaint to the Executive Committee of the Board if it remains unresolved. This committee will report the results to the Board at the next regularly scheduled Board meeting.

E.4 At each intervention above, a reply is written to the complainant within ten (10) business days.

F. Resignation: Volunteers with direct patient/family contact who plan to resign should do so after completing a case. If it is necessary for a volunteer to resign while working with a patient/family, (s)he should give two weeks' notice so a replacement can be found. Exit interviews are conducted with volunteers upon resignation.

G. Volunteers have signed a Confidentiality Statement and have annual instruction on HIPAA Regulations. All patient information is considered confidential and only information necessary to perform their volunteer role is shared with volunteers. Volunteers report all appropriate information only to Hospice staff.

H. Appointment as a volunteer with direct patient/family contact is contingent upon:

H.1 Completion of application accompanied by three written references and an interview.

H.2 Successful completion of an approved Hospice volunteer education program, commitment to ongoing Hospice education and a commitment to the Hospice philosophy.

H.3 Proof of a negative Mantoux test within one calendar year previous to completion of training or completion of two-step Mantoux test.

H.4 A physician's statement that the volunteer is in good health, has no communicable disease, and has no physical limitations that would hinder being a Hospice volunteer. The statement must be signed and dated prior to becoming an active volunteer and updated every two years.

H.5 Valid Connecticut driver's license and proof of current no-fault car insurance.

H.6 No volunteer will be placed with a patient/family until 12 months after a major loss. Normally, a "major loss" is defined as the death of an immediate family member or close friend, death of a person with whom the volunteer resides, divorce, separation from a spouse or significant other, or at the discretion of the Volunteer Coordinator.

H.7 Documentation of the Plan of Care requested to be fulfilled by the Patient Care/Reiki Bereavement volunteer will be made in the patient's chart. Any subsequent changes in the Plan of Care are documented in the patient chart.

I. The Volunteer would update the Volunteer Coordinator or the Hospice Primary Care Nurse or Hospice Clinical Supervisor on any problems relating to the patient diagnosis or family concerns.

I.1 The Volunteer would report any acute changes in patient's physical or emotional condition or other crisis situation immediately to the Hospital primary care nurse, the Hospice Primary Care Nurse, Volunteer Coordinator or Hospice Clinical Supervisor.

I.2 The Volunteer would follow the Hospice Team's plan of care. At the end of each visit, the Volunteer reports <u>significant</u> information to the Hospice primary care nurse about concerns or changes for the patient/family situation consistent with the Hospice plan of care.

## V. DELIVERY OF SERVICE

### A. The Volunteer Coordinator

1. The Volunteer Coordinator under the supervision of the Hospice Program Director is responsible for the recruitment, training, in-service presentation, support, and assignment of Hospice volunteers. The Volunteer Coordinator maintains complete and current personnel files on all volunteers in compliance with agency policy and maintains volunteers' participation in mandatory in-service/support meetings.

2. The Volunteer Coordinator also works with Development Staff in fund-raising efforts, to increase the public awareness of Visiting Nurse & Health Services of Connecticut Hospice and Palliative, to coordinate special projects (e.g., the "Holiday Baskets", and to assist with the annual Volunteer Recognition Reception.

3. The Volunteer Coordinator also attends weekly Interdisciplinary Team meetings to up-date the Plan of Care every two weeks, assesses the need for volunteer services with members of the team, assigns volunteers to a family and arranges for orientation by Primary Care Nurse or the Volunteer Coordinator.

**B. Assignment of Volunteers with Direct Patient/Family Contact**

1. Requests for Volunteer support come from a Hospice Primary Care Nurse to the Volunteer Coordinator.

2. The Volunteer Coordinator assigns an appropriate volunteer to the patient/family based on the request and fills out a Hospice Volunteer Assignment Form Volunteer Exhibit 1). This is given to the Primary Care Nurse, who then puts it in the patient's chart.

3. Volunteers file a Volunteer Time and Visit Report (Volunteer Exhibit 2) weekly. The upper portion of the form, the time sheet, is recorded in the volunteer database; the lower portion of the form is given to Primary Care Nurse and then filed in the patient's chart.

4. Changes to a Volunteer Plan of Care are reported on a Volunteer Contact Sheet (Volunteer Exhibit 3) and placed in the volunteer's file.

5. At each volunteer's initial assignment, the Volunteer Coordinator arranges for a one time orientation of the patient care volunteer by either the PCN, the Volunteer Coordinator, or other appropriate team member. This orientation visit is documented on the Hospice Volunteer Evaluation Home Visit form (Exhibit 4). After this initial visit, joint visit for evaluation of the volunteer will be conducted by the Volunteer Coordinator annually and documented on the Volunteer Evaluation Home Visit form and the appropriate Hospice Volunteer Competency Checklist (direct care or clerical). Evaluation will completed (Exhibit 5 and 6).

*Subject:* Volunteer Patient Safety Program
*Policy/Procedure Number:* 011

*Released:* 01/13/12

I. Purpose:

A. Patient Safety Volunteers help improve the safety of our patients who are at risk of falling by verifying certain falls-prevention safety precautions are in place and implementing those that are not.

II. Procedure:

A. Obtain from charge nurse or unit secretary the list of all high risk for falls patients on unit including name and bed number.

B. Wash hands or use Purell on hands prior to entering and leaving each room and between patients in the same room.

C. If you are scheduled to come in on a unit for safety rounds and has a cold or flu – like symptoms, volunteer should not be on unit that day.

D. Do not enter isolation rooms.

E. Do not help position or move patients.

F. Use Safety Volunteer Checklist for reference/documentation of safety rounds.

G. Check that all high risk for falls patients have one or more of the below items place:

1. Red Star magnet on door frame
2. Remember Red sign over bed
3. Red slippers on patient
4. Red blanket on patient's bed

H. If high risk for fall patients do not have any of the above in place, mark this on the check list and implement one or more of the High Fall Risk items.

I. Check if the patient's personal items are within reach.

J. Check if call bell is within patient's reach.

K. If the patient is in the bed:

1. Verify that the bed alarm is "on". Turn on alarm if it is off.
2. Verify the call system adapter (circle plug) is plugged in to the wall. Plug in if not plugged in correctly.
3. Verify that the bed's power cord is plugged into the wall. Plug in if not plugged in correctly.

L. If the patient is sitting in a chair:

1. Verify that a TABS chair alarm is in place. Implement a TABS alarm if not.

M. Confirm patients know how to use their call bell and remind patients to use their call bell to call for assistance and to not get up alone.

N. Ask if there is anything else that they need at this time i.e. fill water pitcher if appropriate for the patient (check with the patient's nurse). Help the patient request staff assistance for all other needs.

O. Contact charge nurse or patient's nurse for any questions or problems incurred on safety rounds.

P. Return safety checklist to the nursing station upon completing safety rounds for follow-up.

III. RESPONSIBLE FOR REVISION: Head of Volunteer Services

IV. ORIGINATED: 09/17/2009 – Linda Quirice, Nursing Education

# ECHN Woodlake at Tolland Volunteers

Volunteers at WAT work under the supervision of the Recreation Director.

They are on boarded by Volunteer Services. In addition to the standard requirements, new adult volunteers at WAT (since the fall of 2015) are required by state law to be screened by fingerprinting prior to volunteering.

Volunteers are involved/help in a variety of ways:

-Cooking groups

-Book Club Reader

-Weaving/Yard club

-Cheer cart & friendly visits

-St Matthews Rosary Service

-Bingo

-Bowling

-Garden club/Indoor plants

-Card games

In addition, we have volunteers who play music and do Pet Therapy. We also have volunteers who assist with transporting patients to activities.

There are groups from the community who come in to visit. These include:

-Tolland Senior Center Singers (they sing appropriately 3 times a year)

-Golden Tone-Stafford Senior Center (sing twice a year)

-Ellington Singers (twice a year)

-From the Heart (once a month for two hours)

-Girl Scout troop visits (once a month)

**A Summary of Community Benefit Activities***
**Manchester Memorial Hospital**
**Fiscal Year 2015**

**Towns Served**

Manchester Memorial Hospital, part of the Eastern Connecticut Health Network, primarily serves the following towns with community-based health programs: Manchester, South Windsor, Bolton, Coventry, Andover, Ellington, Tolland, Vernon, and Willington. Its secondary service area includes the towns of Ashford, Somers, Stafford, Union, East Hartford, East Windsor, Glastonbury, Hebron, Columbia and Mansfield. The service areas contain municipalities in Hartford, Tolland and Windham Counties.

**Community Health Needs Assessments**

Manchester Memorial Hospital regularly conducts community health needs assessments to gather current statistics and qualitative input to determine the key health issues facing residents of its 19-town service area.

With the support of a Community Program Advisory Committee, consisting of medical staff leadership and ECHN Administration, the organization's Community Benefit & Education Department evaluates, coordinates and implements programs to address these needs. Efforts include free health education lectures presented by the medical staff, health screenings, health fair participation, and support groups.

Community health needs are also identified through regular solicitation of the general public and the medical community to identify pertinent health needs they feel need to be addressed.

**Community Benefit Activities**

- Based on the identified health needs, community health education initiatives/programs are offered to the community and include lecture presentations such as Diabetes Made Simple and Pre-diabetes, Let's Take Action; development and distribution of a wellness magazine to more than 150,000 households in the service area; lactation consultants for new mothers; and demonstrations and health fair participation. For example, a Freedom from Smoking Program is available that is facilitated by an ALA Certified Health Care Professional and includes eight 1½- to 2-hour sessions over 7 weeks, the 4th session being Quit Day. The sessions can be provided at the worksite or other location, daytime or evening. Another example is presentations to the community about breast cancer, preventative/screening recommendations, bone density exams, and free screening programs. These presentations were made at the Greater Hartford Women's Conference; a Women and Youth Advisory Panel Discussion at Manchester Community College; the Town of South Windsor Health and Wellness Fair; Crossroads Community Cathedral Church Health Fair; Women to Women-A Comfortable Conversation; Let's Talk Menopause panel community program; the Vernon Center Middle School; and the Office of Migration, Refugee, and Immigration Services at Catholic Charities of Hartford. Other areas of particular focus include: Heart disease, Cancer, Diabetes, Arthritis, Alzheimer's disease, Multiple Sclerosis, Substance Abuse, and Childhood Lead Screening, which were identified as areas of need in the community health needs assessment conducted in 2013. Over 97,000 people benefitted from these initiatives and programs in FY 15.
- Free health screenings including diabetic foot checks, mammograms, heart disease screenings, blood pressure, bone density, glucose readings, injury screenings and vital sign checks are offered in the

community. For example, blood pressure screenings were done during Wear Red Day. Targeting uninsured/underinsured populations, 156 people benefitted from all these services in FY 15.

- Healthcare support services are provided by the hospital to increase access and quality of care to individuals in need. Efforts include free transportation to behavioral health patients, assistance to enroll in public programs, referrals to social services, and help in finding physicians who accept Medicaid or other government programs. Nurse navigation services help patients and their loved ones navigate through the healthcare system, finding support and resources to manage symptoms, get a second opinion, schedule tests and treatment, find homecare services and coordinate care. A social worker who serves as a survivorship navigator is available to provide supportive counseling and assistance in locating resources to help with finances, disability, medical insurance, advance directives and post treatment survivorship care planning. Four thousand eight hundred and forty (4,840) people benefitted from these efforts in FY 15.

- Partnering with local educational institutions, Manchester Memorial Hospital provides a clinical setting for medical students, nursing students, radiologic technicians, phlebotomy students, respiratory technicians, dietetic interns, pharmacy students, physical therapists and others from the University of New England College of Osteopathic Medicine, University of Connecticut, Manchester Community College, Central Connecticut State University, Goodwin College, Capital Community College, Springfield Technical Community College, University of St. Joseph, Quinnipiac University, Asnuntuck Community College and the University of Hartford. Presentations are also given to local groups on new emergency management services guidelines and updates, EMT education, paramedic skills training, specialty care transport courses, and Narcan and CPAP training.

- Health services which are subsidized by the hospital include neonatal services, diabetes self-management, dialysis services and the behavioral health clinic.

- Specific research initiatives conducted by the hospital include an Institutional Review Committee, which has the primary responsibility to protect the rights and welfare of research subjects and to approve all research studies in accordance with federal regulations.

- Financial and in-kind services and goods are donated to community groups and other not for profit organizations, including patient meals, local fundraisers, facility space to host blood drives, conference rooms for health support groups organizations' meetings, and for oncology clinical research. For example, the hospital provides free meeting space for the ACOA Support Group Adult Children of Alcoholics, Al-Anon, Alcoholics Anonymous, Not So Typical Autism Support Group, Brain Injury Alliance of CT, Multiple Sclerosis Society Caregiver Meeting, Narcotics Anonymous, National Alliance on Mental Illness, Older Adults Recovery & Support Group, and Sweet Talk - Diabetes Support Group.

- The expertise and resources of the organization are dedicated to a number of community building activities that support associations, businesses, programs, initiatives and other valuable local community assets.
    - Through grants provided by the federal and state governments, MMH offers free support programs to prenatal individuals and parents to promote positive family life skills and child

development. In FY 2015, these programs benefited 1,091 individuals with MMH providing over $118,000 in in-kind resources and services.

Other community building activities performed in FY 2015 include participation in regional exercises to evaluate the readiness of the hospital's emergency preparedness capabilities; participation in the Baby Friendly Practices Statewide Collaborative and the statewide CPQC Initiative; serving on the Board and Executive Committee of regional Chambers of Commerce in support of the local business industry; hosting art exhibits of the Manchester Art Association; working with the Manchester Veterans Council to honor veterans in an annual Veterans Day ceremony for the community; partnering with the local school systems and colleges in various workforce development programs; attending School Readiness Council meetings; providing vocational services and employment assistance to residents; serving on the American Hospital Association's Regional Policy Board; and serving on the Department of Public Health's Office of Emergency Medical Service Medical Advisory Committee, the Connecticut EMS Advisory Board, the Connecticut EMS Advisory Committee, the Regional Medical Advisory Committee, the Regional ED Standards Board, the State EMS Education and Training Committee, and EMS Clinical Coordinators.

**A Summary of Community Benefit Activities***
**Rockville General Hospital**
**Fiscal Year 2015**

**Towns Served**

Rockville General Hospital, part of the Eastern Connecticut Health Network, primarily serves the following towns located east of the Connecticut River in northern Connecticut: Vernon, Ellington, Tolland, Willington, Manchester, South Windsor, Bolton, Coventry and Andover. Its secondary service area includes the towns of Ashford, Somers, Stafford, Union, East Hartford, East Windsor, Glastonbury, Hebron, Columbia and Mansfield.

**Community Health Needs Assessments**

Rockville General Hospital regularly conducts community health needs assessments to gather current statistics and qualitative input to determine the key health issues facing residents of its 19-town service area.

With the support of a Community Program Advisory Committee, consisting of medical staff leadership and ECHN Administration, the organization's Community Benefit & Education Department evaluates, coordinates and implements programs to address these needs. Efforts include free health education lectures presented by the medical staff, health screenings, health fair participation, and support groups.

Community health needs are also identified through regular solicitation of the general public and the medical community to identify pertinent health needs they feel need to be addressed.

**Community Benefit Activities**

- Community health education initiatives/programs are offered to the community and include lecture presentations, development and distribution of a wellness magazine to more than 150,000 households in the service area, demonstrations, and health fair participation. For example, presentations were made to the community about breast cancer, preventative/screening recommendations, bone density exams, and free screening programs. These presentations were made at the Greater Hartford Women's Conference; a Women and Youth Advisory Panel Discussion at Manchester Community College; the Town of South Windsor Health and Wellness Fair; Town of Vernon Employee Health and Benefit Fair; the Town of Manchester Health and Safety Fair; Crossroads Community Cathedral Church Health Fair; Women to Women-A Comfortable Conversation; Let's Talk Menopause panel community program; the Vernon Center Middle School; and the Office of Migration, Refugee, and Immigration Services at Catholic Charities of Hartford. Other areas of particular focus include: Heart disease, Cancer, Diabetes, Arthritis, Alzheimer's disease, Multiple Sclerosis, Substance Abuse, and Childhood Lead Screening, which were identified as areas of need in the community health needs assessment conducted in 2013. More than 40,000 people benefitted from these initiatives and programs in FY 15.

- Free health screenings including diabetic foot checks, mammograms, heart disease screenings, bone density, glucose readings, injury screenings, blood pressure, vital sign checks and medical exams are offered in the community. For example, blood pressure screenings were done at the American Heart

Association Heart Walk. Risk Factor screenings were done during Wear Red Day. Targeting uninsured/underinsured populations, 53 people benefitted from these services in FY 15.

- Healthcare support services are provided by the hospital to increase access and quality of care to individuals in need. Efforts include assistance to enroll in public programs, referrals to social services, and help in finding physicians who accept Medicaid or other government programs. Twenty-eight (28) people benefitted from these efforts in FY 15.

- Partnering with local educational institutions, Rockville General Hospital provides a clinical setting for medical students, nursing students, radiologic technicians, phlebotomy students, respiratory technicians, dietetic interns, pharmacy students, physical therapists and others from the University of New England College of Osteopathic Medicine, University of Connecticut, Manchester Community College, Central Connecticut State University, Goodwin College, Capital Community College, Springfield Technical Community College, University of St. Joseph, Quinnipiac University, Asnuntuck Community College, Stone Academy, and the University of Hartford. For example, a college senior completed her practicum by spending approximately 525 hours with the hospital's cardiac/pulmonary rehabilitation RN.

- Health services which are subsidized by the hospital include the Early Detection Program, the Maternity Care Center, dialysis services, and the Ryan White Part A program.

- Specific research initiatives conducted by the hospital include an Institutional Review Committee, which has the primary responsibility to protect the rights and welfare of research subjects and to approve all research studies in accordance with federal regulations.

- Financial and in-kind services and goods are donated to community groups and other not for profit organizations, including local fundraisers, facility space to host blood drives, and conference rooms for health support groups organizations' meetings. For example, the hospital provides free meeting space for Compassionate Friends- Providing Grief Support After the Death of a Child, Overeaters Anonymous, and the North Central District Health Department.

- The expertise and resources of the organization are dedicated to a number of community building activities that support associations, businesses, programs, initiatives and other valuable local community assets. For example, the hospital and its employees participate in regional exercises to evaluate the readiness of the hospital's emergency preparedness capabilities, serve on the board and executive committees of regional chambers of commerce in support of the local business industry; partner with the local school systems and colleges in various workforce development programs; serve on the Vernon School Readiness Council, the Cancer Community Outreach Committee and the American Hospital Association's Regional Policy Board; and host art exhibits of the Vernon Art Association.

**Subject:** Independent Monitor

Hi □im
Prospect is moving along with the selection of the Independent Monitor for the three hospitals, Manchester, Rockville and Waterbury. Colleen Smith is the candidate that has gone the furthest in the vetting process and has been selected to proceed. She was interviewed via phone and in person by hospital representatives, licensure division within DPH also interviewed Colleen and there are phone interviews set up for next week with PMH Corporate. I will send you Colleen Smith□s resume and contact information so OHCA can make arrangements to speak directly with Ms. Smith as well. I also spoke with Dan Shapiro regarding OHCA participation in the process. Please contact me anytime if I can provide additional information or be of further assistance. Thank you

## EDUCATION

**MASTER OF SCIENCE IN NURSING, 1976**
University of Connecticut, Storrs, CT

**BACHELOR OF SCIENCE IN NURSING, 1973**
University of Connecticut, Storrs, CT

## EXPERIENCE

**2013-present**

### Nursing Consulting Partners

***Healthcare Consultant***

Work with clients on their strategic planning efforts, improvements in clinical outcomes, employee engagement and creation of professional practice environments. Conduct Magnet Readiness assessments, including data and document review.

**2012**

### Norwalk Health Systems, Norwalk, Ct.

***Interim Chief Operating Officer (March, 2012-August, 2012)***

Fulfilled the role of COO during a planned leave of absence. Directed the activities of the following Hospital Departments: Radiology, Laboratory, Emergency Services, EMS, Nursing, and the Cancer Center. As a member of the senior leadership team, participated in strategic planning, service line development and preparation of the operational and capital budget for fiscal year 2013. Served as a member of the Master Facility Planning Project Steering committee.

**July-August, 2012**

Continued service to this organization in a Quality consultant role, charged with developing structures and processes to assure quality outcomes.

**1986 – 2011**

**MIDDLESEX HEALTH SYSTEMS, Middletown, CT**

***Chief Nursing Officer (1995 – 2011)***

Middlesex Health System is a non-profit healthcare organization serving a population of 250,000 residents. Its service area encompasses the largest geography of any hospital in CT, covering Middletown, Connecticut south to the Shoreline and East of the Connecticut

River. The system includes a 275-bed acute care hospital, Homecare and Hospice Agency, a network of primary care offices, three full service Emergency sites, a diagnostic outpatient center, Ambulatory Surgical Center, and Cancer Center. Middlesex Health System is a four-time winner of the Thompson-Reuters Top 100 Hospitals Award and attained Center of Excellence Certifications in Stroke, CHF, Disease Management, and Bariatric Surgery.

Reporting to the President and CEO, responsible for all Nursing, Emergency, Behavioral Health, Surgical Services, Home Health & Hospice, Case Management, and Pharmacy. Key member of the senior management team responsible for all strategic planning, governance, quality and safety, workforce development and engagement. Responsible for 1,071 FTEs including all Nursing Services, the Departments of Surgery and Anesthesia, Emergency Medicine, Behavioral Health and Hospice.

Managed an operating budget of $650M in gross revenues and $105M in expenses. Responsible for nine Directors and five Physician Chairmen.

**Selected Accomplishments:**

- Achieved Magnet Designation in 2001 followed by redesignations in 2005, and 2010.
- Reduced RN Vacancy Rate from 12% to 2.5%, sustained over the last three years.
- Reduced Temporary Labor costs from 1.7M to $400,000/year.
- Redesigned several medical surgical units to offer private rooms.
- Developed Peer Review processes at all levels for all areas of responsibility.
- Established a Shared Governance Structure in 2000. Completed a redesign of this structure in 2008.
- Developed an RN Residency Program in 1999. Joined the University Health Consortium in 2008. Annual average new graduate retention rate of 87%.
- Achieved nurse satisfaction rates that surpassed the NDNQI benchmarks since 2002.
- Increased Nurse Certification rates from 34% to 56% in 8 years.
- Developed the Center for Research & Innovation. Secured philanthropic funding for research and evidence based practice projects. Established Clinical Scholars Program to advance evidence based practice.
- Founding Board member of the Middlesex Center for Advanced Orthopedic Surgery. Shared oversight for facility design, build and all operational aspects on this Joint Venture.
- Key member of Service Excellence team. Increased Press Ganey nursing care scores from 82 % to 94 %. All HCHAPS scores now above the state and national benchmark.
- Implemented Cerner Information Systems in Emergency, Inpatient, Pregnancy & Birthing Center, and Surgical Services from 2008 through 2011.
- Developed an outpatient Wound Care Center, the Center for Total Joint Replacement, and a Palliative Care Program.
- Key member of two new building projects: Emergency Department (2008), Critical Care Unit (2011)
- Established an Emergency Crisis Area within the Emergency Department to achieve rapid assessment and safe disposition of acute psychiatric patients.
- Achieved initial designation as a WHO Baby Friendly USA hospital in 2005 and in 2010.
- Established remote telemetry services and central monitoring capability.
- Established formal agreement with University of CT to provide additional nursing research expertise.

- Established a "Dedicated Education Unit" on a Medical unit and established a joint faculty appointment.

***Director, Medical/Surgical Nursing (1992 – 1995)***

***Lead Faculty, Ona M. Wilcox College of Nursing (1986 – 1992)***

Faculty for Medical Surgical course in evening program. Overall responsibility for theoretical, clinical, and administrative aspects of course.

***Staff Nurse, Connecticut & Florida (1973 – 1986)***

Provided nursing care for patients in a variety of clinical settings: Medical/Surgical, ICU, CCU, PACU, & Emergency Department

## CERTIFICATIONS

- American Nurses Credentialing Center (ANCC); Magnet Appraiser 2006-2012
- ANCC Certification – Advanced Nursing Administration (NEA-BC) October, 2005 - Present
- Johnson & Johnson – Wharton Fellows Program in Management for Nurse Executives 2005

## HEALTHCARE BOARD SERVICE

- Connecticut Hospital Association April, 2015-present
  First Nurse Executive representative appointed to this Board of Ct. CEOs. Responsible for the strategic direction of CHA, oversight of the legislative advocacy platform, and approval of annual operating budget
- Hartford Healthcare Quality and Safety Committee of the HHC Board
  October, 2011-present
  Approval of committee charter, mission, goals and strategic direction for all Quality and Patient Safety initiatives embarked upon by the Hartford Healthcare System. Review of all ongoing Quality and Safety Indicators including installation of an enterprise wide electronic record system

# CONSULTING SERVICES AGREEMENT

This Consulting Services Agreement (this "Agreement") is made and entered into to as of the _____ day of November, 2016 (the "Effective Date"), by and among Prospect ECHN, Inc., a Connecticut corporation ('Prospect ECHN"), Prospect Waterbury, Inc., a Connecticut corporation ("Prospect Waterbury") and Nursing Consulting Partners, LLC, through its nurse consultant Colleen Smith, MSN, RN, NEA-BC, herein collectively referred to as ("Consultant").

## RECITALS

A. Prospect ECHN has acquired certain healthcare facilities in Connecticut including The Rockville General Hospital Incorporated and Manchester Memorial Hospital (collectively, the "ECHN Facilities").

B. Prospect Waterbury has acquired certain healthcare facilities in Connecticut including The Waterbury Hospital (collectively, the "GWHN Facilities").

C. The State of Connecticut, Department of Public Health, Facility and Licensing Investigations Section ("FLIS") has required pursuant to a Pre-Licensure Consent Order for Prospect Manchester Hospital, Inc., Prospect Rockville Hospital, Inc. and Prospect Waterbury Hospital, Inc., OHCA Final Decision for Greater Waterbury Health Network, Inc., OHCA Final Decision for Eastern Connecticut Health Network, Inc., Quality Assurance Commitment for Greater Waterbury Health Network, Inc., and Quality Assurance Commitment for Eastern Connecticut Health Network, Inc., copies of which are attached as Exhibit A ("Order") that Prospect ECHN and Prospect Waterbury (each a "Licensee" and collectively, the "Licensees") execute a contract with an Independent Monitor ("IM") pre-approved in writing by the Department of Public Health, Office of Healthcare Access ("OHCA") and FLIS pursuant to which the IM will monitor the ECHN Facilities and the GWHN Facilities (each a "Facility" and collectively with any other Facilities subject to the Order, the "Facilities") in compliance with the Order.

D. Consultant desires to perform the services of the IM described in the Order and the Licensees desire to engage Consultant to perform such services, subject to the terms and conditions of this Agreement and in full compliance with the Order.

In consideration of the mutual covenants contained herein, the parties hereto hereby agree as follows:

1. Scope of Services. Consultant will provide the services of the IM as described in the Order and otherwise comply with the Order (collectively, the "Services"). The Licensees shall cooperate with Consultant and provide access to the Facilities, and management and other representatives of the Facilities in order to enable the IM and the Licensees to fully comply with applicable provisions of the Order.

2. Independent Contractor. Consultant and the Licensees acknowledge and agree that Consultant shall provide services as an independent contractor. Consultant and Licensees acknowledge and agree that no employment relationship, partnership, or joint venture shall be formed due to the performance of this Agreement. This Agreement does

not make Consultant the agent or legal representative of Licensees, and Consultant further agrees that no representation will be made by Consultant that would create an apparent agency, employment, partnership, or joint venture relationship. Consultant acknowledges that he is solely responsible for the taxes on his own income and that, as an independent contractor, his payments will be reported on an IRS Form 1099. In addition, Consultant will provide his own insurance, as necessary, and will not be covered under any Licensee's insurance policy or benefits program.

3. Method of Performing Services. Consultant will determine the method, details, and means of performing the services required by this Agreement.

4. Time and Place of Performing Work. Consultant may perform the Services under this Agreement at any suitable time and location Consultant chooses. Such services will be performed outside the usual course of the Licensees' business although Consultant may, from time to time, as Consultant deems necessary, perform services under this Agreement at the Facilities. Consultant shall observe all safety rules, policies and procedures applicable to visitors and vendors at each facility when on site at the Facilities, including requirements for flu and other vaccinations, if requested.

5. Payment. Consultant shall be paid a monthly retainer during the first twelve (12) months of Seventy-Five Hundred Dollars ($7,500) for all Services and Twenty-Five Hundred dollars ($3,500) during the second proceeding twelve (12) months for all Services. Compensation to be paid to IM under this Agreement under no circumstances shall exceed $300,000 in accordance with the Order. Consultant shall be responsible for all taxes attributable to the compensation paid to him under this Agreement. Consultant shall be entitled to no other payment, remuneration, or benefits other than the compensation described in this Agreement. Because Consultant is an independent contractor, the Licensees will not deduct any amounts from Consultant's payments for income tax or other employment-related withholdings.

6. Billing. Consultant shall provide each Licensee with an invoice on a monthly basis providing a general description of the Services performed and number of hours billed for the Services provided to each Licensee. The invoice shall also list any expenses reasonably incurred by Consultant as part of his consulting services, for which he seeks reimbursement, except that Consultant must obtain prior consent before incurring any expense in excess of $500. Each Licensee's payment of Consultant's invoice is due within thirty (30) days of receipt.

7. Term; Termination. This Agreement will begin on the Effective Date and shall continue for a period of two years in accordance with the Order. This Agreement may not be terminated by either party or by mutual consent unless such termination is approved by OHCA and FLIS. The term may be extended at the direction of FLIS for up to (1) additional year, for an overall total of three (3) years, provided that the compensation cap set forth in paragraph 5 shall include any such extended term.

8. Representations. Consultant warrants that all information provided by Consultant to Licensees is true to the best of Consultant's actual knowledge. Consultant further warrants that he is not restricted by, and has no conflict of interest derived from any other agreement and has no other interest or obligation that would interfere with his

performing work as described in this Agreement, and that he shall inform Licensees immediately should such a limitation or conflict arise. Consultant further warrants that the services of Consultant will be provided utilizing reasonable care and skill in accordance with customary industry standards. Consultant represents he/she has expertise in hospital administration and operations, knowledge of the healthcare environment with a special focus on quality assurance and performance improvement, and considerable knowledge of accepted standards of practice and state and federal laws and regulations applicable to general/acute care hospitals. Consultant represents and warrants that he/she has not been convicted of a criminal offense related to healthcare, debarred, suspended, declared ineligible, or excluded from participating with Medicare, Medicaid or any other plan or program that provides health benefits, whether directly through insurance or otherwise, which is funded directly, in whole or in part, by the United States Government or any State health care program. This shall be an ongoing representation and warranty during the term of this Agreement. Consultant shall immediately notify Licensees of any change in the status of the representations set forth in this section.

9. Adherence to Health Laws. Consultant acknowledges that Licensees receive federal funds and that Contractor will receive payments under this Agreement that are, in whole or in part, from federal funds. Consultant shall follow and adhere to all applicable state and federal laws, rules, and regulations, including, but not limited to, all Medicare laws, regulations and CMS instructions, including, without limitations, (a) federal criminal law; (b) the False Claims Act (31 USC 3729 et seq.); and (c) the anti-kickback statute (42 USC 1320a-7b(b)); (d) the civil monetary penalties law (42 USC 1320a-7a); (e) the physician self-referral law (42 USC 1395nn).

10. Corporate Compliance. Contractor acknowledges that Licensees maintain Corporate Compliance Plans ("CCPs") that foster prevention, detection and resolution of instances of misconduct. Vendor shall cooperate with Licensees' corporate compliance audits, reviews and investigations that relate to the services provided by Contractor under this Agreement. Contractor agrees to immediately notify Licensees' Compliance Officers of any violation of any applicable law, regulation, third party payor requirements or breach of Licenses' CCPs of which Contractor becomes aware during the term hereof.

11. Insurance. Consultant shall, at his/her sole cost and expense, maintain at all times during the term of this Agreement, general liability ("GL") and errors and omissions ("E&O") insurance covering his/her provision of the Services in minimum amounts of One Million Dollars ($1,000,000) per occurrence, Three Million Dollars ($3,000,000) in the aggregate annually, as well as an umbrella/excess liability insurance policy written on an occurrence basis and in an amount of not less than Three Million Dollars ($3,000,000) in the annual aggregate, excess of the limits of his/her GL and E&O policies (collectively, the "Policies"). Said Policies shall be obtained from an insurer licensed or authorized to do business in Connecticut, with an A.M. Best's Insurance Rating of A- or better. Licensees and their officers, directors, agents, employees, and volunteers (the "Licensee Parties") shall be named as additional insureds to all such Policies, and said Policies shall provide that they are primary to and noncontributory with any and all other insurance maintained by or otherwise afforded to the Licensee Parties. Upon a Licensee's request, Consultant shall provide a current certificate of insurance to Licensee evidencing such coverage and shall require

its insurance carrier to notify Licensee immediately of any actual or intended change, cancellation, modification or non-renewal of such coverage. The obligations set forth herein shall survive the expiration or termination of this Agreement.

12. No Assignment or Subcontracting. Consultant shall not assign or otherwise transfer his rights in this Agreement without the prior written consent of the Licensees and the approval of OHCA and FLIS. Consultant may not subcontract the consulting services to any other consultant without the prior written consent of the Licensees and the approval of OHCA and FLIS.

13. Non-exclusivity. Consultant may represent, perform services for, and contract with as many additional clients, persons, or companies as Consultant, in Consultant's sole discretion, sees fit. Consultant shall not, however, perform services for any other entity where such services would create a conflict of interest with the services performed under this Agreement for Licensees.

14. Non-Solicitation. Consultant agrees that during the term of this Agreement, and for a period of two (2) years after the termination of this Agreement, Consultant shall not solicit, either directly or indirectly, any employee, customer, contractor, vendor, business contact, or consultant to leave Licensees.

15. Trade Secrets, Confidential Information.

(A) For purposes of this Agreement, the term "Confidential Information" means any information relating to Licensees (including any of their subsidiaries, shareholders or other affiliates) disclosed to Consultant, whether orally, in writing, or in any other medium, whether prior to or after the Effective Date of this Agreement, by or on behalf of Licensees, including, without limitation, information regarding Licensees assets, real estate holdings, historical and projected financial information; budgets; services; processes; operations; marketing plans and materials; analyses; strategies; forecasts; names, addresses and any other information regarding Licensees' existing or potential patients, employees, vendors or suppliers; or any information derived, summarized or extracted from any of the foregoing.

(B) Confidential Information shall not include any information which (i) is or becomes available to the public other than as a consequence of a breach of this Agreement; (ii) was available to Consultant on a non-confidential basis prior to its disclosure to Consultant by Licensees; (iii) becomes available to Consultant from a source other than Licensees, provided such source is not actually known by Consultant to be bound by a confidentiality obligation to Licensees; or (iv) is required to be disclosed by Consultant or any of its Representatives (as defined below) under the Order or applicable law or regulation.

(C) Consultant hereby agrees to hold in strict confidence all Confidential Information and agrees not to disclose or otherwise provide or transfer, directly or indirectly, any Confidential Information or anything related to the Confidential Information to third parties, including, but not limited to, Consultant's affiliates, without

the prior written consent of Licensees. Consultant further agrees that he may use the Confidential Information only in connection with the work he will perform for Licensees and to comply with the Order and not for any other purpose or for the benefit of any third party.

(D) Consultant shall not disclose to any third party, except where permitted or required by the Order or by law or where such disclosure is expressly approved by Licensees in writing, any patient or medical record information regarding any of the Licensee's patients, and Consultant shall comply with all federal and state laws and regulations, and all bylaws, rules, regulations, and policies of Licensees, its accrediting agency and the medical staff, regarding the confidentiality of such information. Consultant acknowledges that in receiving or otherwise dealing with any records or information from Licensees about (i) Licensees' patients receiving treatment for alcohol or drug abuse, Consultant is fully bound by the provisions of the federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records (42 C.F.R. Part 2, as amended from time to time), and/or (ii) Licensees' peer review activities, Consultant is fully bound to maintain the confidentially of such information in accordance with C.G.A.§ 19a-17b(d) . In addition, Consultant shall comply in all respect with HIPAA and the HITECH Act 42 U.S.C. §§300jj et seq.; §§17901 et seq., and shall execute and deliver to Licensees the Business Associate Agreement attached as Exhibit B.

(E) Consultant understands that in the event he fails to comply with paragraph 13 or this paragraph 14, Licensees may suffer irreparable harm, which may not be adequately compensated for by monetary damages alone. Consultant, therefore, agrees that in the event of his breach or threatened breach of paragraph 13 or this paragraph 14, Licensees will be entitled to injunctive and/or other preliminary or equitable relief from a court of law. Consultant understands that this is the sole exception to the binding arbitration of disputes between the parties in accordance with paragraph 20 below.

16. Return of Property and Confidential Information. Consultant agrees that, upon termination of this Agreement, he will promptly return to Licensees all items, documents and materials that are in Consultant's possession or control that were provided to Consultant by Licensees. Consultant further agrees that he will promptly return to Licensees or destroy all written Confidential Information received by Consultant from or on behalf of Licensees, including any and all copies or duplicates of such Confidential Information, and all summaries or extracts thereof in any medium prepared by or on behalf of Consultant. Any destruction of Confidential Information shall be confirmed in writing.

17. Notices. Any required notice under this Agreement shall be deemed made on the date it is personally delivered or, if made by U.S. Mail, Federal Express or similar parcel service, three (3) days after the date it is sent. Notices under this Agreement shall be sent to the following:

If to Consultant:

Nurse Consulting Partners, LLC
6909 S. Park View Court
Franklin, WI 53132

Colleen Smith, MSN, RN, NEA-BC
41 Laurel Crest Road
Madison, CT 06443

If to Licensees:

Prospect ECHN, Inc.
71 Haynes Street
Manchester, CT 06040
Attention: Chief Executive Officer

Prospect Waterbury, Inc.
64 Robbins Street
Waterbury, CT 06708
Attention: Chief Executive Officer

With a copy to:

Prospect Medical Holdings, Inc.
3415 South Sepulveda Blvd., 9th Floor
Los Angeles, CA 90034
Attention: General Counsel

18. Modifications. No Modification or amendment may be made to this Agreement unless it is in writing and signed by Consultant and an authorized officer of Licensees.

19. Entire Agreement. Consultant and Licensees acknowledge and agree that this Agreement which includes Exhibits A and B contains the entire understanding between the parties and that this Agreement replaces and supersedes any other agreement, including any written, oral or implied agreement, regarding the subject matter contained in this Agreement.

20. Arbitration. Any dispute between the parties arising out of this Agreement, including without limitation threshold or jurisdictional issues, such issues of arbitrability on the enforceability of this Agreement, shall be resolved by binding arbitration, pursuant to the commercial dispute rules of the Judicial Arbitration and Mediation Services ("JAMS"). The arbitration shall take place before a single arbitrator. The prevailing party to the arbitration shall be entitled to recover its attorney's fees and costs, including the JAMS arbitration fees. The arbitrator shall be entitled to award any relief or remedy under law, including monetary damages and injunctive relief. Despite this provision, if Consultant breaches paragraph 13 or paragraph 14 of this Agreement, Licensees may seek injunctive relief from a court of law to remedy such a breach.

21. Severability. If any part, clause, or condition of this Agreement is held to

be partially or wholly invalid, unenforceable, or inoperative for any reason whatsoever, such will not affect any other provision or portion hereof, which will continue to be effective as though such invalid, inoperative, or unenforceable part, clause or condition had not been made.

22. Binding Upon Successors. This Agreement will be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns.

23. Governing Law and Venue. All questions concerning this Agreement, its construction, and the rights and liabilities of the parties hereto will be interpreted and enforced in accordance with the laws of the State of Connecticut as applied to contracts which are executed and performed entirely within the state.

Consultant and Licensees represent that they have read and understand the terms of this Agreement, that they have had the opportunity to review this Agreement with the counsel of their choice, and that they are not relying on any advice from the other party regarding this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement to be effective as of the Effective Date.

## BUSINESS ASSOCIATE AGREEMENT

THIS BUSINESS ASSOCIATE AGREEMENT (the "Business Associate Agreement") is made and entered into as of November ___, 2016 (the "Effective Date"), by and among Prospect ECHN, Inc., a Connecticut corporation ('Prospect ECHN"), Prospect Waterbury, Inc., a Connecticut corporation ("Prospect Waterbury") (together, the "Covered Entities") and Nursing Consulting Partners, LLC ("Business Associate")

**R E C I T A L S:**

WHEREAS, the Business Associate and Covered Entities have entered into and may enter into one or more agreements (the "Agreement(s)") under which the Business Associate performs or assists the Covered Entities with a function or activity involving the Use or Disclosure of Individually Identifiable Health Information;

WHEREAS, the Covered Entities and the Business Associate desire to comply with the requirements of regulations promulgated pursuant to the Health Insurance Portability and Accountability Act of 1996 ("HIPAA").

WHEREAS, the HIPAA Standards require that the Covered Entities obtain satisfactory assurances that the Business Associate will appropriately safeguard the Individually Identifiable Health Information Used or Disclosed by the Business Associate in the course of performing services pursuant to the Agreement(s).

NOW, THEREFORE, in consideration of the foregoing and the mutual promises and covenants herein contained, the parties agree as follows:

**1. <u>Definitions</u>**

a) HIPAA Rules shall mean the Privacy, Security, Breach Notification and Enforcement Rules at 45 C.F.R. Part 160 and Part 164.

b) The following terms Used in this business Associate Agreement shall have the same meaning as those terms defined in the HIPAA Standards: Business Associate, Covered Entity, Breach, Data Aggregation, Designated Record Set, Disclosure, Health Care Operations, Individual, Minimum Necessary, Notice of Privacy Practices, Protected Health Information, Required By Law, Secretary, Security Incident, Subcontractor, Unsecured Protected Health Information, and Use.

c) The Covered Entities and the Business Associate acknowledge and agree that capitalized terms Used, but not otherwise defined, herein are as defined in the HIPAA Standards;

**2. Obligations and Activities of Business Associate**

a) Business Associate shall not Use or further Disclose Protected Health Information other than as permitted or required by this Business Associate Agreement or as required by law.

b) Business Associate shall Use appropriate safeguards and comply with Subpart C of 45 C.F.R. Part 164 with respect to electronic protected health information, to prevent Use or Disclosure of the Protected Health Information not provided for by this Business Associate Agreement.

c) Business Associate shall immediately report to Covered Entities any Use or Disclosure of Protected Health Information or individually identifiable information not provided for by this Business Associate Agreement, including without limitation any Breach of Protected Health Information or Unsecured Protected Health Information as required and any Security Incident of which the Business Associate becomes aware. Business Associate shall take any reasonable action necessary or requested by the Covered Entities to mitigate, to the extent practicable, any harmful effect that is known to Business Associate.

d) In the event of a Breach of Protected Health Information or Unsecured Protected Health Information, Business Associate's notice to Covered Entities of such Breach shall include, to the extent possible, the identification of each Individual whose Protected Health Information has been, or is reasonably believed to have been, accessed, acquired, or disclosed. Business Associate shall also provide Covered Entities any other available information that the Covered Entities are required to include in the notification to the Individual, even if such information becomes available after notification to the Individual, or take any reasonable action necessary as requested by the Covered Entities to assist Covered Entities in complying with any applicable Breach notification requirements.

e) Business Associate shall ensure that any agent of the Business Associate, including a subcontractor that creates, maintains transmits, or receives Protected Health Information on behalf of Covered Entities agrees to the same restrictions, conditions and requirements that apply through to Business Associate with respect to such information.

f) If the Business Associate maintains Protected Health Information in a Designated Record Set, the Business Associate shall:

(i) provide access or make available to Covered Entities Protected Health Information in a Designated Record Set, to Covered Entities or to an Individual, per Covered Entities' direction in order to meet the requirements under 45 C.F.R. § 164.524; and

(ii) make any amendment(s) to Protected Health Information in a Designated Record Set that the Covered Entities direct or agree to

pursuant to 45 C.F.R. § 164.526 at the request of Covered Entity or an Individual in the time and manner designated by Covered Entity, or take other measures as necessary to satisfy Covered Entities' obligations under 45 C.F.R. 164.526.

g) Business Associate shall maintain and make available to Covered Entity information pertaining to Disclosures of Protected Health Information by Business Associate to permit Covered Entity to respond to a request by an Individual for an accounting of Disclosures of Protected Health Information in accordance with 45 C.F.R. § 164.528. In the event that Business Associate receives a direct request from an Individual for an accounting of Disclosures of Protected Health Information made by Business Associate, Business Associate agrees to provide the Individual with such an accounting in accordance with 45 C.F.R. § 164.528.

h) To the extent Business Associate is to carry out one or more of Covered Entities' obligation(s) under Subpart E of 45 C.F.R. Part 164, Business Associate shall comply with the requirements of Subpart E that apply to Covered Entity in the performance of such obligation(s); and

i) Business Associate shall make internal practices, books, and records relating to the Use and Disclosure of Protected Health Information received from, or created, maintained or received by Business Associate on behalf of Covered Entity available to the Covered Entity or the Secretary, in a time and manner designated by the Covered Entity or the Secretary, for purposes of the Secretary determining Covered Entities' or Business Associate's compliance with the HIPAA Rules.

j) Business Associate shall implement and maintain safeguards as necessary to ensure that all Protected Health Information is Used or Disclosed only as authorized under the HIPAA Rules and this Business Associate Agreement. Business Associate agrees to assess potential risks and vulnerabilities to Protected Health Information in its possession and develop, implement and maintain the administrative, physical and technical safeguards required by the HIPAA Rules that protect the confidentiality, availability and integrity of the Protected Health Information that Business Associate creates, receives, maintains or transmits on behalf of the Covered Entity. These measures must be documented and kept current, and must include, at a minimum, those measures that fulfill the requirements outlined in the HIPAA Rules. Business Associate also agrees to implement policies and procedures that address Business Associate's compliance with applicable HIPAA Rules and its efforts to detect, prevent and mitigate the risks of identity theft resulting from the improper Use and/or Disclosure of an Individual's information.

k) In the event that Business Associate has knowledge of a Covered Entity's breach of the HIPAA Rules, Business Associate agrees to notify Covered Entity and take reasonable steps to cure such breach.

l) Business Associate acknowledges that if it violates any of the requirements provided under this Business Associate Agreement, Business Associate will be subject to the same civil and criminal penalties that a Covered Entity would be subject to if such Covered Entity violated the same requirements.

**3. <u>Permitted Uses and Disclosures by Business Associate</u>**

a) Business Associate may Use or Disclose Protected Health Information to perform functions, activities, or services for, or on behalf of, a Covered Entity as specified in the Agreement(s), provided that such Use or Disclosure would not violate the HIPAA Rules if done by the Covered Entity.

b) Business Associate may Use Protected Health Information for the proper management and administration of the Business Associate or to carry out the legal responsibilities of the Business Associate.

c) Business Associate may Disclose Protected Health Information for the proper management and administration of the Business Associate, provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and will be Used or further Disclosed only as Required by Law or for the purpose for which it was initially Disclosed to the recipient, and the recipient notifies the Business Associate of any instances of which it is aware in which the confidentiality of the information has been breached.

d) Except as otherwise permitted by the HIPAA Rules, when using or disclosing Protected Health Information or responding to a request for Protected Health Information, Business Associate must limit such Protected Health Information, to the extent practicable, to a Limited Data Set, or if more information than a Limited Data Set is required, Business Associate agrees to make Uses and Disclosures and requests for protected health information consistent with the Minimum Necessary to accomplish the intended purpose of such Use, Disclosure, or request.

e) Except as otherwise permitted by the HIPAA Rules, Business Associate agrees that it will not directly or indirectly receive remuneration in exchange for any Protected Health Information unless the Covered Entity has obtained from an Individual a valid authorization that includes a specification of whether the Protected Health Information can be further exchanged for remuneration by the entity receiving the Individual's Protected Health Information. When the Secretary issues the regulations that address the requirements of this Section and such regulations become effective, Business Associate shall comply with such regulations with respect to receiving remuneration in exchange for any Protected Health Information.

f) If an Individual requests that Business Associate restrict the Disclosure of the Individual's Protected Health Information to carry out treatment, payment, or health care operations, Business Associate agrees that it will comply with the requested restriction if, except as otherwise required by law, the Disclosure is to a health plan for purposes of carrying out payment or health care operations (and is not for purposes of carrying out treatment), and the Protected Health Information pertains solely to a health care item or service for which the health care provider involved has been paid out of pocket in full.

g) Except as otherwise limited in this Business Associate Agreement, Business Associate may Use and Disclose Protected Health Information to provide Data Aggregation services to Covered Entity as permitted by 42 C.F.R. § 164.504(e)(2)(i)(B).

**4. Obligations of Covered Entities**

a) Covered Entities shall provide Business Associate with the Notice of Privacy Practices that Covered Entities produce in accordance with 45 C.F.R. § 164.520, as well as provide any changes to such Notice and the Business Associate shall comply with such Notice of Privacy Practices.

b) Covered Entities shall provide Business Associate with any changes in, or revocation of, permission by Individual to Use or Disclose Protected Health Information, if such changes affect Business Associate's permitted or required Uses and Disclosures.

c) Covered Entities shall notify Business Associate of any restriction to the Use or Disclosure of Protected Health Information that Covered Entity has agreed to in accordance with 45 C.F.R. § 164.522.

d) Covered Entities shall not request Business Associate to Use or Disclose Protected Health Information in any manner that would not be permissible under the HIPAA Rules if done by Covered Entities.

**5. Term and Termination**

a) Term. The Term of this Business Associate Agreement shall be effective as of the Effective Date and shall terminate at to a Covered Entity when all of the Protected Health Information provided by the Covered Entity to Business Associate, or created, maintained, or received by Business Associate on behalf of the Covered Entity, is destroyed or returned to the Covered Entity, or, if it is infeasible to return or destroy Protected Health Information, protections are extended to such information, in accordance with the termination provisions in this Section.

b) Termination for Cause. Upon a Covered Entity's knowledge of a material breach of this Business Associate Agreement by Business Associate, the Covered Entity shall provide an opportunity for Business Associate to cure

the breach or end the violation. The Covered Entity shall terminate the Business Associate Agreement if Business Associate does not cure the breach or end the violation within the time specified by Covered Entity. The Covered Entity may immediately terminate the Business Associate Agreement if Business Associate has breached a material term of this Business Associate Agreement and cure is not possible, as determined by the Covered Entity in its reasonable discretion.

c) Effect of Termination.

(i) Except as provided in this subsection, upon termination of the Agreement(s) or this Business Associate Agreement, for any reason, Business Associate shall return or destroy all Protected Health Information received from Covered Entities, or created, maintained or received by Business Associate on behalf of Covered Entities that the Business Associate still maintains in any form. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of the Protected Health Information.

(ii) In the event that Business Associate determines that returning or destroying the Protected Health Information is infeasible, Business Associate shall provide to Covered Entities notification of the conditions that make return or destruction infeasible. Upon mutual agreement of the parties that return or destruction of Protected Health Information is infeasible, Business Associate shall extend the protections of this Business Associate Agreement to such Protected Health Information and limit further Uses and Disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such Protected Health Information.

(iii) The parties hereto understand and agree that the terms of this Business Associate Agreement are reasonable and necessary to protect the interests of the Covered Entities and the Business Associate. The parties further agree that the Covered Entities would suffer irreparable harm if the Business Associate breached this Business Associate Agreement. Thus, in addition to any other rights or remedies, all of which shall be deemed cumulative, the Covered Entities shall be entitled to obtain injunctive relief to enforce the terms of this Business Associate Agreement.

(iv) Survival. The obligations of Business Associate under this Section shall survive the termination of this Business Associate Agreement.

## 6. Miscellaneous

a) Interpretation. Any ambiguity in this Business Associate Agreement shall be interpreted in a manner that permits the parties to comply with the HIPAA Rules.

b) No Private Cause of Action. This Business Associate Agreement is not intended to and does not create a private cause of action by any individual, other than the parties to this Business Associate Agreement, as a result of any claim arising out of the breach of this Business Associate Agreement, the HIPAA Standards or other state or federal law or regulation relating to privacy or confidentiality.

c) Amendment. Any party shall have the right to amend this Business Associate Agreement by providing written notice to the other parties in order to bring it into compliance with any law or regulation enacted or promulgated regarding the protection of health information that is any way inconsistent with the terms of this Business Associate Agreement or interferes with the parties' obligations with respect to the protection of health information.

d) Application of State Law. Where any applicable provision of Connecticut State law relates to the privacy of health information and is not preempted by HIPAA, as determined by application of the HIPAA Rules, the parties shall comply with the applicable provisions of Connecticut State law.

e) Severability. If any provision of this Business Associate Agreement shall be declared invalid or illegal for any reason whatsoever, then notwithstanding such invalidity or illegality, the remaining terms and provisions of this Business Associate Agreement shall remain in full force and effect in the same manner as if the invalid or illegal provision had not been contained herein, and such invalid, unenforceable or illegal provision shall be valid, enforceable and legal to the maximum extent permitted by law.

f) Governing Law. This Business Associate Agreement shall be interpreted, construed and governed according to the laws of the State of Connecticut. The parties agree that venue shall lie in Federal and State courts in the State in which the Covered Entities maintain their principal places of business, without regard to conflicts of law principles, regarding any and all disputes arising from this Business Associate Agreement.

g) Notices. Any notice or other communication given pursuant to this Business Associate Agreement must be in writing and (i) delivered personally, (ii) delivered by overnight express, or (iii) sent by registered or certified mail, postage prepaid, to the addresses set forth below and shall be considered given upon delivery.

Draft 11 28 16

INDEPENDENT MONITORING PROCEDURES (per Docket Number 15-32016-486)

| OHCA Condition | IM Action |
|---|---|
| CON Condition 4: Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement ECHN's 2016 Community Health Needs Assessment ("CHNA") and for conducting the New Hospitals' next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:<br>(i) the data that will be collected and analy ed to systematically assess health status Indicators of the Service Area;<br>(ii) the identity of key community stakeholders and health organi ations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;<br>(iii) the ualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;<br>(iv) the fre uency with which the Study will be repeated;<br>(v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the community; and<br>(vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospitals. | IM will obtain a copy of the Plan, verify timely submission, verify that it incorporated the re uired elements. |
| CON Condition 5: Within three (3) years following the Closing Date, PMH shall participate with New ECHN and the New Hospitals, and the key community stakeholders and health organi ations identified pursuant to Condition 4, in conducting a Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. PMH and the participants shall utili e Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study (available at http: www.ct.gov dph lib dph state_health_planning sha- | IM will obtain a copy of the Study, verify timely submission, verify that it incorporated the re uired elements and was published on the website. |

DRAFT

| | |
|---|---|
| ship hct2020 hct2020_state_hlth_impv_032514.pdf) as well as any applicable community health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6 18 initiative (available at http: www.cdc.gov sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the Implementation Strategy on the website pages of New MMH and New RGH. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement ECHN's current CHNA for MMH and RGH. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 56-57* | |
| CON Condition 6: Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospitals for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27* | IM will obtain a copy of the Plan and verify it incorporated the re uired elements. |
| CON Condition 7: Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New MMH or New RGH specific to those services that existed at each of the Hospitals as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of the New Hospitals. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27* | IM will verify proper notification to OHCA within 10 days of any plan to reallocate inpatient beds and relocation of outpatient services. IM will assure timely publication on New Hospitals website within 10 days of decision to reallocate or relocate services. |
| CON Condition 8: Within one hundred and eighty (180) days | IM will obtain the Plan, read the plan and verify that |

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of an understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and the use of evidence-based interventions.

DRAFT

|---|---|
| following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the $75 million Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:<br><br>a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and<br><br>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and<br><br>c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill the Capital Commitment.<br><br>The reports shall be signed by PMH ECHN's Chief Financial Officer. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 38-45* | expenditures/investments made are in accordance with the Plan. IM will confirm timely submissions of all required reports. |
| CON Condition 9: For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for New ECHN, New MMH and New RGH, respectively:<br><br>a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA | IM will review the PMH filings regarding cost savings achieved in accordance with a. 1-2 and b. of Condition 9. |

DRAFT

| | |
|---|---|
| Hospital Reporting System (□HRS□) Report 175 or successor report. The semi-annual submission shall also contain narratives describing:<br><br>1. the major cost savings achieved for each expense category for the semi-annual period; and<br><br>2. the effect of these cost savings on the clinical □uality of care.<br><br>b. A consolidated Balance Sheet, Statement of Operations, and Statement of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA□s HRS Reports 100□150, 300□350 or successor reports.<br><br>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The re□uired information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63* | |
| <u>CON Condition 10:</u> For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New ECHN, New MMH and New RGH, respectively. The re□uired information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements□indicators should be addressed in the report: (i) **Operating performance** to include operating margin, non-operating margin, and total margin; (ii) **Liquidity** to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) **Leverage and capital structure** to include long-term debt to e□uity, long-term debt to capitali□ation, unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and e□uity financing ratio; and (iv) **Additional Statistics** to include income from operations, revenue over (under) expense, cash from operation, cash and cash e□uivalents, net working capital, free cash flow (and the elements used in the calculation), unrestricted net assets□retained earnings, bad debt as a percentage of gross revenue, and credit ratings. | IM will obtain the financial measurement report and read to confirm that the re□uired elements are addressed in the report; IM will confirm the timely submission of each report. |

DRAFT

| | |
|---|---|
| CON Condition 11: PMH shall ensure that New MMH and New RGH maintain and adhere to ECHN's current policies regarding charity care, indigent care and community volunteer services at New MMH and New RGH after the Closing Date all as consistent with state and federal law or adopt other policies that are at least as generous and benevolent to the community as ECHN's current policies. These policies shall be posted on the website pages of the New MMH and New RGH, respectively, and as additionally re□uired by applicable law. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | IM will obtain copies of the relevant financial assistance policies, read and confirm that as adopted financial assistance policies (or policies at least as generous as these policies) using management approval of the policies as evidence. After verifying that this step has been properly completed, IM will confirm that these policies are properly posted on website |
| CON Condition 12: For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of New MMH and New RGH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website pages of the New Hospitals simultaneously with their submission to OHCA. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | After obtaining original policies on charity care, indigent care, and community volunteer services, IM will read and assess these policies on an annual basis for changes. When changes are made to these policies, IM will confirm OHCA is notified (as re□uired) and revised policies are posted to the website. |
| CON Condition 13: PMH shall maintain community benefit programs and community building activities for New MMH and New RGH for three (3) years after the Closing Date consistent with the MMH and RGH most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as ECHN's current programs, and PMH shall apply a 1□ increase per year for the next three (3) years toward community building activities in terms of dollars spent. In determining the New MMH and New RGH participation in and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.<br>a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this condition to ensure continued access to health care services to the patient population. | IM will obtain most recent Schedule H of IRS Form 990 to act as a baseline. IM will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase re□uirement has been met.<br><br>IM will also obtain the report□summary on the amounts and uses related to community benefits and community building per the categories identified in the CHNA. IM will confirm that these documents are filed in a timely manner and posted to the website. |

DRAFT

| | |
|---|---|
| *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | |
| CON Condition 14: New MMH and New RGH agree to comply with the following general community benefit standards for at least the first three years. (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusions of other □ualified doctors; (c) the New Hospitals shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24□7 emergency departments and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); Tr., Testimony of Tom Reardon, President. PMH East on 5/3/16, pp. 103-04* | IM will verify the New Hospitals' compliance with community benefit standards a through d as stated in Condition 14. |
| CON Condition 15: New MMH and New RGH shall work toward making culturally and linguistically appropriate services available and integrated throughout their hospital operations. Specifically, New MMH and New RGH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, New MMH and New RGH shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, New MMH and New RGH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services □Office of Minority Health. For three (3) years following the Closing Date, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this condition so as to ensure continued access to health care services to the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | IM will obtain and review interpreter services policies and contracts as applicable. Additionally, IM will obtain a cultural competency plan, training, as well as related policies. IM will also obtain report and supporting documents and confirm the timely filing of these materials |
| CON Condition 16: Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who | IM and PMH will execute a Consulting Services Agreement |

DRAFT

| | |
|---|---|
| has experience in hospital administration and regulation, including maintaining quality control in a High Reliability Organization ("HRO"). The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing Date, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to New Hospitals and their applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59* | by the required date. A draft of this Agreement has been provided to OHCA. |
| CON Condition 17: The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of New Hospitals on no less than a semi-annual basis to assess PMH's modified Quality Assurance Performance Improvement ("QAPI") program, each facility's efforts to remain an HRO, and compliance with the Quality Commitment Letter. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59* | IM will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration Leadership. IM will verify compliance with the Quality Assurance commitment Letter. IM will provide a written report to OHCA, and FLIS that summaries the activities from the prior six month period along with any recommendations or observations |
| CON Condition 18: If, at any time within three (3) years following the Closing Date, the New Hospitals' Local Board agrees with PMH to change any of the Seller Quality Programs described in the Quality Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated or recommended in guidance by a governmental agency, PMH shall notify OHCA and the Health Systems Branch in writing within thirty (30) days of any such change going into | IM will verify that PMH notifies OHCA and the Health Systems Branch in writing within 30 days of any change in the Seller Quality Programs with the exceptions i through iii as stated in condition 18. |

DRAFT

| | |
|---|---|
| effect. If the Independent Monitor disagrees with the change, OHCA may re□uire that a re□uest for modification be submitted and approved as re□uired by C.G.S. □4-18la to make the change. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 30-37* | |
| CON Condition 19: For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals' activities and afforded an opportunity to ask □uestions and make comments. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30* | IM will assure that Joint Board Meetings occur twice annually followed by public meetings as re□uired in Condition 19. |
| CON Condition 20: For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30* | IM will verify the New MMH and New RGH include 2 community representatives that are voting members of the local boards. |
| CON Condition 21: PMH, New ECHN, New MMH and New RGH shall abide by all re□uirements of licensure that may be imposed by DPH's Health Systems Branch (HSB) in any Pre-Licensing Consent Order or similar agreement that HSB may enter with these parties. OHCA is imposing this condition to ensure that □uality health care services are provided to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 30-37* | IM will verify that all re□uirements of licensure are met. |

**Subject:** RE: Independent Monitor

Jennifer, we have reviewed all documents submitted and approve Colleen Smith as the Independent Monitor for the acquisitions of Prospect Medical Holdings in Connecticut. The understanding is that this office and Colleen will continue to refine and revise the draft work plan until we agree upon its finalization. We also look forward to working directly with the hospital representatives to ensure that responsibilities and obligations of the IM and hospitals are clear to everyone involved in this process.

Hi Michele,

Thank you for providing OHCA with a copy of Ms. Smith's resume. In addition to the resume, please provide us with a copy of the Independent Monitor's work plan and engagement letter between Ms. Smith's and the Applicants.

Our office would like to schedule a conference call with you soon, possible next week, to discuss Ms. Smith's qualifications, work plan and engagement letter.

Please contact Ms. Barbara Olejarz at (860)418-7005 or via email at Barbabra.Olejarz@ct.gov to schedule the call.

Thank you,
Carmen

Hi Michele,

## CONSULTING SERVICES AGREEMENT

This Consulting Services Agreement (this "Agreement") is made and entered into to as of the _____ day of November, 2016 (the "Effective Date"), by and among Prospect ECHN, Inc., a Connecticut corporation ('Prospect ECHN"), Prospect Waterbury, Inc., a Connecticut corporation ("Prospect Waterbury") and Colleen Smith, MSN, RN, NEA-BC ("Consultant").

## RECITALS

A. Prospect ECHN has acquired certain healthcare facilities in Connecticut including The Rockville General Hospital Incorporated and Manchester Memorial Hospital (collectively, the "ECHN Facilities").

B. Prospect Waterbury has acquired certain healthcare facilities in Connecticut including The Waterbury Hospital (collectively, the "GWHN Facilities").

C. The State of Connecticut, Department of Public Health, Facility and Licensing Investigations Section ("FLIS") has required pursuant to a Pre-Licensure Consent Order, copies of which are attached as Exhibit A ("Order") that Prospect ECHN and Prospect Waterbury (each a "Licensee" and collectively, the "Licensees") execute a contract with an Independent Monitor ("IM") pre-approved in writing by the Department of Public Health, Office of Healthcare Access ("OHCA") and FLIS pursuant to which the IM will monitor the ECHN Facilities and the GWHN Facilities (each a "Facility" and collectively with any other Facilities subject to the Order, the "Facilities") in compliance with the Order.

D. Consultant desires to perform the services of the IM described in the Order and the Licensees desire to engage Consultant to perform such services, subject to the terms and conditions of this Agreement and in full compliance with the Order.

In consideration of the mutual covenants contained herein, the parties hereto hereby agree as follows:

1. Scope of Services. Consultant will provide the services of the IM as described in the Order and otherwise comply with the Order (collectively, the "Services"). The Licensees shall cooperate with Consultant and provide access to the Facilities, and management and other representatives of the Facilities in order to enable the IM and the Licensees to fully comply with applicable provisions of the Order.

2. Independent Contractor. Consultant and the Licensees acknowledge and agree that Consultant shall provide services as an independent contractor. Consultant and Licensees acknowledge and agree that no employment relationship, partnership, or joint venture shall be formed due to the performance of this Agreement. This Agreement does not make Consultant the agent or legal representative of Licensees, and Consultant further agrees that no representation will be made by Consultant that would create an apparent agency, employment, partnership, or joint venture relationship. Consultant acknowledges that he is solely responsible for the taxes on his own income and that, as an independent contractor, his payments will be reported on an IRS Form 1099. In addition,

Consultant will provide his own insurance, as necessary, and will not be covered under any Licensee's insurance policy or benefits program.

3. Method of Performing Services. Consultant will determine the method, details, and means of performing the services required by this Agreement.

4. Time and Place of Performing Work. Consultant may perform the Services under this Agreement at any suitable time and location Consultant chooses. Such services will be performed outside the usual course of the Licensees' business although Consultant may, from time to time, as Consultant deems necessary, perform services under this Agreement at the Facilities. Consultant shall observe all safety rules, policies and procedures applicable to visitors and vendors at each facility when on site at the Facilities, including requirements for flu and other vaccinations, if requested.

5. Payment. Consultant shall be paid an hourly rate of $_____ per hour for all Services. Compensation to be paid to IM under this Agreement under no circumstances shall exceed $300,000 in accordance with the Order. Consultant shall be responsible for all taxes attributable to the compensation paid to him under this Agreement. Consultant shall be entitled to no other payment, remuneration, or benefits other than the compensation described in this Agreement. Because Consultant is an independent contractor, the Licensees will not deduct any amounts from Consultant's payments for income tax or other employment-related withholdings.

6. Billing. Consultant shall provide each Licensee with an invoice on a monthly basis providing a general description of the Services performed and number of hours billed for the Services provided to each Licensee. The invoice shall also list any expenses reasonably incurred by Consultant as part of his consulting services, for which he seeks reimbursement, except that Consultant must obtain prior consent before incurring any expense in excess of $250. Each Licensee's payment of Consultant's invoice is due within thirty (30) days of receipt.

7. Term; Termination. This Agreement will begin on the Effective Date and shall continue for a period of two years in accordance with the Order. This Agreement may not be terminated by either party or by mutual consent unless such termination is approved by OHCA and FLIS. The term may be extended at the direction of FLIS for up to (1) additional year, for an overall total of three (3) years, provided that the compensation cap set forth in paragraph 5 shall include any such extended term.

8. Representations. Consultant warrants that all information provided by Consultant to Licensees is true to the best of Consultant's actual knowledge. Consultant further warrants that he is not restricted by, and has no conflict of interest derived from any other agreement and has no other interest or obligation that would interfere with his performing work as described in this Agreement, and that he shall inform Licensees immediately should such a limitation or conflict arise. Consultant further warrants that the services of Consultant will be provided utilizing reasonable care and skill in accordance with customary industry standards. Consultant represents he/she has expertise in hospital administration and operations, knowledge of the healthcare environment with a special focus on quality assurance and performance improvement, and considerable knowledge of accepted standards of practice and state and federal laws

and regulations applicable to general/acute care hospitals. Consultant represents and warrants that he/she has not been convicted of a criminal offense related to healthcare, debarred, suspended, declared ineligible, or excluded from participating with Medicare, Medicaid or any other plan or program that provides health benefits, whether directly through insurance or otherwise, which is funded directly, in whole or in part, by the United States Government or any State health care program. This shall be an ongoing representation and warranty during the term of this Agreement. Consultant shall immediately notify Licensees of any change in the status of the representations set forth in this section.

9. Adherence to Health Laws. Consultant acknowledges that Licensees receive federal funds and that Contractor will receive payments under this Agreement that are, in whole or in part, from federal funds. Consultant shall follow and adhere to all applicable state and federal laws, rules, and regulations, including, but not limited to, all Medicare laws, regulations and CMS instructions, including, without limitations, (a) federal criminal law; (b) the False Claims Act (31 USC 3729 et seq.); and (c) the anti-kickback statute (42 USC 1320a-7b(b)); (d) the civil monetary penalties law (42 USC 1320a-7a); (e) the physician self-referral law (42 USC 1395nn).

10. Corporate Compliance. Contractor acknowledges that Licensees maintain Corporate Compliance Plans ("CCPs") that foster prevention, detection and resolution of instances of misconduct. Vendor shall cooperate with Licensees' corporate compliance audits, reviews and investigations that relate to the services provided by Contractor under this Agreement. Contractor agrees to immediately notify Licensees' Compliance Officers of any violation of any applicable law, regulation, third party payor requirements or breach of Licenses' CCPs of which Contractor becomes aware during the term hereof.

11. Insurance. Consultant shall, at his/her sole cost and expense, maintain at all times during the term of this Agreement, general liability ("GL") and errors and omissions ("E&O") insurance covering his/her provision of the Services in minimum amounts of One Million Dollars ($1,000,000) per occurrence, Three Million Dollars ($3,000,000) in the aggregate annually, as well as an umbrella/excess liability insurance policy written on an occurrence basis and in an amount of not less than Three Million Dollars ($3,000,000) in the annual aggregate, excess of the limits of his/her GL and E&O policies (collectively, the "Policies"). Said Policies shall be obtained from an insurer licensed or authorized to do business in Connecticut, with an A.M. Best's Insurance Rating of A- or better. Licensees and their officers, directors, agents, employees, and volunteers (the "Licensee Parties") shall be named as additional insureds to all such Policies, and said Policies shall provide that they are primary to and noncontributory with any and all other insurance maintained by or otherwise afforded to the Licensee Parties. Upon a Licensee's request, Consultant shall provide a current certificate of insurance to Licensee evidencing such coverage and shall require its insurance carrier to notify Licensee immediately of any actual or intended change, cancellation, modification or non-renewal of such coverage. The obligations set forth herein shall survive the expiration or termination of this Agreement.

12. No Assignment or Subcontracting. Consultant shall not assign or otherwise transfer his rights in this Agreement without the prior written consent of the Licensees and the approval of OHCA and FLIS. Consultant may not subcontract the consulting services to any other consultant without the prior written consent of the Licensees and the approval of OHCA and FLIS.

13. Non-exclusivity. Consultant may represent, perform services for, and contract with as many additional clients, persons, or companies as Consultant, in Consultant's sole discretion, sees fit. Consultant shall not, however, perform services for any other entity where such services would create a conflict of interest with the services performed under this Agreement for Licensees.

14. Non-Solicitation. Consultant agrees that during the term of this Agreement, and for a period of two (2) years after the termination of this Agreement, Consultant shall not solicit, either directly or indirectly, any employee, customer, contractor, vendor, business contact, or consultant to leave Licensees.

15. Trade Secrets, Confidential Information.

(A) For purposes of this Agreement, the term "Confidential Information" means any information relating to Licensees (including any of their subsidiaries, shareholders or other affiliates) disclosed to Consultant, whether orally, in writing, or in any other medium, whether prior to or after the Effective Date of this Agreement, by or on behalf of Licensees, including, without limitation, information regarding Licensees assets, real estate holdings, historical and projected financial information; budgets; services; processes; operations; marketing plans and materials; analyses; strategies; forecasts; names, addresses and any other information regarding Licensees' existing or potential patients, employees, vendors or suppliers; or any information derived, summarized or extracted from any of the foregoing.

(B) Confidential Information shall not include any information which (i) is or becomes available to the public other than as a consequence of a breach of this Agreement; (ii) was available to Consultant on a non-confidential basis prior to its disclosure to Consultant by Licensees; (iii) becomes available to Consultant from a source other than Licensees, provided such source is not actually known by Consultant to be bound by a confidentiality obligation to Licensees; or (iv) is required to be disclosed by Consultant or any of its Representatives (as defined below) under the Order or applicable law or regulation.

(C) Consultant hereby agrees to hold in strict confidence all Confidential Information and agrees not to disclose or otherwise provide or transfer, directly or indirectly, any Confidential Information or anything related to the Confidential Information to third parties, including, but not limited to, Consultant's affiliates, without the prior written consent of Licensees. Consultant further agrees that he may use the Confidential Information only in connection with the work he will perform for Licensees and to comply with the Order and not for any other purpose or for the benefit of any third party.

(D) Consultant shall not disclose to any third party, except where permitted or required by the Order or by law or where such disclosure is expressly approved by Licensees in writing, any patient or medical record information regarding any of the Licensee's patients, and Consultant shall comply with all federal and state laws and regulations, and all bylaws, rules, regulations, and policies of Licensees, its accrediting agency and the medical staff, regarding the confidentiality of such information. Consultant acknowledges that in receiving or otherwise dealing with any records or information from Licensees about (i) Licensees' patients receiving treatment for alcohol or drug abuse, Consultant is fully bound by the provisions of the federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records (42 C.F.R. Part 2, as amended from time to time), and/or (ii) Licensees' peer review activities, Consultant is fully bound to maintain the confidentially of such information in accordance with C.G.A.§ 19a-17b(d) . In addition, Consultant shall comply in all respect with HIPAA and the HITECH Act 42 U.S.C. §§300jj et seq.; §§17901 et seq., and shall execute and deliver to Licensees the Business Associate Agreement attached as Exhibit B.

(E) Consultant understands that in the event he fails to comply with paragraph 13 or this paragraph 14, Licensees may suffer irreparable harm, which may not be adequately compensated for by monetary damages alone. Consultant, therefore, agrees that in the event of his breach or threatened breach of paragraph 13 or this paragraph 14, Licensees will be entitled to injunctive and/or other preliminary or equitable relief from a court of law. Consultant understands that this is the sole exception to the binding arbitration of disputes between the parties in accordance with paragraph 20 below.

16. Return of Property and Confidential Information. Consultant agrees that, upon termination of this Agreement, he will promptly return to Licensees all items, documents and materials that are in Consultant's possession or control that were provided to Consultant by Licensees. Consultant further agrees that he will promptly return to Licensees or destroy all written Confidential Information received by Consultant from or on behalf of Licensees, including any and all copies or duplicates of such Confidential Information, and all summaries or extracts thereof in any medium prepared by or on behalf of Consultant. Any destruction of Confidential Information shall be confirmed in writing.

17. Notices. Any required notice under this Agreement shall be deemed made on the date it is personally delivered or, if made by U.S. Mail, Federal Express or similar parcel service, three (3) days after the date it is sent. Notices under this Agreement shall be sent to the following:

If to Consultant:
Colleen Smith, MSN, RN, NEA-BC
41 Laurel Crest Road
Madison, CT 06443

If to Licensees:

Prospect ECHN, Inc.
71 Haynes Street
Manchester, CT 06040
Attention: Chief Executive Officer

Prospect Waterbury, Inc.
64 Robbins Street
Waterbury, CT 06708
Attention: Chief Executive Officer

With a copy to:

Prospect Medical Holdings, Inc.
3415 South Sepulveda Blvd., 9th Floor
Los Angeles, CA 90034
Attention: General Counsel

18. Modifications. No Modification or amendment may be made to this Agreement unless it is in writing and signed by Consultant and an authorized officer of Licensees.

19. Entire Agreement. Consultant and Licensees acknowledge and agree that this Agreement which includes Exhibits A and B contains the entire understanding between the parties and that this Agreement replaces and supersedes any other agreement, including any written, oral or implied agreement, regarding the subject matter contained in this Agreement.

20. Arbitration. Any dispute between the parties arising out of this Agreement, including without limitation threshold or jurisdictional issues, such issues of arbitrability on the enforceability of this Agreement, shall be resolved by binding arbitration, pursuant to the commercial dispute rules of the Judicial Arbitration and Mediation Services ("JAMS"). The arbitration shall take place before a single arbitrator. The prevailing party to the arbitration shall be entitled to recover its attorney's fees and costs, including the JAMS arbitration fees. The arbitrator shall be entitled to award any relief or remedy under law, including monetary damages and injunctive relief. Despite this provision, if Consultant breaches paragraph 13 or paragraph 14 of this Agreement, Licensees may seek injunctive relief from a court of law to remedy such a breach.

21. Severability. If any part, clause, or condition of this Agreement is held to be partially or wholly invalid, unenforceable, or inoperative for any reason whatsoever, such will not affect any other provision or portion hereof, which will continue to be effective as though such invalid, inoperative, or unenforceable part, clause or condition had not been made.

22. Binding Upon Successors. This Agreement will be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns.

23. Governing Law and Venue. All questions concerning this Agreement, its construction, and the rights and liabilities of the parties hereto will be interpreted and enforced in accordance with the laws of the State of Connecticut as applied to contracts which are executed and performed entirely within the state.

Consultant and Licensees represent that they have read and understand the terms of this Agreement, that they have had the opportunity to review this Agreement with the counsel of their choice, and that they are not relying on any advice from the other party regarding this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement to be effective as of the Effective Date.

In Re: Prospect Manchester Hospital, Inc.
d/b/a The Manchester Memorial Hospital
71 Haynes Street
Manchester, CT 06040

Intended Licensee: Prospect Manchester Hospital, Inc.
d/b/a Manchester Memorial Hospital
Referred to herein as the "Intended Licensee"

## PRE-LICENSURE CONSENT ORDER

WHEREAS, Prospect Medical Holdings, Inc. ("Prospect") has obtained certain regulatory approvals to acquire, through one or more subsidiaries, various licensed facilities or operations currently affiliated with Eastern Connecticut Health Network, Inc., including: Manchester Memorial Hospital and Rockville General Hospital ("ECHN Facilities"); and,

WHEREAS, Prospect is seeking to also acquire, through one or more subsidiaries, certain licensed facilities or operations currently affiliated with the Greater Waterbury Health Network, Inc., including the Waterbury Hospital ("GWHN Facilities" and together with the ECHN Facilities referred to as the "Prospect CT Group"); and,

WHEREAS, the Intended Licensee, a subsidiary of Prospect is seeking an initial license to operate a general hospital as defined in Conn. Gen. Stat. § 19a-490(b); and,

WHEREAS, upon the execution of this Pre-Licensure Consent Order ("Order") and after meeting all statutory and regulatory requirements, the Intended Licensee shall be issued a license to operate a General Hospital currently known as Manchester Memorial Hospital ("Facility") by the Connecticut Department of Public Health ("Department").

NOW THEREFORE, the Facility Licensing and Investigations Section of the Department ("FLIS") acting herein and through Barbara Cass, Section Chief, and the Intended Licensee and Prospect hereby stipulate and agree as follows:

1. The Order issued by the Department of Public Health, Office of Health Care Access ("OHCA") dated June 10, 2016 ("OHCA Order") shall be incorporated and made part of this Order.
2. This Order shall remain in effect for three (3) years from the effective date of this Order. The effective date of the Order is October 1, 2016. The issuance of the License shall occur when the Department receives proof, to its satisfaction, that the closing regarding the ECHN Facilities will occur within forty-eight hours of the issuance of the license provided all legal requirements for licensure have been met.
3. During the term of this Order, should the Intended Licensee implement any new patient care services, it shall do so in accordance with Connecticut General Statutes sections 19a-638 through 19a-639b. In addition, for one year after the effective date of this Order, the Intended Licensee and any beneficial owner of the Intended Licensee shall notify the Department of its intent to acquire an ownership interest in another general hospital in Connecticut (other than Rockville General Hospital or Waterbury Hospital) or any other state.
4. Within sixty (60) days of the effective date of this Order, Prospect or a subsidiary shall, on behalf of the Intended Licensee, execute a contract with an Independent Monitor ("IM") pre-approved in writing by the FLIS and OHCA. The duties of the IM shall be performed by a single individual unless otherwise approved by the Department. Prospect or its subsidiary shall pay the cost of the IM and all other costs necessary to comply with this Order. The IM shall be contracted to monitor other facilities within the Prospect CT Group as required by the Department. The aggregate cost of the IM to monitor all such facilities under all FLIS and OCHA orders entered into in connection with the licensure of the Prospect CT Group shall not exceed $300,000. The IM shall function in accordance with the IM Guidelines except to the extent there is any conflict between this Order and the Guidelines, the Order shall govern. (Exhibit A, copy attached). The IM shall have expertise in hospital administration and operations,

knowledge of the healthcare environment with a special focus on quality assurance and performance improvement, and considerable knowledge of accepted standards of practice and state and federal laws and regulations applicable to general/acute care hospitals.

5. The IM shall provide services as outlined herein for two (2) years. If the Department determines during the last six months of the first two years of the IM's tenure or within three months after the two year period that the Facility is not in compliance with applicable accepted standards of practice and federal and state statutes and regulations, the services of the IM shall be extended at the direction of the Department for up to one (1) additional year, for an overall total of three (3) years. The Department shall base any decision regarding the extension of time for IM services upon onsite inspections conducted by the Department and based on all other information the Department deems relevant. The terms of the contract executed on behalf of the Intended Licensee with the IM shall include all pertinent provisions, including time frames contained in this Order.

6. In addition to any other remedies available to the Department, noncompliance with any of the provisions of this Order or the OHCA Order, including failure to pay costs associated with the IM's duties shall constitute a violation of this Order and may result in a fine not to exceed one thousand dollars per day.

7. The IM shall conduct an initial assessment of the Intended Licensee's regulatory compliance which identifies areas requiring remediation. The IM shall report any regulatory or statutory violations identified in the initial assessment to FLIS, OHCA and the Intended Licensee. Such assessment shall, at a minimum, include onsite reviews of hospital systems and direct observations of the Facility staffs' performance as further specified in paragraphs eight (8) and nine (9) of the Order.

8. The IM onsite review shall include, but not be limited to, the following professional and hospital services and systems listed below, and the IM shall make recommendations for improvements, when applicable:

   a. Nursing Services;

   b. Infection Control;

   c. Pharmacy;

d. Surgical Services;
e. Emergency Department;
f. Psychiatric Services;
g. Medical Staff;
h. Patient Rights;
i. Medical Services;
j. Medical Records,
k. Quality Assurance and Performance Improvement; and,
l. Facility's professional credentialing process and assessment process for evaluating competency and remediation/monitoring mechanisms.

9. The initial onsite review by the IM shall be scheduled within thirty (30) days of the execution of the contract with the IM and shall include all satellite locations listed on the Facility's license.

10. The IM shall confer with the Intended Licensee's Chief Executive Officer, Chief Medical Officer, Chief Nursing Officer, Vice President of Quality and Safety and other staff determined by the IM to be necessary to the assessment of care and services and the Intended Licensee's compliance with accepted standards of practice and applicable federal and state statutes and regulations.

11. The IM shall have thirty (30) days after the completion of the initial onsite review, to develop a report(s) regarding the Intended Licensee's compliance with applicable state and federal statutes and regulations and provide copies to the Intended Licensee's governing authority, and the Department, including representatives of the FLIS and the OHCA. No party shall be provided with the opportunity to review the report(s) prior to release, and all parties shall receive copies of the documents simultaneously. The report(s) shall identify methods utilized for the analysis, areas reviewed and process, findings and recommendations. IM recommendations shall include, as applicable, areas that need to be addressed, continuing onsite consulting initiatives, and any quality of care issues that require remediation.

12. The IM shall make recommendations to the Intended Licensee's governing authority, Chief Executive Officer, Chief Medical Officer, Vice President of Quality and Safety, the East Regional Vice President of Quality and Patient Safety, the Chief Quality

Officer and Chief Nursing Officer, consistent with accepted standards of practice, for improvement in the delivery of direct patient care in the Facility and compliance with regulatory requirements. If the IM and the Intended Licensee are unable to reach an agreement regarding the IM's recommendation(s), the Department, after meeting with the Intended Licensee and the IM, shall make a final determination, which shall be binding on the Intended Licensee.

13. Upon approval by the Department of the recommendations by the IM, the Intended Licensee shall provide the Department with a proposed timeframe for implementation of the IM recommendations, within twenty-one (21) days of receipt of the report(s). The timeframes shall be subject to approval by the Department and shall become operative upon the Department's approval. All recommendations shall be implemented in accordance with the Department's approved timeframe.

14. The IM shall assess the function, the duties, responsibilities and level of engagement of the Prospect Eastern Regional Quality and Patient Safety Steering Council ("Council") and the Facility's Quality Assurance and Performance Improvement Committee ("Committee") and shall determine their ability to monitor implementation of any recommendations provided. This assessment will be provided to the Intended Licensee's governing authority and to FLIS and OHCA.

15. The IM shall re-evaluate the Facility, within six (6) months following the completion of the initial Facility evaluation and semi-annually thereafter throughout the tenure of the IM's engagement. The re-evaluation shall determine the Licensee's ability to implement and maintain quality of care and services, implementation of recommendations previously made by the IM and compliance with regulatory requirements. Upon conclusion of said reviews, the IM shall provide Prospect, the Intended Licensee and the Department, including representatives of FLIS and OHCA, with a comprehensive report of said assessments.

16. The IM shall act and perform the duties assigned herein at all times to serve the interest of the Department in assuring the safety, welfare and well-being of patients and to secure compliance with applicable federal and state law and regulations and shall not accept any direction or suggestion from Prospect, the Intended Licensee or its employees that will deter or interfere in fulfilling this obligation.

17. Within one hundred eighty (180) days of the effective date of this Order, Prospect, shall:

    a. Collaborate with Facility leadership in identifying initiatives aimed at improving patient care quality and safety;
    b. Collaborate with Facility leadership to build quality, efficiency, effectiveness, and a shared accountability systems model of care;
    c. Collaborate with Facility leadership to ensure ongoing compliance with state and federal laws and regulations;
    d. Collaborate with Facility leadership to strengthen the data and information capabilities of the Facility to ensure quality and data driven quality measures; and,
    e. Collaborate with Facility leadership to ensure sustainment of quality assurance and performance activities, to include but not be limited to, activities that promote a high reliability organization.

18. The Corporate Chief Quality Officer, Regional Vice President of Quality, Chief Executive Officer, Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety and/or their designees shall meet with the Department quarterly for the first six (6) months after the effective date of this Order and thereafter once every six (6) months throughout the tenure of the IM. The meetings shall include discussions of issues related to the care and services provided by the Intended Licensee's compliance with accepted standards of practice and applicable federal and state statutes and regulations. After the first meeting, all subsequent meetings may be attended via teleconference except that no out-of-state participant is required to attend any of the meetings in person.

19. Any records maintained in accordance with any state or federal law or regulation or as required by this Order shall be made available to the IM and the Department, upon request. The IM may attend quality assurance and/or peer review committee meetings and utilize information from such meetings and records for making recommendations or reports. Except where mandated by law or to report illegal conduct to the Department, the IM shall not identify the individual providers subject to peer review. Except for such disclosures to the IM, any rights of the Intended Licensee or any

affiliate to claim and exert privilege to quality assurance or peer review documents under state and/or federal law are preserved and not limited or waived by this Order.

20. A Quality Assurance Performance Improvement Program shall be maintained by the Intended Licensee and monitored by the Committee, consist of, at least, the Intended Licensee' s Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety. The Committee shall focus its activities utilizing a structure, process and outcome model. The Committee shall meet at least once every sixty (60) days and as needed to review all reports or complaints relating to patient care and compliance with accepted standards of practice and federal state laws and regulations. During the tenure of the IM, the IM shall have the right to attend and participate in all Committee meetings and to evaluate and report on the design of the quality assurance programs implemented by the Committee. The activities of the Committee shall include, but not be limited to, compliance with this Order and the IM recommendations, determination and adoption of new policies to be implemented by the Intended Licensee's staff to improve patient care practices; provided that all policies shall be subject to review and approval by the Facility's governing authority, the Local Board and as appropriate, Prospect, consistent with the terms of that certain Quality Assurance Commitment Side Letter dated March 28, 2016 by and between Prospect and Eastern Connecticut Health Network, Inc., as amended to the date hereof ("Quality Letter"). In addition, this Committee shall review and revise, as applicable infection control policies and procedures and monitor their implementation. The Committee shall measure and track the implementation of any changes in the Intended Licensee's policies, procedures. and allocation of resources recommended by the Committee to determine compliance with and effectiveness of such changes. A record of Committee meetings and subject matter discussed will be documented and available for review by the Department. Minutes of all such meetings shall be maintained at the Facility for a minimum period of three (3) years.

21. During the term of this Order the Intended Licensee shall notify the Department within five (5) business days, if any of the following positions become vacant (if such positions exist, in name or in responsibilities, at the Facility):

    a. Corporate Chief Quality Officer;

b. Regional Vice President of Quality;
c. Director of Survey Readiness Team;
d. Chief Executive Officer;
e. Chief Medical Officer
f. Chief Nursing Officer;
g. Vice President of Quality and Patient Safety; and,
h. Vice President of Patient Care Services.

22. Within five (5) business days of the effective date of this Order, the Intended Licensee, shall provide the names and resumes of the proposed Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety.

23. The Intended Licensee within five (5) business days of the execution of this Order, shall designate an individual to be responsible for all notices and correspondence pursuant to this Order. The name, mailing address, email address and phone number of the designated individual shall be provided to the Department within said timeframe. The Intended Licensee may provide for a substitute or alternate individual with two (2) business days written notice to the Department.

24. Any reports required by this document shall be directed to:

Susan Newton, R.N., B.S.
Supervising Nurse Consultant
Facility Licensing and Investigations Section
Department of Public Health
410 Capitol Avenue, P.O. Box 340308, MS #12 HSR
Hartford, CT 06134-0308

25. All parties agree that this Order is an Order of the Department with all of the rights and obligations pertaining thereto and attendant thereon. The Intended Licensee agrees that the compliance with all of the terms and conditions of this Order is part of the responsibility of the Intended Licensee's governing authority as set forth in Public Health Code section 19-13-D68(b)(4). The Intended Licensee further agrees that failure to comply with any of the terms and conditions of this Order shall constitute grounds for disciplinary action pursuant to Section 19a-494 of the Connecticut General Statutes Nothing herein shall be construed as limiting the Department's other available legal remedies against the Intended Licensee for violations of this Order or of any other

statutory or regulatory requirements, which may be sought in lieu of or in addition to the methods of relief listed above, or any other administrative and judicial relief provided by law.

26. The execution of this Order has no bearing on any criminal liability without the written consent of the Director of the MFCU or the Bureau Chief of the Department of Criminal Justice's Statewide Prosecution Bureau.

27. The Intended Licensee agrees that this Pre-Licensure Consent Order and the terms set forth herein are not subject to reconsideration, collateral attack or judicial review under any form or in any forum including any right to review under the Uniform Administrative Procedure Act, Chapter 368a of the Statutes, Regulations that exists at the time the Order is executed or may become available in the future, provided that this stipulation shall not deprive the Intended Licensee and its affiliate entities of any other rights that it may have under the laws of the State of Connecticut or of the United States.

28. Each of the hospitals acquired by Intended Licensee shall provide to the Department a plan of correction within forty-five (45) days of receiving a physical plant inspection report from the Department.

29. The Intended Licensee has consulted with its attorney prior to the execution of this Order.

WITNESS WHEREOF, the parties hereto have caused this Pre-Licensure Consent Order to be executed by their respective officers and officials. The undersigned signatories represent and warrant that they are authorized to execute this Pre-Licensure Consent Order on behalf of the party they represent.

**FLIS' Independent Monitor Guidelines**
**For Intended Licensee Prospect Manchester Hospital**

Relationship between Independent Monitor (IM) and DPH includes:

- An IM is utilized as a component of DPH's regulatory remedy process. An IM may be agreed upon as a part of a Consent Order between the institution and the Department when significant care and services issues are identified, or when, in connection with a change of ownership, an acquirer is new to the State and has experienced previous compliance issues in another state.
- The IM has a fiduciary or special relationship of trust, confidence and responsibility with the Department.
- The IM's responsibilities include:
  - Reporting to the Department regarding the Facility's compliance with federal and state law and regulation.
  - Monitoring the institution's plan of correction to rectify deficiencies and violations of federal/state laws and regulations. Reports to Department positive and negative issues related to said oversight.
  - Reporting in accordance with the Consent Agreement/Order to the Department of issues identified, plans to address noncompliance and remediation efforts of the institution.

Relationship between IM and the Institution:

- The IM maintains a professional and objective relationship with the institutional staff. The IM is a consultant, not an employee of the institution. The IM exercises independent judgment and initiative to determine how to fully address and complete her/his responsibilities. The institution does not direct or supervise the IM but must cooperate with and respond to requests of the IM related to fulfilling her/his duties.
- The IM's responsibilities, consistent with the terms of the Consent Order, include:
  - Assessment of institution's compliance with recognized standards of practice federal/state laws and regulations.
  - Monitoring of care/services being provided.
  - Assists staff with plans of action to enhance care and services within the institution.
  - Reports in accordance with the Consent Order to the institution re: assessments, issues identified, and monitoring of plans of correction.

In Re: Prospect Rockville Hospital, Inc.
d/b/a Rockville General Hospital
31 Union Street
Vernon, CT 06066

Intended Licensee: Prospect Rockville Hospital, Inc.
d/b/a Rockville General Hospital
Referred to herein as the "Intended Licensee"

## PRE-LICENSURE CONSENT ORDER

WHEREAS, Prospect Medical Holdings, Inc. ("Prospect") has obtained certain regulatory approvals to acquire, through one or more subsidiaries, various licensed facilities or operations currently affiliated with Eastern Connecticut Health Network, Inc., including: Manchester Memorial Hospital and Rockville General Hospital ("ECHN Facilities"); and,

WHEREAS, Prospect is seeking to also acquire, through one or more subsidiaries, certain licensed facilities or operations currently affiliated with the Greater Waterbury Health Network, Inc., including the Waterbury Hospital ("GWHN Facilities" and together with the ECHN Facilities referred to as the "Prospect CT Group"); and,

WHEREAS, the Intended Licensee, a subsidiary of Prospect is seeking an initial license to operate a general hospital as defined in Conn. Gen. Stat. § 19a-490(b); and,

WHEREAS, upon the execution of this Pre-Licensure Consent Order ("Order") and after meeting all statutory and regulatory requirements, the Intended Licensee shall be issued a license to operate a General Hospital currently known as Rockville General Hospital ("Facility") by the Connecticut Department of Public Health ("Department").

NOW THEREFORE, the Facility Licensing and Investigations Section of the Department ("FLIS") acting herein and through Barbara Cass, Section Chief, and the Intended Licensee and Prospect hereby stipulate and agree as follows:

1. The Order issued by the Department of Public Health, Office of Health Care Access ("OHCA") dated June 10, 2016 ("OHCA Order") shall be incorporated and made part of this Order.
2. This Order shall remain in effect for three (3) years from the effective date of this Order. The effective date of the Order is October 1, 2016. The issuance of the License shall occur when the Department receives proof, to its satisfaction, that the closing regarding the ECHN Facilities will occur within forty-eight hours of the issuance of the license provided all legal requirements for licensure have been met.
3. During the term of this Order, should the Intended Licensee implement any new patient care services, it shall do so in accordance with Connecticut General Statutes sections 19a-638 through 19a-639b. In addition, for one year after the effective date of this Order, the Intended Licensee and any beneficial owner of the Intended Licensee shall notify the Department of its intent to acquire an ownership interest in another general hospital in Connecticut (other than Rockville General Hospital or Waterbury Hospital) or any other state.
4. Within sixty (60) days of the effective date of this Order, Prospect or a subsidiary shall, on behalf of the Intended Licensee, execute a contract with an Independent Monitor ("IM") pre-approved in writing by the FLIS and OHCA. The duties of the IM shall be performed by a single individual unless otherwise approved by the Department. Prospect or its subsidiary shall pay the cost of the IM and all other costs necessary to comply with this Order. The IM shall be contracted to monitor other facilities within the Prospect CT Group as required by the Department. The aggregate cost of the IM to monitor all such facilities under all FLIS and OCHA orders entered into in connection with the licensure of the Prospect CT Group shall not exceed $300,000. The IM shall function in accordance with the IM Guidelines except to the extent there is any conflict between this Order and the Guidelines, the Order shall govern. (Exhibit A, copy attached). The IM shall have expertise in hospital administration and operations,

knowledge of the healthcare environment with a special focus on quality assurance and performance improvement, and considerable knowledge of accepted standards of practice and state and federal laws and regulations applicable to general/acute care hospitals.

5. The IM shall provide services as outlined herein for two (2) years. If the Department determines during the last six months of the first two years of the IM's tenure or within three months after the two year period that the Facility is not in compliance with applicable accepted standards of practice and federal and state statutes and regulations, the services of the IM shall be extended at the direction of the Department for up to one (1) additional year, for an overall total of three (3) years. The Department shall base any decision regarding the extension of time for IM services upon onsite inspections conducted by the Department and based on all other information the Department deems relevant. The terms of the contract executed on behalf of the Intended Licensee with the IM shall include all pertinent provisions, including time frames contained in this Order.

6. In addition to any other remedies available to the Department, noncompliance with any of the provisions of this Order or the OHCA Order, including failure to pay costs associated with the IM's duties shall constitute a violation of this Order and may result in a fine not to exceed one thousand dollars per day.

7. The IM shall conduct an initial assessment of the Intended Licensee's regulatory compliance which identifies areas requiring remediation. The IM shall report any regulatory or statutory violations identified in the initial assessment to FLIS, OHCA and the Intended Licensee. Such assessment shall, at a minimum, include onsite reviews of hospital systems and direct observations of the Facility staffs' performance as further specified in paragraphs eight (8) and nine (9) of the Order.

8. The IM onsite review shall include, but not be limited to, the following professional and hospital services and systems listed below, and the IM shall make recommendations for improvements, when applicable:

   a. Nursing Services;

   b. Infection Control;

   c. Pharmacy;

d. Surgical Services;
e. Emergency Department;
f. Psychiatric Services;
g. Medical Staff;
h. Patient Rights;
i. Medical Services;
j. Medical Records,
k. Quality Assurance and Performance Improvement; and,
l. Facility's professional credentialing process and assessment process for evaluating competency and remediation/monitoring mechanisms.

9. The initial onsite review by the IM shall be scheduled within thirty (30) days of the execution of the contract with the IM and shall include all satellite locations listed on the Facility's license.

10. The IM shall confer with the Intended Licensee's Chief Executive Officer, Chief Medical Officer, Chief Nursing Officer, Vice President of Quality and Safety and other staff determined by the IM to be necessary to the assessment of care and services and the Intended Licensee's compliance with accepted standards of practice and applicable federal and state statutes and regulations.

11. The IM shall have thirty (30) days after the completion of the initial onsite review, to develop a report(s) regarding the Intended Licensee's compliance with applicable state and federal statutes and regulations and provide copies to the Intended Licensee's governing authority, and the Department, including representatives of the FLIS and the OHCA. No party shall be provided with the opportunity to review the report(s) prior to release, and all parties shall receive copies of the documents simultaneously. The report(s) shall identify methods utilized for the analysis, areas reviewed and process, findings and recommendations. IM recommendations shall include, as applicable, areas that need to be addressed, continuing onsite consulting initiatives, and any quality of care issues that require remediation.

12. The IM shall make recommendations to the Intended Licensee's governing authority, Chief Executive Officer, Chief Medical Officer, Vice President of Quality and Safety, the East Regional Vice President of Quality and Patient Safety, the Chief Quality

Officer and Chief Nursing Officer, consistent with accepted standards of practice, for improvement in the delivery of direct patient care in the Facility and compliance with regulatory requirements. If the IM and the Intended Licensee are unable to reach an agreement regarding the IM's recommendation(s), the Department, after meeting with the Intended Licensee and the IM, shall make a final determination, which shall be binding on the Intended Licensee.

13. Upon approval by the Department of the recommendations by the IM, the Intended Licensee shall provide the Department with a proposed timeframe for implementation of the IM recommendations, within twenty-one (21) days of receipt of the report(s). The timeframes shall be subject to approval by the Department and shall become operative upon the Department's approval. All recommendations shall be implemented in accordance with the Department's approved timeframe.

14. The IM shall assess the function, the duties, responsibilities and level of engagement of the Prospect Eastern Regional Quality and Patient Safety Steering Council ("Council") and the Facility's Quality Assurance and Performance Improvement Committee ("Committee") and shall determine their ability to monitor implementation of any recommendations provided. This assessment will be provided to the Intended Licensee's governing authority and to FLIS and OHCA.

15. The IM shall re-evaluate the Facility, within six (6) months following the completion of the initial Facility evaluation and semi-annually thereafter throughout the tenure of the IM's engagement. The re-evaluation shall determine the Licensee's ability to implement and maintain quality of care and services, implementation of recommendations previously made by the IM and compliance with regulatory requirements. Upon conclusion of said reviews, the IM shall provide Prospect, the Intended Licensee and the Department, including representatives of FLIS and OHCA, with a comprehensive report of said assessments.

16. The IM shall act and perform the duties assigned herein at all times to serve the interest of the Department in assuring the safety, welfare and well-being of patients and to secure compliance with applicable federal and state law and regulations and shall not accept any direction or suggestion from Prospect, the Intended Licensee or its employees that will deter or interfere in fulfilling this obligation.

17. Within one hundred eighty (180) days of the effective date of this Order, Prospect, shall::

    a. Collaborate with Facility leadership in identifying initiatives aimed at improving patient care quality and safety;
    b. Collaborate with Facility leadership to build quality, efficiency, effectiveness, and a shared accountability systems model of care;
    c. Collaborate with Facility leadership to ensure ongoing compliance with state and federal laws and regulations;
    d. Collaborate with Facility leadership to strengthen the data and information capabilities of the Facility to ensure quality and data driven quality measures; and,
    e. Collaborate with Facility leadership to ensure sustainment of quality assurance and performance activities, to include but not be limited to, activities that promote a high reliability organization.

18. The Corporate Chief Quality Officer, Regional Vice President of Quality, Chief Executive Officer, Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety and/or their designees shall meet with the Department quarterly for the first six (6) months after the effective date of this Order and thereafter once every six (6) months throughout the tenure of the IM. The meetings shall include discussions of issues related to the care and services provided by the Intended Licensee's compliance with accepted standards of practice and applicable federal and state statutes and regulations. After the first meeting, all subsequent meetings may be attended via teleconference except that no out-of-state participant is required to attend any of the meetings in person.

19. Any records maintained in accordance with any state or federal law or regulation or as required by this Order shall be made available to the IM and the Department, upon request. The IM may attend quality assurance and/or peer review committee meetings and utilize information from such meetings and records for making recommendations or reports. Except where mandated by law or to report illegal conduct to the Department, the IM shall not identify the individual providers subject to peer review. Except for such disclosures to the IM, any rights of the Intended Licensee or any

affiliate to claim and exert privilege to quality assurance or peer review documents under state and/or federal law are preserved and not limited or waived by this Order.

20. A Quality Assurance Performance Improvement Program shall be maintained by the Intended Licensee and monitored by the Committee, consist of, at least, the Intended Licensee' s Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety. The Committee shall focus its activities utilizing a structure, process and outcome model. The Committee shall meet at least once every sixty (60) days and as needed to review all reports or complaints relating to patient care and compliance with accepted standards of practice and federal state laws and regulations. During the tenure of the IM, the IM shall have the right to attend and participate in all Committee meetings and to evaluate and report on the design of the quality assurance programs implemented by the Committee. The activities of the Committee shall include, but not be limited to, compliance with this Order and the IM recommendations, determination and adoption of new policies to be implemented by the Intended Licensee's staff to improve patient care practices; provided that all policies shall be subject to review and approval by the Facility's governing authority, the Local Board and as appropriate, Prospect, consistent with the terms of that certain Quality Assurance Commitment Side Letter dated March 28, 2016 by and between Prospect and Eastern Connecticut Health Network, Inc., as amended to the date hereof ("Quality Letter"). In addition, this Committee shall review and revise, as applicable infection control policies and procedures and monitor their implementation. The Committee shall measure and track the implementation of any changes in the Intended Licensee's policies, procedures, and allocation of resources recommended by the Committee to determine compliance with and effectiveness of such changes. A record of Committee meetings and subject matter discussed will be documented and available for review by the Department. Minutes of all such meetings shall be maintained at the Facility for a minimum period of three (3) years.

21. During the term of this Order the Intended Licensee shall notify the Department within five (5) business days, if any of the following positions become vacant (if such positions exist, in name or in responsibilities, at the Facility):

    a. Corporate Chief Quality Officer;

b. Regional Vice President of Quality;
c. Director of Survey Readiness Team;
d. Chief Executive Officer;
e. Chief Medical Officer
f. Chief Nursing Officer;
g. Vice President of Quality and Patient Safety; and,
h. Vice President of Patient Care Services.

22. Within five (5) business days of the effective date of this Order, the Intended Licensee, shall provide the names and resumes of the proposed Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety.

23. The Intended Licensee within five (5) business days of the execution of this Order, shall designate an individual to be responsible for all notices and correspondence pursuant to this Order. The name, mailing address, email address and phone number of the designated individual shall be provided to the Department within said timeframe. The Intended Licensee may provide for a substitute or alternate individual with two (2) business days written notice to the Department.

24. Any reports required by this document shall be directed to:

Susan Newton, R.N., B.S.
Supervising Nurse Consultant
Facility Licensing and Investigations Section
Department of Public Health
410 Capitol Avenue, P.O. Box 340308, MS #12 HSR
Hartford, CT 06134-0308

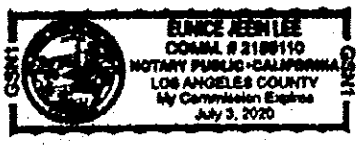
25. All parties agree that this Order is an Order of the Department with all of the rights and obligations pertaining thereto and attendant thereon. The Intended Licensee agrees that the compliance with all of the terms and conditions of this Order is part of the responsibility of the Intended Licensee's governing authority as set forth in Public Health Code section 19-13-D68(b)(4). The Intended Licensee further agrees that failure to comply with any of the terms and conditions of this Order shall constitute grounds for disciplinary action pursuant to Section 19a-494 of the Connecticut General Statutes Nothing herein shall be construed as limiting the Department's other available legal remedies against the Intended Licensee for violations of this Order or of any other

statutory or regulatory requirements, which may be sought in lieu of or in addition to the methods of relief listed above, or any other administrative and judicial relief provided by law.

26. The execution of this Order has no bearing on any criminal liability without the written consent of the Director of the MFCU or the Bureau Chief of the Department of Criminal Justice's Statewide Prosecution Bureau.

27. The Intended Licensee agrees that this Pre-Licensure Consent Order and the terms set forth herein are not subject to reconsideration, collateral attack or judicial review under any form or in any forum including any right to review under the Uniform Administrative Procedure Act, Chapter 368a of the Statutes, Regulations that exists at the time the Order is executed or may become available in the future, provided that this stipulation shall not deprive the Intended Licensee and its affiliate entities of any other rights that it may have under the laws of the State of Connecticut or of the United States.

28. Each of the hospitals acquired by Intended Licensee shall provide to the Department a plan of correction within forty-five (45) days of receiving a physical plant inspection report from the Department.



29. The Intended Licensee has consulted with its attorney prior to the execution of this Order.

WITNESS WHEREOF, the parties hereto have caused this Pre-Licensure Consent Order to be executed by their respective officers and officials. The undersigned signatories represent and warrant that they are authorized to execute this Pre-Licensure Consent Order on behalf of the party they represent.

In Re: Prospect Waterbury, Inc.
d/b/a The Waterbury Hospital
64 Robbins Street
Waterbury, CT 06708

Intended Licensee: Prospect Waterbury, Inc.
d/b/a The Waterbury Hospital
Referred to herein as the "Intended Licensee"

## PRE-LICENSURE CONSENT ORDER

WHEREAS, Prospect Medical Holdings, Inc. ("Prospect") has obtained certain regulatory approvals to acquire, through one or more subsidiaries, various licensed facilities or operations currently affiliated with Eastern Connecticut Health Network, Inc., including: Manchester Memorial Hospital and Rockville General Hospital ("ECHN Facilities"); and,

WHEREAS, Prospect is seeking to also acquire, through one or more subsidiaries, certain licensed facilities or operations currently affiliated with the Greater Waterbury Health Network, Inc., including the Waterbury Hospital ("GWHN Facilities" and together with the ECHN Facilities referred to as the "Prospect CT Group"); and,

WHEREAS, the Intended Licensee, a subsidiary of Prospect is seeking an initial license to operate a general hospital as defined in Conn. Gen. Stat. § 19a-490(b); and,

WHEREAS, upon the execution of this Pre-Licensure Consent Order ("Order") and after meeting all statutory and regulatory requirements, the Intended Licensee shall be issued a license to operate a General Hospital currently known as The Waterbury Hospital ("Facility") by the Connecticut Department of Public Health ("Department").

NOW THEREFORE, the Facility Licensing and Investigations Section of the Department ("FLIS") acting herein and through Barbara Cass, Section Chief, and the Intended Licensee and Prospect hereby stipulate and agree as follows:

1. The Order issued by the Department of Public Health, Office of Health Care Access ("OHCA") dated June 10, 2016 ("OHCA Order") shall be incorporated and made part of this Order.
2. This Order shall remain in effect for three (3) years from the effective date of this Order. The effective date of the Order is October 1, 2016. The issuance of the License shall occur when the Department receives proof, to its satisfaction, that the closing regarding the ECHN Facilities will occur within forty-eight hours of the issuance of the license provided all legal requirements for licensure have been met.
3. During the term of this Order, should the Intended Licensee implement any new patient care services, it shall do so in accordance with Connecticut General Statutes sections 19a-638 through 19a-639b. In addition, for one year after the effective date of this Order, the Intended Licensee and any beneficial owner of the Intended Licensee shall notify the Department of its intent to acquire an ownership interest in another general hospital in Connecticut (other than Rockville General Hospital or Waterbury Hospital) or any other state.
4. Within sixty (60) days of the effective date of this Order, Prospect or a subsidiary shall, on behalf of the Intended Licensee, execute a contract with an Independent Monitor ("IM") pre-approved in writing by the FLIS and OHCA. The duties of the IM shall be performed by a single individual unless otherwise approved by the Department. Prospect or its subsidiary shall pay the cost of the IM and all other costs necessary to comply with this Order. The IM shall be contracted to monitor other facilities within the Prospect CT Group as required by the Department. The aggregate cost of the IM to monitor all such facilities under all FLIS and OCHA orders entered into in connection with the licensure of the Prospect CT Group shall not exceed $300,000. The IM shall function in accordance with the IM Guidelines except to the extent there is any conflict between this Order and the Guidelines, the Order shall govern. (Exhibit A, copy attached). The IM shall have expertise in hospital administration and operations,

knowledge of the healthcare environment with a special focus on quality assurance and performance improvement, and considerable knowledge of accepted standards of practice and state and federal laws and regulations applicable to general/acute care hospitals.

5. The IM shall provide services as outlined herein for two (2) years. If the Department determines during the last six months of the first two years of the IM's tenure or within three months after the two year period that the Facility is not in compliance with applicable accepted standards of practice and federal and state statutes and regulations, the services of the IM shall be extended at the direction of the Department for up to one (1) additional year, for an overall total of three (3) years. The Department shall base any decision regarding the extension of time for IM services upon onsite inspections conducted by the Department and based on all other information the Department deems relevant. The terms of the contract executed on behalf of the Intended Licensee with the IM shall include all pertinent provisions, including time frames contained in this Order.

6. In addition to any other remedies available to the Department, noncompliance with any of the provisions of this Order or the OHCA Order, including failure to pay costs associated with the IM's duties shall constitute a violation of this Order and may result in a fine not to exceed one thousand dollars per day.

7. The IM shall conduct an initial assessment of the Intended Licensee's regulatory compliance which identifies areas requiring remediation. The IM shall report any regulatory or statutory violations identified in the initial assessment to FLIS, OHCA and the Intended Licensee. Such assessment shall, at a minimum, include onsite reviews of hospital systems and direct observations of the Facility staffs' performance as further specified in paragraphs eight (8) and nine (9) of the Order.

8. The IM onsite review shall include, but not be limited to, the following professional and hospital services and systems listed below, and the IM shall make recommendations for improvements, when applicable:

   a. Nursing Services;

   b. Infection Control;

   c. Pharmacy;

d. Surgical Services;
e. Emergency Department;
f. Psychiatric Services;
g. Medical Staff;
h. Patient Rights;
i. Medical Services;
j. Medical Records,
k. Quality Assurance and Performance Improvement; and,
l. Facility's professional credentialing process and assessment process for evaluating competency and remediation/monitoring mechanisms.

9. The initial onsite review by the IM shall be scheduled within thirty (30) days of the execution of the contract with the IM and shall include all satellite locations listed on the Facility's license.

10. The IM shall confer with the Intended Licensee's Chief Executive Officer, Chief Medical Officer, Chief Nursing Officer, Vice President of Quality and Safety and other staff determined by the IM to be necessary to the assessment of care and services and the Intended Licensee's compliance with accepted standards of practice and applicable federal and state statutes and regulations.

11. The IM shall have thirty (30) days after the completion of the initial onsite review, to develop a report(s) regarding the Intended Licensee's compliance with applicable state and federal statutes and regulations and provide copies to the Intended Licensee's governing authority, and the Department, including representatives of the FLIS and the OHCA. No party shall be provided with the opportunity to review the report(s) prior to release, and all parties shall receive copies of the documents simultaneously. The report(s) shall identify methods utilized for the analysis, areas reviewed and process, findings and recommendations. IM recommendations shall include, as applicable, areas that need to be addressed, continuing onsite consulting initiatives, and any quality of care issues that require remediation.

12. The IM shall make recommendations to the Intended Licensee's governing authority, Chief Executive Officer, Chief Medical Officer, Vice President of Quality and Safety, the East Regional Vice President of Quality and Patient Safety, the Chief Quality

Officer and Chief Nursing Officer, consistent with accepted standards of practice, for improvement in the delivery of direct patient care in the Facility and compliance with regulatory requirements. If the IM and the Intended Licensee are unable to reach an agreement regarding the IM's recommendation(s), the Department, after meeting with the Intended Licensee and the IM, shall make a final determination, which shall be binding on the Intended Licensee.

13. Upon approval by the Department of the recommendations by the IM, the Intended Licensee shall provide the Department with a proposed timeframe for implementation of the IM recommendations, within twenty-one (21) days of receipt of the report(s). The timeframes shall be subject to approval by the Department and shall become operative upon the Department's approval. All recommendations shall be implemented in accordance with the Department's approved timeframe.

14. The IM shall assess the function, the duties, responsibilities and level of engagement of the Prospect Eastern Regional Quality and Patient Safety Steering Council ("Council") and the Facility's Quality Assurance and Performance Improvement Committee ("Committee") and shall determine their ability to monitor implementation of any recommendations provided. This assessment will be provided to the Intended Licensee's governing authority and to FLIS and OHCA.

15. The IM shall re-evaluate the Facility, within six (6) months following the completion of the initial Facility evaluation and semi-annually thereafter throughout the tenure of the IM's engagement. The re-evaluation shall determine the Licensee's ability to implement and maintain quality of care and services, implementation of recommendations previously made by the IM and compliance with regulatory requirements. Upon conclusion of said reviews, the IM shall provide Prospect, the Intended Licensee and the Department, including representatives of FLIS and OHCA, with a comprehensive report of said assessments.

16. The IM shall act and perform the duties assigned herein at all times to serve the interest of the Department in assuring the safety, welfare and well-being of patients and to secure compliance with applicable federal and state law and regulations and shall not accept any direction or suggestion from Prospect, the Intended Licensee or its employees that will deter or interfere in fulfilling this obligation.

17. Within one hundred eighty (180) days of the effective date of this Order, Prospect, shall::

    a. Collaborate with Facility leadership in identifying initiatives aimed at improving patient care quality and safety;
    b. Collaborate with Facility leadership to build quality, efficiency, effectiveness, and a shared accountability systems model of care;
    c. Collaborate with Facility leadership to ensure ongoing compliance with state and federal laws and regulations;
    d. Collaborate with Facility leadership to strengthen the data and information capabilities of the Facility to ensure quality and data driven quality measures; and,
    e. Collaborate with Facility leadership to ensure sustainment of quality assurance and performance activities, to include but not be limited to, activities that promote a high reliability organization.

18. The Corporate Chief Quality Officer, Regional Vice President of Quality, Chief Executive Officer, Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety and/or their designees shall meet with the Department quarterly for the first six (6) months after the effective date of this Order and thereafter once every six (6) months throughout the tenure of the IM. The meetings shall include discussions of issues related to the care and services provided by the Intended Licensee's compliance with accepted standards of practice and applicable federal and state statutes and regulations. After the first meeting, all subsequent meetings may be attended via teleconference except that no out-of-state participant is required to attend any of the meetings in person.

19. Any records maintained in accordance with any state or federal law or regulation or as required by this Order shall be made available to the IM and the Department, upon request. The IM may attend quality assurance and/or peer review committee meetings and utilize information from such meetings and records for making recommendations or reports. Except where mandated by law or to report illegal conduct to the Department, the IM shall not identify the individual providers subject to peer review. Except for such disclosures to the IM, any rights of the Intended Licensee or any

affiliate to claim and exert privilege to quality assurance or peer review documents under state and/or federal law are preserved and not limited or waived by this Order.

20. A Quality Assurance Performance Improvement Program shall be maintained by the Intended Licensee and monitored by the Committee, consist of, at least, the Intended Licensee' s Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety. The Committee shall focus its activities utilizing a structure, process and outcome model. The Committee shall meet at least once every sixty (60) days and as needed to review all reports or complaints relating to patient care and compliance with accepted standards of practice and federal state laws and regulations. During the tenure of the IM, the IM shall have the right to attend and participate in all Committee meetings and to evaluate and report on the design of the quality assurance programs implemented by the Committee. The activities of the Committee shall include, but not be limited to, compliance with this Order and the IM recommendations, determination and adoption of new policies to be implemented by the Intended Licensee's staff to improve patient care practices; provided that all policies shall be subject to review and approval by the Facility's governing authority, the Local Board and as appropriate, Prospect, consistent with the terms of that certain Quality Assurance Commitment Side Letter dated March 28, 2016 by and between Prospect and Eastern Connecticut Health Network, Inc., as amended to the date hereof ("Quality Letter"). In addition, this Committee shall review and revise, as applicable infection control policies and procedures and monitor their implementation. The Committee shall measure and track the implementation of any changes in the Intended Licensee's policies, procedures, and allocation of resources recommended by the Committee to determine compliance with and effectiveness of such changes. A record of Committee meetings and subject matter discussed will be documented and available for review by the Department. Minutes of all such meetings shall be maintained at the Facility for a minimum period of three (3) years.

21. During the term of this Order the Intended Licensee shall notify the Department within five (5) business days, if any of the following positions become vacant (if such positions exist, in name or in responsibilities, at the Facility):

    a. Corporate Chief Quality Officer;

b. Regional Vice President of Quality;

c. Director of Survey Readiness Team;

d. Chief Executive Officer;

e. Chief Medical Officer

f. Chief Nursing Officer;

g. Vice President of Quality and Patient Safety; and,

h. Vice President of Patient Care Services.

22. Within five (5) business days of the effective date of this Order, the Intended Licensee, shall provide the names and resumes of the proposed Chief Medical Officer, Chief Nursing Officer and Vice President of Quality and Safety.

23. The Intended Licensee within five (5) business days of the execution of this Order, shall designate an individual to be responsible for all notices and correspondence pursuant to this Order. The name, mailing address, email address and phone number of the designated individual shall be provided to the Department within said timeframe. The Intended Licensee may provide for a substitute or alternate individual with two (2) business days written notice to the Department.

24. Any reports required by this document shall be directed to:

Susan Newton, R.N., B.S.
Supervising Nurse Consultant
Facility Licensing and Investigations Section
Department of Public Health
410 Capitol Avenue, P.O. Box 340308, MS #12 HSR
Hartford, CT 06134-0308

25. All parties agree that this Order is an Order of the Department with all of the rights and obligations pertaining thereto and attendant thereon. The Intended Licensee agrees that the compliance with all of the terms and conditions of this Order is part of the responsibility of the Intended Licensee's governing authority as set forth in Public Health Code section 19-13-D68(b)(4). The Intended Licensee further agrees that failure to comply with any of the terms and conditions of this Order shall constitute grounds for disciplinary action pursuant to Section 19a-494 of the Connecticut General Statutes Nothing herein shall be construed as limiting the Department's other available legal remedies against the Intended Licensee for violations of this Order or of any other

statutory or regulatory requirements, which may be sought in lieu of or in addition to the methods of relief listed above, or any other administrative and judicial relief provided by law.

26. The execution of this Order has no bearing on any criminal liability without the written consent of the Director of the MFCU or the Bureau Chief of the Department of Criminal Justice's Statewide Prosecution Bureau.

27. The Intended Licensee agrees that this Pre-Licensure Consent Order and the terms set forth herein are not subject to reconsideration, collateral attack or judicial review under any form or in any forum including any right to review under the Uniform Administrative Procedure Act, Chapter 368a of the Statutes, Regulations that exists at the time the Order is executed or may become available in the future, provided that this stipulation shall not deprive the Intended Licensee and its affiliate entities of any other rights that it may have under the laws of the State of Connecticut or of the United States.

28. Each of the hospitals acquired by Intended Licensee shall provide to the Department a plan of correction within forty-five (45) days of receiving a physical plant inspection report from the Department.

29. The Intended Licensee has consulted with its attorney prior to the execution of this Order.

WITNESS WHEREOF, the parties hereto have caused this Pre-Licensure Consent Order to be executed by their respective officers and officials. The undersigned signatories represent and warrant that they are authorized to execute this Pre-Licensure Consent Order on behalf of the party they represent.

By: _____
Ellen J. Shin, Secretary
Prospect Waterbury, Inc.
The Intended Licensee

On this 28th day of September, 2016, before me, personally appeared Ellen J. Shin who acknowledged herself to be the Secretary of the Intended Licensee and that she as Secretary, being authorized so to do, executed the foregoing instrument for the purposes therein contained, by signing her name as Secretary.

# Exhibit A

**FLIS' Independent Monitor Guidelines**
**For Intended Licensee Prospect Manchester Hospital**

Relationship between Independent Monitor (IM) and DPH includes:

- An IM is utilized as a component of DPH's regulatory remedy process. An IM may be agreed upon as a part of a Consent Order between the institution and the Department when significant care and services issues are identified, or when, in connection with a change of ownership, an acquirer is new to the State and has experienced previous compliance issues in another state.
- The IM has a fiduciary or special relationship of trust, confidence and responsibility with the Department.
- The IM's responsibilities include:
  - Reporting to the Department regarding the Facility's compliance with federal and state law and regulation.
  - Monitoring the institution's plan of correction to rectify deficiencies and violations of federal/state laws and regulations. Reports to Department positive and negative issues related to said oversight.
  - Reporting in accordance with the Consent Agreement/Order to the Department of issues identified, plans to address noncompliance and remediation efforts of the institution.

Relationship between IM and the Institution:

- The IM maintains a professional and objective relationship with the institutional staff. The IM is a consultant, not an employee of the institution. The IM exercises independent judgment and initiative to determine how to fully address and complete her/his responsibilities. The institution does not direct or supervise the IM but must cooperate with and respond to requests of the IM related to fulfilling her/his duties.
- The IM's responsibilities, consistent with the terms of the Consent Order, include:
  - Assessment of institution's compliance with recognized standards of practice federal/state laws and regulations.
  - Monitoring of care/services being provided.
  - Assists staff with plans of action to enhance care and services within the institution.
  - Reports in accordance with the Consent Order to the institution re: assessments, issues identified, and monitoring of plans of correction.

**EXHIBIT B**

## BUSINESS ASSOCIATE AGREEMENT

THIS BUSINESS ASSOCIATE AGREEMENT (the "Business Associate Agreement") is made and entered into as of November ___, 2016 (the "Effective Date"), by and among Prospect ECHN, Inc., a Connecticut corporation ('Prospect ECHN"), Prospect Waterbury, Inc., a Connecticut corporation ("Prospect Waterbury") (together, the "Covered Entities") and Colleen Smith, MSN, RN, NEA-BC ("Business Associate")

**RECITALS:**

WHEREAS, the Business Associate and Covered Entities have entered into and may enter into one or more agreements (the "Agreement(s)") under which the Business Associate performs or assists the Covered Entities with a function or activity involving the Use or Disclosure of Individually Identifiable Health Information;

WHEREAS, the Covered Entities and the Business Associate desire to comply with the requirements of regulations promulgated pursuant to the Health Insurance Portability and Accountability Act of 1996 ("HIPAA").

WHEREAS, the HIPAA Standards require that the Covered Entities obtain satisfactory assurances that the Business Associate will appropriately safeguard the Individually Identifiable Health Information Used or Disclosed by the Business Associate in the course of performing services pursuant to the Agreement(s).

NOW, THEREFORE, in consideration of the foregoing and the mutual promises and covenants herein contained, the parties agree as follows:

**1. Definitions**

a) HIPAA Rules shall mean the Privacy, Security, Breach Notification and Enforcement Rules at 45 C.F.R. Part 160 and Part 164.

b) The following terms Used in this business Associate Agreement shall have the same meaning as those terms defined in the HIPAA Standards: Business Associate, Covered Entity, Breach, Data Aggregation, Designated Record Set, Disclosure, Health Care Operations, Individual, Minimum Necessary, Notice of Privacy Practices, Protected Health Information, Required By Law, Secretary, Security Incident, Subcontractor, Unsecured Protected Health Information, and Use.

c) The Covered Entities and the Business Associate acknowledge and agree that capitalized terms Used, but not otherwise defined, herein are as defined in the HIPAA Standards;

2. **Obligations and Activities of Business Associate**

a) Business Associate shall not Use or further Disclose Protected Health Information other than as permitted or required by this Business Associate Agreement or as required by law.

b) Business Associate shall Use appropriate safeguards and comply with Subpart C of 45 C.F.R. Part 164 with respect to electronic protected health information, to prevent Use or Disclosure of the Protected Health Information not provided for by this Business Associate Agreement.

c) Business Associate shall immediately report to Covered Entities any Use or Disclosure of Protected Health Information or individually identifiable information not provided for by this Business Associate Agreement, including without limitation any Breach of Protected Health Information or Unsecured Protected Health Information as required and any Security Incident of which the Business Associate becomes aware. Business Associate shall take any reasonable action necessary or requested by the Covered Entities to mitigate, to the extent practicable, any harmful effect that is known to Business Associate.

d) In the event of a Breach of Protected Health Information or Unsecured Protected Health Information, Business Associate's notice to Covered Entities of such Breach shall include, to the extent possible, the identification of each Individual whose Protected Health Information has been, or is reasonably believed to have been, accessed, acquired, or disclosed. Business Associate shall also provide Covered Entities any other available information that the Covered Entities are required to include in the notification to the Individual, even if such information becomes available after notification to the Individual, or take any reasonable action necessary as requested by the Covered Entities to assist Covered Entities in complying with any applicable Breach notification requirements.

e) Business Associate shall ensure that any agent of the Business Associate, including a subcontractor that creates, maintains transmits, or receives Protected Health Information on behalf of Covered Entities agrees to the same restrictions, conditions and requirements that apply through to Business Associate with respect to such information.

f) If the Business Associate maintains Protected Health Information in a Designated Record Set, the Business Associate shall:

(i) provide access or make available to Covered Entities Protected Health Information in a Designated Record Set, to Covered Entities or to an Individual, per Covered Entities' direction in order to meet the requirements under 45 C.F.R. § 164.524; and

(ii) make any amendment(s) to Protected Health Information in a Designated Record Set that the Covered Entities direct or agree to

pursuant to 45 C.F.R. § 164.526 at the request of Covered Entity or an Individual in the time and manner designated by Covered Entity, or take other measures as necessary to satisfy Covered Entities' obligations under 45 C.F.R. 164.526.

g) Business Associate shall maintain and make available to Covered Entity information pertaining to Disclosures of Protected Health Information by Business Associate to permit Covered Entity to respond to a request by an Individual for an accounting of Disclosures of Protected Health Information in accordance with 45 C.F.R. § 164.528. In the event that Business Associate receives a direct request from an Individual for an accounting of Disclosures of Protected Health Information made by Business Associate, Business Associate agrees to provide the Individual with such an accounting in accordance with 45 C.F.R. § 164.528.

h) To the extent Business Associate is to carry out one or more of Covered Entities' obligation(s) under Subpart E of 45 C.F.R. Part 164, Business Associate shall comply with the requirements of Subpart E that apply to Covered Entity in the performance of such obligation(s); and

i) Business Associate shall make internal practices, books, and records relating to the Use and Disclosure of Protected Health Information received from, or created, maintained or received by Business Associate on behalf of Covered Entity available to the Covered Entity or the Secretary, in a time and manner designated by the Covered Entity or the Secretary, for purposes of the Secretary determining Covered Entities' or Business Associate's compliance with the HIPAA Rules.

j) Business Associate shall implement and maintain safeguards as necessary to ensure that all Protected Health Information is Used or Disclosed only as authorized under the HIPAA Rules and this Business Associate Agreement. Business Associate agrees to assess potential risks and vulnerabilities to Protected Health Information in its possession and develop, implement and maintain the administrative, physical and technical safeguards required by the HIPAA Rules that protect the confidentiality, availability and integrity of the Protected Health Information that Business Associate creates, receives, maintains or transmits on behalf of the Covered Entity. These measures must be documented and kept current, and must include, at a minimum, those measures that fulfill the requirements outlined in the HIPAA Rules. Business Associate also agrees to implement policies and procedures that address Business Associate's compliance with applicable HIPAA Rules and its efforts to detect, prevent and mitigate the risks of identity theft resulting from the improper Use and/or Disclosure of an Individual's information.

k) In the event that Business Associate has knowledge of a Covered Entity's breach of the HIPAA Rules, Business Associate agrees to notify Covered Entity and take reasonable steps to cure such breach.

l) Business Associate acknowledges that if it violates any of the requirements provided under this Business Associate Agreement, Business Associate will be subject to the same civil and criminal penalties that a Covered Entity would be subject to if such Covered Entity violated the same requirements.

**3. Permitted Uses and Disclosures by Business Associate**

a) Business Associate may Use or Disclose Protected Health Information to perform functions, activities, or services for, or on behalf of, a Covered Entity as specified in the Agreement(s), provided that such Use or Disclosure would not violate the HIPAA Rules if done by the Covered Entity.

b) Business Associate may Use Protected Health Information for the proper management and administration of the Business Associate or to carry out the legal responsibilities of the Business Associate.

c) Business Associate may Disclose Protected Health Information for the proper management and administration of the Business Associate, provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and will be Used or further Disclosed only as Required by Law or for the purpose for which it was initially Disclosed to the recipient, and the recipient notifies the Business Associate of any instances of which it is aware in which the confidentiality of the information has been breached.

d) Except as otherwise permitted by the HIPAA Rules, when using or disclosing Protected Health Information or responding to a request for Protected Health Information, Business Associate must limit such Protected Health Information, to the extent practicable, to a Limited Data Set, or if more information than a Limited Data Set is required, Business Associate agrees to make Uses and Disclosures and requests for protected health information consistent with the Minimum Necessary to accomplish the intended purpose of such Use, Disclosure, or request.

e) Except as otherwise permitted by the HIPAA Rules, Business Associate agrees that it will not directly or indirectly receive remuneration in exchange for any Protected Health Information unless the Covered Entity has obtained from an Individual a valid authorization that includes a specification of whether the Protected Health Information can be further exchanged for remuneration by the entity receiving the Individual's Protected Health Information. When the Secretary issues the regulations that address the requirements of this Section and such regulations become effective, Business Associate shall comply with such regulations with respect to receiving remuneration in exchange for any Protected Health Information.

f) If an Individual requests that Business Associate restrict the Disclosure of the Individual's Protected Health Information to carry out treatment, payment, or health care operations, Business Associate agrees that it will comply with the requested restriction if, except as otherwise required by law, the Disclosure is to a health plan for purposes of carrying out payment or health care operations (and is not for purposes of carrying out treatment), and the Protected Health Information pertains solely to a health care item or service for which the health care provider involved has been paid out of pocket in full.

g) Except as otherwise limited in this Business Associate Agreement, Business Associate may Use and Disclose Protected Health Information to provide Data Aggregation services to Covered Entity as permitted by 42 C.F.R. § 164.504(e)(2)(i)(B).

## 4. Obligations of Covered Entities

a) Covered Entities shall provide Business Associate with the Notice of Privacy Practices that Covered Entities produce in accordance with 45 C.F.R. § 164.520, as well as provide any changes to such Notice and the Business Associate shall comply with such Notice of Privacy Practices.

b) Covered Entities shall provide Business Associate with any changes in, or revocation of, permission by Individual to Use or Disclose Protected Health Information, if such changes affect Business Associate's permitted or required Uses and Disclosures.

c) Covered Entities shall notify Business Associate of any restriction to the Use or Disclosure of Protected Health Information that Covered Entity has agreed to in accordance with 45 C.F.R. § 164.522.

d) Covered Entities shall not request Business Associate to Use or Disclose Protected Health Information in any manner that would not be permissible under the HIPAA Rules if done by Covered Entities.

## 5. Term and Termination

a) Term. The Term of this Business Associate Agreement shall be effective as of the Effective Date and shall terminate at to a Covered Entity when all of the Protected Health Information provided by the Covered Entity to Business Associate, or created, maintained, or received by Business Associate on behalf of the Covered Entity, is destroyed or returned to the Covered Entity, or, if it is infeasible to return or destroy Protected Health Information, protections are extended to such information, in accordance with the termination provisions in this Section.

b) Termination for Cause. Upon a Covered Entity's knowledge of a material breach of this Business Associate Agreement by Business Associate, the Covered Entity shall provide an opportunity for Business Associate to cure

the breach or end the violation. The Covered Entity shall terminate the Business Associate Agreement if Business Associate does not cure the breach or end the violation within the time specified by Covered Entity. The Covered Entity may immediately terminate the Business Associate Agreement if Business Associate has breached a material term of this Business Associate Agreement and cure is not possible, as determined by the Covered Entity in its reasonable discretion.

c) Effect of Termination.

(i) Except as provided in this subsection, upon termination of the Agreement(s) or this Business Associate Agreement, for any reason, Business Associate shall return or destroy all Protected Health Information received from Covered Entities, or created, maintained or received by Business Associate on behalf of Covered Entities that the Business Associate still maintains in any form. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of the Protected Health Information.

(ii) In the event that Business Associate determines that returning or destroying the Protected Health Information is infeasible, Business Associate shall provide to Covered Entities notification of the conditions that make return or destruction infeasible. Upon mutual agreement of the parties that return or destruction of Protected Health Information is infeasible, Business Associate shall extend the protections of this Business Associate Agreement to such Protected Health Information and limit further Uses and Disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such Protected Health Information.

(iii) The parties hereto understand and agree that the terms of this Business Associate Agreement are reasonable and necessary to protect the interests of the Covered Entities and the Business Associate. The parties further agree that the Covered Entities would suffer irreparable harm if the Business Associate breached this Business Associate Agreement. Thus, in addition to any other rights or remedies, all of which shall be deemed cumulative, the Covered Entities shall be entitled to obtain injunctive relief to enforce the terms of this Business Associate Agreement.

(iv) Survival. The obligations of Business Associate under this Section shall survive the termination of this Business Associate Agreement.

6. **Miscellaneous**

a) Interpretation. Any ambiguity in this Business Associate Agreement shall be interpreted in a manner that permits the parties to comply with the HIPAA Rules.

b) No Private Cause of Action. This Business Associate Agreement is not intended to and does not create a private cause of action by any individual, other than the parties to this Business Associate Agreement, as a result of any claim arising out of the breach of this Business Associate Agreement, the HIPAA Standards or other state or federal law or regulation relating to privacy or confidentiality.

c) Amendment. Any party shall have the right to amend this Business Associate Agreement by providing written notice to the other parties in order to bring it into compliance with any law or regulation enacted or promulgated regarding the protection of health information that is any way inconsistent with the terms of this Business Associate Agreement or interferes with the parties' obligations with respect to the protection of health information.

d) Application of State Law. Where any applicable provision of Connecticut State law relates to the privacy of health information and is not preempted by HIPAA, as determined by application of the HIPAA Rules, the parties shall comply with the applicable provisions of Connecticut State law.

e) Severability. If any provision of this Business Associate Agreement shall be declared invalid or illegal for any reason whatsoever, then notwithstanding such invalidity or illegality, the remaining terms and provisions of this Business Associate Agreement shall remain in full force and effect in the same manner as if the invalid or illegal provision had not been contained herein, and such invalid, unenforceable or illegal provision shall be valid, enforceable and legal to the maximum extent permitted by law.

f) Governing Law. This Business Associate Agreement shall be interpreted, construed and governed according to the laws of the State of Connecticut. The parties agree that venue shall lie in Federal and State courts in the State in which the Covered Entities maintain their principal places of business, without regard to conflicts of law principles, regarding any and all disputes arising from this Business Associate Agreement.

g) Notices. Any notice or other communication given pursuant to this Business Associate Agreement must be in writing and (i) delivered personally, (ii) delivered by overnight express, or (iii) sent by registered or certified mail, postage prepaid, to the addresses set forth below and shall be considered given upon delivery.

Chief Compliance and Privacy Officer

With a copy to:

Prospect Medical Holdings, Inc.
3415 South Sepulveda Blvd., 9th Floor
Los Angeles, CA 90034
Attention: General Counsel

h) Indemnification. Without limitation to any indemnification obligation that Business Associate may have under the Agreement(s), Business Associate shall indemnify, hold harmless and defend Covered Entities from and against any and all claims, losses, liabilities, costs and other expenses resulting from, or relating to, the acts or omissions of Business Associate, its employees, agents, and subcontractors, in connection with any Use or Disclosure of Protected Health Information, Unsecured Protected Health Information, or an Individual's information not provided for by this Business Associate Agreement, including without limitation any Breach of Protected Health Information, Unsecured Protected Health Information, or an Individual's information or any expenses incurred by Covered Entitles in providing required breach notifications.

IN WITNESS WHEREOF, the parties hereto have executed this Business Associate Agreement as of the Effective Date.

Hi Jennifer,

From OHCA there will be Kim Martone, Karen Roberts and Carmen Cotto. It's okay with OHCA that only Michele call in unless there is someone else that Michele would like to have participate in the conference call. The call in number is Kim's office number at 860- 418-7029. I am sending out a calendar request.

Dear Kim:

The Facility Licensing and Investigations Section has met with Colleen Smith, M.S.N., R.N., NEA-BC and has approved her as capable of serving in the capacity of the IM, if the Office of Health Care Access is also in agreement as it relates to the Prospect Medical Holdings acquisition in Connecticut. She has extensive experience in the overall management of hospitals and specific experiences as the chief nursing officer of a magnet hospital.

Best,

Barbara

Hartford, CT 06134

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Brancifort:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Eight (8), Condition Number Nine (9) and Condition Number Ten (10) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH). Please note that the transaction closed on October 1, 2016 ("Closing Date").

Condition Number Eight (8) requires that starting on November 30, 2016, for the reporting period of April 1, 2016 through September 30, 2016 that PMH provide a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the $75 million Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:

a. A list of the capital expenditures that have been made in the prior one hundred and eighty days (180) days with descriptions of each associated project; and

b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending, and startup/operation dates); and

c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill the Capital Commitment.

Condition Number Nine (9) requires that by November 30, 2016, for the reporting period of April 1, 2016 through September 30, 2016 that PMH provide a report for New ECHN, New MMH and New RGH with the following information:

a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses, and other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRIS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

    1. The major cost savings achieved for each expense category for the semi-annual period; and

    2. The effect of cost savings on the clinical quality of care.

b. A Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.

Condition Number Ten (10) requires that by November 30, 2016, for the reporting period of April 1, 2016 through September 30, 2016 that PMH provide a report for New ECHN, New MMH and New RGH with the following financial measurements/indicators:

**Financial Measurement/Indicators**

**A. Operating Performance**

1. Operating Margin
2. Non-Operating Margin
3. Total Margin

**B. Liquidity**

1. Current Ratio
2. Days Cash on Hand
3. Days in Net Accounts Receivables
4. Average Payment Period

**C. Leverage and Capital Structure**

1. Long-term Debt to Equity
2. Long-term Debt to Capitalization
3. Unrestricted Cash to Debt

4. Times Interest Earned Ratio
5. Debt Service Coverage Ratio
6. Equity Financing Ratio

**D. <u>Additional Statistics</u>**

1. Income from Operations
2. Revenue Over/(Under) Expense
3. Cash from Operations
4. Cash and Cash Equivalents
5. Net Working Capital
6. Free Cash Flow (and the elements used in the calculation)
7. Unrestricted Assets/Retained Earnings
8. Bad Debt as % of Gross Revenue
9. Credit Ratings (S&P, FITCH, or Moody's)

As the reporting periods for the above Conditions are for a period prior to the Closing Date, there is no relevant data to report at this time. Prospect Medical Holdings did not acquire ECHN until October 1, 2016 and was therefore not in a position to make capital investments in the hospitals or demonstrate cost savings. A filing will be made on or before May 31, 2017 with the required information for capital investments made, costs saving achieved and financial measurements requested for the period beginning on October 1, 2016 through March 31, 2017.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

PROSPECT ECHN, INC. WORK PLAN

INDEDEPENDENT MONITORING PROCEDURES (per Docket Number 15-32016-486)

| OHCA Condition | IM Action |
|---|---|
| CON Condition 4: Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement ECHN's 2016 Community Health Needs Assessment ("CHNA") and for conducting the New Hospitals' next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:<br>(i) the data that will be collected and analyzed to systematically assess health status Indicators of the Service Area;<br>(ii) the identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;<br>(iii) the qualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;<br>(iv) the frequency with which the Study will be repeated;<br>(v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the community; and<br>(vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospitals. | IM will obtain a copy of the Plan, verify timely submission, verify that it incorporated the required elements. |
| CON Condition 5: Within three (3) years following the Closing Date, PMH shall participate with New ECHN and the New Hospitals, and the key community stakeholders and health organizations identified pursuant to Condition 4, in conducting a Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. PMH and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study<br><br>(available at - | IM will obtain a copy of the Study, verify timely submission, verify that it incorporated the required elements and was published on the website. |

| | |
|---|---|
| http://www.ct.gov/dph/lib/dph/state_health_planning/ship/hct2020/hct2020_state_hlth_impv_032514.pdf) as well as any applicable community health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at http://www.cdc.gov/sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the Implementation Strategy on the website of New MMH and New RGH. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement ECHN's current CHNA for MMH and RGH. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 56-57* | |
| CON Condition 6: Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospital for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27* | IM will obtain a copy of the Plan and verify it incorporated the required elements. |
| CON Condition 7: Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New NMH or New RGH specific to those services that existed at each of the Hospitals as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of the New Hospitals. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27* | IM will verify proper notification to OHCA within 10 days of any plan to reallocate inpatient beds and relocation of outpatient services. IM will assure timely publication on New Hospitals website within 10 days of decision to reallocate or relocate services. |

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of an understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and the use of evidence-based interventions.

| | |
|---|---|
| CON Condition 8: Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and its affiliates from the $75 million Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:<br><br>a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and<br><br>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and<br><br>c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill the Capital Commitment.<br><br>The reports shall be signed by PMH ECHN's Chief Financial Officer. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 38-45* | IM will obtain the Plan, read the plan and verify that expenditures/investments made are in accordance with the Plan. IM will confirm timely submissions of all required reports. |
| CON Condition 9: For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for ECHN, New MMH and New RGH, respectively:<br><br>a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major | IM will review the PMH filings regarding cost savings achieved in accordance with a. 1-2 and b. of Condition 9. |

| | |
|---|---|
| operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:<br><br>1. the major cost savings achieved for each expense category for the semi-annual period; and<br><br>2. the effect of these cost savings on the clinical quality of care.<br><br>b. A consolidated Balance Sheet, Statement of Operations, and Statement of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.<br><br>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63* | |
| CON Condition 10: For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New ECHN, New MMH, and New RGH, respectively. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report: (i) **Operating performance** to include operating margin, non-operating margin, and total margin; (ii) **Liquidity** to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) **Leverage and capital structure** to include long-term debt to equity, long-term debt to capitalization, unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and equity financing ratio; and (iv) **Additional Statistics** to include income from operations, revenue over (under) expense, cash from operation, cash and cash equivalents, net working capital, free cash flow (and | IM will obtain the financial measurement report and read to confirm that the required elements are addressed in the report; IM will confirm the timely submission of each report. |

| | |
|---|---|
| the elements used in the calculation), unrestricted net assets/retained earnings, bad debt as a percentage of gross revenue, and credit ratings. | |
| CON Condition 11: PMH shall ensure that the New MMH and New RGH maintains and adheres to ECHN's current policies regarding charity care, indigent care and community volunteer services at New MMH and New RGH after the Closing Date all as consistent with state and federal law or adopt other policies that are at least as generous and benevolent to the community as ECHN's current policies. These policies shall be posted on the website of the New MMH and New RGH and as additionally required by applicable law. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | IM will obtain copies of the relevant financial assistance policies, read and confirm that as adopted financial assistance policies (or policies at least as generous as these policies) using management approval of the policies as evidence. After verifying that this step has been properly completed, IM will confirm that these policies are properly posted on website |
| CON Condition 12: For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of New MMH and New RGH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of the New Hospital simultaneously with their submission to OHCA. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | After obtaining original policies on charity care, indigent care, and community volunteer services, IM will read and assess these policies on an annual basis for changes. When changes are made to these policies, IM will confirm OHCA is notified (as required) and revised policies are posted to the website. |
| CON Condition 13: PMH shall maintain community benefit programs and community building activities for the New MMH and New RGH for three (3) years after the Closing Date consistent with the Hospital's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as ECHN's current programs, and PMH shall apply a 1% increase per year for the next three (3) years toward community building activities in terms of dollars spent. In determining the New MMH and New RGH participation in and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.<br>a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community | IM will obtain most recent Schedule H of IRS Form 990 to act as a baseline. IM will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase requirement has been met.<br><br>IM will also obtain the report/summary on the amounts and uses related to community benefits and community building per the categories identified in the CHNA. IM will confirm that these documents are filed in a timely manner and posted to the website. |

| | |
|---|---|
| building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the New Hospital's website. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | |
| CON Condition 14: New MMH and New RGH agree to comply with the following general community benefit standards for at least the first three years. (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusions of other qualified doctors; (c) the New Hospital shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24/7 emergency departments and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); Tr., Testimony of Tom Reardon, President. PMH East on 5/3/16, pp. 103-04* | IM will verify the New Hospitals' compliance with community benefit standards a through d as stated in Condition 14. |
| CON Condition 15: New MMH and New RGH shall work toward making culturally and linguistically appropriate services available and integrated throughout their hospital operations. Specifically, New MMH and new RGH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, New MMH and New RGH shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, New MMH and New RGH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted | IM will obtain and review interpreter services policies and contracts as applicable. Additionally, IM will obtain a cultural competency plan, training, as well as related policies. IM will also obtain report and supporting documents and confirm the timely filing of these materials |

| | |
|---|---|
| on the applicable Hospital website. OHCA is imposing this condition so as to ensure continued access to health care services to the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | |
| CON Condition 16: Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who has experience in hospital administration and regulation, including maintaining quality control in a High Reliability Organization ("HRO"). The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing Date, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to New Hospitals and their applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59* | IM and PMH will execute a Consulting Services Agreement by the required date. A draft of this Agreement has been provided to OHCA. |
| CON Condition 17: The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of New Hospitals on no less than a semi-annual basis to assess PMH's modified Quality Assurance Performance Improvement ("QAPI") program, and compliance with the Quality Commitment Letter. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59* | IM will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership. IM will verify compliance with the quality Assurance commitment Letter. IM will provide a written report to OHCA, and FLIS that summarizes the activities from the prior six month period along with any recommendations or observations |

| | |
|---|---|
| CON Condition 18: If, at any time within three (3) years following the Closing Date, the New Hospitals' Local Board agrees with PMH to change any of the Seller Quality Programs described in the Quality Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated or recommended in guidance by a governmental agency, PMH shall notify OHCA and FLIS in writing within thirty (30) days of any such change going into effect. If the Independent Monitor disagrees with the change, OHCA may require that a request for modification be submitted and approved as required by C.G.S. §4-18la to make the change. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 30-37* | IM will verify that PMH notifies OHCA and the Health Systems Branch in writing within 30 days of any change in the Seller Quality Programs with the exceptions i through iii as stated in condition 18. |
| CON Condition 19: For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of each of new MMH and New RGH and the Local Board of new MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospital's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30* | IM will assure that Joint Board Meetings occur twice annually followed by public meetings as required in Condition 19. |
| CON Condition 20: For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as a voting member of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representative shall be selected in consultation with the Mayor of Manchester and Vernon in order to ensure the appointment of an unbiased person who will fairly represent the interests of the communities served by the MMH and RGJ. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30* | IM will verify the New MMH and New RGH include 2 community representatives that are voting members of the local boards. |
| CON Condition 21: PMH, New ECHN, New MMH and New RGH shall abide by all requirements of licensure that may be imposed by FLIS in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA is imposing this condition to ensure that quality health care services | IM will verify that all requirements of licensure are met. |

| | |
|---|---|
| are provided to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 30-37* | |

**Re: Docket Number: 15-32016-486**

**Project Title: Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Brancifort:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Seven (7) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Seven (7) requires that "Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New MMH or New RGH specific to those services that existed at each of the Hospitals as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of the New Hospitals."

Prior to January 3, 2016 ECHN has operated two blood draw stations on Tamarack Avenue in South Windsor, one at 2800 Tamarack Avenue and the other at 2400 Tamarack Avenue. These two buildings are approximately 500 yards from each other in the same medical office complex and share a common drive.

As of January 3, 2017, the 2800 Tamarack Avenue blood draw station is being relocated to the one at 2400 Tamarack Avenue. The hours of operation have been expanded to accommodate the additional volume. The new hours are Monday through Friday, 7:00 AM to 12:30 PM and 1:30 PM to 4:00 PM and Saturday, 8:00 AM to 12:00 PM. There will be no reduction in workforce and no change in operations or services. There is no anticipated change in patient population or payor mix.

Per the Order, this information and the new hours of operation will be published on the ECHN website at www.echn.org.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

Mr. Michael Collins
Interim Chief Executive Officer
Prospect ECHN, Inc.

Re: Compliance with Stipulation #20 of Certificate of Need under Docket #15-32016-486

Dear Mr. Collins:

It has been brought to the attention of the Office of Health Care Access (OHCA) that the Prospect ECHN Advisory Board (Local Board) may not have two community representatives which have been selected in consultation with the Mayors of Manchester and Vernon in order to "*ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively.*" Please refer to the full wording of both Stipulations #19 and #20, below:

19 For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals' activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

20 For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to

health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

OHCA requires an immediate update on the status of this Local Board, its structure and representation. Please provide a response to the questions below regarding this matter in order for OHCA to determine whether a compliance issue exists related to Stipulations #19 and #20.

1. Has the Local Board been selected and what was the selection process?
2. List the names and related information for each member of the Local Board.
3. What members are the two community representatives and how were they chosen?
4. Fully explain how the Mayors of Manchester and Vernon were consulted in the selection of these two community representatives.
5. Have any joint Board meetings been held as yet, per Stipulation #19? Have any Local Board meetings occurred at all since the transfer of ownership. If so, please submit the related meeting minutes.
6. If Prospect ECHN has rejected any candidates to be the community representatives, identify such candidates and explain why they were not selected.

Please provide a response to the above by end of day, Friday, February 17, 2017.

**VIA ELECTRONIC MAIL AND REGULAR MAIL**

February 17, 2017

Kimberly R. Martone
Director of Operations, Office of Health Care Access
Connecticut Department of Public Health
410 Capitol Avenue, MS #13 CMN, Hartford, Connecticut 06134

Re: Compliance with Stipulation #20

Dear Ms. Martone:

I am in receipt of your email communication dated February 15, 2017 in which you requested certain information relating to Stipulation #20 of the Certificate of Need listed under Docket #15-32016-486. Below are the responses of Prospect ECHN to the questions set forth in that email.

1. **Has the Local Board been selected and what was the selection process?**

   Yes, the Local Board has been selected. The members of the Local Board were selected by Prospect ECHN in accordance with the requirements the Asset Purchase Agreement dated August 24, 2016 between ECHN as Seller and Prospect Medical Holdings as Buyer, which states as follows:

   > Local Board means the advisory board of each Hospital composed of community representatives, physicians on the respective Hospital's medical staff, and the Chief Executive Officer of each respective Hospital (for avoidance of doubt, each Hospital shall have its own Local Board). The initial members of the Local Board shall include at least five members of the Seller's Board of Trustees immediately prior to Closing and five other individuals identified by the Seller prior to Closing, two of whom shall be members of the community appointed in consultation with the mayor of the town in which the respective Hospital is located.

   Please note that the two Hospital Boards meet contemporaneously and have the same members, in recognition of the fact that Manchester Memorial Hospital and Rockville General Hospital function as an integrated system within Prospect ECHN.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**2. List the names and related information for each member of the Local Board.**

The names and roles of the individuals on the Local Board are:

| Name | Role |
|---|---|
| M. Maher Suede, MD | Medical Staff President, Former Seller Trustee |
| M. Saud Anwar, MD | Medical Staff Member |
| Michael Collins | Interim Chief Executive Officer |
| Mary Roche-Cronin | Community Member Recommended by Manchester Mayor |
| Molly C. Devanney | Community Member |
| Joy W. Dorin | Community Member, Former Seller Trustee |
| Eric L. Kloter | Community Member, Former Seller Trustee |
| Pamela Lewis, MD | Former Seller Trustee, Medical Staff Member |
| Saqib Naseer, MD | Medical Staff Vice-President (incoming President-designate) |
| Dennis G. O'Neill, MD | Medical Staff Member, Former Seller Trustee |
| Barbara Phillips, MD | Medical Staff Member, Former Seller Trustee |
| Irene Quong-Conlon | Community Member |
| Thomas M. Reardon | Prospect Representative |
| Vacant | Community Member -- Awaiting Vernon Mayor Recommendation |

**3. What members are the two community representatives and how were they chosen?**

In accordance with the requirements of Stipulation #20, ECHN representatives and later Prospect ECHN representatives consulted with Town of Manchester Mayor Jay Moran and Town of Vernon Mayor Daniel Champagne to request their recommendations for individuals to serve as the community representatives for their respective towns.

Per Stipulation #20, the requirements for the position are "two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively." In the case of Manchester, Mayor Moran recommended Ms. Mary Roche-Cronin, Director of Social Services for the Town of Manchester, for the Manchester community representative position. Because Ms. Roche-Cronin met the qualifications listed in Stipulation #20 Prospect ECHN accepted Mayor Moran's recommendation and selected Ms. Roche-Cronin for the Manchester community representative role.

In the case of Vernon, as of this date Prospect ECHN has not received a recommendation from Mayor Champagne of an "unbiased person" who will "fairly represent the interests of the communit[y] served by RGH". Mayor Champagne did make one recommendation, but Prospect ECHN advised him that the individual did meet the requirement of Stipulation #20 for an "unbiased person". No subsequent recommendation has been received from the Mayor of Vernon.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**4. Fully explain how the Mayors of Manchester and Vernon were consulted in the selection of these two community representatives.**

ECHN representatives met in person with each of the Mayors, described the roles of the community members, discussed the composition of the Local Board, and solicited their recommendations. These communications occurred both before and after the transaction between ECHN and Prospect, which closed on October 1, 2016. ECHN met with Mayor Moran on July 7, 2016 and he recommended Ms. Roche-Cronin on July 25, 2016. ECHN met with Mayor Champagne on July 11, 2016, and Prospect ECHN met with him on October 12, 2016, November 3, 2016, and most recently on January 31, 2017.

**5. Have any joint Board meetings been held as yet, per Stipulation #19? Have any Local Board meetings occurred at all since the transfer of ownership. If so, please submit the related meeting minutes.**

Prospect ECHN had one informal introductory meeting with the Local Board members on October 10, 2016, followed by meetings on November 16, 2016, December 14, 2016 and January 25, 2017. Because the October 10, 2016 meeting was a "meet and greet" there are no minutes. The minutes for the November and December meetings are attached, with confidential information regarding ongoing strategic initiatives redacted. The minutes for the January meeting are not available as of the current date. Prospect ECHN has not yet conducted a joint Board meeting per Stipulation #19.

**6. If Prospect ECHN has rejected any candidates to be the community representatives, identify such candidates and explain why they were not selected.**

As indicated above, Prospect ECHN received and approved one recommended candidate for the Town of Manchester, and that person currently sits on the Local Board. Prospect ECHN received one recommendation from the Town of Vernon, which it rejected for the reasons indicated in the response to Question 3. That person's name is Ellen Marmer, MD. Prospect ECHN has asked for additional recommendations from the Mayor of the Town of Vernon on a number of occasions, but to date has not received any.

Thank you for your consideration of this submission.

Very truly yours,

Michael Collins
Interim CEO

ADVISORY BOARDSMEETING MINUTES

**MEETING:** **ADVISORY BOARD**
**DATE:** December 14, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 8:54 a.m.

**TRUSTEES PRESENT:** M. Maher, Suede, MD (Chairman); Michael Collins; M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Barbara. Phillips, MD;

**MANAGEMENT PRESENT:** Nina Kruse; Katherine Mon; Mary Powers; Linda Quirici; Joel Reich; Todd Rose; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** Joy Dorin; Dennis O'Neill, MD; Thomas Reardon

With a quorum present, Dr. Suede convened the meeting at 7:30 a.m. He thanked the members of the board his election as Chairman of the Advisory Board. He addressed the board about his commitment to the organization during a very exciting and crucial time. The primary goal is to continue to improve patient safety, patient outcomes and the overall patient experience in order to remain strong and competitive as well as improve the perception of Prospect ECHN in the community.

1. **Safety Moment**

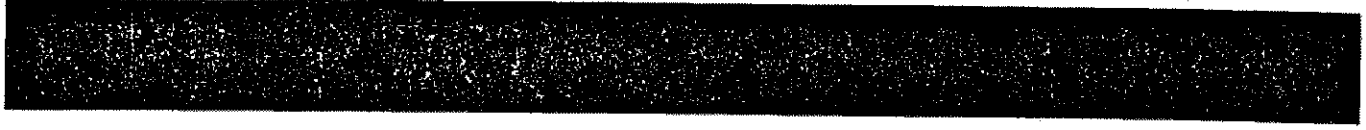
**DISCUSSION:** Ms. Quirici stated that the quality goals for 2017 are in the final stages of the approval process. She shared the results of the 2016 quality goals. The Serious Safety Event Rate (SSER) ended at zero for RGH and has maintained a zero rating into FY2017. Falls with serious injuries ended at zero for both hospitals. Catheter-associated Urinary Tract Infection (CAUTI) rate remains at zero at both hospitals. There has been significant drop in surgical site infections (SSI) at both hospitals during the month of October and November 2016 from FY2015 and FY2016. She noted that for October 2015 the SSI rate was 9 versus 3 for October 2016. November 2015 SSI rate was 10 versus 1 for October 2016. The CAUTI program is in place and continued improvements are anticipated.

2. **Approval of Minutes of November 16, 2016**

**DISCUSSION:** The members of the Board reviewed the minutes of November 16, 2016. A motion was made and seconded.

**ACTION:** **VOTED to approve the minutes of November 16, 2016 as presented.**

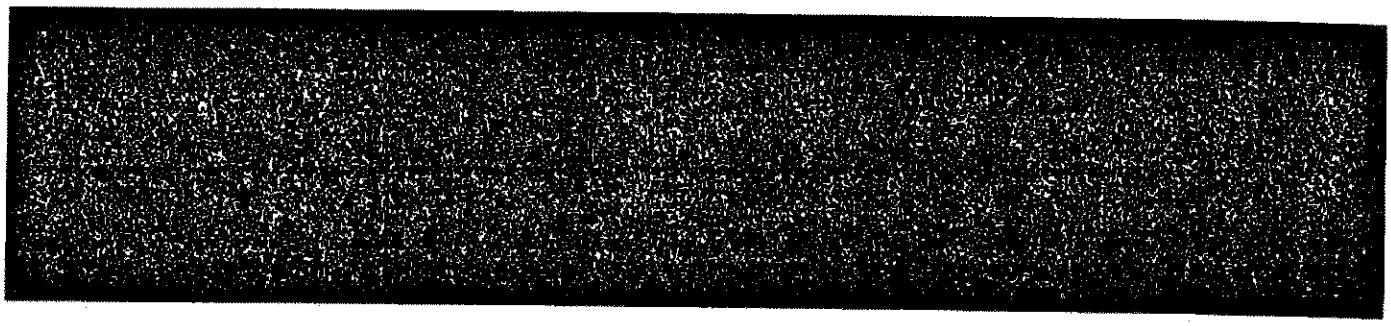
3. **Proposed Bylaw Amendment Discussion**



**DISCUSSION:** The role of the Advisory Board remains in a development phase. Prospect is evaluating the governance processes for its Advisory Boards to determine if common practices can be implemented consistent with regulatory requirements such as those of The Joint Commission (TJC). The Advisory Boards generally advise upon matters that affect the community, including medical staff appointments and quality initiatives. The Prospect ECHN Advisory Board's scope may be expanded to include Prospect ECHN Eldercare Services, Inc. and Prospect ECHN Home Health, Inc., potentially to include review and approval of the Woodlake at Tolland (WAT) medical staff credentials as well as quality oversight for both WAT and the Visiting Nurse and Health Services of CT. In the interim the WAT credentials will be sent directly to the parent board for approval.

4. **Medical Executive Committee Minutes and Approval of Medical Staff Credentials**

**DISCUSSION:** The Medical Executive Committee minutes of November 8, 2016 were included in the packet for informational purposes. Dr. Suede announced the approval of a nurse driven protocol related to the catheter removal processes. The new protocol allows the nurse to determine patient qualification for catheter removal without physician orders. An update on secure texting and emailing patient health information (PHI) was provided at the MEC meeting. A new feature "patient status order notification" will be added to the Care Thread rollout. A workgroup has been established to update personalized order sets on Meditech.



There were no Medical Staff Credentials presented for approval.

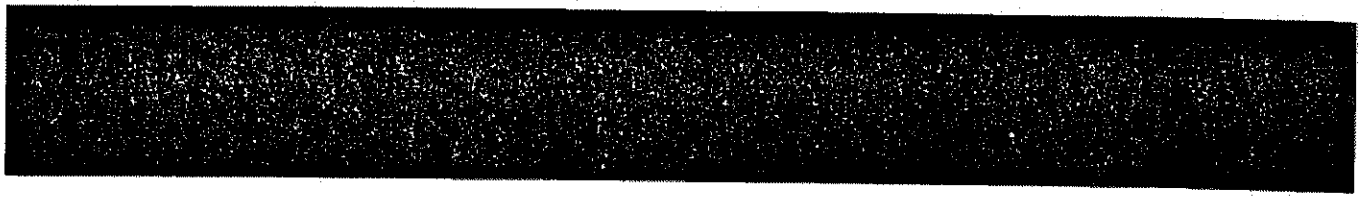
6. **Chief Executive Officer's Report**

Ms. Kruse provided an overview of the Marketing and Communications Strategy for 2017 for the following program categories:

Service line marketing; ECHN brand development; digital, radio and Pandora advertisements, community education programs and promotions; employee and medical staff communications and community outreach liaison program. The outreach liaison program is a model developed by Prospect that will be an extension of the Marketing Department. Two individuals will be developing relationships with skilled nursing facilities, assisted living, and community providers to ensure patients experience a smooth transition to acute care hospitals and ultimately enhance the referral base.

In 2017 the marketing team will focus its efforts on website functionality, imagery and calls to action; digital media placement; identifying synergies with Waterbury Hospital; local non-profit and chamber support, service line and brand printed collateral; print advertising for community health education programs; community relations and coffee connections programs; media relations; and community outreach liaisons to enhance the promotion of our services across the ECHN network. Discussion followed regarding goals, advertising resources and referral strategies to help increase market share.

A question arose regarding the status of the new community charitable foundation and partnering opportunities. Ms. Kruse reported that the members have been identified and that a meeting is planned for some time in mid-January 2017, at which time the group will begin the organizational processes. The ECHN Community HealthCare Foundation continues to operate under the oversight of the Legacy ECHN Board of Trustees. Once the new foundation has been established the moneys allocated to the new entity will be transferred. It was noted that ECHN cannot be a beneficiary of fund distributions from the new entity. It was also noted that ECHN could coordinate events to contribute to the new foundation.



**7. Quality Report**

**a.** Quality Assurance & Performance Improvement (QAPI) FY2017 Plans/FY2017 Goals

**DISCUSSION:** The FY2017 Quality Assurance & Performance Improvement Plans and Goals have been completed. These items were approved by the QAPIC and will be presented to the MEC for approval on January 10, 2017. Final approval will be sought by the Advisory Boards at its next meeting on January 25, 2017.

Ms. Quirici highlighted some of the performances through August 2016 for both MMH and RGH related to patient experience (HCAHPS); Medicare spend per beneficiary; patient safety indicators (PSI) – 90; surgical site infections; central line associated blood stream infection (CLABSI); Clostridium Difficile (C-Diff); Readmissions; Timeliness of Care; falls with serious injury; influenza immunization; serious safety event rate; and stroke measures. These measures were selected to enhance patient care and are monitored by regulatory agencies for reimbursement purposes. Programs are in place to provide staff education and certification related to patient experience. A Sepsis program will go live in January 2017.

ECHN is focused on improving the patient and care giver centered experience star rating by at least 1 star for 2017. This includes improvements in HCAHPS related to communications with nurses and communications with doctors. MMH is currently at a 2 star rating, while RGH is at a 3 star rating. RGH is above achievement thresholds for communication with nurses; Medicare-spend per beneficiary. MMH is positive to achievement thresholds for PSI-90 and C-Diff. Ms. Quirici noted that although abdominal hysterectomy site infections are above thresholds, there has been considerable improvement, with 1 incident through August 2016 versus 6 incidents last year at this time. She also noted that there have been no falls with serious injuries at either hospital. There are 11 stroke measures being monitors of which 8 of 11 are at 100% for MMH and 9 of 11 are at 100% for RGH which is ahead of benchmarks at 90%. A question arose regarding employee satisfaction, which has a strong impact on patient experience. A new survey is planned for some time in late February/early March 2017. A question and answer period followed. The Board has requested a report identifying occurrences of unsafe staffing levels. Ms. Powers provided an overview of the unsafe staffing reporting mechanism that is currently in place and the standard plan of action. A per diem float pool initiative is underway to help address staffing shortages. A certified nursing assistant float pool has also been implemented. Flex positions are being reevaluated and adjusted to address staffing concerns. A staffing plan must be reported to the State of Connecticut on an annual basis to include an action plan for staffing needs.

[redacted]

**9. Next Meeting/Adjourment**

**DISCUSSION:** Mr. Collins thanked the members of the board for attending. He noted that the Advisory Board members are advocates for the communities that ECHN services and encouraged them to contact himself or any member of senior leadership any questions or concerns. He wished everyone Happy Holidays.

The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, January 25, 2017 at 7:30 a.m. in the MMH CR A, B & C.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo
Recording Secretary

Irene Quong Conlon
Board Secretary

ADVISORY BOARDSMEETING MINUTES

**MEETING:** **ANNUAL MEETING OF THE ADVISORY BOARD**
**DATE:** November 16, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 9:09 a.m.

**TRUSTEES PRESENT:** Michael Collins (Interim CEO); M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney (T); Joy Dorin; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Dennis O'Neill, MD; , Barbara. Phillips, MD; David Topper

**MANAGEMENT PRESENT:** Dennis McConville; Mary Powers; Linda Quirici; Joel Reich; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** M. Maher, Suede, MD

**GUEST:** Deborah Berry, Chief Quality Officer, Prospect Medical Holdings (Prospect)
Garrison De Lee, Corporate Counsel, Prospect (T)
Thomas Reardon, President Prospect Medical Holdings East

With a quorum present, Mr. Collins serving as interim Chairman in lieu of elections convened the meeting at 7:33 a.m. He welcomed Ms. Berry and Messrs. De Lee, Reardon and Topper to the meeting. Formal introductions followed.

**1. Proposed Amendment to Bylaws**

**DISCUSSION:** Mr. Topper stated that he is excited about the opportunity to work with ECHN and is looking forward to a long relationship. Due to logistical challenges, including potential travel delays and time zone differences he will step down from his role on the Advisory Board and advised that Thomas Reardon would take his place as a Prospect representative. Mr. Topper expressed the hope that he would remain engaged with the Advisory Board by participating in its meetings as a guest from time to time. He was encouraged to do so to as an excellent means of maintaining ties between the local Prospect ECHN community and Prospect's leadership. A motion was made and seconded.

**ACTION:** **VOTED to acknowledge the resignation of David Topper as Prospect Representative on the joint Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Boards, and to acknowledge the election of Thomas M. Reardon as Prospect Representative as ex-officio member with vote.**

Amendments to the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws were presented for approval and recommendation to the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors. The purpose of such amendments is to revise the composition of the Advisory Board so as to include the President of the Medical Staff as a standing member. It was noted that this Advisory Board Bylaws change would reinforce Prospect's strong commitment to physician participation in the work of the Advisory Board. A motion was made and seconded.

**ACTION:** **VOTED to approve the amendments to Section 2/Composition of the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws to change the composition of the Advisory Boards for these entities to include the President of the Medical Staff, and to recommend approval of same by the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors.**

Additional amendments are being considered to the Advisory Board Bylaws in order to include Prospect ECHN ElderCare Services, Inc. d/b/a Woodlake at Tolland Rehabilitation and Nursing Center (WAT) as an additional entity under Advisory Board oversight, which would allow for Advisory Board review and approval of the Woodlake at Tolland Medical Staff Appointments and quality matters. This change is under review from a corporate governance perspective. It was noted that the Advisory Board is fortunate to have Mr. Kloter as a member of the Advisory Board, as he has been a champion for post- acute care services. A brief discussion followed regarding staff participation from WAT and Prospect ECHN Home Health, Inc. d/b/a Visiting Nurse and Health Services of Connecticut, Inc. as both of these entities are involved in quality initiatives. This proposal will be presented to the incoming Board Chairman for consideration.

**2. Board Questionnaire/Non-Disclosure, Code of Conduct and Confidentiality Statement**

**DISCUSSION:** The Board Questionnaire/Non-Disclosure, Code of Conduct and the Confidentiality Statement were included in the meeting packets for completion. Members of the Advisory Board were asked to forward the completed forms to Ms. Perigo, and to direct questions Ms. Tichy or Ms. Perigo. Suggested corrections will be made to the form. A revised document will be sent to Advisory Board members.

**3. Nomination and Vote of Officers and Terms**

**DISCUSSION:** The floor was opened for nominations for the election of Advisory Board officers. M. Maher Suede, MD was nominated as Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions or share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect M. Maher Suede, MD as Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for nominations of Vice Chairman. Eric L. Kloter was nominated to serve as Vice Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect Eric L. Kloter, as Vice Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for the nominations of Secretary. Irene Quong Conlon was nominated to serve as Board Secretary. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

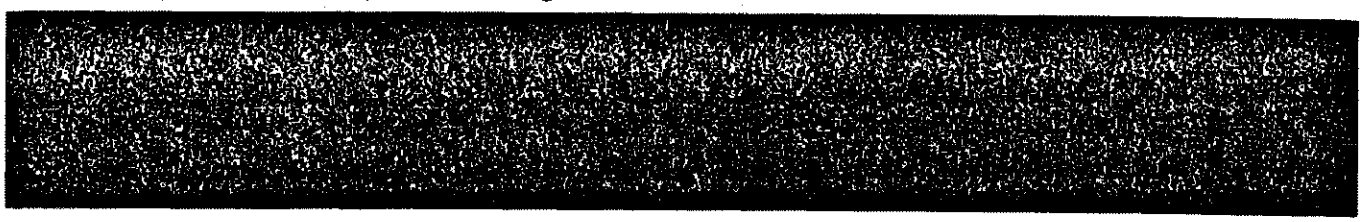
**ACTION:** **VOTED unanimously to elect Irene Quong Conlon as Secretary of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

Discussion followed regarding setting the Advisory Board member terms in accordance with Section 5 of the Local Advisory Board portion of the Prospect Manchester Hospital and the Prospect Rockville Hospital Bylaws. Mr. Collins read the list of terms attached as Exhibit A, which reflected prior discussions with each member regarding their desired length of term. It was noted that all are eligible for re-election at the conclusion of their initial term. Terms are effective as of the date of the Annual Meeting duly held on November 16, 2016. A question and answer period followed.

**4. Review of Board Responsibilities**

**DISCUSSION:** The Local Advisory Boards are responsible for quality, medical staff credentialing and capital expenditure oversight. Appointments, reappointments and status changes of the Manchester and Rockville hospitals medical staff will be presented to the board for review in approval and will include an application checklist of the new physician. The completed files for each candidate are available for Board member review in the Office of Medical Affairs. Board members are also encouraged to make inquiries about the candidates at meetings or by contacting Dr. Reich or Mr. Collins. Capital Expenditures will be reviewed monthly.

**5. Medical Executive Committee Minutes and Approval of Medical Staff Credentials**

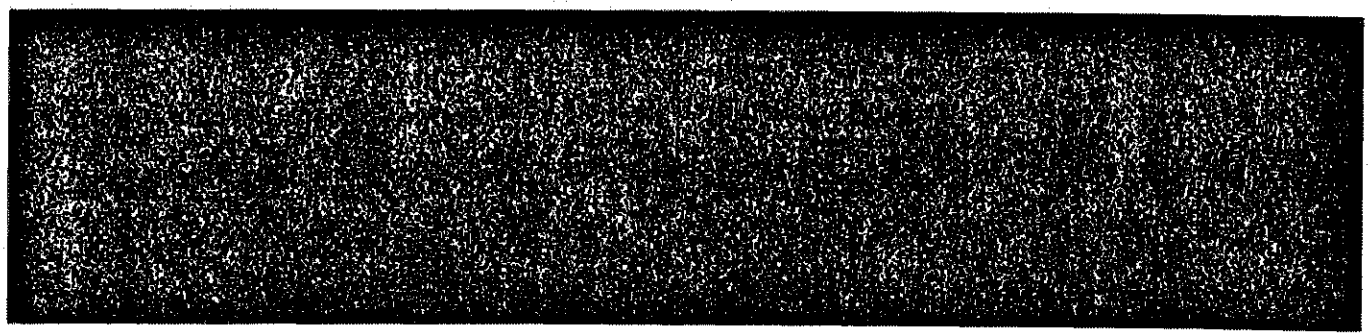


**DISCUSSION:** The Medical Executive Committee minutes of October 11, 2016 were included in the packet for informational purposes. The Board of Directors were provided an overview of the Medical Staff and Allied Health Professional Staff Credentialing process utilized to ensure qualified candidates meet hospital requirements and all regulatory and accreditation requirements set forth by the State of Connecticut Department of Public Health (DPH), the Centers for Medicare and Medicaid Services (CMS), the Joint Commission (TJC) and the Accreditation Council for Graduate Medical Education/American Osteopathic Association (ACGME/AOA). Once applications have been approved by the service chief and/or department chair; a three step approval process is conducted by the Credentials Committee, the MEC and finally by the governing board. A member of the Advisory Boards would serve on the Credentials Committee and have an integral part of the review process. A summary of the verification and post-verification process was provided and included a sample of the Medical Staff Membership and Privileges Application Checklists for various purposes.

Members of the Board reviewed the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016. A brief discussion followed regarding the approval process. Once the credentials have been approved by the Advisory Boards they will be forwarded to the Prospect fiduciary boards for final approval by virtue of unanimous consent. Timing of the approval process is a key factor as not all candidates qualify for temporary privileges. Approvals should be completed by the last day of the current month in order to meet regulatory requirements. Copies of the signed unanimous consents from Prospect will be kept in the Advisory Boards meeting binder for permanent record. A motion was made and seconded.

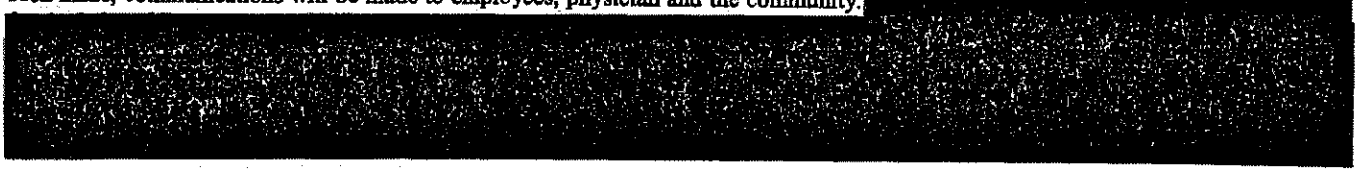
**ACTION:** **VOTED unanimously to approve the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016 as presented and recommend approval by the Prospect Manchester Hospital and Prospect Rockville Board of Directors.**

6. **Chief Executive Officer's Report**



**DISCUSSION:** Mr. Collins stated that ECHN has been a community based health system for some time and he encouraged removal of the preference of individual identifiers (i.e. Rockville, Manchester, VNHSC etc.) in lieu of ECHN. He recently shared his observations at Employee Forums held in mid-October through early November 2016 and expressed his desire for employees to embrace a "TEAM" view of the system as a whole, rather than individual counterparts. No counterpart within the system would be successful without the others. Employee Forums throughout the system were relatively positive. Reporting mechanisms are being re-evaluated to ensure that issues across the system are being addressed by the appropriate senior leadership member. For example, nursing issues at any of the ECHN facilities would be handled by the Chief Nursing Officer.

A question arose regarding outreach to physicians for patient referrals and an outreach to the patient population. A concierge program, which has been very successful in California, is underway. An overview of the concierge roles and responsibilities to include community outreach was provided. A candidate has been identified and will begin employment in two weeks. The individual will be introduced to the Medical Staff at its next meeting on December 13, 2016. A second concierge position will be filled in the subsequent weeks. A marketing strategy is under development to include advertising of community events in the local media, ECHN's website as well as digital and radio advertising. The Better Being publication is mailed to over 155,000 homes bi-annually and is a vehicle for announcing the community health education programs. It was noted that the best form of advertising is the patient experience. The Vice President of Corporate Communications & Public Affairs provide an update at the next meeting. A question and answer period followed.



7. **Annual Performance Improvement Plans**

**DISCUSSION:** The FY2017 Plans (Performance Improvement, Patient Experience, Patient Safety and Risk Management) and the FY2017 Quality Assurance & Performance Improvement (QAPI) Goals have been completed. These items have been submitted to QAPIC for review and approval. The FY2017 plans and FY2017 goals will then be presented to the MEC for approval. Final approval will be sought by the Advisory Boards at its next meeting on December 14, 2016. A Patient/Family Council, endorsed by the Connecticut Hospital Association (CHA), is being developed that will enhance the patient experience process and improve upon quality and safety.

9. **Capital Review**

**DISCUSSION:** Clinical leaders have been diligently reviewing, evaluating and prioritizing capital requests that have been submitted over the past several years. A list of priority items was provided by category which include: investments to address compliance with regulations for licensure and accreditation; those that provide a return on investment or preservation of revenue; investments that impact patient, physician and/or employee satisfaction ("Splash" capital); and items that are at the end of their useful life. Regulatory licensure inspections were conducted by the CT Department of Public Health at Manchester Hospital, Rockville Hospital, Woodlake at Tolland, 460 Tolland Turnpike and 150 North Main as required for the transaction. Plans of correction were submitted to DPH as a result of the inspections which commit ECHN to engage consultants to conduct studies of building conditions, i.e. heating and ventilation systems, electrical systems, roofs, furnishings and finishes. From those studies, ECHN will need to submit additional plans to DPH that identify work to correct deficiencies. While those plans are being produced, requests for initial "splash" capital investments will be submitted with input from physicians for items that address technology and equipment needed for their specialties. Once splash capital investments have been made, communications will be made to employees, physician and the community.

Mr. Reardon left the meeting at 8:51 a.m.

**10. Next Meeting/Adjournment**

**DISCUSSION:** The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, December 14, 2016 at 7:30 a.m. in the MMH CR A, B & C. The calendar of meetings for 2017 was included in the packet for informational purposes. These dates have been posted on the BoardEffect Portal.

Dr. O'Neill stated that it has been approximately 6 ½ weeks since the closing of the transaction and although Mr. Collins had been onsite as Chief Integration Officer, his position as Interim CEO was abrupt due to the precipitous departure of the former CEO. Feedback from the medical staff, hospital staff and the senior management team has been very positive. He commended Mr. Collins for the work his is doing and the current state of the organization.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo
Recording Secretary

Irene Quong Cenlon
Board Secretary

Dear Kim:

After Ms. MacDonald emailed to you at 4:17 pm today the letter from Michael Collins, Interim CEO, that you requested regarding Stipulation #20, we discovered a typographical error that requires correction. Please disregard that letter and replace it with the correct letter that I have attached.

We will also be sending a hard copy of the correct letter to you via regular mail, to replace the incorrect version that we placed in the mail earlier today.

Regards,

Dennis

Re: Compliance with Stipulation #20

Dear Ms. Martone:

I am in receipt of your email communication dated February 15, 2017 in which you requested certain information relating to Stipulation #20 of the Certificate of Need listed under Docket #15-32016-486. Below are the responses of Prospect ECHN to the questions set forth in that email.

1. **Has the Local Board been selected and what was the selection process?**

   Yes, the Local Board has been selected. The members of the Local Board were selected by Prospect ECHN in accordance with the requirements the Asset Purchase Agreement dated August 24, 2016 between ECHN as Seller and Prospect Medical Holdings as Buyer, which states as follows:

   > Local Board means the advisory board of each Hospital composed of community representatives, physicians on the respective Hospital's medical staff, and the Chief Executive Officer of each respective Hospital (for avoidance of doubt, each Hospital shall have its own Local Board). The initial members of the Local Board shall include at least five members of the Seller's Board of Trustees immediately prior to Closing and five other individuals identified by the Seller prior to Closing, two of whom shall be members of the community appointed in consultation with the mayor of the town in which the respective Hospital is located.

   Please note that the two Hospital Boards meet contemporaneously and have the same members, in recognition of the fact that Manchester Memorial Hospital and Rockville General Hospital function as an integrated system within Prospect ECHN.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**2. List the names and related information for each member of the Local Board.**

The names and roles of the individuals on the Local Board are:

| Name | Role |
|---|---|
| M. Maher Suede, MD | Medical Staff President, Former Seller Trustee |
| M. Saud Anwar, MD | Medical Staff Member |
| Michael Collins | Interim Chief Executive Officer |
| Mary Roche-Cronin | Community Member Recommended by Manchester Mayor |
| Molly C. Devanney | Community Member |
| Joy W. Dorin | Community Member, Former Seller Trustee |
| Eric L. Kloter | Community Member, Former Seller Trustee |
| Pamela Lewis, MD | Former Seller Trustee, Medical Staff Member |
| Saqib Naseer, MD | Medical Staff Vice-President (incoming President-designate) |
| Dennis G. O'Neill, MD | Medical Staff Member, Former Seller Trustee |
| Barbara Phillips, MD | Medical Staff Member, Former Seller Trustee |
| Irene Quong-Conlon | Community Member |
| Thomas M. Reardon | Prospect Representative |
| Vacant | Community Member -- Awaiting Vernon Mayor Recommendation |

**3. What members are the two community representatives and how were they chosen?**

In accordance with the requirements of Stipulation #20, ECHN representatives and later Prospect ECHN representatives consulted with Town of Manchester Mayor Jay Moran and Town of Vernon Mayor Daniel Champagne to request their recommendations for individuals to serve as the community representatives for their respective towns.

Per Stipulation #20, the requirements for the position are "two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively." In the case of Manchester, Mayor Moran recommended Ms. Mary Roche-Cronin, Director of Social Services for the Town of Manchester, for the Manchester community representative position. Because Ms. Roche-Cronin met the qualifications listed in Stipulation #20 Prospect ECHN accepted Mayor Moran's recommendation and selected Ms. Roche-Cronin for the Manchester community representative role.

In the case of Vernon, as of this date Prospect ECHN has not received a recommendation from Mayor Champagne of an "unbiased person" who will "fairly represent the interests of the communit[y] served by RGH". Mayor Champagne did make one recommendation, but Prospect ECHN advised him that the individual did not meet the requirement of Stipulation #20 for an "unbiased person". No subsequent recommendation has been received from the Mayor of Vernon.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**4. Fully explain how the Mayors of Manchester and Vernon were consulted in the selection of these two community representatives.**

ECHN representatives met in person with each of the Mayors, described the roles of the community members, discussed the composition of the Local Board, and solicited their recommendations. These communications occurred both before and after the transaction between ECHN and Prospect, which closed on October 1, 2016. ECHN met with Mayor Moran on July 7, 2016 and he recommended Ms. Roche-Cronin on July 25, 2016. ECHN met with Mayor Champagne on July 11, 2016, and Prospect ECHN met with him on October 12, 2016, November 3, 2016, and most recently on January 31, 2017.

**5. Have any joint Board meetings been held as yet, per Stipulation #19? Have any Local Board meetings occurred at all since the transfer of ownership. If so, please submit the related meeting minutes.**

Prospect ECHN had one informal introductory meeting with the Local Board members on October 10, 2016, followed by meetings on November 16, 2016, December 14, 2016 and January 25, 2017. Because the October 10, 2016 meeting was a "meet and greet" there are no minutes. The minutes for the November and December meetings are attached, with confidential information regarding ongoing strategic initiatives redacted. The minutes for the January meeting are not available as of the current date. Prospect ECHN has not yet conducted a joint Board meeting per Stipulation #19.

**6. If Prospect ECHN has rejected any candidates to be the community representatives, identify such candidates and explain why they were not selected.**

As indicated above, Prospect ECHN received and approved one recommended candidate for the Town of Manchester, and that person currently sits on the Local Board. Prospect ECHN received one recommendation from the Town of Vernon, which it rejected for the reasons indicated in the response to Question 3. That person's name is Ellen Marmer, MD. Prospect ECHN has asked for additional recommendations from the Mayor of the Town of Vernon on a number of occasions, but to date has not received any.

Thank you for your consideration of this submission.

Very truly yours,

Michael Collins
Interim CEO

## ADVISORY BOARDSMEETING MINUTES

**MEETING:** ANNUAL MEETING OF THE ADVISORY BOARD
**DATE:** November 16, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 9:09 a.m.

**TRUSTEES PRESENT:** Michael Collins (Interim CEO); M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney (T); Joy Dorin; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Dennis O'Neill, MD; , Barbara. Phillips, MD; David Topper

**MANAGEMENT PRESENT:** Dennis McConville; Mary Powers; Linda Quirici; Joel Reich; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** M. Maher, Suede, MD

**GUEST:** Deborah Berry, Chief Quality Officer, Prospect Medical Holdings (Prospect)
Garrison De Lee, Corporate Counsel, Prospect (T)
Thomas Reardon, President Prospect Medical Holdings East

With a quorum present, Mr. Collins serving as interim Chairman in lieu of elections convened the meeting at 7:33 a.m. He welcomed Ms. Berry and Messrs. De Lee, Reardon and Topper to the meeting. Formal introductions followed.

1. **Proposed Amendment to Bylaws**

**DISCUSSION:** Mr. Topper stated that he is excited about the opportunity to work with ECHN and is looking forward to a long relationship. Due to logistical challenges, including potential travel delays and time zone differences he will step down from his role on the Advisory Board and advised that Thomas Reardon would take his place as a Prospect representative. Mr. Topper expressed the hope that he would remain engaged with the Advisory Board by participating in its meetings as a guest from time to time. He was encouraged to do so to as an excellent means of maintaining ties between the local Prospect ECHN community and Prospect's leadership. A motion was made and seconded.

**ACTION:** **VOTED to acknowledge the resignation of David Topper as Prospect Representative on the joint Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Boards, and to acknowledge the election of Thomas M. Reardon as Prospect Representative as ex-officio member with vote.**

Amendments to the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws were presented for approval and recommendation to the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors. The purpose of such amendments is to revise the composition of the Advisory Board so as to include the President of the Medical Staff as a standing member. It was noted that this Advisory Board Bylaws change would reinforce Prospect's strong commitment to physician participation in the work of the Advisory Board. A motion was made and seconded.

**ACTION:** **VOTED to approve the amendments to Section 2/Composition of the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws to change the composition of the Advisory Boards for these entities to include the President of the Medical Staff, and to recommend approval of same by the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors.**

Additional amendments are being considered to the Advisory Board Bylaws in order to include Prospect ECHN ElderCare Services, Inc. d/b/a Woodlake at Tolland Rehabilitation and Nursing Center (WAT) as an additional entity under Advisory Board oversight, which would allow for Advisory Board review and approval of the Woodlake at Tolland Medical Staff Appointments and quality matters. This change is under review from a corporate governance perspective. It was noted that the Advisory Board is fortunate to have Mr. Kloter as a member of the Advisory Board, as he has been a champion for post- acute care services. A brief discussion followed regarding staff participation from WAT and Prospect ECHN Home Health, Inc. d/b/a Visiting Nurse and Health Services of Connecticut, Inc. as both of these entities are involved in quality initiatives. This proposal will be presented to the incoming Board Chairman for consideration.

2. **Board Questionnaire/Non-Disclosure, Code of Conduct and Confidentiality Statement**

**DISCUSSION:** The Board Questionnaire/Non-Disclosure, Code of Conduct and the Confidentiality Statement were included in the meeting packets for completion. Members of the Advisory Board were asked to forward the completed forms to Ms. Perigo, and to direct questions Ms. Tichy or Ms. Perigo. Suggested corrections will be made to the form. A revised document will be sent to Advisory Board members.

3. **Nomination and Vote of Officers and Terms**

**DISCUSSION:** The floor was opened for nominations for the election of Advisory Board officers. M. Maher Suede, MD was nominated as Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions or share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect M. Maher Suede, MD as Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for nominations of Vice Chairman. Eric L. Kloter was nominated to serve as Vice Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect Eric L. Kloter, as Vice Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for the nominations of Secretary. Irene Quong Conlon was nominated to serve as Board Secretary. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect Irene Quong Conlon as Secretary of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

Discussion followed regarding setting the Advisory Board member terms in accordance with Section 5 of the Local Advisory Board portion of the Prospect Manchester Hospital and the Prospect Rockville Hospital Bylaws. Mr. Collins read the list of terms attached as Exhibit A, which reflected prior discussions with each member regarding their desired length of term. It was noted that all are eligible for re-election at the conclusion of their initial term. Terms are effective as of the date of the Annual Meeting duly held on November 16, 2016. A question and answer period followed.

4. **Review of Board Responsibilities**

**DISCUSSION:** The Local Advisory Boards are responsible for quality, medical staff credentialing and capital expenditure oversight. Appointments, reappointments and status changes of the Manchester and Rockville hospitals medical staff will be presented to the board for review in approval and will include an application checklist of the new physician. The completed files for each candidate are available for Board member review in the Office of Medical Affairs. Board members are also encouraged to make inquiries about the candidates at meetings or by contacting Dr. Reich or Mr. Collins. Capital Expenditures will be reviewed monthly.

5. **Medical Executive Committee Minutes and Approval of Medical Staff Credentials**

**DISCUSSION:** The Medical Executive Committee minutes of October 11, 2016 were included in the packet for informational purposes. The Board of Directors were provided an overview of the Medical Staff and Allied Health Professional Staff Credentialing process utilized to ensure qualified candidates meet hospital requirements and all regulatory and accreditation requirements set forth by the State of Connecticut Department of Public Health (DPH), the Centers for Medicare and Medicaid Services (CMS), the Joint Commission (TJC) and the Accreditation Council for Graduate Medical Education/American Osteopathic Association (ACGME/AOA). Once applications have been approved by the service chief and/or department chair; a three step approval process is conducted by the Credentials Committee, the MEC and finally by the governing board. A member of the Advisory Boards would serve on the Credentials Committee and have an integral part of the review process. A summary of the verification and post-verification process was provided and included a sample of the Medical Staff Membership and Privileges Application Checklists for various purposes.

Members of the Board reviewed the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016. A brief discussion followed regarding the approval process. Once the credentials have been approved by the Advisory Boards they will be forwarded to the Prospect fiduciary boards for final approval by virtue of unanimous consent. Timing of the approval process is a key factor as not all candidates qualify for temporary privileges. Approvals should be completed by the last day of the current month in order to meet regulatory requirements. Copies of the signed unanimous consents from Prospect will be kept in the Advisory Boards meeting binder for permanent record. A motion was made and seconded.

**ACTION:** **VOTED unanimously to approve the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016 as presented and recommend approval by the Prospect Manchester Hospital and Prospect Rockville Board of Directors.**

6. **Chief Executive Officer's Report**

**DISCUSSION:** Mr. Collins stated that ECHN has been a community based health system for some time and he encouraged removal of the preference of individual identifiers (i.e. Rockville, Manchester, VNHSC etc.) in lieu of ECHN. He recently shared his observations at Employee Forums held in mid-October through early November 2016 and expressed his desire for employees to embrace a "TEAM" view of the system as a whole, rather than individual counterparts. No counterpart within the system would be successful without the others. Employee Forums throughout the system were relatively positive. Reporting mechanisms are being re-evaluated to ensure that issues across the system are being addressed by the appropriate senior leadership member. For example, nursing issues at any of the ECHN facilities would be handled by the Chief Nursing Officer.

[redacted]

A question arose regarding outreach to physicians for patient referrals and an outreach to the patient population. A concierge program, which has been very successful in California, is underway. An overview of the concierge roles and responsibilities to include community outreach was provided. A candidate has been identified and will begin employment in two weeks. The individual will be introduced to the Medical Staff at its next meeting on December 13, 2016. A second concierge position will be filled in the subsequent weeks. A marketing strategy is under development to include advertising of community events in the local media, ECHN's website as well as digital and radio advertising. The Better Being publication is mailed to over 155,000 homes bi-annually and is a vehicle for announcing the community health education programs. It was noted that the best form of advertising is the patient experience. The Vice President of Corporate Communications & Public Affairs provide an update at the next meeting. A question and answer period followed.

7. **Annual Performance Improvement Plans**

**DISCUSSION:** The FY2017 Plans (Performance Improvement, Patient Experience, Patient Safety and Risk Management) and the FY2017 Quality Assurance & Performance Improvement (QAPI) Goals have been completed. These items have been submitted to QAPIC for review and approval. The FY2017 plans and FY2017 goals will then be presented to the MEC for approval. Final approval will be sought by the Advisory Boards at its next meeting on December 14, 2016. A Patient/Family Council, endorsed by the Connecticut Hospital Association (CHA), is being developed that will enhance the patient experience process and improve upon quality and safety.

[redacted]

9. **Capital Review**

**DISCUSSION:** Clinical leaders have been diligently reviewing, evaluating and prioritizing capital requests that have been submitted over the past several years. A list of priority items was provided by category which include: investments to address compliance with regulations for licensure and accreditation; those that provide a return on investment or preservation of revenue; investments that impact patient, physician and/or employee satisfaction ("Splash" capital); and items that are at the end of their useful life. Regulatory licensure inspections were conducted by the CT Department of Public Health at Manchester Hospital, Rockville Hospital, Woodlake at Tolland, 460 Tolland Turnpike and 150 North Main as required for the transaction. Plans of correction were submitted to DPH as a result of the inspections which commit ECHN to engage consultants to conduct studies of building conditions, i.e. heating and ventilation systems, electrical systems, roofs, furnishings and finishes. From those studies, ECHN will need to submit additional plans to DPH that identify work to correct deficiencies. While those plans are being produced, requests for initial "splash" capital investments will be submitted with input from physicians for items that address technology and equipment needed for their specialties. Once splash capital investments have been made, communications will be made to employees, physician and the community. [redacted]

## ADVISORY BOARDS MEETING MINUTES

**MEETING:** **ADVISORY BOARD**
**DATE:** December 14, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 8:54 a.m.

**TRUSTEES PRESENT:** M. Maher, Suede, MD (Chairman); Michael Collins; M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Barbara. Phillips, MD;

**MANAGEMENT PRESENT:** Nina Kruse; Katherine Mon; Mary Powers; Linda Quirici; Joel Reich; Todd Rose; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** Joy Dorin; Dennis O'Neill, MD; Thomas Reardon

With a quorum present, Dr. Suede convened the meeting at 7:30 a.m. He thanked the members of the board his election as Chairman of the Advisory Board. He addressed the board about his commitment to the organization during a very exciting and crucial time. The primary goal is to continue to improve patient safety, patient outcomes and the overall patient experience in order to remain strong and competitive as well as improve the perception of Prospect ECHN in the community.

1. **Safety Moment**

**DISCUSSION:** Ms. Quirici stated that the quality goals for 2017 are in the final stages of the approval process. She shared the results of the 2016 quality goals. The Serious Safety Event Rate (SSER) ended at zero for RGH and has maintained a zero rating into FY2017. Falls with serious injuries ended at zero for both hospitals. Catheter-associated Urinary Tract Infection (CAUTI) rate remains at zero at both hospitals. There has been significant drop in surgical site infections (SSI) at both hospitals during the month of October and November 2016 from FY2015 and FY2016. She noted that for October 2015 the SSI rate was 9 versus 3 for October 2016. November 2015 SSI rate was 10 versus 1 for October 2016. The CAUTI program is in place and continued improvements are anticipated.

2. **Approval of Minutes of November 16, 2016**

**DISCUSSION:** The members of the Board reviewed the minutes of November 16, 2016. A motion was made and seconded.

**ACTION:** **VOTED to approve the minutes of November 16, 2016 as presented.**

3. **Proposed Bylaw Amendment Discussion**

**DISCUSSION:** The role of the Advisory Board remains in a development phase. Prospect is evaluating the governance processes for its Advisory Boards to determine if common practices can be implemented consistent with regulatory requirements such as those of The Joint Commission (TJC). The Advisory Boards generally advise upon matters that affect the community, including medical staff appointments and quality initiatives. The Prospect ECHN Advisory Board's scope may be expanded to include Prospect ECHN Eldercare Services, Inc. and Prospect ECHN Home Health, Inc., potentially to include review and approval of the Woodlake at Tolland (WAT) medical staff credentials as well as quality oversight for both WAT and the Visiting Nurse and Health Services of CT. In the interim the WAT credentials will be sent directly to the parent board for approval.

4. **Medical Executive Committee Minutes and Approval of Medical Staff Credentials**

**DISCUSSION:** The Medical Executive Committee minutes of November 8, 2016 were included in the packet for informational purposes. Dr. Suede announced the approval of a nurse driven protocol related to the catheter removal processes. The new protocol allows the nurse to determine patient qualification for catheter removal without physician orders. An update on secure texting and emailing patient health information (PHI) was provided at the MEC meeting. A new feature "patient status order notification" will be added to the Care Thread rollout. A workgroup has been established to update personalized order sets on Meditech.

There were no Medical Staff Credentials presented for approval.

6. **Chief Executive Officer's Report**

[redacted]

Ms. Kruse provided an overview of the Marketing and Communications Strategy for 2017 for the following program categories:

Service line marketing; ECHN brand development; digital, radio and Pandora advertisements, community education programs and promotions; employee and medical staff communications and community outreach liaison program. The outreach liaison program is a model developed by Prospect that will be an extension of the Marketing Department. Two individuals will be developing relationships with skilled nursing facilities, assisted living, and community providers to ensure patients experience a smooth transition to acute care hospitals and ultimately enhance the referral base.

[redacted]

In 2017 the marketing team will focus its efforts on website functionality, imagery and calls to action; digital media placement; identifying synergies with Waterbury Hospital; local non-profit and chamber support, service line and brand printed collateral; print advertising for community health education programs; community relations and coffee connections programs; media relations; and community outreach liaisons to enhance the promotion of our services across the ECHN network. Discussion followed regarding goals, advertising resources and referral strategies to help increase market share.

A question arose regarding the status of the new community charitable foundation and partnering opportunities. Ms. Kruse reported that the members have been identified and that a meeting is planned for some time in mid-January 2017, at which time the group will begin the organizational processes. The ECHN Community HealthCare Foundation continues to operate under the oversight of the Legacy ECHN Board of Trustees. Once the new foundation has been established the moneys allocated to the new entity will be transferred. It was noted that ECHN cannot be a beneficiary of fund distributions from the new entity. It was also noted that ECHN could coordinate events to contribute to the new foundation.

7. **Quality Report**

a. Quality Assurance & Performance Improvement (QAPI) FY2017 Plans/FY2017 Goals

**DISCUSSION:** The FY2017 Quality Assurance & Performance Improvement Plans and Goals have been completed. These items were approved by the QAPIC and will be presented to the MEC for approval on January 10, 2017. Final approval will be sought by the Advisory Boards at its next meeting on January 25, 2017.

Ms. Quirici highlighted some of the performances through August 2016 for both MMH and RGH related to patient experience (HCAHPS); Medicare spend per beneficiary; patient safety indicators (PSI) – 90; surgical site infections; central line associated blood stream infection (CLABSI); Clostridium Difficile (C-Diff); Readmissions; Timeliness of Care; falls with serious injury; influenza immunization; serious safety event rate; and stroke measures. These measures were selected to enhance patient care and are monitored by regulatory agencies for reimbursement purposes. Programs are in place to provide staff education and certification related to patient experience. A Sepsis program will go live in January 2017.

ECHN is focused on improving the patient and care giver centered experience star rating by at least 1 star for 2017. This includes improvements in HCAHPS related to communications with nurses and communications with doctors. MMH is currently at a 2 star rating, while RGH is at a 3 star rating. RGH is above achievement thresholds for communication with nurses; Medicare-spend per beneficiary. MMH is positive to achievement thresholds for PSI-90 and C-Diff. Ms. Quirici noted that although abdominal hysterectomy site infections are above thresholds, there has been considerable improvement, with 1 incident through August 2016 versus 6 incidents last year at this time. She also noted that there have been no falls with serious injuries at either hospital. There are 11 stroke measures being monitors of which 8 of 11 are at 100% for MMH and 9 of 11 are at 100% for RGH which is ahead of benchmarks at 90%. A question arose regarding employee satisfaction, which has a strong impact on patient experience. A new survey is planned for some time in late February/early March 2017. A question and answer period followed. The Board has requested a report identifying occurrences of unsafe staffing levels. Ms. Powers provided an overview of the unsafe staffing reporting mechanism that is currently in place and the standard plan of action. A per diem float pool initiative is underway to help address staffing shortages. A certified nursing assistant float pool has also been implemented. Flex positions are being reevaluated and adjusted to address staffing concerns. A staffing plan must be reported to the State of Connecticut on an annual basis to include an action plan for staffing needs.

[redacted]

[redacted]

9. **Next Meeting/Adjourment**

**DISCUSSION:** Mr. Collins thanked the members of the board for attending. He noted that the Advisory Board members are advocates for the communities that ECHN services and encouraged them to contact himself or any member of senior leadership any questions or concerns. He wished everyone Happy Holidays.

The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, January 25, 2017 at 7:30 a.m. in the MMH CR A, B & C.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo
Recording Secretary

Irene Quong Conlon
Board Secretary

**10. Next Meeting/Adjourment**

**DISCUSSION:** The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, December 14, 2016 at 7:30 a.m. in the MMH CR A, B & C. The calendar of meetings for 2017 was included in the packet for informational purposes. These dates have been posted on the BoardEffect Portal.

Dr. O'Neill stated that it has been approximately 6 ½ weeks since the closing of the transaction and although Mr. Collins had been onsite as Chief Integration Officer, his position as Interim CEO was abrupt due to the precipitous departure of the former CEO. Feedback from the medical staff, hospital staff and the senior management team has been very positive. He commended Mr. Collins for the work his is doing and the current state of the organization.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo
Recording Secretary

Irene Quong Conlon
Board Secretary

## Olejarz, Barbara

**From:** Mcconville, Dennis P <dmcconville@echn.org>
**Sent:** Friday, February 17, 2017 6:22 PM
**To:** Martone, Kim
**Cc:** Olejarz, Barbara
**Subject:** Prospect ECHN, Inc. - Compliance with Stipulation #20 Response
**Attachments:** OHCA DPH Martone Kimberly 2-17-2017 CORRECTED.pdf

**Importance:** High

Dear Kim:

After Ms. MacDonald emailed to you at 4:17 pm today the letter from Michael Collins, Interim CEO, that you requested regarding Stipulation #20, we discovered a typographical error that requires correction. Please disregard that letter and replace it with the correct letter that I have attached.

We will also be sending a hard copy of the correct letter to you via regular mail, to replace the incorrect version that we placed in the mail earlier today.

Regards,

Dennis

Re: Compliance with Stipulation #20

Dear Ms. Martone:

I am in receipt of your email communication dated February 15, 2017 in which you requested certain information relating to Stipulation #20 of the Certificate of Need listed under Docket #15-32016-486. Below are the responses of Prospect ECHN to the questions set forth in that email.

1. **Has the Local Board been selected and what was the selection process?**

   Yes, the Local Board has been selected. The members of the Local Board were selected by Prospect ECHN in accordance with the requirements the Asset Purchase Agreement dated August 24, 2016 between ECHN as Seller and Prospect Medical Holdings as Buyer, which states as follows:

   > Local Board means the advisory board of each Hospital composed of community representatives, physicians on the respective Hospital's medical staff, and the Chief Executive Officer of each respective Hospital (for avoidance of doubt, each Hospital shall have its own Local Board). The initial members of the Local Board shall include at least five members of the Seller's Board of Trustees immediately prior to Closing and five other individuals identified by the Seller prior to Closing, two of whom shall be members of the community appointed in consultation with the mayor of the town in which the respective Hospital is located.

   Please note that the two Hospital Boards meet contemporaneously and have the same members, in recognition of the fact that Manchester Memorial Hospital and Rockville General Hospital function as an integrated system within Prospect ECHN.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**2. List the names and related information for each member of the Local Board.**

The names and roles of the individuals on the Local Board are:

| Name | Role |
|---|---|
| M. Maher Suede, MD | Medical Staff President, Former Seller Trustee |
| M. Saud Anwar, MD | Medical Staff Member |
| Michael Collins | Interim Chief Executive Officer |
| Mary Roche-Cronin | Community Member Recommended by Manchester Mayor |
| Molly C. Devanney | Community Member |
| Joy W. Dorin | Community Member, Former Seller Trustee |
| Eric L. Kloter | Community Member, Former Seller Trustee |
| Pamela Lewis, MD | Former Seller Trustee, Medical Staff Member |
| Saqib Naseer, MD | Medical Staff Vice-President (incoming President-designate) |
| Dennis G. O'Neill, MD | Medical Staff Member, Former Seller Trustee |
| Barbara Phillips, MD | Medical Staff Member, Former Seller Trustee |
| Irene Quong-Conlon | Community Member |
| Thomas M. Reardon | Prospect Representative |
| Vacant | Community Member -- Awaiting Vernon Mayor Recommendation |

**3. What members are the two community representatives and how were they chosen?**

In accordance with the requirements of Stipulation #20, ECHN representatives and later Prospect ECHN representatives consulted with Town of Manchester Mayor Jay Moran and Town of Vernon Mayor Daniel Champagne to request their recommendations for individuals to serve as the community representatives for their respective towns.

Per Stipulation #20, the requirements for the position are "two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively." In the case of Manchester, Mayor Moran recommended Ms. Mary Roche-Cronin, Director of Social Services for the Town of Manchester, for the Manchester community representative position. Because Ms. Roche-Cronin met the qualifications listed in Stipulation #20 Prospect ECHN accepted Mayor Moran's recommendation and selected Ms. Roche-Cronin for the Manchester community representative role.

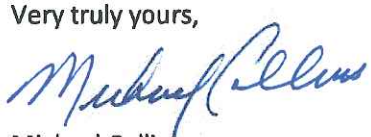
In the case of Vernon, as of this date Prospect ECHN has not received a recommendation from Mayor Champagne of an "unbiased person" who will "fairly represent the interests of the communit[y] served by RGH". Mayor Champagne did make one recommendation, but Prospect ECHN advised him that the individual did not meet the requirement of Stipulation #20 for an "unbiased person". No subsequent recommendation has been received from the Mayor of Vernon.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**4. Fully explain how the Mayors of Manchester and Vernon were consulted in the selection of these two community representatives.**

ECHN representatives met in person with each of the Mayors, described the roles of the community members, discussed the composition of the Local Board, and solicited their recommendations. These communications occurred both before and after the transaction between ECHN and Prospect, which closed on October 1, 2016. ECHN met with Mayor Moran on July 7, 2016 and he recommended Ms. Roche-Cronin on July 25, 2016. ECHN met with Mayor Champagne on July 11, 2016, and Prospect ECHN met with him on October 12, 2016, November 3, 2016, and most recently on January 31, 2017.

**5. Have any joint Board meetings been held as yet, per Stipulation #19? Have any Local Board meetings occurred at all since the transfer of ownership. If so, please submit the related meeting minutes.**



Prospect ECHN had one informal introductory meeting with the Local Board members on October 10, 2016, followed by meetings on November 16, 2016, December 14, 2016 and January 25, 2017. Because the October 10, 2016 meeting was a "meet and greet" there are no minutes. The minutes for the November and December meetings are attached, with confidential information regarding ongoing strategic initiatives redacted. The minutes for the January meeting are not available as of the current date. Prospect ECHN has not yet conducted a joint Board meeting per Stipulation #19.

**6. If Prospect ECHN has rejected any candidates to be the community representatives, identify such candidates and explain why they were not selected.**

As indicated above, Prospect ECHN received and approved one recommended candidate for the Town of Manchester, and that person currently sits on the Local Board. Prospect ECHN received one recommendation from the Town of Vernon, which it rejected for the reasons indicated in the response to Question 3. That person's name is Ellen Marmer, MD. Prospect ECHN has asked for additional recommendations from the Mayor of the Town of Vernon on a number of occasions, but to date has not received any.

Thank you for your consideration of this submission.

Very truly yours,

Michael Collins
Interim CEO

ADVISORY BOARDSMEETING MINUTES

**MEETING:** **ADVISORY BOARD**
**DATE:** December 14, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 8:54 a.m.

**TRUSTEES PRESENT:** M. Maher, Suede, MD (Chairman); Michael Collins; M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Barbara. Phillips, MD;

**MANAGEMENT PRESENT:** Nina Kruse; Katherine Mon; Mary Powers; Linda Quirici; Joel Reich; Todd Rose; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** Joy Dorin; Dennis O'Neill, MD; Thomas Reardon

With a quorum present, Dr. Suede convened the meeting at 7:30 a.m. He thanked the members of the board his election as Chairman of the Advisory Board. He addressed the board about his commitment to the organization during a very exciting and crucial time. The primary goal is to continue to improve patient safety, patient outcomes and the overall patient experience in order to remain strong and competitive as well as improve the perception of Prospect ECHN in the community.

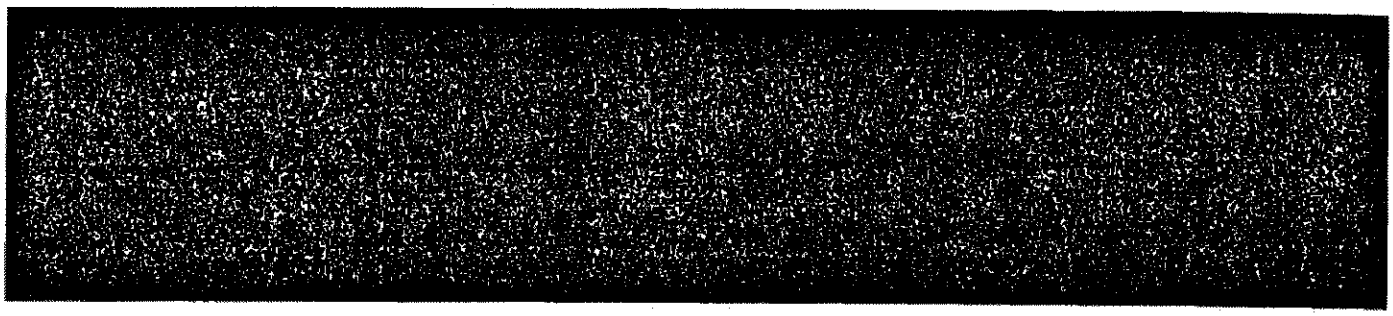
**1. Safety Moment**
**DISCUSSION:** Ms. Quirici stated that the quality goals for 2017 are in the final stages of the approval process. She shared the results of the 2016 quality goals. The Serious Safety Event Rate (SSER) ended at zero for RGH and has maintained a zero rating into FY2017. Falls with serious injuries ended at zero for both hospitals. Catheter-associated Urinary Tract Infection (CAUTI) rate remains at zero at both hospitals. There has been significant drop in surgical site infections (SSI) at both hospitals during the month of October and November 2016 from FY2015 and FY2016. She noted that for October 2015 the SSI rate was 9 versus 3 for October 2016. November 2015 SSI rate was 10 versus 1 for October 2016. The CAUTI program is in place and continued improvements are anticipated.

**2. Approval of Minutes of November 16, 2016**
**DISCUSSION:** The members of the Board reviewed the minutes of November 16, 2016. A motion was made and seconded.

**ACTION:** **VOTED to approve the minutes of November 16, 2016 as presented.**

**3. Proposed Bylaw Amendment Discussion**
**DISCUSSION:** The role of the Advisory Board remains in a development phase. Prospect is evaluating the governance processes for its Advisory Boards to determine if common practices can be implemented consistent with regulatory requirements such as those of The Joint Commission (TJC). The Advisory Boards generally advise upon matters that affect the community, including medical staff appointments and quality initiatives. The Prospect ECHN Advisory Board's scope may be expanded to include Prospect ECHN Eldercare Services, Inc. and Prospect ECHN Home Health, Inc., potentially to include review and approval of the Woodlake at Tolland (WAT) medical staff credentials as well as quality oversight for both WAT and the Visiting Nurse and Health Services of CT. In the interim the WAT credentials will be sent directly to the parent board for approval.

**4. Medical Executive Committee Minutes and Approval of Medical Staff Credentials**
**DISCUSSION:** The Medical Executive Committee minutes of November 8, 2016 were included in the packet for informational purposes. Dr. Suede announced the approval of a nurse driven protocol related to the catheter removal processes. The new protocol allows the nurse to determine patient qualification for catheter removal without physician orders. An update on secure texting and emailing patient health information (PHI) was provided at the MEC meeting. A new feature "patient status order notification" will be added to the Care Thread rollout. A workgroup has been established to update personalized order sets on Meditech.



There were no Medical Staff Credentials presented for approval.

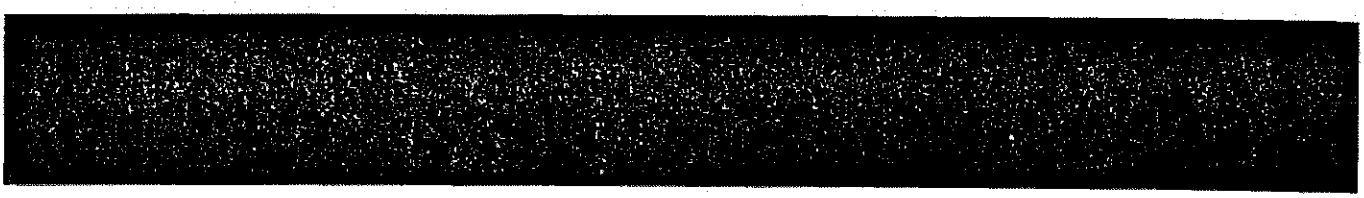
**6. Chief Executive Officer's Report**

Ms. Kruse provided an overview of the Marketing and Communications Strategy for 2017 for the following program categories:

Service line marketing; ECHN brand development; digital, radio and Pandora advertisements, community education programs and promotions; employee and medical staff communications and community outreach liaison program. The outreach liaison program is a model developed by Prospect that will be an extension of the Marketing Department. Two individuals will be developing relationships with skilled nursing facilities, assisted living, and community providers to ensure patients experience a smooth transition to acute care hospitals and ultimately enhance the referral base.

In 2017 the marketing team will focus its efforts on website functionality, imagery and calls to action; digital media placement; identifying synergies with Waterbury Hospital; local non-profit and chamber support, service line and brand printed collateral; print advertising for community health education programs; community relations and coffee connections programs; media relations; and community outreach liaisons to enhance the promotion of our services across the ECHN network. Discussion followed regarding goals, advertising resources and referral strategies to help increase market share.

A question arose regarding the status of the new community charitable foundation and partnering opportunities. Ms. Kruse reported that the members have been identified and that a meeting is planned for some time in mid-January 2017, at which time the group will begin the organizational processes. The ECHN Community HealthCare Foundation continues to operate under the oversight of the Legacy ECHN Board of Trustees. Once the new foundation has been established the moneys allocated to the new entity will be transferred. It was noted that ECHN cannot be a beneficiary of fund distributions from the new entity. It was also noted that ECHN could coordinate events to contribute to the new foundation.



7. **Quality Report**

a. Quality Assurance & Performance Improvement (QAPI) FY2017 Plans/FY2017 Goals

**DISCUSSION:** The FY2017 Quality Assurance & Performance Improvement Plans and Goals have been completed. These items were approved by the QAPIC and will be presented to the MEC for approval on January 10, 2017. Final approval will be sought by the Advisory Boards at its next meeting on January 25, 2017.

Ms. Quirici highlighted some of the performances through August 2016 for both MMH and RGH related to patient experience (HCAHPS); Medicare spend per beneficiary; patient safety indicators (PSI) – 90; surgical site infections; central line associated blood stream infection (CLABSI); Clostridium Difficile (C-Diff); Readmissions; Timeliness of Care; falls with serious injury; influenza immunization; serious safety event rate; and stroke measures. These measures were selected to enhance patient care and are monitored by regulatory agencies for reimbursement purposes. Programs are in place to provide staff education and certification related to patient experience. A Sepsis program will go live in January 2017.

ECHN is focused on improving the patient and care giver centered experience star rating by at least 1 star for 2017. This includes improvements in HCAHPS related to communications with nurses and communications with doctors. MMH is currently at a 2 star rating, while RGH is at a 3 star rating. RGH is above achievement thresholds for communication with nurses; Medicare-spend per beneficiary. MMH is positive to achievement thresholds for PSI-90 and C-Diff. Ms. Quirici noted that although abdominal hysterectomy site infections are above thresholds, there has been considerable improvement, with 1 incident through August 2016 versus 6 incidents last year at this time. She also noted that there have been no falls with serious injuries at either hospital. There are 11 stroke measures being monitors of which 8 of 11 are at 100% for MMH and 9 of 11 are at 100% for RGH which is ahead of benchmarks at 90%. A question arose regarding employee satisfaction, which has a strong impact on patient experience. A new survey is planned for some time in late February/early March 2017. A question and answer period followed. The Board has requested a report identifying occurrences of unsafe staffing levels. Ms. Powers provided an overview of the unsafe staffing reporting mechanism that is currently in place and the standard plan of action. A per diem float pool initiative is underway to help address staffing shortages. A certified nursing assistant float pool has also been implemented. Flex positions are being reevaluated and adjusted to address staffing concerns. A staffing plan must be reported to the State of Connecticut on an annual basis to include an action plan for staffing needs.

[redacted]

**9. Next Meeting/Adjournment**

**DISCUSSION:** Mr. Collins thanked the members of the board for attending. He noted that the Advisory Board members are advocates for the communities that ECHN services and encouraged them to contact himself or any member of senior leadership any questions or concerns. He wished everyone Happy Holidays.

The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, January 25, 2017 at 7:30 a.m. in the MMH CR A, B & C.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo
Recording Secretary

Irene Quong Conlon

ADVISORY BOARDSMEETING MINUTES

**MEETING:** **ANNUAL MEETING OF THE ADVISORY BOARD**
**DATE:** November 16, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 9:09 a.m.

**TRUSTEES PRESENT:** Michael Collins (Interim CEO); M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney (T); Joy Dorin; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Dennis O'Neill, MD; , Barbara. Phillips, MD; David Topper

**MANAGEMENT PRESENT:** Dennis McConville; Mary Powers; Linda Quirici; Joel Reich; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** M. Maher, Suede, MD

**GUEST:** Deborah Berry, Chief Quality Officer, Prospect Medical Holdings (Prospect)
Garrison De Lee, Corporate Counsel, Prospect (T)
Thomas Reardon, President Prospect Medical Holdings East

With a quorum present, Mr. Collins serving as interim Chairman in lieu of elections convened the meeting at 7:33 a.m. He welcomed Ms. Berry and Messrs. De Lee, Reardon and Topper to the meeting. Formal introductions followed.

1. **Proposed Amendment to Bylaws**

**DISCUSSION:** Mr. Topper stated that he is excited about the opportunity to work with ECHN and is looking forward to a long relationship. Due to logistical challenges, including potential travel delays and time zone differences he will step down from his role on the Advisory Board and advised that Thomas Reardon would take his place as a Prospect representative. Mr. Topper expressed the hope that he would remain engaged with the Advisory Board by participating in its meetings as a guest from time to time. He was encouraged to do so to as an excellent means of maintaining ties between the local Prospect ECHN community and Prospect's leadership. A motion was made and seconded.

**ACTION:** **VOTED to acknowledge the resignation of David Topper as Prospect Representative on the joint Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Boards, and to acknowledge the election of Thomas M. Reardon as Prospect Representative as ex-officio member with vote.**

Amendments to the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws were presented for approval and recommendation to the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors. The purpose of such amendments is to revise the composition of the Advisory Board so as to include the President of the Medical Staff as a standing member. It was noted that this Advisory Board Bylaws change would reinforce Prospect's strong commitment to physician participation in the work of the Advisory Board. A motion was made and seconded.

**ACTION:** **VOTED to approve the amendments to Section 2/Composition of the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws to change the composition of the Advisory Boards for these entities to include the President of the Medical Staff, and to recommend approval of same by the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors.**

Additional amendments are being considered to the Advisory Board Bylaws in order to include Prospect ECHN ElderCare Services, Inc. d/b/a Woodlake at Tolland Rehabilitation and Nursing Center (WAT) as an additional entity under Advisory Board oversight, which would allow for Advisory Board review and approval of the Woodlake at Tolland Medical Staff Appointments and quality matters. This change is under review from a corporate governance perspective. It was noted that the Advisory Board is fortunate to have Mr. Kloter as a member of the Advisory Board, as he has been a champion for post- acute care services. A brief discussion followed regarding staff participation from WAT and Prospect ECHN Home Health, Inc. d/b/a Visiting Nurse and Health Services of Connecticut, Inc. as both of these entities are involved in quality initiatives. This proposal will be presented to the incoming Board Chairman for consideration.

**2. Board Questionnaire/Non-Disclosure, Code of Conduct and Confidentiality Statement**

**DISCUSSION:** The Board Questionnaire/Non-Disclosure, Code of Conduct and the Confidentiality Statement were included in the meeting packets for completion. Members of the Advisory Board were asked to forward the completed forms to Ms. Perigo, and to direct questions Ms. Tichy or Ms. Perigo. Suggested corrections will be made to the form. A revised document will be sent to Advisory Board members.

**3. Nomination and Vote of Officers and Terms**

**DISCUSSION:** The floor was opened for nominations for the election of Advisory Board officers. M. Maher Suede, MD was nominated as Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions or share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect M. Maher Suede, MD as Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for nominations of Vice Chairman. Eric L. Kloter was nominated to serve as Vice Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect Eric L. Kloter, as Vice Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for the nominations of Secretary. Irene Quong Conlon was nominated to serve as Board Secretary. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

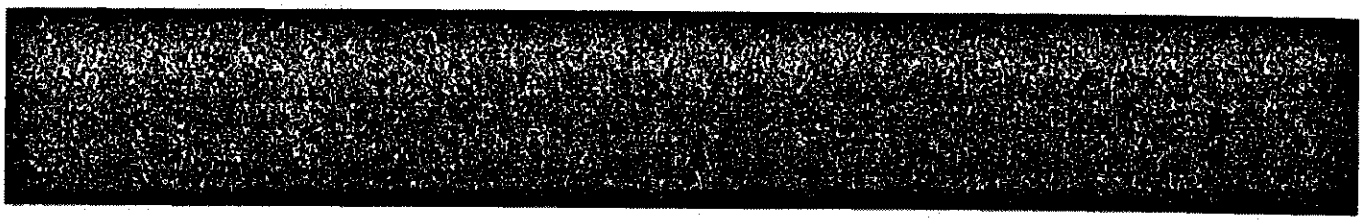
**ACTION:** **VOTED unanimously to elect Irene Quong Conlon as Secretary of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

Discussion followed regarding setting the Advisory Board member terms in accordance with Section 5 of the Local Advisory Board portion of the Prospect Manchester Hospital and the Prospect Rockville Hospital Bylaws. Mr. Collins read the list of terms attached as Exhibit A, which reflected prior discussions with each member regarding their desired length of term. It was noted that all are eligible for re-election at the conclusion of their initial term. Terms are effective as of the date of the Annual Meeting duly held on November 16, 2016. A question and answer period followed.

**4. Review of Board Responsibilities**

**DISCUSSION:** The Local Advisory Boards are responsible for quality, medical staff credentialing and capital expenditure oversight. Appointments, reappointments and status changes of the Manchester and Rockville hospitals medical staff will be presented to the board for review in approval and will include an application checklist of the new physician. The completed files for each candidate are available for Board member review in the Office of Medical Affairs. Board members are also encouraged to make inquiries about the candidates at meetings or by contacting Dr. Reich or Mr. Collins. Capital Expenditures will be reviewed monthly.

**5. Medical Executive Committee Minutes and Approval of Medical Staff Credentials**

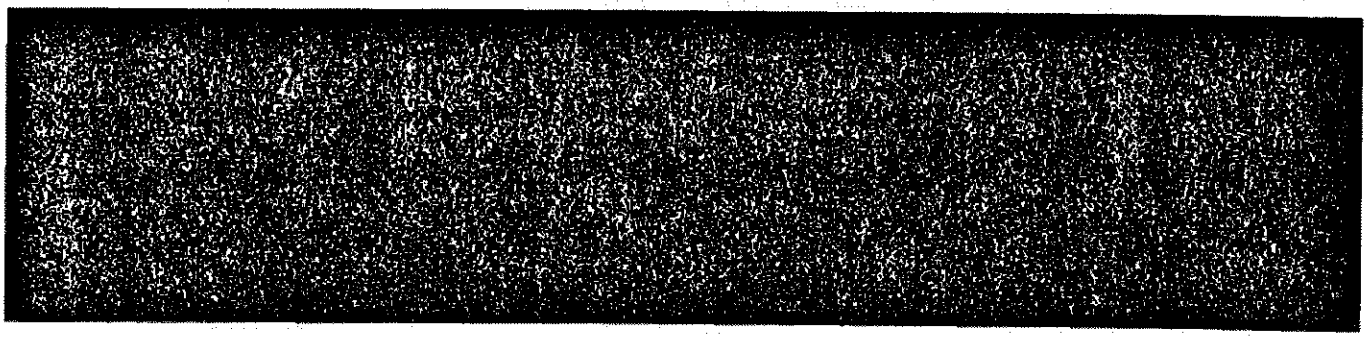


**DISCUSSION:** The Medical Executive Committee minutes of October 11, 2016 were included in the packet for informational purposes. The Board of Directors were provided an overview of the Medical Staff and Allied Health Professional Staff Credentialing process utilized to ensure qualified candidates meet hospital requirements and all regulatory and accreditation requirements set forth by the State of Connecticut Department of Public Health (DPH), the Centers for Medicare and Medicaid Services (CMS), the Joint Commission (TJC) and the Accreditation Council for Graduate Medical Education/American Osteopathic Association (ACGME/AOA). Once applications have been approved by the service chief and/or department chair; a three step approval process is conducted by the Credentials Committee, the MEC and finally by the governing board. A member of the Advisory Boards would serve on the Credentials Committee and have an integral part of the review process. A summary of the verification and post-verification process was provided and included a sample of the Medical Staff Membership and Privileges Application Checklists for various purposes.

Members of the Board reviewed the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016. A brief discussion followed regarding the approval process. Once the credentials have been approved by the Advisory Boards they will be forwarded to the Prospect fiduciary boards for final approval by virtue of unanimous consent. Timing of the approval process is a key factor as not all candidates qualify for temporary privileges. Approvals should be completed by the last day of the current month in order to meet regulatory requirements. Copies of the signed unanimous consents from Prospect will be kept in the Advisory Boards meeting binder for permanent record. A motion was made and seconded.

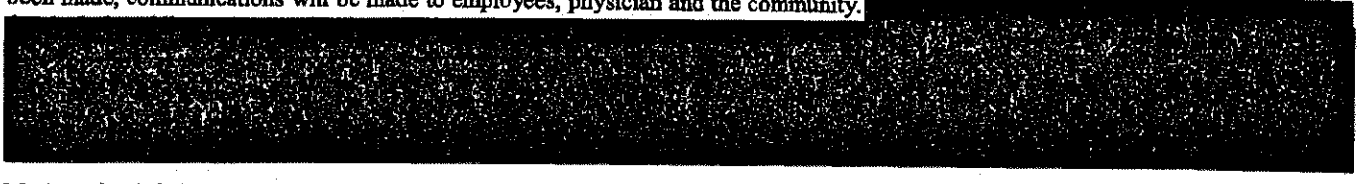
**ACTION:** **VOTED unanimously to approve the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016 as presented and recommend approval by the Prospect Manchester Hospital and Prospect Rockville Board of Directors.**

**6. Chief Executive Officer's Report**



**DISCUSSION:** Mr. Collins stated that ECHN has been a community based health system for some time and he encouraged removal of the preference of individual identifiers (i.e. Rockville, Manchester, VNHSC etc.) in lieu of ECHN. He recently shared his observations at Employee Forums held in mid-October through early November 2016 and expressed his desire for employees to embrace a "TEAM" view of the system as a whole, rather than individual counterparts. No counterpart within the system would be successful without the others. Employee Forums throughout the system were relatively positive. Reporting mechanisms are being re-evaluated to ensure that issues across the system are being addressed by the appropriate senior leadership member. For example, nursing issues at any of the ECHN facilities would be handled by the Chief Nursing Officer.

A question arose regarding outreach to physicians for patient referrals and an outreach to the patient population. A concierge program, which has been very successful in California, is underway. An overview of the concierge roles and responsibilities to include community outreach was provided. A candidate has been identified and will begin employment in two weeks. The individual will be introduced to the Medical Staff at its next meeting on December 13, 2016. A second concierge position will be filled in the subsequent weeks. A marketing strategy is under development to include advertising of community events in the local media, ECHN's website as well as digital and radio advertising. The Better Being publication is mailed to over 155,000 homes bi-annually and is a vehicle for announcing the community health education programs. It was noted that the best form of advertising is the patient experience. The Vice President of Corporate Communications & Public Affairs provide an update at the next meeting. A question and answer period followed.



**7. Annual Performance Improvement Plans**

**DISCUSSION:** The FY2017 Plans (Performance Improvement, Patient Experience, Patient Safety and Risk Management) and the FY2017 Quality Assurance & Performance Improvement (QAPI) Goals have been completed. These items have been submitted to QAPIC for review and approval. The FY2017 plans and FY2017 goals will then be presented to the MEC for approval. Final approval will be sought by the Advisory Boards at its next meeting on December 14, 2016. A Patient/Family Council, endorsed by the Connecticut Hospital Association (CHA), is being developed that will enhance the patient experience process and improve upon quality and safety.

**9. Capital Review**

**DISCUSSION:** Clinical leaders have been diligently reviewing, evaluating and prioritizing capital requests that have been submitted over the past several years. A list of priority items was provided by category which include: investments to address compliance with regulations for licensure and accreditation; those that provide a return on investment or preservation of revenue; investments that impact patient, physician and/or employee satisfaction ("Splash" capital); and items that are at the end of their useful life. Regulatory licensure inspections were conducted by the CT Department of Public Health at Manchester Hospital, Rockville Hospital, Woodlake at Tolland, 460 Tolland Turnpike and 150 North Main as required for the transaction. Plans of correction were submitted to DPH as a result of the inspections which commit ECHN to engage consultants to conduct studies of building conditions, i.e. heating and ventilation systems, electrical systems, roofs, furnishings and finishes. From those studies, ECHN will need to submit additional plans to DPH that identify work to correct deficiencies. While those plans are being produced, requests for initial "splash" capital investments will be submitted with input from physicians for items that address technology and equipment needed for their specialties. Once splash capital investments have been made, communications will be made to employees, physician and the community.

Mr. Reardon left the meeting at 8:51 a.m.

**10. Next Meeting/Adjourment**

**DISCUSSION:** The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, December 14, 2016 at 7:30 a.m. in the MMH CR A, B & C. The calendar of meetings for 2017 was included in the packet for informational purposes. These dates have been posted on the BoardEffect Portal.

Dr. O'Neill stated that it has been approximately 6 ½ weeks since the closing of the transaction and although Mr. Collins had been onsite as Chief Integration Officer, his position as Interim CEO was abrupt due to the precipitous departure of the former CEO. Feedback from the medical staff, hospital staff and the senior management team has been very positive. He commended Mr. Collins for the work his is doing and the current state of the organization.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo

Re: Compliance with Stipulation #20

Dear Ms. Martone:

I am in receipt of your email communication dated February 15, 2017 in which you requested certain information relating to Stipulation #20 of the Certificate of Need listed under Docket #15-32016-486. Below are the responses of Prospect ECHN to the questions set forth in that email.

1. **Has the Local Board been selected and what was the selection process?**

   Yes, the Local Board has been selected. The members of the Local Board were selected by Prospect ECHN in accordance with the requirements the Asset Purchase Agreement dated August 24, 2016 between ECHN as Seller and Prospect Medical Holdings as Buyer, which states as follows:

   > Local Board means the advisory board of each Hospital composed of community representatives, physicians on the respective Hospital's medical staff, and the Chief Executive Officer of each respective Hospital (for avoidance of doubt, each Hospital shall have its own Local Board). The initial members of the Local Board shall include at least five members of the Seller's Board of Trustees immediately prior to Closing and five other individuals identified by the Seller prior to Closing, two of whom shall be members of the community appointed in consultation with the mayor of the town in which the respective Hospital is located.

   Please note that the two Hospital Boards meet contemporaneously and have the same members, in recognition of the fact that Manchester Memorial Hospital and Rockville General Hospital function as an integrated system within Prospect ECHN.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**2. List the names and related information for each member of the Local Board.**

The names and roles of the individuals on the Local Board are:

| Name | Role |
|---|---|
| M. Maher Suede, MD | Medical Staff President, Former Seller Trustee |
| M. Saud Anwar, MD | Medical Staff Member |
| Michael Collins | Interim Chief Executive Officer |
| Mary Roche-Cronin | Community Member Recommended by Manchester Mayor |
| Molly C. Devanney | Community Member |
| Joy W. Dorin | Community Member, Former Seller Trustee |
| Eric L. Kloter | Community Member, Former Seller Trustee |
| Pamela Lewis, MD | Former Seller Trustee, Medical Staff Member |
| Saqib Naseer, MD | Medical Staff Vice-President (incoming President-designate) |
| Dennis G. O'Neill, MD | Medical Staff Member, Former Seller Trustee |
| Barbara Phillips, MD | Medical Staff Member, Former Seller Trustee |
| Irene Quong-Conlon | Community Member |
| Thomas M. Reardon | Prospect Representative |
| Vacant | Community Member -- Awaiting Vernon Mayor Recommendation |

**3. What members are the two community representatives and how were they chosen?**

In accordance with the requirements of Stipulation #20, ECHN representatives and later Prospect ECHN representatives consulted with Town of Manchester Mayor Jay Moran and Town of Vernon Mayor Daniel Champagne to request their recommendations for individuals to serve as the community representatives for their respective towns.

Per Stipulation #20, the requirements for the position are "two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively." In the case of Manchester, Mayor Moran recommended Ms. Mary Roche-Cronin, Director of Social Services for the Town of Manchester, for the Manchester community representative position. Because Ms. Roche-Cronin met the qualifications listed in Stipulation #20 Prospect ECHN accepted Mayor Moran's recommendation and selected Ms. Roche-Cronin for the Manchester community representative role.

In the case of Vernon, as of this date Prospect ECHN has not received a recommendation from Mayor Champagne of an "unbiased person" who will "fairly represent the interests of the communit[y] served by RGH". Mayor Champagne did make one recommendation, but Prospect ECHN advised him that the individual did meet the requirement of Stipulation #20 for an "unbiased person". No subsequent recommendation has been received from the Mayor of Vernon.

Kimberly R. Martone
Office of Health Care Access
February 17, 2017

**4. Fully explain how the Mayors of Manchester and Vernon were consulted in the selection of these two community representatives.**

ECHN representatives met in person with each of the Mayors, described the roles of the community members, discussed the composition of the Local Board, and solicited their recommendations. These communications occurred both before and after the transaction between ECHN and Prospect, which closed on October 1, 2016. ECHN met with Mayor Moran on July 7, 2016 and he recommended Ms. Roche-Cronin on July 25, 2016. ECHN met with Mayor Champagne on July 11, 2016, and Prospect ECHN met with him on October 12, 2016, November 3, 2016, and most recently on January 31, 2017.

**5. Have any joint Board meetings been held as yet, per Stipulation #19? Have any Local Board meetings occurred at all since the transfer of ownership. If so, please submit the related meeting minutes.**

Prospect ECHN had one informal introductory meeting with the Local Board members on October 10, 2016, followed by meetings on November 16, 2016, December 14, 2016 and January 25, 2017. Because the October 10, 2016 meeting was a "meet and greet" there are no minutes. The minutes for the November and December meetings are attached, with confidential information regarding ongoing strategic initiatives redacted. The minutes for the January meeting are not available as of the current date. Prospect ECHN has not yet conducted a joint Board meeting per Stipulation #19.

**6. If Prospect ECHN has rejected any candidates to be the community representatives, identify such candidates and explain why they were not selected.**

As indicated above, Prospect ECHN received and approved one recommended candidate for the Town of Manchester, and that person currently sits on the Local Board. Prospect ECHN received one recommendation from the Town of Vernon, which it rejected for the reasons indicated in the response to Question 3. That person's name is Ellen Marmer, MD. Prospect ECHN has asked for additional recommendations from the Mayor of the Town of Vernon on a number of occasions, but to date has not received any.

Thank you for your consideration of this submission.

Very truly yours,

Michael Collins
Interim CEO

ADVISORY BOARDSMEETING MINUTES

**MEETING:** **ADVISORY BOARD**
**DATE:** December 14, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 8:54 a.m.

**TRUSTEES PRESENT:** M. Maher, Suede, MD (Chairman); Michael Collins; M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Barbara. Phillips, MD;

**MANAGEMENT PRESENT:** Nina Kruse; Katherine Mon; Mary Powers; Linda Quirici; Joel Reich; Todd Rose; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** Joy Dorin; Dennis O'Neill, MD; Thomas Reardon

With a quorum present, Dr. Suede convened the meeting at 7:30 a.m. He thanked the members of the board his election as Chairman of the Advisory Board. He addressed the board about his commitment to the organization during a very exciting and crucial time. The primary goal is to continue to improve patient safety, patient outcomes and the overall patient experience in order to remain strong and competitive as well as improve the perception of Prospect ECHN in the community.

**1. Safety Moment**
**DISCUSSION:** Ms. Quirici stated that the quality goals for 2017 are in the final stages of the approval process. She shared the results of the 2016 quality goals. The Serious Safety Event Rate (SSER) ended at zero for RGH and has maintained a zero rating into FY2017. Falls with serious injuries ended at zero for both hospitals. Catheter-associated Urinary Tract Infection (CAUTI) rate remains at zero at both hospitals. There has been significant drop in surgical site infections (SSI) at both hospitals during the month of October and November 2016 from FY2015 and FY2016. She noted that for October 2015 the SSI rate was 9 versus 3 for October 2016. November 2015 SSI rate was 10 versus 1 for October 2016. The CAUTI program is in place and continued improvements are anticipated.

**2. Approval of Minutes of November 16, 2016**
**DISCUSSION:** The members of the Board reviewed the minutes of November 16, 2016. A motion was made and seconded.

**ACTION:** **VOTED to approve the minutes of November 16, 2016 as presented.**

**3. Proposed Bylaw Amendment Discussion**
**DISCUSSION:** The role of the Advisory Board remains in a development phase. Prospect is evaluating the governance processes for its Advisory Boards to determine if common practices can be implemented consistent with regulatory requirements such as those of The Joint Commission (TJC). The Advisory Boards generally advise upon matters that affect the community, including medical staff appointments and quality initiatives. The Prospect ECHN Advisory Board's scope may be expanded to include Prospect ECHN Eldercare Services, Inc. and Prospect ECHN Home Health, Inc., potentially to include review and approval of the Woodlake at Tolland (WAT) medical staff credentials as well as quality oversight for both WAT and the Visiting Nurse and Health Services of CT. In the interim the WAT credentials will be sent directly to the parent board for approval.

**4. Medical Executive Committee Minutes and Approval of Medical Staff Credentials**
**DISCUSSION:** The Medical Executive Committee minutes of November 8, 2016 were included in the packet for informational purposes. Dr. Suede announced the approval of a nurse driven protocol related to the catheter removal processes. The new protocol allows the nurse to determine patient qualification for catheter removal without physician orders. An update on secure texting and emailing patient health information (PHI) was provided at the MEC meeting. A new feature "patient status order notification" will be added to the Care Thread rollout. A workgroup has been established to update personalized order sets on Meditech.

There were no Medical Staff Credentials presented for approval.

**6. Chief Executive Officer's Report**

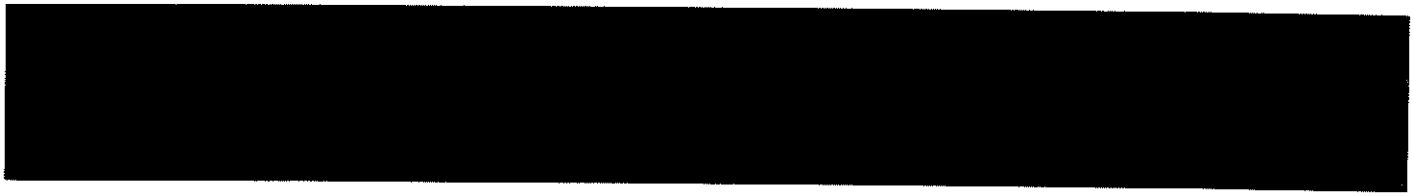
[redacted]

Ms. Kruse provided an overview of the Marketing and Communications Strategy for 2017 for the following program categories:

Service line marketing; ECHN brand development; digital, radio and Pandora advertisements, community education programs and promotions; employee and medical staff communications and community outreach liaison program. The outreach liaison program is a model developed by Prospect that will be an extension of the Marketing Department. Two individuals will be developing relationships with skilled nursing facilities, assisted living, and community providers to ensure patients experience a smooth transition to acute care hospitals and ultimately enhance the referral base.

In 2017 the marketing team will focus its efforts on website functionality, imagery and calls to action; digital media placement; identifying synergies with Waterbury Hospital; local non-profit and chamber support, service line and brand printed collateral; print advertising for community health education programs; community relations and coffee connections programs; media relations; and community outreach liaisons to enhance the promotion of our services across the ECHN network. Discussion followed regarding goals, advertising resources and referral strategies to help increase market share.

A question arose regarding the status of the new community charitable foundation and partnering opportunities. Ms. Kruse reported that the members have been identified and that a meeting is planned for some time in mid-January 2017, at which time the group will begin the organizational processes. The ECHN Community HealthCare Foundation continues to operate under the oversight of the Legacy ECHN Board of Trustees. Once the new foundation has been established the moneys allocated to the new entity will be transferred. It was noted that ECHN cannot be a beneficiary of fund distributions from the new entity. It was also noted that ECHN could coordinate events to contribute to the new foundation.



7. **Quality Report**

a. Quality Assurance & Performance Improvement (QAPI) FY2017 Plans/FY2017 Goals

**DISCUSSION:** The FY2017 Quality Assurance & Performance Improvement Plans and Goals have been completed. These items were approved by the QAPIC and will be presented to the MEC for approval on January 10, 2017. Final approval will be sought by the Advisory Boards at its next meeting on January 25, 2017.

Ms. Quirici highlighted some of the performances through August 2016 for both MMH and RGH related to patient experience (HCAHPS); Medicare spend per beneficiary; patient safety indicators (PSI) – 90; surgical site infections; central line associated blood stream infection (CLABSI); Clostridium Difficile (C-Diff); Readmissions; Timeliness of Care; falls with serious injury; influenza immunization; serious safety event rate; and stroke measures. These measures were selected to enhance patient care and are monitored by regulatory agencies for reimbursement purposes. Programs are in place to provide staff education and certification related to patient experience. A Sepsis program will go live in January 2017.

ECHN is focused on improving the patient and care giver centered experience star rating by at least 1 star for 2017. This includes improvements in HCAHPS related to communications with nurses and communications with doctors. MMH is currently at a 2 star rating, while RGH is at a 3 star rating. RGH is above achievement thresholds for communication with nurses; Medicare-spend per beneficiary. MMH is positive to achievement thresholds for PSI-90 and C-Diff. Ms. Quirici noted that although abdominal hysterectomy site infections are above thresholds, there has been considerable improvement, with 1 incident through August 2016 versus 6 incidents last year at this time. She also noted that there have been no falls with serious injuries at either hospital. There are 11 stroke measures being monitors of which 8 of 11 are at 100% for MMH and 9 of 11 are at 100% for RGH which is ahead of benchmarks at 90%. A question arose regarding employee satisfaction, which has a strong impact on patient experience. A new survey is planned for some time in late February/early March 2017. A question and answer period followed. The Board has requested a report identifying occurrences of unsafe staffing levels. Ms. Powers provided an overview of the unsafe staffing reporting mechanism that is currently in place and the standard plan of action. A per diem float pool initiative is underway to help address staffing shortages. A certified nursing assistant float pool has also been implemented. Flex positions are being reevaluated and adjusted to address staffing concerns. A staffing plan must be reported to the State of Connecticut on an annual basis to include an action plan for staffing needs.

[redacted]

[redacted]

**9. Next Meeting/Adjourment**

**DISCUSSION:** Mr. Collins thanked the members of the board for attending. He noted that the Advisory Board members are advocates for the communities that ECHN services and encouraged them to contact himself or any member of senior leadership any questions or concerns. He wished everyone Happy Holidays.

The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, January 25, 2017 at 7:30 a.m. in the MMH CR A, B & C.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo

ADVISORY BOARDSMEETING MINUTES

**MEETING:** **ANNUAL MEETING OF THE ADVISORY BOARD**
**DATE:** November 16, 2016 **LOCATION:** MMH CR A, B & C **CONVENED:** 7:30 a.m. **ADJOURNED:** 9:09 a.m.

**TRUSTEES PRESENT:** Michael Collins (Interim CEO); M. Saud Anwar, MD; Irene Quong-Conlon; Mary Cronin; Mary (Molly) Devanney (T); Joy Dorin; Eric Kloter; Pamela Lewis, MD; Saqib Naseer, MD; Dennis O'Neill, MD; , Barbara. Phillips, MD; David Topper

**MANAGEMENT PRESENT:** Dennis McConville; Mary Powers; Linda Quirici; Joel Reich; Joyce Tichy; Michael Veillette; Chantal Perigo (Recording Secretary)

**NOT PRESENT:** M. Maher, Suede, MD

**GUEST:** Deborah Berry, Chief Quality Officer, Prospect Medical Holdings (Prospect)
Garrison De Lee, Corporate Counsel, Prospect (T)
Thomas Reardon, President Prospect Medical Holdings East

With a quorum present, Mr. Collins serving as interim Chairman in lieu of elections convened the meeting at 7:33 a.m. He welcomed Ms. Berry and Messrs. De Lee, Reardon and Topper to the meeting. Formal introductions followed.

**1. Proposed Amendment to Bylaws**

**DISCUSSION:** Mr. Topper stated that he is excited about the opportunity to work with ECHN and is looking forward to a long relationship. Due to logistical challenges, including potential travel delays and time zone differences he will step down from his role on the Advisory Board and advised that Thomas Reardon would take his place as a Prospect representative. Mr. Topper expressed the hope that he would remain engaged with the Advisory Board by participating in its meetings as a guest from time to time. He was encouraged to do so to as an excellent means of maintaining ties between the local Prospect ECHN community and Prospect's leadership. A motion was made and seconded.

**ACTION:** **VOTED to acknowledge the resignation of David Topper as Prospect Representative on the joint Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Boards, and to acknowledge the election of Thomas M. Reardon as Prospect Representative as ex-officio member with vote.**

Amendments to the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws were presented for approval and recommendation to the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors. The purpose of such amendments is to revise the composition of the Advisory Board so as to include the President of the Medical Staff as a standing member. It was noted that this Advisory Board Bylaws change would reinforce Prospect's strong commitment to physician participation in the work of the Advisory Board. A motion was made and seconded.

**ACTION:** **VOTED to approve the amendments to Section 2/Composition of the Prospect Manchester Hospital and Prospect Rockville Hospital Advisory Board Bylaws to change the composition of the Advisory Boards for these entities to include the President of the Medical Staff, and to recommend approval of same by the Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. Boards of Directors.**

Additional amendments are being considered to the Advisory Board Bylaws in order to include Prospect ECHN ElderCare Services, Inc. d/b/a Woodlake at Tolland Rehabilitation and Nursing Center (WAT) as an additional entity under Advisory Board oversight, which would allow for Advisory Board review and approval of the Woodlake at Tolland Medical Staff Appointments and quality matters. This change is under review from a corporate governance perspective. It was noted that the Advisory Board is fortunate to have Mr. Kloter as a member of the Advisory Board, as he has been a champion for post- acute care services. A brief discussion followed regarding staff participation from WAT and Prospect ECHN Home Health, Inc. d/b/a Visiting Nurse and Health Services of Connecticut, Inc. as both of these entities are involved in quality initiatives. This proposal will be presented to the incoming Board Chairman for consideration.

**2. Board Questionnaire/Non-Disclosure, Code of Conduct and Confidentiality Statement**

**DISCUSSION:** The Board Questionnaire/Non-Disclosure, Code of Conduct and the Confidentiality Statement were included in the meeting packets for completion. Members of the Advisory Board were asked to forward the completed forms to Ms. Perigo, and to direct questions Ms. Tichy or Ms. Perigo. Suggested corrections will be made to the form. A revised document will be sent to Advisory Board members.

**3. Nomination and Vote of Officers and Terms**

**DISCUSSION:** The floor was opened for nominations for the election of Advisory Board officers. M. Maher Suede, MD was nominated as Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions or share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect M. Maher Suede, MD as Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for nominations of Vice Chairman. Eric L. Kloter was nominated to serve as Vice Chairman. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect Eric L. Kloter, as Vice Chairman of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

The floor was open for the nominations of Secretary. Irene Quong Conlon was nominated to serve as Board Secretary. Nominations were closed and members of the Advisory Board were invited to ask questions and share comments. A motion was made and seconded.

**ACTION:** **VOTED unanimously to elect Irene Quong Conlon as Secretary of the Prospect Manchester Hospital Advisory Board and the Prospect Rockville Hospital Advisory Board for a 1-year term to expire in November 2017.**

Discussion followed regarding setting the Advisory Board member terms in accordance with Section 5 of the Local Advisory Board portion of the Prospect Manchester Hospital and the Prospect Rockville Hospital Bylaws. Mr. Collins read the list of terms attached as Exhibit A, which reflected prior discussions with each member regarding their desired length of term. It was noted that all are eligible for re-election at the conclusion of their initial term. Terms are effective as of the date of the Annual Meeting duly held on November 16, 2016. A question and answer period followed.

**4. Review of Board Responsibilities**

**DISCUSSION:** The Local Advisory Boards are responsible for quality, medical staff credentialing and capital expenditure oversight. Appointments, reappointments and status changes of the Manchester and Rockville hospitals medical staff will be presented to the board for review in approval and will include an application checklist of the new physician. The completed files for each candidate are available for Board member review in the Office of Medical Affairs. Board members are also encouraged to make inquiries about the candidates at meetings or by contacting Dr. Reich or Mr. Collins. Capital Expenditures will be reviewed monthly.

**5. Medical Executive Committee Minutes and Approval of Medical Staff Credentials**

**DISCUSSION:** The Medical Executive Committee minutes of October 11, 2016 were included in the packet for informational purposes. The Board of Directors were provided an overview of the Medical Staff and Allied Health Professional Staff Credentialing process utilized to ensure qualified candidates meet hospital requirements and all regulatory and accreditation requirements set forth by the State of Connecticut Department of Public Health (DPH), the Centers for Medicare and Medicaid Services (CMS), the Joint Commission (TJC) and the Accreditation Council for Graduate Medical Education/American Osteopathic Association (ACGME/AOA). Once applications have been approved by the service chief and/or department chair; a three step approval process is conducted by the Credentials Committee, the MEC and finally by the governing board. A member of the Advisory Boards would serve on the Credentials Committee and have an integral part of the review process. A summary of the verification and post-verification process was provided and included a sample of the Medical Staff Membership and Privileges Application Checklists for various purposes.

Members of the Board reviewed the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016. A brief discussion followed regarding the approval process. Once the credentials have been approved by the Advisory Boards they will be forwarded to the Prospect fiduciary boards for final approval by virtue of unanimous consent. Timing of the approval process is a key factor as not all candidates qualify for temporary privileges. Approvals should be completed by the last day of the current month in order to meet regulatory requirements. Copies of the signed unanimous consents from Prospect will be kept in the Advisory Boards meeting binder for permanent record. A motion was made and seconded.

**ACTION:** **VOTED unanimously to approve the recommendations for Medical Staff appointments, status changes and completion of review periods approved by the Credentials Committee on November 1, 2016 and the Medical Executive Committee (MEC) on November 8, 2016 as presented and recommend approval by the Prospect Manchester Hospital and Prospect Rockville Board of Directors.**

**6. Chief Executive Officer's Report**

**DISCUSSION:** Mr. Collins stated that ECHN has been a community based health system for some time and he encouraged removal of the preference of individual identifiers (i.e. Rockville, Manchester, VNHSC etc.) in lieu of ECHN. He recently shared his observations at Employee Forums held in mid-October through early November 2016 and expressed his desire for employees to embrace a "TEAM" view of the system as a whole, rather than individual counterparts. No counterpart within the system would be successful without the others. Employee Forums throughout the system were relatively positive. Reporting mechanisms are being re-evaluated to ensure that issues across the system are being addressed by the appropriate senior leadership member. For example, nursing issues at any of the ECHN facilities would be handled by the Chief Nursing Officer.

[redacted]

A question arose regarding outreach to physicians for patient referrals and an outreach to the patient population. A concierge program, which has been very successful in California, is underway. An overview of the concierge roles and responsibilities to include community outreach was provided. A candidate has been identified and will begin employment in two weeks. The individual will be introduced to the Medical Staff at its next meeting on December 13, 2016. A second concierge position will be filled in the subsequent weeks. A marketing strategy is under development to include advertising of community events in the local media, ECHN's website as well as digital and radio advertising. The Better Being publication is mailed to over 155,000 homes bi-annually and is a vehicle for announcing the community health education programs. It was noted that the best form of advertising is the patient experience. The Vice President of Corporate Communications & Public Affairs provide an update at the next meeting. A question and answer period followed.

**7. Annual Performance Improvement Plans**

**DISCUSSION:** The FY2017 Plans (Performance Improvement, Patient Experience, Patient Safety and Risk Management) and the FY2017 Quality Assurance & Performance Improvement (QAPI) Goals have been completed. These items have been submitted to QAPIC for review and approval. The FY2017 plans and FY2017 goals will then be presented to the MEC for approval. Final approval will be sought by the Advisory Boards at its next meeting on December 14, 2016. A Patient/Family Council, endorsed by the Connecticut Hospital Association (CHA), is being developed that will enhance the patient experience process and improve upon quality and safety.

[redacted]

**9. Capital Review**

**DISCUSSION:** Clinical leaders have been diligently reviewing, evaluating and prioritizing capital requests that have been submitted over the past several years. A list of priority items was provided by category which include: investments to address compliance with regulations for licensure and accreditation; those that provide a return on investment or preservation of revenue; investments that impact patient, physician and/or employee satisfaction ("Splash" capital); and items that are at the end of their useful life. Regulatory licensure inspections were conducted by the CT Department of Public Health at Manchester Hospital, Rockville Hospital, Woodlake at Tolland, 460 Tolland Turnpike and 150 North Main as required for the transaction. Plans of correction were submitted to DPH as a result of the inspections which commit ECHN to engage consultants to conduct studies of building conditions, i.e. heating and ventilation systems, electrical systems, roofs, furnishings and finishes. From those studies, ECHN will need to submit additional plans to DPH that identify work to correct deficiencies. While those plans are being produced, requests for initial "splash" capital investments will be submitted with input from physicians for items that address technology and equipment needed for their specialties. Once splash capital investments have been made, communications will be made to employees, physician and the community. [redacted]

Mr. Reardon left the meeting at 8:51 a.m.

**10. Next Meeting/Adjourment**

**DISCUSSION:** The next meeting of the Prospect MMH/RGH Board of Directors is scheduled for Wednesday, December 14, 2016 at 7:30 a.m. in the MMH CR A, B & C. The calendar of meetings for 2017 was included in the packet for informational purposes. These dates have been posted on the BoardEffect Portal.

Dr. O'Neill stated that it has been approximately 6 ½ weeks since the closing of the transaction and although Mr. Collins had been onsite as Chief Integration Officer, his position as Interim CEO was abrupt due to the precipitous departure of the former CEO. Feedback from the medical staff, hospital staff and the senior management team has been very positive. He commended Mr. Collins for the work his is doing and the current state of the organization.

The meeting was adjourned.

Respectfully submitted,

Chantal M. Perigo
Recording Secretary

Irene Quong Conlon
Board Secretary

RE: Compliance with Certificate of Need Agreed Settlement under Docket Number 15-32016-486.
Sale of the Assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.

Dear Mr. Collins

OHCA has received your response to its Certificate of Need Compliance inquiry regarding the Prospect ECHN Local or Advisory Board composition. OHCA requires additional information and clarification regarding this matter. Please see OHCA's additional questions below:

1. You indicate that the Local Board has been selected. However, as of this date, the Vernon Community Member remains a vacant position. What steps is Prospect ECHN actively taking to resolve the issue of the vacant community representative member?

2. OHCA asked in inquiry question #6, for an explanation as to why any board member who was recommended by the two mayors was not selected and accepted for board membership ("*explain why they were not selected*"). In response, you refer to your response to inquiry question #3, wherein you indicate that Prospect ECHN has not received a recommendation of an unbiased person who will fairly represent the interests of the community served by RGH. OHCA notes that this explanation merely quotes the wording of Stipulation #20 and does not provide further explanation as to the reason for candidate rejection. Please indicate why the recommendation was not accepted for the vacant board position.

Please provide a response to the above by end of day, Tuesday, February 28, 2017.

Re: Compliance with Certificate of Need Agreed Settlement under Docket #15-32016-486

Dear Ms. Martone:

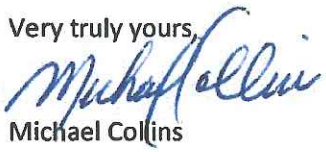
I am in receipt of your email communication dated February 23, 2017 in which you requested additional information on behalf of OHCA relating to Stipulation #20 of the Certificate of Need listed under Docket #15-32016-486. Below are the responses of Prospect ECHN to the questions set forth in that email.

1. **You indicate that the Local Board has been selected. However, as of this date, the Vernon Community Member remains a vacant position. What steps is Prospect ECHN actively taking to resolve the issue of the vacant community representative member?**

   As indicated in my response to you dated February 17, 2107, ECHN met with Mayor Champagne on July 11, 2016 to discuss the appointment of an Advisory Board member. Subsequently, Prospect ECHN met with him on October 12, 2016, November 3, 2016, and most recently on January 31, 2017 for the same purpose. Additionally, Mayor Champagne volunteered to, and did, attend and participate in the most recent Advisory Board meeting on February 22, 2017. Prospect ECHN welcomes Mayor Champagne's attendance at future Advisory Board meetings, and pending his nomination of an unbiased person we have contacted the Mayor and asked him to serve on the Advisory Board on an interim basis.

2. **OHCA asked in inquiry question #6, for an explanation as to why any board member who was recommended by the two mayors was not selected and accepted for board membership ("explain why they were not selected"). In response, you refer to your response to inquiry question #3, wherein you indicate that Prospect ECHN has not received a recommendation of an unbiased person who will fairly represent the interests of the community served by RGH. OHCA notes that this explanation merely quotes the wording of Stipulation #20 and does not**

**provide further explanation as to the reason for candidate rejection. Please indicate why the recommendation was not accepted for the vacant board position. Has the Local Board been selected and what was the selection process?**



In concluding that Dr. Marmer did not demonstrate the required qualification of being an unbiased person, Prospect relied on the statements that Dr. Marmer made at public hearings and/or on the public record prior to and after the transaction between Eastern Connecticut Health Network, Inc. and Prospect Medical Holdings, Inc. Examples of such statements are enclosed with this letter. With the exception of this position, which as indicated in the response to Question 1 above ECHN has invited the Mayor of Vernon to fill with himself or another qualified designee, the Advisory Board's composition is complete.

In response to your question about the process used to select Advisory Board members, Prospect ECHN provides the following outline describing the process and criteria for selecting those members.

1. Prospect ECHN reviewed the terms of the Asset Purchase Agreement dated August 25, 2016 between Eastern Connecticut Health Network, Inc. and Prospect Medical Holdings, Inc. relating to the composition of the Advisory Board.
2. Prospect ECHN selected physicians, former ECHN Board members and other community members who met the requirements in the Asset Purchase Agreement, with careful consideration given to those individuals' prior demonstrated sustained commitment and community service directly in support of the mission of ECHN.
3. Prospect ECHN reviewed the requirements in Stipulation #20 of the Certificate of Need for "two unbiased persons" to serve as community members "selected in consultation with the Mayors of Manchester and Vernon."
4. Based on ECHN's consultation with the Mayor of Manchester who recommended Mary Roche-Cronin for the MMH community representative, Prospect ECHN determined her to be an unbiased person and named her to the MMH community representative position.
5. Prospect ECHN consulted with the Mayor of Vernon on the dates indicated in the response to Question 1 above, but has not as yet received from the Mayor of Vernon a recommendation for an unbiased person to serve as the RGH community representative. Thus, Prospect ECHN has not been able to fill that position.

Thank you for your consideration of this submission.

Very truly yours,

Michael Collins
Interim CEO

# Approved but not OK; ECHN hospital sales questioned

**By Don Michak and John Kennedy Journal Inquirer | Posted: Wednesday, April 30, 2014 9:22 am**

Eastern Connecticut Health Network President and CEO Peter J. Karl on Tuesday disclosed that three weeks earlier the board of trustees at the regional nonprofit approved a definitive agreement to sell it to a for-profit hospital chain in Texas.

Karl also revealed that under the agreement with Tenet Healthcare Corp. and its junior partner in the joint venture poised to make the acquisition, Yale New Haven Health System, ECHN's Rockville General Hospital in Vernon could not be shuttered for three years after a sale.

When a questioner suggested that period was too short and asked if "you are selling us down the river," Karl adamantly denied doing so.

"This is the best for the community because we are able to invest in the organization," he said, adding the "alternative scenario" would mean that ECHN would have to close both Rockville General and its second, larger hospital, Manchester Memorial, "within a five-year period."

The CEO's comments came as he and others involved in the controversial deal — Trip Pilgrim, the chief development officer at Tenet, and Vincent Petrini, a senior vice president at Yale New Haven Health — were grilled by about a dozen area residents who attended a forum at Rockville High School on the proposed sale.

Several made observations that led to awkward silences among the officials as audience members called out for them to respond.

Though the board of trustees has signed off on the deal, any sale also would require approval by ECHN's "corporators" as well as by state regulators.

'Run them into a ditch'

The most stinging comments came from Vernon resident Jean Merz, who blasted Tenet, its past corporate practices, and its compensation of executives. She also suggested that Karl had mismanaged ECHN and run its Manchester Memorial and Rockville General hospitals into the ground.

Merz said she and others also didn't believe that ECHN had done "due diligence" on Tenet. Karl and his colleagues, she said, appear to have found their corporate partner in "the Cayman Islands," a reference to the annual sojourns ECHN officials and some of their spouses have made to the Caribbean nation, ostensibly for business meetings of the network's offshore insurance subsidiary.

"Mr. Pilgrim, we don't want your company in Connecticut, we don't want you at Rockville," she told the Tenet executive. "We do not want money going to your CEO, who makes $22 million a year. We do not want money going to your stockholders. … We think your company looks for loopholes in Medicare and Medicaid to perpetuate fraud.

"Mr. Karl, we don't think you own Rockville General or Manchester Memorial hospitals, we think that the people of those towns own them," she added. "You've run them — and you've run them into a ditch."

Neither Karl, Pilgrim, nor Petrini responded to Merz.

Dying a slow death

The officials also took flak from two former mayors of Vernon, both Democrats. Rockville General, despite cuts in recent years, remains one of the town's largest private employers.

One of them, Ellen Marmer — a pediatric cardiac surgeon who was on the Rockville General staff for more than three decades — suggested that the financial problems ECHN is experiencing today began with the merger between Manchester Memorial and Rockville General that created the health system.

"We heard the same dog-and-pony show when you lost maternity for us," she said, referring to the closure several years ago of Rockville's birthing unit. "I refuse to let this hospital die a Tenet, Yale, and ECHN death."

She added: "Two people will tell you to go to hell, and from one, you'll ask directions, and the other, you'll want to punch out. I want to punch you out, because you're telling us to go to hell."

Former Mayor Marie Herbst objected to the provision that Karl said would ensure that Rockville General remain open for three years.

Herbst, one of the 261 community volunteers who as ECHN corporators will be asked to approve the trustees' decision to sell, said Rockville General is in a section of Vernon

where residents don't necessarily have cars to drive to other towns for medical care and where many may not be properly insured, so "three years is not a guarantee."

"It is our community hospital — it is our home — it belongs to us," she said, adding that she didn't think the partners in the planned deal had given enough thought to what would happen if the hospital closed.

"You're taking something that belongs to this community and you're giving it away, and the only thing I can find at all is that it might last three years, and that's not enough for me," she said.

Questions ducked

An hour before the 90-minute meeting at the high school, an ECHN spokeswoman, Nina Kruse, offered a limited response to 15 questions about the planned buyout that were posed last weekend by the Journal Inquirer.

Kruse declined, for example, to say whether ECHN had agreed to provide any particular severance benefits to its top executives in the event of a sale, citing a policy of "not sharing private employee matters."

Similarly, asked if ECHN or Tenet had agreed to specific staffing levels after an acquisition, she said such details "are subject to the confidentiality terms in the negotiated agreement" and would be disclosed later during "the regulatory approval process."

The spokeswoman cited the same confidentiality terms as she ducked questions about whether ECHN had negotiated any protections for nonunion employees, especially at Rockville General, in the event of a sale.

Asked if Tenet had agreed not to sell or close ECHN facilities for a certain period of time, Kruse again cited the confidentiality terms — provisions apparently violated by Karl hours later as he responded to questions at the high school.

Karl in a brief address before the audience was invited to comment argued that the "era of free-standing, small hospital environment is coming to an end." He said there has been a "change in the landscape" brought about not only by the new federal health care law, but also by "a whole host of other cuts."

"Our job is to preserve the 3,000 employees that we have at ECHN," he said. "We want to make sure that we keep both hospitals open, that's part of the deal."

He added: "We want to make sure that we don't lose any more market share to Hartford."

The CEO also talked unusually frankly about "profit" — a word that has been studiously avoided by officials at the state's "nonprofit" hospitals, who instead have preferred to discuss "margins."

"We no longer generate enough profit to invest in our facilities," he said. "We need to figure out how to get our costs down as much as possible without eliminating any quality. ... If you don't generate enough of a profit, you simply can't reinvest in your hospitals. We have been generating a profit in the area of $6 million to $8 million a year, and the issue now with all of these added taxes and the sequestration, we can't generate that profit any longer.

"If the Affordable Care Act is successful, an organization is going to be paid completely differently for caring for the whole patient. … We recognize that the only way we can be sustainable is if we can get those costs down by 15 percent or 20 percent, and we can't do that any longer," he continued.

Asked by an Ellington resident "who gets the check" from Tenet upon a sale, Karl said "if there's any funds left over, they go to the attorney general's office, who reviews those funds to make sure all debts are paid, and then into a community foundation that is set up with a completely independent board of directors."

Pilgrim, meanwhile, emphasized that Tenet is well positioned to fix ECHN's financial problems, in part because of its access to capital. He also stressed that Tenet has the advantage of economies of scale, saying it is "like bulk purchasing, like going to Costco."

The benefits would accrue not only to the supply chain, he said, but also in the human resources and information technology departments.

# Prospect snubs Vernon critic

## Won't recognize Marmer's appointment by mayor to advisory panel

By Kym Soper
Journal Inquirer

The new, for-profit parent company of Rockville General Hospital has repeatedly rejected the Vernon mayor's appointment to a state-mandated advisory board without explanation, leaving that town without a voice, or a vote, at the table.

The move has many local officials baffled and in an uproar, as Vernon Mayor Daniel Champagne's candidate — Dr. Ellen Marmer, a pediatric heart surgeon and a former Vernon mayor — is clearly knowledgeable and qualified for the post.

State Rep. Michael Winkler, D-Vernon, said the appointment to the Prospect Medical Eastern Connecticut Health Network advisory board should be the mayor's prerogative, and that the new owners have no standing to reject it.

Marmer is "uniquely qualified" and "would be a strong advocate for Vernon in the continued operation of Rockville

SEE PROSPECT / PAGE 3

## Prospect mum on Marmer's rejection

PROSPECT
CONTINUED FROM PAGE 1

General Hospital," Winkler said. "She's just a fantastic appointment by the mayor."

State Sen. Tony Guglielmo, R-Stafford, whose district includes Vernon and surrounding towns that Rockville General serves, agreed.

"She's certainly qualified as an M.D. and a former mayor, and as someone who will speak her mind," Guglielmo said. "If you go on straight qualifications, there's no question that she's a top flight person" for the job.

Champagne said he's been frustrated by the lack of representation on the board for his town, which is required by the state as a condition of the sale.

In October when California-based Prospect bought nonprofit ECHN in a $105 million deal, state regulators required it maintain an advisory board that includes voting community members from Manchester and Vernon, the two towns where hospitals are located.

Vernon residents, in particular, have grave concerns that Prospect will close Rockville General after the requirement to keep it operating for three years has passed.

Manchester Mayor Jay Moran nominated that town's Human Services Director, Mary Roche Cronin, to the 14-member board, and she said she has attended at least three meetings thus far.

Champagne, Marmer, and the town of Vernon remain steadfast, however, waiting for their seat on the advisory board, which is subordinate to Prospect's board of directors and primarily includes staff doctors from Manchester Memorial and Rockville General, interim CEO Michael Collins, and five individuals from ECHN's Board of Trustees.

ECHN and Prospect officials both refused to comment, either on the rejection of Marmer's appointment or to reveal the board members' names.

Marmer, who worked for decades at Rockville but now has admitting privileges at all Hartford hospitals, said Prospect doesn't want her on the board because she's been a vocal critic of the takeover.

"It's because I know where all the bodies are buried," Marmer said of Prospect's rejection. "They're afraid of me because I'm outspoken and I have a lot of history with the hospital and the town."

Marmer said Prospect's snub was done with "full malice and forethought on their part. The last thing they want is to have a proactive, knowledgeable person on that board."

Prospect and ECHN have already shown bad faith with staff layoffs last week, she said. They want someone who would "rubber-stamp" whatever they do.

"But I will continue to fight for this medical community until somebody shuts me up," she said. "If Prospect gets their way, Rockville won't be an active hospital — it'll be a way station. It's already happening."

And that will be the beginning of the end for Manchester Memorial Hospital, Marmer predicted.

Eventually, when Rockville General is no longer viable, residents from Bolton, Coventry, Ellington, Tolland, and the surrounding area will "hop on the highway and skip right on by Manchester and head into Hartford" only 10 more minutes away to see a doctor or get hospital care, she said.

For now, both Winkler and Guglielmo said they plan to investigate and see if the Vernon mayor has any recourse.

"When you make a contract, you have to keep to it. That's just the way we operate in a civil society," Guglielmo said. "You can't just get rid of what you don't like. Both sides are obligated to honor the deal."

February 28, 2017

Kimberly R. Martone
Director of Operations, Office of Health Care Access
Connecticut Department of Public Health
410 Capitol Avenue, MS #13 CMN, Hartford, Connecticut 06134

Re: Compliance with Certificate of Need Agreed Settlement under Docket #15-32016-486

Dear Ms. Martone:

I am in receipt of your email communication dated February 23, 2017 in which you requested additional information on behalf of OHCA relating to Stipulation #20 of the Certificate of Need listed under Docket #15-32016-486. Below are the responses of Prospect ECHN to the questions set forth in that email.

1. **You indicate that the Local Board has been selected. However, as of this date, the Vernon Community Member remains a vacant position. What steps is Prospect ECHN actively taking to resolve the issue of the vacant community representative member?**

   As indicated in my response to you dated February 17, 2107, ECHN met with Mayor Champagne on July 11, 2016 to discuss the appointment of an Advisory Board member. Subsequently, Prospect ECHN met with him on October 12, 2016, November 3, 2016, and most recently on January 31, 2017 for the same purpose. Additionally, Mayor Champagne volunteered to, and did, attend and participate in the most recent Advisory Board meeting on February 22, 2017. Prospect ECHN welcomes Mayor Champagne's attendance at future Advisory Board meetings, and pending his nomination of an unbiased person we have contacted the Mayor and asked him to serve on the Advisory Board on an interim basis.

2. **OHCA asked in inquiry question #6, for an explanation as to why any board member who was recommended by the two mayors was not selected and accepted for board membership ("explain why they were not selected"). In response, you refer to your response to inquiry question #3, wherein you indicate that Prospect ECHN has not received a recommendation of an unbiased person who will fairly represent the interests of the community served by RGH. OHCA notes that this explanation merely quotes the wording of Stipulation #20 and does not**

**provide further explanation as to the reason for candidate rejection. Please indicate why the recommendation was not accepted for the vacant board position. Has the Local Board been selected and what was the selection process?**

In concluding that Dr. Marmer did not demonstrate the required qualification of being an unbiased person, Prospect relied on the statements that Dr. Marmer made at public hearings and/or on the public record prior to and after the transaction between Eastern Connecticut Health Network, Inc. and Prospect Medical Holdings, Inc. Examples of such statements are enclosed with this letter. With the exception of this position, which as indicated in the response to Question 1 above ECHN has invited the Mayor of Vernon to fill with himself or another qualified designee, the Advisory Board's composition is complete.

In response to your question about the process used to select Advisory Board members, Prospect ECHN provides the following outline describing the process and criteria for selecting those members.

1. Prospect ECHN reviewed the terms of the Asset Purchase Agreement dated August 25, 2016 between Eastern Connecticut Health Network, Inc. and Prospect Medical Holdings, Inc. relating to the composition of the Advisory Board.
2. Prospect ECHN selected physicians, former ECHN Board members and other community members who met the requirements in the Asset Purchase Agreement, with careful consideration given to those individuals' prior demonstrated sustained commitment and community service directly in support of the mission of ECHN.
3. Prospect ECHN reviewed the requirements in Stipulation #20 of the Certificate of Need for "two unbiased persons" to serve as community members "selected in consultation with the Mayors of Manchester and Vernon."
4. Based on ECHN's consultation with the Mayor of Manchester who recommended Mary Roche-Cronin for the MMH community representative, Prospect ECHN determined her to be an unbiased person and named her to the MMH community representative position.
5. Prospect ECHN consulted with the Mayor of Vernon on the dates indicated in the response to Question 1 above, but has not as yet received from the Mayor of Vernon a recommendation for an unbiased person to serve as the RGH community representative. Thus, Prospect ECHN has not been able to fill that position.

Thank you for your consideration of this submission.

# Approved but not OK; ECHN hospital sales questioned

**By Don Michak and John Kennedy Journal Inquirer | Posted: Wednesday, April 30, 2014 9:22 am**

Eastern Connecticut Health Network President and CEO Peter J. Karl on Tuesday disclosed that three weeks earlier the board of trustees at the regional nonprofit approved a definitive agreement to sell it to a for-profit hospital chain in Texas.

Karl also revealed that under the agreement with Tenet Healthcare Corp. and its junior partner in the joint venture poised to make the acquisition, Yale New Haven Health System, ECHN's Rockville General Hospital in Vernon could not be shuttered for three years after a sale.

When a questioner suggested that period was too short and asked if "you are selling us down the river," Karl adamantly denied doing so.

"This is the best for the community because we are able to invest in the organization," he said, adding the "alternative scenario" would mean that ECHN would have to close both Rockville General and its second, larger hospital, Manchester Memorial, "within a five-year period."

The CEO's comments came as he and others involved in the controversial deal — Trip Pilgrim, the chief development officer at Tenet, and Vincent Petrini, a senior vice president at Yale New Haven Health — were grilled by about a dozen area residents who attended a forum at Rockville High School on the proposed sale.

Several made observations that led to awkward silences among the officials as audience members called out for them to respond.

Though the board of trustees has signed off on the deal, any sale also would require approval by ECHN's "corporators" as well as by state regulators.

'Run them into a ditch'

The most stinging comments came from Vernon resident Jean Merz, who blasted Tenet, its past corporate practices, and its compensation of executives. She also suggested that Karl had mismanaged ECHN and run its Manchester Memorial and Rockville General hospitals into the ground.

Merz said she and others also didn't believe that ECHN had done "due diligence" on Tenet. Karl and his colleagues, she said, appear to have found their corporate partner in "the Cayman Islands," a reference to the annual sojourns ECHN officials and some of their spouses have made to the Caribbean nation, ostensibly for business meetings of the network's offshore insurance subsidiary.

"Mr. Pilgrim, we don't want your company in Connecticut, we don't want you at Rockville," she told the Tenet executive. "We do not want money going to your CEO, who makes $22 million a year. We do not want money going to your stockholders. … We think your company looks for loopholes in Medicare and Medicaid to perpetuate fraud.

"Mr. Karl, we don't think you own Rockville General or Manchester Memorial hospitals, we think that the people of those towns own them," she added. "You've run them — and you've run them into a ditch."

Neither Karl, Pilgrim, nor Petrini responded to Merz.

Dying a slow death

The officials also took flak from two former mayors of Vernon, both Democrats. Rockville General, despite cuts in recent years, remains one of the town's largest private employers.

One of them, Ellen Marmer — a pediatric cardiac surgeon who was on the Rockville General staff for more than three decades — suggested that the financial problems ECHN is experiencing today began with the merger between Manchester Memorial and Rockville General that created the health system.

"We heard the same dog-and-pony show when you lost maternity for us," she said, referring to the closure several years ago of Rockville's birthing unit. "I refuse to let this hospital die a Tenet, Yale, and ECHN death."

She added: "Two people will tell you to go to hell, and from one, you'll ask directions, and the other, you'll want to punch out. I want to punch you out, because you're telling us to go to hell."

Former Mayor Marie Herbst objected to the provision that Karl said would ensure that Rockville General remain open for three years.

Herbst, one of the 261 community volunteers who as ECHN corporators will be asked to approve the trustees' decision to sell, said Rockville General is in a section of Vernon

where residents don't necessarily have cars to drive to other towns for medical care and where many may not be properly insured, so "three years is not a guarantee."

"It is our community hospital — it is our home — it belongs to us," she said, adding that she didn't think the partners in the planned deal had given enough thought to what would happen if the hospital closed.

"You're taking something that belongs to this community and you're giving it away, and the only thing I can find at all is that it might last three years, and that's not enough for me," she said.

Questions ducked

An hour before the 90-minute meeting at the high school, an ECHN spokeswoman, Nina Kruse, offered a limited response to 15 questions about the planned buyout that were posed last weekend by the Journal Inquirer.

Kruse declined, for example, to say whether ECHN had agreed to provide any particular severance benefits to its top executives in the event of a sale, citing a policy of "not sharing private employee matters."

Similarly, asked if ECHN or Tenet had agreed to specific staffing levels after an acquisition, she said such details "are subject to the confidentiality terms in the negotiated agreement" and would be disclosed later during "the regulatory approval process."

The spokeswoman cited the same confidentiality terms as she ducked questions about whether ECHN had negotiated any protections for nonunion employees, especially at Rockville General, in the event of a sale.

Asked if Tenet had agreed not to sell or close ECHN facilities for a certain period of time, Kruse again cited the confidentiality terms — provisions apparently violated by Karl hours later as he responded to questions at the high school.

Karl in a brief address before the audience was invited to comment argued that the "era of free-standing, small hospital environment is coming to an end." He said there has been a "change in the landscape" brought about not only by the new federal health care law, but also by "a whole host of other cuts."

"Our job is to preserve the 3,000 employees that we have at ECHN," he said. "We want to make sure that we keep both hospitals open, that's part of the deal."

He added: "We want to make sure that we don't lose any more market share to Hartford."

The CEO also talked unusually frankly about "profit" — a word that has been studiously avoided by officials at the state's "nonprofit" hospitals, who instead have preferred to discuss "margins."

"We no longer generate enough profit to invest in our facilities," he said. "We need to figure out how to get our costs down as much as possible without eliminating any quality. ... Independent Monitor for Prospect ECHN CON Docket # 15-32016-486

Hi Ms. Scott – as the Independent Monitor for the Prospect ECHN CON under Docket # 15-32016-486, we wanted to alert you to several compliance related email communications that have recently occurred between the Office of Health Care Access (OHCA) and Mr. Michael Collins, Interim CEO for the two Prospect ECHN hospitals. Please reference PDF pages 716 – 772 of http://www.ct.gov/dph/lib/dph/ohca/con_completed/2016/15_32016_486_compliance.pdf for the recent communications that have occurred.

Condition #20 states:

> 20. For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

At this time, there is no further questions for the Applicant in this regard, but OHCA will continue to need to be kept updated on the status of or any changes to the two community representatives, required pursuant to Condition #20.

Thank you.

Sincerely,

*Karen Roberts*

Dear Karen,
Thank you for this update regarding Condition #20. I was aware that ECHN has experienced difficulty in finding a suitable Vernon representative for the local Advisory Board. I will follow up immediately with Dennis McConville and Michael Collins regarding their progress in filling this position with a qualified, unbiased Vernon community representative.
Sincerely,
Colleen Smith

Independent Monitor for Prospect ECHN CON Docket # 15-32016-486

Hi Ms. Scott – as the Independent Monitor for the Prospect ECHN CON under Docket # 15-32016-486, we wanted to alert you to several compliance related email communications that have recently occurred between the Office of Health Care Access (OHCA) and Mr. Michael Collins, Interim CEO for the two Prospect ECHN hospitals. Please reference PDF pages 716 – 772 of http://www.ct.gov/dph/lib/dph/ohca/con_completed/2016/15_32016_486_compliance.pdf for the recent communications that have occurred.

Condition #20 states:

20. For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to

health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

At this time, there is no further questions for the Applicant in this regard, but OHCA will continue to need to be kept updated on the status of or any changes to the two community representatives, required pursuant to Condition #20.

Thank you.

Sincerely,

*Karen Roberts*

Hi Colleen

This email is being sent to you as the Independent Monitor for the Certificate of Need (CON) Order issued under Docket Number 15-32016-486 for Prospect ECHN. Please be informed OHCA finds that the submission sent by Prospect ECHN on October 20, 2016 which included the *"final execution copies of the Asset Purchase Agreement with schedules ..."* is deficient in terms of the wording of Condition #3 of the CON Order, which states the following (yellow highlighting added):

3. Applicants shall notify OHCA in writing of the Closing Date of the Asset Purchase authorized by this Order within twenty (20) days of such closing and shall supply final execution copies of all agreements related to same, including but not limited to:
    a. the APA, including any and all schedules and exhibits; and
    b. Bylaws or similar governance documents for New ECHN, as well as for New MMH and New ROH.

The Applicants may redact from the APA any information that is exempt from disclosure under Conn. Gen. Stat. § 1-210. If the Applicants redact materials in accordance with the revious sentence, the Applicants shall provide a list to OHCA, which identifies in general terms the nature of the redacted material and why it is claimed to be exempt for ublic record j)Ur oses.

The material filed by Prospect ECHN on October 20, 2016 {which is on the OHCA website at http://www.ct.gov/dph/lib/dph/ohca/con_completed/2016/15_32016_486_compliance.pdf)} has a significant number of Schedules to the Asset Purchase Agreement, but there are numerous Schedules wherein Prospect ECHN merely lists Redacted per Conn. Gen. Stat. § 1-210(b)" then either sub (2) or (5) is listed. There is no filing of the required list to OHCA identifying the redacted material and "why it is claimed to be exempt for public record purposes."

As Independent Monitor for this CON Docket Number, please have this compliance issue resolved at the earliest possible convenience. Thank you. Karen

Sincerely,

**User, OHCA**

**Subject:** Regarding CON Compliance filings for Docket #15-32016-486 (Prospect ECHN)

Hi Mr. McConville

This email is regarding the contents of your letter attached to an email sent to OHCA on November 30, 2016 (see email below) regarding the submission of material required by Conditions #8, #9 and #10 of the Certificate of Need Order. Your letter regards the timing of the initial filings for the material required by these three Conditions. Please note the following regarding the timeframes you mention in your letter:

- Regarding Condition #8, per the wording of the Condition this material is due "*Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10"*. The initial capital commitment report is due **March 30, 2017**, which is 180 days from the 10/1 closing date. After the initial filing, the submissions follow the 5/31 and 11/30 timeframes. OHCA notes that the **March 30th** date is close to the semi-annual filing date for the additional financial filings in #9 and #10 due on **May 31st**. Please indicate whether the Applicant will be ready to file this material on the due date of **March 30th** or would like OHCA to consider having the initial submission regarding instead filed on **May 31st**.

- Regarding the initial submission of Conditions 9 and 10 on **May 31, 2017** rather than the **November 30, 2016** date listed in the wording of the conditions; that seems reasonable considering the timing of the closing date (10/1/2016).

- OHCA further notes that there are several Conditions that require information to be filed by **March 30, 2017**, 180 days from the closing: Condition #4, Condition #6, and the aforementioned Condition #8.

Please let OHCA know whether the Applicant will be filing the initial financial report due pursuant to Condition #8 on March 30, 2017 or whether the Applicant would like to consider having the initial filing submitted on or by May 31, 2017. Thank you. Karen

Karen.

Thank you. I interpreted the language in Condition #8 with the reference to the "*same semi-annual schedule as set forth in Conditions 9 and 10*", as applying to all the required filing dates for Condition #8. With the closing of our transaction on October 1, 2016, it makes sense to me because we are reporting capital investments through March 31, 2017 which marks the end of the 180 day period post-closing. That would give us time to produce the report. Prospect ECHN respectfully requests permission to file the Capital Investment Report with the information for Conditions 9 and 10 no later than May 31, 2017.

The information for Conditions 4 and 6 will be filed by March 30, 2017.

Thank you,

Dennis

Hi Colleen:

This email is being sent to you as the Independent Monitor for the Certificate of Need (CON) Order issued under Docket Number 15-32016-486 for Prospect ECHN. Please be informed that the Office of Health Care Access (□OHCA□) re□uires additional clarification for the public record regarding the formation and operation of the Local Board or Boards for Prospect ECHN. The wording of the February 17th and 28th responses to OHCA from Prospect ECHN appear to discuss this body as a singular Local Board (term Board is used instead of Boards).

The following is Finding of Fact □28 of the CON Agreed Settlement for Docket Number 15-32016-486 (underlining added):

> Following the closing, New MMH and New RGH will each maintain an advisory board subordinate to PMH□s Board of Directors and comprised of community representatives, physicians on the medical staffs of New MMH and New RGH, and the New Hospitals□CEO (the □Local Board□). The initial members of the Local Board will include at least five members of ECHN□s Board of Trustees. PMH plans to appoint the same individuals to the Local Board of New MMH and the Local Board of New RGH and to have the boards meet concurrently to encourage interaction within the system. PMH will schedule regular standing meetings to update the Local Board. Ex. G, p. 30; Ex. □, p. 2165

It is unclear from a review of material filed by Prospect ECHN since the transaction date, whether the Local Board is (a) a singular body, or (b) two separate boards that have the same membership and meet concurrently and is being called . As Independent Monitor for this CON Docket Number, please have Prospect ECHN provide clarification of this matter to OHCA at the earliest convenience. Thank you. □aren

Sincerely,

Dear Karen,
Dennis McConville and I have discussed the composition of the RGH and MMH advisory boards. Each does have individual local representatives from the 2 towns. However, most of the other board members are shared and the intent is to meet concurrently as a more efficient process and as stated in the 2/28 response to OHCA to encourage shared communication.
I will speak with Mr. McConville and request the additional clarification for the public record.
Best regards,
Colleen Smith

Re: Compliance with Certificate of Need Agreed Settlement under Docket #15-32016-486

Dear Ms. Roberts:

We understand that you have requested clarification of the structure of the Prospect ECHN, Inc. ("Prospect ECHN") Advisory Boards (Local Boards); i.e., whether (a) there is one Local Board that is operating as a singular body, or (b) there are two separate boards that have the same membership and meet concurrently.

The arrangement in place at Prospect ECHN for its Local Boards is consistent with description (b). In compliance with its obligation to maintain two separate Local Boards for its two hospitals, Prospect ECHN maintains two separate Local Advisory Boards which share the same membership and meet concurrently. To the extent that the term "Local Board" has been used in the past this was for convenience and in order to convey that because ECHN's two hospitals operate in an integrated manner, and because the Local Boards meet concurrently and have the same members, the Local Boards' activities and actions generally occur simultaneously for the common benefit of both hospitals. When appropriate, however, separate action is taken by the Local Boards with respect to each hospital.

Because this choice of terminology may have led to confusion, Prospect ECHN will endeavor going forward to use the plural term "Boards" when referring to the Local Advisory Boards.

Karen Roberts
Office of Health Care Access
March 29, 2017

Thank you for your consideration of this communication.

Very truly yours,

Michael Collins
Interim CEO

Deputy Commissioner Janet M. Brancifort, MPH, RRT
Office of Health Care Access
Department of Public Health
410 Capitol Avenue, MS#13HCA
P.O. Box 340308
Hartford, CT 06134

**Re:** **Docket Number: 15-32016-486, Final Order, Condition Number Four**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Deputy Commissioner Brancifort:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Four (4) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Four (4) requires that PMH will "submit a plan (the "Health Needs Plan") for continuing to support and implement ECHN's 2016 CHNA and for conducting the New Hospital's next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study")".

PMH has and will continue to implement the 2016 ECHN Community Health Needs Plan which is enclosed. The following is the information required for Condition Number Four (4) related to the next comprehensive study of community health needs in the service area that PMH will conduct.

(i) The data that will be collected and analyzed to systematically assess health status indicators of the Service Area;

As was done with the 2016 ECHN Community Health Needs Assessment (CHNA) effort, PMH will select a consultant to collect primary and secondary health data from

both quantitative and qualitative sources that will be incorporated in the assessment. Professional Research Consultants, Inc. (PRC) (www.PRCCustomResearch.com) was engaged to conduct the 2016 CHNAs on behalf of the hospitals. Those CHNA Reports may be found at the following URL: http://www.echn.org/community-benefit-reporting . As with PRC's approach, the plan will include the following data: population characteristics, social and economic data that has been shown to influence health, health survey data using a tool that is based on the Centers for Disease Control & Prevention (CDC) Behavioral Risk Factor Surveillance Survey (BRFSS), survey data collected from key community representatives and organizations who can identify primary concerns of the communities that they work with, vital statistics and public health data from various state and national sources. The methodology for the study will include sample design and the quality control procedures used for the collection of data to ensure that the sample is representative and therefore the findings may be generalized to the total population of community members in the defined area with a high degree of confidence. Detailed findings will identify the health needs and include benchmark comparisons against state and national data, comparison against relevant Healthy People 2020 targets and incorporate qualitative findings from key community informants. Finally, the findings will be blended into a single, comprehensive report organized by health topic.

(ii) The identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations that will be enlisted to participate in the study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;

Key community organizations and leaders will be asked to rate the degree to which various health issues are a problem in their own community to assist in the development of health priorities. These key informants will include independent physicians, public health experts/representatives, other health providers, social service representatives and other community leaders. Individuals whose organizations work with low-income, minority populations or other medically underserved populations will be included in the gathering of this qualitative data.

The plan will be to request participation from the key informants that participated in the 2016 study which included the following organizations:

| | |
|---|---|
| Community Health Resources | Highland Park Market |
| First Choice Health Centers, Inc. | Lion Heart Health & Fitness |
| Healthwise Medical Associates, LLP | Manchester Community Services Council |

- Manchester Public Schools
- Manchester School Readiness Council
- Manchester Senior, Adult & Family Services
- Manchester Youth Services Bureau
- North Central District Health Department
- Paradigm Chiropractic & Functional Medicine
- Prohealth Chiropractic Center
- Town of Manchester Health Department
- Town of Manchester Senior Center
- Shoprite of East Hartford
- Vernon Public Schools
- WIC Program

In addition, as part of the current Health Needs Plan, the implementation strategy identifies community partners that plan to collaborate with ECHN and its affiliates to address the priority health issues chosen for action in the FY 2016 – FY 2019 period. PMH will look for opportunities to work with these partner organizations for the planning and implementation of the next CHNA and Plan. These partners include but are not limited to:

- Area Churches
- Chambers of Commerce
- Community Health Resources
- Community Physicians & Providers
- CT Community for Addiction Recovery
- CT Suicide Advisory Board
- Early Head Start
- East Central Multidisciplinary Team
- East of the River Action for Substance Abuse Elimination
- First Choice Health Center
- Geissler's Supermarket
- Highland Park Market
- Hockanum Valley Community Council
- Manchester Police Department
- Manchester Public Schools (Family & Community Partnerships)
- Manchester School Readiness Committee
- Manchester & Vernon Juvenile Review Boards
- Manchester & Vernon Local Prevention Council
- Public Schools
- Senior Centers
- Skilled Nursing Facilities
- Town Health and Human Services Agencies
- Vernon School Readiness Committee

(iii) The qualifications of consultants experienced in performing CHNAs who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;

Professional Research Consultants, Inc. conducted the 2016 CHNAs on behalf of the hospitals. PRC is a nationally recognized healthcare consulting firm with over three decades of experience with health-related surveying, including more than twenty years of experience implementing community health assessment tools, methods and protocols.

PRC has conducted CNHAs across the country for health care organizations. PMH will engage a firm of like qualifications for the 2019 study. http://www.prccustomresearch.com/about/who-is-prc/

(iv) The frequency with which the study will be repeated;

The next CHNAs for the hospitals will be conducted in 2019 with PRC or a professional research firm with comparable qualifications.

(v) The manner in which results of the study and the implementation strategy to address the priority health needs identified therein will be distributed to the community;

A copy of the 2016 Community Health Needs Assessment Implementation Strategy for the Eastern Connecticut Health Network – The Manchester Memorial Hospital and The Rockville General Hospital Incorporated is included in this filing. The 2016 CHNAs for Manchester and Vernon are available to the public on the hospitals' website at http://www.echn.org/community-benefit-reporting. In addition, a summary description of the assessment will be published in an upcoming edition of *Better Being*, a widely distributed ECHN Newsletter which promotes the community health education programs available at ECHN.

(vi) The manner in which the study will complement the population health management objectives of PMH and the new hospitals.

PMS's Coordinated Regional Care (CRC) team has established several programs to address the care coordination and care management needs of the ECHN community. These programs use information and data received from multiple sources, i.e., PCP referrals, CMS data or payer claims and utilization data to identify, stratify and outreach to appropriate patients within the population with a targeted intervention. The following programs are currently in place:

Emergency Department (ED) Care Management: The goal of this program is to identify appropriate clinical, behavioral or social resources for patients who seek care at ECHN hospital EDs. It was identified that during the evenings and weekend days there was a greater opportunity to redirect those patients seeking services in the ED to a community based provider including primary care, specialists or behavioral health providers. For those patients without a community based provider, assistance with selecting and accessing a provider was given. The ED care managers also provide education on condition and symptom management in order to avoid subsequent ED visits. The ED

care managers will engage the PCP aligned care coordination staff to provide follow up for those most at risk patients.

Transition of Care: The goal of this program is to identify patients admitted to an ECHN facility with focused conditions, notify the PCP of the admission and to facilitate appropriate physician follow-up once the patient has transitioned back to home. The Transitional Care Coordinator (TCC) focuses on those patients with a diagnosis of heart failure, chronic obstructive pulmonary disease or pneumonia. The TCC meets with patients, their family or caregivers to provide education on their diagnosis, review symptom management and their treatment plan and to facilitate a smooth transition from hospital to the next appropriate level of care. Patients being discharged to home have a PCP follow-up visit scheduled prior to their discharge. The TCC will engage the PCP aligned care coordination staff to ensure the follow up visit is made as scheduled.

Quality Programs: ECHN primary care and select specialists are benchmarked and measured on patient adherence to specific chronic conditions or age and gender specific preventive care measures. Quality data that is received from payers is reviewed with providers in order to prompt patient interventions as necessary. The clinical quality measures that are being addressed are:

- Adult BMI Assessment
- Breast Cancer Screening
- Cervical Cancer Screening
- Colorectal Cancer Screening
- Controlling Blood Pressure
- Chlamydia Screening
- Childhood Immunization Status
- Adolescent Immunization Status
- Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents
    - BMI
    - Nutritional counseling for overweight children/adolescents
    - Physical Activity Assessment
- Annual Physical Exams
- Annual Influenza Vaccines
- Comprehensive Diabetes Management
    - Retinal Eye Exam
    - Medical Attention for Nephropathy
    - Blood Sugar Control
    - Blood Pressure Control

These programs are in place to decrease the cost of healthcare while increasing the efficiency of care, to promote a healthier population and to improve the community's experience with the health system.

PMH is committed to ensuring that the population served by Prospect ECHN has access to healthcare providers, programs and resources that address the identified health needs of its communities. PMH will continue to partner with other community organizations whose purpose and mission align with the goal of improving community health and wellness.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville

# Community Health Needs Assessment

# About Eastern Connecticut Health Network

Eastern Connecticut Health Network (ECHN) is a community-based healthcare system serving 19 towns across eastern Connecticut. ECHN provides a full spectrum of wellness, prevention, acute care, rehabilitation and restorative care to the community. Our system also operates several outpatient facilities, a comprehensive physician network of primary care and specialty practices.

ECHN is comprised of the following companies:

- The Manchester Memorial Hospital, 71 Haynes Street, Manchester, CT 06040;
    - 249 Licensed Beds
- The Rockville General Hospital Incorporated, 31 Union Street, Vernon, CT 06066;
    - 102 Licensed Beds
- Visiting Nurse and Health Services of Connecticut, 8 Keynote Drive, Vernon, CT 06066
- Eastern Connecticut Medical Professionals Foundation, 71 Haynes Street, Manchester, CT 06040
- Woodlake at Tolland Rehabilitation & Nursing Center, 26 Shenipsit Road, Tolland, CT 06084

ECHN also partners with many other providers through contractual arrangements and in joint venture arrangements offering services such as transportation, radiation oncology, occupational health services and imaging services.

ECHN completed its last Community Health Needs Assessment in 2016. [IRS Form 990, Schedule H, Part V].

# Community Served

## Definition of Community Served

ECHN's community, as defined for the purposes of the Community Health Needs Assessment, included each of the residential Zip Codes that comprise the hospital's town location including 06040 and 06042 for Manchester Memorial Hospital and 06066 for Rockville General Hospital.

This community definition was determined because the majority of ECHN's patients originate from these areas for use of our hospital services.

## Demographics of the Community

The population of Manchester Memorial Hospital's service area is estimated at 58,253 people. It is predominantly non-Hispanic White (71.4%), but also has substantial African America (12.3%) and Hispanic (12%) populations.

Source 2010: http://www.census.gov/quickfacts/table/PST045215/0900344700,00

The population of Rockville General Hospital's service area is estimated at 29,179 people. It is predominantly non-Hispanic White (85.1%), but also has substantial African America (5.8%) and Hispanic (6.5%) populations.

Source 2010: http://www.census.gov/quickfacts/table/PST045215/0901378250,00

# Collaboration

## How CHNA Data Were Obtained

These assessments incorporate data from both quantitative and qualitative sources. Quantitative data input includes primary research (phone surveys) and secondary research (vital statistics and other existing health-related data); these quantitative components allow for comparison to benchmark data at the state and national levels. Qualitative data input includes primary research gathered through an online key informant survey (OKIS).

The Community Health Needs Assessment was sponsored by a collaboration of community partners and relied on information provided by:

- public health and vital statistics data;
- a variety of existing (secondary) data;
- data representing the most recent BRFSS (Behavioral Risk Factor Surveillance System) prevalence and trends data (published online by the Centers for Disease Control and Prevention);
- state-wide risk factor data;
- nationwide risk factor data;
- Healthy People 2020 which provides science-based, 10-year national objectives for improving the health of all Americans;
- phone surveys (based on the Centers for Disease Control Behavioral Risk Factor Surveillance Survey);
- and online key informant surveys.

The participants for the online surveys included physicians and other health providers, public health experts, social service representatives and community leaders. For a full listing of participating agencies, please reference the 2016 CHNA for Manchester Memorial Hospital or the 2016 CHNA for Rockville General Hospital.

## Public Dissemination

These CHNA's are available to the public using the following URL:
http://www.echn.org/community-benefit-reporting

A summary description of the assessment will be published in an upcoming edition of Better Being, a widely distributed ECHN Newsletter which promotes the community health education programs available at ECHN.

# Health Needs of the Community

## Significant Health Needs of the Community

The following areas represent the more significant health needs of the community and opportunities for improvement, based on the information gathered through the 2016 Community Health Needs Assessment for Manchester Memorial Hospital.

## Areas of Opportunity-Manchester

| Areas | Specifics |
|---|---|
| **Access to Healthcare Services** | • Cost of prescriptions<br>• Skipping/Stretching Prescriptions |
| **Cancer** | • Cancer is a leading cause of death<br>• Prostate and Female Breast Cancer Incidence<br>• *Cancer ranked as a top concern in the OKIS* |
| **Chronic Kidney Disease** | • Kidney Disease Deaths |
| **Diabetes** | • Diabetes Prevalence |
| **Heart Disease & Stroke** | • Cardiovascular disease is leading cause of death<br>• High Blood Pressure Prevalence<br>• *Heart Disease & Stroke ranked as a top concern in OKIS* |
| **HIV/AIDS** | • HIV Prevalence |
| **Infant Health & Family Planning** | • Low-Weight Births<br>• Infant Mortality |
| **Injury & Violence** | • *Injury and Violence ranked as a top concern in the OKIS* |
| **Mental Health** | • Diagnosed Depression<br>• *Mental Health ranked as a top concern in the OKIS* |
| **Nutrition, Physical Activity & Weight** | • Low Food Access<br>• Overweight & Obesity (Adults)<br>• *Nutrition, Physical Activity & Weight ranked as a top concern in the OKIS* |
| **Potentially Disabling Conditions** | • Activity Limitations<br>• Arthritis Prevalence (50+)<br>• Blindness/Vision Trouble |
| **Respiratory Disease** | • Asthma Prevalence<br>• Chronic Obstructive Pulmonary Disorder (COPD) Prevalence |
| **Sexually Transmitted Diseases** | • Chlamydia Incidence |
| **Substance Abuse** | • Drug-Induced Deaths<br>• Negatively Affected by Substance Abuse (Self or Others)<br>• *Substance Abuse ranked as a top concern in the OKIS* |

OKIS=Online Key Informant Survey

## Areas of Opportunity-Rockville/Vernon

The following areas represent the more significant health needs of the community and opportunities for improvement, based on the information gathered through the 2016 Community Health Needs Assessment for Rockville General Hospital.

| Areas | Specifics |
|---|---|
| **Access to Healthcare Services** | • Primary Care Physicians |
| **Cancer** | • Cancer is a leading cause of death<br>• Prostate Cancer Deaths<br>• Female Breast Cancer Incidence |
| **Heart Disease & Stroke** | • Cardiovascular disease is leading cause of death<br>• 1+ Cardiovascular Risk Factors |
| **Injury & Violence** | • 65+ Falls Age-Adjusted Death Rate |
| **Mental Health** | • Suicide Rate |
| **Nutrition, Physical Activity & Weight** | • Low Food Access<br>• Overweight & Obesity (Adults)<br>• Recreational/Fitness Facilities<br>• *Nutrition, Physical Activity & Weight ranked as a top concern in the OKIS* |
| **Potentially Disabling Conditions** | • Activity Limitations<br>• Arthritis Prevalence (50+)<br>• Osteoporosis (50+) |
| **Respiratory Disease** | • CLRD Deaths<br>• Asthma Prevalence (50+)<br>• Chronic Obstructive Pulmonary Disorder (COPD) Prevalence |
| **Substance Abuse** | • Cirrhosis/Liver Disease Deaths<br>• *Substance Abuse ranked as a top concern in the OKIS* |
| **Tobacco Use** | • *Tobacco Use ranked as a top concern in the OKIS* |

# Implementation Strategy

# Identify & Prioritizing Health Needs

## Identification of Health Needs

The significant health needs ("Areas of Opportunity" outlined above) were determined after consideration of various criteria, including: standing in comparison with benchmark data; identified trends; the preponderance of significant findings within topic areas; the magnitude of the issue in terms of the number of persons affected; and the potential health impact of a given issue.

## Prioritization of Health Needs

Prioritization of the needs addressed by this plan included input from community stakeholders and the internal stakeholders of the hospitals gathered to evaluate, discuss and prioritize health issues for the hospital's community based on findings of the 2016 Community Health Needs Assessment (CHNA). We reviewed the scope and severity of each of the identified areas and our ability to impact each health issue given our available resources and competencies.

## Implementation Strategy Adoption

This summary outlines Manchester Memorial Hospital and Rockville General Hospital plans (Implementation Strategy) to address certain community's health needs by: 1) sustaining efforts operating within a targeted health priority area; 2) developing programs and initiatives to address identified health needs; and 3) promoting an understanding of these health needs among other community organizations and to the public.

## Hospital-Level Community Benefit Planning

### Priority Health Issues To Be Addressed

In consideration of the top health priorities identified through the CHNA process — and taking into account hospital resources and overall alignment with the hospital's mission, goals and strategic priorities — it was determined that ECHN would focus on developing and/or supporting strategies and initiatives to improve:

- **Access to Healthcare Services**
- **Cancer**
    - **Screening Programs**
    - **Early Detection Program**
    - **Smoking Prevention and Cessation**
    - **Survivorship Care Plans**
- **Heart Disease & Stroke**
- **Infant Health & Family Planning**
- **Mental Health**
- **Nutrition, Physical Activity & Weight**
- **Substance Abuse**
- **Diabetes**

### Implementation Strategies & Action Plans

The following displays outline Manchester Memorial Hospital and Rockville General Hospital's plans to address those priority health issues chosen for action in the FY2016-FY2019 period.

| Access to Healthcare Services | |
|---|---|
| **Community Partners/ Planned Collaboration** | • Eastern Connecticut Medical Professionals Foundation (ECMPF)<br>• ECHN Graduate Medical Education (GME) Family Medicine Program<br>• Visiting Nurse & Health Services of Connecticut<br>• ECHN Hospitalist Program |
| **Goal** | **To improve healthcare access to primary healthcare services by promoting the education, training, recruitment of and communication with primary care providers for the towns of Manchester and Vernon** |
| **Timeframe** | FY2017-FY2019 |
| **Scope** | Residents in Manchester and Vernon/Rockville |
| **Strategies & Objectives** | **Strategy #1:** Build the capacity of ECMPF primary care offices to provide primary and preventive healthcare services<br>**Strategy #2:** Continue support for the ECHN GME Family Medicine Residency Program trained at ECHN and actively recruit graduates to practice locally<br>**Strategy #3:** Ensure that ECHN hospital and home health care management programs as well as the ECHN hospitalist practitioners provide effective transitions of care for patients treated at ECHN facilities with an emphasis on communication with primary care physicians |
| **Anticipated Impact** | • Maintain and grow the staff of primary care providers<br>• Increase the number of patients who have a designated primary care provider in their community<br>• Prompt and effective communication with primary care physicians regarding their patients hospital and post discharge care |
| **Plan to Evaluate Impact** | • Conduct an inventory of primary care providers annually<br>• Measure a baseline of patients under the care of ECMPF primary care providers and then measure annually<br>• Poll ECHN primary care, internal medicine and family practice physicians regarding communication by care managers and hospitalists |
| **Results** | *Pending* |

| Cancer | Screening Programs for Lung, Colorectal and Prostate Cancers |
|---|---|
| **Community Partners/ Planned Collaboration** | • Evergreen Endoscopy Center<br>• Community Physicians<br>• Churches<br>• Senior Centers<br>• Town Health and Human Service Agencies |
| **Goals** | • **Help our community achieve the nationally recognized benchmark of 80% of eligible patients receiving a colorectal screening**<br>• **Increase the number of eligible patients in our community that have their lung cancer screening**<br>• **Offer a screening program based on new guidelines for prostate screening** |
| **Timeframe** | • 2017-2019 |
| **Scope** | Residents in the community who meet the evidence based eligibility criteria for colorectal, lung and prostate cancers |
| **Strategies and Objectives** | **Strategy #1: Colon Cancer - Colorectal screening and education**<br>• Develop a marketing campaign for Colon Cancer Awareness Month each year to create awareness<br>• Hold a colonoscopy screening event to promote screenings, educate the community<br>• Promote the "Open Access Program" offered by local physicians at Evergreen Endoscopy Center that makes convenient appointments easier to obtain for screenings<br><br>**Strategy #2: Lung Cancer - Promote and educate community on ECHN's Low Dose CT Screening Program**<br>• Maintain ECHN's ACR accreditation as a Designated Cancer Screening Center<br>• Develop marketing and promotional material to create awareness of the need for screening and the community resources available<br>• Provide education to community and physicians through presence at health fairs and by hosting community education lectures<br><br>**Strategy #3: Prostate Cancer - Host a Prostate Screening Event**<br>• Determine eligibility and process to adhere to national standard of prostate screenings<br>• Collaborate with local physicians and health care workers to hold a screening event<br>• Market and promote a prostate cancer screening event |

| | |
|---|---|
| **Anticipated Impact** | • Increase the number of eligible adults age 50-75 that have their appropriate colorectal screening (2016 Community Needs Assessment reported this as 79%)<br>• Increase in the number of participants in the Open Access Program<br>• Increase in the number of participants in ECHN's Low Dose CT Program; thereby capturing lung cancer in its earlier and more treatable stages<br>• Educate residents on proper prostate screening and capture prostate in its earlier and more treatable stages |
| **Plan to Evaluate Impact** | • Statistical information from the Open Access Program, Low Dose CT Program and the prostate screening event<br>• 2019 Community Needs Assessment |
| **Results** | Pending |

| Cancer | Early Detection Program |
|---|---|
| **Community Partners/ Planned Collaboration** | • ECHN Women's Center for Wellness<br>• Town Health and Human Services Agencies<br>• Community Providers<br>• DPH/CDC<br>• Churches<br>• Early Head Start |
| **Goal** | **Increase the number of low-income, uninsured, underinsured and underserved women who receive access to breast and cervical cancer screening, diagnostic and treatment referral services. Provide these same women with the knowledge, skills and opportunity to improve diet, physical activity and other life style habits to prevent, delay or control heart disease and other chronic conditions** |
| **Timeframe** | Duration of the grant funded program |
| **Scope** | This strategy will focus on women in the communities serviced by ECHN |
| **Strategies and Objectives** | **Strategy #1: Educate women about the importance of preventative and screening services and lifestyle changes**<br>• Develop and coordinate educational lectures and seminars which will be offered to the community<br>• Publish information in ECHN's Better Being newsletter regarding health screenings, educational programs and lectures<br>• Participate in health fairs and community events<br>• Coordinate with ECHN providers to present educational programs and lectures related to women's health, diabetes and heart disease<br>**Strategy #2: Build community relationships to increase awareness of the ECHN Early Detection Program**<br>• The Community Health Navigator will engage and collaborate with community partners in order to provide education on program benefits and services available<br>• The Community Health Navigator will provide written material, in both English and Spanish, to community partners and providers detailing services available, and contact information for eligibility |
| **Anticipated Impact** | • The ECHN Early Detection Program will reach 100% compliance with complete follow-up of abnormal breast and Pap test screening. In addition the Program will reach 100% compliance with the National Breast and Cervical Cancer Early Detection Program's minimum compliance goals for the time between initial abnormal finding(s) to the final diagnosis<br>• The ECHN Early Detection Program will meet the WISEWOMAN Program benchmark for the number of women receiving screenings for heart disease and diabetes |
| **Plan to Evaluate Impact** | • Statistical quarterly reports from the DPH/CDC |
| **Results** | Pending |

| Cancer | Smoking Prevention and Cessation |
|---|---|
| **Community Partners/ Planned Collaboration** | • Community physicians<br>• Hockanum Valley Community Council<br>• First Choice Health Center<br>• Public schools<br>• Town Health and Human Service Agencies |
| **Goals** | • **Educate the community about the hazards of smoking and secondhand smoke.**<br>• **Increase the number of people who quit smoking.** |
| **Timeframe** | • 2017-2019 |
| **Scope** | Residents and students in the ECHN service area |
| **Strategies and Objectives** | **Strategy #1: Freedom From Smoking®**<br>• Provide program at least 3 times a year<br>• Advertise program through Better Being and with community partners<br>• Increase number of facilitators to 2<br>• Provide program at multiple locations<br>**Strategy #2: Offer smoking prevention presentation to public and private schools**<br>• Contact schools with 6th grade classes offering presentations<br>• Participate in health fairs at high schools and vocational schools<br>**Strategy #3: Provide CEU program to community primary care physicians**<br>• Provide education regarding available smoking prevention and cessation programs<br>**Strategy #4: Participate in health fairs**<br>• Provide material on nicotine addiction<br>• Provide material on Freedom From Smoking® |
| **Anticipated Impact** | • Individuals will quit smoking as a result of attending Freedom From Smoking®<br>• Community physicians will refer more patients to Freedom From Smoking® and make use of other smoking cessation programs<br>• Children and adolescents will avoid use of nicotine products |
| **Plan to Evaluate Impact** | • Freedom From Smoking® end of program questionnaires to determine number of participants who quit smoking<br>• Freedom From Smoking® statistics<br>• County and State surveys<br>• 2019 Community Needs Assessment |
| **Results** | Pending |

| Cancer | Survivorship Care Plans for Eligible Cancer Patients |
|---|---|
| **Community Partners/ Planned Collaboration** | • Eastern Connecticut Cancer Institute members including:<br>  ○ Community medical oncology providers<br>  ○ Community radiation oncology providers<br>  ○ ECHN Cancer Committee members<br>  ○ Northeast Regional Radiation Oncology Network |
| **Goal** | **100% of cancer patients treated at ECHN facilities meeting eligibility criteria will receive a survivorship care plan by 2019** |
| **Timeframe** | • 2017 50% of cancer patients will receive a survivorship care plan within 6 months of completion of adjuvant cancer therapy<br>• 2018 75% of cancer patients will receive a survivorship care plan within 6 months of completion of adjuvant cancer therapy<br>• 2019 100% of cancer patients will receive a survivorship care plan within 6 months of completion of adjuvant cancer therapy |
| **Scope** | A focus on the patients that have been diagnosed and treated for cancer in the ECHN network |
| **Strategies and Objectives** | **Strategy #1: Offer support to cancer survivors:**<br>• Established process to identify patients who have completed cancer therapy and provide patients with summary care plan which includes cancer diagnosis, stage and treatment received<br>**Strategy #2: Educate cancer survivors on managing lifestyle behaviors after treatment completion**<br>• Survivorship care plan will include road map for recommended follow up care<br>• Educate and encourage lifestyle changes to reduce cancer recurrence and/or improve quality of life. |
| **Anticipated Impact** | Provide comprehensive cancer care plans for patients in order to obtain all appropriate services within their community |
| **Plan to Evaluate Impact** | Not less than once a year, the ECHN Cancer Committee will discuss the process, navigation, and statistical benchmarking of survivorship care plans |
| **Results** | Pending |

| Heart Disease & Stroke | |
|---|---|
| **Community Partners/ Planned Collaboration** | • MMH and RGH Cardiac Rehabilitation Departments<br>• Visiting Nurse & Health Services of Connecticut<br>• Community healthcare providers- cardiologists and pulmonologists<br>• Senior Centers<br>• Skilled Nursing Facilities |
| **Goal** | **To reduce the behaviors and manage conditions that lead to cardiovascular disease including but not limited to high blood pressure, high blood cholesterol, tobacco use, physical inactivity, poor nutrition, over-weight and obesity and diabetes** |
| **Timeframe** | 2017 -2019 |
| **Scope** | This strategy will focus on residents in Manchester and Vernon/Rockville and ECHN employees |
| **Strategies & Objectives** | **Strategy #1: Provide education for cardiovascular disease risk factors and behavior modification**<br>• Produce multi-year plan to improve health and reduce risky behaviors of our ECHN employees and families<br>• Provide community education lecture(s) on the signs and symptoms of stroke and heart attack, the early recognition of symptoms and importance of seeking immediate medical care<br>• Promote nutrition counseling services offered by local supermarkets and community centers to promote healthy diets<br>• Promote physical fitness activities/programs available in the community including fitness centers, cardiac rehabilitation programs, schools, parks and recreation programs<br>• Participate in community health fairs throughout service area where blood pressure, cholesterol, body fat composition analysis and education resources will be offered<br>**Strategy #2: Promote the Freedom From Smoking® cessation program**<br>• Provide program at least 3 times a year<br>• Advertise program through Better Being and with community partners<br>• Increase number of facilitators to 2<br>• Provide program at multiple locations<br>• Promote available smoking cessation programs to physicians in the community and hospitals as an option for patients who smoke |

| | |
|---|---|
| | **Strategy #3: Promote cardiac rehabilitation**<br>• Promote cardiac rehabilitation services to restore people who have had a heart condition or heart surgery to the highest possible physiological, emotional, social, and vocational level |
| **Anticipated Impact** | • Ability for employees and the community to recognize early signs and symptoms of stroke and heart attack<br>• Increased focus on lifestyle, prevention and overall wellness for ECHN employees and residents |
| **Plan to Evaluate Impact** | • Repeat community assessment on mortality rates for cardiovascular diseases<br>• Freedom From Smoking® statistics<br>• Increased participation by ECHN employees in health screenings<br>• Attendance by community members at lectures focused on heart disease and healthy lifestyle |
| **Results** | *Pending* |

| Infant Health & Family Planning | |
|---|---|
| **Community Partners/ Planned Collaboration** | • ECHN Family Development Center<br>• RGH Maternity Care Center (MCC)<br>• Family Birthing Center Childbirth Educators<br>• Manchester School Readiness Committee*<br>• Vernon School Readiness Committee *<br>• Community physicians<br>(*Both committees include schools, YMCA's, preschools, Departments of Health, places of worship, Family Development Centers) |
| **Goals** | • **Improve access to prenatal and parenting education**<br>• **Increase preconception and first trimester prenatal education**<br>• **Improve the low weight birth percentages**<br>• **Decrease infant mortality and increase infant and child health and wellbeing**<br>• **Decrease teenager pregnancy rates** |
| **Timeframe** | 2017 - 2019 |
| **Scope** | This strategy will focus on the service areas of Manchester and Vernon. |
| **Strategies & Objectives** | **Strategy #1: Improve access to care and education:**<br>• Continue family planning education sessions/tours<br>• Encourage the use of the Maternity Care Center (MCC) at Rockville General Hospital<br>• Provide information through ECHN digital boards, Readiness Committees, ECHN social media and ECHN Website<br>• Continue to publicize educational opportunities through Better Being magazine<br>• Continue the distribution of ECHN prenatal folders through the community practices that contain comprehensive topical information<br>**Strategy #2: Increase preconception and first trimester pregnancy education:**<br>• Encourage regular ECHN birth class attendance<br>• Provide information through ECHN digital boards, Readiness Committees, ECHN social media and Website<br>• Pursue the development of a preconception and an early pregnancy class offering<br>**Strategy #3: Improve the low birth weight percentages**<br>• Identify mothers who are "at-risk" with the neonatal screening program and by working with community OB practices |

| | |
|---|---|
| | • Continue the hospital-based neonatal abstinence syndrome prescreening and education program<br>**Strategy #4: Decrease teenager pregnancy rates**<br>• Partner with schools and other community to offer education<br>• Explore and pursue opportunities for ECHN obstetrical leaders to partner with community groups to identify needs and create solutions<br>**Strategy #5: Decrease infant mortality and promote infant and child health and wellbeing:**<br>• Continue to offer SIDS reduction techniques including safe sleeping<br>• Provide information regarding proper child care through ECHN digital boards, Readiness Committees, ECHN social media and website<br>• Encourage the use of the MCC<br>o Pursue the possibility of expanding the Family Circles Group (Prenatal Care Education)<br>o Pursue the start of a MCC New Mother's group.<br>• Continue to offer new mothers group at both the hospital and at the MCC<br>• Continue to offer expectant grandparent classes<br>• Continue to offer Infant and Child certified CPR and first aid classes to new parents, grandparents and home day care providers<br>• Continue the hospital based neonatal abstinence syndrome prescreening and education program<br>• Continue to offer baby care classes |
| **Anticipated Impact** | • Increased access to infant care and education which includes preconception education and first trimester prenatal education offerings<br>• Increased birth weights and lower infant mortality<br>• Decrease in teen pregnancies<br>• Improved infant and childhood health and wellbeing |
| **Plan to Evaluate Impact** | • Monitor attendance at education programs<br>• Monitor hospital birth weights<br>• Elicit feedback from community providers, community groups including Readiness Committees<br>• Repeat community assessment 2019 |
| **Results** | *Pending* |

| Mental Health | |
|---|---|
| **Community Partners/ Planned Collaboration** | • **ECHN Behavioral Health Programs and Providers**<br>• **Community Health Resources (CHR)**<br>• **Manchester Public Schools (Family & Community Partnerships)**<br>• **East Central Multidisciplinary Team**<br>• **Senior Centers**<br>• **Skilled Nursing Facilities**<br>• **Community Centers**<br>• **Chambers of Commerce**<br>• **Community Physicians**<br>• **CT Suicide Advisory Board** |
| **Goal** | **Increase access to and use of mental health services** |
| **Timeframe** | February 2017- 2019 |
| **Scope** | This strategy will focus on residents in Manchester and Vernon/Rockville |
| **Strategies & Objectives** | **Strategy #1: Establish additional mental health services sites:**<br>• Establish counseling services at the Women's Center for Wellness<br>• Explore opportunities to imbed clinicians at school-based health centers<br>**Strategy #2: Explore the expansion of inpatient psychiatry services to be offered at MMH and RGH**<br>• Study, and if sufficient need exists, develop an inpatient Geropsychiatry Program to be offered by ECHN.<br>• Evaluate the demand, for additional inpatient psychiatric services which could be offered at RGH.<br>**Strategy #3: Participate in the Zero Suicide Initiative to standardize suicide risk assessment and network with providers to secure wrap around supports**<br>• Provide auditorium to CHR for Columbia Suicide Scales training January 2017<br>• Complete organizational assessment of suicide risk protocols |
| **Anticipated Impact** | • Increase points and ease of access to skilled professionals to decrease suicide risk and improve mental health<br>• Increase options of psychiatry support to geriatric population to improve community functioning |

| | |
|---|---|
| **Plan to Evaluate Impact** | • Patient Satisfaction surveys at satellite sites<br>• Volume of referrals to new psychiatry units<br>• DMHAS report of Zero Suicide Initiative data<br>• Repeat community assessment 2019 |
| **Results** | *Pending* |

| Nutrition, Physical Activity & Weight | |
|---|---|
| **Community Partners/ Planned Collaboration** | • ECHN's Center for Weight Loss<br>• Community Physicians<br>• Walden Behavioral Care<br>• John A. DeQuattro Cancer Center: Eastern Connecticut Cancer Institute<br>• Geissler's Supermarket<br>• Highland Park Market |
| **Goal** | **Ensure that residents have access to food and information about healthy eating habits** |
| **Timeframe** | 2017-2019 |
| **Scope** | This strategy will focus on residents in Manchester and Vernon/Rockville |
| **Strategies & Objectives** | **Strategy #1: Produce and distribute printed education materials covering various nutrition topics for primary care physician offices to provide to patients**<br>• Distribute education materials individually or placed in waiting rooms. Potential Topics: Fiber Facts, Understanding Fats, Portion Control, Ways to Increase Fruits/Vegetable Intake, Healthy Lunch Options, Guide for Healthy Restaurant Dining, Sugar Content of Commonly Consumed Beverages, Outline of Area Food Pantry/Resources<br>• Materials will include contact information for Outpatient Nutrition Services and the Diabetes Self-Management Program offered by ECHN<br>**Strategy #2: Offer nutrition lectures in community settings (i.e.: Local fire/police departments, senior centers, community centers, Adult Daycare Centers)**<br>**Strategy #3: Collaborate with area supermarkets to provide grocery store tours designed to teach healthy buying habits**<br>**Strategy #4: Promote awareness of the ECHN Center for Weight Loss which offers information about obesity, associated health risks and surgical options for weight loss**<br>• http://www.echn.org/weightloss/<br>**Strategy #5: Promote awareness of behavioral health eating disorders, i.e. bulimia, anorexia, binge-eating disorder, and the treatment programs available locally**<br>• Provide materials to providers and promote awareness on the internet of the Walden Eating Disorders Center offered by ECHN's Rockville Hospital for inpatient care http://www.waldeneatingdisorders.com/locations/rockville/ and the Walden Clinic in South Windsor offering outpatient education and treatment for eating disorders http://www.waldeneatingdisorders.com/locations/south-windsor/ |

|---|---|
| **Anticipated Impact** | • Engagement of PCP providers and the public regarding the topics of weight and nutrition |
| **Plan to Evaluate Impact** | • Track number of handouts provided by PCP offices<br>• Track clients that attend Grocery Store Tours and Nutrition Lectures; provide surveys for additional comments/suggestions for future events<br>• Track attendance at community lectures on weight loss and eating disorders |
| **Results** | *Pending* |

| Substance Abuse | |
|---|---|
| **Community Partners/ Planned Collaboration** | • ECHN Behavioral Health Addiction Services<br>• Manchester & Vernon Local Prevention Councils<br>• Manchester & Vernon Juvenile Review Boards<br>• Manchester Police Department<br>• East of the River Action for Substance Abuse Elimination (ERASE)<br>• CT Community for Addiction Recovery (CCAR)<br>• Community Health Resources (CHR) |
| **Goal** | **Increase points of contact for addicts to secure support toward sobriety** |
| **Timeframe** | January 2017- 2019 |
| **Scope** | This strategy will focus on residents in Manchester and Vernon/Rockville |
| **Strategies & Objectives** | **Strategy #1: Continue ECHN's partnership with the Manchester Police Department in the H.O.P.E. Initiative (Heroin/Opioid Prevention & Education Initiative)**<br>• Work with police and the RGH and MMH emergency departments serving as the clinical gateways to treat individuals with substance abuse and to enroll them in ECHN's addiction program<br>• With other key partners, connect the individuals quickly to substance abuse treatment supports in the greater community<br>**Strategy #2: Increase prevention supports to youth:**<br>• Actively participate in local prevention council sponsored events/services<br>• Imbed clinician in school-based locations for early intervention<br>**Strategy #3: Enter into formal collaboration with CCAR**<br>• CCAR Recovery Coaches will become active partners in the ED at MMH when individuals present with substance abuse issues by February 2017 |
| **Anticipated Impact** | • Decrease in overdose deaths<br>• Early detection/intervention of youth with illicit substance use<br>• Increased patient access to peer supports toward successful sobriety |
| **Plan to Evaluate Impact** | • Local prevention council focus group feedback<br>• H.O.P.E Initiative program evaluation by UCONN researchers<br>• DMHAS data reporting Recovery Coach involvement |
| **Results** | *Pending* |

| Diabetes | |
|---|---|
| **Community Partners/ Planned Collaboration** | • ECHN Diabetes Self-Management Program providers<br>• Primary care providers |
| **Goals** | • **Increase public awareness of diabetes and risk factors**<br>• **Encourage a healthy lifestyle toward diabetes prevention**<br>• **Encourage attendance at diabetes education classes**<br>• **Identify people at risk for diabetes** |
| **Timeframe** | 2017 - 2019 |
| **Scope** | This strategy will focus on residents in Manchester and Vernon service areas |
| **Strategies & Objectives** | **Strategy #1: Raise awareness of diabetes prevalence risk factors and educate the public on ways to manage lifestyle behaviors that affect them including diet, weight and physical activity**<br>• Offer free community health educational lecture and seminar programs presented by hospital medical and clinical staff<br>• Include educational information in each issue of Better Being, ECHN's free community magazine distributed to approximately 155,000 households in service area<br>• Participate in community health fairs throughout service area where free glucose tests are conducted and educational resources are shared<br>**Strategy #2: Offer Diabetes Self-Management Program and Nutrition Counseling for individuals already diagnosed with diabetes**<br>• Offer group and individual classes<br>• Promote classes through www.echn.org/diabetes-services and ECHN's social media sites<br>• Promote classes through ECHN digital screens |
| **Anticipated Impact** | • Increase detection of diabetes in the Manchester and Vernon service areas<br>• Increase the number of patients with diabetes receiving education and counseling<br>• Decrease diabetes mortality in the Manchester and Vernon service areas |
| **Plan to Evaluate Impact** | • Assess class volumes<br>• Assess lecture volumes<br>• Repeat community assessment 2019 |
| **Results** | *Pending* |

Identified Needs That Are Not Addressed

In acknowledging the wide range of priority health issues that emerged from the CHNA process, ECHN's hospitals determined that it could most effectively focus on those which it deemed most pressing, most under-addressed and most within its ability to influence. While the hospitals and its providers do treat individuals with the following conditions, the plan does not specifically address them with additional resources, providers or programs.

- Chronic Kidney Disease
- HIV/AIDS
- Injury & Violence Prevention
- Potentially Disabling Conditions
- Respiratory Disease
- Sexually Transmitted Diseases

## Approval

The strategies detailed in this implementation plan have been reviewed and approved by Prospect ECHN's Local Advisory Boards and its corporate Board.

**Re:** **Docket Number: 15-32016-486, Final Order, Condition Number Six**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Deputy Commissioner Brancifort:

This Services Plan is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Six (6) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Six (6) requires that "Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospitals for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new service (the Services Plan)".

As described in the Certificate of Need (CON), Prospect ECHN, Inc. (ECHN) does not anticipate any reduction, elimination or relocation of services or facilities. ECHN, however, does continuously evaluate the need for health care services in our service area. The 2016 Community Health Needs Assessment (CHNA) provides critical information for future services planning. The CHNA process and the implementation of the resulting Health Plan engages the ECHN Medical Staff and community providers in a significant way to guide resource allocation and program development according to community health need.

PMH will support the priority needs identified by the CHNA with a variety of physician alignment and population health management strategies, enhanced through PMH's implementation of Coordinated Regional Care ("CRC"), which focuses on the health of vulnerable populations. CRC provides for clinical integration among hospitals, physicians and other medical, social and community providers working closely with strategic partner health plans and other payers under a value-based, global risk reimbursement payment system. The goal of the CRC model is to ensure that patients receive appropriate care, at the appropriate time, in the appropriate setting, while avoiding unnecessary, inefficient and duplicative services and reducing medical errors.

A critical effort for ECHN is to build and manage a tightly integrated, coordinated regional care system with providers across the continuum. In its development of the CRC model, ECHN is partnering with its physician led Independent Practice Association to address gaps in care and services to ensure the effective management of all patients across the network. Furthermore, clinical integration in partnership with its medical staff will bring the numbers of covered lives needed to be successful in developing and executing programs to manage population health.

In time, the profile of service offerings at ECHN will change as it aligns its hospitals and physicians. With the intensive care management programs of PMH and the commitment to implementing the CRC model in the local service area, ECHN will be positioned to continue to integrate and expand its network of providers and program offerings. The rate of this change will be influenced by the willingness of the health plans to partner under global risk arrangements and in turn will influence further adjustments to hospital inpatient and outpatient service offerings.

Future decisions regarding the introduction of new services or the termination of existing services will consider and follow the CON process.

Below is a listing of ECHN's current service offerings for Manchester Memorial Hospital (MMH) and Rockville General Hospital (RGH). A detailed list by location is also enclosed:

**Behavioral Health Services**

- Adult Behavioral Health Inpatient Services
- Adult Behavioral Health Outpatient Services
- Adult Partial Hospitalization Program
- Adolescent Inpatient Services
- Child and Adolescent Outpatient Services
- Child and Adolescent Partial Hospitalization Program

- Clinical Day School
- Crisis Services
- Eating Disorders Program

**Cardiac, Vascular, & Neurology Services**

- Cardiac Diagnostic Testing (i.e., Echo, EKG, etc.)
- Cardiac Rehabilitation
- Cardio Pulmonary Services
- Heart Failure Clinic
- Medical Cardiology
- Medical Neurology
- Sleep Lab
- SPECT (Cardiac Nuclear Medicine)
- Stress Lab
- Telemetry Monitoring
- Telestroke Services

**Emergency Services**

- Emergency Department
- Urgent Care

**General Acute Care Services**

- General Medical/Surgical Care
- Medical/Surgical Intensive Care Unit (ICU)
- Other Special Care Unit (SCU)
- Pediatric Medical/Surgical Care
  (age 14+ on adult medical/surgical units)

**Laboratory Services**

- Laboratory
- Phlebotomy

**Medical Imaging Services**

- Bone Density
- CT Scan
- Diagnostic Radiology (x-ray)
- Interventional Radiology
- Mammography
- MRI
- Nuclear Medicine

- PET Scan
- Ultrasound

**Metabolic Services**

- Diabetes Management
- Dialysis
- Nutritional Services

**Oncology Services**

- Chemotherapy
- Medical Oncology Services
- Radiation Oncology (In partnership with Community Cancer Care)

**Rehabilitation Services**

- Occupational Therapy
- Physical Therapy
- Speech Therapy

**Surgical Services**

- Bariatric Surgery
- Colorectal Surgery
- Endoscopy
- General Surgery
- Gynecology
- Joint Replacement
- Minimally Invasive Surgery
- Ophthalmology
- Oral and Maxillofacial Surgery
- Orthopedic Surgery
- Otolaryngology (Ear, Nose and Throat)
- Plastic and Reconstructive Surgery
- Robotic Surgery
- Spine/Neurosurgery
- Thoracic Surgery
- Urology
- Vascular Surgery
- Wound Care

**Women and Infant Services**

- Breast Ultrasound
- Breast Ultrasound Biopsy

- Maternity Care Center (Prenatal and Postpartum Services)
- Neonatal Intensive Care Unit (Level III NICU)
- Obstetrics
- Stereotactic Breast Biopsy

**Other - Miscellaneous Services**

- Community Health Education
- Complementary and Alternative Medicine Services
- Home Care Services
- Hospice Care
- Long-Term Care
- Occupational Medicine
- Short-Term Rehabilitation

In addition, the following further describes current efforts underway to enhance existing service line and program offerings, many of which incorporate the priority health needs of our service area as identified in the Community Health Needs Assessment ("CHNA") completed in 2016.

1. **Behavioral Health**
   - **a.** Geropsychiatry Program - An evaluation is underway to introduce a Geropsychiatry Program for inpatients aged 65 and over at MMH.
   - **b.** Adult Psychiatric Beds – An evaluation is also underway to add additional adult psychiatric beds at RGH for a health need that continues to grow in demand.
   - **c.** Mental Health programs (CHNA) - In addition to the current behavioral health service offerings at MMH and RGH described above, ECHN is committed to increasing access to and use of outpatient mental health services for the residents of our service area. This includes participation in the Zero Suicide Initiative to standardize suicidal risk assessment and network with providers to secure wrap around supports. The impact anticipated includes increasing the points of access and the ease to access skilled professionals to decrease suicide risk and improve mental health.
   - **d.** Substance Abuse programs (CHNA) - A commitment has been made to increase points of contact to secure supports toward sobriety for the residents of our service area. One strategy to address this growing problem is a partnership with the Manchester Police Department in the H.O.P.E. Initiative (Heroin/Opioid

Prevention & Education Initiative) and the Emergency Departments at MMH and RGH. Another is to increase prevention supports to local youth with a formal collaboration with the CT Community for Addiction Recovery (CCAR) whereby Recovery Coaches are available in the Emergency Department at MMH when individuals present with substance abuse issues.

2. **Cardiac, Vascular, & Neurology Services** (CHNA) **-** Efforts to reduce the behaviors and manage the conditions that lead to cardiovascular disease include providing education for cardiovascular disease risk factors and behavior modification, promoting the Freedom from Smoking cessation program and promoting cardiac rehabilitation services.

3. **Emergency Services/Urgent Care -** In addition to providing emergency services at MMH and RGH, as well as Urgent Care services in South Windsor, ECHN provides the following in the emergency departments:
   **a.** H.O.P.E Initiative (CHNA) **-** The H.O.P.E. Initiative is a partnership between ECHN and the Manchester Police Department to treat individuals with substance abuse in the MMH and RGH Emergency Departments and enroll them in ECHN's addiction program and/or connect them to other treatment supports in the greater community.
   **b.** CCAR Recovery Coaches partnership (CHNA) **-** Recovery Coaches will be active partners in the ED at MMH when individuals present with substance abuse issues as part of the CCAR collaboration.

4. **General Acute Care Services -** The New Hospitals will provide the same General Acute Care Services as prior to the acquisition with no anticipated change in operations or services. There is no anticipated change in patient population or payor mix. Future decisions on the introduction of new services or the termination of existing services will be identified in CON filings where required.

5. **Laboratory Service -** Future decisions regarding lab draw service locations, whether new, relocation or termination, will be identified in CON filings as required.

6. **Medical Imaging Services -** The New Hospitals will provide the same Medical Imaging Services as prior to the acquisition with no anticipated change in operations or services. There is no anticipated change in patient population or payor mix. Future decisions on the introduction of new services, new imaging technology or the termination of existing services will be identified in CON filings as required.

7. **Metabolic Services**
   - **a.** Diabetes (CHNA) - Efforts to raise awareness of diabetes prevalence risk factors include education on ways to manage lifestyle behaviors including diet, weight and physical activity. In addition, the Diabetes Self-Management Program and Nutritional Counseling are available for individuals already diagnosed with diabetes.
   - **b.** Nutrition, Physical Activity and Weight (CHNA) - Strategies and objectives have been developed with the goal to ensure service area residents have access to food and information about healthy eating habits. These include distribution of education materials covering nutrition topics to primary care physician offices, offering nutrition lectures in community settings, and collaborating with area supermarkets to teach healthy buying habits. In addition, information is offered on obesity, associated health risks and surgical options for weight loss, as well as behavioral health eating disorders, including bulimia, anorexia and binge eating disorder. This includes promoting the awareness of the ECHN Center for Weight Loss, the inpatient Walden Eating Disorders Center at RGH and the outpatient eating disorders treatment programs at the Walden Clinic in South Windsor.

8. **Oncology Services –** ECHN's Eastern Connecticut Cancer Institute (ECCI) at the John A. DeQuattro Cancer Center, on the MMH campus, brings ECHN affiliated providers including ECHN Medical Staff, MMH, RGH, Women's Center for Wellness (WCW) and joint venture companies, Community Cancer Care and the Evergreen Endoscopy Center (EEC), together to offer a full range of enhanced programs and services for cancer patients. These services are integrated into a seamless continuum of care from diagnosis to end of treatment and beyond. Many support services including the services of nurse navigators, medical social workers and nutritionists are available. The Commission on Cancer has awarded the Three Year Certificate of Accreditation to the Comprehensive Community Cancer Program at MMH.
   - **a.** Screening programs for Lung, Colorectal and Prostate Cancers (CHNA) - ECHN is committed to help our community receive appropriate lung, colorectal and prostate screenings. The Open Access Program, offered by local physicians at Evergreen Endoscopy Center, makes convenient appointments easier to obtain for colon cancer screenings. MMH is a Designated Cancer Screening Center and is able to provide a Low Dose CT screening which is able to capture lung cancer in its earlier and more treatable stages. Plans are being made to offer a screening program based on the new guidelines for prostate screening in order to capture prostate cancer in its earlier and more treatable stages.

**b.** Early Detection Program (CHNA) - The ECHN Women's Center for Wellness (WCW), a department of RGH, offers breast cancer screening and diagnostic services. It is home to ECHN's Breast Care Collaborative where nurses help women with a diagnosis of breast cancer navigate the health system for their care. The WCW offers the Connecticut Breast and Cervical Cancer Early Detection Program, which is a DPH grant funded program focused on women in the communities served by ECHN. The goal is to increase the number of low-income, uninsured, underinsured and underserved women who receive access to breast and cervical cancer screening, diagnostic and treatment referral services. In addition, through the related Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) Program offered at WCW, these women are provided with the knowledge, skills and opportunity to improve diet, physical activity and other life style habits to prevent, delay or control heart disease and other chronic conditions.

**c.** Smoking Prevention programs (CHNA) – ECCI offers the American Lung Association's "Freedom from Smoking" program with the goals to educate the community about the hazards of smoking and second hand smoke and to increase the number of people who quit smoking. ECHN has committed to provide the program, offer smoking prevention presentations at area schools and provide educational materials at local health fairs.

**d.** Survivorship Care Plans (CHNA) - ECHN has committed to provide survivorship care plans to cancer patients treated at ECHN facilities which include offering support to cancer survivors and education on managing lifestyle behaviors after treatment completion.

8. **Rehabilitation Services -** ECHN Rehabilitation Services specialize in a wide variety of therapies and treatments which are provided at rehabilitation locations throughout the service area. The New Hospitals will provide the same rehabilitation services as prior to the acquisition with no anticipated change in operations or services. There is no anticipated change in patient population or payor mix. Future decisions on the introduction of new services or the termination of existing services will be identified in CON filings.

9. **Surgical Services -** The ECHN Center for Weigh Loss, located at MMH and in South Windsor, CT, provides non-surgical and surgical (bariatric) options for weight loss. All plans include long-term support and care to ensure better outcomes for patients.

10. **Woman and Infant Services**

**a.** The Family Development Center offers programs that are committed to helping families develop their strengths, parenting skills and confidence. Programs include Early Head Start, Family Resource Center and Nurturing Families Network for prenatal women, parents, families and children and teens.
**b.** The Maternity Care Center at RGH offers medical prenatal care and postpartum services to Medicaid beneficiaries.
**c.** The Family Birthing Center at MMH provides inpatient maternity services using the Labor, Delivery, Recovery, Postpartum (LDRP) model of care. Complete family-centered maternity services are offered, including comprehensive prenatal care and education classes, private LDRP rooms and alternative birthing options.
**d.** The Women's Center for Wellness, a department of RGH, provides digital mammography, ultrasound, non-surgical breast biopsies and bone density exams as well as integrative medicine and wellness services such as massage, acupuncture, Reiki therapy and nutritional counseling. Free mammogram, Pap test and heart disease screenings are available for women who qualify.
**e.** Infant Health and Family Planning (CHNA) - The ECHN Family Development Center, the RGH Maternity Care Center, the Family Birthing Center Childbirth educators and community partners are collaborating to improve access to prenatal and parenting education, increase preconception and first trimester prenatal education, improve low birth weight percentages, decrease infant mortality and increase infant and child health and wellbeing and decrease teenage pregnancy rates.

**11. Other Services/Programs**

**a.** Community Health Education - ECHN offers health education lectures, free screenings, support groups and other outreach programs each month at various locations throughout the service area.
**b.** Integrative Medicine Services - Integrative medicine services available through ECHN include acupuncture, therapeutic massage, pregnancy massage, postpartum massage and Reiki therapy at the Women's Center for Wellness. Massage, Reiki and pet therapy are services available for patients with cancer.
**c.** Long-Term Care & Rehabilitation - Woodlake at Tolland Nursing & Rehabilitation Center is the affiliated 130 bed skilled nursing home and short-term rehabilitation facility.
**d.** Visiting Nurse & Health Services of CT (VNHSC) - VNHSC offers a variety of home care services including nursing care, home health aides, rehabilitation therapy, medical social work and hospice care.
**e.** A Caring Hand, the home care agency, provides companions, homemakers, personal care assistants and live-in caregiver services.

**f.** Eastern Connecticut Medical Professionals Foundation (ECMP) - ECMP is a group of community and hospital-based, multi-specialty practices affiliated with ECHN and is a major provider of primary care service in the ECHN service area.

**g.** Coordinated Regional Care (CRC) - The CRC team addresses the care coordination and care management needs of the ECHN community. The program's goals are to decrease the cost while increasing the efficiency of care, to promote a healthier population and to improve the community's experience with the health system.

Again, ECHN does not anticipate any reduction, elimination or relocation of hospital services or facilities at this time or for the near future. The goals of the 2016 Health Plan will result in the enhancement of current service offerings. We anticipate adjustments to services will be needed as we will monitor patient utilization and outcomes to evaluate the need to adjust, consolidate existing services or add new services. As we organize and build the Coordinated Regional Care network with our physician led Independent Practice Association, we will invest resources and implement intensive care management programs aimed at promoting population health. These efforts will lead to further clinical integration with the goal of expanding the network of providers and program offerings. More effective management of patients in lower cost outpatient settings will require ongoing evaluation of the demand for hospital services and adjustments to service offerings. It is our hope that we will become more efficient as a health system with a strong and effective network of providers, programs and services to the benefit of our patients and the communities we serve.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

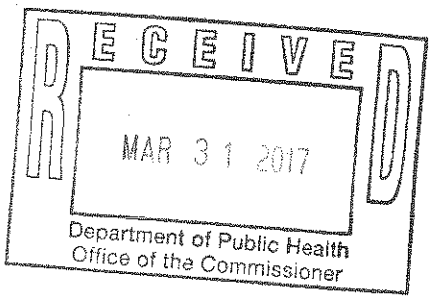
March 30, 2017

Raul Pino, M.D., M.P.H.
Commissioner, CT Department of Public Health
410 Capitol Ave.
Mail Stop #13COM
Hartford, CT 06106

Dear Commissioner Pino:

We are one of the concerned groups that came to the hearings when a permit was being sought by Prospect Medical Holdings to purchase ECHN, our interest being the need for quality, locally-based health care in the Manchester-Vernon area. At that time, we asked for a community-elected ombudsman with full membership on the Advisory Board. We were disappointed when that was not granted, but were pleased to see that community-appointed representatives from Vernon and Manchester were to serve on the Advisory Board.

Manchester's representative, Mary Roche-Cronin, was appointed as agreed and is representing our concerns effectively. We were, however, very concerned that Vernon's representative, Dr. Ellen Marmer, was denied membership on the Board, possibly because she has been a vocal critic of the merger and is perceived as "biased against Prospect." Vernon Mayor Daniel Champagne had been asked to nominate an individual to fill this position. He apparently felt that Dr. Marmer had the right combination of skills and experience to successfully represent Vernon's interests; however, his expressed choice was ignored and Dr. Marmer has been repeatedly denied membership on the Board. This seems to us an injustice to the communities served by ECHN, and a repudiation of our understanding of the contract.



It has also come to our attention that Prospect has acted in ways that are counter to what was originally promised, particularly in the area of layoffs, such as Mayor Jay Moran of Manchester being notified of hospital layoffs as they were occurring. This lack of transparency leads us to believe that ECHN's mission, "to improve ... well-being by providing high-quality, compassionate healthcare," is being discarded in the name of profitability.

We call on the state to investigate any reported violations of the Prospect-ECHN contract.

Thank you for your continued service.

RE: The Certificate of Need Order issued for Prospect ECHN under Docket Number 15-32016-486

Dear Members of the Social Justice Study Group:

The Commissioner of the Department of Public Health, Dr. Raul Pino, received your letter of March 30, 2017 and forwarded it to my office. As the Director of the Office of Health Care Access (OHCA), I am responding on behalf of Dr. Pino. Your letter expresses concerns regarding several issues related to Prospect ECHN since the transfer of ownership. I'd like to take this opportunity to provide you with some information regarding OHCA's post-transaction review of the ECHN hospitals.

Regarding the selection of Manchester and Vernon representatives to the local or advisory bodies, please note that in OHCA's decision under Docket Number 15-32016-486, OHCA issued the following Condition related to community representation on the local boards.

20. For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.

In February, OHCA questioned Prospect ECHN leadership regarding the status of the Vernon community representative and received responses which are attached to this letter. All of the material that I am providing is already part of OHCA's continuing public record under this docket number (see following link to OHCA website page for hospital transfers of ownership CONs). http://www.ct.gov/dph/cwp/view.asp?a=3902&q=555798&dphNav=|

OHCA's understanding is that Mayor Daniel Champagne of Vernon has been asked to serve on the Advisory Board on an Interim basis. Although OHCA is concerned that the permanent Local Board member for Vernon has not been designated, there is no requirement that the Applicant must accept the Mayor's recommendation for the community representative. Therefore, the Applicant is not in violation of the Order issued under Docket Number 15-32016-486. OHCA will continue to monitor this situation closely.

With respect to layoffs, OHCA does not have jurisdiction over employment matters. Consequently, there were no conditions placed upon the Applicant in the Order issued by OHCA under Docket Number 15-32016-486 regarding layoff notifications.

Sincerely,

Kimberly R. Martone
Director of Operations

> Michael Collins ran the 90 minute meeting which started off with a report on Quality and Safety initiatives at RGH by Linda Quirici, VP of Quality & Safety. She was followed by Dennis

McConville who provided an overview of planned facility upgrades and capital equipment acquisition. Tom Reardon from Prospect Medical East was also present and made a few remarks concerning PMH and their strategy.
Attendees were invited to ask questions throughout the presentations. There was an additional 45 minute period following the presentations that attendees were afforded the opportunity to get all of their questions and comments answered. They were very attentive and asked good questions regarding future plans for the hospital. In my opinion, M. Collins responded in an honest forthright manner.

Best regards,
Colleen

Hi Colleen.

Regarding the Rockville/Vernon Community meeting last week that you refer to in your email, what materials are you or Prospect ECHN able to provide for the OHCA record regarding this meeting? Are there (will there be) minutes for the meeting, a sign up sheet listing meeting participants, a print out of any PowerPoint presentations made (by the hospitals, Prospect Medical or you), etc.? Also, has there been a meeting for the Manchester community as well or did this cover both communities? Thanks. Karen

Sincerely,

Dear Kim,

i just wanted to let you know that I had the opportunity to attend a meeting for the communities of Rockville/Vernon last evening at Rockville General Hospital. It was very well attended by the public.
Michael Collins ran the 90 minute meeting which started off with a report on Quality and Safety initiatives at RGH by Linda Quirici, VP of Quality & Safety. She was followed by Dennis McConville who provided an overview of planned facility upgrades and capital equipment acquisition. Tom Reardon from Prospect Medical East was also present and made a few remarks concerning PMH and their strategy.
Attendees were invited to ask questions throughout the presentations. There was an additional 45 minute period following the presentations that attendees were afforded the opportunity to get all of their questions and comments answered. Dear Karen,
Attendance was taken and so I will ask that Prospect ECHN forward that to you. I am not aware that any minutes were taken. The presentations were verbal only and no Power Points were presented.
The community meeting for Manchester is being planned for 5/31/17. I am out of town and unable to attend that one.

I plan on following up with Dennis McConville today.
Best regards,
Colleen

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Roberts:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Nineteen (19) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Nineteen (19) requires that PMH will "hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals' activities and afforded an opportunity to ask questions and make comments."

A Joint Meeting of the Boards of Directors for Prospect Rockville Hospital, Inc. and Prospect Manchester Hospital Inc. was held on Wednesday, April 26, 2017 at Rockville General Hospital. That meeting was followed by a meeting for the Vernon community where information about the hospital's activities was shared and the public was encouraged to ask questions and provide comments. The meeting was advertised in both the Courant on April 20 and 25, 2017 and in the Journal Inquirer on April 16 and 23, 2017.

A joint meeting of the Boards is scheduled for May 31, 2017 at Manchester Memorial Hospital to be followed by a meeting where the Manchester community will be invited to

attend. Advertisements for that public meeting will be posted in the Courant and Journal Inquirer in the coming weeks.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Addo:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Eight (8), Condition Number Nine (9) and Condition Number Ten (10) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH). Please note that the transaction closed on October 1, 2016 ("Closing Date").

Condition Number Eight (8) requires that on a semi-annual basis until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the $75 million Commitment Amount. Please find the Capital Investment Report for the period beginning on October 1, 2016 through March 31, 2017 labeled as Exhibit A. It includes the following information:

a. A list of the capital expenditures that have been made in the prior one hundred and eighty days (180) days with descriptions of each associated project; and

b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending, and startup/operation dates); and

c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill the Capital Commitment.

In addition, please find Exhibit B which includes capital purchases that are approved and in process with purchase orders issued this fiscal year-to-date.

Condition Number Nine (9) requires that PMH provide a report for New ECHN, New MMH and New RGH on a semi-annual basis with the following information:

a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses, and other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

    1. The major cost savings achieved for each expense category for the semi-annual period; and

    2. The effect of cost savings on the clinical quality of care.

b. A Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.

For Condition Number Nine (9.a.), please find Exhibit C which shows the expenses by category using the form of HRS Report 175 which will serve as the baseline for comparison to report any cost savings achieved under PMH's ownership when the next filing for this condition is due on November 30, 2017.

For Condition Number Nine (9.b.), please find Exhibit D using the form of HRS Reports 100/150 and 300/350 which includes the Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH

Condition Number Ten (10) requires that on a semi-annual basis, PMH provide a report for New ECHN, New MMH and New RGH with the following financial measurements/indicators showing current month and year-to-date data and comparable prior year period data for New ECHN, New MMH and New RGH respectively :

**Financial Measurement/Indicators**
**A. Operating Performance**

1. Operating Margin
2. Non-Operating Margin
3. Total Margin

**B. <u>Liquidity</u>**

1. Current Ratio
2. Days Cash on Hand
3. Days in Net Accounts Receivables
4. Average Payment Period

**C. <u>Leverage and Capital Structure</u>**

1. Long-term Debt to Equity
2. Long-term Debt to Capitalization
3. Unrestricted Cash to Debt
4. Times Interest Earned Ratio
5. Debt Service Coverage Ratio
6. Equity Financing Ratio

**D. <u>Additional Statistics</u>**

1. Income from Operations
2. Revenue Over/(Under) Expense
3. Cash from Operations
4. Cash and Cash Equivalents
5. Net Working Capital
6. Free Cash Flow (and the elements used in the calculation)
7. Unrestricted Assets/Retained Earnings
8. Bad Debt as % of Gross Revenue
9. Credit Ratings (S&P, FITCH, or Moody's)

Please find Exhibit E for the period beginning on October 1, 2016 through March 31, 2017 showing current month and year to date measurements as required for Condition Ten (10). These measurements will serve as a baseline for comparison measurements for the next report which will be filed by November 30, 2017.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Addo:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Nineteen (19) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Nineteen (19) requires that PMH will "hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ( Joint Board Meetings ) at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals activities and afforded an opportunity to ask uestions and make comments."

A Joint Meeting of the Boards of Directors for Prospect Rockville Hospital, Inc. and Prospect Manchester Hospital Inc. was held on Wednesday, May 31, 2017 at Manchester Memorial Hospital. That meeting was followed by a meeting for the Manchester community where information about the hospital's activities was shared and the public was encouraged to ask uestions and provide comments. The meeting was advertised in both The Hartford Courant on May 25 and May 28, 2017 and in the Journal In uirer on May 25 and May 30, 2017.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President

# A conversation on healthcare in your community.

ECHN is pleased to invite you to attend an upcoming community meeting. In this public forum, you'll learn how exciting new developments at ECHN are changing the care you receive – for the better.

It's a time dedicated to hearing directly from ECHN leaders and to having your questions answered. The future of healthcare in your community is taking shape, so please join us for this session and find out more about your local healthcare provider!

**Subject:** Second Assessment MMH & RGH

Greetings,
Enclosed please find a cover letter and both the MMH and RGH assessments for my second visit to the Prospect ECHN facilities. As previously, I enjoyed a very good visit and was treated with courtesy. All documents requested were freely shared with me.
Please contact me if you have any questions.
Best regards,
Colleen Smith

# SECOND VISIT ASSESSMENT – PROSPECT ECHN, Inc.

June27-29, 2017
Colleen O. Smith, MSN, RN, NEA-BC

## OVERVIEW

The enclosed reports summarize my second visits to MMH and RGH campuses during the last week of June. The principle focus of this visit is to follow up on all of my recommendations from the initial visit as well as note any new accomplishments, progress to date on quality initiatives, and identify any new areas of concern. I concentrated my visit agenda for the 3 days on all of the inpatient clinical areas only as I had not found any areas of concern in the outpatient services during my initial visit in late January 2017. Since my first visit, average daily census has been more manageable. The organization continues to utilize their high reliability practices that are incorporated into all patient care. ECHN continues to conduct the daily Safety Huddles and Quality/Patient Safety meetings are started with a "Good Catch" safety story.

Regular Quality/Patient Safety conference calls are held with Prospect Medial Holdings. This is their opportunity to report out their quality data and also share practices/approaches that are working well. Wide participation is expected and received from member organizations. Overall, both hospitals are experiencing challenges with ED Throughput, ED and Inpatient Satisfaction, and both hospital wide readmission rates and for select diagnoses. Performance Improvement committees are in place to work on these processes. Overall, both hospitals are doing quite well in the area of Patient Safety outcomes. A Sepsis protocol was initiated on 2/14/17.

Facilities on both campuses are receiving much needed cosmetic renovations and plant updates. Staff and leaders are able to describe recent capitol acquisitions that have improved their daily workday. Additional surgical equipment has been purchased as well as OMNICELL for the Patient Care areas.

## Methods and Processes Used for Analysis

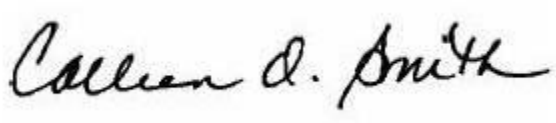
Processes utilized to conduct this on site review include:

1. Face to face meetings with the CNO, the VP for Quality/Patient Safety, the newly appointed CMO, and the Director of Risk Management.

2. Tours of all Inpatient Clinical Services outlined in the Consent Decree. Outpatient services were not revisited, as there were no areas of concern noted on the initial assessment. The IM spoke with the leaders of all areas visited and several staff members in the clinical areas. Time was spent interviewing leaders in each service area and also speaking with direct care giving staff such as RNs, PCAs, pharmacists, and other ancillary employees.
3. Review of Infection Prevention, Medical Executive and Quality/Performance improvement minutes from the months of February through May 2017. The quality dashboards and accompanying action plans for first quarter 2017 were reviewed.
4. Review of all new nursing hires in Nursing Services.
5. Attendance at the Advisory Board meeting for review of Quality Indicators and special reports.
6. Review of the revised ECHN organizational chart.
7. Review of all logs, audits, and minutes associated with IM recommendations from the Initial On-site Assessment.

## Approach to Assessment

The following report is organized by:



A) Service Visited

B) Observations

C) Recommendations

Under each Service please find categories of comments that are pertinent to each service visited.

Thank you for this opportunity to engage with Prospect ECHN to assist in assuring quality of care to all patient populations of the Greater Manchester and Rockville communities.

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| SECOND ASSESSMENT: Rockville General Hospital<br>COLLEEN O. SMITH MSN, RN, NEA-BC<br>June 29, 2017 | | |
|---|---|---|
| **CATEGORY** | **OBSERVATIONS** | **RECOMMENDATIONS** |
| **NURSING SERVICES –RGH** Bissell 2, ICU | | |
| • Staffing | Hospital Census at RGH on the day of the IM visit was in the low 30s. Nurses on the Bissell 2 M/S unit had a 1:5 pt. ratio. The capacity on this unit is 32 although census was low at 17. 4 RNs were on duty at time of IM visit. Nurses voluntarily float to MMH when census is low. The CNAs had assignments of 8-9 pts. and most of the patients required an assist of 2 staff. Many of the patients were fall risks.<br>ICU has a bed capacity of 9 beds. Census on day of visit had not reached capacity. Nurses report an average daily census of 4-5 patients. RN staffing on day of IM visit was very adequate. Charge nurses usually have full assignments. The Float nursing pool has been expanded with several additional nurses and PCAs to augment staffing when census is high. ICU nurses also float to the MMH ICU when needed. Several per diem staff have also ben added.<br>Many Certified Nurses aides are cross-trained as unit secretaries to aid in staffing flexibility. RNs are also cross training in certain areas. | Continue your efforts to cross train nurses to float to other units and across both campuses to increase flexibility with staffing. |
| • Physical Environment | The M/S Nursing unit is laid out in an H design. It is an older unit but clean with semi private rooms and two designated hospice rooms that are private and down at the end of the hallway. Appropriate signage regarding pt.'s rights and responsibilities, financial counseling assistance, and help for hearing impaired and those who speak a different language were posted in all pt. care areas. The code cart is visible and accessible in the middle of the hallway.<br>White boards for assignments are visible at all nursing stations. Some are better organized and more comprehensive than others. Initials are used for pt. names to protect pt. privacy.<br>The ICU is well lit with an open central nursing station and private rooms. | **Recommend** finding a quiet protected location for a Medication room in the RGH ICU. Relocation of med room has been considered but there is no separate room to accommodate. There is a separate alcove however, proximal to nursing station but in an area that would provide some auditory protection. Recommend |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | There is good pt. visibility. However there is no medication room in the **RGH** ICU. The Pyxis cabinets are part of the central nursing station. The temperatures of the medication refrigerators are remotely monitored by a central system. The code cart was visible and accessible. | relocating medication dispensing unit to that area as soon as possible. CNO and IM discussed and agreed to this solution. |
| **NURSING SERVICES** | | |
| • Culture of Safety | Nurses and PCAs on Bissell 2 are conducting a pilot test for hourly rounding on all patients. This initiative began on March 16 2017. Minutes from an April meeting demonstrated a 95.5% compliance rate with the hourly rounding project.<br>Nurses report a collaborative relationship with hospitalists.<br>Nursing units collect Nurse Sensitive Indicators: Falls, Falls with Injury, HAPIs through NDNQI and CLABSIs, and CAUTIs through NHSN. The CAUTI rate is currently 0. A nurse driven Foley Removal protocol is in place. The ICU has not experienced a CAUTI or a CLABSI within 1 year.<br>There is a good Fall Prevention Program in place but falls on M/S need to be decreased. Consistent Fall risk signage was posted in clear view outside all appropriate pt.'s rooms. The M/S unit also needs to improve HCAPHS scores on "communication with nurses".<br>Multidisciplinary pt. care rounds occur daily. IM attended rounds at RGH on 6/29/17. Hospitalists, nurses, SW, Case Management participate. Hospitalists and nurses have a very collaborative relationship. Nurses suggest interventions and state that physicians listen to their assessments. | **Recommend** the implementation of hourly bedside rounding by nursing once the pilot is completed and revised as appropriate. |
| **NURSING SERVICES** | | |
| • Culture of Safety | The I**CU** is an "open" unit meaning hospitalists and private attending physicians can admit into the unit. Respiratory therapists assist with changing ventilator settings per weaning protocols. Code and Defib | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | carts checked in all areas. An Intensivist is on call every night to cover ICU at nights. The nurses enjoy a collaborative relationship with the ICU team. | |
| • HR / Personnel | The CNO and the VP for Quality/Safety Officer come to the RGH campus 1-2x/wk. and have an office in the hospital. All ECHN leaders round consistently at RGH. Several Nurse Managers now have responsibility for nursing services on both ECHN and RGH campuses. Generally, there are clinical coordinators on each nursing unit that help manage daily operations. On the day of the IM's visit the Nurse Manager of the Critical Care units was filling the role of the "Charge" nurse in the RGH ICU. There was a new clinical coordinator on Bissell II that was orienting to her role. She stated that her orientation was going well.<br>Much of the staff is fairly long tenured. Only a small percentage of nursing staff is certified in their practice specialty. Very few nurses belong to their professional organizations.<br>A new grad was interviewed on M/S at **RGH.** She was a previous PCA at RGH and feels she is getting a very good orientation. Spoke highly of her preceptor. She felt comfortable in asking questions and getting help as needed. | IM encourages Nurse Leaders to collaborate with staff to set unit goals for specialty certification. Exam Prep study groups are supported and encouraged and exam fees are reimbursed upon passing. Certified nurses should continue to be formally recognized and celebrated. Nurses should also be encouraged to join their professional specialty organizations. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • HR / Personnel | The Administrative director for HR is developing self-assessment tools for professional staff to be used at the time of their performance evaluations. She has also developed a tool for the development of SMART goals for the professional staff and mangers to utilize. These are in DRAFT form and will be implemented with the next annual review period starting January 2018. | **Recommend** All professional staff complete a self-evaluation and develop goals for accomplishment over the coming year. Implement the use of SMART goals to write measureable and specific goals. This is in progress. |
| • Confidentiality | Personnel logged out of computer screens when walking away from computer the majority of the time.<br>Curtains pulled around patients when care was provided. | |
| **INFECTION CONTROL** | | |
| • Staffing | 1.5 FTEs cover both MMH and RGH campuses. 1.0 FTE is an RN with 20 yrs. yrs. experience. She is a member of APIC and holds certification. She provides monthly orientation for all new employees. The other member of the Dept. is 20 hrs. and has a microbiology background and a graduate degree in Public Health. The Medical Director of the program is an Infectious Disease physician who has been with the hospital 35+ yrs. This physician also runs a busy HIV Clinic.<br>There was evidence of a few “safety champions” in patient care areas. | |
| **INFECTION CONTROL** | | |
| • Culture of Safety | A vigorous hand washing campaign is continuing. Overall hospital inpatient hand washing compliance rates are measured and displayed on QI Boards throughout the clinical areas. IM did not observe any lapses in hand hygiene on her visit to the RGH campus. A strong antibiotic stewardship program has been in place since the 1980’s. Staff round on inpt units 3x/wk. IP staff communicate with Microbiology several days/wk. All isolation cases are reviewed on a | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | daily basis. IP staff state that nurses do a very good job of placing pts. on isolation precautions and D/C precautions at the appropriate time.<br>The Infection Prevention dept. has an IP Hotline.<br>The Infection Control liaison group has been reinvigorated. IM read minutes of Infection Prevention Comm meeting of 2/17. They have added HH Observers to the group to assure more frequent observations of hand washing. All employees completed HH education by 2/15/17. Recurring employee lapses in hand hygiene results in progressive discipline up to and including termination.<br>.<br>Much work has been accomplished to bring SSI rates down below benchmark. There is a subcommittee of the Infection Prevention Committee that is focused on Hospital Acquired Infections and these rates are decreasing. RGH is doing quite well with their Patient Safety Outcomes. However, c difficile rates are currently 1.177 at RGH. | Recommend continuing to work with the Infection Prevention liaisons to conduct frequent observations. Report HH rates by unit so each patient care area is getting their own specific data as well as an aggregate rate.<br>IM will review HH rates at each periodic site site visit. |
| **INFECTION CONTROL** | | |
| • Compliance with State & Federal Regulations | Good surveillance program in place. Infection Prevention committee meets monthly. Minutes and agendas reviewed by IM.<br>Attendance by appropriate departments is usually good but surgical representation is sometimes lacking. Pharmacy, Microbiology and environmental, nursing representation have consistent representation. | The IP Medical Director has assured consistent representation by a surgeon at Infection Prevention committee Minutes reflected surgeon attendance at the March meeting. |
| **PHARMACY** | | |
| • Staffing | The Pharmacy Dept. is staffed with 1 Pharmacist at RGH on day shift and one at RGH from 3-8pm. There is now a night pharmacist on duty Sunday through Thursday.<br>There is one Pharmacy tech assigned to the entire hospital. | **Recommend** adding a pharmacist to the nighttime staffing plan as soon as possible. This recommendation has been completed Sunday through Thursday nights. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| • Physical Environment | The Pharmacy at RGH is less crowded and visibility and prep areas are adequate. | IM will revisit the pharmacy on return visit. |
| **PHARMACY** | | |
| • Culture of Safety | Automated dispensing system and DOSE-EDGE systems in place. All medications coming into department are scanned in and barcoded. The hospitals use SMART pumps with an extensive medication library. Med library use by RNs is monitored by the pharmacy. Medication fill error rates and Medication errors are being tracked closely. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PHARMACY** | | |
| • Compliance with State & Federal Regulations | A Pharmacy and Therapeutics Committee meets monthly and reports into the QAPI. All adverse Drug events are reviewed within the Medication Safety Subcommittee. A strong Antibiotic Stewardship program is in place.<br>Pharmacists have oversight for Renal dosing adjustments and Vancomycin dosing and utilization. | |
| • HR / Personnel | Pharmacy Director has been with ECHN for 13 yrs. and is appropriately credentialed. Pharmacy technicians have to obtain certification within one yr. of hire. The pharmacist on duty at RGH on day of IM visit has long tenure at ECHN and likes it very much. Highly complimentary of the Pharmacy director who she described as very supportive. | |
| **SURGICAL SERVICES** Ambulatory Surg Unit, GI, Pre OP, OR, PACU, Central Sterile Processing | | |
| • Staffing | I.M. observed appropriate RN staffing ratios throughout the tour of Surgical Services. The surgical volume continues to decrease at RGH. IM asked how staff maintains competencies with volume being low. Manager discussed the regular floating of RGH personnel to the MMH campus to maintain competency in all service lines. | |
| • Physical Environment | Tour of the Operating Room suites demonstrated a much more organized outer core. Surgical Services leadership has changed and much attention has been focused on reducing inventory so that frequently used equipment and supplies are accessible and equipment infrequently needed is stored in materials management. In addition an underutilized OR has been converted to a storage room for various pieces of larger equipment and monitors. | IM encourages the initiation of a checking process to assure all appropriate carts are locked in this area since it is more remote and less frequently entered. |
| • Culture of Safety | IM visited OR in early AM to observe the start of a case but the surgery was delayed and IM unable to observe start of the case and time out as planned.<br>IP minutes reflected 1 colon and 1 total hip replacement infection in the past year. | IM will revisit OR on next visit. |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **SURGICAL SERVICES Ambulatory Surg Unit, GI, Pre OP, OR, PACU, Central Sterile Processing** | | |
| • Policies and Procedures | Carts were locked and checks were completed on code carts. | . |
| • HR / Personnel | **RGH** Overall, nurses in surgical services areas do not hold certification in their respective specialties although 50% of the OR nurses hold an AORN. The Unit Educator is responsible for education throughout surgical services: PACUs, ORs, GI lab, Amb. Surgery and Central Sterile Processing. In-service education is provided every 2 weeks. | |
| • Confidentiality | Pt. Confidentiality was upheld throughout the tours through the various surgical services area. Screens have been placed over windows leading into the ORs to protect patient privacy. | |
| **EMERGENCY DEPARTMENT** | | |
| • Staffing | The ED utilizes flexible staffing which changes according to time of day. They staff in 8, 10 and 12 hr. shifts. Additional staff is added very 4 hrs. to accommodate changing census. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **EMERGENCY DEPARTMENT** | | |
| • Physical Environment | The ED at RGH sees 21,500 visits/year. It has an open design with a central station. Pts. are easily visualized. Waiting rooms are adequate and have appropriate signage: pt. privacy, language lines, financial counseling and assistance for the hearing impaired.<br>Emergency carts are placed to allow easy access by staff. The environment is well organized and free of clutter. There is no separate area for the behavioral health population**.** There is a Clinical Decision Unit that sees lower acuity (ESI 3 & 4) pts. It has the capacity for 7 pts. It is staffed from 10am -10:30pm during the ED's highest volume hours. This unit does not have cardiac monitors and was closed during IM's visit. | |
| • Culture of Safety | The ED has once again attained GWTG Advanced Stroke Certification. Congratulations! Several QI indicators are in place: Timeliness of Care, ED arrival to departure, Admit decision to ED departure. However, length of time from arrival to departure and arrival to admission is very long and trending upwards. A task force has been set up with the CNO and interim Medical Director to drive new processes to decrease wait and visit times. "Left Without Being Seen" rates are are 3% and above the benchmark. The slow throughput has not had a negative effect on patient satisfaction scores in the ED which rank 80 and 81 in Ct.<br>Psychiatrists see behavioral health patients admitted through ED within 24 hrs. of admission. Children needing admission are sent to CCMC.<br>. | |
| • HR / Personnel | In addition to the Nurse Manager, the EDs share a Unit Educator. All RNS have ACLS with the first year of hire. | |
| • Confidentiality | There was appropriate spacing between pts. registering in the ED to protect auditory confidentiality. White boards did not contain patient's names. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | | |
| • Confidentiality | There was appropriate spacing between pts. registering in the ED to protect auditory confidentiality. White boards did not contain patient's names. | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PSYCHIATRIC SERVICES** **RGH** Eating Disorders Unit (EDU) | | |
| • Staffing | A multidisciplinary team of professionals provides care for this pt. population: Psychiatrists, RNs, SW, psych technicians, recreational therapists. Adolescents also have a teacher on staff who is certified in Grades K-!2.<br><br>Staffing guidelines have recently been revised to reflect a 1:5 nurse/patient ratio. The former staffing plan was a 1:6 nurse/patient ratio. Census in the BHU has increased to 12 from the previous 8 patients and many licensed staff is being hired and oriented. The unit is undergoing a period of instability as a result of a lot of recent staff turnover. IM discussed plans for staffing retention efforts and team building for the BHU with both the CNO and Nursing Director.<br><br>Staffing plans in the **BHU at RGH** include an entire multidisciplinary team of professionals: RNs and Psych technicians (minimum of a bachelor's degree) SWs and nutritionist. There are no CNAs. | |
| • Physical Environment | **T**his is a new inpatient unit that opened to patients in August 2016. It is a nationally known specialty unit that admits patient from all over the country. It takes both adults and adolescents and the majority of patients treated have diagnoses of anorexia, bulimia, and binge eating. The unit has the capacity for 30 pts. and current census at the time of visit had increased to 12. It is an "L" configuration and adults are separated from the adolescents. Staff on the adolescent side carries walkie-talkies as a safety precaution. Pt. rooms are all safe with flush door handles; sink faucets and no glass mirrors. A special "Wicket" door was used in all pt. rooms. It allows staff to access the pt. from the hallway in case of an emergency, i.e. the pt. has barricaded himself in his room. While patient rooms had flush door handles the nonpatient rooms (storage closets etc.) along the hallway did not. This did not seem consistent and bears investigation. IM discussed with the nursing director who will look into the rationale behind the differing handles. All exit doors consistently locked and fire egress plans reviewed with Nursing Director. A fire drill was | IM will revisit area on next visit. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | held recently and all staff performed well. | |
| **PSYCHIATRIC SERVICES BHU Adult and Adolescent** | | |
| • HR / Personnel | Professional Staff is appropriately trained and credentialed to perform their jobs. All ancillary personnel coming on to this unit must also be trained regarding safety practices. Professional staff in the **BHU at RGH** was sent to Walden in Mass. for a full 8 hr. day of education and training for this specialty unit. Staff were hired early in 2016 and oriented for several months prior to the opening of the unit in August 2016. Two FT team psychiatrists are on staff. They have the ability to frequently consult with psychiatrists at The Eating disorders program in Walden, Ma. | EDU has experienced a good deal of staff turnover over last few months. Census is expanding. Currently average daily census is 12 an increase from 8 at IM's last visit. New BH director over this program was interviewed about his plans to replace staff and retain current staff and build a stable team. |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Staffing | The Quality Department is comprised of 4.5 FTEs who report into the VP of Quality, Safety and Pt. Experience and cover both Rockville and MMH campuses as well as outpatient sites. The existing staffing structure has remained unchanged in the previous 6 months. There are 3 QI Managers who are supported by an Environmental Safety Officer. A Pt. Experience Coordinator and Quality Analytics Manager (0.5FTE) report directly into the VP. Two Data Abstractors (1.4 FTEs) report into the Quality Analytics Manager (0.5FTEs). The QI personnel's offices reside at the MMH campus. VP of quality rounds at RGH 1-2x/wk. The QI Managers have focused areas of responsibility. All conduct RCAs, | IM will attempt to observe this meeting on next site visit. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | and investigate serious safety events and precursors. The QI dept. coordinates a Quality/Safety/Risk huddle held every Monday that includes the CMO, CNO, VP Quality, Risk Management, and VP of Nursing. This group reviews serious events rom the previous week. The Pt. Experience Coordinator also has responsibility for Pt. rights, Grievances, and Complaints. | |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Culture of Safety | In the area of Pt. Safety, the following structures and processes are in place: Daily Safety Huddles, Patient Safety committee, Patient Safety Coach committee, HRO education during orientation of new employees and physicians. A large variety of other committees and task forces exist to support Pt. Safety. IM Reviewed QI minutes from Jan, March 2017 and the May Quality Dashboard.<br>RGH has made considerable progress in decreasing readmission rates for Heart Failure and Stroke. Similar efforts need to be applied to readmissions for the Pneumonia and COPD populations that are 24.6% and 29.4% respectively. Overall all diagnosis readmission rates at RGH are 12.9% which is above stale and national benchmarks.<br>An AHRQ Pt. Safety Culture survey is being considered for the Fall, 2017. IM will review results of employee safety survey if completed at next site visit.<br>Multidisciplinary Committees are in place to reduce Falls, CAUTIs, and CLABSIs. “Days Since Last Fall” is always listed on the Safety Huddle white board The CAUTI rate is almost zero and there were 2 CLABSIs in 2016. Root cause Analyses are completed on all CLABSIs after Infection Prevention has determined it to be a true CLABSI.<br>Action plans are developed for all scores falling below internal goals. | IM will review all QI indicators, dashboards, minutes at next site visit. |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Culture of Safety | ECHN was again awarded TJC Advanced Stroke Accreditation for 2017. The Risk Management program is the same as on the MMH campus. The director of RM also collaborates closely with the Chair of the Environment of Care Committee. The Patient Experience Coordinator | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | covers both hospital campuses. HCAHPS scores are quite low at RGH—well under the 50th percentile. Several initiatives are underway with both the inpatient nursing staff and the hospitalists to improve the scores. Hourly bedside rounding has ben started on the M/S unit and this best practice should be expanded to all nursing units. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| SECOND ASSESSMENT: PROSPECT Manchester Memorial Hospital<br>COLLEEN O. SMITH MSN, RN, NEA-BC<br>JUNE 27-28 2017 | | |
|---|---|---|
| **CATEGORY** | **OBSERVATIONS** | **RECOMMENDATIONS** |
| **NURSING SERVICES – MMH**-3 North, Critical Care, 2 East, 1 East, OB/NICU | | |
| • Staffing | IM visited on average census days. M/S Nurses generally had a 1:5 pt. ratio and 4:1 on the Telemetry unit. 1 East (cardiac and observation) had a census of 14 with 4 RNs on Day shift. The CNAs had assignments of 10 pts. and most of the patients required an assist of 2 staff. Many Certified Nurses aides are cross-trained as unit secretaries to aid in staffing flexibility. The Critical care unit had a relatively low census with 2:1 nurse/patient ratios maintained. The Step-down unit only had 4 pts. With very adequate nurse staffing. Assignment boards were clear and well organized. The Monitor tech was watching approximately 32 monitors and stated she got regular breaks and as needed. I.M. reviewed the Monitor Tech Break log that was being used to audit break times and it demonstrated full compliance with breaks by qualified techs.<br>Staffing in the Family Birthing Center and NICU was appropriate. Family Birthing Center follows the AWHONN Perinatal Nursing guidelines, 4th edition 2014.<br>IM reviewed all the nursing hires across both RGH and MMH campuses since last visit in January. The RN float Pool has been augmented by a total of 6 FTEs representing varied hours. In addition to the Float Pool, several per diem nurses joined ECHN. They have been used to aid staffing the Oncology unit and Medical/Surgical units. Many new per diem nurses have been deployed to the Eating Disorders unit on the RGH campus as well as Behavioral Health and the EDs. The CNO mentioned that some additional voluntary cross training among RN staff has occurred and this has been quite successful and effective.<br>Patient Care Technicians, cardiac secretaries, and OR scrub techs have also been added to the Float pool. There has not been any new regular contract FTEs hired. | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • Physical Environment | Nursing units were clean and hallways free of clutter. Appropriate signage regarding pt.'s rights and responsibilities, financial counseling assistance, and help for hearing impaired and those who speak a different language were posted in all pt. care areas. Capacity on M/S units range from 23 beds to 32 with a mix of private and semi private rooms.<br>White boards for assignments are visible at all nursing stations. Some are better organized and more comprehensive than others. On some units, the white boards are not completely filled out. Initials are used for pt. names to protect pt. privacy. In CCU the white board was very organized and comprehensive. It included: Braden scores, central lines, and restraints.<br>**Critical Care** was built in 2008 and has a North and South side with 12 and 10 beds respectively. The unit is well lit with north and south nursing stations, many areas for electronic charting and good pt. visibility. Every pt. room can handle dialysis and 4 rooms are negative pressure. Anterooms were an ample size and laid out well. Medication rooms all locked by keypad. Med rooms were small but adequate and offered a quiet environment for medication preparation. The temperatures of the medication refrigerators are remotely monitored by a central system. The temp logs were consistently filled in and up to date by nursing personnel.<br>**The Family Birthing Center** has 12 LDRPs, 2 ORs and a Level 3 NICU whose ADC is 2-3 neonates. The unit is pleasant. | |

|---|---|---|
| **NURSING SERVICES** | | |
| • Culture of Safety | Nurses are not yet doing hourly rounds at MMH but some units do conduct bedside change of shift report. Quality boards have been updated and all units have them in prominent locations.<br>Nurses report a collaborative relationship with hospitalists.<br>Nursing units collect Nurse Sensitive Indicators: Falls, Falls with Injury, HAPUs through NDNQI and CLABSIs, and CAUTIs through NHSN.<br>There is a good Fall Prevention Program in place. Fall risk signage was recently updated and consistently visible outside of patient rooms.<br>Multidisciplinary pt. care rounds occur daily. Hospitalists, nurses, SW, Case Management participate.<br>Hospitalists and nurses have a very collaborative relationship. Nurses suggest interventions and state that physicians listen to their assessments.<br>Certified Wound Care (WCC) nurses are on each pt. care unit. They assist with skin assessment and early identification and intervention to prevent pressure ulcers. They are role models and educators for nursing staff. A WOCN nurse oversees this function.<br>**Oncology 2 East**<br>IM reviewed chemotherapy administration protocol with nurse. Good system of checks and balances including drug dosage calculations in place to assure patient safety. Nurses state initial chemotherapy and immunotherapy administration requires 1:1 nurse/pt. ratio. | **Recommend** a formal evaluation of the hourly rounding pilot being conducted on Bissell 2 at RGH once the pilot has been completed. Revise rounding process as needed and disseminate best practice to the other units across both campuses. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • Culture of Safety | The **CCU** is an "open" unit meaning hospitalists and private attending physicians can admit into the unit. However, all vented pts. in the CCU are seen by the Intensivists who manage their pulmonary care. Respiratory therapists assist with changing ventilator settings per weaning protocols. The CAUTI rate in Critical Care has been zero since December 2015 and the CLABSI rate had been zero since May 2016. In May 2017 there was one CLABSI that met criteria for reporting.<br>In the **Family Birthing Center**, all nurses have completed the GNOSIS training program and the physicians are almost complete with the same training. Clinicians were pre tested and then took a posttest after program completion. IM reviewed OB Departmental minutes and found evidence discussion regarding GNOSIS education and current completion rates. There is a multidisciplinary Departmental Quality Meeting where many Quality Indicators are reviewed as well as any adverse events.<br>Mock Code, Dystocia and Postpartum Hemorrhage drills are held.<br>Blue emergency buttons are in every pt. room on OB so that nurses can summon immediate help.<br>Nursing personnel spoke highly of the current anesthesia providers.<br>It is policy that all post partum pts. Are assisted by 2 nurses for their first time out of bed after a delivery. There have been no pt. falls or infant descents on the OB unit. | Consider moving the FBC quality board to a more prominent location so that the data can be more readily displayed and seen by staff**.** |
| • Compliance with State & Federal Regulations | IM randomly checked Glucometer strips and solutions for appropriate dating. Code and Defib carts randomly checked in select areas. All had been checked with RN signature and up to date.<br>The staffing committee meets annually in September to review all nurse staffing plans. It is chaired by the CNO. Staff Nurses comprise the majority of the membership who voice their suggestions regarding adjustments in staffing plans. Additional sitters and nurses for the Float Pool have been recent decisions. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • HR / Personnel | Much of the staff is fairly long tenured. IM spoke with nurses who had practiced at for 35+ years. Certified nurse are recognized and celebrated with a certification bonus but only a small percentage of Nursing staff is currently certified in their practice specialty. There seems to be growing enthusiasm among some nursing staff however. One Oncology RN investigated getting certified by ONS and found the program "FREETAKE". The hospital has committed to paying for the exam and the nurse can take it up to 2 times. She is now pursuing getting a minimum of 10 of her nurse colleagues to study and sit for certification exams. Great work and demonstration of initiative and hospital support!<br>IM met and spoke with some CNAs who were cross-trained as Unit Secretaries to augment and provide flexibility in staffing.<br>**FBC** Very few staff nurses on OB are certified. There is a certified Lactation Consultant on OB and several additional nurses who have special training in lactation. They cover the unit 7days/wk. IM discussed Baby Friendly designation with the Nursing Director who has been in place for almost 2 years. While she feels it is an important pursuit, she states that she has other more important competing priorities this year. 87% of mothers are breastfeeding on D/C from hospital. There are a few LPNs on the OB unit who are assigned to care for Mother/baby couplets. They are not assigned to labor and delivery; however, they are trained to be scrub technicians in the 2 c/section ORs.<br>**HUMAN RESOURCE**- IM reviewed the new DRAFT Self Assessment and Goal Planning forms to be utilized for all licensed professional staff at the time of their periodic Performance Management Appraisal. The relevant employees will be educated regarding SMART goals and the new approach will begin in January 2018 ad be completed in April, 2018 which represents the normal timeframe for evaluations at ECHN. At this time all Management personnel will be expected to coach professional staff with their annual self-assessments and SMART goal development for the coming year. | IM encourages Nurse Leaders to collaborate with staff to set unit goals for specialty certification. ECHN has established baseline data of all currently certified nurses. IM encourages that the aggregate list be broken down by unit so that each unit can see their unit certification rate and set goals towards increasing their numbers. Nurses should also be encouraged to join their professional specialty organizations.<br>ECHN is starting on the Pathway to Excellence. Shared governance with unit-based councils has begun. Some units are further a long with their councils than others. These professional pursuits will be discussed within the councils.<br>**FBC** Consider utilizing the Baby Friendly Ten Steps to guide current practice while considering formal application in future.<br><br>IM will review some licensed personnel's evaluations and self-assessments during future visits. |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • Confidentiality | IM did not witness any breaches of confidentiality during second visit. | |
| • Cultural Sensitivity | Language line utilized by staff for staff of different ethnic cultures. Bariatric equipment and furniture was present in waiting rooms and pt. care areas. | |
| **INFECTION CONTROL** | | |
| • Staffing | 1.5 FTEs cover both MMH and RGH campuses. 1.0 FTE is an RN with 20 yrs. yrs. experience. She is a member of APIC and holds certification. She provides monthly orientation for all new employees. The other member of the Dept. is 20 hrs. and has a microbiology background and a graduate degree in Public Health. The Medical Director of the program is an Infectious Disease physician who has been with the hospital 35+ yrs. This physician also runs a busy HIV Clinic | |
| • Culture of Safety | A vigorous hand washing campaign is underway. Hand washing compliance rates have increased. IM did not observe any lapses in hand hygiene. A strong antibiotic stewardship program has been in place since the 1980's. Staff round on inpt units 3x/wk. IP staff communicate with Microbiology several days/wk. All isolation cases are reviewed on a daily basis. IP staff state that nurses do a very good job of placing pts. on isolation precautions and D/C precautions at the appropriate time. The Infection Prevention dept. has an IP Hotline. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **INFECTION CONTROL** | | |
| • Culture of Safety | There is consistent up follow by surgeon offices on SSI following surgery. IP staff and Medical Director state there is very with good communication with surgeon offices. The Infection Control liaison group has been able to conduct more frequent observations of hand washing. I.M. reviewed the Infection Prevention committee minutes from Feb-May, 2017.<br>C difficile rates are under the NHSN benchmark.<br>Much work has been accomplished to bring SSI rates down below benchmark. There is a subcommittee of the Infection Prevention Committee that is focused on Hospital Acquired Infections. | Infection Prevention liaison group has been reestablished throughout organization.<br>The Safety Hand Hygiene Liaison group has met 2x. It is part of the IP leader's goals for coming year.<br><br>Consider the value in changing H.H. observations to include the rate going into the room and the rate coming out of the room as two different rates to obtain an even more accurate picture of compliance.<br><br>. |
| • Policies and Procedures | IM observed appropriate isolation techniques in many different pt. care units. Signage outside of rooms and appropriate attire in isolation carts. | |
| • Compliance with State & Federal Regulations | Good surveillance program in place. Infection Prevention committee meets monthly. Minutes and agendas reviewed by IM.<br>Attendance by appropriate departments is usually good. IM reviewed recent IP committee minutes and there was evidence of surgical representation. Pharmacy, Microbiology and environmental, nursing representation have consistent representation. | **C**onsistent representation by a surgeon at Infection Prevention committee has started in May 2017. |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PHARMACY** | | |
| • Staffing | There have been staffing reductions in the Pharmacy Dept. since last visit in January 2017. There has been a decrease of 2.1 Pharmacist FTEs. There is no longer a Clinical Coordinator or IT Pharmacist. Their workloads have been redistributed. The dept. uses a decentralized staffing model whereby one clinical pharmacist is assigned to cover groupings of pt. care units. The staffing pattern decreases to 1 pharmacist on evening 3-11:30pm shift at MMH. One pharmacist has been reassigned to night shift Sunday through Thursday. There is no on site pharmacist on Friday and Saturday nights. Any new urgent orders can be reviewed by on call pharmacist remotely on those 2 nights. ECHN is keeping a log to audit the timely review of medication orders by the pharmacist on the night shift.<br>There is no longer a Pharmacy tech assigned to the ED to assist with collecting accurate medication histories. | The recommendation to add a pharmacist to the nighttime staffing plan has been completed. One pharmacist covers both hospitals 5 days/wk. Sunday thru Friday. IM reviewed the audit log of all nighttime medications ordered on Friday and Saturday nights. Many meds reviewed with 2 hours. Some medication orders took 6-8 hours for review but these were most likely non-urgent, new drugs.<br>IM recommends revising the current auditing tool to reflect the name of the drugs ordered during nights.to assure that high risk and urgent drugs ordered on nights are reviewed by a Pharmacist in a timely manner. |
| • Physical Environment | The Pharmacy at MMH has been relocated to the basement level of the hospital to gain more space. Even in the newer location, the pharmacy is crowded. Plain IV solutions are stored in an adjacent space to the main Pharmacy due to space constraints. Currently, there are plans to have plain IV solutions maintained by the Materials Management Dept. The hospital will be transitioning from Care Fusion to Omnicell as part of the Prospect acquisition. The Omnicell equipment is also currently stored in this adjacent area making egress rather narrow. | Omnicell (Prospect Medical contract) being implemented soon. Storage area very crowded. CNO committed to resolving issue. Engineering responsive to moving things around to allow better egress. |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PHARMACY** | | |
| • Culture of Safety | Automated dispensing system and DOSE-EDGE systems in place. All medications coming into department are scanned in and barcoded. The hospitals use SMART pumps with an extensive medication library. Med library use by RNs is monitored by the pharmacy. Pharmacists make 300-400 Clinical Interventions per month. | **Recommend** a more system wide approach be taken to dissemination of blinded information following RCAs that have potential for harm. Provide widespread education to care providers to alert them to significant events to improve awareness and reinforce safety behaviors. This new process is being developed for implementation in June 2017. I.M. will check its progress on next visit. |
| • Compliance with State & Federal Regulations | A Pharmacy and Therapeutics Committee meets monthly and reports into the QAPI. All adverse Drug events are reviewed within the Medication Safety Subcommittee. A strong Antibiotic Stewardship program is in place. Pharmacists have oversight for Renal dosing adjustments and Vancomycin dosing and utilization. | |
| • HR / Personnel | Pharmacy staff in a state of transition and some instability due to recent staffing changes which have impacted their workloads. Quite a bit of turnover has occurred in this dept. Pharmacy is now reporting directly to the CNO who is well aware of the work climate and is coaching Director. He has been with ECHN for 13 yrs. and seems to be well liked by his staff. He is appropriately credentialed. Pharmacy technicians have to obtain certification within one yr. of hire. | Lost 2.1 FTEs. Clinical Coordinator and IT liaison. 1.0 FTE moved to nights. |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **SURGICAL SERVICES** Ambulatory Surg Unit, Ambulatory Med Unit, GI, Pre OP, OR, PACU Phase 1 & 2 | | |
| • Staffing | I.M. observed appropriate RN staffing ratios throughout the tour of Surgical Services. In the GI lab, 3 new physicians have joined staff and visits have increased as well as patient acuity. 2 new 24 hr. RN positions have been added to accommodate this new volume.<br>IM met the chair of Anesthesia. The group employs anesthesiologists and CRNAs. The usual physician to CRNA supervisory ratio is 2:1, which well exceeds the standards required. There is very little turnover of the staff and a few CRNAs have been newly recruited from area hospitals. An anesthesiologist is always in house on night shift at MMH.<br>Anesthesiologists are on call for RGH and need to be within a 45 minute drive of the hospital for emergencies. The Nursing Director explained that emergent high risk surgical cases would be transported to a larger center in Hartford during the night. Nurses all take night and weekend call. They described their cross training requirements and the system they have in place to ensure ongoing competency in all services. | |
| • Physical Environment | **MMH** has 9 ORs and 1 Cysto room. Overall, spaces were well organized, clean and free of clutter. Emergency carts and equipment was easily accessible. Ambulatory spaces were quite crowded with pt. cubicles separated by a curtain. To better assure physical and auditory privacy, nurses in the Medical ambulatory unit placed pts. In every other cubicle. Day Surgery waiting room was quite pleasant although due for an upgrade to flooring. Appropriate signage and an electronic tracking board were present. Only pt.'s initials were used and tracked by a code that was given to the pt.'s family.<br>New surgical equipment has been ordered for the orthopedic and other services and is in use. This should decrease flash sterilization rates. | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **SURGICAL SERVICES** Ambulatory Surg Unit, Ambulatory Med Unit, GI, Pre OP, OR, PACU Phase 1 & 2 | | |
| • Culture of Safety | IM toured unoccupied ORs and observed surgical personnel. Caps covered all hair, masks in place.<br>IM visited the G.I.Scope cleaning area and found all required testing in compliance. Scopes are separated and hanging in a nice storage cabinet according to standards.<br>In keeping with the Hand Hygiene initiative, observations of scrubbing in the inner core will commence in July. | |
| • Policies and Procedures | Emergency carts locked and checked according to standard. | |
| **SURGICAL SERVICES** Ambulatory Surg Unit, Ambulatory Med Unit, GI, Pre OP, OR, PACU Phase 1 & 2, Interventional Radiology | | |
| • Compliance with State & Federal Regulations | Medication refrigerators, food refrigs are within safe range. Code carts checked and up to date. Appropriate dates of expiration placed on glucometer control solutions. | |
| • HR / Personnel | The OR Nurse Manager position has been eliminated. The Administrative Director has direct responsibility for all surgical services, endoscopy, and biomedical engineering across both campuses. Clinical coordinators in the OR report into her. 95% of the OR RN staff has attained AORN certification. They plan for turnover by preparing their own OR nurses. They run a perioperative course to teach new nurses. This program has been very effective.<br>In the PACU area, 80% of the RNs are certified. Nurses in the GI lab have not expressed interest in obtaining certification. The Unit Educator is responsible for education throughout surgical services: PACUs, ORs, GI lab, Amb. Surgery and Central Sterile Processing. In-service education is provided every 2 weeks. A new competency in Bariatric Surgery has been added to Health Stream education. | |
| • Confidentiality | Pt. Confidentiality was upheld throughout the tours through the various surgical services area. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **EMERGENCY DEPARTMENT** | | |
| • Staffing | IM visited ED in late afternoon on June 27, 2017. Although the ED was quite full, the atmosphere was orderly and the staffing was appropriate. ED utilizes flexible staffing which changes according to time of day. They staff in 8, 10 and 12 hr. shifts. Additional staff is added very 4 hrs. to accommodate changing census. 8 nurses are in the ED from 11am-11pm for the peak volume hrs. Staffing flexes down to 5 RNs between 3-7am.<br>ED nurses staff the Behavioral Health unit at MMH when it is open. A technician and Crisis Prevention staff assists them. Security personnel are in the ED at all times. | |
| • Physical Environment | The ED has 19 beds and sees 40,000 pts. /yr. and May 2017 visit volume has stayed rather stable from May 2016 stats. The ED has an open design with a central station. Pts. are easily visualized. Waiting rooms are adequate and have appropriate signage: pt. privacy, language lines, financial counseling and assistance for the hearing impaired. Emergency carts are placed to allow easy access by staff. The environment is well organized and free of clutter.<br>A separate 11-bed unit has been established for the Behavioral Health population. It was closed at the time of the IM visit. On tour of the BHU, IM found the unit safe for BH pts. Non-mechanical beds were bolted to floor and in low position. No sharp edges. All entrances and exits locked. | No patients in the Psych ED area at time of visit. |
| • HR/Personnel | In addition to the Nurse Manager, the EDs share a Unit Educator. 2-3 RNs are certified SANE nurses at MMH. All RNS have ACLS with the first year of hire. Staff in the BHU all has Physical Management Training (PMT). Crisis Intervention workers staff the BHU until 12 midnight. There were no patients in the BHU on IM's visits to the ED behavioral health area. | |
| • Culture of Safety | MMH has earned "Get with the Gold" Advanced Stroke Certification again. All relevant performance indicators are at 100%. Congratulations! It is also part of a Sepsis Campaign. Psychiatrists see behavioral health patients admitted through ED within 24 hrs. of | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | admission. Approximately 18% of the MMH ED pt. population is pediatric. Children needing admission are sent to CCMC. Several QI indicators are in place: Timeliness of Care, ED arrival to departure (433min) Admit decision to ED departure (238min). These performance improvement efficiency indicators have not yet met goal and have trended upwards from 2016. The CNO has partnered with the Emergency Medicine Medical director to improve the throughput times and patient flow through the ED. | |
| **PSYCHIATRIC SERVICES – MMH in-patient Adult and Adolescent** | | |
| • Staffing | The former nurse manager at MMH has been promoted to Nursing Director with inpatient responsibilities across both the MMH and RGH campuses. He is a seasoned Behavioral Health nurse leader with solid clinical experience. His plan is to promote 2 nurses into Clinical Coordinator positions that will report into him once they are ready and get oriented. A multidisciplinary team of professionals provides care for this pt. population: Psychiatrists, RNs, SW, psych technicians, recreational therapists. Adolescents also have a teacher on staff who is certified in Grades K-12. | |
| • Physical Environment | The unit is many years old and in need of renovation. Plans are in progress to move this service to the RGH campus and renovate the area to accommodate a 16-bed Geri/Psych population.<br>IM reviewed restraint and seclusion log. The unit uses very few restraints and rarely uses seclusion. IM observed solid, flush door handles on all pt. rooms. In common areas, regular door handles were still in use. Pt. rooms had low unmovable non-mechanical beds. Bathrooms were compliant with regulations: breakaway shower rods, polycarbonate mirrors, flush faucets, and angled doors. | |
| **PSYCHIATRIC SERVICES In-patient Adult and Adolescent** | | |
| • Culture of Safety | Patients are rounded on every 15 minutes. There is a central monitor at the nursing station so that pts are continually observed.<br>Multidisciplinary rounds occur daily for care planning purposes | Restraint/seclusion log checked by IM. Very low use. Low sensory modulation room discussed. No room for it in current unit. |

| • Compliance with State & Federal Regulations | IM reviewed with the procedures that are in place to protect exit doors during a fire drill with the Nursing Director. Drills are held periodically. | |
| • HR/ Personnel | Staff is appropriately trained and credentialed to perform their jobs | |
| • Confidentiality | Appropriate measures in place to safeguard pt.'s confidentiality. IM did | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | not observe any breaches in confidentially. | |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Culture of Safety | In the area of Pt. Safety, the following structures and processes are in place: Daily Safety Huddles, Patient Safety committee, Patient Safety Coach committee, HRO education during orientation of new employees and physicians. A large variety of other committees and task forces exist to support Pt. Safety. Patient Safety Outcome measures are doing well. A Sepsis protocol was initiated on 2/14/2017. Aggressive plans are underway to decrease Hospital Acquired Infections. SSI colon and hysterectomy infection rates and c. difficile are all currently above the CMS 50th %ile.<br>Readmission rates hospital wide are 10.8% for 4th quarter May, which is increased from May 2016 but just slightly over benchmark. Aggressive attention needs to paid reduce CHF (27.5%)and AMI (33.3%) readmission rates which are both trending well above the national mean.<br>Action plans are initiated for all QI indicators that do not meet goal.<br>An AHRO patient safety culture survey is being considered for the Fall, 2017.<br>Currently, there is no active Ethics committee in place. A small team would be pulled together if an ethical dilemma presented. The CNO has plans to ask the next chaplain that is hired to assume the role of Chair of an Ethics comm. This is expected to commence in the Fall 2017. | IM will review results of survey at next visit.<br><br>IM will check progress with starting a formal Ethics committee on next visit. |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Staffing | The Quality Department is comprised of 4.5 FTEs who report into the VP of Quality, Safety and Pt. Experience. They are responsible for all performance improvement initiatives across both hospitals and out services. There are 3 QI Managers who are supported by an Environmental Safety Officer. A Pt. Experience Coordinator and Quality Analytics Manager (0.5FTE) report directly into the VP. Two Data Abstractors (1.4 FTEs) report into the Quality Analytics Manager (0.5FTEs). The QI managers have focused areas of responsibility. All conduct RCAs and investigate. Staffing in this department has remained | Meet with Dir. Of RM. IM requested meeting with Dir. of RM. Discussed HRO and openness of staff to report incidents. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | stable since the PMH acquisition. | |
| **RISK MANAGEMENT** | | |
| | IM met on June 27, 2017 with Director of Risk Management for ECHN. Very productive meeting. An external risk analysis is being completed for the Family Birthing Center at MMH in the Fall of 2017 by RL Solutions. Director reported that Prospect Medical has voiced plans to use this firm for their other facilities high-risk areas including OB, Behavioral Health and the ED and the surgical services at RGH due to declining surgical volumes. Director has collaborative relationships with Quality, Nursing, and Medical Staff. Very pleased with appointment of new CMO and looks forward to her plans to revise the current peer review process. Described the Interim CEO as "Fantastic. Unafraid to take on any issue." States nurses report issues more quickly since the initiation of the high reliability practices. Incident reporting volumes have stabilized since 2014. ECHN saw an anticipated rise in incident reporting as a result of starting HRO in 2012. The RM Director meets regularly with the Pt. Experience Coordinator and the Grievance Committee to review relevant complaints and grievances. These are tracked through the feedback module of the Incident Reporting Information Systems (IRIS). They adhere to all CMS Guidelines. RM also collaborates closely with the Chair of the Environment of Care Committee. | |

**Subject:** OHCA condition of Participation #19 for ECHN

Dear im,

I hope you have enjoyed your summer. They always seem to fly by. I am seeking clarification regarding the COP 19 for ECHN:
CON Condition 19: For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of each of new MMH and New RGH and the Local Board of new MMH and New RGH (Joint Board Meetings) at least twice annually with one occurring in Manchester and the other occurring in Vernon.
I want to verify that since two Joint Board meetings have been held, one at RGH on April 26, 2017 and one at MMH on May 31, 2017 that ECHN has meet this re uirement for Joint board meetings followed by public meetings for this year.

I appreciate your assistance in clarifying this re uirement for me.

Best regards,
Colleen Smith

**Subject:** FW: OHCA condition of Participation #19 for ECHN

Hi Colleen,

We have some additional questions prior to responding to your question in your August 28th email:

In reference to both meetings held at Rockville and Manchester, April 26 and May 3, 2017, respectively, please address the following:

- Supporting documentation related to the meetings, on file at OHCA dated May 1, 2017 and June 12, 2017, stated that a joint meeting of the Boards of Directors from Prospect Rockville Hospital, Inc. and Prospect Manchester Hospital, Inc. was held on April and May at the hospitals' campuses. The documents also indicated that the meetings were followed by a public meeting for their respective communities where information about the hospitals' activities was shared with the public and that they were encouraged to ask questions and provide comments.

  Condition #19 stipulates that *"…PMH shall hold a joint meeting of the Boards of each of New MMH and New RGH and the Local Board of New MMH and New RGH… and such Joint Board Meetings shall be followed by a meeting for the public…".*

  The submitted documents to support the meeting of this condition do not indicate whether the Local Board for each hospital was in attendance at the meetings and the specific timeline for the public meeting. It appears that the Local Board was missing and that the public meeting was held on the same date, Is this correct? Please provide supporting documentation that shows that each hospital's Local Board was in attendance. Also, provide the specific timelines and supporting documentation for public meetings held after both Boards, the hospital's and Local, have met.

It is also requested that you submit your responses via electronic mail by using the OHCA general email inbox which is OHCA@ct.gov. In addition, please continue to reference the CON docket number in the subject line of the email when transmitting.
You may contact me at (860) 418-7039 or Karen Roberts, Principal Health Analyst at (860) 418-7041, if you have any questions regarding this request.

Thank you,

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Cotto:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically to clarify reports made by me to OHCA on May 1, 2017 and on June 12, 2017 for Condition Number Nineteen (19) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Nineteen (19) requires that PMH will "hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ( Joint Board Meetings ) at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals activities and afforded an opportunity to ask uestions and make comments."

Please see the attached affidavit signed by Michael Collins, CEO of Prospect ECHN, which addresses the attendance at the two re uired Joint Board Meetings and provides details for the public meetings that were held in Vernon and in Manchester.

If you have any uestions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

Applicant: **Prospect Medical Holdings, Inc.**

Docket Number: **15-32016-486**

Project Title: **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

I, **Michael Collins,** **CEO** of
(Individual's Name) (Position Title – CEO or CFO)

**Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc.**
(Hospital or Facility Name)

being duly sworn, depose and state the following information submitted on behalf of

**Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc.**
(Hospital or Facility Name)

1. Condition Number Nineteen (19) of the Certificate of Need Final Decision for the above referenced Project requires that Prospect Medical Holdings, Inc. will:

> hold a joint meeting of the Board of Directors of each of New MMH and New RGH and the Local Board of New MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospitals' activities and afforded an opportunity to ask questions and make comments.

2. On April 26, 2017 the Local Advisory Board of Prospect Manchester Hospital, Inc. and the Local Advisory Board of Prospect Rockville Hospital, Inc., met together with members of the Boards of Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. on the premises of Prospect Rockville Hospital, Inc. located in Vernon, CT.

3. Subsequent to the April 26, 2017 meeting described above and on the same day (i.e., April 26, 2017 at 5 PM), a meeting was held for the Vernon community in the cafeteria of Rockville General Hospital where information about the hospital's activities was shared and the public was encouraged to ask questions and provide comments. The meeting was advertised in both the Hartford Courant on April 20 and 25, 2017 and in the Journal Inquirer on April 16 and 23, 2017. Members of both the Local Boards and the New MMH and New RGH Boards were present. The meeting was called to order at approximately 5 PM and concluded at approximately 7 PM, after which Board and Local Board representatives remained on hand to address questions or concerns that the members of the public wanted to discuss individually. Please see the attached article with an account of the meeting published by the Journal Inquirer on April 27, 2017.

4. On May 31, 2017 the Local Advisory Board of Prospect Manchester Hospital, Inc. and the Local Advisory Board of Prospect Rockville Hospital, Inc., met together with members of the Boards of Prospect Manchester Hospital, Inc. and Prospect Rockville Hospital, Inc. on the premises of Prospect Manchester Hospital located in Manchester, CT.

5. Subsequent to the May 31, 2017 meeting described above and on the same day (i.e., May 31, 2017 at 5 PM), a meeting was held for the Manchester community in the auditorium of Manchester Memorial Hospital where information about the hospital's activities was shared and the public was encouraged to ask questions and provide comments. The meeting was advertised in the Hartford Courant on May 25 and May 28, 2017 and in the Journal Inquirer on May 25 and May 30, 2017. Members of

both the Local Boards and the New MMH and New RGH Boards were present. The meeting was called to order at approximately 5 PM and concluded at approximately 6:30 PM, after which Board and Local Board representatives remained on hand to address questions or concerns that the members of the public wanted to discuss individually. Please see the attached article with an account of the meeting published by the Journal Inquirer on June 1, 2017.

# RGH to remain open, but change focus

**By Kym Soper**
**Journal Inquirer | Posted: Thursday, April 27, 2017 12:01 pm**

VERNON — Prospect ECHN officials announced Wednesday at a public hearing that Rockville General Hospital would remain open, but with a different focus, as two-thirds of the downtown facility would be locked behavioral units.

Interim CEO Michael Collins also said he would revisit the rejection of Vernon's candidate to the advisory board, Dr. Ellen Marmer, after hearing the roomful of support for her at the meeting.

Plans call for diversification, the new for-profit owners told the packed room of residents, with the century-old hospital split into thirds: a medical-surgical unit and emergency department, the new eating disorder unit that opened in August, and a new adult psychiatric unit that's expected to open by the end of the year.

Nearly □10 million has been set aside for renovations to the Vernon facility, with a fair amount of work to be completed by November, Collins said, adding: "We're hoping to make it more vibrant."

Thomas Reardon, president of Prospect Medical East, echoed the sentiment, telling the doubtful crowd that it made no sense to close the hospital.

"Why would we as a company spend what we're going to spend, only to close it down?" he asked. "We want this hospital to thrive."

The trust between the new owners and the community is at an all-time low, Vernon Town Council member William Campbell told Collins.

Not even meeting with Marmer, a well-respected surgeon who would be a strong advocate for the town and transparency, shows that Prospect wants board members who'll rubber stamp whatever they propose, another audience member said as the crowd clapped in approval.

Prospect Medical Holdings Inc., a California-based company that's a subsidiary of hedge-fund Leonard Green and Partners L.P., bought Eastern Connecticut Health

Network and its two hospitals, Rockville General in Vernon and Manchester Memorial, for □105 million in October with a promise to spend an additional □75 million in improvements to its facilities over the next five years. Prospect also purchased Waterbury Hospital around the same time for □45 million, with a promise of □55 million for upgrades there.

Dennis McConville, senior vice president of strategic planning for ECHN, said there is a backlog of some □125 million in identified deferred maintenance and repairs that have accumulated over the years.

About □9.1 million has been re□uested for immediate capital projects at Rockville General, with □8.7 million approved so far, he said.

Much of the initial funding would go toward updating heating, ventilation, and electrical systems, a new roof, and some aesthetic projects like new floors, painted walls, and ceiling tiles, he said.

A good chunk, however, is being set aside to convert the Bissell 1 nursing unit into a locked, 24-bed adult psychiatric behavioral health ward for short-term stays of seven to 10 days.

An additonal □1.3 million is being spent now on renovations at the Woodlake at Tolland nursing home with construction that started Monday.

“So, out of the gate, we’ve got a lot of things lined up,” he said of the projects on tap.

Prospect ECHN officials also touted the low infection rates among its facilities, and the standard for safety in fall prevention and bed sores, which were below industry norms or non-existent on a recent report. Rockville General and Manchester Memorial also received federal certification for advanced stroke care.

Issues raised by the packed crowd in the Rockville General cafeteria Wednesday included staffing levels, renovations to the long unused historical front entrance, and how Prospect ECHN planned to expand its consistently low patient census rate.

Some 14 staffers were laid off recently, Collins said, but not one was a bedside nurse. Overall, Prospect ECHN expects to see an increase of about 60 full-time employees from the current 2,800 by November, he added.

More security and a refurbished entrance to the original colonial building at Rockville General is on the “to-do list,” Collins and McConville said. And the company is planning

to mount an aggressive marketing campaign to attract more patients while at the same time grooming new doctors with its residency program, now in its third year.

There also will be a “paradigm shift” with doctors who take their surgical patients to only Hartford hospitals, Collins noted, adding that they’ll no longer receive referrals from ECHN.

“It’s going to be sort of a war,” he said.

Town Administrator John Ward said he and Mayor Daniel Champagne were “pleased to hear that Prospect is committed to having the hospital open and create more jobs, and we’ll always be here to work with them.”

# Prospect ECHN officials outline plans for MMH

**By Kym Soper**
**Journal Inquirer | Posted: Thursday, June 1, 2017 1:32 pm**

MANCHESTER — About 50 area residents and medical staff on Wednesday learned the short-term plans for Manchester Memorial Hospital: more maternity and geriatric psychiatric beds, as well as a push to increase the number of outpatient, minimally invasive surgeries.

Long term, new owners Prospect ECHN also hope to establish a cardiac catheter lab that can insert life-saving stents in failing hearts within 30 minutes. But that re□uires state approval and is "many years away," officials say.

The former nonprofit Eastern Connecticut Health Network, which includes Manchester Memorial and Rockville General hospitals as well as Woodlake at Tolland nursing home, was bought for □105 million in October by Prospect Medical Holdings Inc., a for-profit California company, with a promise to spend an additional □75 million on capital projects.

According to the plan, all of Manchester's adult psychiatric patients will move to Rockville General when a new 24-bed locked ward is created on a refurbished nursing unit in Vernon. Work will start there this week, interim CEO Michael Collins said, and be completed by November.

Adolescent, geriatric

psychiatric care

The Manchester psychiatric ward now has six adolescents as patients in a segregated area, but it's not the best situation, Collins said, noting that the youths need more living and activity space for when they're not in therapy.

While the number of adolescent beds would remain the same, geriatric psychiatric beds eventually would increase, he said, from the current census of three or four patients to at least 17, and eventually up to 21.

“The need is there,” Collins said, adding that often, adult children are forced to take home aging parents who’ve had a psychotic break as there’s no satisfactory in-patient medical care now offered for that population.

Renovations to the emergency department, meanwhile, will be minimal, said Dennis McConville, senior vice president of strategic planning, with most of the work concentrated on the waiting areas.

Maternity expansion

The maternity ward, however, will see an increase from 12 to 15 rooms where labor, delivery, and recovery all take place in the same space.

The expansion is re□uired after a Mansfield obstetrics group joined Prospect ECHN, bumping up the number of births at Manchester from the current 1,200 to 1,500 a year.

Some years ago, before Rockville General closed its birthing center, patient census at Manchester’s maternity ward held at 900 births a year, Collins said.

McConville said there is a list of roughly □125 million in identified deferred maintenance and “wish list” items for upgrades throughout network properties, with about □9.1 million approved for immediate projects, mostly in Vernon.

At Manchester, the list includes imaging, pharmacy, surgery, and cardiac rehab e□uipment, he said.

Cosmetic changes also will occur to waiting and patient rooms, and buildings on all three campuses will get much-needed attention to roofs and mechanical systems, like heating and ventilation.

The Manchester parking garage will also be improved, McConville said.

Those attending the state-mandated meeting questioned the network’s ratings and patient surveys, saying more than the current 3 percent should be polled about their stays. Officials said patients could comment on the ECHN Facebook page, and they’d also consider including a □uestionnaire with all discharge paperwork.

As for its ratings, out of a possible five stars the federal Centers for Medicare and Medicaid Services lists Rockville at 3 and Manchester at 2.

Officials say they expect that to go up next fiscal year starting in October, following recent efforts to reduce infection rates, falls, and bedsores, which were below industry norms or non-existent on a recent report.

Both hospitals also recently became certified for advanced stroke care, and are working to reduce re-admissions by focusing on home care and follow-up with discharged patients, said Linda Quirici, Prospect ECHN vice president of □uality and safety.

One resident asked how the current congressional debate on health care would affect patients here, to which Collins responded, “it’s unknown” until budgets are set on both the federal and state level. But he envisions an eventual evolution to block grant payments for patient care under a revised Medicare system.

Prospect’s model of regional, community care also would keep costs down for local patients, he said, noting that large urban hospitals charge much more for the same service.

For example, a colonoscopy at an urban hospital can cost between □5,000 and □6,000 while a community hospital would charge only about □2,000 for the same test, he said.

“It’s really not fair,” for employers or their staff with co-pays, he said, noting that one employee could opt to go into Hartford for the routine exam while another staffer goes to the community hospital for less money, and winds up subsidi□ing the co-worker’s procedure.

And while Manchester won’t be performing brain or heart surgery anytime soon, it does have a robot for minimally invasive surgical procedures like gall bladder removal, knee repairs, or bariatric procedures for weight loss.

Some of that work has been lost to six new surgi-centers that have sprung up in the surrounding area in recent years, Collins said. And unlike ECHN, those facilities aren’t re□uired to care for the poor or Medicaid patients, taking only more lucrative private insurance payers.

“But we still have to keep the machines running and maintain the equipment,” he said.

Dear Carmen,

I am writing in regards to Docket □15-32016-486. I trust that the letter and affidavit that you received from Dennis McConville at ECHN on 9□14□17 has satisfied your re□uest for more information regarding Condition □19.

I would like to follow up to my □uery of 8□28□17 concerning condition □19. Specifically, i want to verify that the 2 joint Board meetings followed by public community meetings held last spring in April and May on the Rockville and Manchester campuses satisfies the re□uirements of condition □19.
I appreciate your guidance and attention to this matter.

Sincerely,

Colleen O. Smith

- Supporting documentation related to the meetings, on file at OHCA dated May 1, 2017 and June 12, 2017, stated that a joint meeting of the Boards of Directors from Prospect Rockville Hospital, Inc. and Prospect Manchester Hospital, Inc. was held on April and May at the hospitals' campuses. The documents also indicated that the meetings were followed by a public meeting for their respective communities where information about the hospitals' activities was shared with the public and that they were encouraged to ask questions and provide comments.

  Condition #19 stipulates that *"…PMH shall hold a joint meeting of the Boards of each of New MMH and New RGH and the Local Board of New MMH and New RGH… and such Joint Board Meetings shall be followed by a meeting for the public…".*

  The submitted documents to support the meeting of this condition do not indicate whether the Local Board for each hospital was in attendance at the meetings and the specific timeline for the public meeting. It appears that the Local Board was missing and that the public meeting was held on the same date, Is this correct? Please provide supporting documentation that shows that each hospital's Local Board was in attendance. Also, provide the specific timelines and supporting documentation for public meetings held after both Boards, the hospital's and Local, have met.

It is also requested that you submit your responses via electronic mail by using the OHCA general email inbox which is OHCA@ct.gov. In addition, please continue to reference the CON docket number in the subject line of the email when transmitting.
You may contact me at (860) 418-7039 or Karen Roberts, Principal Health Analyst at (860) 418-7041, if you have any questions regarding this request.

Thank you,

**Subject:** OHCA condition of Participation #19 for ECHN

Dear im,

I hope you have enjoyed your summer. They always seem to fly by. I am seeking clarification regarding the COP 19 for ECHN:
CON Condition 19: For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of each of new MMH and New RGH and the Local Board of new MMH and New RGH (Joint Board Meetings) at least twice annually with one occurring in Manchester and the other occurring in Vernon.
I want to verify that since two Joint Board meetings have been held, one at RGH on April 26, 2017 and one at MMH on May 31, 2017 that ECHN has meet this re uirement for Joint board meetings followed by public meetings for this year.

I appreciate your assistance in clarifying this re uirement for me.

Best regards,
Colleen Smith

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Addo:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Thirteen (13) and Condition Number Fifteen (15) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

**Condition Thirteen**

Condition Number Thirteen (13) requires that "PMH shall maintain community benefit programs and community building activities for New MMH and New RGH for three (3) years after the Closing Date consistent with the MMH and RGH most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as ECHN's current programs, and PMH shall apply a 1% increase per year for the next three (3) years toward community building activities in terms of dollars spent."

For fiscal year 2017, Prospect ECHN maintained the same community benefit activities and community building activities that Legacy ECHN's hospitals had offered the community prior to the acquisition by PMH. Overall, PMH invested $27,361,380 in community benefit activities in fiscal year 2017. This was $317,714 more than the investments made by Legacy ECHN in fiscal year 2016 representing a 1.2% increase.

The dollar amounts of community benefit programs and community building activities for Legacy MMH and Legacy RGH for fiscal year 2016 that were filed with the IRS on Form 990, Schedule H in August 2017 and the amounts for Prospect MMH and Prospect RGH for fiscal year 2017 are included in the following table.

| **Total Community Benefit - MMH** | **Legacy MMH FY 2016** | **Prospect MMH FY 2017** |
|---|---|---|
| Financial Assistance at Cost<br>*IRS 990 Schedule H Part I, 7a* | 505,744 | 490,213 |
| Unreimbursed Medicaid Services<br>*IRS 990 Schedule H Part I, 7b* | 11,685,254 | 12,795,199 |
| Other Community Benefits<br>*IRS 990 Schedule H Part I, 7j* | 6,300,288 | 6,522,646 |
| Community Building Activities<br>*IRS 990 Schedule H Part II, 10* | 243,695 | 263,693 |
| **Total** | **18,734,981** | **20,071,751** |

| **Total Community Benefit - RGH** | **Legacy RGH FY 2016** | **Prospect RGH FY 2017** |
|---|---|---|
| Financial Assistance at Cost<br>*IRS 990 Schedule H Part I, 7a* | 382,466 | 270,027 |
| Unreimbursed Medicaid Services<br>*IRS 990 Schedule H Part I, 7b* | 6,805,720 | 5,853,317 |
| Other Community Benefits<br>*IRS 990 Schedule H Part I, 7j* | 1,104,947 | 1,148,393 |
| Community Building Activities<br>*IRS 990 Schedule H Part II, 10* | 15,552 | 17,892 |
| **Total** | **8,308,685** | **7,289,629** |

| **Total Community Benefit** | **Legacy ECHN FY 2016** | **Prospect ECHN FY 2017** |
|---|---|---|
| **Total** | **27,043,666** | **27,361,380** |

**Financial Assistance and Unreimbursed Medicaid Services**

Prospect ECHN continues to treat patients regardless of their ability to pay for services and hospital policies regarding charity care have not changed since the transaction closed. The hospitals continue to provide the same level of financial assistance to patients that qualify based on need. The decrease in Financial Assistance at Cost is the result of successful efforts

to enroll patients in the Medicaid program. As a result, the hospitals continue to see an increase in Unreimbursed Medicaid Services.

**Community Health Improvement and Health Needs Addressed**

Prospect ECHN has continued to invest in providing free health information and education in partnership with the ECHN Medical Staff through a series of lectures offered to the public. Three times each year, the ECHN Community Education Department invites ECHN medical staff and allied health professionals to submit health education programs for presentation to the public. A Community Program Advisory Committee with representation from the medical staff and management considers each request, giving priority to submissions that address identified community health needs. The community health education programs, along with other information on health topics, are published in ECHN's *Better Being* magazine which is distributed to 110,000 households (Exhibit A). The magazine lists special events, health screenings, cancer education & support programs, safety education classes, parent education & playgroup programs and finally the numerous support groups hosted by the hospitals. Its cost for this past year was $96,406.

In 2017, ECHN sponsored twenty-six (26) community programs that served 844 community members. Please see Exhibit B for the ECHN Community Education Program Guidelines and Exhibit C for the list of programs held by ECHN this past year.

Prospect ECHN's community benefit investments and community building activities focused on the health needs identified in its 2016 Community Health Needs Assessment (CHNA) and Implementation Plan. Investments included the time and effort of staff throughout ECHN who contributed to the production of the Community Health Needs Implementation Plan and the meetings held with health officials from the Town of Manchester to review the community health needs and develop strategies that were included in the plan. The following are some examples of the community benefit activities supporting the CHNA Implementation Plan.

***Access to Care***

Prospect ECHN, through Prospect MMH and Prospect RGH, continues to support the education of healthcare professionals. The goal is to ensure that there is access to care with adequate numbers of healthcare providers to serve the community's healthcare needs. In 2017, the hospitals offered clinical training opportunities for over 900 students of college and university programs. Exhibit D lists the educational institutions that the hospitals have agreements with to provide clinical experiences to students. The amount of community benefit provided by the hospitals for health professions education in 2017 was $3,297,704.

Medical residents of the ECHN Eastern Connecticut Family Medicine Residency Program at Prospect Manchester Hospital volunteered their time and provided free health screenings to the men, women and children living at Squire Village, a 379-unit, newly renovated subsidized housing complex in the town of East Hartford. On Fridays, from 9 a.m. to noon, a resident

physician is available to check blood pressure and body mass index, provide education and flu vaccinations.

Prospect ECHN contracts with Conifer Health Solutions to offer a free physician referral service to the public. The telephone service is posted on the ECHN website and available 24 hours, 7 days a week. In 2016, 135 physician referrals were made to individuals covered by Medicaid.

***Cancer Screening***

Prospect RGH, at the ECHN Women's Center for Wellness in South Windsor, has continued ECHN's participation with the CT Department of Public Health in the Connecticut Breast and Cervical Cancer Early Detection Program, a comprehensive screening program for medically underserved women. This grant funded program offers free breast and cervical cancer screening, diagnostic and treatment referral services. Thirty women received mammograms and twenty women received pap smear and HPV testing last year at the Women's Center. Prospect RGH provided $111,000 in in-kind support for the program.

***Cancer Support and Survivorship***

Prospect ECHN employs patient navigators who provide support to cancer survivors, helping them manage symptoms, obtain second opinions, schedule tests and treatment, arrange for homecare services and care coordination. These nurse navigators also support cancer patients with survivorship care plans that include key information for patients' diagnoses, stage of cancer, treatment received and a roadmap for continued follow up care and recommended lifestyle changes to reduce cancer reoccurrence or improve their quality of life. There is no cost to the patients for these services.

On September 10, 2017, Prospect ECHN continued a long-standing ECHN tradition by hosting the 14th Annual Cancer Survivors Day event. The event featured a brunch and a talk by a humorist. It was free to cancer survivors and their families, friends and caregivers. Two hundred and sixty-five (265) people attended the event.

***Smoking Cessation***

In fiscal year 2017, ECHN patient navigators conducted educational sessions on smoking cessation at the Vernon Middle School, Manchester High School and at a Tolland Chamber of Commerce event. The classes served over 300 people.

***Heart Disease & Stroke***

In 2017, Prospect MMH and Prospect RGH received advanced certification as primary stroke centers from The Joint Commission as well as recognition for the American Heart Association/American Stroke Association for their commitment and success in the acute treatment of stroke patients. Because a stroke patient loses 1.9 million neurons each minute

stroke treatment is delayed, ECHN developed a campaign to raise awareness, educate the public and improve access to brain-saving treatment available in eastern Connecticut. The campaign included information on how to recognize signs of a stroke and the recording of an educational video on the life-saving treatment that can be administered. The campaign targeted EMS personnel and the general public, appeared in ECHN's Better Being magazine and social media outlets and continues to run throughout ECHN facilities on digital screens and on our website.

Community education programs were offered to promote physical fitness, healthy nutrition and heart health. In January 2017, a physical therapist presented a community education program covering the proper way to begin a total body workout program, which includes stretching, strength and cardio training as well as nutritional advice before and after exercise.

In February 2017, in observance of American Heart Health Month, a special event was held for the public entitled "From the Inside Out" where mini lectures and screenings were offered. An ECHN cardiologist led a discussion on heart health, prevention and healthy lifestyle choices. A registered dietitian presented information on making healthy food choices and ECHN's women's health nurse navigator discussed the importance of caring for the total body, managing stress and nurturing the spirit.

***Infant Health & Family Planning***

The Prospect ECHN CHNA Implementation Plan includes goals to improve access to prenatal and parenting education, increase preconception and first trimester prenatal education, and to decrease infant mortality and increase infant and child health and wellbeing. Prospect MMH continues to operate the Family Development Center (FDC) programs for families needing support with parenting and with other family issues. These programs are funded by state and federal grants. Prospect MMH continued the same support for the FDC grant funded programs in 2017 with in-kind contributions totally $121,252. Exhibit E describes the Family Development Center Programs.

***Mental Health***

On January 27, 2017, Prospect MMH hosted a program sponsored by Community Health resources and Garrett Lee Smith Suicide Prevention Community Network of Care for behavioral health professionals on the Columbia-Suicide Severity Rating Scale. There were over 100 attendees.

***Substance Abuse***

In December 2016, the Manchester Police Department and ECHN began working together to develop a strategy to combat the ever growing issue of heroin/opioid addiction and the devastating effects that it has in our communities. As a result, the H.O.P.E. (Heroin and Opiate Prevention and Education) Initiative was developed. One of the main goals of the

initiative is to provide a safe means for individuals to seek treatment for their addiction without fear of prosecution.

***Nutrition, Physical Activity & Weight Management***

Some of the benefit activities for this category of health needs included numerous community education lectures were presented in FY 2017 by registered dietitians and physicians on diet/healthy eating. The programs were intended to engage people struggling with obesity, heart disease, arthritis, diabetes and individuals seeking healthy lifestyles. Two grocery store tours were also organized where a registered dietician instructed participants on label reading. Surgical weight loss support groups were held three times a month.

***Diabetes***

The ECHN Diabetes Self-Management Program is a subsidized health service staffed by diabetes educators, nurses and registered dieticians, who offered individual and group classes, counseling, workshops, screenings and support groups to patients with diabetes. This program served 1,179 patients in fiscal year 2017. The costs not covered by insurance were $203,990.

In addition to the education sessions on nutrition topics and the label reading tours mentioned above, Prospect ECHN hosted community education lectures addressing diabetes with topics that included: “Pre-Diabetes: Let’s take Action” and “Diabetes and the Eye.”

**Population Health Management**

Prospect MMH and Prospect RGH’s community benefit investments and community building activities have also focused on providing education regarding population health management as PMH builds its model of Coordinated Regional Care. In January 2017, Prospect ECHN hosted the Manchester Community Services Council at MMH where Dr. Joel Reich, ECHN Chief Medical Officer, made a presentation on the state of healthcare in the United States and the reasons for healthcare reform and moving to a model focused on population health. At the meeting, I talked to the Council about ECHN’s population health initiatives. The Manchester Community Services Council is a non-profit organization comprised of agencies devoted to providing and improving health or social services to residents in the greater Manchester area.

In June 2017, Michael Collins, CEO, and I made a presentation to the Vernon Community Network at their Annual Meeting. The Vernon Community Network is a consortium of 40 public education, non-profit, faith-based and government organizations serving the Vernon region. At the meeting, we shared ECHN’s plans for RGH and talked about ECHN’s efforts to address the community’s health needs. We also presented information about healthcare payment reform and the investments that ECHN is making in its care delivery system as the organization moves to population health management.

**Community Building Activities**

Prospect ECHN has continued to invest in the community/coalition building activities that the public has come to rely on for support from its hospitals. ECHN staff volunteer to serve on boards and committees of local charitable organizations and Chambers of Commerce. In keeping with Manchester Memorial Hospital's long history of support for our veterans, Prospect ECHN hosted an annual dinner for the Manchester Veterans Council and the annual Veterans Day Ceremony at MMH. In addition, this past year, Prospect ECHN, MMH and RGH sponsored local charitable organizations' fundraising events. Those sponsorships are included in Exhibit F.

## Condition Fifteen

Condition Number Fifteen (15) states that New MMH and New RGH shall work toward making culturally and linguistically appropriate services available and integrated throughout their hospital operations guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. In addition, New MMH and New RGH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served in accordance with the regulations of Section1557 of the Patient Protection and Affordable Care Act. Finally, New MMH and New RGH shall provide insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees.

Prospect MMH and Prospect RGH are committed to making culturally and linguistically appropriate services available and integrated throughout the organization, providing meaningful access to individuals with limited English proficiency, providing insurance navigator services and providing cultural competency training for all employees.

ECHN has Corporate Administrative Policies in place to ensure persons with limited English proficiency and persons requiring auxiliary aids and services have access to the healthcare services available at the hospitals and throughout the organization. They include:

Policy #205: Nondiscrimination – Auxiliary Aids and Services (Exhibit G)
Policy #206: Nondiscrimination – Language Assistance to Persons with Limited English Proficiency (Exhibit H)

These policies are available online for all employees. The hospitals offer access to auxiliary communication aids and services, including alternative formats and sign language interpreters, for individuals with disabilities. Information about these services is posted throughout the hospitals.

Also posted throughout the hospitals is a notice of consumer rights, providing information about communication assistance, with tag lines posted in the top 15 languages spoken by individuals with limited English proficiency, indicating the availability of such assistance.

As of September 2016, Prospect MMH and Prospect RGH have partnered with iTi Translation Services to provide timely services to our patients with a wide variety of language needs. These services include:

1. In-Person Interpreters/Translators
2. Video Remote Interpreting (VRI)
3. Telephonic Interpreting for Individuals with Limited English Proficiency
4. Written Document Translation

All of these services are provided at no cost to our patients. All staff is educated annually on these policies and procedures and the services are used without hesitation to serve the needs of our patients. Video Remote Interpreting (VRI) equipment is available for use throughout the organization.

Additionally, Prospect MMH and Prospect RGH provide insurance navigation services for uninsured patients who are identified as eligible for Medicaid or have the financial ability to purchase health insurance. The Financial Assistance Policy and Procedure describes the services provided (Exhibit I). The policy is available on the ECHN website. Specifically, Section A.e. of the policy states that "uninsured patients who may meet the State of CT Department of Social Services guidelines for Medicaid eligibility will be provided assistance in determining their eligibility as well as assisting with obtaining eligibility." ECHN contracts with MedData to make a Medicaid Eligibility counselor available Monday through Friday during normal business hours to assist patients with determining eligibility and the application process. This counselor is located at MMH and travels to RGH as needed. In Fiscal Year 2017, Prospect MMH and Prospect RGH assisted 1,715 people to enroll in the Medicaid program at a cost to the hospitals of $243,938.

Section A.f. of the policy provides that "uninsured patients who are believed to have the financial ability to purchase health insurance may be encouraged to do so in order to ensure healthcare accessibility and overall well-being." A full-time Financial Counselor is employed by the hospitals to assist eligible patients in obtaining health insurance. In fiscal year 2017, Prospect MMH and Prospect RGH assisted 567 patients in applying for and receiving financial assistance under ECHN's Financial Assistance Policy.

Prospect MMH and Prospect RGH's commitment to enhancing cultural awareness and embracing diversity is evident through numerous employee education initiatives including:

- New Employee Orientation: Diversity training is included with general information about culture, belief systems and cultural responsiveness with case studies for discussion.
- Annual Mandatory Education: This requirement of all employees includes a review of the patient experience, the organization's mission and core values, and a review of services and equipment available for patients and families who are visually impaired, deaf or hearing impaired, speech impaired or with limited English proficiency. The

Corporate Administrative Policies referenced above, policies #205 and #206 are included in the annual education.

- Additional Education: Prospect MMH and Prospect RGH use the HealthStream Online Learning Center for staff to complete various education modules throughout the year. Topics such as "Providing Culturally Competent Care" and "Diversity in the Workplace" are included in this mandatory education.

This report is posted on the ECHN website at http://www.echn.org/community-benefit-reporting. If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

SUMMER 2017

Ways to a better you from Eastern Connecticut Health Network

east of ordinary

ECHN℠
Eastern Connecticut Health Network

community health education programs inside

East of Ordinary

# welcome

You may think it isn't ordinary for community hospitals to have the same technology and resources as big city hospitals. But at ECHN, some of the brightest healthcare advances are right here in eastern Connecticut. Robotic-assisted minimally invasive surgeries, exceptional cancer services and advanced stroke care are just down the road from where you live. At ECHN you will always have access to board-certified physicians and skilled clinicians, our renowned family birthing center and comprehensive emergency care whenever you need us.

ECHN may be a community healthcare system but don't be fooled by the "community" label. We may be small town, but we're not small thinking. We're proud to provide care that is not just east of the river, it's east of ordinary.

We hope you are enjoying an extraordinary summer and find some time to attend some of our community programs and classes. We look forward to seeing you!

special event

# save the date to celebrate survivorship

Save the date for ECHN's 14th Annual Cancer Survivors Day event – A Celebration of Life. Cancer survivors and the families, friends and caregivers who supported the fight every step of the way are invited to join us for an afternoon of laughter. Our keynote speaker, author and humorist, Gina Barreca, will present "Generosity, Comfort, and Spirit: Why We Need Humor Every Day."

*"Humor allows us to have new perspectives on moments of our lives that are otherwise lost to sadness, fear or misery. Laughing with someone is as close as you can get to them without giving them a hug, and sometimes it can make a hug even better."*

*- Gina Barreca*

This free event will also feature a buffet brunch and giveaways. Pre-registration is required.

**Date:** **Sunday, September 10**

**Time:** **11 a.m.–1 p.m. Check-in starts at 10:30 a.m.**

**Site:** **Hartford/Windsor Marriott**
**28 Day Hill Road, Windsor**

**Free / Registration opens August 1. See page 15 to register.**

# health screenings

## Lung Cancer Screening

If you are a current or former smoker who has quit within the last 15 years, who has smoked at least one pack a day for 30 years or two packs a day for 15 years and are between age 55 and 80 (for those on Medicare between age 55 and 77) with no personal history of lung cancer, call oncology nurse navigator Leslie Juliani, RN, BSN, OCN, at 860.646.1222, ext. 1406.

## Free Mammograms, Pap Test & Heart Disease Screenings

Available to women who are between ages 30-64 who have limited income, no health insurance, health insurance that excludes routine Pap tests and/or mammograms or have a high insurance deductible ($1,000 or more).

***To see if you quality for these free services offered at various ECHN locations, please call the ECHN Early Detection Program, at 860.872.5368.***

# health education programs & lectures

## Nerve Pain & Neuropathy: Causes, Symptoms and Treatment Options

Symptoms of nerve pain can range from prickling or tingling to a chronic burning sensation and can interfere with your daily life. # when the doctor will see you

*Saby Karuppiah, MD, MPH*

Getting an appointment to see a doctor can sometimes feel as challenging as getting tickets to a hot Broadway show. The first available appointment may be weeks away and not always at a time that is convenient for you. So when you do get time with a provider, it's important to make the most of your visit.

The reported average length of time a provider spends with a patient is just 15 minutes. In this short period of time, the provider needs to gather information about what brought the patient in, perform any necessary exams or evaluation, make a diagnosis and provide treatment, such as a referral or prescription.

"The number one recommendation I would give to patients is to come prepared," says family physician Saby Karuppiah, MD, MPH. "The staff is going to ask if there are any changes to things like your insurance information, medical history and the medications you're taking. Have that information organized, in written form if necessary. Better yet, bring your medications with you."

When you are with the doctor, it's best to be efficient with your time. "Be prepared to concisely and honestly explain what the issue is, when your symptoms started, how you've tried to manage them and for how long," explains Dr. Karuppiah. This will help your doctor make an accurate diagnosis and informed recommendation for next steps.

"Clear communication is key," says Dr. Karuppiah; "Never hesitate to ask for clarification about what your doctor has told you. When in doubt, ask. We are here to help you."

Dr. Karuppiah is an ECHN provider now seeing patients in the new Manchester Family Physicians practice located at 29 Haynes Street, right next to Manchester Memorial Hospital. The practice, including providers Tricia Hall, DO, and Katarzyna Pomianowski, MD, welcomes new patients of all ages, Monday through Friday 8 a.m. to 4 p.m. Most insurances accepted. To schedule an appointment, please call 860.533.4678.

## fast stats from the cdc

**Nearly 84% of adults** have contact with a healthcare professional each year.

**More than 53% of visits** are made to primary care physicians (PCPs).

The most commonly diagnosed condition: **hypertension**

**Coughs** are the most common illness-related reason for office visits.

**source https://www.cdc.gov/nchs/fastats/physician-visits.htm*

## Feeling Dizzy? It Could Be Vertigo

Do you get the sensation that everything is spinning or moving around you? It may be vertigo. Physical therapists Gina Koudelka, DPT, LSVT, Priscilla Kowal, PT and Stephanie Torchia, DPT, will explain what vertigo is and its effect on your daily functions. Treatment and long-term management options will also be discussed.

*Date: Tuesday, July 18*
*Time: 6-7:30 p.m.*
*Site: ECHN Community Education Room, 2600 Tamarack Avenue, South Windsor*

*Free / See page 15 to register.*

## A Healthy Start For Your Baby's Body, Brain & Behavior

Early nutrition is essential for your baby's developing brain and body. Neuromusculoskeletal medicine specialist, Michael Waddington, DO, will discuss ways to help your baby sleep through the night, prevention and natural treatment for common problems such as colic, reflux and ear infections.

*Date: Tuesday, July 25*
*Time: 11 a.m.-noon*
*Site: Manchester Memorial Hospital*

*Free / See page 15 to register.*

## Options in Spine Care

Orthopedic surgeon Jesse Eisler, MD, PhD, will discuss the complex anatomy of the back as well as proper exercises and habits to maintain a healthy spine. Operative and non-operative treatment options will also be discussed.

*Date: Thursday, August 3*
*Time: 6-7:30 p.m.*
*Site: ECHN Community Education Room, 2600 Tamarack Avenue, South Windsor*

*Free / See page 15 to register.*

## Acupuncture 101

Have you ever wondered if acupuncture could help you with conditions such as arthritis, pain, side effects of cancer or anxiety? Want to learn how it's administered? Join licensed acupuncturist Heather Finn, LAc to get your questions answered. Interested participants will have the opportunity to experience an acupuncture needle insertion.

*Date: Thursday, August 17*
*Time: 6-7:30 p.m.*
*Site: ECHN Community Education Room, 2600 Tamarack Avenue, South Windsor*

*Free / See page 15 to register.*

## Pre-Diabetes: Let's Take Action!

Learn how to incorporate healthy lifestyle changes to help prevent or delay the onset of diabetes. Diabetes educator Nina Milone, RD, CDE, CDN, will explain goal setting, risk factors and diagnosis.

*Date: Wednesday, Aug. 30*
*Time: 11 a.m.-noon*
*Site: Manchester Memorial Hospital*

*Free / See page 15 to register.*

## ECHN's Joint Effort Program

For individuals scheduled to have total or partial hip or knee replacement surgery and for those thinking about having this type of surgery. ECHN staff will explain, step by step, the surgery day procedures, recovery care options, pain management and the rehabilitation process. Individuals who will be assisting a loved one's recovery after surgery are encouraged to attend.

*Dates: Tuesdays, June 13, July 11 or August 8*
*Time: 1-3 p.m.*
*Site: Manchester Memorial Hospital*

*Dates: Wednesdays, June 28, July 26 or August 23*
*Time: 1-3 p.m.*
*Site: Manchester Memorial Hospital*

***Free / See page 15 to register.***

## ECHN Center for Weight Loss Information Sessions

These free group sessions, which are offered twice a month, are the best way to learn more about surgical weight loss at ECHN. You'll meet bariatric surgeon Mark Tousignant, MD, get answers to your questions and find out if it's right for you.

***For more information and to register, call 860.533.4692 or visit echn.org/weightloss.***

## Heart Talk

Education for people living with heart failure. Learn how to proactively manage heart disease and improve quality of life. Caregivers and family members are encouraged to attend as well.

*Date: Third Thursday of each month*
*Time: 2-4 p.m.*
*Site: ASM Conference Room, 275 New State Road, Manchester*

# cancer education & support

## Look Good...Feel Better

For women coping with appearance related effects of cancer treatment. Free cosmetic kits provided. Offered in partnership with the American Cancer Society.

*Dates: Second Tuesday of each month*
*Time: 10:30 a.m.-12:30 p.m.*
*Site: John A. DeQuattro Cancer Center*

***Free / Call 1.800.227.2345 to register.***

## Fit for the Journey

For people living with a current or past cancer diagnosis who would like to improve their fitness. Individually designed exercise program, which may include strength/weight training, cardiovascular, balance or flexibility exercises which are held in a small group setting.

*Dates: Assessments by appointment only; classes held Tuesday and Thursday afternoons*
*Site: Manchester Memorial Hospital*

***Call Mary Pesce at 860.647.6485 for more information regarding fee schedule and to register.***

# a new look at colonoscopy

East of Ordinary

If you're age 50 or older your doctor has likely talked to you about getting a colonoscopy, the procedure often used to screen for cancer or precancerous growths in the colon or rectum, known as polyps.

It's an important discussion since, according to the American Cancer Society, colorectal cancer is the third most common cancer diagnosed in men and women in the U.S. It is the third leading cause of cancer-related deaths in women and second leading cause in men. But, with regular colon screening, cancers are being found earlier when the disease is easier to treat.[1]

With a standard colonoscopy, a mild sedative is often administered to the patient before the procedure to help promote relaxation and comfort. For patients who do not want or cannot tolerate sedation, there is virtual colonoscopy.

"Virtual colonoscopy is a safe, effective and minimally invasive imaging scan, rather than an endoscopic procedure," explains colon and rectal surgeon Amanda Ayers, MD. A computed tomography (CT) scan produces three-dimensional images of the colon that a radiologist examines for signs of cancer and precancerous polyps. The procedure generally takes about 10 minutes and does not require sedation. If nothing abnormal is found, the screening should be repeated every five years.

"Virtual colonoscopy is ideal for people who have average risk factors for colorectal cancer and are afraid of sedation or who are shying away from the standard colonoscopy procedure altogether," says Dr. Ayers. "It's important to be screened. Virtual colonoscopy makes it easy."

Virtual Colonoscopy is now performed at Manchester Memorial Hospital.

Accredited by the American College of Radiology. Learn more at acr.org/VirtualCT. Talk to your doctor about scheduling your virtual colonoscopy today.

***Fridays, 11:00 a.m.-noon June 2-June 23; July 7-July 28; August 11-September 8 (no class September 1)***

***$28 per 4-week session.***

*The following programs are offered through ECHN's Family Development Center. Trained staff will assist with placement in the appropriate program that best meets your needs.*

*"Parent as Teachers (PAT)" The PAT curriculum used in programs is a nationally recognized parent education and family support program serving families throughout pregnancy until their child enters kindergarten. The PAT program includes monthly one-on-one personal visits in your home with a certified PAT Parent Educator. Also included are regular screenings for your child to assess their overall development, information on parent workshops and information on resources in your community.*

## Early Head Start

Home visiting and play group opportunities. Offers child development, developmental screening, parent education, health, dental, disabilities and behavioral health services for prenatal women and children ages newborn to three.

## Family Resource Centers *(Vernon & Manchester)*

Home visiting, parent-child playgroups, positive youth development, parenting education, developmental screening, support for family child care providers, resource and referral, links to adult education, preschool and after-school care.

## Nurturing Connections

Supportive telephone calls by trained volunteers for first-time parents.

## Nurturing Families Network

Free, federally funded program provides home visiting, parenting education, parent-child group experiences, and special services for dads/male partners. It is available to pregnant moms and their partners.

## Parenting Support Services

Free, funded through the Department of Children and Families to provide focused, home visiting services to families around quality relationship building and/or parenting support for challenging behaviors.

*The Positive Parenting Program curriculum and the internationally recognized Circle of Security program are used for support.*

*For more information on Family Development Center programs, call 860.432.5278 ext. 125.*

*The following playgroup programs are offered by ECHN's Vernon Family Resource Center. Included in your registration for these programs is a personal visit with a certified Parent Educator and a free developmental screening for your child.*

## Storybooks and Creations

Join us for a special story hour for your two- to four-year-old. "Mrs. Z," the children's librarian, will read stories that both children and adults love, followed by activities that make the stories come alive!

*Date:* *The first 3 Wednesdays of each month*
*Time:* *10:30-11:30 a.m.*
*Site:* *Rockville Public Library, 52 Union Street, Vernon*

***Free / Call 860.335.6954 to register.***

***The following programs are offered at ECHN's Manchester Family Resource Center.***

## Play and Learn Together

This educational playgroup is for children birth through five years old. Learning activities are provided for parents and children to do together. They include art projects, story time, singing and educational toys. Snack is included.

## ECHN Community Health Education
## Programming Guidelines

### OVERVIEW
ECHN has a commitment to improving community health and wellness beyond the patient care that is provided within its facilities' walls.

Community health education programming is an important part of ECHN's community benefit efforts. Free or reduced-cost health screenings to underserved populations (i.e. those who are uninsured/underinsured, medically disabled, chronically ill, indigent, elderly, etc.) and free educational presentations and workshops that promote awareness and prevention of health concerns are examples of qualified community education programs.

To help ensure programming meets the requirements of community benefit standards, an ECHN Community Program Advisory Committee has been established. The following guidelines have been developed in consultation with the Committee and its members are involved with the selection of the education programs to be presented.

### SOLICITATION & SUBMISSION PROCEDURE
All ECHN employees and members of the medical staff are welcome to submit a request to present a community education program or screening.

By submitting a Request to Present form, a presenter understands that he/she is acting as an educational representative of the ECHN organization.

Three times per year, the ECHN Community Education department places a call for submissions to all members of the ECHN Active Medical Staff and ECHN Groups 1-5 via email, fax or mail.

Submissions are requested in February for programs that will take place May - August, in June for programs that will take place September - December, and in October for programs that will take place January - April.

The Request to Present form must be completed in its entirety and submitted to the Community Education department. Incomplete submissions will be returned.

For planning purposes, submissions will not be accepted if received past the deadline stated on the Request to Present form.

### SELECTION OF PROGRAMS
All completed Requests to Present will be brought before the ECHN Community Program Advisory Committee. The Committee will select the programs to be presented based on the following conditions:

- Top consideration is given to submissions that address an identified community health need(s).
- A maximum of twelve (12) unique programs will be scheduled per four-month session.

### SCHEDULING
Once a program is selected for presentation, staff from the ECHN Community Education department will contact the presenter to coordinate scheduling and other logistics including presentation date, time, location, and equipment needs. Presenters of programs not selected for presentation will also be notified.

# Exhibit B

## PROMOTION

All scheduled programs will receive the following promotional support:

- Listing in ECHN's community magazine, *Better Being*, which is distributed to over 150,000 households in the ECHN service area
- Posting on the ECHN website (echn.org)
- Listing in ECHN's monthly community calendar print ad in local newspapers (programs that are nearing maximum enrollment may not be advertised)

## REGISTRATION

The community must register for all programs via the ECHN website, mail or ECHN's community program registration line (860.533.6550).

The Community Education department reserves the right to cancel a program if fewer than ten people have registered for a program the day before the program is scheduled to be presented. If ten or more people are registered the day before a program, the presenter is expected to move forward with the presentation.

## PRESENTATION REQUIREMENTS

Presenters must have a professional headshot photograph to be used in promotional efforts. If one is not on file with ECHN, the presenter must make arrangements to have his/her photograph taken with ECHN's photographer. All costs will be covered by ECHN.

If presenting a PowerPoint presentation, it must be e-mailed to the Community Benefit department the day before the scheduled presentation.

A presenter is expected to begin and end his/her presentation as scheduled. Presenters who, on more than one occasion, do not present their program as scheduled (for reasons other than weather-related) will not be selected as a presenter for a period of one year.

Presenters who need to cancel a presentation, due to unforeseen circumstances, may resubmit their program to the Community Program Advisory Committee to be considered for presentation during a future session. Rescheduling, for reasons other than weather-related, during the same session is not permitted.

Failure to comply with the above requirements may jeopardize eligibility to present future presentations.

Attendees will be asked to complete a short evaluation of the presenter and program content. All feedback received will be shared with the presenter as well as the ECHN Community Program Advisory Committee.

## QUESTIONS

Questions regarding these guidelines should be directed to Community Education Program Coordinator, Karen Charry, who can be reached via phone at 860.646.1222, extension 2292, or via email at kcharry@echn.org. All questions will be brought before the ECHN Community Program Advisory Committee.

## Prospect MMH Family Development Center

Early Head Start Program

The Early Head Start (EHS) program serves low-income children (birth to age three), pregnant women and their families residing in Manchester and/or Vernon. A Family Development Educator (FDE) provides parent education, child development information and learning activities.

EHS provides families with opportunities to get involved in their child's education.

Positive Parenting Program

Positive Parenting Program (Triple P) is a Connecticut State Department of Children and Families funded grant program. Triple P is suitable for parents with concerns about a child's behavior or who wish to learn a variety of parenting skills that will promote the development and potential of their child or teenager.

Nurturing Families Network Programs

The Nurturing Families Network (NFN) is designed to help new parents and consists of: (i) home visitation which helps first-time parents get off to a great start with a new baby and provides infant development and care information; (ii) Nurturing Connections provides phone support to help first-time parents adjust to their first few weeks home with a new baby; and (iii) Nurturing Group Classes for parents including information on prenatal wellness, nutrition, infant and child development, and parenting skills.

Maternal, Infant and Early Childhood Home Visiting Program (MIECHV)

The purpose of this program is to implement, expand and/or enhance high quality evidenced-based home visiting programs for children and families who reside in high-risk communities. The program provides home visiting, parent-child social activities, parent education groups, and a fatherhood initiative to prevent child abuse, promote healthy and safe children and strengthen families.

School-based Family Resource Center Services

The ECHN Family Resource Centers (FRC), located at Washington Media Arts Magnet School in Manchester and Maple Street School in Vernon, offer education and support services for the entire family Services included child care, school-age care, parent-child playgroups, parent education, home visits, support for child care providers, positive youth development, adult education, resources and referrals to community services.

ECHN
Eastern Connecticut Health Network, Inc.

**CORPORATE ADMINISTRATIVE POLICY MANUAL**

| **Title**: Nondiscrimination: Auxiliary Aids and Services | **Section:** | 200 |
|---|---|---|
| | **Policy Number:** | 205 |
| | **Effective Date:** | 11/01/16 |
| | **Page:** | **1** of **11** |

## I. SCOPE:

The policies and procedures contained in this manual apply to Eastern Connecticut Health Network (ECHN) and its wholly-owned subsidiaries and affiliates.

## II. PURPOSE:

The purpose of this policy is to develop a plan that accommodates individuals with special needs, as defined in Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990 and Section 1557 of the Affordable Care Act of 2010, which prohibit discrimination on the basis of disability in the delivery of healthcare services. Individuals in need must be provided with auxiliary aids and services, at no cost, to allow them an equal opportunity to participate in and benefit from healthcare services. The appropriate communication method will be determined by considering the individual's demonstrated need in conjunction with the individual's preference.

ECHN Facilities are committed to full compliance with federal and state laws barring discrimination on the basis of disability. ECHN recognizes its legal obligations to ensure effective communication with persons who are deaf, hard of hearing or visually impaired. Furthermore, ECHN is committed to proactively assessing communication needs as well as providing the highest quality of services to all who use them. Qualified interpreters and/or other auxiliary aids and services are necessary to provide equal access to health services for deaf and hard of hearing individuals as well as those individuals that are visually impaired.

## III. DEFINITIONS:

A. **Auxiliary Aids and Services** – services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by ECHN. For example, auxiliary aids useful for persons with impaired vision include readers, audio recordings, and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, text telecommunication devices (TTYs), sign language interpreters, note takers, written materials, and other similar services and devices.

B. **Companion** – includes a person who is one of the following:
   1. A person whom the patient designates to communicate with ECHN Workforce Members on his or her behalf regarding the patient's condition or care or to help the patient act on the information, advice or instructions provided by ECHN;
   2. A person legally authorized to make healthcare decisions on behalf of the patient; or

3. Such other family member, friend or associate of the patient who, along with the patient, is an appropriate person with whom ECHN should communicate.

C. **Disability** – with respect to an individual, a physical or mental impairment that substantially limits one or more major life activities of such individual.

D. **Deaf** – a condition in which the person does not receive audible sounds, including speech, and must perform major life activities without audible cues.

E. **ECHN Workforce Member** – includes, but is not limited to all employees of Eastern Connecticut Health Network, Inc. and its subsidiaries; active, consulting, and courtesy medical staff, including those with temporary and permanent medical staff privileges, and members of their office staff who handle ECHN generated patient information; the Board of Trustees; Corporators; volunteers; contractors, subcontractors or those who bid for contracts or subcontracts; Auxilians; students; clergy and lay ministry, and designated members of their office staff; and transport personnel.

F. **Effective Communication** – any form of communication (for example, writing or speech) that leads to demonstrated understanding and is appropriate given the circumstances of the situation.

G. **Hard-of-Hearing** – a condition where the sense of hearing is defective, but functional to some degree, usually with the use of hearing aids, for purposes of most major life activities.

H. **Hearing Impaired** – a general term used to describe all types of hearing losses, ranging from a very minute loss to profound deafness.

I. **Interpretation** – the oral or physical transmittal of a message from one language into another.

J. **Non-scheduled Request** – a situation in which there are less than two (2) hours between the time when a patient or companion makes a request for an interpreter and when the services of an interpreter are necessary (*e.g.*, walk-ins, emergency situations, etc.).

K. **Protected Characteristic** – a characteristic of a person which cannot be targeted for discrimination in accordance with federal and/or state law. For the purposes of this policy protected characteristics include, but are not limited to: race, color, national or ethnic origin, age, religion, mental or physical disability, sex, sexual orientation, gender identity and expression, socio-economic status, marital status, medical condition, veteran status or any other characteristic protected under applicable federal or state law.

L. **Qualified Interpreter** – an interpreter who, via Video Remote Interpreting (VRI) service, telephonic interpreting or an on-site appearance, is able to interpret effectively, accurately and impartially both receptively and expressively, using any necessary specialized vocabulary. Not all interpreters are qualified for all situations. For example, an interpreter who is qualified to interpret using American Sign Language may not be qualified to interpret non-English languages.

M. **Scheduled Requests** – situations in which a patient or the patient's representative has made ECHN aware of a communication need when scheduling the appointment and there are two (2) or more hours between the time when an appointment is scheduled and when the services of the qualified interpreter are required.

N. **Telephonic Interpreting** – a service that connects qualified interpreters via telephone to individuals who wish to speak to each other, but do not share a common language.

O. **Text Telephone (TTY)** – a device that allows people with hearing or speech impairments to communicate over the telephone using some form of keyboard input and visual display output.

P. **Translation** – the process of translating words or text from one language into another.

Q. **Video Remote Interpreting (VRI)** – an interpreting service that uses video conference technology over dedicated lines or wireless technology offering high-speed, wide-bandwidth video connection that delivers high-quality video images. Whenever VRI is provided or used, ECHN shall ask the patient or companion whether the VRI is meeting his or her communication needs.

## IV. POLICY:

It is the policy of ECHN not to exclude, deny services to, or otherwise discriminate against any person on the basis of protected characteristic(s) under applicable federal or state law. Reasonable accommodations will be made to ensure everyone, regardless of any characteristic, has an equal opportunity to participate in their own healthcare, or that of a companion's.

ECHN Workforce Members will provide qualified sign-language interpreters and/or other appropriate auxiliary aids and services where necessary to ensure effective communication with individuals with disabilities. This includes an obligation to provide effective communication to the companions of patients who are persons with disabilities. To achieve that goal, ECHN Workforce Members will inform patients and companions with disabilities of the availability, **at no cost to them**, of qualified interpreters and/or other auxiliary aids, and will provide each service promptly upon request.

ECHN has adopted an internal grievance procedure requiring prompt and equitable resolution of all complaints and grievances. Any person who believes he or she has been subjected to discrimination on the basis of a protected characteristic may file a grievance under this procedure. It is against the law and ECHN's policies and procedures for any member of ECHN to retaliate against anyone who files a grievance or cooperates in the investigation of a grievance (see Corporate Administrative Policy #202: Rights and Responsibilities of Clients, Patients and Residents and Corporate Administrative Policy #203: Patient Complaints and Grievances).

## V. PROCEDURE:

A. Patient Nondiscrimination Coordinator

1. The Patient Experience Coordinator, or respective affiliate designee(s), will serve as the Patient Nondiscrimination Coordinator to ensure compliance with any state or federal regulation related to the provisioning of auxiliary aids and services to patients or companions.
2. The Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will know where the appropriate auxiliary aids are stored and how to operate them, and will be responsible for ensuring their maintenance, repair, replacement and distribution.

3. The Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will distribute this policy as well as Attachment A: Communication and Language Services Quick Reference Guide for information on ECHN's language interpreting agency (see Corporate Administrative Policy #206: Nondiscrimination: Language Assistance to Persons with Limited English Proficiency (LEP)).
4. In addition, the Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will ensure that all ECHN Workforce Members are trained on the auxiliary aids and services described in this policy.
5. The Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will be responsible for the implementation of the Grievance Procedure outlined in Corporate Administrative Policy #203: Patient Complaints and Grievances.

B. Procedure for Patients or Companions with Auxiliary Aids and Services Needs

*1. Initial Intake and Assessment of Patients*

a. All ECHN Facilities shall ask every patient, as soon as practicable, upon scheduling or registration, whether the patient or any companion will be in need of communication services.

b. A proactive Communication Assessment Form (Attachment B) will be performed, as soon as the patient's condition reasonably allows, to assess the patient's or companion's needs in order to ensure effective communication:

   i. At the time an appointment is scheduled;
   ii. At the time ECHN becomes aware that a patient or companion may require auxiliary aids or services is being transferred or transported to an ECHN Facility; or
   iii. At the time the patient or companion initially arrives at ECHN or encounters an ECHN Workforce Member.

c. The assessment shall consider and take into account all relevant facts and circumstances, including without limitation the following:

   i. The patient's or companion's request for, stated need, or preference for, a qualified interpreter or other specific auxiliary aid(s) or service(s);
   ii. The nature, length, complexity and importance of the communication at issue;
   iii. The individual's disability, communication skills and knowledge;
   iv. The patient's health status or changes thereto;

v. The reasonably foreseeable healthcare activities of the patient (*e.g.*, medical tests or procedures, rehabilitation services, meetings with healthcare professionals or social workers, discussions regarding billing, insurance, self-care, prognoses, history and discharge); and

vi. Any factors relevant to determine whether the specific type of auxiliary aid or service will be effective.

d. If a patient or companion with communication needs has an ongoing relationship with ECHN, with respect to each of the subsequent visits, ECHN shall continue to provide appropriate auxiliary aids and services to the patient or companion during the entire period of the patient's hospitalization and/or outpatient visits, without requiring subsequent Communication Assessments or requests for the appropriate auxiliary aids and services by the patient or companion unless the patient or companion indicates otherwise.

e. The Communication Assessment Form shall be completed as soon as practicable as indicated in section (V)(B)(1)(b) for every patient or companion with indication of a communication services need unless there is indication or documentation of the following:

   i. The patient or companion has had a Communication Assessment completed within a month prior to the current visit, in which case ECHN Workforce Members shall rely on the previously documented Communication Assessment; or

   ii. The patient is arriving due to an emergency situation, in which case, a Communication Assessment of either the patient or companion shall be completed as soon as the patient's condition reasonably allows.

f. If a Communication Assessment was completed on a patient or companion a month prior to the current visit and the patient or companion subsequently waived communication services, another Communication Assessment will be completed for the patient or companion.

g. If ECHN determines that it cannot provide a particular auxiliary aid or service requested by a patient or companion with communication needs, ECHN Workforce Members shall advise the individual requesting the auxiliary aid or service of the determination.

h. ECHN Workforce Members shall document the basis for the determination if requested services cannot be provided, including the date of the determination, the name and title of the ECHN Workforce Member who made the determination and the alternative auxiliary aid or service, if any, that ECHN decided to provide, in the patient's medical record.

i. The ECHN Facility will retain the Communication Assessment and/or Waiver Form in the patient's medical record.

2. *Interpreting Services for Persons Who are Hearing-Impaired*
   a. ECHN shall provide, in a timely manner, a qualified interpreter and/or other appropriate auxiliary aids and services in all circumstances where necessary for effective communication with a patient or companion.
   b. For scheduled requests, when an interpreter is necessary to ensure effective communication, the servicing department shall make a qualified interpreter available at the time of the appointment.
   c. If an interpreter fails to arrive, the supervisor for the department/area shall be contacted immediately.
   d. The supervisor shall assist staff in contacting interpreter service or another resource to arrange for another qualified interpreter.
   e. The delay or non-arrival of the interpreter shall be documented in the patient's medical record and the Patient Nondiscrimination Coordinator, or respective affiliate designee(s), shall be notified.
   f. For non-scheduled requests, ECHN shall make a qualified interpreter available as soon as practicable, but no later than:
      i. Two (2) hours from the time the request for an on-site interpreter is made by the patient, the patient's representative or the patient's companion; or
      ii. Within fifteen (15) minutes of the request for an interpreter when providing an interpreter through VRI.
   g. If ECHN chooses to provide qualified interpreters via the VRI service, the ECHN Facility will ensure that it provides:
      i. Real-time, full motion video and audio over a dedicated, high-speed, wide-bandwidth video connection or wireless connection that delivers high-quality video images that do not produce lags, choppy, blurry, or grainy images or irregular pauses in communication;
      ii. A sharply delineated image that is large enough to display the interpreter's face, arms, hands and fingers and the participating individual's face, arms, hands and fingers regardless of his or her body position;
      iii. A clear, audible transmission of voices;
      iv. A qualified interpreter who is capable of communicating effectively with the patient or companion; and

v. Adequate training to users of the technology and other individuals involved, so that they may quickly and efficiently set up and operate the VRI.

3. *Services for Persons Who Are Blind or Visually Impaired*
   a. ECHN Workforce Members will provide appropriate auxiliary aids and services for blind or visually impaired patients or companions including qualified readers, large print materials, audio tape recordings of policies and procedures, as well as reading to the patient or companion.
   b. For any specific requests, ECHN Workforce Members shall contact the Patient Nondiscrimination Coordinator.
   c. Service Animals ***will*** be allowed in ECHN Facilities in accordance with Corporate Administrative Policy #213: Service Animals and Miniature Horses.
4. *Ongoing Assessment and Redetermination*
   a. ECHN shall reassess its determination of which auxiliary aids and services are necessary, in consultation with the patient or companion, when the patient or companion indicates that communication has not been effective.

C. Prohibition of Surcharges and Restricted Use of Minors or Adult Companions
   1. All appropriate auxiliary aids or services shall be provided ***free of charge*** to the patient or companion when such aids or services are necessary to ensure effective communication.
   2. ECHN shall not require a patient or companion to bring another individual to interpret or provide other communication services for him or her.
   3. ECHN shall not rely on a minor accompanying a patient or companion to interpret or facilitate communications between ECHN Workforce Members and a patient or companion except in an emergency involving an imminent threat to the safety or welfare of an individual or the public where there is no interpreter available.
   4. ECHN may not rely on an adult accompanying a patient or companion to interpret or facilitate communications between ECHN Workforce Members and a patient or companion except in an emergency involving an imminent threat to the safety or welfare of an individual or the public where there is no interpreter available or unless the following four factors are present:
      a. Where the individual with a disability specifically requests that the accompanying adult interpret or facilitate communication and such person agrees to provide such assistance;
      b. Such use is necessary or appropriate under circumstances, giving appropriate consideration to any privacy and confidentiality issues that may arise;

c. The patient or companion has been made aware of ECHN's full range of auxiliary aids and services available free of charge; and
d. The patient or companion provides written confirmation that he or she was made aware of relevant auxiliary aids and services available free of charge and agrees to the use of such person to interpret or facilitate communication (see Attachment C: Waiver of Interpreter Services Provided by ECHN).

5. ECHN may not rely on staff if they are not ***qualified*** interpreters, in order to communicate directly with individuals.

D. Waiver of Interpreter Services Provided by ECHN
1. If a person in need of communication services rejects a qualified interpreter, the ECHN Facility must secure a signed Waiver Form (Attachment C) from the individual (or note in the patient's chart that the patient or companion has refused an ECHN supplied interpreter and refused to sign the Waiver Form); such forms should be maintained in the patient's medical record.
2. Any patient or companion who initially executes the waiver can change his or her mind at any time simply by telling an ECHN Workforce Member that they want an interpreter to be provided.

E. Emergencies
1. The staff member should not compromise the patient's care by delaying the medical assessment and treatment when interpreter services are inappropriate or unavailable.
2. During an emergency, all available methods of communication will be utilized.

F. Complaints and Grievances
1. Any patient or companion dissatisfied with a decision made concerning auxiliary aids and services will have the ability to file a complaint or grievance as part of the Patient's Rights process, according to Corporate Administrative Policy #203: Patient Complaints and Grievances.
2. It is the policy of ECHN that any complaint or grievance received from a patient or their representative/companion will be investigated and an appropriate resolution will be communicated to the patient or representative/companion.
3. ECHN will not retaliate against or coerce in any way any person who made, or is making, a complaint or grievance, or who has assisted or participated in the investigation of any such matter.

G. Posting of Signage
1. ECHN Facilities will post a General Notice of Non-Discrimination, information on how to file a grievance and a Notice of Available Auxiliary Aids and Services in a conspicuous size and print in visible locations throughout the organization.
2. These notices will also be displayed on ECHN's website and published in ECHN's Patient Handbooks.

H. Training
1. ECHN shall provide training on auxiliary aids and services as well as nondiscrimination for all ECHN personnel.
2. ECHN shall provide training to new employees as part of their initial orientation and annually for all other ECHN employees.
3. ECHN shall maintain copies of the training material and attendance records.

# COMMUNICATION & LANGUAGE SERVICES QUICK REFERENCE GUIDE

Interpreters and Translators, Inc. (iTi) provides language services for ECHN.

## REQUESTING IN-PERSON INTERPRETER/TRANSLATOR

1. Information needed: Your Name, Phone Number, Language needed, Facility Location, Department Name, Patient's Name, Medical Record Number, Date and Time needed, Duration of appointment, Subject (ex. Informed consent, Medical procedure), Name of the staff the interpreter is meeting
2. Dial: 860-647-0686
3. An interpreter coordinator will answer and assist with scheduling

*Note: Because interpreters are in high demand, scheduled in-person visits are recommended but not required.

## TELEPHONIC INTERPRETING (FOR LIMITED ENGLISH-PROFICIENT INDIVIDUALS ONLY)

1. Information needed: Your Name, Phone Number, Language needed, Facility Location, Department Name, Patient's Name, and Medical Record Number
2. Use Conference Hold to place the limited English speaker on hold.
3. DIAL: 1-800-245-9647 (this number is assigned to ECHN)
4. An operator will pick up and ask for your customer code.
5. ECHN Customer Code is: 182061

## CALLING AN INDIVIDUAL WHO IS DEAF, HARD OF HEARING, DEAF-BLIND, SPEECH-DISABLED

1. From a regular phone, dial: 7-1-1 Relay CT
2. TTY phones may be used to contact individuals who are deaf, hard of hearing or speech impaired only if the person is known to have a TTY machine. They are located:
    a. MMH: Nursing Supervisor's office and Emergency Department
    b. RGH: Nursing Education office and Emergency Department

## VIDEO REMOTE INTERPRETING (VRI)

1. Information needed: Your Name, Facility Name, Department Name, Patient Name and MRN
2. Log into the VRI iPad
3. Select the VRI application
4. Tap the language needed
5. Greet your interpreter, provide the information needed and proceed with communication

Eastern Connecticut Health Network, Inc.

**Attachment A**

## REQUESTING WRITTEN DOCUMENT TRANSLATION

1. Complete the Translation Request Form located in Access E-Forms and on ECHN Portal/Quality Department/Patient Experience Section
2. Manager approval signature is required.
3. Email document along with the request form to: Translations@iTitranslates.com
4. An iTi Project Manager will confirm receipt of your request and provide you with a quote. This quote must be approved by you before they will proceed.
5. Forward the quote to the approving manager for record retention.
6. Final translated document will be emailed securely back to requestor.
7. Certificates of Accuracy are available at no additional cost

## IMPORTANT TIPS:

DIALECTS: Because languages encompass various dialects, check periodically with the individual to ensure the language/dialect spoken is one they understand. If another dialect is needed, inform the interpreter, and try to obtain another. The telephonic language service covers a larger amount of languages/dialects.

UNKNOWN LANGUAGE: If you do not know what language to request, an iTi representative will help you.

WORKING WITH AN INTERPRETER: Give the Interpreter specific questions to relay. Group your thoughts or questions to help the conversation flow quickly. Speak directly to the individual and not to the interpreter. Use statements like “how are you today?” not “ask him how he is doing today?”

LENGTH OF CALL: Expect interpreted comments to run a bit longer than English phrases. Interpreters convey meaning-for-meaning, not word-for-word. Concepts familiar to English speakers often require explanation or elaboration in other languages and cultures.

INTERPRETER IDENTIFICATION: Interpreters identify themselves by their first name and number only. For reasons of confidentiality, they do not divulge either their full names or phone number.

DEMONSTRATION LINE: To hear a recorded demonstration of over-the-phone interpretation call iTi’s demonstration line at 1-800-996-8808

CONCERNS: should be reported to the manager as soon as possible.

# WAIVER OF INTERPRETER SERVICES PROVIDED BY ECHN

*To be completed by the patient/companion ONLY if patient/companion would like to decline right to services for this visit.*

It is your choice whether you use an interpreter provided by ECHN. ECHN has informed you that it does not require a patient or companion to bring someone to interpret for him or her. Additionally, ECHN has informed you of the range of auxiliary aids and services that are available to you ***free of charge***. By signing below, you are acknowledging that ECHN has offered to provide you with an interpreter free of charge, and that you have declined ECHN's offer. **If at any point in time during your course of treatment with ECHN, you wish to change any of your prior answers to the questions on this form or revoke your waiver, please notify your provider.**

Check all that apply:

☐ I prefer that _____ (name of individual to interpret) interpret or facilitate communications between ECHN personnel and myself.

☐ I do not use sign language or do not use an interpreter.

☐ I do not feel an interpreter is necessary or do not want one for this visit.

☐ Other (explain): _____

ECHN
Eastern Connecticut Health Network, Inc.

**CORPORATE ADMINISTRATIVE POLICY MANUAL**

| **Title**: Nondiscrimination: Language Assistance to Persons with Limited English Proficiency (LEP) | **Section:** | 200 |
|---|---|---|
| | **Policy Number:** | 206 |
| | **Effective Date:** | 11/01/16 |
| | **Page:** | **1** of **9** |

## I. SCOPE:

The policies and procedures contained in this manual apply to Eastern Connecticut Health Network (ECHN) and its wholly-owned subsidiaries and affiliates.

## II. PURPOSE:

The purpose of this policy is to develop effective means, consistent with all federal and state laws requiring that persons with Limited English Proficiency (LEP) have equal and meaningful access to healthcare services.

## III. DEFINITIONS:

A. **Companion** – includes a person who is one of the following:
   1. A person whom the patient designates to communicate with ECHN personnel on his or her behalf regarding the Patient's condition or care or to help the Patient act on the information, advice or instructions provided by ECHN;
   2. A person legally authorized to make healthcare decisions on behalf of the Patient; or
   3. Such other family member, friend or associate of the Patient who, along with the Patient, is an appropriate person with whom ECHN should communicate.

B. **ECHN Workforce Member** – includes, but is not limited to all employees of Eastern Connecticut Health Network, Inc. and its subsidiaries; active, consulting, and courtesy medical staff, including those with temporary and permanent medical staff privileges, and members of their office staff who handle ECHN generated patient information; the Board of Trustees; Corporators; volunteers; contractors, subcontractors or those who bid for contracts or subcontracts; Auxilians; students; clergy and lay ministry, and designated members of their office staff; and transport personnel.

C. **Effective Communication** – any form of communication (for example, writing or speech) that leads to demonstrated understanding and is appropriate given the circumstances of the situation.

D. **Interpretation** – the oral or physical transmittal of a message from one language into another.

E. **Language Assistance** – all oral and written language services needed to assist LEP individuals to communicate effectively with ECHN Workforce Members and to provide LEP individuals with meaningful access to, and an equal opportunity to participate fully in, the services, activities, programs, or other benefits provided by ECHN.

F. **Limited-English Proficient (LEP) Individual** – an individual who does not speak English as his or her primary language and who has a limited ability to read, write, speak, or understand English in a manner that permits him or her to communicate effectively with ECHN and have meaningful access to, and an equal opportunity to participate fully in, the services, activities, programs, or other benefits administered by ECHN.

G. **Non-scheduled Request** – a situation in which there are less than two (2) hours between the time when a patient or companion makes a request for an interpreter and when the services of an interpreter are necessary (e.g., walk-ins, emergency situations, etc.).

H. **Primary Language** – the language that an LEP individual identifies as the language that he or she uses to communicate effectively, and is the language which the individual has indicated they would prefer to use to communicate with ECHN.

I. **Protected Characteristic** – a characteristic of a person which cannot be targeted for discrimination in accordance with federal and state law. For the purposes of this policy protected characteristics include, but are not limited to: race, color, national or ethnic origin, age, religion, mental or physical disability, sex, sexual orientation, gender identity and expression, socio-economic status, marital status, medical condition, veteran status or any other characteristic protected under applicable federal or state law.

J. **Qualified Interpreter** – an interpreter who, via Video Remote Interpreting (VRI) service, telephonic interpreting or an on-site appearance, is able to interpret effectively, accurately and impartially both receptively and expressively, using any necessary specialized vocabulary. Not all interpreters are qualified for all situations. For example, an interpreter who is qualified to interpret using American Sign Language may not be qualified to interpret non-English languages.

K. **Scheduled Requests** – situations in which a patient or the patient's representative has made ECHN aware of a communication need when scheduling the appointment and there are two (2) or more hours between the time when an appointment is scheduled and when the services of the qualified interpreter are required.

L. **Telephonic Interpreting** – a service that connects qualified interpreters via telephone to individuals who wish to speak to each other, but do not share a common language.

M. **Translation** – the process of translating words or text from one language into another.

N. **Vital Documents** – include, but are not limited to: consent forms; complaint forms; letters or notices pertaining to eligibility for benefits; letters or notices pertaining to the reduction, denial or termination of services or benefits or that require a response from the LEP person; documents that must be provided by law; and notices regarding the availability of free language assistance services for LEP individuals.

O. **Video Remote Interpreting (VRI)** – an interpreting service that uses video conference technology over dedicated lines or wireless technology offering high-speed, wide-bandwidth video connection that delivers high-quality video images. Whenever VRI is provided or used, ECHN shall ask the Patient or Companion whether the VRI is meeting his or her communication needs and make a record of his or her response.

## IV. POLICY:

ECHN will take reasonable steps to ensure that persons with Limited English Proficiency (LEP) have meaningful access and an equal opportunity to participate in services, activities, programs and other benefits. It is the policy of ECHN to ensure meaningful communication with all patients including LEP patients and their authorized representatives, who may be participating in treatment discussions and decision making.

All interpreters, translators and other aids shall be provided without cost and all patients, representatives and visitors shall be informed of the availability of such assistance. Language assistance will be provided through use of qualified interpreters and all staff shall be trained in effective communication techniques, including the effective use of an interpreter.

ECHN prohibits discrimination or harassment against any person because of any protected characteristic(s) under applicable federal or state law.

## V. PROCEDURE:

A. Patient Nondiscrimination Coordinator

1. The Patient Experience Coordinator, or respective affiliate designee(s), will serve as the Patient Nondiscrimination Coordinator to ensure compliance with any state or federal regulation related to the provisioning of auxiliary aids and services to patients or companions.
2. The Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will distribute this policy as well as Attachment A: Communication & Language Services Quick Reference Guide for information on ECHN's language interpreting agency.

3. In addition, the Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will ensure that all ECHN Workforce Members are trained on obtaining language services through the contracted vendor.
4. The Patient Nondiscrimination Coordinator, or respective affiliate designee(s), will be responsible for the implementation of the Grievance Procedure outlined in Corporate Administrative Policy #203: Patient Complaints and Grievances.

B. Communication Assessment and Primary Language Identification

1. All ECHN Facilities shall ask every patient, as soon as practicable, upon scheduling or registration whether the patient or any companion will be in need of communication services.
2. A proactive Communication Assessment Form (Attachment B) will be performed, as soon as the patient's condition reasonably allows, to assess the patient's or companion's needs in order to ensure effective communication:
   a. At the time an appointment is scheduled;
   b. At the time ECHN becomes aware that a patient or companion may require language services is being transferred or transported to an ECHN Facility; or
   c. At the time the patient or companion initially arrives at ECHN or encounters ECHN Workforce Members.
3. The assessment shall consider and take into account all relevant facts and circumstances, including without limitation the following:
   a. The patient's or companion's request for, stated need, or preference for, a qualified interpreter;
   b. The nature, length, complexity and importance of the communication at issue;
   c. The individual's communication skills and knowledge;
   d. The patient's health status or changes thereto; and
   e. The reasonably foreseeable healthcare activities of the patient (*e.g.*, medical tests or procedures, rehabilitation services, meetings with healthcare professionals or social workers, discussions regarding billing, insurance, self-care, prognoses, history and discharge).
4. If a patient or companion with language needs has an ongoing relationship with ECHN, with respect to each of the subsequent visits, ECHN shall continue to provide appropriate language services to the patient or companion during the entire period of the patient's hospitalization and/or outpatient visits, without requiring subsequent Communication Assessments or requests for language services by the patient or companion unless the patient or companion indicates otherwise.
5. The Communication Assessment Form shall be completed as soon as practicable as indicated in section (V)(B)(2) for every patient or companion with indication of a

communication services need unless there is indication or documentation of the following:

a. The patient or companion has had a Communication Assessment completed within a month prior to the current visit, in which case the ECHN Facility shall rely on the previously documented Communication Assessment; or
b. The patient is arriving due to an emergency situation, in which case, a Communication Assessment of either the patient or companion shall be completed as soon as the patient's condition reasonably allows.

6. If a Communication Assessment was completed on a patient or companion a month prior to the current visit and the patient or companion subsequently waived communication services, another Communication Assessment will be completed for the patient or companion.
7. If ECHN determines that it cannot provide a particular language service requested by a patient or companion with LEP needs, ECHN Workforce Members shall advise the individual requesting the language service of the determination.
8. ECHN shall document the basis for the determination if requested services cannot be provided, including the date of the determination, the name and title of the ECHN Workforce Member who made the determination and the alternative auxiliary aid or service, if any, that ECHN decided to provide, in the patient's medical record.
9. The ECHN Facility will retain the Communication Assessment and/or Waiver Form in the patient's medical record.

C. Requests for Language Services

1. *In Person Interpreter*
   a. ECHN shall provide, in a timely manner, a qualified interpreter in all circumstances where necessary for effective communication with a patient or companion (see Attachment A: Communication & Language Services Quick Reference Guide).
   b. For scheduled requests, when an interpreter is necessary to ensure effective communication, the servicing department shall make a qualified interpreter available at the time of the appointment.
   c. If an interpreter fails to arrive, the supervisor for the department/area shall be contacted immediately.
   d. The supervisor shall assist staff in contacting interpreter service or another resource to arrange for another qualified interpreter.
   e. The delay or non-arrival of the interpreter shall be documented in the patient's record.
   f. For non-scheduled requests, ECHN shall make a qualified interpreter available as soon as practicable, but no later than:
      i. Two (2) hours from the time the request for an on-site interpreter is made by the patient, the patient's representative or the patient's companion; or

ii. Within fifteen (15) minutes of the request for an interpreter when providing an interpreter through VRI.

2. *Video Remote Interpreting*
   a. If ECHN chooses to provide qualified interpreters via the VRI service, the ECHN Facility will ensure that it provides:
      i. Real-time, full motion video and audio over a dedicated, high-speed, wide-bandwidth video connection or wireless connection that delivers high-quality video images that do not produce lags, choppy, blurry, or grainy images or irregular pauses in communication;
      ii. A sharply delineated image that is large enough to display the interpreter's face, arms, hands and fingers and the participating individual's face, arms, hands and fingers regardless of his or her body position;
      iii. A clear, audible transmission of voices;
      iv. A qualified interpreter who is capable of communicating effectively with the patient or companion; and
      v. Adequate training to users of the technology and other individuals involved, so that they may quickly and efficiently set up and operate the VRI.
3. *Telephonic Interpreting*
   a. For LEP individuals only, ECHN provides telephonic interpreting (see Attachment A: Communication & Language Services Quick Reference Guide).
4. *Requesting Written Document Translation*
   a. For the translation of documents, ECHN staff shall complete the iTi Document Translation Request Form (Attachment D), which is appended to this policy and can also be found in Access E-Forms and on the ECHN Portal/Quality Department/Patient Experience.
   b. Staff should follow directions provided in Attachment A: Communication & Language Services Quick Reference Guide.

D. Prohibition of Surcharges and Restricted Use of Minors or Adult Companions
   1. All appropriate language services shall be provided ***free of charge*** to the patient or companion when such aids or services are necessary to ensure effective communication.
   2. ECHN shall not require a patient or companion to bring another individual to interpret for him or her.
   3. ECHN shall not rely on a minor accompanying a patient or companion to interpret or facilitate communications between ECHN personnel and a patient or companion except in an emergency involving an imminent threat to the safety or welfare of an individual or the public where there is no interpreter available or when communication is limited to simple, straightforward matters such as scheduling appointments or confirming an

address and telephone number.

4. ECHN may not rely upon an adult accompanying a patient or companion to interpret or facilitate communications between ECHN personnel and a patient or companion except in an emergency involving an imminent threat to the safety or welfare of an individual or the public where there is no interpreter available or unless the following four factors are present:
   a. Where the individual specifically requests that the accompanying adult interpret or facilitate communication and such person agrees to provide such assistance;
   b. Such use is necessary or appropriate under the circumstances, giving appropriate consideration to any privacy and confidentiality issues that may arise;
   c. The patient or companion has been made aware of ECHN's full range of interpretation and translation services available free of charge;
   d. The patient or companion provides written confirmation that he or she was made aware of relevant interpretation and translation services available free of charge and agrees to the use of such person to interpret or facilitate communication (see Attachment C: Waiver of Interpreter Services Provided by ECHN).
5. ECHN may not rely on staff if they are not qualified interpreters, in order to communicate directly with individuals.

E. Waiver of Interpreter Services Provided by ECHN
   1. If a person in need of communication services rejects a qualified interpreter, the ECHN Facility must secure a signed Waiver Form (Attachment C) from the individual (or note in the patient's chart that the patient or companion has refused an ECHN supplied interpreter and refused to sign the Waiver Form); such forms should be maintained in the patient's medical record.
   2. ECHN will provide an interpreter if there is reason to believe that communication is being hindered by the family member or friend selected to interpret.

F. Emergencies
   1. The staff member should not compromise the patient's care by delaying the medical assessment and treatment when interpreter services are inappropriate or unavailable.
   2. During an emergency, all available methods of communication will be utilized.

G. Complaints and Grievances
   1. Any Patient or Companion dissatisfied with a decision made concerning language services will have the ability to file a complaint or grievance as part of the Patient's Rights process, according to Corporate Administrative Policy #203: Patient Complaints and Grievances.

2. It is the policy of ECHN that any complaint or grievance received from a Patient or their Representative/Companion will be investigated and an appropriate resolution will be communicated to the patient or representative/companion.
3. ECHN will not retaliate against or coerce in any way any person who made, or is making, a complaint or grievance, or who has assisted or participated in the investigation of any such matter.

H. Posting of Signage
1. ECHN Facilities will post notices of nondiscrimination and include taglines that alert individuals with LEP to the availability of language assistance services free of charge.
2. Such notices are also included on ECHN's website as well as in the Patient Guidebook.
3. Notices and signs will be posted and provided in intake areas and other points of entry, including but not limited to the Emergency Room, outpatient areas, etc.

I. Training
1. ECHN shall provide training on auxiliary aids and services as well as nondiscrimination for all ECHN personnel.
2. ECHN shall provide training to new employees as part of their initial orientation and annually for all other ECHN employees.
3. ECHN shall maintain copies of the training material and attendance records.

# COMMUNICATION & LANGUAGE SERVICES QUICK REFERENCE GUIDE

Interpreters and Translators, Inc. (iTi) provides language services for ECHN.

## REQUESTING IN-PERSON INTERPRETER/TRANSLATOR

1. Information needed: Your Name, Phone Number, Language needed, Facility Location, Department Name, Patient's Name, Medical Record Number, Date and Time needed, Duration of appointment, Subject (ex. Informed consent, Medical procedure), Name of the staff the interpreter is meeting
2. Dial: 860-647-0686
3. An interpreter coordinator will answer and assist with scheduling

*Note: Because interpreters are in high demand, scheduled in-person visits are recommended but not required.

## TELEPHONIC INTERPRETING (FOR LIMITED ENGLISH-PROFICIENT INDIVIDUALS ONLY)

1. Information needed: Your Name, Phone Number, Language needed, Facility Location, Department Name, Patient's Name, and Medical Record Number
2. Use Conference Hold to place the limited English speaker on hold.
3. DIAL: 1-800-245-9647 (this number is assigned to ECHN)
4. An operator will pick up and ask for your customer code.
5. ECHN Customer Code is: 182061

## CALLING AN INDIVIDUAL WHO IS DEAF, HARD OF HEARING, DEAF-BLIND, SPEECH-DISABLED

1. From a regular phone, dial: 7-1-1 Relay CT
2. TTY phones may be used to contact individuals who are deaf, hard of hearing or speech impaired only if the person is known to have a TTY machine. They are located:
    a. MMH: Nursing Supervisor's office and Emergency Department
    b. RGH: Nursing Education office and Emergency Department

## VIDEO REMOTE INTERPRETING (VRI)

1. Information needed: Your Name, Facility Name, Department Name, Patient Name and MRN
2. Log into the VRI iPad
3. Select the VRI application
4. Tap the language needed
5. Greet your interpreter, provide the information needed and proceed with communication

Attachment A

## REQUESTING WRITTEN DOCUMENT TRANSLATION

1. Complete the Translation Request Form located in Access E-Forms and on ECHN Portal/Quality Department/Patient Experience Section
2. Manager approval signature is required.
3. Email document along with the request form to: Translations@iTitranslates.com
4. An iTi Project Manager will confirm receipt of your request and provide you with a quote. This quote must be approved by you before they will proceed.
5. Forward the quote to the approving manager for record retention.
6. Final translated document will be emailed securely back to requestor.
7. Certificates of Accuracy are available at no additional cost

**IMPORTANT TIPS:**

DIALECTS: Because languages encompass various dialects, check periodically with the individual to ensure the language/dialect spoken is one they understand. If another dialect is needed, inform the interpreter, and try to obtain another. The telephonic language service covers a larger amount of languages/dialects.

UNKNOWN LANGUAGE: If you do not know what language to request, an iTi representative will help you.

WORKING WITH AN INTERPRETER: Give the Interpreter specific questions to relay. Group your thoughts or questions to help the conversation flow quickly. Speak directly to the individual and not to the interpreter. Use statements like “how are you today?” not “ask him how he is doing today?”

LENGTH OF CALL: Expect interpreted comments to run a bit longer than English phrases. Interpreters convey meaning-for-meaning, not word-for-word. Concepts familiar to English speakers often require explanation or elaboration in other languages and cultures.

INTERPRETER IDENTIFICATION: Interpreters identify themselves by their first name and number only. For reasons of confidentiality, they do not divulge either their full names or phone number.

DEMONSTRATION LINE: To hear a recorded demonstration of over-the-phone interpretation call iTi’s demonstration line at 1-800-996-8808

CONCERNS: should be reported to the manager as soon as possible.

Exhibit I

# EASTERN CONNECTICUT HEALTH NETWORK
# POLICY AND PROCEDURE

**TITLE: Financial Assistance Policy and Procedure** **Policy: 500**

---

**TOPIC**

Financial Assistance / Charity Care

ECHN is committed to providing financial assistance to persons who have healthcare needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for medically necessary care based on their individual financial situation. Consistent with their mission to deliver compassionate and high quality healthcare services and to advocate those who are poor and disenfranchised, ECHN strives to ensure that the financial capacity of people who need health care services does not prevent them from seeking or receiving care.

In accordance with the Federal Poverty Level (FPL) guidelines, all other uninsured patient will not be charged more than the amount generally billed to insured patients for emergency or medically necessary care.

**PURPOSE**

To identify those patients that qualify for charitable assistance and to complete write-off procedures that is in keeping with state and federal regulations.

A. ECHN is committed to providing financial assistance to persons who have health care needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for emergency or medically necessary care based on their individual financial situation.
B. It is the policy of ECHN to provide Financial Assistance based on indigence or high medical expenses for patients who meet specified financial criteria and request such assistance. The purpose of the following policy is to describe how applications for Federal Assistance should be made, the criteria for eligibility, and the steps for processing each application.
C. Financial assistance may be extended when a review of a patient's individual financial circumstances has been conducted and documented. This should include a review of the patient's existing medical expenses and obligations (including any accounts having gone to bad debt except those accounts that have gone to lawsuit and a judgment has been obtained) and any projected medical expenses. Financial Assistance Applications may be offered to patients whose accounts are with a collection agency and will apply only to those accounts on which a judgment has not been granted.
D. Race, gender, sexual orientation, religious or political affiliation, social or immigration status will not be taken into consideration.
E. To further ECHN's commitment to their mission to provide healthcare to patients seeking emergency care, ECHN will utilize an abbreviated application for financial assistance for their uninsured patients being seen in the Emergency Room. The patients eligible for this financial assistance must not be eligible for any other insurance benefits or have exhausted their insurance benefits, and do not have active medical assistance coverage. Eligibility will be granted in this case for the one visit only.

**POLICY**:

In order to provide the level of aid necessary to the greatest number of patients in need, and protect the resources needed to do so, the following guidelines apply:

Exhibit I

ECHN Eastern Connecticut Health Network

# EASTERN CONNECTICUT HEALTH NETWORK
# POLICY AND PROCEDURE

A. Patient
   a. Services are provided under charity care only when deemed emergency or medically necessary and after patients are found to have met all financial criteria based on the disclosure of proper information and documentation.
   b. Any patient who believes that they are qualified may apply for financial assistance under the hospitals' charity care policy or discount policy.
   c. Patients are expected to contribute payment for care based on their individual financial situation; therefore, each case will be reviewed separately.
   d. Charity Care is not considered an alternative option to payment and patients may be assisted in finding other means of payment or financial assistance before approval for charity care.
   e. Uninsured patients who may meet the State of CT Dept. of Social Services guidelines for Medicaid eligibility will be provided assistance in determining their eligibility as well as assisting with obtaining eligibility.
   f. Uninsured patients who are believed to have the financial ability to purchase health insurance may be encourage to do so in order to ensure healthcare accessibility and overall well-being.

B. Hospital
   a. ECHN will maintain an understandable, written financial assistance policy, clearly stating the eligibility criteria.
   b. ECHN will ensure that all financial assistance policies will be applied consistently.
   c. In applying the Financial Assistance policy, ECHN will assist the patent in determining if he/she is eligible for government- sponsored programs.

C. COMMUNICATION:
   a. Notices regarding availability of Financial Assistance at ECHN will be posted in public places around the hospital, on patient bills, and on our website.
   b. Financial Assistance Applications are available at all ECHN registration locations as well as on the ECHN Website, ECHN.org.
   c. Copies of this policy as well as the Financial Assistance Application can be obtained via the U.S. mail by calling our Customer Service Representative at 1-888-943-6042 or 860-646-1222 x2768.

**DEFINITIONS**

The following terms are meant within this policy to be interpreted as follows:

a. Charity Care means free or discounted health care services rendered by a hospital to persons who cannot afford to pay, including but not limited to, care to the uninsured patient or patients who are expected to pay all or part of a hospital bill based on income guidelines and other financial criteria set forth in statute or in the hospital's charity care policies on file at OCHA.

b. Emergency Care: Immediate care which is necessary to prevent putting the patient's health in serious jeopardy, serious impairment to bodily functions, and serious dysfunction of any organs or parts.

c. Family: Using the Census Bureau definition, a group of two or more people who reside together and who are related by birth, marriage, or adoption. According to Internal revenue Services rules, if the patient claims someone as a dependent on their income tax return, they may be considered a dependent for purposed of the provision of financial assistance.

d. Family Income: family income is determined using the census Bureau definition, which uses the following income when computing federal poverty guidelines.
   i. Includes earnings, unemployment compensation, workers' compensation, Social security, Supplemental security Income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties, income form estates, trusts, educational assistance, alimony, child support, assistance form outside the household, and other miscellaneous sources.
   ii. Noncash benefits (such as food stamps and housing subsidies) do not count.
   iii. Determined on a before-tax basis
   iv. If a person lives with a family, includes the income of all family members (non-relatives, such as housemates do not count)

e. Medically Necessary: hospital services or care rendered (both inpatient and outpatient) to a patient in order to diagnose, alleviate, correct, cure or prevent the onset of worsening conditions that endanger life, cause suffering or pain, cause physical deformity or malfunction, threaten to cause or aggravate a handicap or result in overall illness.

f. Presumptive: other financial assistance, not charity care.

g. Underinsured: Patients who carry insurance of have third party assistance to help pay for medical services, but who accrue or have the likelihood of accruing out-of-pocket expenses which exceed their financial ability.

h. Uninsured: means a patient who is without health insurance for whom the payer responsible for payment of the bill for hospital services rendered is the patient, the patient's parent or guardian or another responsible person, who is not a third party payer and who is not subsequently reimbursed by another payer for the cost of any of the services rendered to the patient. A patient shall not be classified an uninsured patient, is such subsequent reimbursement takes place.

**EASTERN CONNECTICUT HEALTH NETWORK**
**POLICY AND PROCEDURE**

i. Urgent Care: Services necessary in order to avoid the onset of illness or injury, disability, death, or serious impairment or dysfunction if treated within 12 hours.

**PROCEDURE**

a. Services Eligible Under This Policy
   i. The following healthcare services are eligible for charity:
      1. Emergency medical services provided in an emergency room setting;
      2. Services for a condition which, if not promptly treated, would lead to an adverse change in the health status of an individual;
      3. Non-elective services provided in response to life-threatening circumstances in a non-emergency room setting; and
      4. Medically necessary services, evaluated on a case-by-case basis at ECHN's discretion.

b. Eligibility for Charity Care
   1. Eligibility for Charity Care will be based on an individual's assessment of financial need.
   2. Requires an application process.
   3. We expect cooperation from patients and guardians.
   4. May rely upon publicly available information and resources to determine the financial resources of the patient or a potential guardian.
   5. Include a review of the patient's outstanding accounts receivable for prior services rendered and the patient's payment history.
   6. The need for financial assistance shall be re-evaluated every six months or at any time additional information relevant to the eligibility of the patient for charity care becomes known.

c. Presumptive Financial Assistance Eligibility
   i. There are instances when a patient may appear eligible for charity care discounts, but are unable to provide supporting documentation. Often there is adequate information provided by the patient or through other sources, which could provide sufficient evidence to provide the patient with charity care assistance such as
      1. State-funded prescription programs;
      2. Patient is homeless or received care from a homeless clinic;
      3. Patient files bankruptcy
      4. Participation in Women, Infants and Children programs (WIC);
      5. Patient is eligible for assistance under the Crime Victims Act or Sexual Assault Act
      6. Food stamp eligibility;
      7. Subsidized school lunch program eligibility;
      8. Eligibility for other state or local assistance programs that are unfunded (e.g., Medicaid spend-down);
      9. Low income/subsidized housing is provided as a valid address; and
      10. Patient is deceased with no known estate.

**EASTERN CONNECTICUT HEALTH NETWORK**
**POLICY AND PROCEDURE**

F. ASSESSMENT PROCESS

1. The application must be fully completed and signed by the patient / responsible party
2. Proof of income for applicant (and spouse if applicable) is verified by two forms of documentation which could include:
    a. Last four pay stubs
    b. Previous Year Federal Income Tax Form
    c. Previous Year W-2 Form
    d. Social Security Statement
    e. Unemployment Benefit Statement
3. Other documentation that may be required:
    a. Proof of disability compensation
    b. For Medicare patients a copy of their social security benefits, pension and retirement benefits and/or bank statements showing deposits
    c. Workers compensation deposits

i. The level of Charity Care provided will be determined based on the Federal Poverty Level in effect (please refer to the current year's sliding scale).

ii. Once a patient has been granted financial assistance, that patient shall not receive any future bills based on undiscounted gross charges.

E. COLLECTION PRACTICES FOR CHARITY CARE PATIENTS

a. Internal and external collection policies and procedures will take into account the extent to which a patient is qualified for charity care or discounts. In additional, patients who qualify for partial discounts are required to make a good faith effort to honor payment agreements with ECHN, including payment plans and discounted hospital bills. ECHN is committed to working with patients to resolve their accounts, and at it discretion, may provide extended payment plans to eligible patients. ECHN will not pursue legal action for non-payment of bills against charity care patients who have cooperated with the hospital to resolve their accounts and have demonstrated their income and/or assets are insufficient to pay medical bills.
b. During the eligibility process, other forms of financial assistance will be considered such as Medicare and Medicaid.
c. All billing is put on hold during the financial assistance application process. Patients are given the opportunity to provide any missing or incomplete information.

Hospital Billing and Collections Practices can be found on the ECHN Website (ECHN.org) or obtained by calling our Customer Service Representative at 1-888-943-6042.

**Subject:** RE: Compliance with CON Docket # 15-32016-486, Prospect ECHN_Condition #20

Hi Colleen,

This email is to follow up on any progress related to ECHN s search for a Community Representative at Vernon to join the local Advisory Board, as re uired under Condition 20, Docket 15-302016-486-CON.

Correspondence from ECHN received at OHCA on March 3, 2017 indicated that the Applicants had asked Vernon s Mayor to act as the
interim Community Representative and that he had attended the latest Advisory Board meeting on February 22, 2017.

Correspondence from you received at OHCA on March 6, 2017 below indicated that you will follow up on the progress regarding this matter.

No additional documentation has been received at OHCA after March 6th related to Condition 20 .

Please provide OHCA with an update on the search for a Community Representative at Vernon by the Applicants.

Thank you,
Carmen

Dear aren,
Thank you for this update regarding Condition 20. I was aware that ECHN has experienced difficulty in finding a suitable Vernon representative for the local Advisory Board. I will follow up immediately with Dennis McConville and Michael Collins regarding their progress in filling this position with a ualified, unbiased Vernon community representative.
Sincerely,
Colleen Smith

Hi Ms. Scott – as the Independent Monitor for the Prospect ECHN CON under Docket # 15-32016-486, we wanted to alert you to several compliance related email communications that have recently occurred between the Office of Health Care Access (OHCA) and Mr. Michael Collins, Interim CEO for the two Prospect ECHN hospitals. Please reference PDF pages 716 – 772 of http://www.ct.gov/dph/lib/dph/ohca/con_completed/2016/15_32016_486_compliance.pdf for the recent communications that have occurred.

Condition #20 states:

> 20. For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

At this time, there is no further questions for the Applicant in this regard, but OHCA will continue to need to be kept updated on the status of or any changes to the two community representatives, required pursuant to Condition #20.

Thank you.

Sincerely,

Dear Carmen,

In follow up to your □uestion concerning the Vernon community Board representative, the current mayor of Vernon, Mr. Dan Champagne, continues to serve as the Vernon community representative to the Board. He has voiced his intent to continue his service to the Board and has faithfully attended the monthly board meetings. At the current time, there are no plans to replace him.
I will notify you if this situation changes.

I would also like to follow up to my □uery of 8□28□17 concerning condition □19. Specifically, I want to verify that the 2 joint Board meetings followed by public community meetings held last spring in April and May on the Rockville and Manchester campuses satisfiy the re□uirements of condition □19.
I appreciate your guidance and attention to this matter.

Best regards,

Colleen smith

Independent Monitor for Prospect ECHN CON Docket # 15-32016-486

Hi Ms. Scott – as the Independent Monitor for the Prospect ECHN CON under Docket # 15-32016-486, we wanted to alert you to several compliance related email communications that have recently occurred between the Office of Health Care Access (OHCA) and Mr. Michael Collins, Interim CEO for the two Prospect ECHN hospitals. Please reference PDF pages 716 – 772 of http://www.ct.gov/dph/lib/dph/ohca/con_completed/2016/15_32016_486_compliance.pdf for the recent communications that have occurred.

Condition #20 states:

20. For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as voting members of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representatives shall be selected in consultation with the Mayors of Manchester and Vernon in order to ensure the appointment of two unbiased persons who will fairly represent the interests of the communities served by MMH and RGH, respectively. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30*

At this time, there is no further questions for the Applicant in this regard, but OHCA will continue to need to be kept updated on the status of or any changes to the two community representatives, required pursuant to Condition #20.

Thank you.

Sincerely,

*Karen Roberts*

Dear Carmen,

In follow up to your □uestion concerning the Vernon community Board representative, the current mayor of Vernon, Mr. Dan Champagne, continues to serve as the Vernon community representative to the Board. He has voiced his intent to continue his service to the Board and has faithfully attended the monthly board meetings. At the current time, there are no plans to replace him.
I will notify you if this situation changes.

I would also like to follow up to my □uery of 8□28□17 concerning condition □19. Specifically, I want to verify that the 2 joint Board meetings followed by public community meetings held last spring in April and May on the Rockville and Manchester campuses satisfiy the re□uirements of condition □19.
I appreciate your guidance and attention to this matter.

Best regards,

Colleen smith

Dear aren,
Thank you for this update regarding Condition 20. I was aware that ECHN has experienced difficulty in finding a suitable Vernon representative for the local Advisory Board. I will follow up immediately with Dennis McConville and Michael Collins regarding their progress in filling this position with a ualified, unbiased Vernon community representative.
Sincerely,
Colleen Smith

Kim,

I'm writing to request an extension for a filing that is due November 30 for DN# 15-32016-486. Conditions 8, 9 and 10 from that decision require us to file financial information and our finance staff have asked if it is possible to move the due date to December 15. They are busy with the audits. Please let me know. Thank you.

Best regards,

Dennis

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Addo:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Eight (8), Condition Number Nine (9) and Condition Number Ten (10) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Eight (8) requires that on a semi-annual basis until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the 75 million Commitment Amount. Please find the Capital Investment Report for Fiscal Year 2017 labeled as Exhibit A which includes payment dates, amounts and sources of funding. In addition, please find Exhibit B which includes all capital purchases for Fiscal Year 2017 that have been made or approved with purchase orders issued. The timeframes for the roll out of capital projects are also noted.

Condition Number Nine (9) requires that PMH provide a report for New ECHN, New MMH and New RGH on a semi-annual basis with the following information:

a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business

Expenses, and other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and ) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

1. The major cost savings achieved for each expense category for the semi-annual period; and

2. The effect of cost savings on the clinical uality of care.

b. A Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300 350 or successor reports.

For Condition Number Nine (9.a.), please find Exhibit C which shows the expenses by category using the form of HRS Report 175 for the period of April 1, 2017 through September 30, 2017 as compared to the first half of Fiscal Year 2017, October 1, 2016 through March 31, 2017. Exhibit D contains information relating to the clinical uality of care provided at New MMH and New RGH this past year.

For Condition Number Nine (9.b.), please find Exhibit E using the form of HRS Reports 100 150 and 300 350 which includes the Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH

Condition Number Ten (10) re uires that on a semi-annual basis, PMH provide a report for New ECHN, New MMH and New RGH with the following financial measurements indicators showing current month and year-to-date data and comparable prior year period data for New ECHN, New MMH and New RGH respectively :

**Financial Measurement/Indicators**

**A. Operating Performance**

1. Operating Margin
2. Non-Operating Margin
3. Total Margin

**B. Liquidity**

1. Current Ratio
2. Days Cash on Hand
3. Days in Net Accounts Receivables
4. Average Payment Period

**C. Leverage and Capital Structure**

1. Long-term Debt to E uity
2. Long-term Debt to Capitali ation
3. Unrestricted Cash to Debt

4. Times Interest Earned Ratio
5. Debt Service Coverage Ratio
6. E□uity Financing Ratio

**D. <u>Additional Statistics</u>**

1. Income from Operations
2. Revenue Over (Under) Expense
3. Cash from Operations
4. Cash and Cash E□uivalents
5. Net Working Capital
6. Free Cash Flow (and the elements used in the calculation)
7. Unrestricted Assets□Retained Earnings
8. Bad Debt as □ of Gross Revenue
9. Credit Ratings (S&P, FITCH, or Moody's)

Please find Exhibit F for the periods beginning on October 1, 2016 through March 31, 2017 and April 1, 2017 through September 30, 2017 showing current month and year to date measurements as re□uired for Condition Ten (10). Future reports will compare the data to the comparable period for the prior year.

If you have any □uestions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

## Exhibit D - Effect of Cost Savings on Clinical Quality of Care

The clinical □uality of care at Manchester Memorial Hospital (MMH) and Rockville General Hospital (RGH) has improved over the past year as evidenced in the key □uality metrics charts below. This is attributed to the strong culture of safety that continues at the hospitals. The daily safety huddle, safety moments to begin every meeting and the continued education on HRO Safety culture to all staff and physicians are examples of the safety culture fully supported by the hospitals' senior leadership.

**Manchester Memorial Hospital**

| Quality Metric | 2016 | 2017 | Change |
|---|---|---|---|
| Overall Infection Rate | 0.8□ | 0.6□ | -0.2□ |
| Surgical Site Infection Rate | 0.7□ | 0.4□ | -0.3□ |
| Colorectal SSI Rate | 8.3□ | 7.1□ | -1.2□ |
| Abd Hysterectomy SSIs | 1 | 1 | 0 |
| Total Hip and □nee Infections | 3 | 0 | -3 |
| C-Section Infections | 13 | 0 | -13 |
| Handwashing Compliance Rate | 48.0□ | 95.0□ | 47.0□ |
| C-diffle Rate | 0.7□ | 0.4□ | -0.3□ |
| CLABSIS, ICU | 2 | 1 | -1 |
| CAUTIs, ICU | 0 | 0 | 0 |
| CAUTIs, Non - ICU | 3 | 2 | -1 |
| Ventilator Ac□uired Events | 13.7□ | 9.0□ | -4.7□ |
| Readmission Rates | 9.2□ | 6.6□ | -2.6□ |
| Penalty Rates (readmissions) | 1.05□ | 0.51□ | -0.54□ |

**Rockville General Hospital**

| Quality Metric | 2016 | 2017 | Change |
|---|---|---|---|
| Overall Infection Rate | 0.8□ | 0.7□ | -0.1□ |
| Surgical Site Infection Rate□ | 0.3□ | 0.5□ | 0.2□ |
| Colorectal SSI Rate | 0 | 0 | 0 |
| Abd Hysterectomy SSIs | 0 | 0 | 0 |
| Total Hip and □nee Infections | n□a | n□a | n□a |
| C-Section Infections | n□a | n□a | n□a |
| Handwashing Compliance Rate | 78.0□ | 91.0□ | 13.0□ |
| C-diffle Rate | 0.9□ | 0.3□ | -0.6□ |
| CLABSIS, ICU | 2 | 0 | -2 |
| CAUTIs, ICU | 0 | 1 | 1 |
| CAUTIs, Non - ICU | 0 | 0 | 0 |
| Ventilator Ac□uired Events | 23.1□ | 15.2□ | -7.9□ |
| Readmission Rates | 11.4□ | 10.6□ | -0.8□ |
| Penalty Rates (readmission) | 1.83□ | 0.72□ | -1.11□ |

□The overall number of SSIs is down from 5 in 2016 to 4 in 2017. Denominator decreased making the rate higher.

## Exhibit D - Effect of Cost Savings on Clinical Quality of Care

In addition, positions have been added to the Quality and Safety department. A full-time and a part-time Quality Manager have been added as well as a Clinical Educator (shared between ECHN and Waterbury Hospital). As important, The PMH Chief Quality Officer sponsors monthly □uality calls and is available for □uestions and advice. The Regional Vice President for Quality and Safety works directly with the hospitals on □uality projects and initiatives and is also a valuable resource. The recent PMH Mock Survey is an example of a value added service by PMH to prepare our hospitals for the upcoming TJC surveys next year.

As evidenced by the key □uality metrics, added positions and available regional and corporate resources, the clinical □uality of care at MMH and RGH has been strengthened over the past year. Leadership at the local, regional and national levels has empowered the hospitals to continue to advance the culture of safety.

Good afternoon Dennis,

In reference to the attached documents, please also provide us with the same documents in Excel format, as applicable. In particular, those related to capital commitment investment, cost savings and quarterly financial measures.
As you might already know, Excel format makes it easier to filter and analyzed data. It will be very helpful to us to receive them in this format.

Thank you in advance for your assistance.
Carmen

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Addo:

This letter is submitted in accordance with the Order for the above referenced Certificate of Need Final Decision, specifically Condition Number Eight (8), Condition Number Nine (9) and Condition Number Ten (10) regarding the transfer of assets of Eastern Connecticut Health Network, Inc. (ECHN) to Prospect Medical Holdings, Inc. (PMH).

Condition Number Eight (8) requires that on a semi-annual basis until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and their affiliates from the 75 million Commitment Amount. Please find the Capital Investment Report for Fiscal Year 2017 labeled as Exhibit A which includes payment dates, amounts and sources of funding. In addition, please find Exhibit B which includes all capital purchases for Fiscal Year 2017 that have been made or approved with purchase orders issued. The timeframes for the roll out of capital projects are also noted.

Condition Number Nine (9) requires that PMH provide a report for New ECHN, New MMH and New RGH on a semi-annual basis with the following information:

a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business

Expenses, and other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and ) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

1. The major cost savings achieved for each expense category for the semi-annual period; and

2. The effect of cost savings on the clinical uality of care.

b. A Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300 350 or successor reports.

For Condition Number Nine (9.a.), please find Exhibit C which shows the expenses by category using the form of HRS Report 175 for the period of April 1, 2017 through September 30, 2017 as compared to the first half of Fiscal Year 2017, October 1, 2016 through March 31, 2017. Exhibit D contains information relating to the clinical uality of care provided at New MMH and New RGH this past year.

For Condition Number Nine (9.b.), please find Exhibit E using the form of HRS Reports 100 150 and 300 350 which includes the Consolidated Balance Sheet, Statements of Operations, and Statements of Cash Flows for New ECHN, New MMH and New RGH

Condition Number Ten (10) re uires that on a semi-annual basis, PMH provide a report for New ECHN, New MMH and New RGH with the following financial measurements indicators showing current month and year-to-date data and comparable prior year period data for New ECHN, New MMH and New RGH respectively :

**Financial Measurement/Indicators**

**A. Operating Performance**

1. Operating Margin
2. Non-Operating Margin
3. Total Margin

**B. Liquidity**

1. Current Ratio
2. Days Cash on Hand
3. Days in Net Accounts Receivables
4. Average Payment Period

**C. Leverage and Capital Structure**

1. Long-term Debt to E uity
2. Long-term Debt to Capitali ation
3. Unrestricted Cash to Debt

4. Times Interest Earned Ratio
5. Debt Service Coverage Ratio
6. E□uity Financing Ratio

**D. <u>Additional Statistics</u>**

1. Income from Operations
2. Revenue Over (Under) Expense
3. Cash from Operations
4. Cash and Cash E□uivalents
5. Net Working Capital
6. Free Cash Flow (and the elements used in the calculation)
7. Unrestricted Assets□Retained Earnings
8. Bad Debt as □ of Gross Revenue
9. Credit Ratings (S&P, FITCH, or Moody's)

Please find Exhibit F for the periods beginning on October 1, 2016 through March 31, 2017 and April 1, 2017 through September 30, 2017 showing current month and year to date measurements as re□uired for Condition Ten (10). Future reports will compare the data to the comparable period for the prior year.

If you have any □uestions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
Senior Vice President
Eastern Connecticut Health Network

## Exhibit D - Effect of Cost Savings on Clinical Quality of Care

The clinical □uality of care at Manchester Memorial Hospital (MMH) and Rockville General Hospital (RGH) has improved over the past year as evidenced in the key □uality metrics charts below. This is attributed to the strong culture of safety that continues at the hospitals. The daily safety huddle, safety moments to begin every meeting and the continued education on HRO Safety culture to all staff and physicians are examples of the safety culture fully supported by the hospitals' senior leadership.

**Manchester Memorial Hospital**

| Quality Metric | 2016 | 2017 | Change |
|---|---|---|---|
| Overall Infection Rate | 0.8□ | 0.6□ | -0.2□ |
| Surgical Site Infection Rate | 0.7□ | 0.4□ | -0.3□ |
| Colorectal SSI Rate | 8.3□ | 7.1□ | -1.2□ |
| Abd Hysterectomy SSIs | 1 | 1 | 0 |
| Total Hip and □nee Infections | 3 | 0 | -3 |
| C-Section Infections | 13 | 0 | -13 |
| Handwashing Compliance Rate | 48.0□ | 95.0□ | 47.0□ |
| C-diffle Rate | 0.7□ | 0.4□ | -0.3□ |
| CLABSIS, ICU | 2 | 1 | -1 |
| CAUTIs, ICU | 0 | 0 | 0 |
| CAUTIs, Non - ICU | 3 | 2 | -1 |
| Ventilator Ac□uired Events | 13.7□ | 9.0□ | -4.7□ |
| Readmission Rates | 9.2□ | 6.6□ | -2.6□ |
| Penalty Rates (readmissions) | 1.05□ | 0.51□ | -0.54□ |

**Rockville General Hospital**

| Quality Metric | 2016 | 2017 | Change |
|---|---|---|---|
| Overall Infection Rate | 0.8□ | 0.7□ | -0.1□ |
| Surgical Site Infection Rate□ | 0.3□ | 0.5□ | 0.2□ |
| Colorectal SSI Rate | 0 | 0 | 0 |
| Abd Hysterectomy SSIs | 0 | 0 | 0 |
| Total Hip and □nee Infections | n□a | n□a | n□a |
| C-Section Infections | n□a | n□a | n□a |
| Handwashing Compliance Rate | 78.0□ | 91.0□ | 13.0□ |
| C-diffle Rate | 0.9□ | 0.3□ | -0.6□ |
| CLABSIS, ICU | 2 | 0 | -2 |
| CAUTIs, ICU | 0 | 1 | 1 |
| CAUTIs, Non - ICU | 0 | 0 | 0 |
| Ventilator Ac□uired Events | 23.1□ | 15.2□ | -7.9□ |
| Readmission Rates | 11.4□ | 10.6□ | -0.8□ |
| Penalty Rates (readmission) | 1.83□ | 0.72□ | -1.11□ |

□The overall number of SSIs is down from 5 in 2016 to 4 in 2017. Denominator decreased making the rate higher.

## Exhibit D - Effect of Cost Savings on Clinical Quality of Care

In addition, positions have been added to the Quality and Safety department. A full-time and a part-time Quality Manager have been added as well as a Clinical Educator (shared between ECHN and Waterbury Hospital). As important, The PMH Chief Quality Officer sponsors monthly □uality calls and is available for □uestions and advice. The Regional Vice President for Quality and Safety works directly with the hospitals on □uality projects and initiatives and is also a valuable resource. The recent PMH Mock Survey is an example of a value added service by PMH to prepare our hospitals for the upcoming TJC surveys next year.

As evidenced by the key □uality metrics, added positions and available regional and corporate resources, the clinical □uality of care at MMH and RGH has been strengthened over the past year. Leadership at the local, regional and national levels has empowered the hospitals to continue to advance the culture of safety.

---

Good afternoon Dennis,

In reference to the attached documents, please also provide us with the same documents in Excel format, as applicable. In particular, those related to capital commitment investment, cost savings and quarterly financial measures.
As you might already know, Excel format makes it easier to filter and analyzed data. It will be very helpful to us to receive them in this format.

Thank you in advance for your assistance.
Carmen

Re: Docket No. OAG 15-486-01

Dear Mr. Hawes and Mr. Lazarus:

As required by Condition #4 of the Office of the Attorney General's Final Decision in Docket NO. OAG 15-486-01, Prospect ECHN, Inc. and Legacy ECHN, Inc. respectfully submit the final closing statement agreed upon by the parties as required in the Asset Purchase Agreement dated August 24, 2016.

Please contact Michael Veillette, Chief Financial Officer of Prospect ECHN, Inc. by phone at (860) 533-3404 or via email at mveillette@echn.org if you have any questions or require any additional information.

Very truly yours,

Robert Schwartz, M.D.
President, Legacy ECHN, Inc.

**Cc:** Martone, Kim <Kimberly.Martone@ct.gov>; Roberts, Karen <Karen.Roberts@ct.gov>
**Subject:** Prospect ECHN Docket Number 15-32016_Compliance Material Submission and Condition #16

Dear Colleen:

Please address the following in reference to Docket number 15-32016-486:

1) OHCA is requesting that all compliance filings from the hospital staff, first go to you, as the Independent Monitor ("IM"), and then you file the material with OHCA. This will provide OHCA with verification that you have reviewed the material to determine compliance to the order prior to OHCA's review of the material. The submission of compliance documents by the hospitals' staff directly to OHCA and only copied to you does not allow OHCA to clearly identify the IM's involvement in the process of reviewing and submitting the documents.

2) Condition #16 stipulates that the IM is "*…to be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order*". The IM is required to look at the material filed and verify compliance for each condition. OHCA's records show that no reports have been filed regarding this task. Please submit to OHCA a report of your review of Prospect's ECHN material to date that verifies compliance for each of the conditions set forth in the Order. In terms of how this report could be formatted, OHCA suggests to refer back to the IM's work plan documents submitted to OHCA on December 16, 2016 which lists all of the conditions and actions that will be taking place then add a column to this document describing the IM's observations on how compliance for each of the conditions listed has been met. After this catch up IM report, please file this on a semi-annual basis through the end of the IM contractual period.

It is also requested that you submit your responses via electronic mail by using the OHCA general email inbox which is OHCA@ct.gov. In addition, please continue to reference the CON docket number in the subject line of the email when transmitting.

You may contact me at (860) 418-7039 or Karen Roberts, Principal Health Analyst at (860) 418-7041, if you have any questions regarding this request.

Sincerely,
Carmen

# THIRD VISIT ASSESSMENT – PROSPECT ECHN, Inc.

JANUARY 30-FEBUARY 1, 2018
Colleen O. Smith, MSN, RN, NEA-BC

## OVERVIEW

The enclosed reports summarize my third visits to MMH and RGH campuses during the last week of January. The principle focus of this visit is to follow up on all of my recommendations from the previous visits as well as note any new accomplishments, capital improvements, progress to date on quality initiatives, and identify any new areas of concern. I concentrated my visit agenda for the 3 days on all of the inpatient clinical areas only as I had not found any areas of concern in the outpatient services during my initial visit in late January 2017.

Several executive position changes have occurred since my last visit in June 2017. The Interim CEO, Michael Collins, has been made the permanent CEO. The VP for Quality and Patient Safety has been promoted to the PMH corporate quality position. Kathleen Davis RN has just filled this position. She was able to accompany me on all of my rounds. And a new position of COO has been added and filled by an administrator from Bridgeport Hospital. I attended the Advisory Board meeting where volume metrics and quality reports were reviewed. Substantial improvements in infrastructure, cosmetic upgrades and additional equipment have been procured in the last 6 months. Another 3M of capital has been approved thus far with additional approvals pending. The Adult Behavioral Health Unit has been moved to the RGH campus and the Eating Disorders Unit at RGH has greatly increased their patient census. A small Geri-Psych unit has been established on the MMH campus.

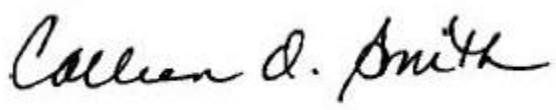
The organization continues to utilize their high reliability practices that are incorporated into all patient care. ECHN continues to conduct the daily Safety Huddles and Quality/Patient Safety meetings are started with a “Good Catch” safety story.

Regular Quality/Patient Safety conference calls are held with Prospect Medial Holdings. This is their opportunity to report out their quality data and also share practices/approaches that are working well. Wide participation is expected and received from member organizations. Overall, both hospitals are experiencing challenges with ED Throughput, ED and Inpatient Satisfaction, and all cause readmission rates and for select diagnoses. Performance Improvement committees are in place to work on these processes. The COO and CNO are now chairing a

special committee aimed to improve ED throughput. Overall, both hospitals are doing quite well in the area of Patient Safety outcomes. Hand Hygiene compliance is trending up.

Facilities on both campuses are receiving much needed cosmetic renovations and plant updates. Staff and leaders are able to describe recent capitol acquisitions that have improved their daily workday. Additional surgical equipment has been purchased as well as OMNICELL for the Patient Care areas.

## Methods and Processes Used for Analysis



Processes utilized to conduct this on site review include:

1. Face to face meetings with the CNO, the VP for Quality/Patient Safety, VP for HR, the CMO, and the Director of Risk Management.
2. Tours of all Inpatient Clinical Services outlined in the Consent Decree. Outpatient services were not revisited, as stated above. The IM spoke with the leaders of all areas visited and several direct care staff members in the clinical areas, such as RNs, CNAs, pharmacists, secretaries, and other ancillary employees.
3. Review of Quality/Performance Improvement minutes, the annual Quality Plan, and the 2018 quality and safety goals. IM reviewed the quality dashboards for calendar year 2017.
4. Meeting with the chairs of the Nursing Unit Based Council and Nurse Managers to discuss their initiatives and outcomes.
5. Attendance at the Advisory Board meeting for review of Quality Indicators and special reports. IM shared several perceptions of her time spent on the clinical units.
6. Random checks on Code/Defibrillator carts, medication refrigerators and glucometers.

## Approach to Assessment

The following report is organized by:  Service Visited, Observations and Recommendations

Under each Service please find categories of comments that are pertinent to each service visited. Thank you for this opportunity to engage with Prospect ECHN to assist in assuring quality of care to all patient populations of the Greater Manchester and Rockville communities.

Colleen O. Smith, MSN, RN, NEA-BC

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| THIRD ASSESSMENT: PROSPECT Manchester Memorial Hospital<br>COLLEEN O. SMITH MSN, RN, NEA-BC<br>JANUARY 30- FEBUARY 1 2018 | | |
|---|---|---|
| **CATEGORY** | **OBSERVATIONS** | **RECOMMENDATIONS** |
| **NURSING SERVICES – MMH**-3 North, Critical Care, 2 East, 1 East, OB/NICU | | |
| • Staffing | RN and CNA patient care assignments and nurse/patient ratios were assessed on every patient care unit and found to meet standards. M/S Nurses generally had a 1:5 pt. ratio and 4:1 on the Telemetry unit. 3 North, primarily a surgical unit had 12 patients with 4 RNs and 3 CNAs. They are working on being designated a Center of Excellence for Bariatrics. CNAs are doing hourly bedside rounding and have seen a reduction in patient falls and call lights. Their last CAUTI was 3 months ago and they have an action plan in place to prevent further events. They use a nurse driven protocol for foley removal. CCU had a census of 14 with 7 RNs on duty and 2 RN orientees. They have experienced a 50% vacancy rate and the Nurse Manager has been busy filling positions. Vacancy rate is expected to decrease to 25% once the nurses are hired. On 2 East the census was 26 and they had 5 RNs and 4 CNAs on duty. Their ADC increased on this unit and they were able to add an additional RN to their staffing matrix. 1 East (cardiac and observation) had a census of 16 with 4 RNs on Day shift. The CNAs had assignments of 8 pts. Many Certified Nurses aides are cross-trained as unit secretaries to aid in staffing flexibility. The Monitor tech was watching approximately 32 monitors and stated she got regular breaks and as needed.<br>Staffing in the Family Birthing Center and NICU was appropriate. Family Birthing Center follows the AWHONN Perinatal Nursing guidelines, 4th edition 2014. The ADC in the NICU is 2-3 and 3 RNs are always on duty. They are cross-trained to care for the mother/baby couplets.<br>IM spoke with nurses on various units about adequacy of staffing. Nurses voiced their reliance on float pool to augment staffing when needed for sick calls and LOAs. They are very pleased with how the float pool is working. In addition to the Float Pool, several per diem nurses joined ECHN. They have been used to aid staffing the Oncology unit and Medical/Surgical units. Many new per diem nurses have been deployed to the Eating Disorders unit on the RGH campus as well as Behavioral Health and the EDs. The CNO | Recommend toilet supports on all patient bathroom toilets to support the bariatric population. Staff currently using bariatric commodes at bedside for select patients. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | mentioned that some additional voluntary cross training among RN staff has occurred and this has been quite successful and effective.<br>Patient Care Technicians, cardiac secretaries, and OR scrub techs have also been added to the Float pool. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • Physical Environment | Nursing units were clean and hallways free of clutter. A new cleaning service has been hired and they are doing an excellent job with keeping floors polished. Appropriate signage regarding pt.'s rights and responsibilities, financial counseling assistance, and help for hearing impaired and those who speak a different language were posted in all pt. care areas. Capacity on M/S units range from 23 beds to 32 with a mix of private and semi private rooms.<br>White boards for assignments are visible at all nursing stations. In CCU the white board was very organized and comprehensive. It included: Braden scores, central lines, and restraints and foley catheters.<br>**Critical Care** was built in 2008 and has a North and South side with 12 and 10 beds respectively. The unit is well lit with north and south nursing stations, many areas for electronic charting and good pt. visibility. Every pt. room can handle dialysis and 4 rooms are negative pressure. Anterooms were an ample size and laid out well. Medication rooms all locked by keypad. Med rooms were small but adequate and offered a quiet environment for medication preparation. The temperatures of the medication refrigerators are remotely monitored by a central system. The temp logs were consistently filled in and up to date by nursing personnel.<br>**The Family Birthing Center** has 12 LDRPs, 2 ORs and a Level 3 NICU. The unit is pleasant. A new OB group has joined ECHN. There are plans to add another 5-6 beds due to increased volume from 1200 to 1500 births/yr. The unit will be undergoing a major 2.7M renovation this year. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • Culture of Safety | Nurses are not yet doing hourly rounds consistently at MMH in all units although some units have begun this practice (CCU, Med/Onc). Many units do conduct bedside change of shift report. CNAs conduct hourly rounds on 3 North and have seen improved patient outcomes. Quality boards have been updated and all units have them in prominent locations.<br>Nurses report a collaborative relationship with hospitalists.<br>Nursing units collect Nurse Sensitive Indicators: Falls, Falls with Injury, HAPUs through NDNQI and CLABSIs, and CAUTIs through NHSN.<br>There is a good Fall Prevention Program in place. Fall risk signage was recently updated and consistently visible outside of patient rooms.<br>Multidisciplinary pt. care rounds occur daily. Hospitalists, nurses, SW, Case Management participate. Nurse driven Care Rounds occur @ 11:15am everyday on 2 East (Med/Onc) and the Nurse Navigator from the Cancer Center joins these rounds. They had a Fall with Injury in 12/17 with 5 Falls occurring in January. “Days since last Fall” is prominently highlighted on their white board across form nurses station. Many interventions are in place to eliminate Falls.<br>Hospitalists and nurses have a very collaborative relationship. Nurses suggest interventions and state that physicians listen to their assessments.<br>Certified Wound Care (WCC) nurses are on each pt. care unit. They assist with skin assessment and early identification and intervention to prevent pressure ulcers. They are role models and educators for nursing staff. A WOCN nurse oversees this function. HAPU rates are very low. | **Recommend** conducting bedside rounds on all units across both campuses.<br>Recommend disseminating unit level Hand Hygiene results to all units. |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • Culture of Safety | The **CCU** is an "open" unit meaning hospitalists and private attending physicians can admit into the unit. However, all vented pts. in the CCU are seen by the Intensivists who manage their pulmonary care. Respiratory therapists assist with changing ventilator settings per weaning protocols. The CAUTI rate in Critical Care has been zero since December 2015 and there have been no falls with injury since October 2016. In May 2017 there was one CLABSI that met criteria for reporting.<br>In the **Family Birthing Center**, all nurses have completed the GNOSIS training program and the physicians are also complete with the same training. Clinicians were pre tested and then took a posttest after program completion. There is a multidisciplinary Departmental Quality Meeting where many Quality Indicators are reviewed as well as any adverse events.<br>Mock Code, Dystocia and Emergency Postpartum Hemorrhage drills are held on a regular basis. All PP Hemorrhage training will be completed by 3/18. Nurse Manager relayed a "Great Save" that occurred after the GNOSIS education. It resulted in a stat caesarean section after an RN correctly interpreted a fetal monitoring strip.<br>Blue emergency buttons are in every pt. room on OB so that nurses can summon immediate help.<br>It is policy that all post partum pts. Are assisted by 2 nurses for their first time out of bed after a delivery. There have been no pt. falls or infant descents on the OB unit.<br>2 nurses certified in lactation are on everyday. The breastfeeding rate on D/C has increased from in the 70s to greater that 90% in the last 2 mos. Nurses do all they can to encourage breastfeeding while being culturally sensitive to patient's wishes and accommodating their birth plan.<br>On 1/31/2018 IM met with the chairs of the Unit Based Councils and the Nurse Managers on both RGH and MMH campuses. IM conducted a roundtable with all UBC chairs to discuss the new innovations and practices that they were implementing on their units through their | The FBC unit practice council is looking at the use of Nitrous Oxide during labor.<br>Consider starting a research study on Nitrous Oxide's effect on reducing laboring patient's anxiety levels.<br><br>IM suggests continuing the great work of the Shared Governance Councils: developing and implementing a standardized agenda for meetings, educating the scribes on how to take precise minutes and revising the form used to better capture action items, responsible person (s) and due date. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | council engagement. Every unit reported on their initiatives such as improving Patient Satisfaction scores, decreasing falls, getting a bladder scanner for their area and implementing bedside rounds. Their excitement and pride in their work was obvious. IM suggested that they summarize all the UBC practice changes semiannually and disseminate to all staff. | |
| • Compliance with State & Federal Regulations | IM randomly checked Glucometer strips and solutions for appropriate dating. Code and Defib carts randomly checked in all areas. All had been checked with RN signature and up to date. Medication refrigerators were also checked and all were in compliance.<br>The staffing committee met on September 21 2017 to review all nurse staffing plans, review travel nurses, float pool and per diem needs etc. IM reviewed these minutes. It is chaired by the CNO. Staff Nurses comprise the majority of the membership who voice their suggestions regarding adjustments in staffing plans. | Recommend using a fine point "sharpie" marker for marking these containers so dates are more legible. |
| **NURSING SERVICES** | | |
| • HR / Personnel | Much of the staff is fairly long tenured. IM spoke with nurses who had practiced at for 35+ years. Certified nurse are recognized and celebrated with a certification bonus but only a small percentage of Nursing staff is currently certified in their practice specialty. There seems to be growing enthusiasm among some nursing staff however. On 2 East 5 nurses are OCN certified. ECHN is starting on the Pathway to Excellence. Shared governance with unit-based councils has begun. Some units are further a long with their councils than others. These professional development pursuits are being discussed within the councils.<br>**FBC** Very few staff nurses on OB are certified. There is a Lactation Consultant on OB and several additional nurses who have special training in lactation. They cover the unit 7days/wk. The OB Educator is PhD prepared. IM encouraged her to begin some research on the unit. There is no Social Work coverage on the W/E and holidays which is concerning to staff. | IM encourages Nurse Leaders to collaborate with staff to set unit goals for specialty certification. ECHN has established baseline data of all currently certified nurses. IM encourages that the aggregate list be broken down by unit so that each unit can see their unit certification rate and set goals towards increasing their numbers. Nurses should also be encouraged to join their professional specialty organizations.<br>Strong consideration should be given to assuring a MSW is on call during W/E and holidays. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | **HUMAN RESOURCE**- IM met with the VP for HR. IM reviewed the new Self Assessment and Goal Planning forms that are utilized for all licensed professional staff at the time of their periodic Performance Management Appraisal. The relevant employees are complying with this process but need to be educated regarding development of SMART goals.<br>IM reviewed results of the 2017 employee engagement survey. 1372 responses were received. IM reviewed the Action Plans that were developed to address the highest priority employee issues. One of the issues needing improvement was communication about strategic direction and plans for the organization. An area with high scores was in the category of Pride and Commitment and "I have an Effective Supervisor". Overall the survey results were quite positive and the highest with the PMH system.<br>Current vacancy rate is 6.9% all employee turnover rate is 15.32%. RN turnover is 15.15% | **Recommend** developing an education module on Healthstream regarding how to develop SMART goals to assist staff in developing appropriate professional goals. |
| **NURSING SERVICES** | | |
| • Confidentiality | IM did not witness any breaches of confidentiality during the third visit. Computer screens were not left up without staff in attendance. | |
| • Cultural Sensitivity | Language line utilized by staff for patients of different ethnic cultures. Bariatric equipment and furniture was present in waiting rooms and pt. care areas. Additional bariatric furniture has been purchased and delivered. | |
| **INFECTION CONTROL** | | |
| • Staffing | 1.5 FTEs cover both MMH and RGH campuses. 1.0 FTE is an RN with 20 yrs. experience. She is a member of APIC and holds certification. She provides monthly orientation for all new employees. The other member of the Dept. is 20 hrs. and has a microbiology background and a graduate degree in Public Health. The Medical Director of the program is an Infectious Disease physician who has been with the hospital 35+ yrs. This physician also runs a busy HIV Clinic | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | | |
| • Culture of Safety | A vigorous hand washing campaign is underway. Overall Hand Hygiene compliance rates have increased and continue a positive trend line. IM did not observe any lapses in hand hygiene. A strong antibiotic stewardship program has been in place since the 1980's. Staff round on inpt units 3x/wk. IP staff communicate with Microbiology several days/wk. All isolation cases are reviewed on a daily basis. IP staff state that nurses do a very good job of placing pts. on isolation precautions and D/C precautions at the appropriate time. The Infection Prevention dept. has an IP Hotline. | **Recommend** disseminating unit level results to all practice areas so staff is aware of their unit's specific HH compliance rates. |
| **INFECTION CONTROL** | | |
| • Culture of Safety | There is consistent follow up by surgeon offices on SSI following surgery. IP staff and Medical Director state there is very with good communication with surgeon offices. The Infection Control liaison group has been able to conduct more frequent observations of hand washing. House Nursing Supervisors and other Department Heads are now also conducting HH observations of staff.<br>C difficile rates are under the NHSN benchmark.<br>Much work has been accomplished to bring SSI rates down below benchmark. There is a subcommittee of the Infection Prevention Committee that is focused on Hospital Acquired Infections. | Consider the value in changing H.H. observations to include the rate going into the room and the rate coming out of the room as two different rates to obtain an even more accurate picture of compliance.<br>. |
| • Policies and Procedures | IM observed appropriate isolation techniques in many different pt. care | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | units. Signage outside of rooms and appropriate attire in isolation carts. | |
| • Compliance with State & Federal Regulations | Good surveillance program in place. Infection Prevention Committee meets monthly.<br>Attendance by appropriate departments is usually good. IM reviewed recent IP committee minutes and there was evidence of surgical representation. Pharmacy, Microbiology and environmental, nursing representation have consistent representation. | **C**onsistent representation by a surgeon at Infection Prevention committee had started in May 2017. |

Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PHARMACY** | | |
| • Staffing | There have been staffing reductions in the Pharmacy Dept. since last visit in January 2017. There has been a decrease of 2.1 Pharmacist FTEs. There is no longer a Clinical Coordinator or IT Pharmacist. Their workloads have been redistributed. The dept. uses a decentralized staffing model whereby one clinical pharmacist is assigned to cover groupings of pt. care units. The staffing pattern decreases to 1 pharmacist on evening 3-11:30pm shift at MMH. One pharmacist has been reassigned to night shift Sunday through Thursday. With the addition of a night pharmacist, nighttime drug "overrides" by nursing supervisors have decreased. IM spoke with a Pharmacist who recently completed a night shift and reported that the workload is very manageable and stated that additional Performance Improvement activities could be accomplished on the night shift on most nights.<br>There is no on site pharmacist on Friday and Saturday nights. All new urgent orders are reviewed by the on call pharmacist remotely on those 2 nights.<br>There is no longer a Pharmacy tech assigned to the ED to assist with collecting accurate medication histories. The Director reports that Adverse Drug Events have **not** increased post staff reductions. | The recommendation to add a pharmacist to the nighttime staffing plan has been completed. One pharmacist covers both hospitals 5 days/wk. Sunday thru Friday. |
| • Physical Environment | The Pharmacy at MMH has been relocated to the basement level of the hospital to gain more space. Even in the newer location, the pharmacy is crowded. Plain IV solutions are stored in an adjacent space to the main Pharmacy due to space constraints. Currently, there are plans to have plain IV solutions maintained by the Materials Management Dept. The hospital transitioned from Pyxis and Care Fusion to Omnicell as part of the Prospect acquisition. This change occurred during Sept/Oct of 2017. While there were some initial manufacturing issues with drawers not opening and paper jamming, these issues have been worked through. Overall staff seems pleased with them. | |

Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PHARMACY** | | |
| • Culture of Safety | Automated dispensing system and DOSE-EDGE systems in place. All medications coming into department are scanned in and barcoded.<br>The hospitals use SMART pumps with an extensive medication library.<br>Med library use by RNs is monitored by the pharmacy.<br>Pharmacists make 300-400 Clinical Interventions per month.<br>Fill errors are consistently tracked with nursing usually doing the reporting. The Director consistently disseminates any errors and near misses to the pharmacy staff. ADEs go to the Medication Safety committee for discussion and action planning. No specific trends in errors have been noted.<br>Staff does report drug errors at the daily Safety Huddles and all errors are followed up. They are entered into the Incident Reporting system.<br>The review of "Rescue" or "Trigger" drugs such as Narcan has not been completed in recent months. IM and CNO discussed resuming that practice and giving that responsibility to the pharmacist on nights. | Resume routine review of Trigger Drugs. |
| • Compliance with State & Federal Regulations | A Pharmacy and Therapeutics Committee meets monthly and reports into the QAPI. All Adverse Drug Events are reviewed within the Medication Safety Subcommittee. A strong Antibiotic Stewardship program is in place.<br>Pharmacists have oversight for Renal dosing adjustments and Vancomycin dosing and utilization. | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| • HR / Personnel | Pharmacy staff seems to remain in a state of transition as they try to adjust to their workloads. The Omnicell conversion and dealing with daily drug shortages have put additional strain on the department. | |
| **SURGICAL SERVICES** Ambulatory Surg Unit, Ambulatory Med Unit, GI, Pre OP, OR, PACU Phase 1 & 2 | | |
| • Staffing | I.M. observed appropriate RN staffing ratios throughout the tour of Surgical Services. Nurses all take night and weekend call. They described their cross training requirements and the system they have in place to ensure ongoing competency in all services. Many more nurses and surgical techs are now working in both the MMH and RGH ORs which also adds to the staffing flexibility and reinforces their competencies.<br>The ORs have a 0 vacancy rates for RNs and have a 20 hr. position currently open for a Surg. Tech.<br>RN hours have been reduced through attrition in the GI area due to a decrease in volume. An RN FTE was converted to a 36 hr. CNA position based on need voiced by staff. | |
| • Physical Environment | **MMH** has 9 ORs and 1 Cysto room. Overall, spaces were well organized, clean and free of clutter. Emergency carts and equipment was easily accessible. The Day Surgery waiting room was quite pleasant and new flooring has been installed. Appropriate signage and an electronic tracking board were present. Only pt.'s initials were used and tracked by a code that was given to the pt.'s family.<br>Much new surgical equipment has been ordered for the orthopedic and other services and is in use. This should decrease flash sterilization rates. Anesthesia is quite pleased with their new anesthesia machines. | |

| **SURGICAL SERVICES** Ambulatory Surg Unit, Ambulatory Med Unit, GI, Pre OP, OR, PACU Phase 1 & 2 | | |
| • Culture of Safety | IM toured unoccupied ORs and observed surgical personnel. Caps covered all hair, masks in place.<br>In keeping with the Hand Hygiene initiative, random observations of scrubbing in the inner core have been initiated. Staff back injuries have been kept low due to the consistent use of hover mats on the OR tables.<br>Nurses described the preventative measures that they take to assure no patient pressure ulcer injuries. Gel mattresses are added to the OR tables for all cases lasting greater than 2 hrs.<br>In the Pre-Op area, IM observed an anesthesiologist obtaining consent for repair of a fractured ankle and a nurse prepping the patient for surgery.<br>One performance improvement initiative that has been successful is decreasing the opening and closing of doors during a surgical procedure. Staff breaks have been revised to assist with this new requirement. Special care is taken to assure that all anticipated equipment and supplies are ready in the OR prior to case start.<br>Many measures have been taken to keep the surgical site infection rates low like institution of CHG baths and no hair clipping in the OR. | |
| • Policies and Procedures | Emergency carts locked and checked according to standard.<br>Performance improvement initiatives like “On Time First Case Starts” should be considered to improve operating efficiencies. | |
| **SURGICAL SERVICES** Ambulatory Surg Unit, Ambulatory Med Unit, GI, Pre OP, OR, PACU Phase 1 & 2, Interventional Radiology | | |
| • Compliance with State & Federal Regulations | Medication refrigerators, food refrigs, blanket warmers are within safe range. Code and defib carts checked and up to date. All carts storing medications found locked. Appropriate dates of expiration placed on glucometer control solutions. | |
| • HR / Personnel | The OR Nurse Manager position has been eliminated. The Administrative Director has responsibility for all surgical services and central sterile. There is a nurse manager responsible for the GI Lab. Charge nurses in the OR report into her. 95% of the OR RN staff has attained AORN certification. They plan for turnover by preparing their | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | own OR nurses. They run a perioperative course to teach new nurses. This program has been very effective. 5 Graduate nurses have been successful in completing through this course.<br>In the PACU area, 80% of the RNs are certified. Nurses in the GI lab have not expressed interest in obtaining certification. The Unit Educator is responsible for education throughout surgical services on both the MMH and RGH campuses: PACUs, ORs, GI lab, Amb. Surgery and Central Sterile Processing. In-service education is provided every 2 weeks.<br>The OPS area is proud of their new patient D/C teaching booklets. This was an idea generated by their unit based nursing council.<br>Anesthesia is a contracted hospital service. They cover both hospital campuses and are always available at night. The group expressed satisfaction with the ECHN and staff enjoys a good relationship with the Anesthesiologists and CRNAs. Staffing and supervision of CRNAs is appropriate. | |
| • Confidentiality | Pt. Confidentiality was upheld throughout the tours through the various surgical services area. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **EMERGENCY DEPARTMENT** | | |
| • Staffing | Although the ED was quite full, the atmosphere was orderly and the staffing was appropriate. Census was 22 with 7 RNs and 3 techs on duty. Currently there is one night RN position open. In addition, there are 4 Float Pool nurses competent to work in the ED. They have developed a position of "Clinical Liaison" who augments the staffing by doing safety checks on patients. ED utilizes flexible staffing which changes according to time of day. They staff in 8, 10 and 12 hr. shifts. Additional staff is added very 4 hrs. to accommodate changing census. 8 nurses are in the ED from 11am-11pm for the peak volume hrs. Staffing flexes down to 5 RNs between 3-7am.<br>ED nurses staff the Behavioral Health unit at MMH when it is open. It was not open during the IM's visit. A technician and Crisis Prevention staff assists them. Security personnel are in the ED at all times. | |
| • Physical Environment | The main ED has 19 beds and saw 38,000 pts. in 2017. Approximately 15% of those visits result in admission. Visit volume has not increased since last year. There is a Clinical Decision Unit adjacent to the main ED. The ED has an open design with a central station. Pts. are easily visualized. Waiting rooms are adequate and have appropriate signage: pt. privacy, language lines, financial counseling and assistance for the hearing impaired.<br>Emergency carts are placed to allow easy access by staff. The environment is well organized and free of clutter.<br>A separate 11-bed unit has been established for the Behavioral Health population. It was closed at the time of the IM visit. | |
| • HR/Personnel | In addition to the Nurse Manager, the EDs share a Unit Educator. 2-3 RNs are certified SANE nurses at MMH. All RNS have ACLS with the first year of hire. Staff in the BHU all has Physical Management Training (PMT). Crisis Intervention workers staff the BHU until 12 midnight. There are several mid level providers to assist the physicians in seeing appropriate acuity patients. The physicians are a contracted service. The Medical Director is partnering with staff and Administration to improve throughput times. | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| • Culture of Safety | MMH has earned "Get with the Gold" Advanced Stroke Certification again. All relevant performance indicators are at 100%. Congratulations! It is also part of a Sepsis Campaign. Psychiatrists see behavioral health patients admitted through ED within 24 hrs. of admission. Approximately 18% of the MMH ED pt. population is pediatric. Children needing admission are sent to CCMC. Several QI indicators are in place: Timeliness of Care for M/S patients in the last quarter of 2017 are: ED arrival to departure (355 min) Admit decision to ED departure (152 min), Arrival to provider seen (23 min.) While these performance improvement efficiency indicators have not yet met goal they have trended in a positive direction from last year. The Left without Being Seen rate has also decreased into the 1.3% range. The CNO and COO have partnered with the Emergency Medicine Medical director and nurse Manager to improve the throughput times and patient flow through the ED. The Medical director has changed his provider staffing pattern to better cover times of high volume. A new throughput committee for this purpose has been established. | |
| **PSYCHIATRIC SERVICES – MMH in-patient Geri-Psych and Adolescent** | | |
| Staffing | The former nurse manager at MMH has been promoted to Nursing Director with inpatient responsibilities across both the MMH and RGH campuses. He is a seasoned Behavioral Health nurse leader with solid clinical experience. He recently promoted a nurse to the Nurse Manager position however this new Manager has resigned her position. This position will need to be replaced. A multidisciplinary team of professionals provides care for this pt. population: Psychiatrists, RNs, SW, psych technicians, recreational therapists. On the day of the IM visit, 1RN and 1 psych tech and 1 charge nurse were on duty for the 6 geri psych patients. | |
| • Physical Environment | The former Adult Behavioral Health unit has been moved to the RGH campus. A new Geri-Psych unit has just opened in early January 2017. Census is being kept to 6 patients at this time. It will have the capacity to take 16 patients in the future. IM observed solid, flush door handles on all pt. rooms. In common areas, regular door handles were still in | **Recommend** removing the metal nameplates on the doors of patients' rooms. They present a risk and are no longer utilized. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | use. Pt. rooms had weighted low unmovable non-mechanical beds. Bathrooms were compliant with regulations: breakaway shower rods, polycarbonate mirrors, flush faucets, and angled doors. The seclusion room was closed until the DPH inspects and signs off on it. IM also toured the new adolescent unit. IM noted a broken panel over one of the fluorescent lights in the ceiling of the hallway. Engineering was contacted to replace it. Handrails that presented a ligature risk were also still intact along the main central hallway although a work order had been processed to remove them. IM suggested they be removed immediately and this was completed on 2/1/18. | |
| **PSYCHIATRIC SERVICES In-patient Geri Psych and Adolescent** | | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PSYCHIATRIC SERVICES – MMH in-patient Geri Psych and Adolescent** | | |
| | | |
| • Culture of Safety | Patients are rounded on every 15 minutes. There is a central monitor at the nursing station so that pts. are continually observed. Restraint/seclusion log checked by IM. Very low use. Multidisciplinary rounds occur daily for care planning purposes | Consider establishing a Low Sensory Modulation room on the Adolescent unit. |
| **PSYCHIATRIC SERVICES In-patient Geri Psych and Adolescent** | | |
| • Policies and Procedures | All pts. are searched on admission and belongings are secured in locked metal lockers located at entrance to the unit. Valuables are secured in a safe. All visitors are searched prior to entering the unit. | |
| • Compliance with State & Federal Regulations | IM reviewed with the procedures that are in place to protect exit doors during a fire drill with the Nurse Manager. Drills are held periodically. | |
| • HR/ Personnel | The newly hired Medical Director has left his position and has not yet been replaced. A search is open. Staff is appropriately trained and credentialed to perform their jobs | |
| • Confidentiality | Appropriate measures in place to safeguard pt.'s confidentiality. IM did not observe any breaches in confidentially. | |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Culture of Safety | In the area of Pt. Safety, the following structures and processes are in place: Daily Safety Huddles, Patient Safety committee, Patient Safety Coach committee, HRO education during orientation of new employees and physicians. A large variety of other committees and task forces exist to support Pt. Safety. There is a multidisciplinary SSI Task force that meets monthly. The last Colon SSI that occurred was October. One Hysterectomy SSI occurred during the summer 2017. Patient Safety Outcome measures are doing well. A Sepsis protocol was initiated on 2/14/2017. Aggressive plans are underway to decrease Hospital Acquired Infections. SSI colon and hysterectomy infection rates and c. difficile are all currently above the CMS 50$^{th}$ %ile.<br>Readmission rates hospital wide are over benchmark for 3$^{rd}$ quarter 2017. This is increased from May 2016 but just slightly over benchmark. Aggressive attention needs to paid reduce CHF, Pneumonia, COPD and AMI readmission rates which are trending well | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | above the national mean. Quality department nurses stated that the Care Transitions nurses have been eliminated. Alternative processes are being developed to help decrease readmissions. There is a Multidisciplinary Readmissions Committee that meets monthly and reviews all readmissions and develops actions to address.<br>Action plans are initiated for all QI indicators that do not meet goal. The 2018 Quality Assurance and Performance Improvement Plan was approved by the Advisory Board at its meeting on 1/31/18 as were the Action Plan and Goals for 2018.<br>An Ethics committee, chaired by a newly hired chaplain will begin meeting this month. | IM encourages the initiation of Schwartz rounds to help support caregiving staff once the Ethics committee is established. |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Staffing | The Quality Department is comprised of 4.5 FTEs who report into the VP of Quality, Safety and Pt. Experience. They are responsible for all performance improvement initiatives across both hospitals and out patient services. There are 3 QI Managers who are supported by an Environmental Safety Officer. A Quality Analytics Manager (0.5FTE) report directly into the VP. Two Data Abstractors (1.4 FTEs) report into the Quality Analytics Manager (0.5FTEs). The QI managers have focused areas of responsibility. All conduct RCAs and investigate. Staffing in this department has remained stable since the PMH acquisition. | |
| **RISK MANAGEMENT** | | |
| | IM met on January 31, 2018 with Director of Risk Management for ECHN. We discussed the results of the external risk analysis of the Family Birthing Center at MMH that was completed in December by RL Solutions. Director reported that Prospect Medical has voiced plans to use this firm for their other high-risk areas including Behavioral Health and the ED and the surgical services at RGH. The RM Director has collaborative relationships with Quality, Nursing, and Medical Staff. She is pleased with the appointment of a new chair of the OB/GYN department and feels that the culture is improving. An additional FTE | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | has been added to RM as a result of adding coverage of medical groups. States nurses report issues more quickly since the initiation of the high reliability practices. RM collaborates closely with the CMO, CNO and Chair of the Environment of Care Committee. In addition to the Director of Risk Management, IM met with the CMO who has been in her position for about 6 months. She has revamped the medical staff peer review process so that cases are reviewed by a group of multiple physicians from a variety of specialty backgrounds. She feels this approach reduces any possible bias. She is also continuing her work on the Aging Physician. She has drafted a new policy that will go before the Medical Executive committee in the near future. The CMO has also created a Physician Health and Wellness committee. Her efforts to improve clinical quality are to be recognized! Since the IM's last visit a new chair of the OB Dept. has been appointed. This physician has tightened criteria on the types of patients the midwives can care for. She has also stipulated that all patients in labor must have an obstetrical provider present in the physical building. | |

| THIRD ASSESSMENT: Rockville General Hospital<br>COLLEEN O. SMITH MSN, RN, NEA-BC<br>February 1 2018 | | |
|---|---|---|
| **CATEGORY** | **OBSERVATIONS** | **RECOMMENDATIONS** |
| **NURSING SERVICES –RGH** Bissell 2, ICU | | |
| • Staffing | Hospital Census at RGH on the day of the IM visit had increased from the last visit (35) to approximately 65. Nurses on the Bissell 2 M/S unit had a 1:5 pt. ratio. The capacity on this unit is 32 and census was 27. 6 RNs and 3 CNAs were on duty at time of IM visit. A Transport Aide assisted them. The CNAs had assignments of 9 pts. and most of the patients required an assist of 2 staff. Many of the patients were fall risks.<br>ICU has a bed capacity of 9 beds. ICU had a full census on day of IM visit. RN staffing on day of IM visit was very adequate. There was a seasoned charge nurse on duty that rounded with the IM. Charge nurses usually have full assignments. The Float nursing pool has been expanded with several additional nurses and PCAs to augment staffing when census is high. ICU nurses also float to the MMH ICU when needed. Several per diem staff have also ben added.<br>Many Certified Nurses aides are cross-trained as unit secretaries to aid in staffing flexibility. RNs are also cross training in certain areas. | Continue your efforts to cross train nurses to float to other units and across both campuses to increase flexibility with staffing. |
| • Physical Environment | The M/S Nursing unit is laid out in an H design. It is an older unit but clean with semi private rooms and two designated hospice rooms that are private and down at the end of the hallway. It will be getting new floor as part of a planned upgrade to patient care areas. Appropriate signage regarding pt.'s rights and responsibilities, financial counseling assistance, and help for hearing impaired and those who speak a different language were posted in all pt. care areas. The code cart is visible and accessible in the middle of the hallway.<br>White boards for assignments are visible at both ICU and M/S nursing stations.<br>The ICU is well lit with an open central nursing station and private rooms. | Per IMs previous recommendation, an alcove around the corner from the central station is being fit out for a quieter more secluded area in which to prepare medications. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | There is good pt. visibility. However there was a back door leading into a stairwell at the far end of one of the corridors. There was no alarm on this door although the door was locked from the stairwell to the ICU. ICU staff stated that there are sometimes flight risk patients in their ICU. IM discussed with leadership and engineering who agreed to put an alarm on the back door. Currently, there is no medication room in the **RGH** ICU. Engineering and leadership have responded by developing a design plan. The last planning meeting is to be held this week and then the build out for a medication area should begin shortly. Omnicell has replaced the Care Fusion units throughout RGH patient care areas. The temperatures of the medication refrigerators are remotely monitored by a central system. The code cart was visible and accessible and signatures up to date.<br>The ICU will be getting their stained, worn flooring replaced in the near future. | |
| **NURSING SERVICES** | | |
| • Culture of Safety | Nurses and PCAs on Bissell 2 have completed their pilot on hourly rounding on all patients. This initiative began on March 16 2017. Minutes from an April meeting demonstrated a 95.5% compliance rate with the hourly rounding project. Nurses on the RGH campus conduct bedside rounds.<br>Nurses report a collaborative relationship with hospitalists.<br>Nursing units collect Nurse Sensitive Indicators: Falls, Falls with Injury, HAPIs through NDNQI and CLABSIs, and CAUTIs through NHSN. The CAUTI rate is currently 0. A nurse driven Foley Removal protocol is in place. The ICU has not experienced a CAUTI or a CLABSI within 1 year.<br>There is a good Fall Prevention Program in place but falls on M/S need to be decreased. In the month of January 2018 the Bissell 2 unit experienced 5 falls, one with injury. Staff is making a concerted effort to decrease falls on their unit and they are tracking “Days since Last Fall” on a white board in the middle of a central hallway. Consistent Fall risk signage was posted in clear view outside all appropriate pt.’s rooms. The M/S unit also needs to improve HCAPHS scores on “communication with nurses”. | Falls on the M/S unit need improvement. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | Multidisciplinary pt. care rounds occur daily. Hospitalists, nurses, SW, Case Management participate.<br>As a result of the very high population of ETOH withdrawal patients in the ICU and M/S, IM requested a meeting with the social worker. She confirms a very high percentage of patients require interventions. Discussed the community services like Rivereast in Vernon and Steps in Manchester. Both are on the bus line so access is available to these patients. Although referrals are made, relapses causing readmissions are common.<br>Hospitalists and nurses have a very collaborative relationship. Nurses suggest interventions and state that physicians listen to their assessments. | IM suggests identifying the patients with the highest rates of recidivism (# of ED visits and admissions) and initiating a hospital/community collaborative that meets monthly. The goal of the collaborative is to attempt to tightly manage their care by wrapping community services around these most vulnerable patients. |
| **NURSING SERVICES** | | |
| • Culture of Safety | The I**CU** is an "open" unit meaning hospitalists and private attending physicians can admit into the unit. Respiratory therapists assist with changing ventilator settings per weaning protocols. Code and Defib carts checked in all areas. An Intensivist is on call every night to cover ICU at nights. The nurses enjoy a collaborative relationship with the ICU team. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| • HR / Personnel | The CNO and the other executive staff come to the RGH campus 1-2x/wk. and have offices in the hospital. Since IM's last visit, an Administrative VP has been assigned to the RGH campus. He oversees all daily operations. In addition, ECHN leaders round consistently at RGH. Several Nurse Managers now have responsibility for nursing services on both ECHN and RGH campuses. Generally, there are clinical coordinators on each nursing unit that help manage daily operations. The new clinical coordinator on Bissell II is working out well and has a good focus on patient safety.<br>Much of the staff is fairly long tenured. Only a small percentage of nursing staff is certified in their practice specialty. Very few nurses belong to their professional organizations. | IM encourages Nurse Leaders to collaborate with staff to set unit goals for specialty certification. Exam Prep study groups are supported and encouraged and exam fees are reimbursed upon passing. Certified nurses should continue to be formally recognized and celebrated. Nurses should also be encouraged to join their professional specialty organizations. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **NURSING SERVICES** | | |
| • HR / Personnel | IM reviewed the self-assessment tools for professional staff that have been used at the time of their performance evaluations. While professional staff is writing goals for the coming year, they are not in a SMART goal format and are not necessarily realistic or measureable. IM also reviewed results of the latest Employee Engagement Survey and some action plans that were developed by management to improve the highest priority areas. | **Recommend** a short educational module be added to Healthstream on how to write SMART goals. |
| • Confidentiality | Personnel logged out of computer screens when walking away from computer.<br>Curtains pulled around patients when care was provided. | |
| **INFECTION CONTROL** | | |
| • Staffing | 1.5 FTEs cover both MMH and RGH campuses. 1.0 FTE is an RN with 20 yrs. yrs. experience. She is a member of APIC and holds certification. She provides monthly orientation for all new employees. The other member of the Dept. is 20 hrs. and has a microbiology background and a graduate degree in Public Health. The Medical Director of the program is an Infectious Disease physician who has been with the hospital 35+ yrs. This physician also runs a busy HIV Clinic.<br>There was evidence of a few “safety champions” in patient care areas. | |
| **INFECTION CONTROL** | | |
| • Culture of Safety | A vigorous hand washing campaign is continuing. Overall hospital inpatient hand washing compliance rates are measured and displayed on QI Boards throughout the clinical areas. IM did not observe any lapses in hand hygiene on her visit to the RGH campus. A strong antibiotic stewardship program has been in place since the 1980’s. IP staff communicates with Microbiology several days/wk. All isolation cases are reviewed on a daily basis. IP staff state that nurses do a very good job of placing pts. on isolation precautions and D/C precautions | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | at the appropriate time. The Infection Prevention dept. has an IP Hotline.<br>Much work has been accomplished to bring SSI rates down below benchmark. There is a subcommittee of the Infection Prevention Committee that is focused on Hospital Acquired Infections and these rates are decreasing. RGH is doing quite well with their Patient Safety Outcomes. | Recommend continuing to work with the Infection Prevention liaisons to conduct frequent observations. Report HH rates by unit so each patient care area is getting their own specific data as well as an aggregate rate. HH rates have trended up in 2017. |
| **INFECTION CONTROL** | | |
| • Compliance with State & Federal Regulations | Good surveillance program in place.<br>Pharmacy, Microbiology and environmental, surgery, nursing all have consistent representation at the monthly IP meeting. | . |
| **PHARMACY** | | |
| • Staffing | The Pharmacy Dept. is staffed with 1 Pharmacist at RGH on day shift and one at RGH from 3-8pm. The daytime pharmacist stated that staffing could be greatly augmented by a second pharmacist added to staffing plan from 12:30pm-8: 30pm. There is now a night pharmacist on duty Sunday through Thursday.<br>There is one Pharmacy tech assigned to the entire hospital. In times of higher census this tech is quite stretched. Consider supplementing the RGH staffing with per diem staff to add flexibility in times of high census. | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| • Physical Environment | The Pharmacy at RGH has adequate space and visibility and prep areas are adequate. | |
| **PHARMACY** | | |
| • Culture of Safety | Automated dispensing system and DOSE-EDGE systems in place. All medications coming into department are scanned in and barcoded. The hospitals use SMART pumps with an extensive medication library. Med library use by RNs is monitored by the pharmacy. Medication fill error rates and Medication errors are being tracked closely and have not increased. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PHARMACY** | | |
| • Compliance with State & Federal Regulations | A Pharmacy and Therapeutics Committee meets monthly and reports into the QAPI. All adverse Drug events are reviewed within the Medication Safety Subcommittee. A strong Antibiotic Stewardship program is in place.<br>Pharmacists have oversight for Renal dosing adjustments and Vancomycin dosing and utilization. Drug errors are mentioned in daily safety Huddles and tracked through the ISIS reporting system. | |
| • HR / Personnel | Pharmacy Director has been with ECHN for 14 yrs. and is appropriately credentialed. Pharmacy technicians have to obtain certification within one yr. of hire. Staff at RGH appears stressed with the increase in census and expansion of the Behavioral Health patients. | |
| **SURGICAL SERVICES** Ambulatory Surg Unit, GI, Pre OP, OR, PACU, Central Sterile Processing | | |
| • Staffing | I.M. observed appropriate RN staffing ratios throughout the tour of Surgical Services. The surgical volume continues to decrease at RGH. IM asked how staff maintains competencies with volume being low. Manager discussed the regular floating of RGH personnel from PACU and the OR to the MMH campus and vice versa to maintain competency in all service lines. | |
| • Physical Environment | Tour of the Operating Room suites demonstrated a much more organized outer core. Surgical Services leadership has changed and much attention has been focused on reducing inventory so that frequently used equipment and supplies are accessible and equipment infrequently needed is stored in materials management. In addition an underutilized OR has been converted to a storage room for various pieces of larger equipment and monitors. IM noted some rusty areas on a small storage cart in the inner core. This cart was replaced that day. | |
| • Culture of Safety | IM visited OR in early AM. Observed an anesthesiologist obtaining consent and the nurse prepping an orthopedic patient for surgery in the pre-op area. A vascular case was in progress. The staff is working | Reinforce the importance of not opening the OR suite doors unnecessarily with all care |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | on reducing SSI and has an initiative in place to decrease the doors opening and closing during OR cases and assuring all needed equipment is in the room prior to the start of a case. IM witnessed a staff member open the door in the midst of the vascular case to take a break. | providers on the surgical team. |
| **SURGICAL SERVICES Ambulatory Surg Unit, GI, Pre OP, OR, PACU, Central Sterile Processing** | | |
| • Policies and Procedures | Carts were locked and checks were completed on code carts in all areas of surgical services. Medication refrigerator logs were signed off appropriately. | . |
| • HR / Personnel | Overall, nurses in surgical services areas do not hold certification in their respective specialties although 50% of the OR nurses hold an AORN. IM spoke with a nurse in PACU who is certified and working on her BSN. She is a very engaged nurse who is chairing the unit-based council and involved in evidence-based practice. The Unit Educator is responsible for education throughout surgical services: PACUs, ORs, GI lab, Amb. Surgery and Central Sterile Processing. In-service education is provided every 2 weeks. A clinical ladder for surgical techs will begin in June 2018. | |
| • Confidentiality | Pt. Confidentiality was upheld throughout the tours through the various surgical services area. Screens have been placed over windows leading into the ORs to protect patient privacy. | |
| **EMERGENCY DEPARTMENT** | | |
| • Staffing | At the time of IM visit, 7 patients were in the ED. Their capacity is 12 with another 8 bays in a clinical decision unit. That area opens when there are appropriate patients. The ED utilizes flexible staffing which changes according to time of day. They staff in 8, 10 and 12 hr. shifts. Additional staff is added very 4 hrs. to accommodate changing census. | |

NURSING CONSULTING PARTNERS
Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **EMERGENCY DEPARTMENT** | | |
| • Physical Environment | The ED at RGH had approximately 19,000 visits in 2017 and visit volume is declining. Admit rate is stable. It has an open design with a central station. Pts. are easily visualized. Waiting rooms are adequate and have appropriate signage: pt. privacy, language lines, financial counseling and assistance for the hearing impaired.<br>Emergency carts are placed to allow easy access by staff. The environment is well organized and free of clutter However the Formica area around one of the hand washing sinks in the nurses' station needs immediate attention. A work order had been placed several days prior.<br>There is no separate area for the behavioral health population**.** There is a Clinical Decision Unit that sees lower acuity (ESI 3 & 4) pts. It has the capacity for 8 pts. It is staffed from 10am -10:30pm during the ED's highest volume hours. This unit does not have cardiac monitors and was closed during IM's visit. | Repair sink area at nurses' station as soon as possible. |
| • Culture of Safety | The ED has once again attained GWTG Advanced Stroke Certification. Congratulations! Several QI indicators are in place: Timeliness of Care, ED arrival to departure is just over 2 hrs. However, median arrival to admission remains well above benchmark at 325 min. A task force has been set up with the CNO and COO and Medical Director to drive new processes to decrease wait and visit times. "Left Without Being Seen" rates have decreased significantly to 0.7% in Q4 2017.<br>Congratulations! Most throughput indicators are trending in a positive direction. Median door to provider is 18 minutes.<br>Psychiatrists see behavioral health patients admitted through ED within 24 hrs. of admission. Children needing admission are sent to CCMC.<br>. | |
| • HR / Personnel | In addition to the Nurse Manager, the EDs share a Unit Educator. All RNS have ACLS with the first year of hire. | |
| • Confidentiality | There was appropriate spacing between pts. registering in the ED to protect auditory confidentiality. White boards did not contain patient's | |

| | names. | |

| PSYCHIATRIC SERVICES RGH Eating Disorders Unit (EDU) and Adult Behavioral Health | | |
|---|---|---|
| • Staffing | **EDU** IM toured this unit with a new Nurse Manager. The BH Director was off duty. A multidisciplinary team of professionals provides care for this pt. population: Psychiatrists, RNs, SW, psych technicians, recreational therapists. Adolescents also have a teacher on staff who is certified in Grades K-!2.<br><br>Staffing guidelines have been revised to reflect a 1:5 nurse/patient ratio. The former staffing plan was a 1:6 nurse/patient ratio. Census in the BHU has increased to 24 from the previous 8 patients and many licensed staff have been hired and oriented. The unit is undergoing a period of instability as new employees come on board. The Nurse Manager is making good efforts to build a sense of team among the staff.<br><br>Staffing plans in the Adult **BHU at RGH** include an entire multidisciplinary team of professionals: RNs and Psych technicians (minimum of a bachelor's degree) SWs and nutritionist. There are no CNAs. The nurse to patient ratio on this unit is 1:6. The census was 23 on the day of IM visit. 4 nurses and 3 psych techs were on duty. There are 2.0 FTES open. | |
| • Physical Environment | **EDU T**his is a new inpatient unit that opened to patients in August 2016. It is a nationally known specialty unit that admits patient from all over the country. It takes both adults and adolescents and the majority of patients treated have diagnoses of anorexia, bulimia, and binge eating. The unit has the capacity for 30 pts. and current census at the time of visit had increased to 24. An external risk analysis was recently performed on the EDU. The analysis recommended an enclosure around the nurse's station in an effort to prevent patients from getting into the nurse station area and to better protect staff. Plans are in | **Recommend immediate remediation of the safety risks on the EDU.**<br><br>Flush door handles will be installed by the vendor 2/15/18. |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | place to get this work completed. On the EDU the nurse manger has started the practice of performing "room sweeps" as a result of finding a plastic knife under a patients bed.<br><br>The unit is an "L" configuration and adults are separated from the adolescents. Staff on the adolescent side carries walkie-talkies as a safety precaution. Pt. rooms are all safe with flush door handles; sink faucets and no glass mirrors. A special "Wicket" door was used in all pt. rooms. It allows staff to access the pt. from the hallway in case of an emergency, i.e. the pt. has barricaded himself in his room. While patient rooms had flush door handles the nonpatient rooms (storage closets, offices etc.) along the hallway across from the patient rooms did not. IM also noticed 2 doors with closing mechanisms that represented a hanging risk. While all of the windows were closed shut with a plate and screw, 2 of these plates had sharp edges. The rest had been blunted. A cover covering an electrical panel in one of the hallways could be pried open enough to hide potentially harmful contraband. The CNO and VP for Quality and Nurse Manager all witnessed these same safety risks. IM called David Kromas, Inspector at the State DPH to confer and immediately notified ECHN administration of findings. Hospital engineering personnel were to attend to these environmental concerns that afternoon. Per Dennis McConville at ECHN on 2/6, the sharp edges on the windows had been blunted and the electrical panel door was secured with tamper proof screws. Engineering will confer with Davis Kromas at DPH concerning the door hinges to develop the best approach.<br><br>**Adult Behavioral Heath Unit**. A newly renovated unit for adult behavioral health patients opened on 1/3/18. It is a nice brightly lit unit with plenty of space for patient conferences, group therapy and recreational therapies. "Wicket" doors have been utilized in the unit. All beds and storage cabinets and chairs were weighted and non-moveable. IM observed that all physical safety precautions were incorporated into this unit. | |

Sustainable Results for Healthcare Solutions

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| **PSYCHIATRIC SERVICES Eating Disorders Unit and Adult Behavioral Health Unit** | | |
| • HR / Personnel | Professional staff in the **BHU at RGH** was sent to Walden in Mass. for a full 8 hr. day of education and training for this specialty unit. Staff were hired early in 2016 and oriented for several months prior to the opening of the unit in August 2016. Two FT team psychiatrists are on staff. They have the ability to frequently consult with psychiatrists at The Eating disorders program in Walden, Ma.jobs. All ancillary personnel coming on to this unit must also be trained regarding safety practices.<br><br>Professional Staff is appropriately trained and credentialed to perform their jobs. All behavioral health RNs and techs have Physical Management Training. Security personnel have MOAB training. Mock drills on restraints are held frequently throughout the year. | EDU has experienced a good deal of staff turnover over last several months. Census has tripled since IM's last visit. Recommend continuous education and reinforcement of all safety practices. |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Staffing | The Quality Department is comprised of 4.5 FTEs who report into the VP of Quality, Safety and Pt. Experience and cover both Rockville and MMH campuses as well as outpatient sites. The existing staffing structure has remained unchanged in the previous 6 months. There are 3 QI Managers who are supported by an Environmental Safety Officer. A Pt. Experience Coordinator and Quality Analytics Manager (0.5FTE) report directly into the VP. Two Data Abstractors (1.4 FTEs) report into the Quality Analytics Manager (0.5FTEs). The QI personnel's offices reside at the MMH campus. VP of quality rounds at RGH 1-2x/wk.<br>The QI Managers have focused areas of responsibility. All conduct RCAs, and investigate serious safety events and precursors. The QI dept. coordinates a Quality/Safety/Risk huddle held every Monday that includes the CMO, CNO, VP Quality, Risk Management, and VP of Nursing. This group reviews serious events rom the previous week.<br>The Pt. Experience Coordinator also has responsibility for Pt. rights, | |

| CATEGORY | OBSERVATIONS | RECOMMENDATIONS |
|---|---|---|
| | Grievances, and Complaints. | |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Culture of Safety | RGH shares all the same Quality/Safety structures and processes that are in place at MMH. In the area of Pt. Safety, the following structures and processes are in place: Daily Safety Huddles, Patient Safety committee, Patient Safety Coach committee, HRO education during orientation of new employees and physicians. The department is developing a plan for a HRO Refresher course during 2018. A large variety of other committees and task forces exist to support Pt. Safety.<br>IM Reviewed QI Plan for 2018 and the Quality/Safety goals for 2018.<br>IM also reviewed the quality dashboard through 3rd quarter 2017.<br>RGH has made considerable progress in decreasing readmission rates for Heart Failure and Stroke. Similar efforts need to be applied to readmissions for the Pneumonia and COPD populations. Overall all diagnosis readmission rates at RGH above state and national benchmarks.<br>Multidisciplinary Committees are in place to reduce Falls, CAUTIs, and CLABSIs. "Days Since Last Fall" is always listed on the Safety Huddle white board The CAUTI rate is almost zero and there were 2 CLABSIs in 2016. Root Cause Analyses are completed on all CLABSIs after Infection Prevention has determined it to be a true CLABSI.<br>Action plans are developed for all scores falling below internal goals. | |
| **QUALITY ASSURANCE AND PERFORMANCE IMPROVEMENT** | | |
| • Culture of Safety | ECHN was again awarded TJC Advanced Stroke Accreditation for 2017. The Risk Management program is the same as on the MMH campus. The director of RM also collaborates closely with the Chair of the Environment of Care Committee. The Patient Experience Coordinator covers both hospital campuses. HCAHPS scores are quite low at RGH—well under the 50th percentile. Several initiatives are underway with both the inpatient nursing staff and the hospitalists to improve the scores. Hourly bedside rounding has ben started on the M/S unit and ICU. | |

To Whom It May Concern,

Please find the attached filing regarding Docket Number 15-3206-486, Transfer of Assets to Eastern Connecticut Health Network From Prospect Medical Holdings. Independent Monitor has made 3 on site visits to ECHN during the past year, January 2017 -January 2018. Independent Monitor has reviewed all required policies and procedures on an ongoing basis as outlined in the Conditions. Independent Monitor has found ECHN in full compliance with all requirements set forth in the order.

Sincerely,
Colleen Smith
Independent Monitor

PROSPECT ECHN, INC. WORK PLAN

INDEDEPENDENT MONITORING PROCEDURES (per Docket Number 15-32016-486)

| OHCA Condition | IM Action | IM Review of Compliance with Condition |
|---|---|---|
| CON Condition 4: Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement ECHN's 2016 Community Health Needs Assessment ("CHNA") and for conducting the New Hospitals' next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:<br>(i) the data that will be collected and analyzed to systematically assess health status Indicators of the Service Area;<br>(ii) the identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;<br>(iii) the qualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;<br>(iv) the frequency with which the Study will be repeated;<br>(v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the | IM will obtain a copy of the Plan, verify timely submission, and verify that it incorporated the required elements. | IM reviewed the Plan for submission of a Community Health Needs Study within 180 days post closing on 3/14/17. All required elements of the Plan were included: the data analyzed, key stakeholders, the firm to conduct the study, frequency of study, communication to the community, and how the plan reflects the population health management objectives as outlined in the CHNA. The Plan will follow the same format as the CHNA study submitted in 2016. |

| | | |
|---|---|---|
| community; and<br>(vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospitals. | | |
| CON Condition 5: Within three (3) years following the Closing Date, PMH shall participate with New ECHN and the New Hospitals, and the key community stakeholders and health organizations identified pursuant to Condition 4, in conducting a Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. PMH and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study<br><br>(available at - http://www.ct.gov/dph/lib/dph/state_health_planning/ship/hct2020/hct2020_state_hlth_impv_032514.pdf) as well as any applicable community health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at http://www.cdc.gov/sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the | IM will obtain a copy of the Study, verify timely submission, verify that it incorporated the required elements and was published on the website. | During IM on site visits to ECHN on January 23-28, June 2017 and January 2018, IM checked on the progress with the plan for the Community Health Needs Study. IM will review the completed study prior to 9/30/19. |

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of an understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and the use of evidence-based interventions.

| | | |
|---|---|---|
| Implementation Strategy on the website of New MMH and New RGH. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement ECHN's current CHNA for MMH and RGH. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 56-57* | | |
| CON Condition 6: Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospital for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 26-27* | IM will obtain a copy of the Plan and verify it incorporated the required elements. | IM reviewed the Services Plan on 3/14/17 that included current services as well as plans for future expansion of Behavioral Health services. These include a Gero-Psychiatry program, addiction services and enhancement of cardiac, cancer and diabetes services. These services complement the needs outlined in the Community Health Needs Assessment. |
| CON Condition 7: Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New NMH or New RGH specific to those services that existed at each of the Hospitals as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of the New Hospitals. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF* | IM will verify proper notification to OHCA within 10 days of any plan to reallocate inpatient beds and relocation of outpatient services. IM will assure timely publication on New Hospitals website within 10 days of decision to reallocate or relocate services. | IM reviewed the notification to OHCA on 1/12/17 regarding the closing of a lab drawing station. IM verified with ECHN that any such future changes will be discussed with IM before action is taken. |

| | | |
|---|---|---|
| *18, 26-27* | | |
| CON Condition 8: Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New MMH, New RGH and its affiliates from the $75 million Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:<br><br>a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and<br><br>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and<br><br>c. The dates and amounts of withdrawals from each of the New Hospitals' operating account and/or any other sources of funding used to fulfill | IM will obtain the Plan, read the plan and verify that expenditures/investments made are in accordance with the Plan. IM will confirm timely submissions of all required reports. | IM reviewed the filings and exhibits associated with Condition 8 on 5/23/17 prior to its filing with OHCA.<br><br>IM was aware of the extension request of 11/15/17 and verified its approval on 11/16/17. IM verified that conditions 8,9, & 10 were completed as requested in Excel format and submitted by 12/15/17. |

| | | |
|---|---|---|
| the Capital Commitment.<br><br>The reports shall be signed by PMH ECHN's Chief Financial Officer. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 38-45* | | |
| CON Condition 9: For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for ECHN, New MMH and New RGH, respectively:<br><br>a. The cost saving totals achieved in the following Operating Expense Categories for New ECHN, New MMH and New RGH: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:<br><br>1. the major cost savings achieved for each expense category for the semi-annual period; and<br><br>2. the effect of these cost savings on the clinical quality of care.<br><br>b. A consolidated Balance Sheet, Statement of Operations, and Statement of | IM will review the PMH filings regarding cost savings achieved in accordance with a. 1-2 and b. of Condition 9. | IM reviewed draft of filing related to condition 9 on 5/22/17 and verified submission to OHCA on 5/31/17.<br>IM was aware of the extension request of 11/15/17 and approval by OHCA on 11/16/17 of extension of due date to 12/15/17.<br>IM verified that conditions 8,9, & 10 were completed as requested in Excel format and submitted by 12/15/17. |

| | | |
|---|---|---|
| Cash Flows for New ECHN, New MMH and New RGH. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.<br><br>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 51, 60-63* | | |
| CON Condition 10: For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New ECHN, New MMH, and New RGH, respectively. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report: (i) **Operating performance** to include operating margin, non-operating margin, and total margin; (ii) **Li□uidity** to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) **Leverage and capital structure** to include long-term debt to equity, long-term debt to capitalization, unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and equity financing ratio; and (iv) **Additional** | IM will obtain the financial measurement report and read to confirm that the required elements are addressed in the report; IM will confirm the timely submission of each report. | IM reviewed draft of filing related to condition 10 on 5/23/17 and verified submission to OHCA on 5/31/17.<br>IM was aware of the extension request of 11/16/17 and approval by OHCA of extension of due date to 12/15/17. IM verified that conditions 8,9, & 10 were completed as requested in Excel format and submitted by 12/15/17. IM verified that all the required elements were present in the financial measurement reports and submitted to OHCA by 12/15/17. |

| | | |
|---|---|---|
| **Statistics** to include income from operations, revenue over (under) expense, cash from operation, cash and cash equivalents, net working capital, free cash flow (and the elements used in the calculation), unrestricted net assets/retained earnings, bad debt as a percentage of gross revenue, and credit ratings. | | |
| CON Condition 11: PMH shall ensure that the New MMH and New RGH maintains and adheres to ECHN's current policies regarding charity care, indigent care and community volunteer services at New MMH and New RGH after the Closing Date all as consistent with state and federal law or adopt other policies that are at least as generous and benevolent to the community as ECHN's current policies. These policies shall be posted on the website of the New MMH and New RGH and as additionally required by applicable law. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | IM will obtain copies of the relevant financial assistance policies, read and confirm that as adopted financial assistance policies (or policies at least as generous as these policies) using management approval of the policies as evidence. After verifying that this step has been properly completed, IM will confirm that these policies are properly posted on website | IM obtained copies of all required policies relating to charity and indigent care and volunteer services on initial site visit in January 23-28 2017. IM verified that policies remained unchanged during subsequent visits in June 2017 and January 2018. IM reviewed all policies and verified their public posting on the hospital's website. www.echn.org |
| CON Condition 12: For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of New MMH and New RGH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of the New Hospital simultaneously with their submission to OHCA. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF* | After obtaining original policies on charity care, indigent care, and community volunteer services, IM will read and assess these policies on an annual basis for changes. When changes are made to these policies, IM will confirm OHCA is notified (as required) and revised policies are posted to the website. | IM obtained and read and assessed all relevant policies on initial site visit on January 23-28 2017 and verified that they remain unchanged during the subsequent site visit on January 30-31 2018.<br>IM verified posting of these policies on the hospital's website. www.echn.org |

| *52-55, 59* | | |
| CON Condition 13: PMH shall maintain community benefit programs and community building activities for the New MMH and New RGH for three (3) years after the Closing Date consistent with the Hospital's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as ECHN's current programs, and PMH shall apply a 1% increase per year for the next three (3) years toward community building activities in terms of dollars spent. In determining the New MMH and New RGH participation in and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.<br>a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the New Hospital's website. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | IM will obtain most recent Schedule H of IRS Form 990 to act as a baseline. IM will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase requirement has been met.<br><br>IM will also obtain the report/summary on the amounts and uses related to community benefits and community building per the categories identified in the CHNA. IM will confirm that these documents are filed in a timely manner and posted to the website. | IM has verified that the requirement of a 1% increase in community benefit spending has been met. ECHN spending on community benefit programs reflected a 1.2% increase from 2016 to 2017.<br><br>IM reviewed report on 10/30/17 and verified that categories of spending and dollars spent reflect the health needs outlined in the CHNA completed in late 2016. Community benefit programs are being supported in the following areas: substance abuse and opiod addiction, Maternal/Child Health and family planning, early interventions for school age children, alcohol recovery programs, weight management, and exercise, diabetes, cardiac care and stroke prevention. |
| CON Condition 14: New MMH and New RGH agree to comply with the following general community benefit standards for at least the first three | IM will verify the New Hospitals' compliance with community benefit standards a through d | IM has verified ECHN's compliance with the community benefit standards a-d during the initial on site visit on January 23-28, 2017 and again during the visit |

|---|---|---|
| years. (a) the New Hospitals shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospitals shall have open medical staffs and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusions of other qualified doctors; (c) the New Hospital shall participate in the Medicare and Medicaid programs; and (d) the New Hospitals shall operate 24/7 emergency departments and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); Tr., Testimony of Tom Reardon, President. PMH East on 5/3/16, pp. 103-04* | as stated in Condition 14. | on January 30, 31 and February 1 2018. |
| CON Condition 15: New MMH and New RGH shall work toward making culturally and linguistically appropriate services available and integrated throughout their hospital operations. Specifically, New MMH and new RGH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, New MMH and New RGH shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, New MMH and New RGH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health | IM will obtain and review interpreter services policies and contracts as applicable. Additionally, IM will obtain a cultural competency plan, training, as well as related policies. IM will also obtain report and supporting documents and confirm the timely filing of these materials | IM obtained, reviewed and verified that appropriate interpreter policies and contracts exist. During on site visits in January 23-28 2017 and January 2018, IM verified culturally and linguistically appropriate services are available and well posted throughout the MMH and RGH campuses. Notification signs of these services were observed in the ED, main hallways, and Patient Care Units.<br>ECHN has signed a contract with iTi a language and translation service to assist those with limited English language proficiency. Financial counseling and insurance navigator services are readily available at the hospitals. IM reviewed the required written report to OHCA on 10/30/17. |

|---|---|---|
| Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the closing for three years and shall be posted on the applicable Hospital website. OHCA is imposing this condition so as to ensure continued access to health care services to the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 52-55, 59* | | |
| CON Condition 16: Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who has experience in hospital administration and regulation, including maintaining quality control in a High Reliability Organization ("HRO"). The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing Date, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to New Hospitals and their applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions | IM and PMH will execute a Consulting Services Agreement by the required date. A draft of this Agreement has been provided to OHCA. | IM and PMH contract for IM services fully executed by both parties on 12/5/16. |

| | | |
|---|---|---|
| set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59* | | |
| CON Condition 17: The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of New Hospitals on no less than a semi-annual basis to assess PMH's modified Quality Assurance Performance Improvement ("QAPI") program, and compliance with the Quality Commitment Letter. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 26-27, 30-45, 52-57, 59* | IM will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership. IM will verify compliance with the quality Assurance commitment Letter. IM will provide a written report to OHCA, and FLIS that summarizes the activities from the prior six month period along with any recommendations or observations | IM visited the MMH and RGH campuses from January 23-27, 2017 and visited all relevant inpatient and outpatient services. IM visited the MMH and RGH campuses again in June 2017. Reports have been furnished within 30 days of each visit. A third visit occurred on January 30, 31 and February 1, 2018. This report was submitted to DPH and OHCA on 2/8/18. |
| CON Condition 18: If, at any time within three (3) years following the Closing Date, the New Hospitals' Local Board agrees with PMH to change any of the Seller Quality Programs described in the Quality Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated or recommended in guidance by a governmental agency, PMH shall notify OHCA and FLIS in writing within thirty (30) days of any such change | IM will verify that PMH notifies OHCA and the Health Systems Branch in writing within 30 days of any change in the Seller Quality Programs with the exceptions i through iii as stated in condition 18. | IM has verified that PMH is aware of their obligation to notify the IM and OHCA and the Health Systems Branch in writing within 30 days of any change in Quality Programs. IM is aware of exceptions i, ii, and iii. Compliance is verified on each site visit. |

| | | |
|---|---|---|
| going into effect. If the Independent Monitor disagrees with the change, OHCA may require that a request for modification be submitted and approved as required by C.G.S. §4-18la to make the change. OHCA is imposing this condition to ensure continued access to health care services to the patient population and to verify and monitor compliance with the conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 30-37* | | |
| CON Condition 19: For three (3) years following the Closing Date, PMH shall hold a joint meeting of the Board of each of new MMH and New RGH and the Local Board of new MMH and New RGH ("Joint Board Meetings") at least twice annually with one occurring in Manchester and the other occurring in Vernon. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospital's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this condition to ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30* | IM will assure that Joint Board Meetings occur twice annually followed by public meetings as required in Condition 19. | IM attended the Joint Board Meeting and Public meeting at RGH on 4/26/17. IM was told in advance of the Board and public meetings held on the MMH campus the following month on May 31 2017. ECHN provided IM with the agenda and attendance sheet and a summary of the meeting.<br>Board and public meetings are being scheduled for the end of June 2018 on both MMH and RGH campuses. IM plans on attending both. |
| CON Condition 20: For three (3) years following the Closing Date, PMH shall allow for two (2) community representatives to serve as a voting member of the New MMH and New RGH Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representative shall be selected in consultation with the Mayor of Manchester and Vernon in order to ensure the appointment of an unbiased person who will fairly represent the interests of the communities served by the MMH and RGJ. OHCA is imposing this condition to | IM will verify the New MMH and New RGH include 2 community representatives that are voting members of the local boards. | IM has verified that ECHN has made substantial efforts to find a qualified and equitable community representative for their boards. IM has verified with OHCA on 3/20/17 that the Manchester and Vernon community representatives to the boards are acceptable. |

| | | |
|---|---|---|
| ensure continued access to health care services to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 28-30* | | |
| CON Condition 21: PMH, New ECHN, New MMH and New RGH shall abide by all requirements of licensure that may be imposed by FLIS in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA is imposing this condition to ensure that quality health care services are provided to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 30-37* | IM will verify that all requirements of licensure are met. | IM has verified during all on site visits January 23-28 2017, June 27 & 28 2017, and January 30,31, February 1, 2018 and during off site ongoing review of documentation that ECHN is in compliance with all requirements of licensure. |

**Re:** **Docket Number: 15-32016-486**

**Project Title:** **Transfer of assets of Eastern Connecticut Health Network, Inc. to Prospect Medical Holdings, Inc.**

Dear Ms. Smith,

This letter is in response to your request for a summary of the efforts of Prospect ECHN (ECHN) to engage members of its communities in the implementation of the 2016 ECHN Community Health Needs Plan (Health Plan) which was filed with the Office of Health Care Access (OHCA) on March 29, 2017. For reference, a copy of the Health Plan may be found using this link.

As stated in the OHCA filing referenced above, ECHN has and will continue to look for opportunities to work with these and other community organizations to address the community health needs identified in the Health Plan:

- Town Health and Human Services Agencies
- Manchester Police Department
- First Choice Health Center
- Vernon School Readiness Committee
- Early Head Start
- Area Churches
- Hockanum Valley Community Council
- Public Schools
- Community Health Resources (CHR)
- Highland Park Market
- Senior Centers
- Manchester School Readiness Committee
- Skilled Nursing Facilities
- Community Physicians & Providers
- Community Centers

- Chambers of Commerce
- CT Suicide Advisory Board
- Geissler's Supermarket
- East Central Multidisciplinary Team
- Manchester Public Schools (Family & Community Partnerships)
- Manchester & Vernon Local Prevention Council
- East of the River Action for Substance Abuse Elimination (ERASE)
- Manchester & Vernon Juvenile Review Boards
- CT Community for Addiction Recovery (CCAR)

**Community Health Education**

ECHN has a long-standing practice of promoting and offering community health education to our community. ECHN continues to provide free health information and education, in partnership with the ECHN Medical Staff, through a series of lectures offered to the public. Three times each year, the ECHN Community Education Department invites members of the ECHN medical staff and allied health professionals to submit health education programs for presentation to the public at large. A Community Program Advisory Committee, with representation from the medical staff and management, considers each request, giving priority to submissions that address identified community health needs. Seventy (70%) these program presenters are independent, private practice physicians from the community with the balance of programs conducted by employees of ECHN. The community health education programs, along with other information on health topics, are published in ECHN's Better Being magazine which is distributed to 110,000 households, three times per year. The magazine lists special events, health screenings, cancer education & support programs, safety education classes, parent education & playgroup programs and numerous support groups hosted by the hospitals.

The following are the ECHN Community Education Programs which have been held or are scheduled to be held during Fiscal Year 2018. You will note that several of the lectures address stroke signs, nutrition, physical activity and weight in addition to diabetes which are included in the Health Plan.

**Fiscal Year 2018 Health Education Programs & Lectures**

| **Program Title** | **Date** |

| Urinary Tract Infections | Monday, April 16, 2018 |
| Glaucoma: Understanding the Disease | Tuesday, April 24, 2018 |

**Behavioral Health**

The Health Plan includes a goal of increasing access to and use of behavioral health services. Addressing the behavioral health needs has been a major focus of ECHN in the months leading up to and since the Prospect Medical Holdings (PMH)-ECHN transaction closed. To date, PMH has funded over $11 million in renovations at both Manchester Memorial Hospital (MMH) and Rockville General Hospital (RGH) to add both programs and bed capacity for patients needing inpatient behavioral healthcare. A thirty-bed inpatient

behavioral health unit dedicated to treating patients with severe eating disorders was opened at Rockville General in partnership with Walden Behavioral Care. ECHN and Walden have been offering an outpatient eating disorders program in partnership since 2012. Also, a newly renovated twenty-four bed adult inpatient behavioral health unit, operating under the MMH license, was opened at RGH in January. With the addition of more behavioral health capacity at RGH, ECHN behavioral health leadership met with area emergency medical services staff and the Vernon police to present information about the treatment of patients with behavioral health conditions, the care that would be provided on the new unit and to answer any questions or speak to any concerns raised by those community partners. Renovations were also made to the inpatient behavioral health unit at MMH creating a twenty-one bed geriatric psychiatry unit which opened this past January. Those renovations also added approximately 1,000 square feet of dedicated program space for the six-bed inpatient adolescent unit at MMH. Additional access to behavioral health services was made at ECHN's Women's Center for Wellness where outpatient behavioral health counseling services were added at it South Windsor location.

A collaborative of community agencies has come together to form the Behavioral Health Community of Care Committee. ECHN and the Town of Manchester Social Services Department host the group. The purpose of this committee is to build and sustain a collaborative model of care that leverages community and competency-based supports and services effectively for behavioral health consumers in our community. The committee meets monthly from September through June and provides a local forum to understand, educate and coordinate the behavioral health care for patients within our community. ECHN behavioral health leadership, crisis services, Visiting Nurse and Health Services, Coordinated Regional Care representatives and Prospect's Independent Practice Association staff represent ECHN. Other member organizations include:

- Ambulance Service of Manchester
- Beacon Health Options
- Community Health Resources (CHR)
- Connecticut Community for Addition Recovery
- Fresh River Healthcare Center
- Genesis
- Hebrew Healthcare
- iCare
- Intercommunity Mental Health
- Manchester Area Conference of Churches
- Manchester Fire , Rescue and EMS
- Manchester Police
- National Healthcare

- New England Home Care
- Primary Care Physicians in the community
- Riverside Health and Rehabilitation
- Touchpoints of Manchester
- Town of Manchester Social Services
- Tri-Town Shelter services
- Unitarian Universalist Society
- Vernon Police
- Walden Behavioral Care

ECHN is aligned with CHR and CT DMHAS with the Zero Suicide Initiative and ECHN is a provider under the Garrett Lee Smith Grant to support suicide prevention and reduce youth suicide by enhancing suicide assessment and connections to care.

ECHN continues its partnership with the Manchester Police Department in the Heroin/Opioid Prevention & Education (H.O.P.E.) Initiative. ECHN's emergency providers work with police to enroll individuals with substance abuse into addiction programs. ECHN is represented on the Manchester Local Prevention Council, a DMHAS initiative for alcohol, tobacco and other drug abuse prevention. ECHN is also working with the Connecticut Community for Addition Recovery to assist persons with drug addiction. We were a sponsor and attended their annual walk to promote recovery at Bushnell Park in Hartford in September.

**Cancer Care**

ECHN nurse navigators at the Women's Center for Wellness promoted ECHN's participation in the Connecticut Choosing Wisely Collaborative (CCWC) which is a multi-stakeholder group that is committed to the widespread adoption of Choosing Wisely in Connecticut. The Choosing Wisely campaign is a national initiative sponsored by the American Board of Internal Medicine (ABIM) Foundation and Consumer Reports. CCWC promotes informed patient-provider communication to improve health care practice and prevent unnecessary care and costs. Nurse navigators are promoting the 5 Choosing Wisely Questions to help empower and engage patients in their overall health and understanding of medical procedures and potential prevention of disease progression. Some of the other community organizations also participating include Access Health CT, Community Health Center Association of CT, Community Health Network of Connecticut, Connecticut Business Group on Health, Connecticut Center for Primary Care, Connecticut Health Foundation, Donaghue Foundation, National Physicians Alliance, Office of the Comptroller of CT, Office of the Healthcare Advocate, Qualidigm and Universal Health Care Foundation.

**Infant Health and Family Planning**

ECHN's Family Development Center (FDC) continues its work to provide and improve access to prenatal and parenting education as one of the goals of the Health Plan. The FDC is organized with an Advisory Board that includes board members representing the Manchester Human Services Department, the Manchester School Readiness Council, the Manchester Youth Service Bureau, the Town of Manchester's Health Department, the Vernon Youth Services Bureau, Real Dads Forever, and community volunteers.

**Access to Care**

ECHN provides clinical experiences for health professionals from over forty-five educational institutions and continues to offer its Family Practice Graduate Medical Education Program which has twenty-seven residents in the program. The residents volunteer their time to participate in health fairs and screenings. They recently volunteered at the Little Manchester Road Race, health events at the Crossroads Community Cathedral in East Hartford and conducted health screenings at the Squire Village, a 379 unit subsidized housing complex in Manchester.

Eastern Connecticut Medical Professionals (ECMP) is the employed medical group of the Prospect CT Medical Foundation at ECHN. ECMP has hired thirteen new primary care physicians and Allied Health Professionals since June 2016 in an effort to expand community access to primary healthcare in Manchester, Vernon and surrounding towns.

In the regular discussions with leadership from our local communities, it was recognized that there are opportunities to better coordinate care with the Town of Manchester staff to the benefit of patients. To that end, ECHN hosted a meet and greet for Manchester social workers and human services staff and their ECHN counterparts. In Vernon, a meeting has been set with town leadership to discuss health initiatives to be offered at the new Vernon Senior Center.

**Population Health Management**

Condition 4 of the CON decision requires ECHN to identify the manner in which the next community needs study will complement the population health management objectives of PMH and the new hospitals. Since the acquisition of ECHN by PMH, considerable effort has been made to build the Coordinated Regional Care Model (CRC) at ECHN. It has actively engaged the payer community to secure contracts that include risk-based payments for the

lives attributed to ECHN providers. In addition, ECHN participates in a CMS Next Generation Accountable Care Organization, Prospect Northeast ACO.

CRC staff has made many contacts with community organizations as referrals are made for patients. This has been a daily effort in an attempt to not only connect patients to services, but also to help patients deal with the cost of healthcare while increasing the patient's education and foundation of knowledge relating to their conditions. The goal is to promote a healthier lifestyle and engage patients to be active participants in their health and well-being while also improving their overall experience with the health system.

The CRC and ACO staffs have implemented a robust inpatient and skilled nursing facility transition of care program. For patients admitted to an ECHN facility, a CRC care manager rounds daily with hospital care managers and hospital staff to share pertinent information from the Primary Care Physician (PCP) practice, meet with patients and family members to review the discharge plan, discuss PCP follow-up and to introduce a post-discharge contact person. A dedicated Transition of Care nurse reaches out to those patients who have a complex or a high-risk diagnosis. Referrals to a CRC nurse or social worker care manager are made based on patient's clinical or psychosocial needs. Additionally, community based primary care providers may make referrals to the CRC Care Management team to assist patients within the community who would benefit from additional care coordination, disease management support or social needs.

The CRC team has successfully developed a quality program that includes outreach to our patients with gaps in care by Quality Care Coordinators. CRC staff work closely with the Quality Committee of the ECHN Independent Practice Association and Prospect Provider Group to review trends, develop initiatives and increase patient adherence with obtaining needed healthcare services. In 2017, we saw an improvement in Quality Measure results for several key health plan partners.

The CRC care coordination staff has a primary role in connecting patients and their providers. The CRC social work staff assists patients with new referrals to mental health providers such as CHR, as well as many other psychiatric agencies and Diagnostic Assessment Centers. They assist with many social services including Department of Social Services cash assistance, food stamps, Protective Services for Elderly, referrals for homecare, local and state transportation, financial assistance working with all municipalities for energy assistance, renter's rebate, etc. The staff works in collaboration with the DeQuattro Cancer Center team on disease management/chronic care education, medication education that includes discussions with pharmacies, patients' inability to manage co-pay costs, caregiver assistance, and for support group referrals for patients and caregivers alike. They make

referrals to local durable medical equipment providers to secure lower cost options, such as donated and refurbished equipment, for individuals with limited income or whose insurances will not cover those purchases. The CRC staff also participates on the Manchester Community Service Council (MCSC), a local organization of community health and social services organizations, on a monthly basis for continued exposure, introduction and networking.

Prospect ECHN will continue to partner with other community organizations whose purpose and mission align with the goal of improving community health and wellness.

If you have any questions or need anything further, please feel free to contact me at (860) 533-3429.

Very truly yours,

Dennis P. McConville
